### Exam Period Begins Thursday As Semester Draws to a Close

by The Weekly News Staff

With the end of the semester around the corner, the biggest challenge of them all looms ahead-finals. Whether you consider them a chance to raise those ailing grades of yours, or the long awaited end to these required courses that you've hated, or just a darn nuisance—the fact is that they are finally here, and you can't avoid them.

**Hears Speaker** 

From Graterford

methods of treatment carried out in a prison setting.

Many Repeaters

are released eventually. How-

ever, due to the large percent-age of repeaters, Dr. Barbash

feels that punishment is not

enough. The job of the staff at

Graterford is to pool professional resources to provide the facilities which will help reform

three groups. One per cent of these people are inadequate people: they don't have the ability to compete on the open labor market. Between 0 and 50 percent are cultural delinguages for whom standards or

quents for whom standards or morals do not exist. The rest

are emotional delinquents who

sonal lives. Barbash feels that

for many prison can become a mother-substitute. For these it

tional dependencies. He feels

that the best hope for prison of-ficials is to help by working on

a highly individualized basis.

Any students interested

in Evening School

The Evening School of Ursinus College, which was begun in 1952 with an enrollment of only 45, has a record enrollment

of 484 this fall it was announced by Dr. William J. Phillips, professor of English and director of the evening school.

Those enrolled come from 96

communities in southeastern Pennsylvania and New Jersey,

Dr. Phillips said, adding that among those enrolled are em-ployees of eleven schools and

school districts, 16 hospitals and social, municipal, state and federal government agencies and

204 business, banking and industrial firms.

"Such distribution of enroll-ment indicates the growing im-portance of Ursinus College in

serving the community and contributing to the upgrading of teachers, professional work-ers and corporate employees," (Continued on page 6)

are unable to handle their per-

the men.

He stated that about 98% of all prisoners in state institutions

This is the time of year when the library bustles with activity, when dormitory doors are lock-Psychology Club ed and "Do Not Disturb" signs are hung out, when normally long faces become even longer This is the time of the year when those required readings you've been putting off pile up, when students average out their grades to date and get worried, when underclassmen seek out advice from upperclassmen who've already had those "backbreaking" courses.

### Begin Thursday

Tomorrow is the last day of classes, and the exam period begins Thursday and continues until the following Friday. For the information of freshmen, the Weekly points out that semester grades are mailed out sometime the week after finals conclude, in other words, during the semester break.

The Weekly also recommends a feature article regarding suggestions on how to study which appears on page three of this issue. Written by Dean Rothenberger, it presents some sensi-ble advice to freshmen and up-perclassmen alike.

### Collegeville Plans **New Street Lights** Along MainStreet

New street lighting for Main Street has been ordered for Collegeville Borough to replace the older lamps along the busy street. The approval of the new lighting was given at the closeout and regular January meeting held last Wednesday night in the Council chambers of the Collegeville Fire Hall.

Collegeville Fire Hall.

The approval of the new lighting came after an investigation of several months. The new blacktop surface of Main Street, applied last Autumn, emphasized the need for more adequate lighting, according to Council President F. Willis Deward.

Record Enrollment in Evening School

A number of complaints had been received by Council and the Light Committee chairman, Frank G. Light, that the non-reflecting surface of the highway had dimmed visibility.

The cost of the new lamping along Main Street was termed as "modest" by Mr. DeWane.
All of the old lighting will be

replaced with 12,000 lumen mer-cury lamps along the entire length of Main Street. Philadelphia Electric Co. crews are expected to do the work in the near future. The lamps on ali side streets will remain the

### Third Student Concert Scheduled Next Monday

The third concert in the series of four Senior Student Concerts sponsored at the Academy of Music in Philadelphia will be held next Monday evening, beginning at 8 p.m.

mning at 8 p.m.

The program will consist of Purcell's "Trumpet Voluntary," featuring Gilbert Johnson on the trumpet; Schubert's "Symphony No. 8, in B minor ("Unfinished"); Bizet's "L'Arlesienne" Suite Nos. 1 and 2; and Mendelssohn's "Concerto in A flat major, for Two Pianos and Orchestra," featuring Gold and Fizdale. The entire program will be directed by Eugene Ormandy.

### No Bus

Dean of Women Rothenberger has informed the Weekly that the regularly scheduled bus will not be available for this concert; instead, several private cars will make the trip. Stu-dents interested in attending should check with her before next Monday.

### JUNIOR MEN

Midnight tonight is the deadline for submitting apolications for membership to the Cub and Key Society, Ur-sinus' Men's Honorary. For details of application see last week's issue of the

Dr. Leonard began the program with a concise and informative talk on the "Chicagoians"

Alumni May Pass

Fund Drive Goa —the white jazz musicians who played in Chicago in the 1920's and who aided in the transitional period in the passage of jazz from the negro population to the whites.

