PART 1:
MONITORING GUIDELINES

I. INTRODUCTION

The Juvenile Justice and Delinquency Prevention Act of 1974 (JJDPA) provides for annual distribution of federal Formula Grant funds among states which comply with the eligibility requirements specified in the Act. To be eligible to receive formula grants, each state must submit a plan for carrying out the purposes of the Act. As described in Section 223(a) of the JJDPA, the plan submitted by each state must provide for a system of monitoring jails, detention facilities, correctional facilities and nonsecure facilities to ensure that (1) juveniles who are status offenders or nonoffenders are not placed in secure detention or correctional facilities (deinstitutionalization), (2) juveniles alleged to be or found to be delinquent and juveniles who are status offenders or nonoffenders are not detained in facilities in which they have regular contact with incarcerated adults (separation) and (3) no juveniles are detained in any jail or lockup for adults (jail removal):

> Sec. 223. (a) In order to receive formula grants under this part, a State shall submit a plan for carrying out its purposes applicable to a 3-year period. Such plan shall be amended annually to include new programs, and the state shall submit annual performance reports to the administrator which shall describe progress in implementing programs contained in the original plan, and shall describe the status of compliance with State plan requirements. In accordance with regulations which the Administrator shall prescribe, such plan shall–
>
> …
>
> (12)(A) provide within three years after submission of the initial plan that juveniles who are charged with or who have committed offenses that would not be criminal if committed by an adult or offenses which do not constitute violations of valid court orders, or such nonoffenders as dependent or neglected children, shall not be placed in secure detention facilities or secure correctional facilities; and
>
> (B) provide that the State shall submit annual reports to the Administrator containing a review of the progress made by the State to achieve the deinstitutionalization of juveniles described in subparagraph (A) and a review of the progress made by the State to provide that such juveniles, if placed in facilities, are placed in facilities which (i) are the least restrictive alternatives appropriate to the needs of the child and the community; (ii) are in reasonable proximity to the family and the home communities of such juveniles; and (iii) provide the services described in section 103(1);
>
> (13) provide that juveniles alleged to be or found to be delinquent and youths within the purview of paragraph (12) shall not be detained or confined in any institution in which they have regular contact with adult persons incarcerated because they have been convicted of a crime or are awaiting trial on criminal charges;
>
> (14) provide that, beginning after the five-year period following December 8, 1980, no juvenile shall be detained or confined in any jail or lockup for adults, except that the Administrator shall, through 1993, promulgate regulations which make exceptions with regard to the detention of juveniles accused of non-status offenses who are awaiting an initial court appearance pursuant to an enforceable State law requiring such appearances within twenty-four hours after being taken into custody (excluding weekends and holidays) provided that such exceptions are limited to areas which–
>
> (A) are outside a Standard Metropolitan Statistical Area,
>
> (B) have no existing acceptable alternative placement available, and
>
> (C) are in compliance with the provisions of paragraph (13);
>
> (15) provide for an adequate system of monitoring jails, detention facilities, correctional facilities, and non-secure facilities to insure that the requirements of paragraph (12)(A), paragraph (13), and paragraph (14) are met, and for annual reporting of the results of such monitoring to the Administrator, except that such reporting requirements shall not apply in the case of a State which is in compliance with the other requirements of this paragraph, which is in compliance with the requirements in paragraph (12)(A) and paragraph (13), and which has enacted legislation which conforms to such requirements and which contains, in the opinion of the Administrator, sufficient enforcement mechanisms to ensure that such legislation will be administered effectively.
>
> –Juvenile Justice and Delinquency Prevention Act, *Section 223(a)(12), (13), (14) and (15)*

The Office of Juvenile Justice and Delinquency Prevention (OJJDP), established within the United States Department of Justice by the JJDP Act, is authorized to prescribe regulations consistent

with the Act and to award or deny formula grants. The Formula Grant regulation promulgated by OJJDP requires each state to submit a plan for annually monitoring jails, lockups, detention facilities, correctional facilities and nonsecure facilities and identifies four basic tasks which are central to the monitoring process:

> 28 CFR Part 31.303
>
> (f) **Monitoring of Jails, Detention Facilities and Correctional Facilities**. (1) Pursuant to section 223(a)(15) of the JJDP Act, and except as provided by paragraph (f)(7) of this section, the State shall:
>
> (i) Describe its plan, procedure and timetable for annually monitoring jails, lockups, detention facilities, correctional facilities and non-secure facilities. The plan must at a minimum describe in detail each of the following tasks including the identification of the specific agency(s) responsible for each task.
>
> (A) **Identification of the Monitoring Universe**. This refers to the identification of all residential facilities which might hold juveniles pursuant to public authority and thus must be classified to determine if it should be included in the monitoring effort. This includes those facilities owned or operated by public and private agencies.
>
> (B) **Classification of the Monitoring Universe**. This is the classification of all facilities to determine which ones should be considered as a secure detention or correctional facility, adult correctional institution, jail, lockup, or other type of secure or nonsecure facility.
>
> (C) **Inspection of Facilities**. Inspection of facilities is necessary to ensure an accurate assessment of each facility's classification and record keeping. The inspection must include: (1) A review of the physical accommodations to determine whether it is a secure or nonsecure facility or whether adequate sight and sound separation between juvenile and adult offenders exists and (2) a review of the record keeping system to determine whether sufficient data are maintained to determine compliance with section 223(a)(12), (13) and/or (14).
>
> (D) **Data Collection and Data Verification**. This is the actual collection and reporting of data to determine whether the facility is in compliance with the applicable requirement(s) of section 223(a)(12), (13) and/or (14). The length of the reporting period should be 12 months of data, but in no case less than 6 months. If the data is self-reported by the facility or is collected and reported by an agency other than the State agency designated pursuant to section 223(a)(1) of the JJDP Act, the plan must describe a statistically valid procedure used to verify the reported data.
>
> ***–28 CFR Part 31.303(f)(1)(i)***

A plan for monitoring compliance with the JJDP Act was developed by the Justice Center at the University of Alaska Anchorage, working in conjunction with the State of Alaska, Department of Health and Social Services, Division of Family and Youth Services in 1989. The plan was revised in 1994. The revised monitoring plan–described elsewhere in this volume under the title "Alaska's System for Monitoring Compliance With the Juvenile Justice and Delinquency Prevention Act"–outlines the general method which has been devised for completion of each of the monitoring tasks referenced above, identifies the principle barriers to implementation of the monitoring plan and summarizes violation procedures. The monitoring plan provides for annual updating of the monitoring universe and classification of facilities, inspection of one-third of all facilities each year, and a data collection and verification process which includes verification of self-report data and data analysis. The JJDP Act, the Formula Grant regulation and the monitoring plan should all be studied carefully prior to initiation of the annual monitoring process and they should be referenced whenever questions arise regarding monitoring policies and procedures.

The monitoring guidelines which follow provide step-by-step instructions for completion of all monitoring tasks. They are intended to help you understand each of the activities which comprise JJDPA monitoring and to give you a detailed outline of procedures to follow. They do not supersede

any regulation promulgated by OJJDP, however, and procedures should be altered as necessary in order to comply with regulations or legal opinions promulgated subsequent to preparation of this manual.

A checklist of monitoring activities may be found in Appendix A. Normally, activities should be undertaken in the order in which they are described, but for monitoring purposes a number of activities can be carried out concurrently, in particular on-site classification of facilities in the universe, site inspection for sight and sound separation of adults and juveniles, and on-site verification of records.

II. STARTUP/INITIAL CONTACTS

Prior to beginning any other activity, it will be necessary to document your authorization to inspect facilities and examine records and to make initial contacts with key individuals. You will need to obtain written authorization from the Director of the Division of Family and Youth Services (DFYS) to examine confidential records pertaining to juveniles and to inspect facilities under the authority granted to the Department of Health and Social Services (DHSS) under AS 47.10.150, AS 47.10.160 and AS 47.10.180.

This request should be made through the Associate Coordinator for Juvenile Justice and Delinquency Prevention of DFYS. The Director should also be requested to notify regional administrators that the monitoring process is underway and that the superintendents of the corrections/ detention facilities in their regions should be reminded about the project.

Once the letter of authorization is received, all relevant state-level Commissioners and Administrators (Public Safety, Corrections) should be sent a letter informing them about the project and thanking them for the previous cooperation of their agencies. This is an information letter only and should indicate that any needed data will be sought from the appropriate division head or unit administrator.

Copies of the letter of authorization from the Director should be enclosed with letters you will send to the following requesting assistance in establishing the monitoring universe, collecting data, and authorizing inspection:

- Rural/Village Public Safety Officer Enforcement Unit Administrator, Alaska State Troopers
- Contract Jail Administrator, Department of Public Safety
- Director of Institutions, Department of Corrections
- Administrative Director, Alaska Court System
- Director, North Slope Borough Department of Public Safety
- Regional Administrators, Division of Family and Youth Services
- Superintendents, Juvenile Detention Centers

The VPSO coordinator for each of the 13 regional nonprofit Native associations established by the Alaska Native Claims Settlement Act should also be contacted in order to notify him or her

of your plans to inspect facilities in each region and to solicit their cooperation. It is probably politic, though it is not required, to write to leaders of these corporations explaining the project.

Functionally, these activities will also initiate the process of identifying and classifying the monitoring universe, collecting data and inspecting facilities.

A. Rural/Village Public Safety Officer Enforcement Unit Administrator, Alaska State Troopers

The rural law enforcement administrator of the Alaska State Troopers should be asked to write a letter of authorization which can be sent to each trooper having village oversight responsibilities. Offer to draft this letter for his signature. The letter should explain the monitoring process, verify the monitoring agency's authorization to inspect village lockups and examine booking records, and direct troopers and Village Public Safety Officers (VPSOs) to cooperate in the monitoring effort by mailing booking records.

The Rural/VPSO Enforcement Unit Administrator should also be asked to provide a current list of each of the following:

- Village Oversight Troopers
- Village Public Safety Officers (VPSOs)

B. Contract Jail Administrator, Department of Public Safety[1]

A request should be made to the Contract Jail Administrator to write to the superintendents of each municipal jail with which the Department of Public Safety contracts for detention services. The letter should briefly explain the monitoring process, verify the monitoring agency's authorization to inspect facilities and examine booking records, and request cooperation with the project.

Offer to prepare the letter for his/her signature and send him/her copies of previous authorization letters as a reminder.

At this time, the Contract Jail Administrator should also be requested to provide a comprehensive list of state-contracted jails for use in identification of the monitoring universe, as described in Section III(B) of these guidelines.

This is also the appropriate time to arrange with the Contract Jail Administrator to photocopy Client Billing Sheets (the detention records forwarded to DPS by each contract jail) at the Department of Public Safety for use in data collection, as described in Section V(C) of these guidelines.

C. Director of Institutions, Department of Corrections

A letter should be sent to the Director of Institutions explaining the monitoring process and requesting information and a letter of cooperation. The Department of Corrections is revising its

[1] The responsibility for administration of contract jails is to be transferred to the Department of Corrections in 1995.

policies to prohibit detention of juveniles in all DOC facilities. Mat-Su Pretrial was the only DOC facility used for detention in 1994, and policies prohibiting such use in the future were being drafted.

The Director of Institutions should be asked to supply a computer printout of pertinent monitoring data, including every detainee whose birthdate indicates he/she was eighteen or younger during the year monitored and to provide official notice to you specifying which Department of Corrections facility, if any, is permitted to detain juveniles.

Offer to prepare a letter for his/her signature to be sent to the Superintendent of any DOC facility authorized to hold juveniles. The letter should explain the project, verify your authorization to inspect the facility and examine booking records, and request cooperation.

D. Administrative Director, Alaska Court System

A letter should be sent to the Administrative Director of the Alaska Court System. The letter should remind the Administrator about the project, thank him/her for previous efforts, and request verification that no new holding facilities have been established that meet the definition of a lockup. (See Section III(D) of these guidelines for a discussion of this procedure).

Note: Only one court currently maintains a holding area meeting the definition of a lockup, and access to this facility for both data collection and inspections is provided by the Alaska State Troopers. The procedures described in this section may therefore be omitted unless the Administrative Director indicates that holding areas in one or more additional facilities meet the definition of a lockup.

E. Director, North Slope Borough Department of Public Safety

A letter should be sent to the Director of the North Slope Borough Department of Public Safety reminding him of the project, describing it briefly, and requesting that he reiterate the department's policy of not securely detaining juveniles and that he send copies of booking logs from each village in the North Slope Borough with a lockup. In years when the North Slope Borough should be scheduled for inspection and data-verification, request that he notify the Public Safety Officers in the relevant villages of your authorization to inspect the facilities and examine booking logs.

At this time the Director should also be requested to provide a comprehensive list of lockups operated by the North Slope Borough Department of Public Safety for use in identification of the monitoring universe, as described in Section III(E) of these guidelines.

F. VPSO Coordinators, Regional Nonprofit Native Associations

Representatives of each regional Native nonprofit association should be notified by telephone and/or by mail that the annual monitoring effort is proceeding and that village lockups in the region

will be contacted regarding data collection and inspection of facilities. Notification of the VPSO coordinators for regional Native nonprofit associations is a recommended courtesy whenever village research is conducted, and VPSO coordinators who are aware that the monitoring is taking place can be of assistance if they are contacted by Village Public Safety Officers (VPSOs) or municipal police officers who have questions regarding authorization to release data or permit inspection of village lockups. (Note: As explained in Section III(A) of these guidelines, it is also advisable–as a complement to the survey of village oversight Troopers used in identification of the monitoring universe–to ask the VPSO coordinator for each regional Native nonprofit association to identify lockups with which he or she is familiar. Since some VPSO coordinators may be aware of facilities which are not known to oversight Troopers, this procedure can help identify additional facilities which should be added to the monitoring universe).

As a courtesy, leaders of nonprofit Native corporations should receive an information letter and reminder about the project. The *Alaska Native Directory* is a helpful tool for this task.

III. IDENTIFICATION OF THE MONITORING UNIVERSE

A list of all facilities currently included in the monitoring universe is contained in Appendix B. Facilities are divided into juvenile detention centers, juvenile holdover facilities, adult jails, adult correctional facilities and adult lockups. The year in which each facility was last inspected for compliance with the JJDP Act is noted, as is the most recent assessment of the presence or absence of sight and sound separation of juvenile and adult inmates.

A systematic effort to update the monitoring universe by identifying any newly opened facilities which might hold juveniles and any facilities which are no longer in operation must be conducted each year. (Note: Much of the universe identification is integrated with the primary contacts described in Section II above.) The following procedure should be used to identify facilities to be added to or deleted from the monitoring universe:

A. Village Oversight Troopers, Alaska State Troopers

All village oversight Troopers statewide from the list received from the Director of Rural Law Enforcement (AST) should be surveyed by telephone to verify the location of all municipal jails and lockups in each region. Each oversight Trooper should be asked to list all communities within his or her jurisdiction and to indicate the presence or absence of an adult lockup (as defined in Section IV of these guidelines) or any other resource for secure confinement of either adults or juveniles in each community. Where the oversight Trooper is unable to indicate the presence or absence of a jail or lockup in each community named (this is most likely to occur with respect to very small villages in which law enforcement services are provided by a small municipal police

department, rather than by a Village Public Safety Officer), the respondent should be asked to provide the name of a person within the detachment or in the community itself who may be able to provide the requested information and the individual named should then be contacted and requested to provide the information. This process should be repeated until the presence or absence of a jail or lockup is indicated for all communities. (Note: It is also advisable to ask the VPSO coordinator for each regional Native nonprofit association to identify lockups with which he or she is familiar. It is possible that some VPSO coordinators may be aware of facilities which are not known to oversight Troopers).

B. Contract Jail Administrator, Department of Public Safety

A current list of municipal jails with which the Department of Public Safety contracts for detention services should be obtained from the Contract Jail Administrator, Department of Public Safety. This list should be compared with the listing of adult jails in the monitoring universe (Appendix B). Each facility identified as currently providing contract jail services for adults, but which is not already in the monitoring universe, should be added to the monitoring universe. Each facility which is not included in the current list of contract jails should be removed from the monitoring universe if it is no longer in operation or if it has been reclassified as another type of facility (see Section IV of these guidelines for classification procedures and definitions of facility types) if it continues to be used for detention purposes. (*Note:* Responsibility for contract jail administration is expected to rest with the Department of Corrections beginning in 1995.)

C. Department of Corrections

The Director of Institutions of the Alaska Department of Corrections (DOC) should be asked to verify whether or not Mat-Su Pretrial Facility continues to be the only DOC facility permitted by departmental policy to detain juveniles. Any changes in department policy vis-a-vis juvenile detention should be noted in the universe listing in Appendix B.

D. Administrative Director, Alaska Court System

The Administrative Director of the Alaska Court System should be requested to identify any court holding facility which meets the definition of a lockup as provided in the Formula Grant regulation (see Section IV of these guidelines for definitions of facility types) and/or to verify that information from the previous year's monitoring activities continues to be current. (Note: Only one court currently maintains such a facility and access to this facility is provided by the Alaska State Troopers.)

E. Director, North Slope Borough Department of Public Safety

The Director of the North Slope Borough Department of Public Safety should be asked to provide a current list of lockups maintained by the North Slope Borough Department of Public Safety. Each facility which is not already in the monitoring universe should be added to the monitoring universe and each facility which is no longer in operation should be removed from the monitoring universe. Each North Slope Borough facility (except the contract jail at Barrow) which is not included on the current list of adult lockups but which continues to provide detention services should be reclassified appropriately. (See Section IV of these guidelines for classification procedures and definitions of facility types).

Arrangements should also be made at this time to have booking records for each lockup operated by the North Slope Borough Department of Public Safety mailed to you and/or to schedule site visits to conduct inspections and collect data. (See Section V(E) and Section VI(A) of these guidelines).

F. Division of Family and Youth Services

A current list of all juvenile detention centers, juvenile correctional facilities, and juvenile holdover facilities should be obtained from the Associate Coordinator of Juvenile Justice and Delinquency Prevention. Each regional administrator of the Division of Family and Youth Services should be asked to verify that all child residential care facilities licensed by the division are non-secure, except for any facilities which have been granted permission to operate a locked room under the provisions of 7 AAC 50.053(e). A current list of facilities in each region which have been given permission to operate a locked room should be obtained from each regional director.

IV. CLASSIFICATION OF THE MONITORING UNIVERSE

Facilities added to the monitoring universe each year should be provisionally classified based on comparison of usages with appropriate federal definitions wherever possible. Facilities which are not already classified by one or more state agencies in a manner which is amenable to comparison with federal definitions should be provisionally classified according to an assessment of the appropriate classification based upon all available information.

The following definitions relevant to classification of facilities are included in Section 103 of the JJDP Act:

> Sec. 103. For purposes of this Act–
>
> (10) the term "construction" means acquisition, expansion, remodeling, and alteration of existing buildings, and initial equipment of any such buildings, or any combination of such activities (including architects' fees but not the cost of acquisition of land for buildings);
>
> …

(12) the term "secure detention facility" means any public or private residential facility which
(A) includes construction fixtures designed to physically restrict the movements and activities of juveniles or other individuals held in lawful custody in such facility; and
(B) is used for the temporary placement of any juvenile who is accused of having committed an offense, of any nonoffender, or of any other individual accused of having committed a criminal offense;
(13) the term "secure correctional facility" means any public or private residential facility which–
(A) includes construction fixtures designed to physically restrict the movements and activities of juveniles or other individuals held in lawful custody in such facility; and
(B) is used for the placement, after adjudication and disposition, of any juvenile who has been adjudicated as having committed an offense, any nonoffender, or any other individual convicted of a criminal offense.

–Juvenile Justice and Delinquency Prevention Act, *Section 103(10), (12) and (13)*

The Formula Grant regulation provides the following definitions relevant to classification of facilities:

28 CFR Part 31.303(f)
(2) For the purpose of monitoring for compliance with section 223(a)(12)(A) of the Act a secure detention or correctional facility is any secure public or private facility used for the lawful custody of accused or adjudicated juvenile offenders or non-offenders, **or** used for the lawful custody of accused or convicted adult criminal offenders.

–28 CFR Part 31.303(f)(2)

28 CFR Part 31.304
(b) **Secure**. As used to define a detention or correctional facility this term includes residential facilities which include construction fixtures designed to physically restrict the movements and activities of persons in custody such as locked rooms and buildings, fences, or other physical structures. It does not include facilities where physical restriction of movement or activity is provided solely through facility staff.
(c) **Facility**. A place, an institution, a building or part thereof, set of buildings or an area whether or not enclosing a building or set of buildings which is used for the lawful custody and treatment of juveniles and may be owned and/or operated by public and private agencies.
…
(m) **Adult Jail**. A locked facility, administered by State, county, or local law enforcement and correctional agencies, the purpose of which is to detain adults charged with violating criminal law, pending trial. Also considered as adult jails are those facilities used to hold convicted adult criminal offenders sentenced for less than one year.
(n) **Adult Lockup**. Similar to an adult jail except that an adult lockup is generally a municipal or police facility of a temporary nature which does not hold persons after they have been formally charged.

–28 CFR Part 31.304(b), (c), (m) and (n)

In practice, a secure facility is defined as a residential facility which provides a place where a person's movements can be restricted by closing and locking, blocking or barring a door or other construction fixture in such a fashion that the person may not leave the room. A facility should be classified as nonsecure only where there is no room or other place in the facility–as described by facility staff (for provisional classification) or as observed during on-site inspection–which is designated for confinement and which can be locked, blocked or barred so that a person inside cannot leave. All other facilities should be classified as secure.

Municipal jails which provide detention services under contract with the state are authorized to detain adult inmates pending trial and should therefore be provisionally classified as adult jails pending inspection. Rural holding facilities which do not operate under contract with the state are not authorized "to detain adults charged with violating criminal law, pending trial" or "to hold convicted adult criminal offenders sentenced for less than one year" and therefore do not meet the

definition of adult jail contained in 28 CFR Part 31.304(m). Thus, such facilities should be provisionally classified (pending on-site inspection) as adult lockups. (*Note:* Review of contract jail billing sheets provides a continuous check on rural jails and lockups in case reclassification is necessary.)

All facilities operated by the Department of Corrections are designated by the state as adult correctional facilities. Those DOC facilities which have been permitted to detain juveniles have been primarily pre-trial/misdemeanor institutions which would meet the definition of adult jail contained in 28 CFR Part 31.303(m). However, Alaska contains both municipal and state-operated jails. In order to distinguish one from the other in the monitoring universe, DOC facilities have been designated adult correctional facilities. Any new Department of Corrections facility added to the monitoring universe should therefore be provisionally classified as such pending on-site inspection. (Note: At the present time only one DOC facility is authorized by department policy to detain juveniles).

Each secure facility must be inspected at least once every three years to ensure that its classification remains adequate. This inspection will be conducted in conjunction with other aspects of the inspection of facilities, as discussed below.

V. DATA COLLECTION

Monitoring for jail removal, deinstitutionalization and separation will normally entail collection of data directly from original admission/release records or certified reproductions of original records. Note that all photocopied booking records submitted by mail must be accompanied by a signed certificate that the records submitted represent a complete and accurate record of all persons detained at the facility during the monitoring period. The certificate form used for this purpose may be found in Appendix E. Where centralized or computerized records exist (e.g., Department of Public Safety, Department of Corrections, DFYS), printouts are accepted as authentic.

The data collection process will be initiated contemporaneously with identification of the monitoring universe. In many instances, persons contacted regarding the monitoring universe will be requested at the same time to arrange to have facility booking records photocopied and mailed to you.

A. Juvenile Detention Centers

The superintendent of each juvenile detention center operated by the Division of Family and Youth Services should be requested to provide a copy of the facility's admission log covering the monitoring period. Some facilities submit data on a log-type form which is not an admission log; data submitted in this fashion constitute self-report data and must be verified as described in Section

VI(B) of these guidelines. Computer-generated admission information is accepted, though verification is conducted every three years (see VIB). (Note: Although some facilities operated by the Division of Family and Youth Services contain treatment units which are separate from the detention units, it is not necessary to obtain admission data from treatment units because all juveniles entering these facilities (including those placed in treatment units) are admitted through the detention units, which maintain admission data for all juveniles housed in the facility.

B. Juvenile Holdover Facilities

The associate coordinator for Juvenile Justice and Delinquency Prevention will provide juvenile confinement forms for all juveniles detained in juvenile holdover facilities during the year being monitored.

C. Adult Jails

The office of the Contract Jail Administrator maintains Contract Jail Client Billing sheets which were originally used to reimburse municipal police departments for each prisoner detained. They are now used to monitor utilization. These records are accurate and complete and contain all of the information required for monitoring purposes–date in, time in, name, date of birth, race, gender, charge, date out, time out.

The Contract Jail Administrator should be requested to make photocopies of the billing sheets available to you. Offer to photocopy them on-site or to reimburse the Department of Public Safety for copy costs if he/she prefers to provide a photocopy. (*Note:* This request will be included in the initial letter. See II, B above.)

D. Adult Correctional Facilities

The Alaska Department of Corrections maintains computerized records of all prisoners including those detained prior to trial in state-operated jails. The Director of Institutions should be asked to provide a computer printout of all detainees whose birthdates show them to have been under eighteen during the year being monitored. The printout should include name, charge, date of birth, race, gender, date and time of admission, and date and time of release. Only one state-operated jail is permitted by Department policy to detain juveniles and all juveniles detained there will appear on the list. (*Note:* A change in DOC policy vis-a-vis the detention of juveniles by *any* DOC facility is expected.) All other DOC facilities are exempt from monitoring. However, juveniles who have been waived to adult court will also appear on this list and each should be checked for evidence of court/prosecutor waiver.

E. Adult Lockups

Each Alaska State Trooper (AST) post, each VPSO, and each municipal police department which maintains a lockup should be telephoned and asked to provide photocopies of booking records for the year monitored. In addition, the Director of the North Slope Borough Department of Public Safety should be requested to designate a person to collect copies of booking records for the monitoring period from the adult lockups in **Anaktuvuk Pass**, **Atqasuk**, **Kaktovik**, **Nuiqsut**, **Point Hope**, **Point Lay, and Wainwright** and to mail them to you along with a signed certification of authenticity for each facility. Rural Alaska State Troopers (AST) posts should be contacted regarding data collection and inspection of adult lockups in **Cantwell**, **Delta Junction**, **Fort Yukon**, **Glennallen**, **Tok** and any other community where the AST post is determined to be responsible for operation of the facility. Village Public Safety Officers should be contacted regarding data collection and inspection of adult lockups in all other communities for which a current VPSO is listed in the printout obtained from the Rural/Village Public Safety Officer Enforcement Unit Administrator, Alaska State Troopers. (See Section II(B) of these guidelines). For all remaining adult lockups, the village police chief or, if necessary, another municipal official (e.g. city manager) should be contacted regarding data collection and inspection, except where it is determined that another agency is responsible for operation of the facility. Oversight troopers and VPSO coordinators should be consulted about the responsible officials. (See III-A.)

The mailing lists in Appendix D do not contain lock-ups currently in the monitoring universe because of high turnover among personnel and shifting supervisory responsibility at most adult lockups. Current listings (including names, addresses and telephone numbers) for rural Alaska State Troopers (AST) posts and municipal police departments are contained in the latest edition of the *Journal of the Alaska Peace Officers Association*, which may be obtained from the Alaska Peace Officers Association (see Mailing List). Listings for municipal officials (including law enforcement personnel) may also be found in the latest edition of the *Alaska Municipal Officials Directory*, published by the State of Alaska, Department of Community and Regional Affairs.

Records maintained at adult lockups vary widely. Facilities which maintain admission records containing the name, birthdate, race, gender, admit date/time, offense(s), and release date/time of each person detained during the monitoring period may simply mail you a copy of the printout and a signed certification of authenticity. It may not be possible for some facilities to submit data by mail, in which case the person in charge of the facility should be advised that a site visit may be required. Facilities which do not maintain admission records, or which maintain records which do not contain all information specified above, should be sent a copy of the Juvenile Detention Data Reporting Form (see Appendix E) and instructions regarding its use.

The person in charge of each adult lockup which is due for inspection during the current monitoring effort should be notified that an inspection will be conducted and, to the extent possible, arrangements should be made to schedule inspections. The person in charge of each lockup for which data cannot be submitted by mail should be notified that a site visit may be required.

Following the initial telephone contact with each lockup, a letter should be mailed to the person in charge of the facility, explaining the monitoring process, identifying the specific records/ data which should be submitted, reinforcing the importance of timely submission of data and inviting the person to contact either you or their supervisor if there are questions concerning the monitoring itself or authorization to release records to you. Each letter should be accompanied by a copy of the initial authorization letter sent by the DFYS Associate Coordinator for Juvenile Justice and Delinquency Prevention to the Rural/Village Public Safety Officer Enforcement Unit Administrator, Alaska State Troopers. A copy of the certification of authenticity should be enclosed for the person to sign and return with the data.

Because it is likely that some facilities will not respond to the initial request for data, it will be necessary to make follow-up calls to facilities which do not submit data within a two-week period following the initial contact. Some non-reporting villages may be scheduled for on-site data collection.

IV. SITE VISITS: FACILITY INSPECTION AND RECORD VERIFICATION

One-third of the facilities in the monitoring universe must be inspected each year so that all facilities will be visited during a three-year period. The purposes of the visits are: to inspect facilities for classification; to inspect for sight and sound separation of juveniles from adults; to verify records and examine record-keeping procedures; to collect data from sites where records are judged inadequate; and to educate police and public safety personnel in the relevant statutes and assist them in understanding and developing adequate record-maintenance systems.

A. Scheduling Facilities for Site Visits

A list of facilities in the monitoring universe is maintained which includes the year each facility was visited and whether or not data were received from each facility (Appendix B). A three-year cycle of site visits has been essentially routinized since monitoring began in 1989. During the first years of the monitoring process geographic considerations were important to the scheduling of visits and an effort has been made to maintain these patterns for cost-efficiency. The following steps should be taken to select sites for inspection before scheduling site visits.

1) After the monitoring universe has been updated as described in Section III above, the facilities should be checked against the monitoring universe list. All facilities remaining in the

universe which have not been visited during the previous two monitoring years should be scheduled for site visits.

2) Facilities which have been added to the universe or which have changed classification *must* receive site visits within three years of their addition to the universe, but as many as possible should receive visits during the year in which they are added. The decision to delay site visits for these facilities is based on cost-efficient travel: each should be added to scheduled visits of other sites in the region.

3) Facilities identified during the data collection phase of the monitoring process (Section V above) as having no data or inadequate data *may* be scheduled for visits for the purpose of data collection. The decision should be based on geographic considerations and the cost of travel.

B. Conducting Site Visits

Facilities selected for site visits should be scheduled for visitation at a time which is convenient for both facility staff and monitoring staff. Efficiency is improved to the extent that facilities which lie on a single commercial air carrier route are scheduled sequentially for site visits. It is therefore recommended that current flight schedules for all local airlines and air services in each region of the state be obtained prior to scheduling of site visits. These flight schedules should be examined carefully to determine optimum sequencing for site visits.

In some areas of the state commercial airlines may stop in villages only once per day. It may be more cost-efficient to charter planes under these circumstances; three or four villages can often be visited in a day with a charter, while with commercial planes visits to three or four villages will take three or four days–salary and *per diem* costs need to be considered.

Initial contact with each facility which has not already been contacted regarding data collection should be by telephone, followed by a letter explaining the monitoring process and the nature of the inspection and accompanied by a copy of the initial letter of authorization sent by the Director of DFYS.

Each facility visited during the current monitoring effort should be inspected. As explained in the Formula Grant regulation:

> 28 CFR Part 31.303(f)(1)(i)
> (C) **Inspection of Facilities**: Inspection of facilities is necessary to ensure an accurate assessment of each facility's classification and record keeping. The inspection must include: (1) A review of the physical accommodations to determine whether it is a secure or non-secure facility or whether adequate sight and sound separation between juvenile and adult offenders exists and (2) a review of the record keeping system to determine whether sufficient data are maintained to determine compliance with section 223(a)(12), (13) and (14) of the JJDP Act.
>
> ***–28 CFR Part 31.303(f)(1)(i)(C)***

Additionally, the Formula Grant regulation requires on-site verification of self-report data:

28 CFR Part 31.303(f)(1)(i)
(D) … If the data is self-reported by the facility or is collected and reported by an agency other than the State agency designated pursuant to section 223(a)(1) of the JJDP Act … a statistically valid procedure [must be] used to verify the reported data.

–28 CFR Part 31.303(f)(1)(i)(D)

For each facility visited, notes should be prepared which contain, at a minimum:

1) A general description of the jurisdiction in which the facility is located.

2) A description of who (which agency) administers the facility.

3) A general description of the facility, the services it provides and the clients it serves.

4) A description of the security provisions and methods of supervision at the facility and a determination that the facility meets (or fails to meet) the definition of a secure facility as provided in the Formula Grant regulation. (See Section IV of these guidelines for definitions of facility types).

5) A hand-sketched diagram of the facility, including the "juvenile area" of adult facilities.

6) A detailed description of the provisions for sight and sound separation in adult facilities and a determination that separation of juvenile and adult inmates is adequate (or inadequate). A guide for separation monitoring is included in Appendix E and may be used by site visitors to determine the adequacy of separation.

7) A detailed description of the admission data reviewed. The following procedures should be followed in examining admission records:

(a) At each facility from which mail-in data have not been received prior to the site visit it will be necessary, first, to determine whether detention records containing adequate monitoring data are systematically maintained for all persons placed in secure confinement and, if so, to collect the requisite data for all juveniles detained at the facility during the monitoring period. (The Booking Log Data Form contained in Appendix E should be used for this purpose. This form should be made available to non-reporting facilities for use in record maintenance.)

(b) At each facility for which a photocopy of the facility's booking log has already been submitted by mail, you should compare not less than 10 percent of entries in the booking log with booking records contained in appropriate case files to verify the accuracy of information entered in the booking log. You should also examine a sample of not less than 10 percent of all case files which might include data pertaining to instances of detention during the current monitoring period to determine whether a booking log entry has been made each time a person has been detained at the facility.

(c) At facilities which have submitted photocopies of individual booking records, rather than a booking log, at least 10 percent of case files which might contain data pertaining to instances of detention during the current monitoring period should be examined on-site to verify that a booking record has been submitted for every instance of detention during the monitoring period.

(d) If the facility has submitted self-report data (i.e. any data which are not contained in certified reproductions of original records generated at the time of detention), a sample of not less than 10 percent of entries should be compared with original records to determine

the accuracy of information reported in the self-report data, and a sample of not less than 10 percent of case files which might contain data pertaining to instances of detention during the current monitoring period should be examined to verify that all instances of detention have been reported.

(e) For each case examined at *all* facilities, booking records should be carefully examined to verify that the individual was actually placed in secure confinement, as defined in Section IV of these guidelines. A juvenile who has been "booked" at a facility, but who has not been placed in secure confinement should *not* be reported as a violation of any requirement of the JJDP Act.

8) A list of findings in relation to the admission data reviewed.

9) A description of the documents examined to verify any instances of detention which might constitute valid court order exceptions to the deinstitutionalization requirement of the JJDP Act and a photocopy of each document supporting designation of an instance of detention as a valid court order exception. Verification of valid court order exceptions will require examination of facility records pertinent to each instance of juvenile detention in which the exception may apply. In each case, the person performing on-site verification must photocopy all court documents or other records which indicate the presence of conditions which must be present in order for the valid court order exception to apply, as described in 28 CFR Part 31.303(f)(3). If records are insufficient to support a determination of the presence or absence of a violation, the instance of detention must be reported as a violation of Section 223(a)(12)(A) [the deinstitutionalization requirement] of the JJDP Act. Detailed procedures for verification of valid court order exceptions are described in Section VII(C)(3) of these guidelines.

10) A description of the area(s) designated for confinement and an explanation why this/these area(s) is/are secure or not secure, based on the definitions contained in Section IV of these guidelines.

The date of each inspection, and any changes in classification, should be noted in the Monitoring Universe listing in Appendix B.

VII. DATA ANALYSIS

A. Entering and Cleaning Data

Data should be entered in an ASCII format for analysis using SPSSx or comparable software. The following data for each case must be entered for each instance of secure detention in an adult facility involving a juvenile who is under 18 years of age and for each instance of secure detention in a juvenile detention center involving a juvenile who is under 18 years of age and who is not confirmed to be an accused or adjudicated criminal-type offender as defined in Section VII(B) of these guidelines:

- Identification number
- Facility
- Facility type
- Name or initials of juvenile
- Date of birth
- Race
- Sex
- Date admitted
- Time admitted
- Offense(s)
- Date released
- Time released
- Total hours (if indicated in facility records)
- Book only/lockup (in adult facilities)

Data entry will be expedited if all cases which must be entered are highlighted with a marking pen prior to data entry. For adult facilities, this may be accomplished by highlighting/entering data for all persons whose year of birth is consistent with possible juvenile status (e.g., in monitoring for juvenile incarceration in 1994, all cases involving persons whose year of birth is 1976 or later may be entered, and SPSS commands can be used to eliminate those who had reached their 18th birthday prior to the date of detention). Data should be entered for all juveniles detained in juvenile facilities. The program should remove all cases where a criminal-type offense is the reason for detention and will leave the cases which require closer examination.

Once all data have been entered, the data should be cleaned to remove incorrectly entered data. No special techniques are required in data cleaning, provided that generally acceptable methods are employed. A discussion of data cleaning methods is beyond the scope of this manual. If guidance is required, it is recommended that a research methods text be consulted.

B. Classification of Offenders

The following definitions of offender types are contained in the Formula Grant regulation:

> 28 CFR Part 31.304
>
> (d) **Juvenile who is accused of having committed an offense**. A juvenile with respect to whom a petition has been filed in the juvenile court or other action has occurred alleging that such juvenile is a juvenile offender, i.e. a criminal-type offender or a status offender, and no final adjudication has been made by the juvenile court.
>
> (e) **Juvenile who has been adjudicated as having committed an offense**. A juvenile with respect to whom the juvenile court has determined that such juvenile is a juvenile offender, i.e. a criminal-type offender or a status offender.
>
> (f) **Juvenile offender**. An individual subject to the exercise of juvenile court jurisdiction for purposes of adjudication and treatment based on age and offense limitations as defined by State law, i.e. a criminal-type offender or a status offender.
>
> (g) **Criminal-type offender**. A juvenile offender who has been charged with or adjudicated for conduct which would, under the law of the jurisdiction in which the offense was committed, be a crime if committed by an adult.

(h) **Status offender**. A juvenile offender who has been charged with or adjudicated for conduct which would not, under the law of the jurisdiction in which the offense was committed, be a crime if committed by an adult.

(i) **Non-offender**. A juvenile who is subject to the jurisdiction of the juvenile court, usually under abuse, dependency, or neglect statutes for reasons other than legally prohibited conduct of the juvenile.

–28 CFR Part 31.304(d), (e), (f), (g), (h) and (i)

Note: *Underage drinking is a criminal offense (Class A misdemeanor) under Alaska statutes, but, for purposes of the JJDP Act, minor consuming is a status offense.*

The following procedures should be used in classifying juveniles as accused criminal-type offenders, adjudicated criminal-type offenders, accused status offenders and adjudicated status offenders for purposes of JJDP monitoring:

1. Accused Criminal-type Offenders. Juveniles detained for the following should be classified as *accused criminal-type offenders* for purposes of JJDP monitoring, except those eliminated from juvenile detention data:

- Violation of Alaska Statutes:
  –Title 11 (Criminal Law)
  –Title 16 (Fish and Game)
  –Title 28 (Motor Vehicles)
- Violation of local traffic ordinances
- Traffic Warrants
- Failure to Appear
- Contempt of Court
- Material Witness
- Violation of any other statute or ordinance for which a person may be sentenced to a jail or prison term *except* violations of AS 4.16.050, possession or consumption [of alcohol] by persons under the age of 21, in which case the juvenile should be classified as an accused status offender as described below

2. Adjudicated Criminal-type Offenders. Subject to the verification procedures described in Section VII(C)(2) of these guidelines, juveniles detained for any of the following reasons should be classified as *adjudicated criminal-type offenders* unless (1) the juvenile is accused of committing a new criminal-type offense, in which case the juvenile should be classified as an accused criminal-type offender, or (2) conditions of probation were imposed pursuant to an adjudication for violation of AS 4.16.050 (possession or consumption of alcohol), in which case the juvenile should be classified as an adjudicated status offender:

- Probation Violation
- Violation of Conditions of Release
- Warrant (Bench Warrant, Juvenile Pick-up Order)
- Detention Order (Court Order)
- Transfer
- Juvenile Hold (Juvenile Probation Hold)
- Delinquent Minor
- Agency Assist
- Sentence (Serve Time)
- Re-book (RBK)

- Failure to Serve Time
- AWOL (Leaving Placement)

3. Accused Status Offenders. Juveniles detained for the following should be classified as *accused status offenders* for purposes of JJDP monitoring:

- Possession or consumption of alcohol (minor consuming alcohol, minor in possession, minor on premises)
- Curfew violations
- Runaway
- Protective Custody (Alcohol) in excess of 12 hours as prescribed in AS 47.37.170.

4. Adjudicated Status Offenders. In addition to juveniles identified as children in need of aid under the provisions of AS 47.10.010 or comparable statutes governing juvenile court jurisdiction in other states, juveniles detained for any of the reasons identified in Section VII(B)(2) of these guidelines should be classified as *adjudicated status offenders* if their names and birthdates are included on the list of juveniles previously adjudicated delinquent for possession or consumption of alcohol described in Section VII(C)(2) of these guidelines or if the verification procedures described in Section VII(C)(2) reveal that they are adjudicated status offenders.

5. Nonoffenders. Juveniles detained because they are victims of child abuse or neglect should be classified as *nonoffenders* for purposes of JJDP monitoring.

6. Protective Custody. Juveniles detained in adult jails, lockups and correctional facilities for protective custody under AS 47.30.705 (which provides for emergency detention of mentally ill persons where "considerations of safety do not allow initiation of involuntary commitment procedures …") or AS 47.37.170 (which provides for emergency detention of persons who are incapacitated by alcohol in a public place) should be counted as violations of Section 223(a)(13) [the separation requirement] of the JJDP Act. However, because juveniles are accorded the same treatment given adults taken into custody under the protective custody statutes, instances of detention involving juveniles lawfully detained under protective custody statutes should not be counted as violations of either Section 223(a)(12)(A) [the deinstitutionalization requirement] or Section 223(a)(14) [the jail removal requirement] of the JJDP Act. Because AS 47.37.170 permits protective custody of a person who is incapacitated by alcohol for no more than 12 hours, any juvenile held under this statute for longer than 12 hours should be deemed an accused status offender for JJDP monitoring purposes, since consumption of alcohol in violation of AS 4.16.050 is a status offense. In JJDP monitoring, the 12-hour limit should be applied to all protective custody cases except those where facility records indicate that protective custody was based on mental illness under AS 47.30.705. There is no definitive time limit for protective custody of mentally ill persons. The following terms are used in detention records to designate protective custody cases:

- Protective Custody (PC)
- Protective Custody–Alcohol

- Protective Custody–Mental
- Noncriminal Booking
- Detox
- Sleep Off
- Mental Hold
- Title 47

Many shorthand terms, acronyms, etc. are used by individual facilities to indicate reasons for detention. Definitions and proper offender-type classifications for terms commonly used by facilities in previous years are contained in Appendix C, which should be updated each year.

C. Special Problems in Classification of Offenders

1. Multiple Offenses. Where a juvenile is charged with multiple offenses of different types, the following rules should be applied to determine the appropriate offender-type classification:

(a) If **protective custody** is given as one of the reasons for detention, the offender-type should be protective custody **except** where the lawful duration of protective custody has been exceeded. In this event, rules (ii) through (v) should be followed.

(b) If a criminal-type offense (including traffic offenses and fish and game violations) is charged **and** there is no indication that the juvenile was adjudicated or convicted for this offense prior to detention, the offender-type should be accused criminal-type offender **except** where rule (i) applies.

(c) If **probation violation** or **violation of conditions of release** or **sentence** or **warrant** or **detention order** is given as one of the reasons for detention **and** the juvenile is determined to have been placed on probation for a criminal-type offense, the offender-type should be adjudicated criminal-type offender **except** where rule (i) or rule (ii) applies.

(d) If a **status offense** (including possession or consumption of alcohol) is charged **and** there is no indication that the juvenile has already been adjudicated for this offense, the offender-type should be accused status offender **except** where rule (i) or rule (ii) or rule (iii) applies.

(e) If **probation violation** or **violation of conditions of release** or **sentence** or **warrant** or **detention order** is given as one of the reasons for detention **and** the juvenile is determined to have previously been either placed on probation for a status offense (i.e. minor consuming alcohol) or adjudicated a Child In Need of Aid (CINA), the offender-type should be adjudicated status offender **except** where rule (i) or rule (ii) or rule (iii) or rule (iv) applies.

2. Probation Violations, Warrants, Detention Orders, etc. Where the reason for detention is one of the following, the juvenile should be classified as an adjudicated criminal-type offender, **unless** additional information indicates a more appropriate classification **or** the results of the verification procedures described below necessitate a different method of classification:

- Probation Violation
- Violation of Conditions of Release
- Warrant (Bench Warrant, Juvenile Pick-up Order)
- Detention Order (Court Order)
- Transfer
- Juvenile Hold (Juvenile Probation Hold)

- Delinquent Minor
- Agency Assist
- Sentence (Serve Time)
- Re-book (RBK)
- Failure to Serve Time
- AWOL (Leaving Placement)

In order to verify this method of classifying these instances of detention, the following procedure should be followed:

Each instance of detention involving a juvenile detained for one of the reasons listed above must be checked against a comprehensive list of juveniles adjudicated delinquent for violation of AS 4.16.050 (possession or consumption of alcohol by persons under 21) on or after January 1, 1985. This list, hereafter identified as the MCA (minor consuming alcohol) list, is maintained by the DFYS Associate Coordinator for Juvenile Justice and Delinquency Prevention. The Coordinator should be asked to update the MCA list each year by requesting each intake/probation office to report the name and date of referral for each juvenile adjudicated delinquent for minor consuming alcohol during the previous year. The list need not include juveniles who were already on probation for criminal-type offenses at the time of the MCA adjudication, but any subsequent adjudication for a criminal-type offense should be noted. Juveniles whose names are on the updated MCA list should be classified as adjudicated status offenders **except** where (a) the juvenile was subsequently adjudicated for a criminal-type offense and the current instance of detention took place **after** the subsequent adjudication (in which case the juvenile should be classified as an adjudicated criminal-type offender), or (b) a more appropriate classification is indicated pursuant to the rules for classifying juveniles charged with multiple offenses. (See Section VII(C)(1) of these guidelines). Juveniles whose names are **not** on the updated MCA list **and** who were detained for **Probation Violation** should be classified as adjudicated criminal-type offenders **except** where a more appropriate classification is indicated by the classification rules. Further verification, as described below, is required for all other cases described in this section.

Instances of detention pursuant to a warrant or court order (except those for which additional information is sufficient to properly classify the juvenile), and instances of detention where one of the other reasons for detention listed above (**except** Probation Violation) is indicated, should also be verified through a check of facility records at any juvenile detention center where such instances of detention occured during the current monitoring period. This will require examination of facility and/or other records pertaining to all such instances of detention which took place at the facility during the current monitoring period. For each case, the reason for issuance of the warrant or court order–or the specific reason for detention, if none is indicated in records submitted by mail–and the probation status of the juvenile should be determined. If any instances of detention verified in this manner are determined to involve juveniles who are not adjudicated criminal-type offenders or

juveniles who have been adjudicated delinquent for possessing or consuming alcohol, it will be necessary **either** (a) to verify all other instances of detention pursuant to warrants, detention orders or other reasons listed above on a case-by-case basis **or** (b) to devise a method for projecting an appropriate classification for each instance of detention which has not been verified, based on the distribution of offender-types among the instances of detention which were subjected to verification.

3. Valid Court Orders. Under Section 223(a)(12)(A) [the deinstitutionalization requirement] of the JJDP Act, any instance of detention involving a status offender or nonoffender who is detained for violation of a valid court order does **not** constitute a violation of the deinstitutionalization requirement, provided that a detention hearing is held within 24 hours. As provided in the Formula Grant regulation:

> 28 CFR Part 31.303(f)
> (3) **Valid Court Order**. For the purpose of determining whether a valid court order exists and a juvenile has been found to be in violation of that valid order all of the following conditions must be present prior to secure incarceration:
> (i) The juvenile must have been brought into a court of competent jurisdiction and made subject to an order issued pursuant to proper authority. The order must be one which regulates future conduct of the juvenile.
> (ii) The court must have entered a judgment and/or remedy in accord with established legal principles based on the facts after a hearing which observes the proper procedures.
> (iii) The juvenile in question must have received adequate and fair warning of the consequences of violation of the order at the time it was issued and such warning must be provided to the juvenile and to the juvenile's attorney and/or legal guardian in writing and be reflected in the court record and proceedings.
> (iv) All judicial proceedings related to an alleged violation of a valid court order must be held before a court of competent jurisdiction. A juvenile accused of violating a valid court order may be held in secure detention beyond the 24-hour grace period permitted for a noncriminal juvenile offender under OJJDP monitoring policy, for protective purposes as prescribed by State law, or to assure the juvenile's appearance at the violation hearing, as provided by State law, if there has been a judicial determination based on a hearing during the 24-hour grace period that there is probable cause to believe the juvenile violated the court order. In such case the juveniles may be held pending a violation hearing for such period of time as is provided by State law, but in no event should detention prior to a violation hearing exceed 72 hours exclusive of nonjudicial days. A juvenile found in a violation hearing to have violated a court order may be held in a secure detention or correctional facility.
> (v) Prior to and during the violation hearing the following full due process rights must be provided:
> (A) The right to have the charges against the juvenile in writing served upon him a reasonable time before the hearing;
> (B) The right to a hearing before a court;
> (C) The right to an explanation of the nature and consequences of the proceeding;
> (D) The right to legal counsel, and the right to have such counsel appointed by the court if indigent;
> (E) The right to confront witnesses;
> (F) The right to present witnesses;
> (G) The right to have a transcript or record of the proceedings; and
> (H) The right of appeal to an appropriate court.
> (vi) In entering any order that directs or authorizes disposition of placement in a secure facility, the judge presiding over an initial probable cause hearing or violation hearing must determine that all the elements of a valid court order (paragraphs (f)(3)(i), (ii) and (iii) of this section) and the applicable due process rights (paragraph (f)(3)(v) of this section) were afforded the juvenile and, in the case of a violation hearing, the judge must determine that there is no less restrictive alternative appropriate to the needs of the juvenile and the community.
> (vii) A non-offender such as a dependent or neglected child cannot be placed in secure detention or correctional facilities for violating a valid court order.
>
> ***–28 CFR Part 31.303(f)(3)***

Valid court order exceptions to the requirements of Section 223(a)(12)(A) [the deinstitutionalization requirement] must be verified on a case-by-case basis. To determine whether the valid court order exception applies, the following procedure should be followed:

For each instance of detention of an accused status offender for more than 24 hours (not including weekends and holidays), and each instance of detention of an adjudicated status offender for any length of time, photocopies of all pertinent court documents should be obtained from the facility, the court or the probation officer or intake officer handling the case. This may be accomplished when the facility is inspected, or appropriate documentation may be submitted by mail. For the exception to apply, there must be evidence that each of the requirements indicated in the Formula Grant regulation is present. If facility records are insufficient to support a determination that the valid court order exception applies, the instance of detention must be reported as a violation of Section 223(a)(12)(A) [the deinstitutionalization requirement] of the JJDP Act. The following documentation is sufficient to verify each valid court order exception:

- A court order clearly intended to regulate future conduct of the child (e.g. disposition order placing the child under conditions of probation);
- A detention order or other record indicating that the juvenile was detained for violating the court order and that a detention hearing was held at the time of detention or within the 24-hour grace period; and
- An adjudication order or other record indicating that a violation hearing was held within 72 hours should also be obtained. ***Note:*** The Formula Grant regulation indicates that a violation hearing **should** be held within 72 hours, but this is **not** a requirement which must be present in order for the valid court order exception to apply.

4. Inadequate Offense Data. Admission records and other records at at least one juvenile detention facility should be examined to determine the reason for detention in instances where offense information submitted by the facility is not sufficient to permit determination of the appropriate offender-type classification. This should be done at the same time as the verification of offender-type classifications discussed in Section VII(C)(2) of these guidelines. A list of all instances of detention for which the reason for detention is inadequately specified should be sent to the facility with a request that facility staff provide documentation (e.g. a photocopy of the admission record or the arrest report prepared by the arresting officer) of the reason for detention in each case. A procedure for projecting offense data for instances of detention for which no reason for detention is recorded and for instances of detention at adult facilities where insufficient offense data have been submitted is described in Section VII(E)(4) of these guidelines.

D. Determining Duration of Detention

The Formula Grant regulation provides for a 24-hour grace period during which an accused status offender may be held in either a secure juvenile facility or a secure adult facility without

violating the deinstitutionalization requirement of the JJDP Act. The Formula Grant regulation also provides for a 6-hour grace period during which an accused criminal-type offender may be held in a secure adult facility without violating the jail removal requirement of the act. Procedures for calculating the duration of detention to determine whether a juvenile was released within the applicable grace period are as follows:

1. 24-Hour Grace Period. The Formula Grant regulation requires states to report as violations of the deinstitutionalization requirement the "[t]otal number of accused status offenders and non-offenders held in any secure detention or correctional facility as defined in §31.303(f)(2) for longer than 24 hours (not including weekends and holidays), excluding those held pursuant to the valid court order provision as defined in paragraph (f)(3) of this section" [28 CFR Part 31.303(f)(5)(i)(C)] and the number of adjudicated status offenders held for any period of time.

For each instance of detention where all data relevant to determination of the duration of detention (i.e. date in, time in, date out, time out) are available, initial computation of the duration of detention is straightforward and can be accomplished using a computerized time interval computation function such as the YRMODA function contained in SPSSx software. Where data for one or more of these variables are missing, logical inferences may be employed to supplement computerized calculations (e.g. if date in and date out are the same, it can reasonably be inferred that the duration of detention is less than 24 hours even if time in and time out data are missing). For cases lacking sufficient data for duration of detention to be either calculated or inferred, the data projection method described in Section VII(E)(3)(a) of these guidelines should be employed.

Once duration of detention is calculated, inferred or projected for all cases involving accused status offenders, a printout of all cases in which detention extended beyond the 24-hour grace period should be generated. This printout should identify each case and show the date and time of admission and release for each instance of detention. Each case should be individually checked to determine whether the detention period included any portion of a weekend or judicial holiday. Judicial holidays and business hours for superior and district courts are described in Rules 16 and 18 of Alaska Rules of Court, Rules Governing the Administration of All Courts:

Rule 16. Judicial Holidays–Transaction of Business

(a) Judicial Holidays. Subject to the provisions of AS 22.10.050 and AS 22.15.090, no court shall be open for the transaction of business on any judicial holiday as defined herein unless ordered by the presiding judge for good cause shown.

Judicial holidays are:

(1) Every Sunday;
(2) The first of January, known as New Year's Day;
(3) The 12th of February, known as Lincoln's Birthday;
(4) The third Monday in February, known as Washington's Birthday;
(5) The last Monday of March, known as Seward's Day;
(6) The last Monday in May, known as Memorial Day;
(7) The fourth of July, known as Independence Day;
(8) The first Monday in September, known as Labor Day;
(9) The 18th of October, known as Alaska Day;
(10) The 11th of November, known as Veteran's Day;

(11) The fourth Thursday in November, known as Thanksgiving Day;
(12) The 25th of December, known as Christmas Day;
(13) Every day designated by public proclamation by the President of the United States or the Governor of the state as a legal holiday.

If any day specified or provided for as a holiday in this rule falls on a day appointed for the holding or sitting of a court, or to which it is adjourned, it shall be deemed appointed for or adjourned to the next day not a judicial holiday.

(b) Holidays Falling on Sunday or Saturday. If any holiday designated in Rule 16(a)(2) through (12) falls upon a Sunday, the Monday following is a holiday and if it falls on a Saturday, the Friday preceding is a holiday.

(c) Special or Limited Holidays. On any special or limited holiday, all courts shall be open and function in their normal and usual manner. A special or limited holiday is a holiday applying only to a special class or classes of persons, and not appointed to be generally observed throughout the state by all classes of business and all classes of persons.

…

Rule 18. Superior and District Courts–Time and Place of Sitting

(a) Superior and District Courts–When Open for Business. The superior and district courts shall be open for the transaction of business during business hours from 8:00 a.m. until 4:30 p.m. on all days except judicial holidays and Saturdays; provided, however, that the courts may at any time extend these hours as circumstances may require or as may be ordered by the presiding judge.

–Alaska Rules of Court*, Rules Governing the Administration of All Courts, Rule 16 and Rule 18(a)*

For each case involving detention during any portion of the period between 4:30 p.m. on a Friday or the day before a judicial holiday and 8:00 a.m. on a Monday or the day after a judicial holiday, the duration of detention should be re-calculated to reflect only that portion which occurred before and/or after the weekend or holiday. Any case(s) which are determined through re-calculation of the duration of detention to fall within the 24-hour grace period should **not** be reported as violations.

2. 6-Hour Grace Period. The Formula Grant regulation requires states to report as violations of the jail removal requirement the "[t]otal number of juvenile criminal-type offenders held in adult jails in excess of six hours" [28 CFR Part 31.303(f)(5)(iv)(G)] and the "[t]otal number of juvenile criminal-type offenders held in adult lockups in excess of six hours" [28 CFR Part 31.303(f)(5)(iv)(H)]. The Office of Juvenile Justice and Delinquency Prevention has interpreted these sections to apply only to **accused** criminal-type offenders**; adjudicated** criminal-type offenders may not be held in adult facilities for **any** length of time.

As with computation of duration of detention for accused status offenders, calculations are straightforward if data are available for all relevant variables (i.e. date in, time in, date out, time out). The YRMODA function in SPSSx, or a comparable function, should be used for this purpose. Where data for one or more of these variables are missing, logical inferences may be employed to supplement computerized calculations (e.g. if date in and date out are the same, and time in is 6:00 p.m. or later, it can reasonably be inferred that the duration of detention is less than 6 hours even if time out data are missing). For cases lacking sufficient data for duration of detention to be either calculated or inferred, the data projection method described in Section VII(E)(3)(b) of these guidelines should be employed. Note that there are no provisions in the Formula Grant regulation or elsewhere for excluding weekends and holidays in determining whether the 6-hour grace period has been exceeded. **All** cases involving accused criminal-type offenders for whom the duration of detention

is calculated, inferred or projected to exceed six hours must be reported as violations of the jail removal requirement.

E. Data Projection

1. Partial Data for Monitoring Period. Complete data for the entire monitoring period should be collected from each facility included in the monitoring effort. It is possible, however, that data for the full monitoring period may be unavailable for some facilities. In this event, it will be necessary to project data for such facilities to cover the entire monitoring period. This should be done by computing, for each facility, the proportion of the year for which data are available and weighting each instance of detention at the facility by a factor equal to the reciprocal of that proportion. Thus, for example, each instance of juvenile detention at a facility for which data are unavailable for the period between November 22, 1988 and December 31, 1988 should be weighted by a factor of 1.12 (366 days in the year divided by 327 days elapsed prior to November 22nd). With this weighting procedure, instances of noncompliant detention during the portion of the year for which data are unavailable are projected to have occurred at a rate identical to the rate of noncompliant detention during that portion of the year for which data are available.

2. Inadequate Admission Data. Data for facilities which fail to submit data or whose records are determined to be inadequate for monitoring purposes should be projected for each type of facility by assigning a weight equal to the reciprocal of the proportion of all facilities of that type represented by those included in the analysis to each case involving detention of a juvenile in that type of facility. Thus, for example, if there are 90 adult lockups in the monitoring universe, but adequate data are obtained from only 50 of them, each instance of detention at an adult lockup should be weighted by a factor of 1.8 (90 adult lockups in the monitoring universe divided by 50 adult lockups from which adequate data were obtained).

3. Duration of Detention. In addition to projection of data for facilities for which less than a full year of data are collected and for facilities which do not maintain adequate records, it may be necessary to project data regarding duration of detention for cases for which such data are inadequate. Separate procedures should be followed in projecting data to determine the number of instances of detention involving (a) accused status offenders held for more than 24 hours in violation of the deinstitutionalization requirement and (b) accused criminal-type offenders held in adult facilities for more than 6 hours in violation of the jail removal requirement). Procedures for making both projections are as follows:

a. Accused Status Offenders (Deinstitutionalization). Projection of data regarding duration of detention for cases involving accused status offenders where records are insufficient to determine whether the 24-hour grace period permitted under 28 CFR Part 31.303(f)(5)(i)(C) has been exceeded

should proceed as follows: The proportion of cases in which detention extended beyond the 24-hour grace period should be computed for all cases involving detention of status offenders and for which all variables used in computation of the duration of detention are available. The cases for which duration of detention cannot be determined should each be assigned a weight equal to the proportion of noncompliant instances among all cases involving detention of status offenders for which all pertinent data are available.

b. Accused Criminal-type Offenders (Jail Removal). In order to determine the appropriate weight to assign each case involving accused criminal-type offenders for which data sufficient to determine the duration of detention are unavailable, the proportion of cases in which detention extended beyond the 6-hour grace period should be computed for all cases involving detention of an accused criminal-type offender in an adult facility and for which all variables used in computation of the duration of detention are available. Each case for which duration of detention cannot be determined should be assigned a weight equal to the proportion of noncompliant instances among all cases involving detention in adult facilities of juveniles accused of criminal-type offenses for which sufficient data are available.

4. Inadequate Offense Data. Data projection for cases where the reason for detention is inadequately specified will require computation, for each type of facility, of the proportion of accused criminal-type offenders, adjudicated criminal-type offenders, accused status offenders and adjudicated status offenders among all instances of juvenile detention for which records are sufficiently complete to permit identification of the type of offender. Weights should be assigned as follows:

- In calculations employed to determine the total number of accused criminal-type offenders held in adult facilities for more than six hours in violation of the jail removal requirement (item F7 in the monitoring report), each case for which offense information is inadequate should be assigned a weight equal to the proportion of accused criminal-type offenders among all juveniles detained in the same type of facility and for which records are sufficiently complete to permit identification of the type of offender.
- In calculation of the total number of adjudicated criminal-type offenders held in adult facilities for any length of time in violation of the jail removal requirement (item F9), each case for which offense information is inadequate should be assigned a weight equal to the proportion of adjudicated criminal-type offenders among all instances of detention in the same type of facility and for which offense information is adequate.
- In calculations used to determine the total number of accused and adjudicated status offenders held for any length of time in adult facilities in violation of the jail removal requirement (item F11), each case for which offense information is inadequate should be weighted by a factor equal to the proportion of accused and adjudicated status offenders among all instances of detention in the same type of facility and for which offense information is adequate.
- In calculations employed to determine the total number of accused status offenders held over 24 hours in violation of the deinstitutionalization requirement (item B5), each case for which offense information is inadequate should be assigned a weight equal to the proportion

of accused status offenders among all juveniles detained in the same type of facility and for which records are sufficiently complete to permit identification of the type of offender

- In calculations used to determine the total number of adjudicated status offenders held for any length of time in violation of the deinstitutionalization requirement (item B6), each case for which offense information is inadequate should be assigned a weight equal to the proportion of adjudicated status offenders among all juveniles detained in the same type of facility and for which records are sufficient for identification of the type of offender.

5. Inadequate Age Data. Cases with missing or obviously incorrect birthdates should be recoded to indicate that the person is a juvenile where detention occurs at a juvenile detention center. Where data for facilities which house juveniles and adults include such cases, these cases should be weighted as follows: Records submitted by some facilities identify detainees as juveniles or adults (e.g. the Client Billing Sheets submitted by jails which provide adult detention services under contract with the Department of Public Safety contain a separate column in which juvenile charges are entered). It should be possible to identify cases which do not include a birthdate but provide some indication whether the person is an adult or juvenile and to determine the proportion of juveniles among these cases. A weight equal to this proportion should be assigned each case for which no indication of age is present. Each case for which age status is indicated should be counted as an instance of juvenile detention only if the person is identified as a juvenile.

6. Data Projection in Practice. The weighting procedure described above–involving data projection for facilities which are unable to submit adequate data, for facilities from which data for less than the full year have been obtained, for cases lacking sufficient data to determine the duration of detention, for cases in which data are insufficient for identification of the type of offender and for cases where the age of the offender cannot be determined–is most easily implemented in practice by assigning a weight equivalent to the product of the five separate weights to each case. Because the product of the five weights may be less than 1.00 for the majority of weighted cases (i.e. those in which offense data, age data and/or data related to duration of detention are inadequate), the projected number of noncompliant instances for both the deinstitutionalization and jail removal sections of the monitoring report may be smaller than the number of unweighted cases upon which it is based.

VIII. PREPARATION OF MONITORING REPORT

The information which must be included in monitoring reports is described in the Formula Grant regulation as follows:

> 28 CFR Part 31.303(f)
>
> (5) **Reporting Requirement**. The State shall report annually to the Administrator of OJJDP on the results of monitoring for section 223(a)(12), (13), and (14) of the JJDP Act. The reporting period should provide 12 months of data, but shall not be less than 6 months. Three copies of the report shall be submitted to the Administrator of OJJDP no later than December 31 of each year.

(i) To demonstrate the extent of compliance with section 223(a)(12)(A) of the JJDP Act, the report must at least include the following information for both the baseline and the current reporting periods.

(A) Dates of baseline and current reporting period.

(B) Total number of public and private secure detention and correctional facilities AND the number inspected on-site.

(C) Total number of accused status offenders and non-offenders held in any secure detention or correctional facility as defined in §31.303(f)(2) for longer than 24 hours (not including weekends and holidays), excluding those held pursuant to the valid court order provision as defined in paragraph (f)(3) of this section.

(D) Total number of adjudicated status offenders and non-offenders held in any secure detention or correctional facility as defined in §31.303(f)(2), excluding those held pursuant to the valid court order provision as defined in paragraph (f)(3) of this section.

(E) Total number of status offenders held in any secure detention or correctional facility pursuant to a judicial determination that the juvenile violated a valid court order as defined in paragraph (f)(3) of this section.

(ii) To demonstrate the extent to which the provisions of section 223(a)(12)(B) of the JJDP Act are being met, the report must include the total number of accused and adjudicated status offenders and non-offenders placed in facilities that are:

(A) Not near their home community;

(B) Not the least restrictive appropriate alternative; and

(C) Not community based.

(iii) To demonstrate the progress toward and extent of compliance with section 223(a)(13) of the JJDP Act, the report must at least include the following information for both the baseline and the current reporting periods.

(A) Designated date for achieving full compliance.

(B) The total number of facilities used to detain or confine both juvenile offenders and adult criminal offenders during the past 12 months AND the number inspected on-site.

(C) The total number of facilities used for secure detention and confinement of both juvenile offenders and adult criminal offenders which did not provide adequate separation.

(D) The total number of juvenile offenders and non-offenders NOT adequately separated in facilities used for the secure detention and confinement of both juveniles and adults.

(iv) To demonstrate the progress toward and extent of compliance with section 223(a)(14) of the JJDP Act the report must at least include the following information for the baseline and current reporting periods:

(A) Dates of baseline and current reporting period.

(B) Total number of adult jails in the State AND the number inspected on-site.

(G) Total number of juvenile criminal-type offenders held in adult lockups in excess of six hours.

(H) Total number of juvenile criminal-type offenders held in adult lockups in excess of six hours.

(I) Total number of accused and adjudicated status offenders and non-offenders held in any adult jail or lockup.

(J) Total number of juveniles accused of a criminal-type offense who were held in excess of six hours but less that 24 hours in adult jails and lockups in areas meeting the "removal exception" as noted in paragraph (f)(4) of this section.

–28 CFR Part 31.303(f)(5)

The Formula Grant regulation also requires the state to document the extent to which the requirements of the JJDP Act are met:

28 CFR Part 31.303(f)

(6) **Compliance**. The State must demonstrate the extent to which the requirements of section 223(a)(12)(A), (13), and (14) of the Act are met. Should the State fail to demonstrate compliance with the requirements of this Section within the designated time frames, eligibility for formula grant funding shall terminate. The compliance levels are:

(i) **Substantial compliance** with section 223(a)(12)(A) requires within three years of initial plan submission achievement of a 75% reduction in the aggregate number of status offenders and non-offenders held in secure detention or correctional facilities or removal of 100% of such offenders from

secure correctional facilities only. In addition, the State must make an unequivocal commitment, through appropriate executive or legislative action, to achieving full compliance within two additional years. **Full compliance** is achieved when a State has removed 100% of such juveniles from secure detention and correctional facilities or can demonstrate full compliance with **de minimis** exceptions pursuant to the policy criteria contained in the Federal Register of January 9, 1981 (46 FR 2568-2569).

(ii) **Compliance** with section 223(a)(13) has been achieved when a State can demonstrate that:

(A) The last submitted monitoring report, covering a full 12 months of data, demonstrates that no juveniles were incarcerated in circumstances that were in violation of section 223(a)(13); or

(B)(1) State law, regulation, court rule, or other established executive or judicial policy clearly prohibits the incarceration of all juvenile offenders in circumstances that would be in violation of section 223(a)(13);

(2) All instances of noncompliance reported in the last submitted monitoring report were in violation of, or departures from, the State law, rule or policy referred to in paragraph (f)(6)(ii)(B)(1) of this section;

(3) The instances of noncompliance do not indicate a pattern or practice but rather constitute isolated instances; and

(4) Existing mechanisms for the enforcement of the State law, rule, or policy referred to in paragraph (f)(6)(ii)(B)(1) of this section are such that the instances of noncompliance are unlikely to recur in the future.

(iii)(A) Substantial compliance with section 223(a)(14) requires:

(1) The achievement of a 75% reduction in the number of juveniles held in adult jails and lockups after December 8, 1985; or

(2) That a state demonstrate it has met each of the standards set forth in paragraphs (f)(6)(iii)(A)(2)(i)-(iv) of this section:

(i) Removed all status and nonoffender juveniles from adult jails and lockups. Compliance with this standard requires that the last submitted monitoring report demonstrate that no status offender (including those accused of or adjudicated for violating a valid court order) or nonoffender juveniles were securely detained in adult jails or lockups for any length of time; or, that all status offenders and nonoffenders securely detained in adult jails and lockups for any length of time were held in violation of an enforceable state law and did not constitute a pattern or practice within the state;

(ii) Made meaningful progress in removing other juveniles from adult jails and lockups. Compliance with this standard requires the state to document a significant reduction in the number of jurisdictions securely detaining juvenile criminal-type offenders in violation of section 223(a)(14) of the JJDP Act; or, a significant reduction in the number of facilities securely detaining such juveniles; or, a significant reduction in the number of juvenile criminal-type offenders securely detained in violation of section 223(1)(14) of the JJDP Act; or, a significant reduction in the average length of time each juvenile criminal-type offender is securely detained in an adult jail or lockup; or, that state legislation has recently been enacted and taken effect and which the state demonstrates will significantly impact the secure detention of juvenile criminal-type offenders in adult jails and lockups;

(iii) Diligently carried out the state's jail and lockup removal plan approved by OJJDP. Compliance with this standard requires that actions have been undertaken to achieve the state's jail and lockup removal goals and objectives within approved timelines, and that the State Advisory Group, required by section 223(1)(3) of the JJDP Act, has maintained an appropriate involvement in developing and/or implementing the state's plan;

(iv) Historically expended and continues to expend an appropriate and significant share of its Formula Grant funds to comply with Section 223(a)(14). Compliance with this standard requires that, based on an average from two (2) Formula Grant Awards, a minimum of 40 percent of the program funds was expended to support jail and lockup removal programs; or that the state provides a justification which supports the conclusion that a lesser amount constituted an appropriate and significant share because the state's existent jail and lockup removal barriers did not require a larger expenditure of Formula Grant Program funds; and

(3) The state has made an unequivocal commitment, through appropriate executive or legislative action, to achieving full compliance within a reasonable time but in no event may such time extend beyond December 8, 1988.

(B) Full compliance is achieved when a state demonstrates that the last submitted monitoring report, covering 12 months of actual data, demonstrates that no juveniles were held in adult jails or lockups in circumstances that were in violation of section 223(a)(14). (C) Full compliance with de minimis exceptions is achieved when a State demonstrates that it has met the standard set forth in either of paragraphs (f)(6)(iii)(C)(1) or (2) of this section:

(1) **Substantive De Minimis Standard**. To comply with this standard the state must demonstrate that each of the following requirements have been met:

(i) State law, court rule, or other statewide executive or judicial policy clearly prohibits the detention or confinement of all juveniles in circumstances that would be in violation of section 223(a)(14);

(ii) All instances of noncompliance reported in the last submitted monitoring report were in violation of or departures from, the state law, rule, or policy referred to in paragraph (f)(6)(iii)(C)(1)(i) of this section;

(iii) The instances of noncompliance do not indicate a pattern or practice but rather constitute isolated instances;

(iv) Existing mechanisms for the enforcement of the state law, rule, or policy referred to in paragraph (f)(6)(iii)(C)(1)(i) of this section are such that the instances of noncompliance are unlikely to recur in the future; and

(v) An acceptable plan has been developed to eliminate the noncompliant incidents and to monitor the existing mechanism referred to in paragraph (f)(6)(iii)(C)(1)(iv) of this section.

(2) **Numerical De Minimis Standard**. To comply with this standard the state must demonstrate that each of the following requirements under paragraphs (f)(6)(iii)(C)(2)(i) and (ii) of this section have been met:

(i) The incidents of noncompliance reported in the state's last submitted monitoring report do not exceed an annual rate of 9 per 100,000 juvenile population of the state;

(ii) An acceptable plan has been developed to eliminate the noncompliant incidents through the enactment or enforcement of state law, rule, or statewide executive or judicial policy, education, the provision of alternatives, or other effective means.

(iii) Exception. When the annual rate for a state exceeds 9 incidents of noncompliance per 100,000 juvenile population, the state will be considered ineligible for a finding of full compliance with de minimis exceptions under the numerical de minimis standard unless the state has recently enacted changes in state law which have gone into effect and which the state demonstrates can reasonably be expected to have a substantial, significant and positive impact on the state's achieving full (100%) compliance or full compliance with de minimis exceptions by the end of the monitoring period immediately following the monitoring period under consideration.

(iv) Progress. Beginning with the monitoring report due by December 31, 1990, any state whose prior full compliance status is based on having met the numerical de minimis standard set forth in paragraph (f)(6)(iii)(C)(2)(i) of §31.303, must annually demonstrate, in its request for a finding of full compliance with de minimis exceptions, continued and meaningful progress toward achieving full (100%) compliance with de minimis exceptions.

(v) Request Submission. Determinations of full compliance and full compliance with de minimis exceptions are made annually by OJJDP following submission of the monitoring report due by December 31 of each calendar year. Any state reporting less than full (100%) compliance may request a finding of full compliance with de minimis exceptions under paragraph (f)(6)(iii)(C)(1) or (2) of this section. The request must be submitted in conjunction with the monitoring report, as soon thereafter as all information required for a determination is available, or be included in the annual state plan and application for the state's Formula Grant Award.

(D) Waiver. (1) Failure to achieve substantial compliance as defined in this section shall terminate any state's eligibility for Formula Grant funds unless the Administrator of OJJDP waives termination of the state's eligibility. In order to be eligible for a waiver of termination, a state must submit a waiver request which demonstrates that it meets the standards set forth in paragraph (f)(6)(iii)(D)(1)(i)-(v) of this section:

(i) Agrees to expend all of its Formula Grant Award except planning and administration, advisory group set aside, and Indian-tribe pass-through funds, to achieve compliance with section 223(a)(14); and

(ii) Diligently carried out the state's jail and lockup removal plan as set forth in paragraph (f)(6)(iii)(A)(2)(iii) of this section; and

(iii) Submitted an acceptable plan, based on an assessment of current jail and lockup removal barriers within the state, to eliminate noncompliant incidents; and

(iv) Achieved compliance with section 223(a)(15) of the JJDP Act; and

(v) Demonstrates a commitment, through appropriate executive or legislative action, to achieving full compliance.

(2) Failure to achieve full compliance as defined in this section shall terminate any state's eligibility for Formula Grant funds unless the Administrator of OJJDP waives termination of the state's eligibility. In order to be eligible for this waiver of termination, a state must request a waiver and demonstrate that it meets the standards set forth in paragraphs (f)(6)(iii)(D)(2)(i)-(vii) of this section:

(i) Agrees to expend all of its Formula Grant Award except planning and administration, advisory group set aside, and Indian tribe pass-through funds, to achieve compliance with section 223(a)(14); and

(ii) Removed all status and nonoffender juveniles from adult jails and lockups as set forth in paragraph (f)(6)(iii)(A)(2)(i) of this section; and

(iii) Made meaningful progress in removing other juveniles from adult jails and lockups as set forth in paragraphs (f)(6)(iii)(A)(2)(ii) of this section; and

(iv) Diligently carried out the state's jail and lockup removal plan as set forth in paragraph (f)(6)(iii)(A)(2)(iii) of this section; and

(v) Submitted an acceptable plan, based on an assessment of current jail and lockup removal barriers within the state, to eliminate noncompliant incidents; and

(vi) Achieved compliance with section 223(a)(15) of the JJDP Act; and
(vii) Demonstrates a commitment, through appropriate executive or legislative action, to achieving full compliance.
(E) Waiver Maximum. A state may receive a waiver of termination of eligibility from the Administrator under paragraph (f)(6)(iii)(D)(1) and
(2) of this section for a combined maximum of three Formula Grant Awards. No additional waivers will be granted.

