### ***THE ELDERLY CARE CENTRE IN PALEMBANG***

*Elderly population especially in Palembang increase every year. The pattern of urban people's life that individualist make a lot of elderly lack of attention. Many places can receive elderly, such as old people's home, however it still has a limits in supporting facilities of elderly's life. The Elderly Care Centre in Palembang is a region that can receive and meet a variety of elderly needs. The Elderly Care Centre has a lot of facilities like, housing, building of hobby, canteen, equipments shop, apartment, clinic, and ballroom. With good planning and good design of The Elderly Care Centre in Palembang, hope it will able to give a pleasant and secure place for the elderly who live in it. Other that, The Elderly Care Centre can be a tourist destination for elderly and unite all of elderly people in Palembang. The theme that applied at The Elderly Care Centre this is "Forest". This theme will be manifested in the form of housing region and eight mass of the main building with tropical architecture style.*
