Entered as second-class matter, June 28, 1907, at Brunswick, Maine, under Act of Congress of July 16, 1894. Published monthly by the College.

Bowdoin College

BOWDOIN COLLEGE was incorporated by the General Court of Massachusetts, upon the joint petition of the Association of Ministers and the Court of Sessions of Cumberland County. The act of incorporation was signed by Governor Samuel Adams, June 24, 1794. The legal designation of the Corporation is "The President and Trustees of Bowdoin College."

The College was named in honor of James Bowdoin, a distinguished Governor of Massachusetts, of Huguenot descent. The government has been, from the first, vested in two concurrent Boards, the Trustees and the Overseers, the Trustees initiating legislation and the Overseers concurring or vetoing. Since 1870 half the vacancies occurring in the Board of Overseers have been filled from nominations from the body of the Alumni.

The earliest patron of the College was the Hon. James Bowdoin, a son of the Governor. He gave land, money, and apparatus during his lifetime, and at his death made the College his residuary legatee. His library, collected during his residence in Europe as Minister to Spain and France, contained some 2,000 volumes and as many more pamphlets. It was rich in French literature and history and rare tracts on American history, and included almost everything in print on Mineralogy. His art collection, also bequeathed to the College, contained seventy paintings, originals and copies, and one hundred and forty-two drawings by old and modern masters; among the paintings were the portraits of Thomas Jefferson and James Madison by Gilbert Stuart.

Circumstances delayed the opening of the College until 1802, when Rev. Joseph McKeen, D.D., was elected its first president. Seven other presidents have since held office: Rev. Jesse Appleton, D.D., 1807-1819; Rev. William Allen, D.D., 1819-1839; Rev. Leonard Woods, D.D., LL.D., 1839-1866; Rev. Samuel Harris, D.D., LL.D., 1866-1871; Gen. Joshua Lawrence Chamberlain, LL.D., 1871-1883; Rev. William DeWitt Hyde, D.D., LL.D., 1885-1917; and Kenneth Charles Morton Sills, LL.D., 1918 to date.

More than twelve thousand, nine hundred students have been admitted, and eight thousand, five hundred and ninety-eight degrees have been awarded. The living graduates number three thousand, nine hundred.

Among the graduates have been Henry Wadsworth Longfellow, Nathaniel Hawthorne, Franklin Pierce, and Robert Edwin Peary.

THE COLLEGE BUILDINGS

MASSACHUSETTS HALL, completed in 1802, was the first college building erected. Previous to 1936, when the entire building was remodeled, the two upper floors were used for the CLEVELAND CABINET of mineralogy, named in honor of Professor Parker Cleaveland. The whole building is now used for the administrative offices of the College.

MAINE HALL (1808), WINTHROP HALL (1822), named in honor of Governor John Winthrop of the Massachusetts Bay Colony, APPLETON HALL (1843), named in honor of the second president of the College, and WILLIAM DEWITT HYDE HALL (1917), named in honor of the seventh president of the College and erected from contributions from many of the Alumni, are the four dormitories, and form with the Chapel the eastern side of the Quadrangle.

The CHAPEL, a Romanesque Church of undressed granite, designed by Richard Upjohn, was built during the decade from 1845 to 1855 from funds received from the Bowdoin estate. It stands as a monument to President Leonard Woods, under whose personal direction it was erected. In the Chapel is the organ given in 1927 by Cyrus H. K. Curtis, LL.D.

SETH ADAMS HALL was erected in 1860-61. It was named in honor of Seth Adams, Esq., of Boston, who contributed liberally towards its construction. It stands on the Delta, and is used as a recitation building.

MEMORIAL HALL, erected in 1868, is a structure of local granite in the Gothic style. It is a memorial to the graduates and students of the College who served in the Civil War, and bronze tablets bearing their names are placed around the hall on the second floor. The lower story is used for recitations.

The OBSERVATORY was erected in 1890-91 with funds given by Mr. John J. Taylor, of Fairbury, Illinois. It stands on the south-east corner of Pickard Field, and is reached from Harpswell Road.

The WALKER ART BUILDING was designed by Messrs. McKim, Mead, and White and erected in 1892-94. It was given to the College by the Misses Walker, of Waltham, Mass., as a memorial to their uncle, Theophilus Wheeler Walker, of Boston, a cousin of President Woods.

The MARY FRANCES SEARLES SCIENCE BUILDING was designed by Henry Vaughan and erected in 1894. It is a gift of Mr. Edward F. Searles in memory of his wife. With the Walker Art Building it forms the western side of the Quadrangle.

HUBBARD HALL, the library building, was also designed by Henry Vaughan, and erected in 1902-03. It was presented to the College by

General Thomas H. Hubbard, of the Class of 1857, and his wife, Sibyl Fahnestock Hubbard. It is built of brick and Indiana limestone and forms the southern end of the Quadrangle.

SARGENT GYMNASIUM and GENERAL THOMAS WORCESTER HYDE ATHLETIC BUILDING were erected in 1912. The Gymnasium was built from contributions from many of the students and Alumni, and named in honor of Dudley A. Sargent, M.D., Sc.D., of the Class of 1875; the Athletic Building was given by John Hyde, of Bath, in memory of his father, a graduate of the College in the Class of 1861, whose name it bears. Connected with the Gymnasium is the Swimming Pool, given in 1927 by Cyrus H. K. Curtis, LL.D. These buildings stand to the east of the Chapel, outside the Quadrangle.