–28 CFR Part 31.303(f)(6)

The monitoring report form mandated by the Office of Juvenile Justice and Delinquency Prevention (OJJDP) for use in preparation of monitoring reports is contained in Appendix F. The format generally follows the Reporting Requirement described in the Formula Grant regulation [28 CFR Part 31.303(f)(5)], sequentially addressing the deinstitutionalization, separation and jail removal requirements and providing separate sections for documentation relevant to requests for findings of full compliance, full compliance with de minimis exceptions and substantial compliance for both the deinstitutionalization and jail removal requirements, as described in 28 CFR 31.303(f)(6). It should be noted that two sections pertaining to monitoring in the Formula Grant regulation–28 CFR Part 31.303(f)(4), which provides for exceptions to the jail removal requirement, and 28 CFR Part 31.303(f)(7), which exempts certain states from the annual monitoring report requirements–are not applicable to Alaska at this time and are therefore not addressed in the monitoring guidelines. Responses to Items F13 and F14 in the monitoring report form should indicate that no adult jails and lockups are in areas meeting the "removal exception" (Item F13) and that no juveniles accused of criminal-type offenses were held in excess of six hours but less than twenty-four hours in adult jails and lockups in areas meeting this exception (Item F14). The monitoring report exception will not be applicable to Alaska until the state has achieved full compliance with Section 223(a)(12)(A) [the deinstitutionalization requirement] and compliance with Section 223(a)(13) [the separation requirement] of the JJDP Act and a written request for exemption from the annual monitoring report requirements is approved by OJJDP.

The 1989 compliance monitoring report for Alaska is contained in Part 8 of this volume. Narrative text and data for baseline reporting periods may be drawn from this or other previous monitoring reports wherever appropriate. The JJDP Act, the Formula Grant regulation and other pertinent regulations are also contained in this volume, as are the most recent audit of Alaska's compliance monitoring system, the Revised 1987 Jail Removal Plan and the Three Year Plan submitted with the 1987 Formula Grant application. These documents, and the policy statements, legal opinions, regulations and other materials contained in Volume 1 of the *Formula Grants Program Manual* issued by OJJDP, should be consulted as necessary to clarify reporting requirements or other issues. OJJDP is also willing to provide additional technical assistance by telephone if necessary.

APPENDIX C
DATA COLLECTION AND PROCESSING RESOURCES

Protocol, DFYS Site Visitation

Offense Coding Sheet (acronyms and abbreviations)

Checklist to Determine Valid Court Order Violations

PROTOCOL: DFYS SITE VISITATION

1. Obtain a copy of the booking logs for your destination(s) for calendar year 1994. If we do not have a copy on file, make one during your visit. We will reimburse the agency for the copying costs if they provide us with an invoice.

2. Inspect the booking log for juveniles (anyone born after the booking log **date in** month and day in 1975). The data we are specifically looking for are: **Date In, Time In, Name (or initials), Date of Birth, Charge, Date Out and Time Out**.

3. Ask to inspect **ANY** other records which will verify the juvenile's booking log data. Possible sources are: case files, activity logs, jailer timesheets, etc. Make thorough notes detailing all verification data required.

4. Randomly select approximately 10% of the adults and attempt to verify their booking log data as well. This establishes the accuracy of the booking log.

5. Photograph the detention facility. If this is not possible, make a rough sketch of the detention facility and determine the sight and sound capacity of the facility.

6. Obtain information from facility personnel regarding their standard operating procedures for the handling of juvenile detainees. If these policies are in writing, get a copy. Attempt to gauge the extent to which they are cognizant of the restrictions regarding the detention of juveniles. Take good notes!

Purpose of the Project

The purpose of this project is to examine the detention of juveniles in jails, lock-ups, detention facilities and correctional facilities to ascertain if they are being held in compliance with the mandates of the Juvenile Justice and Delinquency Prevention Act of 1974. Because federally funded juvenile programs are at risk in states which are not in substantial compliance with the act, the Alaska legislature has authorized DFYS monitoring activities in AS 47.10.150 & 160.

There are two phases to the monitoring process. The first is to collect booking log information on all detainees held in all secure detention facilities during the monitored year. The second requires that we visit one-third of the secure detention facilities across the state each year to verify the accuracy and completeness of the booking records that we have received and to assess whether sight and sound separation of juveniles can be provided.

CHECKLIST TO DETERMINE VALID COURT ORDER VIOLATIONS

This checklist may be used to determine whether an individual non-criminal juvenile offender (i.e., status offender) was under a valid court order and whether such juvenile has either been accused of violating valid court order or found to be in violation of a valid order. Such determination may result in his/her placement in a secure facility pursuant to Section 223(a)(l2)(A) of the JJDP Act, as amended.

A. DETERMINING WHETHER A VALID COURT ORDER EXISTS

1. Was the juvenile brought into a court of competent jurisdiction and made subject to an order issued pursuant to proper authority?

   _____ Yes
   _____ No
   _____ Unknown

2. Was the order one which regulated the future conduct of the juvenile?

   _____ Yes
   _____ No
   _____ Unknown

3. Was a hearing conducted which observed proper procedures?

   _____ Yes
   _____ No
   _____ Unknown

4. Did the court enter a judgment and/or remedy in accord with established legal principles?

   _____ Yes
   _____ No
   _____ Unknown

5. Did the juvenile in question receive adequate and fair warning of the consequences of violating the order at the time it was issued?

   _____ Yes
   _____ No
   _____ Unknown

6. Was such warning provided to the juvenile and to his attorney and/or his legal guardian in writing?

   _____ Yes
   _____ No
   _____ Unknown

7. Was such warning reflected in the court record and proceedings, (i.e., noted in transcript or copy placed in court file)?

   _____ Yes
   _____ No
   _____ Unknown

If there is a “no” or “unknown” response to any one of the above seven questions, then a valid court order did not exist, thus the juvenile in question can not be securely detained pursuant to the valid court order provision of Section 223(a)(12)(A) of the JJDP Act, as amended.

B. DETERMINING WHETHER A JUVENILE ACCUSED OF VIOLATING A VALID COURT ORDER MAY BE SECURELY DETAINED

8. Was there a judicial determination, based upon a hearing before a court of competent jurisdiction, that there was probable cause to believe the juvenile violated a valid court order?

_____ Yes
_____ No
_____ Unknown

9. If the juvenile was in secure detention at the time of the hearing, was the probable cause hearing held during the 24-hour grace period permitted for a noncriminal juvenile offender (i.e., status offender) under OJJDP monitoring policy?

_____ Yes
_____ No
_____ Unknown

10. Was the juvenile held for protective purposes or to assure the juvenile's appearance at the violation hearing, as provided or prescribed by State law?

_____ Yes
_____ No
_____ Unknown

11. Was the juvenile held, pending a violation hearing, within the maximum length of time permitted by State law?

_____ Yes
_____ No
_____ Unknown

12. Did the judge presiding over the probable cause hearing determine that all elements of a valid court order exist (i.e., items 1 through 7 of this checklist)?

_____ Yes
_____ No
_____ Unknown

13. Did the judge presiding over the probable cause hearing determine that the applicable due process rights were afforded the juvenile in connection with either (1) the initial hearing at which the court order was rendered or (2) the probable cause hearing?

_____ Yes
_____ No
_____ Unknown*

(* If the response to item 13 is "Unknown", were each of the following due process rights provided in connection with either (1) the initial hearing at which the court order was rendered or (2) the probable cause hearing?)

(A) The right to have the charges against the juvenile in writing served upon him a reasonable time before the hearing;

_____ Yes
_____ No
_____ Unknown

(B) The right to a hearing before a court;

_____ Yes
_____ No
_____ Unknown

(C) The right to an explanation or the nature and consequences of the proceeding;

_____ Yes
_____ No
_____ Unknown

(D) The right to legal counsel, and the right to have such counsel appointed by the court if indigent;

_____ Yes
_____ No
_____ Unknown

(E) The right to confront witnesses;

_____ Yes
_____ No
_____ Unknown

(F) The right to present witnesses;

_____ Yes
_____ No
_____ Unknown

(G) The right to have a transcript or record of the proceedings;

_____ Yes
_____ No
_____ Unknown

(H) The right of appeal to an appropriate court.

_____ Yes
_____ No
_____ Unknown

If the answer is “no” or “unknown” to any one of the questions in items 8 through 13 above, then the juvenile accused of violating a valid court order and held in a secure facility beyond the 24-hour grace period permitted for non-criminal juvenile offenders (i.e., status offenders) under the OJJDP monitoring policy is for the purposes of monitoring, reported as a violation incident to Section 223(a)(l2)(A) and is <u>not</u> considered eligible to securely detain under the valid court order provision.

C. DETERMINING WHETHER A JUVENILE FOUND TO HAVE VIOLATED A VALID COURT ORDER MAY BE SECURELY HELD

14. Was there a judicial determination, based upon a hearing before a court of competent jurisdiction, that the juvenile violated a valid court order?

_____ Yes
_____ No
_____ Unknown

15. Did the judge presiding over the violation hearing determine that all elements of a valid court order exist (i.e., items I through 7 of this checklist)?

_____ Yes
_____ No
_____ Unknown

16. Did the judge presiding over the violation hearing determine that the applicable due process rights were afforded the juvenile in connection with the violation hearing?

_____ Yes
_____ No
_____ Unknown*

(* If the response to item 16 is "Unknown" were each of the following due process rights provided in connection with the violation hearing?)

(A) The right to have the charges against the juvenile in writing served upon him a reasonable time before the hearing;

_____ Yes
_____ No
_____ Unknown

(B) The right to a hearing before a court;

_____ Yes
_____ No
_____ Unknown

(C) The right to an explanation or the nature and consequences of the proceeding;

_____ Yes
_____ No
_____ Unknown

(D) The right to legal counsel, and the right to have such counsel appointed by the court if indigent;

_____ Yes
_____ No
_____ Unknown

(E) The right to confront witnesses;

_____ Yes
_____ No
_____ Unknown

(F) The right to present witnesses;

_____ Yes
_____ No
_____ Unknown

(G) The right to have a transcript or record of the proceedings;

_____ Yes
_____ No
_____ Unknown

(H) The right of appeal to an appropriate court.

_____ Yes
_____ No
_____ Unknown

17. Did the judge presiding over the violation hearing determine there was no less restrictive alternative appropriate to the needs of the juvenile and the community?

_____ Yes
_____ No
_____ Unknown

If the answer is "no" or "unknown" to any one of the questions in items 14 through 17 above, then the juvenile found to have violated a court order and held in a secure facility is, for the purposes of monitoring, reported as a violation incident to Section 223(a)(12XA) and is not considered eligible to be securely held under the valid court order procedures.

D. DETERMINING WHETHER THE JUVENILE IS A NON-OFFENDER

18. Was the juvenile a non-offender such as an abused, dependent or neglected child?

_____ Yes
_____ No
_____ Unknown

If the answer to question 18 is "yes", then the juvenile in question can not be securely detained pursuant to the valid court order provision of Section 223(a)(12)(A) of the JJDP Act, as amended.

Mr. Arthur Snowden, Administrative Director
Alaska Court System
303 "K" Street
Anchorage, Alaska 99501-2084

Dear Director Snowden:

The Justice Center at the University of Alaska Anchorage again has contracted with the Alaska Division of Family and Youth Services (DFYS) to monitor Alaska's compliance with the mandates of the federal Juvenile Justice and Delinquency Prevention Act. This monitoring process is the only way a state can provide the compliance data necessary to continue receiving federal funding for a number of important juvenile justice programs. The state legislature authorized the Division's monitoring activities in AS 47.10. 150 & 160.

Because monitoring is required of all secure detention facilities within the state, it is necessary for us to contact your office annually in order to confirm that we are in fact monitoring all such facilities maintained by the state court system. At the present time our records indicate that the only secure detention facility attached to the court is the one in Delta Junction. If any facilities have been added, please contact us with the following information: the name and location of the secure detention facility and the name of the person who can provide us with access to the facility and its records.

The monitoring process involves two steps. The first entails the annual collection and verification of detention data from all secure detention facilities across the state. This includes holding areas such as the one in the state court facility in Delta Junction. The second requires that we visit one-third of the detention facilities in our "monitoring universe" each year in order to verify records and to assess whether sight and sound separation of juveniles and adults can be provided. Delta Junction is scheduled for a visit this year.

Thank you in advance for your time and cooperation. Should you have any questions or suggestions regarding this monitoring project, please call me, Dr. Nancy Schafer, Richard Curtis or Cassie Atwell at 786-1810.

Sincerely,

Nancy Schafer, Ph.D.

Dear Commissioner Otte:

For several years the Justice Center at the University of Alaska Anchorage has monitored compliance with the mandates of the federal Juvenile Justice and Delinquency Prevention Act on behalf of the Division of Family and Youth Services. An independent monitoring process is the only way a state can provide the compliance data necessary to continue receiving federal funding of some important juvenile programs. The state authorized these compliance activities in AS 47.10.150 & 160. I am writing to let you know that we are presently beginning data collection for calendar year 1994.

We will again be relying on the assistance and cooperation of the Alaska State Troopers and, through them, VPSOs for both data collection and data verification. We will be contacting them this month.

I want you to know how much we appreciate the professionalism we have met everywhere - from Anchorage to the smallest village - and the helpful spirit which has smoothed many obstacles in this complicated project.

Dear Commissioner Pugh:

For several years the Justice Center has monitored compliance with the mandates of the federal Juvenile Justice and Delinquency Prevention Act on behalf of the Division of Family and Youth Services. I am writing to let you know that we are beginning the process of data collection for calendar year 1994 and will begin requesting information from Department of Corrections staff.

Because monitoring is required of all secure detention facilities in the state it is necessary to contact the Department annually to request computer data as well as to update any changes in Department policy regarding the detention of persons under 18 years of age. We will contact Director of Institutions Frank Sauser directly with our requests.

I want you to know how much we have appreciated the cooperation the Department has given us in this complicated project. You have many helpful and capable people in your staff.

Dear Director Sauser:

The Justice Center at the University of Alaska Anchorage has again contracted with the Division of Family and Youth Services to monitor Alaska's 1994 compliance with the mandates of the federal Juvenile Justice and Delinquency Prevention Act. Compliance monitoring requires that we collect intake data in all facilities where juveniles might be detained and that we visit one-third of the facilities each year to verify the data we have received and to ascertain whether sight and sound separation of juveniles can be provided. We are also required to update the "monitoring universe"; adding or deleting jails, lock-ups, juvenile centers, etc. as conditions change. The state legislature authorized the Division's monitoring activities in AS 47.10.150 & 160.

Our records indicate that the only DOC facility to have held juveniles in 1993 was the Mat-Su Pretrial facility and we are writing to request that you verify by letter that no other facility under your direction held juveniles in calendar year 1994. The monitoring project requires that we obtain full booking information from any DOC facility which held juveniles last year.

Although the actual topic of study is the extent to which juveniles are securely detained across Alaska, we are required to collect booking data on people of all ages. Specifically, we are collecting the following facts on anyone securely detained in any facility which held any juvenile between December 31, 1993 and January 1, 1995: **Date in, Time in, Name (or initials), Date of Birth, Charge (or reason such as protective custody), Race and Sex, Date out and Time out.**

We will contact Mat-Su pretrial facility (and any other facility you identify) directly to request the booking data. If you have any questions about this project we would be glad to discuss them with you. Please feel free to call me, Richard Curtis or Cassie Atwell at 786-1810.

Dear Lt. Schadle:

The Justice Center at the University of Alaska Anchorage has again begun its independent monitoring of Alaska's compliance with the mandates of the 1974 Juvenile Justice and Delinquency Prevention Act on behalf of the Division of Family and Youth Services.
Alaska's monitoring plan calls for data collection from all secure facilities where juveniles might be held, updating of the list of facilities in the monitoring "universe," and on-site data verification and inspection of one third of the facilities in the universe each year.

I am writing to request that you again notify the oversight troopers about the project, authorize Village Public Safety Officers to mail copies of their booking logs for calendar year 1994 to the Justice Center and advise them of possible site visits for inspection and data verification and/or collection. As in previous years, we would appreciate receiving a letter of authorization to use for site visits.

We would appreciate receiving an updated list of VPSOs and oversight troopers. We must contact oversight troopers to get information on jails and lockups in their jurisdictions in order to update the monitoring universe. We also need to begin contacting VPSOs to introduce the project and request copies of booking logs.

If you would advise us of any additional steps we might take to make the project go smoothly, please contact one of the project staff: Nancy Schafer, Richard Curtis or Cassie Atwell at 786-1810.

Thank you in advance for helping us. I am also enclosing, for your information, a copy of the universe chart updated for 1993 monitoring.

I am writing to again request your help in obtaining contract jail data and in verifying the accuracy of the enclosed list of contract jails. Please let us know if there are any additions to or deletions from the list.

Dear Director Packer:

I am writing to let you know that the Justice Center has again contracted with the Alaska Division of Family and Youth Services (DFYS) to monitor Alaska's compliance with the mandates of the federal 1974 Juvenile Justice and Delinquency Prevention Act and to request your assistance in this endeavor. This monitoring is the only way a state can provide the compliance data necessary to continue receiving federal funding for a number of important juvenile justice programs. The state legislature authorized the Division's monitoring activities in AS 47.10.150 & 160.

There are two phases to the monitoring process. The first is to collect booking log information on all detainees held in all secure detention facilities during the monitored year. The second requires that we visit one-third of the secure detention facilities across the state each year to verify the booking log records that we have received and to assess whether sight and sound separation of juveniles can be provided. We are aware of the North Slope Borough's policy prohibiting the secure detention of juveniles; however the monitoring protocol requires us to monitor all agencies with secure detention facilities.

In the current cycle, we are only collecting booking log data for the calendar year **1994** from all jails/lock-ups in the North Slope Borough: **Barrow, Point Hope, Point Lay, Wainwright, Anaktuvuk Pass, Atqasuk, Kaktovik, Nuiqsut and Deadhorse**. Specifically we need the following information on anyone securely detained in a lock-up between December 31, 1993 and January 1, 1995: **Date in, Time in, Name (or initials), Date of Birth, Charge (or reason such as protective custody), Race and Sex, Date out and Time out**. While the focus of the monitoring project is the detention of juveniles, the protocol requires us to examine all records regarding the use of secure detention facilities. We will reimburse the North Slope Borough Department of Public Safety for any copying costs if you provide us with an invoice.

I am enclosing nine copies of a "Certification of Authenticity and Completeness of Records" form. This form should be completed and signed by each Public Safety Officer who provides copies of village logs. I am also enclosing a sample booking sheet which some public safety departments have told us they find useful.

I am aware of the magnitude of work involved in meeting my requests, and I want to thank you in advance for your assistance and cooperation this year. If you have any questions regarding this project, please contact me or project staff members, Richard Curtis and Cassie Atwell at 786-1810.

I am writing to inform you that the Justice Center at the University of Alaska Anchorage has again contracted with the Alaska Division of Family and Youth Services (DFYS) to monitor Alaska's compliance with the mandates of the federal Juvenile Justice and Delinquency Prevention Act of 1974 and to briefly describe the monitoring project. The purpose of this project is to examine the detention of juveniles in jails, lock-ups, detention facilities and correctional facilities to ascertain if they are being held in compliance with federal mandates. Because federally funded juvenile programs are at risk in states which are not in substantial compliance with the act, the Alaska legislature has authorized DFYS monitoring activities in AS 47.10.150 & 160.

Dear Mr. Shafer:

The Justice Center at the University of Alaska Anchorage has begun gathering data under contract with DFYS for the 1993 compliance monitoring report mandated by the federal Juvenile Justice and Delinquency Prevention Act. The Act requires that states report their compliance with the provisions set forth with the goal of deinstitutionalization of status offenders, as well as the goals of jail removal and separation by sight and sound from adult offenders.

As you are aware, the compliance monitoring plan requires data collection from all facilities in the state which hold juveniles and verification of the data from one third of these facilities each year. In previous years we have received computer printouts of intake information from detention centers which include the charge and date of birth for each child, as well as date and time of entry and date and time of release. We do not need the juveniles' full names, however at least initials are required.

You should have received a letter from Deborah Wing authorizing us to begin collecting the necessary data. We will be contacting the superintendents directly to request the data for calendar year 1993. I would appreciate it if you would remind them of the coming compliance activities.

If you have any questions or comments please contact one of the project staff: Nancy Schafer (Principal Investigator), Richard Curtis (Project Manager) or Cassie Atwell (Research Assistant) at 786-1810.

Dear Ms. Furman:

In accordance with the Juvenile Justice and Delinquency Prevention Act of 1974 and AS 47.10.150 & 160, the Justice Center at the University of Alaska Anchorage has again contracted with the Alaska Division of Family and Youth Services (DFYS) to collect information on juveniles held in secure detention facilities across the state during calendar year 1993. States which are not in substantial compliance with the Act are at risk of losing federal funding for many juvenile programs.

This monitoring project is accomplished in two phases. The first phase requires that we complete a listing of secure detention facilities across the state where juveniles might be detained and then collect booking log information from each facility for the monitored year. This is done with the assistance of the Alaska State Troopers as well as VPSO coordinators. The second phase requires that we visit one-third of these facilities each year to determine the accuracy and completeness of the records and to verify that sight and sound separation of juveniles from adults is provided.

We are requesting your assistance in updating our list of secure facilities. I am enclosing a copy of the listing. If you know of any facilities that need to be added to or deleted from this list please fill out the enclosed form. This form can be either faxed or mailed to us. The return address and fax number are on the form.

We will be contacting the VPSOs or VPOs in each village directly to ask for booking log information. You should have already received information about the 1993 project from the Southcentral Regional Administrator, Ms. Faye Moore.

The monitoring plan requires data collection from all facilities which have held juveniles during the **1993** calendar year. Specifically, we need the following information on all detainees held in your facility between December 31, 1992 and January 1, 1994: **Date in, Time in, Name (or initials), Charge (or reason such as protective custody), Race and sex, Date out and Time out.** Since the McLaughlin Youth Center is a youth facility, date of birth will not be necessary.

Dear Trooper Spencer:

The Justice Center at the University of Alaska Anchorage is again requesting the assistance of AST in completing the 1993 compliance monitoring project for DFYS. We are writing to you in your capacity as oversight trooper for the villages of Allakaket, Beaver, Birch Creek, Chalkyitsik, Circle, Minto and Stevens to provide you with information about the project, and to verify that **none** of these villages had secure detention facilities in calendar year 1993. If this is incorrect, please let us know.

The purpose of this project is to monitor Alaska's compliance with the mandates of the federal 1974 Juvenile Justice and Delinquency Prevention Act. Independent monitoring is the only means by which a state can provide the compliance data necessary to continue receiving federal funding for a number of important juvenile justice programs. The state legislature authorized the division's monitoring activities in AS 47.10.150 & 160.

The project requires that we collect detention data from all secure facilities in the state and that we visit a sample of them each year to verify the accuracy of records and to assess whether sight and sound separation of adults and juveniles can be provided. We must collect the following information on everyone (both adults and juveniles) detained in any lock-up between December 31, 1992 - January 1, 1994: **Date and time in, charge (or other reason, such as protective custody), name (or initials), date of birth, race and sex , date and time out**.

We have contacted Captain Tom Sterns and obtained clearance to pursue information on juvenile detention in rural Alaska from Oversight Troopers and VPSO's. I am including a memo from Captain Sterns which authorizes participation in the project.

If you have any questions about the Alaska monitoring effort, please contact one of the project staff: Nancy Schafer (Principal Investigator), Richard Curtis (Project Manager) or Cassie Atwell (Research Assistant) during business hours at 786-1810.

Trooper Dave Aspelund
Alaska State Troopers
P.O. Box 187
King Salmon, Alaska 99613

Dear Trooper Aspelund:

The Justice Center at the University of Alaska Anchorage is again requesting the assistance of AST in completing the 1993 compliance monitoring project for DFYS. We are writing to you in your capacity as oversight trooper for the villages of Chignik, Egegik, Levelock, Pilot Point and Port Heiden to provide you with information about the project, to verify that only Chignik, Egegik,Pilot Point and Port Heiden had secure detention facilities in calendar year 1993, and to seek your assistance in data collection and verification.

The purpose of this project is to monitor Alaska's compliance with the mandates of the federal 1974 Juvenile Justice and Delinquency Prevention Act. Independent monitoring is the only means by which a state can provide the compliance data necessary to continue receiving federal funding for a number of important juvenile justice programs. The state legislature authorized the division's monitoring activities in AS 47.10.150 & 160.

The project requires that we collect detention data from all secure facilities in the state and that we visit a sample of them each year to verify the accuracy of records and to assess whether sight and sound separation of adults and juveniles can be provided. We must collect the following information on everyone (both adults and juveniles) detained in any lock-up between December 31, 1992 - January 1, 1994: **Date and time in, charge (or other reason, such as protective custody), name (or initials), date of birth, race and sex, date and time out.**

Please remind the VPSOs and/or VPOs in Chignik and Egegik to mail photocopies of all 1993 booking logs (or equivalent materials) to the Justice Center. Project rules require that data be certifiable copies of original forms or booking logs. If these are not maintained, photocopies of other documents which contain this information are acceptable (e.g. case files, notebooks, staff records, time sheets).

Enclosed you will also find two "CERTIFICATION OF NO PRISONERS HELD" forms which need to be filled out for both the Pilot Point and Port Heiden facilities since neither facility has ever been used.

We will also be conducting site visits to Chignik and Egegik to verify the booking log data for calendar year 1993 and to inspect the facilities. The VPSO in these villages will be contacted directly to make arrangements for the site visit.

We have contacted Captain Tom Sterns and obtained clearance to pursue information on juvenile detention in rural Alaska from Oversight Troopers and VPSO's. I am including a memo from Captain Sterns which authorizes participation in the project.

If any of this information is incorrect or if you have any questions about the Alaska monitoring effort, please contact one of the project staff: Nancy Schafer (Principal Investigator), Richard Curtis (Project Manager) or Cassie Atwell (Research Assistant) during business hours at 786-1810.

Thank you very much for your time and cooperation.

Sincerely,

Nancy E. Schafer, Ph.D.

Chief Michael Brown
Sand Point Police Department
P.O. Box 249
Sand Point, Alaska 99661

Dear Chief Brown:

The Justice Center at the University of Alaska Anchorage has again contracted with the Alaska Division of Family and Youth Services (DFYS) to monitor Alaska's compliance with the mandates of the federal 1974 Juvenile Justice and Delinquency Prevention Act. This monitoring is the only way a state can provide the compliance data necessary to continue receiving federal funding for a number of important juvenile justice programs. The state legislature authorized the division's monitoring activities in AS 47.10.150 & 160. The goal of the Act is the ultimate removal of juveniles from all adult facilities.

As you are aware, the monitoring process involves two stages. The first stage involves the collection of detention data from all secure detention facilities in the state. The second stage requires visits to one-third of the sites every three years in order to verify the data and assess whether sight and sound separation of juveniles and adults can be provided in those facilities.

Although the project addresses detention of juveniles the monitoring protocol requires that we examine records on all detainees in order to verify the presence (or absence) of those under 18 years of age.

For the current project we are collecting copies of booking logs for the calendar year **1993** from the Sand Point detention facility, and will also visit the facility. During the visit we may need to make copies of your booking logs and supporting documents. We will reimburse you for these expenses upon receipt of your invoice. We will be contacting you shortly regarding our visit to your facility.

Specifically, the type of booking information we request for both adults and juveniles is as follows: **Date in, Time in, Name (or initials), Date of Birth, Charge, Race, Sex, Date out, Time out.**

If you have any questions regarding this project, please contact one of the project staff: Nancy Schafer (Principal Investigator), Richard Curtis (Project Manager) or Cassie Atwell (Research Assistant) at 786-1810.

Akutan, Alaska 99553

Dear VPSO Tcheripanoff:

The Justice Center at the University of Alaska Anchorage is again monitoring Alaska's compliance with the federal Juvenile Justice and Delinquency Prevention Act of 1974 under contract with the Alaska Division of Family and Youth Services. States must conduct this monitoring in order to maintain their eligibility for continued federal funding of many important juvenile justice programs.

As the VPSO of a village with a lock-up facility, your assistance is necessary to meet the data collection requirements of this monitoring project.

This project requires the collection of information on juvenile detention from all secure detention sites in Alaska including: adult prisons, jails, lock-ups and juvenile detention facilities. In addition, the project also requires visits to all detention facilities once every three years.

This year we will be visiting Akutan, and will be contacting you shortly to make arrangements regarding the visit. During the visit, we will examine and copy any booking records you have for calendar year 1993, and make a physical inspection of the facility. We will reimburse you for photocopying costs if you will provide us with an invoice.

Although the actual topic of study is the extent to which juveniles are securely detained across Alaska, we are required to collect booking data on people of all ages. Specifically, we are collecting the following facts on anyone securely detained in your lock-up between December 31, 1992 and January 1, 1994: **Date in, Time in, Name (or initials), Charge (or other reason, such as protective custody), Date of Birth, Race and Sex, Date out and Time out.**

The project rules require that all data be certifiable copies of original forms, photocopies of log books or booking logs, for example. If you do not keep a log-type record, then we need copies of any type of case-file materials that present the pertinent information, including notebook entries, staffing records, timesheets, etc.

Of course this request is made with the full knowledge and consent of the Alaska Department of Public Safety. Captain Stearns has notified all VPSO Oversight Troopers of this year's project and our requests for data. Should you require further verbal or written assurances prior to releasing copies of these documents, please contact Trooper Roop.

If you have any questions regarding this project please call one of the project staff: Nancy Schafer (Principal Investigator), Richard Curtis (Program Manager) or Cassie Atwell (Research Assistant) at 786-1810.

Yvonne M. Chase, Director

Juneau, Alaska 99811

Dear Ms. Chase:

As we discussed during the course of the audit of Alaska's JJDP monitoring system, one of the more critical findings of the audit is that minors charged with alcohol violations have not been counted as status offenders in Alaska's Annual Monitoring Reports. It appeared from the audit that counting this class of offenders as status offenders will have a profound effect on the reported level of compliance with Sections 223(a)(12)(A) and 223(a)(14) of the JJDP Act.

For this reason, we are delaying the review of Alaska's 1986 Monitoring Report until we receive a revised report that counts minors charged with alcohol violations as status offenders. Please review the OJJDP definition of status offender (see 28 CFR 31.304) for guidance on this matter. Also, please note the legal opinion I forwarded to Russell Webb on October 19, 1987.

We cannot recommend award of Alaska's FY 1988 Formula Grant until we have received a satisfactory Monitoring Report and have determined that Alaska has achieved the levels of compliance necessary for eligibility to receive the FY 1988 award.

I have discussed this matter with Russell Webb and I will be glad to answer any questions you might have.

MEMORANDUM State of Alaska

TO: Regional Administrators
Intake Officers
Institutional Superintendents

DATE: December 18, 1987

FILE NO.:

THRU:

SUBJECT: Detention Admission Criteria

FROM: Richard Illias
Youth Corrections Administrator

Several years ago instructions were issued to discontinue the practice of placing status offenders in our juvenile detention facilities. At that time the offense of minor consuming alcohol was interpreted to be a "criminal" offense under state law. Interpretation of the Juvenile Justice and Delinquency Prevention Act of 1974 by the U.S. Attorney General categorizes offenses such as minor consuming alcohol as status offenses. The logic is that those offenses can only be committed by a person of a certain age status. Even though the offense is criminal in many states between the ages of 18 and 21, it is none the less a status offense for both juveniles and a small group of adults.

In order to comply with Federal mandates and maintain eligibility of OJJDP block grants, it is necessary for intake units and institutions to revise detention screening and admission practices.

EFFECTIVE IMMEDIATELY YOUTH ARRESTED FOR THE OFFENSE OF MINOR CONSUMING MAY NO LONGER BE DETAINED IN DIVISION YOUTH FACILITIES UNLESS:

1. They are detained as probation violators (detention criteria number 8 and a petition is filed for revocation of probation.

2. Youth is also an absconder with a valid court order (warrant) for detention.

3. The youth has been charged with another offense sufficient to warrant detention.

4. The youth's identity cannot be determined.

5. The youth refused to sign a promise to appear.

Prohibition against detention of youth charged with minor consuming alcohol has no effect on the authority to detain a youth who is incapacitated by alcohol and requires protective custody pursuant to AS47.37.170. Protective custody admissions require a pre-admission medical examination and written certificate which attests to <u>two</u> conditions:

1. The youth's level of intoxication meets the definition of incapacitated by alcohol. That level is defined by statute as "a person who, as the result of consumption of alcohol, is rendered unconscious or has judgment or physical mobility so impaired that the person cannot readily recognize or escape conditions of apparent or imminent danger to personal health or safety."

2. The youth does not require either immediate or constant medical attention until the level of intoxication is reduced.

Persons admitted to detention facilities under the PC Statute must have the reason for detention marked "protective custody - AS47.37." Both detention booking records and intake records should show that designation as the reason for detention. Intake records such as the intake log should show under the offense column as both HCA and PC.

Please make sure that staff adhere to the PC requirement and that those youth be released from detention within 12 hours or sobering up whichever comes first.

Dear Russ:

I have enclosed a copy of the Alaska Field Audit Report which describes the information I gained and the recommendations I made during the September 28 - October 3, 1987, on-site review of the state's compliance monitoring system.

Please review the Report and recommendations carefully. Pursuant to OJJDP Policy, you are required to respond to the Report, in writing, within 30 business days of receiving it.

Your response should clarify any issues relating to Alaska's compliance monitoring system that you feel are not adequately addressed by the Report. In addition, your response should address each of the recommendations contained in Section 6 of the Report.

If you concur with a recommendation, you may indicate such by describing what steps will be taken, by whom, and within what period of time, to implement it. If you disagree with a recommendation, please state your reasons, and I will respond to them. Although discussed during our exit conference on October 3, if any of the recommendations are not clear to you, please contact me for additional information.

Dear Mr. Speirs:

I wish to communicate by way of this letter my commitment to achieving the complete removal of juveniles from adult jails and lockups in Alaska, and my intent to demonstrate that commitment in a manner which meets the eligibility requirements of OJJDP's 1988 Special Emphasis grant program relating to jail removal.

Specifically, I will, before September 25, 1988, issue a proclamation indicating my intent to support legislation prohibiting the confinement of juveniles in adult jails or lockups; committing the various departments and agencies of state government to taking appropriate actions within their authority to achieve removal of juveniles from jails; and during the support and participation of local governmental agencies and citizens for jail removal efforts. A copy of that proclamation will be forwarded to you on the date it is issued.

Alaska faces unique and difficult challenges in achieving the removal of juveniles from adult jails. I am confident, however, that with continued encouragement and support at the Federal level and with the commitment of Alaska's executive agencies and citizens, these challenges will be met. We look forward to the continued support of your staff in our efforts to improve Alaska's juvenile justice system.

Pamela Swain, Director
State Relations and Assistance Division
Office of Juvenile Justice and Delinquency Prevention
633 Indiana Avenue, N.W.
Washington, DC 20531

Attention: Mike Holloway, State Representative

Dear Ms. Swain:

Enclosed is the long awaited 1988 Monitoring Report for Alaska. I think you will find the report thorough and well documented.

Alaska is requesting a finding of full compliance with de minimis exceptions for Section 223 (a) (12) (A) of the JJDP Act. This request is based on achievement in 1988 of a non-compliance rate of 5.4 per 100,000 juveniles. This rate is less than the noncompliance rate of 5.8 per 100,000 juveniles which has been established by OJJDP as the highest institutionalization rate a state may have and still be considered to be in full compliance with de minimis exceptions based solely on the numerical standard set forth in Criterion A (46 FR 2567).

Although the requirements for a finding of full compliance with de minimis exceptions are fully satisfied since the rate of non-compliance is below 5.4 per 100,000 juveniles, the monitoring report for 1988 also documents Alaska's achievement of the standards outlined in Criteria B and C. With respect to Criterion B, the monitoring report describes the circumstances surrounding the instances of non-compliance and explains the extent to which the instances of non-compliance were in violation of state law or established executive policy. Of the nine instances of non-compliant detention, only two appear to have not violated state law or established executive policy and one of these two instances involved an out of state runaway detained pending return to her home state. Finally, as explained in the monitoring report, Criterion C also appears to be satisfied, based on 1) the absence of any pattern or practice of non-

compliant detention, 2) apparent violation of state laws and/or executive policies in all but two of the nine reported instances of noncompliance and 3) development by DFYS of a detailed plan to eliminate non-compliant incidents.

Alaska is also requesting a finding of alternative substantial compliance with Section 223(a) (14) of the JJDP Act. This request is based on the following: First, 28 CFR Part 31.303 (f) (6) (iii) (A) (2) (i) is satisfied if "all status offenders and non-offenders securely detained in adult jails and lockups for any length of time were held in violation of an enforceable state law and did not constitute a pattern or practice within the state." Although both accused and adjudicated status offenders were securely detained in adult jails and lockups for short periods of time (note, however, that only four of these instances of detention of status offenders in adult facilities violated the deinstitutionalization requirement), there was only one instance of such detention which did not violate state laws requiring separation of juvenile and adult offenders. This instance of detention occurred at the only adult jail in Alaska which provided adequate separation in 1988. All other instances of detention of status offenders in adult facilities were in violation of Alaska's separation laws. These separation laws, as explained in the monitoring report, are enforceable through a variety of mechanisms which have been effective in reducing separation violations by 32 percent in the one year period following implementation of the state's revised Jail Removal Plan in December, 1987. These same mechanisms have been effective in reducing jail removal violations by 32 percent in the one year following implementation of the state's revised Jail Removal Plan in December, 1987.

Second, Alaska has made meaningful progress in removing other juveniles from adult jails and lockups, as documented by a 79 percent reduction in the number of criminal-type offenders securely detained in violation of section 223(a)(14) of the JJDP Act, from 766 in the baseline year (1980), to 161 in 1988. A reduction of this magnitude represents "a significant reduction in the number of juvenile criminal-type offenders securely detained in violation of section 223(a)(14) of the JJDP Act: and thus satisfies the "meaningful progress" standard for alternative substantial compliance outlined in 28 CFR Part 31.303 (f) (6) (iii) (A) (2) (ii).

Pamela Swain
March 20, 1990

Page 3

The state has also diligently carried out its revised 1987 Jail Removal Plan by undertaking actions necessary to achieve jail and lockup removal goals and objectives and by appropriate involvement of the State Advisory Group in developing and implementing the state's plan. These efforts are documented in the 1988 Performance Report and Alaska's responses to the 1987 OJJDP Field Audit. The requirement that a state must demonstrate that it has "diligently carried out the state's jail and lockup removal plan," as required under 28 CFR Part 31.303 (f) (6) (iii) (A) (2) (iii), is thus also satisfied.

Fourth, as required under CFR Part 31.303 (f) (6) (iii) (A) (2) (iv), Alaska has historically expended and continues to expend a significant share of its Formula Grant funds to comply with Section 223(a)(14). In 1987 and 1988, after subtracting the administration and SAG allowance, Alaska spent 100 percent of its Formula Grant funds on jail removal efforts.

Finally, as required under 28 CFR Part 31.303 (f) (6) (iii) (A) (3), Alaska has made an unequivocal commitment to achieving full compliance within a reasonable time as evidenced in an Executive Proclamation issued on April 14, 1989 by Governor Steve Cowper. In this proclamation, the Governor explicitly proclaimed his support for efforts to develop regulations which reduce detention of children in adult facilities.

Alaska has thus achieved each of the requirements for alternative substantial compliance with jail removal requirement, as outlined in 28 CFR Part 31.303 (f) (6) (iii) (A) (2) and (3). Moreover, if OJJDP interpretations of the definitions of "criminal-type offender: and "status offender" were the same in 1988 as they were in 1980 (the baseline year), and if our monitoring universe had not expanded greatly between 1980 and 1988, Alaska would have exceeded the 75 percent reduction in non-compliant detention required for substantial compliance under 28 CFR Part 31.303 (f) (6) (iii) (A) (1).

We would appreciate your prompt review of our report and a statement of findings. I believe several other important

SUBJECT: Housing of Juveniles at Ketchikan Correctional Center

FROM: Susan Humphrey-Barnett
Commissioner
Department of Corrections

Effective August 15, 1990, the Department of Corrections will cease the detention of juveniles at the Ketchikan Correctional Center, thus terminating the 1986 Memorandum of Agreement between our respective agencies.

The situation described in my December 1987 letter to you on this subject has become more critical. Ketchikan Correctional Center experienced unprecedented overcrowding this past year and our projections indicate that this trend will continue. Under the circumstances, Corrections cannot provide juveniles physical separation from adults, nor can we provide adequate supervision to ensure the safety of the juveniles.

I know that the Department of Health and Social Services has pursued juvenile detention alternatives in Ketchikan. If I can assist in your efforts in any way, please do not hesitate to contact me.

SUBJECT: Data Collection Project

It is data collection time again! And in efforts to make this project as delightful and stimulating as possible, a handy form has been developed to help us, or more specifically you, provide the necessary information to make this project a worthwhile endeavor. We are requesting that the 1989 Intake Log be scanned for all those cases who meet the criteria found on the form, specifically, those cases where an adjudication on an alcohol offence alone or an alcohol offense and another related offense have occurred.

As you know, OJJDP considers alcohol offenses, such as minor consuming alcohol, to be "status offenses". The Juvenile Justice and Delinquency Prevention Act of 1974 mandates that we remove all status offenders from both adult jails/lockups and our own juvenile detention facilities.

We are collecting this data for our compliance monitoring report. Please complete this form and fax it to my office by July 24, 1990.

If you have any questions regarding these case, please call me prior to filling out the form as it will save us all time in the long run. Thank you for your help.

RECEIVED

Dear Donna:

This is in response to your request that the Office of Juvenile Justice and Delinquency Prevention (OJJDP) explain its finding that Alaska's 1988 Monitoring Report failed to demonstrate full, or at least substantial compliance with the jail and lockup removal provision, Section 223 (a)(14) of the JJDP Act. Specifically, you asked for the basis of OJJDP's finding that Alaska failed to demonstrate substantial compliance under the alternative standard developed by Congress in 1988.

The alternative substantial compliance provision is set forth at Section 223 (c)(2)(A)(i)(II) of the JJDP Act. The standards for demonstrating compliance with this provision are set forth at Section 223 (c) of the Act. These standards are further delineated at Section 31.303 (f)(6)(iii)(A)(2)(i)-(iv) of the OJJDP Formula Grants Regulation (28 CFR 31), which was published in the August 8, 1989, Federal Register.

The OJJDP review of Alaska's 1988 Monitoring Report indicated that the State failed to demonstrate its compliance with the standard set forth at Section 223 (c)(4)(A) of the JJDP Act and Section 31.303 (f)(6)(iii)(A)(2)(i) of the OJJDP Formula Grants Regulation. This Standard reads as follows:

> "...(i) Removed all status and non-offender juveniles from adult jails and lockups. Compliance with this standard requires that the last submitted monitoring report demonstrate that no status offender (including

> those accused of or adjudicated for violating a valid court order) or nonoffender juveniles were securely detained in adult jails or lockups for any length of time; or that all status offenders and nonoffenders securely detained in adult jails and lockups for any length of time were held in violation of an enforceable state law and did not constitute a pattern or practice within the state..."

This standard contains three (3) critical components. First, that all status and nonoffenders securely detained in adult jails and lockups for any length of time were held in violation of state law.

Alaska's 1988 Monitoring Report transmittal letter, dated March 20, 1990, indicates on page 2 that with one exception, the status and nonoffenders securely detained in adult jails and lockups violated state separation statutes. The OJJDP cannot accept Alaska's claim that separation statutes prohibit the secure detention of status and nonoffenders in adult jails and lockups. Clearly, if the facilities involved were renovated and/or they modified their separation practices, status and nonoffenders could be securely detained there without violating state law. Not only is this inconsistent with the jail and lockup removal provision of the Act, but concurrence by OJJDP with this argument could conceivably place this Office and Alaska in an untenable position in the future should these facilities begin providing adequate separation.

Even if OJJDP accepted the argument that separation statutes prohibit the secure detention of status and nonoffenders in adult jails and lockups, the transmittal letter cited above indicates that one (1) status or nonoffender was securely detained in an adult facility that provided adequate separation. As a result, this detention was not a violation of state law, and therefore, the requirement that "all" such detentions violate state law was not met. This incident also serves to illustrate why the OJJDP cannot accept Alaska's premise.

The second critical element is that the state law be enforceable. Your 1988 Monitoring Report indicates that increased public education, stepped-up monitoring, and the amendment of 17 DPS contracts has resulted in a 32% reduction in violations. While these measures are to be commended, and it is clear that they are necessary, their sufficiency remains in question at this time. In order for the OJJDP to accept a state's enforcement mechanisms as sufficient or adequate, it must be demonstrated that the mechanisms have been successful in eliminating all, or substantially all of the violations. A 32% reduction is not tantamount to elimination of substantially all of the violations.

The third and final critical element is that the violations did not constitute a pattern or practice. Admittedly, these terms are subjective. However, using standard denotations, I have to question Alaska's assertion that the fact that one-half of the violations involved one type of status offender (minor in possession of alcohol) does not constitute a pattern. Similarly, I believe the fact that over 40% of the violations occurred in three (3) facilities constitutes a practice.

Based on these findings, I could not conclude that Alaska satisfied the status and nonoffender requirement for alternative substantial compliance. Alaska does, however, satisfy the remaining alternative substantial compliance standards. In addition, I am confident that Alaska will continue to make progress toward full compliance with the jail and lockup removal provision of the JJDP Act.

I hope this information is useful to you. If you have any questions, please call me at (202) 307-5924.

Sincerely,

Jeff Allison

(1) to be a delinquent minor as a result of violating a criminal law of the state or a municipality of the state; or

(2) to be a child in need of aid as a result of

(A) the child being habitually absent from home or refusing to accept available care, or having no parent, guardian, custodian, or relative caring or willing to provide care, including physical abandonment by

(i) both parents,

(iii) one parent if the other parent's rights and responsibilities have bee terminated under AS 25.23.180(c) or AS 47.10.080 or voluntarily relinquished;

(B) the child being in real need of medical treatment to cure, alleviate, or prevent substantial harm, or in need of treatment for mental harm as evidenced by failure to thrive, severe anxiety, depression, withdrawal, or untoward aggressive behavior or hostility toward others, and the child's parent, guardian, or custodian has knowingly failed to provide the treatment;

(C) the child having suffered substantial physical harm or if there is an imminent and substantial risk that the child will suffer such harm as a result of the actions done by or conditions created by the child's parent, guardian, or custodian or the failure of the parent, guardian, or custodian adequately to supervise the child;

(D) the child having been, or being in imminent and substantial danger of being, sexually abused either by the child's parent, guardian, or custodian, or as a result of conditions created by the child's parent, guardian, or custodian, or by the failure of the child's parent, guardian, or custodian adequately to supervise the child;

(E) the child committing delinquent acts as a result of pressure, guidance, or approval from the child's parents, guardian, or custodian;

(F) the child having suffered substantial physical abuse or neglect as a result of conditions created by the child's parent, guardian, or custodian.

(b) When a minor is accused of violating a traffic statute or regulation, a traffic ordinance or regulation of an incorporated municipality, AS 11.76.105 relating to the possession of tobacco by a minor, a fish and game statute or regulation under AS 16, or parks and recreational facilities statute or regulation under AS 41.21, excepting a statute the violation of which is a felony, the procedure prescribed in AS 47.10.020 - 47.10.090 may not be followed, except that a parent, guardian, or legal custodian shall be present at all proceedings. The minor accused of an offense specified in this subsection shall be charged, prosecuted, and sentenced in the district court in the same manner as an adult.

(c) In a controversy concerning custody of a minor, the court may appoint a guardian of the person and property of a minor and may order support from either or both parents. Custody of a minor may be given to the department, and payment of support money to the department may be ordered.

(d) The provisions of AS 47.10.020 - 47.10.085 do not apply to driver's license proceedings under AS 28.15.185. (e) When a minor who was at least 16 years of age at the time of the offense is arraigned on a charge for an offense specified in this subsection, AS 47.10.020 - 47.10.090 and the Alaska Delinquency Rules do not apply to the offense for which the minor is arraigned or to any additional offenses joinable to it under the applicable rules of court governing criminal procedure. The minor shall be charged, prosecuted, and sentenced in the superior court in the same manner as an adult unless the minor is convicted of some offense other than an offense specified in the subsection, in which event the minor may attempt to prove, by a preponderance of the evidence, that the minor is amenable to treatment under this chapter. If the court finds that the minor is amenable to treatment under this chapter, the minor shall be treated as though the charges had been heard under AS 47.10.010 - 47.10.142, and the court shall order disposition of the charges of which the minor is

convicted under AS 47.10.080(b). The provisions of this subsection apply when the minor is arraigned on a charge

(1) that is an unclassified felony or a class A felony and the felony is a crime against a person; or

Sec. 47.10.130 Detention. (a) A minor may not be incarcerated in a correctional facility that houses adult prisoners.

(b) When a minor is detained under this chapter, the person having responsibility for the facility in which the minor is detained shall immediately make reasonable attempts to notify the minor's parent, guardian, or custodian of the minor's detention.

(c) Notwithstanding (a) of this section, a minor may be incarcerated in a correctional facility

(1) if the minor is the subject of a petition filed with the court under this chapter seeking adjudication of the minor as a delinquent minor or if the minor is in official detention pending the filing of that petition; however, detention in a correctional facility under this paragraph may not exceed the lesser of

(A) six hours; or

(B) the time necessary to arrange the minor's transportation to a juvenile detention home or comparable facility for the detention of minors;

(2) if, in response to a petition of delinquency filed under this chapter, the court has entered an order closing the case under AS 47.10.060(a), allowing the minor to be prosecuted as an adult; or

(3) if the incarceration constitutes a protective custody detention of the minor that is authorized by AS 47.37.170(b).

(d) When a minor is detained under (c)(1) or (c)(3) of this section and incarcerated in a correctional facility, the minor shall be

(1) assigned to quarters in the correctional facility that are separate from quarters used to house adult prisoners so that the minor cannot communicate with or view adults who are in official detention;

(2) provided admission, health care, hygiene, and food services and recreation and visitation opportunities separate from services and opportunities provided to adults who are in official detention.

(e) Notwithstanding the limitation on detention set out in (c)(1) of this section, a minor whose detention is authorized by (c)(1) of this section may be detained in a correctional facility for more than six hours if transportation to a juvenile detention home or comparable facility for the detention of minors is not available. The minor's detention for more than six hours is authorized by this subsection only if the person having responsibility for the facility in which the minor is detained

(1) documents the reason that transportation of the minor to a juvenile detention home or comparable facility is not available; and

(2) during the minor's detention, after learning that transportation is not available, promptly notifies the appropriate officials or employees of the department and the Alaska Court System of the lack of available transportation.

(f) A detention authorized by (e) of this section may not exceed the time necessary to satisfy the requirement of (c)(1)(B) of this section.

(g) The provisions of AS 47.37.170(i) apply to a minor incarcerated in a correctional facility when authorized by (c)(3) of this section.

(h) In this section,

(1) "correctional facility" has the meaning given in AS 33.30.901 whether the facility is operated by the state, a municipality, a village, or another entity;

(2) "official detention" has the meaning given in AS 11.81.900. (§ 14 art I ch 145 SLA 1957; am § 11 ch 33 SLA 1994)

Sec. 47.10.140 Temporary detention and detention hearing. (a) A peace officer may arrest a minor who violates a law or ordinance in the officer's presence, or whom the officer reasonably believes is a fugitive from justice. A peace officer may continue a lawful arrest made by a citizen. The officer may have

the minor detained in a juvenile detention facility if in the officer's opinion it is necessary to do so to protect the minor or the community.

(b) A peace officer who has a minor detained under (a) of this section shall immediately, and in no event more than 12 hours later, notify the court and make reasonable efforts to notify the minor's parents or guardian, and the department of the officer's action. The department may file with the court a petition alleging delinquency before the detention hearing.

(c) The court shall immediately, and in no event more than 48 hours later, hold a hearing at which the minor and the minor's parents or guardian if they can be found shall be present. The court shall determine whether probable cause exists for believing the minor to be delinquent. The court shall inform the minor of the reasons alleged to constitute probable cause and the reasons alleged to authorize the minor's detention. The minor is entitled to counsel and to confrontation of adverse witnesses.

(d) If the court finds that probable cause exists, it shall determine whether the minor should be detained pending the hearing on the petition or released. It may either order the minor held in detention or released to the custody of a suitable person pending the hearing on the petition. If the court finds no probable cause, it shall order the minor released and close the case.

(e) Except for temporary detention pending a detention hearing, a minor may be detained only by court order.

(f), (g) [Repealed, § 3 ch 42 SLA 1985.] (§ 15 art I ch 145 SLA 1957; am § 3 ch 118 SLA 1962; am § 2 ch 100 SLA 1971; am § 6 ch 104 SLA 1971; am §§ 1, 2 ch 128 SLA 1972; am §§ 1, 3 ch 42 SLA 1985; am § 12 ch 33 SLA 1994)

Sec. 47.10.141 Runaway and missing minors. (a) Upon receiving a written, telephonic, or other request to locate a minor evading the minor's legal custodian or to locate a minor otherwise missing, a law enforcement agency shall make reasonable efforts to locate the minor and shall immediately complete a missing person's report containing information necessary for the identification of the minor. As soon as practicable, but not later than 24 hours after completing the report, the agency shall transmit the report for entry into the Alaska Public Safety Information Network and the National Crime Information Center computer system. The report shall also be submitted to the missing persons information clearinghouse under AS 18.65.620. As soon as practicable, but not later than 24 hours after the agency learns that the minor has been located, it shall request that the Department of Public Safety and the Federal Bureau of Investigation remove the information from the computer systems.

(b) A peace officer shall take into protective custody a minor described in (a) of this section if the minor is not otherwise subject to arrest or detention. Unless (c) of this section applies, the peace officer shall exercise the officer's discretion and

(1) return the minor to the legal custodian if the legal custodian consents to the return except that the officer may not use this option if the officer has reasonable cause to suspect that the minor has experienced physical or sexual abuse in the legal custodian's household;

(2) take the minor to a nearby location agreed to by the minor and the legal custodian; or

(3) take the minor to an office specified by the Department of Health and Social Services, a program for runaway minors licensed by the department under AS 47.10.310, a shelter for runaways that has a permit from the department under AS 47.35.085 that agrees to shelter the minor, or a facility or contract agency of the department. If an office specified by the department, a licensed program for runaway minors, a shelter for runaways that will accept the minor, or a facility or contract agency of the department does not exist in the community, the officer shall take the minor to another suitable location and promptly notify the department. A minor under protective custody may not be housed in a jail or other detention facility. Immediately upon taking a minor into protective custody, the officer shall advise the minor orally and in writing of the right to social services under AS 47.10.142(b), and, if known, the officer shall advise the legal custodian that the minor has been taken into protective custody and that counseling services for the custodian and the minor's household may be available under AS 47.10.142(b).

(c) A minor may be taken into emergency protective custody by a peace officer and placed into temporary detention in a juvenile detention home in the local community if there has been an order issued by a court under a finding of probable cause that

(1) the minor is a runaway in wilful violation of a valid court order issued under AS 47.10.080 or 47.10.142(f),

(2) the minor's current situation poses a severe and imminent risk to the minor's life or safety, and

(3) no reasonable placement alternative exists within the community. For the purposes of this subsection, a risk may not be considered severe and imminent solely because of the general conditions for runaway minors in the community, but shall be assessed in view of the specific behavior and situation of the minor. A minor detained under this subsection shall be brought before a court on the day the minor is detained, or if that is not possible, within 24 hours after the detention for a hearing to determine the most appropriate placement in the best interests of the minor. A minor taken into emergency protective custody under this subsection may not be detained for more than 24 hours, except as provided under AS 47.10.140. Emergency protective custody may not include placement of a minor in a jail or secure facility other than a juvenile detention home, nor may an order for protective custody be enforced against a minor who is residing in a licensed program for runaway minors, as defined in AS 47.10.390.

(d) If, after investigation of a report of a missing minor, a law enforcement agency has reason to believe that the minor is involuntarily absent from the custody of a custodial parent or guardian, the department shall notify the Bureau of Vital Statistics of the disappearance and shall provide the bureau with a description of the minor. The description of the minor must include, if known, the minor's full name, date and place of birth, parent's names, and mother's maiden name. If the Department of Public Safety has reason to believe that the minor, whether born in this state or not, has been enrolled in a specific school or school district in the state, the department shall also notify the last known school or school district attended in the state by the missing minor of the disappearance. When a person who was listed as a missing minor is found, the Department of Public Safety shall notify the Bureau of Vital Statistics and any school or school district previously informed of the person's disappearance.

(e) In this section, "law enforcement agency" has the meaning given in AS 12.36.090. (§ 2 ch 42 SLA 1985; am § 3 ch 72 SLA 1988; am §§ 1, 2 ch 144 SLA 1988; am § 4 ch 202 SLA 1990; am § 13 ch 33 SLA 1994)

Sec. 47.10.150 General powers of department over juvenile institutions. The department may

(1) purchase, lease, or construct buildings or other facilities for the care, detention, rehabilitation, and education of children in need of aid or delinquent minors;

(2) adopt plans for construction of juvenile homes, juvenile work camps, juvenile detention facilities, and other juvenile institutions;

(3) adopt standards and regulations under this chapter for the design, construction, repair, maintenance, and operation of all juvenile detention homes, work camps, facilities, and institutions;

(4) inspect periodically each juvenile detention home, work camp, facility, or other institution to ensure that the standards and regulations adopted are being maintained;

(5) reimburse cities maintaining and operating juvenile detention homes, work camps, and facilities;

(6) enter into contracts and arrangements with cities and state and federal agencies to carry out the purposes of this chapter;

(7) do all acts necessary to carry out the purposes of this chapter;

(8) adopt the regulations necessary to carry out this chapter;

(9) accept donations, gifts, or bequests of money or other property for use in construction of juvenile homes, work camps, institutions, or detention facilities;

(10) operate juvenile homes when municipalities are unable to do so;

(11) receive, care for, and place in a juvenile detention home, the minor's own home, a foster home, or a correctional school, work camp, or treatment institution all minors committed to its custody under this chapter. (§ 3 art II ch 145 SLA 1957; am § 1 ch 152 SLA 1959; am § 6 ch 104 SLA 1971; am § 25 ch 63 SLA 1977; am § 2 ch 72 SLA 1993)

Sec. 47.10.160 Duties of department.

(a) The department shall

(1) accept all minors committed to the custody of the department and all minors who are involved in a written agreement under AS 47.10.230(c), and provide for the welfare, control, care, custody, and placement of these minors in accordance with this chapter;

(2) require and collect statistics on juvenile offenses and offenders in the state;

(3) conduct studies and prepare findings and recommendations on the need, number, type, construction, maintenance, and operating costs of juvenile homes, work camps, facilities, and the other institutions, and adopt and submit a plan for construction of the homes, work camps, facilities, and institutions when needed, together with a plan for financing the construction programs;

(4) examine, where possible, all facilities, institutions, work camps, and places of juvenile detention in the state and inquire into their methods and the management of juveniles in them.

(b) For the purpose of collecting statistics, the department shall establish and require state and local agencies that operate a jail or other detention facility to use a standardized form to keep a record and report the admission of a minor. The record shall be limited to the name of the minor admitted, the minor's date of birth, the specific offense for which the minor was admitted, the date and time admitted, the date and time released, the sex of the minor, the ethnic origin of the minor, and other information required by federal law. Except for the notation of the date and time of the minor's release, the record shall be prepared at the time of the minor's admission. Unless otherwise provided by law, information and records obtained under this subsection are confidential and are not public records. They may be disclosed only for the purpose of compiling statistics and in a manner that does not reveal the identity of the minor. (§ 5 art II ch 145 SLA 1957; am § 4 ch 110 SLA 1967; am § 4 ch 100 SLA 1971; am § 6 ch 104 SLA 1971; am § 1 ch 169 SLA 1990; am § 3 ch 72 SLA 1993)

Sec. 47.10.180 Operation of homes and facilities. (a) The department shall adopt standards and regulations for the operation of

(1) juvenile detention homes and juvenile detention facilities in the state; and

(2) juvenile work camps in the state; the regulations adopted under this paragraph must provide a means by which to ensure that a minor who is placed in a work camp

(A) is in good physical and mental condition and able to perform the work and engage in the activities that may be required of the minor;

(B) does not present a danger to the physical safety of other minors who are placed in the work camp.

(b) The department may enter into contracts with cities and other governmental agencies for the detention of juveniles before and after commitment by juvenile authorities. A contract may not be made for longer than one year. (§ 8 art II ch 145 SLA 1957; am § 3 ch 97 SLA 1960; am § 6 ch 104 SLA 1971; am § 5 ch 72 SLA 1993)

Sec. 47.10.190 Detention of minors. When the court commits a minor to the custody of the department, except when detention in a correctional facility is authorized by AS 47.10.130(c), the department shall arrange to place the juvenile in a detention home, work camp, or another suitable place that the department designates for that purpose. (§ 9 art II ch 145 SLA 1957; am § 6 ch 72 SLA 1993; am § 16 ch 33 SLA 1994)

Sec. 47.30.705. Emergency detention for evaluation. A peace officer, a psychiatrist or physician who is licensed to practice in this state or employed by the federal government, or clinical psychologist licensed by the state Board of Psychologists and psychological Examiners who has probable cause to believe that a person is gravely disabled or is suffering from mental illness and is likely to cause serious harm to self or others of such immediate nature that considerations of safety do not allow initiation of involuntary commitment procedures set out in AS 47.30.700, may cause the person to be taken into custody and delivered to the nearest evaluation facility. A person taken into custody for emergency evaluation may not be placed in a jail or other correctional facility except for protective custody purposes and only while awaiting transportation to a treatment facility. The peace officer or mental health professional shall complete an application for examination of the person in custody and be interviewed by a mental health professional at the facility. (§ 1 ch 84 SLA 1981; am § 8 ch 142 SLA 1984)

Sec. 47.30.725. Commitment proceeding rights; notification. (a) When a respondent is detained for evaluation under AS 47.30.660 - 47.30.915, the respondent shall be immediately notified orally and in writing of the rights under this section. Notification must be in a language understood by the respondent.

The respondent's guardian, if any, and if the respondent requests, an adult designated by the respondent, shall also be notified of the respondent's rights under this section.

(b) Unless a respondent is released or voluntarily admitted for treatment within 72 hours of arrival at the facility or, if the respondent is evaluated by evaluation personnel, within 72 hours from the beginning of the respondent's meeting with evaluation personnel, the respondent is entitled to a court hearing to be set for not later than the end of that 72 hour period to determine whether there is a cause for detention after the 72 hours have expired for up to an additional 30 days on the grounds that the respondent is mentally ill, and as a result presents a likelihood of serious harm to the respondent or others, or is gravely disabled. The facility or evaluation personnel shall give notice to the court of the releases and voluntary admissions under AS 47.30.700 - 47.30.815.

(c) The respondent has the right to communicate immediately, at the department's expense, with the respondent's guardian, if any, or an adult designated by the respondent and the attorney designated in the ex parte order, or an attorney of the respondent's choice.

(d) The respondent has the right to be represented by an attorney, to present evidence, and to cross-examine witnesses who testify against the respondent at the hearing.

(e) The respondent has the right to be free of the effects of medication and other forms of treatment to the maximum extent possible before the 30-day commitment hearing; however, the facility or evaluation personnel may treat the respondent with medication under prescription by a licensed physician or by a less restrictive alternative of the respondent's preference if, in the opinion of a licensed physician in the case of medication, or of a mental health professional in the case of alternative treatment, the treatment is necessary to

(1) prevent bodily harm to the respondent or others;

(2) prevent such deterioration of the respondent's mental condition that subsequent treatment might not enable the respondent to recover; or

(3) allow the respondent to prepare for and participate in the proceedings.

(f) A respondent, if represented by counsel, may waive, orally or in writing, the 72-hour time limit on the 30-day commitment hearing and have the hearing set for a date no more than seven calendar days after arrival at the facility. The respondent's counsel shall immediately notify the court of the waiver. (§ 1 ch 84 SLA 1981; am § 10 ch 142 SLA 1984)

Sec. 47.30.730 Procedure for 30-day commitment; petition for commitment. (a) In the course of the 72-hour evaluation period, a petition for commitment to a treatment facility may be filed in court. The petition must be signed by two mental health professionals who have examined the respondent, one of whom is a physician. The petition must

(1) allege that the respondent is mentally ill and as a result is likely to cause harm to self or others or is gravely disabled;

(2) allege that the evaluation staff has considered but has not found that there are any less restrictive alternatives available that would adequately protect the respondent or others; or, if a less restrictive involuntary form of treatment is sought, specify the treatment and the basis for supporting it;

(3) allege with respect to a gravely disabled respondent that there is reason to believe that the respondent's mental condition could be improved by the course of treatment sought;

(4) allege that a specified treatment facility or less restrictive alternative that is appropriate to the respondent's condition has agreed to accept the respondent;

(5) allege that the respondent has been advised of the need for, but has not accepted, voluntary treatment, and request that the court commit the respondent to the specified treatment facility or less restrictive alternative for a period not to exceed 30 days;

(6) list the prospective witnesses who will testify in support of commitment or involuntary treatment; and

(7) list the facts and specific behavior of the respondent supporting the allegation in (1) of this subsection.

(b) A copy of the petition shall be served on the respondent, the respondent's attorney, and the respondent's guardian, if any, before the 30-day commitment hearing. (§ 1 ch 84 SLA 1981; am § 11 ch 142 SLA 1984)

Sec. 47.30.735. 30-day commitment. (a) Upon receipt of a proper petition for commitment, the court shall hold a hearing at the date and time previously specified according to procedures set out in AS 47.30.715.

(b) The hearing shall be conducted in a physical setting least likely to have a harmful effect on the mental or physical health of the respondent, within practical limits. At the hearing, in addition to other rights specified in AS 47.30.660 — 47.30.915, the respondent has the right

(1) to be present at the hearing; this right may be waived only with the respondent's informed consent; if the respondent is incapable of giving informed consent, the respondent may be excluded from the hearing only if the court, after hearing, finds that the incapacity exists and that there is a substantial likelihood that the respondent's presence at the hearing would be severely injurious to the respondent's mental or physical health;

(2) to view and copy all petitions and reports in the court file of the respondent's case;

(3) to have the hearing open or closed to the public as the respondent elects;

(d) If the court finds that there is a viable less restrictive alternative available and that the respondent has been advised of and refused voluntary treatment through the alternative, the court may order the less restrictive alternative treatment for not more than 30 days if the program accepts the respondent.

(e) The court shall specifically state to the respondent, and give the respondent written notice, that if commitment or other involuntary treatment beyond the 30 days is to be sought, the respondent has the right to a full hearing or jury trial. (§ 1 ch 84 SLA 1981; am § 12 ch 142 SLA 1984)

Sec. 47.37.170 Treatment and services for intoxicated persons and persons incapacitated by alcohol. (a) An intoxicated person may come voluntarily to an approved public treatment facility for emergency treatment. A person who appears to be intoxicated in a public place and to be in need of help or a person who appears to be intoxicated in or upon a licensed premise where intoxicating liquors are sold or consumed who refuses to leave upon being requested to leave by the owner, an employee or a peace officer, may be taken into protective custody and assisted by a peace officer or a member of the emergency service patrol to the person's home, an approved public treatment facility, an approved private treatment facility, or another appropriate health facility. If all of the preceding facilities, including the person's home, are

determined to be unavailable, a person taken into protective custody and assisted under this subsection may be taken to a state or municipal detention facility in the area.

(b) A person who appears to be incapacitated by alcohol in a public place shall be taken into protective custody by a peace officer or a member of the emergency service patrol and immediately brought to an approved public treatment facility, an approved private treatment facility, or another appropriate health facility or service for emergency medical treatment. If no treatment facility or emergency medical service is available, a person who appears to be incapacitated by alcohol in a public place shall be taken to a state or municipal detention facility in the area, if that appears necessary for the protection of the person's health or safety.

(c) A person who voluntarily appears or is brought to an approved public treatment facility shall be examined by a licensed physician or other qualified health practitioner as soon as possible. The department shall, by regulation, determine which health practitioners may be authorized to perform the examination. After the examination, the person may be admitted as a patient or referred to another health facility. The approved public treatment facility which refers the person shall arrange for transportation.

(d) A person who, after medical examination, is found to be incapacitated by alcohol at the time of admission or to have become incapacitated at any time after admission, may not be detained at a facility after the person is no longer incapacitated by alcohol. A person may not be detained at a facility if the person remains incapacitated by alcohol for more than 48 hours after admission as a patient, unless the person is committed under AS 47.37.180. A person may consent to remain in the facility as long as the physician in charge considers it appropriate.

(e) A person who is not admitted to an approved public treatment facility, is not referred to another health facility, and has no funds, may be taken to the person's home, if any. If the person has no home, the approved public treatment facility shall assist the person in obtaining shelter.

(i) A person taken to a detention facility under (a) or (b) of this section may be detained only (1) until a treatment facility or emergency medical service is made available, or (2) until the person is no longer intoxicated or incapacitated by alcohol, or (3) for a maximum period of 12 hours, whichever occurs first. A detaining officer or a detention facility official may release a person who is detained under (a) or (b) of this section at any time to the custody of a responsible adult. A peace officer or a member of the emergency service patrol, in detaining a person under (a) or (b) of this section and in taking the person to a treatment facility, an emergency medical service or a detention facility, is taking the person into protective custody and the officer or patrol member shall make reasonable efforts to provide for and protect the health and safety of the detainee. In taking a person into protective custody under (a) and (b) of this section, a detaining officer, a member of the emergency service patrol or a detention facility official may take reasonable steps for self-protection, including a full protective search of the person of a detainee. Protective custody under (a) and (b) of this section does not constitute an arrest and no entry or other record may be made to indicate that the person detained has been arrested or charged with a crime, except that a confidential record may be made which is necessary for the administrative purposes of the facility to which the person has been taken or which is necessary for statistical purposes where the person's name may not be disclosed.

(j) For purposes of (b) of this section, "incapacitated by alcohol" means a person who, as the result of consumption of alcohol, is rendered unconscious or has judgment or physical mobility so impaired that the person cannot readily recognize or escape conditions of apparent or imminent danger to personal health or safety. ALASKA RULES OF COURT

Rule 7. Emergency Detention or Placement

(a) Arrest.

(1) A juvenile may be arrested for the commission of a delinquent act under the same circumstances and in the same manner as would apply to the arrest of an adult for violation of a criminal law of the state or a municipality of the state.

(2) A peace officer or probation officer may, without a warrant, arrest a juvenile if probable cause exists to believe that the juvenile has violated conditions of release or probation.

(3) In conformity with the Interstate Compact on Juveniles, a peace officer may, without a requisition, arrest a juvenile based upon reasonable information that the juvenile is a delinquent and has escaped from an institution or absconded from probation, parole or the jurisdiction of a court.

(b) Detention, Placement, Notification. If a juvenile is arrested, the juvenile must be taken immediately to a detention facility or placement facility designated by the Department or released pursuant to paragraph (c) of this rule. The arresting officer shall immediately notify the parents or guardian of the arrest and detention or placement and shall notify the court and Department immediately, if possible, and in no event more than 12 hours later. The arresting officer shall make and retain a written record of the notification. If the juvenile is arrested under subparagraph (a)(3) of this rule, prompt notification must also be given to the Department of Law.

(c) Release. A peace officer or probation officer may, before taking the juvenile arrested under subparagraphs (a)(1) or (2) of this rule to a detention or other placement facility, release the juvenile to the juvenile's parents or guardian if detention or placement is not necessary to protect the juvenile or others, and the juvenile will be available for court hearings. The Department may direct that a juvenile arrested under paragraph (a) of this rule be released from detention before the temporary detention hearing.

Rule 12. Temporary Detention Hearing

(**a) Hearing Required.** A juvenile detained under AS 47.10.140 must be taken before the court for a temporary detention hearing. The hearing must be held as soon as is practicable, but in no event later than 48 hours after notification to the court, including weekends and holidays.

(**b) Detention or Placement After Hearing.** A juvenile may not be detained or placed outside the home of a parent or guardian unless the court makes the following findings:

(1) that probable cause exists to believe that either (a) the juvenile has committed a delinquent act as alleged in a petition, or (b) after such a probable cause finding has been made at a prior hearing, the juvenile has violated a release condition or probation condition imposed by the court; and

(2) that detention or placement outside the home of a parent or guardian is necessary either (a) to protect the juvenile or others, or (b) to ensure the juvenile's appearance at subsequent court hearings. The court may not order detention unless there is no less restrictive alternative which would protect the juvenile and the public or ensure the juvenile's appearance at subsequent hearings.

(**c) Release From Detention or Placement.** The juvenile must be released to a parent, guardian, relative or some other responsible person upon such reasonable conditions as the court may set if insufficient reason exists to warrant detention or placement outside the home under paragraph (b) of this rule.

(**d) Termination of Detention or Placement.** A juvenile who has been detained for a period of 30 days, but who has not been adjudicated a delinquent, will be released unless, at or prior to the expiration of the 30 days, either:

(1) the court, after a hearing, orders continued detention and makes findings stating the reasons supporting the order; or

(2) the minor and the minor's attorney stipulate with the Department to continued detention.

If the juvenile is not in the same community as the court, the juvenile's participation at the hearing to determine continued detention may be by telephone. An order for placement outside the home pending adjudication or disposition must specify its duration.

A juvenile may not be confined in solitary confinement for punitive reasons.

EXECUTIVE PROCLAMATION

STATE OF ALASKA

Executive Proclamation

by

Steve Cowper, Governor

Confining children in adult jails is not in the best interest of Alaska's children or the public. In 1986 as many as 427 children were detained in adult jails and lockups throughout the state. Alaska statutes prohibit confinement of children in adult jails and lockups unless they are assigned to separate quarters so that they not view or communicate with adult prisoners.

The practice of jailing children with adults often leads to depression or suicide attempts. The risk of those children experiencing emotional, physical and sexual abuse is also increased.

The federal Juvenile Justice Delinquency Prevention Act mandates that states improve their juvenile justice systems by:

1. eliminating the practice of detaining children charged with status offenses;
2. separating children from adults by sight and sound when both are detained in the same jail, lockup, or other correctional facility;
3. identifying and monitoring all facilities which detain children;
4. eliminating the practice of detaining children in any adult jail, lockup, or correctional facility.

NOW, THEREFORE, I, Steve Cowper, Governor of the State of Alaska, do hereby proclaim my support for the Department of Health and Social Services to work with the Departments of Corrections and Public Safety, the public, and municipalities to develop regulations which reduce detention of children in adult facilities, ensure safe and appropriate conditions for children who are detained, and provide for collection and maintenance of accurate records on each youth admitted, detained and released.

DATED: April 14, 1989

Done by —

Steve Cowper, Governor,
who has also authorized
the seal of the State of
Alaska to be affixed to
this proclamation.

SUBCHAPTER I—GENERALLY

§ 5601. Congressional statement of findings

(a) The Congress hereby finds that—

(1) juveniles account for almost half the arrests for serious crimes in the United States today;

(2) understaffed, overcrowded juvenile courts, probation services, and correctional facilities are not able to provide individualized justice or effective help;

(3) present juvenile courts, foster and protective care programs, and shelter facilities are inadequate to meet the needs of the countless, abandoned, and dependent children, who, because of this failure to provide effective services, may become delinquents;

(4) existing programs have not adequately responded to the particular problems of the increasing numbers of young people who are addicted to or who abuse alcohol and other drugs, particularly nonopiate or polydrug abusers;

(5) juvenile delinquency can be prevented through programs designed to keep students in elementary and secondary schools through the prevention of unwarranted and arbitrary suspensions and expulsions;

[Part 2 – p. 4]

(6) States and local communities which experience directly the devastating failures of the juvenile justice system do not presently have sufficient technical expertise or adequate resources to deal comprehensively with the problems of juvenile delinquency;

(7) existing Federal programs have not provided the direction, coordination, resources, and leadership required to meet the crisis of delinquency; and

(8) the juvenile justice system should give additional attention to the problem of juveniles who commit serious crimes, with particular attention given to the areas of sentencing, providing resources necessary for informed dispositions, and rehabilitation.

