**Organic experimental fields (1 ha)
in Experimental Station in Winna Góra**

An aerial photograph of a large agricultural field divided into many small, rectangular plots. The plots show various shades of green, indicating different crops or treatments. A road runs along the right side of the field. In the top center, a small drone is shown flying, with blue curved lines representing its signal or flight path. A white arrow points from a text box to a specific area in the field, which is outlined with a red dashed line.

| 15 | | Barley + pea (30%/70%) | 105 + 77 |
| 16 | | | |

Field experiment

Field experiment:

- four replication,
- plots size 10 m x 1,5 m;

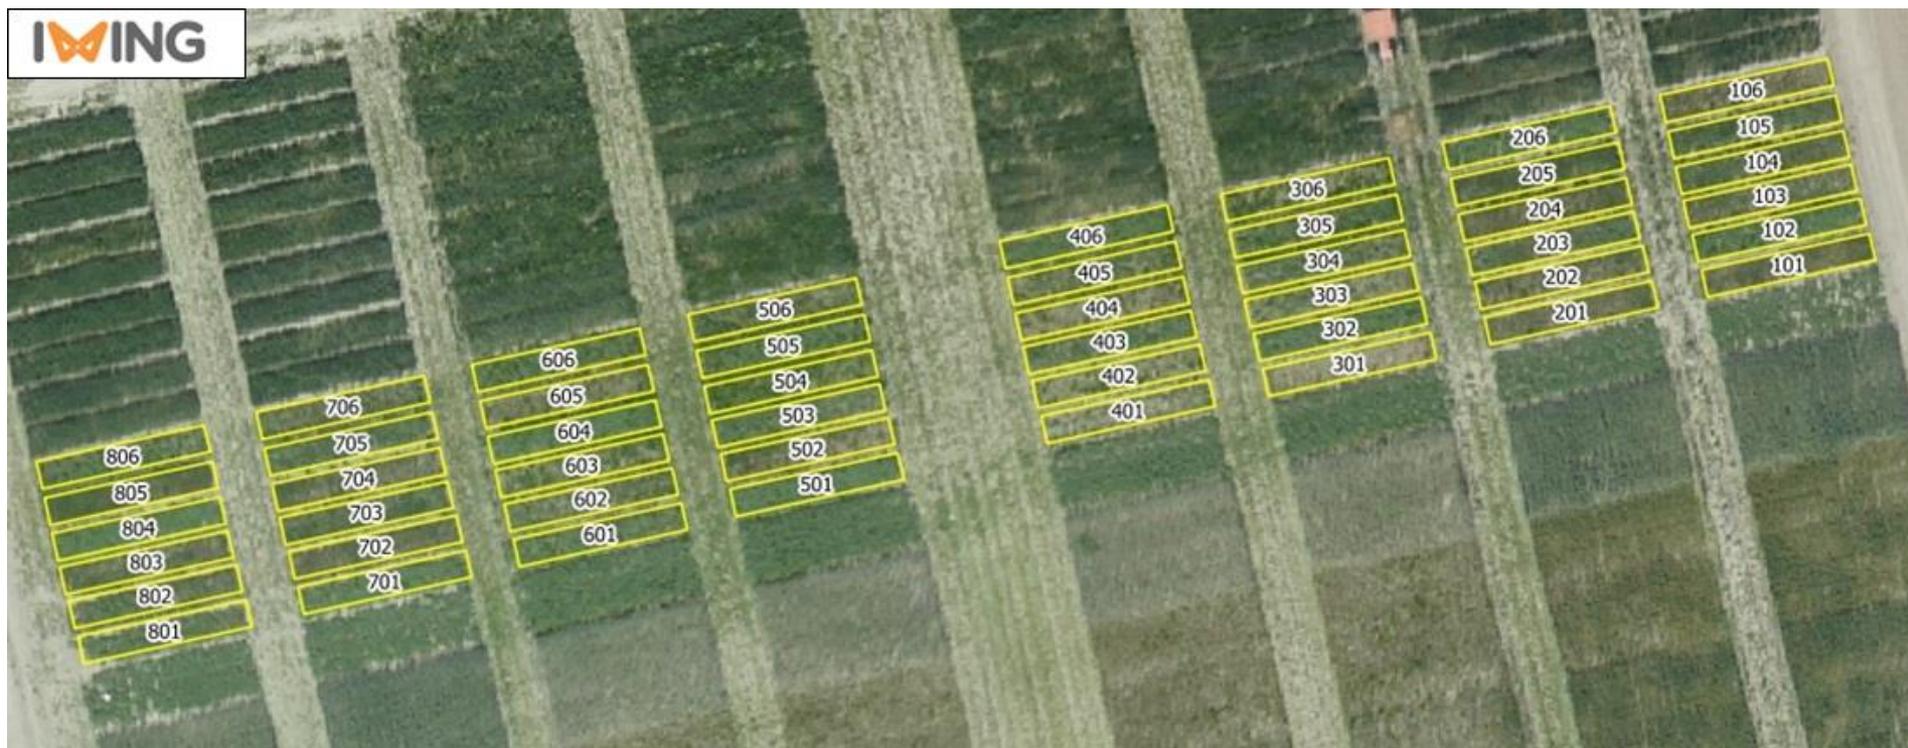

Analysis performed regarding to:

- dry weight of crops and weeds (above the ground)
- LAI, SPAD, gNDVI (***Green Normalised Vegetation Index***)
- number of ears/grain and pods/seeds (No/m²)
- quantity and quality of yield

Photos using unmanned aircraft systems

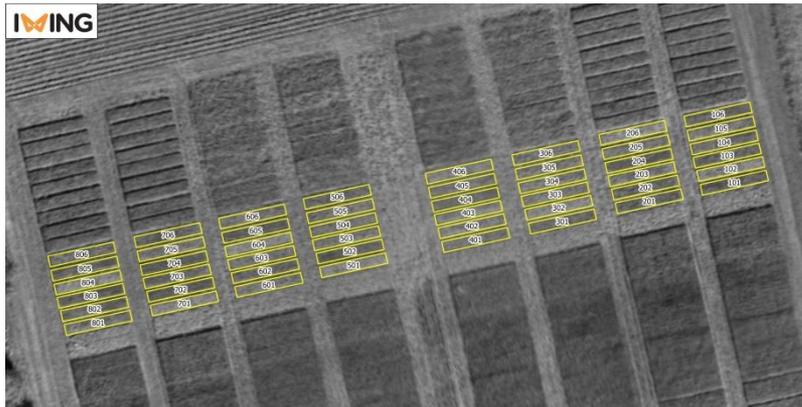

Fot. I-ING, 08.06.2016

Aerial imagery in panchromatic (gray scale) imagery

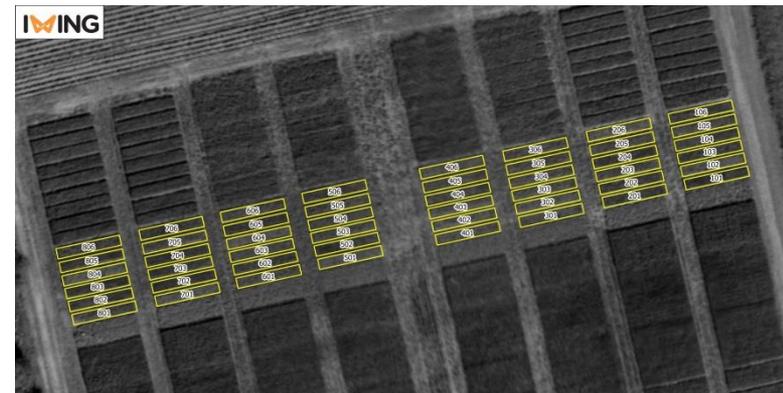

Photos using airborne passive imaging systems that detect and record specific wavelength (λ) ranges of reflected solar radiation, which are sections of the electromagnetic spectrum visible light in the range of the spectral reflection:

Organic system

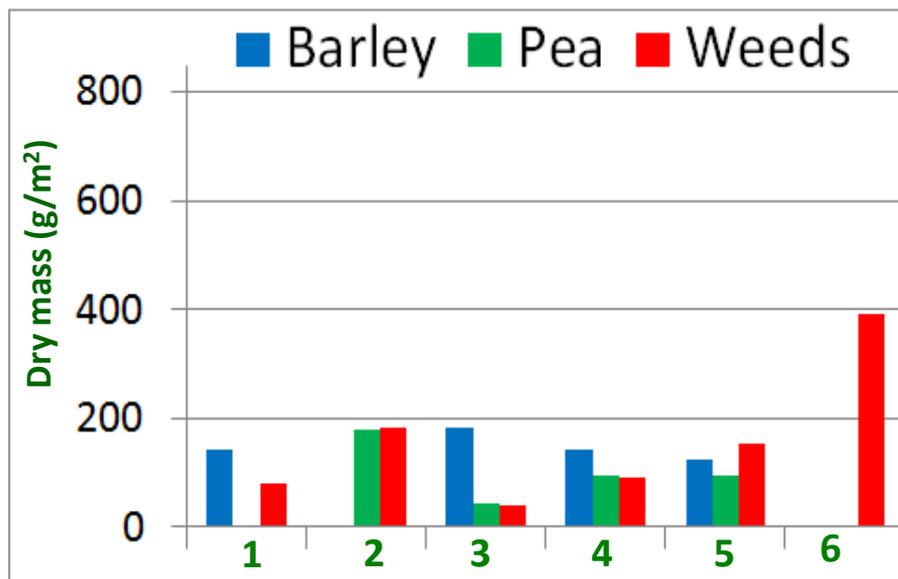

Conventional system

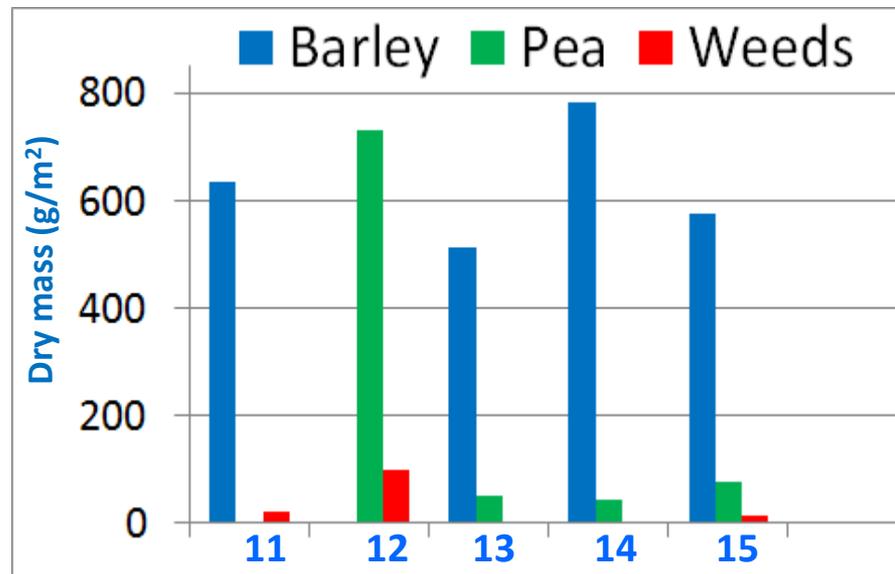

Dry mass of plants (g/m²)

