REPORT OF THE RECORDING CLERK AND ASSISTANT TO THE  
PRESIDENT.

*To the President: Madam,*

I have the honour to submit a tabulated study of the students of Bryn Mawr College for the academic year 1917-18, a statistical report of the workings of the regulations of the directors and faculty, and a report of matters which were administered through my office.

The entire number of students enrolled during the year was 485. There were 82 graduate students, including fellows. The number of graduate students was about 17 per cent of the whole number of students.

**NOTE:** Five hours weekly for one year in Latin, Philosophy and Psychology, and in one of the four laboratory sciences, Physics, Chemistry, Geology, and Biology, and five hours weekly for two years in English is required, which makes the students taking these subjects unduly numerous, and a comparison with other non-required subjects somewhat unfair.

Each student taking a subject is counted only once or is counted once for every course that she follows in a given subject.

## Degrees with Distinction.

In June, 1915, by vote of the Faculty approved by the Directors the degree of Bachelor of Arts was given for the first time with distinction, the degree being conferred *summa cum laude* for an average grade of 90 per cent or over on the whole work of the college course, *magna cum laude* for an average grade of 85 per cent to 90 per cent, and *cum laude* for an average grade of 80 per cent to 85 per cent.

Out of the 62 students in the class of 1918,

5 or 8.1 per cent received the degree *magna cum laude*

*Comparative Table of Percentage of Freshmen Entering in October Without Matriculation Conditions, 1890 to 1917.*

This table includes only those entering in October of each year and takes no account of conditions in punctuation and spelling. Up to 1897 the proportion of students entering free from conditions to all the entering students, including honourable dismissal students, was calculated. After 1897 the students who entered on honourable dismissal were not counted in calculating the percentage. It is therefore slightly misleading to compare the percentages before 1897 with those after 1897.

WORKING OF THE MERIT LAW.

The President's report for 1916-17 stated that 6 students were on probation for the year 1917-18, 4 of the class of 1917, and 2 of the class of 1918. Of these, four graduated in June, 1918, one was required by the Health Department to leave College in April, 1918, and one was excluded by the Senate in June. In February, 1918, no students were placed on probation. In June, 1918, 5 students of the class of 1919 received grades in their final examinations which gave them more than half their hours below merit; 3 of these have left the college and 2 remain on probation for 1918-19.

Since the five-year merit law rule came into operation for the class of 1907, 67 students have been placed on probation with the following results: 20 graduated; 5 lost their degrees under the merit law; 5 were excluded from the college (1 by the President, 1 by the Health Department and 3 by the Senate); 35 left college, and 2 are still on probation; that is 20, or 29 per cent, of those placed on probation have graduated, 2, or 3 per cent, may still graduate, 5, or 7.4 per cent, were dismissed from the college and 52.3 per cent left the college. In the eleven years, 1907 to 1918, 834 students have graduated of whom 20, or 2.4 per cent, have been placed on probation.

In June, 1918, 23 freshmen and 12 sophomores had received examination grades below merit in more than half the hours they had offered for the degree. Of these, 13 freshmen and 8 sophomores have returned for the year 1918-19, and on account of their low grades are not permitted to take part in any college entertainments requiring preparation, to serve as officers of any clubs or associations, or to hold paid college positions.

#### REGISTRATION OF ATTENDANCE ON THE FIRST DAY OF EACH SEMESTER AND BEFORE AND AFTER VACATIONS.

Students are required under penalty of having one or more of their examinations deferred to register eight times in the college year as shown by the following table; this registration was prescribed by the Faculty after the voluntary system had completely failed to secure regular attendance before and after the vacations.

*Fines.*

After a prolonged trial of other methods, fines are now imposed for failure to register courses in the appointed period, and for failure to return course books to the office fully signed at the required time at the end of each semester. A fee of one dollar is charged for each change a student makes in her course after she has definitely registered it.

Four students did not register their courses in the required period and were fined \$20. Ten students handed in course books late and were fined \$50. Seventy students made changes in their registered courses and were fined \$78. These fines amounting to \$148 were expended for books for the college library.

## REPORT OF THE DEAN OF THE COLLEGE.

*To the President: Madam,*

I have the honour to submit the following report of the work of my office for the year 1917-18.

I have advised the undergraduate students in the registration of their courses.

