Subject: Request for Department and Program Name Change--
Agricultural Engineering

This is to inform you that at its meeting on Monday, March 11, the Academic Deans' Council unanimously approved of the departmental name change of Agricultural Engineering to "BioResource and Agricultural Engineering," based upon the following motion: "It was moved and seconded to approve the name change with the understanding that the curricular content reflect that similar to the programs and departments with that departmental name at other comparable colleges and universities, and based on the expectation that the Department will proceed with the implementation of the plan noted on Page 2 of their revised proposal dated March 6, 1996" (copy attached).

As a result of the action taken by the Deans' Council, I would appreciate the Academic Senate reviewing this matter as soon as possible. If you have any questions, please do not hesitate to contact either me or Dean Joseph Jen. Thank you.
