Ground Broken For Center; Completion Goal—Fall 1964

Ground-breaking ceremonies for the \$3.1 million Senior Center, inaugurating Bowdoin's pioneering plan of integrated study and environment for the Senior Class. Construction of the Center is expected to be completed by September, 1964, to house the Class of 1965.

The simple exercises, attended by some 200 persons, were similar to the clearing where the founding fathers of Maine's oldest college gathered to establish Bowdoin 161 years ago.

First Shovelful

President Coles, who turned over the first shovelful of earth for the Senior Center, said "this ceremony marks more than a simple ground-breaking for a new building."

"As significant and as unique as this building will be in Bowdoin's history," President Coles declared, "the educational program which we are inaugurating today by this ceremony is greater in significance."

Peterson Chosen Editor; Doig and Keefe Promoted

Bob Peterson '65 has been elected as editor of the Orient, the Bowdoin Publishing Company announced today. His appointment, effective immediately, runs through November, 1963. Peterson made a concurrent announcement that Sandy Doig '65 and Larry Weinstein '65 have been appointed managing editor and news editor, respectively.

Business Changes

In other personnel changes, Chris Keefe '65 will replace retiring Bill Higgins '65 as business manager. Keefe's former post of advertising manager will be filled by Keith Brooks '65. Bill Heath '65 and Doug Hochstetler '65 replace Brooks as the circulation managers.

Rick Andrias '65 and George Bennett '65 will be the new sports editors, replacing Steve Haskell '64 and Stephen London '64. Retaining his post will be Jim Riley '64, features editor.

Peterson

Peterson, who had been managing editor of the Orient since last September under Aas Smith '65, will tentatively publish his first issue this coming Friday.

He started as a reporter for the Orient and then held the offices of assistant news editor, news editor, and editor.

Doig

Doig, a news reporter last year, was named news editor this past fall. He has worked on his hometown newspaper in Ridgewood, N. J.

He received freshman numerals in soccer and lacrosse and was a member of the varsity soccer team last fall. Doig is a member of Beta Theta Pi.

Keefe

A member of Alpha Delta Phi, Keefe was advertising manager of the Orient this spring and circulation manager last year. A Classics major, he was on the track team in his freshman year as a distance runner.

Keefe

Keefe was advertising manager of the Orient this spring and circulation manager last year. A Classics major, he was on the track team in his freshman year as a distance runner.

Fuchs, Fernald, Royster Receive N. S. F. Grants For Summer Studies

Professors Fernald, Fuchs, and Royster have received National Science Foundation grants to pursue studies in their respective fields of psychology and sociology next summer.

Fernald

Professor Fernald will participate in an NSP summer institute on "Contemporary Scientific Psychology" at Boulder College, Boulder, Wis. The six-week course is designed primarily to bring the college teacher-participants up to date on advanced theories and research in the subject. The seminar-type discussions at the institute will include contemporary developments in perception, learning, personality, biological psychology and other basic areas.

Fuchs

Professor Fuchs will engage in an NSP Summer Research Participation Program during July and August at the University of Michigan Ann Arbor. Experimental programs in various areas will be designed for college teachers of psychology who wish to probe areas of their own special interest.

Royster

Professor Royster of the Sociology Department, will participate in a Summer Institute in Anthropology at the University of Colorado, in Boulder, Colo., from June 17 to Aug. 20.

The ten-week period will be divided into segments of two weeks each, during which time some aspect of cultural and physical anthropology will be taught by outstanding local and visiting scholars.

Center were held Wednesday, held in a clearing to the pines which the founding fathers of Maine's oldest college gathered to establish Bowdoin 161 years ago.

The simple exercises, attended by some 200 persons, were similar to the clearing where the founding fathers of Maine's oldest college gathered to establish Bowdoin 161 years ago.

Widery Thomas

Widery Thomas of Portland, Chairman of the Governing Board's Senior Center Building Committee, presided at the exercises and said it was appropriate that they were held "at this season of the year when people of all faiths are rededicating themselves to build a better world."

Thomas

Mr. Thomas, a Trustee and member of the Class of 1922, noted that the Senior Center, which will include a sixteen-story residential tower and two sister structures, "is only part of a program which is being developed at Bowdoin to bring education to higher heights."

He outlined the objectives of the current action-wide Capital Campaign for \$19 million. Besides the Senior Center, scheduled to open in the fall of next year, the College is planning a new \$3 million library, scheduled to open the spring of 1965; a new \$1.4 million gymnasium, scheduled to open in the fall of 1965; an additional \$2.5 million for support of instruction and financial aid to students; \$250,000 for renovation of the present library; \$1.2 million for modernization of four dormitories; and \$100,000 for an increase in the College heating plant's capacity.

Daggett

Professor Daggett '25, Chairman of the Faculty Committee on the Senior Center Program, described the ground-breaking as "a magic moment when plans and aspirations and hopes suddenly move toward realization."

"It is a great moment for all of us," Professor Daggett said, "and we believe it is important because it does two things. It conserves what is good and precious in the past heritage of the College and it shows that at the same time the College can move on to new aspirations, to new hopes and to new plans which will greatly enhance its offer for the future."

Ceremony

Assisting President Coles in turning over the first earth were Mr. Thomas, Professor Daggett, Wayne B. Baxter '65, Chairman of the first committees of the Senior Center; and John J. Magee, Director of Track and Field Athletics, Bowdoin.

Also present for the ceremony was Governor Baxter's nephew, Trustee John L. Baxter '16, Chairman of the Governing Board's Visiting Committee; and the latter's son, John L. Baxter, Jr. '42, Vice Chairman of the Board's Executive Council.

John L. Baxter, Jr., who will be one of the first occupants of the Senior Center; and John J. Magee, Director of Track and Field Athletics, Bowdoin.

Also present for the ceremony was Governor Baxter's nephew, Trustee John L. Baxter '16, Chairman of the Governing Board's Visiting Committee; and the latter's son, John L. Baxter, Jr. '42, Vice Chairman of the Board's Executive Council.

Nearing Reality

Pictured above is the anticipated look of the Senior Center in September, 1964. With ground broken on Wednesday, construction is expected to start within the next few weeks on the three building complex.

Fuller & Co. To Erect Senior Center Renowned For High-Rise Construction

The physical facilities for the Senior Center Program, a pioneering development in liberal arts education, will be built by the George A. Fuller Company, one of the nation's biggest contractors and a leader in high-rise construction.

Widery Thomas of Portland, Trustee of Bowdoin and Chairman of the Governing Board's Senior Center Building Committee, said "We hope to start actual construction work within the next few weeks."

Famous Structures

The George A. Fuller Company, which has erected some of the world's most famous structures including a wide variety of educational and other buildings, has offices in New York, Boston, Chicago, Dallas, Los Angeles, Pittsburgh and Washington.

Buildings constructed by the firm include the State Capitol in Augusta, Maine; the United Nations Building and Pennsylvania Station in New York; the U. S. Supreme Court Building, the Lincoln Memorial and the Department of Justice Building in Washington; the Loeb Drama Center at Harvard University; and the Imperial Hotel in Tokyo.

The Fuller Company was one of the firms which built the recently completed Lincoln Center for the Performing Arts in New York and is now working on the National Cathedral in Washington.

Senior Center

Construction of the Senior Center is the first step in a new program to support and enhance the College's educational goals. The Center has been designed by the architects, High Stubbins and Associates of Cambridge, Mass., specifically to contribute to the educational objectives of the program.

The Senior Center will be built south of the main campus, facing on College Street, and opposite a central campus axis. The Class of 1916 Walk. The exterior will utilize the red brick and limestone so familiar in other Bowdoin buildings.

The main building, the tower, will include living and study quarters, seminar and conference rooms, lounge, reading rooms and other facilities. The third building will be a Faculty Residence, with apartments for the Director and other participants in the program and a private dining room for use on special occasions by small groups of students, faculty and guest of the College.

The Senior Center Program will make possible an enrollment increase of about 30 per cent, to a new total of 625.

Korgen, Jeppesen Appointed To N. S. F. Washington Staff

Professors Korgen and Jeppesen have been appointed to the Washington, D. C., directorial staff of the National Science Foundation for the 1962-63 academic year, President Coles recently announced. Both have been granted leave from Bowdoin to assume their new posts in June.

Professor Korgen, of the Mathematics Department, will become Associate Program Director in the Undergraduate Science Education Program of the Special Projects in Science Education Section. Professor Jeppesen, of the Physics Department, will take the post of Associate Program Director of the Graduate Program of the Fellowship Section. Both sections are within the NSF's Division of Scientific Personnel and Education.

Administration

In his position, the NSF said, Professor Jeppesen will be concerned with the development and administration of programs designed to provide enriched educational opportunities for undergraduate college students throughout the nation in the fields of science and engineering.

In addition to planning and guiding experimental pilot programs in science education, Professor Korgen will be engaged in the broad task of studying and developing NSF's practices of cooperation and coordination with other Federal, State, and other scientific agencies sponsoring programs similar to those of the NSF.

Decision-Making

Professor Jeppesen will assist in decision-making on, and the direction of, four graduate NSF fellowship programs designed to aid science and engineering students and college teachers of science who are seeking postdoctoral training. The four programs are based on:

Bowdoin Extends Welcome To Morehouse College Students

Six Negro students from Morehouse College in Atlanta, Ga., arrived here Wednesday for their share in a student exchange between the two colleges.

They are Ray Lundt, Herbert Charles, Robert Allen, Hubert Waters, Peter Singleton, Jr., and David Satcher. They will remain on campus until Wednesday, April 17.

Dr. Satcher, President of the Student Council at Morehouse, spoke in the Chapel yesterday during the basic features of Morehouse College.

Bowdoin Students

Nine Bowdoin students who initiated the exchange are those who participated in the life of the college and community for a week last month.

Philip H. Hansen III and David L. Bayer head a student steering committee which made the exchange arrangements at Bowdoin.

Hansen, who along with Bayer went to Atlanta, described his stay at Morehouse as "one of the most educational experiences I've ever had." He and the group from Bowdoin did not expect to gain a "great grasp of the whole situation — of what it is like to be a Negro in the South in their short visit, but we did."

"We came to see the issue of discrimination, not in the abstract, but in very concrete terms."

"All of us had read about discrimination before we went to Morehouse, but our trip gave us a much more personal sense of what it really involved in it," Hansen said.

He and Bayer agreed that much progress in tearing down race barriers has been made in Atlanta. "This is largely due to the good will and rational attitudes of both Negro and White leaders," Hansen said. However, he added, "there is still much that remains to be accomplished" in the areas of "social equality and segregated housing."

The Bowdoin contingent was given an official welcome to Atlanta by Mayor Ivan Allen, Jr., of that city.

Hansen, Bayer Presented F. D. R. Cup This Morning

David L. Bayer and Philip H. Hansen, III, were jointly awarded the Franklin Delano Roosevelt Cup in Chapel this morning.

In addressing the Chapel audience, Dean Kendrick stated: "The visit of our friends from Morehouse reminds us of a cause close to the heart of President Roosevelt, and best to the principle of American democracy — equal rights and respect for all our fellow citizens."

"In our current national and international life," he continued, "no problem can be more important and require more vision, humanity, courage and intelligence than the friendly and constructive effort to further the progress and achieve the eventual attainment of the integration of our people."

"Among Bowdoin men who have contributed to this two have stood out as leaders this year," Dr. Kendrick rendered a notable service to the country and their college," the Franklin Delano Roosevelt Cup was awarded to Bayer and Hansen for their initiative in organizing the Bowdoin-Morehouse exchange program.

Hansen and Bayer The Roosevelt Cup, presented by Alpha Delta Phi to the College, is awarded each year to "that member of the three lower classes whose vision, humanity, and courage most contribute to making Bowdoin a better college."

Hansen, a junior, is majoring in History and is a Dean's List student. He is the steward of Phi

Notes And Comments

Can Spring Be F...?

Spring comes quietly to the Bowdoin campus, almost helpfully. Piles of dirt-grey snow, reluctant to pass from the snow hills in the shadows of trees, walkways, and buildings...

It has been suggested that someone make a study to see precisely how many dogs there actually are on campus, but this is an obvious impossibility. By what a simple head, or tail count or afternoon census...

But the hassles of Spring (how could we resist such a wonderful dilemma) are sure and unmistakable, even if the weather is not. The Masque and Gown has cast the commencement play, the Dean's office has decided on next year's program, or is doing so at this late writing...

Without much effort we can think of several instances when, in the near past, canine made their presence known. Most noticeably and most recently was the dogfight at the ground-breaking ceremonies...

And not only do they seem to be everywhere, there seem to be more of them, released after a prison-term winter to roam the Bowdoin campus once more.

It is unquestionable that all campus dogs are neurotic, some are completely unbalanced. In fact, the incident which prompted this whole exercise serves to emphasize this fact rather nicely.

It would be difficult to decide just why we seem more aware of man's best friend now that Spring has come, perhaps they seem friendlier, less menacing in the April sunlight...

Three dogs stopped one morning last week on route to Sills hall or possibly the ROTC office to examine the Polar Bear in front of the gym. The first dog, confounded by the shape of the sculpture ventured forth and barked at the bear. The other two, encouraged by the small dog's barking joined the chorus which lasted a good fifteen minutes...

Ask Abraham the groundskeeper about the winter morning five dogs snarled in front of the library and he'll hold his breath against the dog impervious to the snarl he witnessed until someone had enough compassion to open the door and rescue him. But Spring things the blood-drenched dog timer, and the dogs look like they've and more like dogs as they get warmer.

Sorry we missed a column last issue, but crime doesn't pay, or so they tell us. More bland fare next week unless I hear from the ASPCA in the mean time.

Senior Year Reconsidered

The recent ground-breaking ceremony for the Senior Center indicates that a reevaluation of the Senior Year at Bowdoin has already taken place. On the surface, the emphasis appears to be on academic and social innovations. However, we would like to examine the role of athletics, especially participation in the Senior Year, in light of such new programs.

We might interpret the Senior Center as recognition by the faculty that a student's fourth year at college becomes in many cases different from the previous three years. In athletics, there have been enough instances which would support the argument that the Senior Year does involve different attitudes on the part of the student. This has appeared to be especially true in the past two years of football and hockey.

The argument does not stand up with the fine basketball and swimming teams, led by seniors. However, we only want to make the point that the type of student-athlete at the college is changing. The new Senior Program will further define such a change.

With the anticipated symposiums, lectures and seminars, more time will be dedicated to the academic activities of the student. However, we would insist that sufficient freedom be allowed the student who chooses to engage in athletics. This not only applies to varsity participation, but also to interfraternity activities. But even if the freedom exists, the program will inevitably decrease participation and interests of seniors in athletics.

The administration has anticipated some of the problems we have raised. The new gymnasium will allow greater freedom in planning practices and scheduling interfraternity events. To complement the academic changes, an expanded athletic program will afford the student a greater opportunity to choose preferred sports. But the increased possibilities that seniors living in the Senior Center will lose interest in active sports still remains as an unsolved program. One possibility that might be considered, and one that we feel would maintain maximum performance by varsity teams in the future, would be to allow freshmen to participate on the varsity level. This situation exists now at Bates and Brandeis. Particular league rules which stipulate that a minimum male enrollment must exist to allow freshmen participation in varsity sports might be waived to make this a reality at Bowdoin.

This is our last editorial, and our most controversial one. Perhaps others can see the problems differently, and we would welcome any other interpretations or solutions from students, faculty members and those concerned.

In departing, we would like to thank all of those who have cooperated with us throughout the winter sports season.

PAT ON THE BACK: This week the laurels go to RICK BLACK who tied for team high batting average on the southern trip, knocked in the winning run of the lone victory, and tallied for two circuit outs.

Swim Relay Team, Loane In Post Season Action

Five Bowdoin College athletes turned in very respectable performances during the vacation in post-season tournaments. In the National AAU Swim meet the Bowdoin relay team placed thirteenth out of thirty-two. Tilton, Robinson, Coats and Seaver competed for the college against the best squads in the country. In the New England vs. Greater Boston-Worcester College All-star game, Al Loane scored 6 points. Playing with such national stars as Vinny Ernst and Kas Flynn, Al played 18 minutes in sparking the New England club.

Lacrosse Has 1-4 Start; Crabtree, Oliver Shine

The lacrosse team returned from its spring trip a considerably more experienced squad than when it left Brunswick. Although their record was one win and four losses, they learned more lacrosse than this record might indicate. After beating Villanova 10-4, they went on to lose to Delaware 8-6, Adelphi 12-8, Stevens Tech 4-1, and C. W. Post 9-6.

Oliver's Ten Goals
The trip gave the coaches and players an opportunity to better assess their strong and weak points than is afforded in the cage. Tom Oliver's ten goals and co-captain Steve Crabtree's fine defensive work were two of the brightest notes. More work is still needed to develop a scoring punch on the second mid-field, which still lacks some needed experience. Another spot appears to be that of goalie. With Roger Salliant injured, this job now falls entirely on Bill Westerbeke.

Bowdoin Booksters Set Odds

The notable board of experts on the baseball scene — Tom Frier, Jim Rice, and Craig Mather — after a review of opening spring contests and innumerable calculations, predicts the following for the 1963 season:
National League
1. Dodgers
2. Giants
3. Reds
4. Cards
5. Pirates
6. Phillies
7. Braves
8. Cubs
9. Mets
10. Colts
American League
1. Yankees
2. Twins
3. Tigers
4. Orioles
5. Angels
6. Indians
7. Red Sox
8. White Sox
9. Athletics
10. Senators

Dave McDowell Named Spring Track Captain
David T. McDowell was recently elected Captain of the 1963-64 indoor track team.
McDowell, Maine state champion in the broad jump, was a leading member of Coach Frank Sabatanski's indoor track squad which defeated five of the six teams it faced in eight meets during the past season.
Unbeaten in the broad jump, McDowell exceeded 22 feet in every contest this winter. His best distance was 22' 4", which he registered on two occasions.
He was also a member of the indoor relay team.

Baseball Team Meets Southern Clubs

The Polar Bears traveled to Teaneck, New Jersey, to lift the lid on the 1963 season. The first game was with Fairleigh Dickinson. The Fairleigh squad had seven returning starters from last year's 16-6 team. The weather was a warm 80 degrees with a strong righter wind blowing toward right center. The fact that the Polar Bear's had not faced live pitching before was indicated in the first four innings when they only collected pitched well in the first three innings giving up no runs but one hit, a home run by pitcher Roger Tuveson.

They ran up against a red-hot pitcher in Scott Steiner. He held the visitors to a lone single by pitcher Frank Nicolai in the second. Upsala picked up his initial run in the first inning on three singles. They added another in the fifth, and two more in the seventh on two errors and a long triple. Starter Scott Steiner, who completed mastered the Bowdoin hitters throughout the game, received the win. Louie pitcher Frank Nicolai pitched a fine game. This game saw Rick Black's four game hitting streak brought to an end.

The sixth and final game of the trip began with a light rain falling driven by a cold wind. Upsala started the scoring in the second with a base on a sacrifice bunt, a passed ball, and a long sacrifice fly. Bowdoin led the score in the third when Finn reached on an error and Silverman singled driving in Finn. Bowdoin pulled ahead in the fifth when Finn singled and went to second on the shortstop's throw. Harlow then singled. Black grounded to the second baseman, Harlow walked, and Black went to second. Charlie Shea then singled to left driving in Black. In the sixth the Upsala lead-off man was hit with a pitch. The second batter hit a ground ball to second and on the attempted double play the throw went wild moving runners up. The next batter singled to right scoring one run. Zilinsky then put a blanket on the Upsala rally. The home team added two more in the seventh when the shortstop's throw to first baseman, Andy Allen, hit a long drive into the tennis courts in left field with a man on.

With the home team up by one, 4-3, in the top of the ninth, Pete Finn and Fred Harlow both struck out. With a count of one ball and two strikes, two outs and nobody on, Rick Black rocked a home run into the left field tennis courts to tie the score. Silverman struck out to end the inning.
The last of the ninth lead-off batter Steve Barker was hit by a Zilinsky offering. The next batter singled. Zilinsky then forced the next batter, George Neustaefer, to fly to left. Upsala led fielder Frank Zalesny then doubled bringing in the winning run. The winning pitcher was Gus Gregory, the loser, going the distance, Tom Zilinsky.

Captain Pete Finn and letterman Rick Black paced the hitting attack for the Bowdoin nine for the entire trip. Both collected seven hits with twenty-two at bats for a .318 average. In the home run department Black got two while Harlow and Tuveson picked up one apiece. The pitching showed promise with fine performances by starters Roger Tuveson, Frank Nicolai, and Tom Zilinsky. Also showing very well was Dave Nelson in relief. The team definitely improved as the trip progressed and should continue to do so during the season.

PATRIZIO OUR ADVERTISERS
The Polar Bears then returned to New Jersey for the last two games at East Orange with Upsala College. In this the fifth game of the trip

Coles Acknowledges Requests And Grants Totalling \$21,412

President Coles announced today that The International Nickel Company, Inc. has made an unrestricted grant of \$4,000 to Bowdoin. The grant supplements a similar Inco gift made to the College last year.

The award is one of a series of grants made by International Nickel to leading liberal arts institutions and is part of the Company's program of continuing aid to higher education in the United States.

In a letter to Mr. Forrest B. Allen, Administrator of International Nickel's Educational Programs, President Coles expressed the College's thanks and said the grant will be applied toward the strength of the nation's program of continuing aid to higher education in the United States.

Hyannis Telegrams Precede Delivery Of Integration Talk

Response to Professor Hall's chapel speech, "Jim Crow and John Doe: A Theorem of Integration," began even before the speech was presented Monday morning, April 15. Advance releases sent off by the Bowdoin News Service contained Professor Hall's proposed discussion of the reaction of Hyannis, Mass., to the prospect of receiving a number of reverse freedom riders last June.

In his speech Professor quoted from a Wall Street Journal news dispatch from Hyannis which stated, "the people of Hyannis wanted to give a whole hearted welcome to the reverse freedom riders, but were unable to because of worries that the publicity will keep summer people away, and that the Negro might become public charges and cause a local tax increase." (Hyannis later welcomed a large number of freedom riders.)

Dixie Still Gripped By "Old Southernism"

Speaking before a large student audience in Monday's chapel exercise, Professor Lawrence Hall advocated and proposed, "a massive, constant and systematic exchange of qualified White and Negro students and . . . teachers back and forth across the Mason-Dixon Line" as the only way to begin real integration in both the North and South.

In his address, entitled "Jim Crow and John Doe: A Theorem of Integration," Professor Hall criticized the North for its "de facto housing segregation in 12 large cities," its substratum of prejudice, and its smug indifference toward the South. Professor Hall also criticized the South which, he said, is still in the grip of the "overwhelming credo" of "Old Southernism, the in Dixieland-I'll-take-my-stand position."

Advocates Educational Exchange Programs

There is only one avenue to integration and that is through the sweeping program of national education. . . of North and South, of white and colored, of Hyannis businessmen and Louisiana planters, of private citizens and public officials, of white citizens' councils and NAACP, of town, county and state, of teachers and students, and finally of the academy itself.

Scholarships Professor Hall advocated the establishment of a "granting and sensitive complex of scholarships, good for at least a semester, penetrating down even into the elementary grades and, as a result of these, White and Negro boys and girls from the South in classrooms of well integrated Northern schools, and White and Negro boys and girls from the North in classrooms of well integrated Southern schools.

Marshall Bequest
Bowdoin has received a bequest of \$5,000 for student loans from the late Miss Ella P. Merrill of Newton, Mass. The bequest was made in memory of Miss Merrill's brother, the late Carleton P. Merrill of Skowhegan, Maine, a member of the Bowdoin Class of 1894. A native of Farmington, Maine, Mr. Merrill was Treasurer of the Skowhegan Savings Bank for more than 40 years until he retired in 1949. He died in January, 1962.

John W. Frost Memorial
The Texas Utilities Company of Dallas, Tex., has made a gift of \$1,000 to Bowdoin in memory of the late John W. Frost, a member and former President of the College's Board of Overseers, said President Coles.

Response to Professor Hall's chapel speech, "Jim Crow and John Doe: A Theorem of Integration," began even before the speech was presented Monday morning, April 15. Advance releases sent off by the Bowdoin News Service contained Professor Hall's proposed discussion of the reaction of Hyannis, Mass., to the prospect of receiving a number of reverse freedom riders last June.

People whose articulateness makes them sound like a river in the people's stead.
In the North, while there is "an appreciable will and sense of responsibility in matters of Negro welfare, it is a long way from being unanimous," Professor Hall said. Describing the Northern attitude, he stated that the danger is not only sound like a river in the people's stead.

Martha Hale Shackford
The late Martha Hale Shackford of Waltham, Mass., has bequeathed to Bowdoin by the late Professor Martha Hale Shackford of Waltham, Mass., in memory of her father, the late Charles Burrham Shackford of Dover, N.H., a member of Bowdoin's Class of 1893.

John W. Frost Memorial

Concert Moved

Tomorrow's Glee Club concert with Pembroke College, originally scheduled for Portland, has been shifted to the campus. It will be held at 8:15 p.m. in the Pickard Theater. Miss Joan Zerkow will conduct the Pembroke Singers, while the Bowdoin Glee Club will be conducted by Professor Beckwith. The program will include selections by both groups jointly and separately, in addition to solo numbers.

Ivy Committee Engages Miles Davis; Noted For Lyricism in Modern Jazz

The annual dance, so long an institution of the Ivy weekend will not be held this year. Instead, owing to the considerable success of Dave Brubeck this year (and to the considerable financial failure of previous Ivy dances) the committees announced today that The Miles Davis Sextet has been engaged for a concert on Friday evening, May 17.

Students Attend Conf. On Joint Understanding

Three foreign students at Bowdoin have been invited to attend a nation-wide conference on international friendship for students from other lands at Aitila House, Warenton, Va., April 26-28.

Students Attend Conf. On Joint Understanding

On The Morehouse Exchange THE FIRST STEP

If the Morehouse exchange has accomplished any of its original goals, it has made an impression on our own... It is not in my view going to be quite so easy to briefly stick our necks out from behind our doors to welcome...

Question 1: How can we have complete integration with out the destruction of prejudice? It seems to us that if the Negroes are fighting only for unequal acceptance in what is understood by a White society, they are not considering fundamental problem behind segregation...

Question 2: How many more must die before we can reach the Morehouse students about the basic problems of Negro equality in a white-dominated society? We don't mean simply sending publicity out on the way of a plane or printing one of these in an area where indifferent friend.

Question 3: How many more must die before we can reach the Morehouse students about the basic problems of Negro equality in a white-dominated society? We don't mean simply sending publicity out on the way of a plane or printing one of these in an area where indifferent friend.

Question 4: How many more must die before we can reach the Morehouse students about the basic problems of Negro equality in a white-dominated society? We don't mean simply sending publicity out on the way of a plane or printing one of these in an area where indifferent friend.

On Policy

We were approached a couple of days ago on one of our frequent tips to the Union by three students, seemingly from Bowdoin, feeling that we were from the Orient on a broad, worried, biased on our part...

It's getting increasingly more difficult to stand off in our isolation and proclaim our zealous, but hypocritical beliefs, it's getting easier all the time to speak out in favor of desegregation and perhaps even donate a little money to some Negro organization...

Anyway, that brings us to some manner of statement concerning policy for the new editorial staff. We will at all times consent on campus activities which we feel merit editorial consideration...

OPERA... KIDDE SHOW... ON OUR STAGE... THE RECORD OFFICE... Let us help you plan your printing as well as produce it...

ORIENT EDITORS QUIZ MOREHOUSE SENIOR LUNDY EXCHANGE MERITS

"I think that student exchanges on a larger scale seem more feasible," said Morehouse student Ray J. Lundy in an interview with the editors of the Orient.

Asked the question "Did he feel that the Bowdoin-Morehouse exchange program was a step forward in any way?" the senior biology major from Texas replied that his main objection to the program was its length.

On the question of faculty exchange, Lundy was greatly in favor of the idea. He said that he had had the feeling that if he walked away from a group of students who were talking and if I suddenly popped back around the corner they'd still be the same, saying the same things.

Lundy showed some reluctance to discuss the role of the college in the exchange program. Speaking as the key position of education in the integration, Ray expressed the hope for a well educated White society.

Letter To The Editor

of those reforms and plans which must be carried out by the fraternities together. The principal organ of the fraternities is the Student Council. The Council is described in the catalogue as the body in which is vested undergraduate self-government.

I believe the roots of this inactivity lie in the, what the sociologists might call, "power structure" of Bowdoin. The tiny governing life of the fraternity, the dorm, class or major field. This fact is partly recognized in the representation of the Council.

The HOTEL EAGLE DINING ROOM... EAGLE'S NEST LOUNGE... Comfortable Accommodations... PRIVATE DINING ROOM AVAILABLE FOR PARTIES... CALL PA. 5561

As to their not being listed by the fraternities from the moment of their pledging, we can only say that it would be highly improper if under any plan they were listed so.

In conclusion, we contend that the present orientation program, if properly administered (and perhaps limited to four weeks) can result in a well-united, high-spirited freshman class in all houses.

Back to comparisons of Bowdoin and Morehouse. Ray talked about the difference in the orientation program that he compartmentalized our student body.

Notice

Now that construction of the Senior Center complex has proceeded past the planning stage, it is anticipated by the administration that many questions will be raised by students on both the physical plant and the program.

In answer to this, Dean Gresson announced today that a Student Assembly will be held at Phipps Theater Monday evening, April 22, for the purpose of listening about not only the Center, but the library addition, gym, and Student Center expansion.

Young Reps To Show Lowell Thomas Film

The American Political System, a new motion picture analyzing American politics, will be shown Monday night at a meeting of the Bowdoin College Young Republican Club Sunday.

Notice

The public is cordially invited to attend the meeting, which will be held in the Moulton Union Lounge on the campus at 7:30 p.m.

Bill Higgins, President of Bowdoin's Young Republicans, said the program will also include a five-minute film showing highlights of last year's GOP state convention.

Club members will discuss their organizations' continuation after the pictures are shown.

Notice

Now that construction of the Senior Center complex has proceeded past the planning stage, it is anticipated by the administration that many questions will be raised by students on both the physical plant and the program.

Club members will discuss their organizations' continuation after the pictures are shown.

The program will start at 7 p.m.

This Week

John Helprin... This Week and Next Week Bowdoin's orientation system will be assessed and perhaps revised by the Dean's office and the Student Council.

The orientation program in its present form is both a toothless facade of having and a ludicrous attempt at a more mature system. It is a halfway house where nobody is home, and the result is four to five weeks every fall where the changes of having been removed without being replaced by anything positive or constructive.

Having us an archaic program of medieval trappings in which the freshman earned his brotherhood by being able to take it instead of being able to learn it. In 1958 Bowdoin emerged from the medieval era and the medieval system of having been replaced by the vacuum process called orientation, wherein the old ways were slyly perpetuated, only with less violence and less efficiency, and which has neither set forth nor achieved any laudable goals in its brief history.

Obviously a return to the old ways would be undesirable - except, perhaps, to any missionaries of sadism who may be among us who enjoy seeing adults of eighteen spend the first year of their college life purposing puppets. On the other hand, to admit freshmen as brothers in the fraternity upon their arrival at the College would be to remove any and all obstacles from the pledge's path to brotherhood and would make his actual initiation anti-climatic.

The freshman, in other words, should not be permitted to saunter into the fraternity during the first week of classes and be hailed brother. And at the level of us are satisfied with the exhausting weeks of frenzied activity that now bind us in the fall.

How can we accomplish this? Very briefly, here are some suggestions: we should agree first of all that in three weeks or so a freshman can learn everything that it is vitally important for him to learn. More time would be spent in the same situation we have been facing for the last few years: boredom among upperclassmen, wasted time for freshmen. Less time than three weeks would telescope all orientation assignments into one short period and leave the pledge no time for study.

Secondly, we must agree on a basic, positive orientation program to be implemented by all the houses. Embodied in such a program would presumably be learning the history of the national organization (where extant), some fraternity songs and lore, some college songs and lore, the history of the college, and so on. The freshman would learn what he would want to know anyway, and would be spared the extra few weeks of circus activities.

As far as the remainder of current orientation rules is concerned (signs, banners, no smoking, no walking on the grass, etc.), these are the least important. The most important is the fact that the freshman year is particularly helpful to upperclassmen and faculty in identifying new members of the College.

RECENTLY PUBLISHED BOOKS of interest to various Bowdoin faculty include:

- 1) The autobiography of the Tar's dog, in which he tells of his travels through Europe and devotes an entire chapter to the behind-the-scenes operations of the Bowdoin fire department, has been ordered by the History Department.
2) A collection of critical essays proving that Joseph Conrad, William Butler Yeats, and Wallace Stevens are all descended from Glast, has been ordered by the G. G. F. (Thank God It's Friday) Club of the English Department.
3) A stereo recording of underwater fish noises has been ordered by the Biology Department and will soon be on sale at your local bookstore.
4) A Funny Thing Happened on the Way to the Forum, by Julius Caesar, has been ordered by the English Department.
5) The Sea Life of an American Eagle, written by an American eagle, has been ordered by the Bird Department.

ALL RIGHT, PROFESSOR ROWSTER, let's make no mistake about it: last year's Student Council questionnaire, which probed into undergraduate opinions of campus life here, has been unceremoniously buried under a barrage of delays, technicalities, and back reverses. WHO is doing the digging is unimportant, particularly in light of the Orient's recent decision to sponsor and publish a similar questionnaire within the next few weeks.

MR. KAMIN'S PROFESSIONAL SAVVY has done polishing miracles for Bowdoin's "image." He has been providing the College with the caliber of public relations that is indispensable to a small American college loathed obscurely in what was once, and perhaps should have remained, southern Canada.

PROFESSOR REX WARNER will be teaching at the University of Connecticut during the next academic year.

THERE ARE RELIABLE REPORTS that it won't be long before Bates and Colby follow Bowdoin's lead in cancelling their football rivalry with the University of Maine.

SENIOR CENTER FANS will be delighted to know that dirt excavated from the site will be used to cover over the Brunswick town dump.

Polar Bearings

By Steve London and Steve Finckel

A TIME FOR DIVERSION

The natural wonders of our fine state are ideal for making "Maine Your Vacationland," an ad at the bottom of last week's Sports Page professed. To a large proportion of Bowdoiners, the crystal lakes and verdant landscapes are foreign because of numerous student obligations, and also their studies. A consistent and surely unique quality of our state's late late springs—further shackles our student body.

Along the left field, line of Bowdoins, Fiskard Baseball Field numerous drifts of snow linger under the swaying pine, remnants of that encompassing blanket that has suppressed activity for so many months. The playing fields though, have finally shrugged off this weight, and the mobility (but not the spirit) of our teams that has been hampered for so long has commenced.

With the vanishing of the snows, another "depressing" blanket seems to sweep over the Bowdoin Campus in the spring time, a blanket of apathy. This phenomenon is observable in all facets of college life, but is especially observable in the area of spring sports spectator participation. Although many spring sports such as water-bombing, sun-bathing, and hiring and securing an ivy date are avidly followed by the student body, at times in the past the active and diversified College spring sports have failed to receive even token student galleries.

It would be a cliché to say each student has an "obligation" to support these contests. Each student can decide how he would like to divide up his own time, and it would be a personal insult for someone to tell him that he "ought to" attend events on the spring sports schedule. The fact remains though, that the College supports these sports financially, not merely for the personal satisfaction of the relative handful of participants, but also the enjoyment of the entire student body. These events are additional "offerings" of the College, and as the fall and winter sports provided pleasure and diversion for the spectators, so too can the spring sports. Maine's late spring need not necessarily mean Bowdoins' inactive spring.

DEATH—OF AN ERA

A series that has continued for well over one half of a century will come to a close in the fall of 1964 when the Polar Bears of Bowdoin meet the Black Bears of Maine for the final time in gridiron competition. Expressions of surprise and regret, favor and disfavor have colored the campus reaction to this announcement. Questions immediately arose, as to what team would be called upon to fill the gap in the schedule, would there be an increase in scheduled games, and would some type of similar administrative action be taken with respect to Tufts, our traditional opener. Some of these queries have been answered already. Next fall the Bowdoin eleven will open on September 19 with WPI in what is hoped will develop into a regularly scheduled rivalry. Commencing with the fall of 1965 Tufts will no longer be played in September. There is some possibility that after the 1964 season the Jumbo rivalry may be continued, but scheduled at a later date in the season.

The elimination of Maine from the schedule should not therefore, be considered as any indication of defeat. Rather retaining a school of Maine's size and projected growth should be considered as defeating the purpose of the athletic program of the College. The series terminated amicably and with both a complete and realistic understanding on the parts of both the College and the University.

Finally, we are confident that the Administration will make every effort to acquire and maintain the type of competition that can be reconciled with the expressed aims of their program.

Golf Team Has Good Depth But Slowed by Late Spring

The 1963 edition of the Bowdoin Varsity Golf team should show greater depth than last year's team by the addition of three members of last year's undefeated freshman squad. Captain Bob Osterhaus, sophomore Phil McDevitt and Al Purcell and junior Grant Kleppmann should provide the big punch. However, junior Fred Pilson and Dave Treadwell, and sophomore Randy Wheeler will have to score heavily if the team is to compile a winning record. The addition of Wesleyan, Trinity, and Williams to a schedule already including powerful Tufts and New Hampshire should make this one of Bowdoins' toughest golf years.

Dual Track Victories

Cubs Dominate Deering, Varsity Downs Amherst

Power in the weights and broad jump paid off for Bowdoins' Freshmen Wednesday as they downed Deering and South Portland High in a triangular meet at Whittier Field.

Bowdoin Fresh piled up 85 points, Deering a good second with 60 and South Portland third, 48. The Polar Bears swept all four places in the decus, paced by Alex Schellen's 137-4, and gave up only one point each in the shot and broad jump. Bill Mittels led the team over in the former with a 50-7 1/4 performance, while Pete Hanganman paced the broad jump with 29-2.

Maine Rivalry Ended, Is Tufts Next To Go?

End Of Series Made Regretfully Worcester Scheduled As '64 Opener

Bowdoin and the University of Maine announced Tuesday night that they have agreed to end their football rivalry after the 1964 season. President Cole and President Lloyd H. Elliott of Maine said in a joint statement that the decision was made "regretfully but in the best interests of both schools."

The action was initiated by Bowdoin, the decision having been approved by the Bowdoin Governing Board's Committee on Physical Education, which acted on a recommendation by Al Marrell. The action was taken, President Cole said, after a "full assessment of our competitive situation relative to that of the University of Maine in football and what it might be in the foreseeable future."

"Well-Played, Friendly Contest" — This was indicated to be our only just course," President Cole added in fairness to Bowdoins' undergraduates. The football competition between Bowdoin and Maine has always been intense, but the contests have always been well played, and the relations between the two squads very friendly."

President Elliott said "Bowdoins' decision to terminate its football rivalry with the University of Maine is a decision I can accept only with regret, but I fully realize the factors which have influenced Bowdoin to take this action."

"I have greatly admired the sportsmanship displayed by Bowdoins' coaches and players. I know that their absence from our schedule will be missed by Maine students, alumni, faculty and friends."

Mr. Marrell said Bowdoin has been "very proud of all of our athletic relations with the University of Maine and we hope that we may continue to compete in other sports." Every Bowdoin-Maine football game, Mr. Marrell said, "has been hard fought and every game has been clean."

A Question Of Strength — "Much of the time Maine's teams have been considerably stronger than Bowdoins' but always the competition has been on a friendly basis. That we have been able to play each other for so long in football speaks well for the men in charge of the athletic program at Maine."

Dr. Rome Rankin, Maine's Director of Athletics, said "The Maine-Bowdoin football rivalry has been a pillar of strength in State Series athletics for as long as any of us can remember. The matter of arranging these great games has been one of the most enjoyable aspects of making up our football schedule."

President Cole has announced recent additions to the faculty for the fall semester, 1963. J. Clarence Davis III will join the Faculty in September as an Instructor in Government, and Director of Bowdoin's Bureau for Research in Municipal Government. Professor Duggett, Chairman of the Department of Government and Legal studies, said Mr. Davis will teach courses in Municipal Government, Public Administration, International Relations, and the Formation of Foreign Policy.

Mr. Davis is now completing requirements for his Ph.D. degree at Rutgers University at Newark College, where he received his B.A. degree in 1960. Mr. Davis was elected to Phi Beta Kappa and was awarded the Colby Political Science Prize.

His main fields of interest within his general area of study are in the Affairs and Public Administration. Mr. Davis' doctoral thesis is entitled "Interest Group Reactions to Urban Renewal in New York City." A Ford Foundation Metropolitan Region Fellow at Columbia, he has done research on zoning for the New York City Urban Renewal Agency and was the editor of a study of tax exemption for housing projects sponsored by the American Council to Improve Our Neighborhoods.

Bowdoin's Bureau of Municipal Research, which Mr. Davis will direct, provides facilities for the study of municipal government. The materials relating to local and state government. It also supplies information to citizens, civil organizations and government agencies, and publishes a series of government research reports.

Donald G. English will join the Faculty in September as an Instructor in the Department of English. Mr. Adam will complete the spring semester at the University of Rochester, where he is an Instructor in English, before coming to Bowdoin. He has been a member of the Faculty at Rochester since 1959 and is a Graduate Associate, then as a part-time Instructor and Assistant Lecturer before assuming his present appointment.

Professor Bryn, Chairman of the Department of English, said that Mr. Adam will teach courses in English and Comparative Teaching and Literature at Bowdoin. In 1964-65 Mr. Adam was Schoolmaster of The Dutchess School, Millbury, Vt., after receiving his B.A. degree from Harvard College. He took graduate studies at the Bread Loaf School of English in the summer of 1959 and at the University of Rochester from 1959 to 1962. He is now completing the requirements for his Ph.D. degree at the University of Rochester.

Mr. Adam has received his B.A. degree from Harvard College. He took graduate studies at the Bread Loaf School of English in the summer of 1959 and at the University of Rochester from 1959 to 1962. He is now completing the requirements for his Ph.D. degree at the University of Rochester.

Dr. Robert A. Walker will join the Faculty in September as Assistant Professor of Physics. Professor Walker will complete the spring semester at Harvard University, where he is an Instructor in Physics, before coming to Bowdoin. He has been at Harvard since 1964, first as a half-time Teaching Fellow, then as a full-time Teaching Assistant until 1962 when he took his present post.

Professor Noel C. Little, Chairman of the Physics Department, said Professor Walker will teach courses in Thermodynamics and Quantum Mechanics and assist in first-year physics courses. His main field of interest is in research, particularly in the electro, architectural and musical area.

Professor Walker's research projects include a study in voice spectrum analysis which he performed at the RCA Victor Corp.; and work on the dynamic measurement of the hardness of plastics, a project of his current interest, and the subject of his Ph.D. thesis, "The latter project was supported in part by the Office of Naval Research."

He is the author of the paper, "A Seismic Displacement Field," which was presented before the Fourth International Congress on Acoustics in London, England, in 1962, and a co-author of a report on "Variations in Speech Spectra" presented at the meeting of the Acoustical Society of America in Austin, Tex., in 1964.

A native of Philadelphia, Pa., Professor Walker received his bachelor's degree from Princeton University in 1958, and his master's and doctoral degrees at Harvard. While at Harvard he was awarded the John D. White Fellowship for study abroad during 1955-56. Professor Walker is a member of the Acoustical Society of America, the American Physical Society, and the American Association of Physics Teachers. He is also a member of the Society of Sigma Xi, the National Society of Professional Scientists, and the American Physical Society.

Student Council Question Will Change Nature of Orientation

Student Council Problem Twofold; Class Reps To Provide Continuity

by Wayne Adams
Student Council President

During the past year there has been many critics and much criticism of the Student Council. Those criticisms which have compared the position of student government here in relation to other colleges will be clarified with the realization that most student self-government at Bowdoin is found at the fraternity level. This does not mean that the Student Council's fraternal representatives are not able to speak for their houses with any real authority. This has been a notable weakness for at least two years, and criticism of this sort cannot be adequately answered.

A second problem confronting the Student Council will be the new Senior Center. If the present form of representation is continued, that quarter of the College which is living in the Senior Center will not be represented. It is now the policy to represent all living-units on the Council, and this policy must be extended to the Senior Center.

The problem then, is twofold. First, some effort must be made to get people on the Council who can speak for the living-units. Second, some consideration must be given to the Class-Unit which, as it approaches its Senior year, becomes a living-unit also. It is in the light of these two problems that the following amendments to the Student Council Constitution have been proposed.

The Student Council shall consist of the President of each fraternity or alternate group and four representatives of each of the upper three classes at Bowdoin College. The intent of this proposal is to give the Council those people most competent to speak for their houses.

Members shall be elected in the Spring semester and shall take office one month prior to the final meeting of the Student Council in the Spring semester.

The President of each fraternity or alternate group shall serve during his term of office except if he is elected an officer of the Student Council. In that case he shall remain as a non-voting member for the duration of his office. The Class representatives shall remain on the Council until they resign, graduate, are unable to serve, or lose the confidence of this group. They have noted that if a man is elected a class representative at his class elections he will remain on the Council for three years. This is to insure a long term. Each year it is hoped that the Class representatives will provide the needed continuity. The system must be remembered that nearly all the houses elect two Presidents a year. This means that there will be nearly twenty on the Council. Each year there will be a change of one-third of the Class representatives because of their longer terms will provide the needed continuity.

Members of the AD who are interested in the orientation program as it now is set up felt that "it gives each freshman an incentive to join a fraternity. Orientation helps create a sense of unity and gives each member of the fraternity, his class, and the College."

Others felt that "it's good to go through something tough. It's not that men have gone through it before, so a fraternity is not the answer. For a fraternity to mean anything at all, entrance must be comparatively hard to obtain, or else the fraternity might fail."

Those freshmen favoring the shorter period of orientation defended their stand stating, "part of the orientation program dragged and didn't serve any purpose. The orientation program was held for two weeks in the middle of the semester. It was not a constructive function. If a little bit of orientation was held at the beginning of the year, it would be plenty of time for the fraternities to complete their orientation program."

Backing up the AD decision on orientation, several freshmen felt that the programs we have now are only "an interim or transition period between having no orientation. Every freshman knows that once he is pledged, he is assured of being accepted into a fraternity. What we have now is a waste of time."

Others felt that "the average Bowdoin freshman is bewildered about what to do. He is not even fraternally made-made. He should not have to be subjected to having his spirit broken by the fraternity as well as by his program."

Most of those polled were strongly in favor of the continued wearing of signs and banners. They felt that the signs were quite helpful in the upperclassman's marking of the names of the newcomers and that the practice of wearing the signs should be definitely continued.

In addition those who went through elaborate ceremonies before they were inducted into their respective fraternities felt that these fraternal rights were excellent and helped them to appreciate even more the meaning of being accepted into the fraternity.

ORIENT Conducts Poll; Frosh Favor Status Quo Little Backing For A.D.

Orientation Program As It Now Is Set Up Felt That "It Gives Each Freshman An Incentive To Join A Fraternity"

Those who favored the present orientation program as it now is set up felt that "it gives each freshman an incentive to join a fraternity. Orientation helps create a sense of unity and gives each member of the fraternity, his class, and the College."

Others felt that "it's good to go through something tough. It's not that men have gone through it before, so a fraternity is not the answer. For a fraternity to mean anything at all, entrance must be comparatively hard to obtain, or else the fraternity might fail."

ORIENT Conducts Poll; Addition Of Enforcement Agency Deemed Most Significant Change

The Student Council in its regular Monday meeting voted 19-2 to adopt a revised orientation program to be initiated with this fall's freshman class.

Commenting on the Student Council's decision, President Wayne Adams said, "Item number seven of this orientation program is perhaps the most significant action the Student Council has done this year. It makes the proposal significant in giving the Council's Orientation Committee the power to enforce its proposals."

The following is a draft of the Orientation proposals ratified by the Council.

The objective of the Bowdoin Orientation Program is to further the freshman's understanding and appreciation of the purposes of Bowdoin College and its fraternity. Because the college and its fraternity can be meaningful only as the freshman participates directly and actively, there must be activities between freshmen and upperclassmen. In order that an appropriate program can successfully be developed, the following items shall constitute Orientation.

1. Freshmen will learn about their College, their fraternity and their brothers through house meetings with upperclassmen in their fraternities. Songs will be learned through group singing led by upperclassmen. When the fraternally love is a condition of initiation, this may be administered early if a freshman is prepared to do so.

2. Fraternity advisors and their family members will be invited to participate in some of the discussions on the College and the fraternity. Resolve that the cooperation of a chosen number of faculty members be an organization to supply family members to lead discussion in fraternities.

3. A freshman will be expected to contribute three hours each week to fraternity work projects. Each freshman delegation will be appropriately organized for this purpose. During the year, freshmen will have opportunity to assist fraternity officers and committees in fulfilling their responsibilities. Such experience is, in fact, the most important way to make the transition smoothly to a campus with a Senior Center.

4. Initiations will take place on or before the Homecoming weekend. The initiation program will be reexamined yearly by the Orientation Committee of the Student Council, the fraternity Orientation chairman, and by the Student Life Committee of the Faculty.

5. To ensure opportunities for improvement, the Orientation Program will be reexamined yearly by the Orientation Committee of the Student Council, the fraternity Orientation chairman, and by the Student Life Committee of the Faculty.

6. Names earned through the College will not be considered as signs. They may be worn by the freshmen in accordance with the policy of the Homecoming.

7. The Student Council Orientation Committee is authorized to impose sanctions on fraternities if the fraternities are not including requiring them to cease their orientation program and initiate immediately.

8. The Student Council Orientation Committee is authorized to impose sanctions on fraternities if the fraternities are not including requiring them to cease their orientation program and initiate immediately.

9. The Student Council Orientation Committee is authorized to impose sanctions on fraternities if the fraternities are not including requiring them to cease their orientation program and initiate immediately.

10. The Student Council Orientation Committee is authorized to impose sanctions on fraternities if the fraternities are not including requiring them to cease their orientation program and initiate immediately.

11. The Student Council Orientation Committee is authorized to impose sanctions on fraternities if the fraternities are not including requiring them to cease their orientation program and initiate immediately.

12. The Student Council Orientation Committee is authorized to impose sanctions on fraternities if the fraternities are not including requiring them to cease their orientation program and initiate immediately.

13. The Student Council Orientation Committee is authorized to impose sanctions on fraternities if the fraternities are not including requiring them to cease their orientation program and initiate immediately.

AD's Retain Interfraternity Sing Cup; ARU's Second Dr. Brinker, Founder, In Audience

For the second straight year, Alpha Delta Phi won the Interfraternity Sing in a highly contested final. Close behind AD were Alpha Eho Upsilon, Zeta Phi, and Phi Upsilon. Of the seven fraternities in the Final, Chi Psi was disqualified.

This carried off the coveted Waa Cup, annually presented to the winner of the Sing, and ARU won the Improvement Cup, awarded to the fraternity which made the greatest improvement since the previous year's Sing.

Dr. Alfred Brinker, who organized the Interfraternity Sing twenty-eight years ago, was on hand for the Final.

The Music department announced that Chi Psi was the Sing's four years straight from 1957-1960.

The final results were announced after the Sing and after several minutes presided by a band consisting of Bob Snyder, Doug Woods, John Blagden, and Pete Larkin on piano, bass, sax, and drums respectively.

Two Bowdoin Plan Students Given Commencement Parts

Four seniors, including two foreign students, have been selected to deliver traditional student Commencement addresses at Bowdoin's 126th graduation exercises June 12, 1963.

The speakers will be Frank R. Giacolo, Gottlieb R. Gelnitsky of Maine, Germany; Charles H. Li of Hong Kong; and John R. Rasmel, chosen as alternate speaker was John P. Meador.

Goodwin Prize

The four seniors, selected by a committee on Student Awards headed by Professor Burton W. Taylor, will compete for the Goodwin Commencement Prize, awarded to the author of the best Commencement Part. This is a prize of \$60, the annual income of a fund given by the Rev. Daniel Raynes Goodwin, D.D., of the Class of 1852.

All five seniors selected by the committee have been Dean's List students and all have completed distinguished undergraduate records.

Giacolo, a member of Chi Psi Fraternity, is majoring in government. Last month he won a prize as the best playwright in the annual student-written one-act play contest. A contributor to Orient, and The Quill, he has also been an active debater and has won several prize speaking contests.

Gelnitsky, who has been a Teaching Fellow in Latin, is majoring in Classics. As a Bowdoin Plan student, he has been a member of Delta Kappa Epsilon Fraternity, which recently elected him as its preceding secretary. Gelnitsky is President of the International Club and has been a member of the Glee Club and the Newman Club. A James Bowdoin Scholar, he was a straight "A" student during the second semester of the 1961-62 academic year.

Li, also a Bowdoin Plan student who is a member of Kappa Sigma Fraternity, is majoring in mathematics. Last month he was awarded a Danforth Graduate Fellowship, one of the most coveted scholarships in the nation. A James Bowdoin Scholar, he is one of Bowdoin's ten Undergraduate Research Fellows, chosen on the basis of their high academic standing for special research projects under faculty supervision. Li is Treasurer of the International Club.

Rasmel, who is majoring in biology, was elected to Phi Beta Kappa last June. A James Bowdoin Scholar, he was a straight "A" student during the first semester of the current academic year. He has been a member of the executive committee of the Glee Club and a member of the Chapel Choir. Last summer he was one of two Bowdoin students selected to assist a group of scientists on a U.S. weather mapping expedition in the Arctic.

Meador, who is majoring in English, won the Mary B. Stinkinson Short Story Prize last year. A James Bowdoin Scholar, he was a straight "A" student last semester. He has been a member of Masque and Gown, the College's dramatic organization.

Halperin Leaves Little Untouched In Blasting College's Policies

"Compulsory chapel survives at Bowdoin in anachronistic splendor because it's still a part of the Bylaws of the College, much in the same fashion as other Bowdoin traditions such as economics exams on Saturday morning, beans for dinner on Saturday night, and other things after dinner on Saturday night. Life planting trees," said John Halperin, in his chapel address yesterday entitled "The Agony and the Sweet."

The attack on the compulsory chapel, which has been mentioned by other students on campus but actually afforded Halperin a springboard from which to dive into an attack on the College's "anachronistic" policies, which, said the speaker, have been immortalized in Bowdoin Tradition.

"If I sound like a talking a living rooster" and studying space on one level and sleeping quarters on the other, a College official suggested at that point that on Saturday nights the elevators in the Senior Center stop on every other floor. Now it may be unfair to conclude that the College is mildly prejudiced against the perpetuation of one special, but I do, I believe, indicate at least the standardized sexes approach it takes on many issues that are almost as important."

"Parasit of the Dollar"

"The first thing that comes to mind after chapel," continued the speaker, "is the College's decision to have a compulsory chapel every week, which, said the speaker, have been immortalized in Bowdoin Tradition.

Sr. Center Assembly

Dean Gresson has announced complete plans for the student assembly on the Senior Center to be held Monday, April 29 at 8:00 p.m. in the Senior Center.

The program will run from 7:30 to 8:30 with Mr. Harwell speaking on "The New Library." Mr. Harwell is the new Chairman of the Student Life Committee on the Senior Center.

Dean Gresson will speak on "The University's Future." The majority of the program will be devoted to the Senior Center, and students will be able to ask questions from 7:30 to 8:30, although students will be free to leave at 8:30 if they wish.

One More Sour Note

Thank God it's over... the Interfraternity Sing, we mean. We feel this is a natural reaction now that we have so much free time after laboring to read every line of the program. We feel that we have done beyond this obvious reason we state essentially, "Thank God it's over" because we feel quite relieved that we don't have to sit through any more wretched, faro, low comedy; call this week's two performances what you will.

We began to wonder Tuesday and Wednesday evening whether we had been engaged for nearly a month in hoping for certain renditions of songs, attempting to put spirit into Negro Spirituals, and imparting meaningful significance to "our traditional Home Songs" only to find that we had committed the embarrassing and humiliating error of entering a program designed to revive the silent movies.

Somewhat it just seems right that if the Interfraternity Sing can continue as one of our meaningful traditions (and there are some, yes, honor) there must be a decision reached one and for all as to whether the Sing is a worthwhile activity bringing together the whole College of students, or if it is a waste of time and money. The Sing, as presented to the state of absolute faro. If the latter be true and several performances witnessed this week would seem to indicate this alternative, then the Sing ought to be dropped immediately, if not sooner, from the College's schedule.

Yesterday a meeting was held in which Professors Tilton and Beckwith conferred with representatives of the fraternities and the directors of this year's Sing in an attempt to discover and correct the problems and failures of the Interfraternity Sing. Among the problems brought up were the low quality of the singing this year, sparsity and indifference of the students' body concerning the Sing, and the problem of judging.

Both Professor Tilton and Beckwith conducted the meeting in the context that the Sing can be worthwhile and significant if it is continued on a high level; the mediocrity evidenced this year is definitely destroying the worth of the Sing, and requires immediate and important changes. All Bowdoin students take an active part in the Sing, not only the individual fraternities, but also the school.

Much discussion at this meeting concerned apathy toward the Sing. Many in attendance felt that the quality of the judging, which has deteriorated in the last several years, must be improved; and the suggestion was proposed that judging be arranged along the lines of diving judging. This would involve five, rather than three judges, with the highest and lowest scores being dropped and the other three averaged for the final decision.

Further suggestions concerned the possibility of running the Sing all on one night to eliminate the problems in requiring six houses to return for the finals on a second night. Objection on this point centered around the judges' difficulty in judging and making a worthwhile decision after hearing at least twenty-four different selections.

These were the major points brought up in this important meeting which may eventually decide the fate of the Interfraternity Sing. These and others are to be discussed at the executive fraternalism in an attempt to reach some workable solution to the existing problems which destroy the worth and significance of the year's Sing.

A second meeting with Professors Tilton and Beckwith will be held next Thursday afternoon at which time it is hoped that constructive criticism and proposals can be brought forth. The Interfraternity Sing cannot continue according to the present attitude of indifference and faro. We would not like to see it fall by the wayside; the Interfraternity Sing is undoubtedly one of the better traditions now in existence. We would hope that each house give its attitudes, objections, and ideas careful consideration. The Sing may be continued with a desire for better competition and realization of its importance to the image of the fraternity and the school, or it must be dropped. Which is going to be?

A Stitch In Time

According to all reports, predictions, and rumors construction on the Senior Center is progressing according to schedule; already, we've heard of several night commande raids on unguarded lumber piles, those apparently not considered strategic enough to require entry duty by ROTC cadets.

But, now that at least the foundation is being ready for one sixteen story edifice, we feel that the fraternalism must begin to give some consideration to the rebuilding of their own leadership foundations. The transition from predominantly senior class leadership to complete control and authority vested in the Junior class will not be an easy one for fraternities which have depended on the maturity and leadership experience of the seniors — we must qualify that sweeping generally with the fact that usually seniors are at least thought to have more maturity and leadership ability than any other class. Taking this as a constant, then, we feel it's about time for our fraternities to start making provisions for Junior class leadership of the fraternity houses.

In recent elections, Beta and Sigma Nu elected sophomore Dick Dixon and Steve Ingram to presidencies of their respective houses. We feel that this is definitely a step forward and in the right direction. Undoubtedly problems will arise concerning present sophomore and next fall's Juniors leading the houses; some comment has been voiced that these men are not integrated enough into the College and the fraternity to assume high leadership posts. But, it seems equally obvious that problems faced now by these men will better enable fraternities to contend with the greater difficulties to be faced when the Class of '64 moves into the Senior Center. This year and next year, when seniors and Juniors are still available for assistance and consultation would seem the ideal time to prepare the fraternalism for the changes by the Juniors and freshmen an opportunity to integrate a dynamic chain of leadership in anticipation of problems yet to come. We would like to see a movement of the campus to follow the tradition of Beta and Sigma Nu's excellent example in preparing for the transition... Now's not too early to start.

 THE RECORD OFFICE
 Paul K. Niven Robert W. Boudreau
 Printers Of The Orient

Mass Hall has printed up next semesters course schedules, duly distributed them on bulletin boards and other prominent points of interest, and the student body at Bowdoin can at last be reassured that there will be an academic year 1963-64.

Was there ever a question? probably not, but only insofar as we have an educational institution that seems to run along as momentum built in years past, an institution that must surely run down sooner or later like an unwound clock. The question of Academic excellence is unquestionably the preserve of the student, but it would seem that the faculty plays some role in the collegiate complex. And this brings us to the point of this editorial. Not the perennials, the greysbeards, but the transients.

The turn over of younger (tenure, not necessarily age) faculty members — is distressing to most of the undergraduate body. This statement will probably cause a few raised eyebrows on a campus oft praised for its APATHY. But, it is nonetheless true. Some fine faculty members will be leaving Brunswick for parts known and otherwise after this year, and in many cases, their gain is our loss.

Who Bowdoin cannot, or will not, retain some professors of unquestionable merit is beyond us. Certainly money must be a factor, but there ARE men on the faculty at Bowdoin worth as much money as they want. If the college chooses to follow its present course (we were tempted to say policy) of existing as some sort of proving ground for professors, then perhaps the curriculum will not suffer — we doubt it. Certainly some students feel the effects of this instability more than others, for in-

stance, the English Department has a notorious mortality rate, but majors in every department can be said to have felt the effects of the "Nomad syndrome."

The measure of a college is in large part her faculty. Sub-freshmen choose a college on the strength of its departments, and the educational opportunities it offers them. How can they begin to estimate strong and weak points where no points exist?

Will this parade of professors ever stop? Who is in a position to recognize the value of a man on the Bowdoin faculty, and if mutually acceptable offer him tenure? Probably no one. At any rate that's the way it seems to an undergraduate who has just spent six hours with his little Bowdoin catalogue trying to make course selections for the coming term.

I hope To Whom It May Concern decide to make the names of those men moving in to fill numerous "holes in the Bowdoin line come next fall" public as at least we may be assured that there will be a next fall as far as the Bowdoin faculty is concerned.

One parting shot — Many students take courses not merely for the wealth of subject matter therein contained, but for the man who teaches it. The road to academic excellence is dotted with the corpses of courses rendered lifeless by the lack of imagination. So far Bowdoin has done remarkably well, but we can't help thinking that without a consistently good faculty (and this means all men not just the usual few) the senior center could be one of the biggest grave-markers in the state of Maine.

J.R.

And The Frosh Orientation Program

The die appears to have been cast. At the last Student Council meeting a resolution was passed altering the orientation program in order to further the freshman's understanding and appreciation of the purpose of Bowdoin College and his fraternity. It further directed that the program abolish signs, beanie, line-ups and "similar practices from an earlier era." By "similar practices" we presume the Council includes table hazing (mentioned in fact during the discussion of the bill). Fine. Table hazing has only been eliminated twice before, (once by the Dean in 1937 and once by the Campus Orientation Committee in 1960), so a third time should not come as too much of a shock.

The point is that this in itself does not constitute a revamped program. Rather, it can only be considered as a plea for more reason in the present program. (Notable exceptions are the addition of an enforcing agency and minor changes in some of the physical measures, such as beanie and sign.)

The lack of physical change in the program is apparent, yet Dean Gresson has called it "a substantial, positive change over the present. If he is to be considered correct, the change will have to be one of attitude. Indeed, he added in a telephone interview that the measure will require a "kind of re-education" noting that each generation here must undergo such a process in some form or other. (Thus explaining, perhaps, the three ignitable hazing rules.) "The program," said the Dean, "is one that the College itself can be behind."

We agree with the Dean, but with some reservations. First, we still feel that some of the banned measures, when applied with discretion, can be very useful in some "problem" cases — not to be taken seriously, but recognized for what they are: inconveniences imposed against certain members for stepping too far out of line. (If this seems a bit childish, the measures could

be applied under the principle of "making the punishment fit the crime.")

However, the most serious reason proposed by the Dean for discontinuing these practices is quite valid. It is that under the present system "artificial" barriers are placed between freshman and upperclassman. That those barriers are present is undeniable, but to what degree the proposed program will change this particular point is a moot question. The barrier between freshman and senior, whether augmented by artificial measures or not, none-the-less exist, and each freshman is ultimately on his own to break them as best he can.

When we asked the Dean whether he thought that the adoption of the resolution would weaken the houses' position in forcing the freshmen to learn required material, his answer was an unqualified "No." He suggested in fact, that "any student who does not familiarize himself with the fraternity ought to be summarily dropped." Such a statement, if official College policy, could be a powerful weapon in the hands of any house Orientation committee. And there's no reason why it should not be; it's eminently reasonable.

Thus in taking some of the physical "tools" of orientation out of the houses' hands, this resolution, with the above statement by the Dean, replaces them with equally strong psychological ones. (Psychological practices "detrimental to an individual's well-being" have been illegal, incidentally, since 1957.)

The orientation program at Bowdoin has not been changed... yet. The physical measures taken in this direction constitute, by themselves, an insignificant change of policy. To see whether orientation has really changed, we must await the period next fall when the houses may or may not conduct a sensible, reasoned program.

— S.D.

Pines Pose Knotty Program

by T. Hunter Wilson

Hidden behind the Little-Mitchell House and the surrounding pines, the Senior Center construction is in full swing. A swarm of silver and blue helmeted men scurry around in an orderly chaos. Where only three weeks ago, the pines whispered quietly to themselves as President Coles turned the first shovelful of earth, a great square hole stares up at the sky.

Less than a week after the reinforced with one and three-quarter inch steel rods. The college will supply water, electricity, and steam for the Center and, in making the necessary excavations, will make some provisions for other new buildings. This extra work may slow up construction slightly since it means that water will probably have to go. The filled pines, such as are usable, are saved into boards and returned to the College Carpenter Shop for use on campus.

As present, the bulldozer, power-shovel, and dump trucks have excavated a huge square cavity about seven feet deep. It will eventually be seventeen feet deep but they will fill water well before that depth is reached. Workers are standing by with pump and pipes at the ready to keep the future basement dry. Since bedrock is some seventy feet down, the plans do not call for any concrete walls. Instead there will be a chain, four feet thick concrete "mat." This will be poured into an excavation resembling a sort of double soup dish, designed to provide stability against lateral forces. The 120 cubic yards of concrete will aid in one pour and

EVERY JUNE BOWDOIN SENIORS are subjected to the harrowing ordeal of having to graduate into the world from Brunswick's First Congregational Church, in many ways a sobering experience. Not that there's nothing wrong with the First Congregational Church itself — it's just too small, that's all. What is annoying is that the College has for years refused to consider the possibility of moving commencement outside or into the Arena — as a matter of fact, it has refused to move commencement anywhere. The result is that no more than three relatives or friends may be invited to participate in what we are told is one of the most important events of our lives.

QUESTIONNAIRES which seek upperclassmen's evaluations of College courses have been sent by the Orient to all juniors and seniors. For the benefit of faculty and underclassmen who may not have seen the form, the questionnaire asks students to "List the courses and instructors you have had at Bowdoin, ... grading each course (not the instructor) anywhere from 10 (best) to 1 (worst)." There is space on the form for comment to be written about regular courses and major courses; no comments, however, will be printed without a signature at the bottom of the questionnaire. Unless the student wants his comments published, signing his name is purely optional.

JUNIORS AND SENIORS ARE REMINDED TO RETURN THEIR QUESTIONNAIRES IN THE ENCLOSED STAMPED AND ADDRESSED ENVELOPES AS SOON AS POSSIBLE. THE SOONER THE FORMS COME BACK THE SOONER, OBVIOUSLY, THE RESULTS WILL BE PUBLISHED.

AS OF APRIL 22 gifts and expressions of intent in the College's current Capital Campaign totalled \$3,007,792.07.

PROFESSOR H. R. BROWN says he doesn't "believe in any form of hazing; it frequently damages a freshman during a very critical week — his first at college. Our fraternities," he adds, "are free from many of the abuses extant elsewhere, but the situation here is no ideal either."

As far as daily chapel is concerned, the chairman of Bowdoin's English Department believes that "chapel here isn't really compulsory. One can be excused from it on religious grounds, and the attendance regulations impose no hardships on anybody. The average student only has to go to chapel once or twice a week, and the speeches there are almost always interesting."

Professor Brown also says that dropping the University of Maine from the football schedule was "inevitable. A certain amount of color will be lost," he adds, "and we haven't done that badly against Maine, but the comparative ease of Bowdoin and Maine inevitably forced our hand."

"BOWDOIN NIGHT" at the Boston Pops, featuring the Glee Club and the Meddies, will be May 16 this year.

THE HISTORY DEPARTMENT recently saw its request for a new course in the history of Latin America vetoed by the Curriculum and Educational Policy Committee of the faculty.

It goes without saying that this is not progress; Bowdoin has far too little to offer in the way of courses as it is. A comparison of the present College Catalogue with the one for twenty years ago demonstrates exactly how little progress there has been. This Catalogue does not compare favorably to its curriculum with many other colleges of the same size and reputation.

Is the administration so busy raising money for the future that it is neglecting the needs of the present? Indeed, it seems so. The proposed history course in question is just one of many courses in many departments that are sorely needed in order to give Bowdoin a balanced and comprehensive course schedule.

Notes And Comments

by Jim Miller

Spring Cleaning

Someone said tradition for the sake of tradition is wrong, and that was the end of it. Some of you, Bowdoin won't play the University of Maine after 1964. A tradition has had to be broken...

ably free of tradition in its most irresponsible forms. We have no "Protoph" top-of-war, as do some of our northern neighbors. We have no...

NEW FACULTY

(Continued from page 1)

mer (Seaman, a member of the Board of Freshman Advisors at Harvard in 1953-54, M. O. Mellon Fellow at Vassar from 1954 to 1958).

A native of New York City, he received his B.S. degree with honors from Northwestern in 1949, his M.A. there in 1950, and his Ph.D. degree with honors from Northwestern in 1954. He has an M.A. there in 1954 and his Ph.D. degree from Harvard in 1958.

As a student at Northwestern McGee served as President of the Philosophy Club from 1948 to 1950 and was President of the Harvard Philosophy Club in 1953-54. In 1950-51 he was a University Fellow at Harvard.

Professor McGee has given public lectures in many cities of the East and Mid-West under the sponsorship of the Associated Alumnae of Vassar. He was Faculty Advisor to Vassar's Class of 1959 and was elected by its students to an honorary membership and officership of that class.

In the summer and autumn of 1961 he resided in England and traveled in Belgium, Germany, Austria, Switzerland, France and Denmark.

Professor McGee is the author of numerous articles and papers which have appeared in professional and scholarly journals and publications. His book, "An Essay in Moral Philosophy," and two articles are being prepared for publication.

He is a member of the American Philosophical Association, Mind Association, Johnson Society of the Great Lakes Region, and the American Association of University Professors. Professor McGee has served as Vassar's Delegate to the AAUP National Meetings in 1963 and is Secretary-Treasurer of the Vassar Association.

Jazz Symphonic Work Will Be Premiered By Bob Snyder Group

A symphonic work titled "Jam Symphonic" composed by Bob Snyder will be given its premiere performance at the College Thursday, May 4.

Professor Tilletson, said the performance, at 8:15 p.m. in Pichard Theater, Memorial Hall, will be open to the public without charge. It will be the first time a student symphonic composition had been presented in the College Theater, he said.

Snyder, who composed the work as an honors project, said it consists of three movements and requires about half an hour of playing time.

The student composer described the work as being "basically in the progressive jazz idiom," and one of the "relatively few jazz symphonies ever written."

Before the performance, Snyder said, he will take the stage "to explain what may seem to be obscure passages." He also will discuss jazz as it relates to the "swing form" and the blues, and the evolution of these musical forms to modern jazz.

"The entire jazz idiom," he stated, "is not presumptive of anything but jazz. In writing the music I tried to stay entirely within that format, without combining jazz with classical, or traditional elements."

Snyder believes that jazz is being overlooked in the light of serious composition, and that "many people tend to degrade it when they compare it to the traditional symphonic forms."

He said he has been working on the composition for the past five months and that it has been in rehearsal for about two weeks. It will be performed by a student orchestra of 15 pieces, including flutes, woodwinds, brass and piano, played by Snyder.

chapter of the organization for 1966-67.

Admissions Robert Mellow will join the staff of Bowdoin's Admissions Office July 1 as Associate Director of Admissions.

Mr. Mellow is now Assistant to the Headmaster of St. Louis (Missouri) Country Day School, a post he has held since 1958. He is also an Instructor in English at the University of Kentucky. In London, he held a similar position while also simultaneously in the past with that of an instructor at the Day School.

During 1964-65, Mr. Mellow was Manager of Research in the Community Relations Division and a recruiting manager for the International Business Machines Corp. in Yorktown, N. Y. In 1963-64 he was an advertising copywriter for the General Electric Co., Schenectady, N. Y.

Hubert B. Shaw, Director of Admissions, said the increased burdens placed upon the Admissions Office with the planned expansion of student enrollment at the College necessitated enlargement of the staff. Mr. Shaw said Walter H. Moulton will continue as Assistant Director of Admissions.

Mr. Mellow received his A.B. degree from Harvard University in 1953 and his M.A. degree from Middlebury College in 1956. He earned the Broad Loaf School of English at Middlebury, where he was elected President of his Class.

A Dartmouth student and scholarship winner at Harvard, he was also an outstanding athlete. Captain of the freshman track team, he went on to become a member of the 1941 Harvard-Yale team that competed in England with the joint Oxford-Cambridge team. He has held several AAU Intercollegiate and Olympic championships in the pole vault and broad jump.

Last Bridge Tournament

The last pole vault bridge tournament of the 1966-67 season will be held in the Meadison Union Lounge at 7:30 p.m. on Thursday, May 9.

Winners of the April 8 tourney were Ken Cawoe and Ted Rowe, both Academic Year Institute participants, in the North-South field; and Robert Farquharson '64 and Peter Morson '64 in the East-West field.

Second place in the North-South was taken by Robert Farquharson '64 and Mark Goldberg '63, while Doug Welsh '64 and Steve Viller '63 copied second place in the East-West division.

The deadline for registration for the May 24 Team of Four championship tournament is noon Tuesday, May 21. Team captains must register their teams in Mr. Lancaster's office by then. No late entries can be accepted.

Novice Debaters Share Third At Norwich Match

Robert McOsker has won first place in the persuasive speaking division at the second annual Norwich University Novice Forensic Tournament in Northfield, Vt.

Competing with novice debaters from 11 other colleges and universities, McOsker and three other Bowdoin freshmen received declines in six of their ten contests, tying for third place.

Matthew Pincus and William Craig won decisions over Norwich, Vermont, Brandeis and Rochester Institute of Technology, and dropped a decision to Maine.

Andrew Loeb and McOsker won decisions over two teams from the University of Buffalo and lost to New Hampshire City College of New York and Lehigh.

Huntington To Conduct Survey, Toft, Vaughn, Mayo, Also Leave

Professor Charles E. Huntington, Bowdoin College ornithologist, has been granted leave of absence from the College for the 1966-67 academic year.

Professor Huntington, a Biology Department Faculty member and Director of Bowdoin's Scientific Station on Kent Island, off Grand Manan in the Bay of Fundy, said he will spend most of his leave in England preparing his research material on Leach's Petrel, accumulated over the past eight years, for publication.

The ornithologist said he has made arrangements with Dr. David Lack, Director of the Edward Grey Institute of Field Ornithology at Oxford University, to use the facilities of the institute.

Professor Huntington has been conducting studies on the sea-petrel since 1943. Among his recent projects, which have been going on at Kent Island as well as on isolated islands off Nova Scotia and Newfoundland, have been studies of population dynamics of the bird colonies, recording of petrel calls, breeding behavior, and physiology.

Leach's Petrels are small, carnivorous sea birds that spend most of their lives far out at sea and nest in underground burrows on rocky islands in northern waters. They leave their burrows only at night and return while it is still dark, presumably as a protective measure.

Professor Huntington said he will be able to confer at Oxford with Dr. Lack, England's leading ornithologist, who has done considerable work on avian population dynamics.

During his stay at the Institute Huntington will probe the bird's great survival rate of petrels and the correlation of their survival rate with factors as breeding success, location of nests, and times of breeding.

While in Great Britain, Professor Huntington will visit ornithological field stations, including the British Bird Observatory, which is directed by Dr. Lack. Skokholm is an island off the southwest coast of Wales. Like Kent Island, it is the nesting place of many sea birds, including the Stormy Petrel, a smaller relative of Leach's Petrel.

Professor Huntington will leave Brunswick in September '66 and continue his research at Kent Island next summer, and will return to this country in June, 1967, when he will again go to Kent Island for the summer before resuming classes at Bowdoin in September, 1967.

Toft Professor Robert J. Toft of the Biology Department has accepted a position as Assistant Physiologist at the Argentine National Laboratory, an installation of the Atomic Energy Commission in Argentina, U.I.

Professor Toft said he will assume his new post July 1. At Argentina he will be working in the Division of Biological and Medical Research.

He will work as a group project doing basic research on the effects of radiation on dogs. One of the aims of the project will be to investigate a relationship between internal and external radiation effects to be applied to studies on the protection of humans from radiation harm.

Professor Toft said he will also continue his research, which has been carrying on at Bowdoin, on the effects of parathyroid hormones on bone structure. Parathyroids are small glands near or embedded in the thyroid gland. This project, entitled "Parathyroid and Bone Metabolism," is being supported by a grant from the National Institute of Health, a subdivision of the U.S. Department of Health, Education and Welfare.

At Bowdoin, during the past summer, Professor Toft has also been studying the effect of fluoride on bone structure, using an X-ray technique.

Last December, at the 1966 annual meeting of the American Association for the Advancement of Science, he presented a paper on his rabbit bone resorption. Professor Toft is the co-author of several numerous articles on parathyroids and bone relationships which have appeared in scientific journals.

Professor Hammond Retires After 42 Years At Bowdoin

Dr. Edward S. Hammond, Wing Professor of Mathematics and Faculty member for 42 years, will retire in June, it was announced by President Coler.

Dr. Hammond said he plans to "travel and do some relaxing" after his retirement and then return to work on mathematics studies.

Dr. Hammond said he plans to "travel and do some relaxing" after his retirement and then return to work on mathematics studies.

Dr. Hammond has rendered distinguished and invaluable service to the College, President Coler said. "During his years at Bowdoin, Professor Hammond has rendered distinguished and invaluable service to the College," President Coler said.

Several other former students of Professor Hammond are now faculty members.

New Seedlings Perpetuate Pines

John F. Brush (right), College Superintendent of Grounds and Buildings, confers with College Forester Carlisle C. Young on progress of program designed to preserve the famed Bowdoin Pines.

More than 5,000 seedling evergreens have been planted among Bowdoin's historic Pines to insure the preservation of the College's famous landmark.

John F. Brush, Superintendent of Grounds and Buildings, said that the seeding operation on the roughly 37-acre grove is part of a three-phase forestry program being conducted on the grounds by the College.

The program, begun fifteen years ago, includes clearing of brush, dead, dying, or damaged trees which will crowd and hinder normal development of the new stand, Mr. Brush stated.

He said that out of the thousands of trees in the grove less than 60 trees have been found in a dead or dying condition that will necessitate their removal.

"Taking out of dead timber has an effect," he said, "in that it opens up the canopy for the new growth, thus insuring a better stand of trees."

Mr. Brush said that men of the University of Maine who cooperated with Mr. Young in two surveys, the surveys disclosed "an even better than anticipated yield from the planting program."

Mr. Brush said, "The Bowdoin Pines, tall sentinels of the campus, have been a living tradition of the College since its founding in 1794."

Polar Bearings

By Rick Andria and George Bennett

The student reaction to the Orient sports page headline "Maine Rivalry Ended: Is Tufts Next to Go?" have been vehement and, as could be expected, strongly divided. There are comments pro and comments con, yet the fact that there are comments signifies a vigorous interest in the Athletic Office's decision — and at a time when gridiron competition is still many months away.

Our initial editorial reaction was one of confident support of the Administration's judgment and decision. They acknowledged the well-being of the undergraduate as their primary determinant in fulfilling the concepts of their policy — concepts and policy that absolutely necessitated the termination of the Maine rivalry. Our reaction remains the same on the decision regarding the University. Yet we ask the administration for two things, clarification and assurance — clarification of policy and assurance of its being carried out.

Just exactly what is the "grand design" of Bowdoin's athletic program, a program that spans a spectrum from mandatory "calisthenics" classes to varsity competition? A definitive statement from the administration on the precise aims and methods involved in the functioning of the athletic program would be welcome and perhaps dispense with many doubts that exist at present. Such a declaration must of necessity encompass any implications, if there are any, involved in the Maine decision. It would also require an acknowledgement of any possible effect the Senior Center and the proposed new gym might have on the role of sports at Bowdoin. Another avenue of misunderstanding could be dispelled by a thoroughly candid explanation of the policy maintained regarding participation in post-season competition.

In a transitional period such as the college is undergoing and about to undergo, basic policies must not necessarily be changed, but clarified in such a way as to acknowledge any and all new factors that may affect the crux of the policy in question. Only when the policy is clear beyond doubt can support and approval be hoped for from the undergraduates — for only then can the undergraduate be assured of the purpose of a policy and only then can he recognize a reason behind the methods used in carrying this policy to its fulfillment.

Pat On The Back

Congratulations to Bruce Frost of Bowdoin's track team. Frost, who consistently turns in fine performances, this week, under adverse conditions broke three meet records and set a new College record in the shot put.

Cindermen Over Vermont, 88-52 Frost Sets New Shot Record

Paul Soule first and Fele Good second in the 220 low hurdles in Frost track meet against Exeter last Wednesday. Exeter won the meet by a score of 70-47.

Bruce Frost led the Bowdoin Track team to a 88-52 victory over Vermont Saturday, April 20. The victory marked the second straight for the Polar Bears. In spite of the rain, Frost broke three meet records and set a new College record in the shot put. Frost broke the existing records in the discus and hammer throw with heaves of 133 7/8' and 143' 4" respectively. Setting a new record in the shot, Frost threw 52' 4"; this distance is also the furthest that any Maine athlete has thrown the shot. Steve Rose took first in the 120 yard high hurdles and the 220 low hurdles, while placing third in the high and broad jumps. Bowdoin's runners showed much improvement over last week's per-

Lacrosse Team Suffers Losses In First Games; Bow To U Of Mass., UNH

Saturday afternoon the Polar Bear lacrosse team met a strong squad from the University of Massachusetts and took a sound 13-3 whipping. The superiority of the Mass. team was evident from the beginning. After the first Redmen tally, Dave Kilgour, with an assist from Vic Pappasema, came back to tie the score 1-1. From that point, Bowdoin was out of the ball game. U. Mass. scored three more times in the first period and left the field at the end of the half with a 4-1 lead.

Within the first five minutes of the second half Mass had increased their lead to 12-1, scoring two goals within a minute of one another. Bowdoin scored one more goal in the fourth period with Tom Oliver making the tally, only to be matched by another U. of Mass. score.

Bowdoin's defensive work was especially weak, being unable to contain the faster midfield and attack of the Redmen. The Bowdoin Varsity Lacrosse team, last Wednesday afternoon in an intercollegiate rain storm at Durham, New Hampshire, went down in defeat at the hands of the hard-hitting UNH Wildcats. The New Hampshire Lacrosse team put forth a well-balanced effort that was too much for the Polar Bears.

The Wildcats were especially sharp in the first quarter, in which they tallied 4 times. They went on to win the contest by the score of 12-1, although meeting a strengthening Bowdoin squad as the game progressed.

The big gun for the New Hampshire varsity was Fele Ballo with four goals, two in the first period. Kas Dunning scored twice, Jim Mizerly and Dick Bykes contributing one each.

Brian Murphy broke the ice for Bowdoin in the third quarter on an assist by Bob Hoole. Tom Oliver recorded Bowdoin's final tally, the catcher going to Don Handal. At times in the game the quality goalie, Bill Westerbeck, showed fine form, finishing the game with a total of 12 saves. Steve Crabtree also was a standout for the Bowdoin contingent on defense.

Netmen's Opening Tour Records Three Defeats

The Varsity Tennis dropped its opening three games to MIT, Amherst and Tufts by scores of 8-1, and 7-2 in the last two games.

At MIT, Sam Ladd and Lewis Schwartz managed to gain the only Polar Bear wins, taking their double match, in straight sets, 7-5, 7-5.

At Amherst Ladd and Steve Hecht broke into the winning column in singles matches with five of the matches going to Hecht and five to the wind at Tufts proved to be the greatest disadvantage as only Hecht and Tom Tom were able to gain victories.

- MIT: Alenski (MIT), Ladd (B), 6-2, 6-2 (MIT) Ormond (MIT), McDonald (B), 5-7, 6-2, 6-7 (MIT)
- Amherst: Meier (MIT), Tom (B), 6-2, 6-1 (MIT) Blakeslee (MIT), Hecht (B), 7-5, 6-2 (MIT)
- Tufts: Taylor, Hecht, Hardestie, 6-2, 6-1 (MIT) Connor, Tom, Masher, 6-2, 6-4 (MIT)

Amherst: Lavin (A), Ladd (B), 8-1, 2-6, 6-4 (B) Costello (A), Malsbenden (B), 6-4, 6-2, 6-2 (A)

Tufts: Poor (A), Tom (B), 5-8, 6-4, 6-1 (A) Gauthier (A), Hecht (B), 5-6, 6-2, 6-2 (B) Saphier (A), Hardestie (B), 6-4, 6-2, 6-1 (A)

Williams (A), Masher (B), 6-0, 6-1 (A) Lovins (A), Conlan, Ladd, Schwartz, 4-9, 6-2 (A)

Rose, Rasmussen, McDonald, Tom, 6-4, 6-1 (A)

Kelman, Jacoby, Hecht, Hardestie, 2-6, 6-4, 6-2 (A)

Varsity Loses To Amherst, But Takes Williams And Tufts

The Polar Bears left early Thursday morning for a three game road trip which would take them to Amherst, Williams, and Tufts. In the first game at Amherst the Bowdoin hitters were completely throttled by the fine pitching of Brian Lanning. The Bowdoin nine could collect only three hits, a single by Harlow in the second, another single by Harry Silverman in the fifth, and another by Dave Fitz in the eighth. Amherst hurler Lanning struck out eight while walking only one. The Amherst hitters, in contrast, were far from cold. They jumped on starter Rog Tudson and reliever Ned d'Amoreau for seven runs and thirteen runs. Big gun for the Lord Jeffs were third baseman Ken Gard, who banged out four hits, and pitcher Ernie

On Friday the visitors met with the Ephens of Williams College. Due to a shower before the game neither team could take batting practice. Williams, however, on four straight singles and a walk collected three runs off starter Frank Nicolai in the bottom of the first. But Nicolai settled down and went on to win the contest by the score of 6-1, although meeting a strengthening Bowdoin squad as the game progressed.

The big gun for the New Hampshire varsity was Fele Ballo with four goals, two in the first period. Kas Dunning scored twice, Jim Mizerly and Dick Bykes contributing one each. Brian Murphy broke the ice for Bowdoin in the third quarter on an assist by Bob Hoole. Tom Oliver recorded Bowdoin's final tally, the catcher going to Don Handal. At times in the game the quality goalie, Bill Westerbeck, showed fine form, finishing the game with a total of 12 saves. Steve Crabtree also was a standout for the Bowdoin contingent on defense.

Golf Team Wins Two, Drops Two; Course Conditions A Factor

The Bowdoin varsity golf team opened its season in ideal weather conditions and not so ideal course conditions against Tufts and Bates last Thursday. Playing without the services of Chuck Kloggman, the linkman were completely overpowered by the Tufts squad 7-0. Only captain Bob Osterhaus was able to cope with the rugged Colonial Country Club course, while sophomore Phil McDowell recorded a somewhat dubious record of seven three-putt greens on the first nine.

Bates also edged out the harsened Polar Bear squad, 4-3, as Osterhaus, Fred Filson, and Randy Baxter recorded wins.

The next day the scene shifted to the beautiful Vesper Country Club where the spirited Bowdoin seven sought revenge against their previous setbacks. Led by Osterhaus once again the linkmen whitewashed Lowell Tech 7-0 and surprised an overconfident Bates squad 5-2.

States Series action opens today against Bates at Lewiston, and with the return of Kloggman, the Bowdoin squad is looking forward to a successful year after a shaky start.

Varsity Sailors At NEISA Eliminations; Frosh To Sail Here

The Bowdoin College varsity sailing team will travel to Cambridge, Mass., this Saturday to compete in the New England Intercollegiate Sailing Association championship eliminations.

Meanwhile, the Polar Bear freshman sailors will play host at the "D" eliminations for the NEISA freshman championship.

Bowdoin skippers in the varsity event at Massachusetts Institute of Technology on the Charles River will be Bert Willett and Dave Mechem. Crewmen will be Bill Hyde and Lowry Stephenson.

The opposition will be furnished by leading New England college sailing teams and the winners will automatically qualify for the NEISA championship finals May 11.

Frosh Lacrosse Ten Suffers First Loss In Match With UNH

Wednesday afternoon at Durham, New Hampshire, the Bowdoin Freshman Lacrosse Team lost a rough battle to the University of New Hampshire Freshman team, 8-1. Bowdoin's River here, is expected to compete in the freshman championships to be held May 4-5 at Coast Guard Academy in New London, Conn.

The Cubes showed promise in the second and third periods, but were offensively dominated in the first and fourth periods. Two bright spots came during Jim Day's lone tally and the stalwart work of Bowdoin's hard-pressed defense, which blocked numerous shots and held their own several times when the team was a man down.

Next Orient

If you look hard enough you can find the inevitable bad news of Spring; therefore, one of the editors is forced to yield to the desire for an early 197 West-end meet week. However, continuing the new rivalry established tradition, the Orient will be published next Friday, May 3.

Sgt. Bailey Elected To Rifle League Post

Mr. Sgt. Marshall F. Bailey, USA, member of the ROTC staff and varsity rifle team coach, has been elected Deputy Director of the Northern Group of the New England College Rifle League.

Frosh Nine Romps To Victory In 11-1 Opener Against Hebron

Bowdoin's ace right-hander Ralph Johnson shown here pacing the freshman ball team in 11-1 victory in Wednesday's contest against Hebron.

Pitcher Ralph Johnson led the leadoff man in the sixth hurt some. Frosh baseball team on an easy 11-1 on balls, stole third, and scored on a throwing error. For the rest of the game Johnson held Hebron hitters on a first inning single which left the runner stranded. The freshman squad who have just completed a successful 3-0 spring training schedule wasted no time at jumping on the Hebron pitcher. They scored four in their half of the first on walks to Ashwood and Condo, a base clearing double off the bat of Paul Melroy and back to back walks to Newcomb and Soule.

Three balls, a wild pitch, and a Hebron error added the cubs in their early scoring rampage. Lone runs were scored by Bleye and Mick in the second and fifth innings. Bleye's walked a hit, and Mick's on a double, two walks, and an error.

Bowdoin's big inning came in the fifth when they scored five runs on only one hit and three walks. However, five Hebron errors told the story. Ashwood led off with a walk followed by passes to Condo, Mick, and Pease and errors on balls hit by MacAllen, Bleye, and Howe.

Meanwhile frosh hurler Ralph Johnson remained in complete command, in six innings he struck out thirteen. A walk to the Hebron

NO ANSWER?

The underclassmen having received no answer to their challenge of a soccer game, are beginning to think the upperclassmen are somewhat afraid. Further silence must constitute a tacit admission of defeat.

"RASHOMON" In Rehearsal

"Rashomon" now in rehearsal for production May 15 and 16. The recent Broadway hit will be staged as the first weekend play by the Masque and Gown.

Rehearsals are now in progress for the Masque and Gown's production of the Ivy house play, "Rashomon" by Fay and Michael Kanin.

The action of "Rashomon" takes place in Japan about a thousand years ago. The plot deals with the death of a samurai warrior and the attack of his wife by the actual bandit.

The story of the crime is seen by the bandit, the victims, and the witnesses. Each version of the incident varies, placing the actual blame for the death of the husband on different characters.

Tickets may be purchased by calling PA 8-2711 from 1:30-4:30 p.m. beginning May 9. Admission is \$1.50 or blanket tax.

Expansion Plan Formally Presented At Assembly

Various aspects and plans for the Senior Center were presented at a student assembly held Monday evening in the Pickard Theater.

Professor Whitehead said that both the Senior Center Program and Curriculum were designed to "break down conservatism" and to make both students and faculty "think in new forms."

Dean Gresson made a few remarks about the proposed expansion of the Moulton Union. He pointed out that the plan which he was describing was "most tentative" and is to be submitted to the Governing Boards.

Mr. Hokanson was the last speaker at the assembly. He said that the College to date has received \$4,017,039 toward the Capital Campaign.

Kruse Library Selected As School Finalist In Loveman Competition

William A. Kruse, '53 has won a \$1,000 Loveman award for his book "The Loveman National Award for the most outstanding personal library collected by a college senior."

Dean of Students Gresson, Bowdoin adviser for the contest, said it was restricted to seniors, who were required to answer three questions.

His general interest lies in literature, mainly English and American. He has acquired a personal library totaling between 400 and 500 books.

Spectrometer Donated To Be Employed For Compound Analyses

The Perkin-Elmer Corp. of Norwalk, Conn., has given the College an Ultraviolet Spectrometer for use in the Chemistry Department.

Mr. Gresson has been appointed to the Associate Editor's position on the "Orient" by the Editor and Managing Editor.

POPS TICKETS AVAILABLE

The Music Department has announced that tickets for Bowdoin Night at the Pops can be obtained at the Music office in Gibson Hall.

This afternoon and evening two of the nation's outstanding authorities on Soviet Russia will lecture on the troubled state of U.S.-Soviet relations.

Large Majority Passes Motion Awaiting Administration Answer

At Wednesday's house meeting of the Alpha Rho Upsilon fraternity, a motion to end the daily Chapel requirement was proposed and passed by a strong majority.

According to the proposal, an Interfraternity Council would be established consisting of one representative from each of the fraternities.

Polish Policy Is "Friendship," Says UN Secretary Soltyskiak

The basic trend of Polish policy is "to strengthen friendship and brotherhood . . . to make aggression impossible."

Discussing further the Polish foreign policy, Mr. Soltyskiak stated that Poland's position on world affairs has been tempered by the specific conditions of the social system and the historic past.

Mr. Soltyskiak lamented his country's "one hundred" and forty year submission to foreign domination.

As for NATO, Mr. Soltyskiak felt that it has adopted a position of "strength and strife against the emancipation from colonialism."

In referring to the Polish position on the Berlin Crisis, Mr. Soltyskiak mentioned that Poland must concentrate on a peace treaty for Germany and an end to German militarism.

"Troubled State of U.S. - Soviet Relations" Subject of Debate In Issues Conference

This afternoon and evening two of the nation's outstanding authorities on Soviet Russia will lecture on the troubled state of U.S.-Soviet relations.

Many of Professor Schuman's addresses have been published in prominent form, among these "Reading in World Politics," "The American Foundation for Political Education in 1951," and "The Age of Danger: Major Speeches on American Problems."

College Weekly Condensed Resolution

The following is the Resolution passed by A.R.U. fraternity in its house meeting Wednesday evening.

That the original documents connected with the founding of Bowdoin College specifically require that a portion of the academic day be given over to devotional services of a religious nature.

That it is fallacious to argue that once a requirement has been incorporated into the documents of a college, the administration is powerless to change it.

That it is for these reasons that Alpha Rho Upsilon is against required chapel attendance, and calls on all the other houses on campus to sign the adjoining petition which demands that Dean Gresson at his next meeting with the Governing Boards present to them a statement against this requirement.

We the undersigned, the presidents of the Bowdoin fraternities, do by our signatures represent a house majority that does subscribe to all expressed by the adjoining resolution.

Huntington Receives Fellowship To Pursue Ornithological Study

Professor Charles E. Huntington, College ornithologist, has been awarded a Guggenheim Fellowship for the support of his work in preparing eight years of researches on the Leach's Petrel for publication.

Professor Huntington, who has been granted a leave of absence for the 1953-54 academic year, will conduct his work mainly at the Edward Gray Institute of Field Ornithology at Oxford University in England.

Research The formidable task Professor Huntington has set for himself is indicated in the amount of material he has obtained on the petrel since 1953. He has separated this into five areas: (1) published cards bearing

Christie President, Lowe Wins VP Post, In D.K.E. Elections

Election for officers of Delta Kappa Epsilon were held last Wednesday night. The new officers are as follows: President, Walter Robert Christie, '54; Vice President, Charles Austin Lowe, '54; Recording Secretary, Bradford Newell Stone, '53; Corresponding Secretary, David Kohl, '54; Alumni Secretary, Russell Henry Wiegall, '53; Treasurer, John Francis '53; Student Union Organizer, Russell Henry Wiegall, '53; Student Council, David Stockford, '54; Social Manager, Charles Wheeler, '54; House Manager, Charles Cary, '53; Chaplain, John Reed, '54; White Boy, Joe Collier, '54.

Polar Bearings
By Rick Andrus and George Bennett

A TIMELY RESPONSE

"For many years Bowdoin has been committed to an 'athletica for all' policy." These were the opening remarks of Bowdoin's Athletic Director, Mal Morrill, at last Monday's Senior Center Assembly.

In the most recent "Polar Bearings" we asked for a "clarification of athletic policy and assurance of its being carried out." Mr. Morrill's contribution to the Senior Center discussion gave us the sought after clarification on a number of the points brought up last week.

Commenting on the present program and the adaptations to accommodate the imminent transition Morrill said: "Bowdoin's outdoor athletic facilities are outstanding but in the state of Maine the program has to be conducted indoors for almost five months out of the year. The pool, the arena, and the cage are all in use during this period but in each case they serve specialized types of activities. The gymnasium has to be the center of a good program and Sargent Gymnasium has been totally inadequate for many years. Now this college will have a new gym and do some renovating of the old one. It is planned to start construction early in 1964 and have the buildings ready for use in September of 1965. This new construction is necessary if the college is to have a worthwhile physical education program rather than one in outline form."

With reference to the Senior Center's emphasis on Bowdoin athletics, especially concerning participation by Seniors, the Athletic Director felt that Bowdoin seniors are not at present taxed to their fullest capacity in the area of academic and extra curricular.

"College academic programs will surely be intensified and made more demanding. There is, however, information available in all fields of study. The increased cost of education means requests for more money for colleges and these can be justified only by more demands on students."

"Undergraduates seem to have less interest in extracurricular activities these days. It seems wise, to do all possible in integrated programs that are devised to develop interests and skills for physical activity in play that may be used for years to come."

These words imply a request to undergraduates on every level to embark on a role of greater participation in and an attitude of more interested cooperation with the college's policy of "athletica for all." We hope that this is a request that is not only acknowledged by the student body but also actively carried out.

