Dipole moments and structure of adducts of methacrylonitrile with some cyclic dienes

Arbuzov B., Vereshchagin A., Vul'fson S.
Kazan Federal University, 420008, Kremlevskaya 18, Kazan, Russia

Abstract

1. Some adducts of methacrylonitrile with cyclic dienes were synthesized. 2. The dipole moments of six adducts were measured and some conclusions regarding their structure were drawn. © 1965 Consultants Bureau Enterprises Inc.