As a representative of the Faculty, I attended the twenty-fifth anniversary of the opening of the Women's College in Brown University and also the convention at Chicago of the National Security League. During the year I spoke at the Baldwin School and the Shipley School in Bryn Mawr; at the Agnes Irwin School in Philadelphia; at three of the principal schools of Richmond, Virginia, under the auspices of the College Club of Richmond; and to the seniors of the High Schools of Altoona, Pennsylvania, under the auspices of the College Club of Altoona.

The record of the class attendance of students is given on the following pages.

" 14 " 16 " " ".....	2	7
" 17 " 19 " " ".....	0	2
20 or more " " ".....	0	2

That is, in the first semester 8 students out of 400, and in the second semester 15 students out of 396, took 11 or more unexcused cuts in the semester.

The regular number of lectures is 15 per week or 204 in the first and 201 in the second semester, that is 405 per year per student. The average number of cuts (unexcused and excused) *per student cutting* is 25.77 per year, or 12.885 per semester. The average number of cuts (excused and unexcused) *per student* is 24.39 per year, or 12.195 per semester. The average number of unexcused cuts per student is 8.31 per year or 4.155 per semester. That is, out of the 405 lectures in the year, each student, on an average, takes 8.31 unexcused cuts, *e. g.* 2.05 per cent.

Dean of the College.

## REPORT OF THE SECRETARY OF THE FACULTY.

*To the President: Madam,*

I have the honour to submit the following report of transactions of the Faculty of Bryn Mawr College during the academic year 1917-18, dealing with matters other than those of routine.

*The Committee on Appointments* has taken the view that the intention of the clause of the Plan of Government, in which the functions of the committee are defined, is that requests for release be referred, together with the President's recommendation, to this committee in the same way as any other matters leading to the close of an engagement. The committee does not consider that applications for leave of absence concern it, save as information communicated by the President. This opinion has been accepted as its own by the Board of Directors.

*The Committee on Curriculum* recommended and the Faculty has approved the following changes: All students are required to take either Minor Latin or Elementary Greek, with the exception of students entering with Greek, who are required to take either Minor Greek or Minor Latin, such required courses not to be taken later than the Junior year; Greek is now placed on a basis with Latin so that a student choosing either Latin or Greek as one of the languages of her group may substitute for the required year of Minor Greek or Minor Latin five hours a week of Post-Major Latin or Post-Major Greek.

In the year 1918-19 and thereafter until 1923 the new plan of General (written) Language Examinations is optional for all students who have entered or shall enter under the old Language requirements, with the exception of students who are candidates for graduation in 1919. Further legislation aimed at the temporary adjustment of the requirements of these examinations to the entrance requirements now in transition.

In the case of seniors conditioned in the final examinations of the year a first trial is permitted during the first week in October; as a second trial is offered at Thanksgiving, this enables a student to repeat the course in the second semester if necessary. Seniors failing to pass the Annual General (written) Language Examination must take another examination on the Saturday preceding the final examinations of the year. If they fail to pass this examination they will not be permitted to take another until the beginning of the next college year. This examination must be passed before a student receives her A.B. degree.

Upon suggestions from Washington a course of lectures and laboratory work on food values was offered in the Department of Biology from April 15 to May 20 as work in Physiology in the Major course of Biology. This course was also opened under certain restrictions to undergraduates and members of the staff generally. The Department of Biology was also authorized to conduct a course of five lectures with laboratory demonstra-

tions in food values in co-operation with other departments of the college. The question of equivalence of this course in the Major course was left to the judgment of the Department of Biology.

Italian has been placed on equal terms with Spanish in all courses leading to the degree of A.B. including the General Written Language Examinations.

Acting upon the policy that no new course should be recommended to the Faculty even in the present emergency, unless in the judgment of the departments concerned and of the Committee on Curriculum it supplies such intellectual training as to make it a suitable alternative in the requirements for the degree of Bachelor of Arts at Bryn Mawr College, the following preparedness courses were recommended and approved: Economic Geology as a two-hour elective; Bacteriology to be introduced in connection with a course in Micro-organisms in 1919-20; a Civilian Relief course as a two-hour elective, open to students of Minor Economics, or required Philosophy and Psychology, and admitted with the approval of the Carola Woerishoffer Professor of Social Economy; a course on the Present War as the Culmination of European History of the Last Half Century as a three-hour elective; Russian as a five-hour matriculation course; Theory and Practice of Statistics as a three-hour elective.

The following new groups were approved: Italian with any language, or with Modern History, or with History of Art; Economics and Politics with Geology; Philosophy with Geology.

