Henry A. Winter, Esquire,
 Port-de-Grave.

Matthew E. Hawco, Esquire,
 William Woodford, Esquire,
 Harbour Main.

At three o'clock, the Gentleman Usher of the Black Rod appeared at the Bar and said:—

Gentlemen of the House of Assembly:

“His Excellency the Governor requests your immediate attendance in the Council Chamber.”

Accordingly, the Members of the Assembly proceeded to the Council Chamber, where the following Commission was read by the Clerk of the Legislative Council:

By His Excellency Sir WILLIAM LAMOND ALLARDYCE,
*Knight Commander of the Most Distinguished Order of
 Saint Michael and Saint George, Governor and Com-
 mander in Chief in and over the Colony of Newfound-
 land.*

W. L. ALLARDYCE,
 Governor,
 (L.S.)

*To the Honourable James D. Ryan, Honourable Robert K. Bishop, and Hon-
 ourable Sir Marmaduke G. Winter, Members of the Legislative Council,
 Greeting.*

Whereas I have deemed it expedient that the First Session of the Twenty-
 fifth General Assembly should be opened for the despatch of business on Wed-
 nesday, the Sixth day of this instant month, whereas I have given notice in my
 Proclamation dated the Twenty-sixth day of May last; and

Whereas it is not convenient that the purpose for which I have called the
 said General Assembly together should be declared on the said day, nor until
 the Members of the House of Assembly have proceeded to the choice of a
 Speaker. You, the said Honourable James D. Ryan, Honourable Robert K.
 Bishop and Honourable Sir Marmaduke G. Winter, are hereby authorized and
 directed to signify to the Members of the said House of Assembly on the Sixth
 day of this instant month, that it is my pleasure that they should proceed to the
 choice of some proper person to be their Speaker, and present such person on
 the following day for my approbation.

*Given under my Hand and Seal at the Government
 House St. John's, this 5th day of June, A.D.
 1923.*

By His Excellency's Command.

R. A. SQUIRES,
 Colonial Secretary.

The Honourable James D. Ryan, President of the Legislative Council
 then said:—

It is not convenient for His Excellency the Governor to declare the reas-
 ons of his calling this General Assembly on this day, and it being necessary
 that a Speaker of the House of Assembly should be first chosen, You, Gentle-
 men of the House of Assembly will repair to the place where you are to sit, and
 there proceed to the appointment of some proper person to be your Speaker, and
 present such person whom you shall choose here to-morrow, at three of the
 clock, for His Excellency's approbation.

And the Members having returned to the Assembly Room, the Honour-
 able the Prime Minister addressing himself to the Clerk, who standing up

pointed to him and then sat down, moved "that Henry A. Winter, Esquire, Member elected for the District of Port-de-Grave, do take the Chair of this House as Speaker," which motion was seconded by William J. Higgins, Esquire, Member elected for the District of St. John's East.

No other person being proposed as Speaker, Mr. Winter was unanimously called by the House to the Chair, and was conducted to the Chair by the Members who proposed and seconded him.

Whereupon, Mr. Speaker standing on the steps, addressed the House, expressing his gratitude to the Honourable Members for the high honour unanimously conferred upon him.

The House then adjourned until to-morrow, Thursday, at a quarter to three in the afternoon.

THURSDAY, JUNE 7th, 1923.

The House met at a quarter to three of the clock in the afternoon, pursuant to adjournment.

At Three o'clock a message from His Excellency the Governor was delivered by the Gentleman Usher of the Black Rod, commanding the immediate attendance of Mr. Speaker and the House in the Council Chamber.

Whereupon Mr. Speaker and the House attended His Excellency in the Council Chamber; and being returned to the Assembly Room, Mr. Speaker informed the House that when in attendance upon His Excellency in the Council Chamber, His Excellency had been pleased to approve of his election as Speaker of this House, and that in the name and on behalf of the House of Assembly he had, by humble petition to His Excellency, laid claim to all their ancient rights and privileges, which His Excellency had confirmed to them in as full and ample a manner as they have been heretofore granted or allowed by His Excellency or any of his predecessors. Mr. Speaker also expressed his respectful acknowledgments for the high honour which the House had unanimously conferred upon him.

Mr. Speaker further announced that whilst in the Council Chamber His Excellency had been pleased to make a Speech to both branches of the Legislature, of which Speech he had for greater accuracy, obtained a copy, which he then read to the House as follows:

Mr. President and Honourable Gentlemen of the Legislative Council:

Mr. Speaker and Gentlemen of the Honourable House of Assembly:

On this the first occasion of my meeting you in your Legislative capacity I desire to extend to you my cordial greetings. Since my assumption of the Governorship of this most ancient Colony of the Empire, it has given me pleasure to associate myself with all your interests, and the welfare of Newfoundland will receive my earnest thought and solicitude.

On the twenty-fifth of April last, on the occasion of the marriage of His Royal Highness Prince Albert, Duke of York, it was my privilege, on behalf of the Government and people of Newfoundland, to forward to Their Majesties The King and Queen, a message of loyal and dutiful congratulation, and to His Royal Highness and Bride, an expression of the fervent good wishes from this Loyal Dependency of the Crown. Gracious replies were received from Their Majesties and from His Royal Highness.

Looking at the world today, we find that the process of reconstruction is making but slow progress. Action is followed by reaction, and the economic pendulum swings from one side to the other. It will be some years before comparative equilibrium is reached.

These world conditions affect us seriously in Newfoundland. They influence the cost of the commodities we import, they depreciate the value of the products we export, they tend to increase the cost of living, to hamper development of trade, and to limit the avenues of employment. Although the rehabilitation of the world in its political and economic spheres is not proceeding as rapidly as had been hoped, it is evident that progress is being made, and we can therefore go forward to our tasks with cheer and courage.

The difference between the imports and exports at 30th. June, 1922, showed, for the first time since 1919, a balance in our favour. A larger quantity of Codfish was exported during the last fiscal year than during the previous year, though the value was less because of low prices in the foreign markets. During the season of 1922 more vessels were engaged in the Bank Fishery, and the catch was forty per cent larger, than in the previous year. The result of the prosecution of the Seal Fishery this year was slightly below that of 1922.

The question of unemployment and the consequent distress among the people, especially during the Winter months, have caused my Ministers constant anxiety. These conditions are not peculiar to Newfoundland but are existent in well nigh every country. My Ministers have made an earnest endeavor to solve the difficult problem of unemployment by providing labor in connection with public works and other necessary measures. It is hoped that the crisis has been passed, and that new openings will shortly be provided to give all our men adequate employment.

Mr. Speaker and Gentlemen of the Honourable House of Assembly:

The Statements of expenditure and revenue for the last fiscal year will be laid before you in due course, and also the estimates for the several departments of the Public Service, which latter have been prepared with due regard to economy and efficiency.