(b) Congress finds further that the high incidence of delinquency in the United States today results in enormous annual cost and immeasurable loss of human life, personal security, and wasted human resources and that juvenile delinquency constitutes a growing threat to the national welfare requiring immediate and comprehensive action by the Federal Government to reduce and prevent delinquency.

Notes of Decisions

Dismissal 2
Retroactive effect 1

---

1. Retroactive effect

This chapter was applicable to juvenile, who was 16 years old at time of incident in national park giving rise to first-degree murder charge, where indictment had not been tried by date of approval of this chapter; exposure of juvenile to mandatory treatment as an adult for offenses punishable by death or life imprisonment was not a liability saved by section 109 of Title 1, the general savings provision. U. S. v. Azevedo, D.C.Hawaii 1975, 394 F.Supp. 852.

2. Dismissal

Although this chapter applied to defendant, who was 16 years old at time of incident in national park giving rise to first-degree murder charge and who had not been tried prior to approval of this chapter, proper remedy was not necessarily dismissal. U. S. v. Azevedo, D.C.Hawaii 1975, 394 F.Supp. 852.

Notes of Decisions

1. Private right of action

This chapter did not define a civil right of liberty such as to be actionable under section 1343(3) of Title 28 granting federal district courts jurisdiction over "civil rights" cases, even though this chapter clearly evinced intention to implement "least restrictive alternative" in regard to rehabilitation of juvenile delinquents, since there was no evidence that a private cause of action was created by Congress so as to give standing to juvenile herein to sue state or state agencies for not complying with such national federal policy. SUBCHAPTER III—RUNAWAY AND HOMELESS YOUTH

§ 5701. Congressional statement of findings

The Congress hereby finds that—

(1) the number of juveniles who leave and remain away from home without parental permission has increased to alarming proportions, creating a substantial law enforcement problem for the communities inun-

[Part 2 – p. 31]

dated, and significantly endangering the young people who are without resources and live on the street;

(2) the exact nature of the problem is not well defined because national statistics on the size and profile of the runaway youth population are not tabulated;

(3) many such young people, because of their age and situation, are urgently in need of temporary shelter and counseling services;

(4) the problem of locating, detaining, and returning runaway children should not be the responsibility of already overburdened police departments and juvenile justice authorities; and

(5) in view of the interstate nature of the problem, it is the responsibility of the Federal Government to develop accurate reporting of the problem nationally and to develop an effective system of temporary care outside the law enforcement structure.

§ 5601. Congressional statement of findings

(a) The Congress hereby finds that—

(1) juveniles accounted for almost half the arrests for serious crimes in the United States in 1974 and for less than one-third of such arrests in 1983;

(2) recent trends show an upsurge in arrests of adolescents for murder, assault, and weapon use;

(3) the small number of youth who commit the most serious and violent offenses are becoming more violent;

(4) understaffed, overcrowded juvenile courts, prosecutorial and public defender offices, probation services, and correctional facilities and inadequately trained staff in such courts, services, and facilities are not able to provide individualized justice or effective help;

(5) present juvenile courts, foster and protective care programs, and shelter facilities are inadequate to meet the needs of children, who, because of this failure to provide effective services, may become delinquents;

(6) existing programs have not adequately responded to the particular problems of the increasing numbers of young people who are addicted to or who abuse alcohol and other drugs, particularly nonopiate or polydrug abusers;

(7) juvenile delinquency can be reduced through programs designed to keep students in elementary and secondary schools through the prevention of unwarranted and arbitrary suspensions and expulsions;

(8) States and local communities which experience directly the devastating failures of the juvenile justice system do not presently have sufficient technical expertise or adequate resources to deal comprehensively with the problems of juvenile delinquency;

(9) existing Federal programs have not provided the direction, coordination, resources, and leadership required to meet the crisis of delinquency;

(10) the juvenile justice system should give additional attention to the problem of juveniles who commit serious crimes, with particular attention given to the areas of sentencing, providing resources necessary for informed dispositions, and rehabilitation;

(11) emphasis should be placed on preventing youth from entering the juvenile justice system to begin with; and

(12) the incidence of juvenile delinquency can be reduced through public recreation programs and activities designed to provide youth with social skills, enhance self esteem, and encourage the constructive use of discretionary time.

NOTES OF DECISIONS

1. Detention of juvenile aliens

Treatment of juvenile aliens following their arrival in the United States was unduly harsh and their detention in facilities was not suited to juvenile custody or rehabilitation, and there was thereby an abuse of discretion by federal officials responsible for their custody; status of the juveniles as aliens subject to exclusion did not warrant deprivation of the protections and benefits offered to other juveniles in the United States. NOTES OF DECISIONS

1. Private right of action

Even if Juvenile Justice Act did not create private right of action, Act created federally protected rights which could be enforced through private actions under § 1983. Grenier By and Through Grenier on Behalf of Grenier v. Kennebec County, Me., D.Me.1990, 748 F.Supp. 908.

Juvenile Justice and Delinquency Prevention Act, providing that in order to obtain federal funding made available thereunder state must not incarcerate juveniles in any institution in which they would have regular contact with adults, was intended to provide private right of action only against state and/or local agencies eligible for funding under Act and could not serve as basis for juvenile arrestee's civil rights claim against arresting officers. Doe v. Borough of Clifton Heights, E.D.Pa.1989, 719 F.Supp. 382, affirmed 902 F.2d 1558, 1559, certiorari denied 111 S.Ct. 348, 498 U.S. 941, 112 L.Ed.2d 312.

[Part 2 – p. 51]

Juvenile Justice and Delinquency Prevention Act does not provide an express right of action and its purpose and history do not give rise to an implied right of action, nor does it form the basis for a civil rights action. Doe v. McFaul, D.C.Ohio 1984, 599 F.Supp. 1421.

2. Removal of juveniles from jails

In order to remedy state's noncompliance with provision of Juvenile Justice and Delinquency Prevention Act requiring removal of juvenile offenders from adult jails, state would be required to submit plan for achieving combination of policy changes and reduction in rate of juvenile jailing which would place state in compliance with the Act by end of year. Hendrickson v. Griggs, N.D.Iowa 1987, 672 F.Supp. 1126, appeal dismissed 856 F.2d 1041.

3. Issues reviewable

District court order directing state officials to submit plan for achieving compliance with Juvenile Justice and Delinquency Prevention Act did not contain injunctive relief apart from requirement that state submit plan and did not grant portion of relief sought in connection with plan or specify nature or extent of relief plan would afford and was thus nonappealable interlocutory order; order did not expressly require state to seek new legislation, did not preclude state from withdrawing from federal grant program and did not specify method for achieving compliance, other than incorporating general funding conditions of Act. Hendrickson v. Griggs, C.A.8 (Iowa) 1988, 856 F.2d 1041.

4. Waiver of sovereign immunity

Federal Juvenile Justice and Delinquency Prevention Act does not waive state's Eleventh Amendment immunity from suit in federal court; Act is silent on issue of Eleventh Amendment immunity and fails to provide for private cause of action. Grenier By and Through Grenier v. Kennebec County, Me., D.Me.1990, 733 F.Supp. 455, amended on other grounds 749 F.Supp. 28.

PART E—STATE CHALLENGE ACTIVITIES

§ 5667c. Establishment of program

(a) In general

The Administrator may make a grant to a State that receives an allocation under section 5632 of this title, in the amount of 10 percent of the amount of the allocation, for each challenge activity in which the State participates for the purpose of funding the activity.

(b) Definitions

For purposes of this part—

(1) the term "case review system" means a procedure for ensuring that—

(A) each youth has a case plan, based on the use of objective criteria for determining a youth's danger to the community or himself or herself, that is designed to achieve appropriate placement in the least restrictive and most family-like setting available in close proximity to the parents' home, consistent with the best interests and special needs of the youth;

(B) the status of each youth is reviewed periodically but not less frequently than once every 3 months, by a court or by administrative review, in order to determine the continuing necessity for and appropriateness of the placement;

(C) with respect to each youth, procedural safeguards will be applied to ensure that a dispositional hearing is held to consider the future status of each youth under State supervision, in a juvenile or family court or another court (including a tribal court) of competent jurisdiction, or by an administrative body appointed or approved by the court, not later than 12 months after the

original placement of the youth and periodically thereafter during the continuation of out-of-home placement; and

(D) a youth's health, mental health, and education record is reviewed and updated periodically; and

(2) the term "challenge activity" means a program maintained for 1 of the following purposes:

(A) Developing and adopting policies and programs to provide basic health, mental health, and appropriate education services, including special education, for youth in the juvenile justice system as specified in standards developed by the National Advisory Committee for Juvenile Justice and Delinquency Prevention prior to October 12, 1984.

(B) Developing and adopting policies and programs to provide access to counsel for all juveniles in the justice system to ensure that juveniles consult with counsel before waiving the right to counsel.

(C) Increasing community-based alternatives to incarceration by establishing programs (such as expanded use of probation, mediation, restitution, community service, treatment, home detention, intensive supervision, and electronic monitoring) and developing and adopting a set of objective criteria for the appropriate placement of juveniles in detention and secure confinement.

(D) Developing and adopting policies and programs to provide secure settings for the placement of violent juvenile offenders by closing down traditional training schools and replacing them with secure settings with capacities of no more than 50 violent juvenile offenders with ratios of staff to youth great enough to ensure adequate supervision and treatment.

(E) Developing and adopting policies to prohibit gender bias in placement and treatment and establishing programs to ensure that female youth have access to the full range of health and mental health services, treatment for physical or sexual assault and abuse, self defense instruction, education in parenting, education in general, and other training and vocational services.

(F) Establishing and operating, either directly or by contract or arrangement with a public agency or other appropriate private nonprofit organization (other than an agency or organization that is responsible for licensing or certifying out-of-home care services for youth), a State ombudsman office for children, youth, and families to investigate and resolve complaints relating to action, inaction, or decisions of providers of out-of-home care to children and youth (including secure detention and correctional facilities, residential care facilities, public agencies, and social service agencies) that may adversely affect the health, safety, welfare, or rights of resident children and youth.

(G) Developing and adopting policies and programs designed to remove, where appropriate, status offenders from the jurisdiction of the juvenile court to prevent the placement in secure detention facilities or secure correctional facilities of juveniles who are nonoffenders or who are charged with or who have committed offenses that would not be criminal if committed by an adult.

(H) Developing and adopting policies and programs designed to serve as alternatives to suspension and expulsion from school.

(I) Increasing aftercare services for juveniles involved in the justice system by establishing programs and developing and adopting policies to provide comprehensive health, mental health, education, and vocational services and services that preserve and strengthen the families of such juveniles.

(J) Developing and adopting policies to establish—

(i) a State administrative structure to coordinate program and fiscal policies for children who have emotional and behavioral problems and their families among the major child serving systems, including schools, social services, health services, mental health services, and the juvenile justice system; and

(ii) a statewide case review system.

SUBCHAPTER III—RUNAWAY AND HOMELESS YOUTH

§ 5701. Congressional statement of findings

The Congress hereby finds that—

(1) juveniles who have become homeless or who leave and remain away from home without parental permission, are at risk of developing serious health and other problems because they lack sufficient resources to obtain care and may live on the street for extended periods thereby endangering themselves and creating a substantial law enforcement problem for communities in which they congregate;

[See main volume for text of (2) and (3)]

(4) the problem of locating, detaining, and returning runaway children should not be the responsibility of already overburdened police departments and juvenile justice authorities;

(5) in view of the interstate nature of the problem, it is the responsibility of the Federal Government to develop accurate reporting of the problem nationally and to develop an effective system of care (including preventive services, emergency shelter services, and extended residential shelter) outside the welfare system and the law enforcement system;

(6) runaway and homeless youth have a disproportionate share of health, behavioral, and emotional problems compared to the general population of youth, but have less access to health care and other appropriate services and therefore may need access to longer periods of residential care, more intensive aftercare service, and other assistance;

(7) to make a successful transition to adulthood, runaway youth, homeless youth, and other street youth need opportunities to complete high school or earn a general equivalency degree, learn job skills, and obtain employment;

(8) in view of the interstate nature of the problem, it is the responsibility of the Federal Government to develop an accurate national reporting system and to develop an effective system of care including prevention, emergency shelter services, and longer residential care outside the public welfare and law enforcement structures;

(9) early intervention services (such as home-based services) are needed to prevent runaway and homeless youth from becoming involved in the juvenile justice system and other law enforcement systems; and

(10) street-based services that target runaway and homeless youth where they congregate are needed to reach youth who require assistance but who would not otherwise avail themselves of such assistance or services without street-based outreach.

(As amended Pub.L. 102–586, § 3(a), Nov. 4, 1992, 106 Stat. 5017.)

HISTORICAL AND STATUTORY NOTES

1992 Amendments

Pub.L. 102–586, § 3(a)(1), substituted findings relating to juveniles who become homeless or leave home without parental permission being at risk for health and other problems and thereby creating law enforcement problems for communities in which they congregate, for findings relating to alarming increase in number of juveniles who leave home without parental permission and create law enforcement problems for communities inundated and endanger themselves by living on the street.

Par. (5). Pub.L. 102–586, § 3(a)(2), (3), directed Federal Government to develop an effective system of care for juveniles who lease home without parental permission, including preventive services, emergency shelter services, and extended residential shelter, outside the welfare and law enforcement systems, rather than developing an effective system of temporary care outside the law enforcement structure.

Pars. (6)–(10). Pub.L. 102–586, § 3(a)(4), added pars. (6) to (10).

§ 5702. Promulgation of rules

The Secretary of Health and Human Services (hereinafter in this subchapter referred to as the "Secretary") may issue such rules as the Secretary considers necessary or appropriate to carry out the purposes of this subchapter.

1988 Amendment

Pub.L. 100–690, Title VII, § 7272(1), Nov. 18, 1988, 102 Stat. 4454, substituted in part (A) "RUNAWAY AND HOMELESS YOUTH GRANT PROGRAM" for "GRANTS PROGRAM".

§ 5711. Authority to make grants

(a) Establishment and operation of runaway and homeless youth centers

The Secretary shall make grants to public and private entities (and combinations of such entities) to establish and operate (including renovation) local runaway and homeless youth centers to provide services to deal primarily with the immediate needs of runaway or otherwise homeless youth, and their families, in a manner which is outside the law enforcement system, the child welfare system, the mental health system, and the juvenile justice system.

(b) Allotment of funds for grants; priority given to certain private entities

(1) Subject to paragraph (2) and in accordance with regulations promulgated under this subchapter, funds for grants under subsection (a) of this section shall be allotted annually with respect to the States on the basis of their relative population of individuals who are less than 18 years of age.

(2) Subject to paragraph (3), the amount allotted under paragraph (1) with respect to each State for a fiscal year shall be not less than $100,000, except that the amount allotted to the Virgin Islands of the United States, Guam, American Samoa, the Trust Territory of the Pacific Islands, and the Commonwealth of the Northern Mariana Islands shall be not less than $45,000 each.

(3) If, as a result of paragraph (2), the amount allotted under paragraph (1) with respect to a State for a fiscal year would be less than the aggregate amount of grants made under this part to recipients in such State for fiscal year 1992, then the amounts allotted to satisfy the requirements of such paragraph shall be reduced pro rata to the extent necessary to allot under paragraph (1) with respect to such State for the fiscal year an amount equal to the aggregate amount of grants made under this part to recipients in such State for fiscal year 1992.

(4) In selecting among applicants for grants under subsection (a) of this section, the Secretary shall give priority to private entities that have experience in providing the services described in such subsection.

(c) Street-based services

(1) If for a fiscal year the amount appropriated under section 5751(a)(1) of this title exceeds $50,000,000, the Secretary may make grants under this subsection for that fiscal year to entities that receive grants under subsection (a) of this section to establish and operate street-based service projects for runaway and homeless youth.

(iv) advocacy, education, and prevention services for—

(I) alcohol and drug abuse;

(II) sexually transmitted diseases including HIV/AIDS infection; and

(III) physical and sexual assault.

(d) Home-based services

(1) If for a fiscal year the amount appropriated under section 5751(a)(1) of this title exceeds $50,000,000, the Secretary may make grants for that fiscal year to entities that receive grants under subsection (a) of this section to establish and operate home-based service projects for families that are separated, or at risk of separation, as a result of the physical absence of a runaway youth or youth at risk of family separation.

(2) For purposes of this part—

(A) the term "home-based service project" means a project that provides—

(i) case management; and

(ii) in the family residence (to the maximum extent practicable)—

(I) intensive, time-limited, family and individual counseling;

(II) training relating to life skills and parenting; and

(III) other services;

designed to prevent youth from running away from their families or to cause runaway youth to return to their families;

(B) the term "youth at risk of family separation" means an individual—

(i) who is less than 18 years of age; and

(ii)(I) who has a history of running away from the family of such individual;

(II) whose parent, guardian, or custodian is not willing to provide for the basic needs of such individual; or

(III) who is at risk of entering the child welfare system or juvenile justice system, as a result of the lack of services available to the family to meet such needs; and

(As amended Pub.L. 98–473, Title II, § 651, Oct. 12, 1984, 98 Stat. 2123; Pub.L. 100–690, Title VII, § 7271(a), (b), Nov. 18, 1988, 102 Stat. 4452; Pub.L. 102–586, § 3(b), Nov. 4, 1992, 106 Stat. 5018.)

SUBCHAPTER IV—MISSING CHILDREN

§ 5771. Congressional findings

The Congress hereby finds that—

(1) each year thousands of children are abducted or removed from the control of a parent having legal custody without such parent's consent, under circumstances which immediately place them in grave danger;

(2) many of these children are never reunited with their families;

(3) often there are no clues to the whereabouts of these children;

(4) many missing children are at great risk of both physical harm and sexual exploitation;

(5) in many cases, parents and local law enforcement officials have neither the resources nor the expertise to mount expanded search efforts;

(6) abducted children are frequently moved from one locality to another, requiring the cooperation and coordination of local, State, and Federal law enforcement efforts;

(7) on frequent occasions, law enforcement authorities quickly exhaust all leads in missing children cases, and require assistance from distant communities where the child may be located; and

(8) Federal assistance is urgently needed to coordinate and assist in this interstate problem.

(Pub. L. 93–415, Title IV, § 402, as added Pub. L. 98–473, Title II, § 660, Oct. 12, 1984, 98 Stat. 2125.)

(1) approximately 700,000 youth enter the juvenile justice system every year;

(2) Federal, State, and local governments spend close to $2,000,000,000 a year confining many of those youth;

(3) it is more effective in both human and fiscal terms to prevent delinquency than to attempt to control or change it after the fact;

(4) half or more of all States are unable to spend any juvenile justice formula grant funds on delinquency prevention because of other priorities;

(5) few Federal resources are dedicated to delinquency prevention; and

(6) Federal incentives are needed to assist States and local communities in mobilizing delinquency prevention policies and programs.

PART 3:

THE FORMULA GRANT REGULATION AND RELATED FEDERAL REGISTERS

§ 30.10 How does the Attorney General make efforts to accommodate intergovernmental concerns?

(a) If a state process provides a state process recommendation to the Department through its single point of contact, the Attorney General either:

(1) Accepts the recommendation;

(2) Reaches a mutually agreeable solution with the state process; or

(3) Provides the single point of contact with a written explanation of the decision, in such form as the Attorney General in his or her discretion deems appropriate. The Attorney General may also supplement the written explanation by providing the explanation to the single point of contact by telephone, other telecommunication, or other means.

(b) In any explanation under paragraph (a)(3) of this section, the Attorney General informs the single point of contact that:

(1) The Department will not implement its decision for at least ten days after the single point of contact receives the explanation; or

(2) The Attorney General has reviewed the decision and determined that, because of unusual circumstances, the waiting period of at least ten days is not feasible.

(c) For purposes of computing the waiting period under paragraph (b)(1) of this section, a single point of contact is presumed to have received written notification five days after the date of mailing of such notification.

§ 30.11 What are the Attorney General's obligations in interstate situations?

(a) The Attorney General is responsible for:

(1) Identifying proposed federal financial assistance and direct federal development that have an impact on interstate areas;

(2) Notifying appropriate officials and entities in states which have adopted a process and which select the Department's program or activity;

(3) Making efforts to identify and notify the affected state, areawide, regional, and local officials and entities in those states that have not adopted a process under the Order or do not select the Department's program or activity; and

(4) Responding pursuant to § 30.10 if the Attorney General receives a recommendation from a designated areawide agency transmitted by a single point of contact in cases in which the review, coordination, and communication with the Department have been delegated.

(b) The Attorney General uses the procedures in § 30.10 if a state process provides a state process recommendation to the Department through a single point of contact.

§ 30.12 How may a state simplify, consolidate, or substitute federally required state plans?

(a) As used in this section:

(1) *Simplify* means that a state may develop its own format, choose its own submission date, and select the planning period for a state plan.

(2) *Consolidate* means that a state may meet statutory and regulatory requirements by combining two or more plans into one document and that the state can select the format, submission date, and planning period for the consolidated plan.

(3) *Substitute* means that a state may use a plan or other document that it has developed for its own purposes to meet federal requirements.

(b) If not inconsistent with law, a state may decide to try to simplify, consolidate, or substitute federally required state plans without prior approval by the Attorney General.

(c) The Attorney General reviews each state plan that a state has simplified, consolidated, or substituted and accepts the plan only if its contents meet federal requirements.

§ 30.13 May the Attorney General waive any provision of these regulations?

In an emergency, the Attorney General may waive any provision of these regulations.

PART 31—FORMULA GRANTS

Subpart A—General Provisions

Sec.

AUTHORITY: Juvenile Justice and Delinquency Prevention Act of 1974, as amended, (42 U.S.C. 5601 *et seq.*)

SOURCE: 50 FR 25555, June 20, 1985, unless otherwise noted.

Subpart A—General Provisions

§31.1 General.

This part defines eligibility and sets forth requirements for application for and administration of formula grants to State governments authorized by part B, subpart I, of the Juvenile Justice and Delinquency Prevention Act.

§31.2 Statutory authority.

The Statute establishing the Office of Juvenile Justice and Delinquency Prevention and giving authority to make grants for juvenile justice and delinquency prevention improvement programs is the *Juvenile Justice and Delinquency Prevention Act of 1974*, as amended (42 U.S.C. 5601 *et seq.*).

§31.3 Submission date.

Formula Grant Applications for each of Fiscal Year should be submitted to OJJDP by August 1st (60 days prior to the beginning of the fiscal year) or within 60 days after the States are officially notified of the fiscal year formula grant allocations.

Subpart B—Eligible Applicants

§31.100 Eligibility.

All States as defined by section 103(7) of the JJDP Act.

§31.101 Designation of State agency.

The Chief Executive of each State which chooses to apply for a formula grant shall establish or designate a State agency as the sole agency for supervising the preparation and administration of the plan. The plan must demonstrate compliance with administrative and supervisory board membership requirements established by the OJJDP Administrator pursuant to section 261(c) of the JJDP Act. States must have available for review a copy of the State law or executive order establishing the State agency and its authority.

§31.102 State agency structure.

The State agency may be a discrete unit of State government or a division or other component of an existing State crime commission, planning agency or other appropriate unit of State government. Details of organization and structure are matters of State discretion, provided that the agency:

(a) Is a definable entity in the executive branch with the requisite authority to carry out the responsibilities imposed by the JJDP Act;

(b) Has a supervisory board (i.e., a board of directors, commission, committee, council, or other policy board) which has responsibility for supervising the preparation and administration of the plan and its implementation; and

(c) Has sufficient staff and staff capability to carry out the board's policies and the agency's duties and responsibilities to administer the program, develop the plan, process applications, administer grants awarded under the plan, monitor and evaluate programs and projects, provide administration/support services, and perform such accountability functions as are necessary

to the administration of Federal funds, such as grant close-out and audit of subgrant and contract funds.

§ 31.103 Membership of supervisory board.

The State advisory group appointed under section 223(a)(3) may operate as the supervisory board for the State agency, at the discretion of the Governor. Where, however, a State has continuously maintained a broad-based law enforcement and criminal justice supervisory board (council) meeting all the requirements of section 402(b)(2) of the Justice System Improvement Act of 1979, and wishes to maintain such a board, such composition shall continue to be acceptable provided that the board's membership includes the chairman and at least two additional citizen members of the State advisory group. For purposes of this requirement a citizen member is defined as any person who is not a full-time government employee or elected official. Any executive committee of such a board must include the same proportion of juvenile justice advisory group members as are included in the total board membership. Any other proposed supervisory board membership is subject to case by case review and approval of the OJJDP Administrator and will require, at a minimum, "balanced representation" of juvenile justice interests.

Subpart C—General Requirements

§ 31.200 General.

This subpart sets forth general requirements applicable to formula grant recipients under the JJDP Act of 1974, as amended. Applicants must assure compliance or submit necessary information on these requirements.

§ 31.201 Audit.

The State must assure that it adheres to the audit requirements enumerated in the "Financial and Administrative Guide for Grants", Guideline Manual 7100.1 (current edition). Chapter 8 of the Manual contains a comprehensive statement of audit policies and requirements relative to grantees and subgrantees.

§ 31.202 Civil rights.

(a) To carry out the State's Federal civil rights responsibilities the plan must:

(1) Designate a civil rights contact person who has lead responsibility in insuring that all applicable civil rights requirements, assurances, and conditions are met and who shall act as liaison in all civil rights matters with OJJDP and the OJP Office of Civil Rights Compliance (OCRC); and

(2) Provide the Council's Equal Employment Opportunity Program (EEOP), if required to maintain one under 28 CFR 42.301, *et seq.*, where the application is for $500,000 or more.

(b) The application must provide assurance that the State will:

(1) Require that every applicant required to formulate an EEOP in accordance with 28 CFR 42.201 *et seq.*, submit a certification to the State that it has a current EEOP on file, which meets the requirement therein;

(2) Require that every criminal or juvenile justice agency applying for a grant of $500,000 or more submit a copy of its EEOP (if required to maintain one under 28 CFR 42.301, *et seq.*) to OCRC at the time it submits its application to the State;

(3) Inform the public and subgrantees of affected persons' rights to file a complaint of discrimination with OCRC for investigation;

(4) Cooperate with OCRC during compliance reviews of recipients located within the State; and

(5) Comply, and that its subgrantees and contractors will comply with the requirement that, in the event that a Federal or State court or administrative agency makes a finding of discrimination on the basis of race, color, religion, national origin, or sex (after a due process hearing) against a State or a subgrantee or contractor, the affected recipient or contractor will forward a copy of the finding to OCRC.

§ 31.203 Open meetings and public access to records.

The State must assure that the State agency and its supervisory board established pursuant to section 261(c)(1) and the State advisory group established pursuant to section 223(a)(3) will follow applicable State open meeting and pub-

lic access laws and regulations in the conduct of meetings and the maintenance of records relating to their functions.

Subpart D—Juvenile Justice Act Requirements

§ 31.300 General.

This subpart sets forth specific JJDP Act requirements for application and receipt of formula grants.

§ 31.301 Funding.

(a) *Allocation to states.* Each state receives a base allocation of $325,000, and each territory receives a base allocation of $75,000 when the title II appropriation is less than $75 million (other than part D). When the title II appropriation equals or exceeds $75 million (other than part D), each state receives a base allocation of $400,000, and each territory receives a base allocation of $100,000. To the extent necessary, each state and territory's base allocation will be reduced proportionately to ensure that no state receives less than it was allocated in Fiscal Year 1988.

(b) *Funds for local use.* At least two-thirds of the formula grant allocation to the state (other than the section 222(d) State Advisory Group set aside) must be used for programs by local government, local private agencies, and eligible Indian Tribes, unless the State applies for and is granted a waiver by the OJJDP. The proportion of pass-through funds to be made available to eligible Indian tribes shall be based upon that proportion of the state youth population under 18 years of age who reside in geographical areas where tribes perform law enforcement functions. Pursuant to section 223(a)(5)(C) of the JJDP Act, each of the standards set forth in paragraphs (b)(1) (i) through (iii) of this section must be met in order to establish the eligibility of Indian tribes to receive pass through funds:

(1)(i) The tribal entity must be recognized by the Secretary of the Interior as an Indian tribe that performs law enforcement functions as defined in paragraph (b)(2) of this section.

(ii) The tribal entity must agree to attempt to comply with the requirements of section 223(a)(12)(A), (13), and (14) of the JJDP Act; and

(iii) The tribal entity must identify the juvenile justice needs to be served by these funds within the geographical area where the tribe performs law enforcement functions.

(2) "Law enforcement functions" are deemed to include those activities pertaining to the custody of children, including, but not limited to, police efforts to prevent, control, or reduce crime and delinquency or to apprehend criminal and delinquent offenders, and/or activities of adult and juvenile corrections, probation, or parole authorities.

(3) To carry out this requirement, OJJDP will annually provide each state with the most recent Bureau of Census statistics on the number of persons under age 18 living within the state, and the number of persons under age 18 who reside in geographical areas where Indian tribes perform law enforcement functions.

(4) Pass-through funds available to tribal entities under section 223(a)(5)(C) shall be made available within states to Indian tribes, combinations of Indian tribes, or to an organization or organizations designated by such tribe(s), that meet the standards set forth in paragraphs (b)(1) (i)–(iii) of this section. Where the relative number of persons under age 18 within a geographic area where an Indian tribe performs law enforcement functions is too small to warrant an individual subgrant or subgrants, the state may, after consultation with the eligible tribe(s), make pass-through funds available to a combination of eligible tribes within the state, or to an organization or organizations designated by and representing a group of qualifying tribes, or target the funds on the larger tribal jurisdictions within the state.

(5) Consistent with section 223(a)(4) of the JJDP Act, the state must provide for consultation with Indian tribes or a combination of eligible tribes within the state, or an organization or organizations designated by qualifying tribes, in the development of a state plan which adequately takes into account the juvenile justice needs and requests of those Indian tribes within the state.

(c) *Match.* Formula grants under the JJDP Act shall be 100%, of approved costs, with the exception of planning and administration funds, which require a 100% cash match (dollar for dollar), and construction projects funded under section 227(a)(2) which also require a 100% cash match.

(d) *Funds for administration.* Not more than 7.5% of the total annual formula grant award may be utilized to develop the annual juvenile justice plan and pay for administrative expenses, including project monitoring evaluation. These funds are to be matched on a dollar for dollar basis. The State shall make available needed funds for planning and administration to units of local government or combinations on an equitable basis. Each annual application must identify uses of such funds.

(e) *Nonparticipating states.* Pursuant to section 223(d), the OJJDP Administrator shall endeavor to make the fund allotment under section 222(a), of a State which chooses not to participate or loses its eligibility to participate in the formula grant program, directly available to local public and private nonprofit agencies within the nonparticipating State. The funds may be used only for the purpose(s) of achieving deinstitutionalization of status offenders and nonoffenders, separation of juveniles from incarcerated adults, and/or removal of juveniles from adult jails and lockups. Absent the demonstration of compelling circumstances justifying the reallocation of formula grant funds back to the State to which the funds were initially allocated, or the pendency of administrative hearing proceedings under section 223(d), formula grant funds will be reallocated on October 1 following the fiscal year for which the funds were appropriated. Reallocated funds will be competitively awarded to eligible recipients pursuant to program announcements published in the FEDERAL REGISTER.

[50 FR 25555, June 20, 1985, as amended at 54 FR 32621, Aug. 8, 1989]

§ 31.302 Applicant State agency.

(a) Pursuant to section 223(a)(1), section 223(a)(2) and section 261(c) of the JJDP Act, the State must assure that the State agency approved under section 261(c) has been designated as the sole agency for supervising the preparation and administration of the plan and has the authority to implement the plan.

(b) *Advisory group.* Pursuant to section 223(a)(3) of the JJDP Act, the Chief Executive:

(1) Shall establish an advisory group pursuant to section 223(a)(3) of the JJDP Act. The State shall provide a list of all current advisory group members, indicating their respective dates of appointment and how each member meets the membership requirements specified in this section of the Act.

(2) Should consider, in meeting the statutory membership requirements of section 223(a)(3) (A) to (E), appointing at least one member who represents each of the following: A law enforcement officer such as a police officer; a juvenile or family court judge; a probation officer; a corrections official; a prosecutor; a representative from an organization, such as a parents group, concerned with teenage drug and alcohol abuse; and a high school principal.

(c) The State shall assure that it complies with the Advisory Group Financial support requirement of section 222(d) and the composition and function requirements of section 223(a)(3) of the JJDP Act.

§ 31.303 Substantive requirements.

(a) *Assurances.* The State must certify through the provision of assurances that it has complied and will comply (as appropriate) with section 223(a) (4), (5), (6), (7), (8)(C), (9), (10), (11), (16), (17), (18), (19), (20), and (21), and sections 229 and 261(d), in formulating and implementing the State plan. The Formula Grant Application Kit can be used as a reference in providing these assurances.

(b) *Serious juvenile offender emphasis.* Pursuant to sections 101(a)(8) and 223(a)(10) of the JJDP Act, the Office encourages States that have identified serious and violent juvenile offenders as a priority problem to allocate formula grant funds to programs designed for serious and violent juvenile offenders at a level consistent with the extent of the problem as identified through the State planning process.

Particular attention should be given to improving prosecution, sentencing procedures, providing resources necessary for informed dispositions, providing for effective rehabilitation, and facilitating the coordination of services between the juvenile justice and criminal justice systems.

(c) *Deinstitutionalization of status offenders and non-offenders.* Pursuant to section 223(a)(12)(A) of the JJDP Act, the State shall:

(1) Describe its plan, procedure, and timetable covering the three-year planning cycle, for assuring that the requirements of this section are met. Refer to §31.303(f)(3) for the rules related to the valid court order exception to this Act requirement.

(2) Describe the barriers the State faces in achieving full compliance with the provisions of this requirement.

(3) For those States that have achieved "substantial compliance", as outlined in section 223(c) of the Act, document the unequivocal commitment to achieving full compliance.

(4) Those States which, based upon the most recently submitted monitoring report, have been found to be in full compliance with section 223(a)(12)(A) may, in lieu of addressing paragraphs (c) (1), (2), and (3) of this section, provide an assurance that adequate plans and resources are available to maintain full compliance.

(5) Submit the report required under section 223(a)(12)(B) of the Act as part of the annual monitoring report required by section 223(a)(15) of the Act.

(d) *Contact with incarcerated adults.* (1) Pursuant to section 223(a)(13) of the JJDP Act the State shall:

(i) Describe its plan and procedure, covering the three-year planning cycle, for assuring that the requirements of this section are met. The term *regular contact* is defined as sight and sound contact with incarcerated adults, including inmate trustees. This prohibition seeks as complete a separation as possible and permits no more than haphazard or accidental contact between juveniles and incarcerated adults. In addition, include a timetable for compliance and justify any deviation from a previously approved timetable.

(ii) In those isolated instances where juvenile criminal-type offenders remain confined in adult facilities or facilities in which adults are confined, the State must set forth the procedures for assuring no regular sight and sound contact between such juveniles and adults.

(iii) Describe the barriers which may hinder the separation of alleged or adjudicated criminal-type offenders, status offenders and non-offenders from incarcerated adults in any particular jail, lockup, detention or correctional facility.

(iv) Those States which, based upon the most recently submitted monitoring report, have been found to be in compliance with section 223(a)(13) may, in lieu of addressing paragraphs (d)(1) (i), (ii), and (iii) of this section, provide an assurance that adequate plans and resources are available to maintain compliance.

(v) Assure that adjudicated offenders are not reclassified administratively and transferred to an adult (criminal) correctional authority to avoid the intent of segregating adults and juveniles in correctional facilities. This does not prohibit or restrict waiver of juveniles to criminal court for prosecution, according to State law. It does, however, preclude a State from administratively transferring a juvenile offender to an adult correctional authority or a transfer within a mixed juvenile and adult facility for placement with adult criminals either before or after a juvenile reaches the statutory age of majority. It also precludes a State from transferring adult offenders to juvenile correctional authority for placement.

(2) *Implementation.* The requirement of this provision is to be planned and implemented immediately by each State in light of identified constraints on immediate implementation. Immediate compliance is required where no constraints exist. Where constraints exist, the designated date of compliance in the latest approved plan is the compliance deadline. Those States not in compliance must show annual progress toward achieving compliance until compliance is reached.

(e) *Removal of juveniles from adult jails and lockups.* Pursuant to section 223(a)(14) of the JJDP Act, the State shall:

(1) Describe its plan, procedure, and timetable for assuring that requirements of this section will be met beginning after December 8, 1985. Refer to § 31.303(f)(4) to determine the regulatory exception to this requirement.

(2) Describe the barriers which the State faces in removing all juveniles from adult jails and lockups. This requirement excepts only those juveniles formally waived or transferred to criminal court and against whom criminal felony charges have been filed, or juveniles over whom a criminal court has original or concurrent jurisdiction and such court's jurisdiction has been invoked through the filing of criminal felony charges.

(3)(i) Determine whether or not a facility in which juveniles are detained or confined is an adult jail or lockup. In circumstances where the juvenile and adult facilities are located in the same building or on the same grounds, each of the following four requirements initially set forth in the January 17, 1984 FEDERAL REGISTER (49 FR 2054–2055) must be met in order to ensure the requisite separateness of the two facilities. The requirements are:

(A) Total separation between juvenile and adult facility spatial areas such that there could be no haphazard or accidental contact between juvenile and adult residents in the respective facilities.

(B) Total separation in all juvenile and adult program activities within the facilities, including recreation, education, counseling, health care, dining, sleeping, and general living activities.

(C) Separate juvenile and adult staff, including management, security staff, and direct care staff such as recreation, education, and counseling. Specialized services staff, such as cooks, bookkeepers, and medical professionals who are not normally in contact with detainees or whose infrequent contacts occur under conditions of separation of juvenile and adults, can serve both.

(D) In States that have established State standards or licensing requirements for secure juvenile detention facilities, the juvenile facility meets the standards and is licensed as appropriate.

(ii) The State must initially determine that the four requirements are fully met. Upon such determination, the State must submit to OJJDP a request to concur with the State finding that a separate juvenile facility exists. To enable OJJDP to assess the separateness of the two facilities, sufficient documentation must accompany the request to demonstrate that each requirement is met.

(4) For those States that have achieved "substantial compliance" with section 223(a)(14) as specified in section 223(c) of the Act, document the unequivocal commitment to achieving full compliance.

(5) Those States which, based upon the most recently submitted monitoring report, have been found to be in full compliance with section 223(a)(14) may, in lieu of addressing paragraphs (e) (1), (2), and (4) of this section, provide an assurance that adequate plans and resources are available to maintain full compliance.

(f) *Monitoring of jails, detention facilities and correctional facilities.* (1) Pursuant to section 223(a)(15) of the JJDP Act, and except as provided by paragraph (f)(7) of this section, the State shall:

(i) Describe its plan, procedure, and timetable for annually monitoring jails, lockups, detention facilities, correctional facilities and non-secure facilities. The plan must at a minimum describe in detail each of the following tasks including the identification of the specific agency(s) responsible for each task.

(A) *Identification of monitoring universe:* This refers to the identification of all residential facilities which might hold juveniles pursuant to public authority and thus must be classified to determine if it should be included in the monitoring effort. This includes those facilities owned or operated by public and private agencies.

(B) *Classification of the monitoring universe:* This is the classification of all facilities to determine which ones should be considered as a secure detention or correctional facility, adult correctional institution, jail, lockup, or other type of secure or nonsecure facility.

(C) *Inspection of facilities:* Inspection of facilities is necessary to ensure an accurate assessment of each facility's classification and record keeping. The inspection must include:

(*1*) A review of the physical accommodations to determine whether it is a secure or non-secure facility or whether adequqte sight and sound separation between juvenile and adult offenders exists *and* (*2*) a review of the record keeping system to determine whether sufficient data are maintained to determine compliance with section 223(a)(12), (13) and/or (14).

(D) *Data collection and data verification:* This is the actual collection and reporting of data to determine whether the facility is in compliance with the applicable requirement(s) of section 223(a)(12), (13) and/or (14). The length of the reporting period should be 12 months of data, but in no case less than 6 months. If the data is self-reproted by the facility or is collected and reported by an agency other than the State agency designated pursuant to section 223(a)(1) of the JJDP Act, the plan must describe a statistically valid procedure used to verify the reported data.

(ii) Provide a description of the barriers which the State faces in implementing and maintaining a monitoring system to report the level of compliance with section 223(a)(12), (13), and (14) and how it plans to overcome such barriers.

(iii) Describe procedures established for receiving, investigating, and reporting complaints of violation of section 223(a)(12), (13), and (14). This should include both legislative and administrative procedures and sanctions.

(2) For the purpose of monitoring for compliance with section 223(a)(12)(A) of the Act a secure detention or correctional facility is any secure public or private facility used for the lawful custody of *accused* or adjudicated juvenile offenders or non-offenders, *or* used for the lawful custody of accused or convicted adult criminal offenders.

(3) *Valid court order.* For the purpose of determining whether a valid court order exists and a juvenile has been found to be in violation of that valid order all of the following conditions must be present prior to secure incarceration:

(i) The juvenile must have been brought into a court of competent jurisdiction and made subject to an order issued pursuant to proper authority. The order must be one which regulates future conduct of the juvenile.

(ii) The court must have entered a judgment and/or remedy in accord with established legal principles based on the facts after a hearing which observes proper procedures.

(iii) The juvenile in question must have received adequate and fair warning of the consequences of violation of the order at the time it was issued and such warning must be provided to the juvenile and to the juvenile's attorney and/or legal guardian in writing and be reflected in the court record and proceedings.

(iv) All judicial proceedings related to an alleged violation of a valid court order must be held before a court of competent jurisdiction. A juvenile accused of violating a valid court order may be held in secure detention beyond the 24-hour grace period permitted for a noncriminal juvenile offender under OJJDP monitoring policy, for portective purposes as prescribed by State law, or to assure the juvenile's appearance at the violation hearing, as provided by State law, if there has been a judicial determination based on a hearing during the 24-hour grace period that there is probable cause to believe the juvenile violated the court order. In such case the juveniles may be held pending a violation hearing for such period of time as is provided by State law, but in no event should detention prior to a violation hearing exceed 72 hours exclusive of nonjudicial days. A juvenile found in a violation hearing to have violated a court order may be held in a secure detention or correctional facility.

(v) Prior to and during the violation hearing the following full due process rights must be provided:

(A) The right to have the charges against the juvenile in writing served upon him a reasonable time before the hearing;

(B) The right to a hearing before a court;

(C) The right to an explanation of the nature and consequences of the proceeding;

(D) The right to legal counsel, and the right to have such counsel appointed by the court if indigent;

(E) The right to confront witnesses;

(F) The right to present witnesses;

(G) The right to have a transcript or record of the proceedings; and

(H) The right of appeal to an appropriate court.

(vi) In entering any order that directs or authorizes disposition of placement in a secure facility, the judge presiding over an initial probable cause hearing or violation hearing must determine that all the elements of a valid court order (paragraphs (f)(3) (i), (ii) and (iii) of this section) and the applicable due process rights (paragraph (f)(3)(v) of this section) were afforded the juvenile and, in the case of a violation hearing, the judge must determine that there is no less restrictive alternative appropriate to the needs of the juvenile and the community.

(vii) A non-offender such as a dependent or neglected child cannot be placed in secure detention or correctional facilities for violating a valid court order.

(4) *Removal exception (section 223(a)(14))*. The following conditions must be met in order for an accused juvenile criminal-type offender, awaiting an initial court appearance, to be detained up to 24 hours (excluding weekends and holidays) in an adult jail or lockup:

(i) The State must have an enforceable State law requiring an initial court appearance within 24 hours after being taken into custody (excluding weekends and holidays);

(ii) The geographic area having jurisdiction over the juvenile is outside a metropolitan statistical area pursuant to the Bureau of Census' current designation;

(iii) A determination must be made that there is no existing acceptable alternative placement for the juvenile pursuant to criteria developed by the State and approved by OJJDP;

(iv) The adult jail or lockup must have been certified by the State to provide for the sight and sound separation of juveniles and incarcerated adults; and

(v) The State must provide documentation that the conditions in paragraphs (f)(4) (i) through (iv) of this section have been met and received prior approval from OJJDP. In addition, OJJDP strongly recommends that jails and lockups which incarcerate juveniles pursuant to this exception be required to provide continuous visual supervision of juveniles incarcerated pursuant to this exception.

(vi) Pursuant to section 223(a)(14) of the JJDP Act, the nonMSA (low population density) exception to the jail and lockup removal requirement described in paragraphs (f)(4) (i) through (v) of this section shall remain in effect through 1993.

(5) *Reporting requirement*. The State shall report annually to the Administrator of OJJDP on the results of monitoring for section 223(a) (12), (13), and (14) of the JJDP Act. The reporting period should provide 12 months of data, but shall not be less than 6 months. Three copies of the report shall be submitted to the Administrator of OJJDP no later than December 31 of each year.

(i) To demonstrate the extent of compliance with section 223(a)(12)(A) of the JJDP Act, the report must at least include the following information for both the baseline and the current reporting periods.

(A) Dates of baseline and current reporting period.

(B) Total number of public and private secure detention and correctional facilities AND the number inspected on-site.

(C) Total number of accused status offenders and non-offenders held in any secure detention or correctional facility as defined in paragraph (f)(2) of this section for longer than 24 hours (not including weekends and holidays), excluding those held pursuant to the valid court order provision as defined in paragraph (f)(3) of this section.

(D) Total number of adjudicated status offenders and non-offenders held in any secure detention or correctional facility as defined in paragraph (f)(2), excluding those held pursuant to the valid court order provision as defined in paragraph (f)(3) of this section.

(E) Total number of status offenders held in any secure detention or correctional facility pursuant to a judicial determination that the juvenile violated a valid court order as defined in paragraph (f)(3) of this section.

(ii) To demonstrate the extent to which the provisions of section 223(a)(12)(B) of the JJDP Act are being met, the report must include the total number of accused and adjudicated status offenders and non-offenders placed in facilities that are:

(A) Not near their home community;

(B) Not the least restrictive appropriate alternative; and

(C) Not community-based.

(iii) To demonstrate the progress toward and extent of compliance with section 223(a)(13) of the JJDP Act, the report must at least include the following information for both the baseline and the current reporting periods.

(A) Designated date for achieving full compliance.

(B) The total number of facilities used to detain or confine both juvenile offenders and adult criminal offenders during the past 12 months AND the number inspected on-site.

(C) The total number of facilities used for secure detention and confinement of both juvenile offenders and adult criminal offenders which did not provide adequate separation.

(D) The total number of juvenile offenders and non-offenders NOT adequately separated in facilities used for the secure detention and confinement of both juveniles and adults.

(iv) To demonstrate the progress toward and extent of compliance with section 223(a)(14) of the JJDP Act the report must at least include the following information for the baseline and current reporting periods:

(A) Dates of baseline and current reporting period.

(B) Total number of adult jails in the State AND the number inspected on-site.

(C) Total number of adult lockups in the State AND the number inspected on-site.

(D) Total number of adult jails holding juveniles during the past twelve months.

(E) Total number of adult lockups holding juveniles during the past twelve months.

(F) Total number of adult jails and lockups in areas meeting the "removal exception" as noted in paragraph (f)(4) of this section, including a list of such facilities and the county or jurisdiction in which it is located.

(G) Total number of juvenile criminal-type offenders held in adult jails in excess of six hours.

(H) Total number of juvenile criminal-type offenders held in adult lockups in excess of six hours.

(I) Total number of accused and adjudicated status offenders and non-offenders held in any adult jail or lockup.

(J) Total number of juveniles accused of a criminal-type offense who were held in excess of six hours but less than 24 hours in adult jails and lock-ups in areas meeting the "removal exception" as noted in paragraph (f)(4) of this section.

(6) *Compliance.* The State must demonstrate the extent to which the requirements of section 223(a) (12)(A), (13), and (14) of the Act are met. Should the State fail to demonstrate compliance with the requirements of this section within designated time frames, eligibility for formula grant funding shall terminate. The compliance levels are:

(i) *Substantial compliance* with section 223(a)(12)(A) requires within three years of initial plan submission achievement of a 75% reduction in the aggregate number of status offenders and non-offenders held in secure detention or correctional facilities or removal of 100% of such offenders from secure correctional facilities only. In addition, the State must make an unequivocal commitment, through appropriate executive or legislative action, to achieving full compliance within two additional years. *Full compliance* is achieved when a State has removed 100% of such juveniles from secure detention and correctional facilities or can demonstrate full compliance with *de minimis* exceptions pursuant to the policy criteria contained in the FEDERAL REGISTER of January 9, 1981 (46 FR 2566-2569).

(ii) *Compliance* with section 223(a)(13) has been achieved when a State can demonstrate that:

(A) The last submitted monitoring report, covering a full 12 months of data, demonstrates that no juveniles were incarcerated in circumstances that were in violation of section 223(a)(13); or

(B)(*1*) State law, regulation, court rule, or other established executive or judicial policy clearly prohibits the incarceration of all juvenile offenders in circumstances that would be in violation of section 223(a)(13);

(*2*) All instances of noncompliance reported in the last submitted monitoring report were in violation of, or departures from, the State law, rule, or policy referred to in paragraph (f)(6)(ii)(B)(*1*) of this section;

(*3*) The instances of noncompliance do not indicate a pattern or practice but rather constitute isolated instances; and

(*4*) Existing mechanisms for the enforcement of the State law, rule, or policy referred to in paragraph (f)(6)(ii)(B)(*1*) of this section are such that the instances of noncompliance are unlikely to recur in the future.

(iii)(A) Substantial compliance with section 223(a)(14) requires:

(*1*) The achievement of a 75% reduction in the number of juveniles held in adult jails and lockups after December 8, 1985; or

(*2*) That a state demonstrate it has met each of the standards set forth in paragraphs (f)(6)(iii)(A)(*2*) (*i*)–(*iv*) of this section:

(*i*) Removed all status and nonoffender juveniles from adult jails and lockups. Compliance with this standard requires that the last submitted monitoring report demonstrate that no status offender (including those accused of or adjudicated for violating a valid court order) or nonoffender juveniles were securely detained in adult jails or lockups for any length of time; or, that all status offenders and nonoffenders securely detained in adult jails and lockups for any length of time were held in violation of an enforceable state law and did not constitute a pattern or practice within the state;

(*ii*) Made meaningful progress in removing other juveniles from adult jails and lockups. Compliance with this standard requires the state to document a significant reduction in the number of jurisdictions securely detaining juvenile criminal-type offenders in violation of section 223(a)(14) of the JJDP Act; or, a significant reduction in the number of facilities securely detaining such juveniles; or, a significant reduction in the number of juvenile criminal-type offenders securely detained in violation of section 223(a)(14) of the JJDP Act; or, a significant reduction in the average length of time each juvenile criminal-type offender is securely detained in an adult jail or lockup; or, that state legislation has recently been enacted and taken effect and which the state demonstrates will significantly impact the secure detention of juvenile criminal-type offenders in adult jails and lockups;

(*iii*) Diligently carried out the state's jail and lockup removal plan approved by OJJDP. Compliance with this standard requires that actions have been undertaken to achieve the state's jail and lockup removal goals and objectives within approved timelines, and that the State Advisory Group, required by section 223(a)(3) of the JJDP Act, has maintained an appropriate involvement in developing and/or implementing the state's plan;

(*iv*) Historically expended and continues to expend an appropriate and significant share of its Formula Grant funds to comply with section 223(a)(14). Compliance with this standard requires that, based on an average from two (2) Formula Grant Awards, a minimum of 40 percent of the program funds was expended to support jail and lockup removal programs; or that the state provides a justification which supports the conclusion that a lesser amount constituted an appropriate and significant share because the state's existent jail and lockup removal barriers did not require a larger expenditure of Formula Grant Program funds; and

(*3*) The state has made an unequivocal commitment, through appropriate executive or legislative action, to achieving full compliance within a reasonable time but in no event may such time extend beyond December 8, 1988.

(B) Full compliance is achieved when a state demonstrates that the last submitted monitoring report, covering 12 months of actual data, demonstrates that no juveniles were held in adult jails or lockups in circumstances that were in violation of section 223(a)(14).

(C) Full compliance with de minimis exceptions is achieved when a state demonstrates that it has met the standard set forth in either of paragraphs (f)(6)(iii)(C) (*1*) or (*2*) of this section:

(*1*) *Substantive De Minimis Standard.* To comply with this standard the state must demonstrate that each of the following requirements have been met:

(*i*) State law, court rule, or other statewide executive or judicial policy clearly prohibits the detention or confinement of all juveniles in circumstances that would be in violation of section 223(a)(14);

(*ii*) All instances of noncompliance reported in the last submitted monitoring report were in violation of or departures from, the state law, rule, or policy referred to in paragraph (f)(6)(iii)(C)(*1*)(*i*) of this section;

(*iii*) The instances of noncompliance do not indicate a pattern or practice but rather constitute isolated instances;

(*iv*) Existing mechanisms for the enforcement of the state law, rule or policy referred to in paragraph (f)(6)(iii)(C)(*1*)(*i*) of this section are such that the instances of noncompliance are unlikely to recur in the future; and

(*v*) An acceptable plan has been developed to eliminate the noncompliant incidents and to monitor the existing mechanism referred to in paragraph (f)(6)(iii)(C)(*1*)(*iv*) of this section.

(*2*) *Numerical De Minimis Standard.* To comply with this standard the state must demonstrate that each of the following requirements under paragraphs (f)(6) (iii)(C)(*2*) (*i*) and (*ii*) of this section have been met:

(*i*) The incidents of noncompliance reported in the state's last submitted monitoring report do not exceed an annual rate of 9 per 100,000 juvenile population of the state;

(*ii*) An acceptable plan has been developed to eliminate the noncompliant incidents through the enactment or enforcement of state law, rule, or statewide executive or judicial policy, education, the provision of alternatives, or other effective means.

(*iii*) *Exception.* When the annual rate for a state exceeds 9 incidents of noncompliance per 100,000 juvenile population, the state will be considered ineligible for a finding of full compliance with de minimis exceptions under the numerical de minimis standard unless the state has recently enacted changes in state law which have gone into effect and which the state demonstrates can reasonably be expected to have a substantial, significant and positive impact on the state's achieving full (100%) compliance or full compliance with de minimis exceptions by the end of the monitoring period immediately following the monitoring period under consideration.

(*iv*) *Progress.* Beginning with the monitoring report due by December 31, 1990, any state whose prior full compliance status is based on having met the numerical de minimis standard set forth in paragraph (f)(6)(iii)(C)(*2*)(*i*) of § 31.303, must annually demonstrate, in its request for a finding of full compliance with de minimis exceptions, continued and meaningful progress toward achieving full (100%) compliance in order to maintain eligibility for a continued finding of full compliance with de minimis exceptions.

(*v*) *Request submission.* Determinations of full compliance and full compliance with de minimis exceptions are made annually by OJJDP following submission of the monitoring report due by December 31 of each calendar year. Any state reporting less than full (100%) compliance in any annual monitoring report may request a finding of full compliance with de minimis exceptions under paragraph (*f*)(6)(iii)(C) (*1*) or (*2*) of this section. The request may be submitted in conjunction with the monitoring report, as soon thereafter as all information required for a determination is available, or be included in the annual state plan and application for the state's Formula Grant Award.

(D) *Waiver.* (*1*) Failure to achieve substantial compliance as defined in this section shall terminate any state's eligibility for Formula Grant funds unless the Administrator of OJJDP waives termination of the state's eligibility.

In order to be eligible for a waiver of termination, a state must submit a waiver request which demonstrates that it meets the standards set forth in paragraph (f)(6)(iii)(D)(*1*) (*i*)–(*v*) of this section:

(*i*) Agrees to expend all of its Formula Grant Award except planning and administration, advisory group set aside, and Indian-tribe pass-through funds, to achieve compliance with section 223(a)(14); and

(*ii*) Diligently carried out the state's jail and lockup removal plan as set forth in paragraph (f)(6)(iii)(A)(*2*)(*iii*) of this section; and

(*iii*) Submitted an acceptable plan, based on an assessment of current jail and lockup removal barriers within the state, to eliminate noncompliant incidents; and

(*iv*) Achieved compliance with section 223(a)(15) of the JJDP Act; and

(*v*) Demonstrates a commitment, through appropriate executive or legislative action, to achieving full compliance.

(*2*) Failure to achieve full compliance as defined in this section shall terminate any state's eligibility for Formula Grant funds unless the Administrator of OJJDP waives termination of the state's eligibility. In order to be eligible for this waiver of termination, a state must request a waiver and demonstrate that it meets the standards set forth in paragraphs (f)(6)(iii)(D)(*2*) (*i*)–(*vii*) of this section:

(*i*) Agrees to expend all of its Formula Grant Award except planning and administration, advisory group set aside, and Indian tribe pass-through funds, to achieve compliance with section 223(a)(14); and

(*ii*) Removed all status and nonoffender juveniles from adult jails and lockups as set forth in paragraph (f)(6)(iii)(A)(*2*)(*i*) of this section; and

(*iii*) Made meaningful progress in removing other juveniles from adult jails and lockups as set forth in paragraphs (f)(6)(iii)(A)(*2*)(*ii*) of this section; and

(*iv*) Diligently carried out the state's jail and lockup removal plan as set forth in paragraph (f)(6)(iii)(A)(*2*)(*iii*) of this section; and

(*v*) Submitted an acceptable plan, based on an assessment of current jail and lockup removal barriers within the state, to eliminate noncompliant incidents; and

(*vi*) Achieved compliance with section 223(a)(15) of the JJDP Act; and

(*vii*) Demonstrates a commitment, through appropriate executive or legislative action, to achieving full compliance.

(E) *Waiver maximum.* A state may receive a waiver of termination of eligibility from the Administrator under paragraph (f)(6)(iii)(D) (*1*) and (*2*) of this section for a combined maximum of three Formula Grant Awards. No additional waivers will be granted.

(7) *Monitoring report exceptions.* States which have been determined by the OJJDP Administrator to have achieved full compliance with section 223(a)(12)(A) and compliance with section 223(a)(13) of the JJDP and which wish to be exempted from the annual monitoring report requirements must submit a written request to the OJJDP Administrator which demonstrates that:

(i) The State provides for an adequate system of monitoring jails, detention facilities, correctional facilities, and non-secure facilities to enable an annual determination of State compliance with section 223(a) (12)(A), (13), and (14) of the JJDP Act;

(ii) State legislation has been enacted which conforms to the requirements of section 223(a) (12)(A) and (13) of the JJDP Act; and

(iii) The enforcement of the legislation is statutorily or administratively prescribed, specifically providing that:

(A) Authority for enforcement of the statute is assigned;

(B) Time frames for monitoring compliance with the statute are specified; and

(C) Adequate sanctions and penalties that will result in enforcement of statute and procedures for remedying violations are set forth.

(g) *Juvenile crime analysis.* Pursuant to section 223(a)(8) (A) and (B), the state must conduct an analysis of juvenile crime problems, including juvenile gangs that commit crimes, and juvenile justice and delinquency prevention needs within the state, including those geographical areas in which an Indian tribe performs law enforcement functions.

(1) *Analysis.* The analysis must be provided in the multiyear application. A suggested format for the analysis is provided in the Formula Grant Application Kit.

(2) *Product.* The product of the analysis is a series of brief written problem statements set forth in the application that define and describe the priority problems.

(3) *Programs.* Applications are to include descriptions of programs to be supported with JJDP Act formula grant funds. A suggested format for these programs is included in the application kit.

(4) *Performance indicators.* A list of performance indicators must be developed and set forth for each program. These indicators show what data will be collected at the program level to measure whether objectives and performance goals have been achieved and should relate to the measures used in the problem statement and statement of program objectives.

(h) *Annual performance report.* Pursuant to section 223(a) and section 223(a)(22) the State plan shall provide for submission of an annual performance report. The State shall report on its progress in the implementation of the approved programs, described in the three-year plan. The performance indicators will serve as the objective criteria for a meaningful assessment of progress toward achievement of measurable goals. The annual performance report shall describe progress made in addressing the problem of serious juvenile crime, as documented in the juvenile crime analysis pursuant to section 223(a)(8)(A).

(i) *Technical assistance.* States shall include, within their plan, a description of technical assistance needs. Specific direction regarding the development and inclusion of all technical assistance needs and priorities will be provided in the "Application Kit for Formula Grants under the JJDPA."

(j) *Minority detention and confinement.* Pursuant to section 223(a)(23) of the JJDP Act, states must address efforts to reduce the proportion of juveniles detained or confined in secure detention facilities, secure correctional facilities, jails and lockups who are members of minority groups if such proportion exceeds the proportion such groups represent in the general population, viz., youth at risk for secure confinement. It is important for states to approach this in a comprehensive manner. Compliance with this provision is achieved when a state has met the requirements set forth in paragraphs (j) (1)–(3) of this section:

(1) Provide documentation in the State Plan Juvenile Crime Analysis to indicate whether minority juveniles are disproportionately detained or confined in secure detention or correctional facilities, jails, or lockups in relation to their proportion of the at risk youth population;

(2) Where documentation is unavailable, or demonstrates that minorities are disproportionately detained or confined in relation to their proportion in the at risk youth population, states must provide a strategy for addressing the disproportionate representation of minority juveniles in the juvenile justice system, including but not limited to:

(i) Assessing the differences in arrest, diversion, and adjudication rates, court dispositions other than incarceration, and the rates and periods of commitment to secure facilities of minority youth and non-minority youth in the juvenile justice system;

(ii) Increasing the availability and improving the quality of diversion programs for minorities who come in contact with the juvenile justice system such as police diversion programs;

(iii) Providing support for prevention programs in communities with a high percentage of minority residents with emphasis upon support for community-based organizations that serve minority youth;

(iv) Providing support for reintegration programs designed to facilitate reintegration and reduce recidivism of minority youths;

(v) Initiate or improve the usefulness of relevant information systems and disseminate information regarding minorities in the juvenile justice system.

(3) Each state is required to submit a supplement to the 1988 Multi-Year Plan for addressing the extent of disproportionate representation of minorities in the juvenile justice system. This supplement, which will be submitted as a

component of the 1989 Formula Grant Application and Multi-Year Plan Update, must include the state's assessment of disproportionate minority representation, and a workplan for addressing this issue programmatically. Where data is insufficient to make a complete assessment, the workplan must include provisions for improving the information collection systems. The workplan, once approved by OJJDP, is to be implemented as a component of the state's 1990 Formula Grant Plan.

(4) For purposes of this plan requirement, minority populations are defined as members of the following groups: Asian Pacific Islanders; Blacks; Hispanics; and, American Indians.

(k) Pursuant to section 223(a)(24) of the JJDP Act, states shall agree to other terms and conditions as the Administrator may reasonably prescribe to assure the effectiveness of programs assisted under the Formula Grant.

§ 31.304 Definitions.

(a) *Private agency.* A private non-profit agency, organization or institution is:

(1) Any corporation, foundation, trust, association, cooperative, or accredited institution of higher education not under public supervision or control; and

(2) Any other agency, organization or institution which operates primarily for scientific, education, service, charitable, or similar public purposes, but which is not under public supervision or control, and no part of the net earnings of which inures or may lawfully inure to the benefit of any private shareholder or individual, and which has been held by IRS to be tax-exempt under the provisions of section 501(c)(3) of the 1954 Internal Revenue Code.

(b) *Secure.* As used to define a detention or correctional facility this term includes residential facilities which include construction fixtures designed to physically restrict the movements and activities of persons in custody such as locked rooms and buildings, fences, or other physical structures. It does not include facilities where physical restriction of movement or activity is provided solely through facility staff.

(c) *Facility.* A place, an institution, a building or part thereof, set of buildings or an area whether or not enclosing a building or set of buildings which is used for the lawful custody and treatment of juveniles and may be owned and/or operated by public and private agencies.

(d) *Juvenile who is accused of having committed an offense.* A juvenile with respect to whom a petition has been filed in the juvenile court or other action has occurred alleging that such juvenile is a juvenile offender, i.e., a criminal-type offender or a status offender, and no final adjudication has been made by the juvenile court.

(e) *Juvenile who has been adjudicated as having committed an offense.* A juvenile with respect to whom the juvenile court has determined that such juvenile is a juvenile offender, i.e., a criminal-type offender or a status offender.

(f) *Juvenile offender.* An individual subject to the exercise of juvenile court jurisdiction for purposes of adjudication and treatment based on age and offense limitations by defined as State law, i.e., a criminal-type offender or a status offender.

(g) *Criminal-type offender.* A juvenile offender who has been charged with or adjudicated for conduct which would, under the law of the jurisdiction in which the offense was committed, be a crime if committed by an adult.

(h) *Status offender.* A juvenile offender who has been charged with or adjudicated for conduct which would not, under the law of the jurisdiction in which the offense was committed, be a crime if committed by an adult.

(i) *Non-offender.* A juvenile who is subject to the jurisdiction of the juvenile court, usually under abuse, dependency, or neglect statutes for reasons other than legally prohibited conduct of the juvenile.

(j) *Lawful custody.* The exercise of care, supervision and control over a juvenile offender or non-offender pursuant to the provisions of the law or of a judicial order or decree.

(k) *Other individual accused of having committed a criminal offense.* An individual, adult or juvenile, who has been charged with committing a criminal

offense in a court exercising criminal jurisdiction.

(l) *Other individual convicted of a criminal offense.* An individual, adult or juvenile, who has been convicted of a criminal offense in court exercising criminal jurisdiction.

(m) *Adult jail.* A locked facility, administered by State, county, or local law enforcement and correctional agencies, the purpose of which is to detain adults charged with violating criminal law, pending trial. Also considered as adult jails are those facilities used to hold convicted adult criminal offenders sentenced for less than one year.

(n) *Adult lockup.* Similar to an adult jail except that an adult lockup is generally a municipal or police facility of a temporary nature which does not hold persons after they have been formally charged.

(o) *Valid court order.* The term means a court order given by a juvenile court judge to a juvenile who has been brought before the court and made subject to a court order. The use of the word "valid" permits the incarceration of juveniles for violation of a valid court order only if they received their full due process rights as guaranteed by the Constitution of the United States.

(p) *Local private agency.* For the purposes of the pass-through requirement of section 223(a)(5), a local private agency is defined as a private non-profit agency or organization that provides program services within an identifiable unit or a combination of units of general local government.

In the matter of Great Lakes Carbon Corporation, a corporation, *et al*

Order Reopening and Modifying Order Issued June 5, 1973

By a petition filed on January 3, 1985, respondent Great Lakes Carbon Corporation joined by respondents Standard Oil Company (Indiana), Conoco, Inc., Derby Refining Company, Farmland Industries, Inc., Sun Refining and Marketing Company, Texaco, Inc., and Mobil Oil Corporation (by its separate submission filed on January 7, 1985), request that the Commission reopen the proceeding in Docket No. 8805 and modify Paragraph X of the order to provide that the order terminate immediately. Upon consideration of Great Lakes' petition and other relevant information, the Commission now finds that the public interest warrants reopening the proceeding and modifying Paragraph X of the order as requested.

The record describes an industry in which the respondents' use of long-term sales and purchase contracts by and between the respondents and others for industrial quality petroleum coke would not appear likely to have anticompetitive effects during the next eight years. Changes in the market indicate that the order is no longer necessary and the order has accomplished all it is likely to do. At the same time, the order now appears to be limiting respondents' ability to compete effectively for, among other things, participation in cogeneration and waste heat recovery projects, development of new markets, and export sales. As a result, we conclude that it is in the public interest to set aside this order.

Accordingly, it is ordered that this matter be and it hereby is reopened, and that Paragraph X of the Commission's order issued on June 5, 1973, be modified as follows:

X

This order shall terminate and cease to be effective immediately upon entry of this order reopening and modifying the order issued on June 5, 1973.

By direction of the Commission.

Issued: June 4, 1985.

Formula Grants for Juvenile Justice

AGENCY: Office of Juvenile Justice and Delinquency Prevention, Justice.

ACTION: Notice of final regulation.

SUMMARY: The Office of Juvenile Justice and Delinquency Prevention (OJJDP) is publishing a final regulation to implement the formula grant program authorized by Part B of the Juvenile Justice and Delinquency Prevention Act of 1974, as amended by the Juvenile Justice, Runaway Youth, and Missing Children's Act Amendments of 1984 (Pub. L. 98-473, October 12, 1984). The 1984 Amendments reauthorize and modify the Federal assistance program to State and local governments and private not-for-profit agencies for juvenile justice and delinquency prevention improvements authorized under title II, Part B, Subpart I of the Act (42 U.S.C. 5611 et seq.). The regulation provides guidance to States in the formulation, submission, and implementation of State formula grant plans.

EFFECTIVE DATE: These regulations are effective June 20, 1985.

FOR FURTHER INFORMATION CONTACT: Emily C. Martin, Acting Director, State Relations and Assistance Division, OJJDP, 633 Indiana Avenue, NW., Room 768, Washington, D.C. 20531, telephone 202/724-5921.

SUPPLEMENTARY INFORMATION:

Statutory Amendments

The statutory changes instituted by the new legislation include new programmatic emphasis on programs for juveniles, including those processed in the criminal justice system, who have committed serious crimes, programs which seek to facilitate the coordination of services between the juvenile and criminal justice systems, education and special education programs, involvement of parents and other family members in addressing the delinquency related problems of juveniles, drug and alcohol abuse programs, law-related education, and approaches designed to strengthen and maintain the family units of delinquent and other troubled youth. The regulation implements significant statutory changes related to the jail removal requirement, including a change in the statutory exception and an extension of the date for States to achieve full compliance from December 8, 1987 to December 8, 1988.

The regulation details procedures and requirements for formula grant applications under the revised Act. Additional requirements for grant administration and fund accounting are set forth in the current edition of the Office of Justice Programs Financial and Administrative Guide for Grants, M 7100.1.

Objectives

OJJDP has revised the regulation to accomplish three objectives:

(1) Implement the 1984 Amendments which affect the formula grant program;

(2) Simplify the regulation, where possible, in order to maximize State flexibility and reduce paperwork, while still providing appropriate Federal guidance, where necessary; and

(3) Simplify and clarify the requirements of section 223(a) (12), (13), (14), And (15) in a way that will permit States the widest possible latitude in meeting these objectives in a manner that is consistent with both Federal law and State law, priorities, and resources.

Description of Major Statutory Changes

Family Programs

The Act places increased emphasis on programs which seek to address the

problem of delinquency and its prevention by strengthening and maintaining the family unit. Section 223(a) (16) and (17) was amended to reflect the role of the family in addressing problems of juvenile delinquency. The State must now provide an assurance that consideration and assistance will be given to programs designed to strengthen and maintain the family unit to prevent delinquency.

Deinstitutionalization

The 1984 Amendments defined "valid court order" in section 103(10). This definition has been incorporated in the regulation but, consistent with Congressional intent, it does not necessitate any change in § 31.303(f)(3) of the regulation.

Jail Removal

Section 223(a)(14) was amended to provide additional clarification and flexibility for the States in complying with the objectives of removing juveniles from adult jails and lockups. The Act was amended to provide an explicit, limited exception. The regulation (§ 31.303(f)(4)) parallels the statutory exception, establishing six conditions which must be met before a juvenile can be detained in an adult jail. They are: (1) The juvenile must be accused of a criminal-type offense; (2) the juvenile is awaiting an initial court appearance; (3) the State in which the juvenile is detained has an enforceable State law requiring an initial court appearance within 24 hours after being taken into custody, excluding Saturdays, Sundays and holidays; (4) the area is outside a Metropolitan Statistical Area; (5) no existing acceptable alternative is available; and (6) the jail or lockup provides sight and sound separation between juvenile and adult offenders.

The statutory amendment and the implementing regulation should be viewed as an attempt to assist States, particularly those with large rural areas, in complying with the jail removal requirement, while at the same time providing for both the protection of the public and the safety of those juveniles who require temporary placement in secure confinement.

Two other exceptions to the jail removal requirement serve this objective. The first excepts juveniles who are under criminal court jurisdiction, i.e. where a juvenile has been waived, transferred, or is subject to original or exclusive criminal court jurisdiction based on age and offense limitations established by State law and felony charges have been filed (See § 31.303(e)(2)). The second exception provides that a juvenile arrested or taken into custody for committing an act which would be a crime if committed by an adult may be temporarily held for up to 6 hours in an adult jail or lockup for purposes of identification, processing, or transfer to other facilities (See § 31.303(f)(5)(iv) (G) and (H)).

Section 223(c) of the JJDP Act was amended to allow States *three* additional years to achieve full compliance with the jail removal requirement if the State achieves a minimum 75 percent reduction in the number of juveniles held in adult jails and lockups and makes an unequivocal commitment to achieving full compliance within the additional three year period. Thus, full compliance must be demonstrated after December 8, 1988.

The regulation establishes, for the first time, criteria which will be applied by OJJDP in determining whether a State has achieved full compliance, with de minimis exceptions, with the jail removal requirement. States requesting a finding of full compliance with de minimis exceptions should submit the request at the time the annual monitoring report is submitted or as soon thereafter as all information required for a determination is available. Additional de minimis criteria, based on the model originally developed to measure full compliance with de minimis exceptions with section 223(a)(12)(A), will be developed by OJJDP after substantial compliance data have been received from the States. These criteria will establish a violation rate per 100,000 juvenile population which will be considered de minimis, thereby providing States with additional flexibility. Determinations of full compliance, with de minimis exceptions, with section 223(a)(14) would then be made annually by OJJDP and individual States required to show progress toward achieving a 100 per cent reduction in order to maintain eligibility for funding.

Audit of State Monitoring Systems

Section 204(b)(7) of the JJDP Act requires the OJJDP Administrator to provide for the auditing of State monitoring systems required under section 223(a)(15) of the Act. The State plan for monitoring compliance with sections 223(a) (12), (13) and (14) is a part of each State's three year plan. The monitoring plan requirements (§ 31.303(l)(1)) have been clarified to ensure that States establish a comprehensive monitoring plan and to enable OJJDP to review the plan for adequacy. The regulation does not expand the requirements for monitoring, rather it clarifies what constitutes an adequate system in order to assist the States in their monitoring efforts. OJJDP will undertake a periodic audit of each State's monitoring system and the reliability and validity of the data submitted in the State's monitoring report. The initial step in this process is to review the plans which States develop to monitor for compliance.

Discussion of Comments

A proposed regulation was published in the Federal Register on February 13, 1985 for public comment. Written comments from some 28 national, regional, and local organizations and individuals were received. All comments have been considered by the OJJDP in the issuance of a final regulation. A majority of the respondents commented favorably upon the regulation.

The following is a summary of the substantive comments and the response by OJJDP.

1. *Comment:* One State raised a concern over the relationship between the State agency head, who is by law responsible for carrying out the agency's functions, and the supervisory board. The concern was whether the agency head would be required, under the regulation, to "divest his authority and responsibility" in violation of State law.

Response: OJJDP has not been presented with a State law that would preclude the type of broad policy establishment, review and approval role that the JJDP Act and implementing regulations contemplate for the State agency supervisory board. Such a law would jeopardize a State's eligibility to participate in the formula grant program.

The supervisory board requirement of the statute, implemented in § 31.102 of the regulation, reflects a congressional judgment that the formula grant planning and funding process will be improved by the establishment of a policy board reflecting the diverse views of individuals involved in the law enforcement, criminal and juvenile justice systems.

Consequently, final decisionmaking authority on such matters as plan priorities, programs, and selection of sub award recipients cannot be vested in a State agency head. Such decisions of necessity involve interplay between and joint action by the policy board and agency staff. Both the policy board and the agency are bound by laws, regulations, by-laws, and executive orders. Where the policy board and the head of the State agency cannot agree on some matter of policy, generally the policy board must prevail. However, the Governor, as the State's Chief Executive, and to the extent he or she reserves the power to resolve any intra-

agency conflicts or to determine major policy issues would be the final decision maker.

2. *Comment:* The submission of a State's formula grant application should be allowed as late as 90 days subsequent to the start of the Federal fiscal year or at such date as mutually agreed to by the State and OJJDP.

Response: Section 31.3 of the regulation "encourages" States to submit their application 60 days prior to the beginning of the fiscal year. This would allow sufficient time for application review and award at the beginning of the fiscal year for which the funds are appropriated. It is OJJDP policy that a State's formula grant allocation remain available for obligation until the end of the fiscal year of appropriation, unless the State officially notifies OJJDP that it does not intend to apply for a formula grant award. Thus flexibility exists for a State and OJJDP to mutually agree upon a date for application submission ranging from 60 days prior to the start of the fiscal year through the end of the fiscal year of appropriation.

3. *Comment:* OJJDP should provide the Formula Grant Application Kit, containing information and instructions for application preparation, to States no later than June 1st of each year.

Response: OJJDP intends to develop and disseminate an updated fiscal year 1985 Application Kit as soon as the final formula grant regulation is published. For those States whose fiscal year 1985 plan has already been submitted, separate instructions for supplementing the FY 1985 multi-year plan to meet any new or modified requirements imposed by the final regulation will also be issued. The fiscal year 1986 Application Kit will be available by July 15, 1985 and the fiscal year 1987 Kit by June 1, 1986 (See § 31.3).