PAT ON THE BACK

This week we would like to make a special comment on the consistent, hard work of STEVE CRABTREE, Bowdoin Lacrosse Team's line defender. Crabtree, for two years now has been breaking up opposing offensive moves, and his repeatedly won the admiration of the opposing players and coaches, as well as the respect of his own teammates. Congratulations on a job well done.

Lacrosse Victory 10-9: Squad In Overtime Win

Yesterday the Bowdoin lacrosse team checked up its first win of the season by defeating Nichols College 10-9 in a tense, hard fought battle that had to go into overtime in order to decide a winner. Bowdoin got off to a slow start and by the end of the first quarter things looked bad for the Polar Bears as Nichols took a quick 1-0 lead. As the second period began Nichols continued their onslaught by scoring two more goals to increase their lead to 3-1. At this time Bowdoin pulled itself together and went on to score three goals, two by Tom Oliver and one by Jack Snyder, in the final minutes of the half. At the end of the half the score stood at 3-4 in favor of Nichols.

The Polar Bears came back to start the second half with new determination, though two more goals by Nichols seemed to indicate that they had other ideas. However, Bowdoin was able to maintain its pole and scored four more goals before the third quarter ended. Two of these were on assists from Don Handal who also accounted for one of them himself.

Bowdoin scored once more in the fourth period while holding Nichols scoreless, necessitating a ten minute overtime to break the 9-9 tie. Both squads played cautiously and it was not until there were only 17 seconds left that the tie was broken as Vic Pappas took a pass from Tom Oliver to score the game winning goal.

Oliver's last play highlighted the afternoon as he scored four goals and assisted on two others. Brian Murphy had his best day as he scored three times, while Snyder, Handal, and Pappas each tallied once.

Netmen Take Series Opener Win Over Bates

The Bowdoin netmen opened state series competition with a strong victory over Bates, who previously had a 2-0 record and should be the strongest contender for the tennis crown.

In singles, Sam Ladd led a hard fought three set, while the rest of the team won most impressively of the singles victories were the matches of Art McDonald and Steve Hecht. Tom Tom, Hugh Hargrave, and Craig Mather also won.

In doubles, the team took two of the three matches. The best fought match was that of Tom and Hecht. Down 3-4 and 2-5 with double match point against them, the combination rallied to take the second set, 11-9, and the third, 7-5. Ladd and McDonald won a tough three set, and the duo of Schwartz and Hargrave won in the other two matches.

Wesleyan Tops Varsity Sailors Eye State Championship

Bowdoin met the visiting Wesleyan at Picket Field Saturday in a lacrosse encounter. Facing 1-2 Brian Murphy started off the day's scoring taking a feed from Don Handal to put the Polar Bear's ahead 1-0. After that Bowdoin was held scoreless until the final period when Tom Oliver went in unassisted to score the Polar Bear's final goal.

Captain Steve Crabtree turned in Bowdoin's finest performance of the day playing an outstanding game at defense. He was responsible for numerous interceptions which broke up the Wesleyan offense throughout the afternoon.

Bowdoin's main difficulty this season has been the inability of the squad to mount a sustained offensive drive. Most of the scoring has been confined to the attack and the first middlefield.

Frosh Top Exeter; Butkus K's Sixteen

The frosh baseball team received its second good pitching performance in a row, as they best Exeter Academy 3-1. This time the pitcher was Bob Butkus, who wanted nothing but hits, by Ansoof and Condon. With his best and the usual bases, Butkus pulled off a double play, going from the pitcher, to home, to first, leaving men on base and third with no runs across the plate. Two runs scored, however, when the ball bounced off Ansoof's leg in an attempted pick off throw from the pitcher.

Butkus' home run came in the ninth inning on a home run by deep center field off the bat of pitcher Bracciolotta. Commenting on the pitch, Butkus stated, "I threw a high fast ball, it should have been a curve."

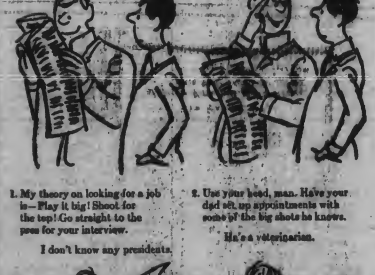

Bar Yeh

Bar Yeh has the honor of being the first Jewish student to be elected to the position of Student Body President.

My theory on looking for a job is - Play it big! Shoot for the top! Go straight to the press for your interview.

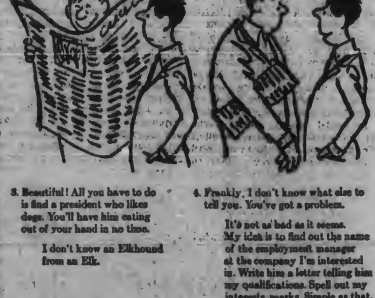

He's a veterinarian.

3. Beautiful! All you have to do is find a president who likes you. You'll have him walking out of your head in no time.

4. Frankly, I don't know what else to tell you. You've got a problem.

5. Not so bad as it seems. My idea is to find out the name of the employment manager at the company I'm interested in. Write him a letter telling him my qualifications. Spell out my interests, make simple as that.

4. A letter to the employment manager? He's not too young to be a boss.

5. Sure, could you not something up for it? Equitable?

I'm not the president, but I'll try.

Judges Sentence Bowdoin To 2-1 Baseball Defeat

On a typically chilly and damp spring day, Bowdoin's Polar Bears entertained the Brunswick University spring 2-1. The Polar Bears, seeking their fourth straight victory, pitched Junior Roger Tuveson against Brunswick ace left-hander, Steve Marden.

Brunswick scored in the bottom half of the inning, the final score stood at 2-1. Lack of hitting hurt the Bowdoin line as Brunswick outlasted them 6-4. Tuveson hurled a fine game, but he failed to keep the bottom half of the inning, the final necessary support both at the plate and on the field.

Bowdoin's record is now 4-1.

Trackmen Nip MIT Frost In Triple Win

Displaying depth and balance, the Bowdoin Track Team defeated MIT and the University of New Hampshire in a triangular meet held last Saturday. The Polar Bears scored 41 points while MIT and UNH wound up with 28 and 20, respectively.

Brian Frost continued to be the high scorer for Bowdoin winning the shot, discus, and hammer to capture three of the team's total points.

Dave McDowall's 21' 11" leap in the broad jump, Ted Stowick's 60.1 in the 400 and Bill Horton's 1:59 1/4 mile in the javelin accounted for the other Bowdoin first places.

Bill Rounds took seconds in 400 and 200, while Steve Ross captured second in the broad jump and high jump.

Frosh Tracksters Romp In Tri-Meet; Soule Shines

The Frosh trackmen scored heavily in the sprints, hurdles and weight events to down MIT and the University of New Hampshire.

The Polar Bears scored 83 points, MIT, 68, and New Hampshire 58.

Paul Soule scored six credits to lead the Frosh with 17 points for a busy afternoon's effort. He led coastally Pete Good in a one-two finish in the low hurdles, 300' and in the 100 pole vault and shot; third in the 200 and fourth in the javelin. Showing great depth, the Frosh had only two double winners. Ray Burt and Steve Good in the 100 and 200 of the tape, Alex Shulton won the discus and hammer. The only Bowdoin sweep was in the shot with Bill Minnie leading (teammates with a 441 foot).

Uneasy Truce On Hyde-Appleton Front

No formal declarations have been made, but as of Thursday night, the state of war has existed between the forces of Hyde and Appleton. At least the sporadic sniping that had characterized relations between the two forces broke into violent open battle as the two opposing forces mounted attacks and counter-attacks throughout the evening. As

VIEW OVER NO-MAN'S-LAND. Photographed from the fourth floor of Appleton, one of the bombings of the picture shows some unidentified Hyde infantry inspecting the damage wrought by Appleton bombs. In the upper right-hand corner the open Professor Schuman has raised respect by his wide knowledge of Russia.

Through subsequent historians may debate the exact causes, the war itself is now a fait accompli, and has ended a day of the conflict, the action is somewhat slowed because of the rain, but threatens to erupt again at any moment.

Cause still uncertain

Just what brought about the declaration of hostilities is still unknown, and a long-standing rivalry between the two forces is believed to be the underlying cause. However, several incidents, including the bombing of Hyde's proctor (several times) have been put forward as incidents responsible for the present

with waterbombs of water, and courageously led by such starstruck as Willet and Halperin, they crossed and recrossed no-man's-land to bring the attack to the enemy. At this point, borrowing from medieval fortifications, Hyde's defenders rained down hundreds of gallons from strategic positions on the fire escapes and adjacent windows. Not to be outdone, Hyde also mounted several attacks, which met with considerable success.

Throughout the early part of the evening, though Hyde maintained a slight edge, the battle was practically even, but then the appearance of an independent detachment from Coleman Hall threatened to upset the balance of power. However, apparently unable to decide which side to join, the new force contented itself with indiscriminately attacking both of the engaged armies. The effect was to add considerable confusion to the forces of both the principal combatants.

Another complication was added by the lack of distinctive uniforms for either side. The firing was often the returning men from both forms were mistaken by their own men for elements of a new attack, and were consequently fired (or rather, watered) upon. However, many competent observers maintained that the question of proper identity was never in serious question. The firing was not intended to be a basic addition in the character of the men in the open stories.

Not since the Crimean War... Another distinctive feature of Tuesday's engagement was the unusually large number of non-combatants gathered at the scene. Not since the Crimean War have spectators had the opportunity to observe two modern armies locked in combat. The firing was of the nature of a modern war, however, these individuals were sometimes subjected to considerable personal

Students Rate Curriculum Promised Orients

Below are the results of our questionnaire, which solicited students' evaluations of courses at Bowdoin. We mailed forms on behalf of the Orients to the 360 members of the upper two classes of the College, and the 163 returned represents the opinions of 45 per cent of Bowdoin's undergraduates.

Our purposes in conducting this opinion poll were twofold: first, to indicate to the faculty and the administration certain trends in undergraduates' attitudes toward the curriculum; and second, to fill the vacuum of information about the curriculum accruing from the disappearance of last year's Student Council questionnaire.

We by no means claim that the results published below are definitive or wholly accurate; the questionnaire was much too brief for any far-reaching conclusions to be drawn from it, and we are acutely aware of the failure of our forms to measure up to the standards dictated by socio-psychological factors and groundrules of operation. We are aware too that the results of this poll are based to a large extent on students' personal reactions to individual instructors rather than their intellectual responses to individual courses. We sought to reduce the personality factor by asking upperclassmen to rate the courses and not the instructors alone, but we are not deluded about the impossibility of separating any course from its instructor. It is entirely true, as several persons commented on their forms, that a course may be rendered either excellent or poor by the caliber of instruction alone.

We claim, then, no more than this: that the results of this questionnaire indicate that several courses are almost unanimously considered good by Bowdoin juniors and seniors, and that several, just as emphatically, are not. Whether students are capable of judging accurately and impersonally the courses they take and the men who teach them is another matter. The huge field of courses floating inconspicuously in the middle range represents basic and sharp and consistent disagreement among Bowdoin undergraduates. In a few cases, as we pointed out, the course itself was abrogated to some extent, and this is particularly demonstrable in courses taken by a large number of students virtually all of whom agreed about the merits of the course and its instructor (Religion 1-2 is a good example).

instructors for a particular course listed, in some cases, due to the scattered sampling we had to work with, there were no respondents who had taken the course in question or who happened to take it the year a particular member of the faculty taught it.

Approximately half of the forms we received made no mention of English 3-4, thus the abbreviated results that course. Also, almost all students who remembered Military Science rated it as one course rather than as separate semesters.

We have included every course rating for which we received an answer, and it should be unnecessary to point out that the greater number of answers recorded for a particular course-instructor combination, the greater the significance of the final average. The average of a course for which we received only one or two or three grades is next to meaningless.

We had a fair number of signed comments, and selected those for publication which we felt would be of most interest to students, faculty, and administration. Unsigned comments were neglected as were those which, we thought, had little bearing on the issue in question at the Bowdoin curriculum.

The table below should be easy to understand. On the left is the name of the course, and after it the name of the instructor. Frequently, different instructors teach a course from year to year, and in these cases we have compiled separate averages for the course as taught by different men. This is the reason some courses are repeated several times in the left-hand column. To the right of the instructor we have placed the total number of answers received for each course-instructor combination. As we have stated, some of the courses were taken by so few of (Please turn to page 2)

Two Soviet Experts Present Views On Red Foreign Policy

Two experts on contemporary Russia—Professors Fredrick Schuman and Marshall Shulman of Williams and Harvard's Russian Research Center respectively, discussed "Contemporary American — Soviet Relations" Friday afternoon and evening in the Moulton Union Lounge and participated in a panel discussion Saturday morning.

Professor Schuman is known for his stand on civil rights, human liberty, and minority rights, while Professor Shulman has raised respect by his wide knowledge of Russia.

In his opening address Friday afternoon, Professor Schuman said, "There are no experts on Russian affairs, only people with varying degrees of ignorance."

The Woodrow Wilson Professor of Government at Williams believed that present day Russian history has had its roots in the past history of that country.

Some of the important aspects of Russia's past feeling are still affecting her foreign relations: First, a constant fear of invasion along the country's borders; second, an attempt since the 15th Century to westernize customs and thought; and third, a desire for expansionism which was necessitated by the lack of invasion.

Coupled with the desire for expansionism was a need for political autonomy. Poverty, weakness, and ignorance helped Russia to gain its autonomy. Yet, now that Russia has become educated, prosperous and strong, political autonomy is no longer needed, and in fact has become obsolete, in Professor Schuman's opinion.

Stalin

The Williams' Professor stated that Russia's westernization was completed under Stalin at "atrocious cost in human elements." But such a radical change in a backward country in a comparatively short time would require great human sacrifices.

"The need for expansion has now been slowly diminishing. Russia is strong and no longer fears attack, so her lust for new land is disappearing. The fear of Russia's encroaching on America has been exaggerated, Professor Schuman said.

Professor Schuman believed that there are numerous ways the U. S. and the U.S.S.R. can agree on major problems facing both countries. The current rigidity in Russia appears ready to find a solution to the differences existing between the two nations by its continuing liberalization in its attitudes.

Liberalization

To illustrate what he meant by "liberalization," the Professor cited increased freedom of speech and thought. A professor in Moscow was said to have answered a student's question on the differences between the two super powers by saying, "In Russia, man is exploited by man, while in the West it is just the opposite way around."

Professor Schuman expressed his hope that the arms race will either terminate or be transformed into a race to see who can do more for the health, wealth, and welfare of the world. He insisted that we cannot take the stand of considering negotiations hopeless. Both coun-

"Radical" Plan To Help South America Suggested By Kitto In Lecture

The greatest happening of the present day "has been the opening up of three billion people to the possibilities of industrialization," the barrister of complete ignorance is the "radical" plan to help South America "has begun."

So stated Mr. David Sweet, a resident of Mexico City and the author of the paid series of "Development Associates," who spoke in the Peucinian Room on Thursday, May 2, and in the Chapel this past Tuesday on "Economic Assistance: A Radical Approach."

Mr. Sweet remarked that the Alliance for Progress "appears to have slowed down," and attributed this to the "radical" plan to help South America "has begun."

First, a "lack of vision" which is demonstrated by our "unwillingness to consider radical alternatives";

Second, our insistence on "working through Government institutions."

Mr. Sweet went on to add, "If there is going to be American economic assistance, it seems a common-sense proposal that it should be made available to the smaller group that directly aid in economic development." At present, economic assistance is "mediated between governments and experts far from the scene" and the funds "filter through a sticky, inefficient bureaucracy."

Mr. Sweet feels that this is a wise proposal that it should be made available to the smaller group that directly aid in economic development. At present, economic assistance is "mediated between governments and experts far from the scene" and the funds "filter through a sticky, inefficient bureaucracy."

Mr. Sweet asserted that there is "no credit available to the smallest of our businessmen. It is for this reason that Mr. Harold Skilton, a Lewiston lawyer, founded Rural Development Associates, a tax-exempt, non-profit organization, to make the shortest term loans possible at 6% per annum interest charged to give seriousness to the maintenance of these loans and cover administrative expenses and defaults." Unlike commercial banks, these loans would be available to the peasants who through private industry, such as agricultural extension agents who would select certain farmers to receive the loans, since "people don't apply to RDA but are applied to."

Education

Mr. Sweet definitely feels that "development begins with education — rural education and agricultural extension work," but he feels the work should be done by nations. Mr. Sweet felt, among other possibilities, are being opened up to the small farmers; however, there is still the "need to make resources available to people to carry through an opportunity."

Revised Version Of "Odyssey" Explained By Kitto In Lecture

In order to gain an appreciation of the content and purpose of Homer's *Odyssey* Professor H. D. J. Kitto explained that one must consider the "raw materials" Homer uses as well as the structure of the poem. The internationally known classicist from the University of Bristol reflected these views in a discussion entitled "What the *Odyssey* is About" at the Moulton Union Lounge last Monday evening.

Professor Kitto introduced his topic by explaining that to believe that Shakespeare's *Hamlet* is concerned with the central figure is as much an error as to feel that the *Odyssey* was merely concerned with the development of the hero. When reading the *Odyssey*, he said, the questions of the total universe and man's place in the universe must also be used as a basis.

Use Of "Raw Materials"

Homer's "raw materials" were defined as the Trojan War and the hero, the enormous collection of related myths, legends, and stories, since it begins in Ithaca, describes the wanderings of the hero, and ends in Ithaca. The 19 years of *Odyssey*'s travels are thus merely condensed to 37 days, as Homer proceeds according to this "circular motion."

In order to demonstrate the literary genius of Homer's elementary form, Kitto explained that the poem had no structure, "it will would be a source of delight."

The structure of the poem was described as "strikingly simple," since it begins in Ithaca, describes the wanderings of the hero, and ends in Ithaca. The 19 years of *Odyssey*'s travels are thus merely condensed to 37 days, as Homer proceeds according to this "circular motion."

Kitto's version

Kitto felt that this poem was good for it contained "a long downward movement followed by upward movements." After the rise and fall of the drama in this respect, the hero faces a complex situation when he finds Penelope favorable to him but the kingdom in a state of disorder. Hence the reader is kept in suspense as long as possible, for he too is ignorant of the situation in Ithaca. This quality of suspense was neglected by Homer, since the poet explained early in his poem the actual situation in Ithaca and implied that *Odyssey* would have a safe return because his cause was taken by Athena.

Kitto's version

Kitto's version of the poem was described as "strikingly simple," since it begins in Ithaca, describes the wanderings of the hero, and ends in Ithaca. The 19 years of *Odyssey*'s travels are thus merely condensed to 37 days, as Homer proceeds according to this "circular motion."

Fraternities Elect Popular Juniors For Ivy's Wooden Spoon

The College's 12 fraternities have nominated candidates for the Wooden Spoon, one of the oldest and most coveted awards at Bowdoin.

The award is presented annually during Ivy Day ceremonies to the most popular and respected junior as elected by his classmates.

David W. Pitts, Secretary-Treasurer of the Junior Class, said the 1953 winner will be announced during traditional Ivy planting ceremonies at 10:30 a.m. next Saturday in front of the Walker Art Building.

The fraternity nominees are: Zeta Psi — Frank C. Drjogatos; Kappa Sigma — George C. Elad; Phi Delta Psi — Robert M. Paragharan; Alpha Rho Upsilon — Robert S. Frank; Sigma Nu — James B. Haddock; Psi Upsilon — Robert L. Hooper; Chi Psi — Bruce M. Lusk; Delta Kappa Epsilon — John M. Noyes; Alpha Delta Phi — W. Thomas Oliver; Theta Delta Chi — Kenneth C. Smith; Beta Theta Pi — Joseph E. Farrell; Delta Sigma — Steven J. Weiss.

Seniors

The Brown Competition in Extemporaneous Composition will be held Wednesday, May 15 at 8:00 p.m. Interested seniors may sign up at Sills 303.

Reaction Slow To ARU Resolve

Response to the ARU resolution condemning compulsory chapel and the adjoining petition calling on the eleven other fraternities to support the resolution has resulted in little action and response on the campus.

In their Wednesday evening house meetings, only Sigma Nu and TD brought up the petition for the consideration of the brothers. Both houses voted with large majorities to sign the petition asking the Dean present the sentiments of the students against compulsory chapel attendance to the next meeting of the Governing Board.

Several houses contacted stated that they did not plan to take any action on the petition. Others implied that a later meeting of the house would consider the petition which had not been presented at this week's meeting.

BCA MEETING

The Bowdoin Christian Association will meet Tuesday, May 14 at 4:00 p.m. in Conference B of the Union. The purpose of the meeting will be to discuss the new status of the BCA as a co-operating organization of the Interfaith Council, and to make plans for activities and projects for the next year. The possibilities of closer co-operation with the Northern Student Movement and of increasing support of student activities for racial equality in the South will also be considered. All students interested in any of these activities are urged to attend.

Excavation Ready For Cement

Work on the College's own brand of high-rise apartment complex is going the wrong way. Work on the College's own brand of high-rise apartment complex is going the wrong way. Work on the College's own brand of high-rise apartment complex is going the wrong way.

POLL CONTINUED

The students who returned their questionnaires that the results are patently negligible. And on the right-hand side we have listed the average for each course-instructor combination, based on a perfect score of 100. The figure on the right was reached by totaling up the grades from one to 10 for each course, dividing the result by the number of grades for that course received, and then multiplying the quotient by 10. Thus, for example, if Cowboys and Indians was rated from one to 10 by five people, and its raw score was 40, its average grade would be eight out of 10 or 80 out of 100.

Below the table is the sampling of signed comments we have chosen for publication.

We would like to emphasize once again that these averages in no way represent any definitive or wholly accurate evaluations; but they do, we feel, denote several significant trends in students' attitudes toward the Bowdoin curriculum.

Exit, chased by a bear.

Foster S. Davis
John W. Halperin

Table with columns: Course, Instructor(s), Answers, Average. Lists various courses like Astronomy, Biology, Chemistry, Classics, Greek, Latin, Economics, Education, English, French, German, Government, History, Italian, Japanese Literature, Mathematics, Military Science, Music, Philosophy, Physics, Psychology, Religion, Romance Languages, Spanish, and Statistics.

Main table with columns: Course, Instructor(s), Answers, Average. Lists various courses like Philosophy, Latin, French, German, Government, History, Italian, Japanese Literature, Mathematics, Military Science, Music, Philosophy, Physics, Psychology, Religion, Romance Languages, Spanish, and Statistics.

Comments and student feedback. Includes quotes like: 'Professor Brown's English 25-26 course is great; he is charming and witty in introducing the whole span of American literature before us. He creates a desire to study and read further.' and 'I did not evaluate Philosophy 31; the course was able to meet only once a week. Professor Moore did a fine job of teaching; unfortunately he was limited severely by the time element.' Also includes a section titled 'COMMENTS' with more detailed feedback on various courses.

Council Adopts Rushing Plan; Accepts College Bowl Offer

Monday the Student Council, with 100% in attendance, acted on and passed four proposals dealing with the regulation of rushing, the official publication of the Student Council minutes and agenda, the allowance of a "week's grace-period" before deciding on matters of importance, and the turning off of the lights along the campus walks for Ivys. The Council also reconsidered its action on the G.E. "College Bowl" bid and reversed its earlier decision to decline the invitation.

The five points of the "Student Council Proposal to Regulate Rushing and the Rise of Houses During the Senior Center Transition Period" were all unanimously passed (except for the questionable fifth point which was opposed by the AD's). The Proposal called for:

- 1) the granting of subsidies, based on the total active membership of each house, to the various fraternities on Campus;
- 2) the establishment of a "Rushing Committee" which would recommend sanctions against the houses refusing compliance to the program;
- 3) the determining of a "rushing limit" by a majority of the Rushing Chairman and the Student Council Rushing Committee which would be binding on all the houses;
- 4) the submitting of yearly reports by the Student Council Rushing Committee;
- 5) the abolition of all subsidies and rushing restrictions in the Fall of 1968.

It was explained at the meeting that allowances would be made on the number of pledges because of the question of uniformity in the larger houses. This object of the plan is to have the "pledge class" the same in all twelve houses with all houses eventually being the same size so that "the weight of all kitchens will be about the same." The program is also designed to "make up for gains and losses by subsidizing the houses according to need." On the question of sanctions, President Seaver quipped, "If a big house gets over the rushing limit, it'll be kicked out and clipped out." In concluding, he further added, "If it (the program) falls on its face this fall . . . then there will be time to revise it before classes actually start to move to the Senior Center."

Also passed was the addition to the council's constitution authorizing the distribution of the minutes and agenda to the fraternities the Orient and WOBK. In addition the council also passed a "proliferative clause" whereby the Council could, upon a majority vote, declare taking action on a measure for a week that the delegates could not take the measure to the creation of their houses. The purpose of this clause was to prevent matters of importance from being taken upon without the representatives a chance to consult the student body. It was also stated that the Council must "preserve its independence" because there are many things which we must pass and discuss by ourselves.

On the reversal of the Council's prior decision not to accept the G.E. "College Bowl," President Seaver reported that "the original decision was based on a false assumption." At that time, it was thought that the administration was against it; however, Dean Kendrick assumed that "the students would support approval of the plan, to have the school appear on national T.V." and therefore he was not in the refusal. Seaver went on to state that, opposition to the Council's earlier position was the school's desire for "publicity for Bowdoin or student-administration opinion"; the program "must be accepted as 'yes' or 'no' policy for Bowdoin; but also as an obligation to general student opinion."

Council also acted on John Halperin's criticism in "This Week of the Dean's Electric Chastity Belt." Mr. Seaver commented that the rumors being circulated about the original cause for the lights are "completely false"; "the students themselves petitioned the Dean to get the lights on Ivy some years ago," and the Student Council "has the power to turn the lights off." The representatives unanimously accepted Seaver's proposal, which was previously approved at the Ivy Committee meeting by Frank Driggs, president of the Junior Class. The report of the Council received the report of the sub-committee of the Blanket Tax Committee, and copies were circulated

Queen Judges Chosen

The Ivy Committee announced the names of three judges who will select the 1963 Ivy Queen this Friday evening. They are Mrs. Richard Chittim, wife of Professor Chairman of the Mathematics Department; Professor Alfred Fournier of the Psychology Department who will serve as chairman of the judging committee; and Professor Gordon Hieber, Chairman of the Chemistry Department. The Queen will be crowned during intermission ceremonies at a jazz concert in Saragyn Gymnasium by the Miles Davis Sextet.

Psi U. And Zeta Back M. S. Drive; To Canvas Area

This week several fraternities on campus responded to a request from the Multiple Sclerosis Fund Drive (M. S. Hope Chest) by providing volunteers to participate in a door-to-door campaign on Wednesday evening, May 22nd. To date a total of 58 men have volunteered their time for the collection and it is hoped that more fraternities may also consider the chance to help in this worthwhile community project. Although this is a busy time, Psi Upsilon and Zeta Psi together pledged over half of the corps of workers. An average of ten men from each house would insure an accurate coverage of the areas which last year gave \$500 to the State-wide campaign.

Multiple Sclerosis is a disease of the central nervous system which is, at this moment, incurable. Victims of this crippling condition become completely dependent on State and local M. S. Hope Chest Funds. Bowdoin is especially prevalent in Maine, because of the Drive's importance, the Student Council felt that a plea to the individual houses could produce the response needed for a successful canvassing.

The drive will be conducted from the First National Bank in town and will be completed within an hour (from 7:30-8:30) if enough fraternities feel they can send men to help in this community project. Commencement must go to the two houses which have tickets off the drive, for their initiative and cooperation and it is hoped that more men will offer to help to make this campaign as successful as the similar one undertaken by the University of Maine last week in Bangor and Orono.

Cement Pouring Called "One Of The Biggest"; Trucks Start Thursday

One of the biggest continuous concrete pouring operations ever undertaken in Maine will take place May 23 when the footing is installed for the residential tower of Bowdoin College's pioneering Senior Center.

Some 1,100 cubic yards of controlled, ready-mixed concrete weighing about 2,200 tons will be supplied by the G. A. Peterson Co. of Brunswick and Auburn under a sub-contract from the George A. Fuller Company, builder of the Senior Center.

The concrete will form a solid four-foot slab on which the structure will be erected. It will be poured in a continuous 12-hour project, into a 16-foot excavation on an area about 90 ft. by 90 ft. at the rate of 100 cubic yards an hour. The concrete will be spread on top of a so-called cement "mat pad" which has been constructed on the site between College and South Streets since ground-breaking exercises were held April 16.

College Votes "Yes" On S.C. Referendum; 438 Cast Ballots

The Student Council's Orientation proposal received a vote of confidence yesterday. The results of the Campus-wide student vote on the Student Council's Orientation Program were submitted to the Orient last evening. The vote was conducted according to the Student Council's Constitution which requires a vote of the student body on any council legislation which is opposed by petitions representing a majority of 20% of the total enrollment. It was felt from the beginning that the main opposition to the program was the method by which it was passed by the council. The results of yesterday's vote indicate a general willingness to proceed for a year with the present program. The vote would have had to be 2/3 against the proposals to defeat the program which was ratified by the faculty in the last meeting. The results are as follows:

Of the 438 students voting: — 178 (40%) voted in favor of the program; 194 (30%) voted against the program; and 136 (30%) voted for immediate revisions in the Fall. "The Student Council in view of the close margin of the voting will consider necessary revisions after the trial period voted to them by the faculty. The program itself will be determined by the faculty's orientation and it is reported that many helpful students' comments on the ballots have indicated areas for needed revisions. This-idea of the council expresses their appreciation for the chance to prove the program next fall and also stated that they will be especially mindful of the comments concerning the opposition to the elimination of signs and banners. The result of next year's house program will be determined by the efforts of each committee in the houses to comply with the program and offer constructive criticisms after initiation.

It is engaging, moving, entertaining. The light scenes are exciting, the love scenes work. Directed by Mr. Calder, the actors make a fairly good play into a very good one. One obvious criticism, however, is that several members of the cast muffle their diction in what seems to be needless loud ranting; nevertheless the acting, on the whole, leaves little to be desired. Particularly outstanding is Hector Arbour, a freshman, who plays the Bandit. Arbour's interpretation is sound and consistent, his delivery generally clear, his physical bearing impressive. His performance in the first act is quite impressive. Opposite Arbour, as the Wife, Marie Parker is flawless.

Although he does not have that usual efficacy. much to do, Jeffrey Huntsman is outstanding as the Husband. Alan Schiller as the Wigmaker and Joseph Frary as the Priest are also excellent. John Siegan, Richie Van Vleet, Virginia Winner, and Carol Jones complete the cast. In addition to his deft direction of the actors, Mr. Calder created the stage design for *Rashomon* which, coupled with Bill Lannon's lighting and other special effects, gives the actors a stirring backdrop. Unlike many *Masque & Gown* productions of the past, the make-up in this play is effective indeed. Costumes by Lyn Cowger and Laura Thomas contribute to the colorful presentation. P. Bradford Greene directs backstage activities with his usual efficacy.

"Rashomon" Plays Tomorrow Night, Features "Superb" Acting, Design

No one should miss the *Masque & Gown's* Ivy production of *Rashomon*, which goes on the boards for the last time tomorrow night in Pickard Theater at 7:30 p.m. Although the play is uneven and melodramatic, its faults are atoned in this production by superb acting and stunning design.

Rashomon takes place in Japan a thousand years ago and tells the story of the death of a samurai warrior through the great and mouth of four characters, each of whom ineluctably projects his own values and perspective upon the action. Although theatrical and contrived, the play embodies moments of violence and tenderness, pathos and comedy, conflict and reconciliation.

This week, the Sigma Nu's and the TD's who have already voiced approval of the resolution have been joined by the Zeta's, the AD's, the Psi U's, and the Kappa Sig's. Delta Sig, with half the house in attendance, also approved the proposal with a 15 to 14 vote. The reasons for approval ranged from the AD's feeling that "compulsory Chapel is ridiculous, just as anything compulsory is ridiculous" to the Kappa Sig's who felt that a non-compulsory Chapel would bring about a better list of speakers.

The Beta's and the Chi Psi's declined to sanction the resolution. The Beta's' reason was because it was felt that the chapel resolution was de facto non-denominational in nature. The Bowdoin Christian Association voted unanimously Tuesday to endorse the ARU resolution concerning compulsory chapel attendance. Most of the members of the BCA have taken this position privately for some time, but it was not until the orientation meeting should take a stand on the issue. However, the BCA will continue to sponsor student and guest chapel services, because it feels that it should try to make the best of the present situation until it is remedied.

VERDANT MONASTERY FALLS TO BARBAROUS HORDES

Ivies . . . what's so great about Ivy Weekend? Just look at this place . . . girls everywhere; in the grass, climbing our fabled pines, caressing our milk white polar bear, walking, giggling, giggling and screaming. It's just about enough to negate forever the traditions and images our founding fathers and past scholars have fostered about our little monastery hidden deep in the pines. The pursuit of intellectual excellence, that's what we've dedicated the best four years of our lives to; yet, now look what we're pursuing.

So, it's Ivies again, and the campus, just having dug out of one last snowfall, now finds that; even though the rain, the weather, and the intellectual inclination are all oriented toward the acquisition of the almighty grade; it must assume the gala, festive robes of the rites of Spring and usher in that season which in Maine exists only in the imagination. When all should contentedly settle down in a garret or catacomb, depending on one's social and intellectual status, BEHOLD, come the barbarous Amazons from all directions, bent on destroying all intellectual endeavor and curiosity.

Are Bowdoin men so weak that, though they are denied the pleasures of the feminine wiles for six months of the academic year, they yield to the taut calf, the bright madras dress, the alabaster breast, the wind-whipped hair of some young thing who comes with smiles and wiles of friendship, but bears destructive slings and arrows behind the quivering heart. Who complains over the beautiful snow that makes our campus assume its Christmas card appearance from October to May; who among you sees anything so difficult about the long trek to other lands of richer milk and sweeter honey; who screams jealous invectives against his brothers who must live under the constant harassment of these screaming Amazons during the whole four years of their so, so brief college opportunity?

For so many months you live the true scholastic life, testing your mind with the best that sages can make recondit, obtruse, and obscure . . . now look at you. Sipping tall draughts of canned champagne, licking bitter sweet honey from the lips of the invaders. Do you yield so easily those far distant horizons for which your very essence has striven, sweated, and strained for so long. How easily you forget the words of truth which do emanate from far sager lips than you should touch this weekend: "Yet, many there be that have run out of their wit for women, and become servants for their sakes. Many also have perished, have erred, and sinned, for women. . . O ye men, how can it be but women should be strong, seeing they do thus?" (Estrus)

Take to the beaches and with nimble lass become part of

The things we did last . . . Spring! Unidentified revelers back in the warm sun of last year's Ivy Weekend on an equally unidentified stretch of Maine coastline. Indentify, however, is relatively unimportant in such situations. Rather, forget who you are, your background, social and economic status in society, what your parents or James Bowdoin, yes, The James Bowdoin, would think . . . enjoy yourself.

nature, praise the gods with your libations of sweet nectar and strains of orchestral beauty. Yes, bring in the imagined Spring with dancing; call Aprodite to your side; summon Bacchus from the spirit; revel in the artificiality of your pleasures, but remember the muse you sacrifice in your revelry. Remember her who through wind, snow, sleet, or hail keeps her appointed rounds by your side, never finching, never falling from the task of developing your mind for bigger and better heights. Sink, slip, to the depths as you welcome Spring with rites of the pagan. But, think, think, consider what you sacrifice for your moments of pleasure with fair maidens on beaches white as ivory or in magestic halls filled with nice music.

To your destruction I leave you, my brothers. Cast off the scholastic robes for the motley of pleasure. As for me, my spirit lies far, far away where jasmine and magnolia mingle their scent with essence of refined, sculptured beauty which broadens the mind and causes the pale light of truth to radiate on the mind. There fantasy becomes reality in a paradise of heightened ecstasy, and there I go in spirit this weekend. My mind is 1,342 miles away and I have no date save with a memory, a hope, and a book or two. With wine from the soured grape I salute you; I leave you to your debauchery . . . I'm going home. — Tantalus Unleashed

Gilman, Hannaford Join Fall Faculty In Math., English

President Coles announced today that Albert F. Gilman III will join Bowdoin's Faculty in September as an Instructor in Mathematics. Professor Holmes, Chairman of the Mathematics Department, said Mr. Gilman will teach both elementary and advanced courses as well as assist with the work of the Department. Mr. Gilman is now a Graduate Teaching Associate at Indiana University, where he is completing requirements for his Ph.D. degree. He was formerly an Instructor at the Lubec, Maine, High School.

He received Master's degrees from both Indiana University and Montana State University and was awarded his B.S. degree at Northwestern University. He prepared for college at Central High School, Chicago, Ill.

His main fields of interest were in his general area of study algebra, algebraic geometry, and the Von-Neumann ring Theory.

President Coles announced today that Reginald L. Hannaford will join the Faculty in September as an Instructor in English.

Professor Herbert Ross Brown said Mr. Hannaford will teach courses in Representative British Literature and English Theory.

Mr. Hannaford has been studying since 1961, Mr. Hannaford is completing requirements for the degree of Bachelor of Humane Letters.

From 1962 to 1961, Mr. Hannaford held two concurrent positions, beginning in 1966 he was an Instructor in English at Oakwood School, Foughnessville, N. Y. In 1967 he became a Civil Teacher in the Teacher Education Program at Vassar College, and in 1968 he joined the faculty of Dutchess Community College, Poughkeepsie, New York, as an Instructor in English.

Theatre Conference To Sponsor One-Act Playwriting Contest

In an attempt to encourage New England playwrights, and to assist theatre groups in the production of new plays, The New Scripts Committee of The New England Theatre Conference is sponsoring a contest for original, unproduced and unpublished one-act plays.

The best three of these new plays, to be selected by the Committee, will be awarded cash prizes of \$25.00 each, and will be given script-in-hand productions by leading community and educational theatre groups at a "Showcase" on November 16, 1968 at Boston University, Boston, Mass. This "Showcase" will be attended by winning playwrights, members of the Conference and guests, and Elliot Norton, drama critic of the Boston Record-American and Sunday Advertiser will comment on the plays.

The contest is open to playwrights living in New England; the deadline for submission of plays is September 1. Consideration may be obtained by writing to the Chairman of the New Scripts Committee, Prof. Samuel Hirsch, Division of Theatre Arts, Boston University.

HISTORY 23 OFFERED

A new history course, History of Latin America, (History 23) will be offered in the Fall semester, 1963. History 23 will meet on Monday, Wednesday, and Friday at 10:30 and will be taught by Assistant Professor Levine, who will join the Faculty in September as an Instructor in English.

Prerequisites for History 23 will be History 1-6, History 11-12, or Government 1-2. Beginning with an examination of the colonial policies of Spain and Portugal, the course continues through the movement for national independence, the struggle for political stability and economic development, and ends with an examination of some of the problems now facing the area. Students wishing to take History 23 should change their registration cards at the Dean's office; there will be no charge for such registration change.

Notes And Comments

By Jim Kelly

Strange things happen every year. Someone has been known to wear the volleyball team from four or five of the trials...

And, as, and here is the big plus, we've come up with some great suggestions for the Bowdoian staff, and his date who had themselves a fun for the day to do over the try weekend.

- 1. Have a "Gendybe Show-Hello Summeh" Party (this works better in the day-dry, but not at all same).
2. Go pat the lions in front of the Art Museum (this is better at night).
3. Stand on the steps of the union and act as the Official College Greeter (this is a special for men who are waiting for their dates or vice versa).

Students Reminded To Apply Early For Military Deferment

Students interested in applying for student deferment from military service are advised that a specific written request for the registrars' deferment must be submitted to his local draft board, The College Service Certificate, Selective Service Form 108, and the College Qualification Card must be completed...

Three Awarded Summer Internship in Washington

Three juniors have been selected to serve as political interns in the nation's capital during the coming summer. Professor Athern P. Daggett announced today. The three students are David Cohen, Donald G. Alexander and Robert S. Frank, Jr.

Daggett, Hathaway, and Boyles Debate American Policy In Cuba

Our "American Policy in Cuba - Past and Future" was debated at the Alpha Rho Union House Friday night, May 10, by Professors Daggett and Hathaway and Captain Boyles. The panel discussion consisted of a general statement from each member of the panel, questions directed to panelists from other members of the panel, and questions from the floor.

History Professor said that we are tolerating a present defense system that "would make Genghis Khan vomit." Supposedly, we have a nuclear fire power to kill each Russian citizen under the doctrine of "not enough, he asked.

Professor Daggett said that we must deal with the immediate problem and not work out the solution of armaments just yet. He noticed the Cuban problem the "Monroe Doctrine threat come to life. Russia is taking under the doctrine because it is "a foreign power" but not only extended its system to a country in the Western Hemisphere, but has also controlled the country, thus violating the doctrine twice.

Hughes Selected As Intern Under Peace Corps Pilot Project

Will Hughes, of Brunswick, Maine, has been selected as one of only 10 college students in the nation to participate in a pilot project of the Peace Corps in Washington, D. C. Hughes will be assigned to the Philip H. White, Assistant to the Director, John S. Cohen of Bowdoin, and that Hughes has been accepted for a Bowdoin Intern Program of the Peace Corps during the coming summer.

"GOLDEN SPIKE" AWARDS

- To John Merrill who narrowly edged out John LaCasse for "best joke of the year."
To the "Bird" and the "Beast" (29 Hycle) for winning the annual ROTC award in gunnery.
To the Bowdoin Library for successfully phlebotomy a live turkey in the fifth floor stacks.

ATHLETE OF THE YEAR DEPT.

- To Alex Karzas who, after a short, but brilliant career in Pro football, this year tested to what promises to be an equally short one in Pro wrestling.
To the Athlete Department for scheduling away track meets on all Bowdoin's big weekends.

Paintings Of India Exhibit Opens; Museum Policy Acclaimed By TIMES

A group of fifty miniature paintings created in India during the period 1759-1859 when British dominion gradually crept over the sub-continent, will be the present exhibit featured at the College Art Museum.

The curator of the Museum, Marvin S. Beck, who arranged the exhibit and it will probably be the first time a collection of Indian painting devoted exclusively to that period has been presented in this country.

The pictures have been loaned to the museum anonymously from one of the largest collectors of Indian painting in the world, Mr. Sadik said.

Importance of the exhibition is underlined in the 4-page catalogue of the show which will be available. The catalogue, which will contain reproductions of all of the Indian paintings in the exhibit, will include essays on the art of the work on show by two eminent authorities on Indian history and art.

In his essay, Professor Beare discusses the broad social and political changes which influenced the development and eventual disappearance of the classical miniature painting traditions of India.

Professor Beare writes, "British impact on Indian culture was rather limited, and the British, indeed, adopted more from India than they generally gave."

The following is a condensation of an article by Mr. John Canada, Art Editor of the New York Times. Originally headed, "Mughals in An Land and a Hardy Avast! The Exhibitions of Highest Quality and Variety Go On Across the Land, Mr. Canada's article printed in the Sunday Times, May 12, discusses several significant art exhibits outside the British Isles.

On behalf of the College and the Department of Art, we would like to express our appreciation to Mr. Canada for his reference to Bowdoin's appreciation and interest in the arts.

Sports Take A Back Seat

To the casual observer of the Bowdoin scene, Ives week-end appears to extend from Wednesday night to the following Tuesday morning.

To the charming visitors and their proud escorts, there remains but one example of Bowdoin's athletic prowess, Friday afternoon's soccer clash at Pickard field.

We also plan to head south across the Piscataquis River, with the Prudential Company's answer to the Senior Center as our guide post.

... with the apathy of our campus, that quality that students tend to get most fired up about.

... with Bowdoin, that small, privately endowed liberal arts college, located north of the Piscataquis River, which abed its cloak of diligence and abandons its hallowed halls and playing fields one May weekend a year in favor of Boston and beaches.

... the quality of character, that which our teams are designed to build half of the time.

... to ponder defeat, that which builds character.

... to the enjoyment of your dates.

... with forecasts, which consistently differ from results (example — Maine weather).

... to pay your regards to the color grey, which has universally replaced regal purple in demanding respect.

... with the memories of our hometowns, where we all won four letters.

... to the state of Ives (inebriation), the spring sport in which everyone wins his sweater.

... with June, and also July, August, and September, the best part of the school year.

... (The Baseball team has personally requested that we leave out a sentence with K in it).

... with Less, where we are at the end of a season, to explain how we did.

... with Maine, where Bowdoin will always be but where Bowdoin will not always play.

... with Next Year, what we will always have.

... to ponder prejudices, what can be eliminated by outstanding athletic ability.

... with the hopes that next year's track team will be of the same high quality that this year's is.

... with required, "cal" that is.

... to search for spring, that natural phenomenon peculiar to latitudes south of the Piscataquis River.

... with the top of the Senior Center, from where future Bowdoin seniors will be able to watch the Red Sox in the World Series.

... with the soccer match whose vicious action will leave Pickard Field permanently scarred.

... with Westbrook, the playing area which rivals Pickard Field as a training ground for Bowdoin teams.

... XXXXXXXXXX (our ride is leaving for Boston).

Lacrosse Squad Splits Final Two Encounters

The Bowdoin lacrosse team extended its winning streak to four games by downing Worcester Poly Tech 7-6 last Saturday on the opponent's field.

Bowdoin's Dave Kilgour scored the first goal of the day which was soon matched by a Worcester tally.

The lacrosse team was held to a 2-1 edge. After this point the Bowdoin team was never behind, although they were never ahead by more than two goals at any time.

Wednesday afternoon the Bowdoin lacrosse team wound up its season by dropping a game to Tufts by a score of 3-2.

Ties For 6th Place In N.E. Tournament

Bowdoin's golf team finished in a strong tie for sixth place in the 36th annual New England Intercollegiate Golf Tourney at Williams College.

The University of Connecticut won the event with a total of 326 and Worcester Tech was second with a score of 322.

Bowdoin finished in a tie for sixth place with Holy Cross and the University of Connecticut.

Bowdoin was a surprisingly strong contender considering its season record of four wins and eight losses.

With Maine, where Bowdoin will always be but where Bowdoin will not always play.

New Faculty To Join Campus

President Coles today announced that Noel B. Nussbaum will join Bowdoin's Faculty in September as an Instructor in Biology.

A National Institutes of Health Fellow at Yale University for the 1958-59 academic year, Mr. Nussbaum was a Research Assistant at Yale in 1959-60 and a Graduate Assistant at Williams College in 1960-61.

Professor Alton H. Gustafson, Chairman of the Biology Department, said the courses Mr. Nussbaum will teach will include Comparative Anatomy of the Vertebrates and General Physiology.

Mr. Nussbaum received his B.A. degree from Brooklyn College, his M.A. degree from Williams and is completing requirements for his Ph.D. degree at Yale. He held a Merrill Fellowship at Yale in 1959-60.

His research projects include studies on pituitary-thyroid relationships in reptiles, work in the vitro-cultivation of teleost (bony fishes) tissue explants (removed from the fish), which was supported by a grant from the Merrill Corporation of New York; and a study on calcification in regenerating fish scales, which was supported by an N.I.H. grant.

Mr. Nussbaum is the author of articles on his research which have appeared in "Anatomical Record" and scientific publication. His main fields of interest in his general area of study are Developmental Morphology, Comparative Endocrinology, and Calcification and Growth. Mr. Nussbaum is a member of the American Association for the Advancement of Science, and the American Society of Zoologists.

author of numerous articles on immigration to New Zealand, mental hospital problems, religious beliefs in various primitive areas, illness and society in pregnancy, and other psychological factors. He has also read papers on these subjects before Australian and New Zealand professional societies.

With his main fields of interest in social psychology and personality theory, Dr. Brown has done research in the areas of the psychological correlates of illness and the psychology of religious beliefs.

An Honorary Psychologist at Queen Elizabeth Hospital in Adelaide, he is an Associate of the British Psychological Society, a Foreign Affiliate of the American Psychological Association, and a member of the executive committee of the Marriage Guidance Council of South Australia.

President Coles today announced that A. William Bloom, Jr. will join Bowdoin's Faculty in September as an Instructor in Speech in the Department of English.

Professor Thayer, Director of Oral Communications in the Department, said Mr. Bloom will teach courses in freshman speech, advanced debate and argumentation, and advanced public speaking, as well as assist in coaching Bowdoin's debating team.

Mr. Bloom is now an Instructor at Clemson College, Clemson, S. C., and formerly held the same post in Clemson's Continuing Education Center. He was previously a Credit Assistant in Public Speaking on the Faculty of the University of Maryland, where he also served as Staff Director of the University's Summer Theater.

He received his B.A. degree at Guilford College in North Carolina and his M.A. at Maryland, and is an Instructor in Speech in the Department of English.

Mr. Bloom is also an author of articles on his research which have appeared in "Anatomical Record" and scientific publication. His main fields of interest in his general area of study are Developmental Morphology, Comparative Endocrinology, and Calcification and Growth. Mr. Nussbaum is a member of the American Association for the Advancement of Science, and the American Society of Zoologists.

His main fields of interest in his general area of study are Developmental Morphology, Comparative Endocrinology, and Calcification and Growth. Mr. Nussbaum is a member of the American Association for the Advancement of Science, and the American Society of Zoologists.

It was announced that Dr. Laurence B. Brown of the University of Adelaide, Australia, will join Bowdoin's Faculty as a Lecturer in Psychology for the first semester of the 1963-64 academic year.

Professor L. Dodge Fernald, Jr., Chairman of the Department said Dr. Brown will teach courses in Contemporary Theory in Psychology and General Psychology. He will also participate in development of research projects in the department.

Dr. Brown is Senior Lecturer in the Psychology Department at the University of Adelaide, having been first appointed as a Lecturer in 1957. From 1950 to 1957, he was Honorary Lecturer at Victoria University of Wellington, N. Z., where he received his B.A. degree in 1950, M.A. in 1951, and Diploma in Education in 1953. He was awarded his doctoral degree at the University of London, England, in 1954, and an honorary Ph.D. at Adelaide in 1964.

He received his B.A. degree at Guilford College in North Carolina and his M.A. at Maryland, and is an Instructor in Speech in the Department of English.

Mr. Bloom is also an author of articles on his research which have appeared in "Anatomical Record" and scientific publication. His main fields of interest in his general area of study are Developmental Morphology, Comparative Endocrinology, and Calcification and Growth. Mr. Nussbaum is a member of the American Association for the Advancement of Science, and the American Society of Zoologists.

The petition expressing student sentiment against the existing Chapel requirements will be presented to President Coles Monday afternoon. The petition will call on the President to form a committee composed of faculty and student representatives to study the changes in the attendance requirement and to initiate a new chapel program. In addition, the petition will request that the President form this committee immediately in order that the Chapel program may be discussed when school opens again in September.

He received his B.A. degree at Guilford College in North Carolina and his M.A. at Maryland, and is an Instructor in Speech in the Department of English.

Mr. Bloom is also an author of articles on his research which have appeared in "Anatomical Record" and scientific publication. Lapointe and McIntire Named As Co-Editors Of 1964 Bugle

Editors of the 1964 BUGLE, Paul Lapointe and Phil McIntire, have been named co-editors of the 1964 Bugle. Lapointe and McIntire will succeed M. Greg Robinson as the editorial positions.

Last year Lapointe was a James Bowdoin Scholar and a Dean's List student. He was on the Varsity Basketball squad and played freshman basketball last year. He is a member of the Glen Club, the Newman Club and is House Manager of Psi U, with the 1963 Bugle as his Activities Editor.

McIntire, who was Social Editor of this year's Bugle, is a Dean's List student, a member of the Glen Club, and played freshman basketball last year. He is an Orientation Chairman of Psi U.

The 1964 Bugle Business Managers are: Treasurer, Robert Waldman, both of whom are members of ARU and served on the business staff this year. Bugle business manager, Robert Waldman, is secretary of the Student Union Committee, and is on the Building Committee of the University.

Waldman is Treasurer and Recording Secretary of ARU and was Freshman basketball manager.

DORM NOTICE

All dormitory rooms must be vacated not later than 12:00 noon on Tuesday, June 11. Graduating Seniors who wish to stay on the campus after that date and who cannot arrange other accommodations should see Dean Grossman at once.

Dormitories will be open for appointments on Tuesday, September 11, at 12:00 noon. Keys may be obtained from the office of Grounds and Buildings in Rhodes Hall.

Final Orient

Following his own tradition of being "painted with a new classmate in his season" the ORIENT will consider this its last issue for this academic year, but will resume "publication" again next fall. Frankly, we want a vacation.

The first deep within the noisy, moist walls of Moore Hall shall the ORIENT once again materialize in a last and suddenly rediscovered in the intellectual heavens. Our chains are loosened, and we leave for other assignments. But, we all have carved our names on the masthead of the ORIENT again in September.

JUST AS PRETTY AS A PICTURE. — No, not Frank Drigotas, the other one "the other one" is Miss Judy Carr, the kappa big house queen who was selected as queen of the Ivy Weekend. Judy, an obviously cute blonde, is an 18 year old freshman at Westport, Shaping the picture with her. Frank was elected the recipient of this year's "Wooden Spoon," going to the most popular member of each junior class.

Six Students To Work In Europe Under The Supervision Of AIESEC

Six Bowdoin students will spend the coming summer working in Europe under the auspices of the International Association of Students in Economics and Commerce (AIESEC). They will be part of an international exchange program under which college students observe economic systems of foreign countries while gaining actual business experience through administrative positions in cooperating firms.

The Bowdoin trainees, most of whom will be working in banking and insurance companies, include: John A. Gibbons, President of the Bowdoin AIESEC chapter, who will be employed in Zurich, Switzerland; Donald A. Goldsmith, the chapter's secretary, who will also work in Zurich; John A. Pope, Treasurer, who will spend the summer in London; Theodorick John S. Oretzky, who will be employed in Vienna, Austria; David R. Treadwell, Jr., who will work in Paris, France; Peter L. Geary, who has not yet determined where he will spend the summer.

Each college chapter of AIESEC solicits traineeships from nearby business firms. For each job it is able to procure for a foreign student, the chapter is entitled to send one of its members abroad.

Last year, the first in which Bowdoin participated in the summer program, the Bowdoin AIESEC chapter was able to send eight students abroad.

The six Bowdoin students going to Europe this summer will fly to Paris by jet in mid-June and will return about Sept. 15. Housing will be arranged for them by host AIESEC chapters and the students will receive weekly salaries comparable to \$60 to \$80 in the United States.

Secretary Goldsmith said membership in the Bowdoin chapter is open to all interested students and the only requirement to qualify for a summer abroad is completion of an elementary course entitled "Principles of Economics."

"Sophomores, juniors and seniors are all eligible for the program and there is an excellent opportunity for anyone interested to actually participate in the exchange," he said.

Chapel Choir On Radio-TV Sunday

The Chapel Choir, under direction of Professor Beckwith, will appear on a religious program to be carried by a four-station television and radio network this Sunday (May 26) from 10 to 10:30 a.m.

The program, the weekly "First Radio Parish Church of America," will be telecast by Station WCBSTV, Channel 6, Portland, and simultaneously broadcast by Radio Stations WCBH in Portland, WRDO in Augusta and WLSEZ in Bangor.

The Rev. Howard O. Hough, D.D., of Portland, where the program will originate, will conduct the service. He is the founder and minister of the First Radio Parish Church, which was established 37 years ago and is the oldest radio church in the United States.

Dr. Hough said a special guest at the service will be Mr. Kenneth C. M. Sills of Portland, widow of former Bowdoin President Kenneth C. M. Sills. The late Dr. Sills was a director of the radio church for many years.

The Bowdoin Chapel Choir will offer three hymns and an anthem, "I Will Lift Up Mine Eyes" by Clokey.

Commencement Week Schedule

Bowdoin will open its 156th Commencement Week Exercises with the traditional Baccalaureate Address by President Coles, 4 to 5:30 p.m. in the Moulton Union.

The Commencement Play, "The Duchess of Malfi," by John Webster, presented by the Masque and Gown student dramatic society, 9:45 p.m. at the Moulton Union.

Organ Recital, 9:15 a.m., First Parish Church.

Commencement Procession forms at 9:30 a.m. on the Class of 1963 Walk and begins at 9:45 a.m.

Commencement Exercises, 10 a.m. in the First Parish Church.

The Commencement Dinner for Alumni, Bowdoin Fathers Association members, graduating seniors and their fathers, and other guests in the Hyde Athletic Building, and the Commencement Luncheon for Ladies, sponsored by the Society of Bowdoin Women, in the Sargent Gymnasium, will both be held at noon.

During the week there will be exhibitions at both the Bowdoin Museum of Art and Hubbard Hall, where a scale model of the campus showing existing buildings and planned additional facilities will be on view.

Annual Meeting of Bowdoin's Alumni Council, 9 a.m., Council Room, Alumni House.

Annual Meeting of the Society of Bowdoin Women, 10 a.m., Gibson Hall of Music.

Traditional softball game between Classes holding their 5th and 10th Reunions; 10:30 a.m., Pickard Field.

Commissioining Exercises for ROTC graduates, 11 a.m. on the terrace of the Walker Art Building, in Pickard Theater, Memorial Hall, if weather is inclement. Speaker will be United States Senator Paul H. Douglas of Illinois, member of Bowdoin's Class of 1913. The public is cordially invited to attend this event.

Alumni Luncheon for Men in the Hyde Athletic Building, and the Society of Bowdoin Women Luncheon in Sargent Gymnasium, both at noon.

Annual meeting of the Alumni Association, 1 p.m., in the Hyde Athletic Building, immediately following the luncheon.

Lecture by John H. Rich, Jr., Class of 1939, Chief of the National Broadcasting Company's News Bureau for the Far East in Tokyo, 2 p.m. in Smith Auditorium, Sills Hall. The public is invited to attend without charge.

Annual meeting of the Bowdoin Chapter of Phi Beta Kappa, 3 p.m., in the Eastern United States and Palestine Room, Sills Hall.

Fraternity Reunion meetings in the Chapter Houses beginning at 3 p.m., and Class Reunion Dinners during the afternoon and evening as arranged.

Chapel Petition

The petition expressing student sentiment against the existing Chapel requirements will be presented to President Coles Monday afternoon. The petition will call on the President to form a committee composed of faculty and student representatives to study the changes in the attendance requirement and to initiate a new chapel program. In addition, the petition will request that the President form this committee immediately in order that the Chapel program may be discussed when school opens again in September.

Council Committees Named; Chapel Petition Supported

Student Volunteers Collect \$850 For Multiple Sclerosis

Volunteers from eight houses and the Independent Organization made the Multiple Sclerosis Canvas of the Brunswick Topeham area a complete success Wednesday evening. A total of \$850 was collected from Brunswick residents between 6:30 and 8:30. The previous amount donated in this area was \$500 last year, collected by a canvas corps of housewives.

About two weeks ago the Student Council decided to undertake this community project to give the College and some friends a chance to do something for the benefit of the town as well as aid a worthy cause.

The Zetes headed by Ed MacAbee collected \$275 and the Psi U's headed by Gregg Robinson collected \$200. Other captains were B. C. Hawkins, Chi Psi; Ken Smith, T.D.; Guy Wheeler, EKE; Jim Hastings, Independent; Fred Stoddard, A.D.; Jeff Lang, Beta.

Many of the volunteers summed up the value of the project by noting the appreciation of the people in the area for a service done by the college for the community, and their willingness to contribute to make the cause a success.

Chapel Petition Supported

The Student Council held its last meeting of the Spring semester Monday evening, with the chief item of business being the selection of a Student Orientation Committee, a Rushing Committee, three members to the Student Judiciary Board, and the establishment of a Student Council Lectureship Committee.

Appointed to the Student Orientation Committee, which is composed of five members, i.e., two from the Council and three from those not in the Council, were: the Council, Paul Burrham and Steve Putnam, and, for the student body, Steve Ingram, Phil McIntire, and John Kelly, all of the Class of '68.

Rushing Committee: Bob Farquharson, Louis Foucher, Phil Dell; Fred Ball, Sigma Nu; and Ken Smith, T.D. were selected to serve on the new Student Rushing Committee which was established last week by the Council's acceptance of the Rushing proposal. This new committee is to consist of five members of the Student Council who are to work in conjunction with the rushing chairmen of the various houses in determining rushing limits and to recommend sanctions against houses not complying with the terms of the schedule.

The Student Judiciary Board, which consists of two Juniors serving for two years, a Senior serving for one year, and two incumbents, received the following appointees: Senior member, Rick Black; and Junior members, Rick Andrias and Steve Bloomer. These appointees will join Bob Taylor and Sherman Rounsville, last year's Junior member, on the Board.

Berle Schiller and Jeff Lang were selected to serve on the Student Faculty Lectureship Committee. Dave Cohen, Rick Andrias, Jeff Lang, and Steve Weiss volunteered to serve as a Committee for the Student Council Lectureship Program.

Blanket Tax After reading a letter from Mr. Monroe, Director of Athletics, and another from the Bursar's Office, the Council unanimously went on record in favor of supporting the "Report of the Sub-Committee of the Blanket Tax Committee and the Dean who was happy about the weekend as a whole" but was disturbed over the problem of outside money which he felt should be left up to the houses.

This coming year's Student Council delegate to the Council, Fred Harlow and Dave Lander.

Colonel Ryan Leaving In July; Headed Bowdoin's ROTC Staff

Colonel Edward A. Ryan, USA, Professor of Military Science and head of the ROTC unit at the College, has been assigned to the headquarters staff at Fort Monroe, Va., the Department of the Army has announced. Colonel Ryan's transfer to his new post will take place on July 15.

The ROTC head, who has been stationed here since June, 1960, was honored at a dinner at which Cadet Captain Gary Yamashita, student Commander of Bowdoin's ROTC unit, presented Colonel Ryan with a Bowdoin Chair. The Chair, presented Sergeant John D. Mulse, USA, of Bowdoin's ROTC staff, with a Fourth Award of the Good Conduct Medal.

Colonel Ryan received his B.S. degree at the University of Rhode Island. He entered the Army in 1941 and served in Germany and France during World War II. He was on occupation duty after the war, and in Korea during the Korea conflict. Colonel Ryan holds the Battle Stars for campaigns in Europe, the Bronze Star, and the Commendation Ribbon.

International Club Selects Henshaw

The Bowdoin International Club recently elected Dave Henshaw as President. Other officers elected were Onye Kamani, Vice President; David Solmitz, Secretary; and Andrew Seager, Treasurer.

At this meeting held July 11, Henshaw showed his and Jean-Bogio-Sola's slides of their travels from Maine to Florida. Christian Willmer showed slides of the Eastern United States and Albert Eulman presented his photographs of his native country, Holland.

The International Club will end its program with an outing to the seashore this Sunday.

Frank Nicolai Elected 158th Commencement Senior Class Marshal

Frank Nicolai, has been elected Senior Class Marshal for the College's 158th Commencement Exercises on June 15.

Nicolai, who was chosen by vote of his classmates, is the son of Dr. and Mrs. Frank Nicolai of 11 Stewart Ave.) Stewart Manor.

A mathematics major, Nicolai has completed a distinguished undergraduate career. He was elected last February to Phi Beta Kappa, national honorary fraternity for the recognition of academic achievement. He is a Dean's List student and a James Bowdoin Scholar and, in his freshman year, won the Oren Chalmers Hornell award for maintaining an "A" average in his studies while competing in soccer, basketball and baseball.

Nicolai has served as President of Sigma Xi Fraternity and has won numerous awards as a member of the College's Reserve Officers Training Corps Unit, a Cadet Major, he holds the Bronze Cross of Achievement, awarded by the U. S. Legion of Valor. He was also awarded Academic Achievement Wreaths for three years, Superior Cadet honors for three years, and was designated a Distinguished Military Student.

He was a co-captain of last fall's soccer team and has been leading pitcher on this spring's baseball squad.

Nicolai has served as Chairman of the Student Council Orientation Committee, and as a member of the Student Judiciary Committee.

Colonel Ryan

Colonel Edward A. Ryan, USA, Professor of Military Science and head of the ROTC unit at the College, has been assigned to the headquarters staff at Fort Monroe, Va., the Department of the Army has announced. Colonel Ryan's transfer to his new post will take place on July 15.

LOOK OUT BELOW! — Standing on the steel grate-work of the reformation, workmen prepare to receive another installment of the grey stuff. After yesterday's pouring, the "curbing" of the entire slab must be begun. This process, in fact, will require so much water that special mains had to be laid preparatory to the cement work. Once this is accomplished, the construction will turn upwards in earnest, to the same of about one story per week for the rest of the summer.

Notes And Comments

To Have Fun Without Really Enjoying Yourself

By Jim Riley

Everybody seemed pretty calm about the whole thing. The crowd of eleven or twelve laughed and joked, shifted from one side of the car to the other and made random speculation about how it got there.

We were among the first to arrive at the scene. If that's exactly what you'd call it. It was a Pontiac, apparently dark green in the dim light from Massachusetts Hall.

"Don't touch it," somebody said after the waitress had gone to call the dean. "Nobody wants their fingers prints on the windshield of the police get here." Not a bad thought as we carefully look out a handkerchief and smudged our own prints on the windshield until they were beyond identification.

"This isn't a stolen car, I don't think," somebody else ventured. "Probably just a prank. Some guys took the car and turned it over on its side for a joke." He had the attention of the crowd, so the speaker grew bolder in his speculation. "I was studying up in the third floor of Winthrop and I saw this guy push the thing up into front of Mass Hall, and rock it over on its side. Then they all took off. I think they must have been leeches." Everyone agreed that this was probably an accurate assumption.

"They, I know who our this is," a boy in pajamas and tattered vest-unders. "It's been up on blocks since Christmas, or maybe before. The crowd seemed happy to hear that at least it hadn't been stolen from down town. We threw caution to the winds and touched the car again.

The crowd was growing larger, and one of the first to arrive, tired of staring at the phenomena went to get the owner whose name had been supplied courtesy of the boy in the pajamas.

The watchman came back nonplussed by the whole thing, and said something like "I'm sorry, but I can't help you."

Actually, there isn't much more to the story, the dean arrived, the owner identified his automobile, the crowd righted the automobile, pushed it over into a parking lot and everybody went home to bed. The incident was a minor one, but it was significant that the student body seldom does one see an overturned car within fifty feet of Mass Hall. It's almost as if the car were being kept in a safe. The only justification we can find for doing something like what happened Monday night is that it was a way of expressing our frustration. It's almost as if we were saying to ourselves, "If only we could have done it ourselves, we might have tried to help right the wreck and been pinned under it for his trouble. Both would have enhanced an already good day."

Practical jokes are great. Practical jokes are fun for everybody but the guy whose property is damaged, the guy who is hurt or embarrassed, and the guy who is caught instigating one. Turning a car over in front of Mass Hall isn't really dangerous, and it isn't really funny either, its stupid. The only justification we can find for doing something like what happened Monday night is that it was a way of expressing our frustration. It's almost as if we were saying to ourselves, "If only we could have done it ourselves, we might have tried to help right the wreck and been pinned under it for his trouble. Both would have enhanced an already good day."

As long as we find ourselves in the Anything-For-A-Laugh Department, we'd like to give this week's Biggy Place to the UPH sophomore who recently admitted buying a beer bottle through a fifteen thousand dollar stained glass window of St. George's Episcopal Church in Durham, N. H. several weeks ago. The student "agreed to make restitution for the beer bottle through the stained glass window. He was told that the UPH graduates will have to go without beer for a week or fifteen thousand dollars in his little piggy bank. Some guy - huh?"

LETTERS TO THE EDITOR

On The Poll . . .

To the Editor:

I would like to comment on the recent curriculum poll. Inadequate handling of data such as these may lead to misinterpretations. Simple statistical procedures indicate that, for psychology at least, the student ratings are 60% attributable to the attractiveness of the courses content and 40% attributable to the size of course enrollment alone. The instructor probably accounts for considerably less than 20% of all possible responses for the students' final ratings, particularly when one considers the additional prima facie evidence that elective courses receive higher ratings than required courses.

By including the instructor names along with the course ratings, the Orient implies that the instructor is the only or most important factor in the students' ratings. The instructor is important, but for psychology this determinant is third fourth in order of importance and accounts for the final ranking only in a small irregular manner. I am indebted to the Orient for providing the data which enabled me to develop partial ratings for a note I have held for some time in psychology, course content, size of course enrollment, and appear to be the most important correlates of students' course ratings.

Unfortunately, these findings are questionable owing to the technique used for data collection. Many ratings were based on samples too small to be conclusive (8 out of 30, 3 out of 46, and the like), particularly when the majority are likely to be bimodal due to the influence of course grades and similar factors. There may be wide differences in attitudes toward the minority who bothered to reply and the majority who did not, and I cannot place any real faith in any of the findings. I even received a rating (3 respondents) in Psychology 2, a course which I have never taught.

In the Age of Rating Scales, Checklists and Questionnaires, data collection can be and often is accomplished by anyone, literally. For example, at conventions I have seen trained tape accumulating devices for evaluation by researchers. The difficulties arise in developing adequate sampling techniques, analyses of the data, and interpretations grounded in fact. Polls conducted without attention to these latter matters are DANGEROUS.

A. D. Perry, Jr., Assistant Professor of Psychology.

To the Editor:

Not only is the Orient poll of student opinion concerning the worth of courses to be considered flawed, it is also to be condemned for inaccuracy and misrepresentation. In at least one instance, the instance of Italian 4, a rating was given which can have absolutely no basis in fact. Three students listed as having rated the course, and of the three students who are in the course, it is certain that at least two of them disclaimed (sic) to answer the questionnaire (sic).

Sincerely, Henry A. Martin, Jr., Jonathan Botelho

The Bowl . . .

To the Editor:

We read your paper regularly and noticed Kenyon's mention recently in regards to College Bowl problem. I can assure you the program was greatly debated by the students before we decided to go on. The Collegian did not oppose it. We just asked a few questions about the show. Finally a vote was taken and there were less than 30 students against the idea.

Keep the quality of your paper. We find it one of the few we get that doesn't affront us.

May you have success on College Bowl. Best wishes, Dixie Long for the Kenyon Collegian

P.S. Your faculty evaluation of recent date is a good idea. Will write you later and see how you did it.

The Student Council

To the Editor:

It is not ordinarily the case that members of the Student Council publish their opinions on Council matters; I do so because I feel that an active Council should not only take initiative when and where it wants, but that such a Council needs close communication with all groups concerned. It is my feeling that an individual with no pretenses of representing the opinions of any group or organization on campus.

The Student Council has been faced with a large amount and with unusual variety of issues this Spring, including a revision of the membership clause of the Constitution, a new Orientation program, a new Rushing program, the proposal on revision of the Blanket Tax, the General Electric College Bowl and the course, whether to have the lights on at Ivy weekend, two referendums and increased publicity students are familiar with the issues to some extent, and I do not regret that I am writing to you today. I may take your time to point out what seems to me to be the issues of this Spring on public campus matters.

The Student Council is a unique student organization. Its twenty-five representatives constitute the only completely student-run, unadvised and uncontrolled student organization on campus. This unique quality does not necessarily improve the prestige of the Student Council, however, because such a handful of potential is expected to Vitalize demands of every campus group, not just those of the students.

Thus, the students, although they are usually discouraged with the results of the Council's work, feel that their views could conceivably be represented and acted through this organization, and they criticize the Council. For the Student Council, there is no more legitimate means of communicating with the students than via the Council.

The faculty feel that these older statements of the student body are in order to convince about innovations; they reason that if they can convince Council members, they can't do the job; most of the members rather enjoy knowing all the sides of a given question and talking about it. For the student in short on time they are. Each man in there is honestly trying to do the right thing. That means that each man has to do the right thing by the students and all the other groups who may center their pressure on the Council. I have to stress that as much as Council members may want to represent their fraternity brothers or general student opinion, they are put in the position of having to do into significant account opinions other than those of students and must act accordingly.

It is simply not reasonable to say that the Council can be only the spokesman of the students. The truth is that passes through Council could easily be communicated in

other ways; but there must be an entirely student organization through which the substantive issues between the students and the other groups on campus can pass.

But the Council is more than simply an objective collector of information on controversial issues. No dean wants to simply enact regulations; no student wants to hold his opinions to himself. There must be an organization between the two which can act as a bridge between them. If some faculty members wanted to abolish Orientation because of its abuses, the Student Council would not simply enact regulations; no student wants to hold his opinions to himself. There must be an organization between the two which can act as a bridge between them. If some faculty members wanted to abolish Orientation because of its abuses, the Student Council would not simply enact regulations; no student wants to hold his opinions to himself. There must be an organization between the two which can act as a bridge between them.

I write "must" it is true that anything could be imposed by the administration. It is just not good administrative policy to do so, however, and Mass Hall usually won't. There are cases, of course, when the Council has passed resolutions after closing with the Dean on a Monday night. Such a resolution is, in my opinion, the best way to influence the natural reaction of the students to a given situation.

Many more significant are the long-range developments. First, the Council has been reminded that it is a representative body. Also the students have realized their necessary role in making it such. Second, the administration, through Dean Gresson has shown its willingness to discuss and consider student opinion, both as expressed personally and through the Council. This is shown by its availability for individual talks with students during the last few weeks. Third, several publicity proposals, and a safeguard against rash actions by the Council were passed last week by the Council to enlarge its role as the representative body of the campus. This will happen however, only if the students respond to this opportunity. The final, and perhaps most important, development has been the Council's decision regarding Chapel, not merely to "go along with the gang" in mere criticism, but to study the matter through the Summer and into the early Fall by a serious, workable alternative program.

One may only hope that we are finally past the stage of post shots by the "best shots" against Mass Hall. If only the Council, in a mature and constructive fashion, thereby removing any need for this supposed Mass Hall tyranny which has occurred in default of any student government.

Let's not forget this new feeling in the Summer. Respectfully, Steve Putnam, '63

Part of the reason for not going to the students on some issues was neglect; but this neglect was much promoted by the lack of interest in Council affairs. We have since enacted measures (see limits for the meeting of May 15, 1963) to improve our communication with the students and the campus as a whole. Perhaps others will be needed. But such steps are useful if "nothing new" is published each week. I urge all members of the college community, to perpetuate the activist

Each . . . where'd this come from? Dean Gresson and interested, curious students, even in pajamas, inspect over turned car in front of Mass Hall. The incident occurred Monday evening and seemed to be proceeding absolutely nothing. The dean came out as bewildered as everyone else. It's all good. Dean Springs Truitt, all part of the preparation for the incident before exams.

Masque And Gown Tests-Pickard Sound System In Houseparty Play

An all-professional quality high fidelity sound system has been installed in Pickard Theater. Daniel O. Calder, Bowdoin's Acting Director of Dramatics, said the sound system was given its first test in the Masque and Gown's production of "Rashomon" on May 15 and May 16, and performed impressively. Mr. Calder said the new equipment has been integrated with the existing sound system in Pickard Theater. The result, has been to make the theater's flexible facilities still more useful for College purposes.

The system consists of two stereo-phonograph channels with the professional type tape recorder and a "mixing panel," which affords complete flexibility of sound "input and output," and the interconnection of any and all units in any combination desired. There are 14 speaker locations on stage and in the audience area, together with 9 microphone output. The "mixer" setup provides for recording on the stage, and in the case of lecturers, questions from the audience as well.

Medical Seminar

The Bingham Associates Fund has announced its third (third) seminar in Medicine as a Career at the New England Medical School, Tufts University Medical School in Boston to be held next September 15-16.

Any physician, independently practicing medicine as one of his career alternatives is invited to discuss with Professor Kemperling the possibility of attending the 1963 Seminar in September. The Seminar has been planned by the Bingham Associates Fund for those students who are considering medicine as a career. The seminar is designed to provide an informal historical and cultural background to the still somewhat neglected area of Asian art represented in the Bowdoin exhibit.

In both his address and the essay, Professor Pearce draws upon his extensive and varied experience in India and on his knowledge of Indian art and social life, past and present. While in India in 1961-62 as a Fulbright Lecturer at Oriental University, Hyderabad, he had an unequalled opportunity to pursue his research in these areas in the government archives of New Delhi, India, Hyderabad, Lucknow and Patna. He was also able to visit major collections of Indian miniature painting in museums at New Delhi, Calcutta, Baranasi, Patna, Jaipur, Hyderabad and Calcutta, and see ministers of a number of private collections.

ROTC Awards Presented During Annual Review

The annual review and presentation of awards of the Bowdoin College Battalion of the United States Reserve Officers Training Corps was held Monday, May 20, at 2:30 in Pickard Field. The reviewing officer was President Coles with honored guests Dean Kendrick, Dean Gresson, Mr. Wilder, Professor Leith, Professor Moulton, and Professor Fernald.

Following the formation of troops, Dean Kendrick and Col. Ryan led an inspection by the Reviewing Party of President Coles, Colonel Ryan, and Professor Leith and the National Anthem, the presentation of awards to the outstanding cadets of the 1962-63 academic year was held.

Yamashita. President Coles presented Major Yamashita, US, the Commander of the ROTC Battalion, with the Pushing-Front Medal, originally given in the World War I era. Presenting to Major John F. Fernald, Jr., US, the first Captain of the Class of 1949 at the U. S. Military Academy. Major Fernald's service in World War II, his parents gave the award to Bowdoin for presentation to the Cadet Colonel commanding the College's ROTC Battalion.

Cadet Colonel Yamashita also received the Armed Forces Communications and Electronics Association Award which was presented by Vernon T. Adams, President of the Boston Chapter of the Organization. Superior Cadet-Roberts for distinction in the ROTC program, leadership, and potential qualities of becoming an officer were presented by the ROTC staff and the Military Department.

The Reserve Officers' Association Award was presented to Cadet M. Sgt. John Hill, Cadet Sgt. Edwin Schiller, and Cadet Private Edwin Bell as outstanding junior sophomore and freshman cadets. Cadet Capt. Steven Tennard is presented to the ROTC staff and the Military Department.

Research Scholarships Given To Winslow, Walls. Winslow, a senior, will be enabled by his grant to spend the summer on the Bowdoin campus participating in research under the direction of Professor Dana W. Mayo of the Chemistry Department. Winslow's research project, already underway, involves the isolation and molecular structure determination of active nitrogen compounds found in certain alpine plants.

Walls, a junior, will continue his research in the population dynamics and developmental metabolism of Leach's Petrels at the Bowdoin Historic Station on Saco Island in the Bay of Fundy. He began work on this project last summer as a research assistant to Professor Hamilton. This summer he will continue his work on his research in fish anatomy as a participant in the National Science Foundation's Undergraduate Science Education Program, a member of Alpha Delta Phi Fraternity, is majoring in Chemistry. He has been a Dean's List student and a James Bowdoin Scholar, and holds the Rufus P. Moody Scholarship, awarded for proficiency in Chemistry.

Walls, majoring in Biology, is a Dean's List student and James Bowdoin Scholar. He holds the William Jay Symonds Scholarship, awarded each year to a student showing a tendency to excellence in literature. He is also the holder of a grant from the Travel Fund, awarded in recognition of character, scholastic standing and "campus citizenship."

The two research scholarships were awarded by a special committee headed by Dean Kendrick. Other committee members included Mr. Langster, Professor Riley, Professor George, Professor LaCasse, Mr. Wilder.

Foreign Service Exam. The competitive written examination for Foreign Service Officers will be given on September 1, 1963, at Bowdoin College. It is an excellent chance for students to gain experience in all phases of government and business administration, and Economics, applicants will be tested in English, Spanish, French, and General Background.

Candidates must be at least 21 and under 31 years of age as of July 1, 1963, and must have been citizens of the United States for at least nine years. A minimum grade of B has been established for those who either have bachelor's degrees or who have majored in one of the social sciences. Application forms and booklets of sample questions are available from the Office of Examiners for the Foreign Service, Room 2025, Department of State, Washington 25, D. C.

CHI PSI. Phi Delta Psi has elected Dick Cobb '63 as President and Rushing Chairman. The new Vice President is Ralph P. Stone. Other officers include: Treasurer, Richard Stone; Treasurer and Orientation Chairman, Robert Farquhar; Alumni Secretary, David O. Walker; Usher, Harry E. Timson; Sergeant-at-Arms, Raymond Reed.

Polar Bearings

By Rick Adams and George Bennett

Spring In Retrospect

Another spring sports season is nearly over. Polar Bear teams have had their share of success and share of failure both. Often, neither the weather nor the odds were in our favor, yet the competitive spirit always remained strong. It was a season that had its highlights and its pitfalls. Let's look at a few of them.

Frank Sabastean's spring track team undoubtedly furnished the most impressive win and lost record. Seniors Bruce Frost, Steve Ross, Fred Newman, Paul Quinlan, Frank Cronan have been consistent point winners throughout the year. It will be no easy task filling their shoes but Coach Sabo is hopeful. Well deserved congratulations are in order for Dave McDowell who has been elected captain of both winter and spring track for next year.

The baseball scene was not quite so bright. Pitching was the forecast weakness. As it turned out however the mound crew did a fairly steady job, but the bats of the home team were never exactly ringing with hits. Seniors on the team included Captain Pete Finn, a hustling leader, Frank Nicolosi who turned in many a brilliant pitching performance, and Chuck Shea whose fiery play around third base did much to enliven team spirit. With some strong additions expected from this year's freshman squad, the 1964 varsity nine captained by Dave Fitts should be headed for a considerably more successful season.

The lacrosse team, despite a slow start on the spring tour, had a .500 record up north. Heavy injuries found Coach Corey's squad well below full strength for a good part of the season. Graduating from the team this year will be co-captains Jack Snyder and Steve Crabtree, along with coach defenseman Bill Mason. Steve Crabtree exhibiting outstanding versatility at his defense position drew the praise of his own as well as many of the opposing coaches and players throughout the season. What makes this all the more noteworthy is that it's only his second year at the game. Elected to lead next year's squad are co-captains Don Handal and Tom Oliver.

This year's varsity netmen have made an admirable showing and as we go to press the State Series crown is still undecided. The Polar Bear squad may still capture half interest in the crown this afternoon as they meet Maine at the Pickard Field Courts. Art MacDonald and Steve Hecht are in line for kudos for their showing in the New Englands over Ives. Art MacDonald will be replacing Sam Ladd as next year's captain.

The Polar Bears have met with some success on the links this spring. The season was highlighted by the New England Intercollegiate Tourney where the Bowdoin team finished a strong sixth. There were no seniors on this year's squad captained by Bob Osterhaut. Big guns were Captain Osterhaut, co-captain Alci Grant Kloppman, and sophomore Phil McDowell. Coach Coombs is expecting better things in the future and stresses the need for practice which involves first of all getting a practice area for the squad.

The Bowdoin sailors admittedly lacking experience and depth turned in more than a respectable performance this spring. With ice in Maine up until May 1 the slow start was not unexpected. However the team went on to capture the Fries Trophy leading a field of thirteen colleges. Dave Mechem was the leading individual scorer for this meet held on the Charles.

To these teams, their coaches, and especially to the departing seniors, who have perhaps seen active participation in organized competition for the last time, we extend congratulations for their lively competitive spirit and for a job well done.

Bruce Frost And Frank Drigotas Receive Awards

Last Saturday the Varsity track team placed second in the Eastern Intercollegiate Athletic Association Track Meet. The Polar Bears were edged out by MIT, a team they had beaten twice before in dual meets.

Bowdoin who scored 53 points to the Engineers 44 was followed in the standings by Colby 43, WPI 42, Trinity 38, Central Connecticut 21 1/2, Tufts 17, Williams 16, Brandeis 9, and Colby 4.

The Polar Bears scored all but one of their points in the field events. On the other hand MIT dominated the running events especially the hurdles in which they scored 29 points, but they also scored important points in the field events.

As in every year this year Bruce Frost was outstanding for the Polar Bear. Frost again won all three of the weight events breaking two Eastern Intercollegiate Meet records in this event with his own shot put record with a heave of 61-1 1/2.

Frost's other Meet record was in the hammer. He broke Olympian Bill McWilliams record of 176-11 with a toss of 178-11. Frost also captured the discus with a toss of 140-11 1/2.

Milly McCutcheon took a second in the shot put with a toss of 50-11 1/2. George Hill, Hugh McKelbon round out the scoring in the weight events with a second and fifth respectively. Next year's captain, Dave McDowell, along with Steve Ross and Frank Cronan accounted for the rest of the Polar Bear points. McDowell easily won the broad jump with a leap of 22-11 extending his unbeaten string. Steve Ross captured a fourth in his event. In the pole vault Frank Cronan tied with Mike Keenhen of MIT for second place. This trio teamed up with Tom Oliver to get a fifth place finish in the one mile relay.

Golf Team Downs Colby; Kloppman, Osterhaut Defeated At State Meet

On Tuesday the varsity golf team travelled to the rain-soaked Augusta Country Club for the Maine Intercollegiate Public Links and Golf Championship. Bob Osterhaut and Grant Kloppman both qualified easily in the morning, shooting 80 and 78 respectively, but ran into trouble in the afternoon so finish ten strokes behind the eventual winner, Dick Curry of Maine.

Curry fired a fine 72 in the afternoon to give him a 151 total and his second State Championship. A four-way tie developed for second between Leifsson and Viger of Maine, Leiber of Bates, and McNabb of Colby.

Wednesday saw the Polar Bears play Colby. It was expected to be their best match of the year, the linkmen smothered the Mules 6-1. Both Grant Kloppman and Al Purois battled to tie, Purois climaxed by an exciting rally after being three down at the turn. Osterhaut beat previously undefeated Richardson two up. Kloppman tied McNabb, Bates beat Meyer one up, Phil McDowell beat Marvin two up, Purois tied Dana Tunnard, Fred Wilson downed Tom Miller 4 and 3, and Dave Trethewell tipped Scotty McIntire 8 and 7. Kloppman took medalist honors with a 76.

Freshman Lacrosse In Winning Season

The Hebron Academy goals turned back thirty-two shots last Friday, but the Freshman lacrosse squad managed to get nine others past him to gain a 9-3 victory. This win meant a winning season for Coach Fernalds' first, a new precedent for lacrosse at Bowdoin.

Jim O'Dea led in the scoring department in the final game with three goals followed by Bill Allen with two. One goal apiece was credited to John Tarbell, Dick Van Antwerp, Ed Fitzgerald, and Bill Baxter.

The great improvement of this squad during its short spring season should certainly mean added strength to next year's varsity.

Track-Men Take 2nd In E.I.A.A. Track Meet

Last Saturday the Varsity track team placed second in the Eastern Intercollegiate Athletic Association Track Meet. The Polar Bears were edged out by MIT, a team they had beaten twice before in dual meets.

Bowdoin who scored 53 points to the Engineers 44 was followed in the standings by Colby 43, WPI 42, Trinity 38, Central Connecticut 21 1/2, Tufts 17, Williams 16, Brandeis 9, and Colby 4.

The Polar Bears scored all but one of their points in the field events. On the other hand MIT dominated the running events especially the hurdles in which they scored 29 points, but they also scored important points in the field events.

As in every year this year Bruce Frost was outstanding for the Polar Bear. Frost again won all three of the weight events breaking two Eastern Intercollegiate Meet records in this event with his own shot put record with a heave of 61-1 1/2.

Frost's other Meet record was in the hammer. He broke Olympian Bill McWilliams record of 176-11 with a toss of 178-11. Frost also captured the discus with a toss of 140-11 1/2.

Milly McCutcheon took a second in the shot put with a toss of 50-11 1/2. George Hill, Hugh McKelbon round out the scoring in the weight events with a second and fifth respectively. Next year's captain, Dave McDowell, along with Steve Ross and Frank Cronan accounted for the rest of the Polar Bear points. McDowell easily won the broad jump with a leap of 22-11 extending his unbeaten string. Steve Ross captured a fourth in his event. In the pole vault Frank Cronan tied with Mike Keenhen of MIT for second place. This trio teamed up with Tom Oliver to get a fifth place finish in the one mile relay.

Varsity Lacrosse 5-8 For Season

The Bowdoin lacrosse team ended the season with an overall record of five wins and eight losses and their southern trip they won four. Oliver suffered a leg injury in this game which kept him out of the rest of the season.

Bowdoin then went on to defeat New England College and WPI to increase their winning streak to four. The last game of the season was against Tufts which Bowdoin lost 5-3. The Polar Bears were not able to pull themselves together until the second half but could not overcome Tufts' first half advantage.

Though missing three games Tom Oliver led the team in overall scoring with twenty-two goals and seven assists. Don Handal followed with eleven goals and sixteen assists. Not up their first win since the spring trip by squeaking past Nichols 10-9 in a game that went into overtime. Tom Oliver netted four goals and making of Jack Snyder. Next year Brian Murphy three in this contest but it was not until Vic Papa-cosma scored with seventeen seconds left in the overtime that the game was decided. Bowdoin will lose the services of Crabtree, Snyder, and Bill Mason but will maintain all its midfielders intact. If replacements for the graduating seniors can be found over a surprisingly weak MIT the prospects for next year may be as good as Bowdoin down 12-1. fairly bright.

Tennis Contingent Of Two Takes Fifth In Recent NE Meet

The Bowdoin tennis team represented by Art Macdonald and Steve Hecht took fifth place last week-end in the New England Intercollegiate Tennis Tournament held at Dartmouth. Fifteen schools entered the three day competition. The winning team was Harvard which placed four men in the semifinals of the singles.

Going into the last match with Maine, the tennis team sports a 4-4 record and a fair showing in the State tournament. However, a 4-1 record in State series competition, a potential tie with Bates for the Series crown, and a placement of fifth in the New Englands indicates a fairly successful year for Coach Bicknell's netmen. Indeed, with Ladd at one and McDowell and Hecht sharing the second spot and with a team which swept all its singles in the last three matches, spectators saw some very fine tennis and a team with good depth.

Next year, tennis hopes are optimistic. Of course, the team shall lose the loss of Captain Sam Ladd, Lou Schwarz, and Jim Bradner, but with the return of McDowell, Hecht, Tom, Hardeste, and Magher and with the addition of some very fine freshmen prospects, the team should maintain its depth and high calibre of play which has dominated Maine for five years.

Series Standings

Colby	0	5	.000

Remaining Matches
May 24—Maine at Bowdoin
*Bates has clinched at least a tie for the championship.

Neimen Edge SP; Finish Season At 4-1

Last Tuesday the freshman tennis team pulled out a 5-4 victory over South Portland. The singles action was marked by several close matches. Rog Hinchliffe, after getting off to a very shaky start came off to take his match 0-6, 6-3, 6-1. Phil Bradley trounced his opponent 6-0 and 6-1. Cy Allen and Brian Warren each lost three set matches, but Andy Platt and Bill Leyton came through with wins to give Bowdoin a 4-3 edge in the singles.

The winning margin for the match was provided for by the doubles team of Hinchliffe and Bradley, who won by the score of 6-3, 6-3. Platt and Leyton lost their doubles match as did Bill Beedie and Dave Babson.

On Wednesday the cub netmen travelled to Hebron. Here it lost its only match of the year 6-3. Hebron's Craig Adelman knocked off Bowdoin's previously unbeaten Hinchliffe 6-0 and 6-4. Phil Bradley came back with a 6-1, 6-4 triumph. Cy Allen brought the fresh third point of the day with a three set victory, and Warren also tallied a three set victory. Hebron took all three doubles matches to sew up the victory.

Although the cub team lost its final match, it had an enviable 4-1 record, and won first place in State Series frosh competition with a total of twenty-six matches won and one lost.

Stone Blanks Ball Team Series Ends With Maine

Colby clinched a share of the State Series baseball crown by blanking Bowdoin 5-0, in a rain-shortened game Wednesday. The victory closed Colby's season with an 11-4 record overall and a 2 in series play. Bates has completed its season with a 4-3 series mark. Maine can tie with the Mules and Roberts by stopping Bowdoin Friday.

Ken Stone limited Bowdoin to four singles, struck out two and walked two over the five-inning routine. The game was called with Colby batting in the bottom of the sixth.

Ford Awards College \$2.5 Million

Bowdoin Must Raise \$7.5 Million To Receive Foundation's Full Amount

At an historic special meeting last Sunday evening, the Bowdoin Faculty learned that the Ford Foundation had awarded the College a grant of \$2.5 million. It is the largest single gift received by the College since it was founded in 1794 and represents an impressive expression of confidence in Bowdoin as a leading liberal arts institution.

To qualify for the full amount of the grant, the College must raise three times as much (or a total of \$7.5 million) from other sources in the next three years. Leaders of the College's current \$10 million Capital Campaign promptly expressed confidence that the matching requirement would be fulfilled with the enthusiastic help of Bowdoin alumni everywhere.

Grant Gives New Impetus To Campaign

The unrestricted grant gives a tremendous new impetus to the Campaign, during which Bowdoin is seeking \$10 million to enrich its academic program, improve its physical plant and strengthen its leading role in the field of liberal arts education.

The Ford Foundation said the matching grant is intended to help support Bowdoin's overall academic development. It is the highest award the Foundation makes to independent liberal arts colleges under its Special Program in Education. And the three-to-one matching formula is the maximum matching requirement called for under the program.

"Center Of Excellence"

The Ford Foundation's Special Program in Education is designed to support the development of selected colleges as "centers of excellence." James W. Atmeyer, the program's director, said colleges are chosen for the grants "on the basis of their tradition of scholarship, their plans and ability to make pace-setting improvements, the quality of their leadership and the strength of support from alumni and other sources."

Mr. Atmeyer said the grants "are intended to strengthen ability to achieve and sustain new standards, both in scholarship and administrative effectiveness."

Charles A. Cary '10 of Wilmington, Del., National Chairman of the Capital Campaign, said the grant "provides the highest public endorsement of the worth of our Program, and promises a new level of achievement for the Campaign."

Sanford B. Cousins '30 of Brunswick, the Campaign Vice Chairman, and Vincent B. Welch '38 of Wrayton, D. C., of the National Alumni Chairman, joined Mr. Cary in predicting that proud Bowdoin alumni will rise to the challenge presented by the three-to-one matching requirement.

Wolcott A. Hokanson Jr. '30, Bowdoin's Executive Secretary and Campaign Director, described the grant as "an unprecedented opportunity" and said it is "a challenge" (Continued on Page 4)

WILL MY GIFT COUNT?

Questions On Details Of Grant Answered

Here are some questions and answers designed to clarify the terms of the Ford Foundation matching grant to Bowdoin and to help explain the relationship of the grant to the Capital Campaign:

- Q. Are subscriptions or pledges eligible for matching?

A. The amount actually paid between July 1, 1963, and June 30, 1966, will be eligible for matching, but any payments prior or subsequent to those dates will not be eligible.
- Q. Is the payment which I made on my subscription in May, 1963, eligible for matching?

A. Only gifts actually received between July 1, 1963, and June 30, 1966, will be eligible for matching.
- Q. Will a matching gift by the company I work for also be matched by the Ford Foundation?

A. Yes. For example, if you make a gift of \$1,500 and your company matches it with \$1,500, Ford Foundation will match with \$1,000.
- Q. Will the Ford Foundation match my gift to the Alumni Fund each year as well as my gift to the Capital Campaign?

A. Yes. All gifts for whatever purpose are eligible for matching provided they are received between July 1, 1963, and June 30, 1966.
- Q. Are gifts made under the Life Income Plan eligible for matching by the Ford Foundation?

A. Yes, to the extent of the actuarial value accepted by Internal Revenue Service for income tax purposes.
- Q. Are bequests eligible for matching by the Ford Foundation?

A. Those bequests on which payment is received between July 1, 1963, and June 30, 1966, will be eligible for matching.
- Q. What about gifts of property other than cash or securities?

A. Gifts in kind such as works of art, real estate, and books for the library are all eligible for matching by the Ford Foundation on the basis of an appraised value acceptable to the Internal Revenue Service for income tax purposes.
- Q. Is the \$7.5 million required to qualify for \$2.5 million from Ford Foundation in addition to the \$10 million goal of the Capital Campaign?

A. No. The \$2.5 million will be earned by successfully completing the \$10 million Capital Campaign, and by sustaining or increasing the level of the Alumni Fund.
- Q. How will the additional \$2.5 million be used by Bowdoin?

A. The Ford Foundation places no restrictions on the use of the grant. It is to be remembered that the \$10 million goal of the Capital Campaign was established to enable achievement at an early date of the most pressing requirements of a ten year development program, estimated to require a total of some \$23 million in new capital funds for endowment and physical plant. The \$2.5 million from the Ford Foundation will be applied toward the longer run needs of this ten year program.

PRESIDENT COLES AND THE SENIOR CENTER — Shown behind President Coles, seated at his desk in Massachusetts Hall, is a photograph of a model of the Senior Center. The Center, now under construction, is scheduled to open in September of 1964.

Award Is Both Tribute And Challenge To Bowdoin, President Coles Declares

President Coles described the Ford Foundation's grant to Bowdoin as a tribute and a challenge to the College.

Here is the complete text of President Coles' statement: "Bowdoin is deeply grateful to the Ford Foundation for this magnificent grant. It is of tremendous significance, since it results from an independent, objective appraisal of the College based upon knowledge and intimate details of our program, plans, and opportunities. Bowdoin is proud of the expression of confidence which this maximum grant and its maximum matching requirement represent."

"Forthright And Courage" — "This \$2.5 million grant is a tribute to those persons who serve Bowdoin as Faculty, Trustees, Overseers, and Staff, and to their foresight, planning, and courage to move forward along new paths. Equality, it is a challenge to those responsible for our future course and to all Bowdoin men who have a concern for the excellence of the College. Their interest and aid support are essential to assure that Bowdoin will continue to be among the leaders in liberal arts education."

"The special recognition given the Bowdoin Senior Center Program, the re-staffing of the library, and the enlargement of the physical plant indicate a priority assessment of immediate steps toward our long range goals. These goals involve Faculty and student development, curriculum advances, the extension of library collections and services, and—over all—a total college environment supporting these goals."

"The \$10 million Bowdoin College Capital Campaign already underway will be greatly stimulated by this challenging offer of support from the Ford Foundation. However, the task of the Campaign is not diminished. Raising \$7.5 million in matching funds to qualify for the total amount of the Ford grant will require the full achievement of the Campaign by other sources of the original \$10 million goal."

"The Ford Foundation's Special Program in Education is a most enlightened one. In stimulating voluntary financial support for independent liberal arts colleges, the Program ensures the continuation of their essential contributions to our national culture from the early days of our nation. All colleges throughout the country benefit from the focus which this Program brings to the indispensable role of liberal arts colleges and to the necessity for their generous philanthropic support."

"Significant improvements in the upper college years. The Self Study explored three areas of Bowdoin life: curriculum and requirements for graduation, Faculty affairs, and student life. As a result of its findings the Faculty and Governing Boards concluded that while radical curriculum changes were unnecessary there were several opportunities for significant improvement. This resulted in strengthening of the freshman program in English and oral expression, and in the modern language during the two introductory years, and the majors and honors programs of the upper college years."