Mr. Speaker and Gentlemen of the Honourable House of Assembly:

Mr. President and Honourable Gentlemen of the Legislative Council:

Since my Ministers assumed office in 1919 they have been giving continuous attention to the question of the development of the resources of this Island. While the fisheries of Newfoundland are and will long remain the staple industry of the Colony, yet my Ministers are convinced that the time has come when a very special effort should be made to secure the industrial development of the interior with a view to relieving the burdens which are now carried by our main industry. The influx of new capital, the investment of money in the country by firms of high standing, and the profits which will be derived from turning our island resources into money will materially increase our revenue and provide the means to meet the liabilities of the Colony without entirely depending upon the fisheries. Proposals have been submitted by a powerful English firm for the development of the water power of Grand Lake and the Humber Valley, and the establishment of large Paper Mills and other industries in that vicinity. With the financial support of the Imperial Government, my Ministers after extended negotiations were able to give effect to their development policy, the details of which will be submitted to you for ratification. As the matter was of extreme importance, and time was an essential factor, a temporary arrangement was made under which the work was commenced at Grand Lake. Documents in connection with this temporary arrangement will also be laid before you.

My Ministers considered that the proposal in connection with the development of the Humber Valley was fraught with such far-reaching consequences, both to the future of this Island and the welfare of its people, that it should be placed before the electorate. The House of Assembly was therefore dissolved in February last and an election called for the third of May. My Ministers have been sustained in their policy and can now proceed with confidence to the formal ratification of the proposed measure.

It is hoped to lay before you certain proposals for the operation of the Railway and its allied services to replace the agreement for temporary operation which expires on the 30th. day of June instant.

With respect to the anticipated Gold Rush to Labrador on the opening of navigation My Ministers have made the necessary preparations to maintain law and order and representatives of the Departments interested will proceed there in due course.

In leaving you to the discharge of your duties I am sensible of the gravity of the questions which will come before you, and pray that, under the Devine guidance, wisdom and foresight may be granted you for the advancement and progress of our country.

It was moved by Mr. Cramm, and seconded by Mr. Randell, that an Address of Thanks be presented to His Excellency the Governor in reply to the Gracious Speech with which he had been pleased to open the present Session of the Legislature, and that a Select Committee be appointed to draft such Address in Reply.

It was ordered accordingly and that the following gentlemen be such Committee:—Mr. Cramm, Mr. Randall, Hon. Mr. Foote, Mr. Sullivan, Mr. Hunt.

His Excellency the Governor was then pleased to make the following Speech to both branches of the Legislature:

Mr. President and Honourable Gentlemen of the Legislative Council:

Mr. Speaker and Gentlemen of the Honourable House of Assembly:

I am glad to be able to relieve you from the responsible duties of this session. You have applied yourselves earnestly to the consideration of the various matters that have been brought before you and I appreciate the zeal with which you have performed your legislative duties.

Since the opening of the Legislature in June last, a change has taken place in the personnel of my Ministry. The late Prime Minister saw fit to resign and consequent thereon, a new administration was formed. A thorough investigation into various Departments of the Civil Service has been promised by my Ministers, and steps have already been taken to carry that promise into effect. The Government has requested the Secretary of State for the Colonies to select a competent and reliable man for this work.

The passing of the legislation respecting the development of the Humber Valley is a step forward in the utilization of the resources of the Colony, and it is hoped that it is but the beginning of an era in which our water powers may contribute to the wealth of the Island.

The Railway Settlement Act brings to an end the conditions that pertained in relation to the running of the Railway and Steamship Services. In the meantime a temporary operating Commission has been appointed and every effort will be made towards the running of the Railway and allied services in an efficient and economic manner..

The prospects for employment in lumbering and logging during the coming winter seems better than last year.

His Majesty's Government has invited my Prime Minister to attend the Imperial and Economic Conference, to be held in London this Autumn, and I am glad to announce that he has accepted the invitation. These Conferences, at this stage of the development of the Empire, will be of the utmost importance and it is hoped that this Colony will be a sharer in the beneficent results that we trust will come from these deliberations.

Mr. Speaker and Gentlemen of the Honourable House of Assembly:

I thank you for the Supplies which you have voted for the various Departments of the Public Service, and I assure you that my Ministers will expend the same with due regard for economy and efficiency.

Mr. President and Honourable Gentlemen of the Legislative Council:

Mr. Speaker and Gentlemen of the Honourable House of Assembly:

In taking leave of you I desire to express my sincere wish for your prosperity and general welfare.

After which the Honourable the President of the Legislative Council, by command of His Excellency the Governor, said:

GENTLEMEN: It is His Excellency the Governor's Will and Pleasure that this General Assembly be now prorogued until Wednesday, the Seventeenth day of October next, then and here to be holden, and this General Assembly stands prorogued accordingly.

H. Y. MOTT,

Clerk.

APPENDIX

Budget Speech of Hon. W. H. Cave,
Minister of Finance and Customs, 1923

Budget Speech, 1923-24, of Hon. W. H. Cave, Minister of Finance and Customs.

House of Assembly,

July 31st, 1923.

COMMITTEE OF WHOLE ON WAYS AND MEANS

Mr. Speaker, I approach the presentation of the annual Budget with much diffidence because I recognize that the few weeks which it has been my honour to occupy the onerous and responsible position of Minister of Finance and Customs of this Dominion have been altogether too short to enable me to get such a grasp of the general financial situation that I can on this occasion address you with the assurance and authority which is so desirable in an important matter of this sort. I have found the situation particularly difficult because I have had to retain the general supervision of the Ministry of Shipping which was the Department which I held up to a few weeks ago, and in addition to that the pressure of Legislative responsibilities has further encroached upon the time I would otherwise have had to give full and careful study to our financial problems. I therefore feel that I shall have the indulgence of the House on this occasion if I deal with the matter briefly and rely almost entirely upon the official statistics provided in the report of the Auditor General and statements and estimates which I have secured from the responsible officials of that Department. I think, however, that the entire House will agree with me that in view of the very short period of time in which I have had to get in touch with the Department of Finance and Customs, the House would prefer my quoting official figures and semi-official estimates rather than that I should submit statements and estimates for the preparation of which I would undertake to assume sole responsibility in spite of the brevity of my tenure of office.

In the Budget Speech delivered on the 25th of May, 1921, by the late Prime Minister, Sir Richard Squires, the revenue for the fiscal year expiring

on the 30th day of June, 1922, was estimated at \$8,404,500.00. It can readily be understood that the attempt to make close estimates of the Customs tariff, the collection of which is made on an ad valorem basis, is at all times hazardous, and particularly hazardous in view of the unsettled and abnormal post-War conditions. I therefore feel, and I am sure this House will concur in my statement, that the Estimates of the late Prime Minister were most conservative and business-like, for, as a matter of fact, in spite of the abnormal depression of that year, the revenue actually collected exceeded the amount estimated by the sum of \$95,180.92. The exact figure is \$8,499,680.92, while the amount estimated as per the late Prime Minister's Budget Speech was \$8,404,500.00.

