Nixon lashes bombing criticism as 'hypocritical doublestandard'

(AP)-President washington (AP)—President Nixon lashed out at critics of his Viet-nam policy Thursday and said the North Vietnamese were promoting a "hypocritical double standard" in charging U.S. planes were bombing dikes and dams.

The chief executive delivered a spirited defense of U.S. policy in Vietnam at an impromptu news-conference in his office.

He said the United States plying great restraint—"we could finish off North Vietnam in an afternoon"—and that his relies is a second country of the coun negotiated settlement.

While he declined to give specifics on current negotiations, Nixon said "the chance for a negotiated settlement is better now than it ever has been before."

Nixon sharply criticized congressional supporters of "end the war" resolutions. He said "those who say

'end the war' should name their resolutions 'prolong the war'." They are, Njxon said, "only confusing the enemy at best and prolonging the war at worst."

war at worst."
The United States has made fair of-The United States has made tair or-fers in the Paris peace talks and has not adopted a "take it or leave it" attitude, the President said. But he repeated that the United States will not accept Communist proposals that would lead to im-position of a Communist government on South Vietnam.

That, he declared, "would be the height of immorality."

On domestic matters, Nixon said that the forthcoming presidential election offered the clearest choices on can-didates and issues of any national elec-

tion in this century.

The 40-minute news conference's first question dealt with bombing which the adminstration has acknowledged caused incidental damage to the floodpreventing dikes and dams in North Vietnam.

than being subject to Rather domestic and foreign criticism, the chief executive said, the United States should be supported and praised for

Then, specifically mentioning United Nations Secretary General Kurt Waldheim, who has asked for an end to bombing near the dikes, Nixon said it "time to strip away the double

Waldheim and others have "setzed upon enemy-inspired propaganda," he said, "and have not mentioned the deliberate shelling of South Vietnamese cities by the Communists.

While Nixon did not directly confirm the dikes had been hit, he said there was no report of any strikes on the halfdozen major dams which he described as the heart of the 2,700-mile system.

Taylor airs objection

(continued from page 1) derstood, it is your integrity at stake."

Mace told the group that he requested a delay in presentation of the student fee budget until a later board meeting. He said he wanted "more time to view Student Government recommendations in a broad context."

This was not an attempt to usurp the advisory power of Student Government regarding fee allocations, he said.

allocations, he said.

Mace said he presented the new proposal as an alternative to existing procedures which have recently come under criticism from several student organizations. Those organizations were not allocated any monies for next year and threatened possibility of class action suits. action suits.

action suits.

These suits would have tied up allocations, Mace said. Deferment

Correction

of allocation of fees was approved by the board until Mace could further study the fee problem.

Clarke, Taylor's assistant, contends Mace received only a list of allocations to different organizations and not the entire budget.

Clarke contended that Student Government wants the "first crack" at getting input from councils across campus for possible solutions to the fee allocation problem.

President Taylor said he knew revisions of the proposed budget are necessary because it is presently unacceptable. Budgets from previous years have also been revised by Student Government in the same manner, Taylor said. Float Like a Butterfly,

Collective bargaining is aim

CFUT seeks faculty support

Carbondale Federation of University Teachers (CFUT) representative Jonathan Seldin, claims a strong need exists to convince faculty members to support collective bargaining.

The assistant professor in mathematics spoke Thursday at the weekly "Lunch and Learn" discussion sponsored in the Student Center by the Division of Continuing Education.

The American Federation of Teachers (AFT), parent organization for CFUT, is specially suited to offer collective bargaining services for faculty, Seldin said, because it was originally set up to offer this union-type service to

Meter this disconnection teachers.

"We need to convince faculty that we need collective bargaining and that it should be a democratic collective bargaining unit." Seldin

explained.

"We would oppose changes in tenure and the burden of proof should be on those who challenge it," he continued.

"We need a teacher's union to set the properties of termination of faculty by administrators." Seldin said. "Our ministrators." Seldin said. "Our ministrators is the the present has a is that the person has a

right to the security of a job," he said.

Any individual who brings a grievance case against the Univer-sity should be entitled to union support if he wants it, Seldin continued.

With a collective bargaining unit, contract and grievance procedures would be spelled out, Seldin said. Give people the help a grievance

committee can."
In cases where individuals feel they have been grossly mistreated

they nave been grossiy mistreated by the University, union support can be quite helpful he added. "Some of us feel unfair ad-ministrative actions around here (SIU) were blatant enough to warrant striking procedures," he said

Seldin said the idea behind collec-

tive bargaining is that administrative and faculty needs are not always identical.

"Collective bargaining implies hostility when indeed this is not

ways the case.
"Of all the teachers unions, AFT "Of all the teachers unions, AFT is the most democratic," he continued. "Its connection with the rest of the labor movement is important to higher education." Seldin contends AFT is suited to collective bargaining for higher education for two reasons.

—Union people usually cannot afford private schools and consequently send their children to state.

send their children to state

universities. They also support fair taxation for education, he said. —The labor movement has

repeatedly supported public education, including higher education, includeducation, he said.

education, he said.

"If we go into collective bargaining without labor, no one might hear us. If we go in joined with labor, administrators may be more sympathetic," Seldin said.

If a collective bargaining agreement could be reached with the administration, Seldin said the AFT would want one hargaining harfst with the said want one hargaining the said want of the

the administration, Section said the AFT would want one bargaining unit for all the groups involved. This includes CFUT, the American Association of University Professors (AAUP) and the National Education Association

Climb to the top

George McGovern has climbed from the bottom of the political ladder to the top of the Democratic Party. The question being pondered throughout that party and in an increasingly serious vein by the Republicans is how far that momentum can carry the South Dakota senator in his bid for the presidency in November. Can the underdog overcome the opposition and become top dog?

McGovern's appeal is broadening, which is nothing new; it has been for some 18 months. He is coming to be regarded as a man of strong convictions and one who has the common people and their interests at heart. He has refused to yield to the Democratic bosses and has impressed many voters with his audacity. His strength lies in the little man and he sees promise in his appeal to huge reservoirs of youth, blacks and poor people during the next four months. His promise to end the war on inauguration day and to bring the POW's home within 90 days carries a broad emotional appeal. He has hoped to further broaden that appeal with his selection of Microwiri Senetor. Thomes Endeton. further broaden that appeal with his selection of Missouri Senator Thomas Eagleton, a 42-year-old Roman Cathloic with friends in labor, as his running

The McGovern organization has made miraculous strides, but the Democratic campaign machine has a considerable number of loose ends to tie together if it expects success in November.

The recently-completed Democratic National Con-The recently-completed Democratic National Convention meant reform in the party, but the result was not the unification the party desperately needed. Instead, conservative Democrats were overlooked and party bosses ignored. While McGovern's refusal to play politics resulted in the Democratic nomination, that same refusal may haunt the Democratic nominee in the election. The bosses lost their power in the convention but they have not been banished from Democratic politics. They will have their hour. And George McGovern may not be invited to their party this fall. party this fall.

party this fall.

A number of other wolves may be waiting for McGovern on his journey toward the White House. George Wallace will not support the Democratic nomination and could have considerable influence over a fistful of votes should he decide to run on a third party ticket. The AFL-ClO is hinting that it may assume a neutral position in the election rather than pledge support for McGovern. Other Democrats, such as former Treasury Secretary John Democrats, such as former Treasury Secretary John Connally, feel the Democratic platform is too radical to be supported.

A Newsweek pool released after the convention showed Richard Nixon could count on about 300 elec-toral votes compared to 36 for McGovern if the election were held now. Clark MacGregor, head of the President's Committee for Re-election, claims the Republicans will try to woo Democrats who are disappointed with the McGovern views or who see disappointed with the McGovern views or who see defeat for themselves at other levels in November. McGovern's campaign is definitely an uphill show and it is questionable that he can overcome opposition within his own party, much less mount a compaign that could chase Nixon from the White House. His miracle workers will have to be at their best if the Democrats are to put McGovern in the presidency this fall. presidency this fall.

The Innocent Bystander

Wooing The Labor Vote

By Arthur Hoppe Chronicle Features

One of America's most talked-about voters is Miny

One of America's most tanker-and voters is sainly Moe and he's in terrible shape. Thanks to George (Eeny) Meany, head of the AFL-CIO, poor Miny Moe doesn't know whether he's coming or going. Friends fear he may drink himself to death before election day.

Already in this campaign, the experts have written millions of words about Moe and his crucial importance to the outcome.

tance to the outcome.

For Moe is, of course, The Labor Vote.

During the past 25 years, Moe has distinguished himself as being the only American who voted in every election as Meany told him to.

"Being The Labor Vote has been an awesome responsibility," said Moe, lighting a cigarette with trembling fingers over his third beer at Paddy's Place. "I had to be lukewarm when I voted twice for Stevenson, moderately cool when I cast my ballot for Kennedy and red hot when I pulled the lever for Johnson and Humphrey. I'm lucky I didn't catch my death of oneumonia. death of pneumonia.

death of pneumonia.
"But with everybody talking about it, somebody had to be The Labor Vote. And I was proud to do my duty. Only this year, I think I'm going to chuck it." Moe's problem stems, naturally, from Meany's pronouncement that he wouldn't deliver The Labor Vote to either McGovern or Nixon.

The loss of Moe's vote, the experts unanimously

Union dues

George Meany's refusal to back Democratic presidential nominee George McGovern shouldn't surprise many people; after all, it has been standard practice for the AFL-CIO to boycott non-union made

New job?

Now that the Student Conduct Reveiw Board has ruled against Jim Peters, maybe he could try to get Jon Taylor's old job—head of the Free School.

Jack Mullins

agree, will hurt McGovern far more than Nixon, as The Labor Vote has traditionally gone to the Democratic candidate. The question they are all asking is, "Where will The Labor Vote go now?" "I don't know," said Moe frankly. "I been thinking of voting for George Wallace, if he runs Buthowcan I do that if Mr. Meany doesn't tell me to? It may sound like I'm trains to butter Mr. Meany up but I can say

do that it Mr. Meany doesn't tell me to: It may sound like I'm trying to butter Mr. Meany up, but I can say from personal experience that The Labor Vote has always done what he told me to.
"Now the easy wasy out would be to follow Mr.!!)
Meany's example. He says he isn't going to vote for either McGovern or Nixon. But if I don't, then I won't

be the Labor Vote any more. And to tell the truth, I kind of like being so much in the public spotlight. Make that a boilermaker, Paddy."

Despite his years of devotion to being The Labor Vote, Moe is now considering various alternatives. At one point he even thought of voting the Socialist-Labor ticket.

"But who ever talks or writes about the the socialist-labor vote?" he said with a shrug. "I'd be a nobody.

Moe reluctantly agrees he's too old to be the youth vote, too white to be the black vote, too northern to be the southern vote and too noisy to be the silent majority vote

In fact, he has but one option left. "I've decided," he said, squaring his shoulders, "to be The Daley

The challenge here is that although Mayor Daley endorsed the entire Democratic ticket, to the surprise of the experts, he didn't mention McGovern by

'Speaking as The Daley Vote," said Moe, "it's "Speaking as The Daiey Vote, Salu Mos, Togoing to be tough to cast my ballot for a guy whose name I don't know. But with all the talk about The

Daley Vote, somebody's got to be it."

Thus, while Senator McGovern has lost The Labor Vote, he's picked up The Daley Vote. So, as you can plainly see, he's come out exactly even.

Two views of Beckett

ALL I CAN MANAGE, MORE THAN I COULD: An Approach to the Plays of Samuel Beckett by Alec Reid. Grove Press, Inc, 96 pages, paperback, \$1.95.

SAMUEL BECKETT—A NEW AP-PROACH: A Study of the Novels and Plays by G. C. Barnard, Dodd, Mead & Co., Inc. 144 pages, paperback, \$1.75.

The Art of Samuel Beckett makes us uneasy. We are haunted and baffled by the strange and novelistic approach of his plays and novels. They seem to defy classification and evade all possible at-

tempts at definition.

Critics have failed to reach any kind

of agreement concerning the meaning of Beckett's work and we search our minds in torture and agony waiting for him to give us the answers, to commit

What is it?" we ask. "What does it

 Beckett answers, "we have no elucidation to offer of mysteries that are all of their making. My work is a matter of fundamental sounds made as fully as possible, and I accept responsibility for nothing else. If people want to have headaches among the overtones, let them. And provide their own

Both Alec Reid and G.C. Barnard provide their own aspirin.

It is "pointless to look for a logical, universal 'message' behind Beckett's work" because "you miss the experience that is actually there, writes Reid in his book, "All I Can Manage, More Than I Could."

Beid writes that Beckett has "greated to be a look of the property of the propert

Reid writes that Beckett has "created completely new kind of play" and us, "has greatly enlarged the scope of the theater.

The strength of Beckett's plays lies not in what they say to the world at large," he writes, "but in what they do

to each spectator personally."

He contends that one must attend an

actual performance in a theater to fully grasp the experience of Beckett's work.

There is "nothing calling for specialized knowledge of any kind." Reid writes. "All we need is to watch and to listen in the same way as we watch and listen to any other play or film, or to the television. Beckett has often said that his plays are very simple; the difficulties are of our making, not

G.C. Barnard does not disagree with Reid's contention that the meaning of Beckett's work is whatever the in-dividual finds in it for himself. But, unlike Reid, Barnard contends

But, unlike Reid, Barnard contends that one must go further than just par-ticipating by viewing or reading, he must also understand the "psychological and purely human aspects" of Beckett's art. Particularly important to under-stand, writes Barnard in his book "Samuel Beckett—A New Approach." is the part schizophrenia plays in

is the part schizophrenia plays in Beckett's work. Barnard contends that Beckett's work. Barnard contends that schizophrenia as an important characteristic of Beckett's heroes and he devotes the greater part of the book to relating the split personality concept to Beckett's novels and plays.

Both books are fairly easy reading and serve to introduce the potential reader or theatergoer to the art of Samuel Beckett. Reid's book consists of

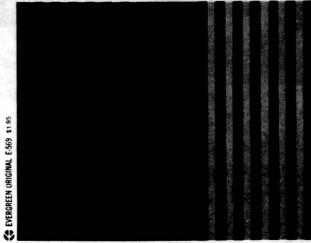

only 58 pages of text, the balance being devoted to a synopsis of Beckett's

plays.

Bernard's book is more scholarly
and, perhaps, slightly harder to read.
But, if one is interested in an appreciation and understanding of
Beckett's characters, he'll love the way Barnard takes him step-by-step through Beckett's heroes minds and out of the inner character into the larger external

world.
G.C. Barnard is an English scholar and has devoted many years to the study of Beckett's work.

ALL I CAN MANAGE. MORE THAN I COUL SAMUEL BECKE

Born in Dublin, Alec Reid is a drama critic and has published many articles on Beckett in Ireland, England, Greece and the United States.

Samuel Beckett was awarded the Nobel prize for literature in 1969 and is

probably best known for writing "Waiting for Godot," a two-act play in which "nothing happens. Nobody comes. Nobody goes."

Coming apart in the 1960s

COMING APART, AN INFORMAL HISTORY OF AMERICA IN THE 1960s, by William O'Neill, Quadrangle Books, Chicago, \$12.50.

The world is such that conflict almost always accelerates change. In the worst sense of the word this often means disaster and the loss of human life. But in the best sense, the world being a mixture of good and evil in which bad men go off the tracks and good men try to put them on again, this is one of the inescapable facts of life.

About the beginning of the 1960's, the United States generated its own cultural revolution. And, when I visited the country for three months in 1971, I was quite astonished to see the changes. But the conflicts that produce social changes do not always provide answers to the problems which generated that conflict.

The questioning has mostly been done

by young people and radicals who began to suspect the entire pyramid of power in the United States.

Though the genesis of the conflict was there before President Kennedy came to power, and was notably manifested in the civil rights movement, it was not until after the death of Kennedy and the general disillusionment in the wake of the lost leader that the temperature of discontent began to rise, causing the explosive situation in the cities and the frustrations that were generated by racism, injustice and poverty in the midst of plenty.

The author of Coming Apart, William L. O'Neill, strives to demythologise Kennedy, which is understandable since, in contrast to Lyndon B. Johnson,

Kennedy's practical achievement, especially in the field of legislation, is slight. The tragedy of Johnson is that he lacked public credibility which finally degenerated into rejection.

In a world of instant history where

the temptation of the fast buck stimulates so many writers to rush to judgment. O'Neill's chronicle of the 60's is as balanced an interpretation as any mature historian could produce concer ning the recent past.

This is not a mere chronicle, of course, but an attempt at impartial judgment of the political, economic and social implications of one of the most turbulent and divisive decades in American history.

The wild-fire spread of what we call the permissive society is outlined for what it appears to be, the great revolt against the conventions of Victorian pretense. The early 20th century generations had settled for this illusion of reality. of reality.

For myself, a student of the fascinating United States, distance lends not only enchantment to the view but perhaps a tendency towards rash

But my longer visits, as a journalist but my longer visits, as a journalist to many parts of America during the 60's leads me to appreciate the social phenomena that O'Neill describes and analyses; what to the visiting foreigner sometimes appeared largely another world of beards and beads, world of beards and beaus, hallucinations, cults, communes and

Jesus treaks.

Trends and quick-fire fashions, novelty and fakery are inseparable from a society that produces a vast turnover of opportunists who are never very far behind a Barnum. These are

the inevitable by-products of a dynamically enterprising people with a whole raft of ideas.

O'Neill's outline of the youth culture, and the counter-culture of the late 60's that supplanted it, is a valuable assessment, replete with observations of the contradictions manifested the paradox of unconventional dress and habits that really became conven-tions. The cliches left behind in the pur-

tions. The cliches left behind in the pur-suit of happiness during the 60's reflects the ideological junk-yards of the age. It would be unreal for the United States to go from the extremes of the 60's to new extremes in the 70's. The 60's, as O'Neill says, had been a kind of binge, and people will not go on another until its hangover wears off. But many of the conditions that produced the binge still remain and are bound to

He reminds us at the same time that while Americans may be turbulent they are also creative and surprising. A nation caught up in a manic-depressive cycle has been trying at both extremes. But this is not necessarily a people that can be written off too soon.

American statesmen have invoked

past glories to justify present squalour and patriotism has been corrupted by

and patriotism has been corrupted by imperialism. The nation's heritage has been wasted.

Yet, says O'Neill, America is a place worth saving even though materialists have soiled her way of life. And this will certainly be the view of Europeans, forever fascinated by this turbulent and inquisitive neonle. inquisitive people

To one who, if asked to label himself liberal or conservative, would have to choose the former, this is a very funny choose the former, this is a very tunibook that makes you laugh aloud. Despite what some may believe, liberals don't have an exclusive on the national sense of humor.

Buckley, of course, is outrageously autocratic, a man of wealth, education, and the state of the sense of the

intelligence and charm who, happily, doesn't take himself seriously, at least in this delightful book, a diary of one week in the columnist's life. Perhaps one by-product of his effort is to produce a highly readable account of how an editor (National Review), columnist and lecturer manages his time, answers his mail, does his research, entertains and is entertained and—writes his widely syndicated newspaper column. Cruising Speed might well be on a journalist's bookshelf, where it may be more ap-preciated than as a statement of conervative philosophy.

For example, Buckley's incisive com-

For example, Buckley's incisive com-mentary on Playboy, for which he had written a 10,000 word piece on a trip to Russia, and had received exactly one letter. "Ten million readers of my views on Russia! Five percent of the population of America. Ten percent of the reading population of America..." Buckley adds that Hefner's magazine is simply not read but that the non-say simply not read, but that the non-sex part does serve a purpose—to make it easier for advertisers like General Motors to justify their advertising ex-penses. Does that sound politically con-

Servative?

Chauffeur-driven cars, New York apartment, Connecticut house, prep schools, Ivy League, celebrity friends, travel—Buckley flaunts them all without apologies. One can hardly be angry with a man who obviously enjoys life as much, although one cannot help but speculate how well a silver spoonless Buckley might have served journalism and politics. More activist and less dilettante, I'd say.

John E. King, chairman of the department of higher education in the College of Education at Southern Illinois University at Carbondale, has been re-elected a member-at-large of the National Council, Boy Scouts of America. This will be King's tenth annual term on the council.

Univ. 300 members to assist in recycling

By C. N. Roberts Student Writer

Members of University 300, an inmemoers or conversity soo, an in-dependent study class, recently made plans to assist Lowe Solter-man. SIU Outdoor Labortories, with the recycling operations of Jackson County Workshop in Murphysboro. The glass recycling operations

The glass recycling operation involves handicapped individuals, who sort the glass containers by colors, remove metal pieces and then crush the objects.

The project started about a year ago with 10 housewives from the Carbondale area bringing loads of bottles in car trunks. Ap-

Carbondale area bringing loads of bottles in car trunks. Approximately 1,500 lbs of glass a week is received.

After being crushed, the glass is shipped to St. Louis where it sells for \$20 a ton.

Two weeks ago, the workshop tried to establish a second operation, which involved tin cars. Arrangements to sell the cans have been made with the Granite City

Steel Co. However, the recycling operations does not yet have the facilities to prepare the cans for

Solterman said. "The biggest hang-up with the workshop is finding someplace to get rid of the stuff, the closest place is 100 miles

away. With the help of University 300, Solterman would like a station, for collecting glass bottles and tin cans. to be set up on campus. "There are a lot of waste materials in the vicinity of the campus and through the help of the class the waste can be put to use.

The course was started in spring 1971 and was designed for students who are responsible and can profit from this kind of freedom.

From this kind of freedom. The students are to perform a task or an experimental duty and make a full report and analysis relating to the outcome of or progress of the task. They receive three credits.

Soldiers injured in race riot released; investigation set

STUTTGART, Germany (AP)-The U.S. Army said Thursday two soldiers were released from hospital in satisfactory condition after being injured in a race riot last weekend.

A spokesman said Spec. 4 Gary L. White, 29, of Wolfeboro, N.H., and Spec. 4 John C. Pieper of Anamosa, 1ewa. left an Army hospital Tuesday.

The Army appointed a board of three officers to investigate the riot at Krabbenloch Kaserne in which White and Pieper were injured with 24 other American soldiers. Most of the injuries were caused by clubs, sticks and stones. Only White and Pieper had to be hospitalized, White with injuries to his head and Pieper with a cut left hand.

Agronomy field day suffers from low attendance, apathy

The annual agronomy field day at the Agronomy Research Center on Wednesday had only moderate suc-cess. Roy Browning, superintendent of the Agronomy Research Center, said that only 50 to 75 persons atten-ded.

Low attendance was attributed to a lack of publicity. Agricultural products salesmen and county

agents made up much of the crowywith county agents from at least 12 counties in attendance.

The field day is primarily aimed at farmers. Only a few farmers showed up to hear speakers from SIU, the University of Illinois and the U.S. Soybean Laboratory lecture on new farming practices and disease control.

Gaylord Herman of Carbondale has a new Mazda with a unique rotary engine parked in his driveway. The Japanese import was purchased in California but Mazda dealerships in the mid-west are expected to open in the near future.

Local Mazda owner praises new Wankel rotary engine Will you have a Mazda, or a car with a Wankel rotary engine in the next few years? Probably.

By Cheryl Kruse Student Writer

There's a "new animal" in town, and Gaylord B. Herman keeps it in

This driveway.

This "horse of a different color" is a Mazda. The Mazda is really a car with a different engine. It's a rotary engine, it doesn't have any

pistons.

On the outside, the Mazda looks

Dike many small foreign-made imports. It is, in fact, imported from

Japan, a product of the Toyo Kogyo

Japan, a product of the Toyo Kogyo Co.

Under its hood, Mazda's similarity to any other import ends. What is so new and different?

The Wankel rotary engine.

The revolutionary Wankel engine has a rounded, triangular rotor whirling in a fat figure 8-shaped combustion chamber.

This type of engine has relatively few moving parts, which results in a compact package and one that is extremely quiet.

The lightweight engine has only 70 parts, three of which move, compared to 270 parts and 166 moving parts in a conventional six cylinder

parts in a conventional six cylinder Because the Wankel engine

Because the Wankel engine produces a high amount of hydrocarbons, it requires an exhaust reactor in which combustion leftovers burn vigorously before going on out the talipipe.

This type of emission-control device will not be used by piston engines until 1974.

As for performance, Mazdas accelerate almost as hard at 70 m.p.h. as they do at 30. A zero-to-60 run averages about 10.2 seconds.

Mazdas are slowly migrating from the west coast, east-

Gaylord Herman purchased his Mazda in California. He said there are also dealerships in Dallas and

Denver.

Are there going to be Mazdas in the midwest? Yes. Herman said that according to a California dealer, a dealership is being planned for Chicago, to open in November.

ber.

As a three-month owner of a Mazda, Herman is quite pleased with his car.

Besides superior performance. Herman says he also enjoys the cominess of the automobile. He said four people can ride comfor-tably, with plenty of leg and head

room.

Herman is also pleased with the fuel economy of the Mazda. "It can use the cheapest gas the U.S. laws allow. I get about 22 miles to the gallon," Herman said.

Asked about Mazda disadvantages Herman said, "Sometimes, if I'm in a hurry in a gas station, and the attendant happens to notice what kind of car it is. I wind up talking for 20 minutes about Mazdas and Wankels and what their futures are going to be." are going to be.

are going to be."
Summing up the car, Herman said. "I drive a Mazda not because it is a fad, but because it's the best car around. The engine is the engine of the future. Within the next several years all cars will have the Wankel engine.

Besides, the car is good on the road, economical, and the exhaust is much less harmful to the environment."

Special ed awards of \$96,400 granted

Public Aid Department adds three case aides

The Jackson County Department of Public Aid has added three case aides to handle the increasing num-ber of welfare cases in the county.

Mary Rees, casework supervisor, said that new employes increase the number of case aides at the Mur-physboro office to five and the professional staff to 21.

The staff serves over 4.000 recipients who receive about \$4 million a year, or an average of \$1,000 per person. The county public aid office handled 3.000 cases last year. Almost 20 per cent more people are receiving welfare checks now than at that time, she said.

Public aid assistance is administered to the aged, blind, disabled and dependent children. General assistance is given to needy persons who fail to qualify in public assistance categories, Mrs. Rees

The new case aides-Betty Webb and Claudia Consiting both of Car bondale, and Roberta Kramer of Carterville—began work on July 1.

The job of case aide involves establishing eligibility of new cases and making sure that all the needs of our cases are met," Mrs. Rees

The county public aid office had needed new aides for several mon-ths, but was required to wait until Springfield authorized hirings. All funds are controlled by the state office rather than being allocated in the form of budgets for each county,

The state public aid appropriation has been increased from \$1.2 billion in 1971-72 to \$1.5 billion for the current year, Mrs. Rees said, representing an increase of 25 per

Jackson County will not receive any of the 2,128 additional job placement workers made available to the state by a \$50 million ap-propriation by the Illinois propriation by the legislature, she said.

