Abstract

© 2015, Mediterranean Center of Social and Educational Research. All rights reserved. State city-planning policy and management should provide favorable conditions of human life and society through, in particular, integrated programs (projects) of development that determine the problems and priorities of the area under study. Functional zoning scheme is the starting point of design and planning decisions. In this work the potential of urban areas is considered on the basis of a comprehensive assessment of the city of Kazan.