The Faculty approved that it is the sense of the Faculty that the members of the Curriculum Committee represent the various departments broadly connected with the department to which each is attached; that they should severally consult with these departments before passing on a matter of major importance, or before presenting to the Faculty a recommendation of minor importance. That to facilitate this, the Secretary of the Committee on Curriculum should advise the members of the committee of questions likely to come up before a meeting.

*Committee on Petitions.* Consistently with the policy requiring consultation with departments concerned before action, greater discretionary powers have been allowed this committee in deciding matters regarding Advanced Standing Examinations, the order in which certain Minor, Major and Post-Major courses may be studied, and the choice of penalties for late registration at vacations.

*Committee on Library.* At a joint meeting of the Library committees of the Board of Directors and of the Faculty, it was decided that the Librarian should not order any more books for any department than can be paid for from the current appropriation of that department; that any excess is to be carried forward to the next year and made the first charge against the appropriation of the section of that department responsible for the overdraft; and that in the event that there are not sufficient funds to meet the excess at the end of any year, the professor responsible for ordering the books must advance the money for the excess expenditure until the beginning of the next fiscal year (October 1st), when it will

be returned by the controller and the amount will be charged against the appropriation of the instructor concerned. In the future the overdraft cannot be met by an extra appropriation.

A special committee to act for one year was elected by the Faculty to enquire into the distribution of offices and seminary rooms in the Library.

*Committee on Entrance Examination.* The Faculty has approved the following: For candidates who enter by the old plan in 1919-20 inclusive, Physics may, with omission of two questions, as indicated on the examination paper, be counted as a one-point subject.

In and after the spring of 1921, English will be omitted from the group of subjects that may be offered for the preliminary examination.

In certain cases a candidate holding a First Division Certificate may, by consent of the committee, change this for a Preliminary Certificate; a candidate may be allowed to cancel a whole preliminary examination taken in the autumn, and repeat the preliminary examination the following spring. Greek is now included in subjects admissible in the preliminary examination, on a par with French and German. Candidates pledged to Advanced Standing Examinations in Mathematics before entrance to the college are allowed to offer both Algebra and Plane Geometry as preliminary examinations; at least one of the four papers in Mathematics—Algebra, Plane Geometry, Solid Geometry, Trigonometry—must be offered by the candidate in the first or second division of the examination.

After consulting the opinion of schools preparing candidates for Bryn Mawr College regarding the requirements of their several curricula, the Faculty decided to allow a foreign language (studied for four or five periods a week for two years) counting two points (Greek or French or German or Italian or Spanish) to be substituted for English History (one point) and a science (one point) other than Physics (Physiology and Hygiene, or Chemistry, or Botany or Physical Geography). American History may be substituted for English History provided the school furnishes a certificate that the candidate has had a good course in English History within four years before entering college; questions on Civics will also be included in these examination papers. The Faculty further voted that those high school students who are unable to complete their three-year course in German will be allowed to take, irrespective of division regulations, a special two-point examination in Entrance German in the autumn of 1918.

Further action has been taken by the Faculty as follows:

#### *Registration of Courses.*

Students who have registered for a course may not change to another course after the expiration of three weeks from the first day of a semester. Any instructor may request the Dean not to admit students to his or her course after the expiration of two weeks.

*Requirements for Scholarships and Fellowships.*

The Faculty has ruled in the matter of the Elizabeth S. Shippen Scholarships in Foreign Languages that the award be determined by the highest average grade in a single language, and in the matter of the Charles S. Hinchman Memorial Scholarship that it is a prize for special ability, and that of two group studies the subsidiary group subject shall be regarded in evidence when it seems desirable.

A committee has been appointed to investigate methods of selecting candidates for the Bryn Mawr European Fellowship.

*Conferences.*

Committees of the Faculty held conferences (1) with the Academic Committee of the Alumnae relative to plans for faculty pensions, the system of general language examination replacing Orals, the workings of the new entrance requirements and the response of the preparatory schools; (2) with the Committee of the Undergraduate Association for Conference with the Faculty relative to (a) Tutoring Classes for Oral Examinations, (b) a course in Social Hygiene (for seniors, which was instituted under direction of the Health Department of the college), (c) Regulation of Attendance at Lectures and changes in size and methods of conducting classes to diminish cutting (as an outcome of which the Faculty approved the principle that regulation of cutting be left more in the hands of the Undergraduate Association, and referred the matter to the Senate to work out an order of procedure), (d) Preparedness Courses, (e) the proposed immediate application of the Merit Law (the result of a communication from the Board of Directors to the Faculty on the subject).