Political campaigners to earn class credit

By Debbie Raterman Student Writer

Campaign workers for Democrat Ken Buzbee and Republican Gale Williams will have more in common this fall than a desire to see their man in the Illionis Senate. Several of them will be members of a unique undergraduate course, Govt 350, Internship in Public Affairs. Bill Shade, who heads the course,

described it as "an alternative lear-ning experience to the classroom."

ning experience to the classroom. The course is open to students in any major who "would like to work with any governmental agency, or any agency involved in the governing process—such as political parties." Shade said.

Writers' co-op offers new creative outlets

By Bennett Boyd

The Writers' Co-op of Carbondale is a new local organization, hoping to offer culture outlets for artists, writers, poets, photographers and graphic artists.

The non-profit group is not goal-oriented and is totally self-ontained, according to Tim Weber, member of the organization. "There is a great deal of talent in Carbondale and no one taps it," he said.

The co-op is raising money for

publication of a magazine in the near future. Weber said. The magazine format will be mostly a collection of fiction, poetry, photography, experimental forms of journalism, photo essays and graphic art, he said.

"The magazine will contain many forms of experimental styles of writing that do not fit well in classical publications. Basically, the works defy literary description and are seldom accepted for publications such as Grassroots or Search," said Weber.

Revised housing code ordinance expected to be approved soon

A revised Carbondale housing code ordinance is expected to be approved soon by the Federal Housing and Urban Development agency (HUD) in Chicago, John Yow, acting code enforcement director, said recently.

The city must enforce housing codes to be eligible for federal grants," Yow said. "The city annually sends a copy of its housing codes to HUD for approval."
"HUD reviews the codes to make sure they conform to federal guidelines and are constitutional," Yow said. "HUD usually adds or takes away from the codes that are submitted.

"The housing codes are a strict ordinance to keep property values and city areas from becoming bighted and rundown." Yow said. "The codes apply to private housing the codes apply to private housing. "The codes apply to private housing only, not to commercial establish-

only, not to commercial establishments.

"The codes are to prevent substandard housing from being erected or lived in," Yow said.
"Housing codes deal with issues such as the number of square feet

required per person and the number of windows required in a basement." Yow said "The codes stipulate, for example, that a dwelling must have hot and cold water and that a cellar may not be used for occupancy.

"The revised housing code ordinance has two major changes," Yow said.

Yow said.
"The first change concerns the use of lead paint," Yow said. "Lead paint is now prohibited on either the exterior or the interior of a house. The old code did not mention lead

paint.

"The second change refers to the primary responsibility of occupants," Yew said. "This simply means that every occupant over 18 years-old is responsible for the upkeep of the property. This is vaguely stated in the old housing code.

"Other revisions in the housing code deal with organization of the codes," Yow said. "They are alphabetical and numbered now." If HUD accepts the revised code.

"If HUD accepts the revised code then it will be sent to the city council for approval," Yow said.

Carbondale to seek industrial development

By Pat Nussman Daily Egyptian Staff Writer

The newly-created Division of In-dustrial Development, charged to And industry for Carbondale, has developed five or six "prospects" during its first month of official overation.

According to Stan Bond, assistant director of the division, negotiations with the three most promising prospects have not run into any real problem areas yet, although there is keen competition for the companies.

"I had anticipated that if we could get just one person interested we would have something," Bond com-mented. "Carbondale has not had any new industry in 10 years."

The division was established out of a desire to get a broad economic base for Carbondale, he said, as well as to supply jobs and attempt to stabilize some of the more mobile aspects of the community, such as students. students.

Carbondale, Bond said, is concer-Carbondale, Bond Said, is concer-ned with getting light to medium in-dustry, since the division feels that it would not be advantageous for the city to depend on one large industry, such as the University

The ideal situat Bond com-mented, is to have waree or four small industries employing Carbon-dale residents.

"We are looking almost ex-clusively for clean industry," Bond commented. "We don't want smoke stacks or chemical affluents in Car

Bond cited the electronics in-dustry or certain kinds of steel production as the 'clean' companies which Carbondale is seeking.

"It is possible to get so lean and hungry that you don't care," Bond

commented, "but we're not at that point."

Of the present prospects, none of them present any kind of pollution problem, according to Bond.

The job of the Division of In-dustrial Development "begins and ends" in promotion, he said.

The division works closely with the promotional arm of the state, Bond said. Any interested industrial prospect can contact the state, which puts the industry needs into a computer bank and contacts prospective communities.

The division responds to any prospect with information about the community.

"We initiate some contacts our-selves," Bond said, "but that is a very rocky road."

Bond's position in the division is financed by the federal government in order to stimulate employment in Carbondale.

"I feel I represent an investment their part," he said. on their part,

Phillip Baewer, the director, was provided to the city by SIU. During the administration of former President Delyte Morris, the University agreed to help finance the division, but it never materialized at the point, Bond said.

When the city received financing by the federal government, the University assigned Baewer, who is on the staff of the Department of Community Development, to his position in fulfillment of the earlier agreement, Bond said.

Baewer is a "gift" for one year,

"But If we can show any sort of progress at all, there is a deter-mination to keep us going." Bond

According to Weber the co-op is basically an oral organization. "We give readings of our own works or read each others" manuscripts and discuss them. We also do a lot of discussion about the communication process and theory," he said.

The membership of the co-op is not static, he said. Eight regular members and nearly 38 others comprise the co-op. More people will become involved as layout work begins on the magazine, he said. According to Weber, the group will try to cut out middle men in the publication of the magazine. "We will not have to go through publishers, agents, or layout artists," he said.

The magazine will be printed by the writer's co-op in Champaign, he said. "It will be printed fiset to allow good reproduction of artwork and photography, and the amount of money we raise will determine the form and size of the magazine."

The co-op has open meetings Sundays, beginning at 6 p.m. at 510 Carico St. Anyone wishing to contribute or just listen is welcome.

Volunteers brief SIU newcomers

(Continued from page 1) ming the total college environment with an undergraduate orientation volunteer, who is known as a New Student Week Leader, she said.

During this week information, clarity and understanding of University policies affecting students is made available, she call

students is made available.

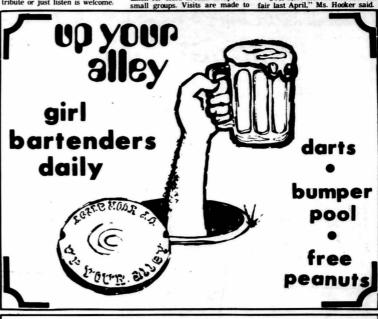

A New Student Week Leader occupies a room on each floor of all campus dormitories, "thus making it possible for the new student to ask it possible for the new student to ask questions at most any time during the quarter," she said. "This is planned this way because we are trying to make orientation an ongoing process," she added. During the first three days of New Student Week, the new students are taken for tours around campus in small groups. Visits are made to

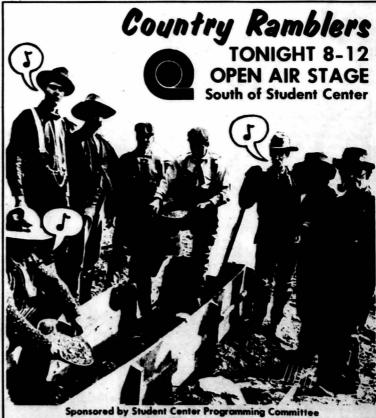

Textbook Rental, where the student picks up his books for the quarter, and through Morris Library, she

Ms. Hooker said there will be many other activities available during the first week, but many have not yet been finalized.

On Thursday, September 21, however, both new and returning students can attend an Activities Fair which will be held in the Ballrooms at the Student Center, she said. Representatives of most of the recognized student organizations will occupy booths to explain what their organization is about, she said.

"Over 2,000 students attended the fair last April," Ms. Hooker said.

'Anastasia' : 'beautiful'

By Pat Nussman Daily Egyptian Staff Writer

Several brilliant performances raised the Summer Theater production of "Anastasia" from merely pedestrian melodrama to what was mainly a beautiful, and rather touching,

Not to put down the rest of the cast, but to his reviewer. Paula Parker as the Dowager Empress was the catalyst who injected life into the drama of the lost grand duchess of czarist

The first act, although interesting, dragged considerably. It was when the Dowager Empress appeared, small but mighty with her barbed wit and regal manner, that the scene became real and the outcome important.

The interview between Anna, the girl who claims to be the grand duchess Anastasia, and the embittered but gallant Dowager Empress is gripping and is the best scene in the play.

gripping and is the best scene in the play.

Ms. Parker is magnificent here—first in her hostile and mocking rejection of Anna's claim to her love and acceptance and then in the touching crumbling of her doubts.

Leslie Ann Rivers as Anna, shines here as she did not in the slow first act, showing the personality of the lost princess for the first time. This scene, as in the rest of the play, is filled with descriptions of the past—the old life in the Russian Winter Palace, the life before the revolutionary guns cut down the czar's family. These descriptions of little scenes from the second control of the the second c

These descriptions of little scenes from the past seem endless and if it were not for Ms. River's excellent work during the interview scene, these could have become tedious indeed. As it is, this part of the play is both beautiful

And as usual, the set designed by Darwin Reid Payne is beautiful. He always seems to do a magnificent job with the Summer Theater a magnificent job with the Summer Ineater sets and, this time, the Rennaisance-style pain-ting that takes up one side of the set is especially note-worthy.

The entire company of "Anastasia" did a

good job, even working against several dif-ficulties in the script, which in places tends toward over-sentimentality. That is to say, it gets slightly gooky.

But the cast did mostly overcome any flaws in the script. And made "Anastasia" a very

watchable play.

Aspects of 'Anastasia' Villians Paul Ruben, Chuck Stransky and Ron Harrington plot to pass off a ragged girl found near a canal as Anastasia, lost daughter of Nicholas II (top). Above left, Paula Parker as the Dowager Empress and Liis Kuningas as her companion arrive for an interview with the girl who is possibly Anastasia. Above right, Leslie Ann Rivers as the girl, Anna, flinches from a painting of the missing grand duchess. Bottom, Rubin and Harrington examine the wounds on Anna's hands that could identify her as the missing Anastasia.

Malvin E. Moore (standing), director of the educational leadership program, talks during an orientation session to the doctoral students who are taking part in the special two-year gorgam. From left are William A. Fingal, Mississippi Valley State College, Itta Bena; Sister Shella O'Brien of Clarke College, Dubuque, Iowa: Raymond Hicks, Wiley College, Marshall, Tex.; Sister Miriam Anstey, Marycrest College, Davenport, Iowa: T.J. Robinson, Jackson (Miss.) State College, and Robert L. Marshall, Ablany (Ga.) State College.

Future college leaders in special SIU program

By Sue Roll Daily Egyptian Staff Writer

SIU faculty members from developing colleges are now at SIU participating in a program which will give them doctorates in two years, preparing them for ad-ministrative positions at their college after graduation.

Malvin Moore, professor of educational administration and foundations who prepared the proposal for the program, said it is specially valuable because the program eliminates extraneous proparation for the degree and con-centrates on the practical perfor-mance of the student in his specialty area of administration.

The program. called, "Developing Leaders in Developing Institutions," is financed mainly with funds from the Department of Health. Education and Welfare amounting to \$65,000 for the two year program.

The original planning grants were awarded by the Gulf Oil Foun-dation. Moore said he received notice in June that Gulf was awar-ding an additional \$5,000 grant to the program.

Similar programs are being adopted in many universities throughout the nation, but only SIU, Harvard Jiniversity and New York University have two-year programs of administrative training for four-year institutions.

The eight-quarter doctoral program provides six quarters of internship in administrative offices at SIU and one quarter externship at the student's home institution. During externship the doctoral fellow will concentrate on a problem at his college and base his dissertation on it.

"This will be a meaningful disser-tation intended to solve a major problem at each campus." Moore said, explaining that the problems chosen for study are typical of many developing institutions.

Moore emphasizes the in-dividuality of the program. "The coursework and internship will be individually tailored to fit the particular needs of each doctoral

Moore said the program focuses promarily on black institutions, but he said he had tried to recruit can-didates of all different backgrounds.

"I tried to get Indians, Mexican-Americans, Caucasians, Blacks, women, Catholics, Protestants," Moore said. "I tried to be a ecumenical as I possible could."

ecumencal as I possible cound.

Letters of inquiry were sent to 180 institutions asking them to partucipate in the program. Moore said. Of these, 63 candidates were nominated, from whom the final selection of the six fellows now at SIU was made by the College of Education. "The only tragedy is that we could only have six," Moore said.

said.

All of the fellows have master's degrees and will return to their colleges in a permanent capacity to help strenthen the administrative programs in which they speculize. The doctoral students are Sister Sheila O'Brien and Sister Miriam Anstey, both from college in Iowa; William A. Fingal and T. J. Robinson from Mississippi; Robert L. Marshall from Georgia and Raymond Hicks from Texas.

Marshall is a faculty member in the mathematics department at Albany State College in Georgia. He received his M.A. degree from Atlanta University and intends to specialize in institutional research

Hicks was with the academic counseling program at Wiley College, in Marshall, Tex. Hicks has his M.A. degree from Louisiana Polytechnic Institute at Ruston, and will specialize in student affairs administration.

Sister Anstey is vice president of student affairs at Martycrast College at Davenport, Iowa, and previously was a music teacher. She has two M.A. degrees, one from the University of Notre Dame in music and one from St. Louis University in

counseling. She will concentrate on student personnel work.

Sister O'Brien has taught Spanish at Clarke College in Dubuque, Iowa, for the past three years. She has an M.A. degree in Spanish from In-diana University and is also in-terested in student personnel work.

Robinson served as director of career planning and placement at Jackson State College in Mississippi, before coming to SIU. He has an M.A. degree in history from Eastern Michigan University at Ypsilanti. He will specialize in educational administration

Fingal is associate professor of hysiology and director of Fingal is associate professor of physiology and director of the resource personnel workshop at Mississippi Valley State College at Itta Bena. He received his M.A. degree in physiology from SIU in 1963. He will concentrate on the areas of student personnel and in-stitutional research.

No plans set for old hospital

By Bill Barth

Proposed plans for downtown redevelopment in Carbondale ap-parently will have no effect on the abandoned Holden Hospital

Charles D. Renfro, president of the First National Bank of Carbon-dale, said in a recent interview that no plans are being considered for the building in regard to the proposed redevelopment, he said.

Holden Hospital was closed in the spring of 1971 and patients were transferred to Doctor's Memorial Hospital following completion of a new addition there.

The First National Bank obtained The First National Bank obtained the property from Doctor's Hospital Corporation in the summer of 1970 for \$500,000. In October of 1970, the bank constructed a new building at 509 S. University Ave., just west of the former hospital.

Renfro said that to obtain the land for the new bank building it was necessary to buy the entire area. The hospital was not willing to sell unless all the land was purchased.

He said original plans had called for sale of the hospital building, but were later changed to assure the bank room for possible expansion.

Although no definite plans are being considered for the future. Renfro said that the area could be used to expand the parking facilities of the bank. The of the bank. The north wing of the former hospital was torn down a year after its purchase to make room for more parking.

"We thought it would be a great mistake to build a facility like this without some room for possible future expansion," said Renfro.

Another possibility Renfro expressed was that the building might e rented on a lease basis

"We've had some contacts, but nothing definite has come along," he said. Renfro declined to elaborate on the nature of the con-

Wedding ring holds clue to double killing

MUSKEGON. Mich (AP)—A yellow gold wedding ring worth an estimated \$50 may hold the clue to the identities of what appeared to be two young women whose nude, badly decomposed bodies were found Tuesday in a wooded, isolated area in northern Muskegon County.

Shoriffs derutities said the ring

Sheriff's deputies said the ring was a size 6½ and had the initials HGE inside, in addition to a manufacturer's mark and a notation showing it was made of 18 karat.

It is being returned to Muskegon for inspection by jewelers who are expected to be able to determine if HGE is a part of the manufacturer's mark or was stamped in later

Authorities also said Dr. Robert endrix, chief of the University of Michigan's department of pathology, was expected to establish positively sometime today the sex. race and age of the two.

Tentatively, authorities said one was believed to have been 5-feet-4½, aged 16½ to 17, with long brunet hair and no sign of major dental work. It was on this body that the edding ring was found

The other body is believed to have been 5-feet-2, aged 19 to 20, medium blonde, with several fillings in the

A red velvet-like ribbon found

A red verver-time ribbon found near the taller body also is being gone over for a possible clue. A young man riding a trail bike happened upon the bodies. Medical examiners said the bodies could have been there through last winter.

Stadium 'a frying pan'

Olympic problems mounting

MUNICH, Germany (AP)-MUNICH, Germany (AP)— Organizers of the biggest and costliest Summer Olympics have exactly one month to solve problems uncovered during five days of test competitions last week at the games complex. Opening ceremonies will be held Aug. 26 for the 16-day summer games in which 10,000 athletes from

nations will compete in 21

The Olympic budget is \$612 million, four times that of the 1968 Mexico City Games. Two million spectators will view

games live and hundreds of ions more will watch commillions more petitions via the world's largest television hookup, games officials

Golf record set without any clubs

BLOOMINGTON (AP)-Don Munson of Bloomington, noting that his city is not mentioned in the Guinness Book of World Records, set out to change that today—and believes he did.

believes he dio.

Munson, an announcer at radio station WJBC, hurled a golf ball around the Bloomington Municipal golf course in 91 throws. That is two throws fewer than the previous no-club record of 93 set at the Univer-

crub record or 93 set at the Univer-sity of Missouri.

Munson said a call to the editor of the Guinness book in London confir-med the record will be placed in the book.

"The more breakdowns now, the better," asserted president Willi Daume of the Olympics Organizing Committee before the start last Wednesday of the West German

Wednesday of the West German Sports Championships. And the Olympic test competitors in track and field, swimming, rowing, gymnastics, cycling and fencing did pinpoint technological and organizational problems, most of which appear easily solvable. But complaints about scoreboard malfunctions and cramped living

malfunctions and cramped living conditions in the Olympic village appear minor compared to that posed by the architectural focal point of the games—the world's

point of the games—the world's biggest roof, draped over the Olym-pic stadium and two nearby arenas. One newspaper called the 80,000 capacity Olympic Stadium "Ger-many's biggest frying pan." after athletes competing in torrid heat complained about erratic air con-ditions apparently caused by the roof.

Distance star Harald Norpoth said a suffocating lack of air on the track nearly caused him to abandon the 5,000-meter race, which he won in the slow time of 14 minutes 11.8 seconds. Long jumpers such as Heide Rosendahl also complained of being knocked off balance by winds sweeping onto the field from the tent-like stadium roof.

Athletes and sweltering spec-tators also lamented the solar magnifying power of the steel and spunglass roof, which cost an estimated \$52 million—twice as much as the stadium.

much as the stadium.

Another problem exposed during the trials was that of the hammer throw area. One competitor flung the 16-pound ball onto the track three times, narrowly missing a runner on one occasion.

The Olympic Village, with its strictly segregated women's compound, opens its doors to national teams next Tuesday. Village officials hope by then to have completed installation of mufflers on ventilation and refrigeration systems, which caused complaints of noise during the test competitions.

petitions.

Finishing touches to landscaping in the "Olympic Park" won't be complete until later, with the public being excluded from the grassy, hilly area until Aug. 10.

Riding to victory in roundabout way

By Elliot Tompkin Daily Egyptian Sports Writer

There are going to be 40 bodies lying on the track of the West Frankfort Athletic Field Saturday

night.
Only four of those bodies will show any signs of life. They'll belong to the members of the winning team in the six-day marathon bicycle race presently being run. At this minute, the leaders of the rach are four young men represent

At this minute, the leaders of the pack are four young men representing the Bank of Herrin. Tim Byrne, Rich Brady, Rick Bradon and John Bayles have circled the track more times than any of their opponents. The race began with 15 four-man teams, but five of the teams found the competition and heat to be too much, and were forced to drop out of the race.

A bicycle race isn't as much fun as it may sound. "There's an awful lot of work involved," Rick Bran-don, one of the leaders said.

The heat is one limiting factor. "With this hot weather, we decided to take 15 minute turns." Brandon said. "During daylight we try to keep our lap times under 60 seconds. At night we like to stay under 55 seconds."

That's almost 30 miles an hour on a cinder track. It's tough on the riders and the bicycles.

"Yeah," Brandon said, "tak bearings in the wheels always need replacing. Chains break and tires blow. This is pretty rough com-petition."

The boys don't seem to mind the competition too much. A \$300 first place prize helps to ease the pain. Second place firishers collect \$200 and \$100 goes to the third place finishers.

finishers.

In addition to the marathon races there are also special events. Satuday night at 7 p.m., there will be a special "Old Timers" Sprint Race.

New campus dorm wrinkle: single-room special deal

By Larry Glowacki Daily Egyptian Staff Writer

Beginning fall quarter 1972, new and incoming students who plan to live in on-campus housing will be offered the opportunity to live in single occupant rooms.

These single rooms are available at Brush Towers, University Park and Thompson Point residence halls.

Sam Rinella, busing directors.

halls.

Sam Rinella, housing director, said an additional charge of \$50 per term for a single room will be added to the normal rate of \$385 per term for a double room.

A single room occupant would then pay slightly more than \$1,200 for three quarters. This includes utilities, linen and meal service.

Rinella cited the current drop in enrollment as one of the reasons for offering single rooms. The Univer-sity has about 5,600 spaces available for single undergraduate students in on-campus housing.

Last fall, there were 300 vacan-ies in on-campus housing. This

Last fall, there were 300 vacan-cies in on-campus housing. This necessitated the closing the top two floors of Neely Hall, the women's dorm at University Park. Rinella estimated 1,100 vacancies this fall. He also said that, if the situation warrants, the University will close one of the dormitories. The dorm to be closed, if a closing is

necessary, has not yet been determined, he added.
University on-campus housing for the single undergraduate student includes Thompson Point residence halls, located near Lake-on-the-Campus; University Park residence halls, situated just east of campus; Brush Towers, the high-rise dorms adjacent to U-Park; Southern Acres Residence Hall, southeast of campus and VTI Dorm, at the VTI campus.

Thompson Point features coed dorms. Steagall Hall, the first coed dorm at SIU, was opened last fall. Two additional coed dorms, Warren and Smith halls, will be opened this

fall.

There is a possibility, Rinella said, that one of the dorms at Thompson Point will be opened to house single graduate students. If it could not be filled, the grad students would occupy the upper floors and freshmen the lower, Rineila said. Pierce Hall was named as a possible location for the first on-campus graduate student housing. housing.

housing.

The proposed quarterly rates for the 1972-73 school year are—after a 2.6 per cent increase over 1971-72—\$885 for Brush Towers, Thompson Point and Neely Hall in University Park; \$375 for VTI Dorm; \$360 for the Triads (men's dorms) in University Park and \$345 for

Southern Acres Residence Halls. This proposed rate increase averages about \$10 more per quar-ter than last year.

Students who plan to live at Brush Towers, Thompson Point or Neely Hall will pay \$1,155 for three quar-ters of room and board. Those living ters of room and board. Those living at VTI Dorm will pay \$1,125, at Triads \$1,080 and at Southern Acres

Rinella regards dorm life as a worthy experience for the new student.

student.
"I think all freshmen should live in accepted living centers," he said. "I think it is needed until the transition is made to adjustment to college life."

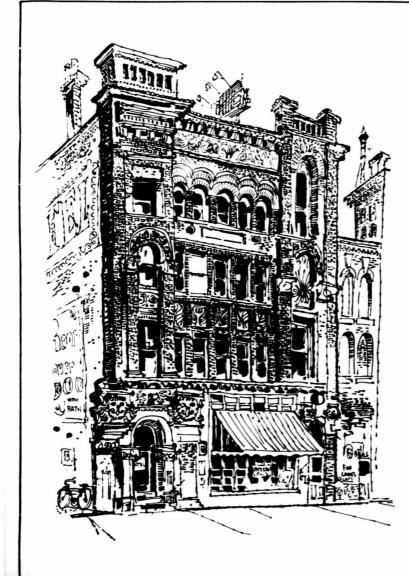

He defines an accepted living cen-ter as "a dorm or residence hall-type structure with supervision on the floors and building, which has a food service and conforms to the qualifications of the University."

James Osberg, coordinator of Housing Information Center, suggests on-campus housing for the freshman.

In comparing on-campus to off-campus residence halls he said, "In terms of a residence hall, I would say it would make no difference. But, if I were a freshman making living arrangements without ever seeing the place. I would go to the University."

Queuing up

Moving-in time can mean waiting-time for Southern's off-campus residents who find that a lot of people have the same idea at the people have the same idea at the same time—applying for water, fuel or telephone service and making the necessary deposits. Utilities officials advise that time, trouble and tempers can be saved by advance applications for service and providing the utilities company with full information about where the service is to be required.

Utilities deposits add up, too

Housing cost includes more than rent payments

By Robert W. Smith Daily Egyptian Staff Writer

Establishing residency or moving into the Carbondale area can throw a budget into the red if some costs

into the Carbondale area can throw a budget into the red if some costs are unknown or misjudged. The following information may help compute that budget for costs of electricity, natural gas, water, sewage and telephone costs.

Fred Davis, office manager for Central Illinois Public Service in Carbondale, said required deposits for electrical and natural gas hookups vary from as low as \$15.00 to \$165.00 or more, depending on where the service is established.

"Deposits are based on the average of the previous tenant's bills for a two and one-half month period," he said.

This means that a person occupying a residence that has a higher electrical or natural gas usage will be paying a higher deposit than a person that might occupy residence where smaller quantities of electricity or natural gas are used he said. of electricity or natural gas are used, he said.

Davis pointed out that at some apartments and dormitories there is fixed deposit rate that must be paid within a week after the person

moves in.
"Anyone moving into apartments or dormitories should check with the landlord or CIPS about the required amount," he said. Where two or more students share an apartment or dormitory room,

only one person can sign up for the service, he said.

This person is then responsible for the service, thus eliminating con-fusing billing situations, he ex-plained.

EOG gets fund increase

substantial increase in federal funds to aid students from low-income families will be available at SIU at Carbondale during the 1972-73 school year beginning in Septem-

Funds for the Educational Oppor-

further financial

"Any further financial arrangements can then be made between themselves." he added. Davis said the deposit is refunded when service is disconnected or if bills are paid on time during a 12 month region. month period.

"If an account is paid on time at least nine months out of a 12-month period, the deposit is refunded along with 7 per cent interest," he said.

who have established credit with other companies will pay only one-half the normal deposit if the reply from the other company indicates their credit has been good, Davis explained.

Davis explained.

In determining good credit status.
Davis said, it is "the paying habit
we're looking for."

If no reply from another company
is received or the credit report is
determined unfavorable, the other
half will be required, he added.
Davis said the person moving to
Carbondale will find it convenient
and time-saving by writing in ad-

and time-saving by writing in ad-vance for a service application. A request also should be made concer-ning the amount of the deposit required, he said.

required, he said.

Determination of the required deposit cannot be made unless the deposit cannot be made unless the exact address, apartment or room number is known, Davis said. In rural areas, the name of the previous tenant or landlord is usually required, he added.

The beginning of every quarter at SIU is a peak time for all public services in Carbondale, S. M. Cleaver, service office supervisor for General Telephone, said.