4. *Comment:* Language should be added to the regulation which indicates OJJDP will notify the States of their formula grant allocation within 30 days after the fiscal year appropriation measure has been enacted.

Response: Section 31.301(a) has been modified by adding language specifying that OJJDP will notify States of the respective allocation within 30 days after the annual appropriation bill becomes law.

5. *Comment:* Several commentators expressed concern over OJJDP's explanation of how nonparticipating State funds are reallocated and awarded. These concerns revolve around the identity of the funds upon reallocation (formula or discretionary), their use (authorized purpose or purposes), and eligibility (State, local public and private agencies in the nonparticipating State, or States in full compliance with section 223(a) (12)(A), and (13)). Some confusion may have resulted from a **Federal Register** printing error which was later corrected (47 FR 9679, March 11, 1985).

Response: Although OJJDP sees no need to modify § 31.301(e) of the regulation, a brief clarification should suffice to alleviate the concerns raised.

OJJDP has treated reallocated formula grant funds as if they were discretionary funds since the 1980 Amendments established the current section 223(d) reallocation formula. This is because section 221 limits formula grant awards to "States and units of general local government or combinations thereof" while section 223(d) provides that reallocated formula grant funds may be awarded to "local public and private nonprofit agencies", a separate and distinct group of eligible recipients. However, OJJDP considers these funds to be subject to the following section 223(d) (rather than section 224) fund use limitations:

(1) The OJJDP Administrator must endeavor to make a State's reallocated funds available within that nonparticipating State;

(2) Funds are available only to local public and private nonprofit agencies; and

(3) Fund use is limited to carrying out the purposes of deinstitutionalization, separation, and jail removal.

In all other respects, however, OJJDP considers the award of these funds to be in the nature of discretionary awards under the Special Emphasis Program and, consequently, subject to the requirements of sections 225–229.

It is only after OJJDP has endeavored to make the reallocated funds available in the nonparticipating State that the Administrator can make the remainder (if any) of these funds available, on an equitable basis, to States in full compliance with sections 223(a)(12)(A) and 223(a)(13).

6. *Comment:* The State advisory group composition provision (§ 31.302(b)(2)) does not list all the membership and other statutory requirements related to State advisory group composition.

Response: OJJDP sees no need for the regulation to repeat all of the statutory advisory group composition requirements. However, § 31.302(b)(1) specifies that the advisory group must meet all of the section 223(a)(3) statutory requirements. These requirements will be specified in detail in the Formula Grant Application Kit. Section 31.302(b)(2), on the other hand, merely suggests that the Governor consider appointing representatives of areas and interests that OJJDP believes to be underrepresented on State advisory groups generally and important to a balanced perspective on juvenile justice policy and funding priorities. In addition, these individuals can provide a valuable contribution in assessing the program's market through OJJDP's State Relations and Assistance Division. Several minor clarifying changes have been made to the § 31.302(b)(2) language.

7. *Comment:* The permissive language of the § 31.303(d)(1) serious juvenile offender emphasis provision was endorsed by one commentator because it provides needed discretion to States. Another commentator suggested removal of the "minimum" of 30% language because it interferes with State discretion.

Response: The provision encouraging States to allocate a minimum of 30% of their formula grant award to serious and violent juvenile offender programs was placed in the formula grant regulation in 1981 as a result of the 1980 Amendment's emphasis on serious and violent juvenile crime. Under this provision, the Office has simply "encouraged" the allocation of a minimum of 30% funding for serious and violent juvenile offender programs in States which have identified this as a priority program area. OJJDP sees no need to impliedly limit funding to a 30% level, particularly because as States come into compliance with the requirements of section 223(a) (12) to (14), additional formula grant funds will be available for other priority program needs. Therefore, in the final regulation, States are encouraged to provide a level of funding for serious and violent juvenile offender programs that is both adequate and sufficient to meet the level of need for such programs that has been identified through the State planning process.

OJJDP will continue to assist States in meeting their identified needs in the area as serious and violent juvenile offender programs through the provision of technical assistance, training, and Special Emphasis programming under section 224(a)(5).

8. *Comment:* When OJJDP added the term "felony" in § 31.303(e)(2) it closed an unintended loophole whereby juvenile traffic offenders and violators of other misdemeanor laws could be inappropriately jailed. Limiting this exception to "felony" violations is more restrictive and may increase the number of compliance violations, thereby creating a problem in measuring progress with section 223(a)(14) of the JJDP Act. Thus OJJDP should allow

affected States Flexibility for this particular element of the monitoring report.

Response: Flexibility will be provided to a State which cannot, or chooses not to, reconstruct baseline data consistent with the change in § 31.303(e)(2) *and* is unable to demonstrate substantial compliance with section 223(a)(14) because the current data excepts only "criminal felony charges" while the baseline data excerpts all "criminal charges". Under these circumstances, OJJDP will allow the State, upon request and with OJJDP prior approval, to modify the current data to also except juveniles having any "criminal charges" filed in a court with criminal jurisdiction in lieu of excepting only "criminal felony charges".

9. *Comment:* The establishment, in § 31.303(e)(3), of the four criteria to be used in determining whether or not a facility in which juveniles are detained or confined is an adult jail or lockup, in circumstances where juvenile and adult facilities are located in the same building or on the same grounds, was the subject of several comments which made the following points:

(1) The criteria should mandate the provision of programs and services appropriate to the needs of incarcerated juveniles as determined by law and professional standards of practice; and

(2) The proposed regulation permits "enhanced separation" in lieu of complete removal as intended by Congress. To qualify as a separate facility, a place of juvenile detention or confinement should share no common wall or common roof with an adult jail or lockup.

Response: OJJDP believes it is beyond the office's statutory authority to prescribe the level of programs and services which must be provided in State juvenile facilities. These matters are best left to State law and regulation and State and Federal judicial determination. While OJJDP recognizes that these are important issues, the JJDP Act mandates provide only the framework within which States can continue to evolve a more efficient and effective juvenile justice system.

OJJDP intended the policy statement to be used only as a method to classify facilities as either adult jails and lockups or as separate juvenile detention facilities. It was never intended to be used as a guide to planning for or establishing "enhanced separation" of juvenile and adult offenders in lieu of jail removal. OJJDP had determined that it is entirely appropriate to provide flexibility to States in those situations where a truly separate facility for juveniles is located on the same grounds or in the same building as an adult jail or lockup. It should also be noted that, to date, *no* State has formally requested OJJDP approval of a State's determination of a separate juvenile facility under the terms and conditions of the policy.

OJJDP has learned that several counties are considering new jail construction or the expansion or renovation of existing jails to provide "enhanced separation" for the juvenile area or section of the facility.

OJJDP does not view this as a positive development because it: (1) Stifles consideration of the many viable alternatives to the use of adult jails and lockups which are available to States, counties, and local governments; (2) may lead to increased isolation of juveniles in secure facilities; (3) may lead to a failure to provide needed programs and services; and (4) is clearly not responsive to the thrust of the removal mandate.

OJJDP's primary objective in establishing the policy in the first instance was to permit existing juvenile facilities to continue to operate in circumstances where they are, in fact, separate from an adult jail or lockup. While it is possible that new facilities could come into existence that meet the four minimum requirements to establish that two separate facilities exist, the mere provision of "enhanced separation" of juveniles and adults within an existing facility will not serve to meet the minimum requirements. Consequently, OJJDP will only exempt facilities which fully meet each of the four criteria required to be met in order to establish facility separateness. For this purpose, the regulation continues to provide for an initial State determination that a particular facility meets the four criteria, submission to OJJDP of documentation establishing that the requirements are met for the particular facility, and OJJDP concurrence or nonconcurrence with the State determination.

OJJDP will make staff and technical assistance resources available to States to ensure that the full range of alternatives to the use of adult jails and lockups is considered by those jurisdictions which will need to modify their existing practices in order for the State to meet the applicable statutory deadlines for compliance with the jail removal requirement.

10. *Comment:* The designated State agencies established pursuant to section 223(a)(1) of the JJDP Act should have input into the design of the auditing methodology which OJJDP undertakes pursuant to section 204(b)(7) of the Act and any OJJDP audit activity should be conducted in coordination with State agency juvenile justice staff.

Response: OJJDP intends to involve the designated State agency juvenile justice staff in both the methodology development and actual conduct of any on-site audits of State monitoring systems [see: § 31.303(l)].

11. *Comment:* OJJDP should reconsider the regulation requiring the monitoring of nonsecure facilities. The requirement to identify, classify, and inspect all facilities could be difficult given limited staff, the excessive amount of work involved, and the fact that compliance monitoring should focus on secure facilities. Also, because other State agencies oversee many of these facilities, the regulation would require a duplication of existing efforts.

Response: Section 223(a)(15) of the JJDP Act expressly requires States to monitor jails, detention facilities, correctional facilities and *nonsecure facilities*. Thus, § 31.303(f)(1)(i) of the regulation reflects a statutory requirement which OJJDP cannot waive or delete by regulation. To enable a State to determine which facilities fall under the purview of section 223(a) (12), (13) and (14), all facilities which may hold juveniles must be identified and classified. Only those facilities classified as secure detention facilities, secure correctional facilities, adult jails, or adult lock-ups fall under the data collection and data verification monitoring requirements. Once a facility is classified as nonsecure, the State does not necessarily have to reinspect the facility annually, but should have adequate procedures to ensure its classification as a nonsecure facility remains accurate. Classification review should occur at least every two years. The regulation does not require the State agency designated pursuant to section 223(a)(1) of the JJDP Act to perform all monitoring tasks. If other agencies have monitoring responsibilities, the designated State agency can utilize their information. The regulation requires a description of the monitoring activities and identification of the specific agency responsible for each task. Also, formula grant funds, other than the 7½ allowed for administrative costs pursuant to section 222(c), may be used to pay costs associated with implementing the monitoring requirement of section 223(a)(15).

12. *Comment:* (1) The valid court order regulation (Section 31.303(f)(3)), allowing secure detention of a juvenile who is alleged to have violated a valid court order, provides too much latitude to States. The regulation should clarify that there must be "reasonable grounds" or

"probable cause" before securely detaining a juvenile who has allegedly violated a valid court order. (2) The regulation does not require that the court order be entered *after* the provision of all due process. If the juvenile is not provided with right to counsel at the initial proceeding when the order is entered, then it is not constitutionally "valid." (3) The regulation should prohibit the detention of juveniles for allegedly violating a valid court order until a formal judicial determination (adjudication) has been made that such violation occurred.

Response: OJJDP considered the legal and constitutional issues raised by these commentators in developing the existing valid court order regulation. This development process included hearings held at two sites and the receipt, review and analysis of many written comments. The final regulation was published on August 16, 1982 (47 FR 35686). Since that time, OJJDP has been presented with no allegations or documentation of abuse in the application and/or implementation of the regulation. Consequently, OJJDP sees no basis to consider modification to this section of the regulation.

13. *Comment:* The statutory exception which permits States to jail juveniles in non-MSA areas for up to 24 hours, provided they are sight and sound separated from adults, gives rise to the very isolation problems, such as increased suicides, which motivated Congress to require complete jail removal in the first place. Consequently, the regulation requiring sight and sound separation under the 24 hour non-MSA exception should be strengthened to ensure that no youth is placed in a situation where he or she is placed in "de facto" solitary confinement because of the desire to achieve separation from adult offenders.

Response: Congress established the six specific requirements for this exception. However, OJJDP agrees with the thrust of this comment. Consequently, language has been added to § 31.303(f)(4), which implements the non-MSA statutory exception provision, to strongly recommend the provision of continuous visual supervision for those juveniles held up to 24 hours in an adult jail or lockup, pursuant to the exception, during the period of their incarceration.

14. *Comment:* States have not collected data which parallels the new jail removal exception. Thus, for States demonstrating a good-faith effort in the area of jail removal monitoring, appropriate flexibility by OJJDP is needed.

Response: States which established baseline jail removal data using the original statutory exception for "low population density areas" *and* which fail to demonstrate substantial compliance solely because the current data reflects the revised statutory exception for non-MSA areas, will be permitted to modify their current data by using the original statutory exception, upon request and with OJJDP prior approval (see § 31.303(f)(4)).

15. *Comment:* The word "certify" in § 31.303(f)(4)(iv) should be removed and the regulation require only that a "determination" has been made that the adult jail or lockup provides for the sight and sound separation of juveniles and incarcerated adults.

Response: The use of the term "certify" was intentionally included to require that specific action be taken, both by the State and the facility administration, to ensure the facility provides for sight and sound separation of juveniles and incarcerated adults. Through a certification process, the facility would have to document it provides for both separation and visual supervision. This could be accomplished by the jail administration stating in writing that these requirements are met and agreeing to notify the State if the facility is unable or fails to maintain the required level of separation and supervision.

16. *Comment:* The regulation requirement of "at least 6 months of data" for the annual monitoring report will create problems with data collection and monitoring because of the lack of both staff and resources.

Response: OJJDP will provide assistance and guidance to those States which will need to expand the length of their reporting period to comply with § 31.303(f)(5). With regard to costs associated with accomplishing the monitoring requirement, see Comment 11.

17. *Comment:* The six-hour "grace period" for detaining juveniles in adult jails or lockups is extremely difficult to rationalize and justify and a less restrictive limit would allow the freedom to determine more accurately the needs of a juvenile. Does the six-hour provision preclude placing a juvenile in a jail late at night and releasing him or her the next morning? The six-hour grace period should be extended to 10, 12, or 24 hours because in some remote areas it is impossible to travel the distance necessary, particularly in foul weather, to pick up a youth within six hours.

Response: It is Congress' finding that juvenile offenders and nonoffenders should not be placed in an adult jail or lockup for any period of time. However, for the purpose of monitoring and reporting compliance with the jail removal requirement, the House Committee on Education and Labor stated, in its Committee Report on the 1980 Amendments, that it would be permissible for OJJDP to permit States to exclude, for monitoring purposes, those juveniles alleged to have committed an act which would be a crime if committed by an adult (criminal type offenders) and who are held in an adult jail or lockup for up to six hours. This six hour period would be limited to the temporary holding in an adult jail or lockup by police for the specific purpose of identification, processing, and transfer to juvenile court officials or to juvenile shelter or detention facilities. Any such holding of a juvenile criminal type offender must be limited to the absolute minimum time necessary to complete this action, not to exceed six hours, and in no case overnight. Even where such a temporary holding is permitted, the section 223(a)(13) separation requirement would operate to prohibit the accused juvenile criminal-type offender from being in sight or sound contact with an adult offender during this brief holding period. Under no circumstances does the allowance of a six-hour "grace period" applicable to juvenile criminal-type offenders permit a juvenile status offender or nonoffender be detained even temporarily in an adult jail or lockup under section 223(a)(14). In monitoring for compliance with section 223(a)(14), section 31.303(f)(5)(iv) of the regulation requires States to report the number of juvenile criminal-type offenders held in adult jails and lockups in excess of six hours. However, it should be noted that the six hours does not include time involved in transporting a juvenile to or from an adult jail or lockup.

18. *Comment:* The revised definition of the term "secure" in § 31.304(b), which clarified that "staff secure" facilities are outside the scope of the statutory definition, was the subject of several comments. Some commentators found the clarification helpful, recognizing the need to provide for the safety and protection of all juveniles in appropriate circumstances through therapeutic intervention. However, a number of others felt that better definitions of related terms such as "limited", "reasonable" and "for their own protection and safety" required further study, particularly in view of the due process and liberty interest implications of the staff secure concept, a perceived potential for abuse, and the need to identify effective staff secure programs in order to properly define the concept

Response: OJJDP found these comments helpful. The use of the word "secure" in "staff secure" in the draft regulation apparently caused some confusion. Perhaps "staff restrictive" would have been a better descriptor. In any event, OJJDP has eliminated the use of the term "staff secure" in the final regulation. However, the office will continue to work with individuals and organizations in the field of juvenile justice to define this concept in the context of effective programs that use staff control techniques, which include procedures or methods other than the use of construction fixtures, that may physically restrict the movements and activities of individual facility residents. The objective is to insure that juveniles will remain in residential facilities to receive the care and treatment that is necessary to carry out the juvenile or family court custody order.

The JJDP Act defines the terms "secure detention facility" and "secure correctional facility" in sections 103 (12) and (13). In this context, the terms are expressly defined to include only those public or private residential facilities which "include(s) construction fixtures designed to physically restrict the movements and activities of juveniles . . .". The plain meaning of this statutory language is that facility features other than "construction fixtures", such as the use of staff to restrict physically or procedurally the movements and activities of juveniles, are not within the scope of the definition.

Executive Order 12291

This announcement does not constitute a "major" rule as defined by Executive Order 12291 because it does not result in: (a) An effect on the economy of $100 million or more, (b) a major increase in any costs or prices, or (c) adverse effects on competition, employment, investment, productivity, or innovation among American enterprises.

Regulatory Flexibility Act

This final rule does not have "significant" economic impact on a substantial number of small "entities", as defined by the Regulatory Flexibility Act (Pub. L. 96–354).

Subpart A—General Provisions

§ 31.1 General.

This part defines eligibility and sets forth requirements for application for and administration of formula grants to State governments authorized by Part B, Subpart I, of the Juvenile Justice and Delinquency Prevention Act.

§ 31.2 Statutory authority.

The Statute establishing the Office of Juvenile Justice and Delinquency Prevention and giving authority to make grants for juvenile justice and delinquency prevention improvement programs is the *Juvenile Justice and Delinquency Prevention Act of 1974*, as amended (42 U.S.C. 5601 et seq.).

§ 31.3 Submission date.

Formula Grant Applications for each of Fiscal Year should be submitted to OJJDP by August 1st (60 days prior to the beginning of the fiscal year) or within 60 days after the States are officially notified of the fiscal year formula grant allocations.

Subpart B—Eligible Applicants

§ 31.100 Eligibility.

All States as defined by section 103(7) of the JJDP Act.

§ 31.101 Designation of State agency.

The Chief Executive of each State which chooses to apply for a formula grant shall establish or designate a State agency as the sole agency for supervising the preparation and administration of the plan. The plan must demonstrate compliance with administrative and supervisory board membership requirements established by the OJJDP Administrator pursuant to Section 261(c) of the JJDP Act. States must have available for review a copy of the State law or executive order establishing the State agency and its authority.

§ 31.102 State agency structure.

The State agency may be a discrete unit of State government or a division or other component of an existing State crime commission, planning agency or other appropriate unit of State government. Details of organization and structure are matters of State discretion, provided that the agency: (a) Is a definable entity in the executive branch with the requisite authority to carry out the responsibilities imposed by the JJDP Act; (b) has a supervisory board (i.e., a board of directors, commission, committee, council, or other policy board) which has responsibility for supervising the preparation and administration of the plan and its implementation; and (c) has sufficient staff and staff capability to carry out the board's policies and the agency's duties and responsibilities to administer the program, develop the plan, process applications, administer grants awarded under the plan, monitor and evaluate programs and projects, provide administration/support services, and perform such accountability functions as are necessary to the administration of Federal funds, such as grant close-out and audit of subgrant and contract funds.

§ 31.103 Membership of Supervisory Board.

The State advisory group appointed under section 223(a)(3) may operate as the supervisory board for the State agency, at the discretion of the Governor. Where, however, a State has continuously maintained a broad-based law enforcement and criminal justice supervisory board (council) meeting all the requirements of section 402(b)(2) of the Justice System Improvement Act of 1979, and wishes to maintain such a

board such composition shall be acceptable provided that the board's membership includes the Chairman and at least two (2) local citizen members of the State advisory group. For purposes of this requirement a citizen member is defined as any person who is not a full-time government employee or elected official. Any executive committee of such a board must include the same proportion of juvenile justice advisory group members as are included in the total board membership. Any other proposed supervisory board membership is subject to case by case review and approval of the OJJDP Administrator and will require, at a minimum, "balanced representation" of juvenile justice interests.

Subpart C—General Requirements

§ 31.200 General.

This subpart sets forth general requirements applicable to formula grant recipients under the JJDP Act of 1974 as amended. Applicants must assure compliance or submit necessary information on these requirements.

§ 31.201 Audit.

The State must assure that it adheres to the audit requirements enumerated in the "Financial and Administrative Guide for Grants" Guideline Manual 7100.1 (current edition). Chapter 8 of the Manual contains a comprehensive statement of audit policies and requirements relative to grantees and subgrantees.

§ 31.202 Civil rights.

(a) To carry out the State's Federal civil rights responsibilities the plan must:

(1) Designate a civil rights contact person who has lead responsibility in insuring that all applicable civil rights requirements, assurances, and conditions are met and who shall act as liaison in all civil rights matters with OJJDP and the OJP Office of Civil Rights Compliance (OCRC); and

(2) Provide the Council's Equal Employment Opportunity Program (EEOP), if required to maintain one under 28 CFR 42.301, *et seq.*, where the application is for $500,000 or more.

(b) The application must provide assurance that the State will:

(1) Require that every applicant required to formulate an EEOP in accordance with 28 CFR 42.201 et seq., submit a certification to the State that it has a current EEOP on file which meets the requirement therein;

(2) Require that every criminal or juvenile justice agency applying for a grant of $500,000 or more submit a copy of its EEOP (if required to maintain one under 28 CFR 42.301, et seq.) to OCRC at the time it submits its application to the State;

(3) Inform the public and subgrantees of affected persons' rights to file a complaint of discrimination with OCRC for investigation;

(4) Cooperate with OCRC during compliance reviews of recipients located within the State; and

(5) Comply, and that its subgrantees and contractors will comply with the requirement that, in the event that a Federal or State court or administrative agency makes a finding of discrimination on the basis of race, color, religion, national origin, or sex (after a due process hearing) against a State or a subgrantee or contractor, the affected recipient or contractor will forward a copy of the finding to OCRC.

§ 31.203 Open meetings and public access to records.

The State must assure that the State agency and its supervisory board established pursuant to section 261(c)(1) and the State advisory group established pursuant to section 223(a)(3) will follow applicable State open meeting and public access laws and regulations in the conduct of meetings and the maintenance of records relating to their functions.

Subpart D—Juvenile Justice Act Requirements

§ 31.300 General.

This subpart sets forth specific JJDP Act requirements for application and receipt of formula grants.

§ 31.301 Funding.

(a) *Allocation to States.* Each State receives a base allotment of $225,000 except for the Virgin Islands, Guam, American Samoa, the Trust Territory of the Pacific Islands and the Commonwealth of the Northern Mariana Islands where the base amount is $56,250. Funds are allocated among the States on the basis of relative population under 18 years of age. OJJDP will officially notify the States and territories of their respective allocation within 30 days after the appropriation bill for the applicable fiscal year becomes law.

(b) *Funds for Local Use.* At least two-thirds of the formula grant allocation to the State must be used for programs by local government, or local private agencies unless the State applies for and is granted a waiver by the Office of Juvenile Justice and Delinquency Prevention.

(c) *Match.* Formula grants under the JJDP Act shall be 100% of approved costs, with the exception of planning and administration funds, which require a 100% cash match (dollar for dollar), and construction projects funded under section 227(a)(2) which also require a 100% cash match.

(d) *Funds for Administration.* Not more than 7.5% of the total annual formula grant award may be utilized to develop the annual juvenile justice plan and pay for administrative expenses, including project monitoring evaluation. These funds are to be matched on a dollar for dollar basis. The State shall make available needed funds for planning and administration to units of local government or combinations on an equitable basis. Each annual application must identify uses of such funds.

(e) *Nonparticipating States.* Pursuant to section 223(d), the OJJDP Administrator shall endeavor to make the fund allotment under section 222(a), of a State which chooses not to participate or loses its eligibility to participate in the formula grant program, directly available to local public and private nonprofit agencies within the nonparticipating State. The funds may be used only for the purpose(s) of achieving deinstitutionalization of status offenders and nonoffenders, separation of juveniles from incarcerated adults, and/or removal of juveniles from adult jails and lockups. Absent the demonstration of compelling circumstances justifying the reallocation of formula grant funds back to the State to which the funds were initially allocated, or the pendency of administrative hearing proceedings under section 223(d), formula grant funds will be reallocated on October 1 following the fiscal year for which the funds were appropriated. Reallocated funds will be competitively awarded to eligible recipients pursuant to program announcements published in the Federal Register.

§ 31.302 Applicant State agency.

(a) Pursuant to section 223(a)(1), section 223(a)(2) and section 261(c) of the JJDP Act, the State must assure that the State agency approved under Section 261(c) has been designated as the sole agency for supervising the preparation and administration of the plan and has the authority to implement the plan.

(b) *Advisory Group.* Pursuant to section 223(a)(3) of the JJDP Act, the Chief Executive:

(1) Shall establish an advisory group pursuant to section 223(a)(3) of the JJDP Act. The State shall provide a list of all

current advisory group members, indicating their respective dates of appointment and how each member meets the membership requirements specified in this section of the Act.

(2) Should consider, in meeting the statutory membership requirements of section 223(a)(3) (A) to (E), appointing at least one member who represents each of the following: A law enforcement officer such as a police officer; a juvenile or family court judge; a probation officer; a corrections official; a prosecutor; a representative from an organization, such as a parents group, concerned with teenage drug and alcohol abuse; and a high school principal.

(c) The State shall assure that it complies with the Advisory Group Financial support requirement of section 222(d) and the composition and function requirements of section 223(a)(3) of the JJDP Act.

31.303 Substantive requirements.

(a) *Assurances.* The State must certify through the provision of assurances that it has complied and will comply (as appropriate) with section 223(a) (4), (5), (6), (7), (8)(C), (9), (10), (11), (16), (17), (18), (19), (20), and (21), and sections 229 and 261(d), in formulating and implementing the State plan. The Formula Grant Application Kit can be used as a reference in providing these assurances.

(b) *Serious Juvenile Offender Emphasis.* Pursuant to sections 101(a)(8) and 223(a)(10) of the JJDP Act, the Office encourages States that have identified serious and violent juvenile offenders as a priority problem to allocate formula grant funds to programs designed for serious and violent juvenile offenders at a level consistent with the extent of the problem as identified through the State planning process. Particular attention should be given to improving prosecution, sentencing procedures, providing resources necessary for informed dispositions, providing for effective rehabilitation, and facilitating the coordination of services between the juvenile justice and criminal justice systems.

(c) *Deinstitutionalization of Status Offenders and Non-Offenders.* Pursuant to section 223(a)(12)(A) of the JJDP Act, the State shall:

(1) Describe its plan, procedure, and timetable covering the three-year planning cycle, for assuring that the requirements of this section are met. Refer to § 31.303(f)(3) for the rules related to the valid court order exception to this Act requirement.

(2) Describe the barriers the State faces in achieving full compliance with the provisions of this requirement.

(3) For those States that have achieved "substantial compliance", as outlined in section 223(c) of the Act, document the unequivocal commitment to achieving full compliance.

(4) Those States which, based upon the most recently submitted monitoring report, have been found to be in full compliance with section 223(a)(12)(A) may, in lieu of addressing paragraphs (c)(1), (2), and (3) of this section, provide an assurance that adequate plans and resources are available to maintain full compliance.

(5) Submit the report required under section 223(a)(12)(B) of the Act as part of the annual monitoring report required by section 223(a)(15) of the Act.

(d) *Contact with Incarcerated Adults.* (1) Pursuant to section 223(a)(13) of the JJDP Act the State shall:

(i) Describe its plan and procedure, covering the three-year planning cycle, for assuring that the requirements of this section are met. The term *regular contact* is defined as sight and sound contact with incarcerated adults, including inmate trustees. This prohibition seeks as complete a separation as possible and permits no more than haphazard or accidental contact between juveniles and incarcerated adults. In addition, include a timetable for compliance and justify any deviation from a previously approved timetable.

(ii) In those isolated instances where juvenile criminal-type offenders remain confined in adult facilities or facilities in which adults are confined, the State must set forth the procedures for assuring no regular sight and sound contact between such juveniles and adults.

(iii) Describe the barriers which may hinder the separation of alleged or adjudicated criminal-type offenders, status offenders and non-offenders from incarcerated adults in any particular jail, lockup, detention or correctional facility.

(iv) Those States which, based upon the most recently submitted monitoring report, have been found to be in compliance with section 223(a)(13) may, in lieu of addressing paragraphs (d) (i), (ii), and (iii) of this section, provide an assurance that adequate plans and resources are available to maintain compliance.

(v) Assure that adjudicated offenders are not reclassified administratively and transferred to an adult (criminal) correctional authority to avoid the intent of segregating adults and juveniles in correctional facilities. This does not prohibit or restrict waiver of juveniles to criminal court for prosecution, according to State law. It does, however, preclude a State from administratively transferring a juvenile offender to an adult correctional authority or a transfer within a mixed juvenile and adult facility for placement with adult criminals either before or after a juvenile reaches the statutory age of majority. It also precludes a State from transferring adult offenders to juvenile correctional authority for placement.

(2) *Implementation.* The requirement of this provision is to be planned and implemented immediately by each State in light of identified constraints on immediate implementation. Immediate compliance is required where no constraints exist. Where constraints exist, the designated date of compliance in the latest approved plan is the compliance deadline. Those States not in compliance must show annual progress toward achieving compliance until compliance is reached.

(e) *Removal of Juveniles From Adult Jails and Lockups.* Pursuant to section 223(a)(14) of the JJDP Act, the State shall:

(1) Describe its plan, procedure, and timetable for assuring that requirements of this section will be met beginning after December 8, 1985. Refer to § 31.303(f)(4) to determine the regulatory exception to this requirement.

(2) Describe the barriers which the State faces in removing all juveniles from adult jails and lockups. This requirement excepts only those juveniles formally waived or transferred to criminal court and against whom criminal felony charges have been filed, or juveniles over whom a criminal court has original or concurrent jurisdiction and such court's jurisdiction has been invoked through the filing of criminal felony charges.

(3)(i) Determine whether or not a facility in which juveniles are detained or confined is an adult jail or lockup. In circumstances where the juvenile and adult facilities are located in the same building or on the same grounds, each of the following four requirements initially set forth in the January 17, 1984 Federal Register (49 FR 2054-2055) must be met in order to ensure the requisite separateness of the two facilities. The requirements are:

(A) Total separation between juvenile and adult facility spatial areas such that there could be no haphazard or accidental contact between juvenile and adult residents in the respective facilities.

(B) Total separation in all juvenile and adult program activities within the

facilities, including recreation, education, counseling, health care, dining, sleeping, and general living activities.

(C) Separate juvenile and adult staff, including management, security staff, and direct care staff such as recreation, education, and counseling. Specialized services staff, such as cooks, bookkeepers, and medical professionals who are not normally in contact with detainees or whose infrequent contacts occur under conditions of separation of juvenile and adults, can serve both.

(D) In States that have established State standards or licensing requirements for secure juvenile detention facilities, the juvenile facility meets the standards and is licensed as appropriate.

(ii) The State must initially determine that the four requirements are fully met. Upon such determination, the State must submit to OJJDP a request to concur with the State finding that a separate juvenile facility exists. To enable OJJDP to assess the separateness of the two facilities, sufficient documentation must accompany the request to demonstrate that each requirement is met.

(4) For those States that have achieved "substantial compliance" with section 223(a)(14) as specified in section 223(a) of the Act, the requirement for achieving full compliance.

(5) Those States which, based upon the most recently submitted monitoring report, have been found to be in full compliance with section 223(a)(14) may, in lieu of addressing paragraphs (e) (1), (2), and (4) of this Section, provide an assurance that adequate plans and resources are available to maintain full compliance.

(f) *Monitoring of Jails, Detention Facilities and Correctional Facilities.* (1) Pursuant to section 223(a)(15) of the JJDP Act, and except as provided by paragraph (f)(5) of this section, the State shall:

(i) Describe its plan, procedure, and timetable for annually monitoring jails, lockups, detention facilities, correctional facilities and non-secure facilities. The plan must at a minimum describe in detail each of the following tasks including the identification of the specific agency(s) responsible for each task.

(A) *Identification of Monitoring Universe.* This refers to the identification of all residential facilities which might hold juveniles pursuant to public authority and thus must be classified to determine if it should be included in the monitoring effort. This includes those facilities owned or operated by public and private agencies.

(B) *Classification of the Monitoring Universe.* This is the classification of all facilities to determine which ones should be considered as a secure detention or correctional facility, adult correctional institution, jail, lockup, or other type of secure or nonsecure facility.

(C) *Inspection of facilities.* Inspection of facilities is necessary to ensure an accurate assessment of each facility's classification and record keeping. The inspection must include: (1) A review of the physical accommodations to determine whether it is a secure or non-secure facility or whether adequate sight and sound separation between juvenile and adult offenders exists *and* (2) a review of the record keeping system to determine whether sufficient data are maintained to determine compliance with section 223(a) (12), (13) and/or (14).

(D) *Data Collection and Data Verification.* This is the actual collection and reporting of data to determine whether the facility is in compliance with the applicable requirement(s) of section 223(a) (12), (13) and/or (14). The length of the reporting period should be 12 months of data, but in no case less than 6 months. If the data is self-reported by the facility or is collected and reported by an agency other than the State agency designated pursuant to section 223(a)(1) of the JJDP Act, the plan must describe a statistically valid procedure used to verify the reported data.

(ii) Provide a description of the barriers which the State faces in implementing and maintaining a monitoring system to report the level of compliance with section 223(a) (12), (13), and (14) and how it plans to overcome such barriers.

(iii) Describe procedures established for receiving, investigating, and reporting complaints of violation of section 223(a) (12), (13), and (14). This should include both legislative and administrative procedures and sanctions.

(2) For the purpose of monitoring for compliance with section 223(a)(12)(A) of the Act a secure detention or correctional facility is any secure public or private facility used for the lawful custody of *accused* or adjudicated juvenile offenders or non-offenders, *or* used for the lawful custody of accused or convicted adult criminal offenders.

(3) *Valid Court Order.* For the purpose of determining whether a valid court order exists and a juvenile has been found to be in violation of that valid order all of the following conditions must be present prior to secure incarceration:

(i) The juvenile must have been brought into a court of competent jurisdiction and made subject to an order issued pursuant to proper authority. The order must be one which regulates future conduct of the juvenile.

(ii) The court must have entered a judgment and/or remedy in accord with established legal principles based on the facts after a hearing which observes proper procedures.

(iii) The juvenile in question must have received adequate and fair warning of the consequences of violation of the order at the time it was issued and such warning must be provided to the juvenile and to the juvenile's attorney and/or legal guardian in writing and be reflected in the court record and proceedings.

(iv) All judicial proceedings related to an alleged violation of a valid court order must be held before a court of competent jurisdiction. A juvenile accused of violating a valid court order may be held in secure detention beyond the 24-hour grace period permitted for a noncriminal juvenile offender under OJJDP monitoring policy, for protective purposes as prescribed by State law, or to assure the juvenile's appearance at the violation hearing, as provided by State law, if there has been a judicial determination based on a hearing during the 24-hour grace period that there is probable cause to believe the juvenile violated the court order. In such case the juveniles may be held pending a violation hearing for such period of time as is provided by State law, but in no event should detention prior to a violation hearing exceed 72 hours exclusive of nonjudicial days. A juvenile found in a violation hearing to have violated a court order may be held in a secure detention or correctional facility.

(v) Prior to and during the violation hearing the following full due process rights must be provided:

(A) The right to have the charges against the juvenile in writing served upon him a reasonable time before the hearing;

(B) The right to a hearing before a court;

(C) The right to an explanation of the nature and consequences of the proceeding;

(D) The right to legal counsel, and the right to have such counsel appointed by the court if indigent;

(E) The right to confront witnesses;

(F) The right to present witnesses;

(G) The right to have a transcript or record of the proceedings; and

(H) The right of appeal to an appropriate court.

(vi) In entering any order that directs or authorizes disposition of placement in a secure facility, the judge presiding over an initial probable cause hearing or violation hearing must determine that all the elements of a valid court order (paragraphs (f)(3) (i), (ii) and (iii) of this section) and the applicable due process rights (paragraph (f)(3)(v) of this section) were afforded the juvenile and, in the case of a violation hearing, the judge must determine that there is no less restrictive alternative appropriate to the needs of the juvenile and the community.

(vii) A non-offender such as a dependent or neglected child cannot be placed in secure detention or correctional facilities for violating a valid court order.

(4) *Removal Exception (Section 223(a)(14)).* The following conditions must be met in order for an accused juvenile criminal-type offender, awaiting an initial court appearance, to be detained up to 24 hours (excluding weekends and holidays) in an adult jail or lockup:

(i) The State must have an enforceable State law requiring an initial court appearance within 24 hours after being taken into custody (excluding weekends and holidays);

(ii) The geographic area having jurisdiction over the juvenile is outside a metropolitan statistical area pursuant to the Bureau of Census' current designation;

(iii) A determination must be made that there is no existing acceptable alternative placement for the juvenile pursuant to criteria developed by the State and approved by OJJDP;

(iv) The adult jail or lockup must have been certified by the State to provide for the sight and sound separation of juveniles and incarcerated adults; and

(v) The State must provide documentation that the conditions in paragraphs (f)(4) (i) thru (iv) of this Section have been met and received prior approval from OJJDP. In addition, OJJDP strongly recommends that jails and lockups which incarcerate juveniles pursuant to this exception be required to provide continuous visual supervision of juveniles incarcerated pursuant to this exception.

(5) *Reporting Requirement.* The State shall report annually to the Administrator of OJJDP on the results of monitoring for section 223(a) (12), (13), and (14) of the JJDP Act. The reporting period should provide 12 months of data, but shall not be less than 6 months. Three copies of the report shall be submitted to the Administrator of OJJDP no later than December 31 of each year.

(i) To demonstrate the extent of compliance with section 223(a)(12)(A) of the JJDP Act, the report must at least include the following information for both the baseline and the current reporting periods.

(A) Dates of baseline and current reporting period.

(B) Total number of public and private secure detention and correctional facilities AND the number inspected on-site.

(6) *Compliance.* The State must demonstrate the extent to which the requirements of section 223(a) (12)(A), (13), and (14) of the Act are met. Should the State fail to demonstrate compliance with the requirements of this Section within designated time frames, eligibility for formula grant funding shall terminate. The compliance levels are:

(i) *Substantial compliance* with section 223(a)(12)(A) requires within three years of initial plan submission achievement of a 75% reduction in the aggregate number of status offenders and non-offenders held in secure detention or correctional facilities or removal of 100% of such offenders from secure correctional facilities only. In addition, the State must make an unequivocal commitment, through appropriate executive or legislative action, to achieving full compliance within two additional years. *Full compliance* is achieved when a State

has removed 100% of such juveniles from secure detention and correctional facilities or can demonstrate full compliance with *de minimis* exceptions pursuant to the policy criteria contained in the Federal Register of January 9, 1981 (46 FR 2566–2569).

(m) *Compliance* with section 223(a)(13) has been achieved when a State can demonstrate that

(A) The last submitted monitoring report, covering a full 12 months of data, demonstrates that no juveniles were incarcerated in circumstances that were in violation of section 223(a)(13); or

(B)(*1*) State law, regulation, court rule, or other established executive or judicial policy clearly prohibits the incarceration of all juvenile offenders in circumstances that would be in violation of section 223(a)(13);

(*2*) All instances of noncompliance reported in the last submitted monitoring report were in violation of, or departures from, the State law, rule, or policy referred to in paragraph (f)(6)(iii)(B)(*1*) of this section;

(*3*) The instances of noncompliance do not indicate a pattern or practice but rather constitute isolated instances; and

(*4*) Existing mechanisms for the enforcement of the State law, rule, or policy referred to in paragraph (f)(6)(iii)(B)(*1*) of this section are such that the instances of noncompliance are unlikely to recur in the future.

(n) *Substantial compliance* with section 223(a)(14) requires the achievement of a 75% reduction in the number of juveniles held in adult jails and lockups by December 8, 1985 and that the State has made an unequivocal commitment, through appropriate executive or legislative action, to achieving full compliance within three additional years. *Full compliance* is achieved when a State demonstrates that the last submitted monitoring report, covering a full and actual 12 months of data, demonstrates that no juveniles were held in adult jails or lockups in circumstances that were in violation of section 223(a)(14). *Full compliance with de minimis exceptions* is achieved when a State demonstrates that it has met the standard set forth in either of paragraphs (f)(6)(iii) (A) or (B) of this section:

(A)(*1*) State law, court rule, or other statewide executive or judicial policy clearly prohibits the detention or confinement of all juveniles in circumstances that would be in violation of section 223(a)(14);

(*2*) All instances of noncompliance reported in the last submitted monitoring report were in violation of or departures from, the State law, rule, or policy referred to in paragraph (f)(6)(iii)(A)(*1*) of this section;

(*3*) The instances of noncompliance do not indicate a pattern or practice but rather constitute isolated instances;

(*4*) Existing mechanisms for the enforcement of the State law, rule, or policy referred to in paragraph (f)(6)(iii)(A)(*1*) of this section are such that the instances of noncompliance are unlikely to recur in the future; and

(*5*) An acceptable plan has been developed to eliminate the noncompliant incidents and to monitor the existing mechanism referred to in paragraph (f)(6)(iii)(A)(*4*) of this section.

(B) [Reserved]

(7) *Monitoring Report Exceptions.* States which have been determined by the OJJDP Administrator to have achieved full compliance with section 223(a)(12)(A) and compliance with section 223(a)(13) of the JJDP and which wish to be exempted from the annual monitoring report requirements must submit a written request to the OJJDP Administrator which demonstrates that:

(i) The State provides for an adequate system of monitoring jails, detention facilities, correctional facilities, and non-secure facilities to enable an annual determination of State compliance with section 223(a) (12)(A), (13), and (14) of the JJDP Act;

(ii) State legislation has been enacted which conforms to the requirements of section 223(a) (12)(A) and (13) of the JJDP Act; and

(iii) The enforcement of the legislation is statutorily or administratively prescribed, specifically providing that:

(A) Authority for enforcement of the statute is assigned;

(B) Time frames for monitoring compliance with the statute are specified; and

(C) Adequate sanctions and penalties that will result in enforcement of statute and procedures for remedying violations are set forth.

(g) *Juvenile Crime Analysis.* Pursuant to section 223(a)(8) (A) and (B) the State shall conduct an analysis of juvenile crime problems and juvenile justice and delinquency prevention needs.

(1) *Analysis.* The analysis must be provided in the multiyear application. A suggested format for the analysis is provided in the Formula Grant Application Kit.

(2) *Product.* The product of the analysis is a series of brief written problem statements set forth in the application that define and describe the priority problems.

(3) *Programs.* Applications are to include descriptions of programs to be supported with JJDP Act formula grant funds. A suggested format for these programs is included in the application kit.

(4) *Performance Indicators.* A list of performance indicators must be developed and set forth for each program. These indicators show what data will be collected at the program level to measure whether objectives and performance goals have been achieved and should relate to the measures used in the problem statement and statement of program objectives.

(h) *Annual Performance Report.* Pursuant to section 223(a) and section 223(a)(22) the State plan shall provide for submission of an annual performance report. The State shall report on its progress in the implementation of the approved programs, described in the three-year plan. The performance indicators will serve as the objective criteria for a meaningful assessment of progress toward achievement of measurable goals. The annual performance report shall describe progress made in addressing the problem of serious juvenile crime, as documented in the juvenile crime analysis pursuant to section 223(a)(8)(A).

(i) *Technical Assistance.* States shall include, within their plan, a description of technical assistance needs. Specific direction regarding the development and inclusion of all technical assistance needs and priorities will be provided in the "Application Kit for Formula Grants under the JJDPA."

(j) *Other Terms and Conditions.* Pursuant to section 223(a)(23) of the JJDP Act, States shall agree to other terms and conditions as the Administrator may reasonably prescribe to assure the effectiveness of programs assisted under the formula grant.

§ 31.304 Definitions.

It does not include facilities where physical restriction of movement or activity is provided solely through facility staff.

(c) *Facility.* A place, an institution, a building or part thereof, set of buildings or an area whether or not enclosing a building or set of buildings which is used for the lawful custody and treatment of juveniles and may be owned and/or operated by public and private agencies.

(d) *Juvenile who is accused of having committed an offense.* A juvenile with respect to whom a petition has been filed in the juvenile court or other action has occurred alleging that such juvenile is a juvenile offender, i.e., a criminal-type offender or a status offender, and no final adjudication has been made by the juvenile court.

(e) *Juvenile who has been adjudicated as having committed an offense.* A juvenile with respect to whom the juvenile court has determined that such juvenile is a juvenile offender, i.e., a criminal-type offender or a status offender.

(f) *Juvenile offender.* An individual subject to the exercise of juvenile court jurisdiction for purposes of adjudication and treatment based on age and offense limitations by defined as State law, i.e., a criminal-type offender or a status offender.

(g) *Criminal-type offender.* A juvenile offender who has been charged with or adjudicated for conduct which would, under the law of the jurisdiction in which the offense was committed, be a crime if committed by an adult.

(h) *Status offender.* A juvenile offender who has been charged with or adjudicated for conduct which would not, under the law of the jurisdiction in which the offense was committed, be a crime if committed by an adult.

(l) *Other individual convicted of a criminal offense.* An individual, adult or juvenile, who has been convicted of a criminal offense in court exercising criminal jurisdiction.

(m) *Adult jail.* A locked facility, administered by State, county, or local law enforcement and correctional agencies, the purpose of which is to detain adults charged with violating criminal law, pending trial. Also considered as adult jails are those facilities used to hold convicted adult criminal offenders sentenced for less than one year.

(n) *Adult lock-up.* Similar to an adult jail except that an adult lockup is generally a municipal or police facility of a temporary nature which does not hold persons after they have been formally charged.

(o) *Valid Court Order.* The term means a court order given by a juvenile court judge to a juvenile who has been brought before the court and made subject to a court order. The use of the word "valid" permits the incarceration of juveniles for violation of a valid court order only if they received their full due process rights as guaranteed by the Constitution of the United States.

(p) *Local Private Agency.* For the purposes of the pass-through requirement of section 223(a)(5), a local private agency is defined as a private non-profit agency or organization that provides program services within an identifiable unit or a combination of units of general local government.

ACTION: Notice of final regulation.

SUMMARY: The Office of Juvenile Justice and Delinquency Prevention (OJJDP) is publishing the final revision of the existing Formula Grants Regulation (28 CFR part 31), which implements part B of Title II of the Juvenile Justice and Delinquency Prevention (JJDP) Act of 1974, as amended by the Juvenile Justice and Delinquency Prevention Amendments of 1988, (subtitle F of title VII of the Anti-Drug Abuse Act of 1988, Pub. L. 100-690, 102 Stat. 4181, November 18, 1988). The 1988 Amendments reauthorize and modify the Federal assistance program of grants to state and local governments and private not-for-profit agencies for juvenile justice and delinquency prevention improvements authorized under part B of Title II of the JJDP Act (42 U.S.C. 5611 *et seq.*). The final revision to the existing Regulation provides guidance to states in the formulation, submission, and implementation of state formula grants plans.

EFFECTIVE DATE: This regulation is effective August 8, 1989.

SUPPLEMENTARY INFORMATION:

Statutory Amendments

The 1988 reauthorization of the JJDP Act resulted in statutory amendments that impact the Formula Grants Program. These statutory changes include: A modified formula grant fund allocation minimum for participating states and territories; a funding pass-through requirement for Indian tribes; a plan requirement related to assessing and addressing the overrepresentation of minority juveniles in all types of secure facilities; extension through 1993 of the non-MSA exception to the jail and lockup removal requirement; an alternative substantial compliance standard for jail and lockup removal; and, a provision for the Administrator to waive termination of funding eligibility for states that have failed to achieve substantial or full compliance with the jail and lockup removal requirement. The final regulation details revised procedures and requirements for states participating in the Formula Grants Program resulting from the 1988 amendments to the JJDP Act.

Description of Major Changes

Formula Grant Allocations

Section 222(a) of the JJDP Act was amended to raise the minimum Formula Grant allocation from $225,000 per state and $56,250 per territory. The minimum allocations are now $325,000 per state and $75,000 per territory if the title II appropriation is less than $75 million (other than part D). If the title II appropriation is more than $75 million (other than part D), the minimum allocations are $400,000 per state and $100,000 per territory. State and territory allocations will be reduced prorata to the extent necessary to ensure that no state receives less than it was allotted in Fiscal Year 1988.

Indian Pass-Through

Section 223(a)(5) of the JJDP Act was amended to require that a portion of each participating state's 66⅔ percent Formula Grant pass-through be made available to fund programs of Indian tribes that perform law enforcement functions, and that agree to attempt to comply with the deinstitutionalization of status offenders, separation, and jail and lockup removal requirements of the JJDP Act. The proportion of pass-through funds made available for these programs must be the same as the proportion of the state's population under 18 years of age which resides in those geographical areas where Indian tribes perform such law enforcement functions. Each year, the Secretary of the Interior will provide OJJDP with an updated list of those tribes within states that perform law enforcement functions. The initial list is available through OJJDP.

A related provision, section 223(a)(6)(A) of the JJDP Act, was amended to require that each state's juvenile crime analysis, which is submitted annually as part of the Formula Grant Application and Plan, include an assessment of juvenile crime problems and prevention needs within the geographical areas in which Indian tribes perform law enforcement functions.

Minority Overrepresentation in Secure Facilities

Section 223(a)(23) of the JJDP Act was amended to require that each participating state's Formula Grant Plan address efforts to reduce the proportion of juveniles who are members of minority groups detained or confined in secure detention facilities, secure correctional facilities, jails, and lockups, if such proportion exceeds the proportion such groups represent in the general population.

Jail Removal

Section 223(a)(14) of the JJDP Act was amended to continue the non-MSA (low population density) exception to the jail and lockup removal requirement through 1993. The statutory criteria outlined in section 223(a)(14) (A), (B) and (C) that must be satisfied for a state to use this exception remain the same (28 CFR 31.303(f)(4)).

Section 223(c) of the JJDP Act was amended to create an alternative substantial compliance standard for those states unable to achieve a 75 percent reduction in jail and lockup removal violations, but which have made sufficient progress to merit continued funding. The new standard establishes four criteria which, if satisfied, may be used in lieu of achieving a 75 percent numerical reduction to demonstrate substantial compliance. The four criteria require that the state has: (1) Removed all status and nonoffender juveniles from adult jails and lockups; (2) made meaningful progress in removing other juveniles from adult jails and lockups; (3) diligently carried out the state's jail and lockup removal plan; and (4) historically expended and continues to expend an appropriate and significant share of Formula Grant resources to comply with section 223(a)(14) of the JJDP Act. As with the 75 percent reduction standard, for a state to be eligible for a finding of substantial compliance under this alternative standard the state must demonstrate an unequivocal commitment to achieving full compliance within a reasonable time, not to exceed three additional years, after the December 8, 1985, statutory deadline for achieving substantial compliance with the jail and lockup removal requirement.

The statutory deadlines for substantial and full compliance with section 223(a)(14) of the JJDP Act were not changed by the 1988 Amendments. Each participating state and territory's 1987 and 1988 Monitoring Reports (due by December 31, 1987, and December 31, 1988, respectively) must demonstrate either substantial or full compliance with the jail and lockup removal requirement in order for the state to be eligible (absent a waiver of termination)

for the FY 1988 and 1990 Formula Grant awards, respectively. Each participating state and territory's 1989 Monitoring Report (due by December 31, 1989), must demonstrate full compliance or full compliance with de minimis exceptions with section 223(a)(14) in order for the state to be eligible (absent a waiver of termination) for the FY 1991 Formula Grant award, and all subsequent awards.

Section 223(c) of the JJDP Act was also amended to provide the Administrator of OJJDP with the discretion to waive termination of funding eligibility for those states and territories that have not achieved substantial or full compliance with the jail and lockup removal requirement, provided that the state or territory agrees to expend all of its Formula Grant resources, except planning and administration, advisory group set aside, and Indian tribe pass-through funds, to achieve compliance with section 223(a)(14). This final revision of the Formula Grants Regulation sets forth standards that a state must demonstrate it meets in order to be considered by the Administrator for a waiver of the termination sanction. A state which satisfies these standards qualifies for a waiver on the basis that: (1) It has made significant progress to date; and (2) additional funding is likely to produce further progress toward compliance.

Discussion of Comments

The proposed revisions to the existing Formula Grants Regulation were published in the Federal Register on April 12, 1989 (54 FR 14768), for public comment. Written comments were received from eight states, two regional coalitions of state juvenile justice advisory groups, the National Coalition of State Juvenile Justice Advisory Groups, the University of Wisconsin School of Social Welfare, and the Subcommittee on Human Resources of the U.S. House of Representatives' Committee on Education and Labor. The National Coalition of State Juvenile Justice Advisory Groups submitted a resolution passed at their May 7-10, 1989 National Conference in Reno. All comments have been considered by OJJDP in the issuance of this final regulation.

The following is a summary of the comments and the responses by OJJDP:

1. *Comment:* The majority of respondents expressed concern that paragraphs (f)(6)(iii)(D)(1)(v) and (f)(6)(iii)(D)(2) (vii) of the proposed regulation only required states to demonstrate a "commitment" to achieving full compliance when seeking a waiver of termination of eligibility for failure to achieve substantial or full compliance with the jail and lockup removal provision, section 223(a)(14) of the JJDP Act. These respondents indicated that states should be required to demonstrate an "unequivocal commitment" to achieving full compliance in order to be eligible for a waiver of termination. The House Subcommittee on Human Resources commented that requiring a lesser commitment for a state in the context of an application for a waiver than is required for that state to achieve substantial compliance weakens the Act's compliance scheme, which was not the intent of the 1988 Amendments. The House Subcommittee further commented that only a requirement of unequivocal commitment will enable the Administrator to make the determination, with certainty, that additional funding is likely to produce further progress toward compliance when waivers are granted. The comments and the resolution of the National Coalition of State Juvenile Justice Advisory Groups supported this position.

Several respondents commented that the positive responses of state legislatures and governors to the requirement of an unequivocal commitment as a basis of eligibility for participation in the OJJDP sponsored Jail Removal Initiative I demonstrates the level of commitment that most states have already made to achieving the goals of jail removal. Within this context, respondents commented that OJJDP should remain consistent in its interpretation of requirements, as weakening the standard undermines gains already achieved by many states.

Finally, several respondents indicated that without requiring the higher, well defined standard of "unequivocal commitment," waivers of termination would practically be automatic, and the jail and lockup removal provision of the JJDP Act would be weakened.

One state supported the "commitment" language in the proposed regulation.

Response: It is the OJJDP position that the legislation itself is clear in that it does not require the Administrator to demand an "unequivocal commitment" but allows the Administrator discretion to waive termination of eligibility when a state is unable to meet the standard for substantial compliance, or the standard for full compliance. The Act imposes only one condition upon the Administrator in utilizing the waiver provision: That those states who are unable to demonstrate substantial or full compliance (as required by the Act) must commit all of their formula grant dollars to the issue of jail removal except as provided by the statute. This is a substantial requirement and is demonstrative of a state's willingness and commitment to comply with the jail removal mandate.

The Regulation incorporates this requirement and in addition requires states to: Have an adequate monitoring system, diligently carry out the state's jail and lockup removal plan, submit an acceptable plan to eliminate noncompliant incidents and to demonstrate a commitment to achieving full compliance. Therefore, the Regulation satisfies not only the clear language of the statute, it also satisfies the intent of Congress that the waiver be applied to those cases where the Administrator determines the states have made significant progress and additional funding is likely to produce further progress toward compliance. It is consistent with Congressional action in creating the waiver provision by assisting states that are committed to maintaining progress toward and achieving full compliance with 223(a)(14).

Based on these conclusions, paragraphs (f)(6)(iii)(D)(1)(v) and (f)(6)(iii)(D)(2)(vii) of the final regulation retain the original language from the proposed regulation requiring states seeking a waiver of termination of eligibility to demonstrate a "commitment" to achieving full compliance.

2. *Comment:* One respondent indicated that there was no justification for allowing the Administrator to waive termination of a state's eligibility for failure to achieve substantial compliance with the jail and lockup removal provision.

Response: Section 223(c)(2)(B) of the JJDP Act clearly applies the waiver of termination sanction to those states unable to achieve substantial compliance with the jail and lockup removal provision, pursuant to section 223(c)(2)(A). This interpretation of the statute is supported by the House Committee on Education and Labor Report (100-605) which states on page 11, "It should be noted that the bill makes this alternative sanction available with regard to enforcing the substantial and full compliance requirements."

It is the OJJDP's intention to apply the waiver provision carefully, as directed by Congress. This will occur in those situations where, although substantial compliance has not been achieved within the applicable time limit, the state has made significant progress in removing juveniles from adult jails and

lockups, and there is substantive evidence that additional funding is likely to produce further progress toward full compliance.

3. *Comment:* One respondent requested that the waiver maximum apply only to (f)(6)(iii)(D)(2), which relates to full compliance and not to (f)(6)(iii)(D)(1), which relates to substantial compliance. Thus the maximum number of waivers would only be counted for failure to achieve full compliance. Waivers applied to states for failure to achieve substantial compliance would not be counted toward the three waiver maximum.

Response: Although the standard for substantial compliance is different from the standard for full compliance no other distinction is made in the application of the three year waiver limitation. No state, regardless of whether the substantial compliance standard is used or the full compliance standard is used, is eligible for more than three waivers.

4. *Comment:* One respondent recommended that paragraph (j)(1), which requires that documentation be provided in the State Plan Juvenile Crime Analysis to indicate whether minority juveniles are disproportionately detained or confined, provide more specific information as to what kind of documentation is required.

Response: OJJDP agrees with this recommendation and will prepare supplemental information, including recommended data collection and analysis strategies. For those states whose Fiscal Year 1989 plan has already been submitted, separate instructions for supplementing the FY 1989 plan update to meet any new or modified requirements imposed by the final regulation will also be issued.

5. *Comment:* One respondent expressed concern about how the implementation of the workplan for addressing overrepresentation of minorities in the juvenile justice system will be monitored to ensure that the plan is being carried out.

Response: OJJDP intends to monitor implementation of workplans through site visits and through reviewing Performance Reports. In addition, OJJDP plans to develop an addendum to the Monitoring Compliance Report which is currently submitted annually to determine compliance with section 223(a)(12)(A), (13), and (14). This addendum will apply to the 1990 Monitoring Report due December 31, 1990, and all subsequent monitoring reports.

6. *Comment:* One respondent expressed concern about the interpretation of the statutory language in section 223(a)(23) of the Act that requires states to address the over-representation of minority youth in secure detention facilities. The basis for this concern is that the language "if such proportion exceeds the proportion such groups represent in the general population," if interpreted literally, might lead to a situation in which the proportion of minority youth in secure detention would be compared to the proportion of minority members in the general population. Such a comparison would be misleading because of the skewed age distributions of minority populations in the United States at the present. Minority populations tend to be composed of greater percentages of younger individuals. Thus, while in a given jurisdiction 25 percent of the overall population may be members of a minority group, 30 percent or more of the population could be under 20 years of age. If this were the case, and assuming equal risks of offense, apprehension and other decision making, it would still be the case that this hypothetical jurisdiction would appear to have an over-representation of minority youth.

The respondent recommends that for purposes of determining over-representation of minority youth in secure facilities, the general population be defined as youth at risk for such confinement.

Response: OJJDP also recognized the potential for misinterpretation of the statutory language. As a consequence, this language was clarified in § 31.303 (j)(1) of the proposed OJJDP Formula Grants Regulation. This clarification has been retained in the final Regulation.

7. *Comment:* The Subcommittee on Human Resources of the House Committee on Education and Labor commented on the definition of Indian tribes that perform law enforcement functions. Concern was expressed that the definition does not fully track the definition of "law enforcement and criminal justice" in section 103(6) of the Act. While the proposed definition specifically includes police efforts, it omits any specific reference to activities of courts, corrections, probation, or parole authorities. Concern was expressed that OJJDP not interpret the term "law enforcement functions" too narrowly and a suggestion made that this definition be expanded to more closely track the section 103(6) language. Two state respondents expressed similar concerns.

Response: In response to this comment, as well as to those from the two state respondents, the language for the definition of law enforcement functions has been expanded to include corrections, probation, and parole activities.

8. *Comment:* One state, which has only one Indian tribe that might be able to qualify for pass-through funds, expects that the population under 18 years is too small to warrant an individual grant. A question was raised about how OJJDP defines the term "larger tribal jurisdiction" as it relates to that situation?

Response: OJJDP recognizes the range of populations of Indian Tribes and Alaskan Native villages, and the Regulation is designed to give the State Agency flexibility in targeting funds where substantial impact can be anticipated through the funding of tribes attempting to achieve compliance with section 223(a) (12)(A), (13) and (14) of the JJDP Act. It also recognizes the variation in resources among Indian tribes to develop and manage projects, and, accordingly, provides for making pass-through funds available to organizations designated by tribes to represent them, or to combinations of eligible tribes. Where a state has only one tribe, that tribe, regardless of size would be the eligible tribe and would necessarily be the recipient or beneficiary of the Indian tribe pass-through, if it met the requirements of performing law enforcement functions and agreeing to attempt to achieve compliance with the statutory mandates.

An excerpt from The U.S. Census 1980 Report on the General Characteristics for American Indian Persons on Reservations, which provides data on juvenile populations under 18 residing on Indian Reservations by state and by Indian tribe is available through OJJDP. Data on Alaskan Native Organizations is also included. In addition, the 1980 Bureau of Census data for juvenile populations under 18 by state (the figure for each state is total juvenile population under 18, and includes Indian juvenile population under 18), is available through OJJDP. Given the fact that the 1980 Census data on Indian tribe population is the most recent data available at this time, states are expected to use the comparable 1980 census data for the general youth population under 18 to compute the proportion of the pass-through for Indian tribes performing law enforcement functions. The Indian population will need to be subtracted from the total juvenile population under 18 for each state. The 1980 data will be used until the 1990 Census Report is issued and provides more current data on Indian tribe youth populations. In the event that there are Indian tribes performing law enforcement functions that do not

appear on the Bureau of Census listing, the cognizant OJJDP State Representative should be contacted for assistance in securing other population data.

9. *Comment:* In the proposed regulations, numerous references are made to Indian tribes that perform law enforcement functions. There are Alaska Natives that are recognized by the Department of the Interior as having law enforcement functions, and it is important that references and definitions include these populations.

Response: In drafting this section OJJDP used the language of the Amendments. There is no intent to exclude any tribal unit, determined by the Secretary of the Department of the Interior as performing law enforcement functions. Moreover, section 103(16) of the 1988 Amendments defines "Indian tribe" as: (A) A Federally recognized Indian tribe or (B) An Alaskan Native organization. The Department of the Interior provided the OJJDP with a listing that will be used to determine Indian tribe eligibility to receive Formula Grant funds from the State agencies. Alaskan Native organizations are included in the list. The listing is entitled, "Indian Entities Recognized and Eligible to Receive Services From the United States Bureau of Indian Affairs," published by the Bureau of Indian Affairs, U.S. Department of the Interior, December 29, 1988. This is the list of tribes eligible to receive BIA services and presumed to perform law enforcement functions, pursuant to the definition provided in paragraph § 31.301(b)(2) of this regulation. While this list is more encompassing than Indian tribes performing law enforcement functions, this is the only list available from the Department of the Interior at this time. Thus, it will be used by State Planning Agencies until revised or updated by the Department of the Interior, for purposes of determining Indian tribes eligibility for the pass-through;

10. *Comment:* One comment reflected concern about the difficulty in defining tribes that perform law enforcement functions.

Response: Section 103(6) of the Act provides the definition of law enforcement and criminal justice for the purposes of OJJDP programs. This definition includes those activities that impact on section 223(a)(12)(A), (13) and (14). Section 223(a)(5) designates the Secretary of the Department of the Interior as the authority for determining which tribes perform law enforcement functions using this definition.

No collection of information requirements are contained in or effected by this regulation (See the Paperwork Reduction Act, 44 U.S.C. 3504(h)).

Intergovernmental Review of Federal Programs

In accordance with Executive Order 12372 and the Department of Justice's implementing regulation 28 CFR part 31, states must submit formula grant applications to the State "Single Point of Contact," if one exists. The State may take up to 60 days from the application date to comment on the application.

List of Subjects in 28 CFR Part 31

Grant programs—law, Juvenile delinquency, Grant programs.

For the reasons set out in the preamble, the OJJDP Formula Grants Regulation, 28 CFR part 31, is amended as follows:

PART 31—[AMENDED]

1. The authority citation for part 31 continues to read as follows:

Authority: Juvenile Justice and Delinquency Prevention Act of 1974, as amended (42 U.S.C. 5601 et seq.).

2. Paragraphs (a) and (b) of § 31.301, are revised to read as follows:

§ 31.301 Funding.

* * * * *

(a) *Allocation to States.* Each state receives a base allocation of $325,000, and each territory receives a base allocation of $75,000 when the title II appropriation is less than $75 million (other than part D). When the title II appropriation equals or exceeds $75 million (other than part D), each state receives a base allocation of $400,000, and each territory receives a base allocation of $100,000. To the extent necessary, each state and territory's base allocation will be reduced proportionately to ensure that no state receives less than it was allocated in Fiscal Year 1988.

(b) *Funds for Local Use.* At least two-thirds of the formula grant allocation to the state (other than the section 222(d) State Advisory Group set aside) must be used for programs by local government, local private agencies, and eligible Indian Tribes, unless the State applies for and is granted a waiver by the OJJDP. The proportion of pass-through funds to be made available to eligible Indian tribes shall be based upon that proportion of the state youth population under 18 years of age who reside in geographical areas where tribes perform law enforcement functions. Pursuant to section 223(a)(5)(C) of the JJDP Act, each of the standards set forth in paragraphs (b)(1) (i) through (iii) of this section must be met in order to establish the eligibility of Indian tribes to receive pass through funds:

(1)(i) The tribal entity must be recognized by the Secretary of the Interior as an Indian tribe that performs law enforcement functions as defined in paragraph (b)(2) of this section.

(ii) The tribal entity must agree to attempt to comply with the requirements of section 223(a)(12)(A), (13), and (14) of the JJDP Act; and

(iii) The tribal entity must identify the juvenile justice needs to be served by these funds within the geographical area where the tribe performs law enforcement functions.

(2) "Law enforcement functions" are deemed to include those activities pertaining to the custody of children, including, but not limited to, police efforts to prevent, control, or reduce crime and delinquency or to apprehend criminal and delinquent offenders, and/or activities of adult and juvenile corrections, probation, or parole authorities.

(3) To carry out this requirement, OJJDP will annually provide each state with the most recent Bureau of Census statistics on the number of persons under age 18 living within the state, and the number of persons under age 18 who reside in geographical areas where Indian tribes perform law enforcement functions.

(4) Pass-through funds available to tribal entities under section 223(a)(5)(C) shall be made available within states to Indian tribes, combinations of Indian tribes, or to an organization or organizations designated by such tribe(s), that meet the standards set forth in paragraphs (b)(1) (i)–(iii) of this section. Where the relative number of persons under age 18 within a geographic area where an Indian tribe

performs law enforcement functions is too small to warrant an individual subgrant or subgrants, the state may, after consultation with the eligible tribe(s), make pass-through funds available to a combination of eligible tribes within the state, or to an organization or organizations designated by and representing a group of qualifying tribes, or target the funds on the larger tribal jurisdictions within the state.

(5) Consistent with section 223(a)(4) of the JJDP Act, the state must provide for consultation with Indian tribes or a combination of eligible tribes within the state, or an organization or organizations designated by qualifying tribes, in the development of a state plan which adequately takes into account the juvenile justice needs and requests of those Indian tribes within the state.

3. Section 31.303 is amended by adding paragraphs (f)(4)(vi) and (k); and by revising paragraph (f)(6)(iii), introductory text of (g) and paragraph (j) to read as follows:

§ 31.303 Substantive requirements.

* * * * *

(f) * * *

(4) * * *

(vi) Pursuant to section 223(a)(14) of the JJDP Act, the nonMSA (low population density) exception to the jail and lockup removal requirement described in paragraphs (f)(4) (i) through (v) of this section shall remain in effect through 1993.

* * * * *

(6) * * *

(iii)(A) Substantial compliance with section 223(a)(14) requires:

(*1*) The achievement of a 75% reduction in the number of juveniles held in adult jails and lockups after December 8, 1985; or

(*2*) That a state demonstrate it has met each of the standards set forth in paragraphs (f)(6)(iii)(A)(*2*) (*i*)–(*iv*) of this section:

(*i*) Removed all status and nonoffender juveniles from adult jails and lockups. Compliance with this standard requires that the last submitted monitoring report demonstrate that no status offender (including those accused of or adjudicated for violating a valid court order) or nonoffender juveniles were securely detained in adult jails or lockups for any length of time; or, that all status offenders and nonoffenders securely detained in adult jails and lockups for any length of time were held in violation of an enforceable state law and did not constitute a pattern or practice within the state;

(*ii*) Made meaningful progress in removing other juveniles from adult jails and lockups. Compliance with this standard requires the state to document a significant reduction in the number of jurisdictions securely detaining juvenile criminal-type offenders in violation of section 223(a)(14) of the JJDP Act; or, a significant reduction in the number of facilities securely detaining such juveniles; or, a significant reduction in the number of juvenile criminal-type offenders securely detained in violation of section 223(a)(14) of the JJDP Act; or, a significant reduction in the average length of time each juvenile criminal-type offender is securely detained in an adult jail or lockup; or, that state legislation has recently been enacted and taken effect and which the state demonstrates will significantly impact the secure detention of juvenile criminal-type offenders in adult jails and lockups;

(*iii*) Diligently carried out the state's jail and lockup removal plan approved by OJJDP. Compliance with this standard requires that actions have been undertaken to achieve the state's jail and lockup removal goals and objectives within approved timelines, and that the State Advisory Group, required by section 223(a)(3) of the JJDP Act, has maintained an appropriate involvement in developing and/or implementing the state's plan;

(*iv*) Historically expended and continues to expend an appropriate and significant share of its Formula Grant funds to comply with Section 223(a)(14). Compliance with this standard requires that, based on an average from two (2) Formula Grant Awards, a minimum of 40 percent of the program funds was expended to support jail and lockup removal programs; or that the state provides a justification which supports the conclusion that a lesser amount constituted an appropriate and significant share because the state's existent jail and lockup removal barriers did not require a larger expenditure of Formula Grant Program funds; and

(*3*) The state has made an unequivocal commitment, through appropriate executive or legislative action, to achieving full compliance within a reasonable time but in no event may such time extend beyond December 8, 1988.

(B) Full compliance is achieved when a state demonstrates that the last submitted monitoring report, covering 12 months of actual data, demonstrates that no juveniles were held in adult jails or lockups in circumstances that were in violation of section 223(a)(14).

(C) Full compliance with de minimis exceptions is achieved when a state demonstrates that it has met the standard set forth in either of paragraphs (f)(6)(iii)(C) (*1*) or (*2*) of this section:

(*1*) *Substantive De Minimis Standard.* To comply with this standard the state must demonstrate that each of the following requirements have been met:

(*i*) State law, court rule, or other statewide executive or judicial policy clearly prohibits the detention or confinement of all juveniles in circumstances that would be in violation of section 223(a)(14);

(*ii*) All instances of noncompliance reported in the last submitted monitoring report were in violation of or departures from, the state law, rule, or policy referred to in paragraph (f)(6)(iii)(C)(*1*)(*i*) of this section;

(*iii*) The instances of noncompliance do not indicate a pattern or practice but rather constitute isolated instances;

(*iv*) Existing mechanisms for the enforcement of the state law, rule or policy referred to in paragraph (f)(6)(iii)(C)(*1*)(*i*) of this section are such that the instances of noncompliance are unlikely to recur in the future; and

(*v*) An acceptable plan has been developed to eliminate the noncompliant incidents and to monitor the existing mechanism referred to in paragraph (f)(6)(iii)(C)(*1*)(*iv*) of this section.

(*2*) *Numerical De Minimis Standard.* To comply with this standard the state must demonstrate that each of the following requirements under paragraphs (f)(6) (iii)(C)(*2*) (*i*) and (*ii*) of this section have been met:

(*i*) The incidents of noncompliance reported in the state's last submitted monitoring report do not exceed an annual rate of 9 per 100,000 juvenile population of the state;

(*ii*) An acceptable plan has been developed to eliminate the noncompliant incidents through the enactment or enforcement of state law, rule, or statewide executive or judicial policy, education, the provision of alternatives, or other effective means.

(*iii*) Exception. When the annual rate for a state exceeds 9 incidents of noncompliance per 100,000 juvenile population, the state will be considered ineligible for a finding of full compliance with de minimis exceptions under the numerical de minimis standard unless the state has recently enacted changes in state law which have gone into effect and which the state demonstrates can reasonably be expected to have a substantial, significant and positive impact on the state's achieving full (100%) compliance or full compliance with de minimis exceptions by the end

of the monitoring period immediately following the monitoring period under consideration.

(*iv*) Progress. Beginning with the monitoring report due by December 31, 1990, any state whose prior full compliance status is based on having met the numerical de minimis standard set forth in paragraph (f)(6)(iii)(C)(*2*)(*i*) of § 31.303, must annually demonstrate, in its request for a finding of full compliance with de minimis exceptions, continued and meaningful progress toward achieving full (100%) compliance in order to maintain eligibility for a continued finding of full compliance with de minimis exceptions.

(*v*) Request Submission. Determinations of full compliance and full compliance with de minimis exceptions are made annually by OJJDP following submission of the monitoring report due by December 31 of each calendar year. Any state reporting less than full (100%) compliance in any annual monitoring report may request a finding of full compliance with de minimis exceptions under paragraph (f)(6)(iii)(C) (*1*) or (*2*) of this section. The request may be submitted in conjunction with the monitoring report, as soon thereafter as all information required for a determination is available, or be included in the annual state plan and application for the state's Formula Grant Award.

(D) *Waiver.* (*1*) Failure to achieve substantial compliance as defined in this section shall terminate any state's eligibility for Formula Grant funds unless the Administrator of OJJDP waives termination of the state's eligibility. In order to be eligible for a waiver of termination, a state must submit a waiver request which demonstrates that it meets the standards set forth in paragraph (f)(6)(iii)(D)(*1*) (*i*)–(*v*) of this section:

(*i*) Agrees to expend all of its Formula Grant Award except planning and administration, advisory group set aside, and Indian-tribe pass-through funds, to achieve compliance with section 223(a)(14); and

(*ii*) Diligently carried out the state's jail and lockup removal plan as set forth in paragraph (f)(6)(iii)(A)(*2*)(*iii*) of this section; and

(*iii*) Submitted an acceptable plan, based on an assessment of current jail and lockup removal barriers within the state, to eliminate noncompliant incidents; and

(*iv*) Achieved compliance with section 223(a)(15) of the JJDP Act; and

(*v*) Demonstrates a commitment, through appropriate executive or legislative action, to achieving full compliance.

(*2*) Failure to achieve full compliance as defined in this section shall terminate any state's eligibility for Formula Grant funds unless the Administrator of OJJDP waives termination of the state's eligibility. In order to be eligible for this waiver of termination, a state must request a waiver and demonstrate that it meets the standards set forth in paragraphs (f)(6)(iii)(D)(*2*) (*i*)–(*vii*) of this section:

(*i*) Agrees to expend all of its Formula Grant Award except planning and administration, advisory group set aside, and Indian tribe pass-through funds, to achieve compliance with section 223(a)(14); and

(*ii*) Removed all status and nonoffender juveniles from adult jails and lockups as set forth in paragraph (f)(6)(iii)(A)(*2*)(*i*) of this section; and

(*iii*) Made meaningful progress in removing other juveniles from adult jails and lockups as set forth in paragraphs (f)(6)(iii)(A)(*2*)(*ii*) of this section; and

(*iv*) Diligently carried out the state's jail and lockup removal plan as set forth in paragraph (f)(6)(iii)(A)(*2*)(*iii*) of this section; and

(*v*) Submitted an acceptable plan, based on an assessment of current jail and lockup removal barriers within the state, to eliminate noncompliant incidents; and

(*vi*) Achieved compliance with section 223(a)(15) of the JJDP Act; and

(*vii*) Demonstrates a commitment, through appropriate executive or legislative action, to achieving full compliance.

(E) Waiver Maximum. A state may receive a waiver of termination of eligibility from the Administrator under paragraph (f)(6)(iii)(D) (*1*) and (*2*) of this section for a combined maximum of three Formula Grant Awards. No additional waivers will be granted.

* * * * *

(g) Juvenile Crime Analysis. Pursuant to section 223(a)(8) (A) and (B), the state must conduct an analysis of juvenile crime problems, including juvenile gangs that commit crimes, and juvenile justice and delinquency prevention needs within the state, including those geographical areas in which an Indian tribe performs law enforcement functions.