The DUDLEY COE MEMORIAL INFIRMARY is a three-story brick building, erected in 1916-17. It was given by Dr. Thomas Upham Coe, of the Class of 1857, in memory of his son, and stands in the pines to the south of the Gymnasium and Athletic Building.

The MOULTON UNION, designed by McKim, Mead, and White, was erected in 1927-28. It was given by Augustus Freedom Moulton, LL.D., of the Class of 1873, as a social center for the student life of the College. It is two stories in height and stands just outside the Quadrangle, between Appleton and William DeWitt Hyde Halls.

ADMISSION TO THE COLLEGE

In accordance with a vote of the Boards, the limit upon the number of undergraduates in the College is fixed at six hundred, a number which may be exceeded only at the discretion of the President.

Application for admission to the Freshman class should be addressed to the Director of Admissions before June 20, 1939. Testimonials of good moral character must be presented by all candidates before certificates of admission are granted. Letters from principals or teachers dealing in a personal manner with the character and attainments of the candidate are desirable. The College is particularly interested in any special ability which a candidate may have shown in his secondary school life.

In the selection of a Freshman class, the College prefers candidates who offer for admission the subjects required for the course leading to the degree of A.B. It also prefers as candidates for the degree of B.S. those who offer for admission regular and approved subjects only, and who present the largest proportion of those subjects which demand two or more years of study.

All accepted candidates will be charged an admission fee of ten dollars, which must be paid by July 15th; except that for candidates admitted after July 5th, the date will be within ten days of the time of their admission. Unless the fee is paid, no place in the entering class will be guaranteed. This fee will be credited on the first semester bill for all who matriculate in September.

SYSTEMS OF ADMISSION TO THE FRESHMAN CLASS

Candidates are admitted to Bowdoin College under the following systems of admission:*

Unit System:

- (1) with credits by certificate,
- (2) with credits by examination,
- (3) with credits by both certificate and examination.

Four-Examination System.

UNIT SYSTEM WITH CREDITS BY CERTIFICATE

An admission unit represents a course satisfactorily pursued in a secondary school five hours per week for a school year. To enter free from conditions, candidates for admission must offer 14½ units. (In 1940 and thereafter candidates for admission must offer 15 units.)

The content of courses in which candidates may obtain units either by certificate or examination for admission to Bowdoin College should con-

*The Committee on Admissions has power to modify the requirements for a limited number of candidates of exceptional ability or unusual promise.

form closely to the requirements as set forth by the College Entrance Examination Board in the document referred to on page 48.

CANDIDATES FOR THE DEGREE of A.B. who have not studied Greek must present for admission 3 units in Latin, and are *strongly* recommended to present 4 units. If the fourth unit of Latin is not presented, a student is required to take, in College, either Latin A-B or both Greek 1-2 and 3, 4. Candidates for this degree are also recommended to present Ancient History to fulfill the requirement in history. Candidates desiring to present admission units in Greek should consult the Director of Admissions.

CANDIDATES FOR THE DEGREE OF B.S. may satisfy the language requirements for admission by presenting 3 units of one language or 2 units in each of two different languages.

The following subjects, aggregating at least 9½ units, are required of all candidates:

English	3
Latin, Greek, French, or German	3 (or 4)
Algebra	1½ (or 2)
Plane Geometry	1
History (selected from the list below)	1

The study of *English* for four years in secondary school counts as only 3 units. *Algebra* counts as 2 units if pursued for two years, if reviewed in senior year, or if offered by examination. By special permission, *Spanish* may be substituted for one of the languages listed above.

Acceptable subjects, sufficient to bring the total up to 14½ units (after 1939, 15 units), must be presented by all candidates. It is *strongly recommended* that these additional units be chosen from the following:

*Languages**

- Latin (2, 3, or 4)
- Greek (2 or 3)
- French (2, 3, or 4)
- German (2, 3, or 4)
- Spanish (2 or 3)

Mathematics and Science

- Plane Trigonometry (½)
- Solid Geometry (½)
- Advanced Algebra (½)
- Physics (1)
- Chemistry (1)
- Biology (1)

History

- Ancient History (½ or 1)
- Greek History (½)
- Roman History (½)
- Mediæval History (½ or 1)
- Modern European History (½ or 1)
- English History (½ or 1)
- American History (½ or 1)
- Civics, with American History (½ or 1)

*Not more than four or fewer than two units may be offered in any one foreign language.

The Director of Admissions will consider applications for not more than two certified admission units in other cultural or scientific subjects.

For credit toward the $14\frac{1}{2}$ units (after 1939, 15 units), required for admission under this system, certificates will be received from preparatory schools in New England which have been approved by the New England College Entrance Certificate Board. This Board, composed of delegates from the associated colleges, receives, examines, and acts upon all applications of schools in New England which ask for the privilege of certification. All certificates are passed upon by the College, but students are received on certificate from such schools only as have been approved by this Board. All schools desiring certification privilege should apply before *April 1st of each year* to the Secretary of the Board, Professor Frank W. Nicolson, Wesleyan University, Middletown, Conn.

The College has established a list of schools outside of New England to which it accords the certificate privilege. Admission to this list may be obtained on presentation of evidence of qualification.

Principals may obtain certificate forms for admission units upon application to the Director of Admissions.