"We'll be happy to start accepting applications now. It will save a lot of people from waiting during the peak time," he said.

tunity Grant program (EOG) will total \$294,000, compared to less than half that amount, \$140,000, in 1971-72, according to Raymond P. DeJar-nett, assistant director of SIU Student Work and Financial

'Tis better to have bought and lost.

than never to have bought at all'

DAILY EGYPTIAN CLASSIFIED ADVERTISEMENTS!!

Cleaver said the minimum deposit required for telephone service is \$30.00, and is required from anyone that has not had previous service with General Telephone Co. or another company where his credit is good.

He said all accounts are reviewed

He said all accounts are reviewed semi-annually. If all bills have been paid promptly during a six-month period, then the deposit is refunded with 7 per cent interest. Cleaver pointed out that the cost for installation of a telephone varies with each order.

with each order.
"Resident line installation costs
\$12.50 plus \$1.00 for each additional
telephone extension. There is also a \$2.00 charge for color phones and a

variable rate of less than \$10.00 for different cord lengths," he said. "Installation charges are not refundable," he said. "but credit for refundable," he said. "but credit for color phones and cords will be given if a person keeps service with General Telephone each time he

Contract advisers available

Union offers help with tenants' problems

When a student faces a hassle about housing, he needn't struggle with it alone

Counselors at the Student Tenant nion (STU), an organization to Union (STU), an organization to promote good student housing, are available to advise students on where they stand when disputes with landlords over contracts or other matters come up.

According to Doug Diggle, direc-tor of counseling services for STU and one of the group's founders, the counselors, who are students trained in legal matters associated with housing, can interpret a con-tract or a situation and advise the student on whether a lawyer is needed

In addition, the counselors can in-

In addition, the counselors can instruct students before they rent on what they should look for—and look out for—in a contract. Many sample contracts are on file at the counseling service's quarters in the University Ombudsman's office. Students may check to see if the contract they're considering signing is on file and go over it with a counselor. He may even wish to bring his own copy of a contract in for interpretation before signing. Diggle suggested. Diggle suggested.

Although the counseling staff can advise students and explain housing codes, regulations, contract terms and laws. Diggle said, members of the staff can assist tenants only in disputes not actually requiring the services of a lawyer.

services of a lawyer.

The tenant union intended to hire a lawyer on a part-time basis to counsel students, but University Legal Counsel T. Richard Mager ruled last fall that activity fee montes cannot be used to hire an at-

The STU does, however, have legal advisers available to them,

Diggle said.

The counseling division is only

The Student Tenant Union is compiling data from a survey of students' off-campus living conditions—including such things as muddy, unsightly grounds.

one of several groups important to the operation of the STU, which was formed in Carbondale in May, 1971, and was formally organized in Oc-

The housing services division, headed by Brenda Crimmins, a master's candidate in family economics and management, is compiling data from a survey given spring quarter to a random sample of about 300 students from approximately 30 off-campus living

The survey was designed to deter-mine living conditions in city facilities and how students feel about the places in which they live. Mrs. Crimmins said. It also asked students to rate their current

housing according to plumbing, heating, lighting, security, noise levels, food service, maintenance and other physical aspects of the

"The survey will give students some sort of indication as to what are the better bets," Mrs. Crimmins said. "If a student has a choice between two places and money is not a deciding factor, why shouldn't he know which has a higher rating and

more to offer?"

Results of the survey will be distributed to the students by the end of this quarter and again fall quarter, she said. Ratings by price and facilities, whether or not STU considers facilities acceptable and how tenants rate landlords may be

included in results

included in results.

More surveys hopefully will be taken soon, Mrs. Crimmins said, and campus housing is to be included in the evaluation. The surveys are intended to give students as much information as possible before they sign contracts.

as much information as possible before they sign contracts. Besides the direct services to students provided by the counseling and housing divisions, there are the executive action and special projects divisions working behind

The executive action division, headed by Ray Buss, a doctoral student in economics, maintains contact with local code enforcement agencies and the Chamber of Comcity. University and students.

The special projects division is the fund-raising arm of the tenant union, Diggle said. Bitte Bitters, a masters student in business ad-ministration, heads this division which procures funds (the union is funded by student activity fees) and handles overall administrative chores of the union.

Despite all these divisions pulling Despite all these divisions pulling for the success of the union, one other ingredient is vital to the organization—volunteer workers. At present the union has a shortage of staff members, especially in the counseling and housing division. Diggle said. Both the counselors and those who conduct surveys are volunteers. The counseling division is now staffed by only five part-time counselors.

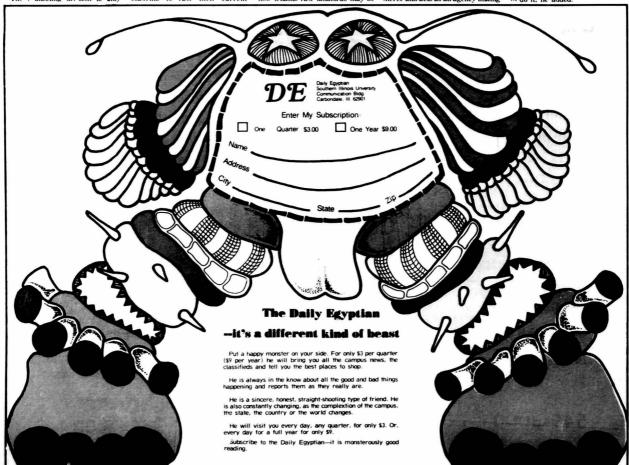

However, a brief, non-credit course on landlord-tenant relations, taught by a lawyer, will be offered in the fall and will hopefully stimulate interest in the union, Diggle said.

Diggle said he believes there is a definite need for tenant counseling

"We can't always get the student out of the fix he has gotten himself in," he said. "Sometimes we just have to tell them they messed up. Unfortunately, it happens. But we can let them know where they stand and what alternatives are open to

Although the union is available to Although the union is available to serve any member of the university community. Diggle said, it is usually students who rent. The union itself is a group of students formed by students for students.

So far, the union's efforts have resulted in better relations with some landlords, but a lot of work remains to be done, Diggle remarked. And the STU is anxious to do it, he added.

Page 8-B. Daily Egyptian, July. 28, 1972

All the comforts

Jack Magnusen's home-away-from-home is not only mobile but self-propelled. The SIU marketing student turned a 1953 Dodge school bus into a comfortable abode, which he parked at a Carbondale mobile home park. It's paneled, carpeted and equipped with sink, toilet, stove, hot water heater, refrigerator and even a stereo center—and, of course, TV which Magnusen and girlfriend Debbie Polston are watching.

Budgets helped by mobile homes

More than 5,000 mobile homes are located in over two dozen mobile home parks in and around the Car-bondale area, John Ham, president of the Greater Egyptian Mobile

the Greater Egyptian Mobile Home Association, says. And about 90 per cent of the mobile home occupants are SIU students, according to an unofficial survey of mobile home park lan-dlords.

dlords.

Ham said the primary reason a
person owns or rents a mobile home
is the economical advantage,
"which is important for those who
have little income."

which is important to these who have little income. He said a person buying a mobile home can shop with several area mobile home dealers. Then, with the many different types of mobile home parks in the area, the mobile home can be placed on a lot suitable to the in-dividual needs, he said.

The survey of landlords indicated that most mobile home parks are located outside the city limits, although within two miles of SIU. The University operates a mobile home park on campus—but its days may be numbered because University officials say, of a need for the space for other uses.

sity officials say, of a need for the space for other uses.

Monthly lot rents are higher at some of the mobile home parks near or adjacent to the campus. But the monthly lot rental rates for the area range from \$30 to \$50.

Although some lots are cheaper than others, a water charge may not be included in some of the lot rental to the lot period.

be included in some of the lot ren-

"This could result in an increase of \$5 to \$10 per month," one landlord

Most mobile home park landlords have rental units available on either a monthly or quarterly basis. The rates vary according to the number of occupants in the unit.

For two occupants, the rents range from \$200 to \$250 per quarter per person. Three occupants are charged rents ranging from \$175 to \$225. These rates are for two and three bedroom mobile homes. Some

three bedroom mobile homes. Some smaller mobile homes rent at slightly lower rates.

During summer quarter, when SIU enrollment is down, the rental ranges are \$20 to \$50 lower.

One landlord warned that a person interested in renting a mobile home or lot should be cautious.

"There are many advantages at some mobile home parks that are not at others, although the prices may be the same."

The following advice was offered by several mobile home park landlords:

diords:

-Determine what the major heat supply is. Some mobile homes operate with natural gas, propane, oil or electricity. Monthly heating bills can vary markedly between these fuel sources.

-Determine whether insulation is adequate. Poor insulation may mean greater heating or air conditioning bills.
-Determine whether air con-

ditioning bills.

Determine whether air conditioning is available.

Look for mobile homes with insulated water pipes to avoid freeze up during winter months.

Check whether roads in the area are paved. Unpaved roads usually mean excess dust inside the mobile home.

-Select the mobile home park with patios, grass and shade trees.

Students should determine the accessibility of the mobile home park to the University campus.

Select the quiet mobile home

-- Select the mobile home park.

-- Select the mobile home park that allows adequate space between mobile homes.

-- Determine whether pets are allowed in the mobile home park.

Off-campus dwellings are varied, abundant

There'll be no problem finding the kind of off-campus housing the student is looking for, the Housing Information Center reports.
"I would say that there will be spaces of every kind." James Osberg, coordinator of Housing Information Center, said. The center is in Building C. Washington Square.

is in Building C, Washington Square.
"The kind of place that will be pretty tight is the most inexpensive kind of housing," he said. "Those boarding houses approved for sophomore men and women. It's the kind of place where you can have a room and kitchen privileges for \$90 a quarter."

Oshere, said the large amount of ...

Osberg said the large amount of new apartment complexes that have been built in Carbondale will have a definite effect on both the number of spaces available and the kind of

definite effect on both the number of spaces available.

"It's possible a student could find just the place he's looking for," he said.

Five off-campus residence halls have applied to be University-approved for freshmen. The Student Baptist Center, Wilson Hall and the Stevenson Arms residence halls have been approved for freshmen for the coming year. Applications from University City and the Pyramids residence halls are currently under consideration. Freshman approved residence halls will continue to rent to sophomores, juniors and seniors, Osberg said.

In order to be University-approved for freshmen, the off-campus residence halls must have a resident counselor, resident fellows and a food service.

"They would have to provide all the vital senting provided on care."

and a food service.

"They would have to provide all the vital services provided on campus." Osberg said. "There will be a sufficient number of spaces available in off-campus housing for the freshman this year."

In commenting on off-campus housing, Osberg described the general pattern of housing rental.
"The first kind of housing that

The first kind of housing that

goes," Osberg said, "are the houses in the country. Then the houses in towa. Next, the apartments in the country and afterwards the apartments in town. Finally, the trailers in the country, then the trailers in

Osberg explained some of the ad-antages that students see in living

Osberg explained some or use of vantages that students see in living off-campus. "There's more of a variety of types of housing off campus," he said. "You can go from something that has its own house rules, like the Baptist Center, to something very loose, like the Wall Street Quads. He cited the student's badget as another major reason for living off campus.

another major reason for living off campus.
"Some of the sophomore approved places, though they're not beautiful, can go for as little as \$90 a quarter." Osberg said. "A student who has the money can live in a place for \$300 a quarter, or more. On-campus housing is regimental. They can offer no more than what they have."

Osberg said that some of the offcampus places—all privately-owned—offer extras, like swimming pools. This also attracts students, he said.

"Off-campus residence halls have tended to be a little more flexible in payment schedules and meal arrangements," he continued. "But that can be a disadvantage too," Osberg said. "When students have problems it might be easier to deal with the University. Like in the spring of 1970. University residence halls gave refunds when the students left early. Some off-campus residence halls did not."

One of the major reasons that students desire off-campus housing, Osberg admits, is that it is away from the University.

Osberg cited the new Brookside Manor apartment complex as the kind of place students might like to live, if they qualify.

"Rents at Brookside Manor are

"Rents at Brookside Manor are government subsidized," Osberg said. "They operate under FHA guidelines. "The tennent"

guidelines.
"The tenant's rent there is based on his income and it's conceivable that a student could live in an apart-

ment for \$114 a month, utilities in-cluded. This has been unheard of in the Carbondale area."
William Burns, manager of Brookside, said the apartment development is privately owned and was privately built. It is govern-ment insured but neither govern-ment housing nor student housing, though some married students do live there, Burns stressed.

though some married students do live there, Burns stressed. Burns said most of the renters receive government subsidies under a Federal Housing Administration program. The maximum govern-ment subsidy available is one-third the rent.

A one-bedroom apartment, for example, can be rented for \$114.18 example, can be rented for \$114.18 with the maximum subsidy, Burns said. On the market, such an apartment would normally go for \$180 a month, he estimated.

Burns also explained tha. Brookside apartments are rented only to married couples. There are no singles apartments available.

The Housing Information Center is operated to assist students in finding off-campus housing, whether it be a private home, an apartment or in a residence hall.

be a private home, an apartment or in a residence hall.

Lists of the available housing in Carbondale and its vicinity are maintained and kept up-to-date by Osberg's office. Landlords are called every two weeks and new lists are compiled, Osberg said.

The center has brochures, available free of charge, on many of the off-campus residence halls. The center also maintains a policy which allows the student one free phone call from the office, in the event that he wishes to call a landlord immediately.

A tenant-landlord arbitration board also works through this office. The board acts as mediator in tenant-landlord disputes.

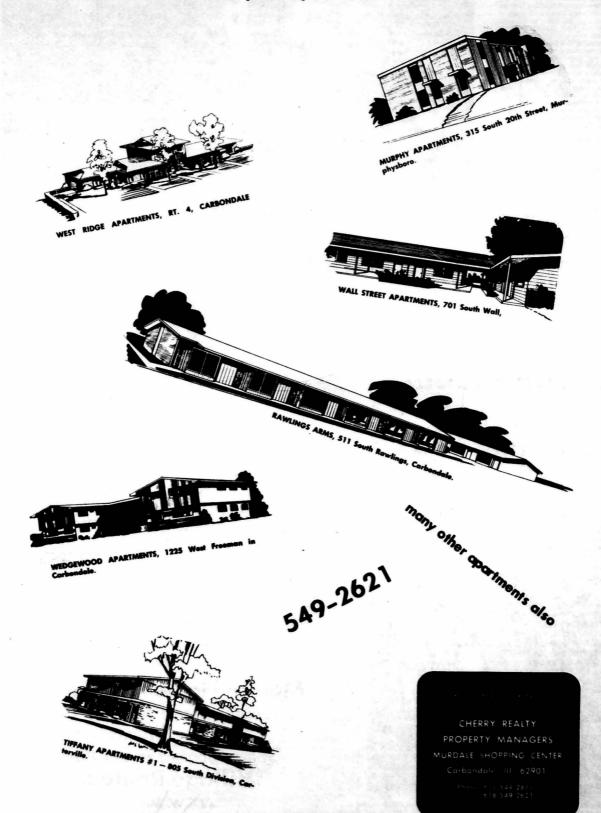

Members of the board are appointed by the student body president.

Anticipating a budget cut, Osberg said some of the center's services may no longer be available in the future. But the services are here now, he said, and the center staff will do its best to help students meet their housing needs in the coming year.

University controls have relaxed

Housing rules changes reflect the times

University regulations have un-dergone many changes during the past three years. That long ago, SIU maintained total control over housing situations for all single un-dergraduate students. The only ex-ceptions were students 25 years of age or older and those having com-pleted two years of active military service.

service.

According to a Board of Trustees resolution stated in the University Housing Regulations for 1969-70, "...single undergraduate students not reside nolly in those accommodations which have been and which continue to be classified by the Administration as 'Accepted Living Centers.' Any single undergraduate student who resides in accommodations not designated as 'Accepted Living Centers' shall be 'Accepted Living Centers' shall be 'Accepted Living Centers' shall be 'Accepted Living Centers' shall be

Accepted Living Centers' shall be subject to disciplinary action." Accepted living centers were defined as those that "provided facilities, food service and supervision comparable to on-campus residence halls.

residence halls."

So back in 1969, when this fall's seniors were incoming freshmen, the University realized not only an authority but also a serious in loco parentis responsibility over its students.

In the years between 1969 and 972, the University and the students have experienced controversy, protest, student movements, administrative shuffles and considerable growth.

And as the face of the University

changed, so did its concept of the student. Today's housing regulations reflect this changing at-

regulations reflect this changing at-titude.

The new housing policy and regulations for 197-72, also in effect for 1972-73, state that, "All single freshmen under the age of 20, not living with parents of guardian, are required to live in residence halls, either University-owned or similar privately owned facilities." Single freshman under 20 are therefore not allowed to live in homes, anarttresman under a are therefore not allowed to live in homes, apart-ments, mobile homes or trailers not specifically approved for freshman. The regulations go on to say that "Sophomores under the age of 21 not living with parents or guardian, are required to live in University owned

Samuel Rinella, housing director, says SIU is less restrictive than most schools.

or approved housing."

There are no University housing regulations for junior, senior, graduate, married students or any student over 21 years of age.

The penalty of violating the housing regulations is a denial of future registration until the violation is corrected.

Students in violation of the regulations experienced a

regulations experienced a crackdown this last spring when notices were sent to those violators traced by the University. The number of students affected was not available.

Sam Rinella, housing director, considers SIU as having a more

unrestrictive atmosphere than most universities regarding housing.

"Southern has some of the most lenient housing regulations in the state of Illinois," he said in a recent interview. "Most universities require all undergraduate students

Rinella also said it is possible that the housing restrictions on sophomores would soon be lifted, but added that restrictions on freshmen are likely to remain.

"I don't think we will ever say that freshmen don't have to live on campus," he said, "because of the debt incurred by the University and

the educational philosophy on the in-coming student."

One concern of incoming students is whether or not they will be allowed to have automobiles while residing in the dorms.

Rinella considers the auto regulations important in relation to on-campus housing. He feels some changes in the regulations are necessary to attract new students to the degree.

the dorms.

"My opinion is," he said, "that everyone should be allowed to have automobiles. In order to merchandise the on-campus housing, I would recommend that everyone, including freshman, be allowed autos."

According to the security office, the motor vehicle regulations state that all students can have cars.

Freshmen and sophomores can register them with the University, but cannot park in lots which require a parking permit. They can, however, park in the metered lots

Rinella added, however, that he thinks the present restriction of freshmen parking cars on campus should remain.

Students who have cars and live in the dorms are provided with parking lots near their residence halls.

By University News Service

Note to prospective college students: Entering Southern Illinois University at Carbondale for the first ume fall quarter?

Don't wait until fall quarter to be advised and registered for classes. If you do, you will have only 20 minutes to see your advisor and may risk closed classes holding you up in registration. That's the word from Carol Coventry, graduate intern in charge of pre-registration

orientation. She says:

Come down this summer before
the fall quarter rush and see your
advisor for a 45-minute appointment. Then go through sectioning
and the classes you want before
they are closed.

In addition you will have the
chance to go through preregistration orientation with your
parents and have any questions answered by Mrs. Coventry.

After the 9:30 a.m. orientation
program, you and your parents can

board a tour train for a look at the campus and living areas.

Mrs. Coventry has one word of ad-vice for the student pre-registering: Read all material you receive from the university, and bring something

Students who are unable to make the summer appointment they get when accepted to the university are encouraged to contact the ad-missions office for a new appoint-

Sue Goodrich, food co-op member, weighs an order of bananas. The co-op's formula for savings is bulk buying.

People's Mart lowering food prices by numbers

By David Ambrose Student Writer

Carbondale residents now have a method of combating high food costs if they are "willing to work" and "understand the nature of a co-op," according to members of the People's Mart food co-op at 214 N. Washington St.

Al Ross, member of the co-op's board, said the co-op was created "to try to do something about the outrageous food prices in Carbon-dalo."

The idea is to get some people together. "buy bulk food and distribute it among the members" for prices lower than they can find elsewhere, Ross said.

According to Dorothy Luczycki, member of the co-op, the People's Mart was organized by about 10 people at the beginning of winter quarter.

"We were having meetings about every week to get things organized," she said.

every week to get times organized." she said.

Membership is critical to success of the co-op. July 29 was the fifth order week with about 20 families involved. With increased membership, co-op members hope to reduce the cost of food, especially meats, by as much as 25 per cent, Ross said.

"Anyone who wants to join, may," Ross said.

He said those who wish to join may come to the co-op meeting at 7:30 Monday nights at the co-op, or to the distribution day from 2 to 6 p.m. Fridays at the same location. The initial fee to new members is \$5. Persons who belonged to a previous co-op in the Northwest Carbondale area, may join People's Mart for \$2. Ross explained.

"I would like to encourage world to info;" Ross said, "because world to info;" Ross said, "because

"I would like to encourage people to join," Ross said, "because the more people we have the greater savings we can offer by buying greater volumes."

Essentially, the co-op works in

Essentially, the co-op works in this way: On Monday nights members come to the co-op and place orders for what they plan to buy. They pay for half the amount.

On Friday the food is delivered to the co-op to be picked up by the members, and they pay the balance.

the co-op to get nourishing food to those who need it at a lower cost and allows them a period of time to pay

If potential members come to Monday night meetings, said Miss Luczycki, "they should come early so they can get to meet us and get into what's happening."

She explained that it can be confusing when all the members get together to place orders.

Doug Ingle, of Legal Aid, takes care of legal aspects of the co-op. Ingle was at least partially responsible for getting necessary authorization for the co-op to accept food-stamps.

"Doug knows what to do," Miss Luczycki said. "And it just hap-pened that we had everything right to get food stamps." According to Ross the co-op's procedures allow the membership to make all of the decisions involved

to make all of the decisions involved in its operation. "The board is just for the functionary job of keeping the books and records," he said.

The present board, one-half black and one half non-black, is temporary, Ross said. The Mart's annual meeting in October will elect a new board, which also will have balanced racial representation.

Meanwhile, the co-op continues as a collection of people working together, "to answer the need of getting nourishing food to people at at a reasonable cost—in this case the lowest cost."

Dormitories at Thompson Point (above) are among the on-campus halls which have facilities for paraplegics at SIU—and sidewalks with curb ramps are among the essentials provided to help them. Gwenn Wolf (below) wrote a letter to the University newspaper declaring that wheelchair students don't want sympathy—just the convenience necessary to allow them independence

Suitable housing scarce for 'wheelies' off-campus

By Robert W. Smith Daily Egyptian Staff Writer

The housing shortage that plagued Carbondale during the last decade now seems to apply only to the physically handicapped student.

The number of SIU students with physical handicaps ranges from about 400 to 500 during a school year, Richard DeAngelis, assistant director of specialized student ser-vices at SIU, said.

"They face serious problems every time they search for a place to live," he said.

One wheelchair student, who preferred to remain anonymous, said it was extremely difficult to find off-campus housing.

"First, we had to go through lots of housing lists and make several phone calls. We got poor results, especially after we said we were wheelchair students," she said.

"Some were willing to rent but the prices they wanted were outrageously high.
"We finally got a place by driving around and stopping in. It makes it harder, I think, for the landlord to say no," she said.

"Some landlords flatly refuse to rent to wheelchair students," she

said.

"But our present landlord has been extremely nice and has made several major modifications on the property for us," she added.

She said some facility modifications needed by the handicapped include construction of ramps for accessibility, installation of braces on walls and removal of doors and other obstructing items for easier mobility, and renovation of bathroon and shower structures. Kitchen appliances of a height convenient for the handicapped are another need.

"Landlords are sometimes reluctant to rent to the physically handicapped and the properties of the same content of the physically handicapped are the physically handicapped are another need."

"Landlords are sometimes reluc-tant to rent to the physically han-dicapped student because they're worried that the impaired ability to get around could result in a serious accident on their property," DeAngelis said. He added that there are probably several landlords who have been

reluctant to make modifications on their property to accommodate any handicapped student. DeAngelis said that SIU provides facilities for physically handicapped students, but pointed out that all students cannot or do not want to live in campus facilities. Major on-campus dwellings units with facilities for the handicapped are Thompson Point and the Baptist Student Center. Other facilities include Evergreen Terrace and Southern Hills. "Sometimes it is important for some handicapped persons to live off-campus for an educational purpose—to have a feeling of indepense—to have a feeling of indepense.

pose-to have a feeling of indepen-

DeAngelis said there are married handicapped students who prefer

off-campus housing.
The kinds of housing problems the

handicapped student must solve depend on the nature of the han-dicaps, he said. Several off-campus dormitories

Several off-campus dormitories and apartments have some rooms and facilities modified to aid handicapped students, but too few are available and too many are not entirely adequate, he said.

DeAngelis said the handicapped person does not pose any difficult problem for a landlord.

"Many neonle have a basic fear

problem for a landlord.

"Many people have a basic fear because of a lack of knowledge about the capabilities of a handicapped person to maintain a residence," he said.

DeAngelis said he was optimistic, because the the because the said.

however, that the housing situation for handicapped students will im-prove and that more landlords even-tully will provide facilities meeting their needs.

Section 2

Dorms on Point offer life-style options

Starting this fall, students at Thompson Point will have many options available to them in selecting the type of dormitory life that appeals to them most—and among the choices they can make is what type of visitation policy they prefer.

Residents of the Point will have a great deal to say in modeling their own life styles, according to Doug Richardson, administrative assistant to the area dean for West Starting this fall, students at

Richardson, administrative assistant to the area dean for West Campus, Will Travelstead.

After students decide between coeducational dorm or regular dorm, they have a choice between atmospheres—learning-oriented or socially-oriented.

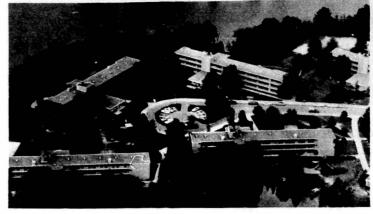

Smith Hall is a coed dorm officially designated as the

ficially designated as the president's scholars' dorm but also open to other students seeking an atmosphere conducive to study. Pierce Hall, which will be restricted to upperclassmen (sophomores, juniors and seniors) is an all-male dorm which also will emphasize a learning atmosphere.

Having chosen the type dorm they want, they will be allowed to vote on the type visitation policy they would like that dormitory to adopt. Visitation refers to the time during which hall residents may have members of the opposite sex in their rooms.

r rooms.

Alternatives offered to students in residence halls effective fall quarter will replace the former maximum visitation at SIU, which was restricted to 7-11:30 p.m. Monday through

Thompson Point residents also have a Campus Lake view.

Thursday, 7 p.m. to 1:30 a.m. Friday, 1 p.m. to 1:30 a.m. Saturday and 1:11:30 p.m. Sunday.
Under the alternate plans, at least one dorm in each area of Thompson Point—the women's area, men's area and coeducational area—will have 24-hour visitation seven days a week, Richardson said. It is expected that another dorm in each area will be restricted to partial 24-hour visitation (probably only on weekends) and a third dorm will

have only the present visitation

hours.
A survey taken last year revealed that the students at Thompson Point were pretty evenly divided as to whether or not they were in favor of 24-hour visitation, Richardson said. The present expectations as to how the dorms will stand on visitation is based on this survey. But, due to the fact that Thompson Point has approximately a 50 per cent yearly turnover, a new survey will be

taken at the beginning of fall quarter to let the residents of each dorn

ter to let the residents of each oorm have a vote in determining his dorm's policy.

