ACKNOWLEDGMENTS

Estimates made by the Ohio Crop Reporting Service are based on information supplied by crop, livestock, and price reporters who voluntarily reply to mailed questionnaires, furnishing information on their farms. To supplement our estimates from the mailed questionnaires, considerable information is collected in person or by telephone, by statisticians and enumerators.

Our appreciation is extended to the large number of Ohio farmers and agribusinessmen for their interest and cooperation in providing the basic data used to prepare the estimates in this bulletin.

TABLE OF CONTENTS

GENERAL

Introduction -----	1
Profile of Ohio Agriculture, Rank and Leading States -----	2 - 3
Average Precipitation by Months -----	4
Precipitation Monthly and Annual as Percent of Normal -----	5 - 6

CROPS

Ohio Crop Review, 1970-75 -----	7
All Corn:	
Acres Planted, Harvested for Grain, Silage and Forage -----	9
Corn for Grain:	
Production, Disposition, Value and Sales -----	11
Acres Harvested, Yield and Production by County -----	8 - 11
Corn Silage:	
Acres Harvested, Yield and Production by Districts -----	31
Soybeans:	
Acres Planted, Harvested, Yield and Production -----	13
Production, Disposition, Value and Sales -----	15
Acres Harvested, Yield and Production by County -----	12 - 15
Wheat:	
Acres Planted, Harvested, Yield and Production -----	17
Production, Disposition, Value and Sales -----	19
Acres Harvested, Yield and Production by County -----	16 - 19
Wheat Variety Survey - 1974 Crop -----	20
Rye:	
Acres Planted, Harvested, Yield and Production -----	21
Production, Disposition, Value and Sales -----	21
Barley:	
Acres Planted, Harvested, Yield and Production -----	21
Production, Disposition, Value and Sales -----	21
Oats:	
Acres Planted, Harvested, Yield and Production -----	23
Production, Disposition, Value and Sales -----	25
Acres Harvested, Yield and Production by County -----	22 - 25
Hay:	
All Hay - Acres Harvested, Yield and Production -----	27
All Hay - Production, Disposition, Value and Sales -----	29
Alfalfa and All Other Hay - Acres Harvested, Yield and Production -----	30
All Hay - Acres Harvested, Yield and Production by County -----	26 - 29
All Hay Stocks on Farms, January and May -----	30
Red Clover and Timothy Seed:	
Acreage, Production, Disposition, Value and Sales -----	30
Popcorn:	
Acreage, Yield, Production and Value -----	31
Tobacco:	
Acreage, Yield, Production and Value -----	33
Burley Tobacco Acreage, Yield and Production by County -----	32
Sugar Beets:	
Acreage, Yield, Production and Value -----	33
Sugar Act Payments -----	33
Maple Sirup:	
Production, Disposition, Value and Sales -----	33
Grain Stocks:	
Stocks of Grains, Quarterly, by Position -----	34 - 36
Seeding Rates:	
Average Seeding Rates, Selected Field Crops -----	37
Potatoes:	
Acreage, Yield, Production and Value -----	38
Mushrooms:	
Area, Production, Price and Value -----	38

FRUITS AND VEGETABLES

Ohio Fruit and Vegetable Review -----	39
Indexes of Fruit and Vegetable Production -----	39
Commercial Vegetables:	
Acreage, Production and Value for Fresh Market, by Crop -----	40 - 42
Acreage, Production and Value for Processing, by Crop -----	42

