

Overview

This subject matter deals with various kinds of theories as well as practicals in Writing 2. The theoretical discussions will lead you the procedures and the process of writing an academic discourse. For the sake of well grounded study and convenience you'd better have/review on all of the theories. The practical treatment will help you attam many kinds of academic writings in real use. This course, with the code PBIS4312 is a 3 credits/semester subject matter.

The course materials comprise of 9 modules as the following:

Module 1: Planning

Module 2: Drafting

Module 3: Revising

Module 4: Abstract

Module 5: Writing Supports

Module 6: Bibliography

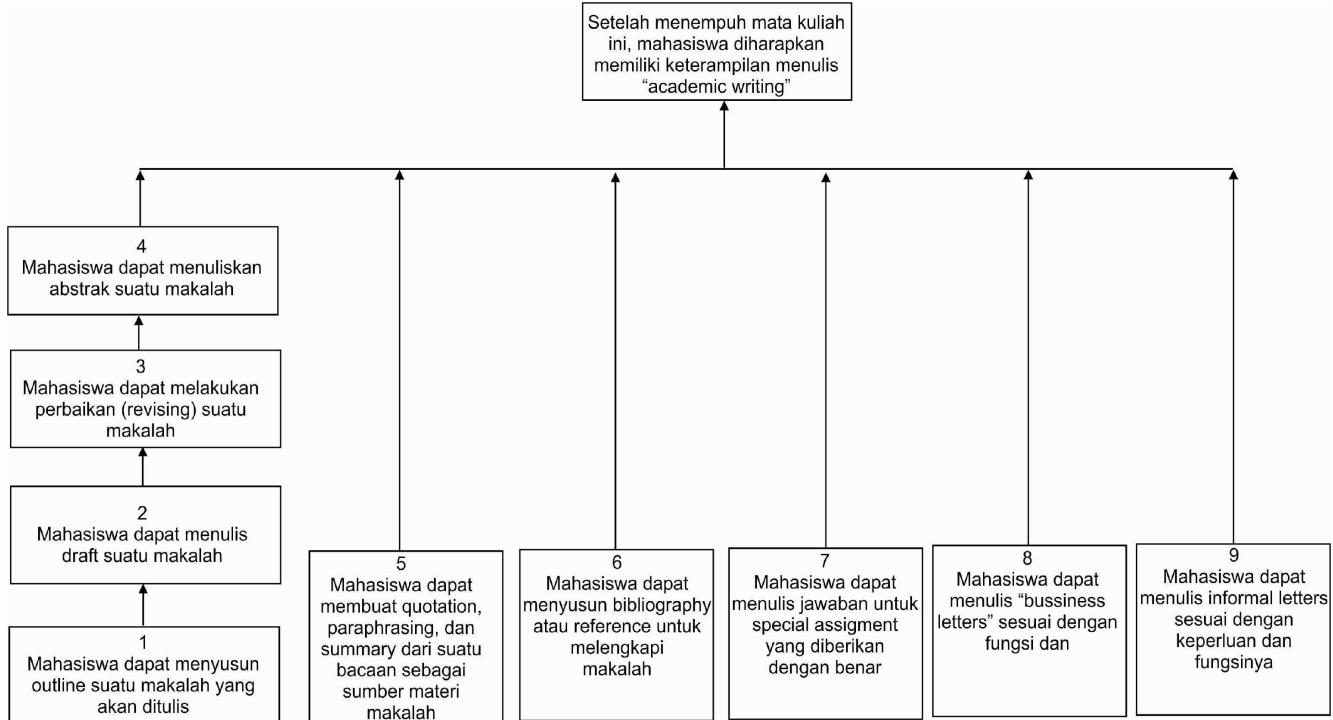

Module 7: Essay Examination and Critical Writing

Module 8: Business Letter 1

Module 9: Writing Informal Letters

The practical aspect of this course will make you competent enough to pick up some example of Writing 2 from the real life around you. You have, of course, to apply the theoretical principles you have learned from the theoretical treatments of this course.