If the policy chosen is not the one preferred by a student assigned to that facility, the student can easily transfer to a dormitory that opts for the visitation regulations of his

Richardson pointed out that many tudents shun away from the idea of the lack of privacy 24-hour

visitation might cause, while others are not concerned over this aspect of the policy.

With With the alternatives offered, everyone has the opportunity to live in an atmosphere most suitable to him. Richardson says he expects there will be quite a bit of room-changing the first few weeks, but that he anticipates no problems with the new policy-choice system.

the new policy-choice system.

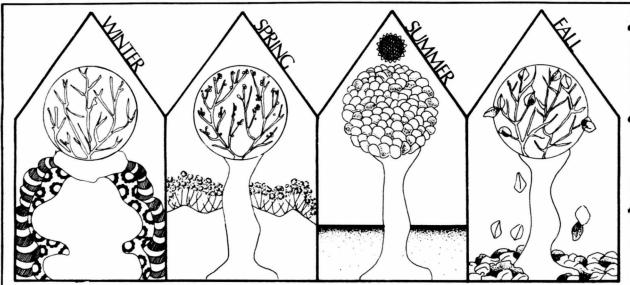

Those students who have already signed contracts for Thompson Point have been sent letters outlining the options available to them. Richardson said. Therefore, those with similar preferences can initially be grouped together to cut down on the number of room changes needed later.

When discussing the new

changes needed later.
When discussing the new visitation alternatives last quarter, George Mace, dean of students, pointed out that SIU is in no way pioneering in dorm visitation. He said Northwestern and Bradley Universities now include seven-day

Volumersities now include seven-day 24 hour visitation as a preference and that starting in the fall the University of Illinois, Northern Illinois University and Western Illinois University will join SIU in providing similar options.

Richardson added to his remarks that security is a factor that has come under even greater consideration this year than in the past. Starting fall quarter, all dorms at the Point will be locked at all times. The residence halls will be equipped with outside phones with which the students can contact someone to let them into the building. them into the building.

Campus family housing space getting scarce

Photos by Pam Smith

SIU's Evergreen Terrace apartments are unfurnished but have central air conditioning. Rents are based on tenants' income under FHA guidelines

By Larry Glowacki Daily Egyptian Staff Writer

Daily Egyptian Staff Writer

It's expected to be a good year for
on-campus housing for married
students, according to the University family housing office.

"The outlook for fall is very
good." said James Dugger,
business manager for family
housing. Although his office encourages families to look around
town as well as at the on-campus
housing. Dugger said, on-campus
housing for marrieds is filling up
steadily.

There are two on-campus housing

There are two on-campus housing areas for married students— Southern Hills, where apartments are available for married students with families and marrieds without children, and Evergreen Terrace. which is operated under FHA guidelines that require accom-modation of families with children

Southern Hills was built in 1958, Southern Hills was built in 1896.
and Phase II of that area added in 1960. There are 272 apartments at Southern Hills.
These include 12 efficiencies at \$110 a month: 100 one-bedroom

These include 12 efficiencies at \$110 a month. 100 one-bedroom apartments at \$120 a month, eight of which are specifically designed for handicapped couples; 160 two-bedroom apartments at \$125 a month, six of which are designed for handicapped couples. "Right now I have 33 vacancies in Southern Hills, which will be filled on a first-come, first-served basis." Dugger said, Anytime after August first, however, prospective tenants

will have to remain on a waiting list, he added. The rent at Southern Hills will be

The rent at Southern Hills will be raised \$3 per month, according to Dugger, who cited the rising cost of operating expenses as the reason for the increase. The rent still includes utilities and a \$1 activity fee.

This \$1 fee goes to the area's activity council which plans activities, maintains the recreational area and acts as a representative of the increase in any housing.

acts as a representative of the student tenants in any housing

disputes.

Gripes are aired at monthly meetings between Dugger and the council, for which each building

meetings between each building elects a representative.

Along with a general recreational area. Southern Hills features nine playground areas for the children of the tenants. A laundromat is also available to the tenants.

All the apartments at Southern Hills are furnished. The apartments offered at Evergreen Terrace,

offered at Evergreen Terrace, however, are unfurnished. This area has 216 two-bedroom apartments for \$111 a month, nine of

apartments for \$111 a month, nine of these designed for handicapped students, and 88 three-bedroom apartments that go for \$124 a month. As at Southern Hills, this price includes utilities and a \$1 activity fee. Evergreen Terrace has central air conditioning, Southern Hills does not. The activity council at Evergreen

Hills does not.
The activity council at Evergreen
Terrace works in the same way as
that of Southern Hills.
This year apartments for families
without children will be offered at
Evergreen Terrace. As of July 18,

Dugger said, his office has received 110 applications by families with children, and 144 applications of families without children.

Dugger said the apartments for childless families are still being of-fered but he does not think his office can accommodate those without children unless "we have a reduc-tion in the acceptance of those with children." Dugger said he does not know this year's expected turn-over

Evergreen Terrace is designated a federal housing project and is un-der the guidelines of the Federal Housing Authority (FHA). The FHA has recently raised the maximum income which determines eligibility

tor occupancy.

The new maximum income for two persons is \$6,900, as compared to the former of \$6,400. For families of three and four persons it has been raised from \$7,550 to \$8,100. For families of five and six persons, the new maximum is \$9,300 as compared to the former maximum of \$8,700.

Dugger said he is anticipating a rent increase for Evergreen Terrace but that no decision on an increase, or the amount of such an increase, has been made.

Dugger said improvements are being made every year at both the on-campus housing areas. New fur-niture is bought every year for Southern Hills, Dugger said. However, this is limited to what the budget will allow, he added. Any contract over \$500 is bid for, Dugger said, such as painting, drapes and major construction and repairs.

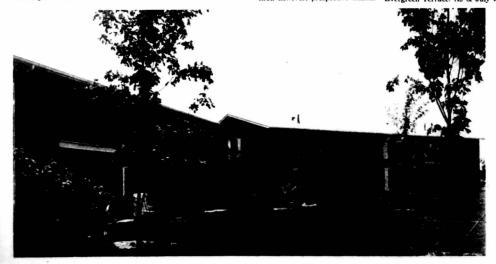

Charges for minor repairs are assessed to the renter if negligence can be proven, Dugger said. "However," he said, "we don't have much of this."

Evergreen Terrace enjoys the most recent improvements. A new chain link fence has been put up. some major exterior painting is being done and, after the exterior painting is finished, the apartments will be painted, Dugger said.

Dugger sees the economics of living in on-campus married student housing as one of the main advantages. Also its proximity to

He also said that many people view this as low-income housing. But he believes it should be con-sidered middle-income housing.

Another reason, he said, is that the contracts for the two areas include a 30-day intent to vacate clause. This provides the renters a means to get out of their contracts, at any time and without penalty, provided they notify the housing office 30 days in advance.

1972-73 HOUSING REGULATIONS

ALL SINGLE FRESHMEN UNDER THE AGE OF 20, not living with parent or guardian, are required to live in on-campus residence halls, or similar privately-owned residence halls. The privately-owned residence halls must provide facilities, food service, and supervision comparable to on-campus housing. These students are not permitted to live in trailers, rooming houses, or apartments.

SOPHOMORES UNDER THE AGE OF 21, not living with parent or guardian, are required to live in on-campus residence halls or University approved off-campus housing. Sophomore approved facilities include rooming houses and residence hall apartments. Such facilities are not required to provide food service but must have University-approved adult managers and are inspected and approved by the University.

There are no University regulations for junior, senior, graduate, married students, or those students 21 years of age or over on the first day of the quarter.

Violations of these regulations will result in a denial of future registration until the violation is corrected.

Building in works for play, swimming

By Barry Cleveland Daily Egyptian Staff Writer

Daily Egyptian Staff Writer

An \$8.9 million Co-Recreational Facilities Building and complex is in the planning stage at SIU, but comparatively few current SIU students may be around to enjoy it. Construction of the building, to be located directly east of the Newman Center and north of Grand Avenue, has been approved by the Illinois Board of Higher Education. It is tentatively scheduled to, begin during the 1974-75 school year, according to Emil Spees, associate dean of students and chairman of the Recreational Facilities Planning Committee.

The entire complex will cover some four square blocks, in the area bounded by Washington Avenue. Park Street, Wall Street and Stoker Street, the said.

The Co-Recreational Facilities Building will provide facilities for backethal! Bandhal! swimming.

The Co-Recreational Facilities Building will provide facilities for basketball, handball, swimming, weight lifting and golf (driving range), in addition to men's and women's locker rooms and "multi-purpose" areas, according to John Lonergan, campus planner.

The building will house three gymnasiums, each containing three basketball courts. Seating canacity

gymasiums, each containing three basketball courts. Seating capacity for each gymasium will be 360. Lonergan said.

The building will also include 16 handball courts and an area set aside for viewers of handball matches, he said.

An Olympic-size pool will be building. The pool will be equipped with three high dives. Lonergan said.

Although it was not designed as an intercollegiate facility, the Olympics pool will probably be used by the swimming team on some occasions. Spees said.

It will be of sufficient size to be used for recreational swimming.

It will be of sufficient size to be used for recreational swimming, diving and instruction at the same time. Lonergan said.

A pool of approximately one quar-ter the linear dimensions of the in-door Olympics pool will be construc-ted just south of the building. Lonergan said.

The smaller pool is envisioned as a reflection or a sunnis pool, be

a reflection or a sunning pool, he said. It will be about four feet in depth at its deepest, he said. Students will be able to use the multi-purpose areas in the building for various games and activities, with the sun sun and surprise areas to such as the said of the sun and surprise areas to such as the sum of the sun and such as the sum of the sum

for various games and activities, with some equipment available to be checked out, Lonergan said. The gymnasiums may also be converted to multiple use when students desire, he said. The building will also include a small weight-lifting area and a net-equipped driving range about 60 feet long. Lonergan said.

Other area; in the 222 775 square.

long, Lonergan said.

Other areas in the 232,775 square foot building will be devoted to storage, maintenance, machinery and administration, Lonergan said.

Current plans call for the construction of facilities for fooball, society the plans are plants are proposed to the construction of facilities for fooball.

soccer, tennis, archery, track, speedball, field hockey and golf

(putting only) in the areas around the building, he said.

(putting only) in the areas around the building, he said.

An archery area is planned for just north of the building. Five tennis courts and a multi-purpose play field (football, soccer, softball, etc.) will also be located north of Grand, along with a 150-acre parking lot. Lonergan said.

Six tennis courts will eventually be located on the site of the temporary "blue barracks" at the corner of Washington and Park. However, the barracks may remain for up to 10 more years before removal, Lonergan said.

A quarter-mile track will be built near the present site of the field hockey area northeast of Brush Towers, Spees said.

The track will be used primarily for recreation and intramural activities, but it will not be used by the track team in competition. Spees said.

No spectator facilities will be

track team in competition, spees-said.

No spectator facilities will be-built adjacent to the track, which will enclose a football, field hockey and soccer field, he said.

The complex will be paid for en-tirely out of the Student Welfare and Recreation Fund (SWRF), into which students pay \$15 each quar-ter Strees said.

ter, Spees said.

The building will be used for instruction only during times when recreational use is minimal. Spees

recreational use is minimal. Spees said. Approximately 80 per cent of the building's usage will be devoted to recreation, he said.

Spees emphasized the corecreational plans for the building. No facility will be off-limits to women except the men's locker area, he said.

The east side site was chosen because of its central location in relation to student housing. Spees said.

The complex will serve the Brush Towers-University Park area and the heavily student-populated east side of Carbondale, as well as the west side student population, he

An alternate plan would have provided for the renovation of the present physical plant facilities for student use as areas for art work, mechanics and other student purposes, as well as a hotel connecting the recreation area, McAndrew Stadium and the Student Center.

Two more dorms will offer coed-living plan

Thompson Point plans to have not one, but three coeducational dormitories this fall.

mitories this tail.

After last year's highly successful experiment with SIU's first coeducational dorm. Steagall Hall, two more dorms. Warren and Smith, have been designated as coeducational facilities for the coming year according to Doug. coming year, according to Doug Richardson, administrative

Richardson, administrative assistant to the area dean for West Campus, Will Travelstead.

SIU is the first major state-supported school to offer truly coeducational housing. Richardson said— that is, to have men and women living in alternating suites on the same floor of a building rather than having them live on biternating floors. This is possible because a private bath had been constructed between every rooms in the residence halls, making private suites available.

Since many universities, such as

Since many universities, such as the University of Illinois, have dor-mitories constructed with "com-munity" showers rather than in-

munity" showers rather than individual facilities, they have been
unable to experiment with coed
dorms, Richardson explained.
Because Steagall Hall, which was
experimentally" converted to a
coed facility last fall as a result of
numerous student requests, ran so
smoothly, students returning to SIU
facilities in January were given a
questionnaire asking what type
housing arrangement they
preferred.

Annroximately half the students

preterred.

Approximately half the students
were in favor of the coed
arrangement, Richardson said, but
the other half preferred to remain in
separate housing. More men than
women were in favor of the
coeducational business.

coeducational housing.

The students who lived in Steagall last year seemed very happy with the arrangement. Richardson said. the arrangement. Richardson said.
The coed dorm was pretty much like any other dorm, and it was actually the quietest dorm on the Point. No real problems arose from the fact that the facility was conductively.

Travelstead has said that the only difference between Steagall and the other dorms is that there was more participation and more leadership

expressed by the students in Steagall.

Mary Mickus, reside Mary Mickus, resident counselor at Steagall. expressed similar sen-timents when she said that she was really pleased at the amount of par-ticipation among the residents. She said she felt that the students at Steagall were a much closer and much friendlier group of students than the girls in the dorm in which she was resident counselor the

Previous year.

With the addition of two more coeducational dorms, students living at the Point will have a better

coeducational dorms, students living at the Point will have a better opportunity to get the housing option they prefer. Richardson said. Students who have signed contracts for Thompson Point have been senietiers informing them of option available to them. Therefore, marstudents will already have been senieties informing them of option available to them. Therefore, marstudents will already have been senieties will already have been senieties will already have been students will already have been students will already have been students will be given the opportunity to do so at the beginning of fall quarter." Richardson added. "Students preferring the option offered by a dorm other than the one in which they are slotted may transfer to another dorm. There will probably be quite a bit of shuffling done the first few weeks."

Two other special options will be available at the Point this fail

Two other special options will be available at the Point this fall. Pierce Hall, which is an all-male dormitory, will be restricted to upper classmen—sophomores, juniors

and seniors.

This option was offered, Richardson said frankly, because many students prefer not to live with freshmen. This was determined in

freshmen. This was determined in the survey taken in January.

"I guess they assume the dorm will be limited to more serious students this way," he said. "Many students want a quieter atmosphere and don't feel freshmen are so concerned with conditions conducive to study. I would say a more studious atmosphere is what they're after."

Another ootion is available to

atmosphere is what they're after.

Another option is available to president's scholars who wanted to live in a coeducational facility oriented toward the learning atmosphere, rather than the social.

Smith Hall, one of the three coed orms, will be officially designated as the president's scholars' dorm, although it will not be restricted to president's scholars. Other students desiring the same type atmosphere will also live there, Richardson

Richardson pointed out that there are really no absolutes as to the options available. The point is merely

possible open to the students so the student can have more to say about his own mode of living. Much will depend on the survey which will be depend on the survey which will be taken at the start of fall quarter.

At present, the coed dorms have

notable shortage of women signe up for coed facilities, Richardso said. However, much interest ha been expressed in the coeducations, dormitories and they are expecte to fill up more quickly as student learn more about them.

University's grading system includes elective pass-fail

By University News Service

What happens when a course can not be graded by traditional letter grades? SIU at Carbondale has solved this problem by allowing departments to require mandatory pass-fail grades when in the judgment of the department the traditional grading system is inappropriate for a course. In addition to the mandatory passil grading system, the university but the propersity of the

fill grading system, the university also has added a list of courses which can be taken as elective pass-

Under the university's present policy the number of elective pass-fail credits is limited to 24 quarter hours overall, and to 12 quarter hours in any one general studies

area.

If a student decides to take a course under the elective pass-fail system, he will receive a letter grade from the instructor at the end of the course. If the student received a grade of A, B, C, or D, he will receive a P (pass) for the course. If he received an E (failing), he will receive an F (failing) on his grade sitn.

Tower life is ups and downs

By Larry Glowacki Daily Egyptian Staff Writer

That first taste of dormitory life an be quite an experience for a new student. Having a roommate and iving in the same building with a lew hundred people is, in itself, something to think about.
Living in a high-rise dorm at SIU prings a roommate, several hung-

prings a roummate, several hundred people, 17 floors of stairs, rooms, elevators, windows and walls all together at once. Some like it, some don't. Most talk about it.

Neely Hall in University Park is the sale, which ties were to have to have a some like and the hard.

the only high-rise used to house students this summer. The other two high-rise dorms, Mae Smith and Schneider halls—which together form Brush Towers—are being used

torm brush 1 overs—are being used as conference centers this summer. Neely Hall is also coed—at least for the summer. The men occupy the second to the seventh floors, and the women are living on the 11th to the 16th floors.

The 17th floor houses a tutoring service, where dorm residents are given assistance in several of the

given assistance in several of the major subjects such as English, math and chemistry.

Jefferson Humphrey, dean of east-campus housing, said the tutoring service is only one of the many activities available to the high-rise residents.

Other services and activities include a music room in Mae Smith, a liberary in Schweider perioditioner.

clude a music room in Mae Smith, a library in Schneider, periodic con-certs, the regular showing of popular movies, an honors day din-ner, art shows, and outings. "You name it," Humphrey said, "and we have it. Sometimes I think

"and we have it sometimes I trium, we're programming ourselves to death," he said with a smile. "But we do have quite a bit of student participation."

Humphrey explained that students living in the area pay an activity fee of \$3 per quarter. He estimated that activity fee revenue

at about \$30,600 a year.

Humphrey explained the gover-nance system for on-campus housing. It consists of floor govern-ment, a house council and an area

board.

Each floor has its own governing body which consists of an elected president and other officers. These floor presidents make up the house council which deals with matters concerning the dorm. One of the members from each house council is colected to cit ex the ages, bused.

Under the area board, a new activities programming board has been established. A judicial standards board helps decide the outcome of misdemeanors and other violation and misconduct charges, umphrey said
Humphrey offered an inside view

as to the problems of operating a high rise dorm.

"We experience problems from A to Z," Humphrey said. "But these problems, to some extent, are no different than in other places where

students live."
"Problems do come up." he continued, "like when the air conditioning needs repair or when the
elevators are stuck. But you're
going to get into all kinds of forseeable problems," he said.
"One of our biggest problems is
finding ways and means of
providing security in the residence
halls," Humphrey said. "Security
for both the people living there and
the property."

"One thing which I consider both an asset and a hinderance is these lobbies in the high-rise dorms. They're furnished with some of the most expensive furniture I've ever seen. The main thing is that they are also the only places right in the residence halls where the students

residence hairs where the students can meet in large groups."
Humphrey said one problem the area has is that it lacks some sort of outdoor recreation space. Such a space, he said, would take most of the load off of the indoor commons

areas.

"But I have a very positive outlook of residence hall living," Humphrey said, "and especially in the high-rise dorms."

The majority of Neely Hall

residents are freshmen—continuing, beginning and conditional, those who must attain a certain grade point to be allowed to continue.

point to be allowed to continue.

The people in Neely have a lot to react to. For many of them it is their first experience in a high-rise dorm, and for some their first contact with dorm life.

For the first time.

For the first time, Neely is coed and maintains unrestricted visiting hours. Anyone could be found on any floor at any time.

Also for the first time, single oc-cupant rooms will be offered to the students in the fall—for an ad-ditional \$50.

There has been a rash of false fire alarms and the staff has determined that for every false drill there will be a real one—until someone learns

560 people living there this summer. Consequently, the elevators are one of the first things you hear about.

Jessica was sitting in her room on the 12th floor, her friend, Debi, visiting from down the hall, sat near the window.

"The only thing I don't like about the 12th floor," Jessica said, "is when we have fire drills. We have to run up and down all those stairs."

She doesn't mind the elevators.
"The elevators usually work, but
we're impatient," Debi said. "But I
think it's better than walking down

"I don't like anything about living in a high-rise dorm," Debi con-tinued. "I love being around a lot of people but I despise the dorms."

"There are a lot of people," Jessica added, "and I like lots of

Jessica said she wouldn't like a Sue has a room on the 15th floor.
"We get the sunset view and it's beautiful," she said.

You also have a little more "You also have a little more privacy up here than you do on street level," she continued. "You don't have a lot of strangers walking around on the floor. But with the coed situation." she said. "There's a certain amount of privacy that just isn't there."

"I think werybody needs to live in a dorm at least once," she said.

Cindy was studying in he, room on the 14th floor. "There are advan-tages and expected disadvantages,

but nothing special," she said.
"Those fire alarms are bad, though."

though."
"I don't like the coed situation."
she said. "The guys seem to show
off more because they're around
girls. It's nice because it's easier to
meet them, but a lot of them ruin
it."

"I think I'd take a single room,"
Cindy said. "But I wouldn't want to
do it my first quarter here."
"I don't think you run into any

special problems living in a high-rise," Lynda said as we talked in her room on the 12th floor. "It's kind of like living in a hotel," she said, "or like being on vacation. You can't just go out your front door and see how the weather is

Karyon Blakemore, a senior from Chicago majoring in physiology, is the resident fellow on 14. She thinks the coed situation could be a threat to some students.

'The problems are more frequent with the dorm being coed," she said. "We have a lot of conditional freshmen who have to make quite an adjustment to live in a coed

Miss Blakemore explained that a beginning freshman is subjected to an entirely new environment when introduced to dorm life.

They want to do too many things at once, she said, and living in a coed dorm just adds to the distraction. "If the conditional freshmen

coed dorm just adds to the distraction. "If the conditional freshmen
don't make it this summer," she
said, "they'll have to leave."
Miss Blakemore said she thinks
the idea of offering single rooms is a
good one. "For the person who
wants the peace of mind it's worth
the money," she said.
Pat Latham, a senior from
Chicago majoring in early childhood
education, has been a resident
fellow for the last five quarters.
"I think there's too many people
here." she said. "I think it's
probably the most highly populated
single area on campus.
"I equate it with the lower class
housing project in Chicago," Miss
Latham said. "The structure is
similar, all it has is glorified
elevators and a glorified lobby. It's
just a glorified project.
"There are advantages but I think
the disadvantages outweigh them,"
she said. "In taking to the students.

the disadvantages out think the disadvantages outweigh them," she said. "In talking to the students I find that they don't like their lives regulated. But the things they protest the most are really to their advantage," she said. "Like the im-

posed quiet hours."

Miss Latham explained that this miss Latham explained that this handicapped students in Neely. She feels that these students have a particular disadvantage because the rooms are not designed for use by handicanoed students.

rooms are not designed for use by handicapped students. These students, she said, have a particularly hard time during fire drills, or if they inadvertently fall prey to a practical joker. "I think the University is only concerned with making money or breaking even." she said. "Apparently they didn't give any consideration to the situation of these students."

students."
Miss Latham also agrees with the single-room idea. "Single room will alleviate certain problems," she said. "Upperclassmen who return to the dorms I think would like the privace."

like the privacy."
"By the way, I think the major staff is doing an excellent job," she added. "They are very co-operative and quite exceptional."
From Bill on the sixth floor came

more complaints elevators.

elevators. "Some guy put some dog --- the wall in one of the elevators." he said, "and we have to use them." "A lot of furniture gets stolen too,"

he said.

Doug, also from the sixth floor, said, "It's easier to steal things because, in a high-rise, you can't watch all the floors." Several pieces of furniture are missing from their floor now, he said.

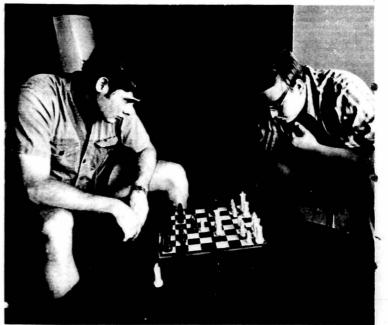

floor now, he said.
About having a single room, Bill said, "I wouldn't live in a single. I least not for \$50 extra." Doug said he likes the idea of a single room. Lester, on the seventh floor, also remarked on "those elevators."

"It's a mess but you have to use em. Usually there's only three

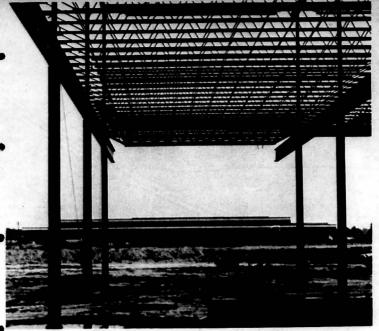

Lester said he feels the open visiting hours don't really make a

"You don't have to worry about the hours," he said. "So you have to close your door at night when you change. From 1 a.m. to 7 a.m. you're asleep, from 7 'till 5 you're not in the room and in the evening it's all ight. It really the conditions. it's all right. It really doesn't make

a difference."
"I'm considering living in a single room." he said. "The only perfect roommate is no roommate at all. But I don't think I can afford the extenses."

of Carbondale's new post office are long and low, as viewed from beneath the steelwork of an adjacent shopping mall being built

New post office nears completion

The new Carbondale Post Office will open Labor Day weekend, Postmaster Hubert Goforth says hopefully. He said the \$2.004.000 structure, located east of the city on Route 13, will be four times the size of the present post office building. Goforth, who has been postmaster here since Sept. 1, 1967, said the opening may be held up because lock boxes and other equipment are on back-order and delivery will be delaved.

delayed.

delayed.

The new building, begun a year ago by the Hoefsteffen Co. of St. Louis, is actually scheduled for completion August 20, he said.

Goforth said the present, 40-year-old post office building, located at the intersection of Main and University, does not provide enough space to handle the mail received there.

"We actually outgrew this building when we became the sec-tional center for 91 offices in Southern Illinois," Goforth said. Carbondale became a sectional center in October, 1960, when sec-

Goforth explained that Carbon-dale's post office handles all the mail for the 91 offices in this section. It is received by truck and air from St. Louis and Chicago, he said. "We make the dispatch for the other offices," Goforth said.

Goforth.

A major change in operation will be the use of Area Mail Processing (AMP) at the new post office.

"It is planned that we will initiate AMP in January," Goforth said.

He explained that under this system, the mail will be sent "as is" from the 91 associate offices to Carbondale's post office, where it will be faced, cancelled and distributed. Presently, each associate office makes some sort of primary distribution before sending it to Carbondale.

"The new system will give it to us faster," Goforth said. "There will be more time to make the dispatch by the 8 o'clock deadline."

The dispatch is made by a 40-foot trailer from here to St. Louis three times a day, an airplane to Chicago six nights a week, a truck to Chicago three times a day and a plane to Madison Wis., via Springfield every night, according to Goforth. He said the schedule may be expanded after the move.