"In 1964, the Fund for the Advancement of Education gave Bowdoin \$3,500 to support a Project in Operations Research of the College Program, which resulted in a technical inquiry and report on the understanding of college operations through the techniques of operations research. The Ford Foundation in 1966 (Continued on Page 2)

Active Team Of Prominent Alumni Guides Capital Campaign Effort

MR. CARY MR. COUSINS MR. WELCH

The Bowdoin College Capital Campaign is being guided by a 18-member National Committee. The Brunswick, N. Y.; A. Shirley Gray Campaign Chairman is Charles A. '18 of Chicago, Ill.; Lloyd H. Marsh '40 of Wilmington, Del. '21 of Dexter, Maine; William D. Vice Chairman is Sanford B. Cousins '30 of Boston, Mass.; George '38 of Los Angeles, Calif.; Chairman is Vincent B. Welch '38 of Wrayton, D. C.; Sumner T. Pike '13 of Lubec, Maine; Weston Rankin '30 of New York; Benjamin R. Shuts '31 of New York; Professor James A. Hokanson '30 of Topham, Maine; Widgery Committee are: Chester O. Abbott '30 of Yarmouth, Maine; '13 of Palmouth, Maine; Gerald W. and Earle S. Thompson '14 of New Blakesley, N. Y. of Boston, Mass., York.

GOALS EMBRACE MANY NEEDS

The \$10 million Capital Campaign was undertaken to provide the financial resources which will help assure that Bowdoin may continue its effectiveness and standing in the field of liberal education and move ahead as a dynamic and creative institution.

- The following are the objectives of the Campaign:
 - Endowment for Instruction and Student Aid . . . \$2,000,000
 - President's Expendable Fund . . . 500,000
 - New Library Building . . . 2,000,000
 - Renovation of Hubbard Hall . . . 250,000
 - Senior Center . . . 3,100,000
 - Dormitory Renovations . . . 1,300,000
 - New Gymnasium . . . 1,400,000
 - New Boiler for Heating Plant . . . 100,000

TERMS OUTLINED

The basic terms under which Bowdoin will receive \$2.5 million from the Ford Foundation:

1. That the College raises \$7.5 million from all other sources (except government agencies);
2. That this \$7.5 million is received by the College during the period July 1, 1963-June 30, 1966.

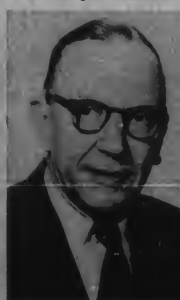

Foundation Program Supports Excellence

The Ford Foundation program in support of Bowdoin and other independent liberal arts colleges is aimed at strengthening American education by supporting and accelerating the development of selected institutions as centers of excellence.

Each college invited by the Ford Foundation to participate in its "Special Program in Education" ascertains its vital objectives and, importantly, lays down substantial long-range programs for achieving these objectives. Then, building on the established excellence and realistic aspirations of these colleges, the Special Program follows its grants to the needs, accomplishments, and potential of each recipient. However, three features of the grant should be considered as an added assurance that the resources will be made available to put into operation the broad educational aspirations of the Faculty and the program to which they have devoted such hard and serious work."

Faculty Gratiified, Kendrick Says

Dean Nathaniel C. Kendrick issued the following statement in connection with the Ford Foundation's grant to Bowdoin: "I am completely confident that I am expressing the feelings of my fellow members of the Bowdoin Faculty when I say that we were tremendously gratified by the announcement of the inspiring grant from the Ford Foundation. We take great satisfaction in"

DRAN KENDRICK

the fact that an independent, experienced and critical organization has expressed confidence in a very tangible way, in educational plans largely developed by Faculty members themselves. "The matching provisions of the grant should be considered as an added assurance that the resources will be made available to put into operation the broad educational aspirations of the Faculty and the program to which they have devoted such hard and serious work."

Bowdoin Has Had Previous Ford Grants

The Ford Foundation's latest grant marks the third time in the last ten years Bowdoin has been given Ford Foundation support for its programs and objectives.

From 1963 to 1964 a Self Study of Bowdoin College was made possible by a \$20,000 grant from the Foundation's Fund for the Advancement of Education. A project to assess the effectiveness of the College in meeting the aims best suited to its goals and principles, it was carried out by a special Faculty Committee with close participation by all Faculty members and student and alumni representatives.

Significant improvements in the upper college years. The Self Study explored three areas of Bowdoin life: curriculum and requirements for graduation, Faculty affairs, and student life. As a result of its findings the Faculty and Governing Boards concluded that while radical curriculum changes were unnecessary there were several opportunities for significant improvement. This resulted in strengthening of the freshman program in English and oral expression, and in the modern language during the two introductory years, and the majors and honors programs of the upper college years."

In 1963, when the present Library was completed, it had study places for 78 readers, which amounted to one-fourth of its total of 298 faculty members and students. The increase of the College population to its present figure of about 800 results in a study place shortage of 100 which are needed. And the projected 20 per cent increase in student enrollment over the next few years would create further difficulties.

Only about 40 per cent of the total space in Hubbard Hall is actually usable for library purposes, as against a space utilization percentage of 85 in modern library construction.

Usable space for books, study and research in Hubbard Hall will be double the amount now provided in Hubbard Hall. Space For Expansion After Bowdoin's book collections are moved into the new building, the interior of Hubbard Hall will be renovated for instructional and other purposes appropriate to its character and dignity.

New Library Building Will House Growing Book Collections, Services

MODEL OF NEW LIBRARY BUILDING — This is a model of the new Bowdoin Library, which is expected to open in 1965. Architect is Steimann, Cain & White. Building will have four floors above ground and one below.

Hubbard Hall, the Bowdoin College Library, has served Bowdoin's library needs well for some 60 years. But Bowdoin's growth, its ever-developing book collections, the wider use of books in teaching, new concepts of effective library service — the combination of these factors makes it imperative that the College construct a new library building.

A new \$2 million structure, scheduled to open in 1965, will be built southwest of Hubbard Hall and southeast of the Harvey Dow Gibson Hall of Music. The building will have four floors above ground and one below. A tunnel will connect it to the Hubbard Hall stack area, which will be used in conjunction with the new Library.

Bowdoin's growth over the years has virtually bulged the walls of Hubbard Hall with the accession which 20,000 square feet will be reserved for future Library purposes. In the interim, this space reserved for future expansion will be used to bring together administrative offices which are now scattered about the campus.

Initial book capacity is planned for 378,000 volumes with space for an additional 128,000 books in the expandable area. With the 128,000 volumes to be retained in Hubbard Hall, total Library capacity will amount to 506,000 volumes, compared with the present stack figure of 370,000.

Study space in the new library will accommodate 800 persons. Besides large reading bays adjacent to the stacks, there will be individual reading and study areas in various sections of the building, studies for faculty members, special carrels, or alcoves, for the use of students working on honors projects, and both standard library tables and individual desks for regular study purposes.

The new library will contain special facilities for the use of typewriters, microfilm materials, maps, photographic records, and tape recordings, and there will be adequate space for special exhibits. A suite, appropriately designed and decorated, will house a portion of the Library's collections of some 25,000 rare and historic volumes, and the College's extensive collections of literary and historical manuscripts and Bowdoin archives. The Rare Book Room now in Hubbard Hall will not be disturbed. In a Special Collections Suite will be the James Bowdoin Collection, the volumes represented in the first catalogue of Bowdoin's Library issued in 1821, the collections of books by Nathaniel Hawthorne and Henry Wadsworth Longfellow, both of the Class of 1820, the Abbott Collection and other special works. For the student, the library of a dynamic college plays a vital role in his education. It is an attractive, inviting, and stimulating place. Reading and research become a part of learning. "A Library is Books" The college library is also a potent teaching instrument for the faculty. In addition to providing the volume needed by the students the Library must give the teacher access to the materials for research which strengthens him, and through him, the students whose intellectual background he is developing. Richard B. Harvard, College Librarian, says: "A library is books, books to be read and used, to act as catalyst in the creation of ideas. A library is an essential part of the traditions of education."

Grant Voted June 21

Several persons have asked why Bowdoin didn't announce the \$2.5 million grant from the Ford Foundation earlier — for example, last Commencement weekend. President Coles explained that the grant was not approved by the Ford Foundation's Board of Trustees until June 21 and the Foundation requested that Bowdoin not make any public announcement prior to June 24.

THE BOWDOIN ORIENT

Vol. XCIII FRIDAY, JUNE 28, 1963 No. 7A

SPECIAL EDITION

This special edition of The Orient was prepared and published by the Office of the Executive Secretary in order to bring all alumni and friends of the College the complete story of the background and meaning of the Ford Foundation's \$2.5 million matching grant to Bowdoin. We wish to express our thanks to the Bowdoin Publishing Company for its cooperation.

A Student Editorial

"Pride In Our College"

Bowdoin undergraduates have now received two important announcements from the College. The first was, of course, the tangible results of our scholastic efforts during the Spring semester, met with sentiments ranging from the deepest depression to heightened ecstasy.

But the second announcement, that of the Ford Foundation's grant of \$2.5 million, can only be received with the great pride Bowdoin students feel at the realization that our College has warranted this recognition and respect for its past achievements and future ambitions in educating and developing students.

The Ford grant is significant to us not only in the facilities and curriculum advancements it will enable Bowdoin to implement, but also in the increased challenges now provided to us as students. Alumni must now meet the stipulations of the Ford Foundation and raise the \$7.5 million in order to qualify for the \$2.5 million grant; we must be, and are, ready to accept the challenge of increased intellectual stimulation which these facilities and curriculum additions and changes will offer to us.

This is our purpose in attending Bowdoin, and the Ford Foundation's grant is not only an impetus to Bowdoin's development, but also to our own increased intellectual development.

Any student is susceptible to the minutiae and campus problems which stimulate undergraduate criticism, but we negate the minor in recognition of the major pride we have in our College. The Ford Foundation's support of Bowdoin's plan to attain new standards of excellence in its educational program not only enhances the College, but also its students who will directly benefit. We welcome the grant with the realization that we will greatly benefit from the increased opportunities it will provide toward our development.

ROBERT E. PETERSON '65, Editor-in-Chief, The Orient

Bowdoin One Of Eight Colleges To Receive Maximum Award

The Ford Foundation announced in September, 1961, that it would make available up to \$100 million for selected liberal arts colleges under its "Special Program in Education." The \$2.5 million grant to Bowdoin, to be matched by \$7.5 million raised by the College from other sources, is the maximum grant which the Foundation has made to liberal arts colleges under the program. Bowdoin's \$7.5 million matching total is the maximum matching requirement under the program.

Of the approximately 700 colleges eligible, 42 have received grants. Bowdoin is one of 8 to receive the maximum grant.

Here is a list of the colleges which have received grants under this program to date:

Table with 3 columns: College, Total Grant, Matching Requirement. Lists 42 colleges including Amherst College, Bowdoin College, Bryn Mawr College, Mt. Holyoke College, Occidental College, Smith College, U. of the South, Williams College, etc.

A Distinctive Response To Today's Educational Challenges

THE BOWDOIN SENIOR CENTER PROGRAM

Bowdoin's distinctive response to several of the challenging problems of twentieth century liberal arts education is the Senior Center Program. The total concept of the Program represents the greatest promise for unifying the experiences of college life at the time in a student's career when such unity is most essential.

Freshmen at Bowdoin are thrown headlong into a new social and educational experience. It more novelty gives them a cohesion as a group, carrying them into the complexities of college life. They are absorbed in their adjustments to more advanced studies, to increased personal independence for themselves, to a new type of group living in their fraternities.

The Senior Center Program, the fraternity can be a valuable adjunct to the College itself. The Senior Center concept evolved from Bowdoin's earlier decision to expand its undergraduate population from 778 to 900, a figure related to the availability of basic facilities. The Faculty and Governing Boards were also determined to achieve expansion in a manner significant to the central purposes of the College and its commitment to liberal arts education of the highest quality.

The Senior Center Program, with Bowdoin's emphasis on individual responsibility and individual ability, will be distinguished by expanded opportunities for independent study and the maturation of social and intellectual associations. Now under construction and scheduled to open in the fall of 1964 is a \$12 million living and intellectual center designed specifically to serve directly the philosophical concept of the Program.

The Senior Center will consist of three buildings. A sixteen-story building will include study and living quarters, seminar and conference rooms, lounges, a small library, accommodations for visiting lecturers and the Director's office. Architect is Hugh Stubbins & Associates.

Seniors will experience the stimulation of working at their highest level of creativity and capability, regardless of earlier performance. But the focus of the Senior Seminars will be a fresh exploration of ideas outside the senior's field of concentration, a rearrangement of the training and perspective that, after three years of study at Bowdoin, are his.

The Bowdoin Senior Seminars will be concerned with segments of a larger field of study, cutting across the lines of traditional disciplines. They will confront the senior with ideas that are not packaged in the usual academic forms and tests. Through group meetings, individual conferences, and independent study, the seniors will prepare themselves to speak authoritatively and reflectively on one aspect of the senior's chosen seminar topic. This will require of the student a method of inquiry and study that is clearly his; that which characterizes his conduct of a varied intellectual life as an adult.

Classified within the setting and general program of the Senior Center, the Seminars will further indicate that environment and intellectual life complement one another in the fulfillment of liberal learning.

The immediate organization and leadership of the Senior Center Program is vested in the resident director, Professor William B. Whiteside, assisted by a Senior Center Council composed of the Dean of the College, Professor Mackenzie C. Kendrick, and a Faculty member from each of the three divisions of the Bowdoin curriculum. They will relate the total program of the Senior Center to the overall educational objectives of the College. The Director will also draw students into the conception and evaluation of the program.

The Senior Center Council will select the Seminars to be offered each year, and will work with and advise the Director in all aspects of the program. On the basis of the Director's annual report and recommendations to the entire faculty, the program may be modified from year to year. In this way, Bowdoin is determined to maintain the flexibility of the program and will find the greatest opportunity for personal contact.

The major innovation of the Senior Center will be Bowdoin's response to several of the challenging problems of twentieth century liberal arts education is the Senior Center Program.

Ford Grant Based On 'Profile' Study

At the time Bowdoin College was invited by the Ford Foundation to apply for a grant under its "Special Program in Education," a "Profile" of the College was prepared to describe and document every facet of Bowdoin's unique history in liberal arts education and its plans for the future.

This hundred-page "Profile" probed every aspect of the College, occupying a back-page of some two dozen members of the Faculty and staff who researched and analyzed the facts, figures, programs and aspirations of the last decade and the decade to come.

A Forward Look: At the request of the Ford Foundation, the "Profile" covered such topics as a summary of the College's educational objectives, its accomplishments during the last ten years and its programs for the near future.

Attention was also given to its assumptions for the future—for the United States, the State of Maine, and the College itself, data on academic programs, faculty, and students; a forward look at budgets—for educational and general College expenses, scholarships, research, plant construction and expansion, an analysis of gifts, grants and fundraising achievements and a projection of fund-raising goals and plans.

Most of the information is in the special issue of "The Bowdoin Orient" has been drawn from the "Profile."

COLLEGE THANKS FORD FOUNDATION

Both President Cole and the Faculty expressed their gratitude to the Ford Foundation for its \$2.5 million grant.

In a telegram to Foundation President Henry T. Head, President Cole said:

"On behalf of the President and Trustees and of the Board of Overseers of Bowdoin College, I express gratitude and appreciation to the Trustees and Officers of the Ford Foundation for the magnificent grant of which we have just received notice.

"Beyond its monetary value, its recognition of the Bowdoin program, and the opportunities and challenge it presents to the Faculty, as well as the Governing Boards, are of great moment."

The Faculty deplored the following view to Dr. Head: "The Faculty of Bowdoin College, having been informed Sunday evening of the generous grant of the Ford Foundation, wishes to express its gratitude for both the grant and the confidence it manifests in our program."

AREA CHAIRMEN LISTED

Thousand Alumni At Work On Campaign To Achieve \$10 Million Capital Goal

More than 1,000 Bowdoin alumni in some 110 organized areas throughout the nation are working for the Bowdoin College Capital Campaign. Vincent B. Welch '38 is National Alumni Chairman. Here is a list of the Area Chairmen:

- Arizona: Rogers W. Johnson '52, E. William Ricker '45. California: William B. Spitzer '18, George W. Murray '41, John S. Melland, Jr. '56, William Ford '58. Colorado: Frederick C. Malone '60. Connecticut: William O. Hunt '58, Howard L. Saville '44, Frederick P. Purinton '55, Ed Gordon Day '74, Gordon C. Knight '52, Dr. Clifford W. Wilson, Jr. '49, Dr. Winfield B. Wigbt '49. Delaware: Arthur L. Orna '50, Ernest A. Lester '51. Florida: Ernest B. Webb, Jr. '29, Dr. Ralph W. Hayward '16, John W. Chittenden '41, Virgil E. Pittsick, Jr. '59, Charles W. Wilson, Jr. '49, Robert G. West '42, A. Kirk McNaughton '11. Georgia: David B. Mitchell '49, Harold D. Bishop '50. Illinois: Stanley A. Sargent '55. Indiana: Robert B. Sawyer '54, Robert C. Meyer '52, Warren A. Hagar '57, Dr. Philip C. Young '40. Maine: Robert Martin '41, Frederick S. Newman '39, Dr. John M. Beaulieu '38, Dr. Charles W. Wilson, Jr. '49, Neil E. Nixon '48, Dr. Clifford W. Wilson, Jr. '49, John M. Dudley '21, Lloyd R. Hatch '31, Lewis A. Smith '48, Henry A. Shore '43, Vanhau A. Walker '39, Dr. Arrington Clark, Jr. '41, Dr. Charles W. Wilson, Jr. '49, Dr. Clifford W. Wilson, Jr. '49, John L. Baxter, Jr. '42, Louis E. Brown '37, Philip M. Schmitt '51, George W. Wilson, Jr. '49, Gordon M. Anderson '49, George P. Curran '51. Massachusetts: Melvin L. Walker '45, Dr. Dudley B. Tyson '45, Dwight J. Pope '41, Lawrence M. Bopp '33, Charles E. Gillet, Jr. '40, Charles E. Hartshorn, Jr. '41, Charles K. Carter '43, Thayer Francis, Jr. '44, Charles K. Crimmin '43, Louis W. Deberry '19, Paul Sims '15, George O. Catter '31, Elias F. Albert '39, Dr. Dan Marshall '31, Edward R. Charlton '44, John E. O'Neill '48, Maynard H. Moran, Jr. '48, James H. Jones, Jr. '42, Bernard C. Wallis '39, Richard C. Moore '39, Parker H. Rice '39, W. Frederick Twombly '11, Howard S. Mathews '44, Whitfield B. Case '28, John W. Manning '35, Thomas V. Crisfield '25, George W. Braden '29, George O. Hennessey '29, John H. Nichols, Jr. '48 and Edward H. Lewis '38, James H. Case '39, John C. Chester Barker '36, Allan H. Sisson '41, George E. Dale, Jr. '47, George H. Talbot '15, E. John Sisson '50. Michigan: Zimor C. Chasland, Jr. '50, John D. Duppis '29, John B. Hildreth '48, Edward R. Dunson '45, Norman A. Workman '41. Minnesota: William D. Shaw '14, Richard C. Bushell '36, Frederick W. Willey '17, Walker O. Gordon '33. Missouri: Marshall Swan '29. Tennessee: Carl E. Roberts, Jr. '39. Texas: Dr. John G. Young '21, Robert O. Spencer, Jr. '31, George W. LaRue '28. Virginia: Albert M. Barnes '49, Harry W. Richardson '30, Dr. Julian S. Austin '44, Charles W. Curran '51, Thomas H. Bradford, Jr. '21.

SENIOR CENTER TOWER — This is a model of the Senior Center residential tower. It will include study and living quarters, seminars and conference rooms, lounges, a small library, accommodations for visiting lecturers and the Director's office. Architect is Hugh Stubbins & Associates.

Education Milestone, Says Governor Reed

Gov. John H. Reed of Maine described the Ford Foundation's grant to Bowdoin as "a milestone in higher education in Maine."

Governor Reed issued this statement:

"I wish to congratulate Bowdoin College on having been awarded a grant of \$2.5 million by the Ford Foundation to support its over-all academic program. Of significant importance is the fact that this grant is the maximum given to colleges under the Ford Foundation's Special Program in Education, and the largest single gift ever received by Bowdoin.

"These facts reflect to the credit of this Maine institution and all of its students, the fact that this grant is the maximum given to colleges under the Ford Foundation's Special Program in Education, and the largest single gift ever received by Bowdoin.

"The grant is a milestone in higher education in Maine and we will gain substantially from it."

Previous Ford Grants

(Continued from Page 1)

established at Bowdoin a fund of \$485,500 which was restricted in principal and income for Faculty salaries for a period of ten years. That same year the Ford Foundation also gave Bowdoin an additional \$271,000 as an accomplishment grant in recognition of the College's leadership in improving the status and compensation of American college teachers. While no restrictions were placed on the use of the accomplishment grant, the Governing Boards determined that the entire grant would be used as endowment to provide income for instructional salaries.

GOVERNOR REED

WORK PROGRESS ON SENIOR CENTER — Shown above are workmen putting up the foundation walls of Senior Center residential building. Work is proceeding on schedule and building is expected to be ready for occupancy in September, 1964. Builder is the Georgia A. Fuller Company.

BOWDOIN: ITS PAST AND FUTURE

The Last Ten Years And The Next Ten

Bowdoin's educational accomplishments in the 1952-62 decade have been characterized by intensive self-examination and the determination to enlarge and improve existing standards and facilities through creative enrichment of the total College.

The "Profile" presented to the Ford Foundation by Bowdoin notes that most of the advances of the past decade resulted directly or indirectly from reports originating within Faculty and Governing Boards Committees. Such self-stimulation has always been characteristic of Bowdoin, but in the last ten years, at ever-accelerating speed, it has brought a fresh awareness of the breadth of truly liberal education and a valuable confidence in the creative intellectual path that Bowdoin has always been dedicated to follow.

Changes in Curriculum

Degree requirements were raised by intensifying distribution requirements of the freshman and sophomore years in the humanities, social sciences, and sciences; by requiring two years of one foreign language at the literature level; by intensifying the master program and expanding the honors program; by increasing by twenty per cent the number of quality grades (C or higher) required for graduation; and raising the number of quality grades demanded at the conclusion of the freshman and sophomore years for retention in college.

These results improved performance throughout the student body and a lesser rather than a higher mortality rate.

Advanced courses offered at Bowdoin has undergone some change in the past ten years, change made to assure correlation with improved secondary school curricula and to introduce new knowledge.

In some areas these changes have been striking, many first-year level courses have been replaced by more advanced second and third-year level courses, such as *Science, Science, and its Social Aspects*, *Science, Science, and its Social Aspects*, *Science, Science, and its Social Aspects*, *Science, Science, and its Social Aspects*.

Two-year laboratory courses in Native-speaking Foreign Languages Teaching Fellows have supplemented the language program with small conferences for student practice and discussion. A language laboratory with 28 student stations where three different programs can be originated simultaneously, the re-establishment of the Department of Geography, and the introduction of more independent written work required in all courses, are further typifications of Bowdoin's growth.

A coordinated Major Program has been expanded to include all upperclassmen, each of whom now participates in a program of major meetings held every two or three weeks on selected reserved courses. At these meetings the required major courses are interrelated, outside reading discussed and supplementary material introduced. A comprehensive written and oral examination concludes the program, and failure to pass results in a re-examination subject to academic sanctions.

In the past ten years, faculty advisors to fraternities were incorporated on the Committee on Student Life so that their insights into student problems might receive more effective expression and disposition.

Fraternities help to provide a new position of Dean of Students was established. The Counseling Service was strengthened, and the undergraduate environment was changed by the elimination of fraternity housing and discriminatory practices from all chapters at Bowdoin. Most significantly, a constructive orientation program related to the basic concerns of the freshman to life at Bowdoin and assists him in finding an identity with the institution itself.

Two new programs have been initiated: the Summer Reading Program, which provides the reading of three selected books during the summer, before coming to College so that a common background for both information conversation and formal discussion is established; and the Undergraduate Research Fellowship Program, with ten fellowships awarded annually for senior research projects in

most of the time major detour of the curriculum. Retro-curricular activities have been supplemented by the organization of active National Honor and International Clubs. To broaden the base for participation in scholastic, varsity, amateur and interscholastic activities, many have been introduced.

How This Year Remains

Although the independent liberal arts colleges do not have research as its primary concern, it is in fact the nucleus of a center for learning and if it is to attract interesting teachers, it must be intellectually creative, dynamic, and to stimulate their students.

For these reasons Bowdoin, in the last decade, has established a Faculty Development Fund to supplement research grants, to extend sabbatic leave to more staff, and to assist faculty in attending professional meetings. Also established has been the independent research projects, for which other faculty may now avail.

Though participation in Bowdoin's summer research projects has increased, the College has been able to provide equipment, supplies, and assistance. One major grant has permitted the College to add one extra man to the Physics Department, reducing teaching loads and making more time for research.

Most recently, the College undertook a new project, supported largely by the Research Corporation, to encourage research in mathematics by enabling the equivalent of two, one, both, or neither of the same research areas, to fill one teaching position in the Mathematics Department. Both has other uses for his research by teaching but half the usual load. Both will have assistants to support summer research, travel, a staff seminar, and the acquisition of needed books and equipment.

Related Activities The College itself has established or expanded several extracurricular related programs: The Center for Economic Research, which carries out special research projects involving Maine and other New England economies and publishes the monthly "Maine Business Indicator"; the Bowdoin Scientific Station at Kennebunk, in the Bay of Fundy, which enables faculty and students to conduct orthopedic, field work; current periodicals, and microfilm and photostatic equipment, to support these activities.

Many of the Faculty has been provided with private offices and formerly separated department members brought together. In addition to raising faculty salaries significantly during the last ten year period, Bowdoin has increased Faculty group life insurance and major medical plan benefits, revised the Faculty retirement plan to take full advantage of new income tax regulations, acquired additional Faculty housing near the campus, and adopted a Faculty and Staff Children's Scholarship Program.

During the academic year, the newly-formed Associates of Bowdoin Museum of Art sponsor lectures, exhibitions, and a picture loan service. In full-time demand is a traveling picture collection which has been made available to other colleges, schools, and museums in northern New England. In 1961, Bowdoin joined with Bates and Colby to establish Maine's first educational television station, WCBH. This, too, expanded largely as a public service, its educational potential will be a major consideration in educational planning for the coming year and already some Bowdoin courses are being enriched through required viewing of certain programs as part of assigned supplementary work.

Financial assistance to deserving students has been an integral part of Bowdoin's educational philosophy since its founding. To most effectively meet current conditions, the College has established a comprehensive Financial Aid Program combining loans, campus employment, and scholarship grants. Virtually all of financial aid now comes in a form as a part of the total award.

Liberal learning is possible only when the entire undergraduate experience is animated by a spirit which engages men in the search for a comprehensive view of total reality. That is the conviction underlying Bowdoin's planning for the 1963-73 decade according to the "Profile" which the College prepared for the Ford Foundation.

While the primary emphasis of the Senior Center Program (described elsewhere in this newspaper) will be on the senior year, its efforts will be felt throughout the entire curriculum and enhancement of the College. However, the success of the Senior Center Program both in itself and in its impact on the College will depend in large part on the continued improvement of teaching and the expansion of library services and facilities.

Senior Center Program

Therefore, the planning for the coming decade at Bowdoin includes those other major improvements which are being developed as essential to a student body which will be enlarged by 20 per cent.

The new senior curriculum will improve and extend studies and research work and integrate the Senior Center, designed to provide a major, broadening experience through a broadened intellectual challenge. The environment of the Senior Center, with senior faculty and visiting colleagues and lecturers in residence, will be expanded through the addition of residential living with living.

The Senior Center Program will be more than the sum of its parts. It will be a way of living in which seniors discover that ideas are not independent of life and that neither is the mind without a direction and individual integrity.

These latter qualities are already implicit in the Bowdoin program; it is the creative renewal of the program which will be the result of the summer months for the benefit of the Institute participants, the

College, and the community. The program will be a way of living in which seniors discover that ideas are not independent of life and that neither is the mind without a direction and individual integrity. These latter qualities are already implicit in the Bowdoin program; it is the creative renewal of the program which will be the result of the summer months for the benefit of the Institute participants, the College, and the community.

Among the basic changes already evident as a result of the program's impact on the College as a whole are studies by all departments of their plans and requirements for the next ten years. Thus the Senior Center Program promises to be not only an entity in itself but a source of creative thinking and action in realizing in comprehensive ways the ideals of liberal education at Bowdoin.

The Senior Center buildings will play a double role. While they have been designed primarily to facilitate this particular program, they will also function as a center for living and dining units to accommodate the large student body. This growth in enrollment will occur over a period of four years, each year increasing by 20 per cent, beginning in September, 1964.

The presence of the Senior Center during the period of expansion will enable the College to improve undergraduate living in general by freeing two old dormitories the first year and one the second for a complete renovation. Since each of these dormitories has seen over a century of service, extensive renovation is inevitable. The new space in the Senior Center and the gradual growth of the student body will permit reconstruction without crowding or loss of dormitory capacity.

Coordinated with the Senior Center, a campus center for students and faculty, will be enlarged and remodeled so that it can continue effectively its social and cultural role. And a new gymnasium will provide the space needed to implement the College's policy of athletics for all.

Environment and Learning Increased emphasis on independent study in Major Work and the unique and often interdisciplinary nature of the Senior Center will demand a more creative faculty. The commitment of the faculty to liberal learning as conceived at Bowdoin must be complete, too, if Bowdoin students are to experience the rewarding interplay of environment and learning. Thus an active program of faculty recruitment and development of several years standing will be pursued over the next five years.

Aware of the competition encountered in developing a strong faculty, the College has projected a salary scale which at this time appears adequate to keep Bowdoin financially competitive. Equally important are the potentialities of the faculty, the potentialities, suitable library and other facilities, and reasonable

BOWDOIN AND THE LIBERAL ARTS—Bowdoin believes that the case for the liberal arts college must rest on its capacity "to discover and teach the relevance of liberal learning to a present viewed in the full perspective of many pasts." Shows above names of Bowdoin's illustrious alumni (clockwise from lower left), Pulitzer Prize-winning poet Robert P. T. Coffin; novelist Nathaniel Hawthorne, chancellor of early New England life; Admiral Robert E. Peary, discoverer of North Pole; Franklin Pierce, 14th President of United States; General Joshua L. Chamberlain, Civil War hero, Governor of Maine and President of Bowdoin; and Henry Wadsworth Longfellow, world-renowned poet.

Liberal Arts Colleges Have Vital Role, Bowdoin States

Why the independent liberal arts college? What is its role, its past and its future?

As part of the "Profile of Bowdoin College," prepared for the Ford Foundation, Bowdoin answered the Foundation's question, "What, in your view, is the case for the liberal arts college as a separate institutional entity?" The case for the liberal arts college, said Bowdoin, must rest ultimately on its capacity "to discover and teach the relevance of liberal learning to a present viewed in the full perspective of many pasts."

The following extracts from the meaning and value of what is studied beyond the limits of sequential specialization. The college cannot, and should not, avoid advanced study in depth, nor preparation for professional training.

"Since emergence in ancient Greece, the ideal of liberal learning has remained constant; a mind free to know a limitless world and a point of view at once philosophic and comprehensive. In the liberal arts, it never finds a perfect institutional form. In that peculiarly American institution, the liberal arts college, the ideal has been viable only as thoughtful men expressed the meaning of the time and culture to which they as men belonged. Such expression requires continuous focusing and restatement to meet changed historical circumstances, but equally must not be driven about by every wind of doctrine.

In the past, the liberal arts college has as often been a rationalization of transient circumstances in America education as it has been a clear embodiment of an educational ideal. . . . Within the large university (its role often became ambiguous. . . . In part, the liberal arts college has survived precisely because American education has been so diffuse.

"Whether it will continue to survive, however, depends on how successfully it can cope with . . . new forces now affecting education. One is the enlarged magnitude of (specialized knowledge). . . . Another force is the improvement of secondary school work as exemplified by Advanced Placement Programs. The virtue of these programs is the intensified training they provide in specific fields; the danger is in the momentum they lend to specialization at the expense of liberal learning.

"Caught between the downward thrust of the graduate schools for further specialization and the upward surge of the better secondary schools with their intensified curriculum, the undergraduate college is in danger of becoming only a step in the process of specialization.

Answer To A Dilemma "The answer to the dilemma these forces create can be found only in a clear understanding of what a liberal arts college should be today. It is not an essay to specialization, and it is not a mere better secondary school training. It must capitalize upon sound basic training in order to fill its unique role as an essential complement to specialization. This role should suffice the whole college program, not a segment of it. It should seek what Newman called 'the enlargement of the intellect' by presenting

full of promise, as its far-reaching forces create only new academic program indicates. The college's decision to expand its enrollment by 20 per cent is a recognition, by Bowdoin of the responsibility of the private better secondary school training. It must capitalize upon sound basic training in order to fill its unique role as an essential complement to specialization. This role should suffice the whole college program, not a segment of it. It should seek what Newman called 'the enlargement of the intellect' by presenting

Commissioner Hill: Future Full Of Promise For Bowdoin

Maine Education Commissioner Warren G. Hill said the Ford Foundation's grant is a tribute to President James S. Coles of Bowdoin and to the entire Bowdoin Faculty and Staff in terms of their commitment to the dynamic Bowdoin program.

Commissioner Hill said this statement: "The entire state family joins proud Bowdoin men everywhere in rejoicing at this wonderful news. We all know that the Ford Foundation grant is for grants only those colleges of obvious quality, Bowdoin has a long tradition of excellence in higher education and is an institution of which Maine is tremendously proud.

"Bowdoin's future is, of course, full of promise, as its far-reaching forces create only new academic program indicates. The college's decision to expand its enrollment by 20 per cent is a recognition, by Bowdoin of the responsibility of the private better secondary school training. It must capitalize upon sound basic training in order to fill its unique role as an essential complement to specialization. This role should suffice the whole college program, not a segment of it. It should seek what Newman called 'the enlargement of the intellect' by presenting

A LETTER FROM DEAN OF STUDENTS

Bruswick campus and visitors to the area. Summer Seminars for area residents, a Summer Concert Series, special lectures both on the campus and at the Oakes Center, exhibitions at the Art Museum, and a program of summer theater have called the public's attention to the rich and varied values that Bowdoin represents.

Edmunds Television "During the academic year, the newly-formed Associates of Bowdoin Museum of Art sponsor lectures, exhibitions, and a picture loan service. In full-time demand is a traveling picture collection which has been made available to other colleges, schools, and museums in northern New England.

In 1961, Bowdoin joined with Bates and Colby to establish Maine's first educational television station, WCBH. This, too, expanded largely as a public service, its educational potential will be a major consideration in educational planning for the coming year and already some Bowdoin courses are being enriched through required viewing of certain programs as part of assigned supplementary work.

Financial assistance to deserving students has been an integral part of Bowdoin's educational philosophy since its founding. To most effectively meet current conditions, the College has established a comprehensive Financial Aid Program combining loans, campus employment, and scholarship grants. Virtually all of financial aid now comes in a form as a part of the total award.

Aware of the competition encountered in developing a strong faculty, the College has projected a salary scale which at this time appears adequate to keep Bowdoin financially competitive. Equally important are the potentialities of the faculty, the potentialities, suitable library and other facilities, and reasonable

Corner of the Campus—Bowdoin Hall, which will be renovated for instructional and other purposes adjacent to the sciences and divinity (at right) library. Bowdoin Hall of Music, dedicated in 1962.

Cary Explains: Grant Is Bonus On Completing Original Goal

Charles A. Cary '60, National Chairman of the Bowdoin College Capital Campaign, said the Ford Foundation grant "provides the impetus and resources to qualify for the full \$2,000,000 of the Ford grant. By deliberate design, these grants are not made to ease the financial burden on the recipient, but to give a bonus for extra performance.

"Our task now is to earn this generous bonus, and reach a final Campaign attainment of \$12,500,000."

Cary added: "To be sure, there is a challenging matching requirement; we still must realize the original \$10,000,000 Campaign goal. But we are confident to qualify for the full \$2,000,000 of the Ford grant. By deliberate design, these grants are not made to ease the financial burden on the recipient, but to give a bonus for extra performance.

Congressman Voice Pleasure At News

Maine's two United States Representatives expressed pleasure at news of the Ford Foundation's grant to Bowdoin.

Congressman Stanley R. Tupper said: "I am delighted to learn of the \$2.5 million grant to Bowdoin College. This is one more indication of the reputation for excellence that Bowdoin holds throughout our country."

"I would like to convey to President Coles and the Faculty my gratification and sincere best wishes," said Congressman Clifford G. McIntire.

"The Ford Foundation grant of \$2.5 million to Bowdoin College brings great recognition and honor to this nationally famous Maine college, a college rich in tradition and distinguished in scholarship and literature."

This award recognizes that the leadership of Bowdoin is facing aggressively the challenges of our time. Above the rest of all Maine citizens is this outstanding recognition of Bowdoin College and its extended members: congratulations to President Coles, the Faculty, the Governing bodies, students, and all alumni.

Ford Foundation grants don't comprise all the coverage in every issue of the Bowdoin Orient. But in the Fall, Winter, and Spring (when the students are on campus) there will be other important happenings at the grass roots level which you won't want to miss.

Unfortunately, the Orient cannot mail every issue it publishes to all of our alumni without requesting a small donation.

It's no trouble to add your name to our mailing list — just enclose four dollars (\$4.00) to cover the cost we incur in reporting worthwhile news. Send your subscription request to:

A LOOK AT THE FUTURE — THE BOWDOIN CAMPUS IN 1965

New Gymnasium To Make Possible Indoor Athletics-For-All Program

When Bowdoin completes its planned new gymnasium, the College will once again have approximately the same indoor athletic space per student as it did when Sargent Gymnasium was opened 50 years ago.

The new building and related facilities will virtually triple the indoor space now available. Because of Maine's long winters, indoor athletic facilities must be relied on for more than half of any given school year.

The new gymnasium, together with alteration and renovation of intramural participation, first time as well as providing for the Director of Athletics. There will be special exercise rooms for improved physical fitness programs, wrestling, boxing, judo, and weight lifting for class work, and intramural and intercollegiate competition.

More adequate offices will also be provided for the Director of Athletics, Malcolm E. Morrell '24, and members of his coaching and office staffs. A coaches' conference room and projection room and other dressing rooms for game officials will be constructed in Sargent Gymnasium when the new facility is completed.

Charles A. Cary '10 of Wilmington, Del., Bowdoin Trustee and National Chairman of the Capital Campaign, said the new gymnasium, together with the altered facilities of the present structure, "will provide adequate facilities for the recreation, physical fitness program, and competitive athletics which are essential elements of a healthy and vigorous college experience."

Bowdoin's "athletics for all" policy is carried out through an integrated program of physical education, intramural contests and competition with other colleges and universities. During the last academic year, approximately 300 students participated in physical education classes and 400 in intramural athletics. More than 200 men on 22 varsity and freshman squads took part in competition against outside teams in 18 different sports.

Under terms of the grant, Bowdoin will receive an advance payment of \$90,000 by Nov. 1. This will be used for:

- 1—Curriculum and staff development costs in connection with the introduction of the Senior Center Program, the pioneering plan of integrated study and environment for seniors which will be inaugurated in September of 1964.
- 2—Expediting the reclassification of Bowdoin's library collections in order that the project may be completed before moving the collection into a new library building in 1965.
- 3—Expansion of the College's central heating system which will be necessary to serve the \$11 million Senior Center, the new \$2 million library and a new \$14 million gymnasium, also scheduled to open in 1965.

The College announced its \$10 million Capital Campaign a year ago and the total of gifts and subscriptions has passed the half-way mark. In addition to the Senior Center, library and gymnasium, specific goals include endowment for the support of instruction and financial aid to students, renovation of the present library and modernization of older dormitories.

To be eligible for the full amount of the Ford Foundation's grant, Bowdoin must raise \$75 million by June 30, 1968. Mr. Hokanson said this can be accomplished by successfully completing the Capital Campaign and by sustaining or increasing the level of the Alumni Fund.

ARTIST'S VIEW OF THE CAMPUS — Shown above is an artist's painting of the Bowdoin campus as it will appear after construction of (1) Senior Center; (2) new Library; and (3) new Gymnasium.

Hokanson Cites Grant Challenge

"An unprecedented opportunity and a challenge."

That's how Wolcott A. Hokanson, Jr. '60, Bowdoin's Executive Secretary and Capital Campaign Director, described the Ford Foundation's \$2.5 million matching grant.

In a special bulletin to all area chairmen, Mr. Hokanson said: "In making this grant, the Ford Foundation has given its highest endorsement to the program which we are all now seeking to fulfill."

The full measure of the Ford Foundation's magnificent tribute to Bowdoin can perhaps be gauged by the fact that of some 700 colleges eligible for such grants, 42 have received them; and of these 42, only Bowdoin and seven others have received the maximum amount.

The Foundation noted that Bowdoin have already taken significant steps to strengthen their academic programs, including improvement in curriculum, adoption of cooperative programs with other institutions, encouragement of independent studies for superior students, development of foreign area studies programs, introduction of honors programs, and the upgrading of faculty and student bodies.

Praise Extended By Maine Senators

Maine's two United States Senators joined in congratulating Bowdoin College.

Senator Margaret Chase Smith said: "I congratulate Bowdoin on the Ford Foundation grant, which I understand is the largest in the history of Maine's academic institutions. This grant is an impressive testimonial to the very high respect held for Bowdoin and to the esteem that it brings to the State of Maine."

Senator Edward S. Muskie said: "I was delighted to learn of the Ford Foundation's \$2.5 million grant. I know the College and its friends will be able to use this grant to the maximum advantage for the continued development of the educational resources of Bowdoin."

Fraternities To Continue In Key Role At Bowdoin

The College's future plans "depend to a remarkable degree upon the continually increasing stature and strength of Bowdoin's fraternities," President Coles has stated.

Bowdoin "is deeply committed to the fraternity as a means of organizing the undergraduate body and providing for the fullest development of the undergraduate student," the President said.

The College "holds its fraternities in high regard," President Coles added. "We have pride in them, and confidence in their future."

President Coles said that today, with criticism of the fraternities from almost every side, many would claim that Bowdoin is out

financial support from alumni, industry, and other donors.

Through its Special Program the Ford Foundation helps clarify and facilitate the acquisition of educational goals and supports efforts toward major new approaches in educational practices and processes.

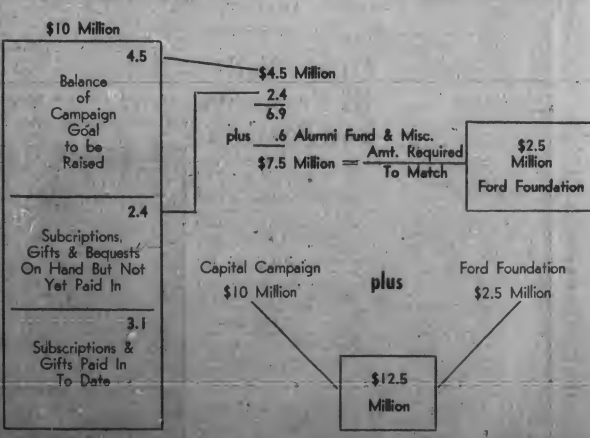

The provision for matching funds is an integral part of the Foundation's projects and is designed as an incentive to ambitious fundraising programs, in the hope that Ford Foundation support will stimulate more gifts from more private sources than ever before.

Supports Excellence

(Continued from Page 1)

achievement, academically and administratively; each may be used in any way that the college decides will advance its long-range plans and goals; and each is intended, through its requirements for matching funds, to help the college lay the groundwork for continuing sources than ever before.

CAPITAL CAMPAIGN AND FORD GRANT

The above chart shows how completion of the \$10 million Capital Campaign will provide the necessary matching funds for Bowdoin to qualify for the full \$2.5 million Ford Foundation grant. The \$3.1 million already paid into the Capital Campaign does not qualify for matching under terms of the Ford grant. The \$7.5 million in required matching funds will come from: (1) \$2.4 million in Capital Campaign subscriptions, gifts and bequests which have been made but not yet paid in; (2) \$4.5 million of the Campaign goal which is yet to be raised; and (3) \$3.6 million which is expected from the Alumni Fund and other sources during the three-year matching period. Thus, when the Capital Campaign is successfully concluded, Bowdoin will have a total of \$12.5 million in new capital funds.

THE NEW GYMNASIUM — This is a sketch of the new Bowdoin Gymnasium, scheduled for completion late in 1965. Architect is Hugh Stubbins & Associates.

"A Period Of Adjustment"

Again The Honor System

Dean Gresson's chapel talk last Monday has again raised the issue of an honor system for Bowdoin.

We do not feel that an honor system holds the answer to the problems of cheating, disrespect for the library, and stealing from the Union, and College Bookstore which the preliminary figures from the Columbia University study reveal as having reached flagrant proportions on our campus.

To attempt to legislate morality at this time, when it is so readily evident that students have chosen to disregard the freedom they now have, is an idealistic shot in the dark. The time for an honor system was ripe in 1794 or soon after. Then it may have prevented the present problems. Given the incidence of cheating, disrespect and disregard evidenced by a statistically relevant number of Bowdoin students, an honor system would do little more than make the College record worse than it is now.

Would students who now disregard the check out rules in virtually ununsupervised Hubbard Hall suddenly feel obligated to do so simply by signing a written pledge to abide by the present rules. Aren't these readily understood by all students now?

Exams are proctored by faculty members, yet a certain number of students still find ways of cheating. Is the pledge "I have neither given nor received aid" scrawled hurriedly across the top of a blue book going to make any difference when proctors leave the examination room?

And, isn't it just a bit incredulous to ask every student to agree not to steal from the Union? It almost seems that an honor system is designed to provide new impetus to follow already existing rules of conduct.

An honor system places the full burden of responsibility on the individual student. Under any such system he is obligated to report any and all infractions of the rules. This means not only against other students, but against himself also.

According to the figures which Dean Gresson disclosed in Monday's chapel, there are many individuals on the Bowdoin campus who cannot handle the responsibility they now possess. It is shocking to consider the effect of complete freedom on these individuals and on those borderline persons who now find themselves grudgingly held in the straight and narrow by the existing rules and regulations.

There are two possible responses to an honor system at Bowdoin. Either the cheating and stealing will rise in proportion to the amount of individual freedom given, or a type of witch hunting will develop in which every zealous student will feel obligated to report anyone who raises his head from his paper or inspects a book at the Union.

The problem here at Bowdoin is twofold. Not only must we contend with the dishonesty of our students, but we must also solve it ourselves.

But, it appears to us that students are not ready for the responsibility inherent in an honor system. The present system of responsibility has been disregarded, and it is a task to believe that more responsibility will solve the problem.

The solution is, however harsh it may be, more supervision. More faculty proctors in examinations, closed stacks and more library personnel to supervise the check-out desk, locked side doors at Hubbard Hall, more personnel at the Union and Bookstore. And, above all, swift and irrevocable penalties for offenders.

Student responsibility is a reality to be desired when it can be appreciated, not abused. In this instance let the student responsibility come in the form of appointed and recognized student proctors and watch dogs. It appears that this is the only form of responsibility we're ready for.

From The Other Side Of The Wall . . .

by Sandy Dolg

Wading through the stacks of accumulated summer mail at the ORENT office we came across an introductory copy of a paper whose editors wished to exchange subscriptions with us. Though our budget is too thin to facilitate this, we would like to reprint some of their more interesting comments which we addressed, incidentally, to "The students of Bowdoin College". . .

The following excerpts come from THE PEEKING REVIEW, Vol VI, No. 26 (June 21, 1963).

If you do awake nights worrying about the worsening situation in Laos, due to stepped-up Chinese intervention you may receive some consolation from the following:

"Evidence piles up that the grave situation in Laos is worsening due to stepped-up U. S. intervention."

"Just as do many American publications, THE PEEKING REVIEW has a section reserved for "Letters to the Editors." However, the letter from which the following excerpts are drawn was written by a committee and has all the earmarks of a committee report. . . It runs 22 pages! The Chinese answer to "Dear Abby," this letter starts, "Dear Comrade."

"What are the fundamental contradictions in the contemporary world? They are:

The contradiction between the socialist camp and the imperialist camp;

The contradiction between the proletariat and the bourgeoisie in the capitalist countries;

The contradiction between the oppressed nations and imperialism; and

The contradictions among imperialist countries and among monopoly capitalist groups."

(How about contradictions between Stalinists and Leninists? or between the Red and the Mao Tse-tung? or between the Aspin and the Buffet?)

"Ever since World War II the U. S. has been conducting propaganda for war against the Soviet Union and the socialist camp. There are two aspects to this propaganda. While the U. S. is actually preparing such a war, they also use this propaganda as a smokescreen for their oppression of the American people. . .

"By the way, who lives in this 'U. S.' anyway?"

We are much relieved, however, to note that Red China is finally in support of world peace, for their aim is to:

"Oppose the imperialist policies of aggression and war, and defend world peace." ("But can peaceful transition be made into a new world-wide strategic principle for the international communist movement? Absolutely not!")

Actually, we didn't realize just how badly off we were until we read the following concerning our oppression:

"It is impossible for the working class in the European and American capitalist countries to liberate itself unless it unites with the oppressed nations."

(Color TV's, Sports cars, Playboys . . . perhaps someday you too can be liberated from all of this!)

You also may be glad to hear that China is unalterably opposed to the Bomb. . .

"The complete banning and destruction of nuclear weapons is an important task in the struggle to defend world peace. We must do our utmost to this end."

(We are therefore sure that Mr. Tse-tung must have greeted the test-ban treaty with open arms. . .)

The letter ends:

"Workers of all countries, unite! Workers and oppressed people and nations of the world, unite! Oppose our common enemy!

"With communist greetings, 'The OCCP of China.'"

Later, commenting on a small rift (no, not a contradiction) in the communist ranks, the P.R. says:

"The Tito group's attacks and slanders are no novelty; they are pickings from the junk peddled by the imperialists and other revisionists. They can do no harm to the Communist Party of China. On the contrary, they only show that the C.P.C. is a great, glorious, and correct party."

"After all a renegade is a renegade. Tito's speech has thrown additional light on his true renegade features. . . Should one yallow in the mire with these renegades?" (Well after all, Mao, renegades will be renegades.)

Also included under "World news in brief" is the following:

"On May 30, between 12:30 hours and 12:55 hours, a U. S. plane intruded into China's territorial air space. . . The Chinese Foreign Ministry has issued the 246th, 246th, and 247th serious warning against such provocations."

We must regretfully report, though, that the entire tone of the magazine seemed rather hostile toward the institution of Capitalism. However, our confidence is in some measure restored by the back cover; it contains a full page advertisement for "Warrior" - brand tires - suitable for any road, any climate; wide range of tread patterns (White walls at slightly higher prices) "For particular pleasure write to China National Chemicals Import and Export Corporation (corporation), Cable address: 'Sinochems' . . . Shades of Madison Avenue!

New Thoughts - Old Hat

Change something that's been old hat for a long time and someone's bound to complain. Take Orientation for example. Not a bad program if you happen to be a freshman, a little disquieting if you happen to be a senior. A matter of perspective, plain and simple.

Much of the new program is good, but its soft sell nature has lowered the price a guy has to pay, the effort he has to go through before he earns privilege of joining a fraternity. And if the Milquetist approach lessens the stature of fraternities, and the entire system they represent, that's one of life's sad facts.

But the as we want to grind doesn't belong to the fraternity system, rather it's one which belongs to the whole college. We miss the signs and beanie. Especially the beanie.

They didn't cost much, and they were one of the real bona fide college traditions we can think of that everybody knew about.

Next year maybe somebody will see to it that the freshman class wears class beanies. They don't really have much to do with orientation, they belong to the whole wealth of color and excitement that goes with the first few weeks of college. As it was they didn't really signify much more than membership in a college founded on the heels of the American Revolution.

This Weekend

Today marks the first day of Bowdoin's annual Parents Weekend. While parents are welcomed on the campus anytime their presence is often discouraged by some of us who have other important weekend activities to which undivided attention must be given. The College even goes so far as to advise parents that the last weekend in October is a most unwise time to visit their sons, with the laconic explanation, "your son will probably be otherwise occupied and will have little time to visit with you."

Well, parents, since this is officially your weekend, welcome to the Bowdoin campus. We hope you will enjoy your brief visit with your sons and that you will have an opportunity to attend classes, chapel, and participate in the various activities planned for your interest.

In addition to the opportunity to be with your sons, there is a spirit and feeling about Bowdoin which we hope you will be infected with during your brief stay on the campus. Welcome folks.

All - Bowdoin All - American

It gives us great pleasure to extend our congratulations to Doc Hanley on his most recent honor. The nomination for the Sports Illustrated Silver Anniversary All-America Award is a singular honor - one of which he and Bowdoin can be justly proud.

The Doc has been an example to Bowdoin undergraduates since he became College Physician 16 years ago. Not only has he devoted much of his time to encouraging interested students to pursue a medical career, but he has also been a sincere and warm friend to countless undergraduates. The quick wave, cheery greeting and expert attention to student ills, real and imagined, have made Doc Hanley one of the most respected of Bowdoin men.

"The aim of the Silver Anniversary All-America Award is to emphasize the pursuit of rounded human values in which athletics and education are joined." We congratulate Doc Hanley for this recognition of these values which for 16 years he has exemplified to Bowdoin students.

4200 NEGATIVE SHORT SUBJECTS

Notes And Comments

Life Can Be Beautiful

The guy with the grey crew cut had been waiting for a long time. He started late last evening and this week...

And so it went for Joseph Valachi, mobster informer, as he answered Sen. John McClellan, D. Ark. and other members of the senate investigating committee...

If anyone took time to watch the hearings, to watch Valachi as he described his initiation into and involvement with the mob...

The doom to which he offhandedly referred would have been arrived at before the hearings started, were not Valachi held in prison under extremely tight security precautions...

Sentenced to life in the prison, there seemed to be little reluctance on Valachi's part to testify in public...

He turned informer after killing fellow prisoner in a federal prison in Georgia, mistakenly believing that the prisoner was out to get him because his homes in the syndicate had ordered him murdered...

Valachi sat before the cameras, like a quiz show contestant, describing his part in gangster, attorney and government activities...

He pulled the trigger in some of New York's most famous mobster meetings and having spoken, Vice Governor John B. Conover...

The obvious thing about Valachi, the hearing told the whole concept of organized crime, fragmented and compartmentalized until it is impossible to see...

The collection committee is, for all intent, impervious to the outside world. Returning to school in the fall is like re-entry into a three-walled Shangri-la...

When Valachi stops singing, he is highly likely that some story will never know that he was on stage at all.

Five Teaching Fellows In Languages Appointed

Five Fellows in Foreign Languages have been appointed to the Bowdoin campus annually from foreign teaching staff for the 1961-62 academic year. The same number of Teaching Fellows are brought to campus to conduct aural-oral classes in their native tongues...

The Language Fellow program is an extension of the Bowdoin Plan, by which each of the College's 11 fraternities provides rooms and board for a foreign student...

The new Teaching Fellows are Winfried Pahl of Welsbaden-Berich, Germany, and Daniel Herold of Ebsdorfergrund, Germany...

Mr. Pahl has since 1940 been a student at Johannes Gutenberg University in Mainz, where he is majoring in English and German...

Mr. Herold attended the University of Bonn in Germany, where he received his B.S. degree in 1958...

Polar Bearings

By Rick Andrias and George Bennett

Saturday: A Success Story

Amid the excitement of Rushing Week, the only noticeable evidence of athletic activity around the Campus was an occasional loaded car bound for the Golf Links and numerous touch football games about the Houses. Varsity teams, who have been up here working for weeks continued their arduous chores on the practice fields; and the freshman teams too have begun their training.

The long weeks of work have paid off now. Fall sports are no longer in the background. The Football and Soccer seasons have begun triumphantly, and the cross-country team is poised for their first meet with St. Anselm's.

The pick-up football teams on the Mall have been transformed into organized and hard-hitting inter-fraternity squads. All phases of Bowdoin's organized athletics are now in full swing.

The Football teams 28-6 upset over Tufts Saturday has been the talk of the Campus. Saturday's game against Wesleyan, the Polar Bears home opener, promises to be a well contested battle.

This game against Wesleyan, the highlight of Parents weekend will not be an easy victory, despite Bowdoin's impressive pre-season play and Saturday's win. Wesleyan, as are all the "Little Three," is alleged to be stronger than ever this year. Wesleyan posted its first win in six years over Middlebury last Saturday; and also boasts two un-defeated freshman teams in the past two years.

In an interview with coach Nels Corey this week, he said that he was pleased and proud of the "whole" team. "One outing does not make a performance," Coach Corey cautioned though; and although the game with Tufts was encouraging it will take "two or three games to see how things develop."

Wesleyan, Amherst, and Williams all promise to be strong opponents. Wesleyan's depth will be a big factor in the weekend's game, it has been pointed out. As far as Coach Corey knows Bowdoin's team is the smallest in size and in numbers in New England. The line averages 187 pounds, which is a rarity in college ball in itself.

Although Bowdoin's offense is "fundamentally the same" as in the past, this year's split-end pass set up will be a big threat to any defense Wesleyan can throw up. Quarterback Bob Harrington, whose poise and accurate arm combined with the sure hands of Jim MacAllen, Frank Drigotas, and Paul Soule last week, will again be at the wheel of a spirited Bowdoin squad.

Congratulations to the entire football team for their performance this past week; to Bob Harrington especially for his part in the victory. Good luck to the team and Coach Corey in tomorrow's contest.

Surging Booters To Face Strong Wesleyan Eleven

Tomorrow at noon Charlie Butt's booters will attempt to continue what they began last week as they face a strong and seasoned Wesleyan squad in what will be the Polar Bear's second regular season game.

Wesleyan game crucial

The victory on Saturday gave Bowdoin a 1-0 league record, and an unofficial one of 4-0. The streak will be in grave danger this Saturday, however, when the White meets one of the strongest squads in New England. Returning virtually unchanged from last year (when they took the Polar Bears 6-3 in Middletown), the Cardinals have a record of 9-1 this season, having dropped their opener to Brown, 2-1. Spearheading their offense will be Brian Sharp, a junior who gained an All-American honorable mention last year. He will be supported by co-captain Pete Sipples, who led the Red's scoring last season with 11 tallies.

Coach Butt feels that his squad is the best that the college has seen in many years, commenting that even this early in the season they exhibit teamwork exceeding anything attained last year except at the very end. Thus the game tomorrow will probably be a tight one, with the outcome still very much unsettled.

Lowell deposed, 3-1

The club's latest performance was against Lowell Tech. at the latter's home field last Saturday afternoon. The game was played on an exceptionally rocky and uneven field and the White booters, taking too long to adjust, found themselves one goal down in the first few minutes of the first period, due

Halfback Paul Soule scores for Bowdoin despite a host of Tufts defenders. This tally ran the score up to 21-6 after three periods. This touchdown is the second of three that Soule scored Saturday. (Photo courtesy of Harry G. Shelman, Portland Sunday Telegram Staff Photographer)

to a collapse of the defense. Bowdoin soon showed that it could recover from the short end of a score (their first in four starts) however, as Hans Hede, Swedish student in the college, turned one into the Lowell nets on a crux by Rick Copeland.

Continuing to dominate play into the second period, the White offense continued to mount several attacks which were stopped just short of the goal line. The final scoring punch, which had begun to appear in the scrimmage against MIT, was definitely absent in front of the nets Saturday. However, even with their Sunday punch somewhat diminished, the White booters proved they could out-juggle their opposition, and tallied No. 2 and No. 3 (a hard shot by right wing Gerry Gleaser and a goal from the middle of the penalty area by Cy Allen) before the whistle for the half.

During the second half the White defensive unit began to jell and allowed no sustained attacks on goal. Steve Segal during the third and fourth periods. However, neither was the forward line able to sustain any drives of its own. The remainder of the game was played out largely between the penalty areas with few shots on goal by either squad.

Defensive standout of the game was Steve Weis, who went nearly the entire 38 minutes at left half-back. Though the Lowell booters tried repeatedly to clear up the side of the field, his close support of the forward line, coupled with beautiful heading, gave them little chance to press from the right wing position.

Bowdoin Crushes Tufts In Opener

It was ten years in the making, but the wild approval of the Polar Bear fans that greeted the varsity eleven's 28-6 romp over coach Harry Arlanson's Jumbo's at the Tufts Oval last Saturday proved that it was more than worth a decade of waiting. A crowd of almost 5,000 watched under sunny Medford skies as Bob Harrington, with a sparkling exhibition of precision passing, baffling ballhandling, and poised play-calling drew clouds of confusion over the Jumbo defenses.

Two touchdowns came on Harrington passes to sophomore's Paul Soule at halfback and Jim MacAllen at right end. Soule carried for two others.

Two touchdowns came on Harrington passes to sophomore's Paul Soule at halfback and Jim MacAllen at right end. Soule carried for two others.

A Tufts miscue set up the first Polar Bear tally. Jumbo quarter-back John Nyhan flustered a twenty yard pass into the eager hands of Al Ryan who grabbed it on the Tufts 46 and brought it back down over the 40 yard line. Piloted by Harrington the Polar Bears needed only three plays to pick up their first six points. The first play saw Soule grind out three yards to the 38. Harrington then took to the air hitting Jim MacAllen on the home team's ten yard line. MacAllen studied one Jumbo before being brought down on the 5. The ball-carrying chores then went to Soule who churned through the right guard spot to reach paydirt.

Late in the first quarter the light but tough Polar Bear defense forced Tufts to kick. Bowdoin took over on the Tufts 49 yard line. Harrington quickly scampered to the Medford team's 40, ending the quarter. Opening the second quarter, Soule picked up 4 yards which was more than enough for the first down. On the next play Robert the Rifle hit MacAllen on the 5 and he raced in easily for the touchdown. For the conversion Harrington stepped back and fired through the wildly waving arms of an onrushing Tufts line-man into the waiting arms of half-back Bill Parley. This set the score at 14-0 at the half.

Tufts came back strong to open the second half. Returning the Bowdoin kickoff to the 37 the Jumbos marched 63 yards in 12 plays. This series ended with halfback Ralph Doran slanting in from the 4 yard line giving the home squad its only points of the game.

The Polar Bears then returned for the second of his three touchdowns. Barry Smith's kick was good for 40 yards in 13 good for the conversion and thickened the final score to 28-6.

Quarterback Bob Harrington breaks into the open for a long gain in Saturday's game at the Tufts Oval. (Photo courtesy of Harry G. Shelman, Portland Sunday Telegram Staff Photographer)

Harriers To Open Saturday; Frosh Better Than Average

This year the Cross Country team is the smallest that Coach Sebastian has had in many years. However, the outlook for the team's winning a few meets is good if they can go the whole season without incurring any injuries. Leading this year's team are returning letterman, Captain Bert Babcock and Gerry Eraser. Stephen Reichert should provide a good one-two punch for the varsity. Backing up this duo are Tom Chamberlain, The Howe, and Chris Reichert. Chamberlain injured last year, seems to be coming along well this year. Howe, the outstanding performer on last year's frosh squad, has made the switch from 3/4 miles to 4 miles easily and should be a more than capable performer. Reichert, the only senior on the team, is back after missing last year's season. He had earned a letter as a sophomore. John Wilson, a sophomore is the sixth man on the team. Wilson was not out for cross country last year but is doing a good job so far.

The team's first meet will be against St. Anselm's on Saturday at the Brunswick Naval Air Station's golf course. The team is optimistic about its chances against this opponent. The remainder of the schedule includes Amherst, October 12; Williams, October 19; Colby, October 27; Bates, November 2; and Vermont, November 8.

"Appreciates Bowdoin's close relationship with the community."

Brunswick, Maine Dial 729-3422

1. Excuse me, sir, I'm conducting a poll for the college newspaper. I wonder if I might ask you a few questions?

2. In your opinion, what are some of America's most significant achievements in the past 80 years?

3. Let me put it this way. During the last half century what new ideas have led to important benefits for the American people?

4. I'll rephrase the question. Since 1912, what developments can you think of that have made the lot of the working man easier?

5. Give it a try.

Well, speaking off the top of my head, I might say stretch socks.

I'm sure everyone would agree they've been useful. But isn't there something with a bit more social significance that comes to mind?

There certainly is. There's Group Insurance, the principle of which is to help provide protection for those who need it most and can afford it least. Pioneered and developed by Equitable, it has proved most efficacious. For that reason, I would most emphatically suggest its inclusion among the significant achievements. But I still think the two-plant system is pretty important.

Now you're getting tricky.

Hokanson Forecasts Success In Expansion Drive Campaign

"To be where we are at this point, with respect to the funds to date, is evidence that the ten million dollar goal is achievable as originally scheduled."

So commented Mr. Wolcott A. Hokanson, Jr., Bowdoin's Capital Campaign Director on the current status of the Capital Campaign.

At the present time, the Campaign has netted \$4,850,000 in grants and subscriptions from alumni, friends, and various funds. The above figure does not include a Ford Foundation Grant of \$2.5 million which was awarded to the College on June 21 of this year under the provision that the College raise \$75 million from other than governmental sources or funds affiliated with the Ford Foundation before June 30, 1966.

Upon completion of the Fund Drive, the College hopes to realize a total of \$123 million, a figure which includes the Ford Foundation Grant, the money raised by the College during the Drive, and a \$2 million endowment gift donated to the College last spring.

Mr. Hokanson remarked that "at present, a thousand Alhambra are working... with good hard work we will achieve our goal."

It was also noted that the present Fund Drive is but a part of some \$28 million in new capital funds for endowment and expansion which will include \$11.5 million for instructional improvement and financial aid to students, additions to the Moulton Union and the Art Museum, a computing center, an administrative office building, physical education field space, land acquisition and other campus improvements.

Although this expansion program has nine more years before completion, its results are already being felt on campus. This summer the heating plant was renovated and new boilers installed at a cost of \$100,000, which was part of a \$400,000 initial installment from the Ford Foundation Grant.

Another \$100,000 has been allocated to get the Senior Center Program under way. This program is being initiated with the establishment of a "graduate school study center" which is to provide facilities for the consolidation of graduate school catalogues and the beginnings of a catalogue library. In conjunction with the Graduate School Study Center, recent graduates will be brought back "to give students a knowledge of a wider range of graduate schools..." and a number of Senior Banquets will be held to assist the Seniors in deciding what to do after graduation, with the whole purpose of this program being "that we (the Senior Center Committee) don't want the Seniors to feel that the senior Center is only for next year's students."

Financial aid to students is another area indirectly helped by the Capital Campaign. By releasing funds ordinarily used for other purposes and by creating new positions...

Political Forum Officers

The Political Forum has announced the election of Frederick J. Steadard, Jr., for the 1963-64 academic year. Elected as Vice President was Charles J. Glanville, and as Secretary-Treasurer...

Coming Here Alumni Weekend

The second Student Council meeting for this semester was held in Conference Room B of the Moulton Union Monday night. Dean Craven and twenty-three members attended the meeting.

President Seaver opened up the meeting by extending a plea for the return of the tables, chairs, and composite photographs of the various fraternities houses during the past two weeks. He threatened a police investigation if the stolen articles were not returned by noon, Wednesday.

Steve Putnam, Chairman of the Orientation Committee, reported that the program is still working very well. He added that all of the houses were making free use of the "big brother system" and house advisers. Chairman Putnam, however, said he would continue making meal-time visits to the houses to see to it that there are no intrusions of the program.

"IN THE BEACH WITH HIS PLATO" - Alumni Journal, named leader of the Jam trio which will provide Friday night entertainment on the weekend of Homecoming. Though received with mixed reviews by the critics, Miss Davis (another recent Bowdoin alumnus from the field of Jam) once stated that his idea of absolute entertainment would be to bring on some beach listening to the Jam's "Viv. Barring the beach, Bowdoin men and their friends will be in the mood to realize Davis' wish as they lounge at the Margate Gym two Friday nights.

'Search For A Usable Past' Subject Of Dr. Commager

Dr. Henry Steele Commager, one of America's most noted historians and authors, will lecture at the College on Thursday, Oct. 17.

Professor Edward Pils Chairman of the Department of Philosophy and Chairman of the College's Committee on Lectures and Concerts, said Dr. Commager's topic will be "The Search for a Usable Past." His address will be given in Pickard Theater, at 8:15 p.m. The public is cordially invited to attend without charge.

Dr. Commager, who is Visiting Professor of History and American Studies at Amherst College, is a native of Pittsburgh, Pa. He earned his bachelor's, master's and Ph.D. degrees at the University of Chicago. From 1926 to 1938 he was a member of the Faculty at New York University before going to Columbia to teach.

As a Visiting Professor, he has also taught at Duke, Harvard, University of California, and was also Bacon Lecturer at Boston University.

Professor William D. Geoghegan, said the Bowdoin deadline date for nominations will be Oct. 25. Professor Geoghegan is the Bowdoin liaison officer for the Danforth Foundation of St. Louis, Mo.

The Foundation offers fellowships open to college seniors or recent graduates preparing for a career of teaching, counseling, or administrative work at the college level. Applicants may be planning to major in any field of study common to the undergraduate liberal arts and sciences curriculum, at the American graduate school of their choice, but may not have already undertaken graduate work.

During the 1962-63 academic year, a Bowdoin senior, Charles N. La of Kew-Fong, Hong Kong, was awarded a Danforth Graduate Fellowship for study at Stanford University.

Approximately 100 fellowships will be awarded to outstanding candidates nominated by Liaison Officers of accredited colleges and universities in the United States this year. Nominations will be judged on intellectual promise and personality. Integrity, genuine interest in religion, and high potential for effective college teaching.

Winners will be eligible for up to four years of financial assistance, with an annual maximum of \$1,500 for single men and \$2,000 for married men plus dependency allowances for up to three children, and tuition and fees. Students without financial needs also are invited to apply.

Students may qualify for a Danforth Fellowship concurrently with other appointments, such as Ford, Fulbright, National Science, Rhodes, Woodrow Wilson. Winners will become Danforth Fellows without alienation until their award lapses.

The Danforth Foundation, one of the nation's 10 largest educational Foundations, was founded in 1927 by the late William H. Danforth, St. Louis businessman and philanthropist. The Foundation's primary aim is to strengthen higher education through programs of fellowships and workshops, and through grants to colleges, universities and other educational agencies.

Achorn Prize Debates Begin Monday, Oct. 21

Members of the freshman and sophomore classes will compete Monday, Oct. 21, in the annual Achorn Prize Debate. The affair will begin with a social dinner at 4:30 p.m., followed by a buffet dinner at 6 p.m. It is expected that the affair will bring together more than 150 of the faculty.

The primary function of this dinner will be to spotlight the necessity and effectiveness of the active teacher as a mechanism for stimulating the pursuit of knowledge, according to Kerry McCollister, Publicity Chairman.

Governor Reed, who accepted the invitation almost immediately, has long been an advocate of higher education as a tool for making life better and progress.

President George Eliades of the Kappa Sigma House voiced the hope that this dinner will become an annual affair. The faculty members are certainly not novel the concept of honoring the active teachers for their contribution as well as a great deal of merit, McCollister said.

Council Discusses Honor System; Orientation

The second Student Council meeting for this semester was held in Conference Room B of the Moulton Union Monday night. Dean Craven and twenty-three members attended the meeting.

President Seaver opened up the meeting by extending a plea for the return of the tables, chairs, and composite photographs of the various fraternities houses during the past two weeks. He threatened a police investigation if the stolen articles were not returned by noon, Wednesday.

Steve Putnam, Chairman of the Orientation Committee, reported that the program is still working very well. He added that all of the houses were making free use of the "big brother system" and house advisers. Chairman Putnam, however, said he would continue making meal-time visits to the houses to see to it that there are no intrusions of the program.

Jeff Long, Chairman of the Student Council Committee on Rushing, then submitted the report of his committee to the Council.

Edward McAbee Recipient Of Orren Chalmer Hormell Cup

Award, Established In 1949, Given Annually By Sigma Nu

Edward A. McAbee, Jr., '66 will be the 1963 recipient of the Orren Chalmer Hormell Cup. The cup will be awarded in Monday's Chapel.

The Hormell Cup is awarded annually by Sigma Nu Fraternity to a member of the previous year's freshman class who has combined outstanding achievement in academic work with participation in competitive athletics.

McAbee, a member of Zeta Psi, previous years by Frank Nicolai, 1960; Bill Rounds, 1961; and Bill Lynch, 1962.

Prof. Dane Lectures On Aesthetic Values Of Latin Literature

Professor Nathan Dane II Chairman of the Classics Department gave his inaugural address as Winkley Professor of the Latin Language Wednesday.

Elected to the academic chair by Bowdoin's Governing Board last July, Professor Dane spoke in the Moulton Union Lounge at 8:15 p.m. His address was entitled "The Case for the Latinist."

Professor Dane is the seventh Faculty member to hold the Winkley Professorship, endowed by Henry Winkley of Philadelphia, Pa., and established in 1880.

In his lecture, Professor Dane made clear that his purpose was to "uphold, not defend" the position of the Latinist. In this statement he referred to a remark made by President Bill in 1964, stating that he was "always glad to have the Classics upheld (not defended)." They need no defenses.

Also emphasized was the opinion that Latin should be learned for its aesthetic value and not for its "disciplinary value" or its "concomitant benefits of improving one's English." Prof. Dane said that the Classics have "300 often over-looked beauties and powers" which are presented to be grasped by the true student of the language.

The author of "An Introduction to the Language and Literature of Greece and Rome," Professor Dane has also written numerous articles and papers for classical journals.

He served as President of the Classical Association of New England from 1962-63, is a member of the American Philological Association and has been elected to the Managing Committee of the American Society of Classical Studies in Athens, for three years. Professor Dane held the post of Chairman of the Latin Subcommittee of the School and College Study of Admission with Advanced Standing, which was supported by The Ford Foundation.

Steve Ingram, right, Sigma Nu House president, congratulates Hormell Cup winner Ed McAbee. Awarded to the outstanding member of the preceding freshman class, the Cup will be presented Monday morning in Chapel.

KappaSigma To Hold Dinner For Governor, National Science Foundation Grant Given To Prof. Howland

The National Science Foundation announced a \$48,900 grant for the support of a biological-biochemical research project at Bowdoin under the direction of Professor John L. Howland of the Biology Department.

The grant, largest ever received by Bowdoin for an individual scientific study, will be for a three-year project.

Professor Howland, who returned to his alma mater as a faculty member last month, said his research will be concerned mainly with probing the energy metabolism of living cells. He will study the manner in which cells manufacture Adenosine Triphosphate, a basic life chemical. Adenosine Triphosphate, or ATP as it is more commonly known, is the substance in which energy is stored in the cell, the biochemist said.

In his investigations, Professor Howland said, he will be using many of the laboratory techniques of biochemistry including radioactive tracers to follow the generative processes in the cell.

The NSF grant will allow the purchase of equipment necessary for the project. This will include a spectrophotometer, to measure the rate of enzyme reactions, and an oxygen polarograph, which measures the rate of oxidation by some of the components of cells.

Professor Howland said he began his research at the University of Amsterdam in The Netherlands, where he was a Post-Doctoral Fellow until coming to Bowdoin.

He has recently said his research will be concerned mainly with probing the energy metabolism of living cells. He will study the manner in which cells manufacture Adenosine Triphosphate, a basic life chemical. Adenosine Triphosphate, or ATP as it is more commonly known, is the substance in which energy is stored in the cell, the biochemist said.

WBOR To Broadcast Amherst Game Over Closed Circuit Line

WBOR will do the play by play of the Amherst game tomorrow at 1:30. However, due to technical difficulties, this game will be broadcast only in the Union over a closed circuit set up, according to Charlie Wallace, station manager. Regular broadcasting of WBOR is scheduled to begin next Thursday.

In response to a request to have the houses open to dates on Homecoming, Dean Craven said that, although the House Party rule allow only two house-party weekends a year, the fraternities may not house dates on Friday night but may open up on Saturday if they so choose.

Chip Burnham then raised the question of buses to away games. The Dean answered that "it has been done in the past; and the White Key, the Chessiers, or even this Council could arrange it." When asked about the absence from class, he quipped, "Well, isn't that what cuts are for?"

On that note, the meeting was adjourned by President Seaver who reiterated the desire of the Dean for a workable honor system in regard to cheating on papers and exams, vandalism to library books, and thefts from the College store.

Former Danish Parliament V.P., Ole Kraft To Lecture Here

Ole Bjorn Kraft, a Vice President of the Danish Parliament and former Danish Minister of Foreign Affairs, will speak at Bowdoin Tuesday, Oct. 15, it was announced by the Economics Department. Mr. Kraft will lecture on "Economic Relations in Europe" at 8:15 p.m. in the Moulton Union Lounge. The public is cordially invited to attend the lecture and the discussion period which will follow.

Mr. Kraft, who has been prominent in the political life of Denmark since 1941, was in North Jutland city of Aalborg to the Danish Folketing (Parliament) in 1966 as a representative of the Conservative People's Party, and has been re-elected unopposed since.

He has served as a member of all the important parliamentary committees and during the German occupation of his country in 1940-45, Mr. Kraft was a leader of the Danish Resistance Movement.

After the war, while awaiting the arrival of the Communist take-over in the underground course, he was attacked in his Copenhagen home and seriously wounded by a Nazi assassin. The Germans made a second attempt on his life when they sought underground leaders in the headquarters of the Conservative Party.

Mr. Kraft was Minister of Defense in the first Danish Government after the liberation from the German occupation and planned the rebuilding of the Danish Army, Navy and Air Force. He participated in the first meeting of the United Nations in London and has visited the United States several times as a member of the Danish Delegation to the UN.

When a coalition government of the Conservative Liberal Party and the Social Democrats came to power in 1960, Mr. Kraft was named Minister for Foreign Affairs. In that capacity he signed the 1961 treaty between the United States and Denmark on the defense of Greenland.

During his entire career Mr. Kraft has taken great interest in international affairs. Before he became

Minister for Foreign Affairs, he was Vice President of the Council of Europe in Strasbourg. He is currently Chairman of the Cultural Committee of the Council of Europe.

A former newspaperman, Mr. Kraft was for several years associated with the "Berlingske Tidende" of Copenhagen, the largest newspaper in Denmark.

A recent book by Mr. Kraft, "Woe to the Vanquished," was published in Denmark in the fall of 1962 and in Austria last spring. The book deals with the Communist take-over in Eastern Europe. Mr. Kraft's latest book is "Scandinavian Relations with the Soviet Union Since 1945."

WBOR To Broadcast Amherst Game Over Closed Circuit Line

WBOR will do the play by play of the Amherst game tomorrow at 1:30. However, due to technical difficulties, this game will be broadcast only in the Union over a closed circuit set up, according to Charlie Wallace, station manager. Regular broadcasting of WBOR is scheduled to begin next Thursday.

In response to a request to have the houses open to dates on Homecoming, Dean Craven said that, although the House Party rule allow only two house-party weekends a year, the fraternities may not house dates on Friday night but may open up on Saturday if they so choose.

Chip Burnham then raised the question of buses to away games. The Dean answered that "it has been done in the past; and the White Key, the Chessiers, or even this Council could arrange it." When asked about the absence from class, he quipped, "Well, isn't that what cuts are for?"

On that note, the meeting was adjourned by President Seaver who reiterated the desire of the Dean for a workable honor system in regard to cheating on papers and exams, vandalism to library books, and thefts from the College store.

Next week's meeting, according to President Seaver, will be concerned with a method of selecting the College Bowl team.

Next week's meeting, according to President Seaver, will be concerned with a method of selecting the College Bowl team.

Prof. A. P. Daggett Bob Peterson Ann F. Smith
15 EAST 47TH ST. NEW YORK, N. Y.

Published weekly when classes are held during the Fall and Spring Semesters by the students of Bowdoin College. Address news communications to the Editor and subscription communications to the Business Manager of the Bowdoin Publishing Company at the ORIENT Office in House Hall, Bowdoin College, Brunswick, Maine. Entered as second class postage paid at the post office at Brunswick, Maine. The subscription rate for one year is four dollars.

Editorials

Why Rules Are Made

It is indeed unfortunate that the individual must often be set up as an example for the whole student body. In the wake of a fall frenzy, new to the Bowdoin campus, which included a Monday night water fight between Hyde and Appleton Halls and the sporadic crash of fire crackers and cherry bombs nearly every night this week, the prowling slauts of Mass Hall apprehended one person.

After a meeting of the Student Judiciary and a review of that body's recommendation by the faculty, a prominent football player was suspended from the College. He will miss the Amherst-Bowdoin football game tomorrow and a week of classes, returning to the campus next Wednesday afternoon.

It is all too easy to rationalize that the offense was a minor infraction of the rule prohibiting the "possession or use of firecrackers or other explosives" in the light of the importance of tomorrow's game at Amherst.

To note that others have obviously been tossing fire crackers from dorm windows without being caught or to recognize that one of Bowdoin's finest undergraduates has been dismissed from the College after his first violation of the dormitory rules is further rationalization of the basic problem.

The dormitory rule on firecrackers reads, "possession or use of firecrackers or other explosives is expressly forbidden by the College and by State Law and will result in separation." Given the circumstances surrounding the infraction of this rule Monday night and the high spirit on campus backing the football team, we must commend the Student Judiciary for the way it discharged its responsibility.

Student responsibility does not mean yielding to student prejudices. The Judiciary had no other course but to invoke the separation clause of the dorm ruling.

It is unfortunate that the football team will lose the services of its star end. And, it is unfortunate that he will miss a week of classes. But, it is indicative that the students and the College are not willing to compromise the rules and regulations for one individual.

In the short run everyone suffers, but in the long run the decision of the Student Judiciary, upheld by the faculty Administrative Committee, show to everyone now concerned and anyone who may be concerned later, that the College rules will be enforced, regardless of the offender.

The Best So Far

Of the people that saw Hal Holbrook, or more properly, Mark Twain last weekend, few will deny that the program was one of the best things to appear on Bowdoin's stage in some time. If not the best, one of the most enjoyable.

It was unfortunate that so many students desirous of tickets were unable to obtain them, perhaps for future presentations of the same merit, more tickets may be allotted to college community, and fewer to the general public.

Congratulations should go to Dan Calder, who, we understand, was the program's general coordinator.

With a beginning as good as last Saturday night's was, hopefully, the program of lectures and presentations to be offered this year will be one of the finest in recent years.

It is now a proven fact that people will turn out for a performer or performance of real worth. This may in part explain many half-filled houses in the past.

Calling All Writers

It would be very traditional to say that Longfellow and Hawthorne wrote for the Bowdoin Quill during their undergraduate days here. It's almost too bad... but they didn't.

The Quill does, however, offer to the present Bowdoin student the only opportunity on campus to publish his original compositions. In the past the Quill has published editions which have started faculty and students alike with their artistic merit and mature writing.

I-UH--Think This Has Gone Far Enough

THIS YEAR'S ORIENT STAFF CARTOONIST, Ted Wentworth, has a graphic mind. A junior, Ted is a member of Beta Psi who's two chief hobbies are skiing and drawing.

From week to week, Ted will comment on life, real and imagined from his box beside the masthead. His work will continue to be a regular Orient feature.

This week's illustration, a fablesy study of a recurrent undergraduate phenomenon, is typical of Ted's personality.

A native of West Ossipee, N. H., Ted has been "loafing around with this kind of thing for a long time." He is in a psychology major, who's career plans center around Advertising after completion of his military obligations.

The concept of a weekly cartoon feature is new to the Orient and is admittedly experimental. The editors hope that such a feature will prove an invaluable addition to the way style of editorial comment that has made the Orient newspaper in Bowdoin journalistic circles. Welcome aboard Ted.

Park Your Car Myster?

By Michael Wood

Bowdoin, much like other centers of learning and culture, has a parking problem. This is only too obvious in the area near Winthrop and Massachusetts Halls. Students driving to class and parking on both sides of the street next to Bills and Adams Hall create a bottleneck. Last year there were over two-hundred cars on campus registered to Bowdoin students.

In the past few years College parking tickets have been issued to violators of no parking area. The results of this have been devastating. The College has wasted its money and the cars and drivers appear to be unaffected.

The future is even more bleak. In the next few years, with the increase in the size of the College, the number of cars should increase proportionately.

That's not all. There are more College programs and concerts planned for the larger College. The situation will become more acute when a larger number of visiting patrons of the arts and students begin attending such functions.

There's more still. In the next few years, when the Senior Center is finally finished, there will be a new feature to the parking difficulties. All the seniors will live in an area that will have no major parking facilities. This means that an estimated eighty cars will have no convenient place to park.

However, all is not lost. The administration has a plan that might solve the problem. The idea is that a huge parking lot be constructed to hold all the cars of the College. The location will be next to the new soccer field, just off the Harperswood road.

This is just a short taxi ride from the center of the campus. Things are worse at Dartmouth where there are two huge parking lots at opposite ends of the campus.

Bowdoin's lot will be fenced in and will have a watchman on duty all the time. Parking in this area will not be compulsory, but parking will no longer be allowed on the road running through the center of the campus. This includes in front of Maine and Moore Hall. To help persuade the students that this is a good idea two \$500 fines will be levied. After the third offense the car will be sent home.

In order to defray the cost of building the student parking lot, the registration fee will be increased 10,000%, from 25 to \$250.00. There is the alternative, however, that all cars be parked in fraternity lots. Unfortunately, most houses aren't equipped to park all the cars. The optimum number of cars a house should be able to hold is twenty.

It has been estimated that the cost for such a project would be between \$150,000 and \$180,000. Many houses will be so borrow money to construct, such a paved parking bank. Each house could put up \$500 and borrow the remaining \$170,000 from the College.

The registration fee would then be increased to \$5,000 or \$10,000. This would be credited to the debt of the house. If the house lot is already large enough, a \$200 registration fee would be levied on the car owners of that house.

Men living at the Senior Center would be able to park their cars at the fraternity houses, thereby not altogether losing contact with their fraternities, according to Dean Gleason.

Dean Gleason recently proposed the above plan to a meeting of fraternity presidents. The opinion generally is that the latter alternative be adopted. A committee of three house presidents is being formed to study the problem on their work can begin on the eve of the two proposals by next spring.

Ornithologist Believes Birds Migrate By Stars

How do birds "navigate" over thousands of miles of trackless ocean or over continents, by day or night, in their age-old cycles of migration?

The remarkable abilities of the little feathered flyers will be discussed Friday, Oct. 18, in an illustrated lecture at the College by Professor E. G. Franz Sauer, noted zoologist and ornithologist from the University of Florida.

Entitled "Flying by the Stars: The Migration of Birds," the lecture will take place at 8:15 p.m. in Fickard Theater and will include slides in color.

Professor Sauer's appearance is sponsored under the John Warren Achorn Lectureship, established in 190 by Mrs. Achorn as a memorial to her husband, a member of Bowdoin's Class of 1879.

Professor Sauer and his wife, Rosemary M. Sauer, who is also an ornithologist, have spent many years investigating the mysterious direction-finding powers of several species of migratory birds. They have followed the trail of the migrants from their nesting places in northern Scandinavia to their winter haunts in South Africa, half a world away, and observed the habits of Golden Plovers in their breeding grounds on St. Lawrence Island in the Bering Sea, near the Arctic Circle. The plovers migrate to islands in the Hawaiian chain, making flights of thousands of miles over open water.

Intrigued by navigational "tricks" of the night-flying species, such as the warblers, blackcaps, and white-throats, Professor Sauer began in 1964 to test the birds' ability to orient themselves by the stars. At the University of Freiburg, Germany, to which he was then attached, he built specially-designed cages for the birds, from which they could only see the night sky.

By timing his experiments to the known migration periods of the birds, he found they would respond to what they glimpsed in the sky by setting themselves in the direction the birds would normally follow on their migratory journeys.

Then Professor Sauer devised a more rigid test. He installed a cage in a large domed-shaped planetarium on the ceiling of which could be projected images of the star formations. By exclusion of all other light, the birds were made to react only to the star images.

Repeated tests showed the birds followed their migratory instincts, pointing in their well-known flight paths when the projected star patterns corresponded with those of the specific geographic area and season of the year in which the birds made their journey.

When "false" star patterns, not conforming to the locale or time of the year, were projected, the birds became confused, fluttering about as though lost. However, when star images were advanced or retarded for only the matter of some hours, the birds followed their instincts.

Quahog Bay Treasure Chest Provides Research Station For Bowdoin Biologists

Undergraduates studying marine biology and oceanography have the advantage of a saltwater research station that few land colleges in the nation possess.

This facility, the Bowdoin Marine Station at Bethel Point, is located on a rocky promontory that juts into Quahog Bay, one of the tributary waters of Casco Bay, in Bath, Harpswell.

The waters and inter-tidal shores areas of Quahog Bay and the deep and broad reaches of its parent bay, are immensely rich in the hundreds of species and sub-species of water-supported life, all of which enthrall the ecologists and the gourmet, says Professor Alton H. Gustafson, Biology Department chairman.

To list all the varieties of organisms, fish, other animals and sea plants or algae, including the edible delights such as lobsters, crabs, clams and other seafoods that inhabit the shore and the bay, would require a pamphlet.

This wealth of sea life is due primarily to the frigid but fertile waters of the bay. A strong factor in flow uncannily beneath the surface from their sources in the northern ice, down along the Greenland shelf, past Newfoundland and Nova Scotia, skirting the shores of Maine and infiltrating its bays and coves, as the vast current passes south to eventual absorption in warmer seas.

The Arctic water, super-cooled in winter so that its temperature may be below zero degrees Centigrade (32 degrees Fahrenheit), is the birthplace of countless billions of tons of plankton. Made up of herds of minute animals and plants, the plankton is the beginning of the oceanic food chain, the immense circular process in which the eaters successively become the eaten, linking the smallest crustacean to the biggest whale.

Scientific probing of marine fauna and flora of the shore and depths of Casco Bay and its tributaries goes back more than a century. Among the early collections of specimens taken in the area were the valuable ones destroyed in the burning of the Museum of the Portland Society of Natural History during the great fire of 1868. Two famous naturalists of their time, Addison E. Verrill of New Haven, Conn., and Professor Alpheus S. Packard, Jr., a member of Bowdoin's Class of 1861, were among those who explored Casco Bay and the Gulf of Maine in cooperation with the United States Fish Commission, in 1878.

"The great fund of biological and hydrographic information that has been compiled from Quahog Bay and the adjacent waters," says Professor Gustafson, "gives our marine station the necessary background to pursue ecological studies of the marine forms found there and to understand some changes taking place." These studies involve the relationship of organisms to their environment.

Since the College acquired the marine station site in 1961, it has become increasingly useful as a teaching and research tool to the Bowdoin biologist. Its importance to undergraduates is underlined by the fact that they can obtain live specimens with the station's boat and collection equipment, and this do not have to depend completely on "pickled" specimens, shipped in bottles from other sources, for their laboratory work.

Another developing function for the saltwater facility has been its use in Bowdoin Summer Institutes in Marine Biology for secondary school teachers, the fourth of which was held at the College this past summer. A strong factor in drawing institute participants from virtually every state in the union has been the "saltwater" attributes to Bowdoin, enabling the teachers and Nova Scotia students to take part in field trips to the shore and in the water.

Thus, the marine station became a valuable adjunct to the Institute for techniques employed in oceanography and marine biology.

On a typical field trip aboard the station's 18-foot, outboard-powered boat, usually skippered by Professor James M. Moulton, Bowdoin Marine Biologist, or in one of its two skiffs, participants would drag plankton, pick up algae and other specimens, or collect samples of the bay bottom. These collecting hydrographic data could measure surface and sub-surface seawater temperatures, salinity, depth, current, and sedimentation rates.

Acoustical studies of fish and crustaceans, with a hydrophone and tape recorder, will be made here under the direction of Professor Moulton, who is an internationally known authority on this technique for the study of the biology and behavior of undersea fauna.

Researches by Professor Moulton and Dr. Richard H. Backus of the Woods Hole Oceanographic Institution on the effects of man-made sounds on the movements of fishes, published in 1955 by the Maine Department of Sea and Shore Fisheries, have been recognized as a pioneering effort in a Soviet oceanographic book by A. I. Tarasov printed in 1960.

With recently acquired laboratory equipment for radio ecology studies, the marine biologists will also be used for normal metabolic studies of marine forms.

Facilities at the Bethel Point Marine Station include a 27-foot mobile laboratory, equipped with the necessary work counters, sinks, stoves and refrigeration units for processing specimens, and two former lobster storage tanks and a water pump for the keeping of live specimens.

The station site, which was the gift of Mrs. Harold Trowbridge Puffer of Bath Harpswell, is adjacent to the Little Ponds Wildlife Sanctuary, which was also established by Mrs. Puffer on the family estate. Thus both facilities are available for ornithological as well as marine and zoological researches.

Although, as Professor Gustafson says, marine biology studies at Bowdoin are aimed primarily at the training of students, the department has a long history of cooperation with the fisheries departments of the state and nation. Both Professors Gustafson and Moulton have worked closely with these agencies on such lengthy investigations as shell fish population studies, hydrographic explorations to determine factors which affect the commercial fisheries, the growth and production control of the round clam known as the quahog, a life study of European oysters transplanted in Boothbay Harbor, and others.

With only two non-commercial marine research stations besides Bowdoin's along the entire coast of Maine, Professor Gustafson said, "there remains a great professional opportunity for students of both marine biology and oceanography. The resources of the sea and lake of Maine are virtually inexhaustible and to be utilized to their fullest potential, as other nations are now attempting to do in the ocean of the world, will require the maximum development of scientific exploration and management of our waters."

BOWDOIN MARINE RESEARCHERS

Professor Alton H. Gustafson (right), Chairman of the Biology Department, lowers plankton net into waters of Quahog Bay, Maine, as Professor James H. Moulton, at wheel, prepares to get boat under way when tow is submerged. Boat is just off Bethel Point, East Harpswell, Maine, location of Bowdoin Marine Station. (1959)

How To Bury An Iron Horse

They say it had to be something you never had. This may be true, but as we stopped by the new block of stores down across the tracks, directly across from the old Brunswick railroad station, we missed the railroad passenger service which has been discontinued on the Maine Central for more than three years.

When the new stores stand now, the state league store, and a discount food center, there were iron, fronted by the old station parking lot. It was snowing the first, and last, time we stopped off a train in Brunswick. Spring had begun in New York and we left Grand Central in mid-afternoon.

By the time we reached Boston it was raining. We shared a cab from South Station to North Station with four other people, each of whom, as it happened, paid the fare he would have charged had he been riding in the taxi alone.

It was St. Patrick's Day in Boston, 1969, and North Station was jammed with high school kids in the city for the basketball tournament. Both of us, high school seniors ourselves, wandered around inside the station until the train for Portland was ready.

The two coaches strung together with a baggage, and several freight cars, were jammed. We shared a seat with an old man from Portland who expounded on the railroad as a method of meeting people. He was, he told us, living in his tenth incarnation, having been an Indian priest in the last life. He suspected that I had been a sea captain, and my traveling companion a butterfly in our last stint on earth.

The world, he contended, was ruled by a hidden brood of industrial people who had absolute control over everything from trade unions to the dairy industry.

The other remark he made that I remember distinctly was that he had conservative proof which killed Lincoln, not, he was sorry to disclose, when Wilkes Booth had it done. It was, instead, the House of Dreyfus who plotted the president's death for international financial reasons.

The evidence lay in a trunk to which he made occasional reference, and which, from all I could piece together from his conversation, contained a gun which could shoot happiness pills, and the skull of Cleo.

We left him at the Union Station in Portland, as he disappeared into the falling snow at one end of the open shed under which the trains stop, and we boarded the single passenger sheet which took us to Brunswick. It was nine o'clock.

Despite the train's heating system, we could see our breath in the cold, faded coach. All the way up from New York we had traveled in relative modernity, aluminum and wicker, interior decoration for most railroad passenger cars. This one had high chair-like seats, upholstered in what might once have been red carpeting. And all benches, not dissimilar to seats in a San Francisco cable car.

The light fixtures suggested that they might once have been gas jets, and there was a light green varnishing, something I had never seen in a railroad car before. The snow whipped past the dirty window, and New York seemed a thousand miles away.

Snow was a foot deep at the end of the line. We said goodbye to an Indian with whom we had struck up a guarded conversation. He was riding "up North" where ever that might be.

Our loafers crunched through the snow drifted across the station's platform. The entire trip had taken twelve hours.

They tore the station down last year to make room for the shopping center. In the Age of the Train, now gone forever, they used to add extra cars when Bowdoin was having a big weekend. Men would line the platform of the old station, or stand inside, the heated waiting room, in groups of three or four, topcoat collars turned up, smoking, talking, waiting for the train from Boston.

Someone, peering as far down the track as he could see, would spot the engine, or its light, and the door of the waiting room would swing open, discharging men, cigarette smoke and heat on to the platform as the engine arrived with its cargo of camel's hair coats, suitcases and girls.

You can still get to Brunswick, by bus, and girls still get here for weekends, but it's just not the same anymore.

Modern Portraits On Exhibit In Walker Museum Till Nov. 3

"The Artist's Mother" by Alberto Giacometti is one of 60 portraits now on display in the Walker Art Building. The exhibition of modern portraits opened this fall and winter season at the museum. As in the past, Bowdoin's museum has attracted prominent exhibits of major artists. One of the most interesting aspects of the present display are portraits of famous figures of the late 19th and 20th centuries created by some of the most celebrated artists of the era.

Portraits, an exhibition of the work of foremost modern American and European artists, opened the fall and winter season at the Walker Art Building today.

Marvin S. Sadik, Curator of the Museum, said the show includes more than 60 examples of portraiture in oil, drawings, prints, and sculpture. It will continue through Sunday, Nov. 3, and will be open to the public without charge.

The works in the show were selected from the collections of The Museum of Modern Art in New York, Mr. Sadik said. They represent a cross-section of some of the important art produced during the past 70 years.

"The exhibition will demonstrate a wide variety of stylistic approaches to portraiture which are characteristic of the different schools of modern art," Mr. Sadik said.

An interesting aspect of the show will be the portraits of famous figures of the late 19th and 20th centuries which were created by some of the most celebrated artists of the era.

The exhibit will occupy three galleries in the museum, which will be open from 10 a.m. to noon and 2 to 4 p.m. Monday through Saturday, and 2 to 4 p.m. on Sunday.

Among the works to be displayed are an oil portrait of the artist's mother by Alberto Giacometti, a contemporary Italian painter and sculptor; a bronze head by Sir Jacob Epstein, an oil by Augustus John, a bronze portrait of John Marin by Gaston Lacaille, a bronze portrait by Marino Marini, a pen and ink portrait by Matisse, an oil by Modigliani, a self-portrait in tempera by Cezanne, a Picasso drawing, an oil painting by Diego Rivera, a portrait drawn by Larry Rivers, an oil by Edward Vuillard, and a portrait etching of Dr. Gachet by Vincent Van Gogh.