### A Religious Quality

These men expressed their re-bellion against the conformity and regulation of normal society through their music. To them, especially as seen in the more radical elements like Milton Meserol and Vic Bidabeck, their music held a religious quality, hitherto unknown, and they would use almost anything, from liquor to drugs, to move themselves to higher degrees of ex-

nut attempted to explain to the audience the various elements that comprise any jazz composithe "blues scale" and makes changes in the structure of the melody line with improvisation to develop the typical jazz tune This he demonstrated ably at the piano with such tunes as

### A Highlight

Following some recordings demonstrating a few of the more basic schools of jazz, Manny Abrahamson, a freshman from Philadelphia, sat down at the grand piano and played four traditional jazz compositions, one of which was "Blues in the Night,"

Following this, he introduced a delightful work of his own, "Lullaby," which, as he explained, was the integration of two melody lines until both were being played as one. As an example of how the jazz idiom has pervaded the music world, modern serious composer.

# **Fund Drive Goal**

With only slightly more than one-fourth of their number reported, alumni of Ursinus College are more than two-thirds of the way to their goal of \$500,-000 toward the college's five million dollar Centennial Fund alumni secretary Rev. Richard Schellhase recently told the

"Alumni subscriptions now total \$344,435.75, representing 1,372 of our five thousand living alumni," Mr. Schellhase said. He

"It looks as if we are going to exceed our goal. In fact, some of tion. Basically, a pop tune to begin with, the musician uses the "blues scale" and makes lion dollars than the half-million the association voted to raise," Mr. Schellhase added.

He said that more than \$50,-000 had already been paid in on subscriptions in spite of the fact that they were made on a three-year basis.

"We are interpreting this as a vote of confidence by our alumni that Ursinus College is really on the march and that determined efforts are now being made to meet long-standng needs in campus facilities as well as in student aid and fac-ulty salaries," Mr. Shellhase

### MESSIAH RECORDINGS

Dr. Philip told the Weekly this morning that Messiah recordings have arrived. Betsy Yost plans to distribute them after lunch tomorrow in room 8 of Bomberger.

Grant from Phila. Church cussing the dearth of activity in our midst the other night. It became obvious to us that we United Church of had no news stories even so important as, for instance, the Christ, Ogontz Ave., Phila., recently climaxed a five - year 724 water situation. Certainly we couldn't elevate to the lead position a story on Collegeville's plans to relight Main St. We ary and benevolence program by presenting a \$12,500 endowed couldn't even get a story out of the Dingman episode.

So what could we do? Nothing. As Vice-President Wagner once remarked, "We can't manufacture news."

### DeanRothenberger **Guest Speaker at Lions Banquet**

Dean of Women Ruth Rothenberger, of Ursinus College, was the guest speaker at the regular meeting of the College-ville Lions Club on Tuesday night at the Perkiomen Bridge

Miss Rothenberger, who has guided many student tours to Europe, told about the Experiment for International Living program under which students of secondary and college years live with a family in a foreign country for a few weeks during each summer.

Last summer the local Dean was an adult leader of a group of college women to Germany. She flashed pictures of the trip and gave a commentary on details of the trip, pointing out various differences in the mode of living between Europe and the United States.

In the home in which Dean Rothenberger stayed under the exchange program there was no mechanical refrigeration and shopping is a daily necessity for the housewife. A mechanical washing machine had just been installed. Hot water is at a distinct premium in most

To the question "How much freedom should students be permitted?" his answer was "They shouldn't be poured into a mold. If students say 'Yes, Sir' homes in Germany, a great inforts of modern living in the states are not available in most homes in Germany, a great increase in the number of autos was noted by the speaker. This is leading to great traffic problems in many places.
The student exchange

gram was started by a Lancast-er man and seeks to promote international understanding.

### **Curriculum Changes Discussed** in Chemistry and Economics

pointed out that this is a second interim report, and that it is hoped that a final report will be forthcoming from the next meeting of the Alumni Loyalty Fund committee on January 20.

May Exceed Goal

The major changes are as follows:

the first semester while the second semester is an intensive study of Inorganic Chemistry with emphasis upon principles and theory. Advanced courses in Inorganic, Organic and Analytical Chemistry are now available in the third and fourth year for those who are preparing for industrial or graduate work These courses are necessary to keep the student abreast of the rapid advances in the field of his profession.

These revisions reflect the er 1914-1918.

