

Attitude toward nonhonours education

Attitude toward excelling academically

1 Ambition

In 2014, 10% of all higher education students have to participate in a program that promotes excellence. A culture of challenge, performance and capacity has to be established by 2025 (Ministry of Education, 2011).

2 Research

How do students appreciate the opportunity to exceed in education by participating in honors programs?

3 Participation?

- + Better chance in the employment market
- Enough challenge in the regular program

4 Future

1. Early stage instruction
2. Repeated research: student profile → culture of excellence