Painting Missing A valuable painting taken from the ABV House is the only article still missing after a general raid over the weekend of Sept. 26-29 need composite pictures and furnishings from several fraternity houses.

Composite taken from Beta Phi, Kappa Sigma, Sigma Nu, and ARU were returned Wednesday following a warrant of police action by Student Council president, Pete Beaver.

The Beta House has taken last by Wednesday has not yet returned. Fraternity officers have called in the Brunswick police who are presently working on the theft.

\$400,000 In Loans And Grants Given By Student Aid Office

According to statistics recently released by Mr. Philip C. Wilder, Director of Student Aid, Budget has been lowered, since \$70,000 in grants was awarded this Fall to fifty-eight Freshmen, including three National Merit Scholarship Finalists, and nearly \$180,000 in grants was awarded to Underclassmen, exclusive of the Bowdoin Plan Students, the Traveling Scholars, and the sons of the faculty and staff.

The College did not receive the \$104,000 which it requested from the Government under the National Defense Education Act of 1958; only two hundred Underclassmen in addition to the \$160,000 made available to fifty members of this year's Freshmen class. One college-wide award of three or four, topcoat collars turned up, smoking, talking, waiting for the train from Boston.

Supplementary loans of nearly \$500 were offered to more than two hundred Underclassmen in addition to the \$160,000 made available to fifty members of this year's Freshmen class. One college-wide award of three or four, topcoat collars turned up, smoking, talking, waiting for the train from Boston.

Progress in the Bell System...

Progress takes many shapes in the Bell System. And among the shapers are young men, not unlike yourself, impatient to make things happen for their companies and themselves. There are few places where such restlessness is more welcomed or rewarded than in the fast-growing phone business.

Pres. Coles Conducts Service In Honor Of Dr. Carl Robinson '08

President Coles conducted a Memorial Service in the Chapel Tuesday for Carl Merrill Robinson '08, M.D., S.D.

Dr. Robinson, whom President Coles described as "one of the leading surgeons of New England," died this past August 26 at the age of 77.

For the past twenty-three years he served on the College's Board of Overseers.

A member of the Theta Chapter of DKE, he graduated summa cum laude in 1904 after having been elected to Phi Beta Kappa in his Junior year.

Upon graduation, Dr. Robinson entered Harvard Medical School to serve on the staff of the Central Maine General Hospital and Maine Hospital in Portland.

In 1949, the College awarded him an honorary Doctor of Science degree.

(Quail from page 1)

The Quail will publish its fall issue before Christmas vacation. All students, freshmen or upperclassmen, are extended an invitation to a Quail smoker in Oyster Cove '63 on the second floor of the Moulton Union at 7:00 p.m. Thursday, October 24th. This smoker is meant both for those students who would be interested in working for the Quail, as well as for those who are considering contributing their work. Freshmen and upperclassmen who have not been published in the Quail are encouraged to do so. An annual prize of \$25 is awarded to an undergraduate not previously published whose contribution a faculty committee considers most significant.

Three students who spent the summer in Washington, D. C., as political interns. Left to right are Robert S. Frank, Jr., Donald G. Alexander, and David M. Cohen, Lewiston, Maine.

Three students who spent the summer in the nation's capital as political interns have returned to Bowdoin enthused with their experiences in the "lower center of the country," as one of them put it. The three, all seniors, are David M. Cohen, Donald G. Alexander and Robert S. Frank, Jr.

(Birds from page 2)

beyond which they would normally appear in the locality, the birds would compensate for this discrepancy and eventually work out a correct heading.

To perform such intricate orientation, the birds have what corresponds to a time sense, or an "internal clock," as Professor Sauer puts it, as well as an instinctive power to resolve long-distance stellar navigation problems such as are faced by the navigators of ships or planes. In his experiments, Professor Sauer also proved that the migratory instinct is an inherited quality of the birds. He did this by raising a group of birds in a closed, sound-proof chamber where they could neither "learn" migratory habits from other "experienced" birds nor be aware of the changing seasons in the world outside. Yet when the migratory seasons arrived these birds responded with inner, restless yearnings of flight during the weeks when their species would be taking wing to far-off places.

Among other researches, Professor Sauer and his wife carried out a several-year study of the South-west African Bush-Baby, or Calagao senegalensis, a few primates that looks a good deal like the Australian koala but is of a different order. Many of the results of the scientific pair's researches, including that of the African Bush-Baby, have been published in scientific journals and brought out in pamphlet form. Professor Sauer has also written an article on Celestial Navigation by Birds for "Scientific American."

A native of Mannheim, Germany, Professor Sauer grew up in the Black Forest region, where he acquired an early interest in the habits of birds and animals. He studied zoology and the physical sciences at the University of Freiburg and Heidelberg. Before joining the faculty of the University of Florida, he was a member of the natural sciences faculty at Freiberg.

Polar Bears

By Rick Andrus and George Bennett

The Big Test Tomorrow

Bowdoin's football prospects are looking brighter at this stage of the season than they have in several years. Certainly the season is still young but the victories over both Tufts and Wesleyan were encouraging. However the team left this morning for Amherst and a meeting with the Lord Jeffs and their ever dangerous scoring threat, halfback Bob Santonelli. The Bowdoin defense after containing the Wesleyan Cardinals for a net rushing yardage of nine yards will have their hands full with Santonelli and his 5.1 rushing average. Santonelli presents a twin threat in that he not only leads his team on the ground but is also one of Wayne Kniffin's prime receivers.

Polar Bear linemen will be outweighed by slightly more than twenty pounds. Co-Captain Ray Battocchi, a 217 pound guard, will be leading the Jeff's heavy and experienced line.

The two most recent games have created good spirit on campus. We hope that as many as possible will make the trip to western Massachusetts to give support to Coach Corey and the varsity eleven.

Congratulations are in order for Coach Sabo's Harriers who brought home victory for the first time in five years against St. Anselm's last Saturday. However the cross country team was hit with a crucial injury which will result in the loss of Gary Brasor for the remainder of the season. Captain Babcock would like anyone who thinks he could make a contribution to the team to contact either him or Coach Sabatanski. This week the team faces a stiff test against Amherst on the latter's home course.

Pat On The Back

Congratulations this week go to Jim MacAllen who in the past two games has caught five passes for 131 yards and three touchdowns. The extra effort Jim has shown time and again on the field has been a major factor in the successful offensive efforts of Coach Corey's squad to date.

Marsity Eleven Crushes Cardinals; White Booters Suffer 5-1 Defeat

The White booters move to Springfield tomorrow to face the powerful Maroon squad that handed them a 9-0 loss at Pickard Field last year. The team lost 5-1 against Wesleyan last week.

The Polar Bears will have their work cut out for them. Springfield is currently rated as one of the top New England teams, having lost only to Williams last year. (They tied Wesleyan.)

Bears Out-batted
If the booters expect to better their record, which now stands at 1-1, they will have to show considerable more hustle than was demonstrated in the contest against Wesleyan last week.

The game started on a rather unhappy note for the White as the Cardinals were awarded a penalty kick in the first minute of the game which was successfully cashed by inside Pete Sipples.

A similar call in the Card's own area afforded Bowdoin's Gerry Giesler a similar successful shot on goal to even the score, 1-1.

For the rest of the half the White defense, though pressed almost constantly, was able to stave off all subsequent attacks until the closing minutes when Sipples again wormed his way through to tally his second goal for Wesleyan.

Second Half Disaster
The second half kickoff while came with the game still up for grabs, but the surging Card offense finally began to wear on the Bear defense. Early in the third quarter they broke through to register number 2.

After this setback Bowdoin's offense relaxed, Wesleyan scored two more goals to end the contest, 5-1. Bowdoin lost the game in the first few minutes of the first period as they allowed the visitors to dominate play in the middle area, by giving up head balls, kick-ins, and Cardinal goal kicks.

Sailors Open Season Tomorrow at Dartmouth

Collage sailing team will open its 1963 fall schedule by competing in the Northern New England Meet for the Admiral H. Kent Hewitt Trophy tomorrow at the Dartmouth College sailing basin in Hanover, N. H.

Bowdoin is also planning to enter the "C" Division of the Sloop Billingtons, to be held at Coast Guard Academy in New London, Conn., Oct. 5. The eliminations will decide which teams will race for the White Trophy Oct. 26-27.

The next varsity meet will be the Informal Maine Championships, at the University of Maine in Orono Oct. 12.

The rest of the varsity team meets are trophy events. The squad will race at Massachusetts Institute of Technology Nov. 2-3 for the Schell Trophy. The following weekend will see the varsity competing in the team race championships for the Fowle Trophy at a meet which will probably be held at MIT.

Among the returning skippers are senior lettermen Charlie Emerson and Dave Mechem, who combined their talents to give Bowdoin the Jan T. Frits Trophy in a 13-college fleet at the New England state Intercollegiate Regatta last May. It was the first victory in the event by a New England college in four years.

A happy Parents Day crowd last Saturday saw a confident Polar Bear eleven take the field against the Middle-town Connecticut species of Cardinal. The impressive victory over Tufts the weekend before however had not completely dispelled some pre-game doubts as to the outcome of the Wesleyan tilt. Bowdoin's pass defense had not been tested at all at Medford. There was also a possibility of certain was forced to give the ball up on weaknesses in the light Polar Bear downs on their own twenty five line. This was on Friday, By 3:40 yard line. With eleven seconds to Saturday afternoon any doubts of go in the half Coach Corey immediately called on the kicking talents of Barry Smith whose resolutely and defensively, of the thirty-six yard boot set the score at 17-0 Bowdoin at halftimes.

Early in the opening period an alert Bill Minnis scooped in a Wesleyan fumble on the visitors forty-five yard line. On the very next play quarterback Bob Harrington pitched to speedy halfback Al Ryan who turned the corner around left end. Tony Tarnell shook some feathers from the only Cardinal between Ryan and paydirt and the score was 6-0.

Throughout most of the second quarter neither team could muster much of an offensive thrust. With about two minutes remaining in the half, justifying right tackle Tony Tarnell pounced on a Frank Drigotas punt that had bounced off the chest of the Wesleyan deep man. This gave the Polar Bears first and ten on the Wesleyan thirty-six yard line. Two plays later the ball was sitting on the same hash mark.

Half, justifying right tackle Tony Tarnell rolled right and fired for Jim McAllen whose little extra effort and sure hands gave the home team its second touchdown. The conversion ball-carrying chores went to Paul Soule who dived through for the two pointer.

Bowdoin kicked off with very little time to spare. The conversion failed and the game ended Bowdoin 22, Wesleyan 0.

AROUND THE LOOP

By Dick vanAntwerp

The Kappa Sigma, sporting a 3-0 mark lead League "A" with the Sigma Nus, at 2-3, in a virtual tie for the lead. The Kappa Sigas are scheduled to meet Sigma Nu next Tuesday in what will be the biggest game for both teams this season. The Chi Psi with a 2-1 record are also a club to watch in the hotly contested League "A".

Polar Bears Jump To 5th in Lambert

Bowdoin has moved up from eighth position to a fifth place tie in the latest balloting for the seventh annual Lambert Cup, emblematic of Eastern small college football supremacy.

The new ratings, announced Wednesday show that Bowdoin is tied with Trinity at 48 points out of a possible 10.

Delaware is at the top of the small college standings and Amherst, defeated Springfield 28-15 and American International 41-16.

Standings in the Lambert Cup competition are computed on the basis of voting by a selection committee of coaches, sportswriters and sportscasters.

Kappa Sigs Host Faculty, Gov. Reed

Gov. John H. Reed (left) accepts a framed engraving of 1967 Bowdoin College campus from George C. Elades, Jr., 34, President of Kappa Sigma Fraternity, at right, joining in speech, is President Cole.

Gov. John H. Reed said last night that the people of Maine "are very proud of Bowdoin College and our other fine private institutions of higher learning."

The Governor spoke at a dinner given by Kappa Sigma to honor the Bowdoin Faculty "for its contributions to higher education in the State of Maine."

"We are especially proud of Bowdoin," said the Governor, "because of the large number of undergraduates from Maine who are studying here on your beautiful campus, and we are also proud that your outstanding college attracts so many students from outside our state."

Gov. John H. Reed (left) stands with members of the Maine Executive Council and other guests at the dinner given by Kappa Sigma to honor the Bowdoin Faculty.

Vice-Pres. Of Danish Parliament Talks On Common Market Future

Ole Bjorn Kraft, Vice-President of the Danish Parliament and presently Chairman of the Cultural Committee of the Council of Europe, presented a highly enlightening and informative talk before a large audience Tuesday evening in the Moulton Union Lounge.

His subject, "Economic Relations Within Europe," included a wide panorama of observations on how the Common Market of Europe is developing.

DeGaulle's move came as a complete surprise to Mr. Kraft as well as to the other delegates who felt the negotiations were progressing satisfactorily last year.

Mr. Kraft outlined the recent history of Europe, how the Second World War left Europe without a world power where formerly Europe was the center of the world.

Some of Bowdoin's outstanding swimmers of the past will return to the Curtis Pool on Friday, October 25, for the annual Alumni-Freshman 100 Yards meet at 8:00 p.m. Swimming Coach Charles Butt and his predecessor, Bob Miller, will conduct the meet.

Ted Silvey Of AFL-CIO Blasts Mass Media For Uneducated Citizenry

Ted P. Silvey of the AFL-CIO Speakers Bureau, the first speaker of the fall semester at the Bowdoin Political Forum, spoke last Thursday night on the subject "The Right to Know and How to Find Out."

Mr. Silvey, who also addressed the Forum last year, said that "understanding based on knowledge is the essential ingredient" for today's society.

Communication is important in the right to know, he asserted, knowing, "Isn't it wonderful to know to read?" Mr. Silvey added that because of today's technological situation, "You don't have to read or to hear to know what is going on."

Mr. Silvey has served in the Labor Office of the Marshall Plan and was in charge of the Labor Office of the National Production Authority during the Korean conflict.

Mr. Kraft mentioned the other five members of the Common Market are displaced and concerned with the General's position and "in the long run they'll try to stop the French domination."

Coles Appoints Chapel Committee

President Coles this week appointed a seven member faculty committee to consider student objections against the chapel program.

Dean Gresson said the committee would meet and then meet with the students and then meet with the students and then meet with the students.

FRESHMEN MEET THE FACULTY - The Union League was the scene of much smiling and shaking of hands Friday and Monday nights as the freshmen class and the College faculty met for two informal get acquainted sessions.

Beta Petition A Move to Reform Fraternity Social Regulations

BETA PETITION Support Given By Other Houses Through Near-Unanimous Votes

Present social rules at Bowdoin College provide that women are not to be upstairs in the fraternity houses after 6 P.M.

This statement was developed by a committee of students at the Beta Theta Pi House. They believed the present social rules exercise unreasonable restraint on students.

Pulitzer Prize-Winning Editor To Receive '63 Bowdoin Prize

Hodding Carter, Pulitzer Prize-winning Mississippi editor and publisher, will be awarded the Bowdoin Prize, most distinctive honor conferred by Bowdoin, at a Quinquennial Convocation on Thursday, Oct. 31.

Mr. Carter, whose hard-hitting editorials won him the Pulitzer Prize in 1962, is equally famed for his many books and hundreds of articles in leading magazines.

Mr. Carter, the Editor and Publisher of the Greenville, Miss., Delta Democrat-Times, was chosen for the award by the Selection Committee for the Bowdoin Prize.

Concert Tickets

Tickets for the Amhad Jamal concert next Saturday evening are now on sale. They can be purchased from your Fraternity Student Union representative or at the Bookstore.

Faculty Fetes Freshmen

Previous Bowdoin Prize recipients were the late Dr. Fred H. Albee '39 of New York, noted geologist and geographer, the late Harvey Dow Gibson '36 of New York, for many years President of the Manufacturers Trust Company and World War I General Manager of the Red Cross.

Semi-Finalists For Bowl Selected

Responses to College Bowl Coach Caldwell's Caper type plea for student participants was indeed commendable. Nearly a hundred students took the first preliminary test in Sills Hall examination room Tuesday afternoon.

Most of those interviewed in connection with the proposal felt that it was a worthy endeavor.

Notes And Comments

Thoughts At Random: The N. Y. Giants

By Jim Riley

The Cleveland Browns demolished the New York Giants... Sunday in the eyes of some. There are those who feel that the Giants were overrated...

This may be true, but no New York fan thinks much about it. People who love the Giants do so because they are the best team in professional football...

There is clan among Giant fans that rivals anything you can name. When the Giants win everybody wins, when the Maranas lose everybody loses...

One thing that unites Giant fans is the number of Giant hats. Each week of astered around TV sets there are those who love the Giants, and those who hate them...

Sain Huff epitomizes the embodiment of the Giant image. Time magazine and CBS agree. Huff is the spirit of the Giants.

No other linebacker in professional can handle backs like Jim Taylor, Jim Brown and John Henry Johnson the way Huff can...

Every Giant fan has his favorite, they may not all be the same man. Brown fans have one idol, Jim Brown.

Ask a Giant roster who his favorite player is, Chances are the answers will range from Mike Walker, star of the kicking unit, to Phil "The Vandalist" Oliver, King, to Huff, to Ernie Barnes, to Tully or Huff...

Assets and attributes of the great Giant team would fill two dozen columns like this one, so it seems futile to enumerate any further...

The loss to the Browns Sunday may or may not have been serious. The season has a long way to go. Fearful, however, continue to be the best team in the NFL, and no one can tell a Giant fan anything but...

Farquharson Claims Fresh Orientation Plan A Failure

In his chapel talk yesterday, Robert M. Farquharson, dean of 1964, spoke concerning the year's freshman Orientation Program...

"The lack of complete success" of the program was, he stated, due to certain "misconceptions" on the part of the freshmen...

Secondly, Farquharson challenged the procedure of treating each freshman delegation as a distinct unit. The orientation should, he claimed, be more on an individual basis...

Farquharson further claimed that the orientation, not only as a matriculation program applied to immature people, but also as a means of socialization...

Farquharson claimed that the weakness of the Orientation Program were not attributable to the freshmen, but to the program itself...

Students Back From Europe

Left to right, Pete Seery, John Pope, Dave Treadwell, Don Goldsmith, and John Gibbons discuss their summer experiences in Europe...

SIX undergraduates who spent the summer working in European nations in an international student exchange program are back at school with varying impressions...

The group worked abroad through the program of the International Association of Students in Economic and Social Studies (IAESSS), which provides opportunities for American college students to observe the economic and social conditions of foreign nations...

Each American college chapter of IAESSS solicits traineeships for foreign students from nearby host organizations, while the foreign chapters do the same for American trainees...

Treadwell, who worked in a Paris suburb, said he felt that "the French are not content" with their present situation...

Addition Of Two Boilers Modernizes, Doubles Capacity Of Heating Plant

As more and more of the campus trees shed their foliage certain persons have begun to glance at the piping beds in the heating plant with a growing concern...

According to Mr. Brush, Director of buildings and grounds, we shall, in fact, Bowdoin will have the greatest heating capacity ever due to the installation of two new boilers...

The old boilers in the heating plant were first put in use in 1914. Since they were only expected to last 40 years, even with good care, their replacement is 9 years overdue...

Under the old system there were three boilers installed in 1914, each of which produced 6000 pounds of pressure per hour...

A great many sidewalk superintendents have been stumped by the problem of getting the newest boiler through the hole in the side...

There is one feature of this new system which shows a great deal of planning for the future. Should the day arise when some beneficent alumnus decides that he doesn't like the idea of smoke rising from the middle of the campus...

Although the possibility of moving the plant has been considered from numerous angles, the decision to remain in the present plan was made in order that emphasis could be placed on the expanding educational program...

This project is being done at a cost of approximately \$140,000 and should be completed by the first of December. Certainly the heating needs of the College have progressed a long way since the day when all the buildings were heated by pot-belly stoves...

Services For Former Professor Held Today

George Roy Elliott, well known Shakespeare critic and 97 year member of the Bowdoin and Amherst faculty died yesterday at his home in Brunswick at the age of 97...

One of the favorite teachers of Bowdoin and Amherst students throughout his long career, Professor Elliott was born in London, Ontario, Canada, on December 31, 1867...

After two years in newspaper work and two years studying in Germany, he received his Doctor of Philosophy degree from the University of Jena in Germany in 1908...

In 1913 he joined the Bowdoin faculty as Henry Leland Chapman Professor of English Literature. When he left twelve years later to become Professor of English at Amherst, Bowdoin conferred upon him an honorary Doctor of Letters degree...

His affection for Bowdoin led Professor Elliott to write this tribute to the College several years ago: "Bowdoin College has a place all of its own, I am fond of Amherst, where I taught for 18 years...

He was the author of "The Cycle of Modern Poetry" (1939), "Humanism and Imagination" (1936), "Church, College, and Nation" (1945), and three widely acclaimed interpretations of Shakespeare's tragedies: "Source and Minister" (1921), a study of "Hamlet," "Flaming Minister" (1933), and a study of "Othello"; and "Dramatic Providence in Macbeth" (1935), republished in 1950 with a Supplementary Essay on "King Lear."

He was the author of "Poetry of the Nineteenth Century" (1924), "Complete Poetry of John Keats" (1927), and "Henry Wadsworth

Aid To Scholars Available For Extended Study Abroad

Only a few more weeks remain in which to apply for a 1964-65 U.S. Government grant for graduate study or research abroad...

Participating countries include Argentina, Australia, Austria, Belgium-Luxembourg, Bolivia, Brazil, Chile, China, Colombia, Costa Rica, Denmark, Dominican Republic, Ecuador, Finland, France, Germany, Greece, Guatemala, Haiti, Honduras, India, Iran, Ireland, Israel, Italy, Japan, Korea, Malaysia, Mexico, Nepal, Netherlands, New Zealand, Nicaragua, Norway, Pakistan, Paraguay, Peru, Philippines, Poland, Portugal, Romania, Spain, Sweden, Thailand, Turkey, United Arab Republic, Venezuela, and Yugoslavia.

General eligibility requirements are: U.S. citizenship, a bachelor's degree or its equivalent in professional training, language ability commensurate with the demands of the proposed study project, and good health...

Students eligible for scholarship consideration must have a high academic standing, a deep interest in Asian affairs and plan to study in an Asian language.

Full information may be obtained by writing the Director of Student Selection, East-West Center, University of Hawaii, Honolulu, Hawaii.

THE BELL TELEPHONE COMPANIES SALUTE: PETE WILDE

Almost 90,000 telephone customers in and around Haverhill, Massachusetts, rely on the supervisory ability of a man few of them will ever meet. He is Pete Wilde (B.A., 1960), Assistant District Traffic Superintendent for New England Telephone in Haverhill.

where he was responsible for the service rendered by nearly 150 telephone operators. The capable job he did in Fitchburg earned him a chance for further training, a good raise, and his latest promotion.

BELL TELEPHONE COMPANIES TELEPHONE MAN OF THE MONTH

It is not unusual for a man of Pete's ability to rise to such a promotion as swiftly as he did. Pete had made an impressive start on an earlier assignment in Fitchburg...

On The Road Again

The soccer team hopes to change the course of their luck tomorrow against the University of Maine. Losing the last two games, both against competition considered with the strongest in New England, should not and has not discouraged the Booters. The form and spirit exhibited earlier in the season should give the Bowdoin team a good shot at the Maine schools which comprise the remainder of their season.

University of Maine, Bowdoin's first opponent in the Maine Series, has in the past fielded only a soccer "club"; but now that the club has been given University recognition, it is an official varsity team, and should prove to be stronger than in the past. Good luck to the soccer team in their Maine Series games, especially in their Homecoming tilt against Colby. This will be played at 10:30 a.m. Saturday, October 26. It is hoped that everyone and their dates turn out (rally from the night before) to see this match at Pickard Field.

Although now out of the undefeated ranks, Bowdoin's football team has lost none of its stature in the eyes of New England sports writers and fans.

Saturday's game at Amherst marked the first time in 11 games that the Lord Jeffs have been unable to score a touchdown. Bowdoin captured 10 first downs, to Amherst's 8, and the defense was outstanding. In the second-half Bowdoin's defense gave up only nine yards rushing to Amherst; and held Bob Santonelli (a top N.E. back whose past rushing average has been 132.5/game) to a mere 48 yards total.

Bowdoin is again on the road Saturday at Williamstown, Mass. Williams' Ephens, under a new coach and a new offense had a rough start this season, and were unable to score a point while losing their first two games to Trinity and Springfield respectively.

These two losses may have been deceptive in appraising relative merit of the Williams team. Last Saturday, the new offense broke loose and Williams defeated a favored Middlebury 18-8. The Williams team is fast, strong, and has depth and experience. Their team is the heaviest of the "Little Three" schools. Williams began the season with 24 returning lettermen and lettermen still hold down most every starting position. Despite the loss of Co-captain Mike Reilly through a serious illness, Williams still has 16 veteran linemen.

End Max Gail (190) and guard Tom Howell (190) are the only men at the line weighing less than 200 pounds. The Williams backfield boasts depth with two veteran quarterbacks, Doug Fearon (160) and Jerry Jones (195). Ken Watson (178), a junior playing in the fullback slot, is the only backfield man not boasting a letter. In all there are 7 backs with letters, other than those starting.

Williams may be without the services of center Al Hageman, back Tom Todd, and possibly quarterback Jones due to an arm injury.

Except for the possible exception of Al Ryan (Bowdoin's starting half-back) the Polar Bears should be at full strength against Williams. With MacAllen back at right end, Bowdoin's passing will be more evenly balanced, and should help the Polar Bear offense regain its scoring capability.

Pat On The Back

This week we must commend Roddy McDowell and other Bowdoin fans for their quiet action in retrieving the head of the Bowdoin "Polar Bear" during half-time last Saturday. Amid a sea of seething Amherst head-hunters McDowell tackled the fleeing fugitive and saved the head for another day. Asa Smith, although noticeably shaken by this trying experience was back for the second half in full dress.

Williams Coach Eyes Bowdoin Contest With Mixed Emotions

WILLIAMSTOWN, MASS. — In spite of the joy of winning 18-8 over Middlebury on Saturday, Williams Coach Doug Fearon, who replaced Jones in the College football coach Frank Navarro was unhappy Tuesday.

"I'm not pleased at all," said Navarro after a detailed inspection of the game movies. "The film showed the team was sluggish, especially on defense. Middlebury outplayed us every time on crucial downs. We made a lot of mistakes." Another source of unhappiness for the coach was the possible removal from the lineup of standout defensiveman Al Hageman. Hageman, who had just gotten over a virus attack that nearly sidelined him for the Middlebury game, suffered a knee injury earlier, he missed the Trinity game because of an infected blister. It will not be known until later in the week whether he will be able to play against Bowdoin next Saturday.

On the brighter side was the fact that Williams was counted among the winners Saturday for the first time this season. In losing to Trinity and Springfield this fall and being defeated in its final game last season by Amherst, the squad had scored a touchdown in three games. The win over Middlebury, in which the Ephens scored two touchdowns and a field goal, might be the spark that will ignite the team psychologically toward more victories.

Polar Bears squeak as Stiff Bear Defense

Bowdoin's undefeated football team dropped its first game of the season last Saturday to the Lord Jeffs of Amherst, 3-0. An Amherst field goal that split the uprights in the first quarter and a Polar Bear attempt in the third that fell short of the mark spelled the difference in the contest which saw Bowdoin's defense hold the Jeff's big runner, Bob Santonelli, to half his usual yardage gained.

Most of the game was a push and tug battle between the two 30 yard runs each time the opposing team penetrated inside the 25 yard line, the gaps in the defensive teams would close. The loss tally of the day, was made not on the ground or by pass; but by Bob Santonelli's field-goal kick from Bowdoin's 18 yard line.

The first quarter was marked by spurts of offensive action; but the drives of both squads were halted by inspired defenses before penetrating two deep into the end zone or by pass; but by Bob Santonelli's field-goal kick from Bowdoin's 18 yard line.

The first quarter was marked by spurts of offensive action; but the drives of both squads were halted by inspired defenses before penetrating two deep into the end zone or by pass; but by Bob Santonelli's field-goal kick from Bowdoin's 18 yard line.

Bowdoin Football Statistics

Quarterback Bob Harrington and halfback Phil Soule are pacing Bowdoin's football offense, statistics for the team's first three games. Harrington has completed 23 of 53 forward passes, with only 3 interceptions, for a net gain of 307 yards including 4 touchdowns. Soule has gained a net of 117 yards in 38 rushes for an average of 3.1 yards per carry.

Quarterback Ralph Johnson has completed 16 of 29 forward passes, with only 2 interceptions, for a net gain of 207 yards including 4 touchdowns. Fullback Bill Parley has a 4-yard rushing average on the basis of 83 yards gained in 21 attempts. Halfback Al Ryan has completed a team-leading 5.2-yard ground average with a net of 78 yards in 16 carries.

Harrington's rushing average suffers from statistics because the would-be passer must be charged with a rushing attempt, and lost yardage on pass plays when he drops back nearly as often as he attempts to catch him before the ball is airborne. Harrington has a 1-yard ground average with a net of 43 yards in 45 attempts.

Halfback Bob Hooke has picked up 39 yards in 10 carries for a 3.9-yard average. Red Jim MacAllen leads the pass receivers with five receptions good for 131 yards and three touchdowns. Halfback Bill Matthews has

Booters Set For U-J-te Contest

Returning to Maine after a rather disappointing tour against out-of-state teams, the Polar Bear booters take on the University of Maine's Black Bears today in the first game of the state series. Playing on the latter's home ground, the White will try to even the record which currently stands at 1-2, the heavy side having been registered by Wesleyan, and lately, by Springfield.

Second-half Jim The third period clinched it for the home team, however, as two more goals were tallied in quick succession, virtually ending the hopes of the visitors. The passing teamwork of the first period broke down and the halfbacks were forced back to defend the penalty area, thus lessening their effectiveness on the occasional break.

The Polar Bears came back to life in the fourth period, however, as they showed that they could play the same kind of ball as their opponents by keeping the press on the Maroon goal area for most of the 22 minutes. More important, they began to control play at midfield, allowing only occasional breaks on their own goal. Though there were many near-opportunities to score the White forward line was not able to get into an easy rhythm, and the final count remained 4-1.

New Record Set As Harriers Bow

Saturday October 12, the Polar Bear Cross-country team lost to Colby in the annual Harrier-Batcock cup first place in the meet and established a new course record of 31:34 for the 3 1/4 mile Lord Jeff course. Following Batcock for Bowdoin were Dick Howe (4), Tom Chamberlin (6), Chris Reichert (11) and John Wilson (12). This performance revealed the major flaws in this year's team-depth. After the first 3 men for each team had finished, the score stood Amherst 11, Bowdoin 10. The Harriers meet Coach Dodge Forman's freshman soccer team defeated Fryeburg Academy 3-2, October 9, and Heron Academy 5-3 October 11.

Cub Soccer Team Victorious Twice

In two come-back performances, Coach Dodge Forman's freshman soccer team defeated Fryeburg Academy 3-2, October 9, and Heron Academy 5-3 October 11.

Monsignor John Clancy Sunday Chapel Speaker

Monsignor John G. Clancy, S.T.L., J.C.D., Professor of Theology at St. Joseph's College and former member of the Vatican Diplomatic Corps, will speak at Sunday's Chapel.

A native of Portland, Maine, Monsignor Clancy attended Holy Cross College, and St. Mary's Seminary and University in Baltimore, Md. He received his doctorate in Canon Law from the Lateran University in Rome.

The Lambert Cup

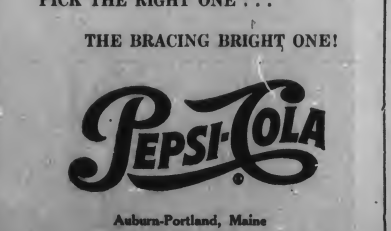

The football team is holding down tenth place in the current standings for the Lambert Cup, annual symbol of Eastern small college gridiron supremacy.

The latest Lambert Trophies Board standings give the Polar Bears a rating of 2.6 out of a possible 10. Delaware leads the list and Amherst, which defeated Bowdoin 3-0 last Saturday, is in second place.

Editorials

A Reckoning

It's all over now. The Orientation, we mean. The houses have, by this time, finished initiating some 200-plus freshmen into the mysteries of fraternity lore and into the ecclesies of house meeting ritual.

Everyone agreed last spring that the program would be an experiment. Almost everyone agreed, too, that the experiment's chances of success were excellent: the plan appeared almost flawless on paper and at the orientation committee meetings.

Of course, there were some indications that not everyone was completely sold on the proposed hypothesis; grumbles came from a few dark corners of the Fraternity house rooms and a few departing seniors voiced the opinion that the new program would never get off the ground.

Now, at the end of the trial period a balance sheet must be drawn up for Bowdoin's own experiment, and we feel there are several entries which should be included. Lost; freshman class unity, much of its spirit, and an experience which we still look back on as a worthwhile addition to "college life" in our first few weeks.

Most Upperclassmen we have talked with either expressed boredom with the entire proceedings or concern that the "Harry-High-School" attitude with which many freshmen came up here still persists, and that they were powerless to correct it.

The program did have its good points too, of course, and instituted many reforms which were woefully lacking in previous years, but we are of the opinion that they were carried too far.

Welcome Home

Speaking of traditions, the first Alumni Day was held in 1925. The Orient on behalf of the student body would like to welcome Bowdoin grads, old and recent, to Brunswick, 1963.

THE ALUMNUS

The First And The Last

The first Maine state series was played in 1893. The next-to-last will begin tomorrow when Bowdoin hosts Colby.

Had the series died a natural death things might be different, but no one knew that this year Bowdoin would field a team that could be the equal of its 1960 state series winner.

Bowdoin won the first series ever played, and with a little luck she might win the last. It would be a nice way to round off the record book before its retired to gather dust on shelves in newspaper and athletic offices across the state.

Hockey Rink Opens Soon

The rinks are just about completely bare now and it will be just a matter of time before snow is on the ground and winter settles on the Bowdoin campus.

I maintain then that we should look not at the status of intellectual honesty to decide about the proposed social changes, but at the student actions in social areas.

Challenge At Goddard

Goddard was visited by Bowdoin College, in Plainfield, Vermont, in Atlantic in an unassuming professor at that school, October 1961.

The conference at Goddard offered me a unique opportunity to give serious thought to the problems of Liberal Education, and to consider what Bowdoin is doing for me.

Goddard is understanding what we may seem a somewhat naive attempt at educational change, but what on closer scrutiny offers a timely and useful alternative.

A curriculum better adapted to the conditions of modern life, that takes account of the tremendous increase in significant knowledge, and the inadequacy of the typical college curriculum in helping students find meaning in their lives.

It seems to me that the intellectual freedom of inquiry involved in Goddard's independence will be introduced advantageously.

Discipline. At Goddard they are attempting, whether successfully or not, to explore ideas. The creativity of the individual is placed at a premium, and effort is made, through independent work to give him not only a broad education, but the development of his capabilities and creativity.

It is a curious paradox that the burden falls upon the shoulders of a handful of ambitious students who must work extremely hard to produce plays in bluntest terms.

What can be done? Perhaps the tide will turn. The upcoming Christmas plays have combined male opening of nine nations. Surely the students body can produce from within that which has been sought from without.

The freshmen should have easier minds and more leisure. One initiation is over. On our ambitions will rest Bowdoin's future.

What can be done? Perhaps the tide will turn. The upcoming Christmas plays have combined male opening of nine nations.

Notes And Comments

Washed Out

There used to be a time you could sit in the laundromat and no one would bother you. A guy would bring his dirty clothes in, throw them in a washing machine, and read until the staff was ready to be dried. The whole process cost about 40 cents, and you got clean clothes for your money (maybe) nothing more.

Laundromat solitude now seems gone for ever. The other night, for instance, a student we know was sitting on one of those long wooden benches that face the washing machines when a guy lurched through the door and sat down on the floor underneath the telephone. Our friend continued to read until he was interrupted by the blast of a fire horn. He turned around in time to see the man underneath the phone scramble to his feet and run outside. He was back within a minute, tugging at his pants pocket for change. Finding none, he asked to borrow a dime. Reluctantly our acquaintance handed him the coin, which the guy then deposited in the phone.

"Lo operator? There's a fire, right? No reply until, unfortunately, so he went on. "Wasn't wondering maybe they needed any help. What do you think? Think they need any more guys to help with the fire?"

"Again no reply from the operator. "Well listen, the would-be volunteer continued, "If you was to tell me where the fire was, I'd be more'n happy to go help with the ladders and things."

This time the operator must have told him call the fire department or something, or at any rate, to stop bothering her. The guy in the laundromat looked hurt and a little disgusted.

"Well, I just hope the the — telephone company then, and if it is, and if you was to call up this — laundromat and ASK me to come put the thing out, you think I'd do it? No sir, I would not." Saying this he slammed the receiver down and stomped down to the end of the row of washing machines, and stretching out beside the soft drink cooler, fell asleep.

Biennial Institute To Honor Hawthorne

Nathaniel Hawthorne, literary giant of the 19th Century, will be commemorated at Bowdoin, his alma mater, in Bowdoin's 1964 Biennial Institute next April, it was announced today.

Professor Herbert Ross Brown, Chairman of the English Department, noted that the Institute will mark the 100th anniversary of the famous Victorian author's death in 1864. Hawthorne was a member of Bowdoin's famous Class of 1825, which also included Henry Wadsworth Longfellow.

Leading literary authorities and critics will be invited to lecture at the Institute and hold round-table conferences on the following day on the subjects of Hawthorne and the American novel. Professor Brown said, he is serving as Chairman of Bowdoin's 1964 Institute Committee.

Bowdoin has sponsored Biennial Institutes on a variety of subjects of broad general interests since 1928. Although the programs are designed primarily for undergraduates, they are open to the public without charge and attract audiences from a wide geographic area. The lecturers include specialists in the fields under discussion.

Subjects discussed in previous Biennial Institutes include Soviet Russia (1952), The Contemporary American Novel (1950), The Mind

Bridge Tourney Trials Start Friday, Nov. 7

The Student Union Committee will sponsor the first duplicate bridge tournament of the season in the Weston Union Lounge next Tuesday (Oct. 29) at 8 p.m. There will be an admission charge of 25 cents per player.

The tournament is open to all Bowdoin students, faculty and staff members, and their friends. Merchandise prizes will be awarded to the top finishers.

For beginning bridge players and those who have never taken part in a duplicate contest before, there will be a special lecture on duplicate bridge in the Lounge at 7 p.m. on the same night (Tuesday). Beginners who report for the explanation session at 7 will learn enough in the following hour to be able to compete in the tournament at 8. The Committee said anyone who has ever played contract bridge will find a duplicate tournament a real challenge.

Debaters To Leave For Middlebury

Bowdoin College will open its 1953-54 debate season by participating in a tournament at Middlebury College on Friday and Saturday, Oct. 25 and 26. It was announced today.

Professor Albert R. Thayer, faculty adviser to the College Debates, said four students will travel to Middlebury to compete. They are: Robert M. Farquharson '64, President of the Debate Council; Philip L. Swan '64, Student Assistant in Debate; Peter H. Aranson '64; and Matthew S. Pincus '64. They will argue the national collegiate debate topic for the year: "Resolved, that the Federal Government should provide educational opportunities for qualified high school graduates." Farquharson and Swan will take the negative side of the question while Aranson and Pincus will defend the affirmative. The team will be accompanied to Middlebury by A. William Bloom, Jr., instructor in speech at Bowdoin.

The next tourney in which Bowdoin's debaters will compete will take place at Queens College, Flushing, N. Y., on Friday and Saturday, Nov. 8 and 9. Facing four colleges each on the national topic will be Bowdoin's affirmative team of Raymond R. Lapine '64 and J. Peter Hilychman '64, Debate Council Manager; and the negative team of Philip H. Hansen, III, '64, and Bradford W.

Glee Club Starts Season Nov. 24

Professor Beckwith reports that the Glee Club has an active first season in view. A solo concert at Hebron Academy on November 24 starts the season followed by the Christmas Concert, December 4. Ends the Glee Club in Burlington, Massachusetts, December 7. Has the Pine Manor Junior College Glee Club with the Bowdoin Club in Weymouth, Mass. The Glee Club immediately returns to Bowdoin for a concert on December 8 in Pickard Theater. The Art Gallery will host the Chapel Choir's Christmas Concert on December 16.

Following a more than 36 year old tradition, The Curtis String Quartet from Philadelphia will appear in Pickard Theater at 8:15 p.m. on November 11. A formal student recital will be held in the Weston Union Lounge on November 17 at 2:30 p.m.

Woodrow Wilson Grant Appreciation Due Fans

The annual award of President Woodrow Wilson's grant to the best graduate student in the country is being awarded to an academic excellence award as nominee the Woodrow Wilson National Fellowship. Among the nominees are: Philip S. Wilder, Director of Student Aid, who is Wilson Foundation representative on Bowdoin's campus, said nominations of students by faculty members must be in the Foundation's regional headquarters by Thursday, Oct. 31.

The Fellowships, awarded to top ranking college seniors and graduates, are for those who are seriously considering careers in college teaching. They cover tuition and fees for the first year at the graduate school of the Fellow's choice and a living allowance of \$1,500. Last year, 147 young men and women were chosen by regional committees for the awards from 9,977 nominees submitted by a total of 907 colleges and universities in the United States and Canada. More than 1,100 additional candidates received honorable mention.

Recent Bowdoin winners of the Fellowships include Jonathan Botelbo '63, Stephen Piper '63, Christian Botelbo '62, Stephen E. Hays '61, Douglas Crabtree '60, and Theodore Perry '60.

Awarded by the Woodrow Wilson National Fellowship Foundation are made through grants from the Ford Foundation. In addition to its first year Fellowships, the Foundation provides funds for graduate schools in which fellows are enrolled for the support of the graduate studies beyond their first year. It also awards Dissertation Fellowships to former Woodrow Wilson Fellows in the Humanities and Social Sciences who show they can complete requirements for doctoral degrees in two years or less.

Herbert Ross Brown To Visit Adams House

Herbert Ross Brown, Chairman of the English Department, will address a Founders' Day program at Lafayette College this weekend.

Brown will address a Founders' Day program at Lafayette College on Friday beginning at 6:30 p.m. Brown, graduated from Bowdoin in 1924 and taught English there for a year before joining the Bowdoin faculty in 1928. He was awarded the honorary degree of doctor of letters by Lafayette in 1949.

Originally from Allentown, he has been managing editor of the New England Quarterly since 1944 and has been editor of literary works of Henry Wendell Holmes, Nathaniel Hawthorne and other authors. He is the author of The Sentimental Novel in America and is preparing a biography of the late President Kenneth C. Millis of Bowdoin.

Dr. Herman H. Long, Race Relations Expert, To Speak At College

Dr. Herman H. Long, President-elect of Talladega College in Alabama and a widely-known writer and authority on race relations, will make two addresses at Bowdoin College Nov. 7. It was announced today.

His first appearance will be as speaker at Bowdoin's Chapel Service, his second, at 8 p.m., will be in the Moulton Union auditorium, according to Philip H. Hansen, III, Bowdoin's director of the Bowdoin College Association, sponsors of Dr. Long's talks.

In his Moulton Union address, Dr. Long will speak on "The Role of Students in the Civil Rights Movement." In a panel discussion in which Professor Lawrence S. Hall, graduate-school dean, and English Department faculty members will take part. Questions from the audience will be invited at the panel discussion.

Dr. Long, who will assume the Presidency of Talladega on Jan. 1, is Director of the Race Relations Department of the Board for Homeless Families of the United States Church, with offices at Peck University in Nashville, Tenn. He is the author of a number of important books on racial problems, including "People vs. Property," a study which served as the basis of the 1948 United States Supreme Court decision outlawing racially restrictive covenants.

Recently, he served on the Mayor's board of commission in Nashville, Tenn., to study racial problems in that city. Dr. Long is known for his

Good News For Skiers

Though the weather of the last couple of weeks may have seemed otherwise, the fact still remains that Winter is not too many weeks away. This may seem a rather dismal observation to many, but not to one particular segment of the College population — the skiers. It will also be welcomed by Red Dickinson, who has just opened a ski specialty shop in the Casa Bay Country Store.

Going simply by the title "Red's Ski Shop" this newest addition to the Brunswick economy is one which should prove welcome to many Bowdoin students who have here-to-fore had to travel to Portland or Boston in search of their skiing equipment and apparel. Among other things, Mr. Dickinson will carry a full line of the Hart meal skin, the Kastle, and the Fischer ski, Marker and Nevada bindings, plus a complete line of sweaters, parkas, socks, knickers, goggles, and all the other gear required to make one seasonably comfortable while rushing down an icy hill at 60 mph.

Mr. Dickinson himself is an old hand in the ski business. A native of Marblehead, he skied in prep school and at Nichols College and has worked the last two seasons at Sugarbush. He been on the slopes since 1 was six he states, "I'm getting into an old hand, I guess."

The new ski shop will also offer several extras in the way of service. First, following the practice of the College Store, The Shop will extend credit to all Bowdoin students. (A good way to buy yourself an early Christmas present). Second, Mr. Dickinson is well versed in ski repairs, so that after one of those trying days on the slopes you might leave your ski in the shop on Monday with the assurance that they will be ready for the next weekend. All repair work will be done on the premises. Also there will be the aforementioned ski rental service and ski exchange.

Your date coming up for a weekend's skiing? No problem. Read's will carry a complete line of equipment for both men and women, all ages.

So as our extended Indian Summer draws to a close, and the first snowflakes begin to flir down you may want to drop over to browse around this new shop and contemplate weekends on the slopes. Or you can transfer to Florida Sunday.

General Visits Bowdoin Corps

Major General Benjamin F. Evans, Jr., newly appointed Commanding General of the XIII U. S. Army Corps, made an official visit to Bowdoin Tuesday (Oct. 22).

The General met members of the College administration and the Department of Military Science as well as cadet staff officers. He reviewed ROTC activities at Bowdoin. He was met on his arrival at Naval Air Station Brunswick by commanding officers of that station and of the Topsham Air Force Base.

On campus, General Evans attended a Chapel service at which Master Sergeant Marshall P. Bailey, USA, of Bowdoin's ROTC spoke. He then met with President Cotes, Dean Nathaniel C. Kendrick, Dean Cresson, Professor James Moulton of Bowdoin's Biology Department, and Chairman of the Faculty Committee on Military Affairs; Sam Ladd, Jr., Director of Bowdoin's Placement Bureau and member of the Military Affairs Committee; and K. Col. William F. Vassar, USA, head of the ROTC department.

Following his meeting with College officers, General Evans inspected the Arms and Supply Rooms in Rhodes Hall, headquarters of the Bowdoin ROTC, and held consultation with cadet officers and the ROTC staff in the ROTC office. After a break for coffee, the General was driven back to the Naval Air Station for his flight back to his headquarters.

Polar Bearings By Rick Andrus and George Bennett

Saturday - Series Opener

The main attraction tomorrow afternoon will see a record-breaking Polar Bear eleven play host to the rapidly and steadily improving Mules of Colby. While Bowdoin was holding the Ephems scoreless last Saturday at Williamstown, and in the process containing the "Little Three" without a touchdown for the first time in history, the Waterville gridmen were galloping to an unexpected 24-7 victory of highly rated and previously undefeated Trinity. This gives all indications that the State Series opener at Whittier Field will be a much stiffer contest than had been expected two weeks ago.

We extend a note of thanks to the Bowdoin Touchdown Club of New York for their recognition of Jim MacAllen, the team's leading scorer. Jim was presented with a forty pound granite polar bear for his performance against Williams last week. Nine of Bob Harrington's twelve completions in twenty-one attempts were taken in by MacAllen for 122 yards and a touchdown.

Saturday's victory over Williams moved the Polar Bears to the number seven slot in the Lambert poll. In the number eight position is the team whose three points now stands between the home team and an undefeated season. Amherst was dropped from second to eighth by virtue of the 7-0 loss handed them by the Coast Guard. The number nine position is occupied by a team from Orono that is so good that Bowdoin has been forced to drop it from the schedule in 1965. Funny how the 1960 State Series keeps coming to mind this year.

It is interesting to note that in the first four games the Polar Bear eleven has more than doubled their opponents in total yardage (1078-535), average yards per game (269-133), and passing yardage (492-198). An alert defense has also recovered ten out of eleven opposition fumbles.

Colby Co-Captain Ken Palmer has let it be known that the Mules are up for the State Series and especially to revenge last year's 13-12 decision that gave Bowdoin its only Series win.

The man to watch for Colby is sophomore halfback Bill George, a five foot eight, 160 pounder, who scampered 53 yards for a tie-breaking touchdown last week, and then registered on the scoreboard again with a 43 yard return on an interception of a Trinity aerial. George was awarded the ECAC Sophomore of the Week award and to date has scored 24 of Colby's 65 points in five games.

Coach John Simpson is looking forward to the return to action of two key men who have been sidelined in the persons of end, Bruce Waldman, and back, Dick Gilmore.

All in all it looks like good spectating at Whittier Field tomorrow afternoon.

PAT ON THE BACK

This week's pat on the back goes to Gerry Geisler who has been scoring continually throughout the season for Charlie Butt's booters, including two goals in the Bates game. Gerry has provided a real spark to the team both on and off the field.

Team Standings

Bowdoin Even Downs Williams

Last Saturday saw the Bowdoin Polar Bear's regain their winning form, again defeating the Williams Ephems by a score of 20-0. In holding Williams scoreless, this Polar Bear team did what no other squad has done since 1946, when Bowdoin shut-out Williams 34-0.

Williams came close to the Bowdoin goal line only once. Near the end of the third period Williams quarterback Doug Fern had gained a first down to Bowdoin's 23 yard line by one of his effective roll-outs. Bowdoin's defense drove the Ephems back to the Bowdoin 43; then on fourth and 20 Williams' other quarterback Jim Anderson faked a kick and passed to end Martin Shulken. Shulken was grounded on the 28, just short of a first down, and Williams' strongest bid ended here.

Bowdoin's Offensive Dominant Except for the occasional effective roll-outs by Williams quarterback Fern, Bowdoin dominated the offense. Late in the first half and in the second half, the Polar Bear defense contained Fern's roll-outs and in general held Williams to only sporadic short gains.

Bowdoin's offense wasted no time in getting going, and scored one time in each of the first three quarters. The Polar Bear offensive strategy initially appeared to be centered on Jim MacAllen's quick hands. MacAllen nabbed Bob Harrington's first two passes of the afternoon (coming on the first two downs) to move line-backers to cover him, thus opening the line for the hard running of Hooke, Soule, and Farley. In the first quarter the ball exchanged hands four times without either team sustaining a significant long march. Well along in the first

off from Harrington and went off tackled into the end-zone. The kick failed this time, and the score thus was 13-0, as it remained throughout the rest of the half.

Taking a short kick opening the second half, Jim MacAllen raced up the middle, and picking his own lanes, waded and dodged to the Williams 18. Harrington gained 7 yards on a roll-out; and on 2nd and 9 from the 17 yard line, Harrington hit MacAllen in the end zone for the Polar Bear's third and last touchdown. Smith's conversion was the final scoring of the afternoon, the scoreboard showing Bowdoin 30, Williams 0. Although the scoring for the day was over, the remainder of the game showed Bowdoin's balance, with Soule and Hooke looking impressive on the ground. The Bowdoin bench saw action late in the game, and 8-14 their own. Alteman and Johnson, both sophomores, were helpful in the backfield during the second half.

Lightest Line In The Northeast Except for the one bid by Williams in the third period, Bowdoin's defense was unflinching. Tarnell, Andrew, Ingram, Stocking, Haddock, and all the others stopped Williams continuously enabling Harrington and company to take the ball and move. The defense, although one of the lightest in the Northeast, has yielded only 9 points in four games. With U. of Maine, Bates, and Colby all posting "double figure" wins this past weekend, the strong Polar Bear defense has its work cut out for it in the Maine Series.

Harriers Topped Booters Hope To Even Record Against Colby

On Saturday, October 19, the Polar Bear Cross-country team lost 23-34 to the Ephems of Williams. The individual winner was W. Coyle, the Nigerian foreign student at Williams. Following him was the Polar Bear Captain Bert Babcock in second place. After Babcock for Bowdoin were Dick Howe (9th), Tom Chamberlin (8th), Chris Reichert (10th), John Wilson (11th). Despite two losses in a row Captain Bert Babcock is hopeful that his teammates can defeat Colby in the Homecoming meet at the Brunswick Golf Course.

Tomorrow the White booters return to Pickard Field to try to salvage the Maine State title after beating U. of Maine and losing to Bates this past week.

The Polar Bears will be hard pressed to even their record, which currently stands at 2-3, for the Colby squad has racked up an impressive list of victories which include wins over B. U. Brantides, and Lowell Tech. Key scorer for the mules this season has proved to be junior Bob Kelly at center forward.

Polar Bears Over Black Ones The Bowdoin squad took their first step toward another series title (they are currently co-defenders with Colby) last Friday as they outlasted U. of Maine 3-1 in a rather listless game at the latter's home field.

The visitors started the scoring in the first period as Chuck Phillips sent one in the nets on a pass by Gerry Gleaser. The White continued to keep the press on throughout the first half but the many scoring opportunities went unused and the first two halves ended with the scoreboard still reading 1-0. Maine came back to life to some degree in the second half, but not before Gerry Gleaser put another pass in the goal on a headed ball by Carlos Ramos. Near the end of the 3rd period the Black Bears managed to break through for their lone tally, but this was neutralized early in the last period on an unassisted corner kick by Rick Copeland.

The defensive unit worked well throughout and was able to contain the Maine offensive unit, which apparently placed most of its hopes on a fast kick-and-run game. The forward line, however, still demonstrated a hesitance to shoot which has kept Bowdoin's scores down this season. The game was a hard one to lose for the Bowdoin squad, especially since they outshot their adversaries, 21-18. It can be imagined that they will be looking for revenge both tomorrow and next Saturday.

Bates In First Win Over White The start made on Friday was reversed last Tuesday, however, as a hard-running Bates club handed the White their first loss, 4-2, in the series, and the first loss ever to that particular school.

Southern Liberal, Hodding Carter Gets Bowdoin Prize At Special Convocation

Feels Goldwater Strong In South

"Nine out of eleven Southern states are for Goldwater." This statement was made by Mr. Hodding Carter who was introduced at a Thursday morning press conference by President Coles as one of the "earliest Southern voices for equality in the South and North."

THE PRESENTATION — Dr. Carter is awarded the Bowdoin Prize at yesterday's convocation.

Acceptance Address Cites Need For Racial Tolerance

"But I do not know that all of us have much unlearning yet to do if the human race is to survive its genius for cruel mischief and arrogance and destruction."

This quote comes from a speech delivered at the Bowdoin Prize Convocation by Mr. Hodding Carter '27, Editor of the Greenville, Miss., Delta Democrat-Times and this year's recipient of the Prize.

In his address, entitled "Concerning Five Journeys," Mr. Carter described his struggle for understanding and sympathy toward the disenfranchised, misery laden millions of the earth.

His third journey, six years later, said, "began" in a small Louisiana town 40 years ago last month and continued for four years in a small college in a small town in New England.

His fourth journey, four years ago, was to South Africa, where he lived for four months. "In South Africa," he said, "we met spokesmen of each of the unreckoned groups of that beleaguered land — the Dutch-descended whites, the British-descended whites, the multi-racial coloreds, the Indians, the Malays, and the preponderant black Africans."

Stabbed White Majority — Throughout Africa — and even in the United Nations — there is wicked talk that white South Africans should be and will be run into the sea, a feat which would take a great deal of doing. To this he said, "we met spokesmen of each of the unreckoned groups of that beleaguered land — the Dutch-descended whites, the British-descended whites, the multi-racial coloreds, the Indians, the Malays, and the preponderant black Africans."

Continued on page 3

Mr. Welch unveiled a special campaign brochure and described the operation of a special "hot line" telephone and telegraph system by which campaign headquarters had received up-to-the-minute progress reports from area chairmen throughout the nation all day Friday and far into the night, and all Saturday morning.

PLAY AUDITIONS

Auditions for two Christmas plays, "The Shepherds' Feast" and "Alphonsus and Anna," will be held Sunday and Monday in the Chapel.

Carters Recalls Bowdoin

Hodding Carter of Bowdoin's Class of 1877 the recipient of the Bowdoin Prize has written in his book, WHERE MAIN STREET MEETS THE RIVER, describes his year as an undergraduate.

In the beginning I was often angry at the challenges of student and teacher to attitudes and customs and versions of history that I had thought unchallengeable. But at the end of those four years, and ever since, I have been grateful to the teachers and fellow students of that small unostentatious school, where the teacher and the taught could draw very close together, and where a youngster who liked to scribble was no queer fish at all but could almost rank with the athlete.

Nathan Webb Research Scholarship Founded In Honor Of Noted Juror

A new graduate research scholarship in English literature is being established in honor of the memory of the late Honorable Nathan Webb, one of Maine's foremost jurists, who was born in Bowdoin, President Coles announced recently.

Named The Nathan Webb Research Scholarship in English or in English Literature, the grant is expected to be initially awarded to the student who has been a qualified graduate of Bowdoin of the Class of 1964 or earlier. It will amount to \$1,200 annually and may be continued to the amount of \$3,000 for a period of up to three years.

"Skating Vacation"

STARS OF ICE SHOW AT BOWDOIN NOV. 3 — Shown above are two talented 14-year-old youngsters who will be among stars of "Polar Ice Capades," skating show to be presented at Bowdoin Arena tomorrow at 7:30 p.m.

The Bowdoin Arena has announced that it will present its sixth "Polar Ice Capades" skating show tomorrow evening at 7:30 p.m.

to do graduate work, the establishment of the Webb Research Scholarship will widen the opportunities for advanced study of the history and criticism of literature," he added.

A graduate of the University of Toronto, Dr. Truse and his wife had resided in Portland, Maine, where he was well-known as a music teacher, composer and church organist, until 1922 when they moved to Palo Alto.

It was Dr. Truse's wish to establish the scholarship to perpetuate the name of Judge Webb, he wrote the College, as "one of the outstanding men of Maine, indeed of New England." Dr. Truse said he chose Bowdoin to administer the scholarship fund because he felt that both Judge Webb and Bowdoin College "are so eminently Maine products."

Judge Webb, who was awarded an honorary Doctor of Laws degree by Bowdoin in 1890, had served as Judge of the United States District Court of Maine for 20 years until 1920, the year of his retirement and subsequent death. One of the judicial records preserved in his great intellectual power, fervent integrity, and moral stature which were represented as the best traits of what is known as the New England character.

A native of Portland, Maine, Judge Webb received his Bachelor's Degree from Harvard in 1885 and a Doctor of Laws degree there in 1895. He resided in New Portland, Maine, from 1895 to 1922, in the Maine house at 225-26, 285 as Cummings.

berland County Attorney from 1895 to 1870. He became U.S. District Attorney for Maine in 1870, in which post he served for eight years. He was elevated to the U.S. District Court bench in 1882.

Graduate Study Center Announced By Whiteside

Professor William B. Whiteside, Director of the Senior Center Program, said today the College plans to open a new Graduate Study Center within the next month.

The Study Center, part of the pioneering Senior Center Program, will be an information, workshop and conference center for students planning on taking graduate studies in any field.

Professor Whiteside said the Study Center will include a complete library of information on all courses given in graduate school in this country and some foreign nations. This will include their catalogues, syllabi, special publications, entrance requirements and other essential data of interest to prospective graduate students.

The Graduate Study Center will be the center for all graduate study available in the many fields of university study. Whiteside will be able to consult with one or other faculty members on this data. Professor Whiteside said. The work of the Study Center will (Please turn to page 3)

Professor Bearce Selected For International Congress

Professor George D. Bearce, prize-winning author and scholar of India, has been selected as one of 30 American specialists to attend the 26th International Congress of Orientalists in New Delhi, India, Jan. 4-10, it was recently announced.

Professor Bearce will participate in the Congress through a travel grant from the American Council of Learned Societies. He will deliver a paper at the Congress entitled "The Festivals of Dewar: the Interaction of India and the West in Early Nineteenth Century Indian Painting."

International Congresses of Orientalists are held every two or three years. They include all areas of Oriental study, from the Near East to East Asia, and the many fields range from ancient archeology and linguistics to religion, philosophy, and history throughout the ages.

Professor Bearce is an internationally known scholar in the field of South Asian history. His book, "British Attitudes Towards India, 1784-1868," published by the Oxford University Press in 1961, received the W. H. Murray Prize for 1962, an award of the American Historical Association (AHS) for the best book on the history of India originally published in this country. The book is widely used in colleges and universities.

A Look Into Antiquity

Reviewing some rather ancient history the other day, we came across a reference to the Roman god Janus, a Latin deity represented with two faces...

This bit of information suggested an analogy with the present day — in particular, with the present day at the college. The temple being guarded is none other than the faculty meeting room...

We have spoken with the Dean enough to be sufficiently impressed with his command of the language to be sure that he is capable of an excellent job in this respect.

Our doubts stem from an alarming number of sources who report that the Dean is not taking the matter of the petition too seriously.

Here, however, we must return to the analogy of the two-faced deity, for in personal conversations with the gentleman in question we have received little indication of this alleged attitude.

We realize, of course, that one man is not going to decide the issue in the coming Faculty meeting...

The Next-To-Last Word

By now every freshman who pledged a fraternity has been an initiated member of his house for about a week.

This year, orientation was different. By common consensus it was easier. The class of 1967 has become "brothers" easier than perhaps any other class in the history of fraternities at Bowdoin.

Unquestionable this is significant for the fraternity system in several ways.

Will, as some suggest, the privilege of membership so lightly won be as lightly regarded? Probably not, but there is a question of value which cannot be disregarded.

Also, and perhaps of more paramount importance, will this new "easy way in" signal the collapse of some of the traditions connected with orientation and initiation?

Whatever happens, this won't be the last word about the history-making orientation program of 1963.

The final word will be shaped later on this year as the freshmen demonstrate what they did or did not learn.

There was a time when initiation into a fraternity was accompanied by a great sense of accomplishment.

Letters To The Editor

Orientation Perhaps one might liken Orientation to a pendulum which has suddenly swung left after a long residence at the right end of its arc.

Orientation, that much abused victim of criticism from right and left, Old Guard and men of the New Bowdoin went down again in last week's Orient editorial.

This year's program was admitted to be an experiment at the outset based on the feeling that the maturity of the freshmen of '67 and the "new" attitude of Bowdoin demanded changes in the old program.

Although not by any means a total success, by anyone's standards, the program achieved some goals: learning of college and fraternal life, acquaintance with systems of scholastic help, allowing the freshmen more time for their studies (and waterfights), removing some of the worst as well as some of the better parts of older programs, and indeed, producing some good Homecoming displays.

Many things it did not achieve which might have been better achieved by allowing the individual fraternities more freedom in developing their own programs.

The reasons for the program's failures lies not only in the program, but in the growing student apathy toward this subject evident during the past few years.

Some questions they might ask themselves are: should Chapel be really religious here at Bowdoin, or purely a chance for interested persons to inform interested parts of the college community on topics ranging from R.O.T.C. at Harvard to the possibilities of oil on Mare Point?

Should we remove the denominational prayer from the end of the service and replace it with a moment of silent prayer? Should Chapel be held every day with admitted variance in quality of speakers or only when it can be made interesting to a large number of the college community? Should Chapel of any sort still be compulsory? Should Chapel be removed in favor of 8:30 classes?

All these questions have been raised since the "New Year's Riot" last Spring. Hopefully some of them will be answered by a concerted effort by the committee to quickly define the basic problems and deal with them in order that the college can save the postage used to send our New Year's Cards last year.

Goldwater To the Editor, The Goldwater for President organization, a nationally chartered non-partisan group of dedicated citizens, is actively working for the nomination of Senator Barry Goldwater for President of the United States in 1964.

Many colleges and universities have operating chapters. I respectfully request that you publish this letter in the expectation that the undergraduate body at Bowdoin will be eager to establish a chapter.

Any Bowdoin man may obtain complete information and assistance by contacting me as Goldwater for President National Headquarters P. O. Box 674 Phoenix 1, Arizona

Very truly yours, Alvin B. Sullivan, Jr. Bowdoin '63

THE BOWDOIN ORIENT

Peace Corps Intern Describes Program Enthusiastic in the word to describe the reactions of a Bowdoin student who spent the summer at an Intern at the headquarters of the Peace Corps in Washington, D. C.

William L. Hughes, Jr., now a Bowdoin senior, said his paper-enclosed was "most stimulating," both in the Peace Corps offices and in the Capital, where he had opportunities to discuss political, international, and other major issues with leading government officials and political leaders.

Bill was chosen as one of only 20 college students from across the nation to take part in the Student Intern Program, a pilot project of the Peace Corps. Upon completion of the nearly three-month program, Hughes and his fellow Interns were designated spokesmen for the Corps on their respective campuses. They are able to inform other students of the work, aims and potentials of the Corps.

Hughes, a psychology major, was assigned to the Division of Research, where his main task was summarizing research reports and compiling data on various methods for the selection of volunteers for overseas Peace Corps duty.

The exciting job of digesting "these voluminous reports into pamphlet form required the closest study but was quite rewarding because of their value to the agency," he said.

That his work was more than satisfactory was attested in a letter from Mrs. Dorothy Mead Jacobsen, Director of Personnel for the Peace Corps, to Philip S. Wilder, Assistant to President James S. Coles of Bowdoin. Mrs. Jacobsen said in part:

"Dr. (Joseph) Colmen, Chief of the Division of Research, characterized Bill as 'most outstanding' and stated that his work represented the highest standard of performance."

Hughes said the agency had recently begun to record the experiences of Peace Corps volunteers who have completed their tours of duty and are back in the United States. In talking with several of these returnees, he said he found their personal experiences in the field much more vivid than he "expected would be the case from reading informational data published in Peace Corps pamphlets."

So he listened by buying and borrowing records when and where he could. As soon as the devotee began to listen to the "many sounds of jazz," he realized that his untimely birth had deprived him of a first-hand knowledge of the days when jazz was defining its way up the fabled Mississippi, filtering into the large eastern cities, and being "born again" in a post-war Harlem.

So the fan had to be content to read a nearly endless catalogue of musicians, styles, and jazz-anecdotes more readily than batting averages and football statistics. (John Mackay, one-time proprietor of this column, and I often used to exchange such questions as "How, when, and where did Bix Beiderbeck die?" John, I am ashamed to say, usually had no trouble stamping me.)

From all of this confusion, the jazz fan of our era gained a comprehensive insight into the growth of jazz, and, though his experience was certainly second-hand, he often talks today as if he was actually on the scene when Ben Webster blew his first chorus of "Cottontail" with Ellington. He has acquired a strange set of gods and a stranger set of memories.

Jazz lovers can be spotted and identified quite easily, although their outward appearance is usually quite ordinary. Occasionally one of them will sport a pork-pie hat or a pair of sunglasses (at night, of course), but he will not do this often, fearing that the strictly functional nature of these articles might be misunderstood.

He is best identified by his manner. In an unguarded moment, he might let a word or phrase slip out which will mark him immediately and irrevocably. Granted, other people use these words, but here is a certain intonation and stressing that only a jazz fan can possess. (Caution, then, should be exercised when having an identification solely on vocabulary.) The subject may also be given to singing short phrases without any recognizable lyrics. And, finally, the subject may be observed frequently performing catchy rhythmic patterns with his hands, fingers, or a pencil on desks, table-tops, or walls. And this is a tell-tale sign indeed.

I must add one further note of caution. When you have definitely spotted the subject as a jazz fan, be particularly careful in choosing what you say to him. Discretion is the best guide here, but you must not under any circumstances whatsoever mention the following names: Guy Lombardo and Lawrence Welk. Such a blunder may cause serious injury and illness to the subject.

By now every freshman who pledged a fraternity has been an initiated member of his house for about a week.

This year, orientation was different. By common consensus it was easier. The class of 1967 has become "brothers" easier than perhaps any other class in the history of fraternities at Bowdoin.

Booze The College Bowl

Five guys hurried into Bowdoin's auditorium... The moderator explained that the eighth finalist wasn't going to show...

Merit Program Will Continue

The Merit Scholarship Program, established at Bowdoin this year, will be continued in 1968 with the award of eight new scholarships...

The Merit Program, sponsored by Bowdoin, is conducted with the cooperation of the National Merit Scholarship Corporation (NMSC)...

Growth of the NMSC program is shown the total of some 1,700 scholarships to be offered in 1968...

The NMSC reports that the 19 institutions of higher learning, including Bowdoin, sponsor more than 300 of the Merit Scholarships...

College-sponsored Merit Scholarships were first awarded last year to students entering the sponsoring institutions last September...

The NMSC deems and administers a qualifying merit scholarship throughout the nation...

All male finalists are informed of Bowdoin's academic program both by the NMSC and in a letter from Hubert S. Shaw, Bowdoin's Director of Admissions...

Since the colleges themselves select the scholarship recipients, the institutions retain control of the admissions process while utilizing the Merit Program as a mechanism for identifying talented students.

The second round of a bill-reading session... The bill was read and the students were asked to vote on it.

When it was over, Carter came back from again to look at the performers, the parents, the men who represent Bowdoin on a nation-wide television program...

"It intimidates the really," he said, "helpless the rest of it." It makes these guys try to do their best before a live audience.

What he wants are sensible questions, preferably combining two different areas of knowledge or more. They can be submitted to Bill Hall at any time. He's not busy.

CARTER - From Page 1

goal I cannot describe. These students write men are resolute and indomitable; and the nation which the white minority created and dominates desires to survive whatever the failures and short-comings of the white man in his treatment of the black majority.

"It was in South Africa that I first fully realized the implications of being a small minority of the world's people - as we whites are - and the whippers of the non-whites are rising to the angry shouting of many hundreds of millions."

The last of Mr. Carter's journey, he said, was his last mission. "I was a pilgrim by an obscure and perhaps unbalanced man named William Moore, a letter carrier from Memphis, Tennessee."

Moore, the noted newsmen said, "planned to walk through the Deep South and in his native Mississippi, speak to his fellow whites about the horrors of the South."

Mr. Carter said his 24-year-old son, now editing editor of the Delta Democrat-Times, "wrote an editorial about the murder. I would like to read it... not because of private pride but because there are many more in the South who think as he does."

"In home and churches and colleges and universities throughout the South bigotry is being challenged. It was mine at Bowdoin 6 years ago."

The editorial said in part "The face or creed, but our common humanity, impelled William Moore on his way with his message to a perverse South which was never delivered. He was struck down by a man or men who have another quality all men share in greater or less degree; a cold disdain for the sanctity of their fellow man."

"It is not sacrilegious to say that a symbol of the South's bigotry was a man whose death was a tragedy for the South. It is not sacrilegious to say that a symbol of the South's bigotry was a man whose death was a tragedy for the South."

Mr. Carter said that "Reading this editorial, I cannot feel better while the small candles flame ever while man plans to penetrate the shadows of the moon."

"We of the Bowdoin are not all racists, any more than are all our fellow citizens of the United States. We who are whites are not inevitable."

Another feature of the luncheon session, was a brief address by Mrs. A. Dumas '66 of Cape Elizabeth, Me., Vice Chairman of the Alumni Fund...

Richard H. Downes '60 of Worcester, Mass., winner of the heavily subsidized Class of 1929 Trophy, will be presented each year to whichever of Bowdoin's ten most recent graduating classes has achieved the highest percentage of participation in the Fund.

Dr. Roy L. Wilson '40 of Menlo Park, Calif., winner of the Class of 1936 Bowl, given annually to the class whose record in support of the Alumni Fund shows the greatest improvement over the preceding year.

Richard H. Downes '60 of Worcester, Mass., winner of the heavily subsidized Class of 1929 Trophy, will be presented each year to whichever of Bowdoin's ten most recent graduating classes has achieved the highest percentage of participation in the Fund.

Trials Are Announced

In a recent committee to the college. Professor of Speech at Bowdoin, Dr. Thayer announced the upcoming speech competition for the fall semester.

As in past years, debates and speaking contests dominate the schedule. Both of these oral communication areas have received an added impetus of enthusiasm this year. The variety debaters' recent sweep of the Middlebury tournament kicked off the debate season officially in the style. However, perhaps more important, is the fact that English 3 will find its background for the freshman class and will induce the yearlings to participate in as many events as possible.

Mr. Carter said his 24-year-old son, now editing editor of the Delta Democrat-Times, "wrote an editorial about the murder. I would like to read it... not because of private pride but because there are many more in the South who think as he does."

"In home and churches and colleges and universities throughout the South bigotry is being challenged. It was mine at Bowdoin 6 years ago."

Polar Bearings

By Rick Andrus and George Bennett

The Weeks Ahead

The winter season has in many ways crashed down upon us. The whirl of Homecoming — with dates in summer clothing and a resounding come-back football victory over Colby — seems far in the past; overshadowed by hurricane rains and cold snow.

With the ski resorts proclaiming early opening, boasting of thick covers already, who remembers the fall season that must be completed.

The Arena is open for interfraternity skating in the mornings. Saturday evening it will be the scene of the "Polar Ice Capades," an ice show featuring prominent skating figures from throughout the northeast. Despite Hoke bands etc., every student would miss something if he did not take in at least part of this show.

The winter sports teams have started unofficial workouts, and have had impressive turnouts. Scrimmages are already highlighting these practices.

With all the banter of winter sports: skiing, skating, hockey, and the others, who remembers the fall sports schedule that is to be completed — the crucial remainder of the Maine Series ahead. The answer is simple — the Football team remembers, Coach Corey remembers, and the students might (and should) remember.

Bates College's loss to the University of Maine last Saturday will have no effect on the Bates-Bowdoin contest tomorrow. Bates will be no push-over for the surging Bowdoin squad. They beat both Middlebury and Worcester before running into Maine. Bates has several veteran men back from the team that beat Bowdoin last year at Bates. The middle of their line and one end position is solidly filled by veterans. The halfbacks are experienced. Bates' biggest threat is 200 pound "plus" fullback Tom Carr. Before Maine (in which Bates' offense had little chance to show their wares) Carr averaged over 20 carries per game.

Before Bowdoin has the right to face Maine for the Series Championship, they must beat Bates. The TEAM is ready — as is evidenced by the spirit of this week's practices in weather unfit for even our mythical Polar Bear himself. Coach Corey emphasized yesterday morning that every Series game is an entity in itself — that each team is on equal ground, and that anything can happen in these spirited, traditional contests.

Let's make sure that student spirit does not bog down — because of the winter atmosphere or over-confidence. Only loyal fans deserve a quality performance.

Pat On The Back

Congratulations this week go to Frank Drigotas, Bowdoin's Football Captain who was named as an end on the latest ECAC All-East small college team. Drigotas was the only Maine player chosen for the team. Also to Bill Minis, who was nominated for the All-East team; and to Paul Soule whose outstanding ground gains sparked the Bowdoin offense.

Fresh Soccer Hopes For Perfect Season

A strong Kents Hill squad is the only remaining barrier between the Bowdoin College freshman soccer team and an unprecedented undefeated season.

"Team play and bench strength have played a large part in our success," says Professor L. Dodge Fernald, Jr., Bowdoin's freshman soccer coach.

Fernald's club has won its first four games by convincing margins. The team defeated Fryeburg 3-1, Hebron 5-3, North Yarmouth 4-1 and Colby's freshmen 3-1.

Kents Hill School is also undefeated and will be a stiff test for the Polar Bears. The game will be played at Bowdoin next Wednesday, at 2 p.m.

High scorers to date for the Bowdoin freshmen have been Steve Mickle, Ike Akinduro and Tom Brown. Each has scored four goals. Outstanding in the backfield have been Sandy Salmea, Charles Fowell and Bob Jones. Fernald noted that Bob Swain has done a fine job in the goal in his first year of soccer.

Cross Country Victory

On Saturday, October 26, Bowdoin X-Country team defeated Colby 2-1. The victory gave the team a 2-0 record for the season and established it as one of the finest Polar Bear squads in years. Finishing first was Dick Howe of Bowdoin. Following him were Bert Babcock (3), Tom Chamberlain (4), Chris Reichert (6), and John Wilson (8). The team is developing well and, despite its limited number, is doing a fine job. This week the team entertains a Bates squad which is regarded as one of the best ever at that school.

The result is always entertaining and informative, often brilliant, occasionally profound. More and more, the Atlantic is finding its way into the hands of discerning readers. Get your copy today.

Booters Ready To Take On Bobcats

Tomorrow may prove the turning point in the Maine State soccer series as the once-beaten Polar Bears attempt to even the score against a second-place Bates club. The contest comes after a week which saw the Bowdoin squad tie Colby, 3-3, and romp over Maine, 6-1.

Maroon men to watch tomorrow will be center forward Lanz and inside halfguard, who, between them, accounted for that team's 4-2 victory over the White in the first round of the series.

Maine Bears Mauled Bowdoin stepped back into competition for the series this yesterday with an impressive display of scoring against an undermanned Maine Club at Pickett Field. The writing was on the wall for the visitors from the opening whistle when the White forward line, in a series of beautifully executed passes and crosses took the ball deep into Maine territory for an early shot. Though this first failed, another by inside Hans Hede a few moments later did not.

Then for a few moments the Polar Bear defense got careless, and while both Steve Codner and Bill Horton looked on in disbelief, a Maine forward trickled one into the nets through the legs of several White defencesmen. Bowdoin came back strong, however, and soon two more shots were tipped into the nets by half-back Bill Horton (on a direct kick from about 40 yards out) and one by Chuck Phillips. A final tally before the half-time whistle came on a quiet shot by Carlos Ramos.

Though the Black Bears came back to life for a little while during the third period, the scene was much the same, with the White half backs and inside dominating the play at midfield and feeding to both the wings and center with good success. Further scores came in the third and fourth periods on shots by Hans Hede again, and one by Ed Fitzgerald.

The only disturbing feature in this otherwise well-played contest was the number of missed opportunities by the White forward line. Against Bates, which is currently rated one of the three best teams in New England, every shot will have to be taken at the least opportunity.

By the end of the game it was evident that both teams were feeling the effects of the heat, and the two overtime periods were played with neither side being able to continue pressing for more than short spaces of time. The game ended with nothing more accomplished, the score still 3-3. This is the second time in as many games that the Polar Bears and the Mules have played to a dead heat, the last being when the two tied against each other for the 1962 state series crown, which they now defend jointly.

Coach opened the scoring in the first few minutes of the first period by cashing in on a penalty made by Bowdoin in the latter's own goal area. Continuing to keep the pressure on, the Mule's offensive line looked considerably better than that of the Polar Bears during the first half, and the White defense had several occasions when goals were averted only a few feet in front of the goal mouth. However, the visitors weren't quite able to put any of them in the nets, and the half ended with the single penalty kick still being the only score on the record book.

Effective Pep Talk Due, perhaps, to an effective pep talk by Coach Butt during the half, the White came back in the second half with considerable more "vigor" than that which they had displayed in the first two canes. Though Colby scored once more early in the third period, Bowdoin countered with three straight to tie the scales in favor of the home team. These came on shots by Hans Hede, Gerry Giesler, and Carlos Ramos. Frequently during the third and fourth quarters the Bears had shots at the Mule goal, and only superb play by the Colby goal-tender, coupled with a fair measure of just plain bad luck kept the Bowdoin squad from emerging victorious. The only other Colby score — but the crucial one — came on a fast break by the high-scoring Mule inside, Dave Kelly.

Lambert Poll

Despite its 21-13 victory over Colby last week, the Bowdoin College football team slipped one notch to eighth place in the latest standings for the Lambert Cup, symbol of Eastern small college football supremacy.

Coach Nels Corey's Polar Bears, who have a 4-1 season's record to date, were given a total of 2.8 points out of a possible 10 by a selection committee including coaches, sportswriters and sports-casters.

Paul Soule then made a nice return of the Colby kickoff to the Bowdoin forty. A Harrington to MacAllen completion placed the ball on the Colby thirty-two. A twenty-yard Harrington pass moved the ball to the Colby twenty yard line. On the next day Harrington connected to Soule across the middle. Soule churned his way to the three yard line giving Bowdoin first and goal. Soule plunged in for the touchdown that was to put Bowdoin out in front for good. The conversion failed.

Meet Gerald Bourland

Computer Systems Associate at WE

Gerald Bourland, B.S., Central Missouri State College, '61, picked Western Electric because it offered many interesting and challenging opportunities in his favorite fields—automation and data processing. Gerald's work here consists of writing, testing and documenting computer programs — each one a different and exciting assignment.

Also of great interest to Gerald when he joined Western were the Company's numerous management courses and paid Tuition Refund Plan. He knows, too, that he'll need to fill thousands of university credits within the next few years. And he's getting the solid experience needed to qualify.

Right now, Gerald is working as a verifier-sub-system for maintaining production control. It consists of seven distinct computer programs that operate as one routine which performs the function of tying together and verifying forecasted with actual customer orders.

If you, like Gerald Bourland, set the highest standards for yourself, enjoy a challenge, and have the qualifications we're looking for — let's talk! Opportunities for fast-moving careers exist now for liberal arts, physical science and business majors, as well as for electrical, mechanical and industrial engineers. For more detailed information, get your copy of the Western Electric Career Opportunities booklet from your Placement Officer. Or write Western Electric Company, Room 6405, 222 Broadway, New York 38, N. Y. And be sure to arrange for a personal interview when the Bell System recruiting team visits your campus.

Western Electric MANUFACTURING AND SUPPLY UNIT OF THE BELL SYSTEM

Principal manufacturing locations in 13 cities • Operating centers in many of these same cities plus 36 others throughout the U.S. Engineering Research Center, Princeton, N. J. • Telephone Corp., Skaneateles, N. Y. • Little Rock, Ark. • San Jose, 195 Broadway, New York

Negro College President 'Doc' Hanley Given Sports Illustrated Silver Anniversary All-American Award

"The Student Leaders don't give a damn what the public thinks of them." So stated President-elect Herman Long of Talladega College in Alabama at an informal panel discussion on Civil Rights held yesterday in the Union under the auspices of the Bowdoin Christian Association.

Present on the panel were Prof. Lawrence Hall, Mr. Long, and Mr. Allen of the History Department, who served as moderator.

Mr. Long opened the discussion with a brief series of remarks and stated that "the problem of all-time is the accessibility of public facilities" and that the imposition of pressures on private individuals to grant civil rights to a segment of the population is "not so serious as to impair the rights of individuals or to affect them to a great extent economically or otherwise."

Dr. Long affirmed that the problem before Congress is the degree to which the policy of civil rights will be uniform; the "most significant firm in the problem is that it is no longer public domain or no longer the preference of a segment of the community, but a political issue."

According to Mr. Long, "the further definition of these rights becomes important political issues because they have become public debate topics. This is both good and bad. It is good because it opens the issue to public debate; and bad because the uncertainty of the resolution is no longer dependent upon the disciplined decision of the court process."

In regard to college sanction of student demonstration Mr. Long stated that there is very little one can do, even as a college administrator; in the structure of the movement; "the best the college can do is to give advice to the students themselves so that they can decide what degree they want to enter the movement."

As for the moral justification of violence, he reaffirmed that "a man defending his person and his home is on a sound basis."

In regard to the image possessed by the Negro in public life, Mr. Long said, "I don't know what the public image is of the movement," but felt that the American public is inclined to look favorably upon it.

A question referred to Mr. Hall concerned what students can do in the field of civil rights. He suggested that they agitate for a seminar in this field, for there is always some minority of the students who feel "what is the use of having an idea if you don't do anything about it."

Mr. Hall lamented that it is also impossible to get a sufficient number of Negro students to pick up the standards of his university. To combat this, he proposed that there should be a foundation backed by government funds reaching down to the grade school level and which would give scholarship aid to promising students.

In answer to the question of whether direct action should be utilized to hasten negotiations, Prof. Hall answered that a show of violence is "well done" if it doesn't jeopardize results. The reason he gave for his statement was that the Negroes could wait for another century before being granted civil rights.

Professor Hall also remarked that he felt it ironic that the field in which the lead is being done in Southern universities is in the field of social sciences.

Mr. Long closed the discussion by criticizing the American press of emphasizing the violent aspects of the current rights struggle.

Display of "Distasteful" Sign Brings Unfavorable Response From President, Dean, Alumni

President Pete Seaver opened up this week's Student Council meeting with a report of unfavorable reaction on the part of the Alumni and President Coles over the "Bates Boys Suck . . . lollypops" sign at last Saturday's football game.

President Seaver called the sign "distasteful" and requested that many of the Alumni, congregating at the Alumni House after the game, were rather annoyed and embarrassed over the incident. President Seaver quoted one Alumnus as saying, "Who wants dates with jerks like these losers?"

Mr. Seaver then informed the Council that the Dean, "would like to see some action by the Student Judiciary Committee." A discussion on the matter ensued.

Jeff Lang of Beta considered the Dean's request for action as asking the Student Council to "draw a discretionary line as to what is morally acceptable." Bob Parquharan of Phi Delta Psi commented that the sign was in bad taste and emphasized that "we can't expect new rules if we continue to stonewall the old ones."

It was generally agreed upon that the type of display in question was distasteful and, according to Seaver, "not in line with student thinking." It was felt, however, that because of the general feeling at the game, and the seemingly sympathetic cheers of the crowd in the stands, the demonstrators were not aware, at the time, of any mis-deeds.

In view of this, the Student Council resolved that the sign and demonstration were in "poor taste" but "do not warrant Judiciary Committee action."

It was also voted to extend the Student Council's apologies to the President of Bates, who, with his wife, was the guest of President and Mrs. Coles at the game.

Colonel Merrick Discusses Draft In Chapel Talk

"The draft is primarily a stimulus for recruitment in the other services" said Lieut. Col. Paul B. Merrick, the Maine State Director of the Selective Service. Mr. Wilder first introduced Lieut. Col. Merrick as a Colby graduate and former officer in the United States Army, and in the Chemical Warfare Service.

In beginning his talk, "The Student and the Draft: An Up-to-Date Report," Lieut. Col. Merrick stated that the average person had little awareness of the draft and did not realize its full import until he was told to report for a physical exam; the Lieut. Colonel's object was to correct this situation. He also explained that a man's obligation is never completed, even though he may have completed active duty.

"For, according to the Constitution and shall provide for the common defense" incurs an inherited military obligation upon every adult male. This concept he said, was taken lightly in a world where formal education substitutes thinking for feeling, when no thinking is good without feeling; and where there is "the problem that those young enough to fight are not trained and those trained are too old."

Lieut. Col. Merrick warned the undergraduates that because the rejection rates on the physical exam and in the induction period were 6% and 10% respectively, the draft age is now 21 and could be 20 by next fall, and that the "quota is to be doubled because of lack of voluntary recruitment." In closing, he added that though there is a split between Mao and Khrushchev, they are "under the same dogma" and that "we can avert war by a show of force."

Bowdoin Placement Bureau To Receive Representatives From 100 Businesses

More than 100 business firms in the eastern states will send representatives to Bowdoin College's Placement Bureau during 1963-64 for employment interviews with members of the senior class according to Samuel A. Ladd, Jr. Director of the Bureau.

The Placement Bureau Director stated also that there will be additional career consultations for seniors with the representatives of a number of graduate schools, service and government agencies.

Many other companies and educational institutions unable to visit the campus will contact the Bureau by telephone or correspondence, listing their job requirements or career potentials, Mr. Ladd said.

The practices of the Bureau in preparing students for their job or career decisions includes a preliminary interview in which the Bureau learns the student's career plans, academic preparation, personal qualities, interests, and job objective. Mr. Ladd added, "Such pre-screening of candidates, he said, saves the time and efforts of both the students and the company or institutional representative, and can eliminate disappointment in the future that could result from a poor choice of job or place of graduate study by the student.

Seniors registering with the Bureau receive a packet of career placement aids. Mr. Ladd said. These include a copy of the "College Placement Annual for 1964," which contains a complete directory of the national companies conducting campus recruiting, copies of brochures, annual reports, placement publications including the handbook, "Placement Services at Bowdoin College," and other informational material.

One of Twenty-Five To Receive Recognition For Special Contributions

"Sports Illustrated" announced this week that Dr. Daniel F. Hanley, the college physician and a recognized authority of athletic injuries, will be awarded the "Sports Illustrated" 1963 Silver Anniversary All-American Award.

The prize goes to the men who've outstanding football players twenty-five years ago and who have since significantly contributed to their respective fields. Doctor Hanley is one of twenty-five who have been selected to receive the awards by a panel of judges who include the Army Commendation Medal, He governor of Pennsylvania, the diver with the U. S. Olympic team

rector of the National Science Foundation and the president of the United States Steel Corporation. Among the winners this year are such outstanding athletes of their day as Marshall Goldberg, Allie Dr. Hanley is also deservedly known Reynolds, Dave O'Brien, Bill Osmanski and such prominent figures as Emilio Daddario, Congressman from Hartford County, Herman Association and the editor of the "Journal." He has served as chief of staff of the Regional Memorial Hospital here in Brunswick.

Award Announced By SI The announcement of the award is in the current issue of "Sports Illustrated" but the awards will be publicly presented in the December 4th issue of the magazine. Dr. Hanley joins the student body and the faculty and administration in congratulating Dr. Hanley upon the receipt of the prize.

Episcopal Group Organizes; Gale Elected President

A meeting was held Sunday, October 20, to form the Bowdoin Episcopal Students' Association, an organization designed to promote critical and intelligent consideration of the Christian Faith as expressed and who have done as well if not by the Anglican Communion. At the better since. He named Coach Corey, the proposed constitution was accepted. Elected officers are: Bennie Karokas, Oakley Malandy Pres. Kenneth Gale, Vice-Pres. Peter Dane, Secretary William Lynch, Treasurer Peter Johnson, Mr. Gilman of the Mathematics Department is the faculty advisor. The next meeting will be Sunday, November 17, 8 p.m. in the Chase Room Chamber; the Rev. Theodore W. Lewis, chaplain to the University of Maine, will speak on The Church In The Academic Community.

Concert To Be Given Nov. 11 By Curtis String Quartet

The distinguished Curtis String Quartet, famous on both sides of the Atlantic for more than a quarter of a century, will give a concert here next Monday (Nov. 11). The performance will take place at 8:15 p.m. in Pickard Theater during World War II, receiving the Bronze Star and the Purple Heart.

The chamber music group will play "Quartet in F major, Opus 18, No. 1" by Beethoven; "Quartet No. 1" by Villa Lobos; and "Quartet in A minor, Opus 51, No. 2" by Brahms.

The musical group, one of the oldest quartets on record, has been performing for more than 38 years and has given well over 2000 concerts in this country and abroad. The Curtis Quartet first came to Bowdoin more than 30 years ago, brought here originally through the efforts of the late Mrs. Sue Winchell.

Broday as a youth studied with the noted Parlatan quartet leader, Lucien Capet, and with the great Eugene Ysaeye in Brussels, completing his training with the famed violinist, Krenn Zimbalist. After touring Europe, he returned to Bowdoin in 1923, dedicated their concert to her memory.

CURTIS QUARTET AT BOWDOIN - Members of Famed Curtis String Quartet discuss concert they will give at Bowdoin next Monday (Nov. 11). Performance, at 8:15 p.m., in Pickard Theater Memorial Hall, will be free to public. Artists are (left to right) Mehli Hecht, violinist; Jascha Broday, violinist; Orlando Cole, cellist; and Max Aronoff, violist. (Bowdoin College News Service Photo)

Notes And Comments

Not That Bad

By Jim Riley

The wind drove the rain in sheets across the field. The teams huddled in the driving rain, ran a play, re-huddled, and so forth, with the kind of grim determination that the day demanded.

The ball was wet, and Bowdoin fumbled it away twice during the game, even though the rain had all but stopped. The field was soggy, but no surface water showed, although the mud had traced the gridiron, the river that sometimes serves as Whittier Field's track, was running at high tide — six inches in some places.

It had turned colder by half-time, and there was an ominous cast to both the sky and the score. We were behind, and as the afternoon grew longer and deeper, it felt like snow.

Under the Whittier Field grandstand, people huddled together, as many I assumed under the dry shelf as possible. People were sitting in the aisles because there were no seats.

In the exposed reserve and student sections, not more than a hundred people sat under blankets and ponchos, on newspaper and cardboard, or stood leaning against the railing, too disenchanted with the weather and the water dripping from the bleacher seats to even think about sitting.

Because there was no half-time entertainment, not even the old-fashioned version that is the embarrassing offer of most home game half-times, and no hot dogs, and no coffee, and no real reason for anything through the water in front of the stands, most people stayed put.

Stayed put and stared at the students, alumni, and other fans who had come from Lewiston and points north and south for this key Bates-Bowdoin game.

They sat over on the far side of the field under the press box, and watched their team, made noise for their cheerleaders, and huddled together in the half-time drizzle. Their half of the score, if it were to be any portion, made the rain, the damp clothes, the absolute discomfort of the afternoon, almost worth it.

No one is sure who really noticed it first, but from the Bowdoin stands, some guys, in a pleading, almost desperate attempt to breach the gap between what a home football game should be like, and what this one in reality was, made a sign. A big banner, made out of bed sheets. Somebody else grabbed the banner and began to parade it across the spongy turf. As it happens, there was another banner, and this one followed its mate toward the Bates side of the field.

A bunch of Bates boys poured, in both senses of the word, out of the stands and rushed the banner bearers, whose own host was snarling along behind, gathering in free agents in fast as they could slip across the line, heading toward the goal.

The incident was mentioned in Sunday's paper, and the text of the banners was misquoted. According to the Portland Sunday Telegram, the banners charged the Bates boys with being hypocrites, and the Bates girls with wearing underwear. Of course the veracity of these observations is pretty easy to accept, and some uninformed readers from Portland or somewhere, who happened to read about a slight scuffle up at Brunswick over the public display of two innocuous truths, might be puzzled.

Of course, this is not what the banners said. But, considering the whole situation, and the harm it did, it might have been. In fact, half-time, the banners from the final score, and certain key plays, the best part of weather gear down at Whittier Field.

Now, someone has decided to take offense at the stuff scrawled on the game for the several hundred people huddled together in their foul-the-bed sheets, and the guy, or guys who did it may have to be punished, by one or another of the school's punitive organs.

It can only be hoped that whenever these guys are brought to trial, that the incident be placed in context: that the crime be viewed in the light and intent with which it was committed; and that the punishment be as innocuous, as open to interpretation, as the message on the banner under discussion.

Indeed, if it be as obvious a meaning as notes claim, if it be as offensive as all that, might not we Bowdoin fans also be offended at the questionable cheers issuing forth from the Bates side of the field. Perhaps we are not so sensitive, however, to sexual connotations, or perhaps we are not inclined to make issue of it. Anyway, let the Bates fans keep their cheers to themselves. As for the guys, let's hope that the lesson they learn, and the ONLY one, is that some people faint at the sight of blood, some people can hear ultra-high frequency sounds, and some people can't differentiate between mild ribaldry and smut, regardless of the time or place.

The Carnegie Corporation of New York announced Sunday night a \$100,000 grant to Bowdoin in support of the College's Senior Center Program. Expressing the gratitude of the College's Governing Boards and Faculty, to the Carnegie Corporation, President James S. Cohen of Bowdoin said:

"In addition to the significant material assistance which this grant will provide, it is very encouraging to have the support and interest of the Carnegie Corporation in this pioneering educational program which Bowdoin is undertaking."

The Carnegie Corporation, one of America's largest philanthropic foundations, was created by Andrew Carnegie in 1911 for the advancement and diffusion of knowledge and understanding.

Some of the victors to the Senior Center will live in apartments in the Center, dine with undergraduates and participate in the Center's activities for varying periods of time as Fellowship holders.

The Corporation noted that the Bowdoin program's innovations have been proposed as a method of providing greater intellectual challenges for college seniors who, in the view of many educators, are becoming increasingly mature and sophisticated.

At Bowdoin, he was captain of the varsity football team in 1911. He was a Past President of the Bowdoin Club of Boston, a Director of Bowdoin's Alumni Fund in 1908-42 and served as a member of the Alumni Council. He was a member of Zeta Psi Fraternity.

Professor Hurley, a member and President of Bowdoin's Class of 1912, had been on the faculty of the Suffolk University Law School in Boston for many years until his death in December, 1908.

After receiving his law degree from Suffolk in 1910, he served as Assistant United States Attorney for four years, as Assistant Attorney General of Massachusetts for two years, and as a member of the Massachusetts Appellate Tax Board for six years.

In 1914, Professor Hurley was awarded a Carnegie Medal for heroism for his attempt to save a man from being electrocuted.

THE BELL TELEPHONE COMPANIES SALUTE: PETE BERTSCHMANN

In the summer of 1961, Pete Bertschmann (B.A., 1956) completed his Navy tour and joined New England Telephone's Boston Sales Department. There, he helped business customers solve their communications problems. So capably, in fact, that when ten applicants were screened for a supervisory job, Pete won the promotion.

In his new capacity Pete handled special sales studies, wrote speeches, and, among other achievements, contributed some valuable suggestions for improving Mobile Phone Service. All this brought promotion to his current position as a supervisor of the Telephone Sales Program with responsibility for training new employees.

Pete Bertschmann, like many young men, is impatient to make things happen for his company and himself. There are few places where such restlessness is more welcomed or rewarded than in the fast-growing telephone business.

Professor Thompson Weighs Inevitable Human Dishonesty

Know Your Bowdoin The Pines

"When you are unable to prevent others from behaving dishonestly, you are not a moralist, you are a realist. . . . What can he do? Can he say, 'Hello or nothing. In applying this question and answer to the specific, the lack of integrity at Bowdoin, Thompson states that whatever he does, either more severe penalties on the one hand, or the honor system on the other, the original problem may be reduced but certainly not eliminated."

In pressuring his own personal answer to the question, Thompson mentioned a novel published in 1964, Not as a Stranger. The novel concerns a young Doctor Leona Marsh, who while studying at medical school and especially later on in life, is confronted with the problem of how to respond to the lack of integrity which he sees in his profession. Marsh is troubled by the dishonesty and incompetence of his associates and falls when he takes action in an attempt to correct the situation. Eventually, though, Marsh is influenced by an older, more experienced doctor's advice. That is, to ignore it as much as you can the deficiencies of your colleagues and let your career as if you were the only doctor, or professional in the world. What then can one do? What will say to his nature against those who persist in evaluating their role. To this, Professor Thompson's remarks offer as the original question above, a response that may be of work to the individual who can to some degree be "not as a stranger" to the ways of his society.

Using as a point of departure the situation in the world, as the situation in the world at large, Thompson then went on to admit the inevitable dishonesty that will always be a part of human nature. Realizing that, of course, a change in human beings would be the ideal but impossible solution to the problem, he refrained from making any recommendation to the individual who can to some degree be "not as a stranger" to the ways of his society.

No Policy Change; Key to Racist Attitude

"This is a real and fundamental revolution whose main aspects are in the realm of expectation and hope more than anything else," said Dr. Herman H. Long, President-elect of Tuskegee College in Alabama as he spoke of the racial crisis in Chapel Thursday morning.

