Fenu, "Temperature adjustment and calibration of an ASM2D-ADM1 model" in "Wastewater and Biosolids Treatment and Reuse: Bridging Modeling and Experimental Studies", Dr. Domenico Santoro, Trojan Technologies and Western University Eds, ECI Symposium Series, (2014). http://dc.engconfintl.org/wbtr_i/36

This Conference Proceeding is brought to you for free and open access by the Proceedings at ECI Digital Archives. It has been accepted for inclusion in Wastewater and Biosolids Treatment and Reuse: Bridging Modeling and Experimental Studies by an authorized administrator of ECI Digital Archives. For more information, please contact franco@bepress.com.

**TOWARDS AN INTEGRATED MODEL OF SLUDGE & WATER LINE
IN A FULL SCALE WWTP**

Outline

Our commitment in green energy production

Integrating an ASM and ADM model

Temperature adjustment

Model results

Conclusions

Improving digestion processes in full scale

Aquafin Asset

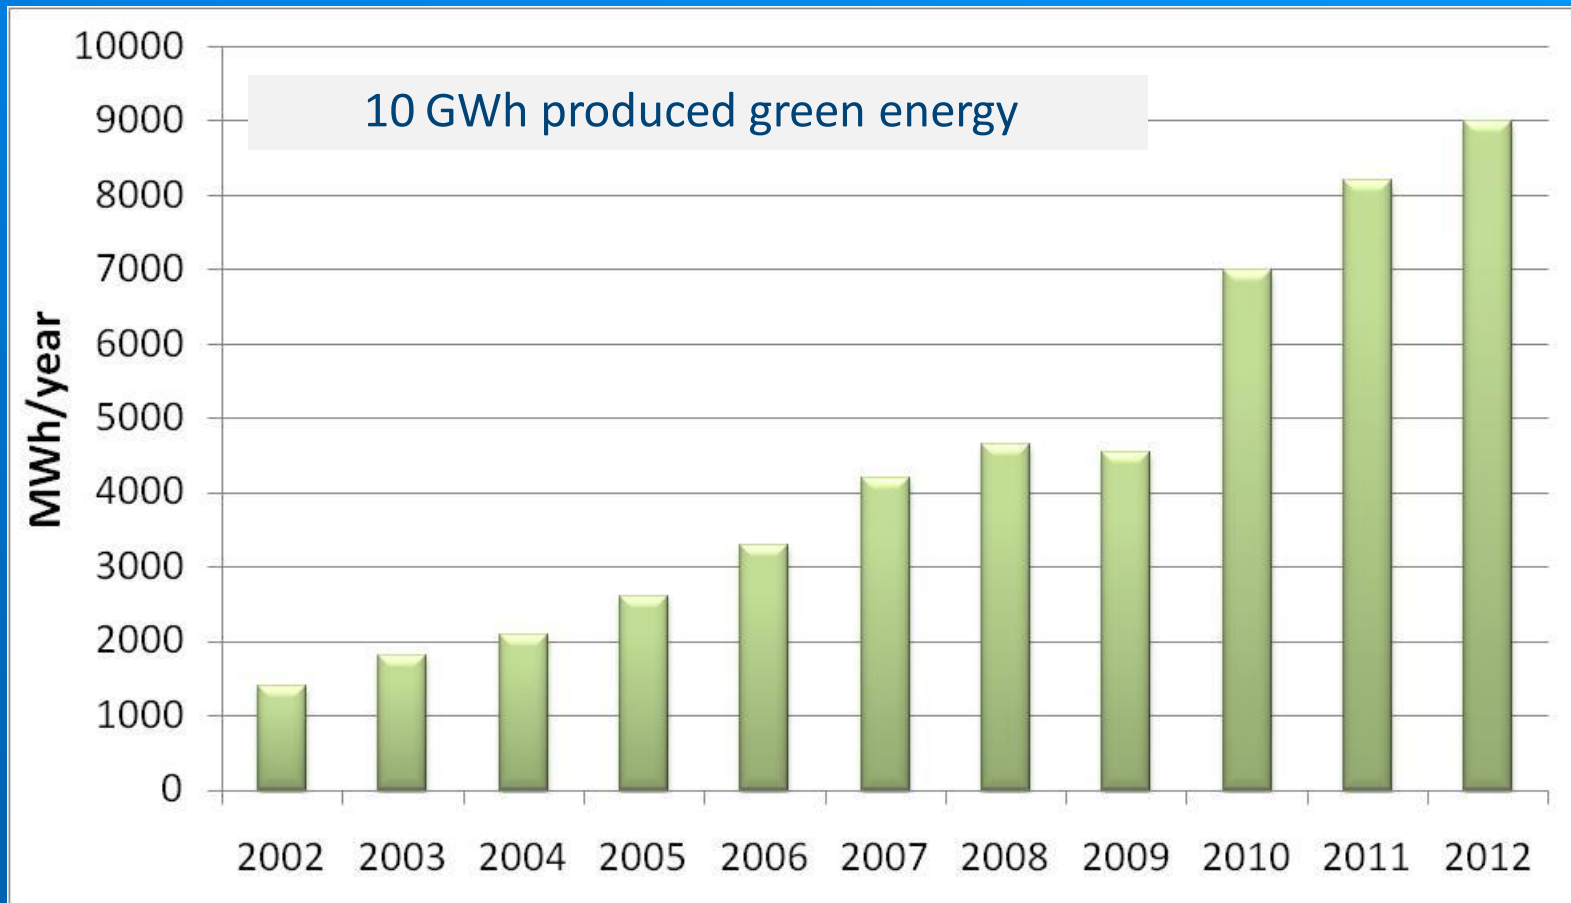

- 44 dewatering
- 4 sludge dryers
- 17 Sludge Digesters

Research topics:

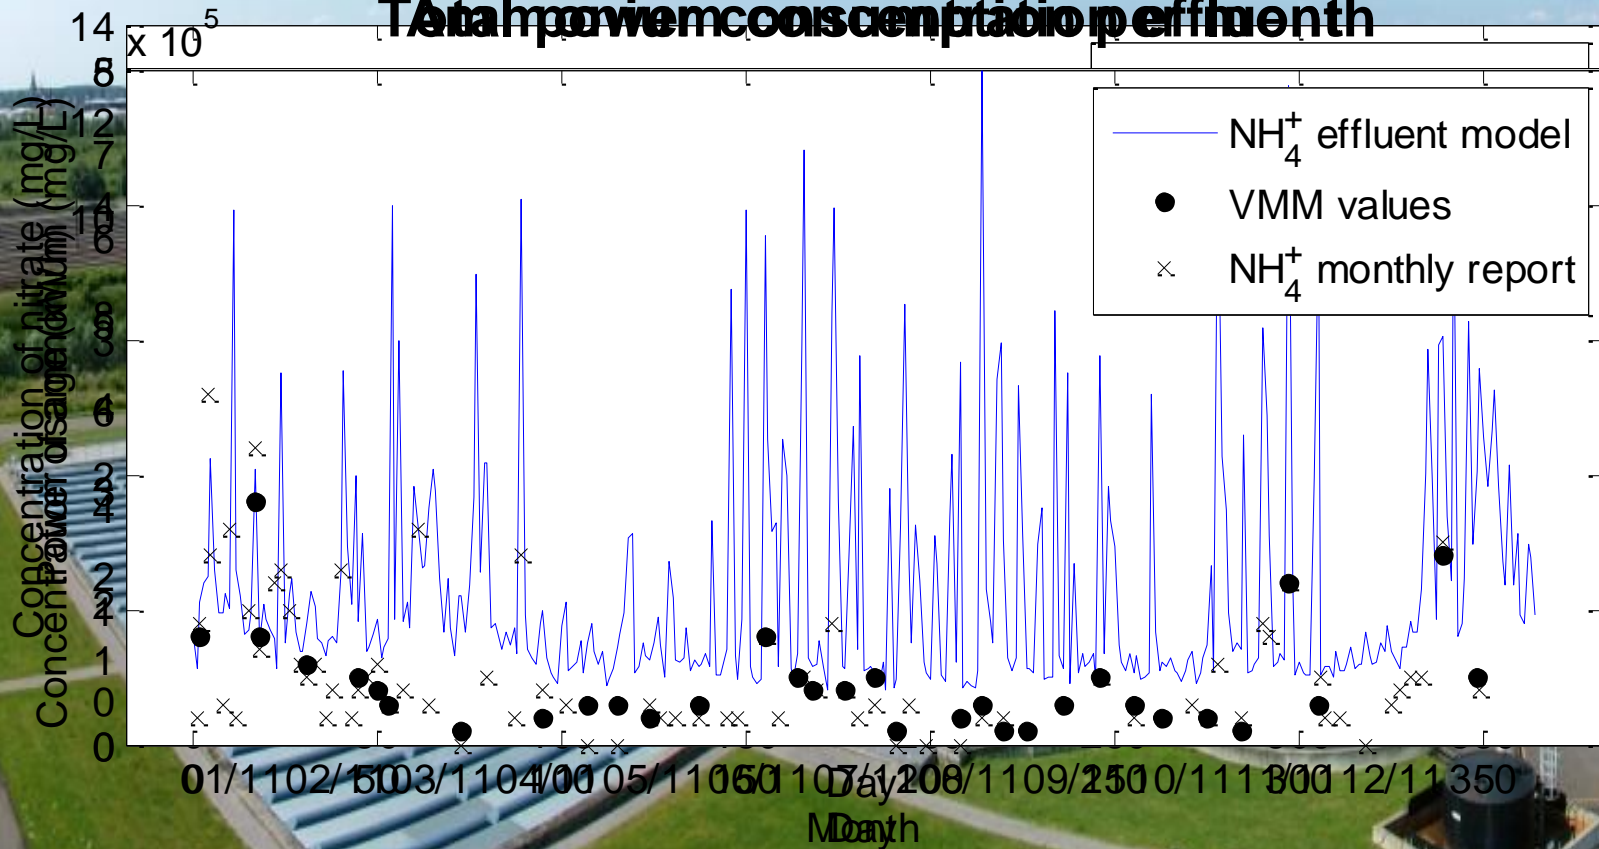

- Thermophilic digestion
- Co-digestion
- Sludge pretreatment methods
- ADM modelling

