Sociological Novels Reviewed in *Sociology and Social Research*, 1925-1958¹

Michael R. Hill

THE BIBLIOGRAPHIC RECORD reveals the novel as a distinctive and frequently used format for sociological inquiry and exposition.² From 1925 to 1958, the pages of *Sociology and Social Research* identified and reviewed 140 examples of sociological novels.³ A bibliography of these novels is provided here, annotated with citations for the reviews in *Sociology and Social Research*. This “library” of sociological novels is a useful resource for research on American culture, student projects, and (not unimportantly) recreational reading that combines business with pleasure.

Under the editorship of Emory S. Bogardus, *Sociology and Social Research* routinely opened its pages to reviews of alternative forms of sociological expression. Instructively, Bogardus merged his interest in quantitative social measurement with a commitment to literature as a form of sociological exploration. In particular, he explored “social distances” in a variety of literary works, including novels.⁴

Burma, Doris Cleage, Virginia Elmquist, D.W. Hamilton, Cecil Evva Larsen, Edward C. McDonagh, Martin H. Neumeyer, John E. Nordskog, and N.N. Puckett.