Presently, Dr. Long is the Director of Race Relations in the Federal Bureau of Investigation, an institution founded by the Congress in 1868 as part of the Reconstruction program. The founders wanted to help orient the freedmen of the slavery era into a system where they were able to use their rights and opportunities that they had so long deserved. Dr. Long said that Fisk University has carried on this tradition by being one of the "seedbeds" of this "New Revolution."

In defining the nature of the racial crisis before us, Dr. Long went into the history of segregation in America. He stated that since 1883 the institution of segregation was started on the theory that equality could be maintained between the white and the Negro even though they would have separate experiences and expectations. Dr. Long declared that "America is definitely racist because since 1883 there has not been one major advance in public policy on this issue." He said that it was not until 1964 that the Supreme Court made a major clarification of public policy declaring that any state action on the principal of race is in violation of the Fourteenth Amendment.

Dr. Long felt that the United States has nothing to be proud of in this issue. He affirmed that: "If we as a nation were to continue to live as a society which ignores the rights of a citizen because of race, we are no better than the Union of South Africa."

Dr. Long felt that America will have a difficult time of bridging this racial gap because the American public has been "taught to think racist" by propaganda and warped science on behalf of maintaining racial stereotypes. He said that one of the main reasons for this was the warped definitions of civil rights that have emerged on the American scene. He said that the South does not think of civil rights, but of "White Rights." He held that Southerners feel that the Courts cannot intrude upon the special domain of "White Rights."

"Here," stated Long, "lies the basic nature of the problem."

Dr. Long emphasized that the problem is further compounded by the rise of expectation among the young Negroes who no longer feel the traditional restraint of their parents. Thus the old idea of racial etiquette has been thrown out, Long said that "The young Negro no longer holds back, but cries out 'We believe that we are the gods of the earth and no one can tell us any differently.'"

Dr. Long felt that there is hope because the expectations and demands of the Negro are "Real and important." The problem will be resolved, he felt, "When men begin to treat each other with the same expectation that they have for themselves, no matter of race, color, or creed. We must communicate our humanity, the common element of us all."

Note: This is the first of a series on the history of various aspects of the campus. Unfortunately, our historian was unable to discover any references, either in the Library or elsewhere, which detailed the past of these worthy trees. Thus we of the ORIENT feel we are doing the college a service in printing this version of the History of the Pines — E.A.

The Bowdoin Pines were founded in 1904 by Eric Lefson, famed Viking polar explorer, who mistook the tallest of them for the North Pole. The story was understandable enough considering the fact that Eric's store of grape juice had fermented somewhat on the long voyage over. (Actually, this is not at all extraordinary; many winter visitors in recent years have made the same observation.) Anyway, Eric promptly steered a six-sag course home to claim his new-found prize for Hans Peter Kendrick, who was currently his king. However, three days out Eric's ship unfortunately sank, and the only record we have of his visit is several discarded grape juice barrels, which are currently preserved in the College museum of Arctic exploration.

The next mention of the Pines comes from an old English Manuscript which reports that in the year 1623 one James Stacy Bradford (2nd cousin to William) petitioned King James for a charter to establish a monastery situated in a small grove of pines on the coast of what is now called Massachusetts, it being determined that this place is most safe from the evil wiles of women. So it was that a sturdy band of monks arrived at Merpoint on November 26, 1623, the first inhabitants to tarry beneath the pines. They left for England the following day.

The pines fared well for the next hundred years or so, even though occasionally threatened by the procurers for the British navy who wished to turn them into masts for His Majesty's frigates. These individuals were successfully held off, however, by the Buildings and Grounds crew, who must be given the credit for their present good condition.

The tract of land containing the stately trees finally fell into the hands of one James Bowdoin, then governor of Mass. Around April 15 of 1794 this individual, faced with the prospect of entering a higher tax bracket, established the trees as a college and claimed the resultant deduction, thus starting a tradition which has continued to the present day.

Shortly thereafter the Board of Governors of the college, noting that the price of pine was on the increase, voted to buy more pines on campus and use the resulting funds to construct additional dormitories. Fortunately, the current post laureate of the college, Oliver Wendell Snerd, sprang to the coloniers' defense with a poem entitled "Ay, The Tree Tailored 'Needles Down.'" This poem did, in fact, manage to secure a reprieve for the embattled trees, and for his efforts Snerd was voted by his class "poet most likely to succeed." (Snerd was a member of the class of 1863.)

By the 1870's the college was well entrenched and so were the pines. Probably the only serious threat that remained to their safety was the length of the Maine winter. Though the pines were suited to the weather, the danger arose from the undergraduates who, when wood for their room fireplaces ran low, were not above poaching from what they considered their private woodpile. Even this threat was removed, however, by the installation of a centralized heating plant shortly after the turn of the century.

Thus the pines have survived and prospered since that day almost 1600 years ago when Eric and his company staggered upon them, proud, street, the stately symbols of Bowdoin College.

Polar Bearings By Rick Andria and George Bennett

Although tomorrow's weather is still a question, University of Maine officials are quite emphatic in predicting a sell-out crowd of 10,000 fans.

Maine will have almost a 200 pound advantage in the line, a line which is one of the heaviest in the East between the tackles.

In describing the Polar Bears, Maine's coach felt that "Bowdoin will be one of the best balanced teams we've faced this year."

Capturing the State title will be a formidable task, but we feel the Polar Bears are capable of upsetting this Maine team.

From 71 nominations across the United States, the college physician Dr. Daniel F. Hanley, has been selected as one of 25 to receive the SPORTS ILLUSTRATED SILVER ANNIVERSARY ALL-AMERICAN AWARD.

Dr. Hanley has achieved heights in many areas. He has become an authority on athletic injuries, has travelled with our Olympic team, and is head of the Maine Medical Association.

We congratulate you, Dr. Hanley, on your new honor. Also we thank you for your faithful attention to the average student amid growing responsibilities.

Bears Trip; Bates; Bates Over Bears In Driving Rain In New Schedule Changes Union and Tufts Figure

Bears Trip

There was a muddy mess around the spiny gridiron last Saturday on which the Polar Bear variety eleven squeaked by the screaming Bobcats of Bates.

The Bobcats from Lewiston, fresh from a 49-0 trouncing at the hands of the Orono crowd, certainly looked tougher than the average high school team in the opening one minute and twenty seconds of last week's tilt.

Car returned the Polar Bears opening kickoff to his forty-nine yard line. John Williams could only manage one yard on the next play.

Thus the Car-Paris seven pointer stood at the games only score at intermission.

With three minutes and fifty-two seconds in the game the Polar Bear took over on their own thirty-two.

On a corner kick by Keller. At this point also, halfback Sandy Doig was injured while contending for a head ball and had to be sidelined for the remainder of the game.

In the second quarter John-Paul N'Joyas tallied for Colby on a rebound from the crossbar after Steve Siegel had been drawn out of the field.

The weather conditions in Waterville were far from perfect as the two co-defending state champions battled in a constant rain on Colby's freshman field.

The Polar Bears dominated the play with an effective line that kept the ball in the Mule's territory, but the forward line could not get off a decent shot.

A constant downpour also hindered the individual skills in the game as well as the defense began.

Bates

On Saturday, November 2, the Bowdoin Harries ran ground against a powerful Bates team.

With third and twenty and about two minutes remaining Harrington sent MacAllen to the far left corner of the end zone.

Final score Bowdoin 14, Bates 7.

GAME STATISTICS

Table with columns: Bowdoin, Bates. Rows: First Downs, Rushing Yards, Passing Yards, Total Yards, etc.

Colby Dumps Bowdoin Booters

On a corner kick by Keller. At this point also, halfback Sandy Doig was injured while contending for a head ball and had to be sidelined for the remainder of the game.

On the half or the two over time periods.

Lambert Poll Bowdoin College is in ninth place in the latest balloting for the annual Lambert Cup, symbol of Eastern small college football supremacy.

Bowdoin College announced today that it will play a football game with Union College in 1964 and will play Tufts, its oldest gridiron rival, as its season-ending contest in November of 1964 and 1967.

The game with Union, a liberal arts college in Schenectady, N. Y. will come Nov. 6, 1963, and will be played at Brunswick.

The 1963 schedule, which includes seven games at present, consists of Sept. 18 Worcester Polytechnic, Sept. 25 Open, Oct. 2 Wesleyan, Oct. 9 at Amherst, Oct. 15 at Williams, Oct. 23 Colby, Oct. 30 Bates, and Nov. 6 Union.

The 1964 schedule, which includes eight games, starting with a Sept. 18 home contest against Worcester Polytechnic Institute. The rest of next fall's slate includes Sept. 26 Tufts, Oct. 3 at Wesleyan, Oct. 10 Amherst, Oct. 17 Williams, Oct. 24 at Colby, Oct. 31 at Bates, and Nov. 7 Maine.

The 1965 schedule, which includes seven games at present, consists of Sept. 18 Worcester Polytechnic, Sept. 25 Open, Oct. 2 Wesleyan, Oct. 9 at Amherst, Oct. 15 at Williams, Oct. 23 Colby, Oct. 30 Bates, and Nov. 6 Union.

Never too soon to start thinking about the skiing season, the following list is offered so that competitive skiers and spectators alike may plan ahead.

Jan. 4-5 - 1st Annual Franconia Nordic Invitational, Cannon Mt. Jan. 11 - Snow Crest 1st Annual Jr. G. Slalom, Snow Crest.

Jan. 11-12 - Hanover Invitational X-O Relay and Jumping, Dartmouth Skiway. Jan. 19 - Winnepesaukee Jr. Slalom, Gunstock.

Jan. 26 - Snow Chasers Class D, C, Vel. Mt. Whittier. Jan. 26 - Franconia Junior Giant Slalom, Cannon Mt.

Bates Over Bears

On Saturday, November 2, the Bowdoin Harries ran ground against a powerful Bates team.

With third and twenty and about two minutes remaining Harrington sent MacAllen to the far left corner of the end zone.

Final score Bowdoin 14, Bates 7.

Student Council Committee Report Cites Shortcomings Of Orientation Program

. . . Air-Tight Defense!

"Removal Of Artificial Barriers" Fails To Achieve Desired Goals

COMPLETE TO DRIGOTARI! — In spite of all rain, mud, and adverse predictions, Frank Drigotar is pictured here gathering in the "long horn" from Paul Soale that carried the ball to the Maine 7, setting up the game's lone score on the next play. The Polar Bears took the contest, 7-0, to take the State Trophy. See Story on Sports Page. (Photo by Dick Mougallian)

... AND COOPER IS STOPPED BY THE CENTER OF THE BOWDOIN LINE. — So repeated the radio announcers as "the center," plus the rest of the squad held Maine to less than 170 yards in the Championship game. Here Bob Hoar (25) and Bill Minnie (73) pull down Maine's Cooper, as Dave Andrews prepares to add his weight to the pile. No gain. (Photo by Dick Mougallian)

Foreign Students Give Varied Views On Senator Smith's Chances In '64

With future Presidential candidates such as Barry Goldwater and Nelson Rockefeller gaining the spotlight in the news, a new element is seen entering the race, specifically a female in the form of Maine's Senator Margaret Chase Smith.

"Since most Americans don't know what to think about Miss Smith's intentions of entering the New Hampshire primaries early next year, the Orient thought that it might be interesting to get the opinion of some of our foreign students.

"Not A Bad Idea, . . ." Carlos Somani of Argentina thinks that a woman in the Vice Presidency or even Presidency of the United States is "not a bad idea." He says that the social status of the American and Argentine woman is very similar. They both have the vote, actively participate in politics, are strong career women, and have a great deal of control in their homes because the husband in both countries earns the money, but the woman spends it. To the question as to whether or not he thought a woman could handle herself in foreign affairs, Somani answered, "A woman can do anything a man can do, and she can do anything with a man, even Khrushchev or de Gaulle." But for some reason or another, Somani stated: "an ambassador should NEVER be a woman!"

Carlos Ramos of Costa Rica thought much upon the same lines as Somani. However he felt that the Costa Rican woman is hindered in her fight for equality by the Roman Catholic Church. Said Ramos, "Her job is to take care of the house and children, although a woman is mainly associated with being a school teacher." Carlos felt the woman does have a chance because "she has possibilities as a President or Vice President. She might as well try, although I don't identify that position with a woman." As to whether or not the position of the woman in Costa Rica will improve, Ramos stated: "She does have the vote and has a chance to pull ahead because the Roman Church is falling behind. The middle class in Costa Rica has a broad base and the Church is more suited to the lower classes." Talking about the United States Presidency again, Ramos dryly supplied, "I suppose that if a woman were elected, we men would get used to it after a while."

" . . . She Is A Republican" Arnie Sorenson of Norway was very much for the woman in politics. He stated that women already hold fifteen seats in the Norwegian Parliament. Said Sorenson: "I can't see any reasons why there should not be a woman Vice President or President if she meets the qualifications. But as to Margaret Chase Smith, I don't like her personally. For one she is a Republican, that's not enough right there. Norway is a Socialist country and the comparable thing to our system is the Democratic Party. The Democrats are much more realistic than the Republicans and especially the Conservatives like Goldwater who go too far behind their times." Although he might like to see a woman President in the United States, Sorenson doubts that there is much of a possibility of this happening for a long time.

" . . . Not For Women" Daniel Nerad of West Germany was quite frank about his opinion of the woman in politics. He stated, "In the old German tradition of

Strong Vocational Tests U. S. Chamber Of Commerce Given Week Of Nov. 17th Hosts College Symposium

The Chamber of Commerce of the United States, in cooperation with the Maine State Chamber of Commerce, has invited thirty-one students and two faculty members to participate in a College-Business Symposium. Along with students from Bates, Colby, Naason, and the University of Maine, they will meet with businessmen from the national Chamber of Commerce. This meeting, to be held on November 20, at the Eastland Motor Hotel in Portland, will be the first to be conducted in Maine.

According to the President of the national Chamber of Commerce, and outstanding business executives. The purpose, he stated, is:

1. To explore present economic conditions, problems, and proposed solutions;
2. To give the students an opportunity to learn the views of businessmen on economic issues, and the reasoning back of these views; and
3. To strengthen the students' faith in the American competitive enterprise system.

The students chosen by the College were required to fill out a questionnaire on which they were requested to write down the three current economic problems to which they would give the highest priority; these three would be discussed at the symposium.

The students selected by the College were: Richard E. Black, Walter R. Christie, Richard D. Cobb, David M. Cohen, John A. Dolg, George C. Elmdorf, Jr., William F. Farley, David W. Pitt, Donald A. (Continued on Page 3)

"Seven Freshmen Pledge Kings at one time or another during the present (Orientation) program said that they felt a 'stronger' program would make them feel more loyalty toward their houses."

This statement from the Student Council Committee on Rushing College, which, in turn, stems from the present Orientation program — a lack of pressure.

The report, which recommends the return of signs and banners, states that, based on the results of a poll of this year's Pledge Kings and the personal opinions of freshmen and upperclassmen expressed to the members of the committee, "there were accomplishments in this year's program"; but there were instances when the program "fell far short." While some can be attributed to poor attitude on the part of both the upper-classmen and the freshmen, some of these shortcomings are attributable to faults in the campus program.

Less Knowledge Needed

Primary among these shortcomings, according to the report, was the decreased demand placed on the Freshman in regard to his knowledge of his house and the College. The report feels that less than satisfactory results in these areas was often received. The report also goes on to conclude that the houses with the "stricter" programs achieved a greater degree of "leveling" among the freshmen in regard to their self-importance and "realization that . . . there are others who are better . . ."

The report cites the failure of the "removal of artificial barriers" to hasten the Freshman's assimilation into the fraternity, it attributes this failure to the lack of interest by upper-classmen in the Freshman and the use of "apologetic criticism" rather than an active interest "in finding out what type of person the Freshman was, and how interested by seemed in joining the house."

The committee further declared that full acceptance of the Freshman did not occur after initiation, but that "the barriers evident . . . against a newcomer, until a group feels to know and have confidence in him" remained present.

No House Loyalty?

A companion problem, the report feels, was the failure of the houses to instill loyalty and respect for the (Continued on page 3)

Former CIA Head To Present Lecture In Moulton Union

Allen W. Dulles, who headed the U. S. Central Intelligence Agency for eight years, will deliver a public lecture at Bowdoin next Wednesday (Nov. 20). Mr. Dulles will speak on "The Role of Intelligence in Policy" in the Moulton Union Lounge at 8:15 p.m. The public is cordially invited to attend the lecture without charge.

Mr. Dulles, a brother of the late Secretary of State John Foster Dulles, was Deputy Director of the CIA from 1961 to 1963 and Director of the agency from 1963 until he resigned in 1961.

A member of the New York law firm of Sullivan and Cromwell, Mr. Dulles was graduated from Princeton and the University of Pennsylvania. He also received his M.A. He was awarded his LL.B. degree at George Washington University and holds honorary degrees from Brown, Temple, Columbia, Princeton and Georgetown Washington. He is a member of Phi Beta Kappa.

After serving as a teacher in India for a year, Mr. Dulles entered the U. S. Diplomatic Service in 1916. His distinguished career took him to Vienna, Austria; Bern, Switzerland; Berlin, Germany; and Paris, France, as a member of the American Commission to Negotiate Peace in 1919.

From 1929 to 1936 he was Chief of the U. S. State Department's Division of Near Eastern Affairs and served as an American delegate to numerous international conferences. During World War II he served with the Office of Strategic Services.

(Continued on page 3)

Latin American Labor Expert To Speak For Political Forum

Sidney Lens, author, traveler, of the Pair Play for Cuba Committee and consequently was invited to testify before the Senate Judiciary Sub-Committee. This occasion was unsubstantiated.

In addition he has long been considered an authority on the American Labor movement. His writings on this phase of American life, articulately reveal his primary contention that viable social and economic progress must begin from the bottom-up. To mention a few of his works, he has written: "The Counterfeit Revolution (1953); A World Revolution (1956); and The Crisis of American Labor (1959)."

Coming to Bowdoin through the Awards Banquet-nest Thursday (Nov. 14) at 6:15 p.m. in the Moulton Union Lounge.

Other highlights of the program will include the award of four individual player trophies, and the presentation of four tickets to this year's Army-Navy football game.

The principal speaker will be Professor Herbert Ross, Brown, Chairman of the Department of English. The master of ceremonies will be Dr. Daniel F. Hanley.

Malcolm E. Morall, Director of Athletics, said other speakers will include Nels Corey, head coach of football; Charlie Bull, coach of soccer; and Frank Galasanski, cross country coach.

The "Lady" Is Set To Go

New Record Cut By Music Groups

A new Christmas record entitled "Novell," by two of Bowdoin's musical groups, the Chapel Choir and the Middletempers, has been issued.

The long-playing record, pressed by Cook Laboratories, includes traditional Christmas carols and English and American folk melodies sung by the Choir. It also contains five Appalachian Carols, in which the Choir is joined by the Middletempers, and a reading of the biblical Christmas Story by Professor Albert P. Daggett of Bowdoin.

Solo parts in the Appalachian Carols are sung by Anthony F. Antolini '63 of New York City. The five songs in the group were arranged by Stephen E. Hays of Bowdoin's Class of 1961.

The \$4.95 record is available at the College Bookstore, in Moulton Union, and at the Harvey Dow Gibson Hall of Music, on the campus, or may be obtained by mail addressed to Gibson Hall.

Fall Sports Banquet To Be Held Thurs.; Capt's. Named Then

New Bowdoin football, soccer and cross country captains will be announced at the annual Fall Sports Awards Banquet-nest Thursday (Nov. 21) at 6:15 p.m. in the Moulton Union Lounge.

Other highlights of the program will include the award of four individual player trophies, and the presentation of four tickets to this year's Army-Navy football game.

The principal speaker will be Professor Herbert Ross, Brown, Chairman of the Department of English. The master of ceremonies will be Dr. Daniel F. Hanley.

Malcolm E. Morall, Director of Athletics, said other speakers will include Nels Corey, head coach of football; Charlie Bull, coach of soccer; and Frank Galasanski, cross country coach.

Bowl Team Readies For Debate

MEET THE COLLEGE BOWL TEAM — Above are the men who will represent Bowdoin in the College Bowl December 5th. From left to right they are: Mr. Daniel Chadler, coach; Mike Bennett '67; Ken Smith '64 (and captain of the group); Jim Farnham '66; and Chuck Mills '64. (College News Service Photo)

Tickets Available

Pete Bever is holding a limited number of tickets for the Dec. 5th appearance of Bowdoin in NBC's College Bowl. If you or your family plans to see the show at the stadium, contact Pete. Tickets will be awarded on a first-come, first-served basis. The only stipulation is that the tickets be used.

deep rooted economic and social sickness in countries like Haiti, Colombia, and Guatemala.

In a recent article in the *Commonweal*, Mr. Lens maintains that Simon Bolivar's dream of instituting a democratic United States of Latin America was unfulfilled because of the same social ills that hinder progress today. In this article entitled "Building on Gettysburg," he says of progress: "It is hemmed in by social terror, judicial inequality, corruption, and the Spanish and Portuguese past." In short, attempting to foster democratic regimes and an equitable distribution of wealth happens for a long time.

" . . . Not For Women" Mr. Lens' interest and work in the Latin American sphere have by no means gone unnoticed. In fact, he is accused of being a member

Open Letter Criticizes Stalling On Policy Of Chapel Attendance

It is now more than five months since the A.R.P. chapel petition was endorsed by three-fourths of the fraternities on the campus. In this period of time there have been two meetings of the Faculty Committee on Chapel...

The system of enforcement only encourages undergraduates to "see what they can get away with" in Chapel attendance and makes truancy a desirable undertaking. The Dean is put in the unfortunate position of having to sign a few flagrant citations and, in effect, ignore the rest.

The answer, it would seem, is 1) fewer and 2) non-compulsory Chapels some of which would be facultative and others wholly secular. The former would attract a large percentage of spectators and the latter a smaller but more highly motivated percentage of the entire student body.

It would seem, therefore, that compulsory Chapel serves no purpose. It may, however, be incorrect. The point of view expressed here is open to criticism and may be directed at the proposed facultative Chapel.

Limited Student Rights Undermine Social Life

Teachers could be fined for 'cutting' a lecture, for lateness, for attracting too small an audience, for omissions, and for avoiding the elucidation of difficult subjects.

A description of Bowdoin? Obviously not. Ronald Knight (Twenty Centuries of Education) was commenting on the range of student authority and autonomy of a medieval university after a student organization had been formed in 1245.

Laella Cole (A History of Education) went on to elaborate the system existing in Italy in the 1700's. "The teachers had jurisdiction over whatever affected their work, and the students had similar autonomy over whatever affected them."

However, many ideas in the defense of the argument for increased student autonomy can be presented. The most obvious one is - if Amherst, Wesleyan and Williams can have modern social regulations, why can't Bowdoin?

Actually, we are not really advocating the cutting of any classes in the interest of social activities; the point brought out by this anecdote is that the college should allow, (and, in fact, should encourage), some system whereby the student can relax from his studies.

The issue is compulsory chapel. The issue is compulsory chapel. The issue is compulsory chapel. The issue is compulsory chapel.

- 1. Chapel is a valuable institution as a traditional assembly of Bowdoin students which helps to promote a spirit of college unity. 2. Chapel provides an opportunity for "non-sectarian" religious expression.

Arguments against are these: 1. Traditions are not good by themselves. Perhaps chapel as an assembly of Bowdoin students has a positive value, but certainly compulsory attendance says little for college unity or "esprit de corps".

Prof's Promoted Nine members of the Faculty have been promoted by action of the Governing Board. Related to the rank of full Professor was Richard C. Chace, A.M., Associate Professor of Mathematics.

Notes And Comments

The Week That Was

All that rain may have had something to do with it. As most people agreed, it could have been snow, sometimes rain turns to snow. And so people were wondering if it would this time, if it would turn to snow at some point of the eight-plus days of rain just past.

And so the rain, and the possibility that it might, at any moment turn to snow, had people chasing around for weather forecasts, scanning the uniformly grey sky from day to day, trying to make the weather do something else, anything else, even snow.

The first real snowstorm of the year, not the wet-bottom here today-gone-tomorrow stuff that we had a couple of weeks ago, is pretty nice to watch, and nicer to think about. And that's what some guys were doing last week, thinking about the rain, wishing it were snow.

They talk about symptoms for things, well last week the symptoms of ski fever showed in a hundred rooms, or a hundred faces as they watched the sky and hoped for snow.

They showed in dorm rooms most. Skis were trundled up from basements, were pulled out from closets to be wiped off, worried over. Bindings were checked, leas on boots replaced, poles checked, just in case the rain should somehow turn to snow.

It didn't snow, but as fall rapidly lengthens into winter, skiers get more edgy, more hopeful with every forecast. It was all that rain that started it.

Within the past couple of weeks, the Cumberland Theater has offered some fine movies to the community at large. With

the view that going to the movies is one of very few ways to relax around here, the improved calibre of programming at the Cumberland is appreciated.

Two of the best pictures classes as "current cinema" are:

This Sporting Life, a sandpaper drama about professional rugby and its related kinks; and Sparrows Can't Sing, a truly funny picture concerning the marital ups and downs of a guy named Charlie. Both pictures were, worth seeing, and now the Cumberland has scheduled another fine picture for next week: The Trial, an adaptation of Franz Kafka's novel of frustration, horror and love—in a baroque cloudland. Well worth the effort it takes to walk down town. Also, for people who like regular movies, Ed Burton and Richard Taylor will be around for a while before The Trial.

One more thing about entertainment. As it stands now, the school only provides one television set for student use, two if you count the ETV set in the small dining room of the union. Add to these two, 22 more sets, one in each of the fraternity houses, and that makes 24 sets for over eight hundred guys, or approximately 57 1/2 men per set. If the industry ever finds its way out of the vast wasteland, then at certain times during the week, the two guys out of a hundred who are already TV addicts are going to have their rights abused by 56 1/2 guys barging in to watch a special program, the same thing that happens in the TV room in the union, but on a much grander scale. How 'bout a few more television sets, then if the Beta petition is as doomed as some think it is, at least there'll always be the good old TV set.

Bowdoin Bows To Its Ball Team

Bowdoin College debaters have returned from a tournament at Phillips, N. Y., with a 90-50 record. A total of 46 colleges participated in the tourney over the weekend at Queens College. The four-man Bowdoin team was accompanied by Professor Albert R. Thayer, faculty advisor to the College Debate Council, who served as a critic-judge. The Bowdoin affirmative team of Raymond R. Lapine '53 and J. Peter Hirschman '54 defeated the University of Buffalo and New York University at Brockport. Lapine and Hirschman lost to St. John Fisher and Iona. Philip H. Hansen, III '54 and James E. Blinford '55 were Bowdoin's negative team, defeated Colby and Providence, and lost to Hunter and Boston College. The debate subject was the national collegiate topic for the year: "Resolved, that the Federal Government should provide educational opportunities for qualified high school graduates."

Poet Seferis Wins Coveted Nobel Prize

The award of the Nobel Prize to Greek poet George Seferis was especially gratifying to the Bowdoin community who shared an intimate view of Seferis' work from the lectures of Ed Warner, leading British poet, novelist and classicist.

Mr. Warner, himself the holder of a decoration from the King of Greece for his writings on that nation, went deeply into Seferis' poetry in public lectures at Bowdoin as "Visiting Lecturer under the Tallman Foundation during the 1952-53 academic year.

Mr. Warner, more than any other, was responsible for bringing the Greek poet's work to the attention of the English-speaking world.

Mr. Warner, who became acquainted with Seferis in Greece in 1949, first translated the latter's poetry into English in a volume titled "Poems." The British author, Seferis is "in the modern stream of poetry," yet soaked in the Greek tradition, and termed him "one of the world's leading poets."

"Pericles the Athenian," Mr. Warner's latest book, was published in January. His two-volume biographical novel of Julius Caesar, praised by critics in this country and abroad, was published in 1952 and 1953. The author is widely known for his other novels, poetry and translations of the classical Greek works. He will spend the current academic year as Visiting Professor of English at the University of Connecticut.

Chairman Putnam Speaks On Recent Orientation Program

Steve Putnam, '55, rekindled the controversy over the Orientation Program in his speech Thursday at Chapel.

According to Putnam, a proper orientation program would have two main objectives. First, under the ideal program, freshmen would learn about their college without threat of mental harassment. Second, freshmen would come to realize that they were at college and were not high school boys. With this in mind, Putnam evaluated the 1955 Program, backing up his own opinions with the recent report from the Student Council Orientation Committee. From the report, he cited in particular the results of a questionnaire over the Orientation Program in his speech Thursday at Chapel.

Putnam found that the 1955 Program was successful in fulfilling the first objective. Eleven out of the twelve pledge kings, he reported, had indicated that their time spent in fraternity affairs had been worthwhile.

He found the Program to be lacking, however, in meeting the second objective. A realization by freshmen of their own limitations, a realization that is necessary before one can say that a freshman has found his proper place in college, was, according to Putnam, not a part of Orientation this year. Ten out of twelve cases, he reported, were cited where Putnam believed that members of their pledge class had not achieved this second objective. That upperclassmen would agree, was also noted.

A speech by Robert Farquharson in Chapel October 17, for the B.C.A. was recalled by Putnam. Farquharson had questioned legislation to set a standard pattern for orientation would work for 12 different fraternities on the campus. Putnam consequently suggested that artificial barriers of all kinds be eliminated by a mature house orientation committee, not unduly hampered by campus-wide restrictions. He maintained that there is at first a real natural barrier between the freshmen and the house members, all of whom were accepted into the group over a period of time. Freshmen, by showing the confidence and friendship of upperclassmen are, in time, also quickly accepted. Such a device as

Know Your Bowdoin Searles Science Building

The idea of the Searles' Science Building was first concocted in 1892. Mr. Edward F. Searles had just inherited a fortune upon the death of his recent wife. Relatives to Searles' wife tried to break the will, but General Thomas H. Hubbard, his attorney, managed to save the estate. When Searles asked him what he wanted as compensation, he replied, "a science building for Bowdoin College." "But I have no connection with Bowdoin College," said Mr. Searles. "What reason is there for my doing this?" "Oh, give it in memory of your wife," replied the General. So on June 2, 1892 the Bonds of Trustees and Overseers of Bowdoin College received a letter from Hubbard: Gentlemen, — I am authorized to offer to Bowdoin College, in the name of the late Mrs. Mary F. Searles, funds requisite for the construction of a building for scientific departments... to cost approximately sixty thousand dollars. This was the beginning of the 172 x 107 foot stone building on the main side of the campus.

The Mary Searles Science Building, finished in 1894, was designed for "practical work in the laboratory," and at the time it was believed "doubtful if any college laboratories in the country have superior facilities for this purpose." The architect, Mr. Henry Vaughan, created an architectural enigma. As designed by him, the building proper was to consist of 3 complete, distinct departments for Biology, Chemistry, and Physics and was to contain everything which would facilitate work in the laboratories, including a janitor who was "a practical machinist." In order to ease the flow of traffic at class changes, each department had its own private doors so that in effect, it was impossible for a student "to wander around all through the building." If he had the ambition to enter another department, he had to "go out of doors and enter the building again," but our "practical machinist," our busy beaver of by-gone days, had ways "to pass from one to the other without going out." (The building must have been the grandmother of the Boston Underground Garage.)

Someone said that the building was constructed inside-out; but there was a reason for laying the inside with brick and the outside with stone, a very good reason and it was given in the Report of the President, 1894-95. "Natural science deals with hard facts. It wants no lath or plaster to shut off its view of nature's walls." In addition to adding to the interior cleanliness of the building, the unplastered walls made the building "nearly fireproof."

The facilities of the building were without a doubt the finest of the day. In fact during the year 1895, Professors Hutchins and Robinson contributed greatly to the usefulness of the "so-called X-rays of Roentgen" through experiments conducted in the new science building. The Chemistry department had complete facilities for lectures and laboratory work including gas, woods, reacting water, tiled tables, and equipment cabinets with locks. Similarly, the Biology department had lecture and work rooms and, in addition to gas and water, had microscopes. However the Physics department was the best planned with a lab, a magnetic room, a constant-temperature room, and an alcohol room. (Perhaps for the advancement of Lucky Lieff's study of fermenting grape-juice.)

On the basis of this report, the Student Council Committee composed of a series of recommendations to the full Committee on Orientation, which is to be presented November 21, after approval by the Student Council.

Polar Bearings

By Rick Andrias and George Bennett

A Toast-To The Champs

The Portland Press Herald may have been disappointed that "Mighty U.M." did not "maul Bowdoin." The staff cartoonist on the "Maine Campus" must certainly have been disappointed that the Polar Bears didn't eat the dirt of Alumni Field. The fact is that they didn't even eat the mud that on Friday was one of the biggest advantages to the Black Bears but, by Sunday, somehow had helped them go down to defeat. Another disappointed man last Saturday was a certain WCHS sportsleader who seemed very impatient for the Maine Maulers to explode. The game was about fifty-eight minutes old before this fellow finally conceded that Bowdoin was probably safe from the flying fragments of the Orono team's explosive running game.

There were, however, many, many more who were not disappointed at all. First among these was Nels Corey who coached the Bowdoin eleven to their most successful season since he had captained another Bowdoin eleven to a similarly successful season in 1938. Certainly the rain-soaked muddy field that swarmed onto the gridiron to carry off on their shoulders the 1963 State Series Champions weren't disappointed. The relay team that kept the Chapel bell busy for about two hours after the game — were they disappointed?

Sunday morning we all saw how the lowly Polar Bears had "surprised" those tough bears from the cold, cold north. Was it really a surprise? Ask one of the Bowdoin defensive ends who couldn't believe that Maine could top this year's Bowdoin team if he was surprised.

What more can we do but extend a most sincere and hearty congratulations to Coach Corey, to Captain Frank Drigotas, to one of the top small college defensive units in the nation, to one of the most colorful and effective Polar Bear offenses in many years, in short to everyone whose hard work and effort brought the State Series Crown back to Bowdoin after a two year vacation. Let's not forget that in the past four seasons the Polar Bears of Bowdoin have won the State Series Crown just as many times as the Black Bears of Maine.

Pat On The Back

This week the pat on the back has to go to the whole coaching staff and players on the varsity eleven for their great effort that brought us victory last Saturday but especially to the defensive unit for their super human effort under the worst of conditions.

State Crown Returns Home

No Joy In Mudville-Mighty Maine Struck Out

The combination of a slick option play and a quick pass to Bruce Alemlan by quarterback Bob Harrington gave the Bowdoin Polar Bears their second Maine State Series Championship in the last four years. The 7-0 Bowdoin victory has been termed as one of the biggest upsets in the long history of the Maine State Series. Up until the time of the lone tally that came late in the fourth quarter, the game had been a battle of the defensive squads.

"The field was wet, making for poor footing, and the cold rain made controlling the ball especially difficult. For the entire first-half, neither offensive unit could sustain a touchdown drive. Maine posed the one major threat in the first period. Their quarterback, Dick Devarney, passed to half-back Dave Brown, and the play was good for 33 yards. A 15 yard holding penalty and a staunch Bowdoin defense finally stalled this Maine attack at the Bowdoin 38 yard line.

In the second period Maine was able to get even closer to the goal line of Bowdoin, but again the strong Polar Bear defense stopped them cold at the 21. Devarney had rolled up a first down on a 17 yard option play and then attempted to crash his backs through the Bowdoin defense to the goal-line from the 20. The big Maine backs could not penetrate for another first down, and Bowdoin took over here, due to fine defensive work.

The Third Crucial Stand
Maine soon got the ball back and drove to the Bowdoin 27. Here, late in the second quarter, the Bowdoin defensive line stood its ground for the third crucial time, crashing through to break-up two of Devarney's pass attempts and throw him for two successive losses.

Because of weather conditions and Maine's heavy line, Bowdoin's first half offense was only sporadically successful. The first half ended in a 0-0 tie.

In the third quarter Bowdoin's offense was looking better with Soule beginning to pierce the Maine line and Harrington beginning to find open receivers.

Maine though still appeared the biggest offensive threat. Bowdoin captain Drigotas' kick rolled dead at Maine's 42, when Bowdoin was forced to punt. Halfback Brown and Haley balanced Devarney's aerial attack with gains on the ground. Devarney was accurate here, despite the rain, and hit full-back Bill Perkins for ten yards; then finally hit end Dick Flaherty for 23 and a first down on the Bowdoin 17 yard line.

Again Bowdoin's defense, plus a break of the game helped fend off the Maine attack Devarney's back unable to penetrate the Polar Bear line, and he attempted two passes. One fell off the intended receiver's hand, the other was good for only 2 yards. A delay of the game penalty between the two next plays cost Maine 5 yards. Maine, at this point,

brought in kicker Roger Boucher to try a field goal attempt. The kick fell short, and the score remained 0-0.

Fourth Quarter Steamroller
Bowdoin's offense finally got rolling late in the fourth quarter. Ray Austin's punt rolled dead on Bow-

"THANK GOODNESS... THIS IS THE LAST TIME I'LL HAVE TO RUN THIS GUY!"

From THE MAINE CAMPUS, Nov. 8. No Comment!

don's 24, and Bob Harrington took over with the offensive squad.

The Bowdoin attack began on the ground, with Ryan and Soule combining for the initial first-down to the 34. Ryan and Soule, again on the ground, made another first down to the 46.

From here the crucial play of the game came at this time here from the Bowdoin 46. Drigotas' kick found that he was able to delude his defenders, and Harrington called the option play in which Soule passes after taking a pitch from the quarterback. The only other time that Bowdoin had used the play this year, it had failed. Soule, laking the pitch from Harrington, ran to his right and hit Drigotas who was all alone. Drigotas, after making the catch, carried to the Maine seven.

On the first down from the seven, Harrington threw to Bruce Alemlan, a sophomore full-back. Alemlan caught the pass on the one yard line and fell into the end-zone for the score.

Bowdoin kicker Barry Smith booted the extra point and the scoreboard showed: Bowdoin ahead, 7-0 as the score remained until the final gun.

Drigotas' Career Ends

With E. C. A. C. Honors

Bowdoin Captain Frank Drigotas of Auburn, Maine, who wound up his college football career last Saturday, was named to the weekly Eastern College Athletic Conference All-East small college team.

Drigotas, an end, caught a 40-yard, surprise pass from halfback Paul Soule, in a ruse-dance play that set up the only touchdown as Bowdoin upset Maine 7-0. The actual score came on a forward from quarterback Bob Harrington, to fullback Bruce Alemlan.

Soule was nominated to the ECAC team and Alemlan was nominated as "Sophomore of the Week" as a result of their sparkling performance. Harrington has been a frequent ECAC team nominee during the past two seasons.

Lambert Cup

- Delaware (7-0) 10.0
- Northeastern (8-0) 9.0
- Coast Guard (7-0) 7.8
- West Chester State (7-1) 5.6
- Amherst (6-1) 5.0
- Susquehanna (7-1) 4.9
- Bucknell (5-3) 4.4
- Bowdoin (6-1) 4.4
- Maine (5-3) 1.3
- Temple (5-2-1) 1.1

Note: This is not the final standing of these teams. The Lambert Cup balloting will continue into December before the final standings are made official. Bowdoin is one of the few colleges that have finished their season.

Delaware, for instance, has two weeks of its season remaining. They play Rutgers this weekend, while Coast Guard travels to Springfield, Northeastern finished his season against Tufts last weekend.

Hockey Team Eyes Lengthy Schedule

The Polar Bears will play a total of 20 varsity hockey games during the rapidly approaching 1963-64 season.

Coach Sid Watson's team will open its campaign at Brown University Nov. 30 and will wind up the ice season with the traditional Varsity vs. Alumni contest at the Bowdoin Arena.

The slate includes single games with Army, Dartmouth, Brown, Norwich, Harvard, Massachusetts, MIT, American International, Amherst, Williams, Middlebury, Northeastern, and Pennsylvania. Also on the list are home-and-home matches with Merrimack, New Hampshire, and Colby.

Here is the complete schedule:
Nov. 30 at Brown, Dec. 2 at Merrimack, Dec. 6 Norwich, Dec. 7 American International, Dec. 11 at Harvard, Dec. 14 Massachusetts, Jan. 3 Dartmouth, Jan. 7 Pennsylvania, Jan. 8 at West Point, Jan. 14 Colby, Jan. 17 at MIT, Jan. 18 at Amherst, Feb. 9 Williams, Feb. 15 Middlebury, Feb. 18 New Hampshire, Feb. 21 Northeastern, Feb. 26 at Colby, Feb. 28 Merrimack and Feb. 29 Alumni Game.

... And We're Dropping Them?

Polar Hoopsters Will Face Heavy '63-'64 Schedule

The Bowdoin College varsity basketball team, defending State Series champion, will play a 19-game regular schedule during the 1963-64 season and will also take part in the Downeast Classic tournament at Bangor.

Malcolm E. Morrell, Director of

Athletics, announced today that the Polar Bears will open their season at Harvard Nov. 29 and close at Colby Feb. 29.

Coach Ray Bicknell's squad will play single games with Harvard, New Hampshire, Amherst, Wesleyan, Springfield, Trinity, Tufts and Williams. Also on the schedule are three games each against Colby, Jan. 4 Colby, Jan. 8 Maine, Jan. 10 MIT, Jan. 11 Amherst, Jan. 15 at Bates, Jan. 18 at Wesleyan, Feb. 7 at Springfield, Feb. 8 at Trinity, Feb. 12 at MIT, Feb. 15 Tufts, Feb. 19 at Bates, Feb. 22 Williams, Feb. 26 Bates and Feb. 29 at Colby.

Speech By Muskie Will Highlight Young Democrats Workshop, Dec. 7

U. S. Senator Edmund G. Muskie (D-Maine) will deliver a public speech to a group of young Democrats at Bowdoin College Dec. 7. Muskie's speech will be a highlight of a statewide Young Democrats Workshop, which will be held here under auspices of the College's Young Democrats Club.

The Senator will speak at 6 p.m. in the Moulton Union Lounge.

Plans for the Workshop were announced today by David M. Cohen '64 and Berle M. Schiller '65, President of Bowdoin's Young Democrats.

They said some 30 Young Democrats from 12 Maine schools and colleges are expected to attend the Workshop sessions, which will be held at 2 p.m. with registration in Cleveland Hall.

Five separate workshop meetings will be held in Cleveland Hall from 2:30 to 3:45 p.m. The topics will be membership, finances, public relations, campaign and constitutional resolutions.

At 3:45, the delegates will adopt resolutions, listen to reports of their workshop committees, and elect state officers before reassembling in the Moulton Union for Senator Muskie's address at 6 p.m.

The evening schedule includes the Bowdoin-American International hockey game in the Arena at 7:30 p.m., and a dance from 8 to 12 at the ARJ House, 234 Main St.

Delegates are expected from Bowdoin, Bates, Colby, University of Maine at Orono, Portland, Bates, St. Francis, Gorham State, Aroostook State, Husson, Bates and Maine College of Commerce.

Dulles Reviews CIA History; Outlines U. S. Intelligence Net

Placement Bureau Career Interviews

The Placement Bureau wishes to remind all seniors planning to participate in the Career Interviews with industrial and professional firms and those planning teaching careers to obtain registration forms at the office of the Placement Bureau in Fenwick Hall in the Chapel.

These forms must be returned before any interviews may be arranged. Do not delay returning the form if your picture is not ready. Photographs may be added to the registration form very late, but that completed forms be returned as soon as possible.

During the month of December there will be a further series of interviews with industrial interviewers and representatives from the U. S. Government in Washington as follows:

Dec. 3 Arthur Young & Co., U. S. Immigration Service.
Dec. 10 Central Intelligence Agency, U. S. Information Agency.
Dec. 11 Biocomy Mobil Oil Co.
Dec. 12 U. S. Air Force (Moulton Union Lobby).

Please be prompt about returning registration material.

S. A. Ladd, Jr.
Director of Placement

Says Barghoorn Incident Typical Of Russian 'Misunderstanding'

"If you can't separate the wheat from the chaff, the good from the bad, and the honest from the dishonest, they you aren't doing a good job," said Allen Dulles, former head of the Central Intelligence Agency as he spoke to a capacity crowd at Pickard Theater on Wednesday night.

Dulles wanted to make clear that the CIA must learn to work in competition with the other intelligence agencies in the government. Dulles felt that a little competition is good and that too much competition would lead to confusion.

Thirdly, the CIA must work in conjunction with the State Department on matters of information. Mr. Dulles also made it clear that it was not the CIA which made policy, but the President and the State Department.

Fourthly, the CIA has to do a great deal of work in the field of counter intelligence. He pointed out that many spies are caught as a result of "hard work." In conjunction with this Dulles stated: "The public should not get alarmed at the fact that we are catching so many spies. For one thing, it shows that we are on our toes and it does diminish the present number of spies that the Soviets have in operation." One of the reasons that the Soviets have so much trouble with their spies, pointed out Dulles, is that they just don't trust them. Soviet spies can't turn in information without documents to prove that they are telling the truth. Thus, many spies are caught in the difficult task of trying to steal government and defense industry documents.

Kennedy Assassinated!

A bullet fired by a 25-year-old fanatic brought to a close the life of the President of the United States today at 1:25 p.m. as John F. Kennedy succumbed to a head injury in Dallas. Critically injured also was Governor John Connally of Texas who was riding with the President after having met the presidential party at the Dallas airport. Connally was struck by two bullets fired in quick succession after that which killed Kennedy.

It was also reported from the station in Dallas that the assassin had been picked up minutes after the shooting in a 9 story building directly overlooking Kennedy's planned route of march. "It must have been, the announcer commented, "like shooting fish in a barrel." In fact, it is believed at this time that only a temporary gap in the motorcade saved Vice President Johnson from a similar attempt.

"COMPLETE PANDEMONIUM"

"As the shots were fired, Mrs. Kennedy was heard to cry out, 'Oh no!' as her husband slumped over in the rear of the open touring car. Two more reports were heard, and the governor also fell. The car increased speed and drew under the overpass it had just been approaching, while Secret Service men headed for an adjacent building from which it was believed the shots had come. The crowd, some 250,000 strong in all, remained in shocked silence for a moment, and then broke into complete pandemonium.

The official car, bearing the President, and the governor with their wives, was then driven to nearby Parkland Hospital where Kennedy was placed in the operating room. A call went out for surgeons in the area and the President's personal physician was rushed to the scene. Blood for possible transfusions was brought in.

ASSASSIN PICKED UP

Johnson, who at first had also been reported wounded, was riding in a second car which, for some reason, had dropped back from that in which Kennedy and Connally were riding. However, observers said that the Vice President had also been admitted to the Parkland Hospital.

The shot which killed the President struck him in the head, while those striking Connally hit the governor slightly below the shoulder blade. While the latter is still in critical condition, he is reported to be conscious. The killing occurred in the heart of downtown Dallas, the third Texas city that the President had visited since his party entered the state yesterday. Originally there had been some hesitation over the visit to this city in view of Adlai Stevenson's rough handling there a few weeks ago. However, the White House security had finally OK'd the trip.

RUMORS RAMPANT
By 2:15 rumors were being reported over KLRD in Dallas that the President was dead, but official word was finally broadcast at 2:30 that Kennedy had died one half-hour earlier. Last rites were administered by one Father Kubler of a Dallas church who is reported to have said that the President was still alive at the time.

STOCK MARKET CLOSES

Immediately following first reports of the assassination at 1:25, large drops began appearing on the New York Stock Exchange, and at 2:00 the Exchange suspended trading for the day after sustained "considerable" losses in the course of half an hour. Shortly thereafter the New York Commodity markets followed suit.

Gideonse Comes Out For Increased Freedom

Speaking before a capacity chapel audience, Dr. Hendrik Gideonse, of the Department of Education, cited Bowdoin's responsibility in deciding for the Beta Pieta and the students' willingness to employ sanctions upon themselves, should the controversial proposal be approved.

Dr. Gideonse voted a long-awaited Game and the disciplinary action taken concerning an episode in the Beta Proposal, in a chapel address Wednesday morning, bolstering new hopes for an early decision — a favorable one.

He pointed out that from the beginning, Bowdoin has limited access to sources of social and cultural entertainment. "On most occasions," he said, "we have a Bowdoin student contemplating inviting a young woman to the college as his guest, are a movie, a night at the movies, or a party in the bar group, dancing in the bar, or sitting around in the gargantuan living room of his house unwilling for general reasons to submit his petition with this one change: that the rooms that would be open to women would be studies only, not a place where they would be employed to employ sanctions whenever occasions demand them against those of your own number who insist upon crossing the boundaries of gentlemanly behavior and acting without regard to elementary principles of tact and discretion whether the actions occur in the studies or in the bar."

He added that the Bowdoin man, "has only two alternatives, which, by virtue of their involuntariness, are unacceptable. Either he must excuse himself in the first floor, or he can evade the issue altogether by removing himself from the college, or he can submit his petition to the college to sanction such a system which leaves only these alternatives to the students is an abdication of its own responsibility with regard to the larger aims with which this college, as a college, should be concerned."

It is with this responsibility that Dr. Gideonse was primarily concerned. He stressed that the Beta Pieta, in itself, important as an attempt to liberate a stringent social ruler, but he added that the petition is even more significant. "... as a recognition on the part of students that they can and will stand up to the various, and important, variety of responsibilities, and the recognition on the part of the faculty and administration, that it is the bringing of these responsibilities which is precisely the most significant aim of any college."

Beta House Elects New Officers: Dixon Pres. Symposium On Library Published In Booklet

Dick Dixon has been re-elected president of the Beta Sigma Chapter of Beta Theta Pi, which held elections this past Wednesday. Jeff Lang was re-elected vice-president, and Steve Hecht was re-elected Secretary.

Bob Osterhout was named chairman of the Social Committee, which will consist of: Pete Martin, Jack Gosaly, Bill Beach, and Steve Hecht.

The new Rushing Chairman will be John Tarbell; and Dick Norris, Barry Smith, Phil Bradley, Chip Adams, and Dudley Welch have been selected for the committee.

Joe Tarbell, Jack Kelly, Dave Stocking, and Cal MacKenzie were all elected to the Executive Committee.

Ed Russell was elected Chaplain.

The thoughts expressed by six noted librarians and Bowdoin College Faculty members in their address at Bowdoin's Library Symposium last spring have been published by the College.

The booklet, entitled "The Place of a Research Library in a Liberal Arts College," repeating the name of the Symposium, contains the remarks of the principal speakers together with the introductory statements of President James B. Cole and the speech of Richard B. Harwell, College Librarian, who edited the publication.

In his foreword, Mr. Harwell, summarizing the Symposium, states that the speakers and panelists from some 30 colleges in the nation "gave a thorough airing" to the old question "What constitutes a college library?"

M & G TRYOUTS

Tryouts for the Magee and Gowen's presentation of Oop's "The Inspector General" will be held on December 2, 3, and 4 from 4 to 6:30 p.m. in Pickard Theater. Seating is on closed reserve in the Library.

While the Symposium "did not answer the, perhaps unanswerable, question," Harwell writes that it did "make it clear that Bowdoin is in a position to meet the standards and formulae which limit a college library to a fixed, or relatively fixed, size."

"Such libraries may be acceptable, even desirable," he noted, "within a university, or at colleges which are 'feeder' colleges in a university system, but they are not compatible to an independent college with strong scholarly traditions and with active research programs."

Mr. Harwell states that, in editing the work, he strove to "retain the informality that was the mark of the occasion and is the mark of Bowdoin College."

The principal speakers, whose remarks appear in the booklet, were Dr. Frederick H. Wagman, Director of the University of Michigan Library and President of the American Library Association; Miss Betty Thornton, Librarian of Oberlin College; Professor Albert P. Day, Jr., Chairman of the Department of Government; Dr. Edward C. Kirland, Frank Munsey Professor of History, Emeritus, Verne W. Clapp, President of the Council on Library Resources, Washington, D. C., and Mr. Harwell.

Westbrook President To Speak In Chapel

President Edward Y. Westbrook of Westbrook Junior College in Portland will be the speaker at Chapel, Sunday at 5 p.m.

The Bates Chapel Choir, under the direction of Professor David R. Smith, will sing "Alleluia," by Randall Thompson.

President Westbrook has headed Westbrook Junior College since 1958. For the previous 30 years he held a variety of key positions at the University of New Hampshire, including Executive Secretary to the President, Chairman of the Business Session and Dean of the College of Liberal Arts.

He is a contributor to various magazines and professional journals, and is the Editor of "Association Review," published by the New England Association of Colleges and Secondary Schools.

President Westbrook is a graduate of the University of New Hampshire. He holds an M.A. from Ohio State University and LL.D. degrees from Colby College and New Zealand College.

Captains Named

Leadership in the various sports teams for next year's fall sports. They are: Steve Ingram and Bob Harrington, football; Bert Babcock, crew coxswain; Dick Dieffenbach and Gerry Glesler, soccer. Awards and election results were announced at the Fall Sports Banquet last night (See page four).

Photo by Trustees

Labor Expert Denies U. S. Stand On World Revolution

Last Monday, under the auspices of the Bowdoin Political Forum, Dr. Sidney Lens, noted author, lecturer and expert on Latin America labor movements, addressed the college in a speech entitled *A World in Revolution*.

In his introductory remarks, Dr. Lens pointed out that the great motivating factor behind American foreign policy is fear of Russia and of Communism, a fear "bordering on the phobic." He noted that this was not the first time the United States foreign policy has been driven by fear, and cited the Adams administration confronted by the French menace as an early example. Moreover, fear makes it impossible to analyze the situation at hand; "you say this man is a Communist and this ends all discussion."

Dr. Lens then examined the reasons for the reported attractiveness of Communism in underdeveloped areas of the world. India will look to China, a country with a great deal in common with India, and the Indians will use the relatively greater wealth of the Chinese have made under Communism.

U. S. Properly Aboard
The property of the U. S. is secured in an ideal context, but that of China is strikingly attainable. And in an ideological context, democracy means little to the poverty stricken masses of India; the economic implications of revolution are more the basic impetus of reform and have been since 1948. Dr. Lens went on by noting that in the first phase of revolution, the effort was to topple the stagnant feudal systems prevailing in the outer European nations. Successive revolutions gained for England, Holland and other emerging nations a release from the old restrictions on capital a release that is needed in the Middle Eastern nations today. Ironically, during the period of colonialization, these same unquarantined nations imposed on their colonies the outside restrictions which they had corrected. Dr. Lens pointed at England's use of India and at the fragmentation of Latin America as examples of this treatment of colonies.

The Russian Revolution occurred in this second phase of world revolution. Dr. Lens maintained it was a rebellion against the imperialistic type of political and economic set-up and is important because the "Russian Revolution destroyed the fabric of feudalism completely and thoroughly."

Abandonment of Capital Feared
It was not Russia's might that we feared in 1917, but her new revolution that abandoned the two alternatives of capitalism or feudalism that had existed before. The problem became that "now they (the western capitalist nations) had to do different... the danger of revolt concern themselves with something within their borders. For now they would confront not a power enemy but a social enemy — a spirit to overthrow the old imperialistic structure of politics and economy. Since World War II, we have been in the third phase of world revolution. "Never before in history have

1963-4 Bridge Schedule

Starting with a contest tomorrow afternoon, Duplicate Bridge tournaments will be held according to the schedule below. Any members of the college community is welcome, the only requirement being 35 cents (which will go toward financing merchandise prizes).

College And Seagoood Fund Co-Sponsor City Manager Lecturing On Government

Robert L. Brown, Assistant City Manager of Kansas City, Mo., will spend three busy days on Campus next month under the joint sponsorship of the College and the Municipal Seagoood Fund.

His schedule will include an address to students making 7 p.m. in Room 117, Smith Auditorium.

Dr. Clarence Davies, III, professor in Government at Bowdoin, is in charge of arrangements for Mr. Brown's visit. Mr. Davies said that, in addition to his public lecture, Mr. Brown will also give a series of conferences with individual students.

The Seagoood Fund inaugurated its Program for College Visitors in 1957. The purpose of this project is to foster friendly relations between faculties and colleges on career opportunities in local government, and to stimulate interest in such careers, and increase awareness of citizenship responsibilities. The Fund was created at a 7th birthday dinner for Murray Seagoood, former Mayor and leader of governmental reform in Cincinnati, Ohio.

Mr. Brown has had a distinguished career in the field of municipal

government. Before accepting his present position, he was Assistant City Manager of San Antonio, Tex.; City Manager of Sherman, Texas; and City Manager of Dallas, Texas. He has also served as Director of the University of Pittsburgh, Graduate School, University of Pittsburgh; Advisor on Public Administration Programs in Nigeria; U. S. Department of State; and Assistant Director, International City Managers Association.

Editorials

Responsibility 1-2 . . . Required

"The old order changeth, yielding place to new." So said Tennyson, and so it is with the Orient. Staff changes lead to changes in editorial policy changes, and what may have appeared in this space some issues ago need not be the same as what now appears. So it is with our views on the honor system.

Though the Orient originally felt, when the honor system was proposed, that the student body was not ready for it, we have somewhat modified our views. We now believe that it is not a question of "being ready for it" or not, but rather one of how to create an atmosphere where such a system would be successful. And this atmosphere will be created by the interaction of the system with the attitudes of the students (and faculty). In other words, the honor system will not emerge as a fait accompli directly out of committee, but will require (in order to be successful) the change of attitude by students and faculty, and this change in attitude will come, in part, from the installation of the system.

We are not so idealistic as to believe that because there is an honor system every student will give up any thoughts of cheating; nor will all students adhere to a policy of turning in the student whom they observe to be cheating. Not at first, at any rate. But we do believe that as the "transition" progresses more and more men will sense the added responsibility and will rise to the occasion.

This, we feel, is not being unduly optimistic, for statistics have shown that honor systems do work well, and contribute to just that set of attitudes which matures their success. Moreover, the inception of the system will not be a radical change over what already exists.

At present Bowdoin students are allowed a fair amount of freedom to decide whether or not they are going to cheat, steal, etc. and the great majority of them still follow, more or less, the straight and narrow. But the attitude which exists concurrently with that of freedom is still one of faculty versus student, i.e. the student, in most cases, realizes that the faculty is responsible for preventing him from cheating. He himself is relieved of that burden.

This situation naturally tempts the student to proceed in this direction as far as he deems safe, since there is no social pressure brought to bear by his fellows. All feel (whether they cheat themselves or not) that the prevention of cheating is one of the professor's tasks, not theirs. The addition of an honor system clearly shifts the responsibility.

Will the student recognize and accept this new burden? We believe that he will, but in any case we cannot see how the College can help but to let him try. College is a place for learning, for shaping philosophies, and "honor" must be so included. There is no purpose served by releasing man, after their requisite four years, into a world of "cheating" which they can get away with. Rather, they must develop at some stage in their education the practice of policing themselves. What is accepted academically will be extended over to the social sphere, and if they are not required to accept responsibility in their scholastic life there is no reason why they should be expected to do so socially.

Thus we may see the relation of the honor program to another issue on campus; that of the social rules. Many people have stated that the two should be kept separate, but in the context of the preceding paragraph, it may be seen that this is impossible. Increased social privileges, too, are added responsibilities for the students, as well as being a relief from boredom. In both matters there can be no "learning" unless the students are allowed to shoulder these responsibilities, and each must rise or fall on his own. Responsibility can be learned only by assuming it, and the teaching of this subject is a requisite of any college.

We believe that both of these proposals will be successful, and that the result will be not only improved conditions but a more responsible student body. In any case, nothing will be proved by rejecting them.

A Waiting Game

The Faculty committee on Student Life met last Wednesday afternoon in a session that went two hours before finally breaking up in a deadlock. The subject: Proposed changes in the social rules. The committee will meet again in the near future, however, to resume and, hopefully, to conclude the debate. Their decision will be taken to the faculty as a whole.

The above may be regarded, we believe, as concrete proof that this matter is not being taken lightly by the faculty. We, at least, feel that any group willing to spend the better part of an afternoon in debate cannot be construed to "not give a damn."

The argument, summed effectively by Dr. Gleason, is on the table, and now the student body must simply wait. We hope they will not have to wait too long.

The Price of Effort

The key ingredient in winning football is total team effort. Total team effort means one hundred percent effort in one hundred different ways from every man on the squad.

Total team effort means the little extra something that enables teams like Bowdoin's to beat teams like Maine's.

It is something that is demanded not only in games, but also on the practice fields. And perhaps it is demanded here even more.

Occasionally, a coach gets

The Bowdoin Student—A Faculty View

he does, it is his most valuable commodity. It builds winning seasons.

Now one of the nicest things about winning seasons, especially seasons that culminate in a State Series Championship, is the post-season. Then the accolades pile up. The total team effort that was so essential to the winning season in the first place, is forgotten.

The men who spilled their sweat, took the bruises and the pain, spent their time, worked, worried, prayed and played out the season and DIDN'T get a varsity letter fade into the background.

The men who earned their varsity letters in football this fall will be rewarded substantially because Bowdoin also won the State Series Crown.

Now these men earned their sweaters and their State Series jackets. They earned them through their superior ability. But ability without effort is worth nothing. Unquestionably, the men who were awarded a varsity letter actually won the letter with a combination of ability and effort. But what about the others? The guys not good enough, or not seasoned enough to play enough quarters to win a letter?

Do these men get forgotten when the praise is passed out? Sure they do. And do they get forgotten when the letter-writers get their State Series jackets? Well, not exactly, they do get a little token something or other. To these men, their total effort has been weighed, assayed, marked and priced, and it can be bought at a discount price.

Perhaps the 21 letter-winners could have enjoyed the same success without the other 12 team members, its hard to say.

One sure thing though, the 12 men who helped Bowdoin to a State Series Crown, and didn't win their letter, still deserve to be called members of the State Champion team. They earned that right. They bought it with their time and their effort.

It is a shame that these dozen men should be almost completely overlooked when the honors are passed out.

The price of total effort seems to be: 21 award jackets and 12 little trinkets, and cheap at twice the price.

A Special Letter To The Editor

NOTE: THE ORIENT remains neutral on the subject of travel to Cuba. We publish this letter in hopes that it may inspire, stimulate or enlighten our readers. We would be interested hearing any opinions on it, however. — Ed.

The following statement was received by Albert Stecher, a spokesman for the Student Committee for Travel to Cuba:

"Because of the interest that has been shown throughout the country concerning not only the constitutional questions regarding the right of an American citizen to travel where he wants, when he wants but also the right to travel to Cuba to see what is happening on that island we are proud to announce that another trip to Cuba will take place this coming June.

"The response of American colleges and university students to our last trip has been fantastic. To date over 100 students have applied to us to go to Cuba this summer. The Student Committee is therefore announcing that a trip for 500 persons is now being planned. Expenses for this trip will again be paid by the Cuban Student Federation. We invite any and all American students, regardless of political beliefs, to join us in seeing for themselves what is really taking place in Cuba.

"The Federal Government has tried to intimidate us by indicating three of the students that went on our first trip and attempting to imprison them for 15 years and fine them \$50,000 each. This action by the government is opposed, however, by many of the leading scholars in the country including such men as Edmund Cahn of New York University Law School, Norman Dorsan of NYU, David Haber of Rutgers, Rupert Emerson of Harvard Gov't Dept., Mark DW. Howe of Harvard Law, Alexander Meiklejohn of University of Wisconsin, Lawrence Wills of Harvard, John Fabian of Harvard and H. H. Wilson of Princeton.

"The Government is acting in an unconstitutional manner and we cannot intimidate us. We therefore serve public notice on whom they are intent on violating their public policies and thereby and continue to sponsor trips to Cuba.

"Any American student interested in traveling to Cuba this summer is invited to write us for further information."

Critics Circle

The Lady And . . .

The Critic

by Ros Hannaford
Instructor in English

As I watched *The Lady's Not for Burning* Friday evening, I kept asking whether I, as an undergraduate, was so young to see so much promise in Fry. Huntman's production was a good one for my purpose. A more experienced director would have shown me a better play by improving on Fry.

One of the things often discussed, for instance, is the idea that, freed from elaborate staging, poetry might draw its own walls, suggest its own "sound effects" and evoke its own atmosphere and lighting. Huntman's design of suspended rectangular panels and more suggestion of doors and windows was the sort of thing we applauded. Exchanges such as:

Humphrey: Uncle, there's a sizeable rumpus.
Without exaggeration a how-doo-do
Taking place in the street. I thought you should know.
Tyson: Rumpus?
Humphrey: Perhaps rumpus isn't the word.
A minor kind of bloody revolution.

were going to suggest the beleaguered fortress aspect of the play's setting and that was all there need be to it. When the time came to suggest more the garden outside than the street, the poetry would do that too. We knew that Shakespeare had used an unlocalized stage and we had seen in the acting of the postwar generation of Shakespearean actors that it worked.

The example of Shakespeare notwithstanding, in Fry's play it doesn't work. Fry requires the support of all the dramatic artifices we can give him. We need to think that only a heavy, taken door stands between us and the witch hunt without. Unless we know the world outside is completely mad, we fail to appreciate by how narrow a margin and with what struggles sanity is achieved within the circle of the characters we see on stage. The sound effects, the lighting and "noises off" in Huntman's production were the limited sort that we used to talk about as all that was necessary to voice drama. Well, we were wrong. The more faithful the director is to Fry and the attempt to bring back Elizabethan simplicity, the less effective the play. Fry's poetry just won't bear the load.

In defense of the Masque and Gown's production I should point out that Fry almost succeeds sometimes. There are moments of genuine beauty in the play. Janet Jourdain's lines that start: "Poor Beauty. In the end he walked in Science like the densest night" are a case in point. And Maria Parker succeeded in evoking at times the poetic fantasy that we used to find in Fry. Carol Ann Van Sant as Alison Eliot, the young girl just out of a convent, caught the wistfulness of that role. That, too, was a quality that we wanted to reintroduce into the drama. It was good to find that these things were really there.

We thought there was humor in Fry, too. Gladys McKnight's rendition of Margaret Devise captures much of the warmth that we saw in Fry's minor characters. David Henshaw '64 was much less successful in projecting the humor of the Chaplain. Much of the time I wasn't sure that he, or Huntman, was aware that the role was intended to be funny. The Chaplain's comedy, to be sure, is not without its moments of wisdom. It is he who suggest that Mendip "might be wood" from his aptitude for death by being happier. It is true, too, that in part he is a most competent fool who is not at all unaware of the irony of his own and others' actions.

Franz Schneider '64 created an equally underdeveloped Edward Tappercorn, the justice. In great part this is Fry's fault. One cannot give Tappercorn the line "with a dull thud/Tyson, if I may say so" in answer to "and how/Does this stink you" except at the peril of having the actor who plays that role think that Tappercorn is always that obvious. He isn't. Now

in spite of hour exams all the next week, I spent the next day reading Fry's play. At the party I had been caught up by the vision of a great reversal in the history of the theater. Verse drama had come into its own again — or would very soon do so. A new Elizabethan age was about to dawn. Scraps of conversation from the party still float out to consciousness: "full resources of the language," "proof that poetry, could, given a chance, again find a great popular audience," "now that someone besides Eliot," "words, once again music," "escape from the prosy world of half-reality that is called

Notes And Comments

Now Everyone Can Play

By Jim Riley

The only trouble with the College Bowl format is the questions. To begin with, the questions are contrived, difficult, and unrealistic.

It seems improbable that anyone would actually have to know some of the stuff they ask the undergraduates panels anywhere else but on television.

Now the questions are hard, no question about it. So hard that many of the students who have been dropping in on the Bowl team's nightly workouts have come away with deep-rooted inferiority complexes forming somewhere in their little psychodynamic structures.

And so, for all the guys who have gone to try their luck against the College Bowl team, and have come out second best, here are some questions to try your luck on. Neither than using highly contrived questions dealing with the abstract and intangible realm of academics, these questions are taken from experience. The only qualification needed to post a high score is that the contestant be more than 15 years old.

MOVIES

Name the three actors who played Charlie Chan? Who played Vernon Castle in the picture, The Dancing Cavalier? What actress starred opposite Niles Astar in Love of An Actress? If Count Dracula was a vampire, and Frankenstein was a monster, what was Lawrence W. Talbot, and Top an additional 10 points, who played him, and in what picture? Who played the little girl in National Velvet?

RADIO

What was The Shadow's name? One famous soap opera has the heroine's name in the title. Her name is the same as a day

of the week, what is the name of the program? Who played the leading role in the program Dr. Christian? What was the original title of the program about a fictional mountain named Sgt. Preston? Who played the original Lone Ranger? What comedian's trademark was the query: "You Wanna buy a duck?"

COMMON EXPERIENCE

How many years did the Ford Motor Company produce an Edsel? How much did Hula-Hoop cost? What is the name of Little Orphan Annie's dog? What is the name of Dick Tracy's buddy, R.O. Plenty's daughter? In what year did color television appear commercially for the first time? Who is Kate Smith? What are the two most expensive properties in the game of Monopoly?

ANSWERS

MOVIES

1. Sidney Tolar; Warner Olan; J. Carroll Nash. 2. Fred Astaire. 3. Pola Negri. 4. a warlord; Lon Chaney; Werewolf of London. 5. Elizabeth Taylor.

RADIO

1. Lamont Cranston. 2. Our Gal Sunday. 3. Gene Harsholt. 4. Challenge of the Yukon. 5. Bruce Beemer. 6. Joe Penner.

COMMON EXPERIENCE

1. two. 2. \$1.98. 3. Sandy. 4. Sparkie Plenty. 5. 1957. 6. a singer. 7. Boardwalk and Park Place.

Score each correct answer 5 points. 65 is poor but passing, 75-90 is good, 90-100 is ungalactic.

Chapel, cont'd from p. 1

entertainment of visitors in the suites. Should the Senior Center and the degree of student responsibility be deemed acceptable for the entertainment of women in their suites, as I hope they will, then it seems to me that it will be very difficult not to honor the Beta Petition based on student enforcement of the fraternities as well.

I can't think of no reason to believe that the magical transition from a Junior to a senior suddenly results in the creation of attitudes which are more conducive to the exercising of responsibility. Either they are there, or developing all the time, or they are not. Either women can be entertained in social units throughout the campus under student control, or they can be entertained in the manner nowhere, and the second solution, I think, is no solution at all.

Cliffing reasons why the Beta Petition has come up at this particular time, Dr. Gidson pointed out that the Senior Center will be opening next fall, "... a building which was designed at least in part to accommodate the

Hannaford, from p. 2

realistic... It was heady stuff for a freshman.

But it was not only realistic stuff, the plays-in-progress written by people like those at this party were, often as not, in verse. College literary magazines and the little magazines were full of excerpts from these unfinished works. Some even got finished. The Poet's Theatre in Cambridge flourished — well, if not flourished, then gave promise of flourishing. Another of my plays, The Dark is Light Enough, made a Times cover. When it came along in 1954, great chunks of T. S. Eliot's The Confidential Clerk were published in the New York Times Magazine Section.

Today, I'm sure that there are as many plays-in-progress as ever lying about in undergraduates' bureau drawers, but they are not modified after Eliot and Fry. The new edition is that of Bertold Brecht and Arnold Wesker and Harold Pinter and Edward Albee. The promise of a second Elizabethan age was never fulfilled. We have, in the contemporary theater, perhaps something far better. G. myself, feel that there is more poetry in Pinter's prose than in all the attempts at blank verse by Mr. Eliot's imitators.

He concluded with this statement, "Poring a student to choose from smoggy unacceptible alternatives ultimately leads him to escape the choice altogether. The result is the absence of responsibility, to say nothing of irresponsibility. The two are related, but they are different. I should think that the college would not be interested in teaching either. I am afraid the present regulations tend to do just the reverse."

New Meadows Inn BATH ROAD 443-3921 OPEN ALL YEAR DINING AND COCKTAIL LOUNGE

THOSE CLEAN WHITE ADLERS

Now you're getting the swing of it. All you have to do is be "clean white sock" in your Adlers. Suddenly you find yourself doing just as you please, and the whole world beaming unquestioning approval. You'll like it. Girls love it. And all because of the Adler SC shrink controlled wool sock. In white and a covey of colors. \$1.

Review, cont'd from p. 2

one who can say "The whole thing's a lot of amorphous/Stultifyingly inert stuff" could be...

Their main attraction was made surer on the less equivocal characters. Robert Stone, who had the advantage of playing a much more easily established and essentially simpler character, turned in a good performance as Hebble Tyson, the mayor. Richard Brauning '66 played the drunken Matthew Skippy with equally appropriate unrestrained bravado.

The brothers Nicholas and Humphrey played respectively by William Heath '64 and Leslie Ferlazzo '67 are harder characters to create because we are asked to believe that they "grow up" in the course of the single night of the play, Fry's failure adequately to suggest, by the resource of language alone, the tension of the times has been good news. The Devine brothers suffer more than any of the other characters in the play, save perhaps Thomas Mendip, from the director's decision not to make good what Fry failed to include in his poetry. The brothers' acting often suggested more Henry Aldrich, all-American boy and his friends, than it had any reason doing. Playing dead in flower beds in the context of a war-torn, half-mad world can be defended, was defended in the conversations I had about Fry as an undergraduate, as "lyric symbolism." Seen out of that content we have mere meaningless adolescent high-jinks.

Memorial Book Fund Established For Benefit Of College Library

Arthur D. Karp of Brunswick, Brunswick area tend to take for granted the many cultural advantages, N. Y. have established the Earl Scott Miller Book Fund at Bowdoin College, the College announced today.

Income from the Fund will be used to purchase books for the Bowdoin College Library.

The Fund was established in memory of Mr. Miller's late brother. "It is our hope," said Mr. Karp, "that with this Fund Bowdoin may be able to purchase from time to time works which its Library might not otherwise have. Sometimes those of us who live and work in the

Know Your Bowdoins

"Anna" Stones

R.I.P. — Anna Lytics last resting place outside Appleton Hall.

Before the snow comes to Brunswick and blankets the Campus with a mask of white, the undergraduates should take note of the mysterious "Anna '77" and "Anna '78" stones located in front of Massachusetts and South Appleton Halls.

In order for the current generation of Bowdoin students to understand the significance involved, it is necessary to examine one of Bowdoin's ancient traditions — the burning and burial of math textbooks.

One of Bowdoin's more well-known ceremonies was that held annually in honor of "Anna Lytics." Contrary to popular belief, "Anna" was neither the wife of one of Bowdoin's first presidents nor a popular maid in one of the dormitories.

In days gone by, a compulsory sophomore math course (for those not taking Greek) was Analytic Geometry, the rudiments of which were so rough that the students who passed the course were in such a jubilant state that they committed the "Anna Lytics" to the flames.

The celebrated Class of '77 became so involved in the tradition that "they put the ashes into a coffin and buried it, and a stone with a suitable inscription was then placed at the grave."

The entire ceremony was conducted with the utmost solemnity. A eulogy and an elegy were specially written to mark the occasion and, as Hatch records it, "the pyre... was lighted and amid the wild wailing yells of her followers, the last remains of Anna were hastily devoured by the flames."

The following song is reprinted from one of the original programs of the 1877 ceremony!

(To be sung upon arriving at the pyre)
Consecrate Annae Lyticsorum
Lurid red, the torches ray
Gleaming across our midnight way,
As with songs and dirges sad,
Mourn we "Anna Lytics" dead.
Hushed is now the busy world,
And the day's bright banner furled;
Weeping Sophomores, draw near!
See our "Anna" on her bier.
When the greedy flames shall eat
Coffin, pall, and winding sheet,
Still we'll chant our solemn lays,
Mindful of her pristine days.
Though, through many a weary night,
She's disturbed our slumber light,
Yet we'll sing quite mournfully,
"Requiescat in pace."

The stone was originally placed on the south terrace of Appleton but was removed by certain members of the Class of '77 (one of whom was explorer Robert E. Peary on their 20th reunion and dragged off to some obscure part of the Campus. It is believed that a similar group of celebrants laid the "Anna '77" stone to rest in its present position outside Mass Hall. Ed. Note: Junior members of the Math 31 class inform us that, not wishing "Anna" to be alone, they will bury the remains of her boyfriend, "Cal Q. Lus" at the conclusion of this semester. The cause of death, they report, will be the same.

French Flick "Doc" Hanley Named Here Sunday To Sills L. L. Board

A sampling of recent French film-making will be presented here Sunday evening, November 22. Shoot the Piano Player (1960) is the second film made by director Francois Truffaut, already known for his 400 Blows, Chateau d'Antony and Marie du Bois play the leading roles in this new-wave film. Also to be shown is the short Maple Mountain, an interpretation in color of the Pyrenees region of France, made in 1961 by Robert Enrico. These films will be shown in Smith Auditorium at 8:15 p.m. Sunday, November 24.

Attention White Key

The fall sports season has been a success. It's history now, the awards have been made, the All-Maine teams have been selected and we can be proud of one of the most successful variety seasons the school has enjoyed in many years.

This column is not spacious enough to list completely the ambiguities and contradictions that run rampant through the constitution and by-laws of the White Key.

The first and most glaring ambiguity is in Article IV sections 1(a) and 5 that have to do with eligibility. If these sections are taken at face value, for example, a man playing varsity soccer cannot under any conditions play interfraternity football whether or not he has his varsity coach's permission.

This past football season on the Pickard Field gridiron has called attention to some other rules that appear to need clarification anyway, if not extensive revision. The first of these is the question of this year's abbreviated end zone.

These are just several among many rules of the White Key, both the validity and the value of which we feel can and should be challenged.

Maybe if the Blanket Tax Committee could somehow make appropriations for three stopwatches even the running time rule could be done away with as it should be.

The White Key is a vital institution on this campus. We hope it will take criticism and suggestions in the spirit in which they are given, will take the action it deems necessary, and remain an institution we can be thoroughly proud of.

This week the Pat On The Back goes to those men who were awarded at last night's banquet: Dave Andrew, Frank Drigotas, Ed Bell, and Bill Horton. CONGRATULATIONS!

Sports Awards Announced At Banquet

Andrew, Drigotas, Bell, and Horton Presented Fall Sports Trophies

Letters And Numerals Earned By Seventy Men

Four Polar Bears Named All-Maine

Full Schedule Facing Mermen

WIN SPORTS AWARDS - The following were presented with awards at the Sports Banquet held last night: Frank Drigotas, Dave Andrew, Ed Bell, and Bill Horton.

Malcolm E. Morrell, Director of Athletics at Bowdoin College, announced today that a total of 70 letters and numerals have been awarded to Bowdoin varsity and freshman football players.

Varsity football letters went to the following members of Coach Ed Coombs' freshman team: Wayne M. Burton, Captain Frank M. Drigotas, William F. Farley, James B. Haddock, Frederick B. Harlow, Robert E. Harrington, Robert L. Hooke, Jr., Steven K. Ingram, Stephen J. Krieko, James W. MacAllen, William R. Matthews, Jr., William F. Minnis, H. Allen Ryan, Barry W. Smith, Paul W. Soule, David W. Stocking, Eaton W. Tarbell, Jr., Thomas J. Zilinsky, and Varsity Manager John E. Carleand, III and Freshman Manager Frederick J. Fassano.

Varsity cheerleaders letters were awarded to David T. McDowell, Craig F. Magher, John T. Sammis, John O. Scherer, Robert C. Taylor, and William C. Thwing.

Four members of Bowdoin College's state championship 1963 football squad have been named to the All-Maine teams selected by the state's two largest newspapers.

They are Captain Frank Drigotas; an end; tackle Dave Andrew; quarterback Bob Harrington and halfback Paul Soule.

All four were selected for the all-state squads announced separately by the Bangor Daily News and the Portland Sunday Telegram.

On Friday Nov. 8, the Cross-country team lost its last meet of the year to the University of Vermont's Gerry Stovell who finished the 4.3 mile course, Stovell was followed by Bowdoin's Captain Bert Babcock, Dick Howe, 4th, Tom Chamberlin 7th, Chris Retshert 10th, and John Wilson 11th finished out the Bowdoin scoring.

First All-Maine Soccer Team Named

Maine State Series soccer coaches met this week to pick the first annual All-Maine Soccer Team. Following are their selections:

Table listing the First and Second All-Maine Soccer Teams with player names and positions.

All four of Bowdoin College's most prized fall sports trophies were awarded last night to Dean's List students who are also leading athletes.

They are David P. Andrew, Frank M. Drigotas, Edwin D. Bell, and William H. Horton.

The presentation ceremonies were among the highlights of the program for Bowdoin's annual Fall Sports Award Banquet in the Mount Union.

The principal speaker was Professor Herbert Ross Brown, Chairman of Bowdoin's Department of English.

The Master of Ceremonies was Dr. Daniel F. Hanley. Other speakers included Malcolm E. Morrell, Director of Athletics, Rels Corey, head football coach; Charlie Butt, soccer coach; and Frank Sabasteanski, cross country coach.

Andrew, a senior tackle and All-Maine selection, received the Winslow Robinson Howland Memorial Trophy, which goes to the varsity football team member who has made the most marked improvement and who best exemplifies the qualities of aggressiveness, cooperation, enthusiasm for the game and fine sportsmanship.

A pillar of strength in Bowdoin's line, Andrew was recently named to both the Bangor Daily News and the Portland Sunday Telegram All-Maine teams.

Drigotas, a senior end who was captain of this year's squad, was awarded the William J. Reardon Memorial Football Trophy, presented to a senior who has made

This year's recipients are varsity players Stephen K. Ingram, a junior guard, and Robert E. Harrington, and freshmen Paul W. Newman, and Thomas H. Allen, a freshman.

Varsity Soccer Letters Awarded To Twenty-Two

Varsity letters were presented to the following members of Coach Charlie Butt's varsity squad: Charles L. Allen, Raymond A. Bird, Geoffrey W. Chapman, Co-Captain J. Stephen Cotner, Frederick C. Copeland, Jr., Richard A. Diefenbach, John A. Doig, Edward M. Fitzgerald, Gerald F. Glesler, Hans M. Gutkowski, Jr., Y. Fitzhugh J. Hede, Co-Captain William H. Horton, James M. Lister, Russell E. Miller, Charles W. Phillips, Chriss M. Rames, Charles Rosenberg, James C. Rosenfeld, Steven R. Siegel, Peter W. Stonebraker, John W. Tarbell, Jr., Steven J. Wells, and Manager Andrew G. Leeb, who was reelected varsity soccer manager for the 1964 season.

BOWDOIN'S PASSING OF 'TILLY', TEACHER AND FRIEND

Dynamic Chairman of Bowdoin's Music Dept.

Dies at Age of 66 In Portland Hospital

Professor Frederic B. Thornley Tilton, one of Bowdoin's best-known and best loved faculty members, died at the age of 66. Affectionately known to generations of Bowdoin men and their families as "Tilly," he was Chairman of the College's Music Department and had been a Faculty member since 1908.

Professor Tilton's death added new sorrow to a Bowdoin campus already shut down to mourn the death of President Kennedy. The Bowdoin Chapel Bell, which tolled for one hour during the funeral of the late President, resumed its slow pealing — this time in memory of Professor Tilton.

President Cole issued the following statement: "To the College Community already mourning with the nation comes further grief in the death of one of Bowdoin's most beloved professors, Frederic B. Thornley Tilton. Tilly, as he was known to his many friends, was a dynamic and productive years on the Faculty, brought to the College, and to Brunswick, not only new insights and new vitality but also new vigor, but also widespread joy in music through his personal participation.

"His spontaneous enthusiasm and his warmth of personality truly made Bowdoin a singing College." His artistry as a pianist brought new beauty to all who heard him play. His classroom teaching brought to hundreds of students an enjoyment and understanding of music that was to be theirs always. We all mourn his death.

With Tilly as its director, the Bowdoin Glee Club gained a national reputation as one of the finest musical organizations of its kind, establishing Bowdoin's tradition as "A Singing College."

In 1961, on the 50th anniversary of the Glee Club, he retired as its active director after a typically triumphant season that included the Club's fourth concert in New York's Town Hall and its 14th appearance with the Boston Symphony "Pops" Orchestra.

For more than a quarter of a century, Bowdoin's audiences were accustomed to hearing Tilly's name to "Bravo" punctuated the applause for outstanding performances by musicians.

In 1948, at the end of Professor Tilton's first decade on the campus, he outlined 16 needs that had to be filled to give Bowdoin a total music program. In a booklet, "Ten Years of Music at Bowdoin," the needs were shown to range from an additional teacher in the Music Department to a Music Building in which to house the rapidly growing musical activities.

Tilly's hopes were realized by 1954 when the needs were filled by the establishment of a Music Department to a Music Building in which to house the rapidly growing musical activities.

rooms, a recording room, a Glee Club amphitheater, a music library and a variety of other aids to teaching and study of music.

One of Professor Tilton's fondest dreams became a reality in 1962 with the establishment of a scholarship bearing his name to assist students interested in pursuing musical careers. He had sought such a scholarship for many years but the first actual step towards its creation came as a surprise to him in 1960, when Bowdoin's Glee Club presented him

with a check for \$100 and a statement which said in part: "A man of warmth, friendship, and humanity, Tilly has long dreamed of such a fund. It is our hope that this fund will grow and flourish like Tilly's ever-widening circle of friends and admirers."

Donahue is working with the Dean's List and won the College Achievement Award in 1962. The program, supported by an Undergraduate Science Education Grant from the National Science Foundation (NSF), enables gifted students to advance as independent scholars through creative studies under the minimal supervision of faculty members.

The four students, all mathematics majors, are Edward C. Donahue and William C. Rounds, both seniors; and Steven K. Ingram and Clayton R. Lewis, Jr., Juniors.

Students And Associates

Recall The Man And His Career

Many people knew Professor Tilton, but none here at Bowdoin held him in higher esteem than the people who worked with him.

Art O'Leander, a music major, head of the Meddies and the Band, perhaps knew him better than any other student presently at Bowdoin. "I can't over-emphasize the fact that Professor Tilton would always support anything that had to do with music or Bowdoin. He would never let you down."

Continuing, he stated: "Tilly was one of the most inspirational of men I have ever known. He had tremendous enthusiasm. Bowdoin owes him so much, too, for instance the Meddies which he started in 1937. His classes were especially amazing. You could sit at his lectern and he was genuinely interested in music and generated enthusiasm throughout the classroom. I never hesitated to talk to him, for he was always eager to be with people and was ready to advise."

Although he only knew Professor Tilton for a few years, David Jesse, his secretary felt that she knew him well. Looking back, she said: "The most outstanding thing about him was his personality. That he was so warm and friendly. The unique thing about him was that he appealed to men and women equally well. The thing that struck me most about him was that he was a tremendous morale booster. He made it so easy for you to realize your potentialities." In her admiration for Tilly, she went on to say: "He was one of the most warm-hearted and open personalities. He would walk into a room and you'd feel that you had known him all your life. And the funny thing was that he couldn't remember names. He hardly made a difference, for he was the biggest ball of fire around. The only thing that I regret is that I could have known him before this short time that I worked with him."

Council Blames Students For Beta Petition Failure

It was admitted at Monday's Student Council meeting that the Beta Petition, as it now stands, has very little chance of approval by the Administration. Student Council President Pete Seaver himself confessed that "We've ruined our selves this Fall."

Seaver complained of the irresponsible behavior of the Student Body and said, "We're screaming for more responsibility and we deserve it." He reported to the Council that the Alumni and Faculty "would rather see statements on housing for dates, stage, and invited guests."

Seaver commended the student committee which presented the Petition to the Faculty. The responsibility, he felt, for any action now rests with the Administration.

STATUS DISCUSSED The Council then discussed the status of the Petition, at length. Jeff Lang of the Beta House declared that there is "a need for a committee to investigate student life, to investigate the roydian and the valedictorian's behavior but can make it appear in the students' eyes that it isn't right."

Lon Poucher of Phi Delta Psi, however, defended the Student Body's actions on the grounds that "gross behavior is only a manifestation of the 'house' social atmosphere."

HONOR SYSTEM The discussion was followed by a report of the Honor System Committee chairman, Steve Blumberg, who assured the Council that his Committee's findings would be made available next week. He called the adoption of an Honor System a "problem of education."

OBSEQUIES Steve Putnam of the Orientation Committee informed the Council that his committee's report has been passed by the Fall Advisory Council on Orientation and would be up for debate in the Council next week. He reported that he was "happy to see the Dean give us our responsibility back."

USAF Recruiter Here Lon Poucher of the Chapel Committee reported that the Dean's poll of the Pentagon's officials has found the other schools "quite better than non-military schools."

Junior Class Elections

The Junior Class Elections will be held this Wednesday and Thursday in the Moulton Union from 1:30 to 4:30 in the afternoon.

Petitions of candidates for President, Vice-President, Secretary and Treasurer are due in by this Monday. Election results will appear in next Friday's issue of the ORIENT.

Early English Mystery Plays To Be Performed In Chapel

Two early English Christmas plays, "The Second Shepherd's Play" and "The Sacrifice of Isaac," will be performed in the Chapel Dec. 11.

Professor George H. Quincy said only one performance, at 8:15 p.m., is presently planned but if more than 200 persons, all the Chapel organist, desire to see the shows there will be two performances that evening, at 7:30 and 9 p.m. The single or double performances will be open to the public without charge.

Professor Quincy asked that those interested in seeing the plays make reservations in advance, either by postcard which were found in manuscript form in Torrey Hall, Yorkville, England. The Bowdoin performance will be a modernized version by John Ossamer.

There will be radio announcements made as to whether there will be one or two performances, over WCMC Brunswick, on Friday, Dec. 6, at noon; and over WFOR the same day at 6 p.m. The weekly College Calendar will also carry live information.

Professor Quincy said the authors of the two plays are unknown. "The Second Shepherd's Play" is so named because it was the second of two plays dealing with the birth of Christ and the adoration of the shepherds which were found in manuscript form in Torrey Hall, Yorkville, England. The Bowdoin performance will be a modernized version by John Ossamer.

There will be radio announcements made as to whether there will be one or two performances, over WCMC Brunswick, on Friday, Dec. 6, at noon; and over WFOR the same day at 6 p.m. The weekly College Calendar will also carry live information.

There will be radio announcements made as to whether there will be one or two performances, over WCMC Brunswick, on Friday, Dec. 6, at noon; and over WFOR the same day at 6 p.m. The weekly College Calendar will also carry live information.

Donahue, Rounds, Ingram, Lewis In Math Study Program

Four students have been selected as participants in the Independent Study Program in Mathematics conducted at the College, Professor Dan E. Christie of the Mathematics Department announced today.

The program, supported by an Undergraduate Science Education Grant from the National Science Foundation (NSF), enables gifted students to advance as independent scholars through creative studies under the minimal supervision of faculty members.

The four students, all mathematics majors, are Edward C. Donahue and William C. Rounds, both seniors; and Steven K. Ingram and Clayton R. Lewis, Jr., Juniors.

Donahue is working with the Dean's List and won the College Achievement Award in 1962. The program, supported by an Undergraduate Science Education Grant from the National Science Foundation (NSF), enables gifted students to advance as independent scholars through creative studies under the minimal supervision of faculty members.

Donahue is also a top-ranking scholar and athlete. He was a member of both of Bowdoin's 1963 Maine State Championship football and basketball teams and also won the letter in the hammer throw on the track squad. He is a James Bowdoin Scholar, on the Dean's List, and has been designated a James Bowdoin Academic Achievement Award and is President of Sigma Nu Fraternity at Bowdoin.

Lewis, an athlete and high ranking scholar, has been designated a James Bowdoin Academic Achievement Award and is President of Sigma Nu Fraternity at Bowdoin.

Lewis, an athlete and high ranking scholar, has been designated a James Bowdoin Academic Achievement Award and is President of Sigma Nu Fraternity at Bowdoin.

Lewis, an athlete and high ranking scholar, has been designated a James Bowdoin Academic Achievement Award and is President of Sigma Nu Fraternity at Bowdoin.

Lewis, an athlete and high ranking scholar, has been designated a James Bowdoin Academic Achievement Award and is President of Sigma Nu Fraternity at Bowdoin.

Lewis, an athlete and high ranking scholar, has been designated a James Bowdoin Academic Achievement Award and is President of Sigma Nu Fraternity at Bowdoin.

Plan Approved To Exchange Students With Morehouse

Proposed Program To Encompass Full Semester At Georgia College

Another Bowdoin-Morehouse exchange program has now become official with the receipt of an acceptance letter from Dean Brazel of Morehouse college. This program differs in one way from last year's; the exchange, involving about five men from each college, will be for the whole second semester.

The possibility of this exchange was proposed by a student Steering Committee on the Morehouse Exchange Program set up last year. Dean Greason was asked if the idea was feasible, spending one semester away from the college, and after consultation with the administration, said that the plan could be followed through.

Certain provisions have been made for the new program. Tuition, room and board for each Bowdoin man attending Morehouse will be paid by the college. The same will be paid to the college. The same stipend will be given to the fraternities to cover sleeping and eating privileges to the Morehouse students, the money given the college by the Bowdoin-Morehouse exchange will be given to the fraternities to cover the expense of the visiting men. The same will be true down at Morehouse.

Courses covered Course credits will be recognized by each college for the courses taken by the visiting students at both schools. A catalogue describing the courses offered at Morehouse is available at the Dean's office.

It is more than five men wish to attend classes at Morehouse for the second semester, a committee comprising three students and two faculty members plus the Dean of Students will select from among the candidates those who would be allowed to go to Morehouse. The faculty members on the committee are Prof. Moulton and Mr. Allen. The latter having received his A.B. from Morehouse.

After the committee has accepted the applications, final approval must be made by the Recording Committee. The price was \$125.00. Other finalists included Karl L. Anshenbach '66, Paul J. Karvitsky '66, Robert E. Pilmer, Jr., '66, Matthew R. Pincus '66, and Jonathan C. Stock '66.

Judges were George A. Ervill, Jr., '67, Robert E. Hart, '66 and Campbell B. Niven '63. Professor Albert R. Thayer of the Department of English presided at the finals.

The Fairbanks Prize Fund was established in 1909 by Captain Henry Nathaniel Fairbanks of Bangor, Maine, in memory of his son, Hildred Fairbanks, one of Bowdoin's Class of 1888. Income from the fund is used for a variety of public speaking awards at Bowdoin.

SO TUNE IN AGAIN NEXT WEEK WHEN BOWDIN COLLEGE OF BRUNSWICK MAINE WILL TAKE ON...

Aftermath

The following speech by Professor Lawrence S. Hall is reprinted as memorial to the late President, John F. Kennedy.

On Friday the twenty-second of November, 1963, these took place at midday, in the streets of Dallas, Texas, one of the most repulsive acts in human history.

But the people whose indignation, in the face of one act of premeditated lawlessness upon another, do not or cannot have been convinced.

In their struggle for the human spirit the energies of evil destroy one another and merely recur, those of good smother one another, and each time bit by bit, are reinforced.

Be this as it may, the real issue still concerns about the fact that these establishments are woefully inadequate.

Editor's Note - The following schedule is subject to some slight change. However, the final selection will be published sometime before the end of the first semester, reports Prof. Whitelide, the Center's director.

Summary of Expected Senior Seminars
Fall '64 December 6, 1963 Spring '65
ART: Team: The Artist as Social Commentator and Critic; Cornell: The Emergence of Michelangelo: His Art and its Relation to the Culture of his Time.
BIOLOGY: Howland: The Revolution in Biology: The Impact of Information Theory; Huntington: Natural Regulation of Animal Populations.
CHEMISTRY: Root: The Rise and Fall of the Aetne Empire; Hiebert: A topic is expected; it will probably deal with the problem of measurement in science.
CLASSICS: Dane: Greek Mythology and Living Literature; Ryan: From Paganism to Christianity.
ECONOMICS: Note: Topics not yet chosen - available shortly before Christmas.
ENGLISH: Coxe: Poetry and Poetics.
GERMAN: Koeln: Richard Wagner as Philosopher, Musician, and Cultural Force (with Beckwith of Music Dept.).
GOVERNMENT: Daggett: The Supreme Court and the "First Freedom".
HISTORY: Whiteside: Social Darwinism; Bears: The Concept of Empire in British Thought.
MATHEMATICS: Christie: Chance and Entropy.
MUSIC: See comment under "German"; it is hoped that at least one seminar besides that on Wagner can be given.
PHILOSOPHY: Pols: The Body-Mind Problem; McGee: Mirror of Morals: Philosophy in Contemporary Literature.
PHYSICS: Little: The Special Relativity Theory.
ROMANCE LANGUAGES: Kamber: Humanism and the Continental Renaissance (c. 1400-1600).
SOCIOLOGY: Royster: "Sociological Analysis of Conflict".

Editorials

In Memoriam

Every campus in the nation was shocked by the news, on November 22nd, that President John F. Kennedy had been assassinated. Bowdoin was no exception. We still are.

The tragic weekend had hardly drawn to a close when Bowdoin was dealt another bitter card by the Grim Reaper.

His field was music, and in it he was unsurpassed. Nearly a quarter century of Bowdoin graduates will vouch for that.

"And therefore never send to know for whom the bell tolls; it tolls for thee."

The Pest Of The Highways

Pancakes? You might as well order sponge rubber. A hamburger? Why not small charcol briques instead?

Actually the above culinary delights (plus many more) are not served up by Howard Johnson's exclusively, but are duplicated by many of the "new" eateries on the Eastern toll roads and interstates.

But even this government-sponsored monopoly would be tolerable if only the food were. Yet after several recent cross-country trips during which we were obligated to patronize the "Ho Jo's" we have still to receive a decent meal at one of them.

Not only are the portions not quite enough to satisfy your family cat, but the atmosphere is so conducive to dining. Due to the pile-up at the door you are seated at a table still populated by the leavings of the last party; if you are lucky the waitress may not spill them in your lap as she sweeps the table with a multi-colored diaphragm.

That bell has a story to tell, too. While you are standing in line at one of these toll road restaurants sometime in the future, you might kill the time by keeping track of the totals as they are rung up. It should readily become evident that the reason for those orange roofs is to indicate "gold mine" below.

Most monopolies do earn money, but even great ones like the utility companies are regulated. A simple comparison with any restaurant in your home town area should indicate that these highway inns are doing a fantastic volume of business, yet there is no reason to suspect their rates of operation are any higher.

Letter To The Editor

To the Editor: Scanning the November 15 edition of the Orient, I was not surprised to discover that the principal source of campus controversy - compulsory chapel attendance and orientation - still are very much alive.

The statement quoted above assumes that "levelling" is a legitimate goal of an orientation program. That freshmen come to college to be leveled. That orientation should seek to eradicate that core of individualism, enthusiasm and self-confidence which every pledge carries with him - in varying degrees - to every college.

Intimidated pledges grow up to be unenterprising brothers. If the goal of orientation is to make everyone look, talk, act and think alike, then perhaps the orientation committee is heading in the right direction. But I'd no more want to make a freshman "realize his unimportance" than I'd want to minimize my grandmother (who's dead).