UNIT SYSTEM WITH CREDITS BY EXAMINATION

The units, as described in the last section, may also be obtained by examination. Bowdoin College offers its own examinations, and accepts the examinations of the College Entrance Examination Board and those of the New York Board of Regents. Regular examinations for admission will be held at the College on May 22, 23, and 24, 1939. The examinations are to be conducted on the following schedule:

Monday, May 22nd

9-12 A.M. Latin
2-6 P.M. History

Tuesday, May 23rd

9-12 A.M. English
2-5 P.M. French
7-10 P.M. German, Greek, Spanish

Wednesday, May 24th

9 A.M.-1 P.M. Mathematics
2-6 P.M. Chemistry, Physics, Biology

The examination in English may be divided into two parts, if the candidate prefers: English A, covering the work usually pursued during the first three years in the secondary school, and counting 2 units; and English B, covering the work usually pursued during the fourth year in the secondary school, and counting 1 unit.

Entrance examinations may be divided between two or more successive years if the candidate prefers. A certificate will be given for the subjects passed at each examination period. This certificate is sent to the candidate within two weeks after Commencement.

Examinations in subjects accepted for admission are regularly held at Thornton Academy, Saco; at Washington Academy, East Machias; at Fryeburg Academy, Fryeburg; and at Lincoln Academy, Newcastle; these schools having been made special fitting schools for Bowdoin College by the action of their several Boards of Trustees, in concurrence with the Boards of Trustees and Overseers of the College.

Examination papers will also be furnished to the principal of any high school or academy in Maine of good standing, having a regular college preparatory course of not less than four years in length.

In holding entrance examinations elsewhere than in Brunswick, the following regulations are to be observed. Papers are sent only in May. The dates for holding the examinations in 1939 are May 22, 23, 24, and the schedule printed above must be followed. Applications for papers, addressed to the Director of Admissions, must be received not later than May 15, stating the name of the school, the names of the candidates, and the subjects in which these candidates are to be examined. Examination papers together with the requisite number of blue books will be sent prepaid to the principal. On the completion of the examination, the books are to be returned at once at the expense of the College.

The September examinations for admission are held only at the College, and credits gained as the result of these examinations will not be accepted until the following year if the Freshman class is already filled. Candidates for these examinations must make application to the Director of Admissions before September 10th. These examinations will be held, in 1939, according to the following schedule:

Monday, September 18th	Tuesday, September 19th
9-12 A.M. English	2-5 P.M. French
2-6 P.M. History	7-10 P.M. Latin
7-10 P.M. German, Greek, Spanish	
Wednesday, September 20th	
9 A.M.-1 P.M. Mathematics	
2-6 P.M. Chemistry, Physics, Biology	

The certificates issued as a result of the examinations which are held by the College Entrance Examination Board, June 17-24, 1939, will be accepted by the College in so far as they meet the requirements for admission. A list of places at which these examinations will be held will be published about March 1, 1939. Detailed definitions of the requirements in all examination subjects are given in a circular of information published annually about December 1st. Upon request to the Secretary of the College Entrance Examination Board, a single copy of this document will be sent to any teacher without charge. In general, there will be a charge of thirty cents which may be remitted in postage. All candidates wishing to take these examinations should make early application

by mail to the Secretary of the College Entrance Examination Board, 431 West 117th Street, New York, N. Y. Blank forms for this purpose will be mailed by the Secretary of the Board to any teacher or candidate upon request.

UNIT SYSTEM WITH CREDITS BY CERTIFICATE AND EXAMINATION

Candidates for admission may obtain some of their units by certificate and the remainder by examination, in accordance with the regulations above stated.

FOUR-EXAMINATION SYSTEM

Under this system of admission, a candidate is required to present a record of his school work showing the subjects studied, the time devoted to each subject, and the quality of work done in each. This record, to be approved, must show that the work done in secondary schools has covered four years, that it has been devoted mainly to English, foreign languages, mathematics, and history, that none of these has been omitted, and that two of the subjects offered for examination have been pursued beyond their elements. Science is not required for admission, but examinations in Chemistry, Physics, or Biology may be offered. The candidate's school record must be sent to the Director of Admissions before April 20th. If it is approved by the College the candidate will then submit four subjects, satisfying the regulations in the next paragraph, in each of which he will be given an examination adapted to show the range and quality of his attainment. These four examinations must all be taken in the same year, and at the regular spring examination period of the College. The various equivalent examinations of the College Entrance Examination Board will be equally acceptable.

Examinations will be offered in English, Latin, Greek, French, German, Spanish, History, Mathematics, and Science (i.e., Chemistry, Physics, or Biology). Under this system a comprehensive examination in English is required of every candidate, an examination in Latin of each candidate for the degree of A.B., and a comprehensive examination in Mathematics of each candidate for the degree of B.S. No examination will be set in a foreign language which has been studied less than two years. If a candidate shall have studied in his senior school year third or fourth year Latin, or Greek, French, German, or Spanish, he will take the examination covering the work of his final year only. If a candidate in Mathematics shall have studied in his senior school year two of the three branches of advanced mathematics—namely, Solid Geometry, Plane Trigonometry, and Advanced Algebra—he will take an examination in these two subjects; otherwise he will take a comprehensive examination covering both Elementary Algebra and Plane Geometry.

Both the school record and the results of the examinations considered as a whole will determine the acceptance or rejection of the candidate. Permission for candidacy under this plan is valid only for the specified examination period. A candidate rejected under this plan will receive due credit for such examinations as he may pass under this plan toward the $14\frac{1}{2}$ units, (after 1939, 15 units), required under the *Unit System*.

