## *Welcome*

New Distance Masters Students:

Fall 2006: **Ture Carlson**, Kankakee, IL; **Angela Cooper**, Connellsville, PA; **Jody Hubbell**, Marietta, GA; **Israel Leinbach**, Phoenix, AZ; **Jerrold Oser**, Bishop, CA; **Christopher Van Benschoten**, Vero Beach, FL.

Spring 2007: **Melissa Oliver**, Gainesville, FL.

**Julia Colby** will be pursuing a Masters degree under the supervision of **Drs. Brett Ratcliffe** and **Mary Liz Jameson**. Julia is from Piscataway, NJ, and received her B.S. in Environmental Biology this May from State University of New York (SUNY), Syracuse, NY.

**Santiago Palizada** is a Fulbright Scholar from Quezon City, Metro Manila, Philippines, who is in the Masters degree program under the supervision of **Dr. John Foster**. He received his B.S. in Agriculture, majoring in Plant Science, from West Visayas State University, Lambunao, Iloilo, Philippines. Since graduating, Santiago has worked as an research assistant and an agriculturist for the Department of Agriculture, Bureau of Plant Industry, Crop Production Division, in the

Philippines.

Welcome to our five new insect science majors! **Ransom Sitz** is from Burwell, **Crystal Ramm** is from Valentine, and **Cynthia Harris**, **Becca Striman**, and **Matthew Yans** are from Lincoln, NE.

## *Congratulations*

The following students graduated in August 2006:

**Tierney Brosius**, M.S. (Advisors: **Drs. Leon Higley** and **Tom Hunt**)

**Alex Cunningham**, M.S. (Advisors: **Drs. Jim Brandle** and **Steve Danielson**)

**Tim Husen**, M.S. (Advisor: **Dr. Shripat Kamble**)

**Upeka Samarakoon**, M.S. (Advisors: **Drs. John Foster** and **Steve Skoda**)

**Alemtaye Yossef**, M.S. (Advisor: **Dr. Fred Baxendale**)

**Sasi Maliphan**, Ph.D. (Advisors: **Drs. John Foster** and **Steve Skoda**)

**Matthew Paulsen**, Ph.D. (Advisors: **Drs. Mary Liz Jameson** and **Brett Ratcliffe**)

**David Malone**, Lake Mary, FL, Distance M.S.

**Anthony Rattin**, Monmouth, IL, Distance M.S.

Hooding Ceremony-Mary Liz, Matt, and Brett

**Tim Huntington** and **Leo Magalhaes** have been awarded a Milton E. Mohr Fellowship in the amount of \$2,000 each from CASNR for the 2006-2007 academic year. **Nick Aliano** is the recipient of the 2006-2007 Widaman Trust Distinguished Graduate Assistant Award in the amount of \$2,000 from IANR's Agricultural Research Division. **Chelsey Wasem** and **Matt Brust** were each selected for a 2006-2007 Farmers National Company Fellowship from IANR in the amount of \$2,000. Tim, Leo, Nick, Chelsey and Matt were honored at a luncheon September 15, which recognized recipients of the Milton E. Mohr Fellowship, the Widaman Trust Distinguished Graduate Assistant Award, and the Farmers National Company Fellowship, along with recipients of the Hardin Distinguished Fellowship, the John and Louise Skala Fellowship, and the Shear/Miles Fellowship.

**Andrea Gutsche** has received a Mary and Charles C. Cooper/Emma I. Sharpless Fellowship from the College of Agricultural Sciences and Natural Resources and the Agricultural Research Division in the amount of \$3,000 for the 2006-2007 academic

year.

The following University employees were honored for years of service at the Service Awards ceremony, held September 7, 2006 at the Lied Center for Performing Arts: **Jack Campbell** (40), **Jim Kalisch** (25), **Marilyn Weidner** (25), **Terence Spencer** (10), **Robert Roselle** (10), **Doug Golick** (5), and **Tiffany Heng-Moss** (5).

