Abstract

© 2015, MCSER-Mediterranean Center of Social and Educational Research. The article comprises a definition of methodological features of economic analysis at various stages of reorganisation of legal entities. The paper used the abstract-logical method. The basic stages of reorganisation of legal entities: preliminary, preparatory, registration, final. The main directions of economic analysis for each stage of reorganisation, its goals, objectives, information base and methodological issues were identified and justified. The basic stages of reorganisation of legal entities related to certain management decisions, control and analytical work. The main features of analytical work at various stages of reorganisation were defined. There will be a choice of optimum management decisions based on results of analytical work when deciding on reorganisation, optimum forms of its implementation and process of its implementation.