Working will happen until the college stops redefining and re-evaluating the problem and comes up with an answer to undergraduate protest. Even if that answer is the wrong one, at least you will know where you stand - an improvement on previous years.

As far as orientation is concerned, I believe the undergraduates are the most precious resource. The report of the 1963 orientation committee, as quoted in the Orient, is astounding.

Aftermath, as most people do not know, is a word which means "after-swinging" of a self-harvest. The report of John Kennedy's second harvest. The cutting down of this man, this president, cries out for it; the allies that he has left are what he demands it and makes it possible. What further causes his presidency would have served, his martyrdom will now inspire. Let the aftermath be

Notes And Comments

Tis The Season

By Jim Kelly

The streets were jammed with rush hour traffic. The five o'clock darkness crowded the last daylight from the patches of open sky visible above the office buildings running up Forty Second Street to Fifth Avenue.

The sounds of Christmas music and Salvation Army bells rose above the sounds of people, arms full of boxes, packages and shopping bags, hurrying to their trains and a hundred different communities lying outside the city.

It was Wednesday, the day before Thanksgiving, and the atmosphere had been pretty much the same in Boston the day before, when people hoping to get full advantage of their allotment of shopping days 'till Christmas, moved the Yuletide season just that much closer to Labor Day.

There was a different kind of intensity in New York on this day before Thanksgiving, however. The bagpipe hunters were out. By the dozens, indeed, they moved from Macy's to Stern's, from Bloomingdale's to Bonwit's.

Outside Stern's a blind man, playing an accordion, stood beside a Salvation Army bellringer. Directly opposite the pair on the other side of the Forty Second Street entrance, a threadbare Santa Claus stood behind his little red chimney, and rang his own bell. Behind him, but away from the revolving doors, out on the sidewalk, a young man was giving away hibiscus.

The same bellringers, or their brothers in the cloth, had been at work in Boston the day before, and would continue to do their soliciting every day until the 25th of December, when, ostensibly, their purpose would be fulfilled.

And so it went, in New York, in Boston, and in myriad other cities and towns, large and small, across the country. The holiday season was upon us, and this year it had come early.

There was a time when the day which more or less kicked off the Holiday Season was the day AFTER Thanksgiving, the traditional date for the high pressure Yuletide shopping drive. Now it seems a really rather odd, almost morbid, idea to have the shopping drive begin on the day before Thanksgiving, and the time December 25 does roll around, the same public heaves on collective sigh of relief, and starts shopping for spring and summer wardrobes.

Reams of copy have been written, and thousands upon thousands of words have been spent about the senselessness of corrupting the true meaning of the Holiday Season with overpressure, premature materialism and commercialism. In fact, it might also be mentioned that there is an equally senseless expansion of effort in trying to combat, let alone change the fantastic pressure applied by business to extend, to stretch out the highly lucrative Holiday Season.

That business should turn sentiment and/or religious feeling to profit is not one half so shocking as that people should not realize WHY the Holidays seem so anti-climactic when they finally do fall due on the calendar. The fact is, that for many of them, the Holiday Season has already been a month or two long. And pity the people who started laying away money for little Johnny's electric trains last April.

"Christmas? Christmas," said one tired harried saleslady in a Boston department store "comes in July now. The next thing people will want is a Fourth of July in December to make up for the one they miss by celebrating Christmas in the middle of the summer."

And in a cold, wintry New York rush hour we battled the flow of pedestrian traffic. The giant Christmas tree in Rockefeller Center was lighted, and this was the first and last chance we would have to see it.

Tillotson . . . from P. 1

able to hear the best in music on the campus.

Received Doctorate

In recognition of his tireless efforts in behalf of musical development, Bowdoin awarded Professor Tillotson the honorary degree of Doctor of Music in 1964 in a citation accompanying the degree. Professor Tillotson was a member of the Music Educators' National Association.

Professor Tillotson was a member of the Music Library Association, the Music Educators' Association, and the Music Teachers' National Association.

Pallothers at the funeral services were President Colts, Dean Nathaniel C. Kendrick, Professors Robert Leitch, Charles H. Hines, and George H. Quibby, Malcolm E. Morrell, Dr. Dana's F. Hanley and David W. Burnett.

Services were held Nov. 27, in St. Paul's Episcopal Church, Brunswick, with the Rev. Llewellyn O. Diplock, Rector, officiating. Professor Tillotson was buried in the Department was the organist and the Bowdoin Chapel Choir, which Professor Tillotson founded, sang.

A native of St. Louis, Mo., he received his early schooling and training in music in Denver, after having graduated from the East Denver High School. Professor Tillotson studied at the New England Conservatory of Music and in London, England, at both the Royal Academy of Music and the Majesty Pianoforte School.

He began his teaching career as an instructor at the Loney School of Music in Boston. In 1924, the following year he joined the faculty of Boston University's College of Music, and in 1930 the music faculty of the Bowdoin School, also in Boston. He continued to serve alternately in the three institutions, as well as in the Denver Conservatory of Music during 1929, until he came to Bowdoin in 1935.

With Many Symphonies

Professor Tillotson was a favorite of Boston concert goers since 1921, when he gave his first piano recital in that city. He later was a soloist many times with the Boston Symphony Orchestra and the Boston "Pops" as well as with other leading American symphony groups.

For many years, Professor Tillotson appeared with the famed Curtis String Quartet in its annual Bowdoin appearances. In addition to extended concert tours of this nation, he performed twice in Queen's Hall, London.

He toured the eastern states with various groups playing chamber music, a form that interested him for many years. Professor Tillotson made many recordings and appeared on national radio network concert programs. In addition to concert he played at Town Hall in New York City.

McAbee Wins Annual Scholarship By Zetes

Edward A. McAbee, Jr., a member of the Class of 1968, has won the 1968 Scott C. W. Simpson Scholarship Award of Lambda Chapter, Zeta Psi Fraternity.

The award is presented annually in memory of the late Mr. Simpson, a member of the Class of 1903, to the freshman who, as a member of the fraternity, achieves the highest academic grades of his class.

The presentation is made during the semester following the recipient's freshman year.

McAbee also was named winner of the 1969 Otter Cushman Hornell Cup this fall. The Cup is awarded annually to a member of the previous freshman class who has combined outstanding academic achievement with participation in competitive athletics.

The youth was a member of Bowdoin's 1963 Maine State Championship football squad, for which he received his varsity number. He won freshman numerals in both football and golf.

He has been a Dean's List student and late October was designated a James Bowdoin Scholar in recognition of his academic standing. He is a member of the Otter Club.

Christmas Exhibit Opens At Art Museum

An exhibition of prints and drawings, as well as a complete set of 20 of line drawings, featuring a series of woodcuts by Albrecht Dürer, is now on display at the Museum of Art.

The exhibit includes some 75 works by noted artists, all are from the Museum's collection and are hung in both the upstairs and downstairs galleries, according to George Emswiler, Curator of the Museum. The Museum is open to the public without charge.

The Durer woodcuts, which are the downstairs exhibition will remain on view for the first time in many years.

Among the other artists whose work is being shown are John Singer Sargent, Augustus Saint-Denis, Edvard Munch, Georges Rouault and Picasso.

The show in the upstairs gallery will continue until Dec. 24, while the downstairs exhibition will remain on view indefinitely.

\$30,000 Scholarship Fund Available For N.H. Students

The College today announced the establishment of an endowed scholarship fund for New Hampshire young men as the result of a \$15,000 matching grant from the New Hampshire Charitable Fund.

Wolcott A. Hestanson, Jr., Bowdoin's Executive Secretary and Director of the College's current Capital Campaign, said it is the first such Bowdoin scholarship for boys from New Hampshire. He said the matching grant was presented to Bowdoin after alumni in New Hampshire contributed a like amount.

The new scholarship fund, totaling \$30,000, will currently produce approximately \$1,000 income annually. "Over the years, many young men from New Hampshire will benefit from the generosity of Bowdoin alumni and the New Hampshire Charitable Fund," Mr. Hestanson said.

Officers of the New Hampshire Charitable Fund offered the \$15,000 grant to Bowdoin last April and attached only one condition - that Bowdoin alumni living in New

Hampshire contribute at least \$15,000 for the same purpose to their state's mater's Capital Campaign.

Bowdoin alumni were given until Jan. 1, 1968, to raise the required amount.

They beat that deadline by more than 13 months and a significant number of alumni in the Granite State have yet to be contacted.

Additional contributions will enable Bowdoin to increase its scholarship assistance to New Hampshire students.

Mr. Maynard H. Hesse, Jr., of Concord led the successful fundraising effort among alumni in New Hampshire. Officers of the New Hampshire Charitable Fund include President James S. Barker of Concord, Vice President James R. Carter of Nashua, and Treasurer Dr. Clinton E. Mullins of Concord.

Let us help you plan your printing as well as produce it . . .

Our long experience in producing the following and other kinds of printing for Bowdoin men can show you short cuts in time and save you money.

Erish Heller

A well-known author and Professor of German, who fled his Czechoslovakian homeland when it was invaded by the Nazis, will lecture Dec. 13.

Professor Erish Heller of the Faculty of Northwestern University will speak on the subject "The Importance of Nietzsche" at 8:15 p.m. in the Moulton Union Lounge.

Professor Thomas A. Riley, Chairman of the Department of German said all those interested are invited to attend the lecture.

At present Professor Heller is Carnegie Visiting Professor of Humanities at Massachusetts Institute of Technology. He will be introduced for his Bowdoin lecture by Professor Fritz C. A. Koelln of the German Department, which is sponsoring the address.

The visiting speaker is the author of "The Disinherited Mind," published in 1952; "The Hazard of Modern Poetry," 1953; "The Ironia Germana: A Study of Thomas Mann," 1958; and "Essays on Modern Literature," 1968.

Professor Heller, who is especially interested in modern literature and thought, was born in Czechoslovakia. He attended both the University of Prague and Cambridge University in England. With the coming of the Nazis in 1939, he left Prague and took refuge in England where he taught at Cambridge and later at the University of Wales.

In 1963, he was appointed Visiting Professor in German Literature at Harvard University, and in 1967 he went to Brandeis University as Ziskind Visiting Professor. During the past summer he was Visiting Professor of German at Heidelberg University in West Germany.

Professor Heller was assistant curator of the Herbarium of the Arnold Arboretum of Harvard University from 1936 to 1938 and Curator until his retirement in 1940. In 1934 he was named Associate Professor of Entomology and after his retirement held the rank of Emeritus until his death in 1946 in his 86th year.

Professor Rehder was assistant curator of the Herbarium of the Arnold Arboretum of Harvard University from 1936 to 1938 and Curator until his retirement in 1940. In 1934 he was named Associate Professor of Entomology and after his retirement held the rank of Emeritus until his death in 1946 in his 86th year.

Davis . . . from P. 2

Negroes. In some cases the Swarthmore students followed up the visits with letters, depending on how good the prospects were.

We feel that this program could and should be adopted by Bowdoin. A short time ago we talked with Mr. Shaw and President Coles about the problem and about this idea as a solution. Both felt there was merit to the idea and that it should be given a chance. We have since been instrumental in planning the Swarthmore admissions department, so we know a good deal more about the difficulties than did Swarthmore at the inception of their program.

We have talked with several members of the faculty and have developed what we think is a good, workable approach.

The initial difficulty is time. For the program to work the high schools must be visited during that short period when Bowdoin has begun Christmas vacation and most high schools haven't; that is, from the 17th to the 21st of this month.

We have scheduled an opening meeting for four o'clock on this Tuesday, December 16th, when I will explain our ideas in detail, answer all questions we can, and enlist the help of all interested students. Some of the faculty who have been instrumental in planning this project will be there, and we hope the admissions department, in spite of a busy season, will be represented. The most important people in the room, however, will be the students, for without student support this program cannot work.

CHAPEL PANEL IS POSTPONED

The panel discussion, featuring President Coles and Dean Grosvenor, which was scheduled for this coming Monday has been postponed due to the closure of the Faculty to review the proposed changes in the Chapel program before making any statement.

Mr. Johnson disclosed the gift at which an overwhelming majority of Delta Upsilon members voted their approval. "We are happy that we are able to donate the building to the College and we are also happy that the historic structure which was the home of so many of us when we were students will continue to be used as a fraternity house," Mr. Johnson said.

President Coles expressed his personal gratitude and that of the College to Mr. Johnson, Mr. Marshall and Mr. Cowan, "and other officers and members of the Delta Upsilon Chapter House Corporation who have lived in the Delta Upsilon House, and to the welfare of the College."

Peter B. Morgan '64, current undergraduate President of Delta Sigma Fraternity, said "All of us want to express our sincere gratitude to the Delta Upsilon Chapter House Corporation for its sympathetic and understanding attitude in this matter. We hope that all members of Delta Upsilon will always regard the building at 259 Main Street as their home whenever they return to the Bowdoin campus. They will always be welcome here and we hope that many members of Delta Upsilon will feel welcome to join any new corporation established to provide the alumni leadership we need and appreciate so much."

Bowdoin's Delta Upsilon chapter distinguished itself from the national organization in 1961, when students founded Delta Sigma. However, the Delta Upsilon Chapter House Corporation has retained the title to the property through the years and has supervised its financial affairs.

The building, one of Bowdoin's most attractive fraternity houses, was moved in the early 1960's from its former location on Cumberland Street in downtown Brunswick to its present site at the edge of the Bowdoin campus.

Rehder Book Fund Established As Memorial

Rehder, of the famed American botanist, the late Professor Alfred Rehder, has honored his father's memory by the establishment of a Library Fund at Bowdoin College. It was announced recently.

Known as the Alfred Rehder Library Fund, it was founded by Gerhard O. Rehder, Bowdoin graduate and former faculty member who is now on the faculty of the Bowdoin Latin School, Westborough, Mass.

When an initial gift of some \$500, Mr. Rehder said he expects to augment the fund from time to time. According to the terms of the gift, income from the fund is to be used for the purchase of books in any field, or for any other important library need.

Richard E. Harwell, Bowdoin's Librarian, said "The idea of the organization of the Bowdoin College Library in anticipation of moving into a new building, gifts for the purchase of books are more than ever welcome. It is particularly pleasing to learn of the establishment of an unrestricted fund such as Mr. Rehder's."

"The demands for library resources to meet the needs of the Senior Center Program and its activities will be great and can be met only with the help of gifts of this sort," Mr. Harwell added.

Both of Professor Rehder's sons are alumni of Bowdoin, Gerhard is a member of the Class of 1961, and Harold A. Rehder, who is Curator of the Division of Mollusks at the United States National Museum of the Smithsonian Institution, Washington, D. C., as a member of Bowdoin's Class of 1959.

After being graduated from Bowdoin, Gerhard Rehder attended the Harvard Graduate School of Arts and Sciences, where he received his M.A. degree in 1958. He returned to Bowdoin serving as a Teaching Fellow in History during 1958-1959 and as an Instructor from 1959 to 1963. He then joined the faculty of the Cambridge School of Liberal Arts in Massachusetts where he remained until he entered military service in 1961. In the Army Air Corps during World War II, he emerged from service in 1946 with the rank of Captain. In 1947 he joined the faculty of the Roxbury School, where he has remained since as a History Master.

Professor Rehder was assistant curator of the Herbarium of the Arnold Arboretum of Harvard University from 1936 to 1938 and Curator until his retirement in 1940. In 1934 he was named Associate Professor of Entomology and after his retirement held the rank of Emeritus until his death in 1946 in his 86th year.

Know Your Bowdoin

The College Seal

ABOVE ARE THREE VERSIONS of the Bowdoin Sun as taken from old issues of THE ORIENT. They represent some unknown artist's impressions of the old seal.

In 1794, it seemed appropriate that Bowdoin, the easternmost college in the U. S., and the college on which the sun first shone, have the rising sun on its official seal.

Ever since, the college seal, endearingly called, in 1898, "the dear, stupid, and round old face," has remained the same. The only change in its appearance was a minor one which occurred inadvertently as the result of a proposal to change it entirely. We don't know who the "Helios" artist was; the only thing we do know is that he wasn't a Bowdoin graduate.

Despite contemporary beliefs, the seal did look worse prior to 1898. For a little over a century the seal remained a roughly hewn stamp of "affluence," but in 1896, the Governing Board drafted a Professor Johnson to add new life to the "sad looking circle." Three circles are better than one, so the next year saw Professor Johnson, ex-President Chamberlain, and Dr. Mitchell appointed to a committee to round out the ball of fire and improve its personality.

Mr. Algernon V. Currier, Instructor in Drawing, created a brilliant new seal which consisted "of a head of Helios on a metope as found at Ilion." More significant and meaningful today are his contribution of the "blood spots" of the face of the current seal which were supposed to represent the "fullness of learning."

"The fullness remains today, but most modern 'blood spots' require a mixture of raw eggs and fruit juice. Mr. Currier's foresight wasn't appreciated.

Helios, or Mr. Apollo, as he was fondly called, met the onslaught of enraged graduates who screamed tradition in favor of the "dear, stupid, and old round face." Apollo, the Greek god of youth and many beauty, inherently had definite advantages over the lonesome aut; yet, in spite of everything to be gained, he barely survived a year before being rejected. On Commencement Day, 1899, President Hyde joyfully announced that "the College seal is still the old seal."

President Hyde thus established the rising sun as the Seal of the easternmost U. S. college. Then, as today, tradition, thankfully, held sway.

D. S. House To Form New Corporation

The Delta Upsilon Chapter House Corporation gave its fraternity house to the College Saturday. The College said it will make the stateily old mansion at 259 Main Street available for continued use by Bowdoin's Delta Sigma Fraternity, which has occupied it for the past 12 years.

President Coles said the College is hopeful "that some new corporation might be formed consisting of recent as well as older alumni which could, in turn, receive and hold title to the property."

Announcement of Delta Upsilon's gift was made by Mr. J. Henry Johnson '34 of Palmouth, Maine, President of the Delta Upsilon Chapter House Corporation; Mr. T. Maxwell Marshall '30 of Portland, Maine, Treasurer; and Allyn Casper '37, Cowan '36 of Portland, Maine, Clerk.

Mr. Johnson disclosed the gift at which an overwhelming majority of Delta Upsilon members voted their approval. "We are happy that we are able to donate the building to the College and we are also happy that the historic structure which was the home of so many of us when we were students will continue to be used as a fraternity house," Mr. Johnson said.

President Coles expressed his personal gratitude and that of the College to Mr. Johnson, Mr. Marshall and Mr. Cowan, "and other officers and members of the Delta Upsilon Chapter House Corporation who have lived in the Delta Upsilon House, and to the welfare of the College."

Some Proposals

A recent editorial in this column pointed out the conflicts and inconsistencies existing in the rules and regulations of the White Key. Out of this has come a discussion on the condition of the interfraternity sports program in general. It can be stated that there are three basic areas which are in need of reform: the budget of the program, the standardization of all rules governing interfraternity sports, and the task of creating more interest in the program.

This year the proposed budget of the White Key was slashed by eighty dollars, resulting in a reduction of its expenditures and the efficiency of its program. For an example, basketball referees receive only seventy-five cents per game, a ridiculously low pay for the job. Complaints have already been made that the referees sometimes fail to show up for the games. Perhaps this trouble will disappear if their pay were raised to a level where it would be worthwhile for them to referee. This is not the only area where budget difficulties are brought to light. At a time when the student body is on the verge of increasing, it does not make sense to decrease the budget and thus limit the scope of the White Key.

The rules governing interfraternity sports are also in need of reform. As they stand now they are ambiguous in many places and utterly ridiculous in others. Too much rule interpretation is left up to the discretion of the referee who often is not quite sure of just what is happening himself. One of the major conflicts arose from the concept of running time. It is foolish and unfair to keep the clock running at all times during a game. Technically the winning team in football, basketball, or hockey can stand around and wait until time runs out regardless of how much time is left in the game. It would seem much more logical to use a uniform system of stop time in all sports, and if necessary, to cut down the playing time of each period. This is just one of the rules which needs standardizing in order to insure a fair outcome of a game.

Student interest could also be increased by enlarging the scope of fraternity athletics. An interfraternity swimming meet could be introduced along the same lines as the track meet. Regular competition could be increased to include sports of obvious interest such as tennis instead of the nearly forgotten sport of sailing. Finally, why not glamorize interfraternity sports a little? Have the various coaches pick an all-star team which would then be published in the Orient. Perhaps this team or the league champions could compete against a similar fraternity team from a neighboring college. A hockey game against a Colby team would greatly raise the prestige of interfraternity sports.

PAT ON THE BACK

This week the Pat On The Back goes to Frank Drigotas who continues to have honors heaped upon him. Frank was chosen as the New England winner of the National Football Foundation and Hall of Fame's Scholar-Athlete award. We extend our congratulations for this well deserved honor.

Coaststers Win Two: Height Crushes Polar Bears In Harvard, U. N. H. Contests

Bowdoin's varsity basketball team dropped its opening contests of the season Saturday at Harvard and New Hampshire. The score at Harvard on November 24 was 84-60 in favor of the Crimson team, whose superior height in the front court could not be made up by the smaller and less experienced Polar Bears.

Bowdoin, paced by the outside shooter Harley Schwadron and Mike Napolitano, was able to keep pace throughout the first half and trailed by only six points at the intermission. In these first two periods Bowdoin's play was marked by a strong defense and team hustle.

Bowdoin opened up the second half by narrowing the gap to four points, but from that time on they began to fall back and soon found themselves trailing by an unimpressive 19 points. The remainder of the game was evenly contested with neither team playing especially well. Sophomore Howard Paine was outstanding in the second half and led the Bowdoin scoring with 14 points. Mike Napolitano and Harley Schwadron also reached double figures.

Coach Ray Bicknell's charges played well in spots but had trouble coordinating their offensive efforts and were unable to put on any sustained drive.

On Wednesday, the Polar Bears travelled to Durham to play the University of New Hampshire. Bowdoin was playing under a handicap in that Dick Whitmore was nursing an injury in hopes that he will be able to play tomorrow against the Miles from Colby. The Polar Bears missed this junior star not only for his scoring, but also for his excellent ability to rebound.

The University of New Hampshire out rebounded and outshot Bowdoin to win 78-68. From the outset the Polar Bears took the lead behind the playmaking of senior guard Mike Napolitano. With five minutes remaining in the first half Bowdoin led 37-30. U. N. H. however suddenly became hot and scored 18 straight points to give them the lead at half-time 58-37.

In the second half the Polar Bears tried to use a midcourt zone press and this tactic tightened the gap to 7 points. Unfortunately they ran into another cold streak which allowed U. N. H. to increase its lead to 21 points. Behind the hustling of Ingram, Harrington, Napolitano, and sophomore Drigot Ledford, the Polar Bears narrowed the lead, but again to 16-40 as the game ended.

High scorers were Napolitano with 15 points, Steve Ingram and Bowdoin with 12, each.

With the return of Dick Whitmore, tomorrow's night game with Colby should prove to be a hard fought and exciting game.

Mermen Open Against UCONN

The Bowdoin College varsity swimming team opens its 1963-64 schedule with a home meet Saturday against a powerful University of Connecticut squad. The meet will be held at 2 p.m. in the Curtis Pool on Bowdoin's campus.

Connecticut's sprinters, distance swimmers and divers are expected to provide plenty of trouble for Coach Charlie Butt's Polar Bears, who lack depth in running time. One event fans will be watching with special interest will be the 100-yard freestyle, in which Connecticut's good sprinter will be challenging Bowdoin's Tim Robinson of Glens Falls, N. Y., New England champion and Bowdoin record holder.

Bowdoin Captain Pete Seaver of Loomis, Mass., is expected to face stiff competition in the distance races. Seaver holds Bowdoin records in the 200, 500 and 1,000 yard freestyle, 1,000 yard and 1,500 yard butterfly, Shawn Leach of Brockton, Mass., who holds Bowdoin's 200-yard breaststroke record, Dick Elliot of Milwaukee, Wis., Dick Lawrie of Winfield, Ill., and Bill Lynch of Forestdale, R. I.

Pucksters Return

Polar Bear hockey fans will get their first chance to watch the Bowdoin College varsity team in action in two consecutive home games this weekend.

The Polar Bears will entertain Norwich University Friday and American International College Saturday. Both games, to be played at the Bowdoin Arena, will start at 7:30 p.m.

Coach Eld Watson's Bowdoin squad is looking for its first victory of the season after losing to Brown 5-2 and Merrimack 5-3 in its first two outings. Bowdoin drew first blood in both of its opening games but the opposition came from behind to win.

The Polar Bears' passing is improving with experience, and close contests are expected Friday and Saturday. Norwich finished second in the Brown Tournament last year and AIC's 1962-63 freshman club was so good it whipped the West Point blues.

Bowdoin's first line is expected to consist of Dave Mechem, Capt. Tom Farrell and Ed Fitzgerald, Bill Matthews and Frank Yule will be on defense, with Dave Coupe in the goal.

The second line will include Fred Floom, Steve Herman and Bill Allen. Spelling Matthews and Yule on defense will be Bob Taylor, Fitzgerald, Floom, Matthews, Yule and Tom Oliver have each scored once for Bowdoin. Coupled with assists thus far have been Mechem, Oliver, Ben Soule and Barry Smith.

Frosh Hockey in Loss To Gloucester Sextet In Opening Game, 4-2

The Bowdoin Frosh lost their opening game Thursday to Gloucester High by a score of 4-2. The frosh were able to keep pace during the first period but were outmatched and outplayed throughout the rest of the game. Bowdoin scored first on a goal by Pete Chapman in the opening period, Ray Matthews was credited with the assist. At this point Gloucester's Ben Smith took over and scored the next four goals, two in each of the remaining periods. Andy Corsella rounded out the scoring for Bowdoin on a pass from Bob Swain with only a minute left in the game.

The frosh looked sluggish in trying to maintain an offense as they were repeatedly stopped by Gloucester's excellent backchecking.

Despite this loss, however, they appear to be in good shape. Ray Matthews' hat trick and the fine defensive work of both Fitzgerald and John Bonneau in an impressive 8-0 white-washing of Lewiston on Wednesday, indicates that they can play better than they did against Gloucester. If they can improve their passing game, the potential for an excellent season is there.

Canadian Leon Bryant personally photographed the Bowdoin hockey team last Saturday night. Bryant is the season poster for both clubs. Bryant's hat trick led the Bruins to a five-to-two victory. Sophomore Ed Fitzgerald scoring the first goal half way through the first period. Bryant then bounced back to assume a three to one lead at the end of the session. Bryant scored the first of these on a fine solo rush and then added a goal in each of the final two periods to conclude the scoring for the home team. The Bruins strove to one with five minutes remaining. Fred Floom drilled one home to make the final score five to two.

The fact that Brown is considered to be one of the top teams in the East would lead one to believe that our play was quite a bit more than adequate. One thing is for certain, if the goal-tending of Dave Coupe was indicative of things in the rest of the season, certainly may be bright. Coupe made some very high unbelievable stops, and in many ways is the reason for the closeness of the score.

At Another Monday night Bowdoin saw a three to one lead slip through their fingers in the final twelve minutes of the game, as Merrimack inflicted five to three loss on a game Bowdoin team. Tom Oliver opened the scoring in the first period, and Billy Matthews added another in the second. With two thirds of the fray history, Bowdoin led two to one. Frank Yule then netted a forty footer to give the Polar Bears a two goal edge. Then the roof fell in. Twelve minutes and four goals later Bowdoin left the ice on the short end by a five to three count.

Despite the two early losses, it must be pointed out that both Brown and Merrimack represent very strong teams. The knowledgeable fan will realize that both of these games show a marked improvement over the two pre-season scrimmages with Providence College. It is quite possible that the season may well turn into a very pleasant success.

Book Fund Made Part Of Memorial For Kennedy

"The President John F. Kennedy Book Fund" was established at Bowdoin College today as Maine's oldest institution of higher learning joined the world in mourning the death of the nation's murdered chief executive.

President James S. Coles of Bowdoin ordered adjournment of all classes and the closing of all offices during the funeral. Most of the College's usual activities were cancelled.

The book fund honoring the late President was founded by a Bowdoin alumna who requested anonymity. He established the fund with an initial gift of \$1,000 and invited others to contribute to it. Income from the fund will be used to purchase books for the Bowdoin Library's collections.

Hundreds of Bowdoin students, teachers, governing board members and visitors filled the College Chapel to overflowing as President Coles conducted a special memorial service. The historic Bowdoin Chapel bell, which tolled slowly when news of President Kennedy's assassination reached the campus, summoned shocked members of the College community to the Saturday service.

John In Symphathy
"With the peoples of the world, we join in sympathy for President Kennedy's family - his father and mother, who have been given bereavement for a son whose life was given for his country, for his sisters and brothers, and for his widow and children, who like us will carry their grief to the ends of their lives."

These were the words of President Coles, as he led the Chapel service on Saturday, November 23rd. After opening with the 90th Psalm, before a Chapel whose seats and floor were filled, he spoke of how the news of the assassination struck him in New York City. "And so it was for the country, in Brunswick, in Dallas, and in every part of our land. And so it was also for the entire world, with men of all beliefs, all nations, all colors and all tongues, united in grief and asking, 'Why? Why?'"

In speaking of the late President Kennedy, President Coles declared: "He was a living and directed intelligence. He read avidly with total recall. He wrote and phrased well. He loved life and loved people."

Bowdoin To Host Swim Clinic

The Maine Swimming Coaches Association will sponsor its annual swimming clinic at Bowdoin College Sunday.

The clinic, which will be directed by Bowdoin swimming coach, Captain J. Butt, who to have been held Nov. 24, but was postponed after President Kennedy's death.

High school coaches from all corners of the state are expected to attend the clinic, which will be held in Bowdoin's Curtis Pool from 1 to 4:30 p.m.

The program will include the latest techniques in training and conditioning, basic swimming stroke mechanics and swimming movies produced by Butt.

He will be assisted by members of Bowdoin's varsity swimming squad.

Capt. Drigotas Honored By Football Foundation

Frank Drigotas was recently one of nine top football players selected as 1963 recipients of the National Football Foundation and Hall of Fame's Scholar-Athlete Awards and the 5000 Earl H. Blaik Fellowships for graduate study.

Frank has been on the Dean's list three successive years while his efforts on the Polar Bear football team has earned him All-State and All-American honors for the past two seasons.

Currently making a name for himself at Mario's Pizza Place on the Bath Road he works 40 hours a week making pies and sandwiches. Drigotas also has the added responsibility of being the father of his seven week old son born to him and his wife, Connie.

He plans to go to Cornell next year to enroll in an ambitious four-year program in search of not only a law degree, but a master's degree as well in Public Administration.

Frank and eight other recipients of the Foundation awards and Blaik Fellowships, will receive their plaques and checks on Dec. 10 at the sixth annual dinner of the Foundation at New York's Waldorf Astoria.

Xmas... From P. 1

"It was probably acted by one of the guilds of Wakefield in the cycle of pageants telling Bible stories in pre-Elizabethan times," the Drama Director stated.

The play shifts from a broad farce of sheep stealing to an angelic call to the Manger in Bethlehem and is "as delightfully naive as the fact that the shepherds are all obviously good Christians in the beginning of the play, even before the Child is born," Professor Quinby said.

In contrast, "The Sacrifice of Isaac" is solemn and reverential in mood, he noted. A modernized version of the ancient play has been specially written for Maque and Gown, which will produce both plays, by A. William Bloom, Jr. of the English Department.

The cast for "Abraham and Isaac" includes: Abraham, Jack Henry; Isaac, Michael, Thomas; Angel, John Barnes; and Doctor, Steve Rand.

"The Second Shepherd's Play" features: First Shepherd, Arthur Sperry; Second Shepherd, The Real; Third Shepherd, Mark Smith; Mark, Morgan Grover; Gill, Mak's wife, Carol Jones; Angel, John Barnes; and the Virgin Mary, Carol Nink.

Dr. Sears Of Yale To Speak As Phi Beta Kappa Lecturer

BRUNSWICK, Maine — Dr. Paul B. Sears, Professor Emeritus from Yale University, a member of the National Science Board and of the Advisory Committee on Peaceful Uses of Atomic Energy of the AEC, will deliver the annual Phi Beta Kappa lecture on Monday, Jan. 6, 1964.

Professor Sears will speak on the subject, "Man and Nature in the Modern World." His discussion, illustrated with color slides, will be given at 8:15 p.m. in the Pickard Theater.

Professor Alton H. Gustafson, Chairman of the Biology Department, said that all who are interested in the 150 subjects of Natural History and Conservation are welcome to attend the lecture by Professor Sears, one of the most eminent authorities in the field.

Professor Sears will come to Bowdoin as a Phi Beta Kappa Visiting Scholar under the joint auspices of the College's chapter of the national learned society and the Faculty Committee on College Lectures and Councils.

Visiting Scholar Program The Visiting Scholar program was begun by the national society in 1956 to bring some of the nation's leading scholars to the campuses of colleges and universities where they take part in scholarly activities. Under this program, Professor Sears will remain at Bowdoin through Tuesday for consultations with students and faculty members. He will lead a major evening seminar on the scientific basis of conservation programs.

Professor Sears, a biologist whose particular interests are ecology and conservation, was Chairman of the Conservation Program at Yale from 1959 to 1960, when he retired. He has worked in the field of conservation in the United States, Central America and Europe and is the author of many books including "Deer in the Meadow," "Chimney Swifts," and "Where There Is Life."

Advanced Medal In recognition of his contributions in the field of science, last October he was awarded the first Richard Prentiss Medal for creative writing in the sciences. The award was inaugurated jointly by the Rockefeller Institute, the University of Pennsylvania, and New York University.

A native of Brunswick, Ohio, he received his B.S. degree from Ohio Wesleyan University, his Master's degree from the University of Nebraska, and his Doctorate in Botany from the University of Chicago. He holds honorary Doctor of Science degrees from Ohio Wesleyan and Lincoln College, and Letters degrees from Marietta College; and Doctor of Laws degrees from the University of Arkansas, Williams, and Wayne State University.

He began his teaching career as an Instructor in botany at Ohio State University in 1915, became an Assistant Professor at Marietta University in 1919, and Associate Professor in 1925. In 1927, he went to the University of Oklahoma as Professor and head of the Biology Department, transferring to Oberlin College in 1938, where he remained until joining Yale's faculty in 1940. At Yale, he was also Chairman of the Plant Science Department during 1952-56.

Professor Sears served as Botanist for the State Biological Survey of Oklahoma during 1950-53, and as Resident Associate at Columbia University in 1957-63. He is a member and former president of the American Association for the Advancement of Science, the American Ecological Society, a member of the Botanical Society, the American Academy of Science, and the American Society of Natural History of Mexico.

\$50,000 Given Center Campaign

President Coles announced recently that the James Foundation of New York, Inc. has awarded Bowdoin a \$50,000 grant toward the cost of constructing the College's Senior Center.

President Coles said this grant will provide "significant material assistance" to the program being undertaken by Bowdoin, speaking in behalf of Bowdoin's Governing Boards and Faculty. President Coles said it is very encouraging to have the support and interest of the James Foundation.

The James Foundation was established in 1941 by the will of the late Arthur Corlies James to carry on his many philanthropic activities. Mr. James built a large railroad empire during his lifetime but his interests also included holdings in silver, copper and gold mining concerns. A trustee of many philanthropic organizations, he was active in encouraging missionary and educational activities in this nation and abroad. Mr. James became a major force in the American Board of Commissioners for Foreign Missions.

Student-Faculty Committee Formed For Rules Study

The third of a series of meetings to discuss and promote the Beta Petition was held last Tuesday afternoon, December 10.

The first meeting had been called because it was felt that not enough action was being taken by the Committee on Student Life concerning the petition. It was decided that each of the attending fraternity presidents would sound out their respective houses on the Beta Petition to explain to the members of their fraternities what the Beta Petition involved and, more importantly, what it stood for. It was decided that the petition ought to be argued on its basic principle: "Bowdoin students should be given a sense of responsibility so that they could exercise it."

The second meeting was held on the Friday after the Thanksgiving holidays. The attending house presidents agreed they had met with a certain degree of success in discussing the petition with their fraternities and with their house advisers. It was noted that a great many problems are encountered as far as adhering to social regulations as Bowdoin becomes a lack of effectiveness on the part of the administration in explaining the rules to the students.

It was proposed that a special five faculty members be organized to discuss the Beta Petition, in particular, and social rules, in general. Last Tuesday, however, the committee was received. A joint session of the Student Council and the Faculty Petition Committee was held. The Dean will select the five faculty members. The meeting is scheduled for sometime after Christmas.

It was stressed in last Tuesday's meeting that 1/3 the students support the Beta Petition in construction of the Beta Petition. The committee will also be responsible for a more responsible behavior in order to strengthen the case for the petition.

It is also suggested that an inter-fraternity committee be formed to deal with problems extending beyond a house's limits.

Dean Discusses Parietal Hours

Questions concerning parietal hours in the upperclass and freshman dorms were clarified by Mark Barlow, Jr., Dean of the College. He said that parietal hours do not start until 8 p.m. on Friday because classes are in session until late Friday afternoon, and this time must be considered the convenience of the floor monitor if someone becomes unaware of the time. He emphasized that these signs are not sent to the dean's office.

He also said that there is no inequality between freshmen and upperclassmen although the freshmen have longer parietal hours until 3 a.m., and the freshman lounge closes at that time. Parietal hours are one hour longer in fraternity houses than in upperclass dorms on Friday nights of party weekends because fraternity houses contained more lively than the dorms, and men living in them would be more conscious of the fraternity rules than dorm rules, Barlow said.

Parietal hours in the future upperclass dorms have not yet been discussed. These dorms will be built in the future on the conventional corridor system, allowing more privacy and reducing the possibility of disturbing others in the dorm. His last house, Bowdoin from The Wesleyan Argus, Dec. 6, 1962.

MOREHOUSE APPLICATIONS Applicants and sponsors are required to have their applications submitted to the Morehouse College. The new law has been approved by the Board of Trustees.

Welcome Home!

Boys' Team Wins Bowdoin

Crowds cheering students welcome back their victorious College Bowl team shortly after midnight at the Memorial Union Lounge. In spite of the New York Times reporter who saw Bowdoin "falling" to host Ripon, the students seemed well pleased with the 378-145 score. The team returns this Sunday to meet Butler University of Indiana.

Last Sunday night millions of TV sets across the nation were tuned in on Bowdoin's smashing victory over Ripon College on the General Electric College Bowl. Bowdoin's team of Smith, Pierce, Mills and Bennett trounced its opponents by a score of 378 to 145, the second highest in the program's history.

That night saw Bowdoin's celebrate a dual triumph, first on the show and then with the students, who along with a brass band and President Coles and Dean Kendrick, turned out en masse on the steps of the Union to welcome them home.

After a rousing speech by Dean Kendrick, who credited the team with bringing "honor upon themselves and the College," the weary exhausted team attempted to answer the questions hurled from the growing crowd of students in the Union Lounge.

All that Mr. Calder, the coach of the team could muster, even though his face bore a broad grin, was a halting "I'm well pleased with their performance."

Through intense questioning it was discovered that the two teams were engaged in a series of three contests even before they went on the air. In their first game, the Bowdoin team annihilated Ripon with a score of 640 - 120 and then proceeded to completely demoralize the latter, this time by 329-100.

The third game proved to be a reversal, with Bowdoin getting 135 to Ripon's 175. But this did not cool the spirits of the Bowdoin squad who entered upon the official contest, by answering the first six questions.

Next week, Bowdoin will face Butler University of Indianapolis, Indiana, a seafarer "urban" university with an enrollment of between three and four thousand students.

Next week, Bowdoin will face Butler University of Indianapolis, Indiana, a seafarer "urban" university with an enrollment of between three and four thousand students.

NOTICES

Color Television In Pickard Theater

Due to the overlapping calendar in the Memorial Union Lounge last Sunday evening, this week's performance of the College Bowl team may be viewed on a color set in Pickard Theater, Memorial Hall.

Tickets Available For Bowl Show in N. Y.

Mr. Kamin of the College News Service announced that he is holding a limited number of tickets for the G. E. College Bowl, originating from the RCA building in Rockefeller Center, N. Y. These will be available on a first-come-first-serve basis until Saturday noon at the College News Service offices in the Ham House, (Opposite the First Parish Church on the Bath Road). After Saturday noon they will be available from Pete Seaver at the Kete House.

Recruitment Program A meeting will be held for all those interested in the proposed 1964 recruitment program in the faculty room at Mass Hall. Attending will be the Dean of Admissions.

Beta House Placed On Social Pro For Having Dates On 2nd Floor

Following the recommendations of the Student Judiciary Board, Dean Gresson yesterday put Beta House on probation for social dates of men from other fraternities in the house either if these restrictions are violated "the house go on probation for one year from the date of the infraction and/or the individual will be suspended from the college."

According to the Dean, the night watchman found two date upstairs and one in the kitchen of the Beta house. On the same house he also discovered a date downstairs in each of two other houses, DIK, and A.D. (Action against the man in the latter house was dropped, also on the recommendation of the Student Judiciary Board).

Social probation, as interpreted by the Dean means, "Unmarried females between the ages of 18 and 21 will be persons seen guests at the Beta house until the end of the probationary period." He added that this means women would also be on dates of men from other fraternities in the house either if these restrictions are violated "the house go on probation for one year from the date of the infraction and/or the individual will be suspended from the college."

The Dean also pointed out that the penalty would in no way interfere with the intramural athletic program participated in by the Beta, nor would it prohibit the traditional Christmas parties held for needy children in the area.

Reasons for Enrollment To Be Actively Sought

Dr. Paul B. Sears, Professor Emeritus from Yale University, a member of the National Science Board and of the Advisory Committee on Peaceful Uses of Atomic Energy of the AEC, will deliver the annual Phi Beta Kappa lecture on Monday, Jan. 6, 1964.

"Why should we be interested in getting qualified Negro applicants for Bowdoin?" asked Davis. "The best of three reasons is given by President Coles who feels that the atmosphere of Bowdoin is unrealistic. The President feels that the College is doing a disservice to its students by having an almost total white atmosphere." Davis went on to explain that Bowdoin graduates will be facing a world in which he will be in constant association with Negroes and that Bowdoin must prepare its men for living in a mixed society.

Will Fight Parochialism A second reason which Davis gave was that the College generally wants to interest Negroes in Bowdoin and thus help to further the integration of 1963 although not integration. The third reason is that a more integrated atmosphere would serve to fight parochialism which the president, Bowdoin, has been tending to create. Thus, instead of being an almost all-white college in a remote area, Bowdoin would tend to become more universal in scope.

Davis explained that the idea for this plan has originated from Swarthmore College in Pennsylvania, a school which became integrated in 1949 although it had a firm Quaker foundation before that time. Starting in 1947, Swarthmore students went to visit high school guidance counselors in the hope of recruiting Negro applicants. Unfortunately, the ambitious students did not have letters of recommendation from the Administration Department at Swarthmore and thus were not able to establish firm contacts at the various high schools, also. The guidance counselors learned this more which seemed to question their abilities. But in 1948, with the needed letters of introduction from the Administration Department, Davis made a great deal of progress and had been successful ever since.

Simon Best, head of the Department of the American Academy of Arts and Sciences, the Massachusetts Historical Society, the American Sociological Association, of which he was vice president in 1962-63, and of the American Anthropological Society.

President Form Interfrat Council At a joint meeting last night of the Student Council and the interfraternity house presidents, it was emphatically decided to continue the review of the recommendations of the five presidents of the governing boards.

Beal said that President Coles greeted the idea with a wonderful display of enthusiasm. This is a

One student queried as to whether or not a Negro would feel out of place in the "Southern woods." Davis replied that he probably wouldn't hate it any more than the "Southern woods." On possible social problems, Davis felt that Negroes would be able to meet the problem like any other Bowdoin student.

The students will have a brief message on Monday night for Christmas Vacation to be filled in on more particulars for their meetings with hopeful future Bowdoin students.

New Car Policy Discussed By Boards' Visiting Committee

Monday of this week, the Visiting Committee of the Governing Boards, at the request of President Coles, held a hearing to discuss the new automobile policy. The expansion of the Union and the renovation of the dormitories, and the Student Council Blanket Tax Program were also to be enlarged by the extension of the basement and the addition of a new wing on the south side, the committee also discussed the use of the Ham House in Maine and Winthrop Hall, which is tentatively scheduled to begin next fall. The plans for both of these buildings are still in the hands of the architect.

A Campus-wide telephone system was also discussed and it was recommended that extensions be placed in each room of the Senior Center and on each floor of the dormitories to receive incoming calls, while pay-phones will be strategically placed for outgoing calls.

The committee also heard the report by Dean Gresson on the College's automobile policy. The original recommendation of the Parking Committee called for the elimination of overnight parking on Campus and the construction of a College parking lot on the Harpersfield Road near the Delta House. The Dean, after discussion with the representatives of the various fraternities and the members of the committee, felt that parking lots behind the fraternities would be more convenient and that "tentative appraisal indicated that every fraternity could have a parking lot on its property."

It was also stated that the present automobile registration fee of twenty-five cents should be made "more realistic" since the present fee does not even cover the cost of the sticker.

Second place winners in this year's puzzle were Steve Kay and Jim Lester of Zeta Psi, and Bill Bissett and Frank Yule of Zeta Psi. Second place winners Dec. 5 were Zeta Psi and the North-South club of Zeta Psi. The North-South club won a total of 100 match points on an average of 64. George Bladen of Kappa and Stu Kierulff of Zeta Psi topped the East-West field with a score of 102 on an average of 64.

Kerry McCollister and Tom Chase of Zeta Psi were the top scorers in a Dec. 5 tourney with 123 match points on an average of 110. The East-West honors went to Dick Mearns and Charlie Kestell of Kappa with 146 1/2 match points on the 110 average.

The next tournament will be held Saturday afternoon, Jan. 11 at 1:30 p.m. All pairs wishing to play are invited to meet at 1:15 p.m. to secure a prompt start.

Zetas, Kappa Sig's Take Bridge Title

Players from Zeta Psi and Kappa Sigma have topped the top prize in the last two contract bridge tournaments sponsored by the Student Union Committee in the Union Lounge.

Jack Van Nest and Dave Treadwell of Zeta Psi won the North-South prize in last Tuesday night's game with a total of 100 match points on an average of 64. George Bladen of Kappa and Stu Kierulff of Zeta Psi topped the East-West field with a score of 102 on an average of 64.

Kerry McCollister and Tom Chase of Zeta Psi were the top scorers in a Dec. 5 tourney with 123 match points on an average of 110. The East-West honors went to Dick Mearns and Charlie Kestell of Kappa with 146 1/2 match points on the 110 average.

Second place winners in this year's puzzle were Steve Kay and Jim Lester of Zeta Psi, and Bill Bissett and Frank Yule of Zeta Psi. Second place winners Dec. 5 were Zeta Psi and the North-South club of Zeta Psi. The North-South club won a total of 100 match points on an average of 64.

The next tournament will be held Saturday afternoon, Jan. 11 at 1:30 p.m. All pairs wishing to play are invited to meet at 1:15 p.m. to secure a prompt start.

Faculty Member Comments On Recent ORIEN

A recent issue of *The Orient* contains three letters which demand faculty comment.

First, Wentworth's crude drawing depicting a mean-looking "hood" over the caption: "The Bowdoin student" - a Faculty View" strikes me as presumptuous, arrogant, and manifestly unjust to student and faculty member alike.

This representation of the student body as it ostensibly appears to the faculty and administration (if we are to believe the caption) would seem to be swagging on a street corner, waiting to take on a short but decisive "bumble" any and all staff members who dare oppose the "Beta petition."

At one side of the "hood," stretches a list of adjectives which might appear to have been cribbed from Roger's *Theaenurus*, detailing the reprehensible qualities supposedly attributed to students by professors. Nonsense, Mr. Wentworth, no faculty member ever believed any such thing about students.

In reply to these terms, if by "licentious," "sensual" is meant, then I for one hope that the average Bowdoin man is properly sensual or licentious, but in the appropriate time and place. This is emphatically not on college property or at fraternity social functions.

"Pernicious" is an epithet that cannot be applied to any student, but pernicious indeed is the tendency of some students to claim as a rationale the relaxation of rules and regulations.

"Puerile," "crass," "banal," and "charismatic" may be applied, in my opinion, only some of the time, and then to an infinitesimal percentage of students: those responsible for such questions as the above-discussed cartoon, and the famous "or rather, infamous" - Beta banner.

"Miscellaneous," of course, is pure affectation.

Second, as for the "Beta petition," I feel safe in saying that the college takes no official interest in the sex life of the students, certainly not in the direction of wishing to inhibit it or control it in any way. But by the same token, I fail to see why the college should subsidize or be a party to student sexual activities in any way since these activities hardly represent a legitimate educational function.

On the other hand, I seriously doubt that increased parietal privileges could have any bearing on either the students' sex life or on their social life, but will only result in a cheapening of the general atmosphere and eventually pave the way for an increasing breakdown in decorum.

What the "Beta petition" is saying in effect is that the fraternities have failed lamentably to provide suitable and decent surroundings for refined socializing. But increased license is emphatically not the answer.

After all, when a young couple is disaffected with a party in a private home, their alternative is certainly not to retreat to an upstairs bedroom. Nor would any young man consider doing such a thing in his own home.

In a sense, the fraternity is the brothers' home, or should be. If, for any reason, it cannot fulfill this function - and that it is increasingly unable to do so may be concluded from the re-

lative large number of academically-able and intellectually-oriented seniors who abandon their homes to live off campus - then the problem is there and should be solved or alleviated at that level.

I am confident moreover that, were the students to formulate a reasonable proposal bent on improving the cultural or intellectual opportunities afforded by the college community, it would be enthusiastically received by the faculty and administration and promptly acted upon. If it were not, then the student body would have a real grievance.

The third and last point I should like to consider concerns the eloquent editorial entitled: "The Price of Progress." Students have often been known to claim that they "deserve" to pass because it is their democratic right. But this was usually in regard to some relatively unimportant activity: learning French, writing accurate compositions, understanding poetry.

It had always in the past been possible to protest that the same student would never think of insisting on a berth on the track team on the strength of his fifteen second hundred yard dash performance. Yet you now argue with the unassailable logic of a Hopi Indian (remember those Indians from Ruth Benedict's *Patterns of Culture* who all finish the race together, the faster runners holding back for the slower) that everybody who tries must win.

This is one of the dreadful fallacies of liberal thinking and totally unreflexive. Even among the Hopi there were faster and slower, stronger and weaker. And sheer effort may be only a very minor ingredient in success. While the pluggers are undoubtedly useful to the team, not getting a letter is the chance they take and they take it cheerfully. Only the Orient has been heard to complain.

Gerald Kamber

To reply to the points of your letter, in order, we might mention that that a nation is just that; not to be taken too seriously. We are, of course, fairly certain that no member of the faculty looks at the Bowdoin student in just such a manner, but the cartoon was prompted by some of the faculty's reactions (reported to us by a faculty member) upon the introduction of the Beta petition.

We must agree with you that the fraternities have, indeed, failed to provide "suitable and decent surroundings for refined socializing," but we also believe that this condition is hardly their fault - or their choice. Unlike the private home to which you allude, there is no alternative to the "classified" couple at a fraternity party. The "houses" have a "family" consisting of 60 to 70 men, perhaps only half of them with dates on any given weekend. It is absurd to expect them all to have the same interests; to expect all to be satisfied with any given party. Yet it is precisely this type of party that each fraternity house must attempt to run.

We feel that since Bowdoin is where it is, and quarters its men as it does, that it is the problem of the college as a whole. The Beta petition was one measure which would have allowed the breakup of the current "broths"; if the faculty has another which would accomplish the same purpose, we would be glad to hear it and perhaps help it.

The feet races of the Hopi were tests of the individual; as is a French house exam, football, however, requires the efforts of 22 men - five sides. (Even the starting team would find it difficult to practice the state series. Only those individuals who earned them should get their letters, but the entire team should get the State Series jackets. - Ed.

Disenters Gain Strength

Student Notes Growing Discontent

by K. M. Nelson

Dean Gresson's sharp remarks on December 4th gave the impression that the administration, either naive unaware of the scope of the student revolution that is brewing, or else that it is being misled as a transient bandwagon that can be bogged down to decay by dissent.

The administration must face the fact that the Beta petition is substantially more than a transient protest. It is the early sign of a growing and far-reaching movement. It was born long before the presentation of the petition itself. It represents the first of several grievances that have at long last emerged from constant discussions in dormitory rooms, fraternity houses, and Union get-togethers. It is not a sudden or impulsive action. The momentum of this dissatisfaction has grown greatly even in these last three years, and the Beta petition is the first attempt to articulate one of these grievances.

Word has permeated the campus that the administration considers the timing of the petition imprudent since it comes in the midst of the Capital Fund Drive which is raising money from alumni, friends, and funds. The Orient's caustic editorials and satirical cartoons, and the internal squabbles which are difficult to mask, give an impression that everything is not really cheerful and satisfactory.

The timing is not coincidental. With the visible progress of the Senior Center complex, with the continuous flow of press releases, with the constant visiting of older graduates and with the campaign reports which announce the expanding lists of contributions, Bowdoin students have become aware of the increasingly important role that Alumni must play in a growing college. Whereas, three years ago, at the end of a student discussion, someone might have said, "What right do we have to go to the administration?", there is now the realization that a private college is built on a two way street and that the college has a substantial stake in the attitudes of its present and future alumni. While no student group has the right to force an issue, it does have the right to present it.

The administration can expect other petitions to emerge as the dissenting movement gains both strength and direction. In the light of the Beta petition will come a request for the slight alteration of the dormitories during reconstruction to permit entertaining in the rooms. Several hundred men live in the dormitories and they, too, want the normalcy that the present system permits. (It shall not dwell here on the reasons that such petitions ought to be passed as they have already been maturely and sensibly expressed by others - in fact, far better than the frail and foggy responses of the administration as verified by the Dean's chapel speech.)

Those who are leading the Beta petition fight must realize that the Dean was correct when he said that the petition would not solve the whole problem. The real impact of updating the social rules will not be felt until the whole campus is open to guests, and this is a fact that ought to be faced so that the case is not argued on lofty or naive hopes.

One of the goals that contemporary college life ought to fulfill is providing the opportunity of spending four years talking about ideas and exchanging opinions - an opportunity that for most people becomes scarce after college. Ironically, the art of conversation is dormant at Bowdoin. It is hoped, with considerable justification, that a completely open campus would stimulate the normalcy that the present system permits. To a large extent, that is the very hope on which the Senior Center must also place its faith, if it is to succeed.

If these petitions fail, there will be a vigorous attempt to reduce classes to a five day schedule to permit both getting ahead in the workload and getting out of here on weekends. This proposal is still in the discussion stages and will remain an alternate to the general proposals of more responsible social rules.

There is one final point I should like to make in discussing the campus dissatisfaction. When any change is proposed and that change overturns a longstanding practice, we sometimes look at that change as being more radical than it really is. We weigh it as if it were an alteration to the heart of a system, and not in its true perspective of being an alteration to the limb of a system.

The suggestion that the Beta proposal and subsequent proposals will continue to pose the real quality of Bowdoin College is absurd. For if we were to define that quality which sets Bowdoin apart from other schools, that quality which is the real heart and substance of Bowdoin, it might well be this: Bowdoin College is a small school composed of intelligent students and competent teachers who have the rare opportunity of knowing one another personally, and sometimes as friends; it is this of knowing a relationship (which is becoming unique in this era of assembly-line education) that has traditionally made Bowdoin an exceptional college.

In trying to bring a normalcy to the social life, and by extension, to the whole college life, in trying to reestablish the opportunity of vigorous conversation and debate, in trying to bring a certain amount of spontaneity into the college community, and of course, in trying to diminish the worthless herdlike parties, the heart of the college is hardly compromised.

Like any other social problem, if it is left to fester too long, if it is ignored too long, eventually, when it has to be dealt with (and it always does), the task will be even more difficult. To recognize a problem and do nothing about it is both senseless and costly.

In the final analysis, Dean Gresson is on the battle line. There is no old adage in business that says: great salesmen do not necessarily make good executives. Dean Gresson is now an executive and he has inherited some problems which are no longer latent, and is responsible for making certain decisions about them. He stands between an administration that is resolving some of its own internal problems while embarked on a new educational concept, and a student body that badly wants, in this dawn of changes, some changes of its own.

Dean Gresson has admitted that there are serious student life problems here at Bowdoin, and he has an anxious student body that earnestly wants to do something about those problems. If the initial step they have taken is totally wrong, he should say why, and offer another solution that will be both effective and acceptable to the President. The time has come to end the witty chapel speeches, the jests and quips. The student dissent is a legitimate one as he knows; but he may not know, it will not be pacified by having it discussed endlessly in committee meeting after committee meeting.

There is surely a time to talk and a time to evaluate. But there is just as surely a time to act; otherwise all has been pointless. We now await that action for the time has certainly come.

Traditional Yuletide Festivities Underway

Traditional Yuletide observances are being held prior to the beginning of the Christmas season by the members of the Italian Renaissance Club, when most Bowdoin students will return to their homes all across the nation for the holidays.

The annual Christmas Exhibit and Concert for the College Community will be held Sunday (Dec. 16) in the Bowdoin Museum of Art at 8:15 p.m. The program will include hymns and carols sung by the Chapel Choir, under the direction of Professor Robert K. Bookwith; and a reading of "The Christmas Story" by Professor Athern F. Daggett. The current exhibition of prints and drawings at the Museum, featuring the Albrecht

Durer woodcuts, "Adoration of the Virgin" will be enhanced for the occasion by two Italian Renaissance paintings of the Crucifixion from Museum's collections.

On Monday (Dec. 16), the annual Christmas Carol Service will take place in the Chapel at 12:10 p.m., with President Coles presiding. The Chapel Choir will offer music appropriate to the occasion. Monday morning classes have been set back an hour to allow students to attend the Service.

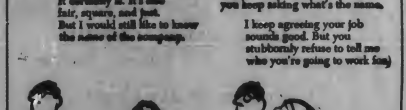

The Christmas season on the campus was ushered in Dec. 8 when the Glee Club and the Pine Manor Junior College Glee Club were combined for the traditional Yuletide concert.

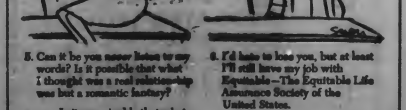

1. Now that I'm a senior I have to start thinking about my future. Will you marry me?
Will you be able to give me all the things I crave - like pizza pie and elbow macaroni?
I agree - but what's the company's name?

2. I've lined up a terrific job. There's a choice of training programs, good starting salary, challenging work, and the chance to move up. That's Equitable.
I keep agreeing your job sounds good. But you stubbornly refuse to tell me where you're going to work, fella!

3. Equitable - it's Equitable. It certainly is. It's also fair, square, and just. But I would still like to know the name of the company.
Oh, The Equitable. Why didn't you say so? We'll have a fine wedding.

4. I've not communicating. I keep telling you it's Equitable - and you keep asking what's the name.
I keep agreeing your job sounds good. But you stubbornly refuse to tell me where you're going to work, fella!

5. Can it be you never heard of my world? It is possible that what I thought was a real relationship was but a romantic fantasy?
Is it conceivable that I took to be a cold foundation was just a house of cards? That what I thought was a bright flame was merely an emotional flicker?
Oh, The Equitable. Why didn't you say so? We'll have a fine wedding.

THE BELL TELEPHONE COMPANIES
SALUTE: DAN MIGLIO

When his first raise came through much earlier than he'd expected, Dan knew his contribution to the Task Force had been very much appreciated. His company also showed this another way by assigning him to work on a similar budget study for the Traffic Department.

Dan Miglio, like many young men, is impatient to make things happen for his company and himself. There are few places where such restlessness is more welcomed or rewarded than in the fast-growing telephone business.

Bates And Colby Defeat Hoopsters

Last Saturday, the Polar Bears travelled to Waterville to play Lee Williams's Colby Mules. It was Bowdoin's first state championship football game. In a tough and close contest, the Mules edged the Polar Bears in the last 30 seconds by a score of 7-7.

Bowdoin took the lead on a basket by sophomore Howie Pease, and behind the shooting of Mike Napolitano and Dick Whitmore, the Polar Bears stayed in the lead throughout the first half. The score at half-time was 36-35 in our favor. Good defensive play by Steve Ingram was also instrumental in Bowdoin's early lead.

At the beginning of the second half, the Polar Bears scored three quick baskets to increase its lead to 43-36. However, it became evident that we were in for trouble as star center Dick Whitmore, Harry Silverman, and Steve Ingram all got in foul trouble. Eventually all three fouled out of the game before there were two minutes left. Slowly but surely, Colby closed the gap to tie the score at 64-64 with about 6 minutes remaining in the contest. Most of Colby's scoring was done by Ken Federman, Ken Stone and John Stevens.

In the last 6 minutes the lead by either team never exceeded 3 points. With about 1 minute left, Bowdoin led by one point, but Colby scored a basket and was fouled in a process. The foul shot was good and the score was 76-74 with about 30 seconds remaining. The Polar Bears missed their final shot, and Ken Stone sank a foul shot to make the final score 77-76.

For Bowdoin, Mike Napolitano played a great game scoring 25 points. He was followed closely by junior star Dick Whitmore with 27 points, and Harry Silverman with 14 points. For Pease scored 12 and hustled throughout the game, grabbing man with 21 points.

many rebounds and stealing the ball quite often. For Colby, Ken Federman scored 37 points, John Stevens hit for 17, and Ken Stone chipped in with 16 points, 8 of which came in the last 4 minutes.

Monday night, the Bates Bobcats came here to meet the Polar Bears in each team's second State Series game. In a game which saw Bowdoin trail throughout, and make a valiant but futile rally, Bates won 73-71.

Bates took a commanding lead 14-8 as the Polar Bears just could not find the range. At times it seemed like there was a lid on the basket. Near the end of the first half the Polar Bears closed the gap to 23-26 on baskets by Dick Whitmore and Mike Napolitano. In the remaining minutes, however, Bowdoin was unable to get the ball beyond mid-court, and Bates was able to walk off the court at half-time with a 37-26 lead.

At the beginning of the second half the Polar Bears closed the gap to 7 points on two baskets by Dick Whitmore who really began to find the range. When Silverman got his fourth foul, Harley Schwadron came into the game and played well. He hit on 5 set shots to aid the Polar Bears in closing the gap to but one point, leaving the score at 61-60 with 5 minutes left to play. Unfortunately, Bates was able to keep the lead behind the fine shooting of Seth Cummings and John Hines. With about a minute left, Schwadron fouled out, and received a fine ovation from the crowd for a game well-played. With Bob Johnson scoring 6 foul shots, Bates was able to win 73-71.

Bowdoin shot poorly from the floor and foul line throughout the game. The Polar Bears were able to hit only 7 for 14 at the foul line, as opposed to Bates who hit on 21 of 28. Besides their poor shooting, Bowdoin was unable to control the boards.

High scorers for Bowdoin were Dick Whitmore with 27 points, Harry Silverman with 14 points, and Mike Napolitano with 12. For Bates, Seth Cummings was high scorer, grabbing man with 21 points.

A Serious Question

Didn't anybody know about the Bates basketball game? Athletic events at Bowdoin do not concern just the teams which are competing in them. Of equal importance is the diversion from studies and the interesting spectacle which is provided for all Bowdoin students. A successful season, such as the one enjoyed by this year's state champion football team, attracts loyal fans who are willing to travel to such distant places as Williams and Amherst to cheer them on.

A successful season, however, should not, and generally isn't, a criteria for student interest. For example, despite the fact that the hockey team dropped its first two games, the arena was filled this weekend with enthusiastic fans who witnessed Bowdoin's two victories over Norwich and A.I.C. Even last year's football team which won only one game while absorbing six defeats attracted many followers.

It seems strange, therefore, that a basketball team which had won the state title last year, should play its first two state series games before hostile crowds, even though the last one was hosted by Bowdoin. At least 50% of the crowd that was present at the Bowdoin-Bates basketball game were students from Bates who thought enough of their team to make the trip. Yet, the Bobcats didn't appear to be any sort of powerhouse, nor did they have any super-star who could possibly be regarded as a drawing card. Nevertheless, policemen had to hold back the influx of Bates students. In comparison with this, there were only a few Bowdoin students present. Why?

This is an interesting question, and one which attracts many different opinions. One is that many students preferred to study for the hour exam which are coming up this week. This, however does not seem to be entirely valid. Bowdoin students continually complain about the dullness of winter, and the fact that there is nothing to do during the week. That they should suddenly make about face and ignore an answer to their between-weekends boredom, a thrilling basketball game, is highly improbable.

There are various other reasons, or rather excuses, which have been given. Most of them, however, boil down to the fact that many students are just too lazy to make the effort to get up and go to the game. When they do arrive, they enjoy themselves and become just as avid rooters as anyone else, for everyone takes pride in watching their team perform.

Perhaps the Bates game was just one isolated instance of a lack of following, and will never occur again. We certainly hope so, for Bowdoin's sake.

One last note. Those of you who did manage to see the Colby and Bates basketball games, realize that the outcomes could have very easily been reversed. The Polar Bears should certainly not be counted out of the state championship race. If our memory is correct, it was only last year that a little regarded Bowdoin basketball team went on to take the state crown. With a little more student support, plus a few good bounces, the same could prove to be true this year, regardless of what Colby's Lee Williams has to say on the matter.

Polar Bears Sweep Two; Stopped By Crimson 4-1

The Bowdoin team completed a full week of activity with two wins and one loss. The victories came on Friday and Saturday nights when the Polar Bears defeated Norwich and A.I.C. by 5-3 and 6-4 scores. Wednesday night they traveled to Harvard's Watson rink where they were defeated by a respectable score of 4-1.

Against Norwich on Friday the Polar Bears played sloppily at times as they showed poor passing and shooting while finding it difficult to clear the puck from their end of the ice. Goals Dave Coupe, play in front of him by treating the crowd with an excellent goal tending job. Coupe kept Norwich from scoring on saves which approached the sensational mark. At the opposite end of the ice, Ed Fitzgerald was the big gun for Bowdoin as he hit the strings on two occasions. Scoring the other goals were Bill Allen, Ben Soule, and Joe Tarbell.

The next night against A.I.C. however, added two more goals to the Polar Bears' record in a much improved performance. They jumped out to a big 3-0 lead as Phillion, in a "collision" with Harvard's Oliver, and Fitzgerald all banged it into the net. Bowdoin led 3-0 at three all and then quickly went on to a 4-3 lead, which was beginning to look awfully big until Bill Allen evened the count for the home team with just seven minutes remaining. The game was forced into overtime, and the Bowdoin victory finally was decided when Joe Tarbell scored with assists from Meacham and Fitzgerald.

In its most recent game against Harvard, the Polar Bears put up a stiff "fight" and certainly accounted well for themselves against a team which is perennially one of the top two teams in the East. The Crimson always has a team loaded with Canadians who have been playing hockey from the time they could get on a pair of skates. Against such a respectable foe Bowdoin did well to hold the score to 4-1. They had many fine opportunities to score, but could not seem to get the puck in the net.

The game was in doubt for the entire first two periods, and going into the final 30 minutes the chance for a major upset was still a strong possibility. At that point the score was 2-0. The Crimson, however, added two more goals to the Polar Bears' record in a much improved performance. They jumped out to a big 3-0 lead as Phillion, in a "collision" with Harvard's Oliver, and Fitzgerald all banged it into the net. Bowdoin led 3-0 at three all and then quickly went on to a 4-3 lead, which was beginning to look awfully big until Bill Allen evened the count for the home team with just seven minutes remaining. The game was forced into overtime, and the Bowdoin victory finally was decided when Joe Tarbell scored with assists from Meacham and Fitzgerald.

Skiers Promoted To Class A

Bowdoin's fast improving ski team has recently been elevated from a class B to a class A rating by the New England Intercollegiate Ski Conference. Last year, in its initial season in the conference, the Polar Bears were arbitrarily placed in the second division on a trial basis. By the end of the season it was quite apparent that the Polar Bears were no strangers to the slopes, for the Bowdoin entry proceeded to take first place in every race they entered. Bowdoin would have skied away with the class B championship if it wasn't for the fact that they weren't able to attend all the meets, and thus, they were one short of the regulation number.

The league includes such schools as: Brown, Harvard, Boston University, New England College, and Amherst. Because of the fact that these schools lie outside the snow belt, practice opportunities are greatly limited. The competition, however, while not on the same level as Dartmouth and Middlebury, is still heavy.

Few of the schools in the conference have the facilities for hold jumping and cross country events. The N.E.I.C.S.C., therefore, holds what is known as an Alpine meet, where just slalom and downhill races are contested. Last year in the state meet, however, the nordic events, of jumping and cross country

PAT ON THE BACK

This week the Pat on the Back goes to a team which, oddly enough, didn't sink one basket, score any goals, nor run or splash their way to victory. Nevertheless, approximately 24 million people watched them run up a score of 375 points to the opponents' meager 135. Congratulations to Bowdoin's Champion College Bowl Team of Ken Smith, Joe Pierce, Chuck Mills, Mike Bennett, and alternate Bill Rounds.

Bears Out-Swim UCONN 49-45

Bowdoin's swimmers captured style, Seaver, Halford, and Lesch won first last Saturday as they were equal to the task, however, and went on to best UConn. In their provided the needed punch, first meet of the season by a score of 49-45. In a close meet that was not decided until the final event, the Polar Bears were bolstered by the performances of Pete Seaver and Tim Robinson, who were both double winners and capped top honors in the individual medley, 900 freestyle, 200 freestyle, and 100 freestyle.

Because of a lack of depth due to graduation losses, Bowdoin had to count on firsts in most of the events in order to pull out the victory. Robinson, who took two gold medals in the 100 and 200 free.

This may well be decided Saturday at 2 p.m. as Bowdoin challenges Springfield. It promises to be an exciting and close meet for the Polar Bears, and a victory would give Bowdoin a long way towards inuring a successful season.

Bowdoin Team Seeks to Finish Consecutive Victory Sets Record For Total Points And Earns \$10,500

President Personally Extends Congratulations To Bowl Squad

Bowdoin honored its record-breaking "G.E. College Bowl" television team Wednesday at Chapel ceremonies during which President Coles presented each member inscribed copies of the Columbia encyclopedia.

The College decided to make special awards "somewhat reminiscent of the encyclopedia knowledge which these men have displayed during these past few weeks, and which might be helpful to them in their attempt to continue this display of knowledge in the years to come," President Coles told.

President Coles told a crowded Chapel audience that the team's triumphant performance "has brought great credit to the College, and to every member of the College." He and other officers of Bowdoin "have received countless enthusiastic messages from alumni, friends of the College, public figures, and ordinary citizens," President Coles said.

Shows Interest in Scholarship. Declaring that college athletics have traditionally provided ratings for undergraduates and alumni, President Coles said "it is good to see this healthy interest in the College and in the performance of its students greatly intensified through an activity based upon a fund of knowledge and upon mental alertness." "Adding to the team's rankings," he said, "yesterday there came a letter addressed simply 'Bowdoin College, Brunswick, Maine,' containing a check for five dollars and a note that this was to be added to the scholarship fund in honor of the team. It was from a man and wife living in rural Maine who had no connection with the College. These are the people who call Bowdoin 'our College.'"

"Unbeatables" Return Triumphant Amid Wild Celebration

"I guess there's no one who can beat you." This is the comment that Robert Barie, moderator of the "G.E. College Bowl" program made after Bowdoin's 245th win last night. The Bowdoin College community demonstrated its enthusiasm over the championship victory and the belief that this team was really undefeatable at the gigantic "Welcome Home" celebration on Sunday night. The celebration was called for 10:30 and, by 10:30, the Moulton Union Lounge was packed full. Over two-thirds of the student body and many faculty and staff members turned out, complete with band.

Dean Nathaniel C. Kendrick opened the festivities by saying "We at Bowdoin are proud of our College Bowl team and its coach, not just for the successes they have attained but also because of the efforts they devoted unflinchingly to this project." He went on to say that the demonstrations proved that the student body is as enthusiastic in their support of intellectual achievement as they are of extra-curricular accomplishments.

LECTURE BY PROFESSOR KOELLN

Professor Fritz Koelln of the German Department will speak on "Hercules" Sunday evening, November 22, at the Chase Barn Chamber. The talk, sponsored by the Hellenistic Studies Association, will begin at 8:15 p.m. Members of the college community are cordially invited. Students members of the HSA are asked to come at 7:45 for a short business meeting preceding the talk.

Student Council Lacks Quorum Announces Council Lecturer

The first Student Council meeting of 1964 was held this past Monday. Due to the absence of a quorum, action was not taken on the two main items on the agenda. Approval of the newly formed Interfraternity Council and final approval of the Student Council Organization Committee Report. Jeff Lang, the man in charge of obtaining a speaker for the Student Council Lectureship, announced that B. P. Skutumpah, eminent psychologist and author of "Walden Two" has accepted the Council's invitation and will speak here on March 28th.

Rules Study Group Selected; Interfraternity Council Established

Five men were chosen to be on the Student Faculty Social Committee to work with a core of five faculty members on the problem of improving the social life at Bowdoin. The students selected are Junior Ross of the Beta probationary chapter, Richard W. Dixon of Beta, and Thomas P. Smith of Gamma. The committee is expected to meet with the faculty members on the problem of improving the social life at Bowdoin.

Four Fraternities Elect Officers For Next Semester

Phi Delta Psi held its election of officers for the Spring Semester this past Wednesday. Jim Curry '63 was re-elected President. The other members of the newly installed Executive Committee are: Barry Thomson, '64, Vice-President; Phil Hansen, '64, Secretary; Pete Mauer, '64, Alumni Secretary; Dick Pike, '64, Usher; Dick Fay, '64, the present Student Union Representative; Semmler; and Dick Sims, '64, Usher.

Phi Delt

Phi Delta Psi held its election of officers for the Spring Semester this past Wednesday. Jim Curry '63 was re-elected President. The other members of the newly installed Executive Committee are: Barry Thomson, '64, Vice-President; Phil Hansen, '64, Secretary; Pete Mauer, '64, Alumni Secretary; Dick Pike, '64, Usher; Dick Fay, '64, the present Student Union Representative; Semmler; and Dick Sims, '64, Usher.

Kappa Sig

Shepard M. Remis '64 has been elected President of Kappa Sigma Fraternity at Bowdoin College. Other newly elected Kappa Sigma officers include: Bruce Amlen '64, Vice President; Bruce Ceremonios, Richard F. Beal '63, Secretary; Malcolm W. Ches, II, '63, and Treasurer; Theodore M. Stowik '63. Also elected were Guards, David McNabb '67 and Dennis McNeill '67.

Psi U

The Bowdoin chapter of Psi Upsilon conducted its election of officers for the Spring Semester this past Wednesday night. Brian Murphy '63, was elected President, and Mike Anello '63 was chosen Vice President. Besides the President and the Vice President, the following were also elected to the Executive Committee: Joe Pierce, '63, Secretary; Randy Baxter, '63, Treasurer; Paul LaPointe, '63, Steward; and Phil McDowell, '63, House Manager.

DKE

Russell H. Weigel, Jr. '63, has been elected President of the Theta Chapter of Delta Kappa Epsilon Fraternity. Other newly elected officers include: Vice President, Bradford N. Sims '63; Correspondence Secretary, David Under '64; Recording Secretary, David H. Kohl '63; Alumni Secretary, Lovoy C. Stephenson, Jr. '63; Senior Advisors, Robert E. Hale '64 and Charles A. Wheeler, Jr. '64; Rushing Chairman, John R. French '63.

Conservation Expert Scores Neglect Of Natural World

"The compassion of today and its tragedies needs to be projected for future people and societies," said Professor Paul B. Sears of Yale University as he underlined the basic theme in the annual Phi Delta Kappa lecture last Monday night. An expert on ecology and conservation, Prof. Sears made it clear that he is very much concerned with the waste of resources and lack of foresight in our present culture.

Whiz Kids Crush Bowling Green T.V. Champions Retire Undefeated

Bowdoin College won its fifth consecutive game on the "G.E. College Bowl" Sunday and retired as undefeated champion after establishing a new all-time scoring record on the nationally televised program. The final score was Bowdoin 245 and Bowling Green University of Ohio 25 in a one-sided contest during which Bowdoin rewrote the record books.

C. Russell Crosby Joins Bowdoin Music Department

Professor Coles announced before under Schroeder Gesellschaft Civation that C. Russell Crosby, Jr. has joined Bowdoin's Faculty as an Instructor in Music. Crosby is a graduate of Bowdoin in the Class of 1961. Mr. Crosby recently returned from Germany, where he was a Lecturer in Music History and Choral Director at the Munich Campus of the University of Maryland for six years.

NSF Grants \$73,000 To Masters Program

President Coles announced recently that the National Science Foundation has granted Bowdoin \$73,000 in support of a 1964-65 NSF grant to support the program of secondary school teachers of mathematics. The ATI program, fourth in its history, will be limited to ten participants who may become eligible for Master's degree after completion of the ATI work which requires attendance in courses at Bowdoin during the regular school year, in addition to studies in an NSF Summer Institute on the campus.

Cumberland To Show Two Bergman Films

Two prize winning Ingmar Bergman pictures will be presented at the Cumberland Theater on Wednesday and Thursday, Jan. 15 and 16. It was announced this week by William C. Murch, manager. "Wild Strawberries" which won many international awards and "Tornet" described by Time Magazine as "one of Bergman's best" will be shown at 7:30 p.m. and beginning 7:30 p.m. and at 1:45 p.m. for the afternoon matinee.

New Sports Editors Named

Below are Ray Breen and Bruce Alberman, who were appointed DKEA sports editors shortly before the Christmas holidays. Both are members of Kappa Sigma. Breen is sophomore, and both play sports (Breen football; Ray, baseball).

Conservation Expert Scores Neglect Of Natural World

THE BOWDOIN PUBLISHING COMPANY
Professor A. P. Baggot, Mr. James P. Grayson, Ann Smith, Sandy Dole,
Bob Peterson, Chris Keefe

10 HART WOOD STREET
College Publishers Representatives
NEW YORK, N. Y.

Published weekly when classes are held during the Fall and Spring Semesters by the students of Bowdoin College. Address news communications to the Editor and subscription communications to the Business Manager of the Bowdoin Publishing Company at the Bowdoin College Post Office, Brunswick, Maine. The subscription rate for one year is four dollars.

The Correct Pronunciation

Championship teams are not common. They are not common especially in institutions that continually play schools considerably larger than themselves. That is why we consider ourselves especially lucky (and especially proud) to be able to congratulate Bowdoin's second championship squad this year — the College Bowl team.

By this time almost everyone remotely connected with the college has at least heard of the victory, and most of these can cite the exact scores of the individual games. There is very little we can add in this space in the way of information, but we would like to speculate on the significance of the wins to Bowdoin.

Besides educating "twenty million Americans" in the pronunciation of the college's name, the appearance of a Bowdoin team on national air (with such favorable results) will undoubtedly result in increased admissions... not only in the areas where the school has traditionally drawn its students, but in the West and Southwest, areas presently deficient in the number of applications. Further, Bowdoin's reputation will be established in these places as a college of very high standards. They may even remember the state.

To anyone who has gone through long, tedious explanations of what Bowdoin is (as we will), the demonstration provided by Messrs. Smith, Pierce, Mills, and Bennett came as a welcome reinforcement.

Of course, we cannot hope that this will correct all the misconceptions concerning the college, nor will it acquaint the entire nation with its northern outpost, but we must agree with the College News Service who hailed the victory as "the most significant publicity for the college in years."

At least, we will have fewer people coming up to us saying, "Bowdoin? Oh, yes, I know that school. We were going to send our daughter there."

Horse And Buggy?

The automotive age is definitely upon us — even in Brunswick, Maine. Transportation is becoming more and more a prerequisite to various activities ranging from skiing to putting out a newspaper.

Both these activities, plus a great variety of others, are participated in by Bowdoin students, and due to the various restrictions imposed by the college and individual bachelors, these ventures are often curtailed by the lack of a vehicle.

Presently there are several organizations on the campus which might well use a car of their own, among them the Outing Club, the Orient, and even, we imagine, organizations such as the ski and golf teams whose members might wish to practice on their own occasionally and have no means to get to the slopes or links.

A solution might be the purchasing of a car by all these groups to be shared. At the moment the college has up for sale one of its three Checker limousines, and it seems reasonable that the aforementioned groups (plus others) might secure this car for their common use.

"There has long been a need for this sort of arrangement," said Mr. Thomas Libby, the Bureau, when contacted as to the car's availability. We quite agree, and feel that even one student-owned car would add greater flexibility to existing groups.

Wishful Thinking?

The fresh breeze of change that blows across the Bowdoin campus could be stronger. Most student attempts to add force to this current of progress have been failures. If the high death rate of student originated, student sponsored proposals were strictly due to lack of student energy, or lack of student conviction, things would be different. But this is not the case.

The Apathy Syndrome, last year's main topic for discussion has become diminished, has shriveled under the weight of chapel protest, social rallies protest, and under newer projects like the fraternity president's council, and the program designed to interest qualified negro students in Bowdoin.

Lost among protests of greater motion, are perennials like changing the date of Bowdoin's Ivy weekend to a more suitable time. There is no reason why this date could not have been changed for this year. Particularly since students petitioned that the date be changed one full year ago. This fact makes the essence of the school calendar is made up in advance seem a trifle weak. But weak or no, it falls on the same inconvenient date this year, and so it goes.

One other student proposal that seems doomed from birth, is the petition for a study period before exams. Not only would this prove useful to students, but it would be worthwhile for faculty as well. The obvious merit of a pre-exam study week is manifest, but it seems like a monumental waste of effort to ask for this extension. Even the most ardent petitioner appears to be lost somewhere in the tunnels that run from the dormitories to Mass Hall.

The voice of the Student Body is as loud as it ever was, but it remains largely unlistened to, even in the vanguard of change. As loud as it ever was, but getting tired of talking to itself.

"Not A Bad Night's Work"

Letters To The Editor

For The New Bowdoin

To the Editor of the Orient:

There now exists a paradox at Bowdoin College — a bold new step in liberal arts education embodied in the Senior Center Program along side of which there is an antiquated and unrealistic social system. A competent and successful educational system cannot truly exist except within the framework of a responsible and enlightened social system.

Both the faculty and the student body agree to the fact that the social atmosphere at Bowdoin leaves a great deal to be desired. However, the administration, whose spokesman is the president, is not willing to change this situation. Steps are merely being taken by both faculty and students alike to try and establish a social atmosphere which better suits the environment we live in. This cooperation by the faculty and the students is met however by the intransigence of the administration. Why is this?

Is it because Bowdoin students are not responsible? How can students expect to be responsible socially if little social responsibility is given them? Can Bowdoin College students be expected to socially behave in any other manner than that which is dictated to them by a social system drawn up in 1946? It is a shame that those people in the administration who are willing to put such time, money and responsibility into a Senior Center Program are not "bold" or responsible enough to try and formulate a social system that is compatible with the Senior Center Program. What rational reasoning is there that can propose a bold new experiment in education and an antiquated social system at the same time?

Is it because the role of a college is to train its students in the concepts of modesty, sincerity and respect? Are these cherished principles so far removed from a responsible and modern social system? Is there any reason why these concepts and the others mentioned by President Colles in his recent Chapel speech are incompatible with the formulation of a liberal social system. What is there that frightens the administration, and in particular the president, about a responsible social program arrived at by intelligent discussions between the faculty and students? Cannot the modesty, sincerity, respect, etc., cannot be appreciated or understood in the present system which does not give this opportunity for any serious application of these and other cherished principles. Why can't the college which is willing to accept and

complain of the apathy of the student body, and they use this as an excuse for the present social system. However, this apathy is the result of watching countless efforts by conscientious faculty and students thwarted by the closed-mindedness of the administration. Apathy cannot be legislated away, but it can be changed to interest, if, and only if, the administration, especially the president, will realize that in order to exist in an atmosphere of interest, there must be the social foundation for this new atmosphere. This foundation is not found in an obstructive philosophy. This foundation is the same spirit that "Tilly" the Medicinemen have achieved to make at Bowdoin. It will indicate how successful "Tilly" is in making Bowdoin a "ginger" that I would like to suggest that we name the residence tower of the Senior Center in his honor.

Next year we are embarking on a new program in education with "Frederic" Eric Thornbury Tilton as a physical plant and an idea behind it. But we need one more ingredient to make the "Senior Center" and an appreciation of Center program successful — music. The reputation and size of spirit. If we can give our new tower the same spirit that "Tilly" the Medicinemen have achieved to make at Bowdoin, it will indicate how successful "Tilly" is in making Bowdoin a "ginger" that I would like to suggest that we name the residence tower of the Senior Center in his honor.

The student needs the chance to prove himself responsible in carrying out a liberal social program. The student, indeed the college, must exist in a social atmosphere which is conducive to responsibility. There is a dispensable need present which can only be met by cooperation from all three branches of college life — students, faculty and administration. The student can not prove himself unless given the opportunity to do so in a responsible and modern social atmosphere. The student has been given the chance to prove himself academically mature with the development of the Senior Center. Give the student the chance to prove himself socially mature with the cooperative development of a responsible social program.

Bob Farquharson '64

A Fitting Honor

To the Editor:

Twenty-three years ago Frederic Eric Thornbury Tilton came to Bowdoin College. He came here with an idea — an idea to instill in Bowdoin's undergraduates a de-

In The Age Of The Ad Man

Perish the thought, but what if the Madison Avenue advertising mania invaded the secluded studios of the Bowdoin faculty? For a variety of reasons, i.e. a new policy of salaries based on the number of students enrolled in a given course, a fear of losing prestige with diminished student interest in a professor's pet area (History of Lower Slobovia), etc. might lead the faculty to adopt a policy of advertising their individual courses in the Orient. Using "catchy" phrases, the "soft sell" or an "image," each professor would try to attract prospective scholars into his course. Here's what we might see:

Sophomores! Are you taking more courses now but enjoying them less? If so, it Classics 18 into your schedule to ease the strain.

Do the Bird! Do the Bird! — Don't be left out when your House adopts this latest craze. Take Ornithology (Biology 10) to be in the know.

Sit Back. Relax. There's plenty of room to stretch out in a Kamber course.

Uncle Sam Wants You! — That's right. In Military Science 32 (Leadership) we teach such vital liberal arts subjects as "Small Unit Tactics and Communication" and "Pre-camp Orientation" (The only orientation program sanctioned by both Bowdoin College and the United States Government).

LOST only copy of History 28 lecture notes. Student who borrowed will receive unlimited cuts for the semester upon their return. Address, Senior Center Office.

The "Trashmen" and the "Beetles" are "in." Get in the groove! Learn all about these and other aspects of man in Anthropology (Sociology 10).

Don't fail to put English 6 (Discussion and Debates) on your schedule. You can talk your way through it.

To whom it may concern: We are sorry to announce that because of limited seating capacity there will be no openings in Art 2. However, auditors are welcome to sign up for the Saturday Conferences.

Vector Mechanics of Bodies and Media is a must on your schedule this semester.

By popular demand we shall relive the highlights of American Literature in English 26 this semester. New script, new anecdotes, audio-visual aids. Sign up now.

You Are There. Learn the names and numbers of all the players in Labor Economics (Economics 10).

Sociology 8: Criminology. Winner of the 1963 Arthur LeRoy Gresson, Jr. Award as the course encompassing the vital issue of our day.

Student Spring Semester Vacation in Bermuda: Taking a year off for various reasons? Why not spend it under sunny Bermuda skies. Inquire, Stowe Travel Agency.

Open Letter To Bowdoin Students

Editor of the School Paper
Bowdoin College
Brunswick, Maine

Dear Sir:

We at Wesleyan are strongly in favor of having the post season athletic ban now in effect at Amherst, Williams, Bowdoin, and Wesleyan lifted. This ban was made solely by the presidents of the four schools.

Last year the student government of Wesleyan published two articles in the school paper requesting the removal of the ban. Our president indicated that the other presidents would have to favor the removal of the ban before any action could be taken.

In this regard I am writing in the hope that you will help bring up this issue on your campus. If all four schools could simultaneously consider this issue on their campuses, we could then write a joint letter to each president requesting that the four of them reconsider the value of this ban.

If each school could discuss this on its campus by January 31 — assuming all student bodies are in favor of the removal of the ban — we could then write the joint letter. I have written your student government in the hope that they will initiate some discussion.

Yours truly,
Ronald Wylie
For the Wesleyan College Body Committee

Dick Hall Class of '52

"Banking . . . a young man's business"

While at Brunswick, Dick Hall majored in economics and found time in his busy schedule to be president of his fraternity and serve on the Student Council. June, 1952 found him making a nimble transition from the Bowdoin campus to a Boston bank.

After a year of credit training, he became an Executive Assistant in the Investment Division. Hard work, long hours, and making his own breaks really paid off. He was elected Investment Officer in 1956 and shortly thereafter, Assistant Vice President. He has just been given his newest assignment — heading up our expanding municipal securities operation.

Dick, 34, and his wife Nancy — they met at The FIRST — have two children.

"Today, banking is becoming more of a young man's business," Dick comments. "I've found that it's not only a challenging career, but also a satisfying one. For myself, doing something worthwhile was the important thing in choosing a career."

"If you're interested in national or international finance, electronics, investments, marketing, credit — you name it, and you'll find it's part of modern banking at THE FIRST."

We will have attractive job openings in June. Make a note to check with Mr. Ladd about seeing our Mr. Mowat when he's on campus Thursday, January 16.

Notes And Comments Tis The Season . . .

Again

by Jim Riley

The Christmas lights over the bar mirror winked on and off. Three men and a girl sat at one end of the bar. Five men sitting in a booth beside the door talked about Christmas Eve, about the snow which had started around noon, about the girl. It was Christmas Eve and they were having a drink before going home.

The snow had begun to drift against the sides of buildings, and against the door, so whenever somebody came into the gin mill or left, some of the snow drifted against the door would blow in, and the fat man with his fuzzy hat did on, would complain about the cold.

One of those clocks with the little colored blips that chase each other ceaselessly across a little plastic sleeve, showed seven thirty.

The three men and the girl had just ordered another round of beer when an old man with a little cocker spaniel wrapped up in a bright green dog blanket came in to the bar, bringing a swirling cloud of snowflakes with him. After taking his scarf off, and sitting down at the bar, he announced to no one in particular that a large bus had just spun out of control on the icy highway, and crashed into the front of a dry cleaning store about one hundred yards down the street from the bar.

Two of the men at the bar grabbed their coats, leaving the girl and the other guy to watch the beers, and left to see the wreck.

It was a large green Trailways bus, the kind with an upper observation deck. Straddling one full lane of the highway, the gutter, curb and sidewalk, its front bumper resting less than three inches from the store's big plate glass window.

There was no traffic on the road, and the absence of police seemed normal. It was snowing hard. It was Christmas Eve. It was cold, and this bus was broadside across an empty highway.

Five boys were pushing frantically, trying to get the thing

off the sidewalk, while a sixth tried unsuccessfully to start the bus. None of them had overcoats, and they were pretty drunk. The two guys from the bar helped push the bus off the sidewalk, and back onto the road until it was pointed in the right direction. It still wouldn't start, and the boys, the ones without topcoats started to get scared.

The six decided to abandon the vehicle, and started running down the highway toward New York City. The two men watched them running and laughing down the middle of the pavement under the arc lights, until they disappeared into the swirling snow.

It seemed hot and stuffy inside the bar, and the mailman had left. The girl was talking to the cocker spaniel, and one of the men sat down to finish his beer while his friend called the police. When he came back from the phone booth at the end of the room, they all went home.

At ten o'clock, the two men who had helped to push the bus walked into a police station in the Bronx to identify six boys who had been riding in the bus. There was a little silver Christmas tree on the counter of the big desk inside the railing of the big room on the first floor.

After making a positive identification, the men learned that the boys had stolen the bus in Columbus, Ohio on Dec. 25, and had made it to New York before they decided to abandon their prize. They were headed for Canada. The oldest was sixteen.

It had stopped snowing when the two men left the police station in the Bronx and headed back up to Westchester. The snow plows had cleared most of the main roads, and it was cold.

On the way home, they stopped at the bar. The old man with the cocker spaniel was still sitting alone at the bar. His dog was asleep on the floor beside his stool. The bartender apologized, refusing to serve them. He was closing up to go home; it was eleven thirty, and tonight would be Christmas.

Bachelors To Travel To Lake Erie College On Spring Concert Tour

The Bowdoin Bachelors will travel on an expense-paid singing tour to Cleveland, Ohio in the spring of this year. Lake Erie College, located near Cleveland, has engaged the group to sing at their formal Spring Weekend in early May and has offered round-trip plane fares to Cleveland for the octet.

Aside from entertaining at Lake Erie throughout the weekend, the Bachelors will also perform at several Cleveland area high schools and prep schools. The group is currently being heard in Cleveland as some of that area's radio stations are playing the Bachelors' latest record album "Variety In Voice" — a recording praised by R.O.A. Victor.

The octet this week has announced that they will hold auditions for singers to replace this year's graduating Seniors in next year's group on Monday, Tuesday and Wednesday — January 12, 14 and 15 — between 4:30 and 8:30 in the Music Building. Anyone interested in auditioning is asked to be present at Gibson Music Hall at that time.

English Watercolor Exhibit Opens

TURNER WATERCOLOR AT BOWDOIN — "The Chapter House and Arch of the Old Abbey, Evesham, 1783," by J. M. W. Turner, one of 60 water colors and drawings by English masters of the 18th and 19th centuries that will be on view at the Walker Art Building during the next episode of weeks.

To The Victors . . .

ALWAYS A BRIDESMAID, alternate Bill Bounds is awarded the G.E. bowl by gulkmaster Robert Earle on behalf of the team, after Bowdoin's fifth and final victory on the nationally televised program.

He is Professor David B. Walker of the Government Department, on 18-months leave from the College to occupy the position of Staff Director of the United States Senate Subcommittee on Intergovernmental Relations, under the chairmanship of Senator Edmund S. Muskie of Maine. In a review of the year he has spent in the nation's capital, Professor Walker declared that "deep ideological cleavages" have developed in the country in recent years, which are reflected in "our two major parties." These cleavages, he said, have contravened the homogeneity and continuity of our political legacy which grew from the assessment of "American unity and consensus" by scholars of the middle thirties.

"The events of recent weeks — indeed of the past three years — indeed the need for a revision of these interpretations" of our political tradition, Walker said.

"The conservatives of the country have splintered into three schools of thought: the innovators, like Senator Chase (of New Jersey), Governor Rockefeller (of New York) and Senator of Pennsylvania; the status-quo group, symbolized by former President Eisenhower; and the nostalgic conservatives, like Senators Byrd (of Virginia) and Goldwater (of Arizona)."

"The latter, of course, have captured the conservative movement and channeled it into highly unconservative — even radical — efforts."

Professor Walker stated that the country needs now, "more than ever before, conservatives who are conservative."

Professor Walker also charged liberals with contributing "some of the difficulties that have plagued recent Presidential - Congressional relations." Within Congress, he said, "they have all too frequently been willing to let the President carry the ball," adding that many have "aided, unwittingly, the conservatives."

He said that "in the country, the liberals have not the consistency sought to save mankind and ignored the more immediate problems within the states and our national domestic life."

"The fact that many of the beneficiaries of several of the late President Kennedy's domestic programs still have a very poor voter turnout record," he declared, "is evidence of a major liberal failure. In short, many liberals have not maintained a proper balance between their ideals and the means of their implementation."

The current political climate in Washington is uncertain, Professor Walker stated. Even before the tragedy of President Kennedy's assassination, he said, "Presidential-Congressional relations had reached a critical point."

The factors that produced this impasse, which will have to be met by President Johnson, were outlined by the Bowdoin Professor.

The 81st Congress passed a number of domestic measures that extended the New Deal or that had been debated for six or more years, he said. That Congress also launched some "significant innovations in the area of foreign policy," such as the Peace Corps and the Alliance for Progress.

The 81st Congress, on the other hand, Professor Walker added, "was presented with the heaviest agenda of any recent Congress. Most of the domestic issues recommended were new and constituted significant departures from the New and Fair Deals. Many, such as the President's Civil Rights Program, the tax bill, Medicare, aid to education, and mass transportation, ran counter to deep-seated fears and engendered profound hostility within various sectors of the electorate."

"The nation's deep divisions on these measures are amply reflected in Congress and among the numerous special interest groups."

"Compounding the problem is the fact that the party system already was deeply divided. Since 1952, the Democrats have been the majority party of the country. But it is a party that has had difficulty in governing itself since 1958, and this fact is clearly mirrored in the country and the Congress. The Repub-

icans, despite their minority status, direct participation in politics are equally good as basic training. Above all, a knowledge of our governmental processes and an appreciation of our political traditions are almost indispensable. They provide a basis for a better understanding of events that transpire and of the men who serve here. They also ward off cynicism — the greatest single vice that plagues many of the old Washington hands."

Professor Walker Assesses Stand Of 'Conservatives', Cites Danger To Nation In Ideological Cleavages

A Bowdoin Professor who is filling a Government committee post in Washington called today for the development of "a genuine conservative movement" that would carry out the "political legacy" of the nation.

He is Professor David B. Walker of the Government Department, on 18-months leave from the College to occupy the position of Staff Director of the United States Senate Subcommittee on Intergovernmental Relations, under the chairmanship of Senator Edmund S. Muskie of Maine.

In a review of the year he has spent in the nation's capital, Professor Walker declared that "deep ideological cleavages" have developed in the country in recent years, which are reflected in "our two major parties."

These cleavages, he said, have contravened the homogeneity and continuity of our political legacy which grew from the assessment of "American unity and consensus" by scholars of the middle thirties.

"The events of recent weeks — indeed of the past three years — indeed the need for a revision of these interpretations" of our political tradition, Walker said.

"The conservatives of the country have splintered into three schools of thought: the innovators, like Senator Chase (of New Jersey), Governor Rockefeller (of New York) and Senator of Pennsylvania; the status-quo group, symbolized by former President Eisenhower; and the nostalgic conservatives, like Senators Byrd (of Virginia) and Goldwater (of Arizona)."

"The latter, of course, have captured the conservative movement and channeled it into highly unconservative — even radical — efforts."

Professor Walker stated that the country needs now, "more than ever before, conservatives who are conservative."

Professor Walker also charged liberals with contributing "some of the difficulties that have plagued recent Presidential - Congressional relations." Within Congress, he said, "they have all too frequently been willing to let the President carry the ball," adding that many have "aided, unwittingly, the conservatives."

He said that "in the country, the liberals have not the consistency sought to save mankind and ignored the more immediate problems within the states and our national domestic life."

"The fact that many of the beneficiaries of several of the late President Kennedy's domestic programs still have a very poor voter turnout record," he declared, "is evidence of a major liberal failure. In short, many liberals have not maintained a proper balance between their ideals and the means of their implementation."

The current political climate in Washington is uncertain, Professor Walker stated. Even before the tragedy of President Kennedy's assassination, he said, "Presidential-Congressional relations had reached a critical point."