## *Grants*

<b>Marion Ellis</b>	Wisconsin and South Dakota Beekeepers Associations	\$2,000	<i>Apiculture research and extension programs</i>
<b>Marion Ellis</b>	U.S. Environmental Protection Agency	\$46,000	<i>Honey Bee colonies</i>
<b>Marion Ellis and Tiffany Heng-Moss</b>	USDA-APHIS	\$1,400	<i>Bug Bash</i>
<b>Marion Ellis and Tiffany Heng-Moss</b>	IANR Teaching and Extension Deans	\$4,000	<i>Bug Bash</i>

<b>Tiffany Heng-Moss</b>	Ruth P. Gard Fund for Excellence	\$11,443	<i>Insect Functional Genomics: Applications to Pest Management and Environmental Protection</i>
<b>Tiffany Heng-Moss, Marion Ellis, and Mimi Wickless</b>	Aspegren Educational Foundation	\$22,000	<i>Bug Buddies Inquiry Center</i>
<b>David Keith</b>	Kansas State University	\$5,000	<i>Population Outbreaks of an Introduced Species of Itch Mites</i>
<b>Lance Meinke</b>	Monsanto	\$22,680	<i>Western Corn Rootworm, Diabrotica virgifera virgifera Leconte, beetle production on commercialized or soon-to-be commercialized Transgenic corn rootworm events in Nebraska</i>

<b>Lance Meinke</b>	Syngenta	\$15,120	<i>MIR604: Corn Rootworm Control in Mid Maturity Field Corn, Project 1102B</i>
<b>Blair Siegfried</b>	Western Michigan University/USAID	\$84,023	<i>Building Functional Biosafety Systems</i>
<b>Blair Siegfried</b>	Agrigenetics	\$52,122	<i>Protocol for Establishing Baseline Susceptibility of Corn Rootworm Larvae to the Cry34Ab1/ Cry35Ab1 Binary Protein</i>
<b>Blair Siegfried</b>	North Carolina State University	\$19,500	<i>Biochemistry and Genetics of Bt Resistance Isolated from a Field Population of the European Corn Borer</i>
<b>Blair Siegfried</b>	Agrigenetics	\$23,535	<i>Characterization of Hamilton County, IA European Corn Borer Population: On-Plant Assays, Selections, and Inheritance</i>

<b>Blair Siegfried</b>	USDA-CSREES	\$346,845	<i>Quantifying Risk Factors for Evolution of European Corn Borer Resistance to Cry1F Expressing Corn Hybrids</i>
<b>Blair Siegfried</b>	USDA-ARS, MWA	\$25,000	<i>Contributions to a Framework for Managing Insect Resistance to Transgenic Crops</i>
<b>Bob Wright</b>	Syngenta	\$15,120	<i>Research Services - Testing Insect Resistance in Corn</i>

Do you know someone who's thinking about college? Do you know someone who may be interested in entomology or agriculture as a career? The Department's undergraduate Insect Science or Diversified Agriculture majors are looking for interested students. If you know of a student that would like more information on either major, send their name and contact information to Lisa Silberman, [lsilberman1@unl.edu](mailto:lsilberman1@unl.edu)

## *Faculty News*

The 10th Annual Bug Bash, held at the Lincoln Children's Zoo, September 13-16,

2006, introduced approximately 2,600 people to the world of insects in a fun, but education focused program. Ninety Science Focus High School participants, along with 75 UN-L faculty, staff, graduate students, and undergraduate students enrolled in Insect Biology, participated as trainers and event presenters to young learners and the public. **Drs. Marion Ellis** and **Tiffany Heng-Moss** were co-coordinators for this event.

**Dr. David Carter** presented the seminar, “Soils and forensic science: the dirt on Locard’s Principle” as part of the National Soil Survey Seminar Series.

**Dr. Z B Mayo** was elected as an Honorary Member of the Entomological Society of America (ESA). **Dr. John Burd** was elected as the Southwestern Branch Representative, and **Dr. Mike Culy** was elected as the Section F Representative.