* * * * *

(j) Minority Detention and Confinement. Pursuant to section 223(a)(23) of the JJDP Act, states must address efforts to reduce the proportion of juveniles detained or confined in secure detention facilities, secure correctional facilities, jails and lockups who are members of minority groups if such proportion exceeds the proportion such groups represent in the general population, viz., youth at risk for secure confinement. It is important for states to approach this in a comprehensive manner. Compliance with this provision is achieved when a state has met the requirements set forth in paragraphs (j) (1)–(3) of this section:

(1) Provide documentation in the State Plan Juvenile Crime Analysis to indicate whether minority juveniles are disproportionately detained or confined in secure detention or correctional facilities, jails, or lockups in relation to their proportion of the at risk youth population;

(2) Where documentation is unavailable, or demonstrates that minorities are disproportionately detained or confined in relation to their proportion in the at risk youth population, states must provide a strategy for addressing the disproportionate representation of minority juveniles in the juvenile justice system, including but not limited to:

(i) Assessing the differences in arrest, diversion, and adjudication rates, court dispositions other than incarceration, and the rates and periods of commitment to secure facilities of minority youth and non-minority youth in the juvenile justice system;

(ii) Increasing the availability and improving the quality of diversion programs for minorities who come in contact with the juvenile justice system such as police diversion programs;

(iii) Providing support for prevention programs in communities with a high percentage of minority residents with emphasis upon support for community-based organizations that serve minority youth;

(iv) Providing support for reintegration programs designed to facilitate reintegration and reduce recidivism of minority youths;

(v) Initiate or improve the usefulness of relevant information systems and disseminate information regarding minorities in the juvenile justice system.

(3) Each state is required to submit a supplement to the 1988 Multi-Year Plan for addressing the extent of disproportionate representation of minorities in the juvenile justice system. This supplement, which will be submitted as a component of the 1989 Formula Grant Application and Multi-Year Plan Update, must include the state's assessment of disproportionate minority representation, and a workplan for addressing this issue programmatically. Where data is insufficient to make a complete assessment, the workplan must include provisions for improving the information

collection systems. The workplan, once approved by OJJDP, is to be implemented as a component of the state's 1990 Formula Grant Plan.

(4) For purposes of this plan requirement, minority populations are defined as members of the following groups: Asian Pacific Islanders; Blacks; Hispanics; and, American Indians.

(k) Pursuant to section 223(a)(24) of the JJDP Act, states shall agree to other terms and conditions as the Administrator may reasonably prescribe to assure the effectiveness of programs assisted under the Formula Grant.

OJJDP Formula Grants Regulation

AGENCY: Office of Justice Programs, Office of Juvenile Justice and Delinquency Prevention.

ACTION: Proposed rule and request for public comment.

SUMMARY: The Office of Juvenile Justice and Delinquency Prevention (OJJDP) is publishing for public comment proposed amendments to the existing Formula Grants Regulation. The Formula Grants Regulation implements Part B of Title II of the Juvenile Justice and Delinquency Prevention (JJDP) Act of 1974, as amended by the Juvenile Justice and Delinquency Prevention Amendments of 1992. The 1992 Amendments reauthorize and modify the Federal assistance program to state and local governments, and private not-for-profit agencies for juvenile justice and delinquency prevention improvements. The proposed amendments to the existing Regulation provides clarification and guidance to States in the formulation, submission and implementation of State Formula Grant plans and determinations of State compliance with plan requirements. It provides additional flexibility and guidance to participating States while strengthening several key provisions related to the mandates of the JJDP Act.

DATES: Interested persons are invited to submit written comments which must be received on or before September 8, 1994.

ADDRESSES: Address all comments to Mr. John J. Wilson, Acting Administrator, Office of Juvenile Justice and Delinquency Prevention (OJJDP), 633 Indiana Avenue NW., room 742, Washington, DC 20531.

FOR FURTHER INFORMATION CONTACT: Ms. Roberta Dorn, Director, State Relations and Assistance Division, Office of Juvenile Justice and Delinquency Prevention (OJJDP), 633 Indiana Avenue NW., room 543, Washington, DC 20531; (202) 307–5924.

SUPPLEMENTARY INFORMATION: The Office of Juvenile Justice and Delinquency Prevention is proposing revisions to the existing Regulation, codified at 28 CFR Part 31, and inviting public comment on the proposed changes. The proposed changes in the regulatory text accomplish the following:

(1) continue the authority citation for the regulation;

(2) revise § 31.3 to establish a mandatory deadline for the submission of State Formula Grant applications;

(3) revise § 31.102 to provide that the State agency must, at a minimum, assign one full-time Juvenile Justice Specialist to manage the Formula Grants Program;

(4) revise § 31.301 to provide for statutory changes in the base allocation for States and Territories;

(5) revise § 31.303(e)(3) to modify the requirements for a facility located within the same building or on the same grounds as an adult jail or lockup to qualify as a separate juvenile detention facility;

(6) delete § 31.303(c)(3) and (e)(4) related to substantial compliance with the deinstitutionalization of status offenders (DSO) and jail and lockup removal requirements respectively, and section 31.303(d)(2) related to progress toward compliance with the separation provision;

(7) revise § 31.303(d)(1) to provide for statutorily required enhanced separation requirements;

(8) revise § 31.303(f)(3)(iv) to provide that a status offender alleged or found in a judicial hearing to have violated a valid court order may be held in a secure juvenile detention or correctional facility and not in an adult jail or lockup. This proposed revision, based on the 1992 Amendments, is effective for, and must be reflected in, State monitoring reports due by December 31, 1994, and subsequent monitoring reports;

(9) revise § 31.303(f)(3) to require that status offenders receive the full due process protections guaranteed by the Constitution prior to the issuance of a court order regulating future behavior, and that prior to a secure dispositional placement of a status offender found to have violated a valid court order, the court must review and consider a report on possible dispositional alternatives for the youth, the report to be prepared by a public agency or organization other than a court or law enforcement agency;

(10) revise § 31.303(f)(4) to provide for expansion of the non-MSA exception to jail and lockup removal to address adverse weather and distance/lack of ground transportation;

(11) revise § 31.303 (f)(5) to require that States must, in completing their annual monitoring report, report as violations of the section 223(a)(12)(A) deinstitutionalization requirement the number of status offenders (including those status offenders accused of violating a valid court order) and nonoffenders held in secure custody in an adult jail or lockup for any length of time. This proposed policy-based revision is effective for, and must be reflected in, State monitoring reports due by December 31, 1995, and subsequent monitoring reports;

(12) delete § 31.303(f)(6)(iii)(A) related to substantial compliance with the jail and lockup removal requirement and redesignate subsequent paragraphs;

(13) revise § 31.303(f)(6)(iii)(C), as redesignated, to allow States that have reduced the number of status and nonoffenders securely detained or confined in jails and lockups to less than 9 per 100,000 juvenile population in the State, and can demonstrate meaningful progress in removing juvenile criminal-type offenders, to qualify for a waiver of termination for annual fund allocations through Fiscal Year 1993, when full compliance with the jail and lockup removal requirement has not been achieved. This section is also revised to require that a State seeking a waiver of termination demonstrate an "unequivocal" commitment to achieving full compliance;

(14) revise § 31.303(f)(6)(iii)(D), as redesignated, to increase the maximum number of waivers that may be granted to a State from three to four;

(15) revise § 31.303(f)(6) to provide that failure to comply with the subsection (a)(12)(A), (13), (14) or (23) mandates for any fiscal year beginning with 1994, will result in the State's Formula Grant allocation being reduced by 25% for each such failure;

(16) revise § 31.303(h) to require the submission of annual performance reports by June 30, beginning with calendar year 1995; and

(17) revise § 31.303(j) to enhance State requirements for demonstrating compliance with the section 223(a)(23) mandate on disproportionate minority confinement, and to establish timelines for compliance.

Application Deadline

Section 31.1 currently requires that Formula Grant applications and related plans or plan updates for each fiscal year should be submitted to OJJDP by August 1st (60 days prior to the beginning of the fiscal year) or within 60 days after States are officially notified of each fiscal year's Formula Grants Program allocation.

A number of States have submitted applications sufficiently late in recent fiscal years to impede orderly and timely application processing by OJJDP. This has resulted in an increased number of special conditions and a need for time consuming follow-up by State Relations and Assistance Division staff.

The submission requirement would be changed to require that Fiscal Year 1995 applications and all subsequent applications shall be submitted to OJJDP no later than March 31 of the fiscal year for which the funds were allocated. This submission date would allow OJJDP adequate time to conduct a full review of each State's plan or plan update, give States the opportunity to address any deficiencies in the application, plan or plan update, or budget prior to award, and assure complete application processing and award of funds prior to the end of the fiscal year.

State Agency Structure—Staffing

In addition to the current "adequate staff" requirement of § 31.102 for the State agency administering Formula Grant funds, the Regulation is revised to provide that a participating State agency must, at a minimum, assign one full-time Juvenile Justice Specialist to manage the Formula Grants Program. OJJDP's experience indicates that the complexity of the Formula Grants program justifies the attention of at least one full-time Juvenile Justice Specialist in each State to perform and oversee required planning and administration activities including: developing, announcing, competing, packaging, awarding, evaluating, and overseeing subawards, developing programs to address disproportionate minority confinement issues and provide for effective use of Indian tribe pass-through funds; providing for program and project monitoring; playing a central role in preparing the three year program plan and annual plan update; providing staff support to the State supervisory board and/or the State advisory group; and overseeing the reporting of State progress in achieving and maintaining compliance with the deinstitutionalization, separation, adult jail and lockup removal, and disproportionate minority confinement requirements.

Funding—Allocation to States

Section 222(a) provides for a "floating minimum" for the allocation of formula grants to States and Territories that is tied to the total appropriation level for Title II in a given fiscal year. For Fiscal Year 1993, the total appropriation for Title II of the JJDP Act (other than Parts D and E) was less than $75 million. As a result, the "floating minimum" formula grant allocation for any State was legislatively established at a minimum of $325,000 and a maximum of $400,000 for States, and $75,000 and $100,000 for Territories, with no State or Territory receiving less than its Fiscal Year 1992 allocation. The Congressionally stated purpose of this formula was to increase the funds available to the minimum allocation States and Territories. In order to ensure that this Congressional intent is maximized, the Fiscal Year 1993 formula grant allocations held the non-minimum States and Territories at their Fiscal Year 1992 funding levels, allocating the increased Fiscal Year 1993 formula grant funds to the minimum States and Territories on a prorata basis.

For Fiscal Year 1994, the total appropriation for Title II (other than Part D) exceeds the $75 million threshold. Consequently, the "floating minimum" formula grant allocation for any State in Fiscal Year 1994 is established at a minimum of $400,000 and a maximum of $600,000. OJJDP proposes to implement the amended language in Section 222(a)(2)(B) to provide for a minimum allocation of $600,000, based on fund availability: "* * * not less than $400,000, or such greater amount, up to $600,000, as is available to be allocated * * *" All non-minimum States will also receive an increased formula grant allocation in Fiscal Year 1994.

Proposed State formula grant allocations for Fiscal Years 1993 and 1994 have been provided to all States and Territories. The precise procedure used by the budget staff of the Office of Justice Programs to calculate State formula grant allocations is available upon request.

Collocated Juvenile and Adult Facilities

Section 223(a)(14) of the JJDP Act requires that juveniles be removed from adult jails and lockups. OJJDP policy No. 91–1401, July 16, 1991, sought to clarify the existing OJJDP regulatory requirements for establishing the existence of a separate juvenile detention facility where such facility is located in the same building or on the same grounds as an adult jail or lockup.

OJJDP's initial policy on collocated juvenile and adult facilities was established by an OJJDP "Position Statement on Minimum Requirements of Section 223(a)(14) of the Juvenile Justice and Delinquency Prevention Act, as amended," which was published as a Notice in the **Federal Register** on January 17, 1984. Four criteria were established in that policy publication, each of which had to be met to ensure the requisite separateness of juvenile and adult facilities. The criteria were subsequently incorporated into the Formula Grants regulation the following year (See 50 FR 119, 25550–25561, June 20, 1985). The July 16, 1991 OJJDP policy reiterated each of the four criteria, and sought to clarify a number of specific implementation mechanisms that would be acceptable to OJJDP while remaining within the parameters of each criterion.

The clarifications in OJJDP Policy No. 91–1401 have been the subject of continued concern and controversy in the juvenile justice community. In addition, the 1992 Amendments substantially revise one of the four criteria (separate staff) for determining whether a separate juvenile detention facility exists. For these reasons, the Administrator deems it essential to provide interested parties with an opportunity to comment on each of the four collocated facility criteria.

In formulating the four criteria initially, and in providing additional policy clarification, OJJDP recognized a need to distinguish an optimal system, where a juvenile detention center would never be collocated with an adult jail or lockup, from a system where States can use collocated facilities that meet the regulatory requirements for a separate facility by creating and maintaining an atmosphere that is appropriate and conducive to the care of alleged juvenile criminal-type offenders who require a secure detention environment. Given the limited level of funds available to States under the Formula Grants program, and the need to expend these funds to address a variety of priorities and needs identified in the JJDP Act and State plans, OJJDP has sought to provide States with sufficient flexibility to achieve and maintain compliance with JJDP Act mandates while, at the same time, addressing needed delinquency prevention and other system improvement initiatives.

The proposed regulation clarifies the four criteria by providing that: (1) Total separation in spatial areas of juvenile and adult facilities can be achieved by providing for no common use areas or by time-phasing common use areas, provided that the arrangement precludes even haphazard or accidental contact between juvenile and adult residents and adult facility staff at all times and provided that time-phasing of common use areas cannot extend to sleeping or living areas. Under either approach to total separation, written operational plans, policies and procedures must be in place to insure that the objective of total separation is achieved; (2) total separation in juvenile and adult program activities requires the formulation of an independent and comprehensive operational plan for the juvenile facility which provides a full range of separate program activities for juveniles. While program space, equipment and resources may be shared

by both juvenile and adult facility populations subject to the requirements of total separation in spatial areas, the key feature of this policy is the express requirement that the juvenile population receive a full range of services in circumstances where collocation of facilities is approved; (3) separate juvenile and adult staff—management, security and direct care—is essential to the maintenance of an appropriate atmosphere for the care of juveniles in detention. The regulation distinguishes between staff who routinely have day-to-day direct care responsibility for juveniles and specialized service staff not normally in contact with detainees. For security and direct care staff (including management), the 1992 Amendments require that these functions be vested in totally separate staff. This requirement is designed to ensure that a facility's security and direct care staff are both well qualified to serve, and appropriately focused on, the needs of the juvenile population while providing juvenile facility services; (4) in States that have standards or licensing requirements for secure juvenile detention facilities, a collocated facility must meet the standards (on the same basis as separate facilities) and be licensed as appropriate. The proposed regulation establishes an express requirement that a responsible State authority must certify that State standards and licensing requirements have been met and that the architectural configuration and operational procedures and policies of the facility assure total separation between juvenile detention center and adult facility populations.

OJJDP intends these clarifications to strengthen the four requirements for a separate facility and to establish reliable parameters for States completing final steps to achieve and maintain full compliance with the jail and lockup removal requirement. The regulatory language committing OJJDP to the "rule of reason" represents a further attempt to place the collocated facility criteria in perspective. Finally, States are reminded of their oversight responsibility to insure that the separate character of any collocated juvenile detention facility is fully maintained following its classification as a separate juvenile detention facility. The 1992 Amendments require States to reassess the separate staff criterion in all collocated facilities, including those classified as such by the State and concurred with by OJJDP prior to the effective date of this proposed regulation.

OJJDP's original policy on collocated facilities was designed to accommodate a small number of existing juvenile detention facilities. However, several States have used the policy and regulation to create a network of collocated juvenile detention facilities in rural areas as county or regional detention facilities in lieu of establishing dedicated county or regional juvenile detention facilities. Consequently, and because OJJDP does not believe either that building or establishing collocated facilities in urban areas can be justified or that States should rely upon collocated facilities as a primary or long-term strategy for achieving and maintaining compliance with the jail and lockup removal mandate in rural areas, OJJDP proposes to limit future approval of collocated facilities to those that are outside a Standard Metropolitan Statistical Area (SMSA), are operational or planned such that a determination of compliance with the criteria can be made, and have been determined by the State (with subsequent OJJDP concurrence) to meet each of the four criteria, by December 31, 1994.

Criteria for Compliance With DSO, Adult Jail and Lockup Removal, Separation, and Minority Overrepresentation

The proposed regulation deletes the "substantial compliance criteria" from § 31.303(c)(3) and (e)(4) of the regulation. Pursuant to the 1992 Amendments, all eligible States and territories are required to be in full compliance with the DSO and Jail and Lockup Removal requirements in order to be eligible for FY 1994 Formula Grant funds. Also, States must demonstrate compliance with the enhanced Separation and Disproportionate Minority Confinement mandates in order to be eligible for 1994 funds. Therefore, the regulatory provision recognizing "progress" toward compliance with the Separation mandate is being deleted. Also, enhanced criteria and specific timelines would be established for the Disproportionate Minority Confinement Mandate. OJJDP would use these criteria and timelines to determine if States have demonstrated compliance with the Minority Overrepresentation Mandate.

Deinstitutionalization of Status Offenders

Revisions are proposed to the valid court order exception and monitoring report requirements related to the deinstituionalization of status offenders and nonoffenders requirement (DSO) [section 223(a)(12)(A)]. These changes are designed to bring the DSO requirement in line with the section 223(a)(14) Jail and Lockup Removal requirement. Currently, the regulatory DSO exceptions for valid court order violations [28 CFR 31.303(f)(3)] and the 24-hour monitoring report exception for detention of status and nonoffender juveniles [28 CFR 31.303(f)(5)] do not prohibit the use of adult jails and lockups for status offenders who violate a valid court order or for status or nonoffender juveniles held in secure custody pursuant to the 24-hour monitoring exception. This anomaly, which resulted from the separate years in which these requirements became law (1974 and 1980, respectively), is being addressed to reflect OJJDP's determination that there are no longer any circumstances in which the secure custody of noncriminal juveniles in adult jails and lockups can be justified or sanctioned. To the extent that inadvertent or isolated violations occur, or where violations result from emergency situations, the de minimis criteria for full compliance should continue to provide sufficient latitude to permit States to maintain full compliance with the DSO requirement. Monitoring information to reflect these changes must be included in the State Monitoring Report due by December 31, 1995, and subsequent monitoring reports.

Waiver of Termination—Criteria and Number

The criteria for a waiver of termination when a State has failed to achieve full compliance, or full compliance with de minimis exceptions with the jail and lockup removal requirement, were established by regulation in § 31.303(f)(6) in 1989. Section 223(c)(3) of the JJDP Act provided that a State's failure to achieve compliance with the jail and lockup removal requirement "* * * shall terminate any State's eligibility for funding unless the Administrator waives the termination of the State's eligibility on the condition that the State agrees to expend all of the funds to be received under this part by the State, [with specific exceptions] only to achieve compliance with subsection (a)(14)."

OJJDP established seven regulatory criteria to be satisfied by a State requesting a waiver. OJJDP's premise, based on Congressional guidance, was that

"A State which satisfies these standards qualifies for a waiver on the basis that: (1) It has made significant progress to date; and (2) additional funding is likely to produce further

progress toward compliance (54 FR 14769, April 12, 1989).

The seven criteria, set forth at 28 CFR 31.303(f)(6)(iii)(D)(*2*), provide that a State requesting a waiver must demonstrate that it:

(*i*) Agrees to expend all of its Formula Grant Award except planning and administration, advisory group set aside, and Indian tribe pass-through funds, to achieve compliance with section 223(a)(14); and

(*ii*) Removed all status and nonoffender juveniles from adult jails and lockups as set forth in paragraph (f)(6)(iii)(A)(2)(*i*) of this section; and

(*iii*) Made meaningful progress in removing other juveniles from adult jails and lockups as set forth in paragraph (f)(6)(iii)(A)(2)(*ii*) of this section; and

(*iv*) Diligently carried out the State's jail and lockup removal plan as set forth in paragraph (f)(6)(iii)(A)(2)(*iii*) of this section; and (*v*) Submitted an acceptable plan, based on an assessment of current jail and lockup removal barriers within the State, to eliminate noncompliant incidents; and

(*vi*) Achieved compliance with section 223(a)(15) of the JJDP Act; and

(*vii*) Demonstrated a commitment, through appropriate executive or legislative action, to achieving full compliance.

The reference in (*ii*) above, is to regulatory provisions implementing the former "substantial compliance" standard, which reads as follows:

(*i*) Removed all status and nonoffender juveniles from adult jails and lockups. Compliance with this standard requires that the last submitted monitoring report demonstrate that no status offender (including those accused of or adjudicated for violating a valid court order) or nonoffender juveniles were securely detained in adult jails or lockups for any length of time; or, that all status offenders and nonoffenders securely detained in adult jails and lockups for any length of time were held in violation of an enforceable state law and did not constitute a pattern or practice within the state.

Currently, several States have not been awarded their FY 1992 and/or FY 1993 funds because they cannot meet criterion (*ii*) for receiving a waiver. While the numbers of status and nonoffenders are typically small, these States either lack an enforceable State law which would prohibit any violations or the State has been unable to demonstrate that the violations do not constitute a pattern or practice within the State. OJJDP does not believe that the practice of detaining status or nonoffender juveniles in adult jails or lockups is acceptable or that States should in any way sanction or permit such a practice. However, OJJDP also has to weigh the detriment that will occur if States which are close to achieving full compliance are deprived of a significant means of obtaining that important goal through the application of criteria that are inflexible.

Consequently, OJJDP proposes to modify criterion (*ii*) to provide that States can meet the standard by demonstrating that the number of status offenders (including valid court order violators) and nonoffenders securely detained in adult jails and lockups is less than the numerical de minimis rate of 9 per 100,000 juvenile population in the State. This provision is balanced by the addition in criterion (*vii*) of a requirement that the State demonstrate an *unequivocal* commitment, *through appropriate executive or legislative action*, to achieving full compliance, and the proposed change in the monitoring exception for DSO to prohibit placing a status or nonoffender juvenile in an adult jail or lockup for any length of time. The proposed revisions should provide these few remaining States with a reasonable opportunity to achieve full compliance without a loss of Formula Grant Program funds while, at the same time, reiterating the Congressional mandate that adult jails and lockups are inappropriate places in which to securely detain children who have committed no criminal law violation.

Finally, OJJDP proposes to increase the maximum number of waivers of termination from three to four. There are several States that may need to receive a fourth waiver in order to be eligible for a Fiscal Year 1992 or 1993 Formula Grant Award.

Executive Order 12866

This notice is not a "significant regulatory action" for purposes of Executive Order 12886 because it does not result in: (1) an annual effect on the economy of $100 million or more or adversely affect in a material way the economy, a sector of the economy, productivity, competition, jobs, the environment, public health or safety, or state, local or tribal governments or communities; (2) create a serious inconsistency or otherwise interfere with action taken or planned by another agency; (3) materially alter the budgetary impact of entitlements, grants, user fees, or loan programs or the rights and obligations of recipients thereof; and (4) does not raise novel legal or policy issues arising out of legal mandates, the President's priorities or the principles of Executive Order No. 12866.

Regulatory Flexibility Act

This proposed regulation, if promulgated, will not have a "significant" economic impact on a substantial number of small "entities," as defined by the Regulatory Flexibility Act (Pub.L. 96–354).

Paperwork Reduction Act

No collection of information requirements are contained in or effected by this regulation (See the Paperwork Reduction Act, 44 U.S.C. 3504(H)).

Intergovernmental Review of Federal Programs

In accordance with Executive Order 12372 and the Department of Justice's implementing regulation 28 CFR Part 30, States must submit Formula Grant Program applications to the State "Single Point of Contact," if one exists. The State may take up to 60 days from the application date to comment on the application.

Lists of Subjects in 28 CFR Part 31

Grant programs—law, juvenile delinquency, grant programs. For the reasons set forth in the preamble, it is proposed to amend the OJJDP Formula Grants Regulation, 28 CFR Part 31, as follows:

PART 31—[AMENDED]

1. The authority citation for Part 31 would continue to read as follows:

Authority: Juvenile Justice and Delinquency Prevention Act of 1974, as amended (42 U.S.C. 5601 et seq.).

2. Section 31.3 is revised to read as follows:

§ 31.3 General.

Formula Grant Applications for each fiscal year should be submitted to OJJDP by August 1 (60 days prior to the beginning of the fiscal year) or within 60 days after the States are officially notified of the fiscal year formula grant allocations. Beginning with Fiscal Year 1995 and each subsequent fiscal year, all Formula Grant Applications must be submitted no later than March 31 of the fiscal year for which the funds are allocated.

3. Section 31.101 is revised to read as follows:

§ 31.101 Designation of State agency.

The Chief Executive of each State which chooses to apply for a formula grant shall establish or designate a State agency as the sole agency for supervising the preparation and

administration of the plan. The plan must demonstrate compliance with administrative and supervisory board membership requirements established by the OJJDP Administrator pursuant to section 299(c) of the JJDP Act. States must have available for review a copy of the State law or executive order establishing the State agency and its authority.

4. Section 31.102(c) is amended by adding the following sentence at the end thereof:

§ 31.102 State agency structure.

(c) * * * At a minimum, one full-time Juvenile Justice Specialist must be assigned to the Formula Grants Program by the State agency. Where the State does not currently provide or maintain a full-time Juvenile Justice Specialist, the plan must clearly establish and document that the program and administrative support staff resources currently assigned to the program will temporarily meet the adequate staff requirement, and provide an assurance that at least one full-time Juvenile Justice Specialist will be assigned to the Formula Grants Program by the end of Fiscal Year 1995 (September 30, 1995).

5. Section 31.203 is revised to read as follows:

§ 31.203 Open meetings and public access to records.

The State must assure that the State agency, its supervisory board established pursuant to section 299(c) and the State advisory group established pursuant to section 223(a)(3) will follow applicable State open meeting and public access laws and regulations in the conduct of meetings and the maintenance of records relating to their functions.

6. Section 31.301 (a), (c), (d), and (e) is revised to read as follows:

§ 31.301 Funding.

(a) *Allocation to states.* Funds shall be allocated annually among the States on the basis of relative population of persons under age 18. If the amount allocated for title II (other than Parts D and E) of the JJDP Act is less than $75 million, the amount allocated to each State will not be less than $325,000, nor more than $400,000, provided that no State receives less than its allocation for Fiscal Year 1992. The Territories will receive not less than $75,000 or more than $100,000. If the amount appropriated for title II (other than Part D) is $75 million or more, the amount allocated for each State will be not less than $400,000, nor more than $600,000, provided that Parts D and E have been funded in the full amounts authorized. For the Territories, the amount remains at $100,000.

* * * * *

(c) *Match.* Formula Grants under the JJDP Act shall be 100% of approved costs, with the exception of planning and administration funds, which require a 100% cash match (dollar for dollar), and construction projects funded under section 299C (a)(2) of the JJDP Act which also require a 100% cash match.

(d) *Funds for administration.* Not more than 10% of the total annual Formula Grant award may be utilized to develop the annual juvenile justice plan and pay for administrative expenses, including project monitoring. These funds are to be matched on a dollar for dollar basis. The State shall make available needed funds for planning and administration to units of local government on an equitable basis. Each annual application must identify uses of such funds.

(e) *Nonparticipating States.* Pursuant to section 223(d), the OJJDP Administrator shall endeavor to make the fund allotment under section 222(a), of a State which chooses not to participate or loses its eligibility to participate in the formula grant program, directly available to local public and private nonprofit agencies within the nonparticipating State. The funds may be used only for the purpose(s) of achieving deinstitutionalization of status offenders and nonoffenders, separation of juveniles from incarcerated adults, removal of juveniles from adult jails and lockups, and/or reducing the disproportionate confinement of minority youth in secure facilities. Absent a request for extension which demonstrates compelling circumstances justifying the reallocation of formula grant funds back to the State to which the funds were initially allocated, or the pendency of administrative hearing proceedings under section 223(d), formula grant funds allocated to a State which has failed to submit an application, plan, or monitoring data establishing its eligibility for the funds will, beginning with Fiscal Year 1994, be reallocated to the nonparticipating State program on September 30 of the fiscal year for which the funds were appropriated. Reallocated funds will be awarded to eligible recipients pursuant to program announcements published in the **Federal Register.**

7. Section 31.302 (a) and (b)(2) is amended to read as follows:

§ 31.302 Applicant State agency.

(a) Pursuant to section 223(a)(1), section 223(a)(2) and section 299(c) of the JJDP Act, the State must assure that the State agency approved under section 299(c) has been designated as the sole agency for supervising the preparation and administration of the plan and has the authority to implement the plan.

(b) * * *

(2) Should consider in meeting the statutory membership requirements and responsibilities of section 223(a)(3) (A)–(E), appointing at least one member who represents each of the following: a locally elected official representing general purpose local government; a law enforcement officer; a juvenile or family court judge; a probation officer; a juvenile corrections official; a prosecutor; a representative from an organization, such as a parents group, concerned with teenage drug and alcohol abuse; a high school principal; a recreation director; a volunteer who works with delinquent or at risk youth; a person with a special focus on the family; a youth worker experienced with programs that offer alternatives to incarceration; persons with special competence in addressing programs of school violence and vandalism and alternatives to expulsion and suspension; and, persons with special knowledge concerning learning disabilities, child abuse, neglect and youth violence.

8. Section 31.303 (a) and (b) is revised to read as follows:

§ 31.303 Assurances.

(a) Assurances. The State must certify through the provision of assurances that it has complied and will comply (as appropriate) with section 223(a) (1), (2), (3), (4), (5), (6), (7), (8)(c), (9), (10), (11), (16), (17), (18), (19), (20), (21), (22), and (25), and sections 229 and 261(d), in formulating and implementing the State plan. The Formula Grant Application kit provides a form and guidance for the provision of assurances. OJJDP interprets the 223(a)(16) assurance as satisfied by an affirmation that State law and/or policy clearly require equitable treatment on the required bases; or by providing in the State plan that the State agency will require an assurance of equitable treatment by all Formula Grant subgrant and contract recipients, and establish as a program goal, in conjunction with the State Advisory Group, the adoption and implementation of a statewide juvenile justice policy that all youth in the juvenile justice system will be treated equitably without regard to gender, race, family income, and mentally, emotionally, or physically handicapping conditions. OJJDP interprets the 223(a)(25) assurance as satisfied by a provision in the State plan for the State agency and the State Advisory Group to

[Part 3 — p. 40]

promulgate policies and budget priorities that require the funding of programs that are part of a comprehensive and coordinated community system of services as set forth in section 103(19) of the JJDP Act. This requirement is applicable when a State's formula grant for any fiscal year exceeds 105 percent of the State's formula grant for Fiscal Year 1992.

(b) Serious juvenile offender emphasis. Pursuant to sections 101(a)(10) and 223(a)(10) of the JJDP Act, the Office encourages States that have identified serious and violent juvenile offenders as a priority problem to allocate formula grant funds to programs designed for serious and violent juvenile offenders at a level consistent with the extent of the problem as identified through the State planning process. Particular attention should be given to improving prosecution, sentencing procedures, providing resources necessary for informed dispositions, providing for effective rehabilitation, and facilitating the coordination of services between the juvenile justice and criminal justice systems.

9. Section 31.301 is amended by revising paragraph (c)(3) to read as follows:

§ 31.301 Federal Wards.

(c) * * *

(3) Apply this requirement to alien juveniles under Federal jurisdiction who are held in State or local facilities.

* * * * *

10. Section 31.303 is amended by revising paragraph (c)(4) to read as follows:

§ 31.303 DSO Compliance.

(c) * * *

(4) Those States which, based upon the most recently submitted monitoring report, have been found to be in full compliance with section 223(a)(12)(A) may, in lieu of addressing paragraphs (c)(1) and (2) of this section, provide an assurance that adequate plans and resources are available to maintain full compliance.

* * * * *

11. Section 31.303 is amended by revising paragraphs (d)(1) (i) and (ii) to read as follows:

Section § 31.303 Separation

(d) * * *

(1) * * *

(i) Describe its plan and procedure, covering the three-year planning cycle, for assuring that the requirements of this section are met. The term "contact" is defined to include any sight and sound contact between juveniles in a secure custody status and incarcerated adults, including inmate trustees. Sound contact is further defined to mean that no conversation is possible. Separation must be accomplished in all secure areas of the facility which include, but are not limited to: sallyports within the secure perimeter of the facility, other entry areas, all passageways (hallways), admissions, sleeping, toilet and shower, dining, recreational, educational, vocational, health care, and other areas as appropriate.

(ii) In those instances where accused juvenile criminal-type offenders are authorized to be temporarily detained in facilities where adults are confined, the State must set forth the procedures for assuring no sight or sound contact between such juveniles and confined adults.

* * * * *

12. Paragraph (d)(2) of § 31.303 is amended by adding a period "." after the word "State" and removing the remainder of paragraph (d)(2).

13. Paragraph (e)(3) in § 31.303 is revised to read as follows:

§ 31.303 Collocated Facilities.

(e) * * *

(3)(i) Determine whether or not a facility in which juveniles are detained or confined is an adult jail or lockup. In circumstances where juveniles are detained or confined in a separate building within a justice center or building complex which includes both juvenile and adult facilities (same grounds) or in a separate juvenile area (floor, wing, or side) of a building which includes an adult jail or lockup (same building), the separate building or area in which juveniles are detained or confined may qualify as a juvenile detention facility. However, except when a collocated building or area within a building has previously been determined by the State (with OJJDP concurrence) to qualify as a separate juvenile detention facility under the four established requirements prior to the effective date of this proposed regulation, State determinations and OJJDP concurrence on collocated facilities will be limited to those which are located in geographic areas outside a Standard Metropolitan Statistical Area, *and* are operational or planned such that a determination of compliance with the criteria can be made, *and* are determined by the State (with subsequent OJJDP concurrence) to meet the criteria and procedure established in paragraph (e)(3)(i) (A) through (D) and (ii) of this section, no later than December 31, 1994. Each of the following four criteria must be met in order to ensure the requisite separateness of the two facilities. The requirements are:

(A) Total separation between juvenile and adult facility spatial areas such that there could be no contact between juveniles and adult residents in the respective facilities. Total separation in spatial areas of juvenile and adult facilities can be achieved by providing for no common use areas, or by time-phasing common use areas, provided that the arrangement precludes contact between juveniles and adult residents and adult facility staff at all times. Sleeping or other living areas may not be considered common use areas.

(B) Total separation in all juvenile and adult program activities within the facilities, including recreation, education, counseling, health care, dining, sleeping, and general living activities. There must be an independent and comprehensive operational plan for the juvenile detention facility which provides for a full range of separate program activities. No program activities may be shared by juvenile and adult residents. However, program space, equipment, and other resources may be used by both facility populations subject to the criterion in paragraph (e)(3)(i)(A) of this section.

(C) Separate juvenile and adult staff, including management, security staff, and direct care staff such as recreation, education, and counseling. Specialized services staff, such as cooks, bookkeepers and medical professionals who are not normally in contact with detainees or whose infrequent contacts occur under conditions of separation of juveniles and adults, can serve both. The day to day management, security and direct care functions of the juvenile detention facility and its programs must be vested in totally separate staff. Collocated facilities classified by the State with subsequent OJJDP concurrence prior to the effective date of this proposed regulation must also meet this requirement.

(D) In States that have established State standards or licensing requirements for secure juvenile detention facilities, the juvenile facility meets the standards (on the same basis as free-standing juvenile detention facilities) and is licensed as appropriate. Responsible State authorities must certify that all State standards or licensing requirements for a secure juvenile detention facility have been met, and that the architectural and operational configuration of the juvenile facility assures total separation.

(ii) The State must initially determine that the four requirements are fully met. Upon such determination, the State

must submit to OJJDP a request to concur with the State finding that a separate juvenile facility exists. To enable OJJDP to assess the separateness of the two facilities, sufficient documentation must accompany the request to demonstrate that each requirement is met. In assessing the separateness of the two facilities pursuant to a State's request for OJJDP concurrence, OJJDP will be guided by the "rule of reason." If a facility is, in fact, a separate and distinct living environment for juveniles in secure custody, and not simply a juvenile wing, section, or area of an adult jail or lockup, a reasoned and reasonable application of the criteria will result in OJJDP's concurrence that a separate juvenile detention facility exists. It is incumbent upon each State to make the initial determination through an on-site facility (or full plan) review and, through the exercise of its oversight responsibility, to insure that the separate character of the facility is maintained by continuing to fully meet each of the four criteria in the operation of the juvenile detention facility.

14. Paragraph (e)(4) in § 31.303 is removed and paragraph (e)(5) is redesignated as paragraph (e)(4) and revised to read as follows:

§ 31.303 Jail Removal Compliance.

(e) * * *

(4) Those States which, based upon the most recently submitted monitoring report, have been found to be in full compliance with section 223(a)(14) may, in lieu of addressing paragraphs (e) (1) and (2) of this section, provide an assurance that adequate plans and resources are available to maintain full compliance.

15. In § 31.303, Paragraph (f)(1) introductory text is revised to read as follows:

§ 31.303 Compliance Monitoring.

§ 31.303 Valid Court Order.

(f) * * *

(3) * * *

(vi) * * * This determination must be informed by a written report, to the judge, that: reviews the behavior of the juvenile and the circumstances under which the juvenile was brought before the court and made subject to such order; determines the reasons for the juvenile's behavior; and determines whether all dispositions other than secure confinement have been exhausted or are clearly inappropriate. This report must be prepared and submitted by a public agency or organization other than a court or law enforcement agency. A multidisciplinary review team that operates independently of courts or law enforcement agencies would satisfy this requirement even if some individual members of the team represented court or law enforcement agencies.

19. Paragraph (f)(4)(vi) in § 31.303 is revised to read as follows:

§ 31.303 Rural Area.

(f) * * *

(4) * * *

(vi) Pursuant to section 223(a)(14) of the JJDP Act, the non-MSA (low population density) exception to the jail and lockup removal requirement as described in paragraphs (f)(4) (i) through (v) of this section shall remain in effect through 1997, and shall allow for secure custody beyond the 24 hour period described in paragraph (f)(4)(i) of this section when the facility is located where conditions of distance to be traveled or the lack of highway, road, or other ground transportation do not allow for court appearances within 24 hours, so that a brief (not to exceed an additional 48 hours) delay is excusable; or the facility is located where conditions of safety exist (such as severely adverse, life-threatening weather conditions that do not allow for reasonably safe travel), in which case the time for an appearance may be delayed until 24 hours after the time that such conditions allow for reasonably safe travel. States may use these additional statutory allowances only where the precedent requirements set forth in paragraphs (f)(4) (i) through (v) of this section have been complied with. This may necessitate statutory or judicial (court rule or opinion) relief within the State from the 24 hour initial court appearance standard required by paragraph (f)(4)(i) of this section. States must document and describe in their annual monitoring report to OJJDP, the specific circumstances surrounding each individual use of the distance/ ground transportation, and weather allowances.

(H) The total number of juveniles detained in collocated facilities not approved by the State and concurred with by OJJDP, that were not sight and sound separated from adult criminal offenders.

(iv) To demonstrate the extent of compliance with section 223(a)(14) of the JJDP Act, the report must include, at a minimum, include the following information for the current reporting period:

21. Paragraph (f)(6) introductory text in § 31.303 is revised to read as follows:

§ 31.303 Funding Eligibility.

(f) * * *

(6) *Compliance.* The State must demonstrate the extent to which the requirements of section 223(a) (12)(A), (13), (14), and (23) of the Act are met. If the State fails to demonstrate full compliance with section 223(a) (12)(A) and (14), and compliance with (13) and (23) by the end of the fiscal year for any fiscal year beginning with 1994, the State's allotment under section 222 will be reduced by 25% for each such failure, provided that the State will lose its eligibility for *any* allotment unless: the State agrees to expend all remaining funds (except planning and administration, State advisory group set-aside funds and Indian tribe pass-through funds) for the purpose of achieving compliance with the mandate(s) for which the State is in noncompliance; or the Administrator makes a discretionary determination that the State has substantially complied with the mandate(s) for which there is noncompliance and that the State has made an unequivocal commitment to achieving full compliance within a reasonable time. Where a State's allocation is reduced, the amount available for planning and administration and the required pass-through allocation, other than State advisory group set-aside, will be reduced because they are based on the reduced allocation.

* * * * *

22. Paragraph (f)(6)(i) in § 31.303 is revised to read as follows:

§ 31.303 DSO Substantial Compliance.

(f) * * *

(6) * * *

(i) Substantial compliance with section 223(a)(12)(A) can be used to demonstrate eligibility for FY 1993 and prior year formula grant allocations if, within three years of initial plan submission, the State has achieved a 75% reduction in the aggregate number of status offenders and nonoffenders held in secure detention or correctional facilities, or removal of 100% of such juveniles from secure correctional facilities only. In addition, the State must make an unequivocal commitment, through appropriate executive or legislative action, to achieving full compliance by Fiscal Year 1994. Full compliance is achieved when a State has removed 100% of such juveniles from secure detention and correctional facilities or can demonstrate full compliance with de minimis exceptions pursuant to the policy criteria contained in the Federal Register of January 9, 1981 (46 FR 2566–2569).

* * * * *

23. Paragraph (f)(6)(iii)(A) in § 31.303 is removed and paragraphs (f)(6)(iii) (B), (C), (D), and (E), thereof are redesignated as paragraphs (f)(6)(iii) (A), (B), (C), and (D), respectively.

24. Newly designated paragraph (f)(6)(iii)(C) in § 31.303 is revised to read as follows:

§ 31.303 Jail Removal Waiver.

(f) * * *

(6) * * *

(iii) * * *

(C) *Waiver.* Failure to achieve full compliance as defined in this section shall terminate any State's eligibility for FY 1993 and prior year formula grant funds unless the Administrator of OJJDP waives termination of the State's eligibility. In order to be eligible for this waiver of termination, a State must request a waiver and demonstrate that it meets the standards set forth in paragraph (f)(6)(iii)(C) (*1*) through (*7*) of this section:

(*1*) Agrees to expend all of its Formula Grant award except planning and administration, advisory group set-aside, and Indian tribe pass-through funds, to achieve compliance with section 223(a)(14); and

(*2*) Removed all status and nonoffender juveniles from adult jails and lockups. Compliance with this standard requires that the last submitted monitoring report demonstrate that no status offender (including those accused of or adjudicated for violating a valid court order) or nonoffender juveniles were securely detained in adult jails or lockups for any length of time; or, that all status offenders and nonoffenders securely detained in adult jails and lockups for any length of time were held in violation of an enforceable State law and did not constitute a pattern or practice within the State; or, the number of status offenders and nonoffenders securely detained in adult jails and lockups is less than 9 per 100,000 juvenile population in the State; and

(*3*) Made meaningful progress in removing juvenile criminal-type offenders from adult jails and lockups. Compliance with this standard requires the State to document a significant reduction in the number of jurisdictions securely detaining juvenile criminal-type offenders in violation of section 223(a)(14) of the JJDP Act; or, a significant reduction in the number of facilities securely detaining such juveniles; or, a significant reduction in the average length of time each juvenile criminal-type offender is securely detained in an adult jail or lockup; or, that State legislation has recently been enacted and taken effect and which the State demonstrates will significantly impact the secure detention of juvenile criminal-type offenders in adult jails and lockups; and

(*4*) Diligently carried out the State's jail and lockup removal plan approved by OJJDP. Compliance with this standard requires that actions have been undertaken to achieve the State's jail and lockup removal goals and objectives within approved timelines, and that the State advisory group, required by section 223(a)(3) of the JJDP Act, has maintained an appropriate involvement in developing and/or implementing the State's plan; and

(*5*) Submitted an acceptable plan, based on an assessment of current jail and lockup removal barriers within the State, to eliminate noncompliant incidents; and

(*6*) Achieved compliance with section 223(a)(15) of the JJDP Act; and

(*7*) Demonstrates an unequivocal commitment, through appropriate executive or legislative action, to achieving full compliance.

* * * * *

25. Newly designated paragraph (f)(6)(iii)(D) in § 31.301 is revised to read as follows:

§ 31.303 Jail Removal Waiver.

(f) * * *

(6) * * *

(iii) * * *

(D) *Waiver Maximum.* A State may receive a waiver of termination of eligibility from the Administrator under paragraph (f)(6)(iii)(C) of this section for a combined maximum of four Formula Grant awards through Fiscal Year 1993. No additional waivers will be granted.

* * * * *

26. Paragraph (f)(7) in § 31.303 is revised to read as follows:

§ 31.303 Monitoring Report Exemption.

(f) * * *

(7) *Monitoring Report Exemptions.* States which have been determined by the OJJDP Administrator to have achieved full compliance with sections 223(a)(12)(A) and 223(a)(14), and compliance with section 223(a)(13) of the JJDP Act and wish to be exempted from the annual monitoring report requirements must submit a written request to the OJJDP Administrator which demonstrates that:

(i) The State provides for an adequate system of monitoring jails, law enforcement lockups, detention facilities, correctional facilities, and nonsecure facilities to enable an annual determination of State compliance with sections 223(a) (12)(A), (13), and (14) of the JJDP Act;

(ii) State legislation has been enacted which conforms to the requirements of sections 223(a) (12)(A), (13), and (14) of the JJDP Act; and

(iii) The enforcement of the legislation is statutorily or administratively prescribed, specifically providing that:

(A) Authority for enforcement of the statute is assigned;

(B) Time frames for monitoring compliance with the statute are specified; and

(C) Adequate procedures are set forth for enforcement of the statute and the imposition of sanctions for violations.

* * * * *

27. Paragraph (g) introductory text in § 31.303 is revised to read as follows:

§ 31.303 Crime Analysis.

(g) *Juvenile Crime Analysis.* Pursuant to section 223(a)(8), the State must conduct an analysis of juvenile crime problems, including juvenile gangs that commit crimes, and juvenile justice and delinquency prevention needs within the State, including those geographical areas in which an Indian tribe performs law enforcement functions. The analysis and needs assessment must include educational needs, gender specific services, delinquency prevention and treatment services in rural areas, and mental health services available to juveniles in the juvenile justice system. The analysis should discuss barriers to accessing services and provide a plan to provide such services where needed.

* * * * *

28. Paragraph (h) in § 31.303 is amended by adding the following sentence at the end thereof:

§ 31.303 Performance Report.

(h) * * * The annual performance report must be submitted to OJJDP no later than June 30 and address all formula grant activities carried out during the previous complete calendar year, federal fiscal year, or State fiscal year for which information is available, regardless of which year's formula grant funds were used to support the activities being reported on, e.g., during a reporting period, activities may have been funded from two or more formula grant awards.

* * * * *

29. Paragraph (j) in § 31.303 is revised to read as follows:

§ 31.303 Disproportionate Minority Confinement.

(j) *Minority Detention and Confinement.* Pursuant to section 223(a)(23) of the JJDP Act, States must demonstrate specific efforts to reduce the proportion of juveniles detained or confined in secure detention facilities, secure correctional facilities, jails and lockups who are members of minority groups if such proportion exceeds the proportion such groups represent in the general population, viz., in most States, youth between 10–17 are subject to secure custody. It is essential that States approach this statutory mandate in a comprehensive manner. Compliance with this provision is achieved when a State meets the requirements set forth in paragraphs (1) through (3) of this section:

(1) *Identification.* Provide quantifiable documentation (State, county and local level) in the State's FY 1994 Formula Grant Plan (and all subsequent Multi-Year Plans) Juvenile Crime Analysis and Needs Assessment to determine whether minority juveniles are disproportionately detained or confined in secure detention and correctional facilities, jails and lockups in relation to their proportion of the State juvenile population. Guidelines are provided in the OJJDP Disproportionate Minority Confinement Technical Assistance Manual (see Phase I Matrix). Where quantifiable documentation is not available to determine if disproportionate minority confinement exists in secure detention and correctional facilities, jails and lockups, the State must provide a time-limited plan of action, not to exceed six months, for developing and implementing a system for the ongoing collection, analysis and dissemination of information regarding minorities for those facilities where documentation does not exist.

(2) *Assessment.* Each State's FY 1994 Formula Grant Plan must provide a completed assessment of disproportionate minority confinement. Assessments must, at minimum, identify and explain differences in arrest, diversion and adjudication rates, court dispositions other than incarceration, the rates and periods of prehearing detention in and dispositional commitments to secure facilities of minority youth and non-minority youth in the juvenile justice system, and transfers to adult court (see Phase II Matrix). If a completed assessment is not available, the State must submit a time-limited plan (not to exceed 12 months from submission of the Formula Grant Application) for completing the assessment.

(3) *Intervention.* Each State's FY 1995 Formula Grant Plan must, where disproportionate confinement has been demonstrated, provide a time-limited plan of action for reducing the disproportionate confinement of minority juveniles in secure facilities. The intervention plan shall be based on the results of the assessment, and must include, but not be limited to the following:

(i) Diversion. Increasing the availability and improving the quality of diversion programs for minorities who come in contact with the juvenile justice system, such as police diversion programs;

(ii) Prevention. Providing developmental, operational, and assessment assistance (financial and/or technical) for prevention programs in communities with a high percentage of minority residents with emphasis upon support for community-based organizations (including non-traditional organizations) that serve minority youth;

(iii) Reintegration. Providing developmental, operational, and assessment assistance (financial and/or technical) for programs designed to reduce recidivism by facilitating the reintegration of minority youth in the community following release from dispositional commitments to reduce recidivism;

(iv) Policies and Procedures. Providing financial and/or technical assistance that addresses necessary changes in statewide and local, executive, judicial, and legal representation policies and procedures.

(v) Staffing and Training: Providing financial and/or technical assistance that addresses staffing and training needs that will positively impact the disproportionate confinement of minority youth in secure facilities.

(4) The time-limited plans of action set forth in paragraphs (j) (1), (2) and (3) of this section must include a clear indication of current and future barriers; which agencies, organizations, or individual(s) will be responsible for taking what specific actions; when; and what the anticipated outcomes are. The interim and final outcomes from implementation of the time-limited plan of action must be reported in each State's Multi-Year Plans and Annual Plan Updates. Final outcomes for individual project awards are to be included with each State's annual performance report [paragraph (h) of this section].

(5) Technical assistance is available through the OJJDP Technical Assistance Contract to help guide States with the data collection and analysis, and with programmatic elements of this requirement. Information from the OJJDP Special Emphasis Initiative on Disproportionate Minority Confinement pilot sites will be disseminated as it becomes available.

(6) For purposes of this statutory mandate, minority populations are defined as: African Americans, American Indians, Asians, Pacific Islanders, and Hispanics.

30. Section 31.403 is revised to read as follows:

§ 31.403 Other Requirements.

The State assures that it will comply, and that subgrantees and contractors will comply, with all applicable Federal non-discrimination requirements, including:

(a) Section 809(c) of the Omnibus Crime Control and Safe Streets Act of 1968, as amended, and made applicable by section 299A of the Juvenile Justice and Delinquency Prevention Act of 1974, as amended;

(b) Title VI of the Civil Rights Act of 1964, as amended;

Formula Grants

AGENCY: U.S. Department of Justice, Office of Justice Programs, Office of Juvenile Justice and Delinquency Prevention.

ACTION: Final regulation.

SUMMARY: The Office of Juvenile Justice and Delinquency Prevention (OJJDP) is publishing the final revision of the existing Formula Grants Regulation, which implements part B of Title II of the Juvenile Justice and Delinquency Prevention (JJDP) Act of 1974, as amended by the Juvenile Justice and Delinquency Prevention Amendments of 1992.

The 1992 Amendments reauthorize and modify the Federal assistance program to State and local governments, and private not-for-profit agencies for juvenile justice and delinquency prevention improvements. The final revision to the existing Regulation provides clarification and guidance to States in the formulation, submission and implementation of State Formula Grant plans and determinations of State compliance with plan requirements. It provides additional flexibility and guidance to participating States while strengthening several key provisions related to the mandates of the JJDP Act.

EFFECTIVE DATE: This regulation is effective March 10, 1995.

FOR FURTHER INFORMATION CONTACT: Roberta Dorn, Director, State Relations and Assistance Division, Office of Juvenile Justice and Delinquency Prevention, 633 Indiana Avenue NW., Room 543, Washington, DC 20531; (202) 307–5924.

SUPPLEMENTARY INFORMATION:

Statutory Amendments

The 1992 reauthorization of the JJDP Act resulted in statutory amendments that impact the Formula Grants Program (28 CFR part 31). These statutory changes include: a formula grant fund allocation minimum base for participating States and territories; elimination of the "substantial compliance criteria" with respect to the Deinstitutionalization of Status Offenders (DSO) and Jail and Lockup Removal requirements because full compliance is required; a requirement that there be separate juvenile and adult staff with respect to management, security and direct care in juvenile detention facilities that are collocated with an adult jail or lockup; and a provision that a status offender alleged or found in a judicial hearing to have violated a valid court order (VCO) may be held in a secure juvenile detention or correctional facility only if enhanced due process and procedural protections have been provided.

The Violent Crime Control and Law Enforcement Act of 1994 (Pub. L. 103–322, September 13, 1994) amended the DSO provision of the JJDP Act to exclude juveniles charged with or adjudicated for possessing a handgun from coverage under the DSO requirement.

The final regulation details revised procedures and requirements for States participating in the Formula Grants Program resulting from the 1992 Amendments to the JJDP Act (Pub. L. 102–586, November 18, 1992).

Description of Major Changes

Formula Grant Allocations

Section 222(a) of the JJDP Act, provides for a "floating minimum" for the allocation of formula grants to States and Territories that is tied to the total appropriation level for Title II in a given fiscal year (FY). For FY's 1994 and 1995, the total appropriation for Title II exceeded $75 million and Congress appropriated sufficient funds to maintain each State at least at its FY 1992 funding level and raise the minimum allocation for each State and Territory to $600,000 and $100,000 respectively.

Application Deadline

The submission requirement for formula grant applications is changed to require that FY 1995 applications and all subsequent applications be submitted to OJJDP no later than March 31 of the fiscal year for which the funds were allocated.

State Agency Structure—Staffing

The regulation is revised to require the assignment of one full-time Juvenile Justice Specialist to manage the Formula Grants Program.

Collocated Juvenile and Adult Facilities

The regulation clarifies the existing four criteria for a juvenile detention facility that is collocated with an adult jail or lockup by providing for: (1) Total separation in spatial areas of juvenile and adult facilities can be achieved by providing for no common use areas, including time-phasing; (2) total separation in juvenile and adult program activities requires the formulation of an independent and comprehensive operational plan for the juvenile facility which provides a full range of separate program activities for juveniles; (3) separate juvenile and adult staff includes all management, security and direct care personnel; and (4) in States that have standards or licensing requirements for secure juvenile detention facilities, a collocated facility must meet the standards on the same basis as separate facilities and be licensed as appropriate.

OJJDP intends these clarifications to enhance and strengthen the four separate facility requirements for States completing final steps to achieve and maintain full compliance with the jail and lockup removal requirement. State certification and oversight responsibilities are strengthened by requiring annual on-site review. The 1992 Amendments require States to review and ensure compliance with the separate staff criterion in all collocated facilities, including those classified as such by the State and concurred with by OJJDP prior to the effective date of this regulation.

OJJDP believes the ideal or most optimal setting for a juvenile detention facility is one in which the facility is not collocated with an adult jail or lockup. Further, OJJDP believes that jurisdictions and States should not rely upon collocated facilities as a primary or long-term strategy for achieving and maintaining compliance with the jail and lockup removal mandate. However, OJJDP believes that where there is a demonstrated need for an existing or planned collocated facility, jurisdictions should have the flexibility to use such a facility, but only where the enhanced requirements, critical to ensuring an appropriate environment for detained youth, are met. Collocated juvenile detention facilities approved by the State and concurred with by OJJDP prior to March 31, 1995 are to be reviewed against the regulatory criteria and OJJDP policies in effect at the time of the initial approval and concurrence, except that all collocated facilities are subject to the separate staff requirement established by the 1992 Amendments.

OJJDP's concurrence on all collocated facilities submitted for OJJDP review after March 31, 1995 is limited to one year and, thereafter, would be reviewed on an annual basis. An on-site review of the facility must be conducted by the compliance monitoring staff for the State agency administering the JJDP Act Formula Grants Program. OJJDP's concurrence may also require on-site

review by OJJDP staff. Additionally, in order to receive OJJDP's initial and subsequent concurrence, a juvenile detention facility approved after March 31, 1995 must, pursuant to a written policy and procedure, only provide secure custody for: juvenile criminal-type offenders; status offenders accused of violating a VCO; and adjudicated delinquents and VCO order violators who are awaiting disposition hearings or transfer to a long-term juvenile correctional facility.

Criteria for Compliance with DSO, Adult Jail and Lockup Removal, Separation, and Minority Over-representation

The regulation deletes the "substantial compliance" criteria from Section 31.303(c)(3) and (e)(4). Pursuant to the 1992 Amendments, participating States are required to be in full compliance with the DSO and Jail and Lockup Removal mandates and demonstrate compliance with the Separation and Enhanced Disproportionate Minority Confinement (DMC) in order to be eligible for FY 1994 and subsequent year Formula Grant funds. Therefore, the regulatory provision recognizing "progress" toward compliance with the Separation mandate is being deleted. Also, enhanced criteria and specific time lines are established for the DMC Mandate.

Deinstitutionalization of Status Offenders

The regulation brings the DSO requirement in line with the Section 223(a)(14) Jail and Lockup Removal requirement by eliminating the monitoring report exclusion for status offenders and nonoffenders securely detained or confined in an adult jail or lockup for less than twenty four hours exclusive of weekends and holidays. This reflects OJJDP's determination that there are no longer any circumstances in which the secure custody of noncriminal juveniles in adult jails and lockups can be justified or sanctioned. To the extent that inadvertent or isolated violations occur, or where violations result from emergency situations, the de minimis criteria for full compliance should continue to provide sufficient latitude to permit States to maintain full compliance with the DSO requirement. Monitoring information to reflect this change must be included in the State Monitoring Report due by December 31, 1995, and subsequent monitoring reports.

Discussion of Comments

The proposed revisions to the existing Formula Grants Regulation were published in the **Federal Register** on July 25, 1994 (59 FR 37866), for public comment. Written comments were received on ten issues addressed by the proposed regulation. All comments have been considered by OJJDP in the issuance of this final regulation.

The following is a summary of the comments and the responses by OJJDP:

1. Comment: One respondent felt that States should be allowed to submit their Annual Performance Reports ninety days after the end of their reporting period, but no later than June 30th.

Response: States are allowed under the final formula grants regulation to submit their Annual Performance Report, ninety days after the end of their reporting period, but no later than June 30th. The regulation merely formalizes the existing policy of States submitting their required Performance Reports by June 30th of each year.

2. Comment: Another respondent was of the opinion that a person who routinely provides legal representation to youth in juvenile court should be added to the State Advisory Group membership requirement.

Response: Section 223(a)(3) already requires representation of "law enforcement and juvenile justice agencies" including "counsel for children and youth" on the State Advisory Group.

3. Comment: With respect to DMC, States need more time to achieve compliance because the issue is too complex. States were given more time to achieve compliance with DSO, Separation, and Jail Removal. Several respondents indicated that more research is needed before effective interventions can be designed and implemented. Respondents expressed concern that the problem of DMC goes beyond the juvenile justice system and other systems need to be addressed. One respondent suggested that States should be required to review and address the effects of legislation on minority over-representation. A recommendation was also made that States' multi-year formula grant plans and annual plan updates should identify and explain any anticipated action steps from a previous formula grant plan that have not been carried out.

Response: States had five years to reach full compliance on DSO, and eight to reach full compliance on Jail and Lockup Removal. Congress initially addressed DMC in 1988. Congressional action on the 1992 Reauthorization of the JJDP Act makes it clear that States are expected to move forward on DMC. The OJJDP regulation reflects the additional priority Congress has attached to DMC.

The experience of OJJDP and most States supports the public comment about the complexity of DMC. OJJDP recognizes that successful approaches to DMC include lessons learned from DSO, Separation, and Jail Removal. For instance, addressing the relationship between attitudes and behavior, and ensuring local ownership of program initiatives, contributed significantly to progress on the earlier mandates. Ultimate success on DMC will, however, require a concerted and comprehensive approach that goes beyond the earlier mandates. Accordingly, the implementation phase activities set forth in the regulation acknowledge the need to look beyond a narrow focus on police, probation, courts, and corrections. Meaningful prevention (including health, mental health, education and vocational) and intervention resources must be available on an equitable basis, and States need to assess the impact of executive, legislative, and judicial policies on DMC.

The final regulation establishes an expectation that States will examine legislative initiatives which may inadvertently contribute to DMC. Also, the final regulation includes a modification that has States explain in their formula grant plans, any previously slated DMC activities that were not carried out.

4. Comment: One respondent stated that there is no difference between a court intake agency preparing the advisory report required prior to a dispositional commitment to a secure facility for violation of a VCO, and an intake unit operated by a human service agency completing the report. Another respondent questioned whether an advisory report would be allowable if it was prepared by a multidisciplinary review team comprised entirely of court and law enforcement agency workers. Other respondents expressed concern that the report could not be completed between apprehension and an initial hearing; that the report would allow a third party to influence the court's decision making process; and, that the new advisory report requirement makes the VCO violation process too restrictive. One commentator was uncertain about the difference between a VCO violation and contempt of court. A question was raised about whether an advisory report would be required for an adjudicated delinquent who absconds from a court-ordered secure treatment facility. One person recommended that the regulation contain an explicit requirement for legal representation of youth during the VCO violation process.

Response: The statute requires that the advisory report be prepared by an appropriate public agency (other than a court or law enforcement agency). A review team composed only of court and law enforcement officials is probably not amenable to the term "multidisciplinary." Nonetheless, if the team were operating under the auspices of, and answerable to, an agency other than a court or law enforcement agency, preparation of the report by this review team would be permissible.

The advisory report does not have to be completed between apprehension and the initial court hearing. The advisory report is only required prior to commitment to a secure facility as a disposition, viz., post adjudication. While the report is not binding on the court, it is intended as an additional, objective source of information upon which the court can base its case planning and decision making. As such, Congress intended the report to "influence" judicial actions with respect to status offenders adjudicated for violating a VCO.

OJJDP disagrees with the comment that the VCO process is so restrictive that it is impossible to securely detain accused or adjudicated VCO violators. Those portions of the existing regulation that specifically address the detention of VCO violators have not been changed. The changes being made implement amendments to the JJDP Act that require due process protections from the very beginning of the VCO process, and an advisory report prior to a dispositional commitment to a secure facility. The 1992 Amendments to the JJDP Act reflect Congressional concern about the possible overuse of the VCO exception in order to incarcerate status offenders and circumvent the deinstitutionalization of status offenders provision of the JJDP Act.

Regarding status offenders charged with contempt of court for behavior that would result in the same charge for an adult, OJJDP agrees that this is not a status offense. If, however, the court is using a contempt process in place of the VCO violation process, OJJDP and the State would look to see that all of the VCO requirements had been met before allowing the VCO exception.

Where allowable under State law, adjudicated delinquents that abscond from secure treatment facilities could be held in a juvenile detention center without new charges, and without violating the JJDP Act. In response to the comment about legal counsel, it is noted that the current formula grants regulation requires legal counsel for youth in VCO cases.

5. Comment: Status offenders in jails and lockups already violate jail and lockup removal, and therefore, this should not be counted as a violation of DSO. The respondent also assumed that this did not effect VCO detentions.

Response: Under current regulations, a status offender or nonoffender securely detained in a jail or lockup for less than twenty four hours would violate the jail and lockup removal provision of the JJDP Act, but not the DSO provision. This conflict in the regulations (issued at different points in time) is not acceptable. It is the position of Congress and OJJDP, that there is no excusable reason for securely detaining juveniles in a jail or lockup, who are not being charged with a criminal offense.

Status offenders accused of, or adjudicated for violating a VCO, remain status offenders under OJJDP regulations, and therefore can not be securely detained in jails and lockups.

6. Comment: A respondent expressed concern over the sound separation standard. Specifically, the "no conversation possible" standard was criticized as being too vague. Respondent suggested that sound separation be expanded to mean "any communication from incarcerated adults." Further, it was recommended that the regulation should explicitly indicate that haphazard and accidental contact are no longer permissible.

Response: The final regulation will indicate that sound contact means any oral communication between incarcerated adults and juveniles. In response to the 1992 Amendments of the JJDP Act, "haphazard and accidental" contact were deleted from the proposed formula grants regulation. OJJDP believes this deletion to be sufficient.

7. Comment: Two respondents questioned the total amount of time allowed for the new distance/lack of ground transportation portion of the rural area (non-MSA) exception to jail and lockup removal. Specifically, one respondent recommended that "distance" be defined as three hours by automobile, and that the total period of incarceration be limited to seventy two hours. This recommendation allows for the original twenty four hours grace period plus the new forty eight hours period provided by Congress, but would not then recognize weekends and holidays as currently allowed for in the statute. The other respondent asserted that the total period of incarceration under the distance/lack of ground transportation provision should not exceed forty eight hours. A recommendation was also made that the regulation require youth specific admissions screening in connection with use of the non-MSA exception, and that continuous visual supervision be provided by a trained person.

Response: OJJDP stands by its interpretation of the statute to mean forty eight hours *in addition* to the first twenty four hours "grace period." Because the statute excludes weekends and holidays, the total time may exceed seventy two hours. States are reminded, however, that each use of the expanded rural area exception must be carefully documented. OJJDP concurs with the comment on youth-specific admissions screening, but this will be added to the final regulation as a recommended practice, not a requirement. The existing regulation addresses continuous visual supervision as a recommended practice.

8. Comment: Respondents questioned the proposal to increase the number of waivers from three to four, for failure to achieve full compliance with jail and lockup removal. Opposition was also expressed toward revising the existing criteria used by OJJDP to assess waiver requests. Specifically, respondents disagreed with the proposal to modify the waiver criterion related to the removal of status and nonoffenders from adult jails and lockups.

Response: There is only one State that is possibly in need of another (fourth) waiver in order to access FY 1993 formula grant funds. Starting with FY 1994 formula grant funds, there is no longer a waiver provision for failure to achieve full compliance with jail and lockup removal.

A preliminary review of the subject State's situation suggests that, if a fourth waiver is needed, the waiver criteria could be complied with. If a fourth waiver is needed and justified for this State, it will be granted in the discretion of the Administrator. The waiver provision of the criteria in the existing regulation are being deleted, as they are no longer applicable.

9. Comment: The 1992 Amendments to the JJDP Act restructure State's eligibility for formula grant funds, such that each of the four major mandates is associated with twenty five percent of the grant. As amended, the Act also requires States receiving reduced allocations for noncompliance to expend all remaining funds to achieve compliance, absent a waiver of this requirement from the Administrator. One respondent questioned the ability of States to adequately address the mandates if all funds must be expended on one noncompliant mandate. Another respondent asked OJJDP to clearly delineate the criteria to be used in assessing States' requests for a waiver from the requirement to expend all

funds to achieve compliance with the noncompliant mandate(s), viz., how will OJJDP determine if a State has achieved substantial compliance.

Response: The concern about States' ability to maintain compliance with all of the major mandates when funds must be focused on one noncompliant mandate, is contemplated by the statutory scheme established by Section 223(c)(3)(B)(ii) of the JJDP Act. A waiver of the dedicated funding provision can be granted if the State has achieved substantial compliance with the mandate(s) for which funding was reduced. In addition, the State must have an unequivocal commitment to achieving full compliance with the noncompliant mandate. The final regulation sets forth specific criteria for determining whether a State has achieved substantial compliance want OJJDP to continue the practice.

10. Comments: The proposed regulation reflected the statutory amendment requiring totally separate staff for juvenile detention facilities collocated with adult jails and lockups. In addition, OJJDP proposed eventually ending the practice of concurring with State classifications and approval of juvenile detention facilities located in the same building as adult jails and lockups. Several national organizations sponded in support of the proposed regulation's position on collocated facilities. The basis for this support is that the existing criteria for collocated facilities, even when fully implemented, do not ensure adequate protection and services for juveniles. In the opinion of these organizations, the existing criteria do not result in jail and lockup removal.

A number of States on the other hand, argued that the existing criteria are adequate, the burgeoning juvenile detention populations necessitate that as many options as possible be available, and that it is essential for States and local units of government to retain their discretion in juvenile detention planning and operations.

Response: The final regulation attempts to balance the interests presented on the collocated facility issue during the public comment period. Specifically, OJJDP will work with the States to implement a three-prong approach to collocated facilities that is consistent with Section 223(a), Paragraphs (13) and (14) of the JJDP Act. The first prong involves a formal assessment of detention needs in a particular jurisdiction or region prior to moving ahead with the approval process a collocated facility.

OJJDP's technical assistance provider will work with jurisdictions interested in a collocated facility to collect and analyze the necessary information for sound juvenile detention services planning. The second prong involves strengthened regulatory criteria for States and OJJDP to use in the approval and concurrence processes, respectively. Specifically, OJJDP will return to its original (1984) standard of not permitting time-phased use of spatial areas in collocated juvenile and adult facilities and will fully implement the 1992 Amendment to the JJDP Act requiring totally separate staff for juvenile detainees. The third prong consists of a requirement that approved collocated facilities receive an annual on-site visit by the State Formula Grant Agency. The purpose of the visit is to reassess the facility's compliance with the collocated criteria, and to revisit the need to collocate facilities in the jurisdiction or region.

Issues Not Addressed by Public Comments

1. Deadline for Monitoring Reports—The current regulation says December 31st of each year. Timely submission of State monitoring reports will be tied to State eligibility for reverted funds, as is the case with formula grant plans and performance reports.

2. The JJDP Act says the State advisory group "shall" consist of * * * and the proposed regulation says "should consider." The final regulation will reflect this correction.

3. Youth Handgun Safety Act—The Violent Crime Control and Law Enforcement Act of 1994 amended the DSO provision of the JJDP Act to exclude juveniles charged with handgun possession. This occurred after publication of the proposed regulation. The final regulation will reflect this change in the definition of status offender.

Executive Order 12866

Intergovernmental Review of Federal Programs

In accordance with Executive Order 12372 and the Department of Justice's implementing regulation 28 CFR Part 31, States must submit formula grant applications to the State "Single Point of Contact," if one exists. The State m take up to sixty days from the application date to comment on the application.

List of Subjects in 28 CFR Part 31

Grant programs—law, Juvenile delinquency, Reporting and recordkeeping requirements.

For the reasons set out in the preamble, the OJJDP Formula Grants Regulation, 28 CFR Part 31, is amended as follows:

PART 31—[AMENDED]

1. The authority citation for Part 31 is revised to read as follows:

Authority: 42 U.S.C. 5601 *et seq.*

2. Section 31.3 is revised to read as follows:

§ 31.3 Formula Grant Plans and Applications.

Formula Grant Applications for each fiscal year should be submitted to OJJDP by August 1 (sixty days prior to the beginning of the fiscal year) or within sixty days after the States are officially notified of the fiscal year formula grant allocations. Beginning with FY 1995 and each subsequent fiscal year, all Formula Grant Applications must be submitted no later than March 31 of the fiscal year for which the funds are allocated.

3. Section 31.101 is revised to read as follows:

§ 31.101 Designation of State agency.

The Chief Executive of each State which chooses to apply for a formula grant shall establish or designate a State agency as the sole agency for supervising the preparation and

administration of the plan. The plan must demonstrate compliance with administrative and supervisory board membership requirements established by the OJJDP Administrator pursuant to Section 299(c) of the JJDP Act. States must have available for review a copy of the State law or executive order establishing the State agency and its authority

4. Section 31.102 is amended by adding two sentences at the end of paragraph (c) to read as follows:

§ 31.102 State agency structure.

* * * * *

(c) * * * At a minimum, one full-time Juvenile Justice Specialist must be assigned to the Formula Grants Program by the State agency. Where the State does not currently provide or maintain a full-time Juvenile Justice Specialist, the plan must clearly establish and document that the program and administrative support staff resources currently assigned to the program will temporarily meet the adequate staff requirement, and provide an assurance that at least one full-time Juvenile Justice Specialist will be assigned to the Formula Grants Program by the end of FY 1995 (September 30, 1995).

5. Section 31.203 is revised to read as follows:

§ 31.203 Open meetings and public access to records.

The State must assure that the State agency, its supervisory board established pursuant to Section 299(c) and the State advisory group established pursuant to Section 223(a)(3) will follow applicable State open meeting and public access laws and regulations in the conduct of meetings and maintenance of records relating to their functions.

6. Section 31.301 is amended by revising paragraphs (a), (c), (d), and (e) to read as follows:

§ 31.301 Funding.

(a) *Allocation to States.* Funds shall be allocated annually among the States on the basis of relative population of persons under age eighteen. If the amount allocated for Title II (other than Parts D and E) of the JJDP Act is less than $75 million, the amount allocated to each State will not be less than $325,000, nor more than $400,000, provided that no State receives less than its allocation for FY 1992. The territories will receive not less than $75,000 or more than $100,000. If the amount appropriated for Title II (other than Parts D and E) is $75 million or more, the amount allocated for each State will be not less than $400,000, nor more than $600,000, provided that Parts D and E have been funded in the full amounts authorized. For the Territories, the amount is fixed at $100,000. For each of FY's 1994 and 1995, the minimum allocation is established at $600,000 for States and $100,000 for Territories.

* * * * *

(c) *Match.* Formula Grants under the JJDP Act shall be 100% of approved costs, with the exception of planning and administration funds, which require a 100 percent cash match (dollar for dollar), and construction projects funded under Section 299C(a)(2) of the JJDP Act which also require a 100 percent cash match.

(d) *Funds for administration.* Not more than ten percent of the total annual Formula Grant award may be utilized to develop the annual juvenile justice plan and pay for administrative expenses, including project monitoring. These funds are to be matched on a dollar for dollar basis. The State shall make available needed funds for planning and administration to units of local government on an equitable basis. Each annual application must identify uses of such funds.

(e) *Nonparticipating States.* Pursuant to Section 223(d), the OJJDP Administrator shall endeavor to make the fund allotment under Section 222(a), of a State which chooses not to participate or loses its eligibility to participate in the formula grant program, directly available to local public and private nonprofit agencies within the nonparticipating State. The funds may be used only for the purpose(s) of achieving deinstitutionalization of status offenders and nonoffenders, separation of juveniles from incarcerated adults, removal of juveniles from adult jails and lockups, and/or reducing the disproportionate confinement of minority youth in secure facilities. Absent a request for extension which demonstrates compelling circumstances justifying the reallocation of formula grant funds back to the State to which the funds were initially allocated, or the proceedings under Section 223(d), formula grant funds allocated to a State which has failed to submit an application, plan, or monitoring data establishing its eligibility for the funds will, beginning with FY 1994, be reallocated to the nonparticipating State program on September 30 of the fiscal year for which the funds were appropriated. Reallocated funds will be awarded to eligible recipients pursuant to program announcements published in the **Federal Register**.

7. Section 31.302 is amended by revising paragraphs (a) and (b)(2) to read as follows:

§ 31.302 Applicant State agency.

(a) Pursuant to Section 223(a)(1), Section 223(a)(2) and Section 299(c) of the JJDP Act, the State must assure that the State agency approved under Section 299(c) has been designated as the sole agency for supervising the preparation and administration of the plan and has the authority to implement the plan.

(b) * * *

(2) Shall consider in meeting the statutory membership requirements and responsibilities of Section 223(a)(3) (A)–(E), appointing at least one member who represents each of the following: a locally elected official representing general purpose local government; a law enforcement officer; a juvenile or family court judge; a probation officer; a juvenile corrections official; a prosecutor; a person who routinely provides legal representation to youth in juvenile court; a representative from an organization, such as a parents group, concerned with teenage drug and alcohol abuse; a high school principal; a recreation director; a volunteer who works with delinquent or at risk youth; a person with a special focus on the family; a youth worker experienced with programs that offer alternatives to incarceration; persons with special competence in addressing programs of school violence and vandalism and alternatives to expulsion and suspension; and persons with knowledge concerning learning disabilities, child abuse, neglect and youth violence.

* * * * *

8. Section 31.303 is amended by revising paragraphs (a) and (b) to read as follows:

§ 31.303 Substantive requirements.

(a) *Assurances.* The State must certify through the provision of assurances that it has complied and will comply (as appropriate) with Sections 223(a) (1), (2), (3), (4), (5), (6), (7), (8)(c), (9), (10), (11), (16), (17), (18), (19), (20), (21), (22), and (25), and Sections 229 and 261(d), in formulating and implementing the State plan. The Formula Grant Application kit provides a form and guidance for the provision of assurances. OJJDP interprets the Section 223(a)(16) assurance as satisfied by an affirmation that State law and/or policy clearly require equitable treatment on the required bases; or by providing in the State plan that the State agency will require an assurance of equitable treatment by all Formula Grant subgrant

and contract recipients, and establish as a program goal, in conjunction with the State Advisory Group, the adoption and implementation of a statewide juvenile justice policy that all youth in the juvenile justice system will be treated equitably without regard to gender, race, family income, and mentally, emotionally, or physically handicapping conditions. OJJDP interprets the Section 223(a)(25) assurance as satisfied by a provision in the State plan for the State agency and the State Advisory Group to promulgate policies and budget priorities that require the funding of programs that are part of a comprehensive and coordinated community system of services as set forth in Section 103(19) of the JJDP Act. This requirement is applicable when a State's formula grant for any fiscal year exceeds 105 percent of the State's formula grant for FY 1992.

