A Corrigendum on

A Saccharide Chemosensor Array Developed Based on an Indicator Displacement Assay Using a Combination of Commercially Available Reagents
by Sasaki, Y., Zhang, Z., and Minami, T. (2019). Front. Chem. 7:49. doi: 10.3389/fchem.2019.00049

In the original article, there was a mistake in **Figure 1** as published. The structures given in **Figure 1** for pyrocatechol violet and saccharides were incorrect. The corrected **Figure 1** appears below.

The authors apologize for this error and state that this does not change the scientific conclusions of the article in any way. The original article has been updated.

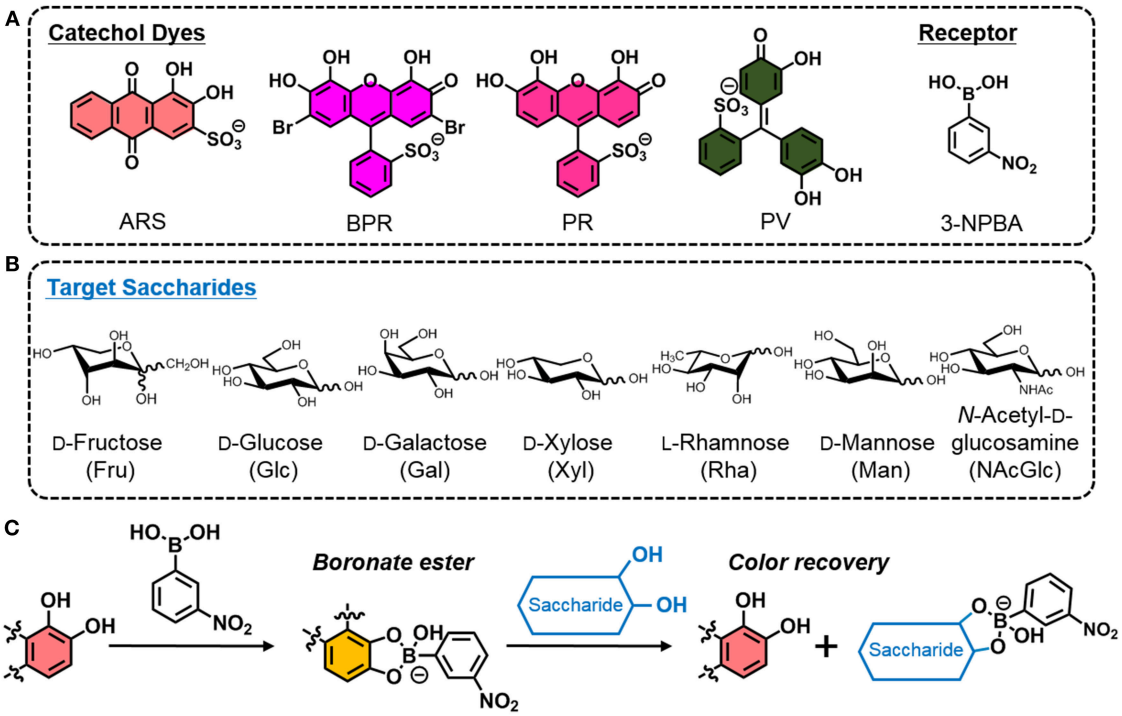

FIGURE 1 | (A) Chemical structures of ARS, BPR, PR, PV, and 3-NPBA. **(B)** List of target saccharides. **(C)** Illustrated scheme of the indicator displacement assay utilizing the building blocks (i.e., a catechol dye and 3-NPBA) for the easy preparation of colorimetric sensing.