ADVANCED STANDING

Candidates for admission to the Sophomore, Junior, and Senior classes are admitted only upon vote of the Faculty after the receipt of proper evidence of their qualifications to pursue the studies of the classes to which they seek entrance. A student from another college, before he can be admitted, must present a certificate of honorable dismissal. At least one full year of residence is required for a degree. Application for admission to advanced standing should be addressed to the Dean.

SPECIAL STUDENTS

Persons who give evidence of maturity, earnestness of purpose, and adequate preparation will be allowed to pursue special studies in connection with the regular classes, without becoming candidates for a degree; but no student shall continue in such special standing for more than two years. Special students wishing to become candidates for a degree must satisfy all the regular requirements for admission to the Freshman class. During his first year in residence no student in special standing is allowed to participate in intercollegiate athletics.

Applications for admission as special students should be addressed to the Dean.

CURRICULAR REQUIREMENTS

REQUIRED COURSES

Good English is required in both spoken and written work, not only in English courses but in all courses. Any student whose work is unsatisfactory in English, whether in the details of spelling or grammar or in the larger matter of clear expression of ideas, is reported to the Committee on Undergraduate English, and may be required to receive special instruction intended to correct these deficiencies. No student so reported will be recommended for a degree unless he has satisfied the Committee.

All students are required to take certain courses in Physical Education.

FRESHMAN YEAR. All candidates for a degree are required to take:

- (1) Hygiene, and English 4.
- (2) English 1-2.
- (3) Either French or German, in compliance with the requirements in modern languages as here set forth:

An elementary knowledge of both French and German, and a more advanced knowledge of one of these languages.

An elementary knowledge is defined as the equivalent of that obtained by passing French 1-2 or German 1-2.

A more advanced knowledge is defined as the equivalent of that obtained by passing French 3-4, or German 3-4, or German 5-6.

All students who presented French or German for admission shall, unless excused by the provision of the following paragraph, continue during Freshman year the language presented for admission and shall take during Sophomore year French 1-2 if German was presented for admission, or German 1-2 if French was presented for admission.

Students are strongly advised to meet the requirements of a more advanced knowledge of French or German by passing the courses indicated above; but any student may, with the consent of the Dean, meet this requirement by passing before the beginning of the Sophomore year a special examination in French or German.

Students who present both French and German for admission will fulfill all modern language requirements either by continuing one of these languages during Freshman year or by passing a special examination in one of them, in accordance with the preceding paragraph.

No student shall be advanced to Senior standing until he has completed his modern language requirements.

MAJORS AND MINORS

Definitions. A *major* is a subject pursued through three consecutive years, or the equivalent of three years. A *minor* is a subject pursued through two consecutive years.

Each student is required to have completed before graduation one major and two minors. He must choose his major by the end of his Sophomore year, and must submit the courses chosen for the approval of the department in which the major is taken. He must also choose two minors at the same time, and must submit them for advice to the department in which the major is to be taken.

Each student in his Senior year, in order to test his general grasp of his major subject, must pass a special examination in that subject (except that students majoring in Chemistry, Physics, or Mathematics may be excused from the examination if they pass two *extra* semester courses designated by the department), attain grades of C, or higher, in more than half of the necessary courses of his major subject, and maintain a satisfactory standing in whatever extra work the department may require.

The departments in which majors may be elected have designated the courses constituting majors as follows:

BOWDOIN-MASSACHUSETTS INSTITUTE OF TECHNOLOGY DEGREES

Students desiring to enter the engineering profession may qualify for the degree of Bachelor of Science from both Bowdoin College and the Massachusetts Institute of Technology by successfully completing three years at Bowdoin, followed by two years at the Institute. The Bowdoin degree will be awarded to such students on notification from the Institute that they have completed their courses at the Institute, provided that during their residence at Bowdoin they had satisfied the regular group and language requirements. To be recommended to the Institute under this plan, students must have attained honor grades in their courses in Mathematics and the Natural Sciences. Students wishing to avail themselves of this plan should notify the Dean of Bowdoin College at the beginning of their Freshman year, as it requires a very definite choice of courses, including, specifically, Mathematics and Physics in all three years, and Chemistry in Sophomore and probably Junior years, depending upon the course contemplated at the Institute.

The chief aims of the course are to stimulate an interest in and love for music for its own sake, and for

the cultural betterment of the student; to establish a technique for subsequent listening and analysis, and a cultural background as a necessary avenue of approach. Examinations will be based upon historical topics and listening tests.

The course is designed to complete a well-rounded program for the student taking his major work in Music, by providing more thorough acquaintance with topics not treated extensively in the other courses in the department. The content of the course will be varied to meet the needs of individual students. Much of the work will be done independently, but there will be frequent conferences with the instructor.

Elective only for those students, who, by special vote of the Faculty, have received permission to elect Music as their major subject.

Course 9-10 may be elected simultaneously with Courses 5-6, 7-8.

No credit is allowed for the study of applied music, but instructors in piano, cello, and voice will visit the college once a week so that a student may carry on his applied study along with his academic work if he so desires. Instructors in organ and other instruments will be provided if there is sufficient demand. PSYCHOLOGY

PROFESSOR BURNETT AND DR. MILLER

- 1-2. *General Psychology.* Whole year: Tuesday, Thursday, Saturday, 8.30.

PROFESSOR BURNETT AND DR. MILLER

The aim of this course is to acquaint the student with the facts and the laws of conscious behavior. Emphasis is laid upon those topics which are most intimately connected with practical life, and a knowledge of which is highly important for a man of liberal education. The subject-matter is treated from the point of view of natural science. Emphasis is laid upon developing in the student, skill to use Psychology for interpreting the events of life, and for accomplishing its business.

