Titre	A case of <i>Ureaplasma parvum</i> meningitis in an adult after transphenoidal ablation of craniopharyngioma
Type de publication	Article de revue
Auteur	Pailhories, Hélène [1], Chenouard, Rachel [2], Eveillard, Matthieu [3], Kempf, Marie [4], Pereyre, Sabine [5], Bébéar, Cécile [6], Lemarié, Carole [7]
Editeur	Elsevier
Type	Article scientifique dans une revue à comité de lecture
Année	2019
Langue	Anglais
Date	Juin 2019
Pagination	5-7
Volume	84
Titre de la revue	International journal of infectious diseases
ISSN	1878-3511
Mots-clés	immunocompetent patient [8], Meningitis [9], Postoperative infections [10], <i>Ureaplasma parvum</i> [11]
Résumé en anglais	We report the case of a <i>Ureaplasma parvum</i> meningitis in an immunocompetent patient, 17 days after surgical ablation of a craniopharyngioma. Presence of <i>U. parvum</i> in the cerebrospinal fluid was assessed by 16S rDNA sequencing and <i>U. parvum</i> specific PCR. This article details a surprising complication in an adult of a transphenoidal surgery for ablation of a craniopharyngioma. This is the first case, to our knowledge, of <i>U. parvum</i> meningitis in an adult patient.
