Librarians as advocates

Questions for small groups

Who are we?

CoPILOT Committee members:

- Dr Jane Secker
- Nancy Graham
- Eleni Zazani
- Marion Kelt

UNESCO:

- Irmgarda Kasinskaite-Buddeberg

What are OER?

- ***UNESCO definition:***
Open Educational Resources are teaching, learning or research materials that are in the public domain or released with an intellectual property license that allows for free use, adaptation, and distribution.

How do OER fit in with the open movement?

- Complementary to Open Access, MOOCs and Research Data Management
- All resources can sit within same platform (institutional repository)
- Librarian has a role with *all* of these open educational trends
- We can lead by example – share our own stuff!

Why share Information Literacy resources and do you already?

Information Literacy

The Information Literacy Section of the International Federation of Library Association and Institutions (IFLA) has created this database to record information literacy materials from different parts of the world, on behalf of UNESCO. Librarians, educators and information professionals are invited to participate. If you have developed information literacy materials and would like to share them with the world community, please submit the required data.

Information Literacy

Information Literacy is "the adoption of appropriate information behaviour to identify, through whatever channel or medium, information well fitted to information needs, leading to wise and ethical use of information in society." (Webber and Johnston)

Discussion

Have you ever organised any training on use of open licences?

Posts: 6

Project CoPILOT: outcomes

- 35 members from 14 countries worldwide
- 19 links posted to English, Spanish, German and French IL resources
- 53 discussion posts on 8 different topics
- Report, case study and post-project survey
- Strategy for sharing IL OERS now available

CoPILOT Committee

- Established as a sub-group of the CILIP Information Literacy Group in December 2012
- Aim: to support UK librarians in sharing IL resources openly
- CoPILOT training event (more to follow)
 - raising awareness about Creative Commons
 - Advice about where to find existing materials
- Slides available: <http://www.slideshare.net/UKCoPILOT>
- Creating an online space to share
- Encouraging and supporting the development of a community of practice

Librarians as OER advocates

- Leading by example
- Gaining new expertise by adapting and sharing our own materials
- Builds on core librarian skills: licensing, copyright, finding quality resources (information literacy)
- Highly established profession with strong networks

Where and how to share?

- The platform:
 - Is it feasible to share resources by uploading materials to repositories such as Jorum, Merlot? Links or deposit?
 - How should resources be organised? By subject, by institution or by country?
- Training and professional development
 - What skills do you need ?
 - What sort of training and workshops would be useful?
- Networks for sharing
 - Who do you want to share with? Subject? Sector? Country?
 - How can we facilitate sharing through an online space?

How can we make this happen?

- In groups of 4 or 5
- Each group to start by focusing on one topic
- Note down your thoughts and nominate a spokesperson to report back

Questions for the panel

- What are OERs and are there any specific issues associated with using CC licences?
- What type of IL resources are most useful? Slides, lesson plans, worksheets, reading lists?
- How should IL resources be catalogued and organised?
- How can IFLA and UNESCO support sharing?
- Please ask us more.....