As I have already said, it is not an easy thing to make an estimate at the beginning of a year. In the Budget Speech, also delivered by the late Prime Minister, Sir Richard Squires, on the 5th day of April, 1922, the revenue for the fiscal year 1922-23 was estimated by him at \$8,953,000.00. That estimate was based upon the tariff then in force and as amended by the Resolutions submitted to the House contemporaneously with the delivery of the Budget. It will be remembered that, after the delivery of the Budget Speech, an acute situation arose with respect to the prosecution of our staple industries, the fisheries, and, as a result, certain substantial reductions in taxation were made on various necessary articles required in connection with outfitting for the fishery. At a later date, when market conditions abroad became so depressed that it was patent to all that, having regard to the prices which could be secured for our staple article, and having regard to their depreciated exchange in our markets, the fishery could not be prosecuted during the year at a profit, and when the time arrived when the wholesale merchants of the country were placing orders abroad for this spring's fishery it was seen that further reductions in taxation should be effected, in the hope that thereby the fishery industry might be stabilized and the cost of outfitting materially reduced. An effort was made in two directions :

1. By a removal of the export tax on dry codfish and a refund of export tax which had been collected up to the date of the decision on the proceeds of last year's voyage. (I am now recommending that the export duty be taken off Salt Bulk Codfish entirely, and a Resolution to that effect will be submitted to the Committee.)
2. The elimination of the twenty-five per cent. surtax which had been imposed some years previously for the specific purpose of securing additional revenue to meet the special War burden which the Colony was carrying.

There was a large reduction in the tax on sugar, namely, a reduction of two and one-half cents per pound. The aggregate of these reductions as at the 30th day of June, 1923, is estimated at the sum of \$412,040.00. The actual revenue as at the 30th day of June is estimated at \$8,844,000.00. It will

be thus seen that when, in his Budget Speech of April 5, 1922, the late Prime Minister, Sir Richard Squires, estimated a revenue of \$8,935,000.00 on the basis of the tariff then current, he was again conservative in his estimate, the revenue for the year on that basis actually working out at the approximate sum of \$9,231,040.00, which was \$304,040.00 more than his estimate. In view, however, of the special reductions in revenue subsequently made for the purpose of stabilizing our fishery operations, substantially relieving the burden of taxation and lessening the cost of supplies, the gross revenue as at the 30th day of June is now estimated at \$8,844,000.00.

It will be remembered that, during the debate on the Budget in the House of Assembly in April and May last, the necessity for material reductions in taxation was fully discussed, and the late Prime Minister, Sir Richard Squires, then pointed out that it was a question of policy to be subsequently decided upon as to whether it was best in the interests of the country to make a very large reduction in taxation for the purpose of stimulating trade and making cheaper outfitting for the fishery possible, and at the same time to face a deficit, than to maintain the revenue at its standard at that time and have a surplus. That matter of policy was very carefully considered and discussed after the close of the Legislature, was later fully discussed, and the opinion of some of our leading financiers taken thereon, and the decision of the Executive Government was that, having regard to world conditions, appertaining particularly to our fish trade, and generally with a view to cheapening the cost of goods to the consumer, the proper policy to adopt to secure an ultimate revival of trade was to make a sweeping reduction in ad valorem taxation on imported goods, and report a deficit. While I was not then Minister of Customs nor a member of the Cabinet, and, therefore, was not closely identified with the policy then adopted in that connection, yet I fully agree that under trade conditions relating to the marketing of our goods abroad and the necessity for the stimulation of trade at home, that the decision was a wise one. I consequently have no hesitation whatever in reporting a shortage in revenue, due neither to lack of imports on the one hand nor to lack of trade and business stability at home on the other, but due to the policy of the Government in making a sweeping reduction in taxation which has meant the lifting in a very large measure of the burden of taxation on our people and a corresponding stimulus to the general trade of the Colony. That that has actually worked out in fact is shown by the Customs returns as furnished week by week. These statistics show that the reduced duty meant larger importations, and the comparative figures for the port of St. John's for the four weeks which have already passed of the new fiscal year make that position quite clear.

My estimate of the revenue for the fiscal year 1922-23 is as follows :

ESTIMATE OF REVENUE ON CURRENT ACCOUNT, 1922-23.

Customs	\$6,325,000.00
Postal	207,000.00
Telegraphs	169,000.00
Stamps	40,000.00
Crown Lands	80,000.00
Liquor Sales	550,000.00
Fines and Forfeitures	6,000.00
Fees Public Institutions	60,000.00
Broom Department Penitentiary	8,000.00
Interest Guaranteed Loans	84,000.00
Excess Profits	20,000.00
Income Tax	250,000.00
Sales Tax	60,000.00
Miscellaneous	500,000.00
Taxes, Cable and Bank	70,000.00
Estate Duties	140,000.00
Bank Tax $\frac{3}{8}$ of 1%	125,000.00
Civil Service Reduction	150,000.00
	\$8,844,000.00

My estimate of expenditure on current account for 1922-23 is as follows :

ESTIMATE OF EXPENDITURE ON CURRENT ACCOUNT, 1922-1923.

Interest on Public Debt	\$2,850,000.00
Finance Department	260,000.00
Colonial Secretary's Department	160,000.00
Justice Department	330,000.00
Education Department	800,000.00
Public Charities Department	480,000.00
Marine and Fisheries	320,000.00
Agriculture and Mines	100,000.00
Public Works Department	1,000,000.00
Posts and Telegraphs Department	1,300,000.00
Customs Department	440,000.00
Liquor Controller	617,000.00
Tax Assessor	12,568.00
Account of Contingencies	155,000.00
Military Pensions Board	561,865.00
Shipping Department	50,000.00
Old Age Pensions	90,000.00
	\$9,526,433.00

This shows a deficit of \$682,433.00. During the past year the strain upon the various departments has been very great because of unemployment conditions which necessitated special expenditures under the head of Department of Public Charities and Department of Public Works. Certain portions of these expenses have been borne on current account. Under the circumstances, in view of the sweeping reductions which were made in taxation and the extra amount borne on current account because of the depressed condition of the country, which meant additional charges under this head by various Departments, the deficit is very much less than would be anticipated on the basis of the late Prime Minister's conservative financial estimate which he submitted to the House more than a year ago. The Estimates for the year 1923-24 already tabled call for an expenditure of \$9,006,153.57, under the following heads :

1. Finance	\$3,130,681.35
2. Colonial Secretary	66,554.00
3. Justice	336,025.88
4. Education	839,851.03
5. Public Charities	439,458.33
6. Marine and Fisheries	346,969.39
7. Agriculture and Mines	115,020.00
8. Public Works	992,080.26
9. Posts and Telegraphs	1,244,465.83
10. Customs	493,960.50
11. Liquor Controller	65,864.00
12. Tax Assessor	14,840.00
13. Contingencies	170,617.00
14. Military Pension Board	699,766.00
15. Shipping	50,000.00
	\$9,006,153.57