Fruit Crops:	
Production, Utilization and Value of Apples, Peaches, Grapes and Tart Cherries -----	43
Number of Orchards, Vineyards, Trees and Vines by Fruit -----	44
Apples - Acres, Orchards and Trees by Size of Orchard -----	44
Apples - Production by Varieties -----	45
Peaches - Acres, Orchards and Trees by Size of Orchard -----	45
Peaches - Number of Trees, by size of Orchard and Age -----	45
Grapes - Number of Producers and Acres by Area -----	46
Grapes - Number of Producers and Acres by County -----	46
Grapes - Acres by Variety and Age -----	46
LIVESTOCK	
Ohio Livestock Review, 1970-75 -----	47
Number of Livestock Farms by Species -----	47
Production and Marketing, Cattle, Hogs and Sheep -----	48
Cash Receipts and Gross Income, Cattle, Hogs, and Sheep -----	48
Cattle:	
Inventory Numbers, Calf Crop and Disposition -----	49
Production, Marketings, Value and Cash Receipts -----	49
Commercial Slaughter by Months -----	49
Inventory Value -----	51
Number on Farms, January 1, by County -----	50 - 51
Inventory by Classes -----	52
Number on Feed, Placements and Marketings by Quarter -----	52
Number on Feed by Classes and Quarter -----	53
Number on Feed by Weight Groups and Quarter -----	53
Hogs and Pigs:	
Inventory Numbers, Pig Crop and Disposition -----	54
Production, Marketings, Value and Cash Receipts -----	54
Commercial Slaughter by Months -----	54
Inventory Number by Classes and Weight Groups, by Quarter -----	55
Sows Farrowing and Pig Crop by Quarter -----	55
Inventory Value by Classes -----	57
Number on Farms, December 1, by County -----	56 - 57
Sheep and Lambs:	
Inventory Numbers, Lamb Crop and Disposition -----	60
Production, Marketings, Value and Cash Receipts -----	60
Commercial Slaughter by Months -----	60
Sheep Shorn, Wool Production and Value -----	60
Inventory Number by Classes and Farm Value -----	59
Number of Stock Sheep on Farms, January 1, by County -----	58 - 59
Turkeys:	
Number Raised, Production and Income -----	61
Breeder Hen Numbers and Value, December 1 -----	61
Honey and Beeswax:	
Number of Colonies, Production, Value and Stocks on Hand -----	61
Mink Pelt Production -----	61
Chickens, Eggs and Broilers:	
Chicken Inventory Numbers, Production and Value -----	62
Egg Production, Sales and Cash Receipts -----	62
Broiler Production and Income -----	62
Number of Laying Hens and Pullets by Month -----	63
Egg Production by Month -----	63
DAIRY	
Ohio Dairy Review, 1970-75 -----	64
Milk Production, Marketings and Home Use -----	64
Milk Cows, Production per Cow, Milkfat Test and Production -----	67
Milk Cows, Production per Cow, Total Production, by Months -----	65
Milkfat Test, Fluid and Manufacturing, by Months -----	65
Milk Cow Inventories on Farms, January 1, by County -----	66 - 67
Manufactured Dairy Products:	
Cheese Production, by Months -----	68
Water Ice Production, by Months -----	68
Lowfat Cottage Cheese Production, by Months -----	68
Creamed Cottage Cheese and Cottage Cheese Curd Production, by Months -----	69
Unsweetened Condensed Skim Milk and Evaporated Milk Production -----	69
Butter Production, by Months -----	69
Non-Fat Dry Milk Production, by Months -----	69
Ice Cream Mix, Ice Milk Mix and Milk Sherbet Mix Production -----	70
Frozen Products - Ice Cream, Ice Milk, Milk Sherbet Production -----	70

PRICES	
Indexes of Farm Production and Prices Received -----	71
Prices Received for Crops, by Months -----	72
Prices Received for Livestock and Livestock Products, by Months -----	73 - 74
Feed Price Ratios, by Months -----	75
FARM INCOME, CASH RECEIPTS AND PRODUCTION EXPENSES	
Production Expenses, Cash Receipts and Per Farm Net Income -----	76
Gross and Net Income from Farming -----	77
Cash Receipts by Commodity Groups -----	77
Cash Receipts of Selected Commodities -----	78
FARM LABOR	
Number of Workers on Farms, by Months -----	79
FARM POPULATION	
Farm Population by Race and Age Groups -----	79
Farm and Total Population, Annually, Ohio and United States -----	80
FERTILIZER	
Commercial Fertilizer Consumption -----	81
FARM NUMBER	
Number of Farms by County -----	82 - 83
Average Size of Farms by County -----	84 - 85
Land in Farms, by County -----	86 - 87
FARM REAL ESTATE VALUE -----	87

INTRODUCTION

Ohio Agricultural Statistics, 1970-75, is fourth in a series of research bulletins presenting historic State and county crop and livestock statistics. This issue includes crop statistics for the years 1970 through 1975 and livestock statistics for January 1, 1970 through January 1, 1976. These statistics include any necessary revisions based on check data and an analysis of the Census of Agriculture. Data in this publication supersedes statistics presented in the annual Ohio Agricultural Statistics for years 1970 through 1975. Also included are tables on farm labor, farm real estate, cash receipts from farm marketings, production expenses, U.S. Census farm population and U.S. Department of Commerce weather data.