(b) *Serious juvenile offender emphasis.* Pursuant to Sections 101(a)(10) and 223(a)(10) of the JJDP Act, OJJDP encourages States that have identified serious and violent juvenile offenders as a priority problem to allocate formula grant funds to programs designed for serious and violent juvenile offenders at a level consistent with the extent of the problem as identified through the State planning process. Particular attention should be given to improving prosecution, sentencing procedures, providing resources necessary for effective rehabilitation, and facilitating the coordination of services between the juvenile justice and criminal justice systems.

§ 31.303 [Amended]

9. Section 31.303 is amended by revising paragraph (c)(3) to read as follows:

* * * * *

(c) * * *

(3) *Federal wards.* Apply this requirement to alien juveniles under Federal jurisdiction who are held in State or local facilities.

* * * * *

10. Section 31.303 is amended by revising paragraph (c)(4) to read as follows:

* * * * *

(c) * * *

(4) *DSO compliance.* Those States which, based upon the most recently submitted monitoring report, have been found to be in full compliance with Section 223(a)(12)(A) may, in lieu of addressing paragraphs (c) (1) and (2) of this section, provide an assurance that adequate plans and resources are available to maintain full compliance.

* * * * *

11. Section 31.303 is amended by revising paragraphs (d)(1) (i) and (ii) to read as follows:

* * * * *

(d) * * *

(1) * * *

(i) *Separation.* Describe its plan and procedure, covering the three-year planning cycle, for assuring that the requirements of this section are met. The term "contact" is defined to include any sight and sound contact between juveniles in a secure custody status and incarcerated adults, including inmate trustees. Sound contact is further defined to mean no oral communication between incarcerated adults and juveniles. Separation must be accomplished in all secure areas of the facility which include, but are not limited to: sallyports within the secure perimeter of the facility, other entry areas, all passageways (hallways), admissions, sleeping, toilet and shower, dining, recreational, educational, vocational, health care, and other areas as appropriate.

(ii) In those instances where accused juvenile criminal-type offenders are authorized to be temporarily detained in facilities where adults are confined, the State must set forth the procedures for assuring no sight or sound contact between such juveniles and confined adults.

* * * * *

12. Paragraph (d)(2) of § 31.303 is revised to read as follows:

* * * * *

(d)* * *

(2) *Implementation.* The requirement of this provision is to be planned and implemented immediately by each State.

* * * * *

13. Paragraph (e)(3) in § 31.303 is revised to read as follows:

* * * * *

(e)* * *

(3) *Collocated facilities.* (i) Determine whether or not a facility in which juveniles are detained or confined is an adult jail or lockup. The JJDP Act prohibits the secure custody of juveniles in adult jails and lockups. Juvenile facilities collocated with adult facilities are not considered adult jails or lockups when the criteria set forth in paragraph (e)(3)(i)(D) of this section are complied with.

(A) A collocated facility is a juvenile facility located in the same building as an adult jail or lockup, or is part of a related complex of buildings located on the same grounds as an adult jail or lockup. A complex of buildings is considered "related" when it shares physical features such as walls and fences, or services beyond mechanical services (heating, air conditioning, water and sewer), or those that are allowable under paragraph (e)(3)(i)(C) of this section.

(B) The State, with OJJDP concurrence must determine whether a collocated facility qualifies as a separate juvenile detention facility under the four criteria set forth in Paragraph (e)(3)(i)(D) of this section for the purpose of monitoring compliance with Section 223(a), Paragraphs 12(A), (13) and (14) of the JJDP Act.

(C) A needs based analysis must precede a jurisdiction's request for State approval, and OJJDP concurrence that a collocated facility qualifies as a juvenile detention facility. Specifically, consideration should be given to such factors as excessive travel time to an existing juvenile detention center; crowding in an existing facility (despite the use of objective detention criteria); and in areas where there are no juvenile detention facilities, a measurable increase in the need for juvenile detention beds. This list is not considered exhaustive. OJJDP's technical assistance provider to the States should be involved in the needs based analysis (without cost to the State or local jurisdiction). The needs based analysis must take into consideration and be coordinated with the State's plans and efforts toward a continuum of detention services for juvenile offenders.

(D) Each of the following four criteria must be met in order to ensure the requisite separateness of the two facilities:

(*1*) Total separation between juvenile and adult facility spatial areas such that there could be no sight or sound contact between juveniles and incarcerated adults in the facility. Total separation of spatial areas can be achieved architecturally, and must provide for no common use areas (time-phasing is not permissible).

(*2*) Total separation in all juvenile and adult program areas, including recreation, education, counseling, dining, sleeping, and general living activities. There must be an independent and comprehensive operational plan for the juvenile detention center which provides for a full range of separate program services. No program activities may be shared by juveniles and incarcerated adults. However, equipment and other resources may be used by both populations subject to security concerns

and the criterion in paragraph (e)(3)(i)(A) of this section.

(3) Separate staff for the juvenile and adult populations, including management, security staff, and direct care staff. Specialized services staff who are not normally in contact with detainees, or whose infrequent contacts occur under conditions of separation of juveniles and adults, can serve both populations, subject to State standards or licensing requirements. The day to day management, security and direct care functions of the juvenile detention center must be vested in a totally separate staff, dedicated solely to the juvenile population.

(4) In States that have established standards or licensing requirements for juvenile detention facilities, the juvenile facility must meet the standards (on the same basis as a free-standing juvenile detention center) and be licensed as appropriate. If there are no State standards or licensing requirements, then the jurisdiction must cooperate in a preapproval review of its physical plant, staffing patterns, and programs by an organization selected and compensated by OJJDP. This review will be based on prevailing national juvenile detention standards, and will inform the State's approval process and concurrence by OJJDP.

(ii) The State must initially determine that the four criteria are fully met. Upon such determination, the State must submit to OJJDP a request for concurrence with the State finding that a separate juvenile detention facility exists. To enable OJJDP to assess the separateness of the two facilities, sufficient documentation must accompany the request to demonstrate that each criterion has been met. It is incumbent upon the State to make the initial determination through an on-site facility (or full plan) review and, through the exercise of its oversight responsibility, to ensure that the separate character of the juvenile facility is maintained by continuing to fully meet the four criteria set forth in paragraph (e)(3)(i)(D) of this section.

(iii) Collocated juvenile detention facilities approved by the State and concurred with by OJJDP on or before March 31, 1995 are to be reviewed against the regulatory criteria and OJJDP policies in effect at the time of the initial approval and concurrence, except that all collocated facilities are subject to the separate staff requirement established by the 1992 Amendments to the JJDP Act, and set forth in paragraph (e)(3)(i)(C) of this section. Unless otherwise indicated, review of previously approved collocated facilities is expected to occur as part of the State's regularly scheduled monitoring activities.

(iv) OJJDP's concurrence on facilities considered after March 31, 1995 is limited to one year and thereafter, on an annual basis. An on-site review of the facility must be conducted by the compliance monitoring staff person(s) in the State agency administering the JJDP Act Formula Grants Program. OJJDP's concurrence is required annually, and may involve on-site review by OJJDP staff. The purpose of the annual review is to determine if compliance with the criteria set forth in paragraphs (e)(3)(i)(A) through (D) of this section is being maintained, and to assess the continuing need for the collocated facility and the jurisdiction's long term plan to move to a free-standing facility (single jurisdiction or regional) or other detention alternatives unless the juvenile detention center is part of a justice center, in which case the annual review will look solely at the four regulatory criteria. An example of a justice center is a building or a set of buildings in which various agencies are housed, such as law enforcement, courts, State's attorneys, public defenders, and probation, in addition to an adult jail or lockup, and a juvenile detention facility.

(v) In order to receive OJJDP's initial and any subsequent concurrences, a juvenile detention facility approved after March 31, 1995 must, pursuant to a written policy and procedure, only provide secure custody for juvenile criminal-type offenders; status offenders accused of violating a VCO; and adjudicated delinquents and VCO violators who are awaiting disposition hearings or transfer to a long term juvenile correctional facility.

14. Paragraph (e)(4) in § 31.303 is removed and paragraph (e)(5) is redesignated as paragraph (e)(4) and revised to read as follows:

* * * * *

(e) * * *

(4) *Jail removal compliance.* Those States which, based upon the most recently submitted monitoring report, have been found to be in full compliance with Section 223(a)(14) may, in lieu of addressing paragraphs (e)(1) and (2) of this section, provide an assurance that adequate plans and resources are available to maintain full compliance.

(i) * * * Prior to issuance of the order, the juvenile must have received the full due process rights guaranteed by the Constitution of the United States.

(vi) * * * This determination must be preceded by a written report to the judge that: reviews the behavior of the juvenile and the circumstances under which the juvenile was brought before the court and made subject to such order; determines the reasons for the juvenile's behavior; and determines whether all dispositions other than secure confinement have been exhausted or are clearly inappropriate. This report must be prepared and submitted by an appropriate public agency (other than a court or law enforcement agency). A multidisciplinary review team that operates independently of courts or law enforcement agencies would satisfy this requirement even if some individual members of the team represent court or law enforcement agencies.

18. Paragraph (f)(4)(v) in § 31.303 is amended by revising the last sentence to read as follows:

(v) * * * OJJDP strongly recommends that jails and lockups that incarcerate juveniles be required to provide youth specific admissions screening and continuous visual supervision of juveniles incarcerated pursuant to this exception.

(4) * * *

(vi) Pursuant to Section 223(a)(14) of the JJDP Act, the non-MSA (low population density) exception to the jail and lockup removal requirements as described in paragraphs (f)(4) (i) through (v) of this section shall remain in effect through 1997, and shall allow for secure custody beyond the twenty four hours period described in paragraph (f)(4)(i) of this section when the facility is located where conditions of distance to be traveled or the lack of highway, road, or other ground transportation do not allow for court appearances within twenty four hours, so that a brief (not to exceed an additional forty eight hours) delay is excusable; or the facility is located where conditions of safety exist (such as severely adverse, life-threatening weather conditions that do not allow for reasonably safe travel), in which case the time for an appearance may be delayed until twenty four hours after the time that such conditions allow for reasonably safe travel. States may use these additional statutory allowances only where the precedent requirements set forth in paragraphs (f)(4) (i) through (v) of this section have been complied with. This may necessitate statutory or judicial (court rule or opinion) relief within the State from the twenty four hours initial court appearance standard required by paragraph (f)(4)(i) of this section. States must document and describe in their annual monitoring report to OJJDP, the specific circumstances surrounding each individual use of the distance/ ground transportation, and weather allowances.

20. Paragraph (f)(5) in § 31.303 is revised to read as follows:

21. Paragraph (f)(6) introductory text in § 31.303 is revised to read as follows:

* * * * *

(f) * * *

(6) *Compliance.* The State must demonstrate the extent to which the requirements of Sections 223(a)(12)(A), (13), (14), and (23) of the Act are met. If the State fails to demonstrate full compliance with Sections 223(a)(12)(A) and (14), and compliance with Sections 223(a)(13) and (23) by the end of the fiscal year for any fiscal year beginning with 1994, the State's allotment under Section 222 will be reduced by twenty five percent for each such failure, provided that the State will lose its eligibility for any allotment unless: the State agrees to expend all remaining funds (except planning and administration, State advisory group set-aside funds and Indian tribe pass-through funds) for the purpose of achieving compliance with the mandate(s) for which the State is in noncompliance; or the Administrator makes discretionary determination that the State has substantially complied with the mandate(s) for which there is noncompliance and that the State has made through appropriate executive or legislative action, an unequivocal commitment to achieving full compliance within a reasonable time. In order for a determination to be made that a State has substantially complied with the mandate(s), the State must demonstrate that it has: Diligently carried out the plan approved by OJJDP; demonstrated significant progress toward full compliance; submitted a plan based on an assessment of current barriers to DMC; and provided an assurance that added resources will be expended, be it formula grants or other funds to achieve compliance. Where a State's allocation is reduced, the amount available for planning and administration and the required pass-through allocation, other than State advisory group set-aside, will be reduced because they are based on the reduced allocation.

22. Paragraph (f)(6)(i) in Section 31.303 is revised to read as follows:

* * * * *

(f) * * *

(6) * * *

(i) Substantial compliance with Section 223(a)(12)(A) can be used to demonstrate eligibility for FY 1993 and prior year formula grant allocations if, within three years of initial plan submission, the State has achieved a seventy five percent reduction in the aggregate number of status offenders and nonoffenders held in secure detention or correctional facilities, or removal of 100 percent of such juveniles from secure correctional facilities only. In addition, the State must make an unequivocal commitment, through appropriate executive or legislative action, to achieving full compliance by FY 1994. Full compliance is achieved when a State has removed 100 percent of such juveniles from secure detention and correctional facilities or can demonstrate full compliance with de minimis exceptions pursuant to the policy criteria published in the Federal Register of January 9, 1981. (Available from the Office of Juvenile Justice and Delinquency Prevention, 633 Indiana Avenue, NW., Washington, DC 20531.)

* * * * *

23. Paragraph (f)(6)(iii)(A) in § 31.303 is removed and paragraphs (f)(6)(iii) (B), (C), (D), and (E) are redesignated as paragraphs (f)(6)(iii) (A), (B), (C), and (D), respectively.

24. Paragraph (f)(7) in Section 31.303 is revised to read as follows:

* * * * *

(f) * * *

(7) *Monitoring report exemptions.* States which have been determined by the OJJDP Administrator to have achieved full compliance with Sections 223 (a)(12)(A), (a)(14), and compliance with Section 223(a)(13) of the JJDP Act and wish to be exempted from the annual monitoring report requirements must submit a written request to the OJJDP Administrator which demonstrates that:

(i) The State provides for an adequate system of monitoring jails, law enforcement lockups, detention facilities, to enable an annual determination of State compliance with Sections 223(a) (12)(A), (13), and (14) of the JJDP Act;

(ii) State legislation has been enacted which conforms to the requirements of Sections 223(a) (12)(A), (13), and (14) of the JJDP Act; and

(iii) The enforcement of the legislation is statutorily or administratively prescribed, specifically providing that:

(A) Authority for enforcement of the statute is assigned;

(B) Time frames for monitoring compliance with the statute are specified; and

(C) Adequate procedures are set forth for enforcement of the statute and the imposition of sanctions for violations.

* * * * *

25. Paragraph (g) introductory text in Section 31.303 is revised to read as follows:

* * * * *

(g) *Juvenile crime analysis.* Pursuant to Section 223(a)(8), the State must conduct an analysis of juvenile crime problems, including juvenile gangs that commit crimes, and juvenile justice and delinquency prevention needs within the State, including those geographical areas in which an Indian tribe performs law enforcement functions. The analysis and needs assessment must include educational needs, gender specific services, delinquency prevention and

treatment services in rural areas, and mental health services available to juveniles in the juvenile justice system. The analysis should discuss barriers to accessing services and provide a plan to provide such services where needed.

* * * * *

26. Paragraph (h) in § 31.303 is amended by adding a sentence at the end of the paragraph to read as follows:

* * * * *

(h) * * * The annual performance report must be submitted to OJJDP no later than June 30 and address all formula grant activities carried out during the previous complete calendar year, federal fiscal year, or State fiscal year for which information is available, regardless of which year's formula grant funds were used to support the activities being reported on, e.g., during a reporting period, activities may have been funded from two or more formula grant awards.

* * * * *

27. Paragraph (j) in § 31.303 is revised to read as follows:

* * * * *

(j) *Minority detention and confinement.* Pursuant to Section 223(a)(23) of the JJDP Act, States must demonstrate specific efforts to reduce the proportion of juveniles detained or confined in secure detention facilities, secure correctional facilities, jails and lockups who are members of minority groups if such proportion exceeds the proportion such groups represent in the general population, viz., in most States, youth between ages ten-seventeen are subject to secure custody. It is essential that States approach this statutory mandate in a comprehensive manner. Compliance with this provision is achieved when a State meets the requirements set forth in paragraphs (j)(1) through (3) of this section:

(1) *Identification.* Provide quantifiable documentation (State, county and local level) in the State's FY 1994 Formula Grant Plan (and all subsequent Multi-Year Plans) Juvenile Crime Analysis and Needs assessment to determine whether minority juveniles are disproportionately detained or confined in secure detention and correctional facilities, jails and lockups in relation to their proportion of the State juvenile population. Guidelines are provided in the OJJDP Disproportionate Minority Confinement Technical Assistance Manual (see Phase I Matrix). (Available from the Office of Juvenile Justice and Delinquency Prevention, 633 Indiana Avenue, NW., Washington, DC 20531.) Where quantifiable documentation is not available to determine if disproportionate minority confinement exists in secure detention and correctional facilities, jails and lockups, the State must provide a time-limited plan of action, not to exceed six months, for developing and implementing a system for the ongoing collection, analysis and dissemination of information regarding minorities for those facilities where documentation does not exist.

(2) *Assessment.* Each State's FY 1994 Formula Grant Plan must provide a completed assessment of disproportionate minority confinement. Assessments must, at minimum, identify and explain differences in arrest, diversion and adjudication rates, court dispositions other than incarceration, the rates and periods of prehearing detention in and dispositional commitments to secure facilities of minority youth in the juvenile justice system, and transfers to adult court (see Phase II Matrix). If a completed assessment is not available, the State must submit a time-limited plan (not to exceed twelve months from submission of the Formula Grant Application) for completing the assessment.

(3) *Intervention.* Each State's FY 1995 Formula Grant Plan must, where disproportionate confinement has been demonstrated, provide a time-limited plan of action for reducing the disproportionate confinement of minority juveniles in secure facilities. The intervention plan shall be based on the results of the assessment, and must include, but not be limited to the following:

(i) *Diversion.* Increasing the availability and improving the quality of diversion programs for minorities who come in contact with the juvenile justice system, such as police diversion programs;

(ii) *Prevention.* Providing developmental, operational, and assessment assistance (financial and/or technical) for prevention programs in communities with a high percentage of minority residents with emphasis upon support for community-based organizations (including non-traditional organizations) that serve minority youth;

(iii) *Reintegration.* Providing developmental, operational, and assessment assistance (financial and/or technical) for programs designed to reduce recidivism by facilitating the reintegration of minority youth in the community following release from dispositional commitments to reduce recidivism;

(iv) *Policies and procedures.* Providing financial and/or technical assistance that addresses necessary changes in statewide and local, executive, judicial, and legal representation policies and procedures; and

(v) *Staffing and training.* Providing financial and/or technical assistance that addresses staffing and training needs that will positively impact the disproportionate confinement of minority youth in secure facilities.

(4) The time-limited plans of action set forth in paragraphs (j)(1), (2) and (3) of this section must include a clear indication of current and future barriers; which agencies, organizations, or individual(s) will be responsible for taking what specific actions; when; and what the anticipated outcomes are. The interim and final outcomes from implementation of the time-limited plan of action must be reported in each State's Multi-Year Plans and Annual Plan Updates. Final outcomes for individual project awards are to be included with each State's annual performance report (see paragraph (h) of this section).

(5) Technical assistance is available through the OJJDP Technical Assistance Contract to help guide States with the data collection and analysis, and with programmatic elements of this requirement. Information from the OJJDP Special Emphasis Initiative on Disproportionate Minority Confinement pilot sites will be disseminated as it becomes available.

(6) For purposes of this statutory mandate, minority populations are defined as: African-Americans, American Indians, Asians, Pacific Islanders, and Hispanics.

28. Section 31.403 is revised to read as follows:

§ 31.403 Civil Rights Requirements.

The State assures that it will comply, and that subgrantees and contractors will comply, with all applicable Federal non-discrimination requirements, including:

(a) Section 809(c) of the Omnibus Crime Control and Safe Streets Act of 1968, as amended, and made applicable by Section 299(A) of the Juvenile Justice and Delinquency Prevention Act of 1974, as amended;

Formula Grants; Correction

Date: April 13, 1995.

AGENCY: Department of Justice, Office of Justice Programs, Office of Juvenile Justice and Delinquency Prevention.

ACTION: Correction to final regulation.

SUMMARY: This document contains corrections to the Final Regulation, revising 28 CFR part 31, which was published in the **Federal Register** on Friday, March 10, 1995, (60 FR 13330). The regulation revisions provided clarification and guidance to States in the formulation, submission and implementation of the State Formula Grants Program under Part B of Title II of the Juvenile Justice and Delinquency Act of 1974, as amended by the Juvenile Justice and Delinquency Prevention Amendments of 1992 (Pub. L. 102-586, November 18, 1992).

The 1992 Amendments reauthorize and modify the Federal assistance program to State, local governments, and private not-for-profit agencies for the prevention and control of delinquency and improvement of the juvenile justice system. This final revision to the existing regulation provides clarification and guidance to States in the formulation, submission, and implementation of State Formula Grants Program plans and determinations of State compliance with plan requirements. It provides additional flexibility and guidance to participating States while strengthening several key provisions related to the deinstitutionalization, separation, jail and lockup removal, and disproportionate minority confinement plan requirements of the JJDP Act.

EFFECTIVE DATE: This regulation is effective March 10, 1995.

FOR FURTHER INFORMATION CONTACT: Roberta Dorn, Director, State Relations and Assistance Division, Office of Juvenile Justice and Delinquency Prevention (OJJDP), 633 Indiana Avenue NW., Room 543, Washington, D.C. 20531; (202) 307-5924.

SUPPLEMENTARY INFORMATION: The corrections include the requirement that collocated juvenile detention facilities approved by the State and concurred with by OJJDP on or before June 30, 1995, be reviewed against the regulatory criteria and OJJDP policies in effect at the time of the initial approval and concurrence. Facilities approved after the effective date of this regulation and prior to July 1, 1995, will be reviewed against the regulatory criteria in effect on the day before the effective date of this regulation. For those collocated juvenile detention facilities considered after June 30, 1995, OJJDP's concurrence is limited to one year and, thereafter, will be reviewed on an annual basis. The requirement that in order to receive OJJDP's initial and subsequent concurrences, a collocated juvenile detention facility must only provide secure custody for juvenile criminal-type offenders, status offenders accused of violating a valid court order, and adjudicated delinquents and valid court order violators who are awaiting disposition hearings or transfer to a long term juvenile correctional facility, has been eliminated.

Need for Correction

As published in the **Federal Register** on March 10, 1995, (60 FR 13330), the Final Regulation was an earlier draft version that is materially different from the final draft that was intended to be published. These errors are in need of correction.

Correction of Publication

Accordingly, the Final Regulation, as published in the **Federal Register** on March 10, 1995, which was the subject of FR Doc. 95-5919, is corrected as follows:

§ 31.301 [Corrected]

§ 31.302 [Corrected]

Paragraph 2. On page 13334 in amendatory instruction 7, paragraph (b)(2) of § 31.302 was revised. Paragraph (b)(2) of § 31.302 is corrected to read as follows:

§ 31.303 [Corrected]

Paragraph 3. On page 13335, in the second column, in amendatory instruction 11, paragraph (d)(1)(i) of § 31.303 was revised. Paragraph (d)(1)(i) of § 31.303, line ten, the word "no" is corrected to read "any".

Paragraph 4. On page 13335 in amendatory instruction 13, paragraph (e)(3) of § 31.303 was revised. Paragraph (e)(3) of § 31.303 is corrected by removing (e)(3)(v). As corrected, § 31.303(e)(3) reads as follows:

* * * * *

(e) * * *

(3) *Collocated facilities.* (i) Determine whether or not a facility in which juveniles are detained or confined is an adult jail or lockup. The JJDP Act prohibits the secure custody of juveniles in adult jails and lockups, except as otherwise provided under the Act and implementing OJJDP regulations. Juvenile facilities collocated with these adult facilities are considered adult jails or lockups unless the paragraph (e)(3)(i)(D) (1)-(4) criteria established in this section are complied with and the determinations and concurrences set forth in paragraph (e)(3) (ii), (iii), and (iv) of this section have been made.

(A) A collocated facility is a juvenile facility that is located in the same building as an adult jail or lockup, or is part of a related complex of buildings located on the same grounds as an adult jail or lockup. A complex of buildings

is considered "related" when it shares physical features such as walls and fences services beyond mechanical services (heating, air conditioning, water and sewer), or the specialized services that are allowable under paragraph (e)(3)(i)(D)(3) of this section.

(B) The State, with OJJDP concurrence, must determine whether a collocated facility qualifies as a separate juvenile detention facility under the four criteria set forth in paragraph (e)(3)(i)(D) (1)–(4) of this section for the purpose of monitoring compliance with section 223(a) (12)(A), (13), and (14) of the JJDP Act.

(C) A needs based analysis must precede a jurisdiction's request for State approval and be included with the request for OJJDP concurrence that a collocated facility qualifies as a juvenile detention facility. The needs based analysis should include, but is not limited to, consideration of such factors as excessive travel time to an existing juvenile detention center, crowding in an existing facility (despite the use of objective detention criteria), obsolescence of an existing facility, and, in areas where there are no juvenile detention facilities, a measurable increase in the need for juvenile detention beds. OJJDP's technical assistance provider to the States should be involved in the needs based analysis (without cost to the State or local jurisdiction). The needs based analysis must take into consideration and be coordinated with the State's plans and programs designed to establish a continuum of detention care and to assist detention facilities to provide a full range of services for juvenile offenders.

(D) Each of the following four criteria must be met in order to ensure the requisite separateness of a juvenile detention facility that is collocated with an adult jail or lockup:

(1) Total separation between juvenile and adult facility spatial areas such that there could be no sight or sound contact between juveniles and incarcerated adults in the facility. Total separation of spatial areas can be achieved architecturally, and must provide for no common use areas (time-phasing is not permissible);

(2) Total separation in all juvenile and adult program areas, including recreation, education, counseling, dining, sleeping, and general living activities. There must be an independent and comprehensive operational plan for the juvenile detention center which provides for a full range of separate program services. No program activities may be shared by juveniles and incarcerated adults. However, equipment and other resources may be used by both populations subject to security concerns and the criterion in paragraph (e)(3)(i)(D)(1) of this section;

(3) Separate staff for the juvenile and adult populations, including management, security, and direct care staff. Staff providing specialized services (food service, laundry, maintenance and engineering, etc.), who are not normally in contact with detainees, or whose infrequent contacts occur under conditions of separation of juveniles and adults, can serve both populations (subject to State standards or licensing requirements). The day to day management, security and direct care functions of the juvenile detention center must be vested in a totally separate staff, dedicated solely to the juvenile population within the collocated facilities; and

(4) In States that have established standards or licensing requirements for juvenile detention facilities, the juvenile facility must meet the standards (on the same basis as a free-standing juvenile detention center) and be licensed as appropriate. If there are no State standards or licensing requirements, then the jurisdiction must cooperate in a preapproval review of its physical plant, staffing patterns, and programs by an organization selected and compensated by OJJDP. This review will be based on prevailing national juvenile detention standards, and will inform the State's approval process and concurrence by OJJDP.

(ii) The State must initially determine that the four criteria are fully met. Upon such determination, the State must submit to OJJDP a request for concurrence with the State's finding that a separate juvenile detention facility exists. To enable OJJDP to assess the separateness of the two facilities, sufficient documentation must accompany the request to demonstrate that each criterion has been met. It is incumbent upon the State to make the initial determination through an on-site facility (or full construction and operations plan) review and, through the exercise of its oversight responsibility, to ensure that the separate character of the juvenile detention facility is maintained by continuing to fully meet the four criteria set forth in paragraphs (e)(3)(i)(D) (1)–(4) of this section.

(iii) Collocated juvenile detention facilities approved by the State and concurred with by OJJDP on or before June 30, 1995, are to be reviewed against the regulatory criteria and OJJDP policies in effect at the time of the initial approval and concurrence, except that facilities approved after the effective date of this regulation, but prior to July 1, 1995, shall be reviewed against the regulatory criteria in effect on the day before the effective date of this regulation, and except that all collocated facilities are subject to the separate staff requirement established by the 1992 Amendments to the JJDP Act, as set forth in paragraph (e)(3)(i)(D)(3) of this section. Unless otherwise indicated, review of previously approved collocated facilities is expected to occur as part of the State's regularly scheduled monitoring activities.

(iv) OJJDP's concurrence for facilities considered after June 30, 1995, is limited to one year and thereafter, will be reviewed on an annual basis. An annual on-site review of the facility must be conducted by the compliance monitoring staff person(s) representing or employed by the State agency administering the JJDP Act Formula Grants Program. OJJDP's concurrence is required annually, and may involve on-site review by OJJDP staff. The purpose of the annual review is to determine if compliance with the criteria set forth in paragraph (e)(3)(i)(D) (1)–(4) of this section is being maintained, and to assess the continuing need for the collocated facility and the jurisdiction's long term plan to move to a free-standing facility (single jurisdiction or regional) or other detention alternative, unless the juvenile detention center is part of a justice center, in which case the annual review will look solely at the four regulatory criteria. An example of a justice center is a building or a set of buildings in which various agencies are housed, such as law enforcement, courts, State's attorneys, public defenders, and probation, in addition to an adult jail or lockup and a juvenile detention facility.

Paragraph 5. On page 13337 in amendatory instruction 20, paragraph (f)(5) of section 31.303 was revised. Paragraph (f)(5) of § 31.303 is corrected by removing (f)(5)(i)(D) and redesignating paragraphs (f)(5)(i) (E), (F), (G) and (H) as paragraphs (f)(5)(i) (D), (E), (F) and (G), respectively. As corrected, § 31.303(f)(5) reads as follows:

*

(L) The total number of juveniles accused of a criminal-type offense who were held in excess of 24 hours but not more than an additional 48 hours in adult jails, lockups and collocated facilities not concurred with by OJJDP pursuant to the "removal exception" as noted in paragraph (f)(4) of this section, due to conditions of distance or lack of ground transportation; and

(M) The total number of juveniles accused of a criminal-type offense who were held in excess of 24 hours, but not more than an additional 24 hours after the time such conditions as adverse weather allow for reasonably safe travel, in adult jails, lockups and collocated facilities not concurred with by OJJDP, in areas meeting the "removal exception" as noted in paragraph (f)(4) of this section.

Paragraph 6. On page 13338 in amendatory instruction 23, paragraph (f)(6)(iii)(A) in § 31.303 was removed and paragraphs (f)(6)(iii) (B), (C), (D), and (E) of § 31.303 were redesignated as paragraphs (f)(6)(iii) (A), (B), (C), and (D) of § 31.303, respectively. Redesignated

paragraph (f)(6)(iii)(B) of § 31.303 is corrected to read as follows:

* * * * *

(f) * * *

(6) * * *

(iii) * * *

(B) Full compliance with de minimis exceptions is achieved when a State demonstrates that it has met the standard set forth in either of paragraphs (f)(6)(iii)(B) (1) or (2) of this section:

(*1*) *Substantive de minimis standard.* To comply with this standard the State must demonstrate that each of the following requirements have been met:

(*i*) State law, court rule, or other statewide executive or judicial policy clearly prohibits the detention or confinement of all juveniles in circumstances that would be in violation of section 223(a)(14);

(*ii*) All instances of noncompliance reported in the last submitted monitoring report were in violation of or departures from, the State law, rule, or policy referred to in paragraph (f)(6)(iii)(B)(1)(i) of this section;

(*iii*) The instances of noncompliance do not indicate a pattern or practice but rather constitute isolated instances;

(*iv*) Existing mechanisms for the enforcement of the State law, rule, or policy referred to in paragraph (f)(6)(iii)(B)(1)(i) of this section are such that the instances of noncompliance are unlikely to recur in the future; and

(*v*) An acceptable plan has been developed to eliminate the noncompliant incidents and to monitor the existing mechanism referred to in paragraph (f)(6)(iii)(B)(1)(iv) of this section.

(*2*) *Numerical de minimis standard.* To comply with this standard the State must demonstrate that each of the following requirements under paragraphs (f)(6)(iii)(B)(2) (i) and (ii) of this section have been met:

(*i*) The incidents of noncompliance reported in the State's last submitted monitoring report do not exceed an annual rate of 9 per 100,000 juvenile population of the State; and

(*ii*) An acceptable plan has been developed to eliminate the noncompliant incidents through the enactment or enforcement of State law, rule, or statewide executive or judicial policy, education, the provision of alternatives, or other effective means.

(*iii*) *Exception.* When the annual rate for a State exceeds 9 incidents of noncompliance per 100,000 juvenile population, the State will be considered ineligible for a finding of full compliance with de minimis exceptions under the numerical de minimis standard unless the State has recently enacted changes in State law which have gone into effect and which the State demonstrates can reasonably be expected to have a substantial, significant and positive impact on the State's achieving full (100%) compliance or full compliance with de minimis exceptions by the end of the monitoring period immediately following the monitoring period under consideration.

(*iv*) *Progress.* Beginning with the monitoring report due by December 31, 1990, any State whose prior full compliance status is based on having met the numerical de minimis standard set forth in paragraph (f)(6)(iii)(B)(2)(i) of this § 31.303, must annually demonstrate, in its request for a finding of full compliance with de minimis exceptions, continued and meaningful progress toward achieving full (100%) compliance in order to maintain eligibility for a continued finding of full compliance with de minimis exceptions.

(*v*) *Request submission.* Determinations of full compliance and full compliance with de minimis exceptions are made annually by OJJDP following submission of the monitoring report due by December 31 of each calendar year. Any State reporting less than full (100%) compliance in any annual monitoring report may request a finding of full compliance with de minimis exceptions under paragraph (f)(6)(iii)(B) (1) or (2) of this section. The request may be submitted in conjunction with the monitoring report, as soon thereafter as all information required for a determination is available, or be included in the annual State plan and application for the State's Formula Grant Award.

* * * * *

Paragraph 7. On page 13338 in amendatory instruction 23, paragraph (f)(6)(iii)(D) of § 31.303 was redesignated as paragraph (f)(6)(iii)(C) of § 31.303. Redesignated paragraph (f)(6)(iii)(C) of § 31.303 is corrected to read as follows:

* * * * *

(f) * * *

(6) * * *

(iii) * * *

(C) *Waiver.* Failure to achieve full compliance as defined in this section shall terminate any State's eligibility for FY 1993 and prior year formula grants funds unless the Administrator of OJJDP waives termination of the State's eligibility. In order to be eligible for a waiver of termination, a State must request a waiver and demonstrate that it meets the standards set forth in paragraph (f)(6)(iii)(C) (1) through (7) of this section:

(1) Agrees to expend all of its formula grant award except planning and administration, advisory group set-aside, and Indian tribe pass-through funds, to achieve compliance with section 223(a)(14); and

(2) Removed all status and nonoffender juveniles from adult jails and lockups. Compliance with this standard requires that the last submitted monitoring report demonstrate that no status offender (including those accused of or adjudicated for violating a valid court order) or nonoffender juveniles were securely detained in adult jails or lockups for any length of time; or that all status offenders and nonoffenders securely detained in adult jails and lockups for any length of time were held in violation of an enforceable State law and did not constitute a pattern or practice within the State; and

(3) Made meaningful progress in removing juvenile criminal-type offenders from adult jails and lockups. Compliance with this standard requires the State to document a significant reduction in the number of jurisdictions securely detaining juvenile criminal-type offenders in violation of section 223(a)(14) of the JJDP Act; or a significant reduction in the number of facilities securely detaining such juveniles; or a significant reduction in the average length of time each juvenile criminal-type offender is securely detained in an adult jail or lockup; or State legislation has recently been enacted and taken effect and which the State demonstrates will significantly impact the secure detention of juvenile criminal-type offenders in adult jails and lockups; and

(4) Diligently carried out the State's jail and lockup removal plan approved by OJJDP. Compliance with this standard requires that actions have been undertaken to achieve the State's jail and lockup removal goals and objectives within approved time lines, and that the State Advisory Group, required by section 223(a)(3) of the JJDP Act, has maintained an appropriate involvement in developing and/or implementing the State's plan; and

(5) Submitted an acceptable plan, based on an assessment of current jail and lockup removal barriers within the State, to eliminate noncompliant incidents; and

(6) Achieved compliance with section 223(a)(15) of the JJDP Act; and

(7) Demonstrates an unequivocal commitment, through appropriate executive or legislative action, to achieving full compliance.

Paragraph 8. On page 13338 in amendatory instruction 23, paragraph (f)(6)(iii)(E) of § 31.303 was redesignated as paragraph (f)(6)(iii)(D) of § 31.303. Redesignated paragraph (f)(6)(iii)(D) is corrected to read as follows:

* * * * *

(f) * * *

(6) * * *

(iii) * * *

(D) *Waiver maximum.* A State may receive a waiver of termination of eligibility from the Administrator under paragraph (f)(6)(iii)(C) of this section for a combined maximum of four Formula Grant Awards through Fiscal Year 1993. No additional waivers will be granted.

Schedule for Rating Disabilities; Gynecological Conditions and Disorders of the Breast

AGENCY: Department of Veterans Affairs.

ACTION: Final regulation.

SUMMARY: This document amends the section of the Department of Veterans Affairs (VA) Schedule for Rating Disabilities on Gynecological Conditions and Disorders of the Breast. This amendment is based on a General Accounting Office (GAO) study noting that there has been no comprehensive review of the rating schedule since 1945, and recommending that such a review be conducted. The intended effect of this action is to update the gynecological and breast disorders section of the rating schedule to ensure that it uses current medical terminology, unambiguous criteria, and that it reflects medical advances which have occurred since the last review.

EFFECTIVE DATE: This amendment is effective May 22, 1995.

FOR FURTHER INFORMATION CONTACT: Caroll McBrine, M.D., Consultant, Regulations Staff, Compensation and Pension Service, Veterans Benefits Administration, Department of Veterans Affairs, 810 Vermont Avenue NW., Washington, DC 20420, (202) 273–7210.

SUPPLEMENTARY INFORMATION: In December 1988, the General Accounting Office (GAO) recommended that VA prepare a plan for a comprehensive review of the rating schedule and, based on the results, revise the medical criteria accordingly. As part of the process to implement these recommendations, VA published in the Federal Register of March 26, 1992 (57 FR 10450–53) a proposal to amend 38 CFR 4.116 and 4.116a. Interested persons were invited to submit written comments, suggestions, or objections on or before April 27, 1992. We received comments from Disabled American Veterans, Veterans of Foreign Wars, Paralyzed Veterans of America, and from several VA employees.

Two commenters suggested that we revise the proposed criteria for rating endometriosis under diagnostic code (DC) 7629, placing the emphasis on pain and abnormal bleeding rather than on headaches.

Upon further review, VA concurs that symptoms such as headaches and muscle cramps are not the most appropriate criteria for evaluating endometriosis, and we have therefore modified the proposed criteria. At the 50 percent level, the proposed criteria specified endometriomas larger than 2×2 cm., ovary or tubes bound down or obstructed by adhesions, or obliteration of the cul-de-sac. These criteria have been modified to call for lesions involving the bladder or bowel confirmed by laparoscopy, pelvic pain or heavy or irregular bleeding not controlled by treatment, and bowel or bladder symptoms. The proposed 30 percent level called for several lesions or minimal adhesions with side effects such as headaches, muscle cramps, or edema despite treatment; but the schedule has been revised to require pelvic pain or heavy or irregular bleeding not controlled by treatment.

One commenter suggested that we include 10 percent and 100 percent levels for evaluation of endometriosis.

Upon further consideration we have added a 10 percent level for those cases in which pain or bleeding requires continuous treatment. However, endometriosis does not in our judgment reach the level of total disability. Some women have incapacitating symptoms, but on a cyclic basis related to their menstrual periods. Others have milder symptoms on a constant basis. Providing a 50 percent level recognizes the substantial level of disability that women may experience because of endometriosis, but we believe that, in general, the highest level of disability assigned for a condition should not exceed the evaluation for absence of the organ involved. In this case, 50 percent for removal of the uterus and both ovaries is the highest post-surgical evaluation.

One individual suggested that a convalescent period of six months at 100 percent should be provided for endometriosis following surgery or other corrective procedure.

Judge Karen Perdue

Dear Judge Perdue:

Enclosed is a copy of the final revised OJJDP Formula Grants Program regulation. The regulation has been revised with the goal of providing enhanced flexibility to States and local units of government in responding to increases in serious juvenile crime while, at the same time, assuring that the interests of young people who come to the attention of the juvenile justice system are protected. Please review the revised regulation for a full discussion of the changes that have taken place in the following areas:

- Clarification of sight and sound separation between juveniles and incarcerated adults;
- Permitting the transfer of delinquents to adult institutions at the age of criminal responsibility;
- Expansion of the 6-hour hold exception to the jail and lockup removal requirement to include both a six hour period prior to and following a court appearance;
- Allowance of time-phased use of shared program space in collocated adult and juvenile facilities;
- Clarification that the 24-hour hold exception for status and nonoffenders includes 24 hour periods both preceding and following an initial court appearance;
- Elimination of the reference to the use of multi-disciplinary review teams in relation to valid court order disposition hearings;
- Removal of the requirement that States describe the circumstances surrounding each instance where the distance and/or weather exceptions to the jail and lockup removal requirement are used;
- Modification of the provision that did not allow States that had failed to enact legislation providing for the separation of adults and juveniles in secure custody to qualify under the substantive de minimis standards; and
- Clarification of the regulation concerning compliance with the disproportionate minority confinement requirement.

The revisions to the regulation were made after giving careful consideration to the comments and recommendations submitted by numerous juvenile justice professionals and others interested in the welfare of our nation's youth and the safety of our communities. OJJDP deeply appreciates the contributions made by those who took the time to respond to our request for comment on the proposed regulatory changes.

The Office will undertake a widespread distribution of the revised regulation in order to inform a very broad audience of the changes as quickly as possible. On December 11, 1996, training concerning the revised regulation was provided to State Juvenile Justice Specialists in Baltimore, MD. If you have any questions or require clarification on any of the changes you may wish to talk with your State's Juvenile Justice Specialist or contact your OJJDP State Representative at (202) 307-5924.

Sincerely,

Shay Bilchik

Office of Juvenile Justice and Delinquency Prevention
Formula Grants Regulation Revision
Summary

Since early 1996, the Office of Juvenile Justice and Delinquency Prevention (OJJDP) has taken a comprehensive look at the regulation, 28 CFR Part 31, that guides the States' implementation of the Juvenile Justice and Delinquency Prevention (JJDP) Act of 1974, as amended. The Formula Grants program regulation has been modified periodically, usually following Congressional reauthorizations. The focus for the 1996 regulation review was to consider those changes which would be responsive to the expressed needs of States and localities while ensuring the safety of children in the justice system.

In April, OJJDP held two listening conferences, one in Idaho and another in New Jersey. At these meetings, the Office sought input from a cross section of those affected by the JJDP Act: judges, public defenders, prosecutors, sheriffs, other juvenile justice practitioners, and private citizens. At the same time, the Office sought written suggestions from State Agencies and State Advisory Groups charged with implementation of the Act. Recommendations were also received through meetings with public interest groups and youth advocacy organizations.

Based on the information received, OJJDP proposed a revised regulation for public comment in the Federal Register on July 3, 1996. Following the comment period, views from the field were considered and a Final Revised Regulation was published in the *Federal Register* on December 10, 1996. The final regulation, synopsized below, provides enhanced flexibility to State and local governments and reduces red tape related to program administration.

Deinstitutionalization of Status Offenders

Section 223(a)(12)(A) of the JJDP Act provides that status offenders and nonoffenders not be detained or confined in secure detention or correctional facilities. OJJDP policy has, since 1975, provided an exception to allow a status or nonoffender to be detained for up to 24 hours, exclusive of weekends and legal holidays, in a juvenile detention facility. The revised regulation expressly provides that it is permissible to hold an accused status offender or nonoffender in a secure juvenile detention facility for up to 24 hours, exclusive of weekends and legal holidays, prior to an initial court appearance, and for an additional 24 hours, exclusive of weekends and legal holidays, immediately following an initial court appearance.

The JJDP Act provides that status offenders found to have violated a Valid Court Order may be securely detained in a juvenile detention or correctional facility under an exception to Section 223(a)(12)(A). The definition of a Valid Court Order, under Section 103(16) of the JJDP Act, provides that before a disposition of placement in a secure detention facility or a secure correctional facility is entered, an appropriate public agency (other than a court or law enforcement agency) must review the case and submit a written report to the court. The implementing regulation provided an example of a multi-disciplinary review team as an appropriate public agency.

The revised regulation eliminates the regulatory language suggesting that jurisdictions use multi-disciplinary review teams to prepare and submit a written report to a judge who is considering an order that directs or authorizes the placement of a status offender in a secure facility for the violation of a Valid Court Order. Although a multi-disciplinary team is still an appropriate option, and is encouraged when practical, this suggestion led to some confusion and, therefore, the example is deleted.

Separation

Section 223(a)(13) provides that accused and adjudicated delinquent, status offender, and nonoffender juveniles shall not have contact with incarcerated adults. In order to meet this separation requirement, the prior regulation provided that while juveniles are in secure custody in an adult facility, sight and sound contact with adults is prohibited. When OJJDP began the process of reexamining the regulation, it became clear that some confusion existed with the definition of "sight and sound" contact. Therefore, sight contact is defined as clear visual contact between incarcerated adults who are in close proximity to juveniles alleged to be or found to be delinquent, status offenders, and nonoffenders in a secure institution. Sound contact is defined in the regulation as direct oral communication between incarcerated adults and juveniles in secure institutions. While separation must be provided through architectural or procedural means, the revised regulation provides that sight or sound contact that is both brief and inadvertent or accidental must be reported as a violation only if it occurs in secure areas of the facility that are dedicated to use by juvenile offenders, including any residential area. A residential area is an area used to confine individuals overnight, and may include sleeping, shower and toilet, and day room areas.

State laws are increasingly providing for the mandatory or permissible transfer of adjudicated delinquents to adult facilities once the delinquent has attained the age of full criminal responsibility established by State law. The revised regulation provides that the separation requirement of the Act no longer applies if the transfer or placement of an adjudicated delinquent who has reached the age of full criminal responsibility is required or authorized by State law.

The revised regulation modifies the prior compliance standard penalizing States that have not enacted laws, rules and regulations, or policies prohibiting the incarceration of all juvenile offenders under circumstances that would be in violation of Section 223(a)(13). These States were not eligible for a finding of compliance if any instances of noncompliance were sanctioned by State law, rule, regulation, or policy. The revised regulation establishes a single standard applicable to all States regardless of whether a law, rule, regulation, or policy exists, if compliance can be established under circumstances in which: 1) the instances of noncompliance do not indicate a pattern or practice; and either 2) adequate enforcement mechanisms exist; or 3) an acceptance plan has been developed to eliminate the noncompliant incidents.

Jail and Lockup Removal

Section 223(a)(14) provides that juveniles cannot be detained in any adult jail or lockup. Although not expressly provided in the prior regulation, OJJDP policy provided an exception to the jail and lockup removal requirement: an alleged delinquent could be detained, while separate from adults, for up to six hours for the purposes of identification, processing, and to arrange for release to parents or transfer to a juvenile facility. The regulation codifies this exception and extends it to include a six hour time period both immediately before and after a court appearance, provided that the juvenile has no sight or sound contact with incarcerated adults during the time the juvenile is in a secure custody status in the adult jail or lockup.

Sections 223(a)(14) (B) and (C) provide circumstances that extend the statutory 24-hour non Metropolitan Statistical Area (MSA) exception to the jail removal requirement based on distance/ground transportation and weather. The revised regulation removes previous regulatory language requiring States to document and describe, in their annual monitoring report, each individual use of these exceptions.

Collocated Juvenile and Adult Facilities

The regulation makes three revisions to the criteria to establish the existence of a separate juvenile detention facility that is collocated with an adult jail or lockup:

First, the regulation is modified to permit program space in collocated adult and juvenile facilities to be shared through time-phased use. While OJJDP's objective is to encourage the development and use of separately located juvenile facilities whenever possible, it is recognized that expecting every jurisdiction to create wholly separate juvenile facilities, including the duplication of costly infrastructure elements like gymnasiums, cafeterias, and classrooms, may result in those jurisdictions being unable to provide any secure juvenile detention capacity. The revised regulation makes it possible for more jurisdictions to provide collocated juvenile and adult facilities by removing the requirement that collocated facilities not share program space between juvenile and adult populations. Utilization of time-phasing will allow both juveniles and adults access to educational, vocational, and recreational areas of collocated facilities. It is important to note that time-phased use is explicitly limited to nonresidential areas of collocated facilities and requires the use of written procedures to ensure that no contact occurs between detained juveniles and incarcerated adults.

Second, the requirement that a needs-based analysis precede a jurisdiction's request for State approval of a juvenile facility that is collocated with an adult jail or lockup has been removed. Technical assistance will remain available to States and localities that wish to conduct such an analysis.

Finally, OJJDP's concurrence with a State's decision to approve a collocated facility will no longer be required. Annual on-site reviews by the State, coupled with OJJDP's periodic review of the adequacy of State monitoring systems, will ensure that each collocated juvenile detention facility meets the criteria to establish a collocated juvenile detention facility.

Disproportionate Minority Confinement (DMC)

Section 223(a)(23) of the JJDP Act provides that States are to determine if minority juveniles are disproportionately confined in secure detention and correctional facilities and, if so, to address any features of its system that may account for the disproportionate confinement of minority juveniles. The regulation clearly states the position of OJJDP that the DMC core requirement neither requires nor establishes numerical standards or quotas in order for a State to achieve or maintain compliance.

Questions regarding the Formula Grants Regulation may be directed to OJJDP's State Relations and Assistance Division, (202) 307-5924.

RIN 1121–AA43

Formula Grants

AGENCY: Office of Justice Programs, Office of Juvenile Justice and Delinquency Prevention, Department of Justice.

ACTION: Final rule.

SUMMARY: The Office of Juvenile Justice and Delinquency Prevention (OJJDP) of the U.S. Department of Justice is publishing the final revision of the existing Formula Grants Regulation, which implements part B of Title II of the Juvenile Justice and Delinquency Prevention (JJDP) Act of 1974, as amended by the Juvenile Justice and Delinquency Prevention Amendments of 1992.

This final regulation is a further clarification and modification of the regulations issued in March and April of 1995. It offers greater flexibility to States and local units of government in carrying out the Formula Grants Program requirements of the JJDP Act, while reinforcing the importance of complying with those underlying legal requirements and the policy objectives from which they stem.

The Department of Justice remains firmly committed to the core requirements of the JJDP Act, such as the obligation to maintain sight and sound separation between juveniles and adults. With that in mind, this regulation is expected to assist jurisdictions that are working diligently to comply with statutory and regulatory obligations by expressly providing such flexibility as State authorized transfers of delinquents who have reached the age of full criminal responsibility to the criminal justice system and by recognizing certain real-world factors which can make "perfect" compliance unrealistic. These regulatory changes are in no way intended to evidence any lessening of the Department's commitment to the core requirements.

EFFECTIVE DATE: This regulation is effective December 10, 1996.

SUPPLEMENTARY INFORMATION:

Description of Major Changes

Contact With Incarcerated Adults

The revised regulation provides definitions of sight and sound contact to assist in understanding the level of separation that is required under section 223(a)(13) of the JJDP Act (section 223(a)(13)). Sight contact is defined as clear visual contact between incarcerated adults who are in close proximity to juveniles alleged to be or found to be delinquent, status offenders, and nonoffenders in a secure institution. Sound contact is defined in the regulation as direct oral communication between incarcerated adults and juveniles in secure institutions. While separation must be provided through architectural or procedural means, the revised regulation provides that sight or sound contact that is both brief and inadvertent or accidental must be reported as a violation only if it occurs in secure areas of the facility that are dedicated to use by juvenile offenders, including any residential area. A residential area is an area used to confine individuals overnight, and may include sleeping, shower and toilet, and day room areas.

Placement of Delinquents in Adult Facilities

State laws are increasingly providing for the mandatory or permissible transfer (or placement) of adjudicated delinquents to adult facilities once the delinquent has attained the age of full criminal responsibility under State law. The revised regulation expressly provides that the section 223(a)(13) separation requirement is not violated as a result of contact between an adjudicated delinquent and adult criminal offenders in a secure institution once the adjudicated delinquent has reached the age of full criminal responsibility established by State law, provided that the transfer (or placement) of the adjudicated delinquent is required or authorized under State law.

Expansion of 6-Hour Hold Exception to Pre and Post Court Appearances

The revised regulation builds upon the existing authority to place an alleged or adjudicated delinquent juvenile in an adult jail or lockup for up to 6 hours by providing a 6 hour time period immediately before and/or after a court appearance, subject to the section 223(a)(13) separation requirement, during the time the delinquent juvenile is in a secure custody status in the adult jail or lockup.

Collocated Facilities

The revised regulation removes the requirement that a needs-based analysis precede a jurisdiction's request for State approval of a juvenile holding facility that is collocated with an adult jail or lockup to qualify as a separate juvenile detention facility. OJJDP concurrence with a State agency's decision to approve a collocated facility will no longer be required. On-site reviews by the State to determine compliance, coupled with OJJDP's statutorily required review of the adequacy of state monitoring systems, will be used to insure that each collocated juvenile detention facility meets and continues to meet the collocated juvenile detention facility criteria.

The revised regulation permits the sharing of common use nonresidential areas of collocated adult and juvenile facilities on a time-phased basis that prevents contact between juveniles and adults. Secure juvenile detention facilities around the country are routinely overcrowded. OJJDP's objective is to encourage the development and use of separately located juvenile facilities whenever possible. Still, it is recognized that expecting every jurisdiction to create wholly separate juvenile facilities, including the duplication of costly infrastructure elements like gymnasiums, cafeterias, and classrooms, may result in those jurisdictions being unable to provide any secure juvenile detention capacity. The revised regulation makes it possible for more jurisdictions to provide juvenile facilities by removing the requirement that collocated facilities not share program space between juvenile and adult populations. Utilization of time-phasing will allow both juveniles and adults access to available educational, vocational, and recreational areas of collocated facilities. Time-phased use is explicitly limited to nonresidential areas of collocated facilities and requires the use of written procedures to ensure that no contact occurs between detained juveniles and incarcerated adults.

Deinstitutionalization of Status Offenders

The revised regulation expressly provides, formalizing existing OJJDP policy, that it is permissible to hold an accused status offender or nonoffender in a secure juvenile detention facility for up to 24 hours, exclusive of weekends and legal holidays, prior to an initial court appearance and up to 24 hours, exclusive of weekends and legal

holidays, immediately following an initial court appearance.

Valid Court Order

The revised regulation eliminates the regulatory language suggesting that jurisdictions use multi-disciplinary review teams to prepare and submit a written report to a judge who is considering an order that directs or authorizes the placement of a status offender in a secure facility for the violation of a valid court order pursuant to the valid court order exception to section 223(a)(12)(A). Although a multi-disciplinary team is still an appropriate option, and is encouraged when practical, this suggestion led to some confusion and, therefore, the example was unnecessary.

Removal Exception

The revised regulation eliminates the requirement for States to document and describe, in their annual monitoring report to OJJDP, the specific circumstances surrounding each individual use of the distance/ground transportation and weather exceptions to the section 223(a)(14) jail and lockup removal requirement.

Compliance With Separation Requirement

The revised regulation modifies the compliance standard that penalized States that have not enacted laws, rules, and regulations, or policies prohibiting the incarceration of all juvenile offenders under circumstances that would be in violation of the section 223(a)(13) separation requirement. These States were not eligible for a finding of compliance if any instances of noncompliance were sanctioned by state law, rule or regulation, or policy. Instead, the revised regulation establishes a single standard applicable to all States regardless of whether a law, rule or regulation, or policy exists that prohibits the detention or confinement of juveniles with incarcerated adults in circumstances that would be in violation of section 223(a)(13), providing that compliance can be established under circumstances in which:

(1) the instances of noncompliance do not indicate a pattern or practice; and either (2) adequate enforcement mechanisms exist; or (3) an acceptable plan has been developed to eliminate the noncompliant incidents.

Minority Detention and Confinement

The revised regulation specifically provides that the purpose of the section 223(a)(23) Disproportionate Minority Confinement core requirement is to encourage States to programmatically address any features of its justice system that may account for the disproportionate detention or confinement of minority juveniles. The regulation is revised to clearly state that the Disproportionate Minority Confinement core requirement neither requires nor establishes numerical standards or quotas in order for a State to achieve or maintain compliance.

Discussion of Comments

The proposed revisions to the existing Formula Grants Regulation were published in the Federal Register on July 3, 1996 (61 FR 34770), for public comment. Written comments were received from thirty-six respondents on ten issues addressed by the proposed regulation. The respondents represent a diverse group including child advocacy organizations, state agencies responsible for carrying out the JJDP Act, and public interest groups. All comments have been considered by OJJDP in the issuance of this final regulation.

The following is a summary of the comments and the responses from OJJDP:

1. *Comment:* Several respondents raised concern over the proposed clarification of the Section 223(a)(13) prohibition against contact between incarcerated adults and juveniles who are in close proximity but not at such distances as "several hundred feet." These respondents contended that this statement in the commentary section of the proposed regulation appears to conflict with the later statement in the commentary section concerning the prohibition against systematic contact. These respondents suggested that the "several hundred feet" standard would create monitoring difficulties and, consequently, it should be clarified that "several hundred feet" was intended only as an example and that the ability for a juvenile and adult to communicate is the key. These respondents felt that it should be made clear that "systematic, procedural, and condoned contact is always prohibited."

Response: The Section 223(a)(13) separation requirement is designed to protect juveniles who are at risk from contact with adult offenders while under the delinquency jurisdiction of the juvenile justice system. OJJDP agrees with the comment that "systematic, procedural, and condoned contact is always prohibited." The "several hundred feet" example was intended to illustrate a common sense approach to determining if visual "contact" or oral "communication" is possible. This is not an issue of systematic, procedural, or condoned contact, but one of the potential for harm to juveniles. OJJDP does not believe that a juvenile who is able to see an adult from a significant distance is in danger of being harmed. Simultaneous use of secure areas of adult facilities continues to be prohibited and, under the revised regulation, time-phased use of common use areas to achieve separation is permitted in both collocated facilities and adult jails, lockups, or other adult institutions. For collocated facilities, this revision is designed to allow both juveniles and adults access to available educational, vocational, and recreational areas common to the two facilities.

2. *Comment:* A number of respondents opined that the "brief and inadvertent" contact language of the proposed regulation essentially changes the Section 223(a)(13) prohibition from "no contact" back to "no regular contact" for nonresidential areas of institutions. Relaxing the no contact standard, it is argued, would permit more violations because violations are already occurring under current regulations. Several respondents believe this proposed regulation would "muddy the waters" and may "expose children to needless risks" by lowering the standards to which states must adhere. They assert that national policy should set the separation standard at the highest possible level.

Response: The revised regulation seeks to clarify with particularity the prohibition of systematic, procedural, or condoned contact between incarcerated adults and juveniles. It is not the intent of OJJDP, through the revised regulation, to in any way encourage or tolerate increased contact between incarcerated juveniles and adults, or to expose juveniles to greater risk. However, common sense and practicality suggested that the regulatory definitions of both sight and sound contact needed to be clarified, so that appropriate and reasonable parameters would guide State and local policy and practice.

In considering the respondent comments concerning this proposed regulatory clarification, it is important to note that the obligation of local jurisdictions housing juveniles to maintain sight and sound separation by architectural means or by established policies and procedures remains firmly in place. This obligation, coupled with the maintenance of policies, practices and facilities designed to maximize separation, is designed to maintain strict adherence to the "no contact" statutory prohibition between juveniles and adults in secure custody.

OJJDP also believes, however, that strict adherence to the "no contact"

prohibition is not inconsistent, in view of the lack of a statutory definition of the word "contact", with a recognition that brief and inadvertent or accidental sight or sound contact may occur, upon occasion, in nonresidential areas of a secure institution, without being considered a reportable violation of the separation requirement. OJJDP believes it would be unfair to penalize jurisdictions working consistently and genuinely to maintain sight and sound separation through policies, practices, and facilities architecture if brief and inadvertent or accidental contact between a juvenile and adult occurs in common use areas. This recognition should in no way be interpreted to indicate acceptance or tolerance of such impermissible contacts, but only as a recognition that in such environments, even the very best intentioned facility administrators may not prevent all short-term, accidental contact between juveniles and adults in a portion of the facility used at different times by both juveniles and adults.

Nonetheless, based on the concern expressed in the comment, OJJDP has expanded the regulatory language to prohibit contact in any secure areas of an institution that are dedicated to use by juvenile offenders, including any residential area. A residential area is an area used to confine individuals overnight, and may include sleeping, shower and toilet, and day room areas. OJJDP recognizes that in many jurisdictions, especially jurisdictions in rural areas, there may be periods of time when no juveniles are detained in an adult jail or lockup facility. During these periods, jurisdictions use all areas of the facility, including those areas dedicated to use by juveniles when juveniles are present, for incarcerated adults because no contact between incarcerated adults and juveniles is possible when juveniles are not present in the facility.

This revision, coupled with the requirement that facilities establish separation by architectural means or by establishing policies and procedures for time-phased use of common use areas within the secure perimeter of an adult jail, lockup, or penal facility, or within a juvenile detention facility that is collocated with any adult jail or lockup, helps to insure the safety of detained and confined juveniles.

OJJDP hopes that this explanation will assist those concerned with the proposed regulation to see that it is in no way intended to evidence a change in view or policy regarding the importance of maintaining the sight and sound separation of juveniles from adults in secure facilities at all times.

3(a). Comment: Several respondents asserted that an adjudicated delinquent should only be subject to transfer to an adult facility, such as a prison, once he (or she) reaches the age of full criminal responsibility, as provided by State law, in circumstances where the delinquent has been afforded the full due process rights available to a criminal offender in a criminal court proceeding (e.g. bail, trial by jury, etc.).

Response: The JJDP Act separation requirement expressly applies to juveniles who are alleged to be or found to be delinquent. An individual who has reached the age of full criminal responsibility is no longer considered a juvenile under the law of a State unless expressly so provided and would not, therefore, fall under the protection of the JJDP Act separation requirement. States have a compelling interest in striking a balance between the goal of achieving an adjudicated delinquent's well-being through treatment and physical security and the goals of punishment and protection of the public by lengthening the period of confinement in appropriate circumstances. The State of Texas, for example, has instituted a determinate sentencing system for certain violent offenders which initially places a juvenile adjudicated delinquent under the jurisdiction of the Texas Youth Commission and requires the committing court to re-evaluate the delinquent's placement status when he/she reaches the age of 18. At that time, the court can transfer the individual, who is now an adult, to an adult penal institution if warranted. Alternatively, the delinquent can be retained under the custody of the Texas Youth Commission to age 21, at which time transfer is mandatory if he/she is not released. Our review indicates that the caselaw is not definitive on the issue of whether a failure to provide a juvenile with all the due process rights of a criminal defendant in a delinquency proceeding would prohibit such a transfer, on due process or other grounds, to an adult jail or prison. The regulation continues to prohibit the pro forma administrative transfer of an adjudicated delinquent who has reached the age of full criminal responsibility to an adult jail or prison. However, we believe it is consistent with the JJDP Act and principles of federalism to allow States to authorize or require the transfer of such delinquents under State law. While the due process issue is appropriately a matter of State law and practice, those jurisdictions contemplating passage of a law to authorize such transfers should consider whether delinquents subject to incarceration in the criminal justice system upon reaching the age of full criminal responsibility should be afforded the same due process rights in the original delinquency adjudication to which an adult in a criminal court proceeding is entitled.

3(b). Comment: One respondent opined that where an adjudicated delinquent is subject to transfer to an adult institution on or after reaching the age of full criminal responsibility pursuant to State law, assurances should be required that age-appropriate needs, such as health, mental health, recreation, and education services will be made available.

Response: Meeting the basic needs of transferred adjudicated delinquents should be a priority for any jurisdiction's correctional system. It is the responsibility of the State to provide for basic needs and services for all prisoners, including juveniles and young adults.

3(c). Comment: Several respondents felt that the transfer of adjudicated delinquents to adult facilities once they reach the age of full criminal responsibility defeats the purpose of a delinquency adjudication.

Response: It is important to note that persons eligible for such a transfer are limited to those who are no longer considered juveniles under State law. With States increasingly focusing on the transfer of serious and violent juvenile offenders to criminal court for prosecution, this type of transfer scheme may result in fewer transfers of juveniles to the criminal justice system through judicial waiver, prosecutorial direct-file, and statutory exclusion of certain offenses from the jurisdiction of the juvenile court. This will help to assure that appropriate treatment services are provided by the juvenile justice system while the individual is a juvenile and may serve to protect juvenile offenders from older delinquents who pose a threat or whose treatment needs cannot be met by the juvenile correctional system.

3(d). Comment: Several respondents stated that the transfer of adjudicated delinquents to adult facilities is not sound policy because the influences of adult facilities are extremely negative and harmful to young adults. These respondents further asserted that the risk of assaults and violence in juvenile facilities increase when wards know that they are going to be transferred to adult correctional facilities. This "split" disposition has a destabilizing influence on juvenile programs, according to one respondent. Several respondents stated that any advances made by juveniles in

the juvenile justice system through available educational, vocational, and therapeutic programs will be destroyed as a result of the transfer to an adult facility.

Response: OJJDP strongly recommends that States enacting a transfer law provide the transferred adjudicated delinquent with age appropriate programs. However, this Office is neither aware of any studies supporting the alleged harm from such transfers nor believes that a juvenile who is able to remain in a juvenile correctional setting at least until the age of full criminal responsibility is worse off than the juvenile who is transferred to the criminal justice system for felony prosecution and, upon conviction, is incarcerated in the criminal justice system.

3(e). Comment: One respondent suggested that OJJDP recommend that States provide separate facilities for delinquent offenders who have reached the age of full criminal responsibility.

Response: OJJDP agrees that this option merits State consideration. Such a system has been adopted in Colorado, where older serious and violent delinquent offenders who have reached the age of full criminal responsibility and juveniles transferred to criminal court pursuant to State transfer laws, are placed in secure treatment facilities designed and operated for youthful offenders.

3(f). Comment: One respondent suggested that the proposed regulatory change is of great assistance to individual States looking for appropriate methods to deal with the rising levels of violent juvenile crime.

Response: The intent of this regulatory change is to provide States with appropriate flexibility in dealing with serious and violent delinquent offenders who require sentences that extend into adulthood.

4(a). Comment: Three questions were asked by one respondent concerning the "6 hour rule" that allows an alleged delinquent to be held in a secure custody status in an adult jail or lockup for up to 6 hours for purposes of processing (while maintaining sight and sound separation from adult offenders). The proposed regulation would apply the six hour hold exception to include a six hour period before and/or after a court appearance (both pre and post adjudication).

(a) Is the 6 hour rule cumulative (i.e. before and after inclusive of the 6 hours) or is it a separate 6 hours for before and after a court appearance?

(b) Is the time limit affected by the status of the jail site, i.e. MSA or nonMSA?

(c) Would the 24 hour rural exception continue to be permitted?

Response: (a) The 6 hour rule is not cumulative. A juvenile may be held up to 6 hours before a court appearance and up to 6 hours after a court appearance in an adult jail or lockup.

(b) The time limit is not affected by the status of the jail site;

(c) The 24-hour rural exception is not changed by the regulation. The 24-hour rural (MSA) exception is a statutory exception that applies to initial law enforcement custody, which may or may not result in an initial court appearance. The new six hour hold exception would apply in either an MSA or nonMSA jurisdiction both before and/or after a court appearance.

4(b). Comment: Several respondents suggested that the 6-hour rule following a court appearance be expanded to 24 hours for rural jurisdictions because of the expense of identifying and traveling to an appropriate facility or of constructing a separate detention facility in a small rural county or group of counties.

Response: The nonMSA, or rural exception, provides a 24-hour period, exclusive of nonjudicial days (Saturdays, Sundays and holidays), to detain an alleged delinquent, pending an initial court appearance, if State law requires such an appearance within the 24-hour period. Long distance and weather may extend this exception. The 6-hour hold exception has historically applied when police are holding a juvenile for investigation or processing a juvenile for purposes of notifying parents, arranging release, or transporting to a juvenile facility. Expansion of the 6-hour hold for pre- and post-court appearances is designed to facilitate court appearances of juveniles that require transportation. The statutory 24-hour nonMSA exception for initial court appearances is premised on the need for time to plan the placement/release of the juvenile. Subsequent court appearances can be planned in advance, negating the need for an extended placement of the juvenile in an adult jail or lockup.

4(c). Comment: One respondent found that the 6-hour exception was too inflexible where no reasonable alternative juvenile placement was available following arrest. The respondent suggested that a workable "good faith" rule be established.

Response: The six-hour exception gives law enforcement officials in nonMSA jurisdictions the opportunity to make decisions about investigating, processing, and/or transporting juveniles. States and local units of government have found the 6-hour exception to be sufficient where mechanisms are put in place to expedite the handling of alleged delinquents who need to be detained for investigation or processing in secure custody in an adult jail or lockup.

4(d). Comment: One respondent organization cited the Institute for Judicial Administration/American Bar Association (IJA/ABA) Standards which state that "The interim detention of accused juveniles in any facility or part thereof also used to detain adults is prohibited." In support of its opposition to the proposed regulation, this respondent noted that under conditions where juveniles are held with adults prior to adjudication, ABA standards recommend a blanket prohibition against the detention of juveniles with adult inmates prior to adjudication under any circumstances.

Response: Congress considered the secure confinement of accused delinquent juveniles for up to 6 hours in an urban jail or lockup to be a reasonable outside time limit for processing purposes. This period of time was considered to reflect a "rule of reason", as stated in the House Committee report on the 1980 JJDP Act reauthorization. OJJDP is not establishing any new policy by this regulation, but rather is codifying in the regulation what has been the Office's monitoring policy for 16 years, and extending it to pre- and post-court appearance holds.

5(a). Comment: One respondent, while supporting the time-phasing of common use areas of collocated facilities, requested clarification on whether "professional treatment staff" can be "shared" between juvenile and adult populations.

Response: In collocated facilities, professional care staff such as medical, counseling, or education services continue to be permitted to serve both adult and juvenile residents, although not at the same time.

5(b) Comment: One respondent asserted that elimination of the requirement for OJJDP's concurrence in State-approved collocated facilities weakens the Office's enforcement capabilities.

Response: States will continue to have the responsibility to approve and monitor these facilities. OJJDP will continue to review the monitoring practices of States, as well as provide training and technical assistance. Further, the criteria for the establishment of such facilities are clearly set forth in § 31.303(e)(3) of the regulation.

5(c). Comment: Another respondent felt that the regulation should more

clearly reflect that collocated facilities are not prohibited and that these facilities are permissible if established in accordance with the regulatory criteria set forth to establish that a collocated facility is a separate and distinct facility from the adult jail or lockup with which it is collocated.

Response: OJJDP's proposal to eliminate the requirement for its concurrence in State approval of a collocated facility, and the elimination of a needs-based analysis, should make it clear that the establishment of collocated facilities is not prohibited. States may approve collocated facilities in accordance with State law and policy as long as each such facility meets the criteria set forth in § 31.303(e)(3) of the regulation.

5(d). Comment: Another respondent opined that the needs-based analysis and prohibition of time-phased use should not be eliminated.

Response: A properly constructed and operated collocated facility that meets the criteria set forth in § 31.303(e)(3) does not create conditions where the health and safety of juveniles would be jeopardized. Time-phased use of nonresidential areas allows for efficient use of these resources which, otherwise, might not be available to the juvenile population. Time-phased use, if properly implemented, would not result in any contact between juveniles and adults. Further, States are encouraged to conduct their own needs-based analysis. OJJDP technical assistance will remain available, upon State request, for this purpose.

6(a). Comment: One commentor, in response to the 24 hour detention exception for status and nonoffenders, stated that nonoffenders should not be placed in detention facilities. Limited exceptions should be permitted in the event of a well documented need. In this way, detention of nonoffenders will not become a pattern or practice.

Response: OJJDP agrees that the detention of nonoffenders, such as dependent, neglected, or abused children, should not become a pattern or practice. This authority should be used to meet emergency needs only. States are encouraged to provide for the return of nonoffenders to their families or to appropriate shelter care as soon as possible.

6(b). Comment: Another respondent considers the placement of nonoffenders in secure detention to be a retrenchment of longstanding national policy in opposition to such a placement.

Response: OJJDP Formula Grants program policy and regulation have authorized the limited and temporary placement of nonoffenders in secure detention facilities since 1975. When either status offenders or nonoffenders are placed in such facilities, Section 223(a)(12)(B) encourages States to place the status offender or nonoffender in facilities which are the least restrictive alternative appropriate to the needs of the child and the community. The provision does not change established policy and is intended to provide adequate time to arrange for appropriate placement prior to or following an initial court appearance. Because the current statutory definition of "secure detention facility" includes dedicated facilities for nonoffenders, removal of the 24 hour hold exception's applicability to nonoffenders would also prohibit the secure holding of nonoffender juveniles in dedicated facilities. This issue needs to be addressed statutorily before OJJDP can propose a change to the 24 hour hold exception's applicability to nonoffenders.

6(c). Comment: One respondent believes that placement of status offenders with children accused of delinquency can stigmatize them as delinquent and that the proposed regulation dilutes OJJDP's strong regulatory support for the deinstitutionalization of status offender and nonoffender juveniles. This respondent supports the placement of status offenders in secure residential facilities for up to six hours and only when law enforcement is unable to contact a parent, custodian, or relative, unreasonable distance exists, the juvenile refuses to be taken home, or law enforcement is otherwise unable to make arrangements for the safe release of the juvenile.

Response: OJJDP has, since 1975, authorized the secure short-term detention of status offenders and nonoffenders in juvenile detention facilities. While blanket use of this authority without regard to the facts and circumstances of each juvenile taken into custody would be a poor policy, State and local governments should determine the specific law and policy that will govern the use of this authority.

7(a). Comment: Two respondents commented regarding revision of § 31.303(f)(3)(vi), authorizing the use of multi-disciplinary teams to make recommendations on the use of secure confinement for a valid court order violator, contending that such teams are an important tool for the valid court order process and that the language should not be deleted. Another commented that language should be added to clarify that multi-disciplinary teams are only a suggested way of meeting the requirement for an independent review team and that court or law enforcement personnel can still serve on such a team.

Response: Multi-disciplinary teams may still be utilized for the purpose of preparing and submitting a written report to a judge considering an order to place a status offender in a secure facility for violation of a valid court order.

The suggestion of multi-disciplinary teams in the existing regulation was meant to be an example of one mechanism that would fulfill the statutory requirement. However, this apparently created the impression that only multi-disciplinary teams could be utilized. In fact, the review could be conducted by an individual, agency, or team representing a noncourt or law enforcement agency.

7(b). Comment: One comment opposed the deletion of language requiring that secure confinement represent the least restrictive alternative "appropriate to the needs of the juvenile and the community." This respondent felt that removal of this language lessens the judge's overall responsibility to ensure the appropriateness of the disposition in light of other available placement.

Response: Section 103(16)(C)(iii) of the JJDP Act and § 31.303(f)(3)(vi) of the regulation require that a disposition of secure confinement must consider all alternative dispositions (including treatment) to placement in a secure detention or secure correctional facility. Removal of the referenced language does not diminish the responsibility of the court to consider alternatives to secure confinement. However, the referenced nonstatutory language is vague and does not provide meaningful guidance.

7(c). Comment: Another comment requested clarification of why the words "of a status offender" were added to the language "In entering any order that directs or authorizes the placement of a status offender in a secure facility, the judge presiding over an initial probable cause hearing or violation hearing must, * * *" in Section 31.303(f)(3)(vi).

Response: The change was intended to underscore that the valid court order (VCO) provision applies solely to status offenders. A nonoffender may not be placed in secure confinement for any length of time for violation of a court order.

7(d). Comment: One respondent recommended the deletion of the VCO requirement for an independent review and determination of the reasons for the juvenile's behavior. This respondent

insisted that the first was difficult to monitor and the latter impossible to determine, asking "How can the court ascertain the reasons for the juvenile's behavior?". Another respondent commented that the VCO provision should be a recommendation rather than a requirement.

Response: The use of the independent review standard under the valid court order exception is statutorily established in Section 223(a)(12)(A) and the term "valid court order" is defined in Section 103(16) of the JJDP Act. Therefore, they cannot be deleted or modified by regulation.

8. Comment: Comments were received both in favor of and opposed to the proposal to eliminate the reporting requirement for each use of the ground/distance and weather exceptions to the jail and lockup removal exception. Those opposed to the change are concerned that it will encourage abuses of the rule and lead to more youth in adult jails and lockups, in violation of the statute.

Response: Enforcement of this provision will continue to be a State responsibility that is subject to on-site monitoring and verification by OJJDP during compliance monitoring visits to States utilizing this jail and lockup removal exception. The changes streamline the process and remove an unnecessary administrative burden.

9(a). Comment: Several respondents felt that the "relaxation" of State reporting and monitoring requirements related to the separation requirement is "dangerous" and could cause States to slide into noncompliance. States might view this as an opportunity to relax their oversight responsibility.

Response: It is not OJJDP's intent to encourage States to weaken their commitment to the core requirements of the JJDP Act. However, OJJDP believes that isolated violations of the separation requirement that do not represent a pattern or practice should not jeopardize a State's ability to access federal funds. OJJDP remains fully committed to the enforcement of Section 223(a)(13) of the JJDP Act requiring the separation of juvenile delinquents from adult offenders.

