SJDR is published by National Center for
Comprehensive Rehabilitation Research and
Development (SKUR), on behalf of Nordic Network
on Disability Research (NNDR), that in addition
to the journal, also organizes conferences every
other year.

EDITORIAL POLICY

At a conference in Fredrikshavn in 1997 the
Nordic Network on Disability Research was
established. One of the purposes of this network is
to publish a journal in English: The
Scandinavian Journal of Disability Research. Its
main purpose is to disseminate results from
social research on disability. "Social research" is
- in this context - understood as a cross-
disciplinary field including for example
educational, sociological, socio-psychological,
historical, legal, economical and socio-medical
research. Its defining characteristic is a focus on
the relation between persons with disabilities and
their environments in a broad sense. Although
the ambition primarily is to encourage
Scandinavian researchers to submit articles for
publication, the Journal welcomes articles from
all over the world.

Jan Tøssebro, Editor
