

Seamless Optical Fiber-Wireless Millimeter- Wave Transmission Link for Access Networks - DTU Orbit (09/11/2017)

Seamless Optical Fiber-Wireless Millimeter- Wave Transmission Link for Access Networks

This paper presents an experimental demonstration of a millimeter-wave wireless bridge in the W-band for transparent broadband fiber access in the sub-urban areas, where full fiber connections are impracticable.

General information

State: Published

Organisations: Department of Photonics Engineering, Coding and Visual Communication, Metro-Access and Short Range Systems

Authors: Pang, X. (Intern), Lebedev, A. (Intern), Vegas Olmos, J. J. (Intern), Tafur Monroy, I. (Intern)

Number of pages: 2

Pages: TuPP-12

Publication date: 2013

Host publication information

Title of host publication: 2013 18th OptoElectronics and Communications Conference held jointly with 2013 International Conference on Photonics in Switching (OECC/PS)

Publisher: IEEE

Main Research Area: Technical/natural sciences

Conference: 18th OptoElectronics and Communications Conference (OECC 2013), Kyoto, Japan, 30/06/2013 - 30/06/2013
