ERWIN H. BARBOUR, *Director*DIRECTORY OF CERTAIN ALUMNI
THE DEPARTMENT OF GEOLOGY AND GEOGRAPHY
THE UNIVERSITY OF NEBRASKA

E. F. SCHRAMM

In the Department of Geology and Geography, The University of Nebraska, there have been over 10,000 registrants between the years 1891 and 1926. So many inquiries have been received concerning alumni and their addresses that it seems advisable to publish this directory. The list is necessarily incomplete since many of the alumni have not informed the Department respecting their addresses and change of positions. Out of the total number of those who have pursued professional vocations the following have kept in close touch with the Department.

Anyone knowing the addresses of former students of the Department not listed in this directory will confer a distinct favor by making additions and corrections to this list. Changes of address and position should be reported regularly to E. F. Schramm, the Department of Geology, The University of Nebraska, Lincoln.
