

COSMETIC HINTS

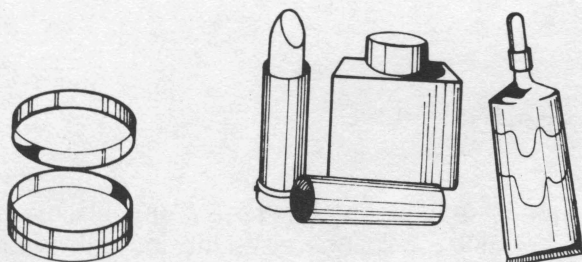

Marlene Odle*

Create a pretty face with make-up that lets the real you shine through.

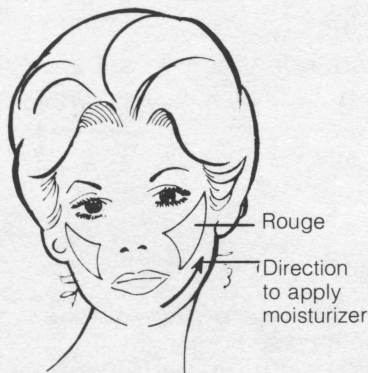

Apply make-up with care. The "natural look" in make-up highlights attractive features and is more pleasing than a "caked look."

Cosmetics protect the skin from sun, wind, dirt and germs; enhance pleasing facial features; and de-emphasize less pleasing features.

Apply moisturizer and liquid make-up in an upward motion to minimize wrinkles.

Dark foundation colors are used to minimize facial features by shading. Lighter foundations are used to emphasize nice features.

Select a foundation that is as near your skin color as possible.

Use color on the face with rouge, eyeshadow and highlighters to emphasize attractive features. It should blend with your skin tones and with the color of your clothing.

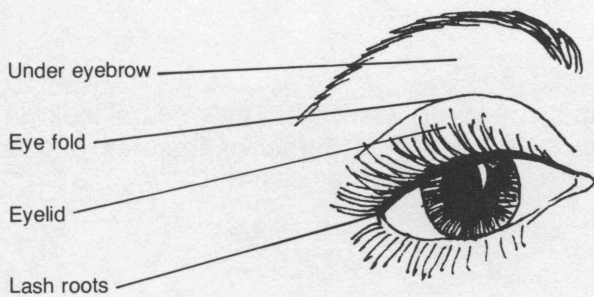

*Extension clothing specialist, The Texas A&M University System.

Many cosmetic companies now have make-up for dark skins in many different tones. Experiment to find the right tone for your complexion and color.

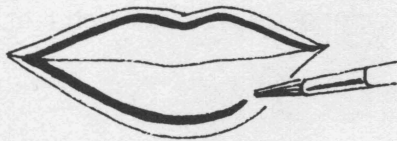

BEAUTIFUL EYES

Apply eye make-up with care to prevent harming the eye.

To apply eyeshadow, blend color from inside of the eye outward. Make heavier applications at the lash root fading to eye fold. Another color can be used to highlight under the brow and under the eye.

Eyeliner creates optical illusions. A thin line across the top of the lashes with a liner makes the eye look bigger.

To make lips look thinner

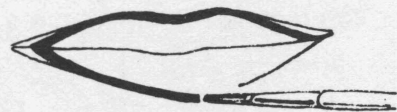

Brush mascara on lashes to thicken and emphasize the eyes.

To make lips look wider

BEAUTIFUL LIPS

Lipstick application can create optical illusions. Changing the lipline makes the lips look smaller or larger, wider or thinner.

To make mouth smaller

Use powder sparingly to set the make-up and create a natural look. Use powder as a finishing touch.

To make mouth bigger

Educational programs conducted by the Texas Agricultural Extension Service serve people of all ages regardless of socio-economic levels, race, color, sex, religion or national origin.

Cooperative Extension Work in Agriculture and Home Economics, The Texas A&M University System and the United States Department of Agriculture cooperating. Distributed in furtherance of the Acts of Congress of May 8, 1914, as amended, and June 30, 1914.