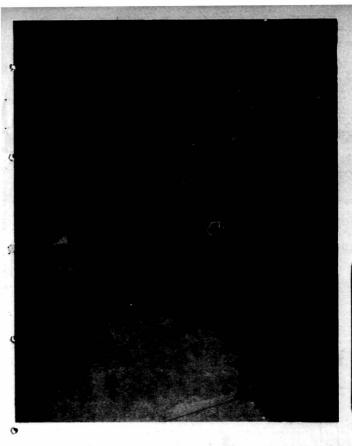

A station with window service and post office box service will be maintained in the downtown area after the new office opens, Goforth said. The present post office will be used for these services until another location is found.

Southern Illinois University

Friday, July 28, 1972, Vol. 53, No. 188

The Wham Education Building (above) and the Technology Building present a contrast in architectural styles, seemingly as far apart as the North and South Poles—which they are in terms of campus locations. Built in 1964, the Wham Building is named for George D. Wham, only University faculty member ever

given the title "Dean of Faculty," and houses the College of Education. It sits on the northernmost edge of the campus. The Technology Building, home of the School of Engineering and Technology, was built in 1966 and occupies a site on south side of the campus.

Controversy no stranger at SIU

By John Davis Student Writer

Controversy is not alien to SIU. Incoming freshman and new students may find themselves taking sides on such issues as:
Who is the student body president—Jon Taylor or Jim Peters' Is a proposed new health care plan for students worth \$75 a year' Should there be more black representation on the University Senate' Should the textbook rental service be discontinued?
Jon Taylor, a black from the Chicago southside, junior in design, was elected student body president for the coming academic year in an election last May However, George Camille, the outgoing president

Camille, the outgoing president, disqualified Taylor on grounds that Taylor was academically ineligible during the election.

Camille then appointed Jim Peters, second place finisher in the election, as president. Peters, senior from Quincy, served the past year as vice president.

year as vice bresident.

Mary Walker, project coordinator
for the advisory board, said, "Only
primary health care has
been provided in the past. This
means that if a student breaks his
arm, it costs him extra for treatment."

Many students feel the cost of the improved plan would far exceed costs of the medical care that most

costs of the medical care that most students need.

The University Senate has one black member among its 48 members. The lone black spokesman, Jerry Lacey, director of the Affirmative Action Program, who is a representative of the Faculty Council on the U-Senate, proposed that black representation on the Senate be set at a minimum of two Under the proposal, a second representhe proposal, a second represen-tative would be chosen by the Black Faculty and Staff Council.

Faculty and Staff Council.

A health care advisory board has proposed a new health plan to improve the service on campus. However, the new plan if implemented, will cost each student \$75 a year or \$25 a quarter. It would be mandatory for students but optional for faculty members.

Taylor asked the Student Conduct Review Board to arbitrate the case, and the board by a unanimous decision upheld Taylor's qualifications and his presidency. The controversy seems likely to carry over into Sudent Government affairs this fall.

The proposal failed by three votes to get the required majority for passing in the U-Senate. An objec-

Aid programs provide choice

President's Scholar Program cultivates academic potentials

The President's Scholar Program at SIU is a University-wide program aimed at helping bright students make the most of their potentials and opportunities for academic achievement, says Director Alian L. Lange.

But that doesn't mean they're encouraged just to be bookworms, he adds.

The University-funded program, initiated in 1967, lists approximately 600 SIU students as President's

Scholars.

It has three main objectives—to identify outstanding academic potential, to provide opportunities for developing that potential and to encourage interaction among scholars and faculty. Lange said.

A sliding scale is used to determine eligibility for membership in the program Denise Rabe, scholar program staff member, said.

Incoming students with an ACT composite score of 28 who also rank in the top 25 per cent of their high

in the top 25 per cent of their high school class are eligible. Students with a composite of 27 who rank in the top 15 per cent are invited to join the top 15 per cent are invited to Join the program as incoming students. Students who were not invited to participate in the program as incoming freshmen may also be eligible under certain conditions. Ms. Rabe said.

A student completing two quarters with a cumulative grade point average of 4.25 is eligible. "Students meeting requirements are frequently recommended to the program by academic advisors."

Lange said. "However, they may equest membership on their own initiative."

initiative.

Several advantages offered to members of the program receive early advisement appointments in General Studies and in the College of Liberal Arts and Sciences.

A scholar can check books out of the library for four weeks instead of three weeks with a President's Scholar ID card.

Scholar ID card.

The program publishes a bulletin for its members, which contains information about course offerings, advisement appointments and up-

advisement appointments and up-coming events. The Program also has a student council organization recognized by student activities. Overall objective of the council is to "further interest in academic honors on campus." Lange said. Campus and community figures frequently attend to have informal talks with members, be continued. A coed honors dormitory is provided for scholar participants in the Thompson Point housing area. Students who complete the honors program have this achievement recorded on permanent records and diplomas.

The program does not want to en-

The program does not want to en-courage its members to be book-worms or take courses that will yield high grades. Lange said. Therefore, participation criteria for students is only 4.0 on a 5.0 scale, Lange said. If a student falls below this mark he may be tem-porarily, dropped

porarily dropped.

The President's Scholar is required to participate in one of four types of honors work each year. Honors work includes enrollment in General Studies courses that are

estricted to President's Scholars. hese sections have limited

In addition, General Studies offers honors sections and laboratories which are not restricted to President's Scholars.

A scholar may receive credit for departmental honors offerings. Un-der this system, a scholar applies to participate in honors work in his

major field.

The third choice is independent "Honors Project," and PR S 499,
"Undergraduate Honors Thesis." "Undergradu

The student must find a faculty member to sponsor his independent

project, which may take the form of a field study, research or presen-

a field study, research or presentation of a paper.

A scholar may receive 2 to 15 hours credit for his independent study project. However, the program requires that work less than "A" quality not be accepted by the soonsor. the sponsor.

The fourth option to a scholar is

The fourth option to a scribar is the program's quarterly seminars. "These offer an interesting form of elective or challenging substitute for General Studies courses," Lange said. "Seminars normally cover material not included in regularly scheduled courses."

The unique feature of the seminar is that students research the subject. Lange said.

Topics for seminars are suggested by students, the program's staff and interested faculty members. Seminars for the 1972-1973 President's Scholar Program in-clude "Politics and the Media," "Sociological and Psychological Aspects of American Women' and "Drugs and Pharmaceuticals." President's Scholars are en-couraged to participate in a

couraged to participate in a primary learning experience-type course, Lange said. Independent study and seminars employ a primary learning experience.
The President's Scholar Program

attempts to expand academic freedom of motivated students beyond the scope of independent study and seminars.

study and seminars.

Lange and Fran Manes, a
President's Scholar staff member,
proposed the faculty council create
a President's Degree Program, to
provide a distinctive set of
educational experiences for those
students of exceptional academic
potential who can best profit from
them,' Lange said.

Under this program, no formal
degree requirements other than 192

degree requirements other than 192 credit hours for graduation are made. A faculty member would work with the student in designing his curricula.

DJ's life goes round 'n round

A solemn figure bent over a large control panel. The numerous dials, meters and controls stared back. His brow was wrinkled in thought as he looked over the panel. A few sheets of paper lay in front of him. Above was a large clock. He looked up—it was one o'clock, it was time to start. His hands moved quickly, adjusting a few switches. He took a deep breath: "Hello everybody, this is the Kevin J. Potts Show."

Relief crept across his face. From deep within the electronic machinery came a song by Carol King. Across campus, this same song was being heard by hundreds of listeners.

of listeners.
Thus began another day for a
WIDB disk jockey.
The two-year-old radio station is
located in the basement of Wright I
Residence Hall in University Park. Residence Hall in University Park.
This is where I saw Potts, a fresh-man from Chicago. He was seated behind the main control panel which contained tape recorders, turn-tables and other electronic sundry.
The article predection to the circle.

The studio, enclosed on two sides by glass walls, looked like an electronic fish tank. In the "tank" was a solitary "fish."

The record ended, and Potts star-The record ended, and Potts started talking into the microphone. "Here's one out to Debbie at Mae Smith. How about a little 'Jungle Fever,' baby,' suggested Potts.

The studio was filled with a Latin melody that was mingled with the groanings of some female. Unfortunately, all this sound was only fewer to the properties record.

from a popular record.

Playing with his beard, Potts leaned back. He had three minutes

leaned back. He had three minutes of semi-relaxation.

"Being a DJ is really an art form," said Potts, fondling a few controls. "You are communicating to people. To do this, you have to know about music and trends in music. You have to be able to perform, and you also have to know the technical end."

This was indeed evident. As he talked, he was busy cueing up the next record, adjusting controls and preparing to speak again to his audience.

audience

Potts was on combo. That is, he was functioning as disc jockey and as station engineer. This is standard procedure for most of the disc jockeys. He looked hard pressed for time.

with his hands still busy at the panel. Potts said." Most people think that all a disc jockey does is

play records. This isn't true. We have to cue up records, adjust the equipment and write in our FCC (Federal Communications Com-

(Federal Communications Commission) log. The log must contain everything that goes on the air."

A phone call interrupted us. Potts answered it. Talked a few moments. Then spoke into the microphone: "Hey, people, Jack over at Schneider wants to hear Led Zeppelin—so let's all climb that 'Stairway To Heaven'."

pelin—so let's all climb that 'Stairway To Heaven'."

The heavy rock beat of the song accompanied Potts' continuing monologue. My foot kept time.

"The main basis of creativity in broadcasting is to know your audience. Things are constantly changing, you have to always adapt and create to meet this. This change and variety is the main anneal of and variety is the main appeal of the top 40 radio stations," said Potts, who could not be seen because he had crawled under a

when he reappeared, he smiled and said, "You know, I like to play the jester—to make people feel better if they happen to be down. This is my main thought in radio as an

Part of making people happy is talking to them on the phone. The phone rings many times during the course of a show. Most

during the course of a show. Most people call to request certain records. But Potts also receives some unusual phone calls.

"One day I got a call that really shook me up." reminisced Potts. "I had just seen a movie called "Play Misty for Me"—you know, the one where this DJ gets these calls from a psycho girl who keeps requesting that same som

a psycho girl who keeps requesting that same song.

"Well, that same day." he con-tinued," I kept getting a call from a sexy-sounding girl who would say nothing except 'play Misty for me. That shook me up for quite awhile." But not all of Potts' phone calls have been unpleasant.
While cueing up another record.

have been unpleasant.
While cueing up another record.
Potts said, "I also get calls from some real nice girls. You might say they're fans. It's great to be able to mix business with pleasure."

mix business with pleasure.

There are also many problems associated with being a disc jockey. Sometimes you discover that you have been talking into a microphone that hasn't been plugged in. At other times you run out of things to say, then panic sets in. "The hardest part of the job is

that you have to be on your toes constantly," said Potts, still busy writing in his log book. It's hard to relax here, and when I get done, I'm really tired.

Tom Scheithe, Elgin, radio-TV senior, served WIDB as program director.

SIU recreation is a year-round thing

Recreation, like beauty, may be in the eye of the beholder. What turns one person on may leave another cold. A student who enjoys window shopping, browsing in window shopping, browsing in museums, or engging in city night-life, for instance, would probably be happiest at a school near a large

pappiest at a school near a large city.

On the other hand, a student who likes tennis, swimming, sailing, hiking, fishing, hunting, horseback riding, sky diving, golf, flag football, basketball, handball, softball, basketball, handball, softball, baseball or billiards, would likely find SIU an exciting place.

A popular recreational sport on campus is tennis SIU has 12 excellent, lighted tennis courts, located west of the SIU Arena, which are available to the students from 7 a.m. to midnight daily.

C.W. Thomas, director of campus lake and recreation, said 14,000 people used the courts last year—an estimate that includes only people who used the courts under the lights.

Aside from the tennis courts near the Arena, SIU has four others near Small Group Housing and two south of University Trailer Courts on Wall

Adjacent to the Arena tennis

Adjacent to the Arena tennis courts is a large grassy area which includes enclosed handball courts and softball and soccer fields. Basketball is another popular campus sport. SIU has two facilities available to students for recreational basketball. One is located at Pulliam Hall, the other at the Warney's Gylmasium in the

located at Pulliam Hall, the other at the Women's Gymnasium in the east section of the Old Campus.

Thomas said that, unofficially, the Pulliam gym is to be available from 3 p.m. to 11 p.m. Monday through Friday and from 1 p.m. to 11 p.m. Saturday and Sunday during the regular school year. The Women's Gym, which has a larger playing area but fewer hours scheduled for

There's nothing like fun in the sun on campus beach on a warm day.

recreational basketball, is ten-tatively scheduled to be open from 7 to 10 p.m. Friday and Saturday, and from 2 to 5 p.m. on Sunday, said Ms. Charlotte West, director of the Women's Recreational Association. Downstairs from Pulliam gym, swimmers can frolic in the Univer-sity Pool which has the same busis.

swimmers can frolic in the Univer-sity Pool, which has the same hours

sity Pool, which has the same hours as the gym.

Those students who enjoy team-work and the thrill of competition can take advantage of a well organized intramural athletic program. Thomas said intramural sports to be offered this year are flag football, tennis (singles and

doubles), turkey trot (cross country), basketball, free throw shooting, swimming, floor hockey, volleyball, wrestling, weight liftle, from the country to th

tained at Women's Gym, Room 205. Campus lake, just south of the main part of campus, offers a whole main part of campus, offers a whole range of activities, such as swim-ming, pienicking, fishing or just plain sunbathing and people wat-ching. It has a 650-foot beach and a steady parade of bikinis, when bikinis are in season.

Thomas, who is in charge of the lake area, said the beach, will close on October 8. Until then, it is open from 1 to 6, nn daily whether new

from 1 to 6 p.m. daily, whether per-mitting. The beach has sectioned swimming areas, a beachhouse and eight lifeguards.

Boats and canoes, which dot the

of a

equipment can be abstance trust are facility merely for the presentation of a student ID card and fee statement.

Not satisfied with a boat ride across the campus lake? For a little cash and lots of nerve, the SIU Sport Parachute Club will be happy to take new members skydiving.

Mrs. Emily Yaughn, club member, said that for \$35 the club will give official instruction and loan adequate equipment—safety helmet and, of course, a 'chute—for a new member to make his first jump.

Mrs. Vaughan said anyone interested in joining the club or who simply wants to observe the jumps should contact Bill Wenger, president of the club.

Horseback riding? The Saluki Stables, located about 1½ miles west of the campus, offers riding theyear around (weather permitting) from 8 to 5 p.m. Student fees are \$1.65 an hour Monday through Friday and \$2.15 on weekends.

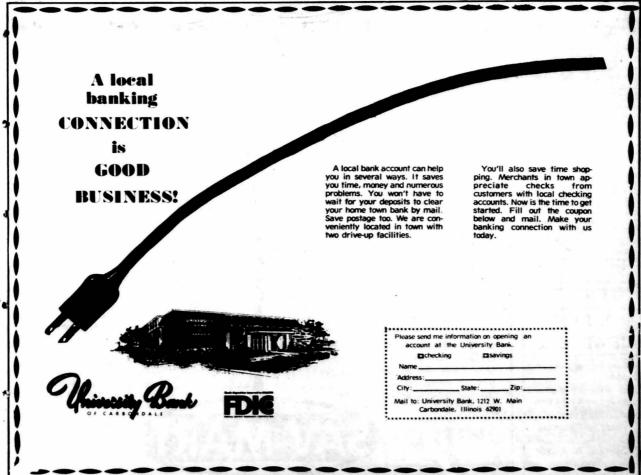

Hiking, camping, fishing or hunting? Carbondale is surrounded by the Shawnee National Forest which includes such points of interest as Lake of Egypt, Tower Rock, and Garden of the Gods.

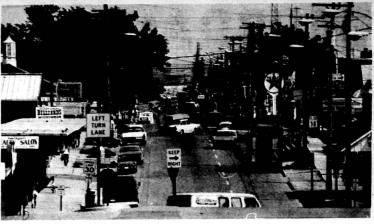

Within bicycling distance of the campus are the Crab Orchard (part of the \$43,000 acre Crab Orchard (wildlife refuge). Little Grassy and Devil's Kitchen lakes, all of which provide bass fishing and camp grounds.

Sailing? The SIU Sailing Club offeren the novice a chance to learn to

grounds.

Sailing? The SIU Sailing Club offers the novice a chance to learn to
sail. Walter Henneberger, faculty
adviser for the club, said a student
can be taught to sail within a tenweek quarter. Students interested in
joining the club may contact by
Cupp, president of the club, Henneberger said.

This is Illinois Avenue, scene of city-sanctioned street parties.

Historic woods make campus beauty spot

By Carmen Nappi Student Writer

Thompson Woods has been an area of natural beauty for the people of Carbondale and SIU for nearly 150 years.

The woods were a popular relaxing spot for Carbondale's first settlers and even a meeting place for the newly formed Grand Army of the Republic in the mid 1800's. When the cornerstone for Old Main was laid in 1870, the woods were already 20 to 30 years old.

Thompson Woods wasn't owned by the University, however, until 1939. Mrs. Lovina R. Thompson sold the then 10 acre tract to the University for \$8,250—with the understanding that it was to remain in a natural state.

Through the years since that pur-

Through the years since that pur-chase, it has been a longstanding

policy of SIU to keep Thompson Woods in its natural state. The University has added paths and lights, but this was done so that more could enjoy the beauty of the

grove.

In 1960, SIU planted about 400 beech and maple saplings in and around the perimeter of the woods, which are made up mainly of maturing black and red oak. The only maintenance done to the woods is slight pruning every five years, but the dead limbs that are pruned are left on the ground to provide homes for insects and small animals.

There are about 50 types of birds and small animals living in the grove. There are squirrels, rabbits, moles, cardinals, woodpeckers, and three varieties of non-poisonous snakes.

All America prize more than paper

By Monroe Walker Daily Egyptian Staff Writer

Carbondale's All America City Award is just an II by 14 inch piece of paper hanging on the city's cour-troom wall but it represents a chance for citizens to define their own government. says Stan Bond. assistant, director of industrial development velopment.
'The award itself has nothing to

do with the physical beauty of the city," he said, "the real beauty of Carbondale is the desire of citizens to get the job done that needs to be done for the community."

done for the community."

He explained that the award represents not good government, but "democratic government."

"Government must be at the local level," he said, "It must present the kind of things that allow citizens to do things for themselves."

He said local government tends to lose sight of the real needs of the community and thus fail to be a responsive government.

"The significance of the award is the way citizens react to it." he

the way citizens react to it," he said. "If the award encourages citizen action and participation in city affairs then it is representative of a great deal.

He explained that the award was honorary and that no monetary or direct benefits was obtained in receiving the award.

"It may attract some industry and encourage commercial growth but that's not the real intent," he said, "The real intent is more concern and involvement by the com-munity and less reliance upon government to meet the city's

needs."

The award was presented when Carbondale was designated an All America city in a competition sporsored jointly by the National Municipal League and the Saturday Evening Post magazine.

Mayor Neal Eckert designated 1972 as "All America City Year" in Carbondale, calling the winning of the award "just the beginning" in the city's self-improvement efforts. In addition to Carbondale, eight other cities were awarded All America designation: Beloit, Wis:

These are Cricket's pups-at about two months

Alpha Phi Omega members help see after SIU's Salukis.

Bersheba Cairo can outrun any creature on two legs

By Debby Ratermann Student Writer

Who's the fastest Saluki? Ivory Crockett? Dave Hill?

The answer probably is Bersheba Cairo, better known as Cricket, one of the 12 Saluki mascots living in the Cooperative Wildlife Service's kennels on Route 4.

nels on Route 4.
Willard Klimstra, who is in charge of caring for the dogs, said that Salukis are a breed of ancient Egyptian hunting dogs. "very fleet and supposedly the first hunting dogs used by man. They were chosen as team mascots because the Southern Illinois area is called 'Little Egypti."

Little Egypt."

Klimstra said that adult male Salukis are from 23 to 28 inches high, long-haired and that Salukis range in color from black to white with many shades in between

with many shades in between.

Klimstra recalls that when he came to SIU about 23 years ago, there were no Saluki mascots,

although the athletic teams were called the Salukis.

"I guess it was about 20 years ago when they got the first one," he said. "It was as red as fire."

Klimstra said he "vaguely remembers that the first Saluki was buried somewhere on campus," but he isn't sure of the spot.

Besides Cricket, who gave birth to eight puppies in May, 1971, SIU has a male Saluki, Billa, and two older females.

Cricket's eight puppies include six females and two males. A spokesman for Alpha Phi Omega service fraternity, which shows the Salukis at sports events and parades, said the eight puppies have not definitely been named yet.

Klimstra feels that the eight puppies have placed an unbearable burden on the University. "We're in no position to maintain 12 dogs," he said. "To make matters worse, Student Government refused to allocate the \$3,000 we requested this year," Klimstra said. "We got absolutely nothing.

"I have a feeling there will be an appeal to students and alumni for money," he predicted. "Or we may try to sell several of the dogs."

Klimstra feels SIU should keep at least four of the dogs, including the male Billa. He foresees difficulty in selling some of them, however, because "their blood lines aren't that good. These aren't show dogs.

"But we have some very fine pups." Klimstra said.

He explained that expenses involved in caring for the dogs include "student workers, who live out at the kennels and feed and exercise the dogs, food and veterinarian bills. Something has to be done soon."

The Arena: where the action is for entertainment

Chicago signed for Arena; Warwick, Cosby tentative

By Pat Nuceman Daily Egyptian Staff Writer

Although dates for a series of rock-oriented concerts have been mapped out for fall quarter by Arena management, the only group actually contracted is Chicago, Leroy Fehrenkamp, assistant manager, reported

retained.
Sept. 28 is set for the Chicago concert date in the Arena, but the other concert dates set by Arena management—Oct. 28, Nov. 9 and Dec. 8 or 9—were still without any definite committments from artists in mid-July, Fehrenkamp said.

A tentative commitment has been received from Dionne War-wick and Bill Cosby for the Oct. 28, Homecoming date, but no contract has been signed. Fehrenkanp said the Warwick-Cosby show would be the only non-rock concert of the

The Arena management also has been negotiating with the James Gang, Elton John, Yes and the Jef-ferson Airplane, Fehrenkamp said, but no definite decision on these has

but no definite decision on these has yet been reached.

Three surveys have been taken of students to determine what type of performer they prefer, Fehrenkamp said, and the Arena staff has been attempting to use these as a guide in booking shows. He noted that there is considerable difference in the type of performers. difference in the type of performers preferred by white and black

Arena management has found, he said, that the groups top-rated on the surveys are performers which the Arena has been attempting to get for some time but has been unable to book because of money or scheduling difficulties.

Programming the Convocation Series, said Willis Malone, executive vice-president, is not so much a question of whether the ich a question irse will be grai

course will be granted for credit as when the course will be cancelled. As of July 18, this was still to be decided, but both Malone and Hibbs said that they expected a decision before end of summer quarter. Malone explained that some students already have registered to take the one-hour course for fall quarter. The course may be con-

students, he said.

The Faculty Council had recommended that Convocation no longer be offered for course credit because of controversy over the behavior of students attending the series.

The once-weekly series of lectures and performances—a Thursday afternoon fixture at the Arena—was frequently disrupted during the 1971-72 season by members of the audience talking and heckling during presentations.

Undergrads get special care at library

The undergraduate library in Morris Library is one of several changes the library has undergone. Not only is the undergraduate library new, it is the pride of F.S. Randall, director of Morris Library. The undergraduate library, which is located on the first floor, opened

is located on the first floor, opened fall quarter, 1971. Randall said the library has its own staff and its own collection of books.

collection or couns.
"We have wanted an undergraduate library for years,"
Randall said. "It has become a nation-wide trend to have an undergraduate library."
Randall said that the University
"Illipsie for example has an un-

Randall said that the University of Illinois, for example, has an undergraduate library, built underground and connected to a main library by a tunnel. We felt that it was better to keep our undergraduate library in the building in case an undergraduate could not find what he needs." Randall said. "That way he can go upstairs to a particular subject division and go into greater depth."

Randall said every book in the undergraduate library is duplicated in one of the subject libraries. "The books in the undergraduate"

The books in the undergraduate "The books in the undergraduate library are based on a published list of what a good college library should have." Randall said. "The books were specially bought to duplicate what is in the rest of the collection."

The undergraduate library con-tains 50,000 volumes, Randall said. Morris Library has a total of more than 11/2 million books.

Randall pointed out the loan period for books is only three weeks. Therefore, graduate students and faculty should borrow books from faculty should borrow books from the subject libraries, he said. Faculty and graduate students nor-mally are loaned books for six-week

"The only problem," Randall id, "is that our new facility does

Open shelves are just like a supermarket

ot have enough seats." Randall said other changes

Randall said other changes in Morris Library include moving the reserve room to the southwest cor-ner of the first floor from the library basement. It is under the ad-ministration of the undergraduate librarian, and is a self-service collection. Randall explained. Randall said one of the major problems confronting Morris

for ordering books and a cutback in

staff.

Another problem is the stealing and mutilation of books.

"We have been trying for years to get turnstyles installed at exists to assist checkers." he said. "For a while we thought everything was go, but a state fire marshall objected because turnstyles would be a fire

hazard, and we would have to build an emergency exit to comply with the fire code."

Randall said that an emergency

room.
"The only problem is that the door will cost almost twice as much as the turnstyles," he said. He said the turnstyles would cost \$7,000 and the total cost including the emergency door would total approximately \$17,000.

proximately \$17,000.

Randall said Morris Library employs two full-time book checkers. There used to be student checkers who changed every hour.

"Now we are putting graduate students at the exits so that they will spend a whole evening there instead of rotating," he explained.

Randali said that companies which the whole electronic detection.

Randall said that companies which make electronic detection systems have estimated the loss from stolen or mutilated books at .5 percent of \$1 million at Morris Library. "They want to make the loss sound big so that we will buy their installations," Randall said. "So we just cut the figure in half and estimate the loss at approximately \$2.500 per year."

Randall said that with an electronic system a piece of specially treated paper is placed inside each book and there is a detection screen at each exit.

"Whenever someone passes screen with a book from library," Randall said, "a

ilbrary," Randall said, "a light comes on and the turnstyles lock." Randall said that the operation is very costly. He said that each piece of the specially treated paper costs

"We have over a million books, plus the monthly rent for the detec-

tion screens. That is about a \$100 thousand operation.

"We would rather have turnstyles because they are less expensive," he said, "but anyone can beat a system no matter how expensive it is. Nothing is foolproof. We are just trying to discourage all but the few who want to risk getting caught."

When asked how he personally felt about mutilated or stolen books, Randall said, "Mutilation is worse than stealing, it makes the book useless."

useless."

Randall said the open-shelf concept is directly related to the mutilation and theft of hooks.

Randall said future plans include introducing some self-instruction equipment in the undergraduate library to help students learn how to use the library, especially freshmen.

men.
"Another possible innovation."
Randall said, "is a circulation records system that would be directed by cable to the computer center to help locate lost or stolen IDs. We could put a students social security number into the computer across campus and if anyone tried to use it, the computer would detect it im-

Randall said the innovation could also help locate books in circulation. He said the computer, for example would signal that a requested book was on reserve, and the person wan-ting it could then be sent a notice when the book became available. "Actually we could not go back to closed stacks now because of the

cused stacks now because of the way the library is designed," Ran-dall said. "It is just like modern supermarkets and old fashioned grocery stores. How could you squeeze the Charmin?"

