## McBride Explains

Teacher Shortages
The crisis resulting from the great need and the short supply of teachers and other hishly qualihed personnel is discussed by Misi Katharine E. McBride, President of the College, in her annual
port to the Board of Directors.
The emphasis today tends.to be thrown on short-term training pregrams, particularly in the selences, said Miss McBride,-in releasing the eport. These osten serve their purpose as emergency measures, but they give no assursince of bulld ing high quality into teaching and research for the future. The erisis in ita magnitude and complexity, Miss McBride points out, require long-term planning and thus begins s serles of difficult balances be tween high quality and the search for numbers.
From the long-term view, re search and graduate work of high calibre should be encouraged al across the board, Miss McBrid believes. Keeping. this "endless frontier" before all scholars is the task of all instltutions, particu larly the gradu sciences.

"The hazard is emsentially one of too great emphasis on known objectives. It has nothing to do with the level of the job, but is rather the accumulation of many specific and urgent demands which together make the present-day scholar see 'the pursuit of lmowledge' in more limited terms than did his predecessors," said the President.

Dean Discusses BMC Curriculum At the Assembly
Bryn Mawr's Present Course Policy Explained
Goodhart, Feb. 5-In her assemsemester of the academic yecond Mrs. Dorothy Marshall, Dean of the College, pointed to the curriculum as the best explanation of what an educational institution
atanda for. nd for.
The curriculum of a college means different things to different groups. Mrs. Marshall humorously haracterized its significance to hese groups. ## The Hygiene Exam

At this time, the hygiene exam, happily forgotten for a years, comes to the attention of the Bryn Mawr campus. This plaguing requirement appears annually, arouses legitimate complaints and wailings, is briefly éndured, scorned in retrospect and neglected for another year. Now, prior to the exam, is the time to raise objections in hopes of their efficacy

The hygiene requirement is neither edifying nor inter esting nor even entertaining. Either one is forced to recosbize quantities of facts one already knows, or else one is forced to wade around in a morass of new hygienic terms; briefly llluminating perhaps, but instantly forgottel. And ven if the proffered information is remembered, it is 80 fragmentas as to be worthless anyway.

There have been at least three types of exams offered in the past: the multiple choice exam, the essay question eram and the open book exam. Occasionally a series of four ectures have also been administered. The ultimate absorption rate in each case is equally low since the aim is always for memorization rather than understanding.

Besides the fact that no one learns anything from the ygiene exam, thut she could not very well find out for her self, the preparation for the hygiene exam is a gross waste of time. No one should be forced to spend time and energy n a senseless exam when there is so much pressure from all other quarters of the college, so many other beneficial reuirements that must be met before graduation. In the past ll students have been required to pass the exam before they ould register fol the senior year. This is irritating and completely unnecessary. If anyone gets to he a junior with out realizing some of the basic facts of hygiene, a rushed exam will not be particularly instructive

Without lamenting our fate further, let it suffice to say that now is the time to act in protest.

## The South Also Rises

One of the novel but quaint fads that has recently come to our attention is a little something which might be advertised as "Re-write your own history of the U.S., any old way, any old time; no experience necessary, anybody can do it."

This week's prize-winning entry has been submitted by thie Senate of the sovereign state of Georgia. In their resolation passed on February 8, the legal gentlemen from the South have asked the United States Congress to declare null and void the 14 th and 15 th Amendments to the American Constitution. Unanimously adopted, the resolution declares che two amendments to be improperly constituted and, in fact, illegal. The core of this argument reposes in a questioning of the authority of the 39 th and 41 st Congresses.

Obviously, American history majors have been duped for the last 87 years. Congress was not Congress at all in 1869 and 1870, say the new historians from Georgia, but merely "nothing more than private assemblages unlawfully attempting to exercise the legal power of the United States."

One need not search too hard for Georgia's motives in this historical rensissance. This move is only one of the many devieen ernployed in the fight on the part of many southern ers against desegregation. Without the 14th Amendment the 1964 Supreme Court decision against desegregation is invalid. The 16th Amendment contains the "odious" proviions guaranteeing the right to vote to citizens, regandleas of race or color. What simpler method is these to banish unpleasant thoughts from one's head than to say they do not exist? This is what Georgia haqdone. One more oatrich has buried ito head in the sand.

