## Thinking Ahead

When planning for the future  
most of us look forward  
to all the good things  
in life Like  
buying and creating  
a home  
taking holidays  
watching your children grow  
or picking out your next car

We also naturally think  
about protecting the things  
we value like  
our home and car  
our mobile phone  
or our pets  
But do we think enough  
about protecting  
the most important thing  
of all – our loved ones?

Committing to a partner  
buying a home or  
having a family  
all bring extra  
responsibility

If you were to die  
or be unable to earn an income  
who would pay the mortgage?  
How far would the family finances stretch?

How would you make sure  
your family won't suffer  
financial hardship?

When was the last time  
you thought  
about protecting  
what really matters to you?

The good news is that  
there are steps  
you can take to help  
protect your loved ones  
from such financial hardship –  
read on to find out more.

Did you know?

The minimum amount shown should be paid \*NOW\*. A united future. Kids know more about technology. Follow the onscreen instructions. We recognise that most people aspire to own their own home, and believe in supporting people on the journey to home ownership. The police and intelligence agencies do vital work to protect the public and we are rightly proud of them. But we always have to be vigilant that the state does not overreach itself, as it has done at times through corruption, heavy-handedness or illiberal laws. Ask us to look again at the decision. We still imprison 1,000 people a year for personal possession when they are not charged with dealing or any other offence. Re-pack your item. The UK secures many benefits from immigration, which boosts our economy and helps staff our public services, especially our NHS. Power to the people. For freedom to be meaningful, people need the power not just to make decisions about their own lives, but about the way their country, their community, their workplace and more are run. Ours is an amazing country, but it could be better still. The best a man can get. We are more than just a star on someone else's flag. The Style Issue. Years of mismanagement by Labour and Conservative governments have left our public finances in a mess. Government has focused on the wrong spending priorities for far too long. Elegant upcycling. Encourage them to take up new interests. We will take Britain out of the red and back into the black. Space not race. Immigration is not about race: it is about space. Sustainable spaces. What you say and when you say it is important. Five years ago, Britain was on the brink. Take me there. Please keep this document with you until the end of your trip. Britain is now one of the fastest growing major economies in the world. We are getting our national finances back under control. Start with simple things and work up towards bigger goals. **Mrs G's experience**

Mrs G was only 38 when she was diagnosed with cancer. She had taken out a Life and Critical Illness policy with HSBC to protect her mortgage, although she wasn't convinced she needed the protection. "My husband convinced me to buy the policy; he is quite good with things like that. I thought, 'we don't need this – not at our age', but he said 'well, you never know...'. We took out the policy just to protect the mortgage really..."

When Mrs G was diagnosed, her first reaction was disbelief "It was a real shock – I'm only 38, I had no idea I would get something so young."

The claim was agreed within a month and a lump sum payment was made to Mrs G. "I had anticipated a long drawn out process with endless complications, only to discover this was not the case. I was treated with utmost respect and speedy service and was very relieved. We as a family decided to pay a chunk off the mortgage and cleared our loans, leaving us a great monthly saving (we've saved £700 a month by doing what we did), so it means that you have no pressure at home with that side of things".

"I would definitely recommend the cover... The guy on the end of the phone was wonderful."