Research Bulletins 1066 and 1019 provide similar information for years 1965-1970 and 1960-1965, respectively. Research Bulletin 933 published March 1963, includes State and county data for the period 1954-1960. Requests for these publications should be directed to The Ohio Agricultural Research and Development Center, Wooster, Ohio 44691.

Current issues of Ohio Agricultural Statistics 1976 to date are available free of charge upon request to Agricultural Statistician, Ohio Crop Reporting Service, Room 608 Federal Building, 200 North High Street, Columbus, Ohio 43215.

PROFILE OF OHIO AGRICULTURE 1975 1/

Commodity	Unit	Ohio			Leading State		
		Prod. or inventory	Rank	Value of production	State	Prod. or inventory	Value of production
		(000)		(000)		(000)	(000)
<u>Field Crops</u>							
Corn for grain	Bu.	310,620	6	776,550	Illinois	1,253,960	3,210,138
Oats	Bu.	30,870	6	45,379	Minnesota	104,000	152,880
Barley	Bu.	561	22	1,122	North Dakota	79,800	203,490
Wheat, winter	Bu.	70,560	7	230,731	Kansas	350,900	1,200,078
Rye	Bu.	210	18	510	North Dakota	2,975	6,962
Soybeans	Bu.	102,300	6	511,500	Illinois	299,520	1,530,547
Hay, all	Ton	3,568	15	187,320	Wisconsin	10,602	498,294
Popcorn	Lb.	45,100	4	3,969	Nebraska	146,400	12,883
Sugar beets	Ton	777	11	18,959	California	8,892	267,649
Potatoes, all	Cwt.	2,985	15	16,814	Idaho	78,475	294,281
Tobacco: Burley	Lb.	20,710	5	22,160	Kentucky	431,520	460,432
Cigar filler (41-44)	Lb.	2,988	2	1,793	Pennsylvania	19,800	11,484
Red clover seed	Lb.	2,700	5	1,215	Missouri	8,625	4,226
Timothy seed	Lb.	1,500	3	135	Minnesota	7,480	1,309
<u>Vegetables, Fresh, Total 3/</u>							
Sweet corn	Cwt.	1,148	4	9,368	Florida	4,864	46,656
Cabbage 4/	Cwt.	418	9	2,317	New York	4,640	17,132
Escarole/endive	Cwt.	97	3	1,839	Florida	803	8,882
Lettuce	Cwt.	117	12	2,516	California	39,139	250,343
<u>Vegetables, Processing, Total 5/</u>							
Cabbage for kraut	Ton	509.2	5	39,134	California	7,515.8	492,039
Tomatoes	Ton	16.7	4	519	New York	90.3	2,870
Cucumbers for pickles	Ton	423.0	2	28,764	California	7,270.6	454,409
	Ton	62.3	4	9,238	Michigan	129.2	16,021
<u>Fruit</u>							
Apples	Lb.	160,000	9	14,952	Washington	2,200,000	134,200
Grapes	Ton	14.6	6	2,832	California	3,948	539,502
Peaches	Lb.	22,000	15	3,894	California	1,851,000	123,770
Strawberries	Cwt.	69	6	2,622	California	3,800	112,237