Organic system

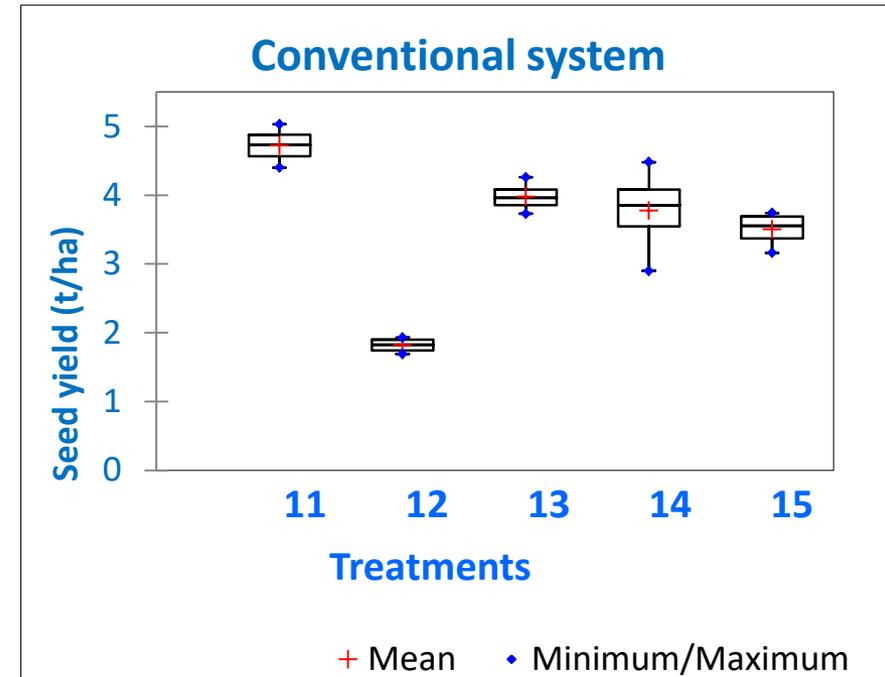

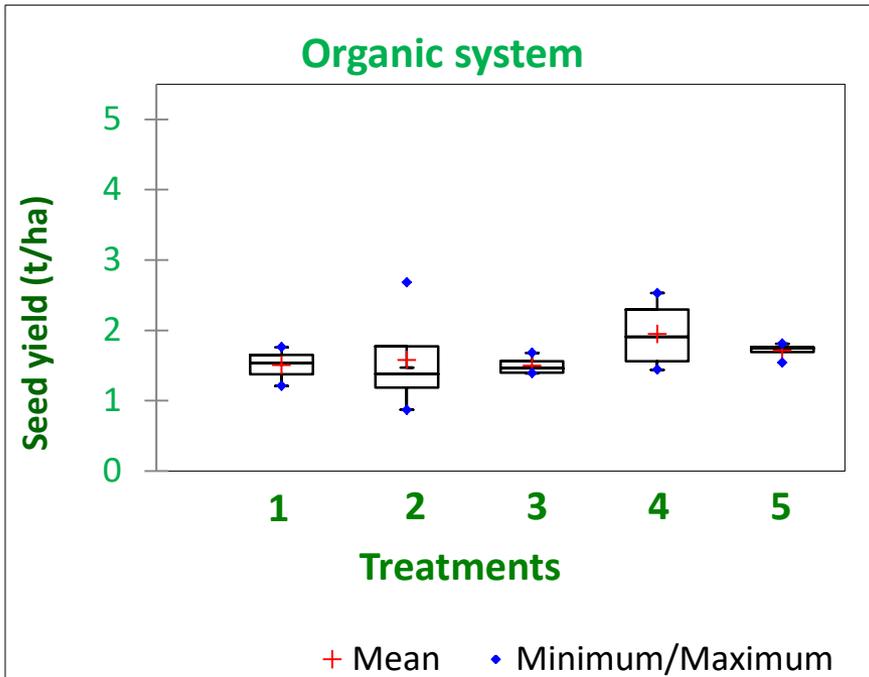

Conventional system

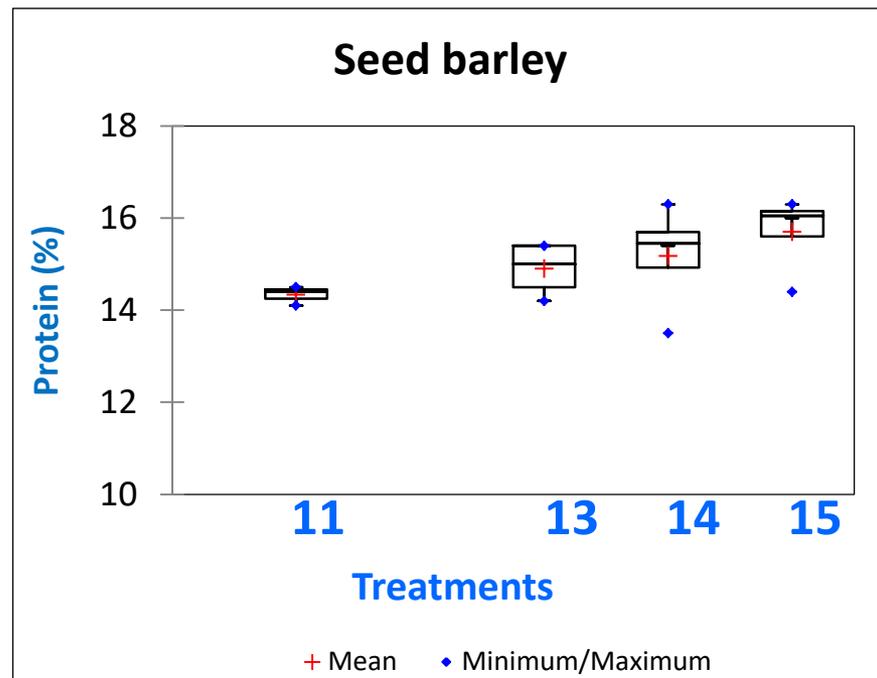

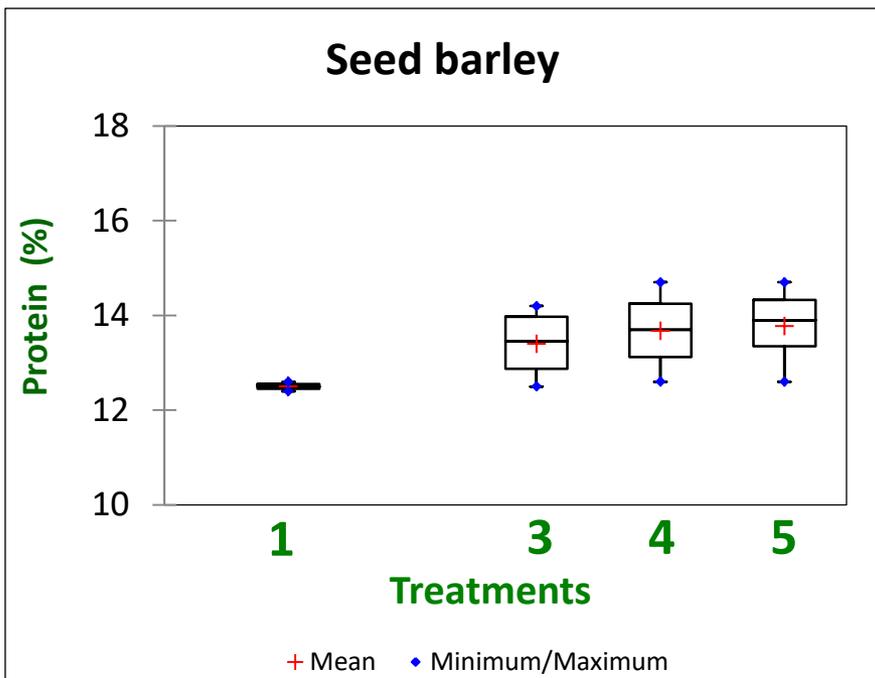

| Organic sys. | Conventional sys. | Crop | Seeds rate (No/m ²) |
|--------------|-------------------|--|---------------------------------|
| 1 | 11 | Barley | 350 |
| 2 | 12 | Pea | 110 |
| 3 | 13 | Barley + pea (70%/30%) | 245 + 33 |
| 4 | 14 | Barley + pea (50%/50%) | 175 + 55 |
| 5 | 15 | Barley + pea (30%/70%) | 105 + 77 |
| 6 | - | Without crop - <i>only natural weeds</i> | - |

Seed yield (t/ha)