The Clue Crew of “Jeopardy” was here in July filming next to the beehives on East Campus. **Dr. Marion Ellis** was on hand to help Clue Crew member, Sarah Whitcomb, carefully handle hive frames and hundreds of bees - all without getting stung. The episode with bee clues will be aired sometime in September.

## *Travel*

**Dr. Brett Ratcliffe** conducted research in the entomology collections of the National Museum of Natural History in Budapest, Hungary and the National Museum of Natural History in Vienna, Austria in June.

## *Meet a Distance Student*

Distance M.S. Student - Marie Elwood-Heinrichs

I am a distance student who lives in Hillsboro, Oregon, but I grew up in Elko, Nevada. From an early age, I loved insects and would spend hours upon hours chasing, watching, imitating, and drawing insects. Ants have always been my favorite.

I graduated from the University of Southern California in 2000 with a degree in Psychology/ Pre-Med and a determination never to live in Los Angeles again. I worked for a short time as a children's book editor before moving to Oregon to work at the medical school. I now work for the Department of

Public Health and have helped with studies on breast cancer, heroin use, AIDS transmission, and mental health of people with multiple drunk driving arrests. Currently, I am studying the effectiveness of drug treatment programs across the US. "Tell your kids to say no to drugs. I don't want them to end up in my studies."

I knew I wanted to study entomology, but I had shared custody of young twin daughters which made going to any school difficult. UNL's distance program was the perfect option. When I started the program, I was single with time on my hands. Out of the blue, I met my wonderful husband, Trent. "I knew he was the right one, when he didn't run, after he found the freezer was full of frozen crickets." Now, in what I hope will be my last semester, I have 8- year-old twins, a 20- month-old busy toddler son, and am expecting a daughter any day now. I also still work, am active in my church, the Xerces Society, and volunteer too much at my kids' school.

## *Graduate Student News*

**Tierney Brosius** presented her thesis defense seminar on July 7, 2006. Her title was "The Impact of Natural Enemies on the Density and Within-plant Distribution of Soybean Aphid (*Aphis glycines* Matsumura)." Tierney is now in our Ph.D. program, with Dr. Leon Higley as her advisor.

**S. Upeka Samarakoon's** thesis defense seminar was held on July 20, 2006. Her title was "Molecular Keys and Molecular Barcodes for Identification of Forensic Blow Flies (Diptera: Calliphoridae)." Upeka is pursuing a Ph.D. at the University of Notre Dame, South Bend, IN.

**Alex Cunningham** presented his thesis defense seminar on July 19, 2006. His title was "Predacious Coccinellidae in Alfalfa: Development, Conservation, and Mortality in Relation to Harvest in East Central Nebraska." Alex is now at a USGS field station in Volcanoes National Park, Hawaii until December. He is doing research investigating impacts of introduced insects on populations of endangered birds and flowers in the park, and the impacts of parasitoids introduced for biological control on native, non-target Lepidoptera, which are a vital part of the indigenous ecology of the island.

**Tim Husen's** thesis defense seminar was held July 28, 2006. His title was "A Molecular Characterization of Subterranean Termites in Nebraska." Tim is pursuing his Ph.D. with **Dr. Shripat Kamble** as his advisor.

**Sasi Maliphan** presented her dissertation defense on August 2, 2006. Her title was "Genetic Linkage in Screwworms *Cochliomyia hominivorax* (Colquereel) (Diptera: Calliphoridae) Assessed by AFLP and Investigation of their mtDNA by PCR-RFLP."

Sasi has been working since April for Monsanto as a Regional Dossier Coordinator-Asia Pacific (Regulatory). Sasi travels among 13 countries in the Asia Pacific, taking care of the approval of imports and products for these countries. Her office is based in Singapore with travel between St. Louis and Singapore.