I estimate the total revenue from all sources for the fiscal year 1923-24 to be the sum of \$9,150,000.00, made up as follows :

Customs	\$9,980,000.00
Postal	245,000.00
Telegraphs	185,000.00
Inland Revenue Stamps	50,000.00
Crown Lands	80,000.00
Liquor Sales	480,000.00
Fines and Forfeitures	6,000.00
Fees Public Institutions	45,000.00
Broom Department Penitentiary	10,000.00
Interest Guaranteed Loans	84,000.00
Excess Profits Tax	30,000.00
Income Tax	250,000.00
Sales Tax	60,000.00
Bank Tax $\frac{3}{8}$ of 1%	125,000.00
Cable and Bank Tax	70,000.00
Estate Duties	150,000.00
Miscellaneous	150,000.00
Civil Service Reduction	150,000.00
	\$9,150,000.00

While the general finances of the Colony on current account are eminently satisfactory, yet it will be fully realized that it would be quite impossible to carry on current account the considerable capital expenditures which it is desirable and will be permanently beneficial to the Colony to incur in connection with many necessary public improvements. The establishment of the important industrial development in the Humber Valley will necessitate a considerable addition to the railway rolling stock and equipment. A substantial proportion of the rolling stock will be provided by the contractors themselves. They have already placed an order for early delivery for more than fifty cars of various kinds, which will be used by them in connection with their construction work and the handling of their own freights and material. This additional quantity, the providing of which is not a matter of expense to us, will, however, not approach the additional rolling stock and equipment necessary for handling the enormous volume of freight and the very greatly increased passenger and express services which naturally result from this industrial development. Then, again, the proposed further operations with which the Anglo-Newfoundland Development Company is identified will necessitate considerable additional rolling stock. A large section of the line in the western portion of the Island, over which the heavy freight required for construction purposes in connection with the Humber operations must pass, will require special attention, as it is estimated that there will be seven capacity load freight trains per day passing over that section in con-

nection with the new services only, which is in addition to increased general services for the country also passing over that section. To handle that service safely and efficiently considerable expenditure for the repair and improvement of road-bed and sidings are essentially required. Within the past few years the Government's policy of main line road improvements and new road building, and in particular the erection of permanent concrete bridge work to replace wooden structures, has been undertaken. This policy has been pursued under the direction of the Government Engineer. There is nothing so important to the life and development of a community as good main line roads and bridges. Major expenditures of this nature should be handled on capital account rather than out of current expenditure. The idea of replacing wooden bridge structures with steel and concrete work is necessarily more expensive initially, but from the standpoint of the years it is very much cheaper. The work which has been done by the Government Engineer in these matters has been excellent, and from time to time, as necessity requires, permanent steel and concrete bridges will be erected as new bridges are required to replace old bridges as the present wooden structures may require replacement or extensive repairs. It would have been immeasurably cheaper for the Colony had a policy of this sort been introduced many years ago, because the great burden on current revenue on account of the Department of Public Works in connection with main line maintenance is due in a large measure to the continual expense incidental to the repair and maintenance of wooden bridge work, some of which is of great length and importance.

The experience which the Colony has had in relief works during recent years has been very unsatisfactory. It has been difficult, often quite impossible, to secure value in labour for money expended in connection with such operations. I consequently desire to take this opportunity of expressing the firm conviction that the policy of this Administration in discontinuing relief operations is wise, and that such works should not be undertaken, but that, on the other hand, such permanent works as are imperatively necessary for the well-being and development of the resources of the country should be undertaken on the basis of contract, subject to rigid inspection. Such a course would give employment to those who are able and willing to give value for money expended, and those who for physical or mental reasons are unable to give value in work for the money expended, should be handled through the various religious and philanthropic charitable organizations, assisted where necessary by the Department of Public Charities in precisely the same manner as such assistance was given prior to the post-War turmoil, which has so upset labour conditions and reduced efficiency.

To meet requirements for railway equipment and improvements necessitated by the industrial development of Newfoundland which, as a result of the active policy of this Administration, has been so largely undertaken, and to provide essential permanent improvements in connection with road and bridge work and other necessary public utilities, I propose to submit in due

course resolutions authorizing the Government to raise a loan not exceeding \$3,000,000.00. In addition to the public improvements cited above, the Municipal Council requires additional funds for extensions to water and sewerage services and highways within the Municipality. The Government has already guaranteed an advance to the Municipal Council of \$130,000.00. A very much larger sum is urgently needed for capital expenditure in the Municipality of St. John's, but, up to the present, no application has been made by the Municipality for anything beyond the amount named. The House is aware that there are no town, city or Municipal indebtedness of any kind in the whole Island of Newfoundland, but that the entire indebtedness of the Island, including all indebtedness which would be classed as town, city or Municipal, is included within the total of our funded debt. The debt of the Municipality of St. John's, for example, is not a debt due by the Municipality of St. John's to bond holders, but is a debt due by the Municipality of St. John's to the Newfoundland Government, on which the Municipality of St. John's pays interest to the Newfoundland Government annually, the Newfoundland Government assuming the entire liability as part of its funded debt and paying the interest semi-annually to bond-holders. Thus, when we say that the funded debt of Newfoundland at the present moment is \$55,030,027.66, we announce that there are not in the Island of Newfoundland any public obligations in the nature of town, city or Municipal debts, because all such debts are included within the Colony's funded obligations. In considering the public debt of Newfoundland in comparison with the public debt of other countries, this factor is rarely mentioned, but I would take this opportunity of pointing it out to the Legislature, as it is a factor of extreme importance, and places the public indebtedness of Newfoundland in a very favourable position as compared with the total indebtedness of other countries.

The peak of Savings Bank deposits was reached in the year 1919, when the amount on deposit was \$21,019,375.69. In the year 1920 the deposits had dropped to the sum of \$20,543,937.99, or a drop for the year of \$475,437.70. There was a further drop in the year 1921, when the total amount on deposit was \$20,136,958.87, or a drop for the year of \$406,979.12. The records for the year 1922 show a slight improvement over 1921, the total on deposit being \$20,163,955.51, or an amount in excess of 1921 of \$27,016.64. This is a very gratifying position, because it means that the drain of depression upon Savings Bank deposits has stopped, and the amount now on interest-bearing Savings Bank deposits in the various banks carrying savings bank accounts in this country is exceeded only by the savings bank deposits for the years 1919 and 1920, the deposits for the year 1919, which was our maximum year, being only in excess by the sum of \$855,400.16. In other words, the result of the period of depression through which we have passed has been to reduce the interest-bearing savings deposits of our people as against the year of our maximum prosperity by the amount of \$855,400.16, or 4.06%.