Chickens, total inv. Dec. 1, 1975	Head	11,940	11	-	California	48,071	-
Chickens - production	Lb.	30,978	16	1,797	Arkansas	101,508	9,237
Broilers, production	Lb.	64,997	19	17,809	Arkansas	1,686,601	441,889
Turkey production	Lb.	54,149	14	19,115	Minnesota	368,582	127,529
<u>Livestock</u>							
Hogs & pigs inv., Dec. 1, 1975	Head	1,675	8	-	Iowa	12,600	-
Hogs & pigs production	Lb.	630,245	7	294,324	Iowa	3,943,723	1,822,000
All cattle & calves, inv., Jan. 1, '76	Head	2,305	22	-	Texas	15,600	-
Cattle & calves production	Lb.	688,230	19	243,355	Texas	5,076,150	1,527,162
Beef cows inv., Jan. 1, 1976	Head	500	28	-	Texas	6,480	-
Milk cows inv., Jan. 1, 1976	Head	390	8	-	Wisconsin	1,812	-
Sheep & lamb inv., Jan. 1, 1976	Head	382	10	-	Texas	2,412	-
Sheep & lamb production	Lb.	24,864	10	9,555	Texas	149,330	51,646
<u>Livestock Products</u>							
Milk production	000 lb.	4,259	7	382,032	Wisconsin	18,900	1,546,020
All cheese 1975	Lb.	66,107	10	-	Wisconsin	1,089,978	-
Swiss 1975	Lb.	21,767	3	-	Illinois	44,203	-
American type 1975	Lb.	16,370	16	-	Wisconsin	705,995	-
Lowfat cottage cheese 1975	Lb.	8,167	4	-	California	41,447	-
Creamed cottage cheese 1975	Lb.	64,533	3	-	New York	125,487	-
Cottage cheese curd 1975	Lb.	46,331	3	-	New York	122,488	-
Ice cream 1975	Gal.	47,861	4	-	California	84,731	-
Butter 1975	Lb.	18,237	14	-	Minnesota	217,861	-

PROFILE OF OHIO AGRICULTURE 1975 1/ (continued)

Commodity	Unit	Ohio			Leading State		
		Prod. or 2/ inventory (000)	Rank	Value of production (000)	State	Prod. or inventory (000)	Value of production (000)
Cattle slaughtered	Head	1,124	10	-	Texas	5,297	-
Hogs slaughtered	Head	3,397	5	-	Iowa	15,190	-
Mink pelt production 1975	Pelt	118	9	2,844	Wisconsin	915	22,052
Wool	Lb.	3,631	11	1,089	Texas	23,600	14,868
Egg production Dec. '74-Nov. '75	000 eggs	2,109	11	79,246	California	8,467	351,173
Miscellaneous							
Maple Sirup	Gal.	114	3	1,288	New York	366	3,587
Honey	Lb.	3,078	19	1,585	California	24,500	10,266
Mushrooms Jul. '74-Jun. '75	Lb.	7,499	2	3,978	Pennsylvania	178,622	79,328
Number of farms 1970	No.	118	9	-	Texas	212	-
1975	No.	111	9	-	Texas	205	-
Fertilizer consumption Jul. '74-Jun. '75	Ton	1,737	9	-	California	3,956	-
TOTAL CASH RECEIPTS 1975	-	-	-	2,560,416	California	-	8,512,664

1/Data reported for 1975 unless noted otherwise in stub heading. 2/Thousands unless noted otherwise in the stub heading. 3/Includes small quantity of processing carrots. 4/Includes processing. 5/Excludes small quantity of processing carrots.

Crop and livestock county estimates in this publication are presented alphabetically within each of the nine Crop Reporting Districts.

Counties within these CRD's shown at the left have similar types of farming, soil and climate.

OHIO WEATHER

Climate largely determines the kinds of agricultural production that are possible. The uncontrollable factors of light, temperature and water supply outweigh all technological advances in seeds, fertilizers and cropping practices. These weather factors affect important operations such as planting and harvesting and also critical stages of development when yields can be greatly influenced. Within areas of similar temperatures, water is the single most important weather factor. The following tables on average precipitation and percent of normal rainfall by months are provided by the U. S. Department of Commerce. The accompanying map shows locations of the Weather Bureau Divisions.

Average precipitation: By months, by Weather Bureau Divisions, Ohio, 1931-60

Weather Bureau Divisions	Weight	Jan.	Feb.	Mar.	Apr.	May	Jun.	Jul.	Aug.	Sep.	Oct.	Nov.	Dec.	Annual

OHIO CROP REVIEW 1970-75

Production of most field crops during the 1970-75 period increased even though acreage fluctuated from one year to the next. Production is still determined to a large degree by the weather. Ohio precipitation not only varies greatly within the State but varies in total amount from year to year.