Respectfully submitted,

HENRY N. SANDERS,  
*Secretary of the Faculty.*

## REPORT OF THE SECRETARY OF THE SENATE.

*To the President, Madam:*

I have the honour to report the following important actions on the part of the Senate during the year 1917-18:

During this year the Senate put on probation 7 students for cutting, and also excluded from the college 7 students, of whom 2 had been put on probation for a semester before their exclusion.

In addition to this routine work the following important action was taken during the year by the Senate:

It was voted on May 3rd that the practice of compelling students who were in danger of losing their degrees by the operation of the Merit Law to remain in college five years be discontinued and that such students be expected to withdraw from college not later than the end of the Junior year. It was further voted that in view of the existing conditions all students who have not attained the grade of Merit in half of the hours required for the Bachelor's degree which they have offered for examination may be asked to withdraw from the college at the end of the present year. At a later meeting, held on May 29th, it was voted to defer the application of the resolution of May 3rd to juniors who come under the Merit Law until the year 1919-20, and not to apply the portion of the resolution relating to sophomores and freshmen with absolute strictness. The reason for modifying the application of the resolution in this way was that it seemed unjust to put it into effect at once without due notice to the students. In future, however, the practice of putting Merit Law students on probation and keeping them in the college for five years will be discontinued.

Respectfully submitted,

GEORGE A. BARTON,

*Secretary of the Senate.*

## REPORT OF THE SECRETARY AND REGISTRAR OF THE COLLEGE.

*To the President, Madam:*

I have the honour to present the following report for the academic year 1917-18:

Four hundred and twenty-eight students were assigned to rooms in the halls of residence, November 1, 1917.

The following table shows the number of students in each class in each hall, and also the number of non-resident students for the academic year:

In January, 1918, the matriculation examinations were held at Bryn Mawr College, 28 candidates took the examination with the following results:

First Division:	9 candidates, of whom 6, or 66.7 per cent, obtained certificates.
Second Division:	3 candidates, of whom 3, or 100 per cent, obtained certificates.
Removing conditions:	16 candidates.

The Freshmen entering in October, 1917, were prepared at 66 different schools, of which 20 prepared candidates for admission to Bryn Mawr College for the first time.

Respectfully submitted,

EDITH T. ORLADY,  
*Secretary and Registrar of the College.*

## REPORT OF THE APPOINTMENT BUREAU.

*To the President: Madam,*

I have the honour to submit the following report of the work of the Appointment Bureau for the year 1917-18.

The Appointment Bureau during this year has continued to co-operate with the Intercollegiate Bureaus of Occupation. For the purpose of familiarizing myself with the work of these bureaus, I attended the conference in New York in October. Miss Theodora Butcher, Director of the Philadelphia Bureau, has visited Bryn Mawr three times in order to advise students interested in occupations other than teaching. The Appointment Bureau of the Women's Educational and Industrial Union in Boston has also sent a representative to interview students who are interested in positions in New England. The New York Branch of the Bryn Mawr Alumnae Association has appointed a committee which has co-operated with the Bureau in finding teaching positions. The Appointment Bureau has been asked to co-operate with the Department of Labor in Washington in finding candidates for government positions. Civil Service notices and also specifications of positions under the Civil Service, which might be of interest to college women have been sent to the Bureau. Miss Julia Lathrop, head of the Children's Bureau in Washington, spoke under the auspices of the Appointment Bureau and the Registration Committee of the War Council on "Opportunities for Women in Government Work." A vocational conference of alumnae was held in April. There were separate conferences on the following vocations: Law, Medicine, Education, Social Work, Applied Psychology, Business, and Journalism.

The following positions have been secured through the Appointment Bureau:

Teachers in colleges. . . . .	3
Teachers in schools. . . . .	9
Advertising. . . . .	1
Actuaries. . . . .	1
Librarians. . . . .	1
Research laboratory workers. . . . .	2

		1918 . . . . .	2	1918 . . . . .

