Hi Grace,

For some strange reason the NZ Med Journal site is down. Do you have a pdf of this paper that you can send me?

Thanks,  
Ainslie

Hi everyone,

I'm going over the publications reporting from 2011 to make sure I'm not missing anything. Could you please look at the attached document and let me know if there are any journal articles, books, book chapters or conference publications missing from this list that were published in 2011? Most of these have already been uploaded into ARIES, but I may also be contacting some of you in the next few days with regards to missing information.

Can you please let me know if this information is correct by COB THURSDAY 3 MAY .

Cheers,

Ainslie