Elective for Sophomores, Juniors, and Seniors.

This course is acceptable toward the Maine State Teacher's Certificate.

3. *Abnormal Psychology.* First semester: Tuesday, Thursday, Saturday, 9.30.

This course considers the abnormal facts of conscious behavior, such as insanity, hypnotism, hysteria, and multiple personality, for the light these throw on both the usual and the borderland adjustments in every man's life. The emphasis is thus on the inadequate adjustments of every day, which interfere with a man's full efficiency for work and enjoyment.

Prerequisite: Course 1-2.

4. *Social Psychology.* Second semester: at the same hours as Course 3.

PROFESSOR BURNETT

This course deals with the effect of social conditions on conscious behavior. It inquires into the psychology of human social groups of various kinds, such as nations, legislatures, committees, crowds, publics, etc., and into the behavior of men in social contact as revealed in customs, fashions, institutions,

religions, art, and language. It tries to answer the question: How and why does a man when aware of his fellows behave and think and feel otherwise—sometimes better, sometimes worse—than when not aware of that group relationship?

INSTITUTES

The regular instruction of the College is supplemented every two years by Institutes in various subjects. Institutes have been held in

Modern History, Modern Literature, the Fine Arts, the Social Sciences, the Natural Sciences, Politics, and Philosophy. The Institute for 1939 will be in Music.

The method of conducting these Institutes is to bring to Brunswick ten or more lecturers, each an authority in his field, and each of whom gives a public lecture, and conducts a round-table conference solely for students. Thus, each student during his college course has an opportunity, not only to hear at least twenty people from beyond the college faculty, but to participate in round-table conferences with those in whose subjects he is most interested.

LECTURESHIPS

ANNIE TALBOT COLE LECTURESHIP

This lectureship was founded in 1906 by Mrs. Calista S. Mayhew, of South Orange, N. J., in memory of her niece, Mrs. Samuel Valentine Cole, with a gift of \$4,750. According to the provision of the donor, this lectureship is to "aim at contributing to the ennoblement and enrichment of life by standing for the idea that life is a glad opportunity. It shall, therefore, exhibit and endeavor to make attractive, the highest ideals of character and conduct, and also, in so far as possible, foster an appreciation of the beautiful as revealed through nature, poetry, music, and the fine arts."

BENJAMIN APTHORP GOULD FULLER MEMORIAL FUND

This fund of \$3,821 was founded in 1911 in memory of Benjamin Apthorp Gould Fuller, A.M., of the Class of 1839, and provides for instruction in Social Hygiene in its broadest aspect.

MAYHEW LECTURESHIP

This lectureship was founded in 1923 by Mrs. Calista S. Mayhew. The income from the bequest of \$5,000 is used "to provide lectures on bird life and its effect on forestry."

TALLMAN LECTURE FUND

This fund of \$100,000 was given by Frank G. Tallman, A.M., of Wilmington, Delaware, in 1928, as a memorial to the Bowdoin members of his family. The income is "to be expended annually upon a series of lectures to be delivered by men selected by the Faculty either in this country or abroad."

JOHN WARREN ACHORN LECTURESHIP

This lectureship was established in 1928 by Mrs. John Warren Achorn, as a memorial to her husband, a member of the Class of 1879. The income from the fund of \$2,500 is used for lectures on birds or bird life.

ADMINISTRATION OF THE COLLEGE

TERMS AND VACATIONS

The academic year is divided into two semesters, or terms, of equal length. Commencement Day is the third Saturday in June. The summer vacation of about fourteen weeks follows Commencement Day. There are three periods of vacation during the year: the first, a recess of about four days, including Thanksgiving Day; the second, a recess of two weeks including Christmas and New Year's; and the third, the Spring recess of ten days beginning on Friday of the week before the first day of April, and continuing until Tuesday of the week following the first day of April. The following are also observed as holidays: Armistice Day, Washington's Birthday, Patriots' Day, Ivy Day, and Memorial Day.

REGISTRATION AND ENROLLMENT

All students are required to register on the first day of each academic year, except that Freshmen on entering college are required to register on Wednesday morning preceding the opening of the academic year. A fine of two dollars is imposed for late registration.

Students must enroll for courses previous to the opening of each semester, in accordance with the regulations posted at the College. A fine is imposed for late enrollment.

COLLEGE BILLS

At the opening of each semester, a term bill will be rendered for one-half the annual tuition, room rent, fees and taxes, and for other charges due from every student. At least one-half of the term bill must be paid at the time of registration, and the balance shall be payable in sixty days after the date of the bill. Bills for other charges may be rendered at any time and shall be payable immediately.

Any student whose term bill is not paid when due may be excluded by the Faculty from the privileges of the College and from credit for college work. No student shall be admitted to semester examinations if any college charges against him remain unpaid, except in special cases by permission of the Faculty.

No student will be advanced in class standing until all the dues of the previous year have been paid, and no degree will be conferred upon students who have not paid all their dues to the College.

No student will be dismissed from college on request unless he shall have paid all his college bills, including that of the current semester.

During the time that term bills which are overdue remain unpaid, a student receives no credit for college work.

EXPENSES

TUITION.—The tuition fee is \$300 a year. Any student completing the number of courses required for a degree in less than four years will be required to pay full tuition for four years.

