Markus Rettinger (engineer)

Tobias Borsdorff (PhD student)

Frank Forster (PhD Student)

Network for the Detection of Atmospheric
Composition Change (NDACC)

Primary Site 47 °N, 11 °E, 2964 m a.s.l.

Research Center Karlsruhe

IMK-IFU, Garmisch-Partenkirchen, Germany

Zugspitze: NDACC

operational since 1995

138 meas. days during last 12 months

O₃, ClONO₂, HCl, HF,
COF₂, HNO₃, NO₂,
CO, CH₄, N₂O, C₂H₆,
CFC-22, H₂O

FTIR
IFU

**Zugspitze
2964 m**

Garmisch: TCCON

2004: 94 meas. days

2005: 147 meas. days

2006: 136 meas. days

2007: 140 meas. days

2008: 45 meas. days

CH₄/O₂, CO₂/O₂

“Differential FTIR”
with Zugspitze:
O₃, CO, CH₄, N₂O,
C₂H₆, CFC-22, H₂O

Primary Site Report: **Zugspitze FTIR**

Period(s) covered in data archiving at NDACC DHF: 1995-2005

HF columns: 03/1995 - 08/2005

HCl columns: 06/1995 - 11/2001

ClONO₂ columns: 07/1996 - 11/2001

O₃ columns: 07/1995 - 09/2004

N₂O columns: 07/1995 - 09/2004

CH₄ columns: 03/1995 - 09/2004

CO columns: 06/1995 - 08/2005

C₂H₆ columns: 06/1995 - 09/2004

Will archive our updates as soon as new data base format will have been fixed:

very recently updated Zugspitze CO, O₃, HF, COF₂, HCl, ClONO₂, and CH₄ series

Research Center Karlsruhe

Zugspitze Primary Site Report

Mesospheric CO at Zugspitze: For the first time observed above mid latitudes

Mesosph. CO-annual cycle - Velazco et al., ACP 2007: „We showed in this study that this feature is generally not observed in mid-latitude stations.“

Meso-CO detectability is a question of spectral resolution and regularization setting ($R=S_a^{-1}$)

Borsdorff, Sussmann, to be published

Research Center Karlsruhe

Ralf Sussmann

IMK-IFU Garmisch-Partenkirchen

Zugspitze Primary Site Report

Primary Site Report: **Zugspitze FTIR**

Name, date, and location of last intercomparison and/or validation:

- 1996 intercomparison with Jungfraujoch: coincident measurements and blind independent analyses of HF, HCl. Agreement within 2 per cent
- In 2001 evaluation of the Zugspitze time series since 1995 of HCl and ClONO₂, and comparison to the Jungfraujoch series; showed **very** good overall agreement!
- In 2002 we compared in preparation for ENVISAT Validation columns of N₂O, CO, CH₄, NO₂, O₃ to coincident Jungfraujoch data. E.g., N₂O agreed within 1 %!
- Intense 3 months water vapor validation campaign at Zugspitze (mid Aug – mid Nov 2002) with permanent FTIR water vapor measurements compared to 4 radio sondes launched on site daily and permanent GPS water column measurements on site. Very good agreement of FTIR to sonde columns within a few per cent! Detailed FTIR validation study also relative to GPS measurements performed.
- In spring 2003 comparison of the Zugspitze time series (1996-2002) of CO to the Jungfraujoch series; showed very good overall agreement!
- N₂O trop. columns trend (1995-2004): Zugspitze 0.18 %/yr, Jungfraujoch 0.23 %/yr
- Initial SCIAMACHY validation: learned much about precision of CO, CH₄, NO₂ measured by FTIR
- **Comparison of Zugspitze HF, COF₂, HCl and ClONO₂ to KASIMA model (issue of fall FTIR-ClONO₂ enhancements)**
- **Validation of matured SCIA CH₄ data: precision of MIR retrievals (prior impact, annual cycle issue)**
- **Comparing Zugspitze CH₄ to Jungfraujoch: Perfect agreement of annual cycle and day-to-day variability**

IMK-IFU Garmisch-Partenkirchen

Zugspitze Primary Site Report

Montreal Protocol: ClONO₂ summer/fall enhancements

FTIR in summer/fall:

- no obvious lineshape problem from the nearby O₃ and CO₂ lines
- no significant zero line distortion

KASIMA (R. Ruhnke): „Kasima underestimates in general summertime ClONO₂ at mid latitudes“