On the 27th of June, 1922, the Government of the Dominion of Canada entered into a Commercial Agreement with the Government of Jamaica,

under which each Government was entitled to claim the privileges of the Preferential Tariff of the other Government. Negotiations with respect to a Commercial Agreement as between Newfoundland and Jamaica were commenced in March, 1922, but had not been concluded when the Legislature closed. The late Prime Minister, Sir Richard Squires, has informed me that in February last the Governor of Jamaica agreed to recommend to the Legislative Council of that country that the Preferential Tariff be extended to Newfoundland, provided this Government gave similar preference to Jamaica. I accordingly submit to this Legislature a Resolution under which the products of Jamaica will be admitted to Newfoundland at a rate 25% lower than the regular tariff. This will apply to Cigars, Sugar, Molasses, Fruit or other such Products of Jamaica as may be imported, and it is hoped that the lowering of the duty may encourage greater trade in these products. Under the General Tariff in Jamaica, Salmon and Trout pay a duty of 7/- per 100 lbs.; Herring a duty of 2/8 per 100 lbs.; Fish, dried, salted, smoked or pickled, a duty of 4/8 per 100 lbs. Under the Preferential Tariff these duties will be 25% less. Directly and indirectly we ship to Jamaica Fish Products to the value of \$300,000 per annum.

In November, 1922, the late Prime Minister, Sir Richard Squires, proceeded to Madrid, in order to secure for Newfoundland the advantages under the Commercial Treaty between the United Kingdom and Spain, which came into effect on the 6th November, 1922. Under this Treaty, salted Codfish and stock fish and other articles produced or manufactured in the British Empire were admitted into Spain at a reduced rate of duty. The duty on salted codfish had been 32 pesetas per 100 kilos., but that fixed by the Treaty was 24 pesetas, which is a very substantial reduction in the duty applying to Newfoundland Codfish entering Spain. In return for this concession it was agreed that iron ore, corks and cork discs, grapes, walnuts, hazel nuts, almonds (shelled and unshelled), onions, tomatoes, oranges, bananas, olive oil and preserved vegetables, the produce of Spain, shall not be subject to any Customs duty on importation into Newfoundland or other territory of the British Empire, nor shall any prohibition be imposed on the importation of these articles, except such prohibitions as it may be found necessary to impose in time of war. It was also provided in the Treaty that wine and wine lees, brandy and raisins, the produce of Spain, shall not be subject on importation into British territory to higher Customs duties than those in force at the date of the signature of the said Treaty. The late Prime Minister arranged that the provisions of the Treaty should apply to Newfoundland as from the the 6th day of November, 1922, at which date the Treaty came into force. I shall submit a Resolution for the carrying into effect of those provisions in respect of importations from Spain.

For the information of the House I have caused comparative statements and tables which were published last year to be brought up to date so far as the returns have been completed. It has not been possible to get complete records as at the 30th day of June, as it will be several weeks before complete statistics are available from various sections outside of St. John's.

RESOLUTIONS.

Resolved that

Notwithstanding anything in the Timber Exportation Act, 1921, or any other Act contained, it shall be lawful until the 31st day of December, 1923, to export timber to Great Britain, Canada and the United States of America, in accordance with the provisions of the said Act, without payment of the export duty imposed by Section 4 of the said Act.

This Resolution shall be deemed to have come into effect on the first day of July, 1922.

Resolved that

(a) Section 1 of 12 Geo. V. Cap. 34 be hereby repealed except in so far as it affects duties imposed upon Wines and such like enumerated in Item 151 of Schedule A to the Revenue Act 1905 and Acts in amendment thereof.

(b) The Surtax imposed by the said Section shall continue to be levied and collected in the case of duties imposed upon Wines and such like aforesaid.

This Resolution shall be deemed to have come into effect on the 17th day of February, 1923.

Resolved that

Schedule E of the Revenue Act 1905 as amended by subsequent Acts be hereby further amended by striking out the items following :

1. Fish, viz.: Cod, Haddock, Hake, Ling, Pollack, and Halibut, dried or otherwise preserved, N. E. S. when exported in sailing vessels of non-British registry, per qtl. 30 cents.

2. When exported in ships or vessels other than sailing vessels of non-British registry, per qtl. 10 cents.

3 Fish, viz.: Cod, Haddock, Hake, Ling, Pollack, Halibut, and Turbot, fresh or exported from "salt bulk," without spreading or airing, N. E. S. per cwt. 10 cents.

Items 1 and 2 of this Resolution shall be deemed to have been stricken out of the Schedule on the 17th day of November, 1922, and Item 3 shall be deemed to have been stricken out of the Schedule on the 17th day of July, 1923.

Resolved that

Notwithstanding anything in the Act 12 Geo. V. Cap. 10 or the Schedule thereto contained, it shall be lawful for the Dominion Iron and Steel Company, Limited, and the Nova Scotia Steel and Coal Company, Limited, to ship iron ore from Bell Island free of export tax duty or royalty to any part of the world, including Nova Scotia, during the shipping season of 1923.

This Resolution shall be deemed to have come into effect on the 19th day of February, 1923.

WHEREAS the Governor in Council has raised a Loan of Thirty Thousand Dollars from the Bank of Montreal for the purchase of a Fire Fighting Apparatus for the Fire Department and it is desirable to provide for re-payment of the said Loan and interest thereon by a Tax upon Fire Insurance Companies.

Be it Resolved

(a) The said Loan is hereby declared valid.

(b) Every Company accepting premiums of Insurance against fire upon property within the City of St. John's shall in addition to the tax provided for by Section 9 of the Revenue (amendment) Act 1905, 12 Geo. V. Cap. 34, pay to His Majesty for a period not to exceed three years from the date of the passing of this Resolution a further tax of one-quarter of one percentum per annum, to be computed on the gross amount of premiums actually received by the said Company annually. The amount so paid shall be applied exclusively to the liquidation of the Loan referred to, together with the interest, at the rate of six percentum per annum thereon.

WHEREAS the Governor in Council, in reciprocation for certain Tariff privileges granted by the Government of Jamaica on Products of Newfoundland imported into Jamaica, has deemed it advisable to make a Preferential Tariff on Products of Jamaica imported into this Colony.

Be it Resolved

The duties imposed by the Revenue Act 1905, and the Acts in amendment thereof, shall be subject to a reduction of Twenty-five per cent. of the total amount payable in respect of goods the product of Jamaica imported into this Colony.

WHEREAS the Governor in Council, in reciprocation for certain privileges extended by the Spanish Government in the case of importations of Newfoundland Products, has deemed it advisable to grant free entry to the Products of Spain enumerated in Part I of the Schedule hereto, and has agreed not to increase the present Customs duties on the Products of Spain

enumerated in Part 2 of the Schedule, except such increase as it may be found necessary to impose during time of war.

