

## Summary of New Features CEAL Statistics Database 2005

- 1) Statistics ranking function was added.
  - Only members who have a valid account can access ranking function.
  - Ranking function is available for the following tables: Electronic Resources, Fiscal Support, Total Volume Holding, Serial Subscriptions & Non-purchased Serials. The default view includes all library types and regions.
  - The ranking filters are “type of library” (Canadian University, Private U.S. University, Public U.S. University, U.S. Non-University, and Canadian Non-University) and “region” (New England, Middle Atlantic, East North Central, West North Central, South Atlantic, East South Central, West South Central, Mountain, Pacific, and Canada).
- 2) Graph view was added to traditional table view.
  - The data shown in the graph version is the same as the table version.
  - The Y-axis is re-scalable for a better view of “Total Holdings and Unprocessed Backlog. Materials,” “Fiscal Support,” and “Total Volume Holdings” tables.
- 3) Print friendly function was added.
  - Available in every table view as well as in View Ranking tables.
  - Microsoft Excel is required to view the print friendly version.
  - Ctrl+p to print in Print Friendly Version.
- 4) One sample account was created for potential members to allow them to view online survey forms content.
  - Library Name: ztest
  - Password: viewform
  - This ID and password allows users to “view” and “print” online forms only.
- 5) New fields have been added in the Electronic Resource table.
  - A total of 11 new data fields were added: CD Title data fields for C, J, K, non-CJK, with grand and subtotal fields; CD Count data fields for C, J, K, and non-CJK, with grand and subtotal fields; and a Memo field.
- 6) The system now retrieves old data from previous years in the Total Volume Holding Form.
  - Previous year’s data in the current year forms is retrieved automatically.
  - If there is no data for the immediate past year (ex. the member didn't input last year, or a new member has just joined for the current year) the previous year data can be input manually.