Farmers survived the corn blight in 1970, the wet spring of '73 and the drought of '74. They then benefitted from strong prices received in 1974 and '75. Harvest of our five major crops (corn, soybeans, wheat, oats, and hay) increased to over 10 million acres in 1975.

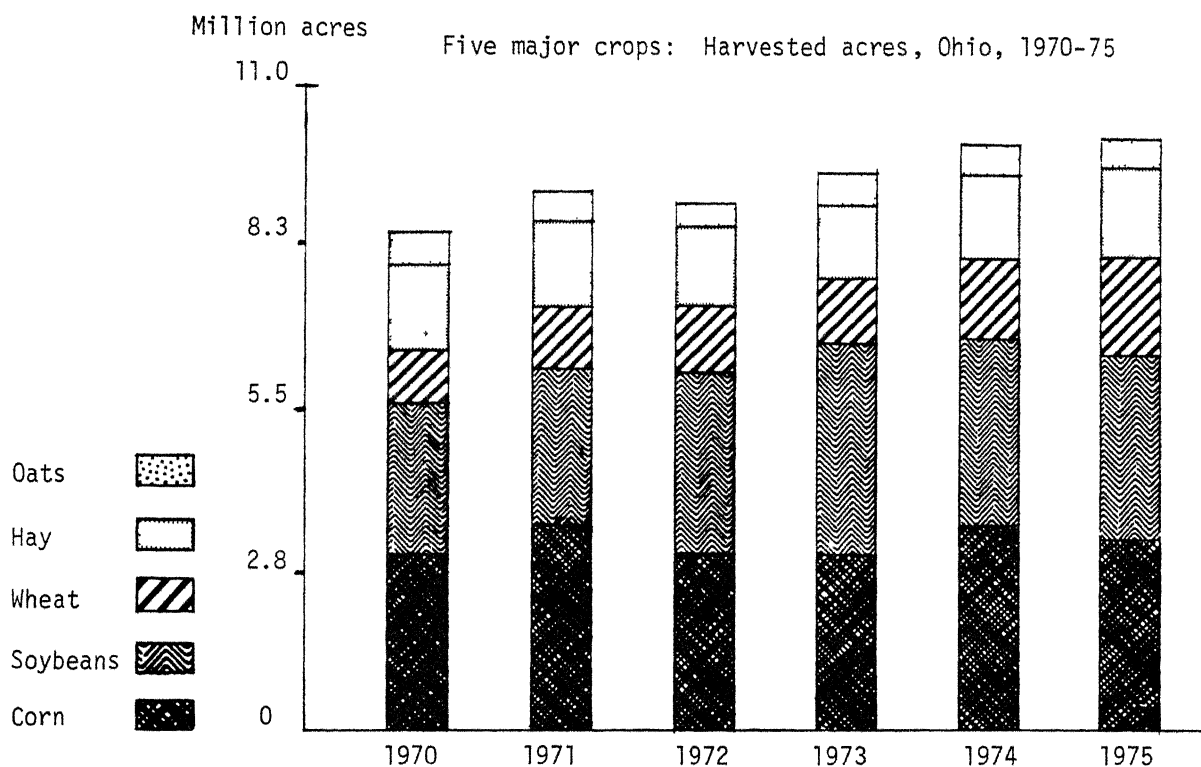

Ohio's corn for grain acreage which usually provides the lion's share of cash receipts and accounts for over one-third of the total field crop acreage was toppled as king in 1973 when the very wet spring, caused a shift to soybeans. Even though there were a few lean years for this important feed grain, corn yield showed an upward trend, reaching a high of 93 bushels per acre in 1975.

Soybean acreage increased 20 percent from 1970 to '75. As mentioned, in 1973 with considerable intended corn acreage left unplanted due to wet fields, a record 3.6 million acres of beans were eventually planted. Soybeans were the largest planted crop in 1973. Soybeans were used as a double crop following wheat and hay in the early seventies but the acreage was not significant.

