In addition, he was a member of the Agency's Goals Team for four years.

Since his appointment as District Director in 1994, the District Office has focused its attention on putting the customer first by instituting a "cut the red tape campaign" and by holding the staff accountable to quantifiable performance standards through individual empowerment. This bottom line focus on the customer has enabled the District Office to outpace the nation in loan growth in FY95, FY96, FY97, FY98, and FY99. For FY05 the Agency recognized the District Office as the national leader in 7(a) loan growth.

The district in FY99 also developed a campaign that enabled it to achieve record loan growth for African Americans and Hispanics. *Crain's Cleveland Business* recognized the results of the campaign in a November 22, 1999 commentary by publisher Brian Tucker entitled "SBA, local banks are right on target."

In FY2000, the District developed a unique initiative for the economic revitalization of the City of Youngstown by combining SBA resources with those from the banking community and the City. The revitalization initiative couples SBA guaranteed loans with supplemental equity funding and economic assistance from the City of Youngstown. The initiative was expanded to Akron and Toledo in 2002 and 2003 respectively. The District has also developed a similar type of initiative with Cuyahoga County, The

Urban League of Greater Cleveland, Case Western Reserve University, and the Hebrew Free Loan Association for the City of East Cleveland.