The factors that produced this impasse, which will have to be met by President Johnson, were outlined by the Bowdoin Professor.

The 81st Congress passed a number of domestic measures that extended the New Deal or that had been debated for six or more years, he said. That Congress also launched some "significant innovations in the area of foreign policy," such as the Peace Corps and the Alliance for Progress.

The 81st Congress, on the other hand, Professor Walker added, "was presented with the heaviest agenda of any recent Congress. Most of the domestic issues recommended were new and constituted significant departures from the New and Fair Deals. Many, such as the President's Civil Rights Program, the tax bill, Medicare, aid to education, and mass transportation, ran counter to deep-seated fears and engendered profound hostility within various sectors of the electorate."

"The nation's deep divisions on these measures are amply reflected in Congress and among the numerous special interest groups."

"Compounding the problem is the fact that the party system already was deeply divided. Since 1952, the Democrats have been the majority party of the country. But it is a party that has had difficulty in governing itself since 1958, and this fact is clearly mirrored in the country and the Congress. The Repub-

icans, despite their minority status, direct participation in politics are equally good as basic training. Above all, a knowledge of our governmental processes and an appreciation of our political traditions are almost indispensable. They provide a basis for a better understanding of events that transpire and of the men who serve here. They also ward off cynicism — the greatest single vice that plagues many of the old Washington hands."

Random Thoughts

This week we have decided to present our views in a slightly different fashion. Rather than expound on just one subject we will try to cover as many areas as possible.

Congratulations to the basketball team for winning the Down East Classic. The hoopsters defeated Maine in overtime, and overhauled Colby in the championship final. The hockey team also did well during the holidays, finishing second in the Williams Christmas Tournament.

Unfortunately, the skiing team has not been able to compete so far this year due to a lack of funds. Last year the team had only six members and this year an increased interest in the sport has swelled the number to fifteen. The budget, however, has remained the same and this year is insufficient. Because of this a scheduled meet with New England College this Saturday was cancelled. We hope the athletic department will look into the situation and take care of the team's financial woes.

Just dreaming, but wouldn't it be nice if the athletic department could withhold referee's checks. The performance of the two court ventures in the Maine game was one of the worst we have ever seen.

Good luck to Vice Commodore Charles Carey and his mates. We hope that this will end his complaint that sailing is never mentioned in the Orient.

It has often been said that clothes don't make the man, but they do help. After viewing other Maine basketball teams, it seems that Bowdoin's uniforms rank fourth. Perhaps sweat-pants and new warm-up jackets would give the team a classier look, which it certainly needs.

The Pennsylvania game turned out to be one of the most exciting games of the season despite the forfeiture. It was soon evident that after the first period neither the fans nor the players really cared who won the game; the fans by their applause after every Bowdoin scoring attempt was thwarted by Dick Ledger and the players by their attitude. I guess all the game proved was that desire is an integral part of victory.

As a closing thought whatever happened to the weight room? The smallness of the room and other similar physical difficulties will probably be solved by the building of the new gym, but there are some things which can and should be improved now. At the moment, there is a serious shortage of weights. Surely some additions can be made so that at least three people can work out at the same time.

Editor's note — Any similar gripes, suggestions, ideas, etc. will be welcome by the sports department for future use.

Pat On The Back

The Pat On The Back this week goes to **Hovie Pease** for his fine performance in the Down East Classic. Hovie scored 41 points and grabbed 30 rebounds while pacing Bowdoin to its only victories in Maine competition this year.

Skaters Take Second Place Hoopsters Win Holiday Tilt

On December 20th the Polar Bear hockey team travelled to Williams to participate in the Christmas Tournament to be held there. Bowdoin drew Williams as its first opponent and was able to come out on top to win 6-3. Bradley closed the gap as Bradley scored after only thirty seconds had elapsed. With the score at 4-3, Hamilton and Flinn both banged home their second goals of the night to give Bowdoin a comfortable 6-3 lead. Dave Coupe played his usual good game in the net turning back 37 shots, while the Williams goalie, Rostrop, stopped 28.

Bowdoin then played Hamilton in the finale to decide the championship. Once again they fell behind 2-0 as Bruce and Rostrop holed in the first period. Bowdoin was unable to score in the opening stanza due to some fine goaltending by Hamilton's Marks.

The Bowdoin hockey team completed the week's schedule with victories over the University of Pennsylvania and U.N.H., while losing a decision earlier in the week to the Big Green of Dartmouth.

In the game Monday night, the Polar Bears were outleaved by the smooth passing and precision play-making of the Indians from Hanover. The partisan Bowdoin crowd witnessed a sensational goal tending job by Dave Coupe, who turned back 51 shots, and was the prime reason for the relatively low score of 5-3. Coupe was constantly peppered from all angles throughout the 60 minutes of play.

The Indians wasted little time in jumping off to a 2-0 lead in the first 10 minutes of the opening period. The goals were scored by John Piate and Doug Hayes.

The Polar Bears hit the scoring column at 11:46 on a goal by Dennis Hamlen with the assist going to defenseman Bill Mathews. Bowdoin was able to keep the pressure on and Flinn scored the equalizer at 3:58 of the second period with Hamlen assisting. The happiness was short-lived, however, as the Indians struck back with goals by Jack Siebs at 9:58 and Lemson at 11:44 of the second, and added one for good measure at 11:30 of the third on a blast by Stuart from 28 feet out.

Sean Fordelet

The next afternoon the Polar Bears were treated to a 1-0 forfeit decision over the University of Pennsylvania in a game that was played with Bowdoin goals in both nets.

The unofficial score was 6-4, but because Penn was without a goalie of its own due to injuries, Bowdoin was awarded its easiest win of the season.

Rather than call the game off altogether, Coach Sid Watson offered to lead Penn's coach Ron Ryan, former Colby star, one of the home-team's netmen. Before Dick Ledger and Dave Coupe took over the net-tending chores for Penn, the Polar Bears moved to a quick 4-1 lead.

In the second period with Ledger in the visitors' nets, Penn suddenly gained momentum and took control of the game while trying the count with three goals. The onslaught continued into the third period with two more scores and a 4-4 lead. In this period Dave Coupe had exchanged with Ledger and was now blocking shots for Penn.

With only 35 seconds remaining in the game the Polar Bears finally

Pucksters Beat Penn U.N.H. Dropped By Dartmouth, 5-3

Polar Bears Drop Two Hoopmen Face A Heavy Slate

Bowdoin's improving basketball team will have a busy weekend when it entertains MIT Friday and Amherst Saturday. Both games will be played at Sargent Gymnasium, beginning at 8:15 p.m.

The two weekend contests will be the last chance for Maine basketball fans to see the Polar Bears in Brunswick for more than a month. The next Bowdoin home game will be an afternoon contest against Tufts February 15.

One of the biggest factors in the team's sudden surge has been the improvement of sophomore Howie Kowalek. Kowalek has been the return to full strength of junior Dick Whitmore and senior Mike Napolitano, who were hampered earlier by leg injuries.

Most of the club's recent offensive punch has been delivered by center Whitmore, who leads the team in scoring, and forwards Napolitano and Pease. Warren has shown of late that he too is a definite threat around the basket.

Bowdoin's freshman swimming team, under the direction of coach H. D. Glendon, scored its first victory of the season last Friday against a hapless South Portland High team. The Polar Bears completely dominated proceedings as they outswam their opposition by the lopsided score of 72 to 21. Welch, ridge-way, and Blanche passed the froth to victory while South Portland only managed to pick up two firsts.

Bowdoin's freshman swimming team, under the direction of coach H. D. Glendon, scored its first victory of the season last Friday against a hapless South Portland High team. The Polar Bears completely dominated proceedings as they outswam their opposition by the lopsided score of 72 to 21. Welch, ridge-way, and Blanche passed the froth to victory while South Portland only managed to pick up two firsts.

Sailing Elections

Charles R. Vaughan has been re-elected Co-ordinator of the Bowdoin College sailing crew.

Other officers elected by the squad at its annual organization meeting include:

Vice Commodore, Charles M. Cary '65; Rear Commodore, Albert Willett '65; Secretary-Treasurer, Samuel H. Hartman '65.

The Senior and Junior class members-at-large are, respectively, Myles J. Connell '66 and John O. Parker '67. Ben W. Graves '67, was appointed Publicity Officer.

Track Team Has Potential; Sophs An Important Factor

With the first meet still a month away Track Coach Frank Sabatani said that there are many unknowns in the Bowdoin Track picture, much dependent on the development of the many sophomores on the team. There is much potential on the team and the extent to which it is realized will determine how good a season the team will have.

Strong points for the team will be the Broad Jump where captain Dave McDowell who last year won the Easterns and placed second in the New England is backed up by Junior Mike Anello. In the thirty-five pound weight sophomore Alex Schuler is throwing as well or better than last year's star Bruce Frost and is backed up by letter man Hugh McLaughlin and first in-coming Sophomore John Coggins. The Discus will probably be the strongest event, here, Schmitz, Mike McCutcheon who placed second in the Easterns last year, Coggins and another Sophomore, Ed Bell are all very fine performers.

Other events could become strong as potential among performers is realized. In the 40 yard dash Sophomore Ray Bird is fast developing, and Paul Soule and Bill Rounde should combine to score many points in this event. Senior Sherman Boushield and Sophomore Dave Kohl will run the 600 as will Soule and Rounde, and these men plus Bird and another sophomore, John Turbell will make up the mile relay team which will be tested Saturday at the K of C Meet in Boston.

In the longer races, the Thousand, Mile and Two Mile, Frank is hoping that Matt Cook, Charles Bahill, Chris Redbert, and particularly Tom Chamberlin will contribute much needed points. Ole Reddahl is much improved in the Five Vault and it is hoped that he will score many points in this event where the competition is so particularly strong. In the High Jump Turbell, Reddahl, and bare-footed Sophomore Andy Beager are all potential star foot jumpers. Finally, the Shot Put was the event most hurt by graduation, but it is hoped that John Coggins, Dave Steeking, and Bill Minnis, all Sophomores, will be able to improve upon their last year's performances and fill this gap.

Bowdoin Athletes Earn Honors Drigotas Named Coots Qualifies Hans Hede Earns An All-American For '64 Olympics Soccer Laurels

Former Bowdoin College swimmer champion Jim Coots has qualified for the United States Army's Modern Pentathlon team which will compete in the Olympic Games in October, 1964.

Jim, who was captain of Bowdoin's outstanding 1963-64 aquatic team and New England Intercollegiate backstroke champion, wrote Charles J. Butt, Bowdoin's swimming coach, that he had come through the trials of the five-sport competition at Fort Ben Houson, San Antonio, Tex., with flying colors.

In order to qualify for the Pentathlon team, Jim had to compete in swimming, shooting, riding, running, and fencing. He is due to go on active duty as a Second Lieutenant in January at the Army base.

Coots, a cadet officer in Bowdoin's ROTC, marked up a record which still stands in the 200-yard backstroke at last year's New England championship meet. He also holds the Bowdoin record in the 200-yard medley swim, and was a member of the College's record-breaking 400-yard free-style relay team in 1962. He placed 4th in the 200-yard individual medley race and 6th in the backstroke contest at the big East Coast Intercollegiate Championship meet.

Hans Hede, a Bowdoin Plan student from Stockholm, Sweden, and standout soccer player has won honorable mention in the 1963 All New England Intercollegiate Soccer Team selections.

Hede, an inside left on the Polar Bear squad, was picked for the same position on the All-American soccer selection.

During the 1963 season he scored 4 goals and had 2 assists for Bowdoin.

Aiming at a career in civil engineering, Hede is studying mathematics in his studies at Bowdoin. In Sweden he won the distinction of being the best athlete in his school.

"BOWDOIN'S discipline is completely atypical; his personality is unusual, his development is early, his success is complete, that he has been no one of the typical Negro. The only handicaps he could possibly have is the hopelessness of the situation. His problems are not the Negro's problems, but James Hede's problems, complicated only slightly by the fact that James Hede is a Negro."

For the current issue of NATIONAL REVIEW, write to Dept. CH, 150 E. 25 St., New York 16, N.Y. for free copy.

ZOG TRIPPED UP — Bowdoin's Harry Silverman (21) is teased as he attempts driving layup in action against Colby Tuesday night. The Polar Bear hoopsters dropped the contest, however, 88-83. (Photo by Moogellan)

After defeating Maine and Colby in the Down East tournament, the Polar Bears returned home to face the same teams in regular season competition. On Saturday, January 4 the Polar Bears faced the Colby Mules. In the first seven and half minutes Bowdoin took substantial 21-12 lead. Unfortunately, Colby started shooting well at this point, while the Polar Bears were unable to buy a point. In the last 12 minutes of the half the Mules outscored us 18-7 to take a 31-23 lead at halftime. The mules were pleased primarily by Ken Pederman who scored 14 points in the half.

In the second half Bowdoin came back to tie the score 48-48 and went on to take the lead at 49-50, behind two baskets and a foul shot by sophomore Dwight Newcomb. Here Ken Stone, Colby captain, hit on two jump shots to tie the lead in this scoreless battle with 2 minutes left. Dick Whitmore hit a jump shot to tie the score at 48 all. The Mules, however, again shot within one point of tying the game, by sinking five foul shots and thus winning the game by a score of 61-58.

The past Wednesday night the Polar Bears entertained the Black

THE BELL TELEPHONE COMPANIES SALUTE: DON MacKENZIE

After less than two years with the New England Telephone Company, Don MacKenzie (A.B., 1958) rose to the position of a supervisor.

One reason for Don's swift rise was his swift start. As a salesman, Don outperformed most of the other fifty salesmen in his office, and contributed a sound idea to reduce paperwork besides.

Based on these achievements, Don was given the job of teaching other salesmen, and has had nearly two-thirds of the company's sales force in his classes. Again, an outstanding contribution! Again, a promotion his reward, this time to his current supervisory position.

Don MacKenzie, like many young men, is impatient to make things happen for his company and himself. There are few places where such restlessness is more welcomed or rewarded than in the fast-growing telephone business.

Count Basie Orchestra To Sparkle At Winter's Dance

"Swingiest Band In The Land" Provides Friday Night Concert

Honored to the Count
The jazz world puts all its heroes in "the" tight little school of artistic similarity that confines each jassman to his own musical neighborhood: Funk, Freedom, Groove, Bop, Soul. Only three great players have managed to avoid classification — Thelonious Monk because he is inimitable and Monkishly alone, Duke Ellington because he is a kind of president emeritus, and Count Basie because he so perfectly brings a wild and woolly engagement at Manhattan's Basin Street East, the Count's pigeonhole at last became apparent: he is the New Year's Eve bag.

Long Fellow
The Count is more loved than admired by his immense audience, and at Basin Street East, his fans were already of the ilk that whistle along their feet and shout, "Yes, Count!" Basie was at his amiable best, beaming proudly as his players from the piano even playing fun-and-games accompaniment to Singer Keely Smith. Running through his familiar book — "Jumpin' at the Woodside, Walk, Don't Run and One O'Clock Jump" — his theme song — Basie built a cheerful and exciting feeling that seemed intended for an imagined dance floor.

Basie, 59, has been a big-band maestro for 28 years. Except for the brazenly modern harmonies and voicings of his new arrangements, "Basie sound" has remained steadfastly the same all along. With Benny Goodman his main competition, Basie was a swing king in the 1930s and his style still defiantly prevails. In the first years of bop, Basie was considered so sadly re-

actionary that his band endured a long eclipse. Then, after four years' touring with a small combo, Basie collected a new 16-piece ensemble in 1953, and within a year it was fully established as the swingiest band in the land.

Glass Tones
Basie's piano playing is a long way back from the front, but he plays the blues with great authority, nimbly riding the beat with quietly assertive chords and 30-year-old blues riffs. His band is the best-drilled orchestra in jazz — which is why it swings like no other. The rhythmic nuances jazz needs to swing are blurred by the slightest impression in ensemble playing, but in Basie's band, the timing is flawless and the result is a driving pulse that never for an instant falters.

"Among the band's members are some authentic jazz virtuosos. Sonny Payne is the grooviest of the big-band drummers — to watch him is to listen to. Alto saxophonist Marshall Royal. Trumpeter Snooky Young and guitarist Freddy Green are all heartily blues-soaked."

Basie's Buddy Catlett, the band's newest member, gives the whole orchestra a subtle and highly advanced sense of rhythm. Basie never lets his audience get a glimmer of the solemn musicianship behind them. "How a little foot-pedal" Mr. Holzman, the Executive Secretary. Then he sits down and stinks away into the gita-toned jazz arrangements his band alone can play.

Reprinted with permission of Time, Inc.

THE MOST EXPLOSIVE FORCE IN JAZZ — is none other than the Count himself, Count Basie, of course. The Count and his 16-piece "count" will be one of the highlights of the Bowdoin Winter weekend of February 19-21. Other features of the winter revelry will be a new members' social (theme: Come stirr about the annual Winter houseparty play (George's "Inspector General"), and a variety of athletic contests. And, of course, the scorching of the Winter's Queen.

Council Of House Presidents Backed By Eight Fraternities

At a Wednesday evening, with all the houses except Zeta Psi and Phi U, reporting, eight houses had approved the proposed constitution of the newly-formed Committee of House Presidents; only ARU definitely voted down the constitution, while Delta Sigma tabbed it indefinitely because, in the words of its former president, "The House, as a whole, thinks that the Council (Committee) won't accomplish anything." Delta Sigma, however, gave assurance that if the other houses assented to the constitution, it would do so.

The Committee of House Presidents, which was formed about six weeks ago, has as its prime function the enforcement of the existing social rules with the ultimate goal being the recommendation to the Administration of the students' responsibility in abiding by the present rules and the eventual revision and liberalization of the present social system.

To Act As "Mediator"
The Committee, which is to consist of the twelve house presidents and their immediate predecessors, is also designed to act as a mediator in inter-fraternity disputes and as a "liaison committee between one another, the Administration, the Faculty, the Student Council, and other Campus Organizations."

In enforcing the social rules, the ultimate penalty which could be imposed in case of non-compliance would be to Campus-wide probation) before penalty would be inflicted only upon a 1/3 vote of the house president. In cases involving two or more fraternities or individuals and fraternities, or upon the request of a house president who, "after procedure at his own fraternity, still utilizes his option to bring this problem (of whether or not a person on house probation should be subjected to Campus-wide probation) before the Committee of Fraternity Presidents." In this instance, the Committee would automatically approve social probation in all houses for the person so cited.

This section, section 4 of Article IV, of the constitution, which deals with the enforcement of current social regulations, and, especially, part C, which deals with a house extending house social probation to Campus-wide social probation, are the primary causes for the constitution's defeat at ARU. ARU's objection was to the Committee's power, rather than its jurisdiction.

In regard to the question of whether the House Presidents' Committee would interfere with the Student Council's power, the former president of Kappa Sigma and a member in the formation of the Committee stated that they would be no threat whatsoever. Obviously, we are talking about a committee, not a governing body. Student Council members had a different opinion.

Visiting Committee Reviews Plans For Parking Lots For Fraternities

At the last meeting of the visiting proposal replaces that of a large protection (a night watchman) for the lot.

In order to meet the costs of expanded college parking facilities the registration fee will have to be raised considerably. The present fee is 25 cents. The new fee, reports the committee would not be over \$35. This fee may seem large but it is not full strength, there does exist the possibility of not having enough rooms available, even with the removal of all the seniors to the Center.

The Dean conceded that there is a chance that the Senior Center could be used to take up the overflow, which might result from the renovations and a larger Freshman Class in 1964, but emphasized that "we don't want to use it (The Senior Center) for that purpose."

He said that he would rather see the continuation of off-campus rooming if there are not enough rooms when the Center opens in the Fall.

The Foundation announced last month that Bowdoin has been granted \$75,000 in support of a 1964-65 Academic Year Institute for secondary school teachers of mathematics. This AYI program will be the fourth in as many years for Bowdoin.

Crosby Issues Request For Orchestra Players

A request for various orchestra players to form part of a Bowdoin-Brunswick chamber orchestra group was issued yesterday by the faculty. Crosby, instructor of music at the college.

Mr. Crosby mentioned that he was looking for players, preferably in any of the strings, oboe, bassoon, flute, clarinet, and french horn. If enough students are interested, the instructor would accept, practice will probably be held Sunday evenings, and the group will appear with the school's society already under his direction.

These interested are urged to call either Crosby, Room 404-405, or the faculty secretary, Room 404-405, for more information.

Episcopal Lecture Four Professors Participate In NSF Teaching Programs

"Heresy, as considered in the early centuries, was not necessarily a philosophy of false thoughts, but was spoken." Orthodoxy was no more than the right opinion."

So stated Professor Fritz Koellin of the German Department as guest speaker Sunday at a meeting of the Bowdoin Episcopal Students in the Chase Barn Chamber.

Citing Constantine as a proponent of dogma, he reminded the audience that not only religious, but scientific differences were branded as heresy; the Copernican Theory, for many years, was scored by contemporary dogmatists.

Prof. Koellin traced the development of heresy from pagan times through the Christian era, adding that, after Christianity became the state religion of the Roman Empire, "it was now our turn to persecute, to condemn."

Referring to Paul's conversion of the pagans in the West as "no Billy Graham affair," Prof. Koellin emphasized that Christianity even from its origins — taught the "importance of a thinking-philosophy, not the accent on miracles." After all, he added, the main role of Christianity is to "break the fear of death."

In concluding, he noted that "Religion does not begin with Theology, but with experience," similar to those of Paul, Mohammed, and Joseph Smith.

The program draws to an untimely close as the speaker is interrupted by a loud explosion. The speaker is then escorted to the safety of the building.

Two other Professors are to leave for the current academic year while serving their nation in supervisory NSF positions. They are Professor Reinhard L. Krogen of the Mathematics Department, who was appointed Program Director for Academic Year Institutes; and Professor Myron A. Jopper of the Physics Department, who was appointed Associate Program Director of the Graduate Program, Fellowship Section, in the NSF's Division of Scientific Personnel.

Judiciary Board Head Expresses Opinion Of President's Council

Opinion Of Judiciary Head
"The formation of the Council of Fraternity Presidents now provides the student government with a body that will oversee the present enforcement of the College Rules within the fraternity structure. Up to this time we had enforcement in the dorms by the proctors, but no responsible body for enforcement in the fraternities. Even though the handling of fraternity problems by this body will override the present quietus of the Judiciary Committee, it is another step in the right direction for student-fraternity responsibility."

"The Judiciary Committee will still handle campus and town problems, situations arising under the Honor System, if ratified, and any appeals or requests that a student or fraternity wishes to place before the Committee. The structure of student self-government will be strengthened by the Council of Fraternity Presidents."

Campus Judiciary Committee
Sherman H. Rowanville, Jr.
Chairman

Poll Spurs Committee To Action; Intellectual Atmosphere Desired

An honor system has been proposed at Bowdoin. It deserves the thought of faculty and students alike. The best way to understand the intent of the system is to trace the thought of the committee which made it up.

Earlier this Fall a Columbia University poll was published which showed Bowdoin as having the highest incidence of cheating in colleges of comparable size without honor systems. As a result of this poll and student interest already apparent, the Student Council appointed a committee to study the problem and recommend whatever action necessary.

Although skeptics felt this would be the end of the movement, the Committee met several times and concluded that, although the results of the Columbia poll were in part due to statistical inaccuracies, they showed a sizeable minority at Bowdoin who cheated. The committee further concluded that to many cheating was considered a "sport" and only dishonorable when one was caught. Also that lack of a discernible majority opinion on cheating combined with the present proctoring system encouraged this opinion.

Not The "Hard Core"
The committee realized that an honor system would not necessarily discourage "hard core cheaters," but would, by making plain the majority's view discourage potential cheaters. It would also acquaint Freshmen with the majority's view at their impressionable "entering stage." Finally some hoped that the communication between professor and student might be favorably affected by the removal of the faculty's policeman image.

Having decided on the merits of an honor system, the committee, aided by the Dean's office, reviewed several colleges' honor systems. Some were found too involved in

Dean Stops Rumor; No Underclassmen In Senior Center

In answer to the rumor now going around Campus that Underclassmen will be occupying some of the rooms in the Senior Center next Fall, Dean Kendrick, speaking on behalf of Prof. Whitehead, stated that there are "no present plans to put Underclassmen in it (the Senior Center)."

Referring to the proposed renovation of Winthrop and Maine halls next year, the Dean admitted that there would be a "certain tightness with one or more dormitories out of commission." Since the present Junior class is not up to full strength, there does exist the possibility of not having enough rooms available, even with the removal of all the seniors to the Center.

The Dean conceded that there is a chance that the Senior Center could be used to take up the overflow, which might result from the renovations and a larger Freshman Class in 1964, but emphasized that "we don't want to use it (The Senior Center) for that purpose."

He said that he would rather see the continuation of off-campus rooming if there are not enough rooms when the Center opens in the Fall.

Morehouse Exchange Committee Selects Six Men For '64 Program

The Morehouse Exchange committee met last Friday at 4:00 to approve six Bowdoin men for the exchange students here.

The committee is composed of six members: Dean Green, Prof. Moulton, and Mr. Samuel Allen, Jr. represent the faculty while Phillip H. Hanson, III, David L. Bayler, and Sanford P. Markey are the students on the committee.

Dean Green says he is pleased with the results and says that six is a very good number. (The only students who were eligible were those from the Sophomore and Junior classes. Also many students' names of the students that will be invited to Bowdoin for the spring major program.)

ELECTIONS ARU

Slevoe R. Sjogel '65 has been elected President of Alpha Rho Upsilon Fraternity at Bowdoin College. Other newly elected Alpha Rho Upsilon officers include: Vice President: Michael Waldman '65, Treasurer: Laurence M. Weinstein '65.

Also, Recording Secretary, Arthur S. Kress '65, Corresponding Secretary, Jerold C. Cantor '65, Historian, Cary N. Mack '65, and Sergeant at Arms, Leonidas D. Conditis '65.

New Orient To Metamorphose After Exams

Chi Psi
New officers for the spring term are: President: Gilbert Erdani '65, Vice President: Gerald Gleiser '65, Secretary: Joseph Gorman '65, Treasurer: Peter Johnson '65, Assistant Treasurer: William Hoar '65. Also student council representatives: Charles Metz '64, Paul Burnham '64, Rushing chairman: William Hoar '65.

Review Period?

by Larry Weinman

Well, semester has ended again. The Orient was once again reminded of a point of contention among students, faculty members and the administration. Instead of the present system of having finals come immediately after the end of classes each semester, would a week off for review before finals enhance the student's ability to face the exam?

In order to answer this question, the News Editor of the Orient scoured the campus to poll student opinion on this problem. Most of those who were asked if they would like a week for review answered in the affirmative. A few representatives of the administration, however, felt that a week off would hurt more than help. They felt that the time would be better spent in the classroom. They felt that the time would be better spent in the classroom. They felt that the time would be better spent in the classroom.

students have to catch up on work before the start of the next semester. Having classes right up to examination time puts great strain on those who have to catch up. By having a week off before the start of classes and the beginning of finals, the students would be given an opportunity to complete the work they have done and have time to do during regular classes.

Diek Van Antwerp (AD): There is no question that a week off would enable us to be better prepared for the semester finals. It would give the students a chance to reacquaint themselves from the rigors of the semester's work.

Tom Miek (Beta): One day off like I have in this coming exam schedule doesn't give me enough time to complete myself for the exam I have to face soon. It would be much wiser if the college gave us a week off before finals so we wouldn't be overwhelmed with finishing up classes and cramming for finals.

Dr. Small (Delta Sigma): Ideally, each student at the end of the semester has a chance to reacquaint himself from the rigors of the semester's work. The day after

classes end he should be able to take two days off to complete all his exams. But we all realize this is impossible. Yet by taking for a week off, we are conceding that we didn't have enough time to do our work during the semester. If a choice has to be made between the two systems, then I would rather "concede" that we didn't have enough time to review all my work.

Chris Smith (TD): I am in favor of having more time off than we have now, but a week is too much. The work would get stale by the time finals arrive. I suggest that three to five days be left free for review instead of a whole week.

Some were against increasing the review period. Jeff Wolfe (Phi U): Having a week off seems pretty good when you first hear about it, — who wouldn't? But this time period would have to be made up somehow. It would be the only time it could be made up in the spring. But by the time June rolls around, I'm anxious to leave and we get out late enough as it is. I'd rather skip the week instead of attending classes right through the beginning of June.

By Man's Own Hand

by Steve Fedrick

Ask any student at Bowdoin College when he first learned to crawl under a desk, assume a fetal position and count to three. More than likely his answer will be somewhere around the age of six or seven years. In 1945, the first drill became obsolete, and, though still continued, was greatly overshadowed by the more stimulating and imaginative drill to threaten an atomic attack.

Charles Wallace visited two High Schools in Annapolis, Maryland, in which is normally integrated; the other is entirely Negro. His first problem was typical for many of our students, that is, he had gotten to the school just at the time when they released their pupils for Christmas vacation. He was unable to speak to any of the guidance counselors there; this ultimately may be the most important accomplishment of the project, putting Bowdoin catalogues in the offices of the guidance counselors and Bowdoin's name in their minds.

Ben Howe went to Hartford High School. The guidance counselor there is Bowdoin graduate. My problems are unique, as anyone who knows anything about the North End of Hartford will tell you. The Negro population of Hartford is largely the transplant of Negro population of America, Georgia, and students come into the high school with about a third grade reading ability. We've

secret of life, he had paid the greatest price — his innocence. No longer does Man live in a universe governed by a Divine Providence. The former doubts of the skeptic and the atheist have been confirmed: the supreme power of finality has been taken from God and placed in the hands of men.

The atom has nothing new to learn because he has studied adequately during the year. The day after

For the individual, latent fear has replaced the innocence and morality, formerly the basis of man's ethical stability. Instead, in a universe of potential self-destruction, the only solace comes in a system of potential offense, being the best form of defense. Uncertainty and insecurity generated during the Depression is enhanced by an atmosphere of misce and nuclear warheads. Peace is maintained only by a check-mate to war, and a mid shifting of balance promises to defy all ideology and level annihilation. Fear, KCBM, and SAC have become symbols of a grim "no eye for an eye."

Yet, this cannot be avoided. Knowledge cannot be retracted, once it has been absorbed. Only the bravest of optimists would dare hope that Man would divert himself of nuclear apocalyptic. In every "peaceful" employment of nuclear power lies the potential of Hiroshima or Bikini Atoll. The laws of quantum mechanics and the theory of relativity have not only proven Man a finite creature depending upon a finite qualities; they have given him proof of the infinite universe.

verse of which he is a part. Therefore, he no longer exists as the end of all this, but becomes estranged and as capable of extinction as the Dodo.

Nor does his power limit him to destruction. Instead, he becomes the mythical alchemist, turning base metals into gold, cultivating gardens in the desert and creating new elements as he needs them. The atomal universe does not preclude an amoral existence, but calls for redefinition of traditional notions, hitherto lost. The God of the mystic must be revised to cope with an Age that demands visible, conclusive proof of existence. Morality must be presented on a practical basis. Christian ideals need a new kind of reinforcement that offsets the urgency which demands immediate results.

More than ever, an individual is forced to depend upon those about him for existence. Falling prey to the mechanical system which surrounds him necessitates his operating independently and, thereby, becoming antagonistic toward all relationships. Salvation from a mechanical existence lies in realization of the compromise of values, into which humanity has been forced. While tradition has been disproved, reality still depends upon the same by the individual, and the collective effect upon humanity through the individual.

A Steady Diet

Davis in Chapel: A Progress Report

Remarks of J. S. Davis in Chapel Tuesday:

When several of us first conceived of using outside recruiting techniques to encourage more Negroes to attend Bowdoin, we did not anticipate spectacular success. It would be vain for us to suppose suddenly that we had the answer to the most persistent problem confronting admissions departments hereabouts for years.

There is one other matter: admissions standards. Some students have surmised that Bowdoin intends to lower her standards in order to admit Negroes. This is absolutely false. SATs may not count for so much in The National Scholarship Service and Plan for Negro Students, commonly called Negro-Persons, recently conducted a survey nearly 3000 Negroes it has placed in some 300 predominantly white colleges.

will give you some idea of the problems involved. I will not try to explain specifically the results each year, but rather give you representative sampling. These students visited schools in Boston, in other parts of Massachusetts, in New York, in Connecticut, in Michigan, in Ohio, in Maryland, in Pennsylvania, in Maine, and in Rhode Island.

One of the more interesting aspects of this project has been the general reaction of the student body to it. "Where do we have gotten any reaction at all, I suppose I must say 'the reaction has been mixed.'"

The most general criticism — and one which we heard from several-minded students — was that this program amounted in effect to reverse discrimination, that Bowdoin should make no more effort to attract Negroes than it does white. We replied to this criticism, really the only criticism which deserved reply, by saying that the statement was not correct. If America were what it should be, if there were in fact equality of opportunity, if communications between Negroes and predominantly white colleges were in fact as complete as between white and these colleges, then I would say we should not lift a finger to encourage Negroes to apply to Bowdoin. But this is not the case.

Results of our program during Christmas vacation. Approximately twenty-five students look part in this, which involved them at high schools or near their home towns, and talking with principals, guidance counselors, and students in the hope of encouraging Negroes to think of Bowdoin as a possible college choice. To date, we have results from seventeen of those twenty-five students. This is, of course, incomplete, but I think it

will give you some idea of the problems involved. I will not try to explain specifically the results each year, but rather give you representative sampling. These students visited schools in Boston, in other parts of Massachusetts, in New York, in Connecticut, in Michigan, in Ohio, in Maryland, in Pennsylvania, in Maine, and in Rhode Island.

The Honor System...

Appearing elsewhere in this issue is the final draft of the proposed Honor System for Bowdoin. Previously in this space we have indicated our approval of the concept of an Honor System, and presently we would like to add a few brief observations on this proposal in particular.

The system drafted by Steve Bloomberg, and his committee is, in essence, a very simple one. There are no complicated court procedures, no artificial constructions to administer the system, and there is a considerable measure of responsibility for those who wish to accept it. It is not a system, per-se, it is a code, designed for the individual.

It seems to us that the proposal is drafted very much in the "Bowdoin tradition" (or what Bowdoin would like to have as its tradition); it leaves most of the responsibility to the individual, and what administrative machinery does exist is a model of simplicity and practicality. The proposal leaves much, indeed, a lot to be defined by precedent and the extensions on various cases: At a college as small as Bowdoin no more is needed.

Unfortunately, even without seeing this proposal, there are those on campus who have been condemning the Honor System (or Code) as completely impractical. These individuals maintain that the Bowdoin student body is not ready to assume this responsibility, and that the institution of such a scheme is an invitation to wholesale cribbing.

Yet a closer look at the situation as it exists now will reveal that what we have is not too far from what is proposed. Those who cheat at present (by their own admission) do not find it especially difficult to do so; the atmosphere is simply not that strict, even in a proctored exam. We do not believe that the proposal, if passed, will effect that much of a physical change as to induce "wholesale cheating." On the contrary, what it may change is the student attitude that congenial dishonesty is in the first place, simply by forcing the question of academic honesty to the individual's attention.

We wish to congratulate the Honor System sub-committee, and to give their proposal our strong approval.

... And The New Council

In the formation of the Council of House Presidents, the student body has indicated its willingness to work seriously and responsibly for a change in the social rules at the college. (It may also have furnished proof to interested parties in Mass Hall that red tape can be cut in something less than the time they allot for the same task.) More important, it has filed a need which has existed for some time at Bowdoin; that for a central, student executive body.

Before this winter, the Student Council could legislate regulations, the Student Judiciary could pronounce upon the offenders, but the student body defaulted to the administration in the matter of enforcing the laws. In other words: there existed a legislature and a judiciary, but executive functions, instead of being vested in any one group, were spread over the three bodies mentioned above. Thus no one was exactly sure where the powers of one organization began and those of the other left off. (Of course, some qualification is needed in the case of legislative, but even here indecision may be noted in considering some of the recent events on campus.)

The newly-organized Council, however, should go far toward filling the void. Composed, as it is, of the supreme executive authority of each house (and, we hope, of the independent) the group definitely has the right to speak authoritatively for the entire campus. The Council is in an excellent position to enforce the rules of the college.

So far, so good, but there may be a few hitchers. . . . For instance, we disagree with Shep Remis (see article by Pete Manger) in giving "legislative" powers to the Council. It seems to us that by giving such powers to the group there is an unnecessary duplication of Student Council. We believe that while the new Council should have the right to propose legislation, it should not both pass and enforce the rules. We'd like to keep it strictly an executive body.

Also, if it is to fill it's post completely, it should be able to speak for the entire campus, not just the Independents. So far we have heard nothing relating to the possible inclusion of their representatives.

And finally, if the group is to remain permanent (and we believe it should) we hope they will not concern themselves simply with the problem and enforcement of social rules, but will take it upon themselves to enforce the entire set of student regulations.

An ambitious task, and we wish them luck at it.

Letters To The Editor

Bomb The Ban

To the editor,
 Bowdoin, Williams, Amherst, and Wesleyan are presently restricted from any post-season team competition because of four institutions by the presidents of the four bodies and the athletic departments of each school are in the process of preparing statements for the reconsideration of the present policy.

Historically, the presidents agreed upon the present ban in order to keep athletics within the proper limits making sure that they play a secondary role in student life. It was felt at that time, although Williams and Wesleyan had attended basketball tournaments, without apparent problems, that the ban would prevent athletes from jeopardizing the qualities of the good academic education offered at the schools.

It must be recognized that frequent resumés from both alumni and students might push athletics beyond the point of proper balance if they were not controlled. This does not mean prevent the players from being able to look toward the

possibility of earning the right to test themselves in better competition. It might be considered a weakness of the administration if the school yielded to such pressure, and attempted to maintain a championship team for several years at the expense of our high standards. We recognize that athletes at a small school run in circles and that it might be a very rare occasion that a team would have the talent and comparable season which would merit an invitation to participate in Eastern Competition. When such a team does materialize at Bowdoin, however, it should have the benefit of receiving the added stimulus of possibly applying its efforts to top competition. Football, basketball, soccer, hockey, and lacrosse are all involved. Being able to test the excellence of an outstanding Bowdoin team might boost the spirits of the team members as well as the students who support it.

The events of the past month have shown us what benefits the college derives from entering representatives in nationally recognized competition. The college might welcome the opportunity of allowing at least the possibility of one of its athletic teams bringing the rewards and recognition to the college for maintaining athletic excellence in such an advanced academic atmosphere.

The formal letters will be presented within the week and the results will be coordinated through the committee headquarters at Wesleyan.

Sincerely,
 Pete Beaver

Fie Bates

To the editor,
 A copy of the following letter has been sent to the Bates College campus publication:

Following the defeat of Bowdoin at the hands of the Bates basketball team on Jan. 15, I was forced to drown my sorrow at The Villa. It was not the loss of the game

About the Beatles, The Pay Roll, And The Snow Plows

It has been eleven years, but it has been twenty-five months since the Beatles first appeared on the scene. With three single records and two LPs high on hit record charts from Cape Town to Old Town, from London to New London, The Beatles have become the biggest box office attraction since Elvis Presley, and maybe bigger.

The British singing group appeared for a one-night performance in England early in December, and Life covered the story as princess Margaret smiled and congratulated the group. They were news again. Earlier, police had to keep the four young men under guard in a locked theater as fans rioted and demanded to see the Beatles. The Beatles record, I Want to Hold Your Hand, moved from no listing on the WRZ survey, to number one, the most popular song in New England (according to WBZ). There must be a reason.

The Beatles are just not that good. Their sound has been described variously as "horrible"; "no dissimilar to the rock and roll sound of the early fifties"; and "just not worth listening to."

But for every disparaging word, there are countless expressions of approval. As P. Tennyson, president of a local Beatles fan club said: "The Beatles? Why I love them! Their style is fresh, exciting, and that hair is too much."

If the Beatles continue to remain successful as a group after the initial novelty has worn off, then perhaps their sound, their wit and their style is portentous of future trends in a very large section of the music world. If the Beatles click, anything goes.

A lot of people don't care much for the school's new bi-monthly student payroll system. What may have been conceived as a measure to decrease effort and material by the Bureau's office, may wind up using more man-hours than did the old system. Under the new twice-monthly system, students find that it is becoming harder to establish a controlled budget between paychecks. If conditions were different, there would be a great necessity for making the checks stretch from payday to payday. But the way things work now, the student is not at the mercy of an unapproachable, impersonal cooperation. Rather, all he need do after he fouls his biweekly budget up, is go back to the Bureau's office, and draw a loan. If the economics of labor still favor the new system after countless students, unaccounted to the dynamics of readjusting their spending habits, his the college for cash, great. Let the distance between paydays increase as the powers decree. As long as they don't throw away loan ships, we don't care.

It's a pleasure to watch these big snow plows clear the streets after the kind of snow we had last Monday night. It must be with great glee that the plow operators perform their job by making roads passable, and driveways inseparable. And if the plows do sometimes push snow back on freshly hand-shoveled driveways and sidewalks, the act is probably unintentional. Besides, the plows sometimes knock down stop signs, fire hydrants and stop lights, so their drivers can't be all bad.

Smoker Planned For Trip

VAIR AND WARMER TOMORROW... Not, perhaps, the forecast for this section of the country... more like Bermuda, where the above was taken. All (except for the photographer in the foreground) were members of last year's Bowdoin Week in Bermuda. The trip, planned for Spring vacation each year, is arranged by the Howe Travel Agency in town; this year's campus representative is John Sammis, '64, pictured above fifth from left. He will host a smoker for those interested at Pal U next Wednesday evening at 7 p.m.

You have room for growth in data processing—at IBM

IBM offers graduates with bachelor's or advanced degrees in Engineering, the Sciences, Business Administration, Economics, or Liberal Arts challenging assignments in the marketing of information systems and equipment.

Rewarding opportunities exist in more than 190 IBM Sales and Service Offices located in major cities throughout the United States.

These opportunities increase with each new system that is designed to meet the growing needs of business, industry, government, research, education, or space.

wide range of positions

Marketing: The IBM Data Processing Representative is a consultant to his customers. He demonstrates how customers can achieve better business management and controls through data processing.

Systems Engineering: IBM Data Processing Systems Engineers are men and women who study customer requirements in depth, devise an approach, define a preferred machine and operational solution, and assist in implementing this solution.

opportunities for advancement

IBM, an Equal Opportunity Employer, offers you extensive training in the area of your special interest. This training continues as you advance along a planned career path leading to professional or managerial positions.

We also have comprehensive company-paid benefits plans... training programs to keep you abreast of developments in your field... and a tuition-refund plan to give you financial assistance for graduate study.

on-campus interviews

See your college placement director to determine when IBM will interview on campus, and make an appointment to see our representative. If the interview date is inconvenient for you, please write or call H. K. Seymour, Branch Manager, IBM Corporation, 555 Forest Ave., Portland, Maine, SP 3-4703.

IBM will interview February 27.

Hirshman To Head Fraternity Debate

Pete Hirshman has been elected President of the Advisory Council for Bowdoin's annual Wilcox Brookings Mitchell Interfraternity Debating Tournament.

Hirshman is Manager of the Bowdoin Debate Club and a member of Alpha Rho Upsilon Fraternity.

Professor Albert R. Thayer, faculty adviser to the Council, said the interfraternity debate competition will start in February and continue through March. The contest includes a series of preliminary debates among the fraternities and a championship competition between the two leaders.

The fraternities will be competing for the coveted Wilcox Brookings Mitchell Debating Trophy. The trophy, a cup, was presented by an anonymous donor in 1963 in honor of Professor Emeritus Mitchell, one of Bowdoin's most beloved figures, who died in 1962.

The trophy is designed to encourage debate on subjects of importance to students. It is inscribed annually with the name of the winning fraternity and awarded permanently to the fraternity winning it three times.

Brown Reviews Bowdoin Scene

Dr. Lawrence B. Brown, of Bowdoin's Psychology Department, was the speaker in Chapel Thursday morning, January 15.

A visiting lecturer in Psychology from New Zealand, Dr. Brown's talk was composed of observations on life in the United States and at Bowdoin.

Dr. Brown, in commenting on the social-rules controversy said that he felt that the students were saying "We are uncertain about the kind of social life we would like, and if the rules can be formulated, we shall then know what to do."

Speaking on Education, Dr. Brown said "I think it's a good educational system at Bowdoin — and within it, by effecting some kind of synthesis between the necessary needs of the institution and the needs of the individual."

Dr. Brown also utilized the opportunity to express his gratitude to the college for the chance to visit at the United States.

Bridge Tournament To Be Held Jan. 20

The last duplicate-bridge tournament of the first semester will be held in the Mountain Union Lounge next Monday evening (Jan. 20) at 7:30 p.m. All pairs wishing to play have been asked to report to the director by 7:25 in order to ensure a prompt start.

Bowdoin's bridge tournaments are open to all students, faculty and alumni, their wives and dates. There is a registration fee of 25 cents per player. The Student Union Committee, which sponsors the contests, awards merchandise prizes to the top finishers.

First and second place honors at the last two tournaments have been split among four different couples. Last Wednesday night, the winning pairs included: Joe Parrino and Charles Rosenberg of Zeta Psi, who finished first in the North-South field with a total of 84 1/2 match points on an average of 72; and Steve Reed and John Sammis of Phi Upsilon, who topped the East-West division with 79 1/2 match points on an average of 69. Bob Farquharson and Ralph Stone of Phi Delta Psi were second North-South with 84 1/2 points. John Hay and Doug Whinn of Chi Psi finished second East-West with a score of 64 1/2.

In a Jan. 11 tourney, Ann Smith and Craig Magher of Alpha Delta Phi topped the North-South top prize with 146 1/2 points on a 110 average. Dick Matagallan and Charles Kehill of Psi Sigma topped the East-West field with 129 points on an average of 110. Second places were won by Theodora Peller Royen and Mrs. Haywood (North-South) with 120 1/2 points, and George Blodgett of Psi Sigma and Mrs. Kestovsky of Zeta Psi (East-West) with 120 1/2.

Three Bowdoin seniors have been appointed Second Lieutenants in the Regular Army, effective upon their graduation, the Department of the Army announced today.

The three, all ROTC Graduates, are Geoffrey W. Chapman '64, Philip A. Jones '64, and Rodney S. Fiedelick '64.

Each year a limited number of ROTC cadets are selected for direct commissions in the Regular Army. Only those cadets designated as Distinguished Military Students may apply and final election is made on a best qualified basis. Upon entering the Army, appointees follow the same career pattern as those of the graduates of the U. S. Military Academy.

Chapman, current Commanding Officer of the Bowdoin ROTC Grad Battalion, will be assigned to the Ordnance Corps and detailed to the Infantry for two years.

Chapman was a member of Bowdoin's soccer team and was varsity lettered two years in gymnastics. He also has been an active member of the National Honor Society. Jones has been a straight "A" student; a Dean's List student and a James Bowdoin Scholar since his junior year. He has been a member of the Phi Kappa Phi Honor Society and received his third consecutive Academic Achievement Award, both awards for excellence in military and academic studies.

Jones was appointed to the Infantry. He is the Commanding Officer of the Bowdoin ROTC, an army-servicelike ROTC activity specializing in Special Forces and guerrilla warfare type training.

He was designated a Distinguished Military Student in September and, in June, 1962, was one of three winners of the Best Officer.

Jones was appointed to the Infantry. He is the Commanding Officer of the Bowdoin ROTC, an army-servicelike ROTC activity specializing in Special Forces and guerrilla warfare type training.

He was designated a Distinguished Military Student in September and, in June, 1962, was one of three winners of the Best Officer.

Proposed Honor System

A PROPOSAL
January 13, 1964
Preamble

The Honor System exists at Bowdoin as an integral part of the College. It is believed that the student body possesses the attributes which the word "honor" implies: veracity, integrity, and a sense of responsibility. It is the belief of the Faculty that the College is committed to the belief that integrity is essential to liberal learning. The penalties attached to violations of the Honor System are severe, not from vindictiveness, but from a sense of loyalty to truth.

The Honor System, depends on the acceptance by the student body of this code and a desire to witness its success. A student is obligated "to satisfy his conscience" that the principles of honor are upheld in accordance with the measures set forth.

ACADEMIC CONDUCT
Section 1. All exams and quizzes shall be unproctored. The instructor will distribute the tests and collect them at the specified time. If the exam is of such a nature that valid questions may frequently occur in the course of the testing, the instructor may elect to remain in the room around the desk, he is not present as the normal duties of that position. If he elects to leave, he shall designate where he will be for the duration of the exam.

Section 2. During the course of the testing each student is pledged neither to give nor to receive aid in any form or manner nor otherwise cheat.

Outside Written Exercises
Section 3. Intellectual Honesty is expected on all written work with proper credit given to all sources in the following manner:

a. Any sequence of words appearing in a student essay and not original with the student, will be enclosed in quotation marks, and its source identified fully and accurately in a footnote or in the text.

b. A paraphrase should not be enclosed in quotation marks, but should be indicated with an asterisk or a footnote number. And the source should be given in a footnote.

c. An interpretation based upon a book or other source of information must be identified in a footnote or bibliographical note.

d. No work submitted for one course may be submitted for credit in another course except with the explicit approval of both instructors.

Article II
REGISTRATION
Section 1. During registration at the start of each academic year, every member of the student body shall sign a pledge, thus signifying that he understands and agrees to abide by the principles of the Honor System. Each time he places his name on an examination, paper, or exercise he is acknowledging this responsibility.

THE PLEDGE
"I understand and agree to abide by the principles set forth in the Honor System."

Article III
ADMINISTRATION
Upholding the Honor System
Section 1. Any student who witnesses a violation of the Honor System shall at least speak to the person or persons involved and then take such action as he believes is consistent with his own sense of honor.

Section 2 The administration of the Honor System shall be conducted by the members of the Student Body.

Section 4 The unauthorized removal of books and other materials from the Library or the mutilation or detaching of them in any manner shall constitute a violation of the Honor System.

It is curious that our ideologies do not reflect more often on the examples in our lives, wherein the operative law is the law of the jungle. The law of the jungle is the law of the representative assembly. There is no parallel in nature, nor even in the human world, a democracy as we know it. We have a democracy in legislation, but not in the actual operation of the government. The law of the jungle is the law of the representative assembly. There is no parallel in nature, nor even in the human world, a democracy as we know it. We have a democracy in legislation, but not in the actual operation of the government.

Polar Bearings

By Bruce Alemlin
Roy Boon

The Intangibles

Hockey has traditionally been one of the more exciting and hotly contested sports in the Bowdoin athletic program. It is one of the few sports in which a small college can compete with those which are several times as large, such as Harvard, Dartmouth, West Point, and Northeastern. It is generally accepted that any school with good facilities and the will to produce strong teams can usually draw the needed material.

Bowdoin it would then seem is in a position to produce the exciting and winning team. It has one of the best rinks in New England, and a student body which is happy to support the team in any of its contests. But after the opening games of the season, it became apparent to all concerned that there definitely was something missing. This missing ingredient was the outstanding quality which one finds on so many of the opposing teams. To be frank, the team displayed some poor hockey in its opening games against Merrimack, Harvard, etc. It is true that the opposition was strong, but this was still no excuse for its bad passing, missed checks, and weak defense. Bowdoin hockey fans it seemed were in for a long dull winter.

There are, however, certain intangibles which must be taken into consideration when one considers the value of a team. Suddenly the Polar Bears began to work as a unit. The front line carried the attack, while the defense took some of the pressure off Goalie Coupe. Passes clicked, checks hit, and Bowdoin fans got a chance to cheer.

What brought about their reversal? What changed a lackluster team into one which had the potential to win any game. The answer must lie in ingredients which have not yet been mentioned. Ingredients such as desire and hustle.

These intangibles cannot be measured by any normal ruler, but they can be measured. The desire is shown in the person of Fred Filson who wore a football helmet to protect his broken jaw, and then went on to play an excellent game. In the words of Coach Sid Watson, it is shown in the fact that "the team has come from behind in three of its last four games to win." It is shown also by the entire squad piling onto the ice to gleefully congratulate each other in their big overtime win against Colby. As for hustle, the team has plenty to spare. Whether the first or the third line is on the ice, you can be sure that each man is doing his part the best he knows how. It displays itself when the team is two men down, but scrambles enough to keep the puck out of their net.

Bowdoin certainly does not come anywhere near having one of the top teams in the East. It may not have the superstar quality which many would like to see, but it does have something almost equally as important. Regardless of how the team does in its remaining games, you can be sure that the Polar Bears won't take a back seat to anyone when it comes down to determination and hustle. If you want proof, just ask the Cadets of West Point, or even the Mules from Colby.

Pat On The Back

The Pat on the Back is normally awarded to an athlete who has performed outstandingly, or has significantly contributed to the athletic program. It would, therefore, be possible to single out one of the hockey players for an outstanding performance in recent games. We believe, however, that the sudden upturn in the hockey play, and the qualities mentioned in the above article, are due mainly to the coaching which the team has received. The Pat on the Back then is given to Coach Sid Watson for his team's fine performance in its recent games.

Lucksters Smash Cadets, Nip Mules Winning Streak Increased To Four

The varsity hockey team, displaying an improvement in all six of this week by scores of 7-5 and 2-1 respectively. With these two wins the Polar Bears now support a respectable 8-5 record with the chances of improving upon this over the remaining eight games would appear to be very bright. The double victories were even more satisfying because of the fact that the win over the Cadets was the first that the Bowdoin hockey team has registered on their ice, while the spine-tingling victory at home against Colby was the first over the Mules since 1954.

Score Five Goals In Second
In the game at West Point the Polar Bears upset a highly respectable Army team which had previously beaten Harvard. By virtue of an explosive 5 goal attack in the second period Bowdoin was able to outlast the Cadets in the hard fought 7-5 contest.

No one would have dared predict a Bowdoin victory at the end of the first period, however, for at this point the Polar Bears found themselves on the short end of a 3-1 score which looked mighty difficult to overcome. The lone Bowdoin score came on a shot by Mecham with Bill Matthews assisting.

The Polar Bears regrouped their forces, however, and with the start of the second period they hit the ice with a determined and goal producing attack that was to leave the Cadets reeling. The goals were blasted in one after the other by Hamlen at 3:32 and 3:36, by Filson at 6:19 and 10:19, and the final by Oliver at 13:13. During this period Arny was able to muster enough strength to register two marks, thus leaving the score a still tight 5-3 margin going into the third period.

In the final twenty minutes the Polar Bears were able to keep the puck out of their net, while Joe Tarbell scored the insurance goal at the other end of the ice. Goalie Dave Coupe continued to show his skill in turning back 33 shots throughout the game while frustrating his opponents with many timely saves.

The game had several interesting aspects, one of the more important being that Bowdoin skated through three tough periods without being called for a single penalty, a very unusual feat for any hockey team.

Sweet Victory Over Colby
The win over Colby Tuesday night was perhaps even more satisfying from Coach Sid Watson's and the fans point of view. The win was the first over the Mules in about eight years, and the first ever for Coach Watson. The overtime contest was hard fought throughout, with the most exciting and nerve-racking moments coming in the last five minutes of the third period, and continuing into the overtime. It was a crowd-pleasing game which displayed good passing, solid checks, sparkling interplay by both goalies, and, of course, above all a 2-1 victory for the home team.

The Mules were able to take the lead in the first period on "a big" goal which was just able to slide under Dave Coupe's pads. After that, however, Coupe was unshakable as his fantastic saves left Bowdoin fans gasping for breath and sliding back into their seats with

great relief. In all Coups was credited with stopping 39 shots.

The Polar Bears finally got on the scoreboard at 16:04 of the second as Hamlen scored the equalizer with an assist from Filson. From this point on it was a matter of great defensive play by both goalies with an assist from Filson. Until Sophomore Frank Yule banged a slapshot home at 5:32 of the overtime period as players and fans alike went wild over a big victory.

Polar Chips
Bowdoin now has a winning streak of four games. This very easily be stretched to six with wins over Amherst and M.I.T. this weekend.

Fred Filson was not expected to be able to play due to a hairline fracture of his jaw. As the team was about to leave the locker room to begin the game, however, he appeared with Doc Hinely who had obtained a football helmet for Fred to wear. As a result he was able to play, and was a major factor in the Bowdoin victory.

Either sophomore defenseman Leo Tracy has an excellent press agent, or he just happens to be mistaken for someone else. Leo received credit for scoring the final goal against Army Saturday night when it was actually Joe Tarbell who registered. Against Colby it was announced over the PA system that the winning goal was scored by Tracy. Although Leo was on the ice, he was not involved in the plays.

The hat which Colby rooters seemed to enjoy throwing onto the ice every time the Mules scored, only one last game, had "Butcher Bowdoin" written on it. It would appear that a more appropriate phrase would be "Bush Colby."

TARBELL WINS THE FACE-OFF — As indicated by the blur of the glove, Joe Tarbell (10) wins another face-off in the tight game against Colby last Tuesday evening. Backing him up is Ed "Foose" Fitzgerald, (4).

Hoopsters Down Amherst Bow To Bates And M.I.T.

Bowdoin played host to M.I.T. and Amherst last weekend, and had to be satisfied with a split. The Polar Bears lost a heartbreaker to the Engineers by four points, the final score was 67-63. Against Amherst the next night, however, their fortunes improved, as they came up with a 69-51 victory.

The game Friday night against M.I.T. was a thriller all the way in a see-saw battle from start to finish. Neither team was able to build up a substantial lead with the widest margin being only six points. With only 14 seconds left on the clock, Frank Yin hit a bucket for the Engineers to put them in front 65-63. Only 8 seconds later, in a desperate attempt to grab the ball, Brian Warren fouled Bob Grady who made both foul shot good and led the game for M.I.T. 67-63.

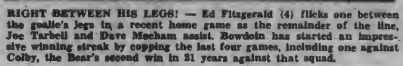

Dick Whitmore played an excellent game for the hoopsters scoring 27 points and hauling down rebound after rebound. Silverman contributed 15 while Warren and Howie Pease each scored 10 points. The Polar Bears played a fine game for the most part. They showed a great deal of improvement over their earlier outings, and were looking forward to the Amherst game the next night.

Against the Lord Jeffs Bowdoin played its best game of the season. The Polar Bears jumped off to a quick first half lead and never relinquished it. The rebounding of Whitmore, and the shooting of Zog, Napper, Whit, and Howie completely snowed the Amherst team as they just stood dumbfounded and watched.

When the buzzer sounded ending the first half, the score stood in favor of Bowdoin 39-29.

Although Bowdoin had a better shooting percentage from both the floor and the foul line, they were victimized by their inability to control the ball. The Bobcats were thus able to outshoot them 46-39 in the second half.

The Polar Bear attack was paced by Whitmore with 19 points, Warren with 13, and Napoleone with 10.

RIGHT BETWEEN HIS LEGS — Ed Fitzgerald (4) flicks one between the goalie's legs in a recent home game as the remainder of the line, Joe Tarbell and Dave Mecham assist. Bowdoin has started an impressive winning streak by coping the last four games, including one against Colby, the Bear's second win in 51 years against that squad.

Swimmers Lose Cubs Complete Sweep 3-2 To Lord Jeffs

The Varsity swimming team drew its second loss of the season against Amherst Saturday afternoon. The winning, Amherst's sophomore-student team avenged a drenching given them by Bowdoin in a meet last year at Curtis Pool.

Standouts for the Polar Bears were Captain Pete Seaver, Tim Robinson, John Gattford, and sophomore diver Michael Boltnner who registered his first win of the season. Boltnner, diving better than ever before, beat the current New England champ for the biggest upset of the meet. Tim Robinson and John Gattford also swam their best times of the year, with a 1:55.8 in the 200 freestyle, and a 2:18.2 in the 300 butterfly, respectively. Both of these times were only one second off the college records for these events.

This Friday afternoon the Polar Bears met New Brunswick, and on Saturday they face M.I.T. Coach Butt hopes to see new college records established in several events.

die stars. Andy Cornella rifled the first goal in with the assist going to Tom Brown. Just seconds later it was Cornella's turn to set up Brown for the tying goal.

The third period was marked by hard checking and aggressive play by both teams in an attempt to break the deadlock. It was not until 10:40 that Bowdoin got its winning goal as Sandy Salmela, tucked in a Cornell pass. From this point on Colby dominated both goals; the fine job by the Bowdoin defense and its goalie Dave Macomber enabled the host to preserve its win.

On Wednesday the Cubs lost a 3-3 overtime game to Exeter Academy.

prospects the guidance counselors have found.

The future? We intend to continue this program and, moreover, to expand upon it next fall. We have plans to send teams of students during spring vacation into at least the border states of the South — North Carolina, Tennessee, Virginia, Kentucky — to stop at Negro high schools and, basically, spread Bowdoin's name.

I should like to emphasize that we, by no means, regard ourselves as a closed corporation. We will accept help and suggestions from anyone. We consider ourselves not an organization, but a loose federation of people with the same fundamental interest.

Frosh Drop Third To Exeter, 67-66

The freshman basketball team dropped its third decision in four games to Exeter Academy Wednesday afternoon. Displaying a hot shooting hand, the Frosh opened up a twenty point lead midway through the first half, but Exeter rallied to tie by only twelve as the buzzer sounded, 43-33.

Exeter continued to chip away in the second half, cutting the lead to 6 points at the ten minute mark, and then they took the lead for the first time with less than two minutes remaining. Trailing 68-64 with 30 seconds left, the freshmen grabbed the lead on a basket by Rick Allen, but they were to lose 67-66 as Exeter scored with just six seconds remaining. Reed led all Bowdoin scorers.

Although their record stands at 1-3, this is no sign of the basketball team's future.

Dennis Moffatt sought a job with responsibility

He found it at Western Electric

Dennis Moffatt, B.A., Coe College, Cedar Rapids, Iowa, '57, joined Western Electric in 1961 after two years of graduate work at the State University of Iowa and two years with the Army. Most important to Dennis was the fact that we offered him the chance to move ahead... fast. Dennis started at Western Electric's Hawthorne Works in Chicago as a Staff Trainee in Industrial Relations.

After only a year with the Company and the completion of one of WE's training programs for college graduates, Dennis became a Personnel Placement Analyst. Advancing rapidly, Dennis was recently promoted to Section Chief, Employment

and Placement, Systems Equipment Engineering, Iowa City, Iowa.

Most important to Dennis was the fact that we offered him the chance to move ahead... fast. Dennis started at Western Electric's Hawthorne Works in Chicago as a Staff Trainee in Industrial Relations.
After only a year with the Company and the completion of one of WE's training programs for college graduates, Dennis became a Personnel Placement Analyst. Advancing rapidly, Dennis was recently promoted to Section Chief, Employment and Placement, Systems Equipment Engineering, Iowa City, Iowa.
If you, like Dennis Moffatt, want a career with a company that will recognize your skills and abilities, and have the qualifications we're looking for — let's talk! Opportunities for fast-moving careers exist now for liberal arts, physical science and business majors, as well as for electrical, mechanical and industrial engineers. Get the Western Electric Career Opportunities booklet from your Placement Officer. Or write: Western Electric, Room 6405, 222 Broadway, New York 38, N. Y. And be sure to arrange for an interview when the Bell System recruiting team visits your campus.

THE BOWDOIN PUBLISHING COMPANY
Professor A. P. Dazert, Mr. James P. Grogan, Ann Smith, Sandy Dole,
Bob Ferrone, Chris Keefe

REPRESENTED FOR NATIONAL ADVERTISING BY
College Publishers Representatives

Published weekly except during Fall and Spring Semesters by the students of Bowdoin College. Address news communications to the Editor and subscription correspondence to the Business Manager, Bowdoin Publishing Company at the ORIENT Office in Moore Hall, Bowdoin College, Brunswick, Maine. Entered as second class postage paid at the post office at Brunswick, Maine. The circulation rate per year for \$4.00 dollars.

EDITORIALS

A. P. Discretion Questioned

It often happens that the editors of various student publications find themselves tilting at windmills in their editorial columns. Thus they sit down gravely at their typewriters and prepare to do battle with giant corporations or entire governments with little hope of recognition, let alone success. It is in this tradition, then, that we set out to challenge our own windmill for this week — the Associated Press.

We choose to do battle because of a certain widely circulated story concerning the dismissal of one student from this college. Due to recent publicity, the AP apparently deemed this boy enough of a public figure to distribute this "news note." In this opinion they were unquestionably correct; numerous papers and broadcasters picked up the story across the nation.

Yet we do not believe the feature should ever have been released. Without suggesting any "hobbling" of a free press, we simply do not think the story was in good taste. Matters concerning academic performance are of a private nature; between the college and the individual. They are not, and should not be, the concern of the nation at large.

Just how the AP was "tipped off" concerning this incident is not known; the college received a phone call asking them to confirm a somewhat garbled version of the story and, in order to prevent greater distortion, released the facts of the matter, though, we presume, this is usually not their practice. The following day, through the wire service's effective coverage, the story had been circulated across the nation.

We hope next time someone may give a little more thought to the ethics of the situation.

"Highly Irregular"

In spite of the fact that the State of Maine, with all its terrible reputation, could not muster enough snow to support a snow-sculpture contest, Bowdoin's Winter Weekend is about to swing into high gear. In keeping with this spirit, the ORIENT would like to offer this special party issue as its contribution to the festivities.

Not all of the issue, however, is of a frivolous nature, and for those who may wish to learn what has been happening on campus for the last few weeks, they may find this information on pages 2, 3, 4, 5, 11, and scattered about 10. On all others you may find the facts stretched just a bit.

The tabloid size, however, will be more or less permanent with the ORIENT for the weeks to come. We feel this will allow us greater flexibility, and will aid in cutting costs. (Incidentally, the ORIENT has appeared in tabloid form a number of times in the past years, notably for two years running in 1957-1958.)

The young lady on the first page, incidentally, whom we shall refer to simply "Miss ORIENT" is a native of Brunswick, and is currently attending BHS. Just goes to show you that you needn't go too far afield to find a suitable Winter's date. . . .

As the young lady says, Hope you enjoy the ORIENT and the weekend. . . .

Honor System, Sports Ban Discussed By Council; Pickard Lecturer Comments On American News Reader

Louis Lyons Cites Failure Of Press

The Curator of the Nieman Foundation at Harvard University told a College audience Thursday night that "the press has not kept up with the rising curve of education in America."

In an address prepared for the inaugural of Bowdoin's Charles Weston Pickard Lectureship in Journalism, Louis M. Lyons declared that American newspaper readers are ready for "more serious reports that more adequately reflect the shape of the world in which they live."

The new lectureship was established by John C. Pickard of Wilmington, Del., a Trustee of the College and a member of the Class of 1922, in memory of his grandfather, Charles Weston Pickard, a member of Bowdoin's Class of 1857, was the owner and business manager of the old "Portland Transcript," one of the most influential weekly newspapers in Maine during the turn of the century.

Mr. Lyons, who was introduced by President Coles, declared that Americans are often said to be the best informed people in the world.

"We are undoubtedly the MOST informed — one might without cynicism say OVER informed," he added. "For the velocity of the information projected at us means that most of it bounces off. There's a saturation point."

The veteran Boston newspaperman said "The problem of all of us is to get things in perspective — to realize the relationship of events and conditions — in short, to dis-

LOUIS LYONS

(Continued on page 8)

Four New Bachelors Announced

FOUR NEW MEN will start appearing with the Bowdoin Bachelors, come next Fall, as replacements for the Senior members of the widely-known set. Pictured, from left to right: Ed Sohier '67; Rich Callri '67; Bill Heath '66; and Ted Davs '67.

The Bowdoin Bachelors have announced the result of the auditions which were held at the end of the first semester. The new men who have been selected to sing in next year's group are: Richard Callri, '67; Theodore Davis, '67; William Heath, '66; and Edward Sohier, '67.

Callri will replace Wayne Hubbard and Bugle has announced an end to regular publication of the biannual magazine in this area because of a sudden drop in revenue over the last two years. The local distributor, Tim Sabin, was quoted as saying that the drop in sales can be traced to the dip in the number of Yantess living in the Metropolitan area.

"We can no longer continue to print the Bugle in our East Side offices due to the unexplainable drop in the number of Yantess here in New York," Mr. Sabin, the assistant distributor feels the same way.

Bugle Discontinues Publication Due To Serious Lack Of Funds Annual Issue To End This Year

Bridge Dates

The next five bridge tournaments will be regular Bowdoin events, open to all Bowdoin students, faculty and staff members, their wives and dates, with an entry fee of 35 cents per player. These contests will be held in the Lounge:

- Thurs., Feb. 27, at 7:30 p.m.
- Mon., March 9, at 7:30 p.m.
- Sat., March 14, at 1:30 p.m.
- Sat., March 21, at 1:30 p.m.
- Thurs., March 26, at 7:30 p.m.

The Student Union Committee will award prizes to the top finishers.

UNH Coeds 'Out Shoot' Bowdoin Debators, Female Logic Wins Tournament

Probably the only time James Bowdoin and Napoleon Bonaparte found themselves side by side in battle was last Tuesday night as they fought tooth and nail to preserve their honor dignity and padding in a debate over vaccination and vaccination, coronavirus, absurdity, leftism, rightism, naturalism, Economics, government, birth, death, infinity and the ladies win regardless. The debate itself was almost as well organized and logical as between Bowdoin and UNH (co-eds), the subject was, "Resolution: that the house deplores the tendency of women to improve on nature."

Strict adherence to debate procedure lent itself to the formal atmosphere. The affirmative team of Miss Paula Smith from Rochester, N. H., and Miss Carol Ann Vautour from Dover, N. H. executed them-

selves behind a barrage of cosmetics while the negative team of Mr. Ray Lapine and Mr. Peter Aranson lay in ambush behind a smoke screen and MOTO boots. The chairman, Mr. Peter Hershman, and the moderator, Mr. Lawrence Parkus, were very much to the left of Mr. Aranson.

The resolution — read by Mr. Parkus, and the air cleared of irrelevant remarks the first speaker for the negative, Mr. Ray Lapine, forwarded the negative assumption that man shouldn't fiddle with nature's handwork. Mr. Lapine spoke long and eloquently, but the floor wasn't his; it was the ladies' and then Jeanine turns against him to be certain in color coordination on a

yellow couch. The situation in itself was insulting, reported Miss Vautour, but Napoleon had no defense and was forced to remain on the pulpit — throughout the remainder of the discourse.

Quibbling over the ambiguity of men's desires, Miss Vautour ended her introductory speech with "What would they have us do?," a question she answered herself later in reference to the "Baby Boom."

Mr. Aranson, staunch, stalwart upholder of the Bowdoin tradition then took the offensive to the opponent's doorstep saying "You girls should be in jail!" He was referring, of course, to the fact these two innocent young ladies had violated an ordinance of the F.T.C. in transporting a large quantity of unlabeled goods across a state border. Exhibiting uncontable as-

Dean Gives Faculty Position; President's Reply Read

The first Student Council meeting of the Spring Semester was held this past Monday, with the chief items on the agenda being a report from Dean Gresson, the recognition of the newly organized Presidents' Council, and President Coles' reply to the Student Council's letter on the Post-Season Athletic Ban.

Dean Gresson had as his motive for addressing the meeting the clarification of the results of Monday's Faculty Meeting at which the Honor System Proposal was to be voted upon.

The Dean stated that "The Faculty expressed its general acceptance of an Honor System but asked that the present (the proposed) system be reviewed by the Recording Committee (of the Faculty), especially the 'reporting clause'."

The reason behind the Faculty's failure to decide on the Honor System was, according to the Dean, the varying degree of strength which certain portions of the Faculty wished to see included in the portion of the Honor System proposing dealing with the reporting of individuals caught cheating. The recommendations of the Faculty ranged from the immediate reporting of all breaches of the Honor Code to the proper authorities to merely "speaking to the individual."

In view of this discussion, the Dean asked for a review of the Faculty recommendations by the Student Council's Honor System Committee and the Faculty's Recording Committee.

The Dean emphasized that the Proposal was "actually not defeated" but was "only back in committee."

The Dean also outlined the new Chapel program but declined to submit it for publication until it has been acted upon further by the Faculty and Administration.

The proposed revisions of the Chapel program are due to come before the Faculty at its March meeting; however, the Dean cautioned the Council that the new program, if approved, could not be

NSF Grant Aids Summer Studies

President Coles announced recently that the National Science Foundation (NSF) has granted Bowdoin a total of \$182,700 to conduct three institutes for secondary school teachers next summer.

The new grant is in addition to a \$75,000 fund allotted to Bowdoin last year and December 1963. It is part of a 1964-65 Academic Year Institute (AYI) for secondary school teachers of mathematics.

The Summer Institutes, jointly sponsored by Bowdoin and the NSF, will be in Chemistry, Mathematics, and Marine Biology, making this the sixth successive year the College has conducted such NSF-supported programs. The Institutes and the AYI Programs are planned to advance the teaching skills of participants and deepen their knowledge of their subjects.

Professor Kammerling, Coordinator for the Institutes, said he expects about 132 teachers from across the nation to participate in the summer programs. The Institutes will open on June 29 and end on August 7, running for a total of six weeks.

The Chemistry Institute will be directed by Professor Kammerling, the Mathematics Institute by Professor Chittum, and the Marine Biology Institute by Professor G. J. Van Dyke.

The Summer Institutes will be held at Bowdoin as sequential in that attendance at four successive sessions

Test To Be Given For Peace Corps

The Peace Corps Placement Test will be administered on the Bowdoin College campus for those who are interested in entering the Peace Corps. There are over 4,000 Peace Corps graduates who work in 46 countries in Latin America, Africa, and Asia. About 5,000 more will go into training this summer. Among them will be teachers, liberal arts graduates, engineers, nurses, doctors, sociologists, and recreation workers. In all, Volunteers come from some 900 skill backgrounds.

Married couples are eligible if both can serve and have no dependent children. A college degree is not necessary in all projects. Volunteers receive valuable training and experience as they help the people of emerging nations fight poverty, disease, ignorance and hunger. If anyone is interested in sharing his or her talents and skills in classrooms and hospitals and on farms all over the world, he can begin by taking the special On-Campus admission Placement Test. The test will be given at 8:30 a.m. on Sat., Feb. 22nd at Sills 17, the exam room.

For an application and further information, contact Bill Hughes, 94, Put Upside.

Institutes may make participants assistants or Master's degree conferees by Bowdoin. AYI participants, who meet the requirements of a full year of study at Bowdoin, in addition to completion of a summer Institute program, also are eligible for Master's degrees.

The AYI program, fourth in as many years for Bowdoin, is under the direction of Professor Holmes, Chairman of the Mathematics Department.

Applicants wishing to attend the Summer Institutes should communicate with the Directors of the programs at Bowdoin College. Pro- that attendance at four successive sessions

Trustees Meet Hurriedly, Declare Bowdoin Bankrupt

Emergency Meeting Discloses Discrepancy

Famous industrialist, Richard Barry Bowdoin, long time playboy and gallant, was found to be financially insolvent by the trustees of the Fifth National Bank of Framsett, New York today during one of the regular meetings of the trustees. Bowdoin's holdings in bonds, securities and real estate were found to be inadequate to cover debts piled up just in the last two months. A petition of bankruptcy will be presented to Judge William (Continued on page 14)

"The Love Makers" Plays At Cumberland

Some of the most exciting and intimately revealing love scenes ever filmed between a man and a woman are delicately presented in "The Love Makers" starring Jean-Paul Belmondo and Caludia Cardinale on Wednesday and Thursday, February 19 and 20, at the Cumberland Theater.

Only one evening showing will be held at 7:30 p.m. Matinees will be as usual at 1:45 p.m.

NO! It's not Margaret Chase Smith's graduation picture. It's just one of the local talent who'll be helping out the Masque and Gown in the production of Gogol's "The Inspector General" which will be presented for the second time tomorrow night at 7:30 in Federal Theater. Kneeling, Margaret Jo Seraha; seated, Nancy Stevens; standing, Peggy Young and Kathy Carr.

February Interviews

The following companies and organizations will be sending recruiting representatives to the campus to interview seniors during the month of February:

- February 6 - Naval Research Laboratory, Washington, D. C.
- Group meeting - Seas Roebuck & Co., Philadelphia
- Lawrence Leather Co., Lawrence, Mass.
- 7 - Seas Roebuck Co.
- First National Bank of Portland (Maine)
- Actin Life Insurance Co. - Home Office, Hartford
- Great Northern Paper Co., Millisnoeket

Winter Finally Comes To Bowdoin Who Cares If The Snow Doesn't?

Sandy Beaches, Togas, And 'Benjie' To Set Pace For Weekend Parties

Even though the snow sculptures were short-circuited by the lack of co-operativeness on the part of Jupe Pluvius, Winter's Weekend will undoubtedly go on to great heights.

A new feature of this year's Winter Weekend will be the closing of all houses to non-member, wandering stags. To make up for any lack of color normally provided by the more mobile elements on Campus, a number of houses are providing a new twist to the usual houseparty.

The Brothers of Delta Kap may take the prize for originality with their "Beach Party." They'll be having everything from lela, lobster pots, and Bermuda to a cellar full of sand.

Togas

The Psi U's have reverted to classical antiquity in choosing a theme for their party. On the Die Vespertina, the Green Barn on Maine Street will become the setting for a Lucullan feast replete with togas and shouts of "Io, Triumphe!" The Kappa Sigas, on the other hand, have stayed closer to home. The highlight of their weekend will be "Benjie" from the Stone House who will be dispensing "refreshments" and livening things up with a few songs.

Herbie Brown will kick-off festivities at the ARU on Friday night.

Other houses may not be as novel, but, nevertheless, they'll be keeping things going with cocktail parties, banquets, and Saturday night dances.

Count Base

On Friday night, Count Base begins the rites with a dance in the Gym. Trading basketballs and bleachers for knicks and cads, Sargent Gymnasium will add Franco to Bermuda and Ancient Rome, as Bowdoin men seek new ways to escape from reality.

During the intermission, the Meddies will entertain, and the Winter

Queen will be selected by a special sub-committee of the Faculty - Messrs. Beckwith, Parkus and McGea.

Saturday, will be a full day starting with a special musical Chapel service and Coffee Hour at the Art Museum.

Afternoon activities will move over to the Cage with a triangular track meet with Colby and UVM, as one; then, at two, to the Gym and basketball against Tufts. A Fresh Swimming Meet against Bates is on tap for 2:30, and a Hockey game, scheduled for four, against Williams will conclude the afternoon's athletic events.

Saturday night will feature a 7:30 performance of Gogol's "The Inspector General" in Pickard Theater, followed by dances and other activities back at the houses.

Bowdoin Grad Joins Faculty

President Coles announced today that Charles H. Towle, Jr., of Springvale, Maine, a Bowdoin graduate, has been appointed to the Faculty as a Teaching Fellow in Biology.

Mr. Towle, who received his A.B. degree from Bowdoin in the Class of 1961, has been for the past two years a medical laboratory specialist attached to a preventive medicine unit of the United States Army Medical Service Corps at Fort Stewart, Ga., and Fort Bragg, N. C. While in the Medical Corps he took graduate studies in Psychology at the University of Georgia.

As an undergraduate at Bowdoin, Mr. Towle held an Alumni Fund Scholarship and a Charles I. Travel- li Scholarship, the latter awarded for high character and scholarship and campus citizenship which contributed significantly to the interests of the college as a whole. He served as a Laboratory Assistant in Physiology.

Active in athletics, Mr. Towle was a member of Bowdoin's freshman and varsity track teams and the varsity cross-country team.

Go-Ahead Given For New Library; Government Funds Being Sought

President Coles announced Sunday night that the College's Governing Boards have authorized construction of a new \$2.5 million library building — one of the major objectives of Bowdoin's \$10 million Capital Campaign.

He said the Governing Boards have also authorized officers of the college to apply for a federal grant to help finance construction of the library under terms of the Higher Education Facilities Act of 1963. It is expected that the application will be filed within the next few days, he said.

One-Third Of Cost
Under provisions of the law, passed by Congress last December, Bowdoin is eligible to apply for one-third the construction cost of its new library. The building, for which the College plans to break ground in the spring, is designed to provide sufficient library facilities to accommodate a 30 per cent enrollment increase. The structure will also provide adequate space for the College's growing book collection.

In a preamble to the new law, Congress declared that "the security and welfare of the United States require that this and future generations of American youth be assured ample opportunity for the fullest development of their intellectual capacities, and that this opportunity will be jeopardized unless the nation's colleges and universities are encouraged and assisted in their efforts to accommodate rapidly growing numbers of youth who aspire to a higher education."

Previous
Under terms of the law, a total of \$842,206 in grants will become available during the current fiscal year, which will end June 30, to Maine institutions of higher education for the construction of certain undergraduate academic facilities. Similar annual amounts have also been authorized for the next two fiscal years. The state allotments have been determined on the basis of a formula which includes the number of students now enrolled in a state's colleges and the number of students now enrolled in Grades 9 through 12.

Other sections of the law provide grants for public community colleges and technical institutes, grants for construction of graduate academic facilities, and loans for construction of academic facilities. Any state desiring to participate in the grant program must designate an existing state education agency or create a new commission to submit to the Federal Commissioner of Education for his approval a plan for supervising the program within the state. Federal funds will be available to pay expenses involved in preparation of state plans.

The act directs that one of the basic criteria for all such state agencies is that they "shall give

special consideration to expansion of undergraduate enrollment capacity." When he signed the bill into law, President Lyndon B. Johnson described it as "the most significant education bill passed by the Congress in the history of the Republic." He noted that the act will "help to improve the quality of library facilities in our own universities and colleges." The President added that the legislation is "concrete evidence of a renewed and continued national commitment to education as the key to our nation's social and technological and economic and moral progress."

Walker And Frank Winter Candidates Of Phi Beta Kappa

Two seniors have been elected to membership in the Bowdoin chapter of Phi Beta Kappa. They are Robert S. Frank, Jr., of New York, N. Y., and David C. Walker of Wiscasset, Maine.

Their election was announced by Professor Nathan Dane, II, Secretary-Treasurer of the Bowdoin Phi Beta Kappa chapter.

Frank spent last summer in Washington, D. C., as a political intern in the offices of the Agency for

Four upperclassmen have been selected for the annual Bowdoin Prize Debate.

Chosen to compete in the Feb. 24 finals on the basis of their performance in a trial round were:

Peter H. Aranson '68, Robert M. Parquharson '64, Matthew R. Finicus '64, and Philip L. Swan '64.

Professor Thayer, Faculty Adviser of the Debate Council, said the public is cordially invited to attend the finals, which will be held in South Auditorium on the Bowdoin campus at 8:15 p.m. on Monday, Feb. 24.

The four contestants, who will be competing for a total of \$100 in prizes, have been assigned affirmative and negative positions on the national collegiate debate topic: "Resolved, that the Federal government should guarantee an opportunity for higher education to all qualified

high school students." Aranson and Finicus will take the affirmative. Parquharson will defend the negative position.

Each speaker will present a ten-minute constructive argument and a five-minute rebuttal. The first prize of \$70 will be divided equally between the two top speakers, regardless of sides. The second prize of \$30 will be divided equally between the other two contestants.

Two of the four finalists have competed in the Bowdoin Prize Debate in previous years. Swan has been a finalist on two previous occasions and Parquharson on one.

The prizes are derived from the annual income of a fund established by the Honorable James Ware Bradbury, LL.D., of Bowdoin's Class of 1825. The competition is open to all Bowdoin seniors, juniors, and sophomores.

ARANSON... From P. 3

tonishment at the amount of "useless junk" he pleaded with his audience, in the name of the negative team, to aid in obliterating this "alight tendency" of women to indulge in the use of make-up.

At this point, Mr. Aranson strode to the fore and declared, "with courage and faith," there was a distinct difference between "smell, stink, and scent," and that he must make an attempt to clarify the meanings. The story goes like this, "Dr. Sam Johnson, (it was either Ben or Sam), didn't like to take a bath; and one day an elderly lady approached him and said, 'Sir, you smell.'" "No," replied old Sam, "I stink, you smell!" With this he returned to his seat.

The Bard Suffers
Shakespeare was the next to come under the pun when "the girl" from U.N.H. exposed his use of women on stage. (The same thing, they claimed, happened to dramatists at Bowdoin.) Hence, "Women had to improve on the handwork of nature."

Bowdoin was down, but not out. Mr. Lapine reverted to his sorrowful days of yesteryear for defense, executing his Homeric date in the process. The affirmative offered no objection to the case presented since only Mr. Lapine had the inside story. Attempting to add fuel to the fire, he quoted this hypothetical case to show the wastefulness of women; a couple married for 3 years is shopping. The wife indulges in buying a whimsical assortment of lipstick, perfume, etc., while poor hubby stands by wistfully watching the "wife" take flight." By the time the couple could get to the package store, there wouldn't be any money left for the necessities.

Getting down to the foundation of the argument, Mr. Lapine attempted to define a corset as an apparatus which "mutilates." This brought an immediate response from Miss Vautrot who intimated in so many words that "pompous, bilious men" also wore them.

But this allegation was overshadowed by the earth-shattering revelation that the entire U.S. economy would fall if women didn't "indulge." Woman's activity keeps the U.S. alive, invigorated, and "related." Women are responsible for the condition of the U.S. today. This claim has an element of truth. Considering the old saying, "He who indulges, bulges," the "Baby Boom" is easy to explain. (The women) are responsible.

Mr. Aranson, attempting to regain his severely damaged dignity after a telling attack by the co-eds and, inadvertently, by Mr. Lapine, bespiced the audience to "disregard whatever my colleague says!" and buttressed the negative case with Demothemes, "when the candle is taken away every woman is the same!"

He then began the most effective cross examination of the evening by directing to Miss Vautrot "Do you consider yourself beautiful?"

At this response he quipped "If I present you have a hostile witness here!" after which his time ran out and his red-headed colleague re-

(Continued on Page 18)

THE BELL TELEPHONE COMPANIES SALUTE: PETE WILDE

Almost 90,000 telephone customers in and around Haverhill, Massachusetts, rely on the supervisory ability of a man few of them will ever meet. He is Pete Wilde (B.A., 1960), Assistant District Traffic Superintendent for New England Telephone in Haverhill.

It is not unusual for a man of Pete's ability to rise to such a promotion as swiftly as he did. Pete had made an impressive start on an earlier assignment in Fitchburg

where he was responsible for the service rendered by nearly 150 telephone operators. The capable job he did in Fitchburg earned him a chance for further training, a good raise, and his latest promotion.

Pete Wilde, like many young men, is impatient to make things happen for his company and himself. There are few places where such restlessness is more welcomed or rewarded than in the fast-growing telephone business.

BELL TELEPHONE COMPANIES

TELEPHONE MAN-OF-THE-MONTH

Cins Upstairs In Mass. Hall!

Corruption Of Morals Feared, Social Pro Urged By Students

Examination of the Day Watchman's log revealed yesterday that girls had been observed upstairs in Massachusetts Hall in the early hours of the afternoon. As it is a well-known fact to all Bowdoin men that females are not allowed upstairs anywhere during the week (and most other times, as well), the matter was turned over to the Student Judiciary Committee, who will send their recommendation to the Faculty Recording Committee, the Student Life sub-committee, the Council of House Presidents, the Board of Trustees, and Local 30 of the AFL-CIO affiliated window-plasters union.

The violation, coming quick on the heels of a similar one by a fraternity house, was a shock to many members of the student body who look to the administration for example and guidance. "It's disgraceful," commented Oliver Twist '68, "everyone knows what goes on upstairs in administration buildings. I think that they are abusing the existing rules considerably. What will the Town think?"

Social Pro Proposed
In spite of administration spokesmen's insistence that nothing other than typing had transpired on the second level ("Well, they did scribble around a bit") the consensus of Student Judiciary opinion was that the entire building should be put on social probation as a warning to the various department offices.

The discovery touched off a rash of speculation that many of the department offices might be already in violation of the ancient and venerable statute, but a quick survey of the department chairmen indicated that precautions had been taken to avoid situations similar to that of Mass Hall. "We just let our girl get above the first floor, reported a Chem dept. professor, and whenever typing is to be done we insist that the office door remain open. We feel that this should nip any nasty rumors the English department might try to start."

"I want to hold your hand..."

High Aesthetic Value Of Weekly Newspaper Nationally Recognized

The Bowdoin Orient, "Oldest Continuously Published College Newspaper in Brunswick" was awarded a black and red (typewriter) ribbon for excellence in typography and proofreading, it was announced yesterday by the Lower East Oklahoma Press Club at their semi-annual meeting.

The accompanying citation read, in part, "To The Orient, for its continued excellence and proficiency in producing a paper which excels in technical accuracy. An example well worthy of being copied by college papers across our nation, and especially those in East Ok'ahoma."

The citation continued, lauding the Brunswick News paper as a fine example of a truly "student news sheet," having mentioned the faculty and administration in a favorable context only twice in the last three years, thus breaking the record previously held by "THE GUARDIAN" of Sing Sing prison.

A spokesman for the ORIENT, commenting on the presentation, said, "We of the ORIENT are proud of our excellent record of careful proof reading and will work hard to preserve it in the years to come."

Architect's Rendition

ARCHITECT'S RENDITION of proposed new library. Total construction will cost \$1.2 million; \$1 million in designer's fee, the rest in physical plant.

Who's Afraid Of Virginia Wolf?? ... Edward Albee

Current Champion, squire and knave of the Off-Broadway cause is Edward Albee. In one of his earliest works, the Young American Playwright discusses about discusses between a Young American Playwright and a Famous American Playwright. In PAM and YAM, as Albee's vehicle is cleverly titled, the author sets himself the task of delineating that fine characteristic for survival (so often mislabeled wit) which mechanizes Young Creative People (YCP) and makes them able to best Old Established Talent (OET).

Now, some later, after the fire, after the flood, after the unquestionable success of Albee's Who's Afraid of Virginia Woolf? and his adaptation of Carson McCuller's novel, *Sally's*, Albee of the Sad Cafe. This reviewer asks Albee to set himself before the mirror of literary criticism, and look deeply at the reflection.

His success spoiled (spoil) Albee and Albee? It is not impossible that in some respects it most certainly has, judging the epigrammatic style of PAM and YAM against the *Belled*. Albee has chanced his colors, his tone, his very wretchedness. The playgoer and reviewer must ask themselves, together, alone, on in

THROUGH THIS PORTAL treaded the Day watchman who brought to light the scandalous situation of WOMEN upstairs! This shameful development, so contrary to all Bowdoin stands for, will be reviewed at a special meeting of the Student Judiciary Committee.

Moral's Dean Hopes For Improved Social Life

Woolen Trau Mather, BA, MA, PH.D, DDS, SOB, (Bowdoin, '02) has been named Dean of Morals at the college it was recently announced by President James S. Coles. Mr. Mather will assume the new post today, and subsequently will assist in formulating new social rules for the undergraduate body.

Mr. Mather, who is already on campus ("I'm doing a little under-cover work," he reports), came to Bowdoin from a similar assignment at Harvard. "I didn't have too much success down there, but my friends inform me that things will be different up here."

The new Dean, who hails originally from Salem, Mass., says his family has had a long tradition of "similar positions but in recent years the demand for his line of work has fallen off considerably. "Just look at TIME magazine, for instance," he told an ORIENT reporter, "people don't seem to want me any more."

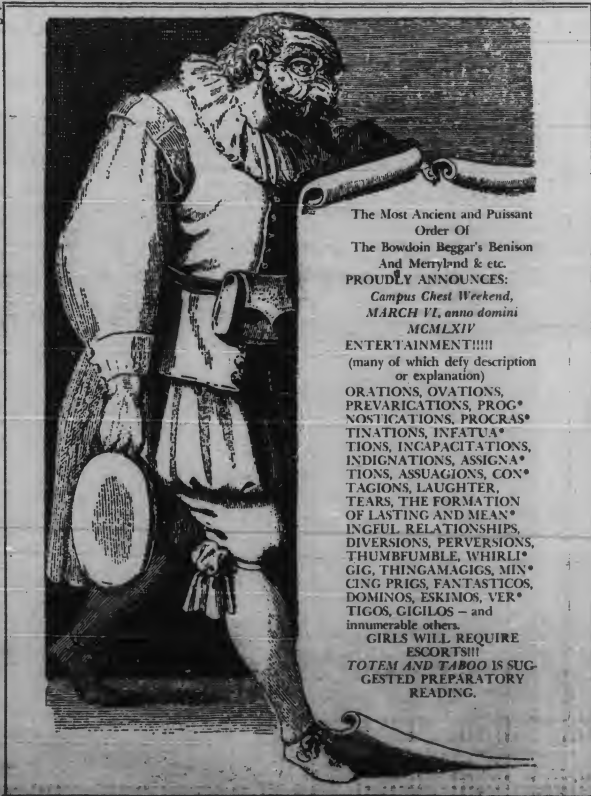

Enjoys Hunting

While in Salem, Mather continued, he derived great satisfaction in hunting. When pressed as to his favorite prey, he retorted, "You wouldn't believe me if I told you." Subsequent to his years in that Massachusetts town, Mather attended Bowdoin where he found the "secluded, cloistered atmosphere much to my liking." He then attended Inquisition U. for post-graduate work. Since that time he has gained considerable recognition for the publication of books such as *Puritanism Revitalized*, *A Jerusalem Against Rebels*, and *A Tree For Medevalism*, all published by the Colster Press, N. Y.

Officials of the college, when pressed as to the specific rules the new Dean were hesitant to detail them, mentioning that Mr. Mather's work was of the sort which is most effectively accomplished in a relative secrecy. They did say however, that he would take an active part in dictating (Ooops!) — rather, "inspiring" the specific rules formulation. "We feel that Mr. Mather, with his extensive experience and long background in this field, can aid considerably in drawing up a sane, sensible, conservative code."

assembly, if YAM (YCP) has become PAM (OET), more correctly YAP and PAF (AMA), (SPCA) "compassionate" and Cervantes has suspended, "are edicts."

However, embracing the fashion of the age, Taylor Pangborn has purchased the rights to Walter Dugg's *Big Snow*, having dropped his option on the saga of Speedy Alkaidar.

The Most Ancient and Puiasant Order Of The Bowdoin Beggar's Benison And Merry-Ind & ctc. PROUDLY ANNOUNCES: *Campus Chest Weekend, MARCH VI, anno domini MCMLXIV* ENTERTAINMENT!!!! (many of which defy description or explanation) ORATIONS, OVATIONS, PREVARICATIONS, PROGNOSTICATIONS, PROGRASSATIONS, INFATUATIONS, INCAIGATIONS, INDIGNATIONS, ASSIGNATIONS, ASSUAGIONS, CONTAGIONS, LAUGHTER, TEARS, THE FORMATION OF LASTING AND MEANINGFUL RELATIONSHIPS, DIVERSIONS, PERVERSIONS, THUMBFBUMBLE, WHIRLIGIG, THINGAMAGIGS, MINORIGIG, PRIGS, FANTASTICOS, DOMINOS, ESKIMOS, VERITIGOS, GIGIGLOS — and innumerable others. GIRLS WILL REQUIRE ESCORTS!!!! TOTEM AND TABOO IS SUGGESTED PREPARATORY READING.

"Bring on the fifth!"

Hot Time In The Old Tower Tonight

CELEBRATING THE RETURN of the College Bowl team, the college staged an outdoor prep rally highlighted by this bonfire. Many attending voiced the opinion that the College had outdone itself in the production, but college officials modestly disclaimed all credit.

Sure Shots

Week, week, week
See the new speech teacher
New, new, new
He has new ideas - ideas - ideas
We write term papers
Write, write, write
That's how we learn to speak
Oh-oh there's a naughty boy
He laughed during his talk
Naughty, naughty, naughty

See him write a 500 word paper as punishment
Punishment, punishment, punishment
"This course is important," BQ and T tell us
That's why it meets once a week
Once, once, once
Something else is new this year
We have a written speech final
Written, written, written
See all the stupid questions
Stupid, stupid, stupid
What happened to oral — it has become a pain in my rectal
Now - ah-ah I - can-ah-talk - clearly ah-ah-too!

Parking Problem "Acute"

PHOTO TAKEN YESTERDAY clearly shows the current parking crisis on the Bowdoin campus. Because of such crowded conditions, the administration has decided to ban all students away from parking on campus. Thus the owners of all three cars pictured will have to move them.

President Coles Resigns WOOLF... From P. 6

Surprise Move Shocks Populace

President C. Roger Coles of the American Institute For Better Control of Smog in the Greater Atlanta Area (AIFBCSAAA, for short) has turned in his resignation to the Treasurer of the organization. This was a totally unexpected move and was met by consternation throughout the ranks of the AIFBCSAAA members. Coles had done an outstanding job his first three years in office and it was assumed that he would continue as President for the duration of his thirty year term. Mr. Coles could not be reached for comment at press time, but we

(Continued on page 4)

In fact, even theater tickets aren't as good as they used to be. You (the audience-not me, the reviewer) can't even sit on the stage any more, can't whip the players, can't groan and moan for the rabble in the pit. And why not? Because there is no more pit. No more curses and scurvy unwhashed curs laughing and throwing orange peels on the stage. That was the theater, when the pit would begin to howl in disgust, and the players would have to hold their skirts and make a run for it. Now THAT was constructive dramatic criticism. However, if the calibre of the audience has decreased, the quality of the plays now presented. No early playwright would be guilty of writing a play like "Night of the Iguana," rather they stuck to constructive sociological topics, sex, lawdye, sex, big bellylaughs and depravity; elements of which today's theater is devoid.

Swimming against the current of today's "non-objective, free form, theater of the hyper-absurd, Longrin Frogger had this to say about the trends of today's theater, and its proponents: "Actually, one might make a case for tying a small person of indefinite political persuasion to railroad tracks, and selling tickets to a select gallery. The first and only performance would occur when the "Midnight Ghost" a two hundred car freight train, terminated the career of said small person. Such a performance has gusto, vitality, and a unique sense of individualism which makes the audience feels as though it has been witness to real life. This kind of sex really flips me Jack, and I ain't shooting you thru no grease."

It may be said that the future of the American stage has been left in hands suffering from acute delerium tremens. The theater shakes, and as it wobbles, its motion reaches deeply into the metaphysical construct of our culture, for with the theater came a certain intensification of reality. First Plays, and then Vaudeville, Broadway the bigtime and the brightlight! Playing the Palace, the Keith circuit (curtain going up). Shuffle off-to Buffalo, the Buck and Wing (always kill them), and the smell of grease paint, living out of a trunk, and the sadness when we folded in Ashtabula, Ohio in a driving snowstorm. Well that was show biz, and now those days have gone for ever.

And some people say taking flickers are here to stay, will give me the old ailments, who needs talkies. As long as the big men in the industry keep making their pictures on Long Island, there will always be a place for me in the movie business.

Plays? Oh, I guess they're O.K. and that Albee feller is a likeable cuss, more'n' likely he'll make sompin' of himself one of these days. Which is more than I can say for myself. Pass me that crock son, I need my hot lacy.