Little yellow card informs new students 'where it's at' at SIU

If you've ever wondered "where it's at." then a tiny yellow card that SIU's Orientation Committee hands

out may be your ace in the hole.

The cards were first passed out during Orientation Week to acquaint new students with the campus. But the cards still are being asked for, according to Jenny Lucas, Orien-tation Committee chairman.

Almost every imaginable type of question is asked and answered on entitled "Where It's At."

Old students want the card, too.

Ms. Lucas said that many students

Ms. Lucas said that many students request the cards because of the itemized list of help.

"I feel physically ill."

That's only one of the twin bill of statements on the card. Others include "I need legal assistance," "I think my professor is incompetent," "I need draft information" and even "I have a question not listed here."

Along with which department to

Along with which department to contact for specific help, the card lists telephone numbers. Alternate agencies and numbers are given. I'm surprised we never had it before." Ms. Lucas said.

Students have appreciated the card, and the idea has received a great response so far, she said.

The Orientation Committee got the idea from Temple University.

The cards that remain will be

Supplication isn't required, but maybe it helps.

Students at end of their rope find help at end of this line

On 750 occasions last year someone dialed the telephone number 457-3366 in Carbondale to utter a "cry for help."
Twenty-five times the cry came through as a tight announcement: "I'm going to kill myself."
Far more often, though, the caller needed to be helped through an interlude of depression, loneliness, anxiety. In every case he got it from an unpaid volunteer who has been trained in the fast-growing service called Crisis Intervention.
There are about 1,000 such the phone hotlines in the U.S. today, all of them more or less patterned after the pioneering Los Angeles Suicide Prevention Center started in 1957.

Nowadays, hardly any call them-selves suicide lines, because the work itself tends to discourage callers who may not exactly want to do themselves in, but who may nevertheless require some quick counseling assistance.

counseling assistance.
The Crisis Intervention Center on the campus of SIU was set up last year by faculty psychologist Thomas Schill as an extension of the Inomas Scinil as an extension of the University's Clinical Services Cen-ter. Schill figures the shoestring operation (two phones, an electronic answering service for after-hours, and some advertising change) has cost about \$1.35 per cry for help. He figures it's worth every cent and plenty more. enty more.

Like the time the girl had the gas turned on, or the other time the girl slashed her wrists. CIC alerted ambulance service, and later the girls were talked into therapy. They're

were talked into therapy. They to dray.

Or the woman who called, ostensibly to seek help in placing her baby out for adoption. The CIC volunteer was able to discern after some minutes that the caller was actually threatening suicide. She refused to say where she was, and at one point her only response to questions was heavy breathing. While one CIC worker kept her on the phone, another one contacted

While one CIC worker kept her on the phone, another one contacted city police, who effected a trace. "She's still among the living," says Schill.

The system works with approximately 50 trained, available volunteers, most of them SIU graduate students in psychology. They work two at a time in two

three-hour shifts between 8 p.m. and 2 a.m. That's when people need the most help, especially since other counseling agencies are usually shut down.

Boy-girl breakups account for the largest number of calls, next to general depression.

Somewhere between the extreme of suicidal intentions and the heavy blahs are serious emotional problems that CIC people deem demanding of speedy therapy. There were 42 of those last year. In many cases, Crisis Intervention teams will go to the person and stay with him through the night, if necessary, and then get him into psychological counseling the next day.

day.

The week before final examinations—that seems to be the heaviest crisis period. Schill says that by the time tests actually begin, many uptight students seem to resolve their problems—"they make up their minds to do one thing or another"—and the anxiety index subsides.

Bad trips from drugs triggered

Synergy, deals exclusively with that problem.

Callers have been equally divided between men and women contrary to the experience of outside clinical agencies, where two thirds of the clients are female. Schill believes the anonymity afforded by the hotline system encourages men to shed their tough-guy roles, and to bare their tortured chests.

More women than men will call with suicide on their minds, but men tend to be more serious about their intentions, according to Schill.

So far, no one CIC at SIU has talked to has ever carried out the threat to has ever carried out the threat

So far, no one CiC at SIU has talked to has ever carried out the threat. A problem for the service, and a source of understandable despair for the volunteers, are crank calls. But, as Schill says, they're trained to handle every caller's problem as if it were real and immediate. In fact, the very first call CiC ever got was an obscene one. "I'm glad it came to us," says Schill. "At least he wasn't bothering someone else."

Kay's Campus

608 S. Illinois (one block from Campus)

Straight-A student questionnaire •turns up grade-A kooky answers

Filling out forms is a basic condition of college life these days and most students suffer it about like Gl's suffer standing in lines.

But there's one questionaire that the recipients seem to suffer gladly, a form from the News Societies.

a form from the News Service of Southern Illinois University at Car-bondale that goes to students who make "straight A's".

make "straight A's".

Each year's sampling turns up some offbeat responses and some quirky reflections of what it's like to be a student and what's going on in the contemporary college head.

For instance:
Activities—"Filling out irrelevant forms"..."Lots of bike riding with my dog, Annabelle"..."Study! Study! Study!"..."Study! Study!"..."Detasseling corn" this from a coed who says she's done this for seven years). Hobbies—"Raising Peke-a-poo puppies"..."men"..."Fixing broken appliances" (two people claimed this)..."Pop culture"..."Trivia, mostly films".""."Fixing broken appliances". For instance:

Hobbies—"Raising Peke-a-poo puppies"..."mem"..."Fixing broken appliances" (two people claimed this)..."Pop culture"..."Trivia, mostly films"..."Enjoying the beauty of the world"..."Loafing"... "Pollution"..."Taking walks with my husband, Dan"... "Wine" ...and written quite boldly "New baby born Dec. 16, 1971, Doctor's Memorial Hospital, Carbondale-Brian Christopher, 7 lbs. 2½ oz.." Special Interests—"Development of alternate power source for the internal conbustion engine"..."The future of mankind."

Most have their photographs taken for home town newspapers, some prefer not to. One's explanation: "My home town paper doesn't print anything but pictures of doctors' children."

In past years, the blank marked.

In past years, the blank marked "Plans on gra, "tion" have been

filled in with a certian explicitness. Nowadays, it is apparent that a good number of students—and these are many of the very best ones—aren't at all sure what they'll be doing. "Don't know". "Loose". "Unfixed"...and "Get a job, if possible"...these are showing up more and more. The old search for permanence (sees on between anence goes on, however.

"Be the world's greatest French teacher!"..."Be an educated bum"..."Acquiring some land and

building and furnishing my own house from scratch" (a girl student)... "I did! Hurray!" (she her graduation requirements)..."to be a farm wife and a mother" (this from one who is getting a degree in social welfare).

Then there is the underclassman who ran up all those "A's" while studying government. What are his plans on graduation?

"To raise, breed and sell parrots."

Helping the poor is their game

The Legal Assistance Foundation of Southern Illinois provides knights in shining armor for people who are financially unable to hire a lawyer.

Anyone making less than \$2,000 a year can receive free legal service from the foundation, John O'Neal, administrative assistant, said in a recent interview.

O'Neal's office is a cramped, little room in the foundation's headquar-ters at 127 N. Washington. Papers covered his desk. It looked like a place where a lot of work gets done

and at a fast pace.

He explained that the program is funded by the Office of Economic Opportunity and is part of a nation-wide system of free legal service. The foundation handles a wide variety of civil matters including divorces, social security problems, adoptions, guardianships and landlord-tenant problems.

O'Neal is a slender, energetic in-dividual. The first thing you notice about him is his voice. It's harsh, direct and uncompromising. You get the impression that this might be a man who enjoys fighting the legal battles of the poor.

"We don't hesitate to wade into any area where an injustice might exist Food stamps, the Veterans Administration—we'll get into anything.

"As a rule, people come down here too late. We tell them that it is too late for us to help them with their problem, and they wind up get-ting mad at us. People think their problems are going to fly away," he

O'Neal added that the foundation's staff consists of three attorneys and one para-legal assistant (himself) who is an investigator, researcher and all-around handyman for the attorneys

dyman for the attorneys.

"The attorneys are not paid what they're worth. They could be out making between \$25,000 and \$50,000 on their own. Instead, they work for a \$10,000 to \$12,000 salary. They're dedicated. They want to help people," he said. He was disappointed because the attorneys are underpaid. And he believes that the four-dation is underfunded. Also, it is having to work with smaller and having to work with smaller and smaller budgets.

He said that the foundation's activities could be expanded at an estimated average cost of \$50,000 for each additional county. Jackson and Williamson counties currently are served with a budget of \$86,000 per year.

per year.

If given a blank check, O'Neal said the foundation would need "a million dollars a year. We'd need money for the 14 southernmost Illinois counties and 10 to 12 additional attempts." ditional attorneys.

Time consumed in traveling over Southern Illinois creates the need for branch offices, O'Neal said. Lack of funds forced the closing of such an office in Murphysboro. Of-fices remain in Marion and in Car-bondale.

"If we get, for example, a class action in federal court, we could turn it over to a branch office in East St. Louis. Traveling time could be cut down."

The elderly poor are a special problem in Southern Illinois O'Neal said.

Help with medical problems also is available to the poor of the Car-bondale area at the Free Clinic, located at 104 E. Jackson Street. It is case. He said 170 persons had been to the foundation during the month. "A large number of the cases we handle are divorces. I'm in favor of

mo-fault divorce. I'm also in favor of more thinking before marriage. My own experience leads me to the con-clusion that when 15, 16 and 17-year-

olds get married, the results is

In addition to court cases,

"We used to have a man spend a day in different Southern Illinois towns. What we need is a task force to hunt out people with problems, especially the elderly.

"They (the elderly) can be cheated for years on their little pensions. They might be entitled to a lot more, but they are afraid of losing what they have. It's their security. People should do more work with senior citizen groups. If they could discover these problems and send these people to us, we'd be glad to help them," he said. There was a note of sincerity in his voice. He note of sincerity in his voice. He believes in his job.

"The elderly have trouble with social security and black lung disease, among other things. We haven't had much luck in black lung cases. These people are in their seventies, and in many instances their doctors have been dead for years. The records are gone," he said.

O'Neal estimated that over 50 per cent of the people in Southern Illinois, outside of Carbondale, are classified as senior citizens by the government, because they are over 55 years of age.

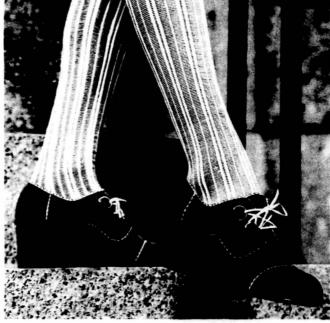

The foundation is prohibited by law from involving itself in criminal cases of any type. O'Neal said. But he emphasized that "nobody gets turned away from this office without a sense of direction. They do get advice. If we can't handle the case for the sense of the case for the sense. one reason or another, we'll refer the person to a private attorney who

O'Neal estimated that the foun dation handles close to 3,000 persons with problems each year, although not every one results in a court staffed by qualified medical personnel who give their time and services and by experienced volunteers and partially funded by the city.

foundation had helped to set up such non-profit organizations as the Free Clinic, the Student Tenant Union, Illinois Public Interset Research Group and food co-ops among others, O'Neal said.

"There are so many I can't begin to remember them all. It seems like every quarter somebody comes up with a brilliant idea."
O'Neal believes that students may

be too apathetic to exercise their legal rights.
"Do you remember when SII' closed down? There was a big fuss about getting money back from lan-dlords for spring contracts. We must have filed between 300 and 400 separate actions on behalf of students. But only about five responded when it was time to go to court."

A summer season hit was "How to Succeed in Business Without Really Trying."

Five campus stage groups add up to a lot of theater

Five separate organizations work within the SIU Department of Theater to present a variety of production throughout the year.

During the summer, Summer During the summer, Summer Theater presents three plays, three musicals and one children's play. This group has two companies, one for musicals and one for plays. A technical staff serves both.

Summer theater which attracts many students from other colleges and universities because of similarity to professional summer similiarity to professional summer stock, produces a different play or musical every week. Rehearsal schedule is very tight.

The children's play, "Land of the Dragon," out on tour during July, will be shown in August at the end of the tour in the Lab Theater at SIU.

The Lab and Experimental theater present four or more shows during the school year.

Southern Players repertoire group present around five main-stage productions during the regular school year. One show goes on tour for fall quarter, with SIU showing at the end of the tour.

In addition to the repertoire group, three children's plays and

original productions written by students are presented throughout the year.

the year.

Two quarter nights consist of three one-act plays each. These plays, written and directed by students, are primarily educational in purpose. Success or failure of the productions is difficult to determine. However, reviews, experience gained by actors and staff and total audience attendance are some judging criteria.

Southern has sent two plays to the

Southern has sent two plays to the national showcase in Washington, D.C. SiU won the midwestern regional play contest twice. "Caretaker" and last year's production "Home" were winners.

Intramural program offers sports lovers a smorgasbord

By Marguerite Van Ness Student Writer

You don't have to be a Lionel Antoine or Greg Starrick to get the thrill of catching a long pass or sinking a free throw. SIU offers a wide variety of intramural activities for both men and women to

show off their athletic talents.

Larry Schaake is responsible for the men's intramural program and other recreational activities cluding the campus beach and boat

dock facilities.

Activities are offered on the individual or team basis. "Our set-up
gives the student a chance to participate in the athletic activity of his choice. Officials, equipment and supervision are all provided within the structure of the program," Schaake said

Activities available for men in-clude flag football, singles and doubles tennis, turkey trot (cross country), basketball, swimming, floor hockey, volleyball, wrestling, weight lifting, frisbee throwing, track and field, canoeing, softball, handball and racquetball.

"If a student is interested in star ting a new activity we encourage him to call or come in to the in-tramural and recreation office

(Arena, Room 128) and talk about the idea. Student's interests change and we have to keep on top of those interests." Schaake said.

interests. Schaake said.

The program does have its problems. Limited facilities is the major obstacle. "There simply are not enough outdoor facilities." Schaake said.

"Football".

Football begins in the fall and

"Football begins in the fail and softball runs in the spring. Poor soc-cer gets squeezed out of the program." Schaake said.

The first activity scheduled for the fall is football. Sometime in early October the intramural office is expected to issue a call for foot-led. It can be a specific or some support of the specific or some support of the specific or some support of the specific or specific or specific or some support of the specific or sp

is expected to issue a call for foot-hall team managers. All entries must be registered with the in-tramural office. In the future, the men's in-tramural program hopes to include sports clubs or have a segment of their organization devoted to sports clubs. "Clubs probably won't be allowed until the completion of the new recreation building," Schaake said.

The intramural office has a hand-book available for anyone seeking further information about the program.

Women's intramural programs are independent of the men's program. Charlotte West, director

of the women's program said that many of the women's activities are

quarter include recreational gym-nastics, bowling, volleyball, water sports, conditioning, badminton, fencing, folk dancing, cross country,

and varsity competition in swim-ming, field hockey and basketball. Ms. West has had more success running the women's program on a club basis. "We haven't found success with the same structures as the men," she said. "Women need more prodding to come out for athletic ac-

Each activity has a sports leader who acts as club president. The intramural program is run by an elected student board, Ms. West said.

"The men's program should in-clude more co-ed activities," Ms. West said. While the American Medical Association is not in favor of women playing football, Ms. West is in favor of women taking part in a modified version of the game. The purpose of the intramural

The purpose of the intramural program is recreation. Anyone can participate, and they are en-couraged to do so. Getting out and taking a swing at a softball, or kicking a football is good therapy for those study blues. for those study blue

Tougher schedule, rough time face Saluki cagers

Saluki basketball fans, who com-plained about last year's mediocre basketball schedule, should be silen-

basketball schedule, should be silen-ced this year.
Saluki boss Paul Lambert has beefed up the 1972-73 schedule with Florida State, runner-up to NCAA champion UCLA, and with Detroit. Creighton, Weber State and long-me foe, Evansville.

The obvious question arises: how are the Salukis, who finished last season with a dismal 10-16 wonlest.

season with a dismal 10-16 won-lost record, going to win any games against tougher competition? It's going to be rough. And Lam-bert knows it.

Part of the Salukis' problem is inexperience. "We found it necessary to recruit junior college players this year, because we lost so eany seniors (seven) from last year's varsity team," Lambert

said.
Major losses include guards Greg Starrick and John Garrett. Starrick averaged 23.8 points a game and led the nation in successful free-throw attempts with a 92.5 percentage. Garrett hit for an average of 16.9 points a game and was considered to top playmaker on the team. Other losses include 6-11 center-JII Perkins and 6-5 forward Marvin Lording to the property of the prop

Lambert has five returning letter men all seniors and who all are goint to have to fight for starting jobs. Returning at the forward spot are 6-4 senior Nate Hawthorne, 6-4 Don Portugal and 6-6 senior

John Marker, a 6-1 senior, returns to the guard spot, and 6-3 junior Eddie James can play either forward guard.

Hawthorne was the third leading

scorer with an average of 11.9 points a game last season and the top rebounder with a 7.7 average. Portugal was a starter and averaged 8.5 points and seven rebounds a game. Marker was a key defensive player

Garrett.
Joining the returnees are five
junior college transfers and four
players up from last year's freshman team.
Guards Dennis Shidler and James

Guards Dennis Shidder and James "Shag" Nixon both are from the junior college ranks. Shidler was the playmaker on the Vincennes (Ind.) national junior college cham-pionship team. Nixon averaged 26 points a game at Cuyahoga (Cleveland) Junior College. Lam-bert considers Nixon to be men of the bert considers Nixon to be one of the top guards in the nation.

top guards in the nation.

Forwards George Thompson and
Alvin Hendrix combine excellent
rebounding, scoring and defensive
abilities. Thompson averaged 27
points and 23 rebounds at Leicester
(Mass.) Junior College. Hendrix
was a defensive standout for
Paducah (Ky.) Junior College. Hendrix
team finished with a 26-6 wonlost record and placed sixth in the national junior college tournament.

Handling the center position for the Salukis will be 6-11 Joe C. Meriweather. Meriweather is ex-pected to fill the void caused by the loss of Perkins.

loss of Perkins.

Joe C., as his teammates call the
big guy, is an excellent rebounder
and smooth shooter. He led last
year's freshmen in scoring, 21.5
points a game, and in rebounding,
15.1. He also hit on 65 per cent of his
shots from the field. Lambert says
of Meriveather, "Joe is deadly
from close-in. He's extremely quick
for a big man. He's particularly
strong in going to the offensive
boards. And he's got to be an intimidating factor on defense."

boards. And he's got to be an in-timidating factor on defense."
"We're going to be a young team." Lambert said. "I expect we'll have some early season ad-justment problems, as most of the players will be playing together for the first time. the first time

"But we'll be a much quicker team than a year ago. And I an-ticipate improved scoring from our front line. That was one of our front line

Collective farming's the thing

Communes aim for return to nature

By Ed Donnelly Daily Egyptian Staff Writer

Communal, or collective living, by many students—including SIU students—is a reality in the Carbondale vicinity. It's also a reality that these communal residents are students—is a reality in the Carbon-dale vicinity. It's also a reality that these communal residents are striving for permanency in their an-cient, but revived, effort to return to nature, a survey has shown. The survey of seven of the "most-together" collectives, or communes, indicates that there are ap-proximately 75 persons involved in this form of living in the Carbondale area.

Seven sets of people live together as a family and work toward one common goal: making a living through farming.

The survey indicated success of the subculture and showed that it prospers in the Southern Illinois

If a typecasting can be attached to these new pioneers, it would go like this: they are a closely-knit group of former Chicago residents who have now banded with best friends to rent now banded with best friends to rent some land and grow and make organic food for sale and personal consumption. They generally agreed that their collective 'trip' had been successful in living har-moniously with nature, because they, as a group, have attained a spiritual or religious basis as their goal.

"We trade and barter with friends in the other communes. We usually rade food for tools. Bartering is a trade food for tools. Bartering is a friendlier system, and it holds people together," said Mike Oder, formerly a student from Chicago and who is now a member of the Tony Pony family, one of the coms surveyed.

Twelve persons hand-till the 20-acre Tony Pony Farm, which also includes horses, goats and chickens.

While I drank some fresh goat milk offered by Oder, I listened as he explained how his year and a half collective living with the family had given him "better visuals, more ap-preciation for nature and more energy."

A similarly-arranged collective is

preciation for manuferenergy."

A similarly-arranged collective is the Gold Farm in Cambria, where six persons, former SIU students who "grew up" in Glen Ellyn, raise bees, tend a garden and "eat more vegetables," according to Jerry Sadowsky, Gold Farm resident. Sadowsky explained, "We just

Sadowsky, Gold Farm resident.
Sadowsky explained, "We just
started our farm, but it is such an
easier, more enjoyable alternative
to the urban world that we would
like to buy our land some day."
The Gold Farm is an 80-are
collective that includes 40 acres of
strip-mine pits used for "skinny dipping." he laughed.
The oldest and one of the biggest
area suppliers of organic food is a

area suppliers of organic food is a collective located six miles south of Carbondale called Harvey's Farm.

Here lies a microcosm of the area's collectives. Harvey's Farm is where seven ersons, some former SIU students,

rent 40 acres of hilly, rocky soil and

Home from the field, where seven acres of tomatoes make a lot of work.

ridge, thick with overgrown vegetation, and which provides some comfort from the summer heat, but Harvey's Farm, like others reported, use little electrical relief from the heat. In fact, this

relief from the heat. In fact, this collective relies on well water.

"When you live collectively you are closer to the universe, you get things done and you feel like a human being playing your natural role in a family," Noella Piacenti, who has lived collectively for a year, said.

Lingo learning that several initial

year, said.

Upon learning that several initial attempts at collectives in the city limits of Carbondale failed, I asked Ms. Piacenti why they have broken

Ms. Piacenti why they have broken up.

"For a successful collective there must be a religious, or spiritual, basis amonst the members."

"We collectively work at Mr. Natural's as well as farm, bathe and reach each other collectively.

"It is not the ideal but it is a logical alternative to Chicago," she said.

When Gary Orlanding also a Har-

said. When Gary Orlandini, also a Harvey's Farm member, was asked why he prefers communal life he replied, "It's better for your head, but that really depends on the mood you're in when you wake up in the morning."

morning."
There appears to be three highlyrespected individuals amongst all
area collective members who were
constantly being glorified in conversation. They are Tim Comiskey and
Toni Roan, former SIU students
now collective farmers, and Ray
Lenzi, who heads the environmental
center of the SIU Student Government.

ough it. I discovered the nature of the Tim
This quaint farm is nestled on a and Toni farm in Murphysboro to be

the reason for their popularity. Here, on a 250-acre rented farm, four persons supply an entire bakery with bread and organic foods. These people seemed to be proud of their garden and looked forward to the day when they might own the land.

"We have lived in the country for about three years, but the true commune is probably more work than we can imagine," Comiskey said.

"The communes that have failed may have been drug cults which tend to be unnatural. You need a religious basis," Ms. Roan said.

The Bran New Day Organic Farm appears to have great potential with one year of collective farming complete. Andy Robinson said, "In a couple of years we will be able to live completely year round off our recently purchased land."

Nine former SIU students who "grew up together" in Chicago suburbs wmth #20-acre Bran New Day collective in Cobden and live in ents, tepees and a farmhouse.

"We find our land more conducive for peace and harmony than Chicago.

"It is a very religious thing to farm and live in peace. We realized this by our own energy output, and the desire to help we have received from the neighbors has strengthened our commitment to the land," Robirsson said.

But he warned that the "selfish drug trip won't m. et it in the com-mune, you even hav. to be selective in choosing your family."

Jim Altree, Bran New Day mem-ber, stated that the organic produce market is low because "people don't care what they eat, so we are forced to sell our vegetables as commer-cially grown in many areas."

The Bran New Day farm operate vegetable market in the Murdase hopping Center in Carbondale.

There was one collective of an established nature found within the Carbondale city limits.

Carbondale city limits.

In general, I noticed that the collectives most remote from the Carbondale vicinity were more sincere, more tangibly and spiritually productive and less reluctant to be interviewed. They did not feel alienated by their rural living rather, they believed themselves to be more in tune with the world by being close to the land.

By Dave McGregor Student Writer

Southern Illinois University was 100 years old in 1969 and will be again in 1974.

This discrepancy is the result of two different founding dates for the university Although SIU was chartered as a

two-year teachers college in 1869, classes were not held until 1874 after the completion of the one building that housed the entire college.

SIU is solving the problem of two centennial dates by conducting a five-year Centennial Period from March 9, 1969, to July 2, 1974.

From its humble beginnings, SIU has grown into a sprawling complex of modern buildings and open areas—136 permanent buildings and 293 temporary on some 7,200 acres. all valued at \$160 million.

The period of greatest expansion ame during the years when Delyte 7. Morris was president of the

University, said Carroll Riley, professor of anthropology and chairman of the Centennial Com-

It was Morris's vitality and imagination that helped make SIU one of the 20 largest universities in the country, Riley said. Morris retired last year after 22 years as SIU's president.

As part of the celebration, the Centennial Committee is sponsoring the publication of several books.

"We chose to put a large part of our resources into publications since they will be a lasting con-tribution," said Rey. "The books will be here after we are gone and

Early applicants get the student jobs

By Bill Webb Student Writer

Students wanting university jobs for fall quarter should apply to the Office of Student Work and Financial Assistance five weeks prior to Sept. 21.
Raymond P. Delarnett, assistant director of the office, said in a recent interview that jobs are usually available for students who apply in advance.
"As soon as a student has planned."

apply in advance.

"As soon as a student has planned his schedule for fall, he should come to see us," he said. "We can begin looking for a job that will match his schedule. It usually takes about five

stricture. It usually takes about five weeks to place a student." Students who come to the work of-fice at the beginning of the quarter should not expect to get jobs right away. DeJarnett said. "When school opened last year, we had less than 50 jobs left. 1,000 to 1,500 students came in asking for jobs."

He added that students who could not be placed at the start of the term should go ahead and apply because the turnover in student workers averages 200 a month.

The total student work force is etween 3,200 and 3,300.

When a student comes to the work

office, he is given an ACT Family Financial Statement, a part of Financial Statement, a part of which is sent to the ACT offices for processing and determination of need. Another part is returned to the

SIU work office. DeJarnett said.

After ACT processes the statement and sends a copy to the work office, the student is eligible to

work office, the student is eligible to work, provided he is in need of funds to continue his education.

In order to work, an undergraduate must be a full-time student carrying 12 quarter hours. A summer student must have six hours to be eligible for work.

"We have about 200 different kinds of jobs ranging from maintenance, food service, clerical, aboratory, surveying, greenhouse, feed production to student

newspaper jobs." DeJarnett said.
"In many cases we can relate a student's academic program to a job." he said. "For instance, any student with average or better clerical skills can find a job im-mediately. We have over a thousand

mediately. We have over a thousand such positions on campus."