Be it Resolved

The articles enumerated in Part 1 of the Schedule hereto, when imported from Spain, shall be admitted into this Colony free from duty, and the Customs tariff on the articles enumerated in Part 2 of the Schedule hereto shall not be increased beyond the existing rate, except it should be found necessary to increase the same during time of war.

SCHEDULE.

Part 1.

Iron Ore, Corks, and Cork Discs, Grapes, Walnuts, Hazel Nuts, Almonds (shelled and unshelled), Onions, Oranges, Olive Oil, Preserved Vegetables, Bananas, Tomatoes.

Part 2.

Wine and Wine Lees, Brandy, Raisins.

**Report of Minister of Agriculture and
Mines for Year ending June 30th, 1922**

Report of Minister of Agriculture and Mines for Year ending June 30th, 1922

To His Excellency Sir William Lamond Allardyce, Knight Commander of the Most Distinguished Order of Saint Michael and Saint George, Governor and Commander-in-Chief in and over the Island of Newfoundland and its Dependencies.

May it Please Your Excellency :

I have the honor to submit for Your Excellency's information the Report of the Department of Agriculture and Mines, for the fiscal year ending 30th June, 1922.

During the year the following titles were issued :

(1)	82 Grants of agricultural land, containing 2,260 acres, 2 roods, 7 perches, the fees paid on which amounted to...	\$1,021.90
(2)	3 Licenses to Cut Timber over an area of 198¾ sq. miles at an annual rental of	390.50
(3)	300 Licenses to Search for Minerals, over an area of 267½ sq. miles, the fees paid on which were	5,350.00
(4)	33 Ninety-Nine Year Leases of Mining Locations, for an area of 176½ sq. miles, the first year's rent on which amounted to	5,350.00
(5)	3 Fee Simple Grants of Mining Locations, for an area of 4½ sq. miles	—————
(6)	2 Leases on Water Powers	—————

Of the Licenses to Cut Timber issued only one was for an area not previously held under License, the others being in exchange for Licenses previously held, so that the net increase in annual rentals payable under last year's issues will only amount to \$24.00.

REVENUE

The Revenue received during the year under the undermentioned heads is as follows: The corresponding revenue for the year 1920-21 is given for comparison.

	1920-21	1921-22
Mining Licenses and Leases	\$29,570.00	\$24,259.00
Licenses to Cut Timber, rents and royalties,	48,610.88	49,136.49
Agricultural Grants and Survey fees	1,166.70	488.40
	<hr/>	<hr/>
	\$79,347.58	\$73,883.89

The Revenue of the Department the past year still continued to decrease, being \$5,463.69 less than that for the year 1920-21.

LUMBERING OPERATIONS

As will be seen from the following Return, the operations of various mills produced slightly more lumber (299,295 ft. B. M.) than in the previous year, but owing to much lower prices obtained the total value of the cut was only \$174,522.94, as against \$246,645.33 the previous year, a decrease in returns to the operators of \$72,122.39.

The Return is as follows:—

	Ft. B.M.	Value
4 mills operated by Licenses of timber limits under the Crown Lands Act	2,612,934	\$52,258.68
126 mills operated under License Section 1, Saw Mills' Act	1,776,264	35,525.28
66 mills operated under License Section 2, Saw Mills' Act	4,336,949	86,738.98
	<hr/>	<hr/>
	8,726,147	\$174,522.98

Statement of the result of lumbering operations for the year 1921-22 (No.7), is being forwarded herewith.

The Anglo-Newfoundland Development Company, Limited, cut last season 48,734 cords of pulpwood on their own limits, and the Government financed the cutting by the Company, for relief purposes, of 10,000 cords. The Company also purchased from the Government a further quantity of 20,000 cords cut in various localities for the last mentioned purpose, making a total supplied to them of 78,734 cords.

Besides the foregoing quantities of wood, there were cut in the Colony on Government account, for the relief of destitution, in various localities.

about 70,000 cords of pulpwood and pitprops, making a total cut of pulpwood in the Colony the past year of 148,734 cords.

The export of Forest Products for the year, taken from the Customs Returns, are as follows:—

Paper	34,512 tons . . .	Valued at ..	\$3,088,260.00
Mechanical Pulp	19,932 tons . . .	Valued at ..	364,514 00
Laths and shingles	896 M.	Valued at ..	3,782.00
Manufactured Lumber, 1,824,709 ft.		Valued at ..	63,599.00
Pit Props	11,468 cords . . .	Valued at ..	99,243.00
			\$3,619,398.00

FOREST PROTECTION

The Report of the Chief Woods Ranger submitted herewith (No. 8) and the Summary of the Report of the Fire Patrol Committee (No. 9) show a gratifying decrease in the number of fires during the past year and in the destruction caused thereby.

In 1919 the total number of fires reported was 2,576. This was reduced in 1921 to 1,040, while the present Report shows only 586. Of this number, none of the fires started along the railroad got out of control of the Patrol, the only fires of any considerable extent being one on the north side of the Exploits River, Grand Falls, which burned over a considerable area of valuable timber, the property of the Anglo-Newfoundland Development Company; and a fire at Georgetown, Bay of Islands, which burnt a considerable quantity of timber on public and private properties. Neither of these fires were started on the railway.

The success of the operation of the Velocipedes, imported for the Patrol last year has warranted the Department in providing several others for next season's work, which should greatly increase the efficiency of the Patrol. This, added to the improvement in the means of dealing with the sparks and ashes from locomotives should result in a further decrease of destruction to forests.

MINING OPERATIONS

The only Company actually operating mines in the Colony, namely, The Dominion Iron and Steel Company, Limited, reports the following productions for last year, namely:—

Iron Ore at Wabana	998,465 tons . . .	Valued at ..	\$1,497,697.50
Limestone at Aguathuna	197,057 tons . . .	Valued at ..	197,057.00
Total Value			\$1,694,754.00

The Customs Returns showed the following as the export of Minerals for the past year:

Iron Ore	484,322 tons	Valued at	\$643,687.00
Limestone	24,000 tons	Valued at	12,000.00

GOVERNMENT ANALYST

From the Report of the Government Analyst herewith (No. 10) it will be seen that the work of this Department, as evidenced by the large number and variety of samples submitted, continues to increase very largely from year to year.

The total number of samples submitted the past year was 1,379, or 300 more than the previous year, and the number of determinations, 2,744, shows a very creditable amount of work performed by the small staff employed.

SURVEYS

With the exception of a few minor surveys, such as, road locations, etc., no work of this nature was carried on during the past year.

The survey staff was employed most of the time in connection with relief works carried on by the Government and under the supervision of this Department, such as, pulpwood cutting, etc.

It is hoped that work of this nature will not be required in the future, and that when sufficient funds are available the usual work performed by the survey staff will again be taken up.

I have the honor to be,

Sir,

Your obedient servant,

ALEX CAMPBELL,

Minister of Agriculture and Mines.