Ralf Sussmann

Zugspitze Primary Site Report

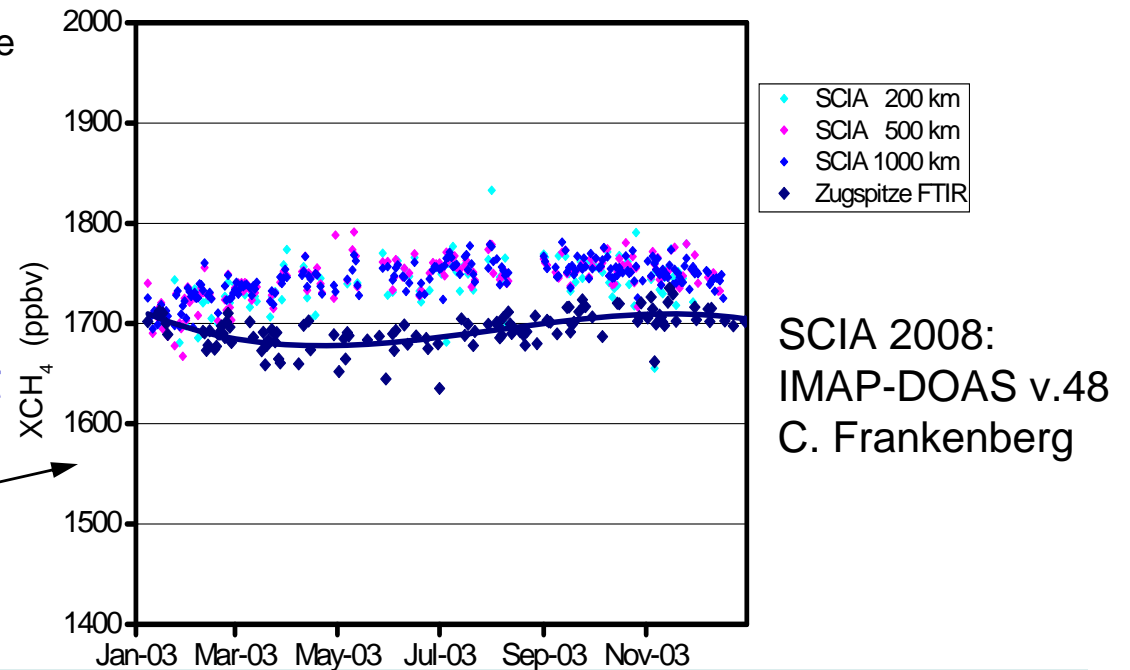

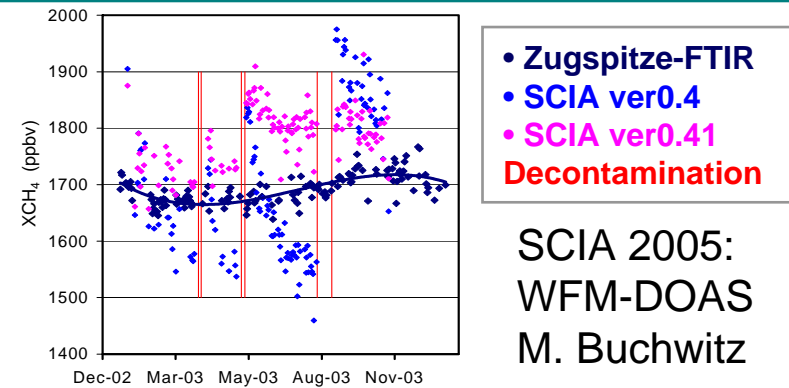

Methane retrieval optimization, SCIAMACHY validation, riddle of annual cycle

ENVISAT/SCIAMACHY CH₄ measurements were showing time-dependent drifts up to ≈20 % from channel 8 detector icing.

Sussmann, R., Stremme, W. Buchwitz, M., and de Beek, R.: Validation of ENVISAT/SCIAMACHY columnar methane by solar FTIR spectrometry at the Ground-Truthing Station Zugspitze, Atmos. Chem. Phys., 5, 2419–2429, 2005.

Thereafter the SCIA retrieval was successfully re-implemented to SCIAMACHY *channel 6* which is not impacted from icing.

