**Subject:** Re: Making a copy of your Masters thesis available to students, researchers, for the future

**Importance:** High

Dear Pam,

Thank you for contacting me and for your suggestion. I am really appreciative that Michelle raised my query with you. Upon receiving my degree I had given a printed and bound copy of it to both the School of Education and the ATSSIS Unit, but these seem to have gone astray over time.

I would be most pleased to take you up on the offer as outlined below and I am happy to give my permission for it to be made available on "open access" through Google and the National Library's "Trove" archives.

My thesis is in the old Document file format of Windows XP which I was using at the time, so it is not a secured format. I have attached a copy of it for your conversion to PDF or whichever secure format the Library uses. I doubt if the submission statement (see Page 3) is necessary to this purpose now, so if not it can be removed.

If there is anything else that is required, please let me know. I will anticipate seeing the final results.

Once again, may I express my gratitude for your contact and suggestion.

Best regards,

Michael Red Shirt Semchison
