

Technology of e-learning in the university education

Gilmanshin I., Gilmanshina S.

Kazan Federal University, 420008, Kremlevskaya 18, Kazan, Russia

Abstract

© Published under licence by IOP Publishing Ltd. Distinctive characteristics and disadvantages of electronic resources are distinguished. The structure and specificity of the developed author's practice-oriented electronic educational resources are considered. The application of e-learning technology as an active student-centered training for building individual educational trajectories in university education is substantiated.
