

# Fish Bowl

## A New Way to Bring Fishtown Together

### Who Are We?

An organization devoted to improving Fishtown by bringing people of all ages in the neighborhood together. We hope to plan events that would be fun for people of all ages.

#### We have a website

Events are listed on our website for anyone to see. Anyone can find all the latest activities going on in town.

#### Unfamiliar with technology?

No problem! We offer monthly newsletters including information about all of our events so those who are less comfortable using technology still can take advantage of the events we run.

### Our Goal

To bring people of all ages within the neighborhood together.

#### Big Changes

Younger people moving in are changing the culture of Fishtown. Many older people feel as though they are being pushed out of the community. Our organization hopes to use unite everyone in the form of events to bring the people together and build a stronger community.

#### What kinds of events?

Some examples of events we plan to run are:

- Younger people teaching older people computer skills
- Older people teaching younger people their family recipes
- Art classes with an art fair at the end where everyone in the community can see what they did

### Community Input

People can submit ideas for events either through the website or by phone. This will allow the people of Fishtown to give feedback on what we do. If the community is able to have an input, it will ensure that we are running events that the people truly enjoy.

#### Community Involvement

We intend to allow local businesses to run promotions through our platform. Not only will this help the local economy but it will also help the members of the community to discover places in the neighborhood that they might not have heard of before.
