Erratum

After the publication of this work [1] it was noticed that four authors were omitted from the author list and author contributions.

These authors have now been added to the list, and the updated author contributions are included below.

Authors' contributions

VP, LHV, KNN, JP and TL carried out *ex vivo/in vitro* experiments. RM and KRJ carried out *in vivo* malaria experiments under the supervision of OB and AH. VP, AP, VS, GK, GD, XZ, SW and MK performed data analysis. AP and MN carried out the mathematical modelling. DFR and WRH developed mouse model used in the study. AM provided mice and expertise on their use. WZ and JK carried out T-cell live imaging under the supervision of PC. VP, MN and SAT wrote the manuscript with contributions from all authors. SAT and MN supervised the work. All authors read and approved the final manuscript.

Competing interests

The authors declare that they have no competing interests.