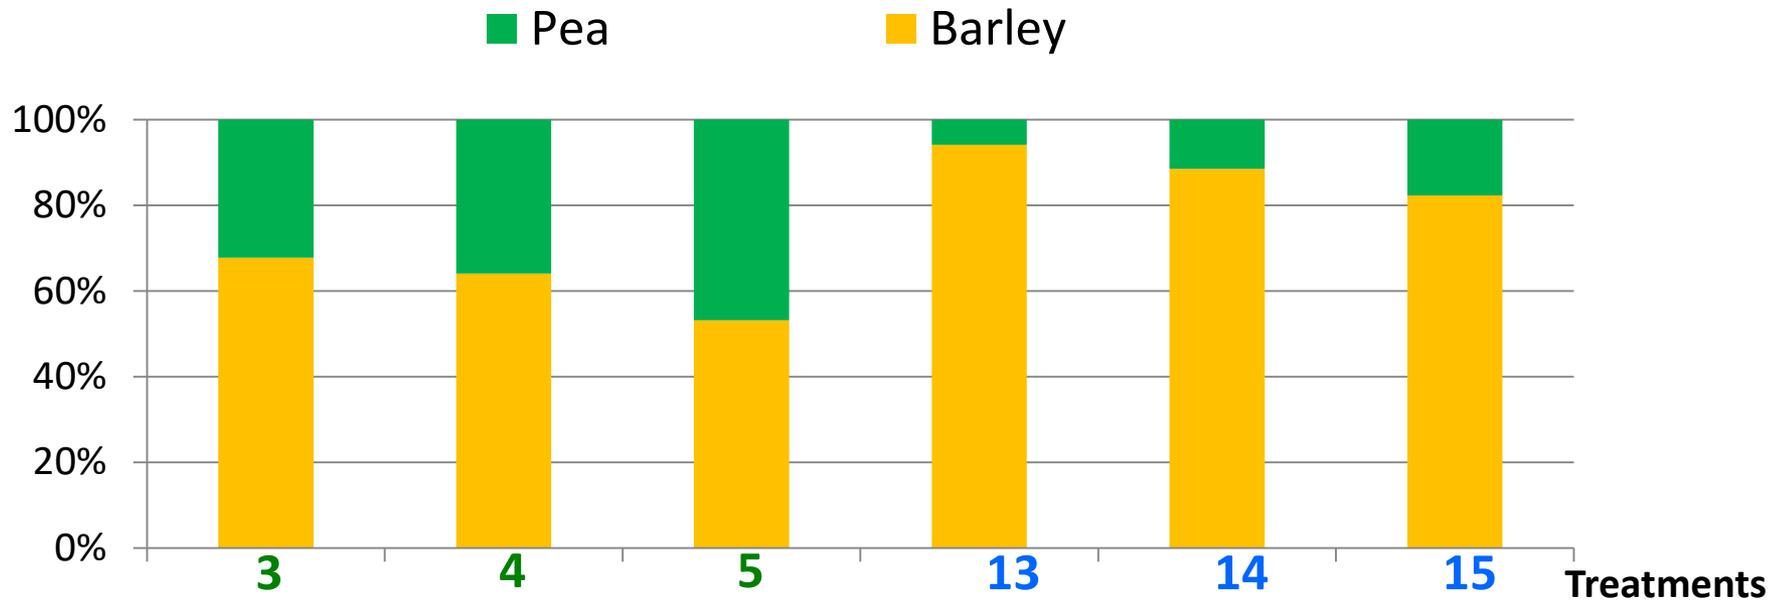

| Organic sys. | Conventional sys. | Crop | Seeds rate (No/m ²) |
|--------------|-------------------|--|---------------------------------|
| 1 | 11 | Barley | 350 |
| 2 | 12 | Pea | 110 |
| 3 | 13 | Barley + pea (70%/30%) | 245 + 33 |
| 4 | 14 | Barley + pea (50%/50%) | 175 + 55 |
| 5 | 15 | Barley + pea (30%/70%) | 105 + 77 |
| 6 | - | Without crop - <i>only natural weeds</i> | - |

Seed barley- protein content (%)

| Organic sys. | Conventional sys. | Crop | Seeds rate (No/m ²) |
|--------------|-------------------|--|---------------------------------|
| 1 | 11 | Barley | 350 |
| 2 | 12 | Pea | 110 |
| 3 | 13 | Barley + pea (70%/30%) | 245 + 33 |
| 4 | 14 | Barley + pea (50%/50%) | 175 + 55 |
| 5 | 15 | Barley + pea (30%/70%) | 105 + 77 |
| 6 | - | Without crop - <i>only natural weeds</i> | - |

Percentage of seeds in yield (%)

| Organic sys. | Conventional sys. | Crop | Seeds rate (No/m ²) |
|--------------|-------------------|--|---------------------------------|
| 1 | 11 | Barley | 350 |
| 2 | 12 | Pea | 110 |
| 3 | 13 | Barley + pea (70%/30%) | 245 + 33 |
| 4 | 14 | Barley + pea (50%/50%) | 175 + 55 |
| 5 | 15 | Barley + pea (30%/70%) | 105 + 77 |
| 6 | - | Without crop - <i>only natural weeds</i> | - |