We Like Bowdoin In The Winter

TO GET TO BOWDOIN you cross the Kildary Bridge, proceed north on the Maine Cowpath, turn off at Fairmount, take route 1 to Brunswick, and follow the Androscoggin to the campus. . .

THE CARRIE NATION COMMEMORATIVE COMMITTEE, which will be conducting an "on site impromptu" of the College's banishment. The committee, founded in the '30s to "preserve the 18th," will conduct seminars in various houses on this subject during the course of the weekend.

"LIPS THAT TOUCH LIQUOR shall never touch mine" says Eddy Fosse as he invites his fraternity's chaperone to taste the house's Sterns punch.

Famous Symbol Must Give Way Pines To Be Cut Down, Called Health Hazard

The famous pines of the small town of Brunswell, Idaho, have been found to be a local health hazard by state authorities. The pines have long symbolized Brunswell's attempts to have a college built on that sight so that the institution could be patterned after a small, liberal arts center of higher-learning located somewhere in Maine. The dreams and aspirations of the local town planners have now been ruined after the disclosure of the state chemical tests on the

Heat Wave Predicted For Winter

An unusual high pressure system has moved over the Eastern portion of the state today in what could be a record warm spell for this month. Temperatures are expected to reach the mid-80s, or even the 90s. This may mar the plans of Montana State University which is throwing their annual Winter's Weekend February 14-16. Montana residents

cannot remember another winter so mild in the state's history. This unparalleled heat wave will top off a very surprising winter season, which began earnestly in October with sub-freezing weather, but then a rise in temperature began again in November. Cold set in again when...

"That's Right, Pledge! Ping-pong!"

THE PINES OF BOWDOIN COLLEGE

COLLEGE OFFICIALS EXAMINE proposed site of new student parking lot. Though first reports indicated that the lot would be constructed somewhere "out on the Maxwells road," the above was suggested in his lieu. "They (the pines) aren't really doing any good there," reported a Grounds Department spokesman. "And besides, Bowdoin men have been parking there for years anyway."

Lacrosse Team Holds Raffle; Drawing At Campus Chest

Charity begins at home; and with an eye toward Campus Chest Weekend, The Bowdoin College lacrosse team will launch its Second Annual raffle ticket sale this weekend. One highlight of last year's Campus Chest Weekend, the Lacrosse raffle, will be repeated this year, with one important difference: "This year," according to coach Neil Corry, "we will be trying to raise an amount appreciably greater than last year."

son, the Spring trip provides Bowdoin's rapidly improving Lacrosse team a chance to gain valuable on-campus playing experience. Tickets for the drawing which will be held Saturday night on Campus Chest will cost one dollar a ticket, and will be sold for ten cents apiece. They will be available from any member of the Lacrosse team, or at the Athletic Office. The swifty growing prize list includes a \$25 bill, a large Spring tour through Pennsylvania, New Jersey, and southern New York. The total value of last year's prize is said to have topped several hundred dollars, and this year's list promises to surpass its predecessor in scope and quality.

THE BOWDOIN PUCKSTERS, shown here in a recent scrimmage against the Brunswick RedWolves, will take on the Vassar JV's next week. The White team members anticipate the game will be "a close one."

Three Fraternities Put On Social Pro.

Three national fraternities on campus have been officially placed on Social Probation by the school administration. The coming party weekend, Winter's Weekend, is included in this ban and the three frat houses have been told to cancel any and all plans that have been made to date. Dean Letley of Keating State has put these fraternities on probation for general unfitness on campus.

LYONS... From P. 3

cover presenting in what is happening. A fair test of journalism is if it conveys meaning with its communications. It is too easy to "catalogue the inadequacies of the press," Mr. Lyons declared, "but it is also too easy for proprietors of the press to brush off any criticism with a facile claim to the volume and variety of what they print." "The press is the least criticized institution in our society, though critic of all the rest. No other institution makes requires constant and searching criticism, regardless of the hypersensitivity to criticism so often evidenced by too many of its proprietors." Report of "education, the most universal enterprise in America," are only now being "recognized as one of the fixtures" for competent news presentation, he said. One of the anachronisms of newspapers is "their old habit that everybody starts as a cub reporter for basic training in the newsroom," he said. "This training is useful, but not for long; just long enough to learn the ropes in the paper and get on to the structure of the community."

Junior Class Elects Three; Tower Will Be Ready In Fall

Steve Putnam, Bob Peterson, and Walt Trademski will fill out the student delegation of the committee to formulate a set of social rules for the Senior Center. The three, all Juniors, join Class President Gerry Gleier, V.E. Berle Schiller, and Secretary Jim Rosenfeld. They were elected at a junior class meeting Wednesday. The meeting, called by the class officers, also featured Professor William Whiteside, the Center's director, who spoke on the Center and the accompanying seminar program. Professor Whiteside emphasized the fact that the tower would be ready for residence by September, pointing out that a new racial crane was already operating and that only a small section of the fifteenth floor had to be replaced. "The lounge also mentioned that the professors would feature wall-to-wall carpeting, and that inside work in general was being stepped up. He added that he would try to arrange for all members of the class to have an opportunity to visit the tower some time this Spring "to inspect for yourselves." In answer to queries concerning the seminar program, Professor Whiteside mentioned that the preliminary list of program offerings had been refined and that a brochure would be issued shortly after Spring Vacation. Gerry Gleier also mentioned that he hoped to schedule more meetings of this nature during the semester.

an entire night at the jail trying to get "his boys" (Morehouse students) released. He added that he was not sure, but he thought that there were no more still in jail. On the next block we passed the hotel that the Ku Klux Klan had been picketing all week because it had become integrated. The next restaurant we passed was "Johnny Reb's," with Rebel flags flying from all four sides of the roof. Lookup had picketed it in September, just before it became integrated.

From the restaurants and hotels in the downtown area, the subject and scene moved to the residential area. Mr. Lofton pointed out a particular church which had become integrated after strong resistance had barred any Negroes from entering. The issue had been resolved by a vote of the congregation. "Jesus was up in Heaven holding his breath, waiting for them to vote on getting this church to be Christian or not," Mr. Lofton said, and his laugh following the remark was hearty and slightly wry, with no trace of malice or sarcasm. In the same vein he mentioned a minister who had been fined by whatever association or group he was affiliated with for preaching in a "pray-in." Evidently he had been praying for integration instead of segregation.

Despite its importance, the racial question is not all-pervading. The bull session which took place in my room that night could have been set on any campus, North or South. The faces may have been dark and the southern drawl bordering on the

Co-Ed Debate From P. 2

Plunging Necklines, Padding, Baby Boom

sumed; "You say you're not beautiful?"
"Yes."
"You've said you spend 1-2 hours a day putting on make-up?"
"Yes."
"Then you spend 2 hours a day making yourself not beautiful... That's feminine logic."
The opposition here suffered a serious set back.
Miss Vautrot replied rather helplessly, "We're just trying to keep up with the population boom." Mr. Parkus interjected: "France is underpopulated," and then opened the debate to questions from the floor. The first take advantage of the situation was Mr. Dowgialo. Mr. Dowgialo: "Your care is quite well structured, Do you feel plunging necklines have changed man's destiny?"
Miss Smith: "Changed man's destiny?"
Mr. Dowgialo: "What is man's destiny?"
Miss Smith: "Woman."
Mr. Dowgialo: "Would you elaborate?"

At which point she elaborated on several aspects of love and how man sought woman's sympathy, compassion, understanding, love, and several other considerations which aren't appropriate before winter. But Dowgialo resumed the attack.
"Do you agree with the fashions?"
Mr. Dowgialo questioned further: "It is said by high fashion designers that women will have no tops to their bathing suits in a few years. Do you agree with this?" Unfortunately, moderator Parkus ended Mr. Dowgialo's questioning and passed

asked of Miss Smith: "Are women following the fashion of padding?"
"Men have promised to love, honor, and obey more foam rubber than they'll ever know," she replied.
Mr. Aranson regained the floor accusing the affirmative of "false support," "false promise," "trying to inflate the issue," and trying to make a mountain out of a mole hill. The negative team rested its case.
The co-ed's returned home victorious.

was donated to the Walker Art Museum recently. It was announced by President Cole. One of the most valuable of its kind, the new addition is expected to create considerable attention in Art circles.

Frosh Top Bates In Opening Meet

Victories by Max Willacher in the discus and Skip Smith in the pole vault, the last two events of the program, gave the Bowdoin freshman track team a 49-57 win over the Bates '92s last Saturday afternoon in a meet that was run concurrently with the varsity meet. The frosh, though lacking depth, displayed individual strength in several events in winning their first meet of the indoor season.

Smith's 115' vault, and Gary Carlson's 510' high jump established new meet records. Other freshmen winning first places were Willacher in the shot put, Tom Allen in the 600 and the low hurdles, "Be" Altitude in the 40 yard dash, Bob Bell in the broad jump, and Gary Res in the two mile run.

This opening victory seems to indicate that the frosh have the potential for a successful season; however, any additions to the team would provide the depth that will certainly be needed in upcoming meets.

REVIEW... From P. 2

performances of Berle Schiller and Roger Godard as Dobchinsky and Dobchinsky, respectively, and of Jonathan Raymond as the dull-witted Mibbas. Able direction by George Quinby and Eugene Shertshoff results in a well-paced, smoothly flowing production which, enhanced by extremely fine sets (William Moody) and elegant costumes (Polly Quinby), provides a very pleasant part of the Winter Houseparty weekend.

"And to think I nearly failed Boy Scouts!"

unintelligible when the conversation became heated, but the topics were universal. This professor flunked fifty-four out of fifty, and that major never even bought the books and got a "B," and I remember when... Above all, the students here are, strangely enough, students, with as many types and sizes as one finds at any school.

So then, is Atlanta essentially a quiet town, trying to mind its own business? Are the citizens, both white and colored, indifferent to the racial question? Is it only a handful of whites, represented by the Klan, that is violently segregationist? And is it only a minority of the Negroes who are actively concerned with integration? Or is Atlanta a town full of tension and hostility? Is the Klan an indication of the attitude of the majority of white citizens. And are all of the Negroes involved in the struggle of their race? I don't know. I just got here.

Note: The only address necessary for mail to anyone in the group is: Morehouse College, Atlanta, Georgia 30614

You have room for achievement in data processing—at IBM

There are challenging assignments open in more than 190 IBM Sales and Service Offices, coast to coast, with room for achievement in the marketing of information systems and equipment.

To qualify, you should have a bachelor's or advanced degree in Engineering, the Sciences, Business Administration, Economics, or the Liberal Arts.

You'll find that your opportunities increase with each new system that is designed to meet the growing needs of business, industry, government, research, education, or space.

wide range of positions

Marketing: ■ The IBM Data Processing Representative is a consultant to his customers. ■ He demonstrates how customers can achieve better business management and control through data processing.

Systems Engineering: ■ IBM Data Processing Systems Engineers are men and women who study customer requirements in depth, devise an approach, define a preferred machine and operational solution, and assist in implementing this solution.

opportunities for advancement

IBM, an Equal Opportunity Employer, offers you extensive training in the area of your special interest. ■ This training continues as you advance along a planned career path leading to professional or managerial positions.

We also have comprehensive company-paid benefits plans... training programs to keep you abreast of developments in your field... and a tuition-refund plan to give you financial assistance for graduate study.

on-campus interviews

See your college placement director to determine when IBM will interview on campus, and make an appointment to see our representative.

If the interview date is inconvenient for you, please write or call: ■ H. K. Seymour, Branch Manager, ■ IBM Corporation, 555 Forest Ave., Portland, Maine, SP 3-4703. ■

IBM will interview February 27. ■

DURING WINTER HOUSE PARTY

COME IN AND BROWSE

Bowdoin Eged Out By Bates Trackmen 63-57

In a meet which was not decided until a very close finish in the relay the Bowdoin Track Team was edged by Bates 63 to 57 in the Cape hat Saturday. The meet was featured by stiff competition which pushed many of the competitors to make outstanding efforts. Captain Dave McDowell did his personal best and set a new Bowdoin College record in the Broad Jump with a leap of 32 feet 4 inches. McDowell's victory with Mike Talmie, second in the High Jump and Mile and a Bates victory in the dash. Bates then gained a big lead taking first and third in the 600, despite Dave Kohli's brilliant finishing effort, followed by sweeping the Two Mile with Williamson's meet record time of 9:29.5 not being counted because it was decided that the race had been one lap short.

Bowdoin then began a comeback with Bill Minnie leading teammates Dave Stocking and John Coggins in a sweep in the Shot Put and Peter Good and John Tarbell placing first and second in the High Hurdles. At this point the score of the meet was Bates 44 Bowdoin 37 and it was obvious that the finish was going to be close. In the Thousand, two Bates men finished first and second just ahead of Pete Beaven, but then Soule, John Tarbell, and Ray Bird put in fine efforts to sweep the Low Hurdles. The relay was now the only running event remaining and from what was expected in the Pole Vault and the Discus it was recognized by all

that this event would decide the meet. Based on comparative performances Bates was supposed to have a better team, but leadoff man Paul Soule gave Bowdoin the lead and second man Dave Kohli lengthened it on the third leg. Bates five middle distance runner Jon Ford, who was running fresh in the relay, overcame John Tarbell and gave a 15 yard lead to Bates fourth man Carrett Binneweg. When Ray Bird, Bowdoin's anchor man, grabbed the baton, Bates had what appeared to be an insurmountable lead, but with two laps remaining Bates lead had dwindled to 10 yards and with one lap to go Bird, displaying amazing speed, had cut Binneweg's lead to five yards. Bates remained in front coming up to the finish line and Ray dove at the tape in a gallant effort to win the race, but unfortunately the Bates man ripped him at the line.

In the final events Oll Edsall did his personal best of twelve feet in the Pole Vault but placed third behind Cramer and Mosberg of Bates. Cramer set a new meet and Bates College record of 13 feet 1 and 7/8 inches in the event. Alex Schulten became Bowdoin's only double winner as, John Coggins and Mike McCutcheon swept the Discus for Bowdoin.

1. 35 lb. Weight: 1. Schulten (Bo) 2. Fangburn (Ba) 3. Harrison (Ba) Dist. 54" 1"
2. Broad Jump: 1. McDowell (Bo) 2. Anello (Bo) 3. Williams (Ba) Dist. 29" (New Bowdoin College indoor record)
3. High Jump: 1. Bowditch (Ba) (Continued on page 10)

BOBcats HUNG UP. The Polar Bear rifle team passes after its meet with the Bobcats from Lewiston. Although they were unable to bring home the silver trophy, they did manage to pick off a number of their opponents in the wars of Coach Crockett (front row center). "The boys did very well for their first meet of the season. Bates had much more experience, but we just stayed in there and kept plugging away. We had we won't be able to hold the returns meet."

Pucksters Win Again Crump Williams 7-0

The tough Polar Bear hockey team stretched its winning streak to seven last Saturday night by virtue of a 7-0 shutout victory over Williams. Showing little signs of rustiness from the semester break, the team encountered little competition in skating to one of its easier victories of the season. The win upped the season record to a very respectable 10-5 count.

As far as the fans were concerned, the game was over at the 2:30 mark, picked the puck up off to the side of the first period. At that point the score stood at 3-0, with the only question left to be decided was how high the final total would go. Dave Mechem opened up the scoring at 46 seconds of the first period, as he slapped home a beautiful pass from Sophomore Ed Pitar.

Before the fans had time to quiet down, Mechem fed Captain Joe Tarbell who banged in the second goal just 25 seconds later. Bill Allen decided that it was about time he got into the act, and scored at 9:30 on an assist from Devens Hamlen. The final goal of the period was credited to Fred Filion after Leo Tracy's missed shot.

The second period was relatively quiet with Mechem and Tarbell both registering their second goals of the game. Goalsie Coupe was called on to make some fine saves as Williams was finally able to get the puck out of their own zone. Hamlen rounded out the scoring at 3:27 of the final period on an

unassisted goal in which he simply skated around the net, and stuffed it into the corner of the cage. Peter Chalpe, Sophomore wing Ben Soule received a separated shoulder during the game and will be unable to finish the rest of the season. His injury came on a hard check into the boards as he was coming down the ice. The Polar Bears have a number of important games remaining on their schedule, most of these to be played at home. Tomorrow they face Middlebury, and follow this with very tough games against Colby, Northeastern, and New Hampshire. Wins over these opponents would insure the team of one of its best records in recent years.

Goalsie Coupe and Ledger were called upon to make only 27 saves, most of which were on the easy side. Ledger played the entire third period and looked sharp and confident in the nets.

MIT Drops B-Ballers

The Polar Bears travelled to Boston to meet the Cougars of M.I.T. Unfortunately Bowdoin lost another tough one 70-62. In the opening minutes of play, neither team could muster any semblance of an offense. The Polar Bears stole the ball on numerous occasions, but they were unable to capitalize on the M.I.T. mistakes. Behind the shooting of Howard Pease and Captain Harry Silverman the Bears moved ahead 31-24 at halftime. Trouble was foreseen as Dick Whitmore and Silverman had 3 fouls each at half-time.

In the second-half, the M.I.T. team switched from a zone defense to a man-to-man defense. At first the Bowdoin team had trouble adjusting to this situation, and it quickly tied the score at 43-43. From this point the two teams swapped baskets for about eight minutes until the Bears took 49 points left in the game. Here M.I.T., using its height advantage, scored three quick baskets to take a 6 point lead. The Polar Bears were soon forced to take the quick shot rather than wait for the best shot as it had done in the first half. To make the situation even worse, Ingram and Silverman fouled out. The Bears rallied to close the gap to within two points with a minute left, but M.I.T. scored three quick baskets in the final minute.

For M.I.T., their big guns were Bill Hagelson and Jack Motor who scored 21 and 23 points respectively. Most of their scoring came from within eight feet of the basket where they could use their height advantage. Also, guard John Masola hit for 17 points.

For the Polar Bears, Silverman led the team with 30 points. Dick Whitmore had 15, and Howard Pease chipped in for 11. The big difference in the game was height. Bowdoin could not contain M.I.T.'s two 6-8 boys, Hagelson and Motor.

Mermen Split Weekend Meets

Over the weekend, the varsity swimming team defeated Trinity College and was dunced by Wesleyan the following day. Friday night, the Polar Bears topped Trinity with a well-balanced attack led by first by Craig Whitman, Pete Seaver, Shawn Leach, John Halford, Tim Robinson and Bill Lynn. Captain Seaver was the only double winner, with honors in the individual medley and the 500 freestyle.

Saturday, the team traveled to Wesleyan, where they met one of the leading teams in the league. It was a disappointing day, with four firsts collected by Seaver, Halford, diver Mike Rothern, and Tim Robinson. Tim provided one of the bright lights of the day with a Wesleyan Pool and Bowdoin College Record time of 1:34.7 in the 200 yd. free.

This weekend, the mermen face the reigning New England champion, Williams, in a meet which should provide swimming fans with some of the finest performances of the year. There should be real battles in the breaststrokes, butterfly, sprints and distance events, where both teams are strong.

(This meet will take place at 2:30, not at 4:30, as announced on the schedule.)

Bowdoin victorious

Sailing Team Sets Two Records

THE "FULL MOON," — the boat in which Bowdoin's sailing team set two records, is seen here on a trial cruise up the Androscoggin.

WELL DONE SALTY — Salty Smelt Jr. takes it easy after returning from his record breaking cruise.

SCHEDULE OF ATHLETIC EVENTS

- *Varsity Track, Triangular Meet Colby and U. of Vermont
- *Varsity Swimming Vs. Williams
- *Varsity Basketball Vs. Tufts
- *Freshman Swimming Vs. Exeter
- *Varsity Hockey Vs. Middlebury

Salty Tells All

On February 7, it was discovered that the Sailing Team had set two records in their meet with Walsley. The team triumphantly crossed the finish line at six in the morning, escorted by numerous vessels, and two Coast Guard destroyers. The reason for the great interest was due to the fact that the race started in 1888. Nevertheless, the crew was proud of the fact that they had broken the records for the most distance traveled, and the most time consumed in any collegiate sailing event. The sports department was honored to have an interview with the team's captain, Salty Smelt, Jr.

Orient: Tell us Salty, how did you accomplish this amazing feat?
Salty: Well frankly, I'm not sure. I think we probably "egged" when we should have "egged," or started when we should have jibed, or something like that.

Orient: When did you first realize you were perhaps a little off the beaten track?

Salty: I started to realize that something may have gone wrong after we hit that iceberg.

Orient: Iceberg?

Salty: Yeah, you know. Those tall white things.

Orient: How did you get that far North in the first place?

Salty: Well we ran into a little fog, and I guess I lost my way.

Orient: But weren't you aware of the time factor?

Salty: You know how it is when you're in a fog, you lose all track of time.

Orient: What did you do then?

Salty: Well, then I realized I must have been heading North. . .

Orient: Brilliant! Deduction.

Salty: Thank you. I then decided to make a starboard turn and head back to Maine.

Orient: But that would bring you toward Europe.

Salty: Damn, I knew I should have taken Astro 1-2-Well, anyway, we ended up somewhere in the South Pacific, because all the girls were wearing sarongs and doing all kinds of dances and . . .

Orient: How come it took you 66 years to finish the race though?

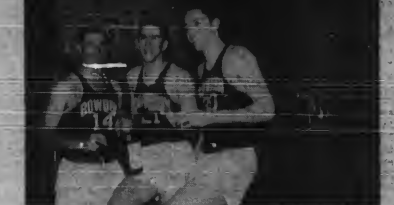

Salty: Well all the girls were wearing sarongs and doing all kinds of dances and . . .

Orient: What are your future plans, Salty?

Salty: Well, I plan to return to Bowdoin and finish out my senior year.

Orient: Won't you feel kind of out of place?

Salty: I may be a bit rusty academically, but I hear that sociality things haven't changed a bit.

HOT SHOTS — Bowdoin's basketball stars are shown here taking a few practice shots before the big game with Brunswick. From front to left, Napper, Zog, and Swisher.

Polar Bears Triumph Smash Brunswick B 3-2

It what was termed a must game, the Polar Bears managed to defeat a tough Brunswick High B Team by the score of 3-2. During the first half, the usually conservative Bowdoin five actually took 25 shots. 24 of these, however, occurred in the locker room after Zog had managed to slip in some Bourbon.

The one legitimate shot was made good by Swisher Pease on one of the trickiest plays ever performed at Sargent Gymnasium (which includes winter dances). On his way to the locker room to help Zog with his shot, someone accidentally threw him the ball. Swisher immediately got rid of it by tossing it blindly over his shoulder. Amid gasps of surprise (and just plain gasps) the ball swooshed through the hoop putting the Bears in front 2-0.

Intermission his card games would let out with a cheer which sounded something like this:
I SCREAM
YOU SCREAM
WE ALL SCREAM
FOE JEM BEAM
Meanwhile, the Polar Bears were playing even tighter ball-control. Finally, however, Francis Queenie of Brunswick picked up a loose ball and dunked it. Although this should have been surprising, since Francis is only 6'3" and 121 pounds, the fans were boasting to each other that they knew a thing that he had the ability to really get up there.

Bowdoin now began to press hard, and the players became so enthused that they managed to persuade five guys to leave the locker room and appear on the court at the same time. This unprecedented maneuver shocked Brunswick, and in their confusion they fouled the Polar Bears. Hot Shot (I scream . . . You scream . . .) Mike Nappolites. He promptly sank one of the shots to make the score 3-1, and that's the way the game ended.

Bowdoin's win increased Brunswick's B team losing streak to 49 games, and it was the 49th consecutive win by the Polar Bears in inter-town competition. Bowdoin's record is now 3-17, and it appears likely that if they can maintain their present pace they should win 3 of their remaining 19 games.

Due to Zog's Bourbon, and the superb playing of the team, the crowd was really fired up for the second half. Spontaneous cheers and yells dominated the atmosphere. Especially penetrating was the connotation by an unusually hearty and rabid fan in the second row, who

around why don't you make the punk. Why instead of black, and then make the ice black. You have some kind of prejudice?
Fernado etc: Well a minute you guys, let's not change this game around to much, I don't think. . .
Recke: Whose agonna give a damn what you think. I'm no gonna hang around here for nothing. I'm a come to game of hockey an I wante see some action. I'm no like this pussy-foot here and pussy-foot there.
Orient: Gentlemen, we mun't get into a fight.
Recke: Whose agonna get into a fight. You just like Valachi an the those others, accusing us of fighting and causing of trouble. I'm a peace loving man an if you don't shutta yo mouth I'm agonna thro a bomb in Recke's eye.
Recke: Well perhaps we better end this discussion, right here. Ah, Recke, what is the meaning of this black spot, you just handed me?
Recke: Watta you mean kinda nut? Show a picture of the hockey puck.
Coach Wambe: That did it, I'm leaving.

Panel Discusses the Game Of Hockey

Discussion — The Orient Panel. One of a series of one provocative conversations about subjects of interest on the contemporary scene.

PANELIST

Fernado del Sanchez Pancho is one of the many foreign students studying here under the Bowdoin Plan. As a matter of fact, Fernado del Sanchez Pancho, as he is called for short, has been studying at Bowdoin for fifteen straight years now. His home country is probably Peru, but due to the length of time that he has been at Bowdoin, Fernado del Sanchez Pancho says it could very well be Argentina.

His main interest at Bowdoin has been to follow the hockey team. He wanders around after them watching their every move with great joy. Fernado del etc. can be found chasing after them on the ice; following them into the dressing rooms, which by the way, has caused many to become a little suspicious; and on away trips he can be seen running after the bus as it travels down the Maine Turnpike. Fernado etc. has one major problem, however, and that is to this day he still does

not understand just what the game is all about.

Wambo Ben Wambas has been a teacher here at Bowdoin for just one year. Coming from a country which is located in the warmer climate, Wambo Ben knows absolutely nothing about the game. He finds this to be somewhat of a hindrance in his sideline job as coach of the team. Nevertheless, Wambo Ben has great faith and determination as was shown by his recent argument with the referee during which he snugged the official for blowing his whistle to start the game.

Recke Genevolski carries the appearance of being a very carefree and happy fella. Frankly, we don't know anything about his background except that he is from Brooklyn. Recke was not expected to be one of our panelist but he showed up anyway.

Having thus described our worthy group, we will now begin our discussion.

foreigners observe our game of hockey. Why don't we start with you, Coach Wambo, for perhaps you have the most intimate view of the game. Wambo Ben Wambas: Well, as to the intimate aspects, the biggest thing that has impressed me so far is that the dressing rooms can get awfully smelly. But what is even more startling is that in our American game of hockey appearing only gets you a two-minute penalty, whereas back in my Africa it can get you life.

Orient: Ah . . . Yes . . . We see. Fernado, what do you think the chances of the team are.

Coach del Sanchez Pancho: As you

know, I've been following the team for fifteen years now, and it depresses me that the players only try to get a head. Where I come from we try to get as many as possible. This is not my only complaint, however. When I go to a game I always have to watch it from a bent over position.
Orient: Why is this?
Fernado etc.: Well, it seems that I'm always at in front of this big crowd who continually yells "duck, duck, duck."
Recke Genevolski: Heh man, watta with this "duck, duck" bit, we all know we like to eat it, but watta food got to do with hockey. Ass for me, I'm think the whole games played by a buncha clods anyhow.
Orient: Just what do you mean, Recke, by clods.
Recke: Wata, ya mean, watta I'm mean? You tryin start some kinda fight or what, you give some punk a stick, and watta hey do. You're around an don hardly bother to take a poke at anyone else.
Coach Wambe: Rock's right, you know we have everyone slap a black puck

Geoghegan Attacks The Honor System; An Abridgement Of Academic Freedom

"Honor, Yes! System, No!"

This was the gist of Professor Geoghegan's now-famous Monday Chapel talk on the undesirability of an honor system, especially the Student Council-approved Honor System, here at Bowdoin.

Prof. Geoghegan wasted no time in attacking the Honor System, that the reporting clause might be called "a largely a piece of quasi-academic or pseudo-academic busy-work peripheral to the main business of the college," which he defined as "good teachers and good students at work in the pursuit of excellence for its own sake."

Dr. Geoghegan brushed aside what he considered to be the main reasons for an honor system. As for other colleges having one, he pointed out that many colleges do not and that the present problem is the feasibility of an honor system here. He also criticized the idea of the System's providing "some interesting experiences" on the grounds that "late adolescents are quite capable of providing their own. In mentioning the Columbia Poet, he said: "There are four kinds of lies; there are lies, damn lies, statistics, and educational statistics."

Upon turning to the objections to the System, Dr. Geoghegan flatly stated that there is no general student demand for an honor system.

Secondly, he expressed the fear that the reporting clause might result in a "sexual clause" which, he continued, is a result contrary to the one desired. Finally, he declared: "... there will always be chatters for whom the so-called honor system will be a standing invitation to an ill-concealed display of cynical contempt."

Dr. Geoghegan then stated that the idea of an honor system is "a contradiction in terms," for: "Honor... is a Socratic virtue which can neither be defined nor taught but only verbally circumscribed and personally illustrated." He also questioned the concept of limiting an honor system only to academic pursuits and not extending it to include "the social or extracurricular." Returning to the Recording Clause, Prof. Geoghegan pointed out that,

If a professor, under the proposed Honor System, were to observe a student who, having seen another student cheat, failed to report the matter, the professor could do nothing about it; and this, "if such non-action violates his (the professor's) own conscience and his own sense of honor," the professor would then be placed in a position of "re-doubling dishonor."

For this reason, Prof. Geoghegan outlined the Honor System Proposal as "an abridgement of academic freedom for a faculty member to be told what he can or cannot do in an examination in his own course."

In concluding, Mr. Geoghegan called for the retention of the present professor system, the continuance of the assumption that everyone is honorable until proven otherwise, and the relegation of the "... so-called honor system to the Mirvana of self-indulgence, but misguided enthusiasts, where it so manifestly belongs."

WBZ's Carl de Suze To Speak On Changing Face Of Europe

Carl de Suze, a noted Boston radio-television personality, will return to his alma mater on Saturday, Feb. 28, to deliver an illustrated lecture entitled "Empires Revivited: The New Look In Europe."

Mr. de Suze, a member of the Class of 1950, will give his lecture in Fiskard Theater, Memorial Hall, at 8:30 p.m.

Half of the theater's 600 seats will be held for members of the general public, who may reserve places by telephoning the Moulton Union Bookstore (728-4112) during the week of the lecture. Any tickets not picked up at the bookstore in advance by Bowdoin students, faculty or staff members will go on sale at the Fiskard Theater box office (728-9711) for the general public at 1:30 p.m. Friday, Feb. 28. Members of the College Community may secure tickets in advance on a first-come, first-served basis by presenting their identification cards to Admissions for the general public will be \$1.

Through the generosity of Mr. de Suze, proceeds from his lecture will assist the Kennedy Center in defraying the expenses of a special performance of its annual Shakespeare play on the poet's 400th birthday April 23. This year's play, "Much Ado About Nothing" will also be staged at Bowdoin's traditional Commencement Play in June.

Professor Quincy Director of Dramatics, noted that Mr. de Suze played the leading role in Shakespeare's "Twelfth Night" as an undergraduate and returned to participate in the Boston production of "Hamlet" honoring the late President Kenneth C. Mill. Sills upon his retirement in 1952.

In the latest of his many popular lectures, Mr. de Suze with his perceptive cameras and tape recorder has chronicled the dynamic and fascinating Europe. His lecture and films bring alive not only the significance of the New Europe but also its majestic and turbulent past. Ranging from the picturesque ruins left by the Romans through the palaces, castles and counting houses of the empires that followed, the lecture unfolds the story of a brilliant and colorful world with new people, new unity, new opportunities and challenges.

The lecture traces the history of attempts to achieve a united Europe. With the aid of moving pictures, slides and music Mr. de Suze will take his audience from the days of the Roman Empire to the present. President John F. Kennedy's final European trip, on which Mr. de

Honor System Receives Support From Nussbaum

Mr. Neal Nussbaum, Instructor in Biology, came out in chapel this morning, in favor of the adoption of the Student Council's Honor System Proposal.

Mr. Nussbaum, in an interview on Wednesday, gave as his purpose for speaking in Chapel the desire to impress on the mind of the Student Body that "... when the referendum (on the Honor System) comes around, they ought to vote 'Yes'."

Mr. Nussbaum expressed a fear that the addition of a strong reporting clause might produce a "Big Brother state" but emphasized that it "doesn't have to lead to this situation." He declared the fact that "too much is being made of how the program will function and not enough on the benefits to be derived from such a system on this Campus." For this reason, he cited what, seemed to him, to be the prime reason for the adoption of an honor system — "the generation of a climate, an attitude of responsibility and honesty."

Mr. Nussbaum frankly admitted that, other than the above goal, "we can not expect too much more."

"As far as precise benefits and disadvantages go, it too early to say exactly how an Honor System is going to be implemented on this Campus."

He urged the College to "Try It; we will always have the option of backing out without losing face. At least, we will have tried."

He urged the need for an honor system. Mr. Nussbaum said that part of the educational process is supposed to be training in responsibility; yet "... while giving freedom in some areas, in others we pull the curtain down." On the all-important question of a stronger reporting clause, Mr. Nussbaum declared that "A strong clause could substitute the policy agency" for the Faculty as a policy agency. For this reason, he said that he could not understand why the Student Body would be opposed; however, the benefits derived from an honor system are worth risking the consequences. If there is enough evil, we will find out soon enough."

BOWDOIN QUEEN AND ESCORT — Margaret McFadden, 19, of Albany, N. Y., smiles after being crowned Queen of the Winter House Party. She is a Junior at the Chandler School for Women in Boston. Her escort was Junior Jim Hinson, Vice President of Alpha Delta Phi Fraternity.

President Receives Award For Bowdoin Plan Program

Bowdoin received recently a \$1,000 Institute of International Education-Reader's Digest Foundation Award for distinguished services in the field of international education and cultural relations.

The award was accepted for Bowdoin by President Coles at a dinner held in the Mayflower Hotel in conjunction with the IIE's Fifth Conference on International Education. The audience included more than 700 educational, corporate and governmental leaders from all over the world.

Lacus D. Battle, Assistant Secretary of State, read a citation lauding Bowdoin for its pioneering "Bowdoin Plan," in which Bowdoin's 18 fraternities, the College student and the College itself make it possible for foreign students to study at the Brunswick, Maine, liberal arts college for men.

The citation stated: "To Bowdoin College in Brunswick, Maine, which more than 18 years ago pioneered the Bowdoin Plan, in which the students of the college tax themselves to provide room and board for foreign students while the college, through the gifts of alumni, provides tuition and fees. More than 150 foreign students have studied at Bowdoin in recent years through this cooperative program."

The Bowdoin Plan, widely praised as a notable contribution to international understanding, was originated by a Bowdoin undergraduate, Joseph C. Wheeler of the Class of 1944. Copied at many colleges and universities, the Bowdoin Plan is now in use at an estimated 10 other institutions throughout the nation.

Under the plan, each Bowdoin fraternity furnishes room and board for a foreign student. The College pays the tuition and fees with an annual appropriation of funds contributed through the Bowdoin Alumni Fund. Bowdoin was one of the institutions which received the IIE

Reader's Digest Foundation Awards. The others were Atlanta University, Atlanta, Ga.; University of Kansas, Lawrence, Kans.; Macalester College, St. Paul, Minn.; and University of Washington, Seattle, Wash. Mr. Battle pointed out that the awards were given to "distinguished, yet representative institutions of higher education."

Next Bridge Night Set; Past Winners Announced

The Student Union Committee will sponsor its next duplicate bridge tournament on Thursday evening, Feb. 27, in the Union Lounge at 7:30 p.m. Pairs wishing to play are asked to report by 7:25.

Jim McAllen and Frank Yule of Zeta Psi topped the North-South field and Charles Kahill and Dick Moulgan paced the East-West division in the Bowdoin round of the National Intercollegiate Bridge Tournament on Feb. 12.

McAllen and Yule posted a total of 84 par points. In second place in the North-South contest were Dave Treadwell and Jack Van Hest of Zeta Psi with 83 points. Joe Perrino and Charles Rosenberg of Zeta Psi were third with 81, followed by Bob Furuhansen and Ralph Stone of Phi Delta Psi with 80.

Kahill and Moulgan scored 84 par points. Bob Bagley and Phil McIntire of Delta Kappa Epsilon were second in the East-West field with 84 points. In third place were Jim Lester and Hugh Hardestade of Zeta Psi with 83 points, followed by Doug Wenzel and John Hart of Phi Delta Psi with 81.

CARL de SUZE

Suze was a member of the press corps.

For more than 20 years Mr. de Suze has been broadcasting over Station WBZ, Boston. His radio career began in Portland, Maine, after a boyhood spent in Taunton, Mass., and undergraduate years at Bowdoin.

Bergman Movies

Two Ingmar Bergman's pictures will be presented at the movie theater: several undergraduates of the college on Wednesday and Thursday, February 26 and 27, at the Cumberland Theater. It was announced this week.

"Secrets of Women," filmed in 1963, concerning three sisters-in-law who spill the beans about their love lives while waiting for their husbands in a coffee house and "A Lesson in Love," a lusty ironic comedy of morals, are billed to be shown at the evening performances which begin at 7:30 p.m. Afternoon matinees will begin as usual at 1:45 p.m. A special series of outstanding foreign films is being shown at the Cumberland during the current academic year.

ON EXCHANGE, II

by J. A. Boulliard '65

I wish to shatter, initially, the myth current in the North about Atlanta's integration. Before we left for Georgia, it was mentioned to me that there would be little action for me to see, little protesting for me to do, since Atlanta is, so it was supposed, a self-integrated city, proceeding along sane and tolerant lines. Why, didn't that very day the hotels in the city agree to integrate on their own?

The purified image is precisely the one the city fathers wish to project, to the country and the world. Atlanta wants to appear co-operative, progressive and understanding, thus to avoid the meddling and condemnation of Northern liberals. Look at Atlanta! There is model integration. The image, however, is unfortunately a facade. It is not a just appraisal of the city.

See, Sir, I wasn't cheating! I was just making sure nobody else was!

Before I had arrived at Morehouse, a law had been passed, by the ever progressive Georgia Legislature, requiring pickets to form a single file, to walk only on the outer tip of the curb, to stay no less than thirty-six inches apart, and to keep moving at all times. This is the law we were complying with when I picketed a hash-house that refused entrance to our integrated group. Working through the Student Non-violent Coordinating Committee, about forty white students and a handful of Negroes, and several colleges gathered to protest the policy of three downtown restaurants. We split into three groups and proceeded on foot, to the area. I was driven there because of an injured ankle. As I passed a group of whites, with the Negroes who had driven me to the spot, they heckled to hear in hoarse whispers, "Black bastard!" Then they queried concerning me: "What's that?" "Why, that's a white one, man!" came the eager reply.

I joined the picketer, grabbing a bunch of leaflets from another student and hobbling in step with my umbrella as a cane. I was wearing a conservative suit, a broad silk tie; I walked with distinguished limp—all I required, indeed, to be the complete Southern gentleman was mine: juip and goster. But the whites didn't think a passed muster,

somehow. As I offered a leaflet to enter the place with a haughty air one open-minded soul, he returned with a litere and wittily: "Give it yo' Nigger Mammy." Each person in the line offered him literature, but he doggedly couleered in cavalier fashion with the same reparte.

Standing at the door all this time was a rather formidable-appearing door-woman, healthy and burly, glaring at us with a menacing stare. We couldn't figure out whether she was the bounce or Pats Domino in panicked disguise. We had not offer her a leaflet.

The reaction in general of the passers-by was classic. They would return an icy stare to my cheerily proffered: "Leaflet, Sir?" Some would shake their heads. Some would mumble indignant refusals, wondering what the younger generation is coming to, and some would

We did manage to distribute some leaflets to a young man who had something, the Thunderbolt, for me in return. On his front page it blatantly asserted the conspiracy of a Jewish group resulting in Kennedy's assassination. The inner pages had the inside dope on Marion Brand's string of a mislaid bastard. On the first page was a concise statement of the Paper's orientation: The

(Continued on page 3)

Editorials

A Slightly Different Diet

Bowdoin's first "annual" military ball in recent years is slated for next Saturday night at the Topsham Air Station's Officers' Club. We wish it the greatest success, for it is one of the few "formal" events staged by members of this campus in quite some time.

This is not a plea for a return to the 's for all college events. On the contrary, the informality of most Bowdoin weekends wears very well on the participants, but the same routine does occasionally get a little boring. The ROTC Ball, held, as it is, off campus, should serve as an interesting change of pace to those attending.

We believe that the ROTC Military Ball is an excellent gesture toward obtaining variety in the weekends up here. We hope that other "off-weekend" events patterned along similar lines (i.e. variety from the usual) will be planned in the future.

It Could Happen Here

In the past week the proposed Honor System has met with serious setbacks, primarily at the hands of the faculty. Presented at a faculty meeting, the System succeeded in prompting considerable discussion, but the vote was so evenly split that there it still remains. Also, in Chapel early this week Professor Casogehan announced a strong protest to the concept of a "System" per se, in light of these developments we read with more than usual interest a news excerpt forwarded us by a Midwest reader.

The college involved is Haverford—one not too dissimilar from our own. Here is the story, as reported in The National Observer:

"The idea was a student's—Kent Smith. He was unhappy about the way some of his exams came right after another, and about taking them in a monitored study hall."

"He worked out his own plan, got the support of a student committee, which, in turn, won the support of a faculty committee."

Now at exam time, each student submits a list indicating the date and time he wants to take each three-hour test. The registrar's office then fills an envelope with the questions and any other additional instructions. Fifteen minutes before the exam is to begin (they all start at either 9 a.m. or 2 p.m.), members of a student committee distribute the envelopes to the students. They can then retire anywhere they want in two buildings to complete the tests. They turn the completed examinations over to members of the student committee."

"Professors generally like the system, too. It frees them from administering examinations, and permits them to go away for a 10-day vacation, or do anything else they might wish. They can pick up the completed exams and correct them at their leisure."

"The system is, of course, based on the college's honor code. No student can discuss an examination with any student, or within the hearing of any student, who has not yet taken the exam."

The adoption of an Honor system might well allow Bowdoin to institute a similar system. We believe that any student who has ever had three exams in a row (9 hours, 6 straight) might see definite merit in the proposal. Further, no one has complained about Haverford's low academic reputation recently....

Seaver Asks For Students Backing On Honor System, Comments On Houseparty

At Monday night's Student Council meeting, Council President Pete Seaver urged the members of the Student Council to start talking about the Honor System in order to counter-act talk "influencing people that an Honor System is not for Bowdoin."

"The current concern over the future of the Honor System Proposal, which was drafted by a special Student Council committee and approved by the Council on January 15th, stems from the failure of the Faculty to reach an accord on the necessity or strength of an honor system at Bowdoin and the subsequent referral of the Honor System Proposal to the Faculty Recording Committee for review."

In response to these events, President Seaver called upon the Student Council to keep the idea of an Honor System before the Student Body to prevent student interest from waning.

"It is so easy to be sarcastic or sophisticated about the (Honor System)... we do have the ball, and we ought to talk about it. I think Bowdoin needs an Honor System."

Honor System Committee Chairman Bloomberg informed the Council that there would be a meeting of his committee with the Recording Committee in an attempt to work out "something acceptable not only to the Faculty but to the Student Body."

After the Council meeting, Chairman Bloomberg made the following statement:

"Many valid reasons were suggested at the Faculty Meeting, and we hope that we can come up with something which will rectify the situation."

"It is unfortunate that so much of the opposition from Faculty and students has been centered around a student proposal. The Student Council Honor System Committee was given the task of deciding whether or not an Honor System would be beneficial to Bowdoin College; if so, why? and if so, to present a proposal."

"It's a student proposal and not the Dean's; and the Council's standing in the body. One loses the control and restraint over various functions. Debbie, my 'Black bastard' dubbed occupation, gave us a first-hand experience of the feeling. As a field speaker for BNCC, she has experienced it."

Indicative further, of Georgia's and Atlanta's conduct for, she can offer any glance, drugs, stares, and grimaces. We have seen several times in mostly-white, integrated restaurants; many of the black women have glowered at me, looked me up and down with magnificent disdain, glanced from me to my black companion, and then looked away with splendid contempt. I have ridden in the Morehouse car and witnessed double-takes when people see a white man (coon, when I) in the Negro college's car. I have witnessed the obsequious congeniality of a clerk in a would-be Brooks Bros. of the South, turn to see when I gave him my Morehouse address, and stay frozen even through the warmth of a twenty-dollar purchase... And this morning I waited for the car to pick me up in the vestibule of the Doctor's office, he asked me if I were a "teacher at Morehouse." He was astonished when I replied that I was a student. He offered not a single further comment, and, that time, made no move to open the door for me when the car arrived.

As for a statement on the Feb. 17 House's failure to lend its support to the dance, Pres. Seaver remarked that "It's their prerogative."

Bill Hughes, the Feb. 17 representative, concurred with Seaver by mentioning that the Dean's Office had given its permission to hold the party on Friday night and that, even if the entire Feb. 17 House had held its support, the added revenues would still not have covered the deficit.

On that note, President Seaver suggested that the Council representatives feel out their houses on a new policy on entertainment on Party Weekends.

In closing, Pres. Seaver announced that the Alumni Council would be on campus the weekend of the 29th and 30th, and strongly urged the various houses to invite their alumni over for the weekend, in return for the support given the Student Council by the Alumni.

PHIL'S MEN'S STORE
91 Maine Street, Brunswick

Thunderbolt - The White man's viewpoint.

Our group "woke up after about three hours of snoring. One had been called in to preserve order. The day before we marched, the owners of this particular establishment had hired men with cattle-prodders to chase the marchers away. A cattle-prodder has three wire prongs at one end of a long stick, attached to the battery at the other end. The discharge of a current into the body has a distinctly unpleasant result. The heart flutters wildly; emotion and excitement increase. There is an exaltation of various systems in the body. One loses the control and restraint over various functions. Debbie, my "Black bastard" dubbed occupation, gave us a first-hand experience of the feeling. As a field speaker for BNCC, she has experienced it.

Indicative further, of Georgia's and Atlanta's conduct for, she can offer any glance, drugs, stares, and grimaces. We have seen several times in mostly-white, integrated restaurants; many of the black women have glowered at me, looked me up and down with magnificent disdain, glanced from me to my black companion, and then looked away with splendid contempt. I have ridden in the Morehouse car and witnessed double-takes when people see a white man (coon, when I) in the Negro college's car. I have witnessed the obsequious congeniality of a clerk in a would-be Brooks Bros. of the South, turn to see when I gave him my Morehouse address, and stay frozen even through the warmth of a twenty-dollar purchase... And this morning I waited for the car to pick me up in the vestibule of the Doctor's office, he asked me if I were a "teacher at Morehouse." He was astonished when I replied that I was a student. He offered not a single further comment, and, that time, made no move to open the door for me when the car arrived.

It is these smaller incidents, recitative of a deep and bitter attitude, that will be hard to change. But it is the more overt forms of discrimination that, convict Atlanta of Segregation; the open segregation of restaurants in the city; the passive resistance of police when cattle-prodders and other violence are used on picketers; their too-ready willingness to roughly arrest marchers for a slighter breach than prodding someone with electricity; the kangaroo character of local courts that sentence Negro and white demonstrators to unreasonable and unwarranted penalties. These, plus the subtle and vicious snobbery of white supremacists, impel us to the only too-justified violence of the Negro may explode right in both of Atlanta's respectable, white, two faces.

Career Conference, Senior Dinner Slated For March 2

The third campus career conference sponsored by the Bowdoin Alumni Council will be held Monday, March 2, 1964. The first series of panel discussions will begin at 9 A.M. and the hour long groups will continue to meet until 3:30 P.M.

Further questions may be asked from 3:30 to 5 P.M. at the Alumni House on Federal Street when an informal discussion period will be accompanied with coffee.

The Conference will be open to all undergraduates who wish to take advantage of the opportunity to question men from the fields of investment, medicine, accounting, education, advertising, scientific research, engineering and insurance, law, banking, government service, and psychology. Elected units will be given to those men who have classes which conflict with conference panels and who sign the official attendance sheets. The format during the day will be informal.

Next on the day's agenda is the annual dinner for the senior class in the Main Lounge of the Moulton Union. This dinner is for seniors,

Alumni Council members and other conference participants who have made reservations in advance. Arthur K. Orsvo '30, President of the Council and of the Alumni Association will preside, with Joshua Pierce '39, Overseer of the College, presenting the principle speech. President Frank Drigoletta. The dinner will end at 8 o'clock and there will be a one-half hour break before Professor Donald MacKinnon '25, Director of the Institute of Personality Assessment and Research at the University of California, speaks on "The Identification and Development of Creative Potential."

Dr. MacKinnon has authored many scientific articles and is co-author of Assessment of Men and Experimental Studies in Psychobiology. He will be speaking for the California State Psychological Association and President of the Western Psychological Association, and previously served as a member on the Board of Directors of the American Psychological Association.

First ROTC Ball To Include Buffet Dinner And Dancing

The first annual ROTC ball will be held on Saturday, February 29th at the Topham Air Force Station Officers' Club. The affair is open to the entire College community though there is a limit of 70 couples. A buffet dinner will precede the dancing, and there will be a four or five piece band, plus possibly the Bowdoin Madcaps.

Transportation by bus will be provided to and from the dance, leaving from the Sergeant Gym at 7:45

and returning after the dance ends at 1:00 a.m. (Buses will leave earlier, however, for any wishing to return to campus early.)

The Codes Committee has planned the dinner and any questions should be directed from Rhodes Hall, or from Jeff Chapman, Steve Lawrence, or Phil Jones.

Prof. Barker To Lecture On New Drugs This Monday

It was announced today that the public is cordially invited to attend a lecture on "Drugs in Modern Medicine" next Monday, Feb. 24.

The lecturer will be Professor Samuel B. Barker of the Department of Pharmacology, University of Vermont, College of Medicine. His address will be given in Fickard Theater, Memorial Hall, at 8:15 p.m. Professor Barker will discuss many aspects of the widespread use of drugs.

His lecture will be part of a three-day visit to the Bowdoin campus as an American Physiological Society Visiting Scientist. The Society in-

stituted the Visiting Scientist Program to provide staff and students an opportunity for additional contacts with productive and creative scientists and to strengthen ties of undergraduate biology with advanced science and teaching as well as to assist in career guidance of students.

Instructor Noel S. Nusbaum of the Biology Department, who will introduce Professor Barker, said the distinguished scientist will meet informally with undergraduates and faculty members during his stay on campus.

Professor Barker, a native of Montclair, N. J., received his B.S. degree at the University of Vermont and his Ph.D. in Physiology at Cornell University. Before returning to his alma mater, he was Assistant Physicist at the Cornell Medical School, Instructor in Physiology at the University of Tennessee Medical School, an Assistant and then Associate Professor at the University of Iowa Medical School, and Professor of Physiology at the Medical College and School of Dentistry of the University of Alabama.

Notes and Comments

This Is The Weekend That Was

How about girls. They come to a place like Bowdoin, and for several days, the school seems like a different place. Guys say hello to people they don't really know, hoping that their dates will think they're real friendly guys who know everybody, and like everybody.

Guys who wouldn't set foot in the art museum for ten dollars find themselves wandering around trying to pretend that they really do know where the William Zorach sculpture is. These same guys are the ones who go to the Masque and Gown productions without the faintest idea what play is being offered for their entertainment and cultural edification. These are the men who relax on Sunday night after their dates have left by shooting a rack or two over in the Union.

How about girls. Tuesday night you put on a suit for major musing, and you find lipstick she gave you to hold Friday night at the dance, in one pocket. And what are you going to use it for?

How the real difference between a weekend on which there are girls on the Bowdoin campus comes Sunday. Any other Sunday, the routine varies, depending on how much, and what was happening Saturday night. But Sunday Morning after a big weekend is a sad time for most guys. Especially if the weekend has been a success. After she finishes packing, and breakfast is over, you sort of sit around waiting for her ride to leave, or maybe you play bridge. Or talk. You want her leave so you can start to think about the five hundred pages of reading, the paper and the hour quiz due Monday, but when it's time for her to say goodbye, it hurts. Or maybe it feels great (if you've had a bad time, a blind date, a hang over and a cold).

Either way, after they go, suddenly there doesn't seem to

be much to do, or nplace to go. Forty-eight hours of planned recreation, dutifully executed have terminated. Some guys get lost in the vacuum for a few hours.

How about Count Basie? A week has passed, and the general consensus of opinion still seems to be in favor of a dance as the highlight of a big weekend, rather than a concert. People that we talked to seemed to enjoy not only the Count and his big band sound, but the idea of a dance. Concerts invariably lack the spontaneity, the freedom, and the brand of fun that a dance provides. Even if the Count and his band did seem a little bored with the whole thing, we liked it.

Sparking of dances and concerts, we understand, or more accurately, unconfirmed rumor has it; that Trini Lopez will be Bowdoin's Ivy Weekend attraction. If so, we can only react with mixed feelings. Trini Lopez in a night club is one thing. Trini Lopez on records is another thing. Trini Lopez in concert at Bowdoin College is something else again.

While we're on the topic of the weekend past, the guys that thought up the regulation about not allowing stray dogs into house parties ought to be congratulated. Where the rule was enforced, it worked, and the tone of the parties where stage were barred seemed to be more relaxed, and less antagonistic. The only drawback we heard about was the case of the guy who came to a closed party with a date, was forced to leave her for a minute to get something from his car or soapcase, and then found himself being refused admittance to the party because he didn't have a date with him. Strange, but true.

Charles R. Vaughan '68 and Richard B. Lilly Jr., '67.

Willitt Named To Exec. Committee Of NEISA

Bert Willitt '66, has been elected undergraduate member-at-large of the executive committee of the New England Intercollegiate Sailing Association (NEISA).

Willitt was named to the post during NEISA's annual meeting in Boston. Bowdoin was represented at the meeting by two other members of its sailing team — Com-

odore Charles R. Vaughan '68 and Richard B. Lilly Jr., '67.

A highlight of the session was the presentation to Bowdoin of the Jan T. Frits Trophy. Bowdoin won the trophy in a 13-college field at the New England States Intercollegiate Regatta last May. It was the first victory in this event by a New England college in four years.

Combining their talents to give Bowdoin the Frits Trophy were David Meehan '64 and Charles F. Emerson Jr. '63.

Cornell Chosen To Show Work In National Art Exhibition

Professor Thomas B. Cornell of the Art Department has been chosen by 39 artists throughout the nation to compete in the prize exhibition of the National Institute of Arts and Letters in New York during March.

Professor Cornell said he is submitting a series of drawings and etchings for the competition, which has a first prize of \$2,500. The Bowdoin artist was recommended for inclusion in the selective exhibition by William Zorach, famed sculptor of Robin Hood, Maine, whose work is represented in Bowdoin's Museum of Art.

The National Institute, one of the oldest and most respected organizations of leading American artists, is an affiliate of the American Academy of Arts and Letters at 533 West 155th St. New York City, where the March exhibition will be held.

Professor Cornell has completed a group of etchings to illustrate the text of "The Defense of Gracchus Babeuf Before the French Vendome in 1794," a personal mani-

festo of Babeuf who was on trial for his life on charges of counter-revolutionary activity during the French Revolution.

As group of Professor Cornell's drawings and prints were included in the recent print exhibitions at the Philadelphia Print Club and the Society of Washington Printmakers in the nation's capital.

Dean's List Has 210 Undergrads

The College announced today that 210 undergraduates — more than one-fourth the total enrollment — have been named to the Dean's List on the basis of their academic achievements during the first semester of the current year. It is one of the largest Dean's Lists in the history of Bowdoin.

Dean Gresson said the list includes 74 seniors, 53 juniors, 40 sophomores and 43 freshmen.

"Yes, Yes, Power bobbyhokeries, and absolute power bobbyhokeries absolutely. It is in the nature of chess to attract into. Who knows the point at which an arena turns into a stench? The ministry of the White House in it is a powerful document, but before this stench settles forever into the woodwork, President Johnson should seriously consider making public the financial details of the Austin TV station, alleged beneficiaries of a NATIONAL WIRE, since in Dept. CP-2, 188 & 34, N. T. 14, N. Y.

 DATA PROCESSING

Interviews

Majors in Accounting ■ Business Administration ■ Economics ■ Engineering ■ Liberal Arts ■ Mathematics ■ Science: ■ there's a world of opportunity for you in the exciting field of data processing. ■

Openings will exist in our marketing division...at more than 190 Sales and Service Offices located in major cities throughout the U. S. ■

Extensive training programs will prepare you for a future limited only by your ability and ambition in: ■

Marketing: ■ The IBM Data Processing Representative is a consultant to his customers. ■ He demonstrates how customers can achieve better business management and controls through data processing. ■

Systems Engineering: ■ IBM Data Processing Systems Engineers are men and women who study customer requirements in depth, devise an approach, define a preferred machine and operational solution, and assist in implementing this solution. ■

february 27

Our representatives will be on your campus soon to discuss typical careers, various training programs, the advanced-education program, and other benefits that go with working for one of America's leading companies. ■ Make an appointment through your placement officer. ■ He can also give you additional information on the career of your choice at IBM...an Equal Opportunity Employer. ■

If the interview date is inconvenient for you, please write or call: ■ H. K. Seymour, Branch Manager, ■ IBM Corporation, 555 Forest Ave., Portland, Maine, SP 3-4703. ■

Track Romps In Tri-Meet

Bowdoin won all but two events, and Alex Schulten and Paul Soule scored double victories as the Bowdoin Track Team swept to victory scoring 104 points against Vermont's 94 and Colby's 13. Outstanding performances were given by Captain Dave McDowell who tied the College Indoor Record in the Broad Jump and Paul Soule who twice tied the College and Cage Records in the Low Hurdles. Many Bowdoin men turned in their best performances before the large Winter Weekend crowd.

In the 3 1/2 weight Alex Schulten, Hugh McMahon, and John Coggins all surpassed their previous highs to take First, Second, and Third in the event with Schulten winning with a throw of 57 11/4", inches short of the Cage Record. Another notable performance was in the Two Mile where Chris Richert showed much improvement while coasting to victory in 10:28. Andy Seaver, with a height of 6' 5" in the High Jump, and Peter Heaven, with a time of 8:23 in the 1000, also registered their best competitive efforts.

Other Bowdoin victories were scored by Paul Soule in the Dash, Peter Good in the High Hurdles, Dave Stocking in the Shot Put, Alex Schulten in the Discus, and Charlie Kahill who ran very well to win the Mile in 4:45. The Relay Team of Bill Rounds, Dave Kohl,

HUSTLERS THREE — Paul Soule, Bill Rounds, and Ray Bird are shown sweeping the 40 yard dash.

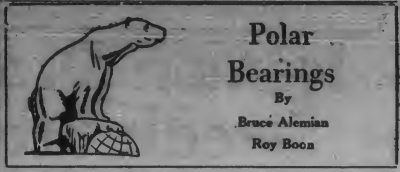

Mermen Lose Squeaker

Tim Robinson broke two New England records in both the 200 and 100 yard freestyle events Saturday as he led a tired-up Bowdoin team against highly touted Williams. In a meet which was expected to be a romp for the N. E.

and Captain Pete Seaver took two easily. Among non-winners excellent efforts were made by Dave Kohl in the 600, Gil Ekdahl in the Pole Vault, and Mike McCutcheon and Ed Bell, who far surpassed his previous best with a throw of 127' 5", in the Discus. Vermont victories were gained by Bill Mulhern in the 600 and Don Mayland, who gave the crowd an exciting performance as he won the Pole Vault and the new Bowdoin Cage record in the event with a final height of 14' 4".

Tim's time in the 200 was 1:31.7, eclipsing the old record of 1:31.8, which was set by Conrad of Williams last year. The 100 time of 48.4 books Tim's own record of 48.4, which he set last year at New England.

Other stand-outs for Bowdoin were diver Mike Bolmer and breast-stroker Shawn Leash, who both took seconds, and the winning free-style relay of Robinson, Whitman, Aschenbach, and Seaver.

Polar Bearings

By
Bruce Aleman
Roy Boon

The Bowdoin Athletic Program is currently operating at a level which is comparable to that of any other college of similar size. The Polar Bears compete on the varsity and freshman levels in fourteen varied sports. In supplement to this there is the intramural program, phys-ed, and the general free use of all sports facilities. The success of this extensive program speaks for itself. There is last year's championship basketball team, the football team, the current success of the hockey team, and the usually strong swimming and track teams. One can also point to the expanding sports of soccer, skiing, and tennis.

The College and the Athletic Department, however, cannot, and are not standing pat on its past performances. In the words of athletic director Mal Morrell, "There has been at Bowdoin a long standing need for increased modern facilities which would satisfy the growing athletic requirements for the College community." As everyone knows by now, a new gym is currently in the planning stage, and it is thought that when completed it will satisfy these requirements. Mr. Morrell stated that plans have been rapidly progressing, and it is now expected that construction will begin by April 16, 1964, and the building will be completed by September of 1965.

The new gym will include: a basketball court which will have a seating capacity of 2,000; an additional 500 lockers; a large and well equipped trainers room; a stock room; visiting team rooms; a large multipurpose room which can be used for meetings, coaches conferences, etc.; new offices for all personnel connected with athletics; and eleven squash courts (one of them doubles) with gallery space in four of these.

In addition to the new building, the old gym will be completely renovated. The present basketball court will be used for intramural competition as well as for badminton, tennis, and volleyball and for phys. ed. classes. There will also be new and modern gymnastic equipment which will be available for use to all. The present offices will be made into well equipped exercise rooms; a wrestling room will be converted out of the old stock room and the fencing room and weight lifting will take over the space currently occupied by the hand ball court. Additional space will be set aside for a combination conference, meeting, and projection room.

Mr. Morrell also explained that he hoped the new facilities will increase the scope of Bowdoin athletics. He foresees the time when Bowdoin will be able to compete on an inter-collegiate scale in squash, gymnastics, weight lifting, and wrestling. In addition it is stressed that these sports will be introduced into the intramural, phys-ed, and free recreational play programs.

With regards to gymnastics Mr. Morrell stated, "We hope to get a young specialist to help with this program. Gymnastics is a sport which is growing throughout the country, and one which would certainly benefit our program." In summing up he went on to say, "Many years have been spent planning and dreaming about this program. Because of the tight budget that the College and the Athletic Department has had to follow, it has taken time to realize our aim to relieve the time, space, and staff problems which are currently present. We appreciate all the work that the college has been doing to help us in this area, and can now look forward to September of '65 when the new facilities will be complete."

We certainly agree with Mr. Morrell in every aspect, and we also look forward with eagerness to Bowdoin's new gym.

PAT ON THE BACK this week goes to Tim Robinson of the varsity swim team, who in the meet against Williams last week shattered two college, Curtis Pool, and New England intercollegiate records in the 100-yard and 200-yard events.

The scheduled freshman and varsity hockey games pitting Bowdoin against Colby in the latter's home ground will be broadcast over the facilities of WBOR, Wednesday, February 26th, at 5:45 P.M.

Meet Gerald Bourland

Computer Systems Associate at WE

Gerald Bourland, B.S., Central Missouri State College, '61, picked Western Electric because it offered many interesting and challenging opportunities in his favorite fields—automation and data processing. Gerald's work here consists of writing, testing and documenting computer programs—each one a different and exciting assignment.

Also of great interest to Gerald when he joined Western were the Company's numerous management courses and paid Tuition Refund Plan. He knows, too, that we'll need to fill thousands of supervisory positions within the next few years. And he's getting the solid experience needed to qualify.

Right now, Gerald is working on a verification sub-system for maintaining production control. It consists of seven distinct computer programs that

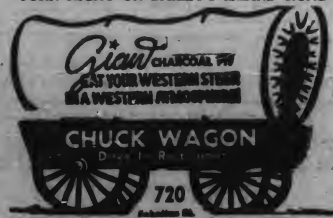

operate as one routine which performs the function of tying together and verifying forecasted with actual customer orders.

If you, like Gerald Bourland, set the highest standards for yourself, enjoy a challenge, and have the qualifications we're looking for—let's talk! Opportunities for fast-moving careers exist now for liberal arts, physical science and business majors, as well as for electrical, mechanical and industrial engineers. For more detailed information, get your copy of the Western Electric Career Opportunities booklet from your Placement Officer. Or write: Western Electric Company, Room 6405, 222 Broadway, New York 38, N. Y. And be sure to arrange for a personal interview when the Bell System recruiting team visits your campus.

SECOND LIGHT ON BATH ROAD
TURN RIGHT ON BAILEY'S ISLAND ROAD

OPEN DAILY 11:30 A.M. to 1:00 A.M.

Menen Dropped Twice; Meck Stopped At 7

Maine Champs Drop Bowdoin

Bowdoin's highflying hockey team had their seven game winning streak snapped Saturday by a tough Middlebury setback, 6-5. On Tuesday night they dropped another heartbreaker to New Hampshire, 4-3. These two losses by the identical margin of one goal brought the Polar Bears season record to eleven wins and seven losses.

In the opening period of the Middlebury game Bowdoin played ably and their opponents quickly capitalized on this by bringing home two early goals. Walker and Halliwell accounted for the two scores and if it wasn't for the fine goal-keeping job turned in by Dave Coupe it could have been more. Coupe had twice saves in the first period several on the spectacular side.

At the 30 second mark of the second period, Lewandowski made it 6-0 Middlebury and the game looked like it might turn into a rout. The Polars fought back, however, and Fred Filson tied it 6-1 on 1:14. A minute later, Fred scored his second goal of the night on a pass from Bill Allen to narrow Middlebury's lead to 3-2. Mechem then tied the score on an assist from Ed Fitzgerald but less than a minute later, Lewandowski put the visitors back in front. With only seventeen seconds remaining in the period Tom Oliver batted down a loose puck, outlaced two defencemen, and faked out the goalie on the prettiest play of the night. Oliver's goal tied the score at 4-4 and was the sixth goal of the period, the fourth for Bowdoin.

In the third period, the Polar Bears hustle and determination dominated the play. The first ten minutes were some of the best of everything but put the puck in the net. At 11:37 Halliwell scored his second of the night to make it 6-4 in favor of Middlebury and Mechem redoubled their efforts. They peppered the opponents goal with seventeen shots and finally they managed to slip one in. The highlighter was Joe Turbell, assisted by Mechem and Fitzgerald, and his goal sent the game into overtime.

Unfortunately for Bowdoin, Walker of Middlebury scored at 8:39 of the overtime to give the visitors the victory, 6-5. Dick Lepp had replaced Coupe in the third period and did a fairly good job, turning away sixteen shots in his brief appearance in the net. The League game combination made 37 saves while Duvey of Middlebury stopped 31 Bowdoin bids.

UNH Against the University of New Hampshire the Polar Bears dropped their second game of the week by the same margin of one goal, 4-3. The game started at a fast pace and the first period was marked by outstanding hustle and sharp shooting by both teams. The Wildcats opened the scoring at 2:41 of the first period on a long slapshot from the blue line by Pele Van Buitrak. Bowdoin managed to tie the game on a goal by Der Hamlin which was set up by the pretty passing of Bill Allen and Fred Filson.

The second period was dominated by Bowdoin although both teams scored twice. Houston put UNH ahead at the 6:37 mark with an unassisted goal but seconds later, Joe Turbell knotted the count and three seconds after that Dave Mechem made it 3-3. After those two quick goals the Polar Bears gained momentum but a rush by UNH,

which appeared to be offside, culminated in a tally for Sam Littlell and the second period ended 3-3.

At the four minute mark of the third period Houston tallied his second goal of the night to put the Wildcats ahead 4-3. The Polar Bears successfully contained UNH for the remainder of the game and constantly put pressure on their goalie. An indication of this is the fact that Dave Coupe only had four saves while the Wildcats' Doug Dunning made thirteen.

With only a minute and a half left, Coach Watson pulled Coupe and skated five forwards in an attempt to get the equalizer. Despite many opportunities the U.N.H. defense managed to thwart the Polar Bears and when the game ended the score was still 4-3.

The score was no indication of the game, however, as Bowdoin dominated play for the most part and outshot the Wildcats two to one. The game was decided on breaks and UNH capitalized on theirs while Doug Dunning, their goalie, constantly turned aside what looked like certain goals.

FOLAR CHIEFS This is the first time the Polar Bears have lost two consecutive games since their early season tilt with Brown and Merrimack.

Northeastern, with Leo Dupere and company, his team tonight (Friday) in what should be the toughest game of the season. The players will no doubt be fired up after those two heart-breaking losses and aiming for a big upset.

West Point seems to have recovered after being whipped by Bowdoin, as they have now won ten straight. Among their victims has been Clarkham, which was previously rated as being the top team in the East.

The UNH game was one of the most frustrating athletic contests we have seen. Bowdoin does one team outplay another by such a wide margin and still come out on the losing end. The Polar Bears can only console themselves with the fact that this time it was not a matter of the best team coming out on top.

In the scoring column, Dave Mechem leads the Polar Bears with 13 goals and 14 assists for a total of 27 points. Second place is hotly disputed with four players having 21 points apiece; Evans Hamlen, Joe Turbell, and Fred Filson all have 11 goals and 10 assists while Ed Fitzgerald has 8 goals and 16 assists.

HOW SWEET IT IS — Fred Filson scores one of his two goals in the Middlebury game. Fred's tallies brought his season total to eleven.

Fresh Run Over U. N. H.

On Tuesday the freshman hockey team kept alive their three-game unbeaten streak as they defeated the U.N.H. freshmen by a score of 4 to 1. The score in no way indicated the home team's domination throughout the game, and it was only through the fine play of the U.N.H. goalie that the score was not run up considerably higher.

From the first period it was evident that the Bowdoin freshmen were the superior players; however, they did not get on the scoreboard until Andy Corneilla broke around the defense and let go a ten-footer which caught the upper self-hand corner. For the remainder of the period the Bowdoin team pressed continually but were not able to capitalize on good scoring opportunities.

The second period was marked by extremely aggressive play on the part of the home team which resulted in 10 shots on the net and 2 goals. The first came on a deflected screen shot by Bob Pfeiffer and the second on a tip by co-captain Steve Wales. In the third period, Wales got his second goal of the game as he broke in alone and slipped the puck between the goalie's legs.

The team's record is now 5-3-1 with three games remaining. With two more games this week, one today against Bridgton Academy and the other one on Saturday against Noble and Cromough, the team will be looking for a winning record to take up to Colby when they take on the little males next Wednesday for their last game of the season.

They Said It Couldn't Be Done...

They whispered his name in the market place at Tangiers, his name struck fear into the hearts of sloop-eyed maidens from Morocco to Madagascar. His reputed spread from Ismailia to Suez and down to the Red Sea. The English called him "The Devil's Auctioneer." To the French he was simply "Le Voyer." His name is Nate Dams, White Slave, White Elephant.

For the past fifteen years he has lived a quiet life in the United States, a respected and useful member of his small New England Community. His past as a white slave trader buried in the aftermath of two world wars and an uneasy peace, Nate Dams had at last begun to feel safe, until... Bowdoin College Campus Chest Weekend 1948!!!!

Blackmailed by certain insinuating evidence, Nate Dams has agreed to set aside his cloak of obscurity and donate his services as auctioneer for Bowdoin's FIRST ANNUAL WHITE SLAVE AUCTION AND WHITE ELEPHANT SALE.

Twenty healthy girls from the Wheelock College Class Club will be auctioned off to responsible parties seeking cheap dates for Campus Chest Weekend.

- *YOU WILL HEAR MORE ABOUT THIS!!!
- *YOU MAY NEVER HAVE ANOTHER CHANCE TO SEE "THE DEVIL'S AUCTIONEER" IN ACTION AGAIN.
- *YOU MAY NEVER HAVE ANOTHER CHANCE TO BUY A DATE FOR CAMPUS CHEST.
- *PLEASE PLAN TO JOIN THE BIDDING. THE EXACT DATE WILL BE ANNOUNCED SOON. WE ARE DESPERATE MEN.

Phi Delta Psi Schedules Move To Maine Street

Gala Weekend

Great things are under way for Campus Chest, 1964. Under the able chairmanship of Ted Gaster, the Campus Chest Committee has scheduled a series of events, beginning from a folk-singing contest to "Car Smash," planned to keep both dates and stage well-occupied next weekend, all for the sake of charity. Classes selling chairs to give each, \$5 for a dollar) on a new of prizes donated by the local merchants, the Campus Chest Committee is also offering a special weekend ticket for couples at \$6 (a saving of \$2 admission) which will be good for admission to all activities.

A folk-singing contest on Friday, featuring folkingers from surrounding colleges competing for a \$150 Grand Prize, will get the ball rolling. Admission to the contest, which will be starting at 8:30 in the Gym, will be \$1.50 for stags and \$2 for WAGs.

At one-thirty, Saturday afternoon, a special Campus Chest double-feature — Harold Lloyd's "The Golden Age of Comedy" (1936) and "Fields of a Pastel Glass of Beer" — will be shown in Smith Auditorium, admission 50 cents.

At five, the Inter-fraternity All-stars will meet the Fresh Hockey Squad in the Arena. Immediately afterwards, Mal Fleming will take to the ice with his Faculty Stars and the highly touted Phi Delta Stars of Brunswick (12-15 year-olds).

At five, the spotlight will focus on the houses for the customary round of cocktail parties and house auctions. Then at 7:30, the Glee Clubs from Bowdoin and Wheelock will combine for a concert in Pickard Theater. Admission: 50 cents.

After that, all hell will break loose when the Crescives from UNH take over the Gym, as the dark sleazes and eye-balls are being gonned for Monte Carlo Night in the Case, which will have as its prime attraction a 1967 Budebecker which may be subjected to the unmerciful blows of Bowdoin's more violent; undergraduates — for a price of course. Admission to both the Monte Carlo Night and the dance will be \$1.25 for stags, \$2 for couples.

Speech On Creative Talent Will Climax Busy Weekend

The College Alumni Council announced that it will sponsor a public lecture March 7 by Professor Donald W. MacKinnon, Director of the Institute of Personality Assessment and Research at the University of California in Berkeley, Harvard, studying in Europe. In the summer of 1963 he taught at the Salzburg Seminary in the American Studies in Salzburg, Austria. In the summer of 1965 he taught at the University of Hawaii. During World War II he was associated with the Office of Strategic Services.

Since its founding in 1949, Dr. MacKinnon has been Director of the Institute of Personality Assessment and Research on the Berkeley campus of the University of California. The research objective of this Institute is the study of highly effective individuals. At the present time the major activity of the Institute centers on a study of highly creative individuals and the nature of the creative process. This research is supported by a grant from the Carnegie Corporation of New York.

In his lecture Professor MacKinnon will describe the more salient characteristics of individuals in the highly creative groups the Institute has studied, and discuss the implications of these findings for the identification of creative talent and its development. He will also discuss the things which can be done in school and college to encourage the creativity of students.

Bowdoin Graduate
A native of Augusta, Maine, Professor MacKinnon was graduated from Bowdoin in 1929, summa cum laude and Phi Beta Kappa. He was awarded his Ph.D. degree in psychology at Harvard University in 1931. Before joining the University of California faculty in 1947, he taught at the University of Maine, Harvard, Radcliffe College and Bryn Mawr.

In 1950-51 Professor MacKinnon was a Sheldon Travelling Fellow from

THE NEW HOME of Phi Delta Psi was the home of the late Prof. Charles D. Bennett. The house, located on the corner of Page and Main Streets, next to A.D., is now being renovated and should be ready for occupancy by September.

Exchange Students Voice Opinions On "Negro Revolt"

Attending a small New England college tends to remove students from the reality of the outside world. What he hears about the race crisis in Birmingham or what comes to us second hand from the New York Times.

But now that the exchange students from Morehouse College are here, Bowdoin students have a chance to hear for themselves just what the 'Negro Revolt' is all about. Last Monday night the Morehouse students discussed the race problem with the More.

One student from Birmingham, Ala. said: "I don't think the integration movement is getting too militant. Wouldn't it be better if the movement proceeded with moderation and non-violent action?"

"Well, from 1894 to 1964 is an awful lot of moderation," said Dewey Ronger. "You can't change an attitude such as the Southern white's until you bring the people of a different race together. Once the initial barriers of hatred segregation are broken down, then the at-

titude of hate will begin to change." Orlan said: "Might not this bring about violence and bloodshed?"

"Yes, it might," replied Rowen Brigley of Morehouse. "But I don't believe in moderation at all. We can't go slowly, or people like Bull Connor will continue to push us around. Although I agree that we must try to use tact, we can't wait. We've already waited too long. As to the bloodshed, let me say this. If the Negro people think that their cause is right and they want to suffer for it, it is right."

Orest: "Does the majority of Negroes want integration? Do they think it is worth the fight?"

Replied Brigley: "Yes, we do. When a people have been discriminated against as long as us, they can think of only one way out — integration. I grew up in Daytona Beach, Florida. I can remember back to when I was a little boy and my mother took me on a bus ride every

(Continued on page 4)

Religious Groups To Hear Von Euw

Rev. Charles E. Von Euw, a member of the faculty at St. John's Seminary in Brighton, Mass., will deliver a lecture next Tuesday, March 3.

Father Von Euw, an authority on the ecumenical movement, will speak on the topic "The Vatican Council." The general public is cordially invited to attend his lecture, which will be given in the Union Lounge at 8:15 p.m. There will be a coffee and discussion period after the address.

The lecture is sponsored by three of Bowdoin's student religious organizations — the Christian Association, the Episcopal Students Association and the Newman Club.

Father Von Euw is a graduate of Boston College and veteran of World War II. He is studied at St. John's Seminary for one year and then attended Gregorian University in Rome, where he studied theology for four years. He was ordained to the Roman Catholic priesthood in Rome. He attended the Oriental Institute in Rome for three years and was awarded a doctoral degree in oriental theology, returning to the United States to become a member of St. John's Seminary faculty and now holds the position of Professor of Oriental Theology and Patrology. Father Von Euw has attended both the 1962 and 1963 sessions of the Vatican Council as an expert adviser to Richard Cardinal Cushing of Boston, is a member of the Archdiocesan Romanist Committee.

To Exchange Federal St. Property With College For Burnett House

Phi Delta Psi Fraternity will move into a new home at the edge of Campus next fall.

President Coles announced today that the College has purchased the Burnett property at 232 Maine Street and will turn it over to Phi Delta Psi in exchange for the fraternity's current quarters on Federal Street. The College plans to sell the Federal Street property.

President Coles said the Government Boards have also approved a loan to the fraternity to enable extensive remodeling of the Burnett property to make it suitable for fraternity use.

The new Phi Delta Psi Fraternity house was for many years the home of the late Professor and Mrs. Charles T. Burnett.

To Strengthen System
"The new, central location will strengthen the Phi Delta Psi Fraternity and in so doing we hope it will strengthen the entire fraternity system at the College," President Coles said.

The President also announced that alumni of Delta Sigma and Delta Upsilon fraternities are forming a new corporation to seek title to the Delta Sigma House which the Delta Upsilon Chapter House Corp. gave to Bowdoin last November.

"These acts," President Coles said, "are but two of many continuing actions by which the College undertakes to preserve interests of the fraternities of Bowdoin, recognizing their importance in the Bowdoin educational program."

James E. Cooney '65 current President of Phi Delta Psi, said the fraternity's brothers and alumni "are more pleased that the Government Boards and administration of the College have voted to support the proposal of its fraternity corporation to acquire the renovated Burnett property."

"This action," Coey said in a

Whiteside Foresees Far Healthier Climate Resulting From System

Professor William B. Whiteside in Monday's Chapel talk entitled "Cynics, Visionaries, and the Honor System, challenged the Bowdoin student body when he asked, "Are you satisfied with the present situation at Bowdoin? Have you anything to offer to aid towards its improvement?"

Whiteside foresees a far healthier climate than that which obtains at Bowdoin now. The Bowdoin student must come to realize that, "he must be a far healthier individual."

Whiteside expressed the hope that the honor system at the college will be expanded to include the honor system which is now in effect at the college.

Whiteside expressed the hope that the honor system which is now in effect at the college will be expanded to include the honor system which is now in effect at the college.

Notes And Comments:

Oh Floyd, Poor Floyd, Etc.

A lot of people were thinking the same thing. When Cassius Clay made it past the magic one round mark, and after his behaviour at the weigh-in Tuesday morning, it became pretty obvious that Charles "Sonny" Liston was playing the game with a guy that thought and acted differently from Floyd Patterson.

And even while Floyd was probably listening to the fight from his Catskill retreat, Clay, with a type of bombast which belongs more to the circus than the prize ring, was destroying the myth that Patterson had erected almost single-handedly, the myth of Sonny Liston.

Anyone who can read, has by now, digested details of the minor apocalypse presented to the sporting public by the American Broadcasting Company and closed circuit television, but for one ex-heavyweight champion of the world, the outlines of reality may be a little difficult to rationalize.

Gay Talese writes in this month's Esquire: "He (Patterson) cannot help but think that it was something more than Liston that destroyed him — a strange psychological force was also involved, and unless he can fully understand what it was, and learn to deal with it in the boxing ring, he may not be able to live peacefully anywhere. . . . After Tuesday's fight, most people will have to agree with that statement. Even the people who lost a lot of money on Floyd's two outings against Liston. For Floyd Patterson, there must be an apology and an excuse, and an admission that the psychological variable cannot be discounted in athletics, professional and amateur.

It's pretty easy to imagine how much Floyd must have been

hoping that Liston would knock Clay's block off early in the fight. Lots of people were hoping the same thing — but for a different reason. For Patterson, a Liston K.O. would constitute affirmation that there was some substance to the myth, and some evidence that there was something more dangerous than fear itself. Unfortunately, the affirmation was not to be found, and for Floyd, anyway, the loel of defeat lie within.

We like Floyd Patterson. We liked him when he was champion because he was conscious of his public image and did what he could to improve it. He has been called a "race man" because he used his status to help further expand the frontiers of integration. They say that Cassius Clay is a Black Muslim. Now this may be irrelevant as far as championship boxing is concerned, but among myriad other reasons, it helps to explain why we like Floyd Patterson, and why we, too, were just a little disappointed when Clay took the heavyweight crown.

What will happen to ex-champ Floyd now is anybody's guess. What kind of champ Clay will make is also anyone's guess. The king is dead, long live the king. But Oh for the good old days.

One other thought about the fight: Jimmy Brown, of the NFL Cleveland Browns, who was at ringside, said that both fighters were among the best physical specimens he had ever seen, and that HE weighed in he didn't have to climb in the ring with either of them. Remembering some of the things that Sam Huff has done to Brown in past NFL contests, that comes as a real surprise.

Closed Parties Upheld

At this week's session of the Presidents' Council, it was proposed that: "the Presidents' Council should stand behind any house which wants to have a closed party," and "the terms of the party should be explained at the Council meeting immediately preceding the weekend of the party."

Both of these proposals were passed unanimously in connection with the request by Sigma Nu that the other houses honor its plan to have a closed party this weekend.

At Monday's meeting, the Council passed its first by-law forbidding any house to hire paid entertainment in conflict with a college-sponsored social function. This by-law was passed after hearing the president of Psi Upsilon, Brian Murphy, explain Psi U's side of the current hassle over whether or not Psi U, was justified in hold-

CHAPEL . . . From P 1 Art Panorama

matic approach" and agrees with Mr. Nusbaum that if an honor system proves unsatisfactory, "we can always go back to our present system." Whiteside admits that "Our" problem is semantic, "and prefers that we not use the term "honor system," but instead, "a plan for the assumption of individual responsibility for academic conduct by Bowdoin students."

In answer to Mr. Geoghegan's opinion that the Students do not desire an honor system, Whiteside replied, "What would you expect from students who have an experience with the effective honor system?" Professor Whiteside stressed that, "The distinction between our present system and the proposed system is not that between black and white." The proposed honor system asks us "to adopt a system of somewhat greater student responsibility. We are not being asked to bring about revolutionary change."

A "Ford Times" art exhibit is now on display in the Moulton Union Dining Room.

Donovan D. Lancaster, Director of the Union, said the collection, called "21 Paintings from 21 States," represents a hop-skip-and-jump panorama of the country as seen through the eyes of contemporary regional painters. The exhibit will be on view until March 27, Mr. Lancaster said.

The collection of watercolors is one of the traveling exhibitions from the Collection of American Art compiled over a period of years by the editors of "Ford Times," a Ford Motor Company publication.

Source of these exhibitions is the Ford Times Collection of American Art which has been assembled from work commissioned for Ford publications. The collection includes more than 6,500 published paintings, as well as about 750 which have not yet been published.

Play Auditions To Be Held

Auditions for Shakespeare's "Much Ado About Nothing" which will be performed on the 460th anniversary of his birth in April, will be held next Sunday and Monday, March 1 and 2.

Professor Quinby, Director of Dramatics, said the auditions will be held in Pickard Theater, Memorial Hall, from 3 to 4 and 8 to 10 p.m. Sunday, and from 4 to 5:30 and 7 to 8:30 p.m. Monday.

Interested students of the Brunswick area and servicemen and their wives who are stationed in the region are cordially invited to attend the auditions. There are parts for four young women and for fifteen men of varying ages. The lines and action require both high and low comedy. Professor Quinby noted.

Any person interested but unable to attend the Sunday and Monday tryouts should telephone Professor Quinby at 728-3764 or 725-2665 for special admissions.

The play will be staged on April 23, and again in June as part of the Commencement activities. Professor Quinby said it is hoped to assemble one cast for both dates, but it may be possible to use different actors for the two performances. Rehearsals for the first performance will be suspended March 27 to April 7 during Bowdoin's spring vacation period, when the actors will memorize their lines.

One of the 1963 alumni actors was Carl de Suse, popular Boston radio personality whose illustrated lecture in Pickard Theater tomorrow will benefit the special performance of "Much Ado" in April.

DRAWING POSTPONED

The weekly lecture series raffie drawing, originally scheduled for Saturday night of Campus Chest Weekend has been postponed to avoid conflict with the Campus Chest Committee's drawing. Drawing for the Express raffie will be held later in March, with an increased prize list.

Alumni Council; Lectures; Career Guidance This Week

The Alumni Council is holding its 19th annual midwinter meeting on Campus today and tomorrow. The Council sessions will start a busy five-day Bowdoin weekend which will also include a Campus Career Conference, Senior Class Dinner, several athletic events and two special lectures.

Members of the Council registered yesterday afternoon at the Alumni House.

Committee meetings and a meeting of the Alumni Fund Directors were held this morning, followed by luncheon in the Mountain Union Lounge.

Mrs. Cole entertained the ladies at a coffee at the President's House, at 11 a.m.

The Council held its regular midwinter business meeting in the Alumni Council Room at the Alumni House this afternoon. Presiding was the Council President, Arthur K. Orne '30 of Wilmington, Del.

Reports

Standing Committee Reports were given by Mr. Orne, Alumni Awards for 1965 and 1966; Mr. H. A. Wiley '48 of Wellesley, Mass., Alumni Clubs; George F. Cary, II '35 of Bath, Maine; Alumni Day; Emerson W. Zeller '30 of Brunswick, Alumni House; Dr. John P. Reed '37 of Wetherfield, Conn., Alumni-Undergraduate Luncheon; Richard B. Sanborn '46 of Augusta, Maine; awards to Alumni; Winthrop B. Walker '36 of Boston, Commencement Activities; Dr. John E. Carlsland '39 Council Vice President; of Wiscasset, Harwood Conn., Nominations; Atty. Mayland H. Morse, Jr. '43 of Concord, N. H.; Placement; and George T. Davidson, Jr. of Conway, N. H., Prospective Student.

Special Committee Reports were presented by Richard B. Thayer '23 of Newmarket, N. H., Aid in Development; Plans for the College; Geoffrey T. Mason '23 of Rumford, R. I., Continuing Education for Alumni; and Lendall B. Knight '41 of Cape Elizabeth, Maine, Senior Center Program.

Council Secretary Peter C. Barnard '50, who is also the College's Alumni Secretary, said members of the Council and their wives have been invited to dinner this evening at the fraternity houses. They will attend the Bowdoin-Merrimack hockey game in the Arena at 7:30 p.m.

Saturday

The Saturday morning session will include an informal discussion on undergraduate life and activities by a panel of students. Moderating the discussion will be Professor Albert Abrahamson '28, who is George Lincoln Skold, Jr., Professor of Economics at Bowdoin.

The student panelists will be Walker R. Christie '64, son of Philip A. Christie '36, President of the Aroostook County Board; Club; Peter R. Seaver '64; Gerald T. Giesler '65; Edward A. McCabe, Jr. '65; and David F. Huntington '67.

President Coles will speak informally at luncheon in the Mountain Union.

PHI DELTA ... From P. 1

whole. As an individual fraternity and as a member of the Bowdoin community, Phi Delta Psi is most appreciative of that support."

Built in 1869

Francis Burnett, who was Chairman of Bowdoin's Psychology Department, was an active member of the Faculty for 45 years until his retirement in 1944 and death in 1946. A much beloved teacher, he was also active in the affairs of the community and was one of the faculty members whose counsel was sought by students. He founded Phi Delta Psi at Bowdoin in 1918. Mrs. Burnett, daughter of a famous seafaring family, was an accomplished oboist.

His name was a cultural center that drew many famed musicians to Brunswick. Mrs. Burnett, who died in 1962, was hostess to the Curtis String Quartet and many other musicians who appeared in concerts at Bowdoin over 45 years.

The house was built in the 1860's as a home for the family of Captain Clement Martin, Jr., a retired seafarer. It was acquired by the Burnetts in 1920.

When renovated for fraternity use, the building will accommodate 30 students, with sleeping, study, lounge and dining facilities.

Phi Delta Psi, which moved into its Federal Street quarters in 1922, has a long record of achievements by its members in the life of the College. During the 1963-64 academic year, 18 members of the fraternity have been on the Dean's List and five were designated James Bowdoin Scholars. Nine of Bowdoin's Commencement Prizes went to Phi Delta Psi members last June.

Fellowship Awarded To Philip Hansen

A Rockefeller Brothers Theological Fellowship has been awarded to Philip H. Hansen, III '64.

This fellowship is one of sixty awarded in a highly competitive talent search in the United States and Canada. It is an all expense fellowship permitting the recipient to study at any accredited theological seminary on a "trial-year" basis, during which the Fellow seeks to determine his fitness for the ordained Christian ministry.

INTERNATIONAL CLUB HOLDS ELECTIONS

Arntinn M. Sorenson of Bradford '61 Senja, Norway, a member of the Class of 1964, has been elected President of the International Club. Other officers include Vice Presi-

dent, Oyoconoro S. Kananu '65 of East Nigeria, Africa; Secretary, David O. Soinits '65 of Brunswick, Maine; and Treasurer, Bang Ti Tong of Seoul, Korea.

MOREHOUSE ... From P. 1

Sunday along the coast. As I looked out the window and saw the ocean and all of the bathers, I'd ask my mother if I could go swimming. All she said was "Go." And this happened year after year until I realized that it was because I was black that I couldn't go to the beach. It made me bitter. I think that God made the world and the ocean for everyone, even the Negro. I want my children to grow up in a country where I don't have to live on one side of town, eat in certain places, and ride in the back of the bus."

Master of Principles

To add to this Ranger said: "It's the principle of the thing. I want to see if Southern restaurants integrated tomorrow that most Negro wouldn't go into one. But that isn't because they don't want to; they just couldn't afford to. The Southern Negro is at the bottom of the economic scale and it will be a long time before he will be on the same economic level with the white."

Orient: Is it the Southern white that does all of the hating?

Amin, Ranger answered. "No, there are an awful lot of Negro who hate the whites. But this is only a nature. You can't live like that and not hate them right back. Until the first semester of this year, I had mistrusted and disliked all whites all my life. But the first semester at Morehouse this year, I had a white roommate who was there on an exchange. It was completely new to me. I then realized that the color of a man's skin doesn't mean a thing and my attitude has changed."

Orient: "What about the political and international implication of the Negro Revolt?"

Said Art Hardeman: "Right now it doesn't really matter what every one else thinks. This is the United States and I'm living in it. What the Russians or anyone else says makes

Reuben Brigety said a different light on this. "Right now I'm classified as a IA with the government," he said. "This means that someday I might be fighting to protect this country. But I'd feel kind of funny fighting for a country that doesn't want me."

On Lyndon Johnson

Orient: "What do you think is ahead for the integration movement?"

Said Ranger, "Now I'm from Texas. So I don't want to exactly tear down President Johnson."

Orient: "You don't think he'll help much?"

Ranger: "I didn't really say that, but Johnson is a real politician. He'll do only what he thinks he has to do. If everyone says integrate, he'll call for integration. But if things go too slow, he'll just sit tight."

Orient: "What about President Kennedy?"

"Now there was a man you could know," stated Brigety. "He didn't just sit around. You knew right where he stood. I felt that he wanted to help more than he could."

Orient: "Do you think that the Black Muslims have hurt or helped the Negro movement?"

"I think that they have hurt more than they've helped," said Ranger.

Orient: "Is it because they are too extreme?"

"Yes," said Ranger, "they want complete segregation. Most Negro don't, so you know. In a way, they are like the Klu Klux Klan." "Wait a minute," said Hardeman. "They aren't really like the KKK. They might be as extreme in ideas, but the Black Muslims don't have the violence and tactics of the KKK."

OUTFITTERS TO BOWDOIN MEN

Benoit's

BLAZERS

Among the most versatile and useful jackets in any wardrobe are blazers, ageless, colorful, comfortable. Benoit's offers blazers of several prices, in several shades, including these:

Frosh Drop Swimmers Lose To Army Last Three

After opening with two victories the Bowdoin freshman track team suffered three losses in the last ten days.

On Wednesday, February 19, the freshmen were beaten by a powerful undefeated Essex team by the rather lopsided score of 100-13. Tom Allen won the 800 in 1:18.5, the only first place for the Polar Bears. Skip Smith pole vaulted 13'7", only one inch under the Bowdoin freshman record, and was second. Max Willcherer put the shot 30 feet and lost by 6 feet. Willcherer's third in the discus and a third place finish by Cary Rea in the two-mile provided the other Bowdoin points.

On Saturday afternoon the Tufts freshmen edged Bowdoin 58-52 with a victory in the relay, the first event. Bob Bell won the low hurdles and the high jump and placed second in the broad jump. Tom Allen won the 600 and the 1000-yard runs. Skip Smith cleared 12 feet in the pole vault for the second

Bowdoin's varsity swimmers got dunked, 49-26, last Saturday in a meet against West Point, one of the top teams in the East. The Polar Bears only captured two first places as Army swept most events. Starling performances by Pete Seaver, Shawn Leach, Tim Robinson and John Halford brightened the day somewhat, however, and the outcome wasn't entirely unexpected.

This Saturday, the Bowdoin team came in a row and Max Willcherer won the 16-lb shot put with a good toss of 43' 3/4". Vernellie Harvey Wheeler, recruited from the swimming team for the meet, took second in the pole vault and high hurdles and third in the low and the broad jump. Bowdoin's lack of depth in the distance races was the decisive factor in the loss.

The final score of the triangular meet with Derrig and Portland on Wednesday was Derrig 214, Bowdoin 374, and Portland 50. Allen and Willcherer were double winners for the Frosh.

is back in its own league again with a home meet against Tufts, here at the Curtis Pool. In their last appearance at home, the team is out to wipe a few records off the board, and among those to go should be the 100 and 50 free, the 500 free, the butterfly, and the breaststroke. Especially looking toward breaking their own records, one last time will be John Halford and Pete Seaver, both in their last meet here at Bowdoin. Pete, who has already done 3:18 in practice, will be out to get the 500 record of 8:17, which he set last year in the New England; and John Halford will be out to break his two week old time of 3:14 in the butterfly. Shawn Leach will be shooting at his record of 2:20 in the breaststroke, and Tim Robinson may be going for either the 50 or the 200 and the 100. These last two College records are also New England records for Tim.

This is the last dual meet of the season for the merman, with the New England slated for March 11, 12, and 13 at U. Mass.

Random Thoughts—Part 2

Unfortunately, nothing of earth-shattering dimensions has occurred during the last week in the field of Bowdoin sports. At least nothing that would encourage Bowdoin students to protest any athletic decisions, hang coaches in effigy, or give the sports department material for an editorial. There is probably an extremely small number of events that raise eyebrows for more than just a brief period, and apparently that small number does not include POLAR BEARINGS. During our tenure in office we have received only one written comment on this article, and this concerned only a minute aspect of one particular editorial.

This leads us to believe that perhaps we should widen our scope a little and proceed to write on such widely acknowledged topics as the Clay-Liston fight, the Portland Sea Hawks spring training, or the San Diego State Surfing team. These articles might generate as much, if not more, student interest than the relevant subjects which we have previously labored on; and we ourselves would get a kick out of writing them.

Maybe we could dickerate on the chances of the Boston Red Sox to finish in the first division for a change. Or better yet, how about a provocative titled article like, "Are The Celtics Getting Old?" Certainly professional teams generate as much interest as Bowdoin sports do. Any Comment?

Due to a lack of space and a writer, there has been no mention of interfraternity sports in the ORIENT for the past two months. We hope to rectify this matter in part by publishing an All-Star Team for hockey and basketball in a future issue. Don't miss it!

The Alumni hockey game this coming Saturday promises to be an exciting event. Coach Sid Watson declined to forgo a triumph for his varsity squad but he did issue a statement expressing confidence that his men will be ready for the afternoon encounter, despite having to engage in a Friday night game against Merrimac. Watson, however, refused to confirm a report that his team will use a startling new formation in an attempt to confuse the alumni.

Danny MacFayden, who will coach the alumni, scoffed at rumors of a new varsity offense. "The alumni will stick to the tried and true methods, and I'm confident that the final scores will reflect the wisdom of our procedure," said MacFayden. As it stands now the alumni are determined not to be a "push-over." In the words of Doc Hanley, "Bill Mathews better be on his best behavior."

The pucketers two overtime wins against Colby mark the first time in ten years that the Polar Bears have triumphed twice over the Mules in the same season. This was the first year that Bowdoin has defeated Colby since 1958, and the only time that the Polar Bears have beaten Colby in their own arena.

The E.C.A.C. divides hockey teams into two groups at the beginning of the season, major and minor. With just a few games remaining in the 63-64 season, only two teams from the minor division have defeated major teams, and Bowdoin has the distinction of being one of them. The Polar Bears 7-5 upset of Army was one of just four losses suffered by the Cadets, and they later went on to win 13 straight including a win over highly regarded Clarkson.

PAT ON THE BACK

This week the Pat On The Back goes to two players, Dick Whitmore and Devens Hamlen. Whit paced the basketball team in their two wins this week as he scored a total of 45 points while grabbing countless rebounds. Dev. Hamlen was also a standout, as he scored the tying and winning goals against Colby. This was the first time that Bowdoin has defeated the Mules twice in one season in ten years.