The number of candidates who applied to the Bureau was as follows:

For permanent positions . . . . .	176
For tutoring and summer positions . . . . .	40
	216

In all, 201 applicants were recommended, together with 7 alumnæ and former students who were not registered with the Bureau; 460 recommendations were made. They were distributed as follows:

*Registered Applicants.*

No. of Applicants.	No. of Recommendations.
87 . . . . .	1

2 . . . . .	9
2 . . . . .	11

*Alumnæ not registered.*

No. of Candidates.	No. of Recommendations.
7 . . . . .	1

Of the applicants registered, not counting those who obtained positions through the Bureau, 32 withdrew during the year.

By request, 88 letters of recommendation were written for alumnæ and former students.

During the year applications were received for candidates to fill the following positions:

Principals and assistant principals of schools . . . . .	6
Teachers in schools . . . . .	147
Deans . . . . .	3

## REPORT OF THE LIBRARIAN.

To the President: Madam,

I have the honour to present the annual report of the work of the College Library for the year ending September 30, 1918.

### Accessions.

The following table shows the additions made from various sources and the present total extent of the Library. The corresponding table for 1916 is given for purposes of comparison:

<b>Total volumes September 30, 1918.....</b>		<b>86,709</b>
“ maps and charts.....		2,155
“ accessioned pamphlets.....		4,667

There is also in the Library, a growing collection of several thousand pamphlets arranged alphabetically by author. Pamphlets when bound are withdrawn and later are accessioned as books.

---

\* These numbers represent catalogued pamphlets.

These accessions are distributed by classes as follows:

	1916-17.	1917-18.
General works.....	400	161
Philosophy.....	154	119
Religion.....	263	78
Social Science.....	773	476

History, etc.....	837	305
Total.....	4,017	2,091

Our thanks are due to the various donors who have generously presented copies of books and pamphlets to the Library during the year; a list of the books and the names of the donors is appended. A list of books purchased from gifts of money made to the Library is also appended; such books are bought by the Librarian.

*Cataloguing.*

	1916-17.	1917-18.
Titles catalogued.....	2,830	2,785
Continuations, etc., added.....	3,296	1,458
Cards added to main catalogue.....	13,791	11,423
Cards added to department catalogues.....	482	807

As in previous years, besides keeping the current work up to date, considerable time has been given to re-cataloguing. After completing re-cataloguing the books of philology and literature of the Minor European and Oriental Languages, the rest of the year was spent on the Greek and Latin collections. The philology divisions of these languages, begun in previous years, and including about 981 titles, have been completed and a substantial beginning has been made in the literature. The many rare volumes of the valuable Sauppe collection included in these two sections make them an important part of the Library and the work on them demands careful attention and many difficult decisions involving considerable time.

At the request of Professor Theodore de Laguna about 120 volumes were transferred from the stacks to the Philosophical Seminary. These are books which will only be used by graduate students and are thus more conveniently placed for their work. A new shelf list was made, all the cards for these books removed from the catalogue, location number changed and the books re-marked.

Two special catalogues were made for libraries in Dalton Hall. One for the Biology Library consists of:

1. Library of Congress printed cards for the various articles in the Papers of the Carnegie Institution of Washington, Department of Marine Biology.

2. Wistar Institute printed cards for the separate articles in the Journal of Morphology, Journal of Comparative Neurology, American Journal of Anatomy, Anatomical Record, and the Journal of Experimental Zoology, American Anatomical Memoirs. Each card gives an abstract of the article listed as well as bibliographical information.

The second catalogue, that for the Geology Library, consists of printed cards issued by the Geographical Public Information Service of Buffalo, N. Y., and is an index to articles in the following periodicals: National Geographical Magazine, Bulletin of the American Geographical Society, Geographical Review, Bulletin of the Pan-American Union, Journal of Geography, Geographical Journal, and the Scottish Geographical Magazine.

There has been no general index to these journals consequently these catalogues make a vast amount of valuable material readily available. The Library subscribes to nearly all the periodicals listed.

A card catalogue has been started for the books in the Infirmary Library. It is an alphabetical author and title list and so far 83 books have been catalogued. These books have been entered in the library accession book but cards for them are not put in the general catalogue of the library, by an exception to our regular rule, as they are not generally accessible.

#### *Inventory.*

The biennial inventory of the Library was taken during the summer vacation. All of the libraries were gone over and a thorough search made for missing books. As a result the number of volumes missing from previous inventories was reduced and many books temporarily misplaced were found. The following table is a record of volumes still missing:

*The Building.*

A seminary was made for the graduate students of the Department of Social Economy by adapting Lecture Room 7 for this purpose.