OTHER COLLEGE CHARGES.—All damage done to the buildings or other property of the College by persons unknown, may be assessed equally on all the undergraduates. A diploma fee of \$5 is charged to each student at graduation. The College also collects an annual fee of \$3 or \$4 for a locker and the use of towels in the gymnasium; a fee of \$3.50 each semester for the privileges of the Union; and a fee of \$12.50 each semester, to support the various student activities.

ROOMS.—Rooms, including heat and care, in the college dormitories may be rented at prices varying from \$160 to \$310 a year. The price may be halved if the room is shared with another student, as is usually done. Electric lights are furnished at the rate of \$6 per 50-watt lamp a year. The rooms in Appleton Hall are furnished. Freshmen are required to room in the college dormitories, unless other arrangements are made with the Dean. The dormitories are closed during the Christmas vacation. Applications for rooms should be made to the Assistant to Bursar.

BOARD.—Board at the fraternity houses and at other places in the town varies from \$7 to \$8 a week. The cafeteria in the Moulton Union accommodates seventy-five to a hundred students, and furnishes meals at reasonable prices.

A leaflet containing estimates on all necessary college expenses, as well as scholarship aid and self-help, will be sent gratis on application to the Director of Admissions.

FEES FOR COURSES

The payment of fees for *extra courses* is regulated by the following provisions. (Any course taken in excess of four courses, with the exception of English 4, Hygiene, and the fifth course required of Sophomores, is regarded as an *extra course*.)

(1) The sum of \$7.50 is charged for each extra course, the same to be paid in advance and to be rebated at the close of the semester in which the course is taken, provided the four regular courses and the extra course be passed. (2) Such charges are remitted for Seniors who need the extra course or courses to complete their work for graduation.

The fees for laboratory courses are as follows:

Chemistry 1, 2, 3, 4, 5, 6, 7, 8, 9, 10, 11, 12, \$3.75 each. If two courses are taken at the same time, neither of which is Chemistry 7

or 8, the fee for the two is \$5.50. There is also a small charge for non-returnable articles used, and for breakage.

Zoölogy 3, 4, 5, 6, \$3 each; Zoölogy 12, \$5.

EXAMINATIONS

The regular examinations of the College are held at the close of each semester.

An unexcused absence from an examination entails a mark of zero. In case of illness or other unavoidable cause of absence from examination, the Dean has power to suspend the action of this rule.

RANK

The rank of a student in each course is computed on a scale of 10, but is preserved on the college records in the letters A, B, C, D, and E. A signifies a rank from 9 to 10; B, a rank from 8 to 9; C, a rank from 7 to 8; D, a rank from 6 to 7; E, a rank lower than 6, and a condition.

REPORTS OF STANDING

A report of the ranks of each student is sent to his parents or guardian at the close of each semester. The report contains a statement of the standing of the student in each of his courses, together with the number of unexcused absences from chapel.

REQUIREMENTS FOR DEGREES

In order to be recommended for the degree of Bachelor of Arts or Bachelor of Science, a candidate must have been at least one year in residence at Bowdoin College and have complied with the regulations in regard to courses. He must, moreover, have attained a grade of C, or higher, in at least half his courses.

DEGREES WITH DISTINCTION

The Degree of Bachelor of Arts or Bachelor of Science with distinction is awarded in three grades:

Cum Laude. A candidate is recommended for a degree *cum laude* who has obtained an average grade of B in all courses presented for a degree.

Magna cum Laude. A candidate is recommended for a degree *magna cum laude* who has obtained a grade of A in three-fourths, and B in another eighth, of his courses.

Summa cum Laude. A candidate is recommended for a degree *sum-*

ma cum laude who has obtained a grade of A in seven-eighths of his courses. A candidate for a degree *summa cum laude* must have been in residence at Bowdoin College at least three years.

HONORS IN MAJOR SUBJECTS

Honors in major subjects are awarded, on vote of the Faculty, to students who especially distinguish themselves in those subjects. They are awarded in three grades: *honors*, *high honors*, and *highest honors*.

The award is based, not primarily on the average grade attained in the courses that constitute the major, but on the result reached in the additional work—especially that which the student has done largely on his own initiative—and on his ultimate attainment in the subject.

RELIGIOUS EXERCISES

Prayers are held each week-day at 8.20 A.M. in the College Chapel, and vesper services are held on Sundays at 5 o'clock. All students, unless excused by authority of the Dean, are required to be present. From time to time during the year prominent clergymen of various denominations come to Brunswick to preach at the College.

THE CHRISTIAN ASSOCIATION

The Christian Association is an undenominational student organization, membership in which is open to every undergraduate. It stands definitely for a life governed by the principles of Christ as interpreted to meet the needs of college students. The Association conducts many lines of work. Occasional meetings are addressed by prominent business and professional men. The College preachers often meet the undergraduates informally on the Sunday evenings of their visits.

BOARD OF PROCTORS

The maintenance of order in the dormitories and the responsibility for their proper care are vested in a Board of Proctors.

The members for the year 1938-1939 are:

The Dean, *Chairman*

Kenneth Nettleton Birkett

Benjamin Anthony Karsokas

John Everett Cartland, Jr.

John Hubbard Rich, Jr.

The Student Council is composed of ten members from the Senior class and two from the Junior class, elected annually by the undergraduates. In matters pertaining to student affairs it makes recom-

mendations to the student body, and occasionally to the Faculty. The members for the the year 1938-1939 are:

SOCIAL LIFE

FRATERNITIES

The students of the College have divided themselves into groups for the purposes of social and personal relations. Eleven chapters of the national Greek-letter societies occupy their own fraternity houses, providing comfortable homes for their members. A generous program of inter-fraternity athletic and social events enables the members of each group to widen their circle of acquaintances, and prevents the student body from breaking up into a number of separate entities. The affairs of each house are administered by student officers with the coöperation of an alumni committee and an adviser from the Faculty.

