

IBM on ELDERLY WOMAN WORKS 'WOMEN MAIN' SURAKARTA

SUMMARY

The purpose of this devotion is to to be able to guide and direct the prostitutes (WTS) in Surakarta and surrounding environment on the nursing "Woman President" Surakarta who want to switch profession to have the insight and skills in batik, using competent trainers in the field and supported funding of DP2M DIKTI.

Technique / approach taken in providing treatment / supplies to the target (WTS) is to approach individuals and groups to determine their potential in a related field. Debriefing is done by providing counseling and training-related training such as entrepreneurship training, training AMT and BMT, providing knowledge about batik and batik business, as well as training with the kinds of batik batik: batik, batik and batik combination.

The result is, the completion of the training program conducted in as many as 60 more participants, and participants can carry out activities in a range of batik batik, batik and batik combination.

Limitations of this activity is the number of participants and members of commutation during training so that should retrain to newcomers, as well as the limited number of facilities provided so need to add facilities and infrastructure, although only in small quantities.

The implications of this activity is the opening insight into the participants on the activities of batik and visible from the enthusiasm of participants to propose on batik courses in other kinds such as batik dyeing. Most of the participants wanted a follow-up of these training efforts as well as assistance in the form of batik.