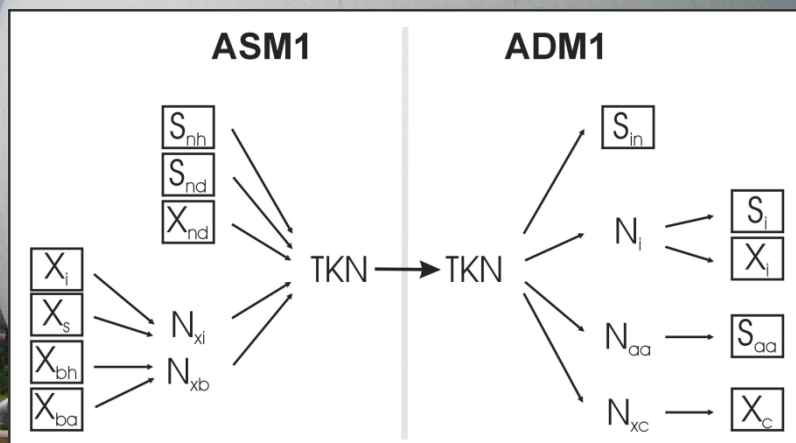

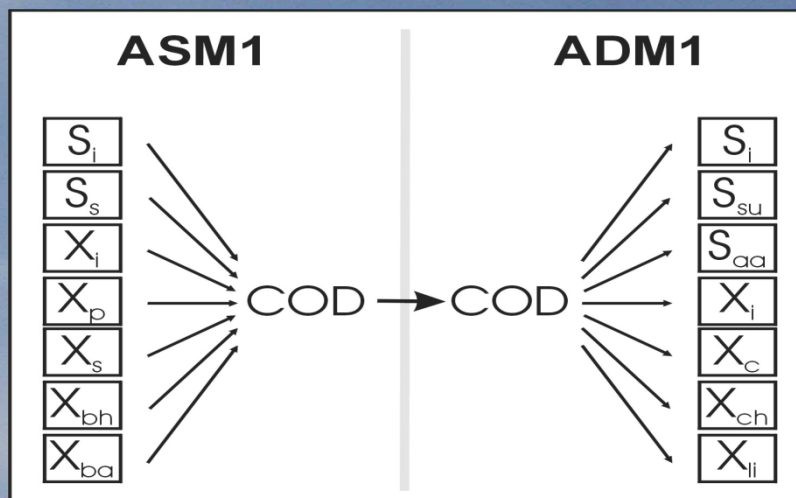

Green Energy production

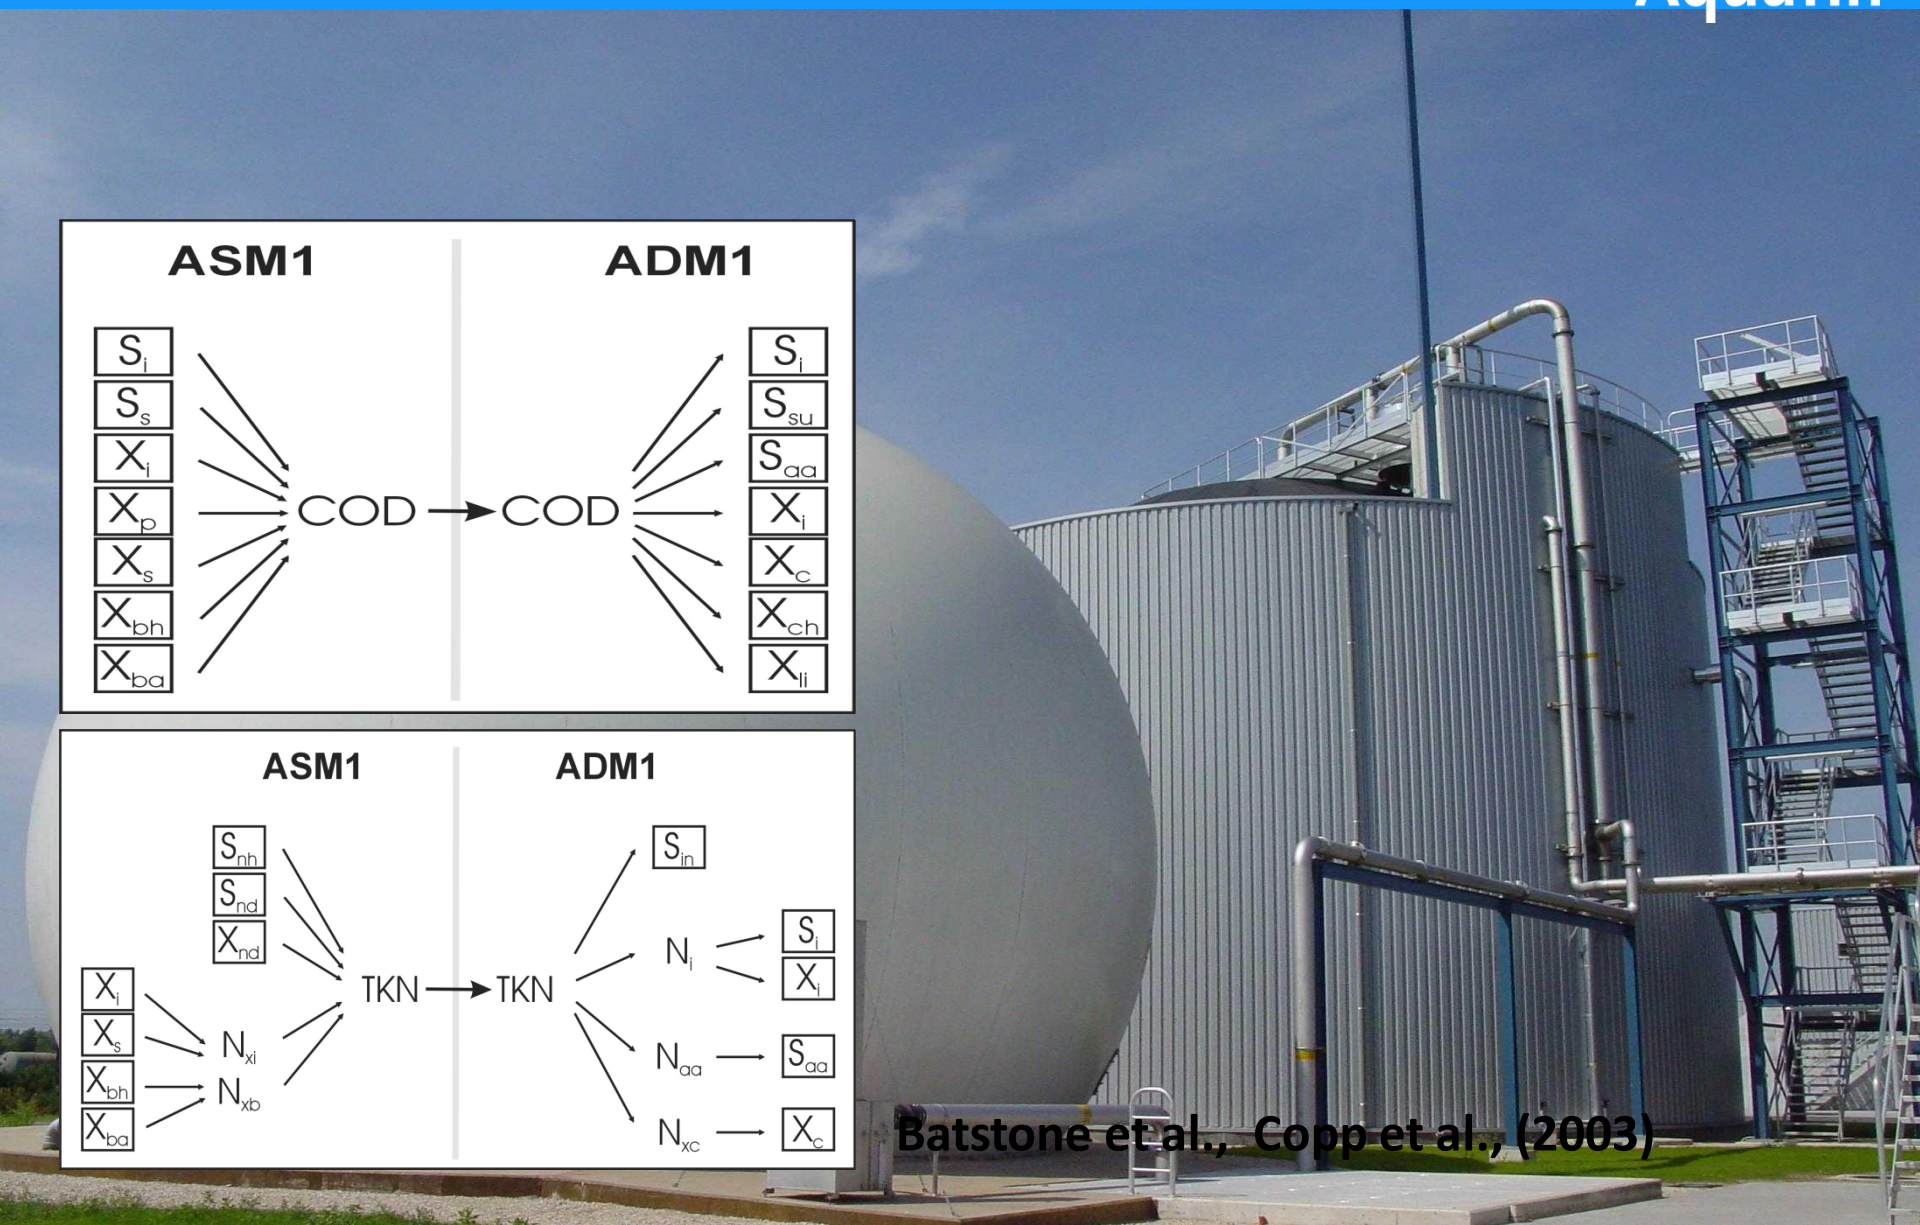

Nitrate concentration effluent Total nitrogen concentration effluent

Integration of ASM1 and ADM1

Batstone et al., Copp et al., (2003)

Integration of ASM2d and ADM

Parameters '?' based on pH and biogas production model fit

Temperature dependency on hydrolysis

CTM1 (Rosso *et al.*, 1993)

Biogas production as $f(t)$ for different T : with CTM1 a good agreement is found

pH fit

pH fit

Gas Flow Fit

Methane Fit

Conclusions

We created an ASM2d-ADM interface
Limited number of fitted parameters
Full scale modelling on a 1 year data