Controlled experiments with mixtures of barley and pea

1/ Glasshouse experiment : weed- *Elymus repens*

2/ Growth chamber experiment: *Sinapis alba* as a model weed

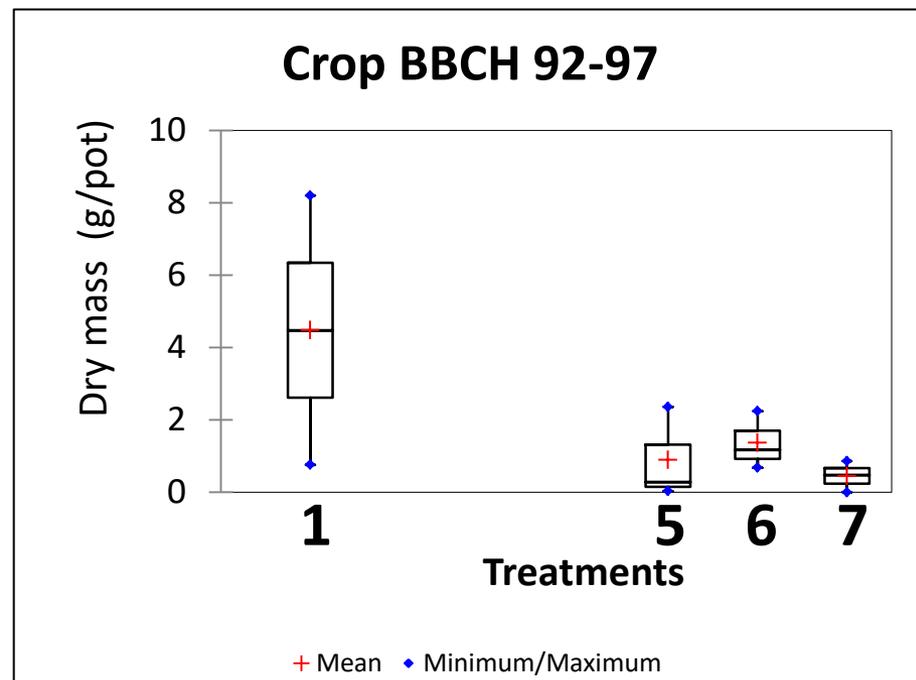

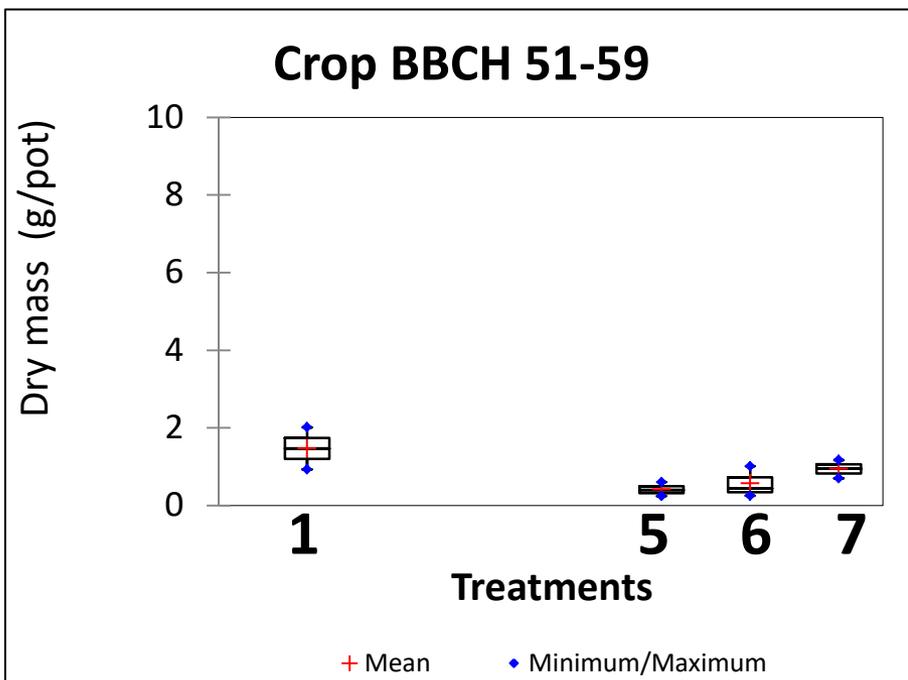

Scheme of controlled experiments (six replications)

1. **Weeds** (*Elymus repens* and *Sinapis alba* as a model weed)
2. Solo pea
3. Solo barley
4. Barley and pea (50% / 50%)
5. Barley + **weeds**
6. Pea + **weeds**
7. Barley and pea (50% / 50%) + **weeds**