Lecture Room 6 was made into a Seminary for the Department of Education.

*Administration.*

Several changes in the library staff have occurred in the past year. In the spring, Miss Helen C. Geddes declined reappointment as head cataloguer for another year as she wished to secure a position nearer her home in Boston. Miss Geddes had held this position since September, 1912, and during the time in which she was in charge of the cataloguing the work was carried on most expeditiously.

Miss May Morris was compelled to resign in June because of poor health and Miss Mary Isabelle O'Sullivan was appointed temporarily to take her place. After the first of September, Miss O'Sullivan was promoted to be the head cataloguer in place of Miss Geddes. Miss O'Sullivan is a graduate of Bryn Mawr College, of the class of 1907, and has studied one year (1915-16) in the New York State Library School.

Miss Beatrice Brown, A.B., Wellesley College, 1917, and graduate of the Simmons College Library School, 1918, was appointed as assistant at the loan and reference desk for the year beginning September first.

Another loss was the resignation of Miss Mercer Watson who had been assistant to the Librarian for three years. Mrs. Helen P. Lindorff was appointed in her place.

In conclusion, I wish to express my appreciation of the competent services of those members of the library staff who have left. The loss of their efficient services will be felt by all.

Respectfully submitted,

LOIS A. REED,

*Librarian.*

## REPORT OF THE HEALTH DEPARTMENT.

*To the President: Madam,*

I have the honour to submit the following report of the Health Department for the year 1917-18.

There have been regular meetings of the Health Department once a month with the wardens of the halls. Students were placed on the supervision list at these meetings, or directly by the Assistant Physician in conference with the Physician-in-Chief. The record of illness will be found in detail in the reports of the Physician-in-Chief. The records of medical examinations will be found in the report of the Director of Athletics and Gymnastics.

There has been an almost unprecedented amount of illness during the past year. The college has suffered from German measles and mumps and from less serious epidemics of conjunctivitis and grippe. There were also six cases of real measles, one of which resulted in death, the first which has occurred at Bryn Mawr College in many years. Fortunately, however, the other cases of contagious diseases have been light.

## REPORT OF THE PHYSICIAN-IN-CHIEF OF THE COLLEGE.

To the President: Madam,

I have the honour to submit the following report of my work at the Bryn Mawr College Infirmary for the year 1917-18. During the College year we have had for the first time an assistant physician in residence. Dr. M. Leola Carrico, a graduate of the University of Chicago, has filled this new position most acceptably. A clinical laboratory has also been established and, as shown in the report, a very excellent work has been well founded by the untiring efforts of Dr. Carrico. Appreciation of this step has been repeatedly expressed by parents and friends of the students who have visited the Infirmary. With sorrow we report the death of a student, who contracted measles, complicated by a virulent type of lobular pneumonia. There was ample proof during this case of the need of a laboratory in the practice of modern medicine.

Our thanks are due to the Board of Directors for the grant of money making the laboratory possible. I wish also to express my thanks to Dr. Carrico, Miss Mills and the nurses under her for constant and unflinching support.

REPORT OF THE DIRECTOR OF ATHLETICS AND GYMNASTICS  
AND HEALTH SUPERVISOR.

To the President: Madam,

I have the honour to submit the following report on such work of the Health Department as has been under my charge during the year 1917-18.

In October, in accordance with the requirements of the Health Department, four hundred undergraduate and fifty-eight graduate students were examined by the Director of Athletics and Gymnastics and by Dr. M. L. Carrico, the Assistant Resident Physician of the College. Of these, eighty undergraduates and fifteen graduate students were referred to Dr. Thomas F. Branson, Physician-in-Chief of the College, for further examination.

These examinations gave the following results:

Undergraduates: 364 students passed the health requirements. 36 failed to pass the health requirements and were put under general supervision, or when necessary under the care of the college physicians.

Graduate Students: 48 graduate students passed the health requirements, 10 failed to pass the health requirements and were put under general supervision, or when necessary under the care of the college physicians.

The above 46 cases were treated by Miss Anna Branson with marked improvement in all instances.

Miss Branson gave special weekly treatments to nine students who were unable to afford private treatment. The work was done by the students in addition to their regular gymnastic classes.

Miss Branson also held special classes for medical gymnastics for students unable to take the required gymnasium work. Eleven students were registered all the year for this class; five students attended it temporarily. All these special classes were paid for from the gymnasium fines.