Total acreage for all hay fluctuated slightly during the 1970-75 span from a high of 1.6 million acres in 1971 to 1.4 million in 1974. Alfalfa accounts for about a third of the total hay land. Insect infestation has been a problem in alfalfa, especially weevil and potato leafhopper. Hay yields varied only slightly. Slightly less than 3 tons per acre were considered average for alfalfa with a little over 2 tons for all other hay. These yield figures are about the same as the U.S. average. Large, round bales gained in popularity during these years.

Ohio is the leading State in the production of soft, red winter wheat. Acreage increased from 925,000 in 1970 to 1,680,000 in 1975. Yields were not outstanding and the economics of raising the crop were sometimes questionable. However, farmers indicated it was an important crop in their rotation plan and spreads their work load and income over the year. Also, the straw is an important and valuable residue.

Oats acreage continued to decline in the seventies. Acreage dropped below one half million in 1972 and barely exceeded that total in 1974.

OHIO WHEAT VARIETY SURVEY - 1974 CROP

Ohio led the nation in the production of soft, red winter wheat, with a total of 1.5 million acres seeded for harvest in 1974. All the acreage of soft, red winter wheat is grown in the eastern half of the nation and is the only class grown in the Buckeye State. In our survey, sixty-two varieties were included in this class. Only about 13 percent of all wheat produced in the U.S. is soft, red winter. Hard, red winter is the leader, representing 51 percent of all wheat planted in 1974.

Arthur, the leading variety grown in both Ohio and the U.S. in 1974, accounted for 43 percent of of the acreage planted in Ohio and 48 percent of the total soft, red winter acreage grown in the U.S. This compares with the 1969 figures of 20 and 30 percent, respectively, for Arthur. The leading variety for Ohio in the 1969 survey was Monon, which is rapidly declining in acreage because newer varieties have consistently outyielded Monon and also possess better disease and insect resistance. Arthur 71, Logan, Monon, and Reed followed Arthur in acres seeded in Ohio. These five varieties accounted for nearly 90 percent of the Ohio wheat planted for the 1974 crop.

Arthur was developed by the Purdue Agricultural Experiment Station and is an early, very short straw variety, producing grain of high test weight and yield. It is resistant to mildew but considered only moderately resistant to leaf rust, as new races of leaf rust have attacked Arthur in recent years.

Estimated percentage of wheat acreage planted to each variety: For specified crop year, Ohio, 1929-74

OHIO FRUIT AND VEGETABLE REVIEW 1970-75

Total Vegetable Production Index Averaged 8 Percent below Base Year

Production index of vegetables in Ohio during 1970-75 averaged nearly 8 percent less than the 1967 base year. The index peaked in 1971 at 9 percent above the base but declined to 26 percent below in 1973. Processing vegetables during the period averaged about 64 percent of the total index, with processing tomatoes accounting for 48 percent.

Processing Vegetables at Record High Level

Output total of the principal processing vegetable crops - tomatoes, cucumbers, and cabbage for kraut - peaked during the 1970-75 period in 1971. The 1971 index, at 123 percent of 1967, contrasts with 86 percent in 1975 and 88 percent in 1969. During the period tomato output reached a record high level of 619,000 tons.

Fresh Market Index - Down

Index average of fresh market vegetables during 1970-75 was down 18 percent from the base year. For the period, 1970 output resulted in an index of 89 percent (the smallest reduction) of the 1967 base while 1972 brought the largest index reduction at 26 percent below the base year. Although most fresh market vegetable output tended to be decreasing, sweet corn output was the exception when a record high index of production occurred in 1975. At that time, the production index had advanced to 33 percent above the base year.

Fruit Index for 1970-75 Averaged about One-fourth above 1967 Base Year

Fruit production index during 1970-75 averaged 24 percent higher than the 1967 base year. An index of 156 percent for 1971 exceeded all other years in the series and was followed by 147 in 1975. Both of these years were exceedingly good for fruit with apple production at 160 million pounds for each year. This was the largest output since 1964. Peaches also yielded well in 1971 and 1975 with 28.0 and 22.0 million pounds, respectively. Grape production was outstanding in 1971 at 19,000 tons. During the period, tart cherry production peaked at 1,000 tons in 1970. Strawberry production followed other fruits in 1975 with an output of 6,600,000 pounds. This exceeded 1971 output of 5,900,000 and 1974 production of 5,600,000 pounds.