Analyses

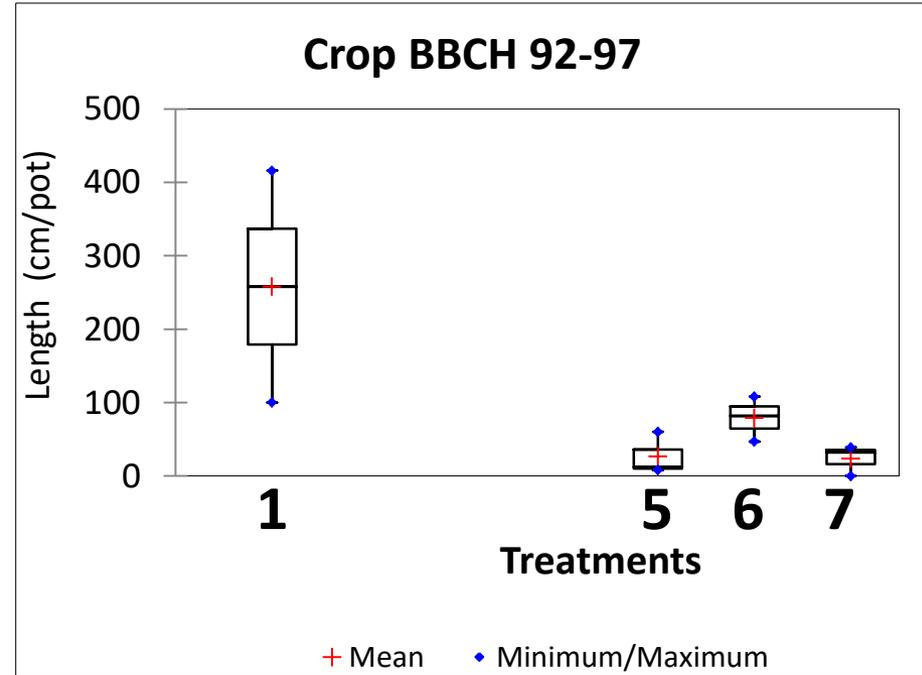

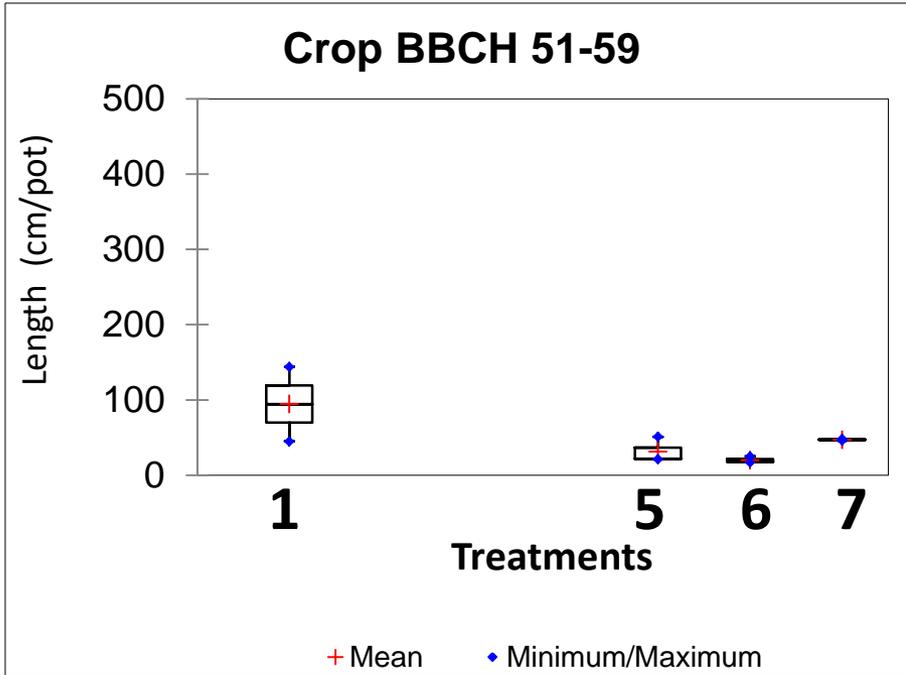

- Dry mass of crops and couch grass
- Couch grass rhizomes weight and length per unit
- Number and weight of seeds per unit
- Number of ears/grain and pods/seeds (No/pot)
- Yield quantity

Glasshouse experiment- rhizomes dry mass of AGRRE

1. Weeds (*Elymus repens* and *Sinapis alba* as a model weed)
2. Solo pea
3. Solo barley
4. Barley and pea (50% / 50%)
5. Barley + weeds
6. Pea + weeds
7. Barley and pea (50% / 50%) + weeds

Glasshouse experiment- rhizomes length of AGRRE

1. Weeds (*Elymus repens* and *Sinapis alba* as a model weed)
2. Solo pea
3. Solo barley
4. Barley and pea (50% / 50%)
5. Barley + weeds
6. Pea + weeds
7. Barley and pea (50% / 50%) + weeds

Thank you for your attention