REPORT OF CHIEF WOODS RANGER FOR YEAR 1922

Hon. Dr. Campbell,
Minister of Agriculture & Mines,
St. John's, Newfoundland.

Dear Sir,

I beg respectfully to submit for your information this my Report for the year 1922.

The season just ended has been one most fitting in every way for the encouragement of forest fires, nevertheless it gives me great pleasure to be able to report that the number of forest fires this year has been the smallest for the past ten years.

In January, February and half of March, I got very little work to do from outside correspondence. During this time I manage to clear up my office work of the past season, and make preparations for the coming. Also during this period I generally manage to make one inland cruise over different parts of the country, so that I may become better acquainted with the parts most necessary to be protected by Fire Wardens, and gather other valuable information in connection with our forest.

In April every year I send out large numbers of fire warning notices to scores of the different settlements.

The season for the starting of forest fires opened this year about the usual time, which is about the first of May on this part of the Island.

For some reason, of which I have no knowledge, the appointment of most of the Fire Wardens was held back by the Government until the 1st of June, and, although no damage resulted from forest fire, there was quite a number started during that period. From 5th May to the first of June, and on to the 25th, is the time when all decomposed vegetable matter, such as grass, leaves, brush, etc., etc., is most susceptible to fire, and I strongly recommend that Fire Wardens be appointed every year by the 1st day of May; those, at least, who patrol the most dangerous places.

It is pleasing to note that, with one exception, not a single fire got away from the control of any Fire Warden this summer patrolling the railway, and although there have been many less fires than in past years, yet there has been quite a large number, as will be shown in this Report further on.

I take this opportunity to ask, can we have a better proof of the value of our staff of fire patrol?

I may also state that improvements are continually being made in fire equipment in the locomotives, and that more care and precaution is used by the Company and train hands; and further, the fact of having patrol foremen or inspectors, as may be, has had considerable effect upon the work done by the Fire Wardens.

Berry-picking, trouting, camping and land clearing, after the first of May are a great menace to our forests; by these a large amount of wealth is destroyed every year. A fire at Gillams, Bay of Islands, which was unquestionably started by a man burning rubbish on his land, caused a loss of at least two hundred and fifty thousand dollars in forest and private property, and three other fires in the same neighborhood caused serious loss also, though none so great as the fire at Gillams. In this fire Mr. Charles E. Parsons, of Curling, and others, lost a lot of valuable property—saw mill, lumber sawed, winter houses and equipment, and horses, cows, etc., etc.

The fire at Woody Island destroyed a lot of private property. One man lost in cattle, sheep and fence the value of \$500. I don't know the extent of forest destroyed here.

Another fire was started at Georgetown, and another at Fisher's Farm—the latter burnt over a large piece of the country, and destroyed a lot of young forest. The four fires above described are supposed to have all been set by parties clearing land.

I made careful enquiries into the origin of the fire at Gillams, but took no evidence under oath. My finding, according to my judgement, was that a one William Brown, did on the first day of May, make a fire in his garden, about 30 square perches in all, surrounded on three sides by thick green forest. He apparently made no attempt to put the fire out. The fire was burning the next day, Thursday, the 1st of June, and was visited by Brown's wife and a Miss Maud Blanchard at 11 a.m. on Thursday, the 1st day of June. At about 12 o'clock the forest took fire, which resulted in a loss, according to my estimation, of \$250,000.00, in 12 square miles of heavy green forest, and other private property—and that William Brown is guilty of a serious breach of Section 2 of the Forest Fires Act. I gave Mr. Scott, the Magistrate at Curling, this information. Brown was summoned before Court, but no witness. He pleaded "Not Guilty" and was let off under suspended sentence. I have written the Magistrate a long time since asking if he intended taking any further action in the matter, but up to date, no definite answer from him has been received by me. I make special mention of this case because I do not understand the Magistrate's action in the matter.

I made investigation into the origin of the fire which started near the South bank of LeMutts Lake. After taking evidence under oath I was unable to trace any act that would lead to a conviction.

I also made enquiries into the fire which started near Bethune's Fox Farm, by the side of the Exploits River, about two miles West of Bishop's Falls. The origin of this fire was a spark from the funnel of a stove in a house occupied by a family named Hancock. After an exhaustive enquiry I was unable to find any carelessness or neglect on the part of any person.

I started enquiry into a fire which started on the 10th of June, on the river bank opposite Baird's Siding, about two miles West of Norris Arm, but the information gained was so remote that I saw no possible chance of reaching the real cause of the fire.

It is difficult to trace the origin of forest fires, particularly in the berry picking season, and more especially since the alternate opening and closing of the Beaver Act, scores of men are continually travelling the interior of the country all summer through; whole companies camping, and hunting the whole country up. It is therefore impossible to find or tell who travel the forest and inland ten minutes before or behind another. Some of the evidence I have taken this season justifies this statement.

I regret to report that, while the number of fires by the railroad are yearly decreasing, and also destruction and loss, fires by campers, cruisers, berry-pickers, etc., etc., and land clearing, are fast increasing, and much loss and destruction follow them. The loss and wastage to our forest which is going on annually, is something alarming, and I will not hesitate to state that, in a great measure it is an inexcusable waste, and we will soon be compelled to realize this and get to work. It is not a problem to be solved by our Legislature alone, or by timber licenses; it is a condition that every individual must assist in remedying. If we cannot graft this idea into the mind of the man, or men, of to-day, we must engender it into the youth by having it taught in our schools. The forest we have left must be preserved no matter what the cost.

The day is not far distant, Sir, when these will not be considered idle words. We are compelled to admit that through our forest is the road that leads to practically every other industry in the country. Fishing, farming and mining are all dependant on the forest, and this fact must in some way be forced upon the mind of every individual. Forest fires, to a very large extent, can be prevented. But there are other causes, over which we have no control, that destroy a lot of our forest, viz:—lightning, wind and insects.

The total number of fires occurring this Summer, as reported to me, are as follows:

	Miles	Men	May	June	July	August	September	October	Total	Cost of Patrol
Trepassey Branch ..	106	14	0	12	6	3	4	0	25	\$3,100.00

	379	44	9	52	44	57	17	12	191	\$11,621.00

The following taken from the Report of the Newfoundland Fire Patrol Committee, Grand Falls, kindly furnished me by the Secretary:

Number of miles patrolled 282, 31 men, 263 fires—\$ 6,279.39

Grand total—miles— 661, 75 men, 454 fires—\$17,900.39

There are 586 less fires reported by the Fire Patrol than last year, and none have escaped from the control of any Warden to do any damage this season. While there have been quite a lot of destruction caused by fires set by campers, berry-pickers and land clearing, I have been too busy to give these fires the attention I wish, I trust before the opening of another season some means may be considered to better this condition.

Before closing this report I beg to say that I found the work performed by the Wardens this year satisfactory.

