Farm Prices of Ohio Farm Products .....	44, 45, 46
Farm Wages .....	47, 48
Estimated Gross Cash Income from Sale of Products from Ohio Farms...	49

The counties are grouped in nine districts

### ACKNOWLEDGMENTS

The authors are greatly indebted to two large groups of Ohio farmers; one that has so splendidly cooperated in furnishing information each month, and another that supplied special information at least once during the year by filling out and returning a livestock or acreage survey card, the results of which are contained in this bulletin.

We are also very grateful to the Postmasters who, through their rural mail carriers, distributed and collected the above mentioned livestock and acreage survey cards, which furnish the best available information regarding changes in crop acreage and numbers of livestock on farms from year to year.

### EXPLANATIONS

This bulletin contains preliminary county estimates of the acreage, yield per acre, and total production of winter wheat, oats, tame hay, and potatoes for 1933. There are also presented herein preliminary county estimates of the numbers of livestock on farms January 1, 1934, and revised estimates of the number of sheep for 1933.

Estimates of corn and hogs have been omitted. Corn-hog reduction data furnish a basis for further revisions. Since these figures are not yet completed, the estimates for these two items have not been included in this bulletin.

Estimates of acreage, yield per acre, and total crop production, numbers of livestock on farms, and prices of crops, livestock, and livestock products, and other data, unless otherwise stated, are based upon the reports made by the reporters of the Federal-State Cooperative Crop and Livestock Reporting Service.

Monthly crop and livestock prices are those of the fifteenth of the month, unless otherwise indicated.