Although most jobs involve daytime work, evening jobs are also available, he added.

The work program is set up in such a way that the average student worker will earn about \$300 per quarter. DeJarnett said. The minimum sterious ways is \$1.60 a. minimum starting wage is \$1.60 an

hour and the average student works between 16 and 17 hours per week. Raises of 10 cents are given after the first 1.500 hours of work and 10 cents for each additional 1.000 hours. Unusually good students can also get an additional five-cent raise as often as every six months, but this is to be determined by the in-dividual employer.

The work office has no limitation

on the maximum number of hours a student works, DeJarnett said, but might establish such

"We have some students who can

work 40 hours a week and still make good grades," he said, "but I'd say most students couldn't do that. We try to arrange it so that a student averages about three work hours a

day."
SIU has a long tradition as far as SIU has a long tradition as far as the student work program is concer-ned. DeJarnett recalls working 20 hours a week at SIU in 1933 for 25 cents an hour. The National Youth Ad-ministration provided federal funds for students who came from needy families between 1936 and 1943. For the next 10 years, the work

program was funded with limited state funds. The work office was set up as a department in 1953, with about 300 students on the payroll for the first year.

By 1960, that number had gone up to 1,300. It jumped to over 4,000 by 1968 before tapering off to the 3,200 total this year.

DeJarnett said not all students at Devarner said not all students at SIU work because they have to. "A large number of students work because they want to work," he said. "Helping yourself is the style at SIU."

Broader education is goal

General Studies counters specialization

During the past year, SIU's General Studies curriculum requirements have undergone ex-tensive study and revision to better

tensive study and revision to better meet the needs of students faced with closed job markets in their major fields.

John W. Voight, dean of the General Studies Division, said in an interview that this action had been taken because "overspecialization had become increasingly apparent. Present conditions in employment Present conditions in employment are pushing for a broader education."

Voigt said that students seeking

employment in today's job market would realize more benefits through broad exposure to several disciplines rather than by strictly

disciplines rather than by strictly adhering to a specialty. To facilitate this approach, cutbacks in rigid General Sudies requirements have occurred. In 1971, total hours requirements were reduced from 96 to 67. A student also may now formally enter his major field at 48 hours instead of the former 67-hour level. Reductions have also taken place in the number of hours required to

former 67-hour level.
Reductions have also taken place
in the number of hours required to
complete each General Studies
area. In areas A, B, and C,
requirements have dropped from 24
to 16 hours, for example, and in
area D from 16 to 14 hours. Area E
has remained at 5 hours.

Area A covers the physical sciences, Area B the social sciences,
Area C foreign languages and
humanities. Area D English, speech
and mathematics, and Area E
health and physical education.

Under the old rules, courses offered were for three hours credit
and required that the student
complete eight different courses in
Areas A, B and C to satisfy General
Studies requirements. With the
reduction in these areas, and the inclusion of four -credit hour courses,
a student can now complete his
requirements, in four courses, a a student can now complete his requirements in four courses per area, a reduction of 50 per cent. Voigt explained.

These changes have resulted in a 51 per cent drop in courses offered by General Studies," said Voigt. However, he said this does not mean that students' choices are also

Mark Waggoner. DeSoto. art major, pauses to reflect at the Morris Library pool

Courses dropped from reduced. General Studies remain in schedule of departments that have traditionally taught them and are still available, he said.

"Some are cross-listed, but the majority are not." Voigt said. The revisions were done to provide some additional flexibility for the student,

adouttonal reasons, to the Report of the General Studies Joint Standing Committee Joint Standing Committee for 1971-72, which was presented to a meeting of the Faculty Council July 18, more resistants of the curriculum revisions of the curriculum requirements may be in order. The report recommends that the

math requirement in Area D be dropped and total hours in that area reduced to 12. It also recommends that Area E be increased by one hour due to the addition of four

hour due to the addition of four more class offerings.

Another program under con-sideration is the introduction of a General Studies degree at SIU, said Voigt. "It's been in the works for a year, but no significant progress has been made," he said. The idea of a major in General Studies is not new, he said, and is currently being

used at 44 universities nationwide.

Voigt said the need for this program originates with the overburdened job market in many students' major concentrations. A student with a General Studies background could conceivably "prepare himself for several different employment opportunities," he said.

In surround.

ferent employment opportunities," he said.

In support of the idea for General Studies major, Voigt cited the Spring 1971 registrar's coding list which showed 51 per cent of all freshman and sophomores had not declared a major. These students could greatly benefit from a curriculum "stressing a broad overview of all subject matter," he said. Voigt expressed support for "more interdisciplinary courses such as GSA 299. "This course centers on the role of mankind in interaction with his environment and offers various instructors from humanities, arts and sciences.

Although minor changes have been undertaken twice in the past, once in 1966 and again in 1971, this is the tirst totally comprehensive curriculum review in 11 years, he said.

Interim Policy still applies

New campus conduct code under study

Judicial and disciplinary policies of the University will be changed—if and when a proposed Community Conduct Code is adopted.

The new code, however, has yet to

The new code, however, has yet to receive approval of the University Senate and the University-prident. The new code, however, has yet to receive approval of the University Senate and the University Senate and the University president. It would, among other changes, apply to faculty as well as students. It would establish a system of hearings and appeals procedures and add to safeguards for rights of due process for persons charged with violations of University rules, which it also would spell out.

Writing and study of the code have been in process for more than a year, with representatives of all segments of the University com-

segments of the University com-munity taking part.

Besides changes that may be brought about by the code, recent court decisions may also lead to modifications of disciplinary policies, said Tom Busch, ad-

policies, said Tom Busch, ad-ministrative assistant in the Office of Student Relations. He said the Office of Student Relations has been reviewing the University's disciplinary policies because of 'the drastic changes that have taken place within the last four

Until the Community Conduct Code is adopted, however, the University's student disciplinary policies will remain as outlined in the Student Discipline Infor-mational Guide for 1971 to 1972 and as set forth in the Interim Policy on Demonstrations.

Demonstrations.

Presently, eight basic actions may be aken against persons violating University codes.

For a minor offense, such as violation of residence hall regulations or possession of alcoholic beverages in University facilities, a student may receive a disciplinary reprinand, as

facilities, a student may receive a disciplinary reprimand, a disciplinary warning or be put on disciplinary yorobation.

A disciplinary reprimand is an oral reproof of the student's conduct. This action, along with disciplinary actions, said Dick Higgerson, coordinator of student disciplinary actions, said Dick Higgerson, coordinator of student disciplinary. student discipline.

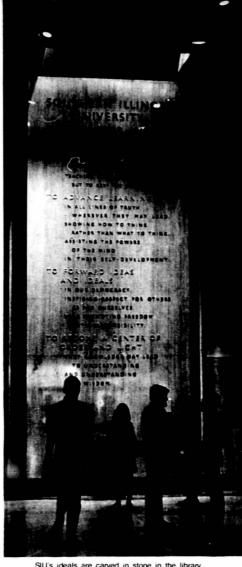

Disciplinary warning is a written warning addressed to the student cautioning him against repetition of the offense

Disciplinary probation involves the removal of certain privileges, such as participation in inter-collegiate athletics, for a certain

period of time.

If one of these three actions is taken against a student, the action does not appear on the student's official transcript.

If a student commits a serious ofe, such as vandalism, erate disobedience, theft or the manufacturing, selling, possession or use of a narcotic, the student may face disciplinary su dismissal or withdrawal suspension

SIU's ideals are carved in stone in the library.

Suspension and withdrawal are voluntary separations of the student from the University. He may be readmitted in the future.

Dismissal is a permanent separation from the University.

One place you must see in Southern Illinois is Old World Imports, a most unique and exciting shoppe. We carry a line of hand carved Mexican colonial furniture and accessories, and an exclusive group of chess sets.

Old World Imports

Higgerson said this action is taken very rarely. There has been only one disciplinary dismissal taken in the last year and a half. It involved a student with a long series of serious violations on his record.

Riggerson said the application of

Riggerson said the application of a temporary suspension or an involuntary withdrawal was also a rare occurence.

A student may be temporarily suspended pending a hearing if he represents a "clear and present danger" to the University community. Higgerson said this would involve a student who may engage in some form of violent action before his hearing. before his hearing.

Higgerson said the application of a temporary suspension or an involuntary withdrawal was also a

voluntary withdrawal was also a rare occurence. Involuntary withdrawal is applied to students who, for medical or psychological reasons, can not be held responsible for their actions. Higgerson said there have been no involuntary withdrawals for a year and a half.

A student accussed of violating a University code may have a hearing with his area dean or with the student judicial board in his living area. The judicial board, composed of students from the student's living area will proposed to area, will recommend to the area dean what type of action should be

Under the Interim Policy on Demonstrations, the University can take disciplinary action against any student or group that disrupts University functions, interferes with the safety, welfare or rights of other members of the University com-munity or is destructive of public or private property.

Busch said there are two cases Busch said there are two cases pending against students charged with violating this policy. They are charged with violating the section of the policy which concerns obstruction of University activities and with violating that section which concerns physical abuse or intimidation of a member of the University community.

The cases stem from incidents which occurred during the antiwar disorders at SIU last May.

University administration gets face-lift

By Sue Roll Daliy Egyptian Staff Writer

Changes made in the University administrative structure this sum-mer may confuse some SIU mer may confuse some SIU students. But President David R. Derge

But President Davio K. Derge says these changes will make things easter for students, faculty and anyone who deals with the Univer-sity and bring the University to its goal of "academic excellence."

The medium changes and

goal of "academic excellence.

The major changes in administration eliminates the many assistants to the president, replacing them with line administrators working directly under

ministrators working directly under four vice presidents who report directly to the president. The changes in administrative structure followed recommen-dations by the president's Manage-ment Task Force, which was for-med by Derge in March to study the University administrative structure which Derge said was "in a sham-bles."

The four vice presidents are

The four vice presidents are:

—Willis Malone, vice president
for academic affairs and provost.
Malone also is executive vice
president to Derge Malone came to
SIU in 1939 as a supervising teacher
in rural education. He was assistant
dean of SIU's College of Education
from 1945 to 1948, and was chief
academic adviser for the college
before being named SIU director of
admissions in 1955.

He has been assistant for
academic affairs to the vice
president and was named acting

president and was named acting chancellor of the Carbondale cam-pus in June. 1970, after former Chancellor Robert W. MacVicar

resigned to become president of Oregon State University —Dan Orescanin, former executive assistant to Derge and now vice president for administration and campus treasurer Orescanin served as assistant to Derge when Derge was at Indiana University. Bloomington. Derge named him as his executive assistant soon after coming to SIU as president in February. —T. Richard Mager, vice

president for development and services. Mager also serves as SIU legal counsel but expects a replacement for his position to be named this year

named this year

Mager came to SIU in 1971 as SIU
legal counsel. Previously, he had
been counsel for the curators of the
University of Missouri and had a
private law practice.

A permanent vice president for
student affairs is to be named later
this fall. Until then, George Mace,
dean of students under the new

dean of students under the new organization plan, has authority in the area of student affairs. Mace came to SIU in 1963 as assistant professor of government

the Edwardsville campus before coming to the Carbondale campus in 1971 as assistant to the president student affairs.

All of the vice presidents report directly to President Derge. He replaced the temporary chancellor and president of the University. and president of Robert G. Layer

Derge 43, was executive vice Derge 43, was executive vice president and dean for administration at IU. Before joining the faculity of IU in 1956, Derge taught at the University of Washington, Pullman; Northwestern University, Evanston, Ill., and the University of Missouri. Columbia, While at Indiana, he also was associated dean of the graduate. was associate dean of the graduate school, associate dean of faculties and prefessor of political science. Although Derge announced that

his ties with partisan politics were over once he bacame president of SIU, he has been very involved with politics and the Republican party in the past

His involvement at IU included a ur-year tern as a city councilman Bloomington.

In 1968, because of some work he had done in polling research methods, Derge was asked to set up a national survey research center in Washington for the Nixon presiden-

Washington for the Nation pressure, tail campaign.

After this, he returned to Indiana, but his affiliation with national government was not over. In the four years that followed he was of-fered several national government

David R. Derge

sts, including assistant secretary the state, director of the Bureau of Census, assistant secretary of in-

of Census, assistant secretary of in-terior and deputy commissioner for-higher education.

He says he declined all these of-fers because he preferred a position in an an academic institution.

The naming of Derge as president was the culmination of a lengthly presidential search which involved expenditure of over \$23.00 in

expenditure of over \$23.00 in consulting fees to Richard Quantance Associates of Chicago.

Each of the four vice presidents under Derge have a number of administrators under them. But, with the exception of a few core

Dan Orescanin

Willis Malone

Richard Mager

assistants, the staffs of the four vice presidents and the titles of these staffs have not been determined. This is presently being worked out by each of the vice presidents in cooperation with the Mnagement Task Force.

Two vice provosts have been appointed to serve under Malone, vice president of academic affairs. They are John K. Leasure, former chair-man of the Department of Plant In-dustries, and John H. Baker, former assistant to the president for plan-ning, development and review. The duties of these men have not been dilineated, but each is expected to have responsibility for academic

units under academic affairs. units under academic affairs.
On the staff of Orescanin, vice
president for administration and
campus treasurer, are Gene
Peebles, former assistant to the
president of buisness affairs; Don
Arnold, comptroller, and Charles
Bernadoni, former assistant to the
president for presearch and prairiets. president for research and projects fiscal management.

Rino Bianchi, assistant to the president for space allocation, is now on the staff of Mager, vice president for development and ser-

vices.

The staff for the vice president for student affairs perhaps is the most indefinite of all, as no permanent vice president has been named in that area. A vacancy still remains of the position of dean of student services. services. Emil Spees is assistant dean of student services.

dean of student services.

Edward Hammond, assistant to the president for student relations under the old organization system, is expected to be included under the

new student affairs reorganization. In an additional administrative appointment in July, Derge named Edgar Hollis Merritt, also of IU as has assistant. Merritt assisted nas assistant. Merritt assisteda Derge when Derge was at IU and after Orescanin became the second of Derge's IU associates to be added to SIU's administrative staff.

Got a yen to sing?

There's music opportunity for everybody

All students interested in singing All students interested in singing or playing a musical instrument, whether or not they play an instrument well or are music majors, should have the opportunity to play or sing at SpU. Melvin Seiner, assistant to the director of the SIU School of Music, believes.

And there is plenty of opportunity provided by more than a dozen bands, orchestras, ensembles, choirs, choruses and glee clubs in the music school.

the music school.

The University Symphonic Band, which carries one academic credit, is open to all University students (men and women) in all colleges. schools and departments who wish to continue their wind or percussion activities at the University level. The University Symphonic Band

The University Symphonic Band is designed to perform a large part of the literature written or transcribed for bands of moderately large to large proportions. The University Symphonic Band presents one concert per quarter (fall, winter, spring, summer). The prerequisite for membership in the University Symphonic Band is only that of the instrumentalist have had nevious experience in an

have had previous experience in an instrumental organization. No audition is required. The SIU marching band, the Mar-

ching Salukis, derives its distinction from plaid tuxedo-style jackets and derbies. The Salukis also feature an entire concert percussion section on wheels, a mobile baby grand piano and specially prepared "Swinging Saluki" arrangements and in-strumentation.

In addition to numerous In addition to numerous ap-pearances on and off campus, one of the highlights of each season is the preschool band camp held yearly one week prior to the beginning of fall quarter. During this period band members are provided with room and board for a full week of orientation, rehearsals and followship. fellowship.

tellowship. Membership in the Marching Salukis is open to all male students in all colleges and departments of the University. (Each year 60 percent or more of the band is made up of non-music majors.) The only prerequisite is the ability to play a wind or percussion instrument, and no auditions are required. no auditions are required.

The University Wind Ensemble

All choral ensembles are open to

All choral ensembles are open to both graduate and undergraduate students. No student is permitted to participate in more than three per-forming groups during one term. Most choral ensembles carry one academic credit.

academic credit.

The University Choir, composed of approximately 40 singers, performs mostly serious music, usually on campus. An audition, sight-reading ability, and membership for the entire year are required.

The University Singers perform extended choral-orchestral works written for a lasten mixed execubile.

written for a large, mixed ensemble (approximately 250 singers). Per-formances are in December and May. No audition is required, and it is not necessary to join for the entire

is not necessary year.

The Male Glee Club, composed of approximately 50 men, performs frequently on and off campus and often tours. An audition and membership for the entire year are required.

The Womens Ensemble usually programs one formal concert per

performs one formal concert per quarter and is composed of ap-proximately 30 women. Hearing is required for voice color and range. Membership for the entire year is desired, but not required. Membership in the SIU Chorale is

by permission of the conductor. The SIU Chorale performs music from all periods with emphasis on the 20th century, manuscripts, and

The Marching Salukis and the twirler corps do their thing in Busch Stadium

commissioned works. The group participates in choral-orchestral performances on and off campus. and solo and small ensemble oppor-tunities are offered for the excep-tional vocal musician.

The Southern Singers perform the most diversified literature of all the proximately 30 voices, this group requires an audition, moderate sight-reading proficiency and mem-

sight-reading proficiency and mem-bership for the entire year.

The Opera Chorus performs in a major opera production during win-ter quarter. Membership is by per-mission of the Opera Workshop

The Collegium Musicum is com-posed of advanced students and faculty and provides practical experience in performing vocal and inmusic written before 1750. An audition is required and singers must be skilled at sight-singing, must maintain accurate pitch, and must possess a light,

Because of the large casts and crews necessary for opera produc-tions, students wishing to sing, act. dance or participate in any capacity in the production of opera at SIU may become members of the Opera Theater and take part without credit.

The University Orchestra is a 75-piece orchestra which plays a variety of classical compositions, ranging from Baroque to contem-porary compositions. The Univerranging from Baroque to contem-porary compositions. The Univer-sity Orchestra performs publicly once every quarter and play one concert a year as accompanist for student soloists from the School of Music.

The University Chamber Or-chestra is made up of select mem-bers of the University Orchestra and members of the faculty of the School of Music. This orchestra usually numbers 20 to 30 members and plays all sorts of compositions from baroque to contemporary.

The University Opera Orchestra works in coordination with the Mar-jorie Lawrence Opera Workshop of the SJU School of Music to stage a major operatic work each years Miss Lawrence, director of the opera, is a former star of the Metropolitan Opera in New York and the Paris Opera Company.

privately owned specialty shop. We are proud to say that there are some fifty years of retail experience behind us. These many years of experience imply that we know something about both business and fashion. We know a part of our success has been in retaining our old customers and getting new ones. And this is where you come in. We want you as a Goldsmith customer. We have what we think will be the greatest collection of men's and women's fashions to be found anywhere. What we ask is-give us a look, ask us a few questions; try us out. We could become good friends.

SIU Student Government isn't peanuts

Student Government at SIU is a student Government at Sto S a highly organized mechanism with over \$67,000 of activity money to be expended each year.
Student Government operates under the Student Affairs Division of the University, funded by ap-

he University, funded by ap-roximately \$750,000 yearly from undent activity fees.

About half of the fund goes to the

\$10.50 per quarter into students pay \$10.50 per quarter into student ac-tivities with \$5 going to the Health

Nearly \$270,000 is given to various

student clubs, choirs, bands, and ac-tivities.

Student Government receives \$27,600 for operational expenses of which 45 per cent goes to the executive payroll. The student body president and vice president each receive about \$2,000 yearly. Two executive, aides and one secretary. executive aides and one secretary are also paid from the operational

fund.
The remaining \$40,000 is allocated to the Student Government Activities Council.

There are six major activity committees operating under the activities council: films committee. Student Center programming committee, cultural affairs committee, continuity committees. spring festival committee Alternative programs, internation relations committee and the Black

Each of these committees schedules activities in its field and organizes and finances their imor instance, schedules films and ocations for their showing and handles admission. The international relations committee schedules ac-tivities for foreign students and foreign trips for students. The executive branch of student government is comprised of the

president, vice president and chair-man of the student activities. The president and vice president are elected each April. The senate appoints its chairman and the student activities chairman is selec-ted by a student council activities committee

The student government executive offices and activities offices are located on the second floor of the Student Center. This years executives are president Jon Taylor, vice president Sue Collett and student activities chairman Dotti Davis.

Student Government is one of the seven constituency bodies com-prising the University Senate. The other bodies are the faculty council, administrative and professional staff council, non-academic em-ployees council, graduate student council and graduate faculty coun-cil. The student government's six U-Senate representatives are appointed by the student government vice

The legislative branch of student government consists of the Student Senate. There are 37 senators Senate. There are 37 senators representing ten geographical and population districts. Foreign students have one representative.

FREE

Jon Taylor

The ten districts are: Thompson Point, Brush Towers, University Park, University City, Small Group Housing, Commuter, East Side Dorm, West Side Dorm, East Side Non-Dorm and West Side Non-Dorm.

Half of the senators are elected in the fall and half in spring quarter.

Although the student senate is basically an advisory body at SIU, it has representatives on most University committees. In the past, the student senate has been involved in student rights and walfare has in student rights and welfare, has eliminated women's dorm hours, changed fee structure so more money was channeled into student government, eased student motor vehicle restrictions, helped establish ecology and Black studies courses, financed the campus radio station WIDB and literary magazine Grassroots and helped in the formation of the campus gover nance system's University Senate.

The SIU president and Board of Trustees deal with student govern-ment through the Student Relations

Students may find access student government by attending senate meetings, dealing with student senators, or working with the student finance committee. The Senate has also found interest in aiding the Illinois Public Interest

Research Group (IPIRG) and the Student Environment Center.

The judicial branch of student government is composed of the student conduct review board, cam-pus judicial board and the superior and inferior judicial councils. The student judicial system mediates and rules in matters pertaining to student judicis student government student rights, student government

Sue Collett

operation and violation of Univer-sity rules and regulations.

The Student Government con-stitution preamble stresses the role of student government in matters pertaining to student welfare, student activities, student par-ticipation in University planning and administration and student

The student government at SIU has mechanism and channels available to students for their governance, welfare, activities and rights. It is open to the participation of all SIU students.

The spring election meant lots of paper work for Elections Commissioner John Conlisk and Laurie Martis. Student Government staff

Salukis' big question marks: guarterback, offensive line

By Elliot Tompkin Daily Egyptian Sports Writer

At the start of spring drills, SIU football coach Dick Towers set three primary objectives for the Salukis: (1) Install a new monster type 5-3 defense (2) Find depth and strength at the quarterback position, a key spot particularly since SIU attacks with an option of ense, and (3) Add depth in the offensive line nositions, the weakest

rensive line positions, the weakest area on SIU's squad.

With the opening games soon approaching, the quarterback spot is still a big question mark. Junior Larry Perkins will be the starter, but he lacks any real experience.

Last year Perkins completed eight of 28 pass attempts for 130 yards and one touchdown. He had we passes intercepted. The loss of Brad Pancoast. last year's quarter-back is certain to hurt the Salukis. Pancoast completed 49 percent of his passes for almost 1,300 yards and picht touchdowns. and eight touchdowns

Another familiar figure will be missing from the McAndrew Stadium action. Big "Number 85," Lionel Antoine is now a pro football player. He was a first round draft phoice of the Chicago Bears.

Other starters lost were tackle-guard Dick Smith, split end David Reid, center Craig Rowells, all on offense. Tackle Charles Canali and linebacker Terry Anderson will be missing from the defense.

But on the bright side-the Saluki roster boasts 35 seniors, which generally means a good season.

Offensively, seven starters feturn: tight end Jerry Hardaway, Tackle Mark Otts, guards Bill Story and Paul Dumas, running backs George Lukas and Thomas Thomp son and flanker Phil Jett.

Defensively, nine are back: ends fordon Richey and Mike O'Boyle Detensively, nine are back: ends Gordon Richey and Mike O'Boyle tackle Butch Chambers, linebackers Norris Nails and Bob Thomure, secondarymen Russ Hailey, Dennis O'Boyle, Emmit Burt and Jim Powell.

Towers is enthusiastic about the upcoming season

we have more quality ballplayers than we've ever had," he said.

The offensive backfield appears to

Southern hills boast state's best orchards

By Lisa Beck Student Writer

The midday sun beats down on the ribbon of concrete which winds through the countryside from Carbondale to Cobden. The road cuts through the small hills and greenery which mark the outskirts of the Shawnee National Forest.

On all sides of the highway there are trees and seemingly endless

are trees and seemingly endless stretches of fruit trees. These are the orchards which yearly yield the bounty which has made Jackson and Union counties the leaders in

Illinois fruit production.

The acres of orchards are punctuated by an occasional house or packing barn. Here and there are the names of the growers who own

the names of the growers who own the orchards.

The names of the handful of barons of the Jackson-Union fruit empires are familiar to most residents of the two county area. Inresidents of the two county area. In-deed, if the grower's name is not familiar, the name of his orchard most likely will be. Names such as Echo-Valley. Springdale and Blueberry Hill are attached to iden-uify the orchard and its owner. But the names are not as impor-tant as the men behind those names who have hall up. Scuttern Illinois?

who have built up Southern Illinois fruit producing industry. These men include the two dozen or so growers include the two dozen or so growers who belong to the fruit exchange, and the few who are so big they do not need to. These include the growers who just recently saw new migrant housing built, and those who have their own. These are the men behind the scenes in Southern Illinois' orchards.

Midway between Carbondale and Cobden on old U.S. 51 lie the or-chards of Dan McGuire. The first clue of the ownership of the orchard by the road is in the progression of signs. Reading like the old Burma Shave signs, they advertise the ap-ples offered at the upcoming road-side stand.

side stand.

The outdoor market bears the name McGuire's in large bold letters. It is surrounded by a gravel parking lot. The inside of the market displays such items as watermelon, strawberries and other seasonal fruit. It is still fartuoearly for the apple or peach crops, but the berries have been ripe for almost a week.

Except for one or two customers the market is relatively deserted. Behind the counter stand a swarthy

Behind the counter stand a swarthy looking man and a dark woman. The man, dressed in jeans, T-shirt and the grime of labor, says he is Dan McGuire. One hardly expects the owner of a major orchard and an officer in many of the grower's associations to be so young. He is probably approaching early middle

Walking back to his office in the back of the building, it is evident he more than owns the orchard. He runs it. His office is located in the

runs it. His office is located in the middle of a packing barn. Deserted now, except for an older woman sorting strawberries. The barn is dark and almost cool with a damp humidity. There are empty boxes everywhere, stacks of crates waiting to be filled with fruit from the adjacent orchards. It is not hard to imagine the barn.

It is not hard to imagine the barn bustling with activity at the peak of the peach and apple season. But now it waits, nearly devoid of ac-tivity with all the silence of a deserted church.

The tiny office located in the midst of the barn is absent of any luxury. The only comfort in it is the air conditioner which keeps the of-fice almost chi'ly. This is undoub-tedly a necessity for the grower-operator during the heat of the season.

Locking his hands behind his head Locking his hands behind his head and leaning back in the swivel type office chair. McGuire yawns and says. "These 15 hour days are killing me." Then he smiles. He begins to tell of the growers in the area and how their products af-fect the two counties.

fect the two counties

Fruit is one of the oldest in

dustries in Southern Illinois," McGuire explains. "I couldn't tell you just how much comes from this area—but I've got the figures for the state." He pauses in thought for a

noment.
All counties in Illinois produce 2.5

All counties in Illinois produce 2.5 million bushels of apples and 500,000 bushels of peaches.