**Matthew Paulsen's** dissertation defense was held on August 2, 2006. His title was "Revision of the South American stag beetle genus *Pycnosiphorus*." Matt's dissertation will be published as a monograph in the Bulletin of the University of Nebraska State Museum.

**Tim Huntington** was an invited speaker at the St. Elizabeth Regional Wound Center Conference, "Excellence in Wound Care - From Basics to Beyond" held September 7-8, 2006, at the Embassy Suites in Lincoln, NE. Tim's talk was entitled "What's Eating you? Human Myiasis and Wound Care."

## *Undergraduate News*

**Matt Moore**, funded by an NSF-Research Experience for Undergraduates, is working in the Team Scarab lab and has just completed the first of his on-line guides to scarabs, a guide to the species of Hercules beetles (the genus *Dynastes*). See his key, species pages, and gallery of images at <http://www-museum.unl.edu/research/entomology/Guide/Scarabaeoidea/Scarabaeidae/Dynastinae/Dynastinae-Tribes/Dynastini/Dynastes/Dynastes.html>. His second guide to the species of elephant beetles (the genus *Megasoma*) will be completed soon.

## *Farewell*

We bid a fond farewell to **Dr. Doug Golick**, who was the Web Coordinator for the Department of Entomology since April 2001. Doug received his Master of Education from UNL, in 2001, majoring in Curriculum and Instruction and minoring in Entomology. He received his Ph.D. in Educational Studies, with a Specialization in Instructional Technology from UNL in 2005. Doug's new job is the Instructional Design and Development Coordinator for the Department of Instructional Development and Support at the University of Kansas. He will be working with faculty across the KU campus in helping them to use new educational technologies, conduct research and to coordinate projects between the Instructional Development and Support group and other academic departments. We wish the best to Doug and his wife, Erinn.

## *From the Office*

There will be a new equipment charge for the smart cart at the East Campus Union. Any UNL Department who reserves the smart cart for more than two hours will be charged \$25. This fee will go into a fund for updating the smart cart.

## *Calendar of Events*

### **September 29, 2006**

- Entomology Seminar - Andrea Gutsche, Graduate Student, 4:00 p.m., East Campus Union

### **October 6, 2006**

- Entomology Seminar - Dr. Antoine Messean, Scientific Director of CEYIOM, INRA, Grignon, France, 4:00 p.m., East Campus Union

### **October 13, 2006**

- Entomology Seminar - Michael Fisher, Graduate Student, 4:00 p.m., East Campus Union

### **October 13, 2006**

- International Potluck Dinner, 6:00-10:00pm, Antelope Park

### **October 16-17, 2006**

- Fall Break (Student Holiday - Offices open)

### **October 19, 2006**

- Entomology Faculty Meeting, 214 PI, 8:30 a.m.

### **October 20, 2006**

- Entomology Seminar - Dr. Lyric Bartholomay, Iowa State University, 4:00 p.m., East Campus Union

### **October 27, 2006**

- Entomology Seminar - Sheri Svehla, Graduate Student, 4:00 p.m., East Campus Union

### **November 3, 2006**

- Entomology Seminar - Chelsey Wasem, Graduate Student, 4:00 p.m., East Campus Union

### **November 10, 2006**

- Entomology Seminar - Dr. Erica J. Crone, Post-

Doc Research Associate, Department of  
Biological Sciences, 4:00 p.m., East Campus  
Union

**November 16, 2006**

- Entomology Faculty Meeting, 214 PI, 8:30 a.m.

**November 17, 2006**

- Entomology Seminar - Dr. Ty Vaughn,  
Research Scientist, Monsanto, 4:00 p.m., East  
Campus Union

**November 22, 2006**

- Student Holiday - Offices open

**November 23-26, 2006**

- Thanksgiving Vacation

Check out our Entomology Department Photograph Display by the Main Office. Undergraduate students' photographs are on display now along with faculty, staff, and graduate students.

An equal opportunity educator and employer with a comprehensive plan for  
diversity.
