Journal of Geometry and Physics: 2014's most downloaded articles

Dear Dr Krasilshchik,

What better way to show you how successful *Journal of Geometry and Physics* has been at attracting great content than to send you this selection of 2014's most downloaded articles.

New discoveries, comprehensive reviews and critical insights all make the list of articles published in 2014 that attracted the highest number of full-text downloads from ScienceDirect.

Journal of Geometry and Physics's top 5 downloaded articles:

- [Bertrand curves in the three-dimensional sphere](#)
- [Ordinary differential equations described by their Lie symmetry algebra](#)
- [Geometric quantum mechanics](#)
- [Geometry of jet spaces and integrable systems](#)
- [Lorentzian compact manifolds: Isometries and geodesics](#)

You'll also receive a second email with the most downloaded articles in your field of

interest.

On behalf of the editorial and publishing teams, I would like to thank all authors for their invaluable contributions, and congratulate everybody on these excellent results.

We're determined to make 2015 another remarkable year. If you are working on a new paper, please consider submitting your manuscript to *Journal of Geometry and Physics* – let's build on the success together. We look forward to continuing our collaboration with you.

With best regards,

Nicoline van der Linden

Senior Vice President