OHIO LIVESTOCK REVIEW 1970-75

Ohio cash receipts from farm marketings of livestock and livestock products increased 45 percent from \$778 million in 1970 to \$1,125 million for 1975. Livestock's share of the total was 44 percent in 1975 compared to 55 percent in 1970. With increasing prices for both crops and livestock during the period, fewer livestock numbers were primarily responsible for livestock's smaller share of the total. About 4.4 million head of cattle, hogs, and sheep were on Ohio farms by the end of 1975, twenty-one percent less than the 5.6 million of 1970. Only cattle inventories showed an increase with major reductions for hogs and sheep.

Chicken inventories, which exclude commercial broilers, decreased 9 percent during the period to 11.9 million on December 1, 1975.

Inventories of all cattle on Ohio farms on January 1, 1976, reached 2,305,000, up 11 percent from January 1, 1971. Increases were noted each remaining year through January 1, 1975, when the inventories reached 2,350,000 head. Beef cows that had calves increased by one-third to one-half million head during the 1971 to 1976 period. Conversely, dairy cow numbers decreased by 12 percent, but, late in the period, increases were attained in milk cow replacements. Marketings of cattle and calves were 6 percent higher in 1975 than in 1970; however, cash receipts from these marketings were 40 percent higher. Cattle farm numbers declined from 64,000 in 1970 to a low of 57,000 in 1973 and increased back to 62,000 by 1975. Farms with dairy cows dropped from 23,500 to 14,800 during the period.

Hog numbers and the number of farms raising hogs declined each year. Inventories dropped from 2,838,000 head on December 1, 1970, to 1,675,000 on December 1, 1975. However, with improved prices, cash receipts from hog marketings were 50 percent higher in 1975 than in 1970, reaching \$304.3 million. The number of farms with hogs declined from 30,000 to 22,000 during the period.

All sheep and lambs on Ohio farms declined about one-third during the period from 687,000 head on January 1, 1971, to 455,000 on January 1, 1976. Declines were 34 percent for stock sheep and 35 percent for sheep on feed. Operations with sheep and lambs dropped from 17,500 in 1970 to 11,000 in 1975. Cash receipts from sheep and lamb marketings were nearly equal for the beginning and ending dates.

1/ Includes receipts from marketings and farm sales of farm slaughtered meat.

DEFINITIONS OF TERMS USED IN LIVESTOCK TABLES

INVENTORY, SUPPLY, AND DISPOSITION: Balance sheet estimates; the sum of inventory on hand beginning of year, births and inshipments equal the sum of marketings, farm slaughter, deaths and inventory on hand end of year.

INSHIPMENTS: Livestock shipped into states for feeding or breeding. Excludes livestock for immediate slaughter.

MARKETINGS: Shipments to markets and slaughterers within the state, all shipments out of the state. Excludes interfarm sales within the state and farm slaughter. Number of head marketed includes all custom slaughter while live weight marketed excludes custom slaughter consumed on farms where produced.

FARM SLAUGHTER: Slaughter on farms. Excludes custom slaughter for farmers at commercial establishments.

PRODUCTION: Total live weight of livestock marketed, farm slaughter and custom slaughter consumed on farms where produced, minus live weight of inshipments, and plus the increase or minus the decrease in inventory live weight.

PRICE: Prices are annual prices, computed by weighting monthly estimated prices received by farmers by monthly marketings.

CASH RECEIPTS: Receipts from marketings and sale of farm slaughtered meats.

VALUE OF HOME CONSUMPTION: Total value of slaughter on the farm and custom slaughter consumed on farms where produced.

