

4D Characterization of Metal Microstructures - DTU Orbit (07/08/2016)

4D Characterization of Metal Microstructures

General information

State: Published

Organisations: Department of Wind Energy, Materials science and characterization

Authors: Juul Jensen, D. (Intern)

Pages: 367-386

Publication date: 2013

Host publication information

Title of host publication: Microstructural Design of Advanced Engineering Materials

Publisher: Wiley-VCH

Editor: Molodov, D.

ISBN (Print): 978-3-527-33269-4

ISBN (Electronic): 978-3-527-65282-2

Chapter: 15

Main Research Area: Technical/natural sciences

Publication: Research - peer-review › Book chapter – Annual report year: 2013