Copies of the resolution have been sent to Washington We hope that President Eisenhower and Justice Warren wi oot take this latest piece of whimsy too seriously. However the non-humorous sapect of the move resides in our viaion of the deepest bottom of the barrel a group of desperate men ass chosen to. scrape.

At least we have not yet been told that we are flying the wrong color flag; that it was really the South that won the Civil War. But of course, that too might come, and we will all whe up to find we have been living under one $\mathrm{li}^{\prime \prime} \mathrm{ol}$ grand illuefon.

The importance of the International aspect of USNSA cannot be tressed enough. We, the American indents, do Dot play the same role students abroad. The American udent is usually regarded as a ll time student working toward a certain goal, and is not consider.
ed as a leader in the community until after he receives his degree. On the ather hand, leadership is expected of the student in many ationa abroad. The university atudents are very often responsible ments. ## Bryn Mawr Junior Varsity and Varsity

 Basketball Squads Defeated by DrexelFlushed with their recent triumphs over Osonts Center and the Bryn Mawr Nurses, the Athens All Stars and the Minerva Monsters (Bryn Mawr's worid-famous bas ketball varsity and J.V.) played Drexel Institute in two rousing gamee leat Thuraday. Although both teams played with their characteristic dynamic enthusiasm, the All 8 tars were beaten by Drexel, 47 to 26, while the Mon sters were edged out 44 to 41.
Eiven though $f$ has been sug gested that perhaps the Drezel tams were so over-awed by their opponents' fluent Greek cheors that they were unable to appreciate the subtlety of our varsity's plays, the fect remains that neither Bryn Mawr tamm played a very good game. The second team made a better showing than the varsity, picking up after a slow start to the last agonizing minutes of play Mary Mealand was outstianding in the JV game plling up atal in the J.V. game, plising up a tota of 21 pointe for Bryn Mawr. The varsity, badly, did nothing really woll either, but was handicapped most either, but was handicapped most of all by the low percentage of baskers he Bryo
were able to anke.
The tremwork in both somas however, was very much better than in the previous matchos. An improvement in individual skille should make the
ive and profitable.

## Barmard Sponsors

 Asian Conference"Asia and the West: Time for Understanding," is the subject of the ninth annual Barnand Forum to be held Saturday, February 16 , at the Waldorf-Astoria Hotel. Metropolitan alumnae groups of 48 colleges and the New York Branch of the American Ansociation of University Women have joined Barnard College this year in sponsoring the Forum. Seven colleges planned the firat meeting in 1949, "to bring to open discueslon critical iasues of the time, as a publle service to the community and as a contribution to general edycation."
Three experto will consider the theme of Asia and the West. Miss Santha Rama Rau, author of "Home to India" and "Remember the House," will open the Forum with ar addrese on "The Asian View." Miss Barbara Ward, economist and author of "Policy for the West" and "The West at Bay," will present "The Weatern View. A final address, "The Role of the United States," will be given by Preoident Grayson Kirk of Columbia University, who last year toured the Far East under a grant from the Ford Foundation.
President Millisent C. McIntoah of Bamard College, will prealde at the Forum. Following the three principel addresses there will be a question period:
The Forum will begin with a luncheon at 12:45 p.m. in the Grand Ballroom of the WaldorfAotoria, with the program beginning at 2:00 p.m. Tickets for the luncheon and program are $\$ 6.00$;

## Dean Marshall's Address

Continued from Page 1 year, the course load is lightened About $27 \%$ of the class does honors.
Continuing with her picture of the college's curriculum, Mrs. Mar shall spoke of the addition of new coturnes such as those in practice teaching, Russian studles, and politics in the Far East. Inter departmental work, it is felt should come at the top level, wher "the student should know about the flelds she is going to 'integ rate" A heavy commitment to the major shows that "we put great value on knowledge," as in the atme way, "our cirriculum implies a belief that everyone getting ${ }^{\frac{1}{2}}$ liberal education needs to have some understanding of different
interest.
Mrs. Marshall closed with the observation that Bryn Mawr's curriculum implies "time to explore, as seen in the four-course pinh which leaves time for individual work without saying so." The curriculum ia planned to "make a whole"; in this reapect, Mrs. Marhall hopes the students "will see the woods, not just the trees."
