Weighted monotonicity inequalities for traces on operator algebras

Hoa D., Tikhonov O.

Kazan Federal University, 420008, Kremlevskaya 18, Kazan, Russia

Abstract

We study inequalities of the form, where τ is a trace on a von Neumann algebra or a C^* -algebra, A and B are self-adjoint elements of the algebra in question, f and w are real-valued functions, and the "weight" function w is nonnegative. © 2010 Pleiades Publishing, Ltd.