2008 SCIA validation paper in prep. with the EC-HYMN+ consortium focus: CH₄ precision/ variability

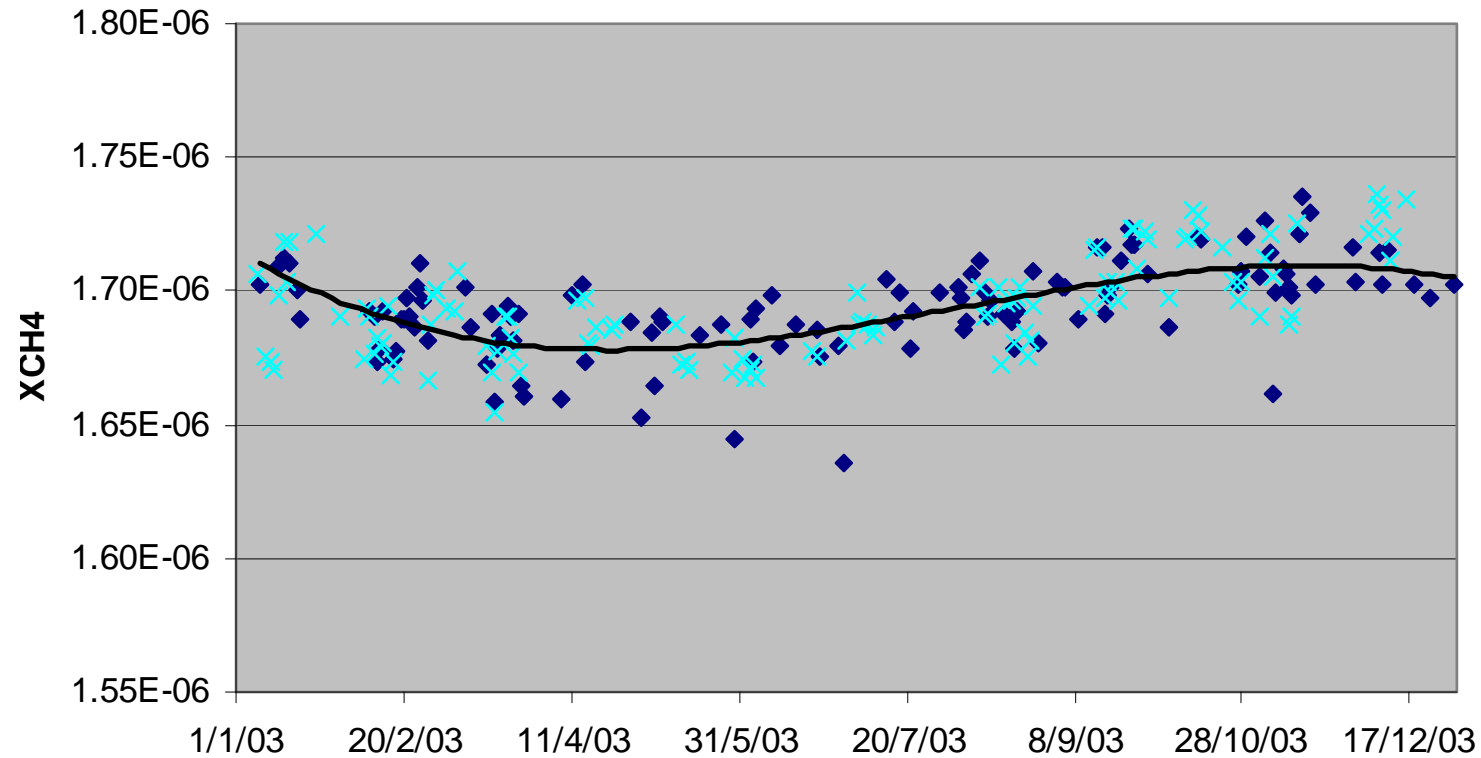

Research Center Karlsruhe

Ralf Sussmann

IMK-IFU Garmisch-Partenkirchen

Zugspitze Primary Site Report

methane annual cycle: Zugspitze FTIR compared to Jungfraujoch FTIR

Zugspitze and ISSJ annual cycles agree

BUT: Simple column model taking pT-variability and tropopause variability into account give a different annual cycle comparable to SCIA -> see separate talk on methane precision

Zugspitze Primary Site Report

Interference errors on CO profiles: Interference error minimization

Standard Rinsland (2000) retrieval strategy

Optimum strategy for retrieving interfering species

Primary Site Report: **Zugspitze FTIR**

Funding status (instrument and facility): good

- Permanent 80 % basic funding by Helmholtz Society of German Research Centers
- plus several projects:
 1. EC-HYMN (CH₄, N₂O, new 2006, ongoing)
 2. EC-GEOMON (Cl_y, F_y, new 2006, ongoing)
 3. Pole - Equator - Pole (PEP), Variability of atmospheric trace constituents along a North-South Transect (German Helmholtz Society 'Impuls und Vernetzungsfond' for the creation of a virtual institute, end 2008)
 4. TASTE (ENVISAT long-term validation, ESA-funded, end 2008)
 5. SATVAL-A (German Space Agency, new 2007 - SCIA Validation: CH₄)

Summary – Zugspitze FTIR Primary Site Report

- 138 measurements days/yr, well funded
- paper on interference errors \Rightarrow separate talk
- very recently updated Zugspitze CO, O₃, HF, COF₂, HCl, ClONO₂, and CH₄ series
- KASIMA model comparison (Cl_y, F_y, O₃) looks fine with exception of ClONO₂ summer/fall enhancements
- go into detail of CH₄ variability/precision from MIR-FTS (SCIA validation, Jungfraujoch intercomparison; annual cycle issue) \Rightarrow separate talk
(SCIA prec. val. paper within EC-HYMN+ consortium with common optimized retrieval strategy currently prepared – non-EU: write me an email if you want contribute)
