U.S. Patent Application Serial No. 14/892,139
Title: Method and System for Generating a Three-Dimensional Model
Inventors: Csaba Benedek et al.
Filed: Nov. 18, 2015
WHE Ref: GKMS-36
Your Ref: 8884G-US/ml

ACTION REQUIRED: Issue Fee Due January 5, 2019
Instructions to file any continuation/divisional applications Due
December 5, 2018

Dear Dr. Horváth:

We recently received the attached Notice of Allowance from the USPTO for the above-identified pending patent application, along with other related USPTO documents. We now have until January 5, 2019 to pay the Issue Fee. Please let us know when we should pay that fee.

The Notice of Allowability indicates that this communication is responsive to the interview held on September 20, 2018, and that claims 2, 9-14, 16-17, 19, and 27 are allowed.

Please note that the USPTO has discontinued providing a patent term adjustment calculation with the Notice of Allowance. However, the USPTO will provide the patent term adjustment information with the Issue Notification and also on the granted patent.

Also, if there are any improvements to this invention, and/or if the client is interested in filing a U.S. continuing application claiming priority to this application, we must file any such applications on or before the issue date of this application. If we do not hear from you, we will presume that the client does not wish to file any continuing applications.

Thank you for your attention to this matter, and we look forward to receiving your instructions with respect to payment of the Issue Fee.

Best regards,

W. Scott Gaines, MSEE
Attorney-at-Law