"I guess in this area there are a million bushels of apples and 400,000 bushels of peaches. The majority of peaches comes from this area." He peaches comes from this area." He is obviously proud and very con-scious of the fact that Southern Illinois leads the state in peach production.

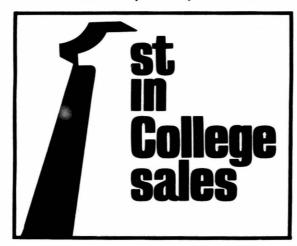

Although the two-county area produces so much fruit, however, McGuire is quick to emphasize other types of farming out value the other types of farming out value the fruit industry dollar-wise. The counties grow a lot less fruit now than they did 20-30 years ago. Although some growers believe there are fewer trees but about the same production as then, McGuire does not adhere to that idea. He said there are probably fewer trees, less

Apples, peaches abound in southernmost hills

production and a dwindling amount

growers now.

"The growers are in a minority compared to other farmers," he quickly asserts. "The dollar value of corn and beans is greater," he added.

But even so, the growers play an

But even so, the growers play an integral part in the economics of Jackson and Union counties.

One of the oldest forms of economic bartering in the area for fruit marketing is the cooperative druit Exchange. Located in a massive building on old U.S. 51 north of Cobden, the exchange serves a majority of the growers in the area.

ves a majority of the growth area.

McGuire explained the operation of the fruit exchange and its importance to the growers in the area.

"The Fruit Exchange is a coop. It's been around since, oh, the 1920's. There are 23 or 24 growers members." He seemed unsure of the exact humber and stopped for a

1920's. There are 23 or 24 growers members." He seemed unsure of the exact number and stopped for a moment to think before going on. "It is made up of small to medium sized growers to sell and market fruit. It sells supplies and is the major supplier in the area for orchard equipment, packing and things like that," he emphasized:

Most of the fruit produced in Southern Illinois stays in the Midwest, according to McGuire. "It doesn't go very far East," he added. A broker for the Fruit Exchange lells the apples and peach crops for the local growers. However, a few of the largest growers do not operate through the exchange. Ray Grammer of Murphysboro who owns the Echo-Valley orchards and the Eckert family which operates orchards throughout the state have their own brokerage and marketing system. McGuire is quick to emphasize. But, then, these are two of the largest growers in the area.

McGuire emphasized again that most of the cooperative ventures involved only the small to medium

most of the cooperative ventures in-volved only the small to medium sized growers directly for economic

purposes. the major projects which the grower's associations are responsible for is the new migrant labor camp located just north of Cobden on old U.S. 51.

With migrant labor being a necessity in the picking and processing of fruit crops, both growers and businessmen, as well as the local citizens regard the near

growers and businessmen, as well as the local citizens regard the new-housing projects valuable. The project which opened last summer was built by the Umon-Jackson Farm Labor Association, of which McGuire was president during construction.

He is obviously proud of the fact that the venture was a cooperative effort between area growers and usinessmen. It was financed through the Federal Housing Association on a half loan-half grant

basis.

The \$350,000 project will house 180 persons in 36 units. Each unit is complete with a two bedroom apartment and kitchen facilities.

The main purpose of the project is to relieve the smaller grower from having to house and maintain

migrant workers during the season. It is operated on a cooperative basis where any grower can utilize labor where any grower can utilize labor housed in the camp. It also eliminates the problem of each in-dividual grower having to provide housing for the workers. The farm labor association, of

The farm labor association, of which McGuire was president, was approached by the federal government in the mid-1960's about construction of such a project. McGuire tells of the problems the association encountered before construction was completed last year. "It seems like everytime we'd get ready for bids they'd change something on us. I think that happened four times before we got it built." He chuckled.

Shawnee National Forest covers much of the area

Once, Southern Illinois was one of the larger berry producers in the

Actually, however modern and workable the migrant labor camp is, McGuire discounts the actual amount of migrant labor in the

amount of migrant labor in the area.

"Probably only a third of the labor during the season is actual migrant labor," he explained. "That's true with most of the growers. We use a lot of high school students and some college students. Why, the phone has been ringing for the past week with kids asking about jobs." He laughed, pointing to the silent telephone.
"We do use migrants, though, after school starts. But mostly we use students through early apples and peaches." Early apples and peaches. Early apples and peaches, the explained, run to the first part of September.

In fact, the employment factor is not bolstered much by the season, McGuire asserts. He employs six to the people year around. During the beak peach season, in fact, he only employs about 100 persons to well.

ten people year around. During the peak peach season. in fact, he only employs about 100 persons to work in both the field and packing house. He said this proportion of labor force is probably universal in the

But one of the dark spots in the fruit picking and packing industry is the fact that it is soon to become mechanized. When asked about some of the new mechanized picking machines. McGuire was enthusiastic.

"In areas where processing fruit grown, shakers are used. But they yen't been perfected for fresh haven't been perfected for fresh fruit. There is one working model of a peach picker, I haven't seen it, but I hear it's working.' He was almost excited when he answered a question about having the machine perfected, feeling it will solve a number of problems.

Unfortunately, he explained, orchards in the area are not yet adap-

chards in the area are not yet adap

concurrately, ne explained, orchards in the area are not yet adapted to the shaker picking mechanisms, but with some alteration he seemed confident area growers could utilize the machines. "As far as dollars go, it wouldn't save," McGuire emphasized. "But it would use fewer people." Reducing his labor force did not seem to bother McGuire at all. Although the labor force is augmented by the growers and their orchards. McGuire said there is simply not as much labor needed as there once was. "The fruit industry, at least in Southern Illinois is not rapidly expanding. rapidly expanding.

Campus parkers who collect too many tickets-more than three-will be subject to a new University tow-away policy this fall.

The news is good and bad for motorists on campus

By Cozy Metcalf Student Writer

There's good news and there's bad news in the campus parking picture for fall.

First the bad news.

There are still more cars on the campus than space for them, although there are plans for a new 100-car lot in the Brush Towers

But that addition to parking won't make much of a dent in the dif-ference between more than 14,000

ference between more than 14,000 registered vehicles on campus and 7,500 spaces.

And most of the registered cars still will be those of students. The past year, according to the Parking Division of the Security Office, more than 9,300 students registered cars—some 67 per cent of the total. The good news?

cars—some 67 per cent of the total. The good news?

The price of a blue parking decal will drop 85—from 845 to 840. That may be a limited blessing to students, however, for most students who buy parking permits get the less expensive red or silver decals. The blues are usually reserved for faculty and staff.

"Any innor or senior may own."

uecais. The blues are usually reserved for faculty and staff.

"Any junior or senior may own and register a car at the University, and some exceptions are granted so that freshmen and sophomores may have cars." Clifton Anderson, chairman of the campus traffic and parking committee, explains.

The exceptions are students 21 years or older, veterans, married students and students living with their parents. Students who have a certified letter from the SIU Health Service stating that a car is necessary for health reasons and students who have in certified writing from the SIU Office of Student Work and Financial Assitance stating that a car is necessary for employment may also qualify for exceptions to the regulations.

Four types of parking decals may

quality for exceptions to the regulations. Four types of parking decals may be obtained from the Parking Diviston of the Security Office ir Washington Square. They are the blue decals, red decals, which cost \$20, silver declas, which cost \$10, and yellow decals, which are free. Temporary permits are also issued. "The red, silver, and the yellow parking decals may be obtained by students," Andersen explained. Andersen said that students who show an unusual need may be

show an unusual need may be allowed to purchase a blue parking

decal.

"Any private vehicle found parked on university property without the proper parking decal will be given a tacket." Vingil Trummer, assistant security office of the SIU Security Office points out.

Trummer said the fine for parking an unregistered vehicle on university property is \$15. Improper display of a parking decal or

parking in the inappropriate lot are punishable by a fine of \$3 if paid in five days and \$5 if paid afterwards.

five days and \$5 it paid afterwards.

Overtime parking in any univer-sity meter space is punishable by a fine of \$1 if paid within five days and \$3 if paid afterwards.

Any students who receives a fine has the right of appeal within 14 days. The appeal must be filed at the Parking Division of the Security Office. The student will be granted a hearing before the Treffic Amonte. hearing before the Traffic Appeals

hearing before the Traffic Appeals Board.
"New students ought to know if they don't meet their obligation of paying their fine or appealing it, their records may be withheld." Trummer said.
There's more bad news coming for parking and traiffer rules violators. Trummer indicated.
Trummer said a new towing policy will be effective full quarter.
"The university will tow away all vehicles that impair traffic, and

"The university will tow away all vehicles that impair traffic, and also vehicles where records indicate there are more than three parking violations on file and have not been taken care of," he said.
"Prior to towing, we will place a warning decal in the window." Trummer said. "However, we will tow the car immediately if it is blocking traffic."

One of the most important things an incoming student with a car should do. Trummer said, is to "get

it registered as soon as possible." "Enforcement of the campus traffic rules begins in late Semptember and early October," Trummer said.

Bike riders cautioned about traffic, thefts

A growing bicycle population has ecome a matter of increasing con-cern for Carbondale Police and the SIU Security Office because of traf-fic hazards to the cyclist, pedestrian and moterials.

fic hazards to the cyclist, pedestrian and motorist. The increasing use of bikes on campus has also brought an increasing crime problem. Almost every day police receive one or two or more reports of stolen bicycles or bike parts. Both city and campus police advise bike owners to egister their vehicles and to obtain a stout lock and chain as standard equipment.

Approximately 800 bicycles are registered with the SIU Security Office. Police estimate, however, there are between 1,500 and 3,000

bicycles on campus.

Cpl. Larry McKimmy of the Carbondale Police Department said cyclists commit the same kind of ofenses as motorists, such as im-

stop signs.

He said a bicycle must adhere to the same rules of the road as an auto, with the exception of equip-

He said that violations of the rule

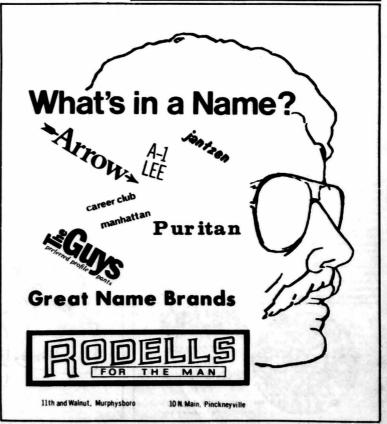

He said that violations of the rule of the road are the cause of many accidents. He pointed out that a cyclist making an abrupt stop or move could startle a motorist and possibly cause an accident. McKimmy said police will issue tickets to cyclists if a traffic situation caused by the cyclist is hazardous. He said discretion is used when tickets are issued, but mostly in cases where equipment is missing from a bicycle. McKimmy said free copies of the

McKimmy said free copies of the Rules of the Road for Bicycles are available at the Carbondale police station or the drivers examination

Black American Studies welcomes every student

By Monroe Walker Daily Egyptian Staff Writer

Although courses in Black American Studies (BAS) teach black concepts from a black frame of reference for the learning experiences of black students. Black Studies is open to any and all students. Wall Robinson, director of BAS, said recently in an interview

Students. Wait roomson, director or BAS, said recently in an interview "We have continuously had white students errolled in black courses," he said, "but just as white professors address thenselves to teaching white concepts from a white perspective, so must Black Studies teach from a black perspec-

He said all students are welcome at Black Studies and that BAS is not designed to espouse or support any one ideology or group.

designed to espouse or support any one ideology or group.

"We make learning materials available concerning any and everybody's ideology such as the Black Panthers. Black Muslims. Civil Rights moderates, Garveyism and Nkrumaism or what have you." he said. "If it's an ideology we explore it, but it's up to the individual to do what he wants concerning a particulat ideology."

to do what he wants concerning a particulat ideology."

He said that basically three kinds of students are served by the BAS

or students are served by the BAS program.

"The program was designed to meet the needs of students who want to major and specialize in Black Studies, students who want to minor in Black Studies and students who want neither to major nor minor but who want to have access to certian kinds of information, to acquire certain kinds of knowledge about his own experiences."

certain kinds of knowledge about his own experiences."

The courses listed for secondary concentration in Black American Studies are GSB 109, 325; GSC 3700, 325; Anthropology 306c; English 417; Government 425; History 309, 349a,b.c; Philosophy 345; Rehabilitation 417; Sociology 452. Additional courses to complete the minimum of 24 hours total may be elected from among the following: GSB 391 312: GSC 370a: GSD 210d.e.f. Anthropology 275, 483; Educational Administration and Foundations 360: Government 321: History 401a.b.c. 410: 449a.b. Music 482: Sociology 335, 386

Specific courses in Black American Studies consist of

BAS 309-Introduction to Black Studies

BAS 318-Seminar in Black Studies BAS 320-Seminar in Greekly Leadership.

BAS 322—Workshop in Methods of Black Studies.

BAS 340-Blacks in the Performing Arts.

BAS 360—Black Americans and the Law.

Robinson said some blacks take

Robinson said some blacks take BAS courses because they think that because "they're black they will get good grades without any effort, but they find out it ain't so and they begin to withdraw."

"Black Studies is serious business," he said, "and in order to make it through, you have to work and study because there is no time for folly."

Black American Studies was initiated at SIU in 1968 to "enhance with Afro-American heritage the total curriculum, thinking and activities of the University and its environs." Robinson said.

virons. Robinson said.

The present program is comprised of three components. The administrative component headed by Robinson handles the peperwork and "keep things ticking." The academic component is directly responsible for providing credit earning courses to students. Ruby Patterson is academic coordinator.

The component is providing the providing the providing the providing credit carning courses to students. Ruby Patterson is academic coordinator.

terson is academic coordinator.

The community involvment component is coordinated by Milton Hill and covers the activities outside of the administrative and academic area which take place in the northeast section and surrounding com-

munity of Carbondale

"We also have programs in various prisons." Robinson added. He says frankly that BAS has some weaknesses.

"We don't have the necessary teaching muscle within the program." he said, "and we don't have any real faculty that is a part of BAS itself. There are only two people in the program that hold academic rank. That's myself and Milton Hill."

He explained that this does not mean that the program does not provide qualified teachers.

"It means that we don't have credentialed people who are a part of the program."

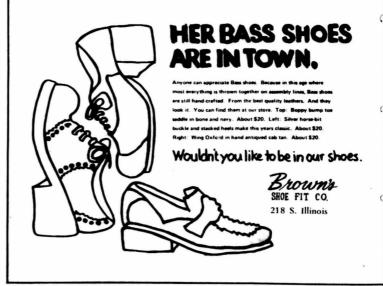

He said additional teaching muscle was gained by the use of instructors who are outside of the BAS program in relevant courses in Liberal Arts and Sciences and the history department.

"Hopefully," he said, "we can develop a BAS program that leads to a master's degree."

A nice place to visit but a whale of a mess to sweep out—that's the Arena. The Technology Building is at left, Neckers Physical Science Building upper right.

Arena's four-acre dome covers lot of activity

By Debbie Raterman Student Writer

How would you like to scrub 10.014 eats several nights a week? Or

seats several nights a week? Or sweep up the paper cups and spilled popcorn left by 10.019 people?
That's what 60 student workers, leaded by five full-time custodians and foreman Marvin Hill do when the 10.014 people who fill SIU's Arena to capacity go home after a concert of sports event.
Their job is to get the Arena in tiptop shape by 8 o'clock the next morning when students stream in for early P.E. and health classes.
A typical week at the Arena includes 112 hours of scheduled activities—everything from classes to basketball practice to a concert by the Fifth Deminision or Blood, Sweat

the Fifth Deminsion or Blood, Sweat

commencement exer-

vocations, commencement exer-cises, conferences, ice shows, dog shows, gymnastic meets, and other events are also held in the Arena. The Arena's huge dome, which is 300 feet in diamenter and encloses an area of four acres, houses lockerrooms, classrooms and the of-

fices of Arena manager Dean Justice, the Department of Men's Physical Education, The Department of Health Education, the Athletic Ticket Office, the Office of Intercollegiate, Athletics, and the

Athletic Ticket Office, the Office of Intercollegiate Athletics, and the Recreation and Intramurals Office. Construction of the \$4.5 million Arena began in 1962 and was completed in September, 1964. The funds were part of SIU's \$53 million share of a 1961 bond issue which provided money for university buildings throughout the state.

Nowadays the Arena is completely self-supporting.

"We get no state or federal funds," said Bill Searcy, director of advertising and promotion for the Arena. "We try to budget our shows so we do a little better than break even. Last year was one of our most successful years."

ccessful years

Searcy, a native of Carbondale, recalls that before the Arena was finished in 1964, basketball games were played in what if now the Women's Gym "or for really big games, in the Carbondale Com-munity High School gym."

Today Searcy directs an usher

corps of 65 at basketball games in the Arena.

Ushers are members of Arnold Air Society of Alpha Phi Omega fraternity. Both organizations receive money for the service. Searcy said of the Arena staff,

"We are trying to provide a service. Any money we make is poured back into new equipment or promotion of

shows."

The first big show this fall will feature the rock group Chicago, scheduled for Sept. 28. "They were here in 1970 and proved extremely successful." Searcy said.

Housing office has answers

Here's a quiz to save trouble and money.

It seemed to the folks at the Office of Off-Campus Housing that they'd heard that song before—those questions, that is, that students have about their rights and their obligations and the problems involved in renting a place to live. So they set the refrain to paper, tuned in the answers they'd distilled from their collective knowledge and experience and came in with an

experience and came up with an opus entitled "The Most Common Questions and Answers on Renting Off-Campus Housing."

While it may not make the Top 40, it probably will save off-campus renters a lot of headaches. Here it is, chorus and verse:

1. Who can live off campus?

All Southern Illinois University students may live off campus under the present University housing regulations. However, freshmen un-der the age of 20 not living with their der the age of 20 not living with their parent or guardian are required to live in a University approved residence hall. Sophomores under the age of 21 not living with their parent or guardian are required to live in University approved housing. University approved housing for sophomores includes rooming houses, houses, dormitories, apart-resorts, and, mebile, houses. All ments and mobile homes. All sophomore facilities must meet Car-bondale City Codes, have a Univer-sity approved Resident Manager who is 25 years-old or a graduate student and use an approved University Standard Housing Con-

2. What questions should be answered before becoming committed to a particular facility?

This question is particularly im portant since your goal should be to avoid conflicts by obtaining as much information about a facility before any commitments are made. The best way to do this is to use a check list system. Following is a list of questions that you may need an swered before signing a contract-

Questions that you may ask of your potential landlord. What is the rent? Does the rent include utilities? rent" Does the rent include utilities".

Am I responsible for the rent individually or must I share the responsibility with my roommates for the total amount "What deposits are required and how much are they." What policies are used for deposit refund? Are pets allowed? Are common damages assessed to all students." Is parking space available? If so, where is it located? Are laundry facilities available? What arrangements are made for extermination and garbage collection?

Who is responsible for upkeep such as shampooing rugs, cleaning drapery, etc.? Who is responsible for maintenance? What are the nouse rules concerning the tenant's

Questions that probably would be best answered by the present tenants: Are repairs made promp-tly by the management? How does the management respond to criticism? Is the Unit noisy? Does

criticism? Is the Unit noisy? Does the landlord keep his promises?

Other important questions may be best answered in Carbondale by consulting with the Central Illinois Public Service Company. CIPS has cost records available upon request for every facility in Carbondale. Although a trip to CIPS may be inconvenient it could say you a convenient it could say you a conconvenient, it could save you a con-siderable amount of money in heating or air-conditioning costs.

3. What should a student do before signing a contract?

It is important that the contract be read and understood before it is signed. The extra time involved is well worth the effort when you consider the possible consequences. The conditions under which the contract can be terminated and the payment plan are other items of concern that should be fully understood. Make certain that you have not agreed to assume responsibility for maintenance of the facility. A landlord will usually guarantee maintenance of such items as the furnace, wiring, plumbing and major appliances. Make certain that the contract is filled out completely, that all copies are It is important that the contract

Students wondering what to do or where to go may find the answer at the office for New Student Orientation located at the Student Center

signed and dated by you and the lan-dlord and that you keep one copy of the completed contract. Your signed copy should include all important verbal agreements, promises for repair and contract changes.

4. Can a person under 21 years of age sign a legal contract?

Yes. Hilmois state law provides that a minor can be held responsible for contracts tay olying the necessities of life such as food and shelter.

5. Are verbal agreements binding?

Verbal agreements are binding but difficult, if not impossible, to en-force. A verbal agreement is only as good as the words of the contracting good as the words of the contracting parties. To be safe all verbal agreements of any consequence should be stated in writing and signed. Never permit a verbal agreement to conflict with any writ-ten signed statements and make sure that any promises of repair or maintenance are stated on the con-tract with a completion date and statement of consequences added should the reapirs not be made.

6. What is a joint and several con

all the tenants of a facility to the

total rent and damages in that facility. This means that if one roommate leaves, breaking his con-tract legally or illegally, the rest of the roommates will have to assume the responsibility for paying his room.

7. What is an eviction?

Usually, evictions are costly in time and money. The landlord is required to send a written statement required to send a written statement indicating that you will be evicted because of a violation of your contract or house rules. An appropriate amount of time, depending on the reasons for the eviction, must elapse before you are required to vacate the facility. If you are being evicted, the time period for non-payment of rent is 5 days, 10 days for any other reason. If you are evicted and vacate, you will be held responsible for the full amount of rent due for the term of the contract.

8. What are the legal ways to terminate a contract?

A joint and several contract binds followed for legally terminating a the tenants of a facility to the contract. The most generally accep-

ted way is to find a replacement. This usually involves advertising for a replacement, bringing him to the landlord for his acceptance, which should not be unreasonably withheld and having the replacement sign a new contract. The SIU Model Contract has two circumstances under which it may.

circumstances under which it may be terminated without penalty. The first is forced withdrawal from the University because of physical or mental incapacity (such incapacity

verified by a physician) or secondly a serious financial hardship. Several other clauses in the con-tract make provisions which alienates some liability for breaking which anchates some hannly for oreaking your contract. For example, a contract can be terminated with a liability of half the total charges still due if 14 days notice is given prior to the end of the quarter.

9. What can be done to insure the return of damage and security deposits?

Check with former tenants to establish what type of reputation the

landlord has for returning deposits. A student, upon moving in, can use an Inventory Check-In and Check-Out List. This list provides you with a means for showing what damages existed at the start of your occupancy. When you leave the facility, this could save problems because it offers some evidence that various damages were not caustif. various damages were not caused by you. Inventory Check Lists are available at the Office of Offby you. Inventory Check Lists available at the Office of Campus Students upon request.

10. What is the Model Contract?

The Model Contract is a lease con-The Model Contract is a lease con-structed through the efforts of many people in the community. It how been endorsed by the Greater Car-bondale Area Chamber of Com-merce and Student Government. The Office of Off-Campus Housing believes that it is the most easily unbelieves that it is the most easily un derstood, thorough and fairest of all contracts for student tenants. It

clearly specifies the responsibility the tenant has to the landlord and the responsibility the landlord or

the responsibility the landlord or lessor has to the tenant.

One of its most important clauses is a method for resolving disputes without use of courts or lawyers. This is especially important to students with limited funds since most complaints usually involve money. This clause provides for an Arbitration Board with a mandatory settlement of all disputes.

11. What is the Arbitration Board?

The Arbitration Board is composed of five students selected by the student body president and five bisinessmen selected by the Greater Carbondale Area Chamber of Commerce. This board operates under Illinois state statues and its decisions are binding by state law

Any disputes rising out of the Standard or Model Housing Con-tracts may be brought before the Arbitration Board on request by Arbitration Board on request by either party involved in the complaint for any amount under \$250. Any disputes rising from rivate contracts may be brought before the board only if both parties request arbitration in writing agree to abide by the b

12. Does a landlord have free access rights to his rented facility?

Absolute free access rights are not permitted by Illinois state law. not permitted by Illinois state law. Any contract stating that a landlord has free access rights is not enforceable. The rationale behind this law is that to rent a facility automatically restricts the access rights of the landlord.

If the landlord retains all access rights, he is in fact, renting nothing. Therefore, before a landlord is permitted to enter your facility, a prior agreement should exist indicating the conditions upon which entrance

the conditions upon which entrance will be permitted Emergency epairs is the exception to this rule.

13. What should one consider when renting a mobile home?

The most important thing to consider when renting a mobile home is to check its utility consumption during the peak hot and cold months. Many mobile homes are not properly insulated and the utility and the utility and the utility and the utility and the unusually high. Here again, CIPS could provide information on past utility usage for a particular facility.

One thing to remember when are sider when renting a mobile home is

One thing to remember when ren-ting a mobile home is that constant heat must be maintained during the winter months so pipes and plum-bing will not freeze and break. Or-dinarily, any broken pipes on the in-side of the trailer are charged to the chants, those freezing on the out-de are usually the responsibility of the landlord.

14. Where can a student go con-cerning a housing problem?

There are several agencies in the Carbondale area that can help students with housing problems. One agency is the Office of Of

15. Are there legal services available so students?

This must be answered with a qualitative "yes." The Legal Aid Assistance Program in Carbondale is available to some students. However, the large case load it handles precludes its ability to handle every student-landlord dispute. Therefore, it is recommended that a student hearin by eging either to the student hearin by eging either to. student begin by going either to the Office of Off-Campus Students or to the Student Tenant Union for legal

information or help in resolving a student-landlord dispute.

16. Where can a student go to have questions answered concerning his contract?

The Office of Off-Campus Students or the Student Tenant Union has counselors available to consult with students on contract ambiguities. All questions involving contracts will be answered by these

17. Can Carbondale City Codes protect student interests?

The Carbondale City Codes Enfor-cement Department has a staff available to inspect and help en-force Carbondale City Codes. A student should bear in mind that Carbondale City Codes are minimal standards for safety and health and these minimal standards will not receicle him with lower items. rovide him with luxury items

Typical City Codes include having: At least one workable window, secured screens for each room of the facility, proper ventilation (a vent fan or workable window with a screen) and two means of egress to and from the facility with workable looks.

The facility must be structurally

sound with no leaks, holes in the walls or rotten steps, the electrical wiring and utility outlets safe and up to standards and proper garbage disposal units with lids. Any questions about codes should be directed to the Carbondale City Code Department, 549-5302.

18. Where is the best place to find housing?

There are many places to look in finding vacancies. Of course, the area newspapers publish daily vacancy listings. The Office of Off-campus Students also publishes a thorough vacancy listing. Included in the list are the type of facilities available, information concerning utilities, furnishings, types of contracts and other pertinent facts. Does an academic suspension, marriage, student teaching or graduation release one from his contract without liability?

19. Does an academic suspension, marriage, student teaching or graduation release one from his contract without liability?

These actions ordinarily do not release one from his centract. However, the Standard Housing Contract for Accepted Living Centers provides for release if a student is academically suspended. These actions are treated as special termination preferences for which special consideration may be agreed to by the contracting parties, but it does not automatically create sufficient cause for release. sufficient cause for release
