Horses and Colts	36
Horses	37, 38
Mules and Mule Colts	38
All Cattle and Calves	39, 40, 41, 42, 43, 44, 45
Beef Cattle	41
Veal Calves	41
Milk Cows	42, 43
Dairy Products	44, 45
Swine	46, 47, 48
Sheep	49, 50, 51
Lambs	50, 51
Wool	51
Chickens	51
Eggs	52
Farm Prices of Ohio Farm Products	53, 54, 55
Farm Wages	56, 57
Cash Income From Sale of Farm Products	58

The counties are grouped in nine districts

ACKNOWLEDGMENTS

The authors are greatly indebted to two large groups of Ohio farmers; one that has so splendidly cooperated in furnishing information each month, and another that supplied special information at least once during the year by filling out and returning a livestock or acreage survey card, summaries of which are contained in this bulletin.

We are also very grateful to the Postmasters who, through their rural mail carriers, distributed and collected the above mentioned livestock and acreage survey cards, which furnish the best available information regarding changes in crop acreage and numbers of livestock on farms from year to year.

EXPLANATIONS

This bulletin contains county estimates of the acreage, yield per acre, and production of crops produced in 1929, 1930, and 1931; also county estimates of numbers of livestock on farms January 1, 1930, 1931, and 1932.

During recent months, data from the Federal Census of 1930, covering crops of 1929, became available. As an actual enumeration of acreage and production is considered the best evidence obtainable, estimates of crops for 1929 have been revised to conform with the Census enumeration, except where other check data indicated a different figure. The adjustments of the 1929 acreages and yields to the Census base necessitated revision of the estimates prior to 1929. Such revisions have been made for the State and the revised figures published herein. County data have not been revised prior to 1929; hence, such estimates in this bulletin are not entirely comparable with the county figures published before 1929.

The livestock estimates contained in this bulletin are as of January first. Since the Federal Census was taken as of April first, necessary adjustments were made in all of the Census livestock figures to convert them to a January first base. County livestock estimates have not been revised prior to 1930. For that reason estimates published before 1930 cannot be used with those in this bulletin in forming a continuous series. The revised figures for the State from 1920 to date are published herein.

Estimates of acreage, yield per acre, and total crop production, numbers of livestock on farms, and prices of crops, livestock, and livestock products, unless otherwise stated, are based upon the reports made by the reporters of the Federal-State Cooperative Crop and Livestock Reporting Service.

Monthly crop and livestock prices are those of the fifteenth of the month, unless otherwise indicated.