THE MOULTON UNION

The Moulton Union is the center for the social life of the entire college, and provides for the non-fraternity men a club which rivals the most comfortable of the chapter houses. Its admirable facilities serve to make it a home on the campus for all of the undergraduates and their parents, faculty members, alumni, and friends of the College. Many of the undergraduate extra-curricular activities are appropriately and conveniently housed in this building, which is well adapted to provide a place for their varied programs. The Union includes cafeteria and dining room service for students, members of the Faculty, and friends of the College. Comfortable rooms are also available at moderate rates for visitors.

The affairs of the Union are administered by a committee composed of three members from the Faculty and twelve from the undergraduates. The members for the year 1938-1939 are:

Mr. Donovan Dean Lancaster, *Chairman*, Professor Arthur Chew Gilligan, Mr. Eaton Leith; Leonard Jerome Cohen, Thomas Warren Howard, Jr., Jotham Donnell Pierce, John Hubbard Rich, Jr., Thomas Prince Riley, Edwin Lamoreaux Vergason, from the Class of 1939; Francis Royster Bliss, Donald William Bradeen, Edward Foster Everett, Calvin Austin Hill, Richard Ellery Tukey, and John Gray Wheelock, 3rd, from the Class of 1940.

MEDICAL ATTENDANCE

If ill, students should immediately call upon, or summon, the college physician, whose office is in the Infirmary.

THE DUDLEY COE MEMORIAL INFIRMARY, completed in 1917, and endowed by the donor with a sum ample for all running expenses, including that of resident attendants, is a gift of Dr. Thomas Upham Coe, of the Class of 1857, in memory of his son. It is fifty-eight feet in length and thirty-eight feet in width, and has three stories and a basement. It is entirely fireproof.

The basement contains a dining room, kitchen, laundry, furnace room, and janitor's room.

The first floor contains the reception hall, physician's office, operating room, sterilizing room, nurse-matron's rooms, two wards of two beds each, and bath rooms.

The second floor is designed especially for the care of contagious diseases and contains two hospital units: each unit, comprising two wards of two beds each, duty room, diet kitchen, and bath room. These units are so arranged that they can be isolated. There are also a physician's room and a sterilizing room on this floor.

The third floor contains rooms for the nurses connected with the infectious wards, rooms for maids, a solarium, and a storeroom.

Students who are admitted to the Dudley Coe Memorial Infirmary on recommendation of the College Physician, are cared for without fee.

A fund of \$1,000 given by Mr. and Mrs. George F. Godfrey, of Bangor, in memory of their son, Henry Prentiss Godfrey, is devoted to providing medical attendance for students who may be sick while in college.

FINANCIAL AID

SCHOLARSHIPS

More than \$25,000 is distributed annually in the form of scholarships to aid meritorious students of slender means. Scholarships are not college honors and should be sought only by students who would have difficulty in meeting the expenses of their college education unless so aided. While scholarships are awarded primarily on the basis of need, a student, to continue to receive such aid, must maintain an average rank of C, or higher, in at least half his courses, this being the minimum requirement for graduation. Scholarships, except the State of Maine Scholarships, are not promised, or awarded, previous to admission to college.

Applications for scholarships must be made upon blank forms furnished by the Treasurer of the College. They must be made out anew each year and deposited in the Dean's office before November 1st.

For the distribution of these awards the State is divided into four districts, as follows: 1. the Counties of Cumberland and York; 2. the Counties of Androscoggin, Kennebec, Lincoln, Oxford, and Sagadahoc; 3. the Counties of Hancock, Knox, Penobscot, Waldo, and Washington; 4. the Counties of Aroostook, Franklin, Piscataquis, and Somerset. Only one scholarship will usually be awarded in each district, but if any district fails to furnish a candidate who passes with a sufficiently high grade the special examinations set by the College, no award will be made in that district, and an extra award *may* be made in another district. Candidates for these scholarships must be residents of Maine, must apply as from the dis-

tracts in which they are attending school when making application, and must be in need of financial assistance. Candidates must satisfy, so far as possible at the time of examination, the entrance requirements of Bowdoin College.

PHYSICAL EDUCATION

The Sargent Gymnasium has a frontage of 80 feet and a depth of 140 feet. On the first floor are the lockers, dressing rooms, managers' and instructors' rooms, and rooms for boxing, fencing, and hand-ball. On the second floor are the main exercising room, 112 feet by 76 feet, a smaller exercising room, a trophy room, and offices.

The General Thomas Worcester Hyde Athletic Building is connected with the gymnasium. It has an earth floor 160 feet by 120 feet, and a one-twelfth mile running track ten feet wide. In this building are set off spaces 120 feet by 40 feet for track athletics and 120 feet by 120 feet for a full-sized baseball diamond with space to over-run the bases by nearly fifteen feet.

The Swimming Pool is also connected with the gymnasium. The building is 130 feet by 60 feet, and the pool itself is 75 feet by 30 feet.

The Whittier Athletic Field is a short distance from the gymnasium, and is reached by a straight path through the pine grove. This field, named in honor of Dr. Frank Nathaniel Whittier, of the Class of 1885, long the director of the gymnasium, who was largely instrumental in the acquisition and preparation of it for athletic purposes, is about five acres in extent, and is well adapted in all respects for football and track athletics.