9(b). Comment: One respondent commented that the existence of state laws, regulations, or court rules is the only mechanism that provides any true assurance that future violations of the separation requirement will not occur in a given jurisdiction. Another felt that eliminating this requirement will mean that States will abandon their efforts to obtain conforming laws, regulations, and court rules in order to enforce the separation core requirement. A third respondent felt that all States should have a policy that mirrors the JJDP Act separation requirement.

Response: OJJDP encourages States to retain existing laws, regulations, and court rules mirroring the separation requirement. OJJDP also encourages States to utilize other effective enforcement tools including: training and technical assistance workshops; on-site training for law enforcement and adult jail and lockup personnel; and development of alternatives to incarceration.

9(c). Comment: One commentor suggested that until such time as OJJDP has unlimited resources, there is no way that the existence of a "pattern or practice" of noncompliance can be monitored.

Response: Section 223(a)(15) requires States to "provide for an adequate system of monitoring jails, detention facilities, and nonsecure facilities to ensure that the requirements of paragraph (12)(A), paragraph (13) and paragraph (14) are met, and for annual reporting of the results of such monitoring to the Administrator; * * *". It is OJJDP's position that State monitoring systems successfully identify the vast majority of violations and State monitoring reports can be used to identify whether reported violations establish a pattern or practice of separation violations in the State.

9(d). Comment: A single separation standard applicable to all States for measuring compliance based on *de minimis* violations that do not indicate a pattern or practice is a fair standard, according to one respondent. Moreover, it is less cumbersome than the present compliance requirement. Another respondent felt that it is clearly appropriate to find overall compliance within the separation requirement even if individual violations have occurred, as long as no pattern or practice exists.

Response: It is OJJDP's intent to treat all States in a fair and equitable manner. In addressing violations of Section 223(a)(13) of the JJDP Act in terms of a pattern or practice, OJJDP's across the board approach is equitable to the States, providing a substantive *de minimis* standard for the separation requirement.

10(a). Comment: A commentor noted that the addition of the word "programmatically" in Section 31.303(j) to clarify that "the purpose of the statute and regulation is to encourage States to address programmatically, * * *" the disproportionate minority confinement (DMC) core requirement (Section 223(a)(23)) will limit the focus of the States and move them away from alternative ways to address the over-representation of minorities in secure facilities.

Response: OJJDP notes that the addition of the word "programmatically" does not restrict a State's options for addressing DMC. States are encouraged to examine all aspects of DMC and address any features of its juvenile or criminal justice systems that may contribute to DMC as identified by the State.

10(b). Comment: Another respondent stated that the regulation needs to reflect a broader examination of minority over-representation. Since 1992, States have spent considerable time and dollars reviewing their juvenile justice systems in their entirety. The clarification to the DMC core requirement provides that States should address "programmatically" any feature of its justice system that accounts for the disproportionate detention or confinement of minority juveniles. However, the entire system should be analyzed, not just juvenile detention or confinement.

Response: The regulation provides for a broad examination of the DMC issue, including all decision points in the juvenile justice system, and encourages States to address "any feature of its justice system" that accounts for DMC and not just those that "may account for the disproportionate detention or confinement." The latter language is taken verbatim from the statutory language of Section 223(a)(23) of the JJDP Act.

Executive Order 12866

This final rule is not a "significant regulatory action" for purposes of Executive Order 12866 because it does not result in: (1) an annual effect on the economy of $100 million or more or adversely affect in a material way the economy, a sector of the economy, productivity, competition, jobs, the environment, public health or safety, or state, local or tribal governments or communities; (2) create a serious inconsistency or otherwise interfere with action taken or planned by another agency; (3) materially alter the budgetary impact of entitlement, grants, user fees, or loan programs or the rights and obligations of recipients thereof; and (4) does not raise novel legal or policy issues arising out of legal mandates, the President's priorities or the principles of Executive Order No. 12866, and accordingly this rule has not been reviewed by the Office of Management of Budget. This regulation has been drafted and reviewed in accordance with Executive Order 12866, Section 1(b), Principles of Regulation.

Regulatory Flexibility Act

This final rule, if promulgated, will not have a "significant" economic impact on a substantial number of small "entities" as defined by the Regulatory Flexibility Act. This action is intended to relieve existing requirements in the Formula Grants program and to clarify other provisions so as to promote compliance with its provisions by States participating in the program.

Paperwork Reduction Act

No collections of information requirements are contained in or affected by this regulation pursuant to the Paperwork Reduction Act, codified at 44 U.S.C. 3504(H).

Intergovernmental Review of Federal Programs

In accordance with Executive Order 12372 and the Department of Justice's implementing regulation 28 CFR Part 30, States must submit Formula Grant Program applications to the State "Single Point of Contact," if one exists. The State may take up to 60 days from the application date to comment on the application.

§ 31.303 Substantive requirements.

* * * * *

(d) * * *

(1) * * *

(i) *Separation.* Describe its plan and procedure, covering the three-year planning cycle, for assuring that the requirements of this section are met. The term "contact" includes any physical or sustained sight or sound contact between juvenile offenders in a secure custody status and incarcerated adults, including inmate trustees. A juvenile offender in a secure custody status is one who is physically detained or confined in a locked room or other area set aside or used for the specific purpose of securely detaining persons who are in law enforcement custody. Secure detention or confinement may result either from being placed in such a room or area and/or from being physically secured to a cuffing rail or other stationary object. Sight contact is defined as clear visual contact between incarcerated adults and juveniles within close proximity to each other. Sound contact is defined as direct oral communication between incarcerated adults and juvenile offenders. Separation must be accomplished architecturally or through policies and procedures in all secure areas of the facility which include, but are not limited to, such areas as admissions, sleeping, and shower and toilet areas. Brief and inadvertent or accidental contact between juvenile offenders in a secure custody status and incarcerated adults in secure areas of a facility that are not dedicated to use by juvenile offenders and which are nonresidential, which may include dining, recreational, educational, vocational, health care, sally ports or other entry areas, and passageways (hallways), would not require a facility or the State to document or report such contact as a violation. However, any contact in a dedicated juvenile area, including any residential area of a secure facility, between juveniles in a secure custody status and incarcerated adults would be a reportable violation.

* * * * *

(v) Assure that adjudicated delinquents are not reclassified administratively and transferred to an adult (criminal) correctional authority to avoid the intent of separating juveniles from adult criminals in jails or correctional facilities. A State is not prohibited from placing or transferring an alleged or adjudicated delinquent who reaches the State's age of full criminal responsibility to an adult facility when required or authorized by State law. However, the administrative transfer, without statutory direction or authorization, of a juvenile offender to an adult correctional authority, or a transfer within a mixed juvenile and adult facility for placement with adult criminals, either before or after a juvenile reaches the age of full criminal responsibility, is prohibited. A State is also precluded from transferring adult offenders to a juvenile correctional authority for placement in a juvenile facility. This neither prohibits nor restricts the waiver or transfer of a juvenile to criminal court for prosecution, in accordance with State law, for a criminal felony violation, nor the detention or confinement of a waived or transferred criminal felony violator in an adult facility.

* * * * *

(e) * * *

(2) Describe the barriers that a State faces in removing all juveniles from adult jails and lockups. This requirement excepts only those alleged or adjudicated juvenile delinquents placed in a jail or a lockup for up to six hours from the time they enter a secure custody status or immediately before or after a court appearance, those juveniles formally waived or transferred to criminal court and against whom criminal felony charges have been filed, or juveniles over whom a criminal court has original or concurrent jurisdiction and such court's jurisdiction has been invoked through the filing of criminal felony charges.

(3) *Collocated facilities.* (i) Determine whether or not a facility in which juveniles are detained or confined is an adult jail or lockup. The JJDP Act prohibits the secure custody of juveniles in adult jails and lockups, except as otherwise provided under the Act and implementing OJJDP regulations. Juvenile facilities collocated with adult facilities are considered adult jails or lockups absent compliance with criteria established in paragraphs (e)(3)(i)(C)(*1*) through (*4*) of this section.

(A) A collocated facility is a juvenile facility located in the same building as an adult jail or lockup, or is part of a related complex of buildings located on the same grounds as an adult jail or lockup. A complex of buildings is considered "related" when it shares physical features such as walls and fences, or services beyond mechanical services (heating, air conditioning, water and sewer), or the specialized services that are allowable under paragraph (e)(3)(i)(C)(*3*) of this section.

(B) The State must determine whether a collocated facility qualifies as a separate juvenile detention facility under the four criteria set forth in paragraphs (e)(3)(i)(C) (*1*) through (*4*) of this section for the purpose of monitoring compliance with section 223(a) (12)(A), (13) and (14) of the JJDP Act.

(C) Each of the following four criteria must be met in order to ensure the requisite separateness of a juvenile detention facility that is collocated with an adult jail or lockup:

(1) Separation between juveniles and adults such that there could be no sustained sight or sound contact between juveniles and incarcerated adults in the facility. Separation can be achieved architecturally or through time-phasing of common use nonresidential areas; and

(2) Separate juvenile and adult programs, including recreation, education, vocation, counseling, dining, sleeping, and general living activities. There must be an independent and comprehensive operational plan for the juvenile detention facility which provides for a full range of separate program services. No program activities may be shared by juveniles and incarcerated adults. Time-phasing of common use nonresidential areas is permissible to conduct program activities. Equipment and other resources may be used by both populations subject to security concerns; and

(3) Separate staff for the juvenile and adult populations, including management, security, and direct care staff. Staff providing specialized services (medical care, food service, laundry, maintenance and engineering, etc.) who are not normally in contact with detainees, or whose infrequent contacts occur under conditions of separation of juveniles and adults, can serve both populations (subject to State standards or licensing requirements). The day to day management, security and direct care functions of the juvenile detention center must be vested in a totally separate staff, dedicated solely to the juvenile population within the collocated facilities; and

(4) In States that have established standards or licensing requirements for juvenile detention facilities, the juvenile facility must meet the standards (on the same basis as a free-standing juvenile detention center) and be licensed as appropriate. If there are no State standards or licensing requirements, OJJDP encourages States to establish administrative requirements that authorize the State to review the facility's physical plant, staffing patterns, and programs in order to approve the collocated facility based on prevailing national juvenile detention standards.

(ii) The State must determine that the four criteria are fully met. It is incumbent upon the State to make the determination through an on-site facility (or full construction and operations plan) review and, through the exercise of its oversight responsibility, to ensure that the separate character of the juvenile detention facility is maintained by continuing to fully meet the four criteria set forth in paragraphs (e)(3)(i)(C) (1) through (4) of this section.

(iii) Collocated juvenile detention facilities approved by the State and concurred with by OJJDP before December 10, 1996 may be reviewed by the State against the regulatory criteria and OJJDP policies in effect at the time of the initial approval and concurrence or against the regulatory criteria set forth herein, as the State determines. Facilities approved on or after the effective date of this regulation shall be reviewed against the regulatory criteria set forth herein. All collocated facilities are subject to the separate staff requirement established by the 1992 Amendments to the JJDP Act, and set forth in paragraph (e)(3)(i)(C)(3) of this section.

(iv) An annual on-site review of the facility must be conducted by the compliance monitoring staff person(s) representing or employed by the State agency administering the JJDP Act Formula Grants Program. The purpose of the annual review is to determine if compliance with the criteria set forth in paragraphs (e)(3)(i)(C) (1) through (4) of this section is being maintained.

(f) * * *

* * * * *

(2) For the purpose of monitoring for compliance with section 223(a)(12)(A) of the Act, a secure detention or correctional facility is any secure public or private facility used for the lawful custody of accused or adjudicated juvenile offenders or nonoffenders, or used for the lawful custody of accused or convicted adult criminal offenders. Accused status offenders or nonoffenders in lawful custody can be held in a secure juvenile detention facility for up to twenty-four hours, exclusive of weekends and holidays, prior to an initial court appearance and for an additional twenty-four hours, exclusive of weekends and holidays, following an initial court appearance.

(3) * * *

(vi) In entering any order that directs or authorizes the placement of a status offender in a secure facility, the judge presiding over an initial probable cause hearing or violation hearing must determine that all the elements of a valid court order (paragraphs (f)(3) (i), (ii) and (iii) of this section) and the applicable due process rights (paragraph (f)(3)(v) of this section) were afforded the juvenile and, in the case of a violation hearing, the judge must obtain and review a written report that: reviews the behavior of the juvenile and the circumstances under which the juvenile was brought before the court and made subject to such order; determines the reasons for the juvenile's behavior; and determines whether all dispositions other than secure confinement have been exhausted or are clearly inappropriate. This report must be prepared and submitted by an appropriate public agency (other than a court or law enforcement agency).

* * * * *

(4) * * *

(vi) Pursuant to section 223(a)(14) of the JJDP Act, the nonMSA (low population density) exception to the jail and lockup removal requirement as described in paragraphs (f)(4) (i) through (v) of this section shall remain in effect through 1997, and shall allow for secure custody beyond the twenty-four hour period described in paragraph (f)(4)(i) of this section when the facility is located where conditions of distance to be traveled or the lack of highway, road, or other ground transportation do not allow for court appearances within twenty-four hours, so that a brief (not to exceed an additional forty-eight hours) delay is excusable; or the facility is located where conditions of safety exist (such as severely adverse, life-threatening weather conditions that do not allow for reasonably safe travel), in which case the time for an appearance may be delayed until twenty-four hours after the time that such conditions allow for reasonably safe travel. States may use these additional statutory allowances only where the precedent requirements set forth in paragraphs (f)(4) (i) through (v) of this section have been complied with. This may necessitate statutory or judicial (court rule or opinion) relief within the State from the twenty-four hour initial court appearance standard required by paragraph (f)(4)(i) of this section.

(i) * * *

(C) The total number of accused status offenders and nonoffenders, including out-of-State runaways and Federal wards, held in any secure detention or correctional facility for longer than twenty-four hours (not including weekends or holidays), excluding those held pursuant to the valid court order provision as set forth in paragraph (f)(3) of this section or pursuant to section 922(x) of Title 18, United States Code (which prohibits the possession of a handgun by a juvenile), or a similar State law. A juvenile who violates this statute, or a similar state law, is

excepted from the deinstitutionalization of status offenders requirement;

* * * * *

(iii) To demonstrate the extent of compliance with section 223(a)(13) of the JJDP Act, the report must include, at a *minimum*, the following information for the current reporting period:

(A) Dates covered by the current reporting period;

(B) The total number of facilities used to detain or confine both juvenile offenders and adult criminal offenders during the past 12 months and the number inspected on-site;

(C) The total number of facilities used for secure detention and confinement of both juvenile offenders and adult criminal offenders which did not provide sight and sound separation;

(D) The total number of juvenile offenders and nonoffenders not separated from adult criminal offenders in facilities used for the secure detention and confinement of both juveniles and adults;

(E) The total number of State approved juvenile detention centers located within the same building or on the same grounds as an adult jail or lockup, including a list of such facilities;

(F) The total number of juveniles detained in State approved collocated facilities that were not separated from the management, security or direct care staff of the adult jail or lockup;

(G) The total number of juvenile detention centers located within the same building or on the same grounds as an adult jail or lockup that have not been approved by the State, including a list of such facilities; and

(H) The total number of juveniles detained in collocated facilities not approved by the State that were not sight and sound separated from adult criminal offenders.

(iv) To demonstrate the extent of compliance with section 223(a)(14) of the JJDP Act, the report must include, at a minimum, the following information for the current reporting period:

(A) Dates covered by the current reporting period;

(B) The total number of adult jails in the State AND the number inspected on-site;

(C) The total number of adult lockups in the State AND the number inspected on-site;

(D) The total number of adult jails holding juveniles during the past twelve months;

(E) The total number of adult lockups holding juveniles during the past twelve months;

(F) The total number of accused juvenile criminal-type offenders held securely in adult jails, lockups, and unapproved collocated facilities in excess of six hours, including those held pursuant to the "removal exception" as set forth in paragraph (f)(4) of this section;

(G) The total number of accused juvenile criminal-type offenders held securely in adult jails, lockups and unapproved collocated facilities for less than six hours for purposes other than identification, investigations, processing, release to parent(s), transfer to court, or transfer to a juvenile facility following initial custody;

(H) The total number of adjudicated juvenile criminal-type offenders held securely in adult jails or lockups and unapproved collocated facilities in excess of six hours prior to or following a court appearance or for any length of time not related to a court appearance;

(I) The total number of accused and adjudicated status offenders (including valid court order violators) and nonoffenders held securely in adult jails, lockups and unapproved collocated facilities for any length of time;

(J) The total number of adult jails, lockups, and unapproved collocated facilities in areas meeting the "removal exception" as noted in paragraph (f)(4) of this section, including a list of such facilities and the county or jurisdiction in which each is located;

(K) The total number of juveniles accused of a criminal-type offense who were held in excess of six hours but less than 24 hours in adult jails, lockups and unapproved collocated facilities pursuant to the "removal exception" as set forth in paragraph (f)(4) of this section;

(L) The total number of juveniles accused of a criminal-type offense who were held in excess of 24 hours, but not more than an additional 48 hours, in adult jails, lockups and unapproved collocated facilities pursuant to the "removal exception" as noted in paragraph (f)(4) of this section, due to conditions of distance or lack of ground transportation; and

(M) The total number of juveniles accused of a criminal-type offense who were held in excess of 24 hours, but not more than an additional 24 hours after the time such conditions as adverse weather allow for reasonably safe travel, in adult jails, lockups and unapproved collocated facilities, in areas meeting the "removal exception" as noted in paragraph (f)(4) of this section.

(6) * * *

(i) Full compliance with section 223(a)(12)(A) is achieved when a State has removed 100 percent of status offenders and nonoffenders from secure detention and correctional facilities or can demonstrate full compliance with de minimis exceptions pursuant to the policy criteria contained in the Federal Register of January 9, 1981 (copies are available from the Office of General Counsel, Office of Justice Programs, 633 Indiana Ave., N.W., Washington, D.C. 20531).

(ii) Compliance with section 223(a)(13) has been achieved when a State can demonstrate that:

(A) The last submitted monitoring report, covering a full 12 months of data, demonstrates that no juveniles were incarcerated in circumstances that were in violation of section 223(a)(13); or

(B)(*1*) The instances of noncompliance reported in the last submitted monthly report do not indicate a pattern or practice but rather constitute isolated instances; and

(*2*)(*i*) Where all instances of noncompliance reported were in violation of or departure from State law, rule, or policy that clearly prohibits the incarceration of all juvenile offenders in circumstances that would be in violation of Section 223(a)(13), existing enforcement mechanisms are such that the instances of noncompliance are unlikely to recur in the future; or

(*ii*) An acceptable plan has been developed to eliminate the noncompliant incidents.

* * * * *

(j) * * * The purpose of the statute and the regulation in this part is to encourage States to address, programmatically, any features of its justice system, and related laws and policies, that may account for the disproportionate detention or confinement of minority juveniles in secure detention facilities, secure correctional facilities, jails, and lockups. The disproportionate minority confinement core requirement neither establishes nor requires numerical standards or quotas in order for a State to achieve or maintain compliance.

Dear Judge Perdue:

Enclosed is a copy of the final revised OJJDP Formula Grants Program regulation. The regulation has been revised with the goal of providing enhanced flexibility to States and local units of government in responding to increases in serious juvenile crime while, at the same time, assuring that the interests of young people who come to the attention of the juvenile justice system are protected. Please review the revised regulation for a full discussion of the changes that have taken place in the following areas:

- Clarification of sight and sound separation between juveniles and incarcerated adults;
- Permitting the transfer of delinquents to adult institutions at the age of criminal responsibility;
- Expansion of the 6-hour hold exception to the jail and lockup removal requirement to include both a six hour period prior to and following a court appearance;
- Allowance of time-phased use of shared program space in collocated adult and juvenile facilities;
- Clarification that the 24-hour hold exception for status and nonoffenders includes 24 hour periods both preceding and following an initial court appearance;
- Elimination of the reference to the use of multi-disciplinary review teams in relation to valid court order disposition hearings;
- Removal of the requirement that States describe the circumstances surrounding each instance where the distance and/or weather exceptions to the jail and lockup removal requirement are used;
- Modification of the provision that did not allow States that had failed to enact legislation providing for the separation of adults and juveniles in secure custody to qualify under the substantive de minimis standards; and
- Clarification of the regulation concerning compliance with the disproportionate minority confinement requirement.

Formula Grants

AGENCY: Office of Justice Programs, Office of Juvenile Justice and Delinquency Prevention, Department of Justice.

ACTION: Final rule.

SUMMARY: The Office of Juvenile Justice and Delinquency Prevention (OJJDP) of the U.S. Department of Justice is publishing the final revision of the existing Formula Grants Regulation, which implements part B of Title II of the Juvenile Justice and Delinquency Prevention (JJDP) Act of 1974, as amended by the Juvenile Justice and Delinquency Prevention Amendments of 1992.

This final regulation is a further clarification and modification of the regulations issued in March and April of 1995. It offers greater flexibility to States and local units of government in carrying out the Formula Grants Program requirements of the JJDP Act, while reinforcing the importance of complying with those underlying legal requirements and the policy objectives from which they stem.

The Department of Justice remains firmly committed to the core requirements of the JJDP Act, such as the obligation to maintain sight and sound separation between juveniles and adults. With that in mind, this regulation is expected to assist jurisdictions that are working diligently to comply with statutory and regulatory obligations by expressly providing such flexibility as State authorized transfers of delinquents who have reached the age of full criminal responsibility to the criminal justice system and by recognizing certain real-world factors which can make "perfect" compliance unrealistic. These regulatory changes are in no way intended to evidence any lessening of the Department's commitment to the core requirements.

EFFECTIVE DATE: This regulation is effective December 10, 1996.

FOR FURTHER INFORMATION CONTACT: Roberta Dorn, Director, State Relations and Assistance Division, Office of Juvenile Justice and Delinquency Prevention, U.S. Department of Justice, 633 Indiana Avenue, NW., Room 543, Washington, DC 20531; (202) 307-5924.

SUPPLEMENTARY INFORMATION:

Description of Major Changes

Contact With Incarcerated Adults

The revised regulation provides definitions of sight and sound contact to assist in understanding the level of separation that is required under section 223(a)(13) of the JJDP Act (section 223(a)(13)). Sight contact is defined as clear visual contact between incarcerated adults who are in close proximity to juveniles alleged to be or found to be delinquent, status offenders, and nonoffenders in a secure institution. Sound contact is defined in the regulation as direct oral communication between incarcerated adults and juveniles in secure institutions. While separation must be provided through architectural or procedural means, the revised regulation provides that sight or sound contact that is both brief and inadvertent or accidental must be reported as a violation only if it occurs in secure areas of the facility that are dedicated to use by juvenile offenders, including any residential area. A residential area is an area used to confine individuals overnight, and may include sleeping, shower and toilet, and day room areas.

Placement of Delinquents in Adult Facilities

State laws are increasingly providing for the mandatory or permissible transfer (or placement) of adjudicated delinquents to adult facilities once the delinquent has attained the age of full criminal responsibility under State law. The revised regulation expressly provides that the section 223(a)(13) separation requirement is not violated as a result of contact between an adjudicated delinquent and adult criminal offenders in a secure institution once the adjudicated delinquent has reached the age of full criminal responsibility established by State law, provided that the transfer (or placement) of the adjudicated delinquent is required or authorized under State law.

Expansion of 6-Hour Hold Exception to Pre and Post Court Appearances

The revised regulation builds upon the existing authority to place an alleged or adjudicated delinquent juvenile in an adult jail or lockup for up to 6 hours by providing a 6 hour time period immediately before and/or after a court appearance, subject to the section 223(a)(13) separation requirement, during the time the delinquent juvenile is in a secure custody status in the adult jail or lockup.

Collocated Facilities

The revised regulation removes the requirement that a needs-based analysis precede a jurisdiction's request for State approval of a juvenile holding facility that is collocated with an adult jail or lockup to qualify as a separate juvenile detention facility. OJJDP concurrence with a State agency's decision to approve a collocated facility will no longer be required. On-site reviews by the State to determine compliance, coupled with OJJDP's statutorily required review of the adequacy of state monitoring systems, will be used to insure that each collocated juvenile detention facility meets and continues to meet the collocated juvenile detention facility criteria.

The revised regulation permits the sharing of common use nonresidential areas of collocated adult and juvenile facilities on a time-phased basis that prevents contact between juveniles and adults. Secure juvenile detention facilities around the country are routinely overcrowded. OJJDP's objective is to encourage the development and use of separately located juvenile facilities whenever possible. Still, it is recognized that expecting every jurisdiction to create wholly separate juvenile facilities, including the duplication of costly infrastructure elements like gymnasiums, cafeterias, and classrooms, may result in those jurisdictions being unable to provide any secure juvenile detention capacity. The revised regulation makes it possible for more jurisdictions to provide juvenile facilities by removing the requirement that collocated facilities not share program space between juvenile and adult populations. Utilization of time-phasing will allow both juveniles and adults access to available educational, vocational, and recreational areas of collocated facilities. Time-phased use is explicitly limited to nonresidential areas of collocated facilities and requires the use of written procedures to ensure that no contact occurs between detained juveniles and incarcerated adults.

Deinstitutionalization of Status Offenders

The revised regulation expressly provides, formalizing existing OJJDP policy, that it is permissible to hold an accused status offender or nonoffender in a secure juvenile detention facility for up to 24 hours, exclusive of weekends and legal holidays, prior to an initial court appearance and up to 24 hours, exclusive of weekends and legal

holidays, immediately following an initial court appearance.

Valid Court Order

The revised regulation eliminates the regulatory language suggesting that jurisdictions use multi-disciplinary review teams to prepare and submit a written report to a judge who is considering an order that directs or authorizes the placement of a status offender in a secure facility for the violation of a valid court order pursuant to the valid court order exception to section 223(a)(12)(A). Although a multi-disciplinary team is still an appropriate option, and is encouraged when practical, this suggestion led to some confusion and, therefore, the example was unnecessary.

Removal Exception

The revised regulation eliminates the requirement for States to document and describe, in their annual monitoring report to OJJDP, the specific circumstances surrounding each individual use of the distance/ground transportation and weather exceptions to the section 223(a)(14) jail and lockup removal requirement.

Compliance With Separation Requirement

The revised regulation modifies the compliance standard that penalized States that have not enacted laws, rules, and regulations, or policies prohibiting the incarceration of all juvenile offenders under circumstances that would be in violation of the section 223(a)(13) separation requirement. These States were not eligible for a finding of compliance if any instances of noncompliance were sanctioned by state law, rule or regulation, or policy. Instead, the revised regulation establishes a single standard applicable to all States regardless of whether a law, rule or regulation, or policy exists that prohibits the detention or confinement of juveniles with incarcerated adults in circumstances that would be in violation of section 223(a)(13), providing that compliance can be established under circumstances in which:

(1) the instances of noncompliance do not indicate a pattern or practice; and either (2) adequate enforcement mechanisms exist; or (3) an acceptable plan has been developed to eliminate the noncompliant incidents.

Minority Detention and Confinement

The revised regulation specifically provides that the purpose of the section 223(a)(23) Disproportionate Minority Confinement core requirement is to encourage States to programmatically address any features of its justice system that may account for the disproportionate detention or confinement of minority juveniles. The regulation is revised to clearly state that the Disproportionate Minority Confinement core requirement neither requires nor establishes numerical standards or quotas in order for a State to achieve or maintain compliance.

Discussion of Comments

The proposed revisions to the existing Formula Grants Regulation were published in the **Federal Register** on July 3, 1996 (61 FR 34770), for public comment. Written comments were received from thirty-six respondents on ten issues addressed by the proposed regulation. The respondents represent a diverse group including child advocacy organizations, state agencies responsible for carrying out the JJDP Act, and public interest groups. All comments have been considered by OJJDP in the issuance of this final regulation.

The following is a summary of the comments and the responses from OJJDP:

1. *Comment:* Several respondents raised concern over the proposed clarification of the Section 223(a)(13) prohibition against contact between incarcerated adults and juveniles who are in close proximity but not at such distances as "several hundred feet." These respondents contended that this statement in the commentary section of the proposed regulation appears to conflict with the later statement in the commentary section concerning the prohibition against systematic contact. These respondents suggested that the "several hundred feet" standard would create monitoring difficulties and, consequently, it should be clarified that "several hundred feet" was intended only as an example and that the ability for a juvenile and adult to communicate is the key. These respondents felt that it should be made clear that "systematic, procedural, and condoned contact is always prohibited."

Response: The Section 223(a)(13) separation requirement is designed to protect juveniles who are at risk from contact with adult offenders while under the delinquency jurisdiction of the juvenile justice system. OJJDP agrees with the comment that "systematic, procedural, and condoned contact is always prohibited." The "several hundred feet" example was intended to illustrate a common sense approach to determining if visual "contact" or oral "communication" is possible. This is not an issue of systematic, procedural, or condoned contact, but one of the potential for harm to juveniles. OJJDP does not believe that a juvenile who is able to see an adult from a significant distance is in danger of being harmed. Simultaneous use of secure areas of adult facilities continues to be prohibited and, under the revised regulation, time-phased use of common use areas to achieve separation is permitted in both collocated facilities and adult jails, lockups, or other adult institutions. For collocated facilities, this revision is designed to allow both juveniles and adults access to available educational, vocational, and recreational areas common to the two facilities.

2. *Comment:* A number of respondents opined that the "brief and inadvertent" contact language of the proposed regulation essentially changes the Section 223(a)(13) prohibition from "no contact" back to "no regular contact" for nonresidential areas of institutions. Relaxing the no contact standard, it is argued, would permit more violations because violations are already occurring under current regulations. Several respondents believe this proposed regulation would "muddy the waters" and may "expose children to needless risks" by lowering the standards to which states must adhere. They assert that national policy should set the separation standard at the highest possible level.

Response: The revised regulation seeks to clarify with particularity the prohibition of systematic, procedural, or condoned contact between incarcerated adults and juveniles. It is not the intent of OJJDP, through the revised regulation, to in any way encourage or tolerate increased contact between incarcerated juveniles and adults, or to expose juveniles to greater risk. However, common sense and practicality suggested that the regulatory definitions of both sight and sound contact needed to be clarified, so that appropriate and reasonable parameters would guide State and local policy and practice.

In considering the respondent comments concerning this proposed regulatory clarification, it is important to note that the obligation of local jurisdictions housing juveniles to maintain sight and sound separation by architectural means or by established policies and procedures remains firmly in place. This obligation, coupled with the maintenance of policies, practices and facilities designed to maximize separation, is designed to maintain strict adherence to the "no contact" statutory prohibition between juveniles and adults in secure custody.

OJJDP also believes, however, that strict adherence to the "no contact"

prohibition is not inconsistent, in view of the lack of a statutory definition of the word "contact", with a recognition that brief and inadvertent or accidental sight or sound contact may occur, upon occasion, in nonresidential areas of a secure institution, without being considered a reportable violation of the separation requirement. OJJDP believes it would be unfair to penalize jurisdictions working consistently and genuinely to maintain sight and sound separation through policies, practices, and facilities architecture if brief and inadvertent or accidental contact between a juvenile and adult occurs in common use areas. This recognition should in no way be interpreted to indicate acceptance or tolerance of such impermissible contacts, but only as a recognition that in such environments, even the very best intentioned facility administrators may not prevent all short-term, accidental contact between juveniles and adults in a portion of the facility used at different times by both juveniles and adults.

Nonetheless, based on the concern expressed in the comment, OJJDP has expanded the regulatory language to prohibit contact in any secure areas of an institution that are dedicated to use by juvenile offenders, including any residential area. A residential area is an area used to confine individuals overnight, and may include sleeping, shower and toilet, and day room areas. OJJDP recognizes that in many jurisdictions, especially jurisdictions in rural areas, there may be periods of time when no juveniles are detained in an adult jail or lockup facility. During these periods, jurisdictions use all areas of the facility, including those areas dedicated to use by juveniles when juveniles are present, for incarcerated adults because no contact between incarcerated adults and juveniles is possible when juveniles are not present in the facility.

This revision, coupled with the requirement that facilities establish separation by architectural means or by establishing policies and procedures for time-phased use of common use areas within the secure perimeter of an adult jail, lockup, or penal facility, or within a juvenile detention facility that is collocated with any adult jail or lockup, helps to insure the safety of detained and confined juveniles.

OJJDP hopes that this explanation will assist those concerned with the proposed regulation to see that it is in no way intended to evidence a change in view or policy regarding the importance of maintaining the sight and sound separation of juveniles from adults in secure facilities at all times.

3(a). Comment: Several respondents asserted that an adjudicated delinquent should only be subject to transfer to an adult facility, such as a prison, once he (or she) reaches the age of full criminal responsibility, as provided by State law, in circumstances where the delinquent has been afforded the full due process rights available to a criminal offender in a criminal court proceeding (e.g. bail, trial by jury, etc.).

Response: The JJDP Act separation requirement expressly applies to juveniles who are alleged to be or found to be delinquent. An individual who has reached the age of full criminal responsibility is no longer considered a juvenile under the law of a State unless expressly so provided and would not, therefore, fall under the protection of the JJDP Act separation requirement. States have a compelling interest in striking a balance between the goal of achieving an adjudicated delinquent's well-being through treatment and physical security and the goals of punishment and protection of the public by lengthening the period of confinement in appropriate circumstances. The State of Texas, for example, has instituted a determinate sentencing system for certain violent offenders which initially places a juvenile adjudicated delinquent under the jurisdiction of the Texas Youth Commission and requires the committing court to re-evaluate the delinquent's placement status when he/she reaches the age of 18. At that time, the court can transfer the individual, who is now an adult, to an adult penal institution if warranted. Alternatively, the delinquent can be retained under the custody of the Texas Youth Commission to age 21, at which time transfer is mandatory if he/she is not released. Our review indicates that the caselaw is not definitive on the issue of whether a failure to provide a juvenile with all the due process rights of a criminal defendant in a delinquency proceeding would prohibit such a transfer, on due process or other grounds, to an adult jail or prison. The regulation continues to prohibit the pro forma administrative transfer of an adjudicated delinquent who has reached the age of full criminal responsibility to an adult jail or prison. However, we believe it is consistent with the JJDP Act and principles of federalism to allow States to authorize or require the transfer of such delinquents under State law. While the due process issue is appropriately a matter of State law and practice, those jurisdictions contemplating passage of a law to authorize such transfers should consider whether delinquents subject to incarceration in the criminal justice system upon reaching the age of full criminal responsibility should be afforded the same due process rights in the original delinquency adjudication to which an adult in a criminal court proceeding is entitled.

3(b). Comment: One respondent opined that where an adjudicated delinquent is subject to transfer to an adult institution on or after reaching the age of full criminal responsibility pursuant to State law, assurances should be required that age-appropriate needs, such as health, mental health, recreation, and education services will be made available.

Response: Meeting the basic needs of transferred adjudicated delinquents should be a priority for any jurisdiction's correctional system. It is the responsibility of the State to provide for basic needs and services for all prisoners, including juveniles and young adults.

3(c). Comment: Several respondents felt that the transfer of adjudicated delinquents to adult facilities once they reach the age of full criminal responsibility defeats the purpose of a delinquency adjudication.

Response: It is important to note that persons eligible for such a transfer are limited to those who are no longer considered juveniles under State law. With States increasingly focusing on the transfer of serious and violent juvenile offenders to criminal court for prosecution, this type of transfer scheme may result in fewer transfers of juveniles to the criminal justice system through judicial waiver, prosecutorial direct-file, and statutory exclusion of certain offenses from the jurisdiction of the juvenile court. This will help to assure that appropriate treatment services are provided by the juvenile justice system while the individual is a juvenile and may serve to protect juvenile offenders from older delinquents who pose a threat or whose treatment needs cannot be met by the juvenile correctional system.

3(d). Comment: Several respondents stated that the transfer of adjudicated delinquents to adult facilities is not sound policy because the influences of adult facilities are extremely negative and harmful to young adults. These respondents further asserted that the risk of assaults and violence in juvenile facilities increase when wards know that they are going to be transferred to adult correctional facilities. This "split" disposition has a destabilizing influence on juvenile programs, according to one respondent. Several respondents stated that any advances made by juveniles in

the juvenile justice system through available educational, vocational, and therapeutic programs will be destroyed as a result of the transfer to an adult facility.

Response: OJJDP strongly recommends that States enacting a transfer law provide the transferred adjudicated delinquent with age appropriate programs. However, this Office is neither aware of any studies supporting the alleged harm from such transfers nor believes that a juvenile who is able to remain in a juvenile correctional setting at least until the age of full criminal responsibility is worse off than the juvenile who is transferred to the criminal justice system for felony prosecution and, upon conviction, is incarcerated in the criminal justice system.

3(e). Comment: One respondent suggested that OJJDP recommend that States provide separate facilities for delinquent offenders who have reached the age of full criminal responsibility.

Response: OJJDP agrees that this option merits State consideration. Such a system has been adopted in Colorado, where older serious and violent delinquent offenders who have reached the age of full criminal responsibility and juveniles transferred to criminal court pursuant to State transfer laws, are placed in secure treatment facilities designed and operated for youthful offenders.

3(f). Comment: One respondent suggested that the proposed regulatory change is of great assistance to individual States looking for appropriate methods to deal with the rising levels of violent juvenile crime.

Response: The intent of this regulatory change is to provide States with appropriate flexibility in dealing with serious and violent delinquent offenders who require sentences that extend into adulthood.

4(a). Comment: Three questions were asked by one respondent concerning the "6 hour rule" that allows an alleged delinquent to be held in a secure custody status in an adult jail or lockup for up to 6 hours for purposes of processing (while maintaining sight and sound separation from adult offenders). The proposed regulation would apply the six hour hold exception to include a six hour period before and/or after a court appearance (both pre and post adjudication).

(a) Is the 6 hour rule cumulative (i.e. before and after inclusive of the 6 hours) or is it a separate 6 hours for before and after a court appearance?

(b) Is the time limit affected by the status of the jail site, i.e. MSA or nonMSA?

(c) Would the 24 hour rural exception continue to be permitted?

Response: (a) The 6 hour rule is not cumulative. A juvenile may be held up to 6 hours before a court appearance and up to 6 hours after a court appearance in an adult jail or lockup.

(b) The time limit is not affected by the status of the jail site;

(c) The 24-hour rural exception is not changed by the regulation. The 24-hour rural (MSA) exception is a statutory exception that applies to initial law enforcement custody, which may or may not result in an initial court appearance. The new six-hour hold exception would apply in either an MSA or nonMSA jurisdiction both before and/or after a court appearance.

4(b). Comment: Several respondents suggested that the 6-hour rule following a court appearance be expanded to 24 hours for rural jurisdictions because of the expense of identifying and traveling to an appropriate facility or of constructing a separate detention facility in a small rural county or group of counties.

Response: The nonMSA, or rural exception, provides a 24-hour period, exclusive of nonjudicial days (Saturdays, Sundays and holidays), to detain an alleged delinquent, pending an initial court appearance, if State law requires such an appearance within the 24-hour period. Long distance and weather may extend this exception. The 6-hour hold exception has historically applied when police are holding a juvenile for investigation or processing a juvenile for purposes of notifying parents, arranging release, or transporting to a juvenile facility. Expansion of the 6-hour hold for pre- and post-court appearances is designed to facilitate court appearances of juveniles that require transportation. The statutory 24-hour nonMSA exception for initial court appearances is premised on the need for time to plan the placement/release of the juvenile. Subsequent court appearances can be planned in advance, negating the need for an extended placement of the juvenile in an adult jail or lockup.

4(c). Comment: One respondent found that the 6-hour exception was too inflexible where no reasonable alternative juvenile placement was available following arrest. The respondent suggested that a workable "good faith" rule be established.

Response: The six-hour exception gives law enforcement officials in nonMSA jurisdictions the opportunity to make decisions about investigating, processing, and/or transporting juveniles. States and local units of government have found the 6-hour exception to be sufficient where mechanisms are put in place to expedite the handling of alleged delinquents who need to be detained for investigation or processing in secure custody in an adult jail or lockup.

4(d). Comment: One respondent organization cited the Institute for Judicial Administration/American Bar Association (IJA/ABA) Standards which state that "The interim detention of accused juveniles in any facility or part thereof also used to detain adults is prohibited." In support of its opposition to the proposed regulation, this respondent noted that under conditions where juveniles are held with adults prior to adjudication, ABA standards recommend a blanket prohibition against the detention of juveniles with adult inmates prior to adjudication under any circumstances.

Response: Congress considered the secure confinement of accused delinquent juveniles for up to 6 hours in an urban jail or lockup to be a reasonable outside time limit for processing purposes. This period of time was considered to reflect a "rule of reason", as stated in the House Committee report on the 1980 JJDP Act reauthorization. OJJDP is not establishing any new policy by this regulation, but rather is codifying in the regulation what has been the Office's monitoring policy for 16 years, and extending it to pre- and post-court appearance holds.

5(a). Comment: One respondent, while supporting the time-phasing of common use areas of collocated facilities, requested clarification on whether "professional treatment staff" can be "shared" between juvenile and adult populations.

Response: In collocated facilities, professional care staff such as medical, counseling, or education services continue to be permitted to serve both adult and juvenile residents, although not at the same time.

5(b) Comment: One respondent asserted that elimination of the requirement for OJJDP's concurrence in State-approved collocated facilities weakens the Office's enforcement capabilities.

Response: States will continue to have the responsibility to approve and monitor these facilities. OJJDP will continue to review the monitoring practices of States, as well as provide training and technical assistance. Further, the criteria for the establishment of such facilities are clearly set forth in § 31.303(e)(3) of the regulation.

5(c). Comment: Another respondent felt that the regulation should more

clearly reflect that collocated facilities are not prohibited and that these facilities are permissible if established in accordance with the regulatory criteria set forth to establish that a collocated facility is a separate and distinct facility from the adult jail or lockup with which it is collocated.

Response: OJJDP's proposal to eliminate the requirement for its concurrence in State approval of a collocated facility, and the elimination of a needs-based analysis, should make it clear that the establishment of collocated facilities is not prohibited. States may approve collocated facilities in accordance with State law and policy as long as each such facility meets the criteria set forth in § 31.303(e)(3) of the regulation.

5(d). Comment: Another respondent opined that the needs-based analysis and prohibition of time-phased use should not be eliminated.

Response: A properly constructed and operated collocated facility that meets the criteria set forth in § 31.303(e)(3) does not create conditions where the health and safety of juveniles would be jeopardized. Time-phased use of nonresidential areas allows for efficient use of these resources which, otherwise, might not be available to the juvenile population. Time-phased use, if properly implemented, would not result in any contact between juveniles and adults. Further, States are encouraged to conduct their own needs-based analysis. OJJDP technical assistance will remain available, upon State request, for this purpose.

6(a). Comment: One commentor, in response to the 24 hour detention exception for status and nonoffenders, stated that nonoffenders should not be placed in detention facilities. Limited exceptions should be permitted in the event of a well documented need. In this way, detention of nonoffenders will not become a pattern or practice.

Response: OJJDP agrees that the detention of nonoffenders, such as dependent, neglected, or abused children, should not become a pattern or practice. This authority should be used to meet emergency needs only. States are encouraged to provide for the return of nonoffenders to their families or to appropriate shelter care as soon as possible.

6(b). Comment: Another respondent considers the placement of nonoffenders in secure detention to be a retrenchment of longstanding national policy in opposition to such a placement.

Response: OJJDP Formula Grants program policy and regulation have authorized the limited and temporary placement of nonoffenders in secure detention facilities since 1975. When either status offenders or nonoffenders are placed in such facilities, Section 223(a)(12)(B) encourages States to place the status offender or nonoffender in facilities which are the least restrictive alternative appropriate to the needs of the child and the community. The provision does not change established policy and is intended to provide adequate time to arrange for appropriate placement prior to or following an initial court appearance. Because the current statutory definition of "secure detention facility" includes dedicated facilities for nonoffenders, removal of the 24 hour hold exception's applicability to nonoffenders would also prohibit the secure holding of nonoffender juveniles in dedicated facilities. This issue needs to be addressed statutorily before OJJDP can propose a change to the 24 hour hold exception's applicability to nonoffenders.

6(c). Comment: One respondent believes that placement of status offenders with children accused of delinquency can stigmatize them as delinquent and that the proposed regulation dilutes OJJDP's strong regulatory support for the deinstitutionalization of status offender and nonoffender juveniles. This respondent supports the placement of status offenders in secure residential facilities for up to six hours and only when law enforcement is unable to contact a parent, custodian, or relative, unreasonable distance exists, the juvenile refuses to be taken home, or law enforcement is otherwise unable to make arrangements for the safe release of the juvenile.

Response: OJJDP has, since 1975, authorized the secure short-term detention of status offenders and nonoffenders in juvenile detention facilities. While blanket use of this authority without regard to the facts and circumstances of each juvenile taken into custody would be a poor policy, State and local governments should determine the specific law and policy that will govern the use of this authority.

7(a). Comment: Two respondents commented regarding revision of § 31.303(f)(3)(vi), authorizing the use of multi-disciplinary teams to make recommendations on the use of secure confinement for a valid court order violator, contending that such teams are an important tool for the valid court order process and that the language should not be deleted. Another commented that language should be added to clarify that multi-disciplinary teams are only a suggested way of meeting the requirement for an independent review team and that court or law enforcement personnel can still serve on such a team.

Response: Multi-disciplinary teams may still be utilized for the purpose of preparing and submitting a written report to a judge considering an order to place a status offender in a secure facility for violation of a valid court order.

The suggestion of multi-disciplinary teams in the existing regulation was meant to be an example of one mechanism that would fulfill the statutory requirement. However, this apparently created the impression that only multi-disciplinary teams could be utilized. In fact, the review could be conducted by an individual, agency, or team representing a noncourt or law enforcement agency.

7(b). Comment: One comment opposed the deletion of language requiring that secure confinement represent the least restrictive alternative "appropriate to the needs of the juvenile and the community." This respondent felt that removal of this language lessens the judge's overall responsibility to ensure the appropriateness of the disposition in light of other available placement.

Response: Section 103(16)(C)(iii) of the JJDP Act and § 31.303(f)(3)(vi) of the regulation require that a disposition of secure confinement must consider all alternative dispositions (including treatment) to placement in a secure detention or secure correctional facility. Removal of the referenced language does not diminish the responsibility of the court to consider alternatives to secure confinement. However, the referenced nonstatutory language is vague and does not provide meaningful guidance.

7(c). Comment: Another comment requested clarification of why the words "of a status offender" were added to the language "In entering any order that directs or authorizes the placement of a status offender in a secure facility, the judge presiding over an initial probable cause hearing or violation hearing must, * * *" in Section 31.303(f)(3)(vi).

Response: The change was intended to underscore that the valid court order (VCO) provision applies solely to status offenders. A nonoffender may not be placed in secure confinement for any length of time for violation of a court order.

7(d). Comment: One respondent recommended the deletion of the VCO requirement for an independent review and determination of the reasons for the juvenile's behavior. This respondent

insisted that the first was difficult to monitor and the latter impossible to determine, asking "How can the court ascertain the reasons for the juvenile's behavior?". Another respondent commented that the VCO provision should be a recommendation rather than a requirement.

Response: The use of the independent review standard under the valid court order exception is statutorily established in Section 223(a)(12)(A) and the term "valid court order" is defined in Section 103(16) of the JJDP Act. Therefore, they cannot be deleted or modified by regulation.

8. Comment: Comments were received both in favor of and opposed to the proposal to eliminate the reporting requirement for each use of the ground/distance and weather exceptions to the jail and lockup removal exception. Those opposed to the change are concerned that it will encourage abuses of the rule and lead to more youth in adult jails and lockups, in violation of the statute.

Response: Enforcement of this provision will continue to be a State responsibility that is subject to on'site monitoring and verification by OJJDP during compliance monitoring visits to States utilizing this jail and lockup removal exception. The changes streamline the process and remove an unnecessary administrative burden.

9(a). Comment: Several respondents felt that the "relaxation" of State reporting and monitoring requirements related to the separation requirement is "dangerous" and could cause States to slide into noncompliance. States might view this as an opportunity to relax their oversight responsibility.

Response: It is not OJJDP's intent to encourage States to weaken their commitment to the core requirements of the JJDP Act. However, OJJDP believes that isolated violations of the separation requirement that do not represent a pattern or practice should not jeopardize a State's ability to access federal funds. OJJDP remains fully committed to the enforcement of Section 223(a)(13) of the JJDP Act requiring the separation of juvenile delinquents from adult offenders.

9(b). Comment: One respondent commented that the existence of state laws, regulations, or court rules is the only mechanism that provides any true assurance that future violations of the separation requirement will not occur in a given jurisdiction. Another felt that eliminating this requirement will mean that States will abandon their efforts to obtain conforming laws, regulations, and court rules in order to enforce the separation core requirement. A third respondent felt that all States should have a policy that mirrors the JJDP Act separation requirement.

Response: OJJDP encourages States to retain existing laws, regulations, and court rules mirroring the separation requirement. OJJDP also encourages States to utilize other effective enforcement tools including: training and technical assistance workshops; on-site training for law enforcement and adult jail and lockup personnel; and development of alternatives to incarceration.

9(c). Comment: One commentor suggested that until such time as OJJDP has unlimited resources, there is no way that the existence of a "pattern or practice" of noncompliance can be monitored.

Response: Section 223(a)(15) requires States to "provide for an adequate system of monitoring jails, detention facilities, and nonsecure facilities to ensure that the requirements of paragraph (12)(A), paragraph (13) and paragraph (14) are met, and for annual reporting of the results of such monitoring to the Administrator; * * *". It is OJJDP's position that State monitoring systems successfully identify the vast majority of violations and State monitoring reports can be used to identify whether reported violations establish a pattern or practice of separation violations in the State.

9(d). Comment: A single separation standard applicable to all States for measuring compliance based on *de minimis* violations that do not indicate a pattern or practice is a fair standard, according to one respondent. Moreover, it is less cumbersome than the present compliance requirement. Another respondent felt that it is clearly appropriate to find overall compliance within the separation requirement even if individual violations have occurred, as long as no pattern or practice exists.

Response: It is OJJDP's intent to treat all States in a fair and equitable manner. In addressing violations of Section 223(a)(13) of the JJDP Act in terms of a pattern or practice, OJJDP's across the board approach is equitable to the States, providing a substantive *de minimis* standard for the separation requirement.

10(a). Comment: A commentor noted that the addition of the word "programmatically" in Section 31.303(j) to clarify that "the purpose of the statute and regulation is to encourage States to address programmatically, * * *" the disproportionate minority confinement (DMC) core requirement (Section 223(a)(23)) will limit the focus of the States and move them away from alternative ways to address the over-representation of minorities in secure facilities.

Response: OJJDP notes that the addition of the word "programmatically" does not restrict a State's options for addressing DMC. States are encouraged to examine all aspects of DMC and address any features of its juvenile or criminal justice systems that may contribute to DMC as identified by the State.

10(b). Comment: Another respondent stated that the regulation needs to reflect a broader examination of minority over-representation. Since 1992, States have spent considerable time and dollars reviewing their juvenile justice systems in their entirety. The clarification to the DMC core requirement provides that States should address "programmatically" any feature of its justice system that accounts for the disproportionate detention or confinement of minority juveniles. However, the entire system should be analyzed, not just juvenile detention or confinement.

Response: The regulation provides for a broad examination of the DMC issue, including all decision points in the juvenile justice system, and encourages States to address "any feature of its justice system" that accounts for DMC and not just those that "may account for the disproportionate detention or confinement." The latter language is taken verbatim from the statutory language of Section 223(a)(23) of the JJDP Act.

Executive Order 12866

This final rule is not a "significant regulatory action" for purposes of Executive Order 12866 because it does not result in: (1) an annual effect on the economy of $100 million or more or adversely affect in a material way the economy, a sector of the economy, productivity, competition, jobs, the environment, public health or safety, or state, local or tribal governments or communities; (2) create a serious inconsistency or otherwise interfere with action taken or planned by another agency; (3) materially alter the budgetary impact of entitlement, grants, user fees, or loan programs or the rights and obligations of recipients thereof; and (4) does not raise novel legal or policy issues arising out of legal mandates, the President's priorities or the principles of Executive Order No. 12866, and accordingly this rule has not been reviewed by the Office of Management of Budget. § 31.303 Substantive requirements.

* * * * *

(d) * * *

(1) * * *

(i) *Separation.* Describe its plan and procedure, covering the three-year planning cycle, for assuring that the requirements of this section are met. The term "contact" includes any physical or sustained sight or sound contact between juvenile offenders in a secure custody status and incarcerated adults, including inmate trustees. A juvenile offender in a secure custody status is one who is physically detained or confined in a locked room or other area set aside or used for the specific purpose of securely detaining persons who are in law enforcement custody. Secure detention or confinement may result either from being placed in such a room or area and/or from being physically secured to a cuffing rail or other stationary object. Sight contact is defined as clear visual contact between incarcerated adults and juveniles within close proximity to each other. Sound contact is defined as direct oral communication between incarcerated adults and juvenile offenders. Separation must be accomplished architecturally or through policies and procedures in all secure areas of the facility which include, but are not limited to, such areas as admissions, sleeping, and shower and toilet areas. Brief and inadvertent or accidental contact between juvenile offenders in a secure custody status and incarcerated adults in secure areas of a facility that are not dedicated to use by juvenile offenders and which are nonresidential, which may include dining, recreational, educational, vocational, health care, sally ports or other entry areas, and passageways (hallways), would not require a facility or the State to document or report such contact as a violation. However, any contact in a dedicated juvenile area, including any residential area of a secure facility, between juveniles in a secure custody status and incarcerated adults would be a reportable violation.

(v) Assure that adjudicated delinquents are not reclassified administratively and transferred to an adult (criminal) correctional authority to avoid the intent of separating juveniles from adult criminals in jails or correctional facilities. A State is not prohibited from placing or transferring an alleged or adjudicated delinquent who reaches the State's age of full criminal responsibility to an adult facility when required or authorized by State law. However, the administrative transfer, without statutory direction or authorization, of a juvenile offender to an adult correctional authority, or a transfer within a mixed juvenile and adult facility for placement with adult criminals, either before or after a juvenile reaches the age of full criminal responsibility, is prohibited. A State is also precluded from transferring adult offenders to a juvenile correctional authority for placement in a juvenile facility. This neither prohibits nor restricts the waiver or transfer of a juvenile to criminal court for prosecution, in accordance with State law, for a criminal felony violation, nor the detention or confinement of a waived or transferred criminal felony violator in an adult facility.

* * * * *

(e) * * *

(2) Describe the barriers that a State faces in removing all juveniles from adult jails and lockups. This requirement excepts only those alleged or adjudicated juvenile delinquents placed in a jail or a lockup for up to six hours from the time they enter a secure custody status or immediately before or after a court appearance, those juveniles formally waived or transferred to criminal court and against whom criminal felony charges have been filed, or juveniles over whom a criminal court has original or concurrent jurisdiction and such court's jurisdiction has been invoked through the filing of criminal felony charges.

(3) *Collocated facilities.* (i) Determine whether or not a facility in which juveniles are detained or confined is an adult jail or lockup. The JJDP Act prohibits the secure custody of juveniles in adult jails and lockups, except as otherwise provided under the Act and implementing OJJDP regulations. Juvenile facilities collocated with adult facilities are considered adult jails or lockups absent compliance with criteria established in paragraphs (e)(3)(i)(C)(*1*) through (*4*) of this section.

(A) A collocated facility is a juvenile facility located in the same building as an adult jail or lockup, or is part of a related complex of buildings located on the same grounds as an adult jail or lockup. A complex of buildings is considered "related" when it shares physical features such as walls and fences, or services beyond mechanical services (heating, air conditioning, water and sewer), or the specialized services that are allowable under paragraph (e)(3)(i)(C)(*3*) of this section.

(B) The State must determine whether a collocated facility qualifies as a separate juvenile detention facility under the four criteria set forth in paragraphs (e)(3)(i)(C) (*1*) through (*4*) of this section for the purpose of monitoring compliance with section 223(a) (12)(A), (13) and (14) of the JJDP Act.

(C) Each of the following four criteria must be met in order to ensure the requisite separateness of a juvenile detention facility that is collocated with an adult jail or lockup:

(1) Separation between juveniles and adults such that there could be no sustained sight or sound contact between juveniles and incarcerated adults in the facility. Separation can be achieved architecturally or through time-phasing of common use nonresidential areas; and

(2) Separate juvenile and adult programs, including recreation, education, vocation, counseling, dining, sleeping, and general living activities. There must be an independent and comprehensive operational plan for the juvenile detention facility which provides for a full range of separate program services. No program activities may be shared by juveniles and incarcerated adults. Time-phasing of common use nonresidential areas is permissible to conduct program activities. Equipment and other resources may be used by both populations subject to security concerns; and

(3) Separate staff for the juvenile and adult populations, including management, security, and direct care staff. Staff providing specialized services (medical care, food service, laundry, maintenance and engineering, etc.) who are not normally in contact with detainees, or whose infrequent contacts occur under conditions of separation of juveniles and adults, can serve both populations (subject to State standards or licensing requirements). The day to day management, security and direct care functions of the juvenile detention center must be vested in a totally separate staff, dedicated solely to the juvenile population within the collocated facilities; and

(4) In States that have established standards or licensing requirements for juvenile detention facilities, the juvenile facility must meet the standards (on the same basis as a free-standing juvenile detention center) and be licensed as appropriate. If there are no State standards or licensing requirements, OJJDP encourages States to establish administrative requirements that authorize the State to review the facility's physical plant, staffing patterns, and programs in order to approve the collocated facility based on prevailing national juvenile detention standards.

(ii) The State must determine that the four criteria are fully met. It is incumbent upon the State to make the determination through an on-site facility (or full construction and operations plan) review and, through the exercise of its oversight responsibility, to ensure that the separate character of the juvenile detention facility is maintained by continuing to fully meet the four criteria set forth in paragraphs (e)(3)(i)(C) (1) through (4) of this section.

(iii) Collocated juvenile detention facilities approved by the State and concurred with by OJJDP before December 10, 1996 may be reviewed by the State against the regulatory criteria and OJJDP policies in effect at the time of the initial approval and concurrence or against the regulatory criteria set forth herein, as the State determines. Facilities approved on or after the effective date of this regulation shall be reviewed against the regulatory criteria set forth herein. All collocated facilities are subject to the separate staff requirement established by the 1992 Amendments to the JJDP Act, and set forth in paragraph (e)(3)(i)(C)(3) of this section.

(iv) An annual on-site review of the facility must be conducted by the compliance monitoring staff person(s) representing or employed by the State agency administering the JJDP Act Formula Grants Program. The purpose of the annual review is to determine if compliance with the criteria set forth in paragraphs (e)(3)(i)(C) (1) through (4) of this section is being maintained.

(f) * * *

* * * * *

(2) For the purpose of monitoring for compliance with section 223(a)(12)(A) of the Act, a secure detention or correctional facility is any secure public or private facility used for the lawful custody of accused or adjudicated juvenile offenders or nonoffenders, or used for the lawful custody of accused or convicted adult criminal offenders. Accused status offenders or nonoffenders in lawful custody can be held in a secure juvenile detention facility for up to twenty-four hours, exclusive of weekends and holidays, prior to an initial court appearance and for an additional twenty-four hours, exclusive of weekends and holidays, following an initial court appearance.

(3) * * *

(vi) In entering any order that directs or authorizes the placement of a status offender in a secure facility, the judge presiding over an initial probable cause hearing or violation hearing must determine that all the elements of a valid court order (paragraphs (f)(3) (i), (ii) and (iii) of this section) and the applicable due process rights (paragraph (f)(3)(v) of this section) were afforded the juvenile and, in the case of a violation hearing, the judge must obtain and review a written report that: reviews the behavior of the juvenile and the circumstances under which the juvenile was brought before the court and made subject to such order; determines the reasons for the juvenile's behavior; and determines whether all dispositions other than secure confinement have been exhausted or are clearly inappropriate. This report must be prepared and submitted by an appropriate public agency (other than a court or law enforcement agency).

(4) * * *

(vi) Pursuant to section 223(a)(14) of the JJDP Act, the nonMSA (low population density) exception to the jail and lockup removal requirement as described in paragraphs (f)(4) (i) through (v) of this section shall remain in effect through 1997, and shall allow for secure custody beyond the twenty-four hour period described in paragraph (f)(4)(i) of this section when the facility is located where conditions of distance to be traveled or the lack of highway, road, or other ground transportation do not allow for court appearances within twenty-four hours, so that a brief (not to exceed an additional forty-eight hours) delay is excusable; or the facility is located where conditions of safety exist (such as severely adverse, life-threatening weather conditions that do not allow for reasonably safe travel), in which case the time for an appearance may be delayed until twenty-four hours after the time that such conditions allow for reasonably safe travel. States may use these additional statutory allowances only where the precedent requirements set forth in paragraphs (f)(4) (i) through (v) of this section have been complied with. This may necessitate statutory or judicial (court rule or opinion) relief within the State from the twenty-four hour initial court appearance standard required by paragraph (f)(4)(i) of this section.

(5) * * *

(i) * * *

(C) The total number of accused status offenders and nonoffenders, including out-of-State runaways and Federal wards, held in any secure detention or correctional facility for longer than twenty-four hours (not including weekends or holidays), excluding those held pursuant to the valid court order provision as set forth in paragraph (f)(3) of this section or pursuant to section 922(x) of Title 18, United States Code (which prohibits the possession of a handgun by a juvenile), or a similar State law. A juvenile who violates this statute, or a similar state law, is

excepted from the deinstitutionalization of status offenders requirement;

* * * * *

(iii) To demonstrate the extent of compliance with section 223(a)(13) of the JJDP Act, the report must include, at a minimum, the following information for the current reporting period:

(A) Dates covered by the current reporting period;

(B) The total number of facilities used to detain or confine both juvenile offenders and adult criminal offenders during the past 12 months and the number inspected on-site;

(C) The total number of facilities used for secure detention and confinement of both juvenile offenders and adult criminal offenders which did not provide sight and sound separation;

(D) The total number of juvenile offenders and nonoffenders not separated from adult criminal offenders in facilities used for the secure detention and confinement of both juveniles and adults;

(E) The total number of State approved juvenile detention centers located within the same building or on the same grounds as an adult jail or lockup, including a list of such facilities;

(F) The total number of juveniles detained in State approved collocated facilities that were not separated from the management, security or direct care staff of the adult jail or lockup;

(G) The total number of juvenile detention centers located within the same building or on the same grounds as an adult jail or lockup that have not been approved by the State, including a list of such facilities; and

(H) The total number of juveniles detained in collocated facilities not approved by the State that were not sight and sound separated from adult criminal offenders.

(iv) To demonstrate the extent of compliance with section 223(a)(14) of the JJDP Act, the report must include, at a minimum, the following information for the current reporting period:

(A) Dates covered by the current reporting period;

(B) The total number of adult jails in the State AND the number inspected on-site;

(C) The total number of adult lockups in the State AND the number inspected on-site;

(D) The total number of adult jails holding juveniles during the past twelve months;

(E) The total number of adult lockups holding juveniles during the past twelve months;

(F) The total number of accused juvenile criminal-type offenders held securely in adult jails, lockups, and unapproved collocated facilities in excess of six hours, including those held pursuant to the "removal exception" as set forth in paragraph (f)(4) of this section;

(G) The total number of accused juvenile criminal-type offenders held securely in adult jails, lockups and unapproved collocated facilities for less than six hours for purposes other than identification, investigations, processing, release to parent(s), transfer to court, or transfer to a juvenile facility following initial custody;

(H) The total number of adjudicated juvenile criminal-type offenders held securely in adult jails or lockups and unapproved collocated facilities in excess of six hours prior to or following a court appearance or for any length of time not related to a court appearance;

(I) The total number of accused and adjudicated status offenders (including valid court order violators) and nonoffenders held securely in adult jails, lockups and unapproved collocated facilities for any length of time;

(J) The total number of adult jails, lockups, and unapproved collocated facilities in areas meeting the "removal exception" as noted in paragraph (f)(4) of this section, including a list of such facilities and the county or jurisdiction in which each is located;

(K) The total number of juveniles accused of a criminal-type offense who were held in excess of six hours but less than 24 hours in adult jails, lockups and unapproved collocated facilities pursuant to the "removal exception" as set forth in paragraph (f)(4) of this section;

(L) The total number of juveniles accused of a criminal-type offense who were held in excess of 24 hours, but not more than an additional 48 hours, in adult jails, lockups and unapproved collocated facilities pursuant to the "removal exception" as noted in paragraph (f)(4) of this section, due to conditions of distance or lack of ground transportation; and

(M) The total number of juveniles accused of a criminal-type offense who were held in excess of 24 hours, but not more than an additional 24 hours after the time such conditions as adverse weather allow for reasonably safe travel, in adult jails, lockups and unapproved collocated facilities, in areas meeting the "removal exception" as noted in paragraph (f)(4) of this section.

(6) * * *

(i) Full compliance with section 223(a)(12)(A) is achieved when a State has removed 100 percent of status offenders and nonoffenders from secure detention and correctional facilities or can demonstrate full compliance with de minimis exceptions pursuant to the policy criteria contained in the **Federal Register** of January 9, 1981 (copies are available from the Office of General Counsel, Office of Justice Programs, 633 Indiana Ave., N.W., Washington, D.C. 20531).

(ii) Compliance with section 223(a)(13) has been achieved when a State can demonstrate that:

(A) The last submitted monitoring report, covering a full 12 months of data, demonstrates that no juveniles were incarcerated in circumstances that were in violation of section 223(a)(13); or

(B)(*1*) The instances of noncompliance reported in the last submitted monthly report do not indicate a pattern or practice but rather constitute isolated instances; and

(*2*)(*i*) Where all instances of noncompliance reported were in violation of or departure from State law, rule, or policy that clearly prohibits the incarceration of all juvenile offenders in circumstances that would be in violation of Section 223(a)(13), existing enforcement mechanisms are such that the instances of noncompliance are unlikely to recur in the future; or

(*ii*) An acceptable plan has been developed to eliminate the noncompliant incidents.

* * * * *

(j) * * * The purpose of the statute and the regulation in this part is to encourage States to address, programmatically, any features of its justice system, and related laws and policies, that may account for the disproportionate detention or confinement of minority juveniles in secure detention facilities, secure correctional facilities, jails, and lockups. The disproportionate minority confinement core requirement neither establishes nor requires numerical standards or quotas in order for a State to achieve or maintain compliance.

Office of Juvenile Justice and Delinquency Prevention
Formula Grants Regulation Revision
Summary

Since early 1996, the Office of Juvenile Justice and Delinquency Prevention (OJJDP) has taken a comprehensive look at the regulation, 28 CFR Part 31, that guides the States' implementation of the Juvenile Justice and Delinquency Prevention (JJDP) Act of 1974, as amended. The Formula Grants program regulation has been modified periodically, usually following Congressional reauthorizations. The focus for the 1996 regulation review was to consider those changes which would be responsive to the expressed needs of States and localities while ensuring the safety of children in the justice system.

In April, OJJDP held two listening conferences, one in Idaho and another in New Jersey. At these meetings, the Office sought input from a cross section of those affected by the JJDP Act: judges, public defenders, prosecutors, sheriffs, other juvenile justice practitioners, and private citizens. At the same time, the Office sought written suggestions from State Agencies and State Advisory Groups charged with implementation of the Act. Recommendations were also received through meetings with public interest groups and youth advocacy organizations.

Based on the information received, OJJDP proposed a revised regulation for public comment in the Federal Register on July 3, 1996. Following the comment period, views from the field were considered and a Final Revised Regulation was published in the *Federal Register* on December 10, 1996. The final regulation, synopsized below, provides enhanced flexibility to State and local governments and reduces red tape related to program administration.

Deinstitutionalization of Status Offenders

Section 223(a)(12)(A) of the JJDP Act provides that status offenders and nonoffenders not be detained or confined in secure detention or correctional facilities. OJJDP policy has, since 1975, provided an exception to allow a status or nonoffender to be detained for up to 24 hours, exclusive of weekends and legal holidays, in a juvenile detention facility. The revised regulation expressly provides that it is permissible to hold an accused status offender or nonoffender in a secure juvenile detention facility for up to 24 hours, exclusive of weekends and legal holidays, prior to an initial court appearance, and for an additional 24 hours, exclusive of weekends and legal holidays, immediately following an initial court appearance.

The JJDP Act provides that status offenders found to have violated a Valid Court Order may be securely detained in a juvenile detention or correctional facility under an exception to Section 223(a)(12)(A). The definition of a Valid Court Order, under Section 103(16) of the JJDP Act, provides that before a disposition of placement in a secure detention facility or a secure correctional facility is entered, an appropriate public agency (other than a court or law enforcement agency) must review the case and submit a written report to the court. The implementing regulation provided an example of a multi-disciplinary review team as an appropriate public agency.

The revised regulation eliminates the regulatory language suggesting that jurisdictions use multi–disciplinary review teams to prepare and submit a written report to a judge who is considering an order that directs or authorizes the placement of a status offender in a secure facility for the violation of a Valid Court Order. Although a multi–disciplinary team is still an appropriate option, and is encouraged when practical, this suggestion led to some confusion and, therefore, the example is deleted.

Separation

Section 223(a)(13) provides that accused and adjudicated delinquent, status offender, and nonoffender juveniles shall not have contact with incarcerated adults. In order to meet this separation requirement, the prior regulation provided that while juveniles are in secure custody in an adult facility, sight and sound contact with adults is prohibited. When OJJDP began the process of reexamining the regulation, it became clear that some confusion existed with the definition of "sight and sound" contact. Therefore, sight contact is defined as clear visual contact between incarcerated adults who are in close proximity to juveniles alleged to be or found to be delinquent, status offenders, and nonoffenders in a secure institution. Sound contact is defined in the regulation as direct oral communication between incarcerated adults and juveniles in secure institutions. While separation must be provided through architectural or procedural means, the revised regulation provides that sight or sound contact that is both brief and inadvertent or accidental must be reported as a violation only if it occurs in secure areas of the facility that are dedicated to use by juvenile offenders, including any residential area. A residential area is an area used to confine individuals overnight, and may include sleeping, shower and toilet, and day room areas.

State laws are increasingly providing for the mandatory or permissible transfer of adjudicated delinquents to adult facilities once the delinquent has attained the age of full criminal responsibility established by State law. The revised regulation provides that the separation requirement of the Act no longer applies if the transfer or placement of an adjudicated delinquent who has reached the age of full criminal responsibility is required or authorized by State law.

The revised regulation modifies the prior compliance standard penalizing States that have not enacted laws, rules and regulations, or policies prohibiting the incarceration of all juvenile offenders under circumstances that would be in violation of Section 223(a)(13). These States were not eligible for a finding of compliance if any instances of noncompliance were sanctioned by State law, rule, regulation, or policy. The revised regulation establishes a single standard applicable to all States regardless of whether a law, rule, regulation, or policy exists, if compliance can be established under circumstances in which: 1) the instances of noncompliance do not indicate a pattern or practice; and either 2) adequate enforcement mechanisms exist; or 3) an acceptance plan has been developed to eliminate the noncompliant incidents.

Jail and Lockup Removal

Section 223(a)(14) provides that juveniles cannot be detained in any adult jail or lockup. Although not expressly provided in the prior regulation, OJJDP policy provided an exception to the jail and lockup removal requirement: an alleged delinquent could be detained, while separate from adults, for up to six hours for the purposes of identification, processing, and to arrange for release to parents or transfer to a juvenile facility. The regulation codifies this exception and extends it to include a six hour time period both immediately before and after a court appearance, provided that the juvenile has no sight or sound contact with incarcerated adults during the time the juvenile is in a secure custody status in the adult jail or lockup.

Sections 223(a)(14) (B) and (C) provide circumstances that extend the statutory 24-hour non Metropolitan Statistical Area (MSA) exception to the jail removal requirement based on distance/ground transportation and weather. The revised regulation removes previous regulatory language requiring States to document and describe, in their annual monitoring report, each individual use of these exceptions.

Collocated Juvenile and Adult Facilities

The regulation makes three revisions to the criteria to establish the existence of a separate juvenile detention facility that is collocated with an adult jail or lockup:

First, the regulation is modified to permit program space in collocated adult and juvenile facilities to be shared through time-phased use. While OJJDP's objective is to encourage the development and use of separately located juvenile facilities whenever possible, it is recognized that expecting every jurisdiction to create wholly separate juvenile facilities, including the duplication of costly infrastructure elements like gymnasiums, cafeterias, and classrooms, may result in those jurisdictions being unable to provide any secure juvenile detention capacity. The revised regulation makes it possible for more jurisdictions to provide collocated juvenile and adult facilities by removing the requirement that collocated facilities not share program space between juvenile and adult populations. Utilization of time-phasing will allow both juveniles and adults access to educational, vocational, and recreational areas of collocated facilities. It is important to note that time-phased use is explicitly limited to nonresidential areas of collocated facilities and requires the use of written procedures to ensure that no contact occurs between detained juveniles and incarcerated adults.

Second, the requirement that a needs-based analysis precede a jurisdiction's request for State approval of a juvenile facility that is collocated with an adult jail or lockup has been removed. Technical assistance will remain available to States and localities that wish to conduct such an analysis.

Finally, OJJDP's concurrence with a State's decision to approve a collocated facility will no longer be required. Annual on-site reviews by the State, coupled with OJJDP's periodic review of the adequacy of State monitoring systems, will ensure that each collocated juvenile detention facility meets the criteria to establish a collocated juvenile detention facility.

Disproportionate Minority Confinement (DMC)

Section 223(a)(23) of the JJDP Act provides that States are to determine if minority juveniles are disproportionately confined in secure detention and correctional facilities and, if so, to address any features of its system that may account for the disproportionate confinement of minority juveniles. The regulation clearly states the position of OJJDP that the DMC core requirement neither requires nor establishes numerical standards or quotas in order for a State to achieve or maintain compliance.

Questions regarding the Formula Grants Regulation may be directed to OJJDP's State Relations and Assistance Division, (202) 307-5924.

ALASKA'S SYSTEM FOR MONITORING COMPLIANCE WITH THE JUVENILE JUSTICE AND DELINQUENCY PREVENTION ACT

Pursuant to Section 223(a)(15) of the Juvenile Justice and Delinquency Prevention Act of 1974 and as mandated by 28 CFR Part 31.303(f), the state is required to "[d]escribe its plan, procedure and timetable for annually monitoring jails, lockups, detention facilities, correctional facilities and non-secure facilities. The plan must at a minimum describe in detail each [monitoring task] including the identification of the specific agency(s) responsible for each task" [28 CFR Part 31.303(f)(1)(i)]. The state must also "[p]rovide a description of the barriers which [it] faces in implementing and maintaining a monitoring system to report the level of compliance with section 223(a)(12), (13) and (14) and how it plans to overcome such barriers" [28 CFR Part 31.303(f)(1)(ii)]. Finally, the state is also required to "[d]escribe procedures established for receiving, investigating, and reporting complaints of violation of section 223(a)(12), (13) and (14). This should include both legislative and administrative procedures and sanctions" [28 CFR Part 31.303(f)(1)(iii)].

In Alaska the agency responsible for juvenile matters, and therefore for monitoring compliance with the Act, is the Division of Family and Youth Services (DFYS), a division of the Alaska Department of Health and Social Services. In 1988 DFYS, using JJDP Formula Grant Funds, contracted with the Justice Center of the University of Alaska Anchorage to develop a monitoring plan, complete compliance monitoring for the 1987 and 1988 calendar years, and produce a policies and procedures manual to aid in future compliance monitoring activities. DFYS has annually renewed the contract with the Justice Center to complete monitoring activities and to cooperate in developing compliance monitoring reports. Experience with the process as well as changes in state statutes, public policies, and departmental reorganizations have led to improved procedures for monitoring compliance and a need for a revised compliance monitoring plan and a revised manual.

The revised plan for monitoring compliance with the Act has been developed by the Justice Center in cooperation with DFYS. The plan is outlined in Section I below; Section II discusses barriers to compliance monitoring, particularly those unique to Alaska; and Section III addresses procedures for receiving, investigating, and reporting complaints of violations. A timetable for completion of monitoring activities is attached as an appendix to the revised plan.

I. THE MONITORING PLAN

A. Annual Review and Update of the Monitoring Universe

The universe must be reviewed annually for changes. New facilities open, old facilities close, and both statutory and public policy shifts have prohibited some facilities from holding juveniles. When the 1988 plan was written, 103 facilities were identified as places where juveniles could be detained: 17 state-contracted rural jails; 78 municipal and village lockups; three Department of Corrections pre-trial facilities; and five juvenile detention/correction facilities operated by DFYS. The 1993 universe consisted of 120 facilities: 16 rural jails; 96 lockups; one Department of Corrections facility; and seven juvenile detention/correction facilities.

Systematic review of the universe is conducted annually as follows:

1) A list of state-contracted rural jails for the monitored year is compiled from prisoner billing sheets received from the Department of Public Safety Contract Jail Administrator.