Cattle and calves: Inventory numbers, calf crop, and disposition, Ohio, 1970-75 1/

Year	On hand January 1	Calves born	Inship- ments	Marketings 2/		Farm slaughter: 3/	Deaths	
				Cattle	Calves		Cattle	Calves
Thousand head								
1970	2,031	747	319	805	94	16	39	71

OHIO DAIRY REVIEW 1970-75

Ohio farmers keeping milk cows reduced their numbers by more than one-third during the period 1970-75. About 1 in 5 or 23,500 farms had milk cows in 1970. This number declined 8-10 percent each year with 13 percent or 14,800 farms having milk cows in 1975. The number of milk cows did not decline as rapidly during the 6 year period as milk cow farm numbers. Inventory reduction of 1-5 percent were noted each year with milk cow numbers dropping a total of 12 percent to 390,000 head by January 1, 1976.

Production per cow showed a decline from 1972 to 1973 but otherwise increased each year to average 10,648 pounds in 1975. The increases in production per cow offset the declining cow numbers in three of the six years. Production per cow in 1972 reached 10,489 pounds to yield the largest total milk production in 5 years. Total milk production in 1975 at 4.3 billion pounds was 4 percent less than produced in 1970.

Prices received for milk increased each year and cash receipts from milk marketing in 1975 totaled 372 million dollars, 45 percent greater than the 1970 amount.

Milk: Used and marketed by farmers, Ohio, 1970-75

Year	Used on farms where produced			Marketed by farmers			
	Fed to calves 1/	Used for milk, cream and butter	Total	Sold to plants and dealers 2/	As farm to consumers 3/	Sold directly to consumers 3/	Total
	Million pounds			Million pounds			
1970	72	77	149	4,240	7	24	4,271
1971	70	70	140	4,320	5	23	4,348
1972	68	65	133	4,415	3	22	4,440
1973	64	61	125	4,120	2	20	4,142
1974	60	57	117	4,085	1	18	4,104
1975	58	53	111	4,130	1	17	4,148

1/Excludes milk sucked by calves. 2/Includes milk produced by dealers' own herds.
 3/Sales directly to consumers by producers who sell only milk from their own herds.
 Also includes milk produced by institutional herds.

1/ Prior to 1974, the survey period was the last full calendar week ending at least one day before the end of the month. The definition changed in 1974 to the week which includes the 12th of the month. 2/ Includes farm operators doing one or more hours of farm work and members of their families working fifteen hours or more during the week without cash wages. 3/ Includes all persons doing one or more hours farm work during the week for pay. 4/ Beginning in 1975 data presented in quarterly time periods.

Farm population: By race and broad age groups, United States, 1970 and 1977 1/

Race and age	Total		Distribution	
	1970	1977	1970	1977
	Thousands		Percent	
Total	9,712	7,806	100.0	100.0
White	8,775	7,349	90.4	94.1
Black	849	397	8.7	5.1
Under 14 years	2,490	1,555	25.6	19.9
14 years and over	7,222	6,251	74.4	80.1

1/ Figures are five-quarter averages centered on April.

Population: Annual estimates, farm and total, Ohio and United States, 1930-77

1/ Data obtained from Farm Real Estate Market Developments Bulletin CD-82.

The State Is the Campus for Agricultural Research and Development

Ohio's major soil types and climatic conditions are represented at the Research Center's 12 locations.

Research is conducted by 15 departments on more than 7000 acres at Center headquarters in Wooster, seven branches, Green Springs Crops Research Unit, Pomerene Forest Laboratory, North Appalachian Experimental Watershed, and The Ohio State University.

Center Headquarters, Wooster, Wayne County: 1953 acres

Eastern Ohio Resource Development Center, Caldwell, Noble County: 2053 acres

Green Springs Crops Research Unit, Green Springs, Sandusky County: 26 acres

Jackson Branch, Jackson, Jackson County: 502 acres

Mahoning County Farm, Canfield: 275 acres

Muck Crops Branch, Willard, Huron County: 15 acres

North Appalachian Experimental Watershed, Coshocton, Coshocton County: 1047 acres (Cooperative with Agricultural Research Service, U. S. Dept. of Agriculture)

Northwestern Branch, Hoytville, Wood County: 247 acres

Pomerene Forest Laboratory, Coshocton County: 227 acres

Southern Branch, Ripley, Brown County: 275 acres

Western Branch, South Charleston, Clark County: 428 acres