The Hubbard Grandstand is situated on Whittier Field, and contains, besides seats for eight hundred spectators, training rooms for the athletes, baths, dressing rooms, and quarters for the visiting teams.

Pickard Field is just to the south of Longfellow Avenue. It was given by Frederick William Pickard, LL.D., of the Class of 1894, and named in honor of his family. Here, on a tract of sixty-six acres, are facilities for baseball, tennis, soccer, and freshman football.

The Pickard Field House is situated at the entrance of this field, and contains lockers, showers, and a lounge. It is the gift of Mr. and Mrs. Pickard.

KENT ISLAND SCIENTIFIC STATION

The College maintains a scientific station for special laboratory and field investigations on Kent Island at the entrance to the Bay of Fundy. This island, which is nearly two miles long and contains approximately one thousand acres, was presented to the college in 1935 by John Sterling Rockefeller.

Adequately equipped as a base for practical field training in Ornithology, Marine Zoölogy, Botany, Geology, and Meteorology, the station includes laboratory facilities, a meteorological observatory, and the short-wave radio station VE1IN. A forty-two foot cruiser is available for scientific research. A two-story dormitory provides comfortable living quarters for the members of the annual summer expedition.

Students desiring to enroll in the expedition for the summer of 1939 should make suitable application to the Director, William A. O. Gross, Bowdoin College, Brunswick, Maine. The administration of the station is in the hands of a Board of Directors. The members for 1938-1939 are as follows: Donald Baxter MacMillan, Alfred Otto Gross, Manton Copeland, Albert Trowbridge Gould, Sumner Pike, Edward Nathan Goding, Alger Wayland Pike, Henry Southworth Shaw, and William Albert Otto Gross.

THE ART COLLECTIONS

The art collections of the College—except the portraits and busts in Memorial Hall, the portraits of the presidents of the College in Hubbard Hall, and the mural paintings in the Chapel—are exhibited in the Walker Art Building—the Bowdoin Museum of Fine Arts.

This building was designed by Messrs. McKim, Mead, and White, and given by the Misses Mary Sophia and Harriet Sarah Walker, of Waltham, Massachusetts, as a memorial of their uncle, Theophilus Wheeler Walker.

The façade of the building, approached by a wide flight of steps, running between pedestals on which stand limestone copies of the lions

of the Florentine Loggia dei Lanzi, shows a central bay in limestone—an arch resting on six Ionic columns—flanked by brick wings, centering each, a rectangular niche. In the northerly niche stands a bronze copy of the Vatican Demosthenes, in the southerly, one of the Lateran Sophocles, both copies being by De Angelis, of Naples. Directly across a loggia within the central bay is the main entrance.

This entrance opens into Sculpture Hall—the rotunda, covered by and lighted from a skylight in the dome rising forty-seven feet above the floor. The tympana under the dome are filled by murals, each twenty-six feet in width, symbolizing Athens, Venice, Rome, and Florence, respectively by Messrs. John La Farge, Kenyon Cox, Elihu Vedder, and Abbott Thayer. In Sculpture Hall are exhibited, besides the Assyrian slabs secured for the College by Henri Byron Haskell, of the Medical Class of 1855, marbles which constitute a part of the Edward Perry Warren classical collection.

North of Sculpture Hall lies the Bowdoin Gallery, containing, chiefly, the original collection of paintings and drawings bequeathed the College by the Honorable James Bowdoin, 3rd. South of it lies the Boyd Gallery, which houses, principally, the remainder of the Warren collection, and, in whole or in part, the Dana Estes collection of Cypriote antiquities, the James Phinney Baxter collection of watches, the Davies and the Kling silver, the Wade porcelain, and several other collections. The Boyd Gallery is also utilized for the showing of temporary or borrowed exhibitions.

In the Sophia Wheeler Walker Gallery, west of Sculpture Hall, directly opposite the main entrance, is placed the bronze bas-relief portrait of the Honorable Theophilus Wheeler Walker, by Daniel Chester French; and here are kept, exclusively, the family portraits, the paintings, drawings, miniatures, silver, Roman glass, and other objects of art left to the College by the Misses Walker.

In the basement, besides a lecture room, a class room, and the director's and curator's offices, is the print room. Partly here, and partly in the lecture room, is displayed the Charles A. Coffin collection of etchings.

THE LIBRARY

The Library contains about 178,000 bound volumes. It includes the private library of Hon. James Bowdoin, received after his death in 1811; and the extensive collections of the Peucinian and Athenæan Societies, added in 1880.

Special collections worthy of note are the Longfellow collection; the Carlyle collection, given by Isaac Watson Dyer, of the Class of 1878; the Huguenot collection; the Edward C. Guild German Dialect collection; the Arctic collection; the Abbott collection; and the Maine collection.

The Library possesses valuable sets of periodicals collected during the past century, and about three hundred and twenty-five titles are currently received by subscription. The printed catalogue cards of the Library of Congress are received as issued, and this bibliographical collection of increasing value and serviceableness may be consulted by any investigator. Though no formal instruction in bibliography is given, the librarian and his assistants are always ready to lend personal aid to inquirers.

During term time, the Library is open week-days from 8.30 to 5.30, and from 6.45 to 10.30; Sundays from 2.00 to 4.55, and 6.45 to 10.30. In vacation it is open five hours daily, with the exception of Sundays and holidays.

Annual accessions, which average three thousand five hundred volumes, are made to the Library by means of an appropriation by the Boards for the purpose, and from a part of the proceeds of the following funds.