2) The Director of Rural Law Enforcement of the Alaska State Troopers supplies a list of oversight troopers along with the villages and Village Public Safety Officers (VPSOs) for which each has responsibility. Each oversight trooper is telephoned to determine which villages have secure holding cells.

3) VPSO coordinators from the regional associations are contacted to determine if villages with Village Police Officers (VPOs) rather than VPSOs have secure holding facilities.

4) The North Slope Borough Department of Public Safety is contacted regarding changes in village lockups in the borough.

5) The Director of Institutions of the Alaska Department of Corrections is asked to provide information on which DOC pre-trial facilities are permitted to detain juveniles.

6) Area court administrators are asked to review court holding facilities in each judicial district for changes in the previous year's census of court facilities.

7) DFYS provides a list of all juvenile holding facilities, detention centers, and juvenile correctional facilities in which juveniles are detained.

8) DFYS regional administrators are telephoned for updates of the previous year's list of public or private halfway houses, group homes, residential treatment programs, etc. Each identified facility is telephoned to see if there are changes in status, type of population, etc.

B. Classification of the Monitoring Universe

Facilities in the previous year's universe are checked to determine if there are changes in classification. When village lockups are upgraded to state-contracted jail status, such changes are noted. Facilities added to the universe are classified according to definitions supplied by the supervising agency, or, if these are not comparable to state and federal definitions, are classified by the Justice Center in accordance with such definitions.

Each facility is inspected at least once every three years to determine if its classification remains adequate.

C. Inspection of Facilities

One-third of all facilities in the universe are inspected annually. Under the terms of 28 CFR Part 31.303(f)(1)(C), on-site inspections include:

a) examination of the entire physical plant to determine whether the facility is secure as defined in the regulations and to determine its proper classification (i.e., as an adult jail, adult lockup, etc., as these terms are defined in the JJDP Act);

b) inspection of all areas of the facility to determine whether there is adequate separation in each area of juvenile and adult offenders;

c) review of the record keeping system at the facility to determine whether facility records are sufficient for valid determination of compliance with section 223(a)(12), (13) and (14) of the JJDP Act;

d) interviews with staff and discussions of agency policies and procedures *vis a vis* juvenile detention and how these policies and procedures are best implemented.

Determining facilities for on-site inspection essentially follows a routine. A universe list is maintained which provides year-by-year information about data availability and facility inspections. Facilities inspected in 1989 were inspected in 1992; facilities inspected in 1990 were inspected in 1993, etc. As facilities are added to the universe they are scheduled for on-site inspection as soon as possible within the three-year "routine." The 1988 monitoring plan involved selection of facilities for on-site inspections by geographic region for ease of travel. Facilities added to the universe are inspected in accordance with such geographic constraints in order to more efficiently carry out on-site inspections.

D. Data Collection, Verification, and Analysis

Data for monitoring compliance with the Juvenile Justice and Delinquency Prevention Act are sought yearly from all facilities in the monitoring universe. The information sought includes: name or initials of person detained, date of birth, charge, date and time detained, date and time released, and sex and race. This information is available for some types of facilities through centralized record-keeping, and where this is the case photocopies or computer printouts of the required information are requested from the appropriate agency.

1. Collection of data

a. State-Contracted Rural Jails. Each spring the Alaska Department of Public Safety is asked to supply the Justice Center with copies of all prisoner billing sheets for the previous calendar year. Because the Department of Public Safety reimburses contract jails for each prisoner held, the billing sheets are complete and accurate and contain all the information necessary for monitoring compliance.

b. Department of Corrections. Each spring the Director of Institutions of the Alaska Department of Corrections is asked to provide a printout of juveniles held by the DOC during the monitored year.

c. North Slope Borough. Each spring a letter is sent to the Director of the North Slope Borough Department of Public Safety requesting him to supply photocopies of booking logs for each village lockup in the North Slope Borough.

d. Juvenile facilities. Letters are sent to each DFYS regional administrator requesting computer printouts of detention logs for all corrections/detention facilities, juvenile holding facilities, and alternative facilities. Juveniles detained are extracted for review, as are probation violations, in order to monitor the deinstitutionalization of status offenders.

e. Rural facilities. Letters are sent to oversight troopers and VPSOs responsible for trooper posts and/or village lockups requesting photocopies of booking logs for the

previous calendar year from each lockup. Enclosed with the letters are forms certifying the authenticity of the records, and forms which certify that no prisoners were held in the facility during the monitored year.

f. Two weeks after the letters are sent, follow-up telephone calls are made to the agencies/facilities which have not responded. Further explanation may be required and alternative sources of data explored.

2. Data Verification

Verification of data is carried out on three levels: a) the records of each facility in the universe are examined on-site for accuracy and completeness at least once every three years; b) collected data are compared with Juvenile Confinement forms provided by DFYS; and c) each instance of what may be a violation is examined for offender status, charge, valid court order, etc.

a. Verification of data is carried out once every three years in conjunction with on-site inspection of one-third of the facilities in the universe each year. A sample from the collected data is examined for accuracy and completeness using case files, notebooks, guard hire forms, etc. The type of verification depends on the type of facility.

- Juvenile Corrections/Detention Facilities. A ten percent sample of all status offenders and detained juveniles are selected from the computer printout supplied by the agency in order to monitor the deinstitutionalization of status offenders. Their files are examined to determine accuracy of birth date, charge, and dates and times of detention.

- Contract Jails. Data from contract jail billing sheets are taken to each jail due for on-site inspection. Case files for detainees whose birth dates indicate they were seventeen or under during the calendar year monitored are examined for accuracy. Files of an additional ten percent of all persons detained are also examined. A list of persons taken into protective custody is examined for the presence of juveniles.

- Department of Corrections Facilities. A computer printout from the Department of Corrections is compared to booking logs at the only DOC facility which may hold juveniles.

- Lockups. Data received are verified on-site using VPSO logs, notebooks, case files, etc. In some villages data may be collected on-site and then verified. If no prisoners were held in the facility during the year monitored, verification of the "no prisoners held" certificate is sought from city officials (mayors, city managers) and/or oversight troopers.

b. In addition to verifying records for accuracy every three years, all data collected are compared with DFYS Juvenile Confinement forms and with a list of juveniles currently on probation for status offenses provided by DFYS. The Division examines statewide records to determine which juveniles in the monitored year were on any form of probation solely as a result of status offense adjudication.

c. Each purported violation is examined in-depth. If the violation relates to a status offender the arresting agency is contacted to determine whether the probation violation listed was the only reason for detention or whether other charges were filed concurrently. Each juvenile confinement violation is reconstructed with the arresting officer using case files and notebooks to determine whether the child was securely confined for the full period listed in the admission/release records.

3. Data Analysis

Given the data collection challenges inherent in Alaska, adequate data will not be received from all rural lockups in the monitoring universe. Data projection is required to ensure the accuracy and completeness of the annual report. Data projection techniques are applied in three situations: when complete data from a specific site are submitted for only a portion of the year, when complete data are received from only a portion of the facilities in the classification category, and when time data are deemed inadequate or inaccurate for a specific entry while the rest of the facility's data are judged to be accurate.

a. When only a portion of the year is reported by a specific facility, the data projection is accomplished by computing the proportion of the year reported (x days / 365 days), and weighting each instance of juvenile detention recorded at the facility by a factor equal to the reciprocal of that proportion. This weighting procedure necessarily assumes that instances of noncompliance will occur at the same rate during the unreported portion of the year as during the reported portion.

b. Data projection for rural lockups which fail to provide annual data is accomplished by computing the proportion of the rural lockups which did provide annual data (n reporting / n in universe) and weighting each instance of detention recorded at rural lockups by a factor equal to the reciprocal of that proportion. Again, this weighting procedure necessarily assumes that instances of noncompliance will occur at the same rate in non-reporting lockups as it does in reporting lockups. Given the nature of the state's rural lockups, the number of violations occurring in the non-reporting lockups is certain to be less than it is in the reporting lockups, with the result that this method of projection should never provide an underestimate regarding violations in rural lockups.

c. Data with missing times could also be projected, although to date this has not been necessary. When all attempts to infer the length of stay using anecdotal facts and deductive reasoning have failed, proportions of the three types of violations are established for that type of facility and applied as weighting to those cases for which the length of stay cannot be determined. This same logic would also apply when offense information is missing.

II. BARRIERS TO IMPLEMENTATION OF COMPLIANCE MONITORING

The major barriers to implementation of a monitoring system in Alaska are intimately bound up with the nature of the state's people and geography. Over 200 Alaska Native villages and about 25 larger and more heterogeneous cities and towns are scattered across nearly 600,000 square miles of rugged and otherwise desolate territory. Many of the people do not read, write or speak English fluently. Western cultures, lifestyles and legal systems are unfamiliar to a large portion of the population. Travel to most rural communities must be by air or water, as highways are limited to the population centers of central and southcentral Alaska, and air service, especially to the smaller and more isolated communities, can be infrequent, expensive, undependable and, especially in winter, extremely dangerous.

A task as seemingly simple as identifying and classifying facilities is confounded by 1) the absence of any system for licensing or oversight of municipal holding facilities; 2) the fact that in most rural villages a single police officer or Village Public Safety Officer (VPSO) must serve as jailer, fireman, dog catcher, search and rescue team, and in a host of other roles in addition to handling normal policing duties -- and may be out of town altogether, for training or some other function, for weeks at a time; and 3) the lack of any formally recognized or sanctioned facilities in many locations for holding either adult or juvenile arrestees.

Moreover, while identification of the monitoring universe is problematic, the barriers to collection of data are enormous. Communication with village officials is itself difficult. Travel to villages can be very hazardous in inclement winter weather, and flight delays of a week or more are commonplace. Photocopying equipment which might facilitate data collection is not available in some communities, and in others access to such equipment may be limited.

Another major barrier to data collection for monitoring purposes in Alaska is the high rate of turnover among rural law enforcement officers. A village may be without a Village Public Safety Officer (VPSO) or Village Police Officer (VPO) for more than a year and certainly for substantial portions of a year. A VPO or VPSO who is replaced may dispose of any records upon leaving, and a replacement officer may not have been trained to maintain records.

In most cases the village lockup is not used for detention when there is no officer in the village. The monitoring plan accommodates this eventuality by providing a Certificate of No Prisoners Held to be signed by oversight troopers and/or city officials.

In some villages mayors, tribal councils, etc. may have the authority to use the facility for detention, even when no law enforcement officer resides in the village, and in such circumstances the maintenance of records is not likely.

Another consideration is the status of Indian Reorganization Act (IRA) villages. Some IRA village leaders view their lockup records as exempt from state oversight. Neither the Bureau of Indian Affairs nor the Office of Juvenile Justice and Delinquency Prevention has been able to verify such exemptions and the confusion is problematic.

A most important barrier to implementation of a compliance monitoring system in Alaska is a pervasive pattern of poor or nonexistent record keeping among public agencies serving rural Alaska. Many facilities classified as adult lockups simply do not maintain any record of detentions. Where records are kept, they may be incomplete or hopelessly disorganized (e.g., the only records maintained at some facilities are the personal notebooks detailing all routine activities of the village public safety officer and/or the arrest reports which are filled out for all persons charged with offenses, whether or not they are detained, and which may refer to detention only obliquely in the narrative portion of the report).

The failure of rural officials to maintain detention records presents problems for the monitoring agency. The absence of data in some villages clearly does not mean that their detention practices are comparable to villages which can and do provide data.

The monitoring plan incorporates procedures for educating and training local officials in record-keeping methods and the importance of record maintenance and for providing appropriate forms and information for implementing a record-keeping system. However, the high turnover rate mentioned above also undermines these efforts.

III. VIOLATION PROCEDURES

Each violation identified in the analysis of the data is examined by the Justice Center to determine if a violation actually did occur or if it is merely an error in data submission or data entry. If there is a violation it is analyzed by DFYS in order to determine what kind of training or information juvenile probation officers or law enforcement agencies might need in order to avoid similar violations in the future.

Each facility found to be in violation of the jail removal, separation and/or deinstitutionalization requirements of the JJDP Act will be notified by DFYS in writing of the number of violations and the nature of each violation which occurred during the monitoring period. An explanation of each type of violation is provided, along with suggested methods for avoiding future violations. Facilities will be informed of alternatives to detention which are available to them, and they will be notified that DFYS is prepared to work with them to prevent violations and to help them avoid situations where they may be subjecting themselves to possible liability by detaining juveniles inappropriately.

SEPTEMBER, 1987

OJJDP Auditor: Paul Steiner

State Relations and Assistance Division

Alaska Field Audit

1. Purpose

Pursuant to Sections 223(a)(15) and 204(b)(7) of the Juvenile Justice and Delinquency Prevention (JJDP) Act, a field audit of Alaska's compliance monitoring system was conducted from September 28 - October 3, 1987.

The purpose of the field audit was to determine the extent to which Alaska's system for monitoring compliance with the deinstitutionalization, separation, and jail removal provisions of the JJDP Act, satisfies the requirements for monitoring contained in the Final Regulation (28 CFR Part 31).

The field audit was preceded by a desk audit which involved a review of Alaska's written description of its compliance monitoring system. In keeping with generally accepted auditing principles, the field audit was carried out as an on-site verification of the written description.

3. Monitoring System

A. General Description

The Division of Family and Youth Services, (DFYS) Department of Health and Social Services, (DHSS) is the designated agency for administering the JJDP Formula Grant. The JJDP Coordinator in DFYS coordinates the annual collection of monitoring data by the DFYS Probation Officers and detention center staff from state and local facilities. The data is analyzed by the JJ Coordinator and submitted annually by the Director of DFYS to OJJDP in the standard monitoring report format.

Eighteen adult jails and four regional juvenile facilities are monitored. There are no lock-ups in Alaska. The Probation Officers annually inspect jails for sight and sound separation.

B. Authority to Monitor

Alaska Statutes (AS) 47.10.150, 47.10.160, and 47.10.180 grants DHSS broad authority to require and collect statistics on juvenile offenses and offenders, inspect all facilities that hold juveniles, and adopt standards and regulations for facility design and operation.

DHSS, however, does not exercise this regulatory authority vis-a-vis the JJDP Act. There are no written regulations, policies, or procedures for the regular monitoring and inspection of facilities.

In practice, DHSS has obtained the cooperation of all the facilities that are monitored by means other than regulation. It appears that state and local facilities readily share admission and population data with DHSS.

C. Compatibility of Definitions

1. Status Offender: AS 47.10.290 defines a "child in need of aid" (CHINA) as "a minor found to be within the jurisdiction of the court under AS 47.10.010(a)(2)." This latter cite refers to children who: are habitually absent from home; refuse to accept available care; are abandoned or parent's rights have been terminated; are in need of medical (including mental health) treatment; are neglected or physically and/or sexually abused or in danger of being abused; or are delinquent as a result of parental pressure.

   For DFYS purposes, the working definition of status offenders is illustrated, in a May 16, 1983 memorandum from David E. Arnold to Jerry Jackowski, to wit:

   > Status Offenders are defined as all youth law violators who are arrested for violations which would not be a law violation if they were an adult. Examples of these are runaways, truancy, and curfew violations.
   >
   > Liquor violations are not included because 18 year olds are considered adults by law, however can still be arrested for liquor violations.

   AS 04.16.180 specifies that minor liquor law violations are class A misdemeanors.

   For monitoring purposes, DFYS has not been counting liquor law violations as status offenders. (See Findings and Recommendations).

2. Non-Offenders: Non-offenders are included in the CHINA definition noted above.

3. Delinquent: As 47.10.290 defines "delinquent minor" as a "minor found to be within the jurisdiction of the court under AS 47.10.010(a)(1)." This cite refers to state and municipal criminal violations. AS 47.10.010(b)

excludes non-felony traffic, and fish and game violations from this provision and directs that they be treated as adults.

4. Sight and Sound Separation: AS 47.10.130 prohibits the incarceration of juveniles in jails unless the juvenile is "assigned to separate quarters so that the minor cannot communicate with or view adult prisoners."

   This is the definition of sight and sound separation used for monitoring purposes, as noted on the "Instructions for State Monitoring Report Data Collection Sheet", attached to the July 27, 1987 memorandum from Dave Arnold to the Regional Administrators regarding the JJDP Monitoring Report.

5. Secure: There is no explicit definition of secure for monitoring purposes. AS 47.10.290 defines "juvenile detention facility" as separate quarters within a city jail, and "detention home" as a separate establishment exclusively devoted to the short-term detention of minors.

6. Valid Court Order: There is no explicit definition of valid court order. As 47.10.140 describes juveniles' due process rights for detention and requires a detention hearing within 48 hours.

7. Deinstitutionalization of Status Offenders: The Alaska Supreme Court ruled in 1971 that CHINA's cannot be institutionalized. DFYS policy, as described in the Fairbanks Youth Facility "Detention Admission Policy and Procedure" prohibits detaining CHINA's. However, as previously described, liquor law violators are not considered CHINA's.

8. Separation: See Section C.4 above.

9. Jail Removal: As noted in Section C.5 above, "juvenile detention facilities" are defined as a separate part of a jail. AS 47.10.140 authorizes detention of delinquents in "juvenile detention facilities." AS 47.10.080 authorizes DHSS to place committed minors in "juvenile detention facilities."

AS 47.10.010(b) classifies juvenile traffic and fish and game violators as adults and thus allows their detention and sentencing to jails.

As described in Section C.7 above, CHINA's cannot be held in jails; this does not apply to liquor violations.

Since Alaska does not have a 24-hour detention hearing requirement, DFYS has never sought non-MSA exceptions.

D. Identification of the Monitoring Universe

DFYS monitors all facilities that are operated or under contract by the State; thus, the universe consists of the four DFYS operated detention centers and eighteen jails under contract to the Department of Public Safety or operated by the Department of Corrections.

DFYS does not include in the monitoring universe the many jails (there are no lock-ups in Alaska) that are not under DPS contract.

Likewise, community-based facilities and health and mental health facilities are not included in the universe (see Findings and Recommendations).

E. Classification of Facilities

In practice DFYS classifies all jails and detention centers as secure. DFYS does not review community-based programs for secure components, even though DHSS regulations (7AAC 50.053) allows the use of locked isolation rooms in community-based programs. Likewise, hospitals and mental health facilities are not considered for classification as secure (see Findings and Recommendations).

F. Monitoring Period

Alaska's data is reported on a Calendar Year basis.

G. Inspection of Facilities

DFYS Probation Officers inspect DPS contracted jails annually for sight and sound separation; there are no inspections specifically to determine the adequacy of each facility's record keeping. No other facilities are inspected for JJDP monitoring purposes. Furthermore, there are no detailed policies and

procedures for the inspection of facilities (see Findings and Recommendations).

H. Data Collection and Verification

The DFYS Regional Administrators assign Probation Officers to collect monitoring data from the DPS contract jails in their respective districts. Data from the DFYS detention centers is gathered by DFYS staff at the detention centers. The data is collected at each facility according to written instructions provided by the JJDP Coordinator, and recorded on a form accompanying the instructions. The information sought for each facility includes: sight and sound separation; date of birth; offense; date of admission; duration of detention; offense; accused or adjudicated.

The data collection sheets are forwarded to the JJDP Coordinator for analysis and compilation for the JJDP monitoring report.

The data collected from the individual facilities has never been checked for accuracy. Likewise, the review of the jails for sight and sound separation has never been verified. (See Findings and Recommendations).

I. Method of Reporting

DFYS uses the standard OJJDP format for reporting the monitoring data.

J. Violation Procedures

Since DFYS operates the detention centers and controls admission to the centers, DFYS has set policies and procedures to assure that status offenders are not admitted. As noted earlier in this report, however, these policies do not apply to juvenile liquor law violations. Nonetheless, it appears that DFYS has the authority to prohibit the detention of liquor law violations. (See Findings and Recommendations).

Unfortunately, DFYS has less control over juveniles in jails, and thus greater difficulty in addressing violations of the JJDP Act in jails. However, AS 47.10.130 provides a clear statutory prohibition against jailing children unless they are provided adequate separation. This provision, plus DHSS'regulatory authority, could provide DHSS a vehicle for promoting, if not enforcing separation and removal. (See Findings and Recommendations).

4. Other Issues

A. Given Alaska's unique geography, demography, and climate, DFYS faces very difficult barriers in administering the JJDP program, including monitoring. Alaska has never devoted any JJDP funds towards planning, administration, and monitoring. Discussions with DFYS staff indicate that the FY 1988 and a revised FY 1987 plan will, for the first time, devote resources for these purposes.

B. Alaska has invested over $12 million since 1980 for construction of four regional detention centers. These centers should be operational this year and will be an important component of a statewide jail removal strategy.

C. One of the most pervasive problems facing Alaska's juvenile justice system is alcohol abuse. The lack of programs to deal with the alcohol abusing juvenile results in jails and detention centers being used as detoxification centers. In fact, recent court rulings have required law enforcement officials to take into custody any person who is so intoxicated as to be a danger to him or herself; the only residential placement available for the vast majority of these individuals is jail.

DFYS is working with the State Office of Alcohol and Drug Abuse to establish regional treatment centers that can be used as an alternative to jail.

5. Compliance Data Verification

A. Ketchikan Regional Jail

The Ketchikan Regional Jail serves Ketchikan and Prince of Wales with a total population of approximately 13,000. The major sources of revenue for this area are fishing, timber, and tourism.

There is a dearth of residential alternatives available for the placement of juveniles; juveniles are generally either returned home or held in the jail. There are no detoxification services available.

The 63-bed jail is operated by the Alaska Department of Corrections. The facility has been in operation for approximately four years. All the cells have double bunks except the four intake cells which have triple bunks. One or two of the intake cells are used for juveniles; these cells have neither audio nor video

monitoring. In addition, juveniles that need to be held for only a very short period of time may be confined in the interview room, which is a sound proof room under continual sight supervision by the control center and booking desk.

Juveniles that are admitted to the jail are subject to the same procedures as those employed for adult admissions. Juveniles are brought into the booking area for admission processing, taken to the clothing storage area for a search, and admitted to the intake cells or the interview room. Juveniles receive at least hourly visual checks in the intake cells, and more frequently if the juvenile is intoxicated or poses a suicide risk.

The facility design and the Jail's policies and procedures raise the following concerns regarding compliance with the JJDP separation requirements:

- There are no policies and procedures to assure the time phased use of the booking area;
- The intake cells provide sight but not sound separation;
- The interview room provides sound but not sight separation;
- The showers provide sight but not sound separation.

The data review consisted of reviewing the 479 jail admissions for February, May, August, and November, 1986. The Jail recorded all admissions on the Alaska Department of Corrections "Daily Count Sheet" which contains date of birth, times and dates of admission and release, race, and sex. Since the Daily Count Sheets do not indicate offenses, I also reviewed the Probation Officer's Intake Log and contact file. Rick Roberts, the PO, was very knowledgeable about every case and provided any additional information that I requested. I also obtained the Juvenile Incarceration Report, generated by a DHSS automated program, which gives offense, date of admission and release, and total time held.

In spite of all these sources, it was still difficult to verify the data due to conflicting information regarding offenses. Nonetheless, my review revealed that 17 juveniles were admitted during the four months audited. All 17 of these admissions would be violations of the separation requirements due to the facility design and lack of policies and procedures

described above. Of these 17 admissions, there were 12 held in excess of six hours which would constitute violation of the jail removal requirement. Some of the five juveniles held less than six hours may have been status offenders and would have also been a violation of the removal requirement, but their offenses could not be verified.

The data collected by DHSS for monitoring purposes contained the following shortcomings:

- The jail was reported as providing adequate separation;
- Only 14 of 17 admissions were reported;
- All but one reported admission were listed as accused delinquents, yet it appeared that there were five additional juveniles sentenced to jail for DWI.
- The offenses for four of the juveniles recorded on the monitoring data collection sheets do not correspond to the offenses recorded on the DHSS Juvenile Incarceration Report.

The following findings pertain to the Ketchikan Regional Jail:

1. The jail does not provide adequate separation so all juvenile admission should be considered as separation violations.

2. DFYS should develop alternatives to the jail. Given the fact that virtually all of the admissions to the jail, with the exception of DWI sentences, are for less than one day, it appears that the use of short-term, non-residential as well as residential alternatives would be appropriate. The number of juveniles jailed could be significantly reduced by using a holding area outside the secure area of the jail which has continual sight supervision for juveniles who are awaiting parents. In addition, the number of alcohol related offenses indicates the need for alternatives and services in this area.

3. The data review indicated that DFYS needs to improve the data collection process. Particular attention should be paid to the definition of separation and the recording of offenses, especially recording the most serious offense.

In general, the Ketchikan Regional Jail appears to be a

well operated and professionally managed facility, but is not designed to detain juveniles. DFYS should work with the Department of Corrections, the Department of Public Safety, and the local community to develop alternatives to the use of the jail for sentenced, as well as accused juveniles.

B. Sitka Police Department Holding Facility

The major sources of revenue for Sitka's 8500 residents are fishing, tourism and timber. The Sitka Holding Facility is under contract to the Alaska Department of Public Safety.

The Police Department, court, and probation office pursue a policy of minimizing the jailing of juveniles. Most juveniles are returned home as quickly as possible, and a few are placed in emergency foster care. Although state law requires a detention hearing within 48 hours, most hearings in Sitka are held within 12 hours.

The facility has 15 beds (14 double bunked) and a holding tank. One of the two double bunked female cells is used for holding juveniles; these two cells are in a separate section from the rest of the jail.

Juveniles are brought to the same booking area as adults for intake processing. The practice is to never have juveniles and adults in the booking area at the same time, although there is no written policy and procedure stating this. Most juveniles are held in a non-secure room in the police department; few juveniles are actually admitted to a cell. The juvenile cell provides sight but not sound separation from the adult female cell. Likewise, the shower shared by these two cells provides sight but not sound separation. DFYS classified the facility as providing adequate separation.

I reviewed the Booking Log for February, May, August and November, 1986. Of the 185 bookings for those months, 17 were juveniles. DFYS recorded all of these juveniles for monitoring purposes; however, we learned that not all of those juveniles are actually held in the jail. Although there was no written record, John Newell, the Chief of Police, and Wolf Courdan, the Jailer, explained that eight of these juveniles were held in the non-secure portion of the police station for very brief periods while waiting for their parents to arrive. So it appears that DFYS was overreporting the number of jail admissions. However, since only

only two of these eight juveniles would have been jail removal violations if held securely (one delinquent over six hours and one status offender), the overreporting error would be slight.

As described earlier, the juvenile cells do not provide adequate sight and sound separation (assuming female adults are occupying the adjoining cell), so all juveniles held in the juvenile cell would be considered separation violations. In addition, according to the booking log, there were seven violations of the jail removal requirement: five delinquents held more than six hours and two status offenders held. There were no violations of the status offender provision. Although DFYS recorded all these admissions correctly, two of the jail removal violations were for status offenses (minors consuming alcohol) held for less than six hours, and DFYS would not have reported these as violations to OJJDP since DFYS considered these as delinquents.

The findings regarding the Sitka Police Department Holding Facility are as follows:

1. The accuracy of the data collection process is adequate; all juveniles entered on the Booking Log for the four months reviewed, are accurately recorded on the DFYS data collection form. However, the Booking Log may be overreporting actual admissions to the jail. DFYS should work with the Sitka Police Department to make certain the Booking Log indicates when juveniles are not admitted to a cell.

2. The Sitka Police Department has very good policies and procedures for the custody and release of juveniles. The policies and procedures are concise, understandable, and promote the limited use of secure confinement. DFYS should work with the Sitka Police Department to enhance their written policies and procedures to: (a) document the current practice of assuring separation of juveniles and adults by time-phasing the use of the booking area, and (b) provide guidance on which juveniles should actually be admitted to the cells and which juveniles should be held outside of the secure area of the jail and where and how they should be supervised.

3. The juvenile cell does not provide sound separation, so juveniles admitted to the cell are violations of the separation requirement. Since

the jail was classified as providing adequate separation, DFYS should assess the criteria and process used to determine separation.

4. The number of bookings for Minors Consuming Alcohol indicates the need for services and alternatives in this area.

The practices at the Sitka Police Department reflect the system's and the community's concern for troubled and troublesome juveniles. This should provide a solid basis for DFYS'efforts towards compliance with the JJDP Act in Sitka.

C. Johnson Youth Center, Juneau

As the state capital, Juneau's economy relies heavily on government. Income for the burrough's 20,000 residents also comes from the timber and fishing industries.

The Johnson Youth Center is operated by DFYS and was built in 1981 as a combined facility for juveniles and female adults. Since 1985, the Center has held only juveniles and is now applying for ACA accreditation.

The facility has four double bunk rooms; there are two rooms in each of two sections having a common area for recreation and meals. The Center has at least two staff per shift on duty.

The data verification was conducted by reviewing the monthly movement statistics sheets and the monthly reports for the Youth Center, and comparing them to the monitoring data collection sheets. The movement statistics and monthly report contain dates and times in and out and usually the offense. In many instances, however, "detention order" was listed instead of offense, making verification difficult. The verification was further complicated by the fact that the movement statistics were arranged alphabetically while the monitoring data was collected chronologically. As a result, I checked only every other case listed as an admission on the monthly movement sheets for February, May, September, and November, 1986. The data for August was unavailable.

There were 111 admissions for the four months I reviewed, and I tested 53 admissions for accuracy in reporting for JJDP monitoring. Of these 53 cases, I found that DFYS accurately recorded data for 22. Among these 22 verified cases, I found six status offender

violations, all minors consuming alcohol.

The inability to verify more admissions was the result of incorrectly recorded times on the monitoring data form, unknown offenses, and unreported admissions. It was impossible to determine the number of valid court order violations.

The findings pertaining to the Johnson Youth Center are as follows:

1. DFYS should review the data collection process in order to develop more accurate and verifiable data. DFYS should include the dates of court hearings in the data collected so that compliance with the valid court order exception can be determined.

2. As noted earlier in this report, minors charged with alcohol offenses are status offenders for JJDP monitoring purposes and if held for more than 24 hours, excluding non-judicial days, would be considered as violations of Section 223(a)(12)(A) of the JJDP Act.

3. Since the Johnson Youth Center is applying for accreditation, DFYS is encouraged to seek technical assistance from OJJDP and ACA to facilitate compliance with ACA standards.

4. It appears that many juveniles are detained for relatively minor offenses. DFYS is encouraged to assess the system of residential and non-residential alternatives in light of detention criteria to determine if the present system is the most economical and effective system for protecting the community and the court process while providing adequate services to juveniles.

6. Findings and Recommendations

The exit conference was convened with Yvonne Chase and Russ Webb. The following findings and recommendations summarizes our discussion of the audit. Critical findings are so noted:

(1) DFYS must establish the monitoring universe by identifying all facilities, including private facilities, that might hold juveniles pursuant to

public authority, and describe how the universe is periodically updated. This requirement is explained in Chapter 1, Paragraph 6 of the Audit Handbook. (Critical)

(2) DFYS must classify all the facilities in the universe that are secure and may hold juveniles, and describe the criteria used for classifying and how the list of classified facilities is updated. (Critical)

(3) DFYS needs to assess the use of locked isolation rooms in public and private residential programs, including hospitals and mental health facilities, and determine if these facilities should be classified as secure for possible inclusion in the monitoring data collection process.

(4) DFYS must inspect all jails for separation and adequacy of recordkeeping. This can be accomplished through a variety of methods, e.g., inspecting one-third of the facilities annually. (Critical)

(5) As part of the formal monitoring process, DFYS must develop a system for reviewing facility monitoring data for accuracy and completeness. This verification review should take place on-site annually at a representative sample of at least ten percent of the facilities in each category, i.e., juvenile detention centers, jails, and juvenile corrections facilities. (Critical)

(6) DFYS needs to verify sight and sound separation in facilities that have been designated as providing adequate separation.(Critical)

(7) DFYS is strongly encouraged to continue the practice of collecting data from all the facilities that have been monitored to date. When DFYS identifies all the facilities in the monitoring universe, however, it should be noted that the Audit Handbook (Chapter 2, Paragraph 18) requires a representative sampling of at least 50% of the facilities in each category.

(8) DFYS must include minors charged or adjudicated for alcohol violations in the definition of status offenders for JJDP monitoring purpose. Alcohol violations which apply to <u>all</u> adults, e.g., public consumption or possession where prohibited by local ordinance, are considered delinquent offenses. (Critical)

(9) In order for Alaska to use the valid court order exception, DFYS needs to verify on a case-by-case basis that the juvenile received a detention hearing within 24 hours, as required by JJDP regulations. (Critical)

(10) For the purpose of monitoring for Section 223(a)(14), juveniles accused of traffic and fish and game violations are subject to the six-hour rule. Adjudicated juveniles, including sentenced DWI offenders, cannot be held for any length of time. (Critical)

(11) DFYS must develop a timetable for carrying out all monitoring compliance tasks. (Critical)

(12) DFYS is encouraged to develop a policies and procedures manual for monitoring compliance with the JJDP Act. This manual should include, but not be limited to:

(a) A list of all residential programs in the state that might hold juveniles pursuant to juvenile court authority.

(b) An indication for each of these facilities as to whether they are secure or nonsecure.

(c) A description of criteria used for classifying facilities as secure or nonsecure, public or private.

(d) The date each secure facility was last inspected for compliance with the JJDP Act.

(e) A description of the authority state agencies have for licensing and inspecting both secure and nonsecure facilities.

(f) A description of the procedure to be followed for:

(1) collecting monitoring data (include a copy of any self report forms);

(2) verifying data (what facility source documents are to be consulted and what data sets are to be reviewed);

(3) inspection of physical plant of adult facilities for separation while onsite for data collection and verification.

(g) Description of enforcement mechanisms that exist for implementation of State law, administrative rules, or standards.

(h) A copy of state statutes, judicial rules, administrative rules, and standards that parallel or support implementation of the JJDP Act.

(i) A copy of the JJDP Act, 1985 Formula Grant Regulation, and other pertinent rules and regulations.

(j) A list of contact persons in related state agencies or organizations that have monitoring responsibilities.

(13) DFYS is encouraged to develop in-service training for personnel involved in the monitoring process. The Monitoring Manual could serve as the basic text for this training. The use of JJDP funds for this purpose is allowable.

(14) Given Alaska's expansive and remote geography, DFYS should consider contracting for some of the monitoring tasks.

(15) DHSS is encouraged to formally exercise the broad regulatory authority over the confinement and custody of children granted by Alaska statutes, especially with regard to JJDP Act compliance.

(16) DHSS is encouraged to work with the Department of Public Safety to promote separation and jail removal by adopting policies and procedures coherent with JJDP requirements, and incorporating those policies in the contracts with rural jails and Native Corporations.

(17) It appears that alcohol abuse is a very significant factor in juvenile arrests and confinement. The Juvenile Justice and Family Advisory Committee (JJFAC) is strongly encouraged to make juvenile alcohol abuse a priority issue and pursue JJDP Act compliance as a means for providing more effective services for alcohol abusing juveniles.

(18) The JJFAC is strongly encouraged to make public officials aware of the existing state law on separation of juveniles and adults in jails and to use this law as a vehicle for promoting the prohibition of jailing juveniles and the development of alternatives to jails.

(19) DHSS/DFYS should examine local practices in implementing AS 47.010.130, prohibiting the detention of juveniles in jails that do not provide adequate separation from adults, and develop means for assuring this statute's implementation.

(20) The JJFAC in strongly encouraged to consider promoting changes in statutes and regulations to support JJDP Act compliance.

7. Conclusion

Alaska's annual JJDP Plan always refers to Alaska's "unique barriers" to JJDP compliance. My limited visit to Alaska to conduct this audit revealed those barriers as no written description can: they are as immense and rugged as the Alaska landscape. I left Alaska with a greater sensitivity to the problems DFYS faces in achieving compliance.

As difficult as Alaska's barriers to compliance may be, DHSS and DFYS have some advantages enjoyed by few other states. The highly centralized structure of government, the broad regulatory authority granted DHSS, and the progressive statutes regarding the care and custody of children, can provide a basis for pursuing JJDP compliance and mitigate the immensity of some of the barriers to compliance.

We look forward to working with DFYS and JJFAC to achieve compliance.

CONTENTS

1993 JUVENILE JUSTICE AND DELINQUENCY PREVENTION ACT
COMPLIANCE MONITORING REPORT

A. GENERAL INFORMATION

1. Name and address of state monitoring agency:

Alaska Division of Family and Youth Services
P.O. Box 110630
Juneau, Alaska 99811-0630

2. Contact person regarding state report:

Name: Donna Schultz Phone #: (907) 465-2112

3. Does the state's legislative definition of criminal-type offender, status offender, or nonoffender differ with the OJJDP definition contained in the current OJJDP formula grant regulation?

Alaska's definition of "delinquent minor" is congruent with the OJJDP definition of "criminal-type offender" contained in 28 CFR Part 31.304(g). Alaska's definition of "child in need of aid" encompasses both "status offenders" and "nonoffenders" as defined in 28 CFR Part 31.304(h) and (i). The relevant Alaska definitions are contained in AS 47.10.010 and AS 47.10.290.

Although Alaska's legislative definitions are consistent with those contained in the OJJDP Formula Grant Regulation, the OJJDP Office of General Counsel issued a Legal Opinion Letter dated August 30, 1979 interpreting Section 223(a)(12)(A) of the JJDP Act to require "that an alcohol offense that would be a crime only for a limited class of young adult persons must be classified as a status offense if committed by a juvenile." Because Alaska law defines possession or consumption of alcohol by persons under 21 years of age as a criminal offense (AS 04.16.050), on this point the state's definitions of "criminal-type offender" and "status offender" are inconsistent with the OJJDP interpretation.

Pursuant to OJJDP's interpretation of Section 223(a)(12)(A), juveniles accused of, or adjudicated delinquent for, possession or consumption of alcohol ("minor consuming alcohol" or "minor in possession of alcohol") have been defined as status offenders.

4. During the state monitoring effort was the federal definition or state definition for criminal-type offender, status offender and nonoffender used?

The federal definitions for criminal-type offender, status offender and nonoffender were used.

SECTION 223(a)(12)(A)

B. REMOVAL OF STATUS OFFENDERS AND NONOFFENDERS FROM SECURE DETENTION AND CORRECTIONAL FACILITIES

1. Baseline reporting period: Calendar year 1976
Current reporting period: Calendar year 1993

2. Number of public and private secure detention and correctional facilities:

	Total	*Public*	*Private*
Baseline data	**14**	**13**	**0**
Current data	**122**	**122**	**0**
Juvenile detention centers	5	5	0
Juvenile holdover facilities[1]	2	2	0
Juvenile training schools[2]	0	0	0
Adult jails	16	16	0
Adult correctional facilities	1	1	0
Adult lockups[3]	98	98	0

[1] "Juvenile Holdover Facility" is a designation used to identify secure facilities used solely for the temporary detention of juveniles.
[2] Three facilities serve as both juvenile detention centers and juvenile training schools. Because all juveniles admitted to these facilities must be processed through the respective detention centers, separate monitoring of the training schools is unnecessary.
[3] Modifications to the 1992 universe of adult jails and adult lockups for the 1993 report include the deletion of three adult lockups, the transition of three adult jails into adult lockups, and the addition of four adult lockups.

3. Number of facilities in each category reporting admission and release data for juveniles to the state monitoring agency:

	Total	*Public*	*Private*
Baseline data	**14**	**13**	**1**
Current data	**74**	**74**	**0**
Juvenile detention centers	5	5	0
Juvenile holdover facilities	2	2	0
Adult jails	16	16	0
Adult correctional facilities	1	1	0
Adult lockups	50	50	0

4. Number of facilities in each category receiving an on-site inspection during the current reporting period for the purpose of verifying Section 223(a)(12)(A) data:

	Total	*Public*	*Private*
Current data	**35**	**35**	**0**
Juvenile detention centers	1	1	0
Juvenile holdover facilities	0	0	0
Adult jails	5	5	0
Adult correctional facilities	0	0	0
Adult lockups	29	29	0

5. Total number of accused status offenders and nonoffenders held for longer than 24 hours in public and private secure detention and correctional facilities during the report period, excluding those held pursuant to a judicial determination that the juvenile violated a valid court order:

	Total	*Public*	*Private*
Baseline data[1]	485	485	0
Current data	0	0	0

[1] The monitoring report format for the baseline year did not distinguish between accused and adjudicated status offenders and nonoffenders. Baseline data for both accused and adjudicated status offenders and nonoffenders are included here.

6. Total number of adjudicated status offenders and nonoffenders held in public and private secure detention and correctional facilities for any length of time during the report period, excluding those held pursuant to a judicial determination that the juvenile violated a valid court order:

	Total	*Public*	*Private*
Baseline data[1]	n/a	n/a	n/a
Current data	0	0	0

[1] The monitoring report format for the baseline year did not distinguish between accused and adjudicated status offenders and nonoffenders.

7. Total number of status offenders held in any secure detention or correctional facility pursuant to a judicial determination that the juvenile violated a valid court order:

	Total	*Public*	*Private*
Baseline data[1]	**n/a**	**n/a**	**n/a**
Current data	**3**	**3**	**0**
Juvenile detention centers	3	3	0
Adult jails	0	0	0
Adult correctional facilities	0	0	0
Adult lockups	0	0	0

[1] Data for status offenders determined to have violated valid court orders were not included in the monitoring report format for the baseline year.

Has the State monitoring agency verified that the criteria for using this exclusion have been satisfied pursuant to the current OJJDP regulation?

Yes.

If yes, how was this verified (State law and/or judicial rules match the OJJDP regulatory criteria, or each case was individually verified through a check of court records)?

In the three instances of detention in which the valid court order exception was applied, photocopies of the Order(s) for Temporary Detention or Placement were obtained from the youth facility where the juvenile was detained.

C. DE MINIMIS REQUEST

1. Criterion A—the extent that noncompliance is insignificant or of slight consequence:

Number of accused status offenders and nonoffenders held in excess of 24 hours and the number of adjudicated status offenders and nonoffenders held for any length of time in secure detention or secure correctional facilities:

Accused		Adjudicated		Total
0	+	0	=	0

Total juvenile population of the State under age 18 according to the most recent available U.S. Bureau of Census data or census projection:

178,349 juveniles.

(Source: *Alaska Population Estimates by Age, Race and Sex*, Alaska Department of Labor, Research and Analysis, Demographics Unit, July 1991.)

If the data was projected to cover a 12 month period, provide the specific data used in making the projection and the statistical method used to project the data:

Please refer to the "Data Projection" section of Appendix I, "Method of Analysis."

Calculation of status offender and nonoffender detention and correctional institutionalization rate per 100,000 population under age 18:

0/1.78349 = 0 per 100,000

2. Criterion B—The extent to which the instances of noncompliance were in apparent violation of state law or established executive or judicial policy:

0

3. Criterion C—The extent to which an acceptable plan has been developed:

N/A

4. Out of state runaways: 2

5. Federal wards: 0

6. Recently enacted change in state law:

A law (AS 47.10.141) specifying the conditions under which runaway juveniles may be detained became effective in October 1988, and provided a statutory basis for compliance with the deinstitutionalization requirement of the JJDP Act. The law specified that

> [a] minor may be taken into emergency protective custody by a peace officer and placed into temporary detention in a juvenile detention home in the local community if there has been an order issued by a court under a finding of probable cause that (1) the minor is a runaway in willful violation of a valid court order . . . , (2) the minor's current situation poses a severe and imminent risk to the minor's life or safety, and (3) no reasonable placement alternative exists within the community.

The statute prohibits detention of runaway juveniles "in a jail or secure facility other than a juvenile detention home" and limits the duration of such detention to 24 hours if no criminal-type offense is charged.

A more recently enacted amendment to AS 47.10.160 requires that jails and other secure detention facilities operated by state and local agencies record and report to the Department of Health and Social Services all instances of juvenile detention. Effective in September 1990, the statute requires facilities to use a standardized format in reporting juvenile admissions, and to report name, date of birth, the offense for which the minor was admitted, date and time admitted, date and time released, gender, and ethnic origin. The statute requires that the records be prepared at the time of admission into secure confinement. Because this statute standardizes the report format and requires full reporting of juvenile detention, it is anticipated that its enactment will have a significant and positive impact on Alaska's compliance efforts.

Implementation of the juvenile detention report program was initiated in February 1991, when a set of forms and instructions was mailed to secure detention facilities throughout the state. The first month of the reporting program was July 1991. A second mailing was made on July 1, 1991, as a reminder to the facilities that the reporting program had commenced. To date, while many of the larger facilities have participated in the program, there are still many rural lockup facilities that do not report, or if they do it is sporadic. This may be due in part to the frequent turnover of Village Public Safety Officers (VPSOs). It is not uncommon for a village to be without a VPSO for several months.

SECTION 223(a)(12)(B)

D. PROGRESS MADE IN ACHIEVING REMOVAL OF STATUS OFFENDERS AND NONOFFENDERS FROM SECURE DETENTION AND CORRECTIONAL FACILITIES

1. Provide a brief summary of the progress made in achieving the requirements of Section 223(a)(12)(A):

Alaska's progress in achieving the removal of status offenders and nonoffenders from secure detention has been excellent. Over the course of several years, Alaska has achieved full compliance with the deinstitutionalization goal of the JJDP Act. In comparison with the 1976 baseline, when 485 status offenders were securely detained, there were no instances of noncompliance recorded in 1993. All status offenders and nonoffenders held in secure confinement in Alaska's institutions were released within the 24-hour allowable grace period.

2. Number of accused and adjudicated status offenders and nonoffenders who are placed in facilities which (a) are not near their home community; (b) are not the least restrictive appropriate alternative; and, (c) do not provide the services described in the definition of community-based:

There were no apparent violations of these conditions recorded in Alaska during 1993.

SECTION 223(a)(13)

[1] Includes projection for lockups not submitting data. There were 2 adult lockups reporting violations and a weighting factor of 1.96 for non-reporting sites. (See Appendix I for data projection method.)

7. Provide a brief summary of the progress made in achieving the requirements of Section 223(a)(13):

Alaska's efforts at reducing the number of juveniles detained in violation of the JJDP separation mandate have produced dramatic results. Sixteen separation violations were recorded in Alaska during 1993. Since the 1976 baseline, when 824 cases of noncompliance were recorded, Alaska has achieved a 98.1 percent reduction in separation violations.

Alaska law prohibits detention of any juvenile in a facility which also houses adult prisoners, "unless assigned to separate quarters so that the minor cannot communicate with or view adult prisoners convicted of, under arrest for, or charged with a crime" (AS 47.10.130). Detention officers throughout the state have not only indicated awareness of this statute, but have embraced the concerns of the legislation and have taken a variety of innovative

measures in order to comply with the separation mandate. The central—and persistent—barrier to achieving compliance with the separation mandate has been the vast geographical distances between Alaska's five youth detention centers.

Four of the 1993 separation violations occurred in adult lockups, which represent 79 percent of all secure facilities in the state. With few exceptions, lockups in Alaska's monitoring universe are located in geographically remote areas which lack the alternatives necessary for achieving success with separation requirements. In remote areas, transfer of juveniles to appropriate facilities has frequently been impossible due to unavailability of air transportation and inclement weather.

In 1993, there were no separation violations reported in adult jails. Adult jails accounted for 27 percent of the separation violations in Alaska during 1992, down from 51 percent the year before.

The Department of Corrections Mat-Su Pretrial Facility had twelve separation violations in 1993. These were the only juveniles held in a Department of Corrections facility in 1993. In August 1990, Department of Health and Social Services (DHSS) and Department of Corrections (DOC) terminated a 1986 Memorandum of Agreement which had allowed for the detention of juveniles at the Ketchikan Correctional Center. DOC ceased the practice of detaining juveniles at the Ketchikan facility on August 15, 1990. This left Mat-Su Pretrial Facility as the single Department of Corrections facility permitted by policy to detain juveniles. At this facility, through a combination of site visits by DHSS staff to the Mat-Su Pretrial Facility and meetings with the Alaska State Troopers, transportation mechanisms have been improved and implemented which have reduced the number of separation violations in that facility. In June 1993, staff of the Division of Family and Youth Services (DFYS) again met with Mat-Su Pretrial Facility staff and Alaska State Troopers about the sight and sound separation. DFYS is currently exploring additional strategies that would result in the Mat-Su Pretrial Facility ceasing to accept juveniles.

Over the course of 1993, significant gains continued in complying with the separation mandate in all facilities. The number of separation violations increased from 11 in 1992 to 16 in 1993. That figure is still the second lowest level achieved since monitoring began in the state.

8. Describe the mechanism for enforcing the state's separation law:

Alaska has employed a number of mechanisms for enforcing its separation laws, AS 47.10.130 and AS 47.10.190, and has substantially reduced instances of noncompliance with Section 223(a)(13) of the JJDP Act. DFYS has instituted a program of public education designed to alert the law enforcement community and the public to the dangers in jailing juveniles and to the laws restricting such detention. The Division has sponsored public service announcements in print and broadcast media and currently has established nonsecure attendant care shelters in twelve communities throughout the state.

The Alaska Department of Public Safety (DPS) has amended its contracts with adult jails and has removed any language which could be construed as authorizing admission of juveniles or providing for the purchase of such services by DPS.

Proposed Senate Bill 45 was introduced during the 1993 legislative session and continues to be lobbied by the Alaska Juvenile Justice Advisory Committee. This legislation seeks to end separation violations by specifying that

> the minor shall be assigned to quarters in the correctional facility that are separate from quarters used to house adult prisoners so that the minor cannot communicate with or view adults who are in official detention. . . .

SECTION 223(A)(14)

F. REMOVAL OF JUVENILES FROM ADULT JAILS AND LOCKUPS

	Total	*Public*	*Private*
Current data	**34**	**34**	**0**
Adult jails	5	5	0
Adult correctional facilities	0	0	0
Adult lockups	29	29	0

5. Total number of adult jails holding juveniles during the last twelve months:

	Total	*Public*	*Private*
Baseline data[1]	14	14	0
Current data[2]	10	10	0

[2] Includes data for one facility classified as an adult correctional facility. Fewer than 10 facilities held juveniles in violation of Section 223(A)(14).

6. Total number of adult lockups holding juveniles during the past twelve months:

	Total	*Public*	*Private*
Baseline data[1]	n/a	n/a	n/a
Current data[2]	35	35	0

[1] Adult lockups were not included in the monitoring universe for the baseline year.
[2] Includes projection for facilities not submitting data. There were 18 known facilities holding juveniles, and a weighting factor of 1.96 for non-reporting facilities. (See Appendix I for data projection method.) Does not represent the total number of lockups detaining juveniles in violation of Section 223(A)(14).

7. Total number of accused juvenile criminal-type offenders held in adult jails in excess of six (6) hours:

	Total	*Public*	*Private*
Baseline data[1]	766	766	0
Current data[2]	20	20	0

[1] The monitoring report format for the baseline year did not distinguish between accused and adjudicated criminal-type offenders or between adult jails and adult correctional facilities. Both accused and adjudicated criminal-type offenders held in adult jails and adult correctional facilities (including juveniles accused of or adjudicated delinquent for minor consuming alcohol) are included in the baseline data reported here.
[2] Includes data for one facility classified as an adult correctional facility. There were 16 known violations which were weighted to reflect missing times (+3.55). (See Appendix I for data projection method.)

8. Total number of accused juvenile criminal-type offenders held in adult lockups in excess of six (6) hours:

	Total	*Public*	*Private*
Baseline data[1]	n/a	n/a	n/a
Current data[2]	13	13	0

[1] Adult lockups were not included in the monitoring universe for the baseline year.
[2] There were 6 known violations which were weighted to reflect missing times (+.316), missing offenses (+.42), and non-reporting sites (x 1.96). (See Appendix I for data projection method.)

9. Total number of adjudicated criminal-type offenders held in adult jails for any length of time:

	Total	*Public*	*Private*
Baseline data[1]	n/a	n/a	n/a
Current data[2]	3	3	0

[1] The monitoring report format for the baseline year did not distinguish between accused and adjudicated criminal-type offenders or between adult jails and adult correctional facilities.
[2] Includes data for one facility classified as an adult correctional facility.

10. Total number of adjudicated criminal-type offenders held in adult lockups for any length of time:

	Total	*Public*	*Private*
Baseline data[1]	n/a	n/a	n/a
Current data[2]	7	7	0

[1] Adult lockups were not included in the monitoring universe for the baseline year.
[2] There were 4 known violations which were weighted to reflect missing offenses (+.09) and non-reporting sites (x 1.96). (See Appendix I for data projection method.)

11. Total number of accused and adjudicated status offenders and nonoffenders held in adult jails for any length of time, including those status offenders accused of or adjudicated for violation of a valid court order:

	Total	*Public*	*Private*
Baseline data[1]	98	98	0
Current data[2]	7	7	0

[1] Because juveniles charged with minor consuming alcohol were classified as criminal-type offenders in the baseline year, baseline data for juveniles accused of or adjudicated delinquent for this offense are included in item F7.

[2] Includes data for one facility classified as an adult correctional facility. Current data for juveniles accused of or adjudicated delinquent for minor consuming alcohol are included here (see Appendix II for detailed list of violations).

12. Total number of accused and adjudicated status offenders held in adult lockups for any length of time, including those status offenders accused of or adjudicated for violation of a valid court order:

	Total	*Public*	*Private*
Baseline data[1]	n/a	n/a	n/a
Current data[2]	9	9	0

[1] Adult lockups were not included in the monitoring universe for the baseline year.

[2] There were 4 known violations which were weighted to reflect missing offenses (+.385) and non-reporting sites (x 1.96). (See Appendix I for data projection method.)

13. Total number of adult jails and lockups in areas meeting the "removal exception:"

Baseline data:	0
Current data:	0

Alaska is ineligible for the removal exception because state law requires an initial court appearance within 48 hours, rather than 24 hours, after a juvenile has been taken into custody (see AS 47.10.140). All adult jails, lockups and correctional facilities in the 1992 monitoring universe are outside the state's only Standard Metropolitan Statistical Area, but only a handful provide adequate separation, as required in order for the removal exception to apply.

14. Total number of juveniles accused of a criminal-type offense who were held in excess of six (6) hours but less than twenty-four (24) hours in adult jails and lockups in areas meeting the "removal exceptions:"

Baseline data:	0 (n/a)
Current data:	0 (n/a)

15. Provide a brief summary of the progress made in achieving the requirements of Section 223(a)(14):

From a base of 117 adult jails, correctional centers and lockups, 59 jail removal violations were projected for in Alaska during 1993. This count represents a 94 percent reduction in the overall number of juveniles held in violation of the jail removal mandate since the baseline year 1980. From the levels of last year, the 1993 count of 59 noncompliant instances represents a 25 percent increase in the number of juveniles held in adult facilities in violation of Section 223(a)(14).

This increase from the 1992 count represents a trend in both types of facilities, the total removal violations in adult jails and the correctional facility increased by 11 percent, and the violations in adult lockups increased by 47 percent. By offense category however, there were some mixed trends. In handling accused criminals, adult jails had 25 percent more violations than in 1992, while the adult lockups were unchanged at 11 violations. For adjudicated criminals, adult jails had a 57 percent decrease in violations from the 1992 levels, while the adult lockups level went from 2 in 1992 to 7 in 1993. Violations involving status offenders and nonoffenders increased 75 percent from the 1992 levels in both adult jails and adult lockups.

Differences in the number of violations can be attributed to a number of factors, including: modification of practices and policies toward the handling of juveniles on the part of rural jails and lockups, the further refinement in the accuracy of the detention logs of state-contracted jails and adult lockups, and improved data gathering techniques. It is also likely that the current "get tough on crime" sentiment is being reflected in the way Alaskan communities are handling some juvenile offenders. Since most of the violations in the status offender category resulted from cases where the offense was specified as MCA or MC (minor consuming alcohol), it appears that frequently the actual reason for the detention involved protective custody which, if properly recorded, would not have resulted in a removal violation.

The courts have determined that AS 47.37.170 imposes a duty upon peace officers to take inebriates into custody for their own protection. The statute directs that they may be held in a detention facility if no other facility is available.

In recent years gains have been made in reducing the number of violations in the state-contracted jails, as ten adult jails located in Barrow, Cordova, Dillingham, Kotzebue, Naknek, Petersburg, Seldovia, Sitka, Valdez and Wrangell, reported no jail removal violations during 1993 (down from 11 last year, but the state lost 3 jails in 1993). The state correctional facility in Ketchikan also no longer detains juveniles.

Further explanation of the overall gains Alaska has made in reducing violations of Section 223(A)(14) is found in the increased accuracy of the data itself. Prior efforts at monitoring Alaska's compliance with JJDP had been characterized by an apparent over-counting of incidents of noncompliant juvenile detention in adult contract jails. Whereas previous jail logs (the primary source of information used in monitoring) did not distinguish individuals who were booked and released from those who were placed in secure detention, the revised jail log format allows for this critical distinction.

By mid-1989 each contract jail had begun use of revised billing sheets ("logs") which allowed for clear distinction between those juveniles held in secure confinement and those who were not. As the contract jail personnel have become more familiar with this new billing form, the 1993 detention data have proven more accurate than that of 1992. Even so, some questions remained in analysis of the 1993 jail data either because individual jails did not properly use the revised log format or because even when a juvenile was noted as securely detained, the combination of offense and time held indicated that he/she was *probably* booked and released contrary to the official record. In those instances where questions remained, the contract jails were contacted by phone in an attempt to clarify the circumstances regarding those detention episodes. If no further information was obtained, those cases for which the duration of detention was recorded as 45 minutes or less, and for which the records gave no indication that the juvenile was ever securely detained, have been classified as having been booked and released.

Examination of the records of those facilities which were inspected, indicates that the jail logs used in monitoring are largely reliable as records of juvenile traffic through community jails and police departments, but there may remain some issues of accuracy.

Apart from efforts at refining juvenile detention data, barriers to full compliance with the jail removal requirement remain in Alaska. However, the state has made great progress in reducing incidence of noncompliance and in offering alternatives to secure detention in adult facilities. Geographic distance between smaller communities and the five secure youth detention centers has been bridged by the creation and operation of nonsecure attendant care shelters, which serve twelve rural communities.

In 1991 DFYS distributed copies of the OJJDP-produced educational video *Law Enforcement Custody of Juveniles* to each adult lockup and jail in the 1989 monitoring universe. This tape explains the constraints of the Juvenile Justice and Delinquency Prevention Act on the handling of juvenile offenders and nonoffenders, and specifies exact prohibitions. Local and municipal law enforcement personnel, including police, dispatchers,

guards, village police officers and village public safety officers, were asked to review the video tape and to mail lists of who had reviewed the tape to DFYS. DFYS plans to further utilize this educational video by working with the law enforcement training academies in Alaska. These education processes appear to be having an impact, as many of the personnel contacted during the data collection process were well-informed about legal constraints regarding the detention of juveniles. During 1993 training on the mandates of the Juvenile Justice & Delinquency Prevention Act was provided to Village Public Safety Officers at the Public Safety Academy in Sitka.

In 1990 the Alaska Legislature passed AS 4710.160(b), requiring the Department of Health and Social Services to develop a standardized form for use by all agencies operating a jail or lockup. Its purpose was to report the admission and secure confinement of all minors. In accordance with this statute, in May 1991 DFYS initiated a new system by which all incidents of secure confinement of juveniles would be recorded. Each adult lockup and jail in the 1990 monitoring universe was sent information on Alaska's new statutory requirement, instructions on how the new reporting system would operate, and supplies of the Juvenile Confinement Admission and Release Form and the Juvenile Confinement Admission and Release Log. It was instructed that the form was to be completed on every juvenile admitted to secure confinement in each facility. The log was to be maintained on a monthly basis and sent to DFYS/Facility Compliance office, even in the event no juveniles were confined in the facility. This system was in place by the beginning of the State Fiscal Year, July 1991.

In the spring of 1991, the Alaska Juvenile Justice Advisory Committee (AJJAC) introduced legislation concerning the confinement of juveniles that would bring State law closer to conformity with federal standards and the JJDP Act. This legislation specifies the criteria for detaining juveniles in adult facilities and limits detention to a maximum of six hours. While not passed by the Seventeenth Legislature, this legislation was reintroduced during the first session of the Eighteenth Legislature and continues to be lobbied for by the Alaska Juvenile Justice Advisory Committee.

During the fall of 1992, Governor Walter J. Hickel issued an Executive Proclamation supporting the elimination of the practice of placing juveniles in adult lockup facilities and jails.

Finally, during the fall of 1992, DFYS staff, Non-Secure Attendant Care Shelter staff and representatives from the Office of Juvenile Justice and Delinquency Prevention met with the Chief of Police of Homer to discuss appropriate procedures for handling juveniles in the Homer jail which would meet the requirements of the jail removal mandate.

G. DE MINIMIS REQUEST: NUMERICAL

1. The extent that noncompliance is insignificant or of slight consequence:

Number of accused juvenile criminal-type offenders in adult jails and lockups in excess of six (6) hours, adjudicated criminal-type offenders held in adult jails and lockups for any length of time, and status offenders held in adult jails and lockups for any length of time.

Total = 59

Total juvenile population of the State under 18 according to the most recent available U.S. Bureau of Census data or census projection:

178,349 juveniles

(Source: *Alaska Population Estimates by Age, Race and Sex*, Alaska Department of Labor, Research and Analysis, Demographics Unit, July 1991)

If the data was projected to cover a 12-month period, provide the specific data used in making the projection and the statistical method used to project the data:

Data projection was not required for missing months; however adjustment was necessary for adult lockups which failed to report data. (See Appendix I)

Calculation of jail removal violations rate per 100,000 population under 18:

Total instances of noncompliance	=	59
Population under 18	=	178,349
59/1.783491	=	33.1 per 100,000

2. Acceptable plan:

The Division of Family and Youth Services (DFYS) of the Department of Health and Social Services has broad authority under AS 47.10.150 and AS 47.10.180 for oversight of facilities used for detention of juveniles. In its attempts to reduce the numbers of noncompliant instances of juvenile detention in Alaska, DFYS has developed a network of nonsecure attendant care shelters—currently in ten locations, serving twelve communities which have historically experienced high levels of noncompliant juvenile detention.

DFYS has been successful in curtailing the practice of securely detaining status offenders and intoxicated juveniles at its own detention centers as well as in many adult facilities. The 1993 data show that juveniles who were charged with minor consuming alcohol continue to pose problems to the state's compliance with Section 223(A)(14). While the DFYS

policy extends only to the five juvenile detention centers, it has had a significant educative effect on the policies of local law enforcement agencies, and the Division continues to educate law enforcement personnel, both through the distribution of the OJJDP videotape, *Law Enforcement Custody of Juveniles*, appearances at state training academies, annual data collection contacts, and tri-annual monitoring visits.

It is anticipated that the implementation of the new record keeping system involving all adult facilities in the state, because it requires periodic attention by law enforcement departments to the issue of juvenile admissions, will also work to increase awareness of and compliance with the mandates of the JJDP Act.

With the submission of monthly logs from the adult facilities, DFYS is able to identify problems much sooner. In cases where a violation appears to have occurred the Juvenile Justice Specialist contacts the facility to discuss the potential violation.

3. Recently enacted change in state law:

In May 1988, the Alaska Legislature passed a bill specifying the conditions under which runaway juveniles may be detained. This legislation, which became effective in October 1988, was explicitly designed to comply with the deinstitutionalization requirement of the JJDP Act, but it is also expected to aid efforts to bring the state into compliance with the jail removal mandate. The law specified that

> [a] minor may be taken into emergency protective custody by a peace officer and placed into temporary detention in a juvenile detention home in the local community if there has been an order issued by a court under a finding of probable cause that (1) the minor is a runaway in willful violation of a valid court order..., (2) the minor's current situation poses a severe and imminent risk to the minor's life or safety, and (3) no reasonable placement alternative exists within the community. (AS 47.10.141)

The statute clearly forbids detention of a runaway juvenile "in a jail or secure facility other than a juvenile detention home" and limits the duration of such detention to 24 hours if no criminal-type offense is charged.

A more recently enacted amendment to AS 47.10.160 requires that jails and other secure detention facilities operated by state and local agencies record and report to the Department of Health and Social Services all instances of juvenile detention. Enacted in June, 1990, and effective September, 1990, this statute requires facilities to use a standardized format in reporting juvenile admissions, and to report name, date of birth, the offense for which the minor was admitted, date and time admitted, date and time released, gender, and ethnic origin. In an effort to further reduce errors in record keeping, the statute also requires that—with the exception of release date and time—the records be prepared at the time of admission into secure confinement.

Because this statute standardizes the report format and requires full reporting of juvenile detention, it is anticipated that its enactment will have a significant and positive impact on Alaska's compliance efforts. The new system has been implemented and it is anticipated that its positive effects on Alaska's compliance will be evident in coming monitoring cycles.

H. DE MINIMIS REQUEST: SUBSTANTIVE

1. The extent that noncompliance is insignificant or of slight consequence:

a. Were all instances of noncompliance in violation of or departures from State law, court rule, or other statewide executive or judicial policy?

AS 47.10.130 provides that "(n)o minor under 18 years of age who is detained pending hearing may be incarcerated in a jail unless assigned to separate quarters so that the minor cannot communicate with or view adult prisoners convicted of, under arrest for, or charged with a crime." Of the 40 reported jail removal violations reported for 1993, 23, or 58 percent, occurred in facilities that allow for sight and sound separation. As a result, 42 percent of the jail removal violations from 1993 could have also constituted violations of Section 223(a)(13).

There was no statutory authorization for detaining status offenders and nonoffenders in any adult facility other than those accused of minor consuming alcohol. During 1993, there was no instance of secure detention of a status offender not charged with an alcohol offense.

b. Do the instances of noncompliance indicate a pattern or practice, or do they constitute isolated instances?

Violations of Section 223(A)(14) occurred in 8 adult jails, 1 correctional center, and at 9 (5 x 1.84 weight) adult lockups. At the majority of these facilities, however, instances of noncompliant detention appear to be the exception rather than the rule of juvenile handling. It is the practice of most law enforcement officials at the village level and at the municipal level to not securely detain juvenile offenders.

The projected 1993 data on jail removal violations indicate that 27 violations occurred in 20 (20%) of the 98 adult rural lockups statewide. Given that the larger, busier lockups tend to be more likely to provide data, this projection that 20 percent of the rural lockups violated Section 223(A)(14) is probably high.

The largest number of noncompliant detentions from a single institution in 1993 was 10 (1 adult jail); the second largest was 7 (1 adult jail); and the third largest was 3 (1 adult jail). There were 5 facilities with 2 violations each (2 adult jails and 3 adult lockups). This number is down from 4 facilities, each with a high of 15 incidents of noncompliance during 1989, and 1 facility showing 15 violations in 1990.

c. Are existing mechanisms for enforcement of the State law, court rule, or other statewide executive or judicial policy such that the instances of noncompliance are unlikely to recur in the future?

Yes. The state has employed several mechanisms for enforcing AS 47.10.130, AS 47.10.141 and AS 47.10.190, which restrict the detention of juveniles in adult facilities, and AS 47.10.160(b), which requires state and municipal agencies to report incidents of secure detention of juveniles. Collectively, these mechanisms have proven effective in substantially reducing instances of noncompliance with Section 223(a)(14) of the JJDP Act. Enforcement of these statutes, along with continued operation of the dozen alternative nonsecure shelters, will effectively curtail jail removal violations in Alaska.

DFYS has sought to maximize enforcement of these laws by instituting a program of public education, including public service announcements in print and broadcast media, to alert both the law enforcement community and the public to the dangers and illegality of jailing juveniles.

Additionally, admission records of adult jails are examined each year by DFYS, and facilities are notified of the instances of noncompliant detention of juveniles.

In combination, the above enforcement mechanisms have been effective in reducing the number of instances of noncompliance by 94 percent in the four years since implementation of the state's revised Jail Removal Plan in December, 1987.

d. Describe the State's plan to eliminate the noncompliant incidents and to monitor the existing enforcement mechanisms:

Alaska's plan to eliminate noncompliant incidents is outlined in the revised 1987 Jail Removal Plan. Salient features of this plan include the following:

(1) placing a full-time JJDP Project Coordinator in the Division's Central Administration Office;

(2) development of alternatives to detention, including development of nonsecure holdover attendant care models in several rural communities and secure holdover attendant care models in others;

(3) cooperative efforts with the Department of Public Safety on such issues as maintenance of appropriate booking data on juveniles, sight and sound separation requirements, the JJDP-mandated 6-hour rule and a prohibition of detention of status offenders;

(4) launching an education and training campaign to inform the public of the problems inherent in inappropriate detention and jailing of youth and of the availability of effective alternatives.

Each of these goals is currently in operation and, as anticipated, their effect has been to consistently and dramatically lower the number of incidents of noncompliance.

Appendix I

METHOD OF ANALYSIS

All aspects of data analysis for the 1993 monitoring report were performed on the DEC/VAX 8800 mainframe computer at the University of Alaska Anchorage, using the SPSS Data Analysis System, Release 4.0.

I. Data collection and data entry

Data were entered into a composite data file from the following sources:

A. Certified photocopies of original *client billing sheets* (booking logs) for the sixteen adult jails were obtained from the Contract Jail Administrator of the Alaska Department of Public Safety (DPS). DPS contracts for services with each Alaska facility that meets the definition of adult jail as defined in the Formula Grant Regulation. The certified photocopies of the jails' booking logs covered all twelve months of 1993.

B. Photocopies of *original booking logs* were obtained from the youth center in Fairbanks, and from nine adult lockups in Alakanuk, Delta Junction, Fort Yukon, Glennallen, King Cove, Kobuk, Kotlik, Russian Mission, and Tok.

C. Certified or signed *detention data reports* were received from the youth centers and holdovers in Anchorage, Bethel, Juneau, and Nome, and from forty-two adult lockups in Akutan, Ambler, Anaktuvuk Pass, Atqasuk, Brevig Mission, Cantwell, Chignik, Cold Bay, Deadhorse, Deering, Eek, Ekwok, Elim, Goodnews Bay, Grayling, Holy Cross, Hoonah, Kaktovik, Kaltag, Kiana, Kivalina, Koyuk, Kwigillingok, Manokotak, Marshall, McGrath, Mekoryuk, Mountain Village, Noorvik, Nuiqsut, Pelican, Pilot Point, Point Hope, Point Lay, Port Heiden, Ruby, Saint Mary's, Sand Point, Skagway, Stevens, Togiak, and Wainwright.

D. Judged to be inadequate for monitoring purposes was adult lockup data received from the village of Selawik.

E. Juvenile booking data were received from the Department of Corrections adult correctional center at Mat-Su Pretrial. The Department of Corrections also provided a computer listing of juvenile bookings in all of the department's facilities.

F. Complete detention data from the two juvenile holdover facilities in Kenai and Kodiak were received from the supervising Youth Probation Officer at that office.

For each case, the following data were entered: Facility type, facility identifier, initials or first initial and last name of juvenile, date of birth, gender, race, date of admission, time of admission,

reason for detention (alphabetic variable; if more than one, reasons were strung together), date of release, time of release, and lockup indicator.

II. Classification of offenders

The likelihood of misclassifying offenses was reduced by adopting a conservative approach. In other words, errors in coding would lead to the reporting of a higher number of violations than actually occurred. The following procedures were used in classifying juveniles as accused criminal-type offenders, adjudicated criminal-type offenders, accused status offenders and adjudicated status offenders:

A. Juveniles who were arrested for the following were classified as *accused criminal-type offenders*: offenses proscribed in Alaska criminal law, traffic violations, fish and game violations, failure to appear, and contempt of court.

B. Juveniles charged with probation violations or violations of conditions of release were classified as *adjudicated criminal-type offenders* unless conditions of probation had been imposed pursuant to an adjudication for possession or consumption of alcohol. In the latter case, the juvenile was classified as an adjudicated status offender.

   Juveniles taken into custody pursuant to warrants and detention orders were also classified as adjudicated criminal-type offenders, unless additional information indicated a more appropriate classification. Where reclassification was not indicated, all instances of detention pursuant to a warrant or court order at Bethel Youth Center, Johnson Youth Center, McLaughlin Youth Center, Fairbanks Youth Center, and the Nome Youth Center were verified through a check of facility records. In this way, accuracy in the classification of these cases was checked.

   Juveniles transferred from one juvenile detention facility to another were also classified, absent additional information, as adjudicated criminal-type offenders, as were a small number of juveniles for whom the offense listed in official records was one of the following: juvenile hold, juvenile probation hold, detention hold, and delinquent minor.

C. Juveniles detained for the following were classified as *accused status offenders*: possession or consumption of alcohol, minor on licensed premises, curfew violations, runaway, and protective custody in excess of the lawful duration as prescribed in AS 47.30.705 and AS 47.37.170.

D. DFYS officials constructed a list with the names and dates of birth of juveniles adjudicated for possession or consumption of alcohol on or after January 1, 1985. The list only included juveniles adjudicated *solely* for the possession or consumption of alcohol and who were not subsequently adjudicated on a criminal-type offense. Juveniles appearing in the 1993 data arrested pursuant to a warrant or detention order and juveniles detained for probation

violations were classified as *adjudicated status offenders* if their names appeared on this list. Otherwise, these juveniles were classified as adjudicated criminal-type offenders.

E. Juveniles detained in adult facilities for protective custody under AS 47.30.705 or AS 47.37.170 (dealing with mental illness and alcohol intoxication, respectively) were counted as violations of the separation requirement. However, because juveniles and adults are accorded the same treatment under these statutes, these cases were determined to be outside the scope of the OJJDP definitions of criminal-type offender, status offender and nonoffender. Therefore, the presence of these juveniles in these facilities is not reflected in sections of this report pertaining to deinstitutionalization and jail removal requirements.

III. Data projection

Four methods of statistical projection for missing and unknown detention data were employed in the analysis of 1993 juvenile detention data. These were: 1) projection of data for the purpose of covering twelve months of time in two instances when only six months of data were received; 2) projection of juvenile detention data from non-reporting adult lockups; 3) projection of data for the purpose of estimating duration of detention in eleven cases with insufficient time information; and 4) projection of data for the purposes of including cases which had insufficient offense data.

A. Projection for complete calendar year

Complete data for calendar year 1993 were available for all but one of the secure facilities in Alaska reporting detention information. Projection of data to cover the full calendar year 1993 for the adult lockup in Mekoryuk was accomplished by computing the proportion of the year for which data from this facility were received (90 days/365 days = .25), and weighting each instance of juvenile detention recorded at the lockup by a factor equal to the reciprocal of that proportion. Thus, any instances of juvenile detention at this facility would be weighted by a factor of 4.00. This weighting procedure assumes that instances of noncompliance at the jail during the first nine months of 1993 occurred at the same rate demonstrated in the data for the last three months.

B. Projection for non-reporting adult lockups

Data for the 48 adult lockups whose records were inadequate for monitoring purposes were projected by assigning a weight of **1.96** (the reciprocal of the proportion of all adult lockups represented by those included in the analysis) to each case of juvenile detention in the 50 adult lockups from which adequate data were obtained. To the extent that lockups from which adequate data were obtained are representative of all lockups in the monitoring universe, this method of projection is statistically valid.

Since *all* adult lockups which submitted adequate data were included in the analysis, random sampling of this group was not performed. It is believed that lockups which do not maintain

adequate records are unlikely to detain more juveniles than those which do. Facilities which do not maintain adequate records probably fail to do so because they detain very few individuals, either adults or juveniles. Any error in this method of projecting data for non-reporting lockups should therefore result in a higher number of noncompliant cases than actually occurred in these facilities.

C. Projection for unknown duration of detention

Projection for an unknown duration of detention was necessary for nine cases involving accused criminal offenders. Two cases involving status offenders were automatically counted as jail removal violations. The cases requiring weighting consisted of eight accused criminal offenders held in adult jails, and one held in an adult lockup. The weighting procedure established the likelihood of a case being a jail removal violation by dividing the number of violations involving accused criminals by the number of accused criminals, with a separate calculation made for the two types of facilities (jails = .444 and lockups = .316). Once that likelihood was established, it was multiplied by the number of cases involved (jails: 8 x .444 and lockups: 1 x .316), and the product was added to the number of reported violations in that category.

D. Projection for unknown offense

Projection for an unknown offense was necessary for five cases which occurred in adult lockups. The calculation required to establish the weighting for these cases required first establishing the likelihood that these cases involved an accused criminal and then establishing the likelihood that it would be a violation, and second, following the same procedure for adjudicated criminal cases, and finally for accused and adjudicated status offender and nonoffender cases. This weights were then added to the number of reported violations in the appropriate categories.

For example, the calculation used for establishing the weighting factor to be added to the accused criminal case violations in adult lockups consisted of taking the likelihood of the case being an accused criminal case (number of accused criminal cases in lockups divided by the number of cases in lockups — 19/42 = .452), and multiplying that probability by the likelihood of an accused criminal case being a jail removal violation (number of accused criminal violation cases in lockups divided by the number of accused criminal cases in lockups — 6/19 = .315). The product (.452 x .315 = .14) was the weighting factor added to the three cases missing offense data and which were detained longer than 6 hours. The sum of these weights (3 x .14) was then added to the reported number of accused criminal case jail removal violations in adult lockups.