I very much approve the appointments of Patrol Inspectors, Mr. Victor Stratten under the supervision of the Patrol Committee, Grand Falls, and Mr. Albert B. Stares of Brooklyn, under my personal supervision. These appointments considerably improve the service.

I beg respectfully to suggest that the question of providing better houses for the wardens be considered before the opening of another season. Men who travel from 14 to 25 miles per day, and put out fires as they meet them, under the blazing sun and heat of summer, require a clean and wholesome place to stay in. Shacks built of rotten ties, covered with rinds or felt, are not good enough, as they are swarmed with ants and other kinds of insects. Mice and rats often pollute their food and destroy their clothing. Small houses built upon sills, say, 8 x 10 feet, with walls 7 feet high, gable roof and shingled, would comfortably house two men during the Summer months. These houses could be provided at a very small cost.

I am pleased to remark that my report last year was noticed by His Excellency the Governor, and his expression of interest taken in the work of the Fire Patrol, and I pray that His Excellency, our new Governor, will find the same to interest him in the work.

I hope the Government will see their way clear to continue this service; preventing our forest from destruction and waste, is guarding the interest of every individual in this Dominion.

I have made a personal inspection of all Wardens patrolling the whole railways of this country, travelling by track, motor, trains, and motor boats. I have also visited and held investigations of eight fires outside of patrol section.

I regret not being able to form an estimate of loss by forest fires this year, the most part of which has been through carelessness.

Trusting this report will meet with Your Honor's approval.

I have the honor to be,

Sir,

Your obedient servant,

(Sgd.) THOS. HOWE,

Chief Woods Ranger.

REPORT OF GOVERNMENT ANALYST

Hon. A. Campbell, M.D., F.R.C.S., Etc.,
Minister of Agriculture and Mines.

Sir:

May I respectfully submit my report for the year ending December 31st, 1922.

The increase in the number of samples as compared with 1921 is three hundred; a very considerable increase; and I have to thank Messrs. Turner and Newman for the very special effort they made to make it possible for me to report on the 1,379 samples that were submitted to my Laboratory during the year.

I should like to bring to your notice the very small salaries that my assistants receive, when one realizes the nature of the work they have to do; Newman receives \$65.00 a month, after six and a half years experience in Analytical Chemistry; a small sum when compared with the wages of the Departmental messengers.

Messrs. Turner and Newman receive between them about \$2000.00 a year but I would find it very difficult to get assistants to replace them for less than \$3,500.00.

D. M. Turner is proceeding with the International Correspondence School Chemistry Course, in order to make himself more proficient in the theoretical side of the subject, and he is making good progress.

Full reports of all the samples submitted have been sent to the various Departments, and persons concerned, and copies of all such reports are filed at the Laboratory.

I have the honor to remain,

Sir,

Your most obedient servant,

D. JAMES DAVIES, B.Sc., F.I.C., F.C.S., F.G.S.,

M. S. Public Analysts, Eng.,

Government Analyst.

Annual Report of the Newfoundland Patriotic Fund

To His Excellency the Governor in Council.

May it Please Your Excellency:

We have the honor to forward you, for submission to the Legislature, the Report on the work of the Newfoundland Patriotic Fund for the year 1922.

The operations of the Fund were conducted during the past year on similar lines to those of 1921, assistance being given in emergencies to veterans of the war or to their families and those of deceased members of the forces, and in aid of cases where the Pensions regulations did not apply.

In this way, a sum of nearly six thousand dollars was spent during the year. There is now a balance of \$9,100.44 available for further activities. That it is estimated will suffice or continuing the work for about two years longer, according to the number and nature of the claims that may have to be met in the meantime.

The financial position of the Fund, as at the end of 1922, was as follows:

RECEIPTS

Contributions	\$126,188.75
Newfoundland Repayments	14,434.15
Canadian Repayments	27,997.87
Imperial Repayments	1,803.36

Report of Outport Nursing Committee

Report of Outport Nursing Committee

The following is a brief summary of the working of the Outport Nursing Committee for the financial year ending 30th June, 1921.

The actual operations of the Committee began with the appointment of Nurse Button early in July 1920. It was not till October that two new Nurses from England had arrived for work on the Island. Another Nurse was engaged in Newfoundland, (Miss Rose), and yet another, (Miss Ruffle), came over by some misunderstanding with the Maple Leaf Committee, and was ultimately given work under the Committee at Hant's Harbor.

In respect of one of the nurses, Joe Batt's Arm have undertaken the whole expense; and the nurse at Hant's Harbour was to be under special arrangements, whereby only part of the expense falls upon the Committee.

The receipts for the year amounted to \$3,762.42, as follows:

Grants from Government	\$2,000.00
Special grants per Lady Harris	1,000.00
Total receipts from fees, etc., Nurse Smith (Hodges Cove)	318.82
*Total receipts from fees etc., Nurse Casement (Rose Blanche)	405.25
Amount received from the Commissioner of Public Charities on account Nurse Ruffle's board.	18.35
Amount received from Relieving Officer, Placentia, donation from residents on account Nurse Ruffle's work. ..	20.00
	\$3,762.42

*June quarter of Rose Blanche fell into next year.

The expenditure for the year amounted to \$3,243.77, as follows:

Salaries	\$1,837.50
Preliminary expenses, including board on arrival	166.00
Medicines	863.26
Passages etc. from England	266.58
Travelling within the Colony	59.35
Sundries (surgery equipment, printing, etc.).....	51.08
	\$3,243.77

Note. The above excludes an amount of \$30.21 due by Joe Batt's Arm.

It will be seen that a cash balance of \$518.65 goes on to the new financial year; but it must be remembered that this is due to special grants which are not a normal part of the Committee's funds.

August 1921.

(Sgd.) CONSTANCE M. HARRIS.

Annual Report of the Registrar General

Registrar General's Office,

St. John's, Newfoundland,

May 12th, 1923.

Sir,—

I have the honor to submit the Annual Report of Births, Marriages and Deaths for the year ended December 31, 1922.

The total Registrations for the year were 12,552, viz.: Births, 7,392; Marriages, 1,441; Deaths, 3,719.

Compared with 1921 there is an increase of 120 Births.

Compared with 1921 there is a decrease of 81 Marriages.

The Death rates for the Dominion 14.21 and for the City 17.22 per 1,000 of the population compares favorably with last year's report of 13.29 and 16.06 respectively which was the lowest on record.

The number of Deaths from Pulmonary Tuberculosis for the Dominion were 379. This number is less by 10 than for the previous year. The rate per 1,000 of the population is 1.44. Both the number of Deaths and ratio are the lowest in the history of the Dominion. The fight against this disease as waged by those in charge is beginning to have a marked effect on the death rate.

The number of Deaths from Pulmonary Tuberculosis and the rates per 1,000 of the population for the past nine years are as follows:
