SUGGESTIONS MADE REGARDING CEAL STATISTICS

East Asian collections surveys were first administered by Dr. Tsuen-hsueh Tsien (錢存訓) beginning in 1958. Over the past fifty years, the value of CEAL statistics has been recognized and used to map out and compare collection growth, institutional support, services and new development. Online input has been implemented since 2002, covering 1998 to current statistical data. By 2007, data prior to 1998 were entered into the online system using various print sources by members of the CEAL Statistics Committee. Users will have access to CEAL statistical data from the earliest year to the most recent by March 2008.

Two suggestions were made in 2007. One was in regard to "Table 6 Fiscal Support of East Asian Libraries and Collections." The Suggestion was to "add a sub-total for appropriations limited to Chinese, Japanese, and Korean language materials only." In recent years, a few participants have had more than half of their appropriations under the Non-CJK column. The addition of a "CJK appropriations sub-total" would distinguish the two and allow for better interpretation. As the printed form is limited in space, it would be difficult to add a new column. However, a sub-total for CJK-only appropriations will be added as a searchable variable to the ranking page, accessible by password. One possible solution for the printed form is to select major columns to print.

Another suggestion was to add electronic books (e-books) collection data. The committee assessed input from libraries that have been, or were planning on, collecting e-books. Of the data fields in ARL's *Supplementary Statistics Survey Summary*, only "number" and "expenditures" for electronic books appear to be meaningful and collectable for East Asian collections. The rest is usually administered and analyzed centrally, and not reported to this group. It was subsequently agreed that only two data fields would be collected: "number of electronic books" and "expenditures for electronic books." Although there is no room for the addition of the printing form in Table 9, "Electronic Resources of East Asian Materials of North American Institutions," they will be included in the online form in 2008 statistics survey form to accommodate this change. A decision will be made later regarding whether to include e-books statistics in the printed form if a majority of libraries have collection data.

Forthcoming Data on Electronic Books*

1. Number of electronic books held. _____

This number is a subset of "volumes held" reported in Table I, in the ARL Statistics.

2. Expenditures for electronic books. _____

Include annual access and service fees paid directly or through consortial arrangements. Include initial purchase cost only for items purchased in the current fiscal year.

Expenditures reported here are only for the electronic books reported in Table 1.

The Committee requests your input on whether to continue providing the printed copy of the Statistics or instead to move toward online publication only.

CEAL Statistics Committee