For the past ten years, at each September meeting of the Divi-sion of Chemical Education of (Continued on page 6)

The changes in the curriculum the Economics and Business ment are the most extensive Administration Department, ef-ever made. One course, Quali-tative Analysis, which in 1954 was a two semester course, has graduate to meet today's and

1. Of the minimum of thiry hours of work required in the department, the following courses must be taken: Economic Principles (Ec. 3,4), Money and Banking (Ec. 16), History of Economic Thought (Ec. 21), Intermediate Economics (Ec. 26), and Business Cycles (Ec. 27). Outside of the department, in outside of the department, in addition to the general requiremrents, Mathematics 1-2 and 13-14 (Statistics), and Political Science 1-2 will be required.

2. A new course, Comparative Economic Systems (Ec. 28), will be introduced in 1963-64. Two being introduced during 1962-63.

3. Courses in Investments (Ec. 10, Personnel Management (Ec. 22, and Labor Law and Social Security (Ec. 23), not offered this year, will be dropped from the catalog during 1963-64. The contents of the latter two courses, in part, will be incorp-orated into other existent

Another War

Perhaps it is because we are drifting irresponsibly toward another war that we compensate

by feeling obscurely responsible

for that last massive butchering.

Mr. Alvarez feels that there is

an even more significant rea-

son why we cannot forget, and that is the fact that as time

passes, the figures in the land-

scape, both captives and captors,

begin to seem increasingly like

500,000 people died in Auschwitz. The same number would

die in minutes if a hydrogen bomb landed on London. The

gap is very small between the

and the animal-like squalor of the Nazi death dwellings.

Trial Run Perhaps we remember the concentration camps not because they were laboratories in which the totalitarian states

proved that all things are pos-

sible, but because, accepting as

we do that all things are now

effortlessly possible everywhere,

we see them as a small scale

bility and a constant reminder

that the atrocities of Hitler and

his henchmen may be repeated in a slightly different form in our own day if we misuse our el-

aborate bombers and nuclear

#### **EDITORIAL**

### Throwing Stones from Glass Houses

Currently there is, as there has been in the past, a movement, if we can honor it with that name, to criticize every aspect of Ursinus life. The criticism itself is normal and healthy, but the apathy which follows is not.

There have been many sound suggestions which have

The criticism itself is normal and healthy, but the apathy which follows is not.

There have been many sound suggestions which have

The criticism itself is normal and portion of the service. Linda administration of Ursinus to be alert and receptive of this criticism, to examine, to reapmore inspiring and relaxing praise its methods and to institute the criticism.

There have been many sound suggestions which have more inspiring and relaxing praise its methods and to introduce these sessions of criticism; very rarely, however, the nubile address. In consideration of the above is action taken. This has become the biggest complaint of every student: there is no school spirit, no interest in pub- Brother. lications, class meetings, in Forums, no participation in social activities which have acquired the adjective "Dud."

We are not wholly responsible for the situations which have encouraged this apathy. We have attended dances, heard lectures, participated since grammar school. We have become over-stimulated. In our high schools we participated because it was fun, because it made us part of the group, and because activities records had a bearing on our college admittance. There was little that we were unacquainted with when we left high school, but we came to who also has the dubious honor college expecting something bigger and better, only to of being the leader of the "Customs Forever Machine," is prefind that it was basically the same.

We also came to learn, and many of us felt that it was the other man's turn to run things, to be rah-rah. The toes, problem is that most Ursinus students were the leaders in their high schools and cannot take it easy here, because by a rat, old, and grizzeled permant and trinket hawker who stood resting on past laurels there are going to be no more

So the situation has arisen that a few students must be active in all the campus organizations to keep them alive. They cannot, therefore, do an outstanding job in anything. Perhaps, if they would settle into one or two activities and do their best there, some of the rest would venture into the world again, offering their unique abilities.

We inherited the attitude that any attempt toward change at Ursinus would be a loss. We have adopted the conservatism of our Ursinian ancestors and fail to realize man's sarcastic letter, we would like to say:

| Cheerleaders do not attend | Cheerleaders do not attend | Like to say: | Lake | Lak 'turning in his grave."

We are not the only cynics. At least 25 students have applied for transfer to Ursinus and half have given as their reason, apathy at their present college. Not only are we at the cynical age, but the world also seems to be cynical. However, we at Ursinus are "different" enough to change this trend in some small way. A RUBY dance would not be a flop if more people gave it a chance, and so it goes. . . .

# The Production Story of the Weekly Dean Rothenberger Offers Advice

Twenty-two times each school year, there is a birth in the WEEKLY office. But it's a most unusual birth, for it involves 30 some people, and the "baby" is 432 inches long. So what are we talking about? The WEEKLY, of course. That sheet of paper that runs half a dozen editors ragged and culminates in the nervous breakdown of the Editor-in-Chief. "But don't put that in the article," one editor advised, "or the Infirmary will lock Piston up.'

But as Max Schulman would say, "We digress. . . ." The timely topic of this erudite feature involved the conception, pregnancy and birth of an issue. The article is designed to answer questions put to the editors like, "So why didn't my article get in?" or "What's the big sweat-it's only a sheet of paper?" or "How come my name was mis-

How is the WEEKLY put together? By what process do the editors fill exactly 432 inches each week? Where does the news information come from? In answer to these questions posed by both students and faculty, the staff offers this little feature, complete with pictures.

Early in the week (actually, the same night the previous week's issue comes out) things begin to jump in the Weekly of-fice, that cozy two-room refuge located in the basement of Bomberger. Campus activity calendars in hand, the editors leaf through alumni journals, publicity releases and leads that clutter the five desks in the office.

News Editors Caroline Moretz and Jean Hunter collaborate with Editor Piston in drawing up a list of news stories for the week's issue. When something big is in the air—for instance, the 25th annual presentation of the Messiah, or the Spring Pag-eant, or the Senior Ball — the News Editors are responsible for getting the facts: the "who, why, when, where, and how" behind

Eyes and Ears

The News Editors are, in reality, the "eyes and ears" of the editorial staff. Upon their shoulders falls the burden of keeping abreast of what's happening on campus.

Assignments are next on the agenda. Mort will testify that it's not so easy a matter to persuade a reluctant reporter to cover so "stimulating" an event as, for instance, the Montgom-ery County Science Fair (held yearly in the T-G Gym). That's one reason why they rely so one reason why they rely so heavily on the secretaries of each organization.

The Sports Editors, too, have their problems. In slack periods between sports seasons, news slows to a trickle. This is especially so with women's sports, card Taney points out. On the other hand, if there have been a number of sporting events through the week, their job is simplified. A dependable reporter covers the big games, another the second of the feature Editors crawl out their ruts to grab unsuspecting souls by the shoulders and equation through the week, their job is simplified. A dependable reporter covers the big games, another those who are reluctant to expect the second of the feature Editors crawl out their ruts to grab unsuspecting souls by the shoulders and equation through the reluction of the feature Editors crawl out their ruts to grab unsuspecting souls by the shoulders and equation through the reluction of the souls by the shoulders and equation the reluction of the souls by the shoulders and equation through the shoulders and equation through the souls by the shoulders and equation through the souls by the shoulders and equation through the shoulders and equation through the same through the shoulders and the shoulders are should be shou relates intramural news, and still another is assigned to in-terview the Player of the Week.

Treads on Toes

Sports Editor Craig Garner often treads on the toes of sup-er-sensitive faculty members with his acid commentaries via the Pressbox. But he sticks to view also enliven the his guns. Following one particu-

News Editors Caroline Moretz and Jean Hunter serve as the "eyes and ears" of the WEEKLY staff. They're responsible for getting all the facts — the "who, why, when, where and how" of each news article, and consequently they're two of the most informed women at UC.

semester) it's simply a matter of reminding people to meet dead-lines. When an occasion play is presented, or a Lantern comes out (about once every 10 years) the Feature Editors crawl out of their ruts to grab unsuspecting souls by the shoulders and equip

Such "tapped" souls generally fall into one of two categories: those who are reluctant to engage in any form of criticism for fear of damaging their campus images, and those at the other extreme who love to dissect someone else's work. The experiences of a hot-rod enthusiast, the life story of a mascot-type duck, or an occasional book re-view also enliven the feature

his guns. Following one particularly critical column, a campus bigwig suggested that Garner apologize for his remarks. "But I meant every word of it," Garner told Piston, "so why should I print a retraction?"

\* \* \* \*

Photography Editor Joe Mastro sees his share of campus life through the eye of the camera. You name it, and chances are he's covered it in his four years with the Weekly. If it's not received the company orientation, it's a sex-

columns have been assigned (us-ually at the beginning of each scene with his Polaroid. strong and her cool gang of proofreaders settle down to

Advertisements play a key role in the financial well-being of a fend school newspaper. As compensation for the correspondence and travel involved in his job, Advertising Manager Karl Luck holds down one of the two commissioned positions on the staff (ten per cent, to be exact). Ar-lene Vogel holds the other, that of Circulation Manager.

A Good Sign

National ads vary from issue to issue, according to the con-tracts with various national ad agencies. Local ads usually run for a period of a school year. Readers often forget that a good sign of a paper's health is the number of ads which it agrees to run. And, of course, these ads take priority over all else when it comes time to lay out an issue.

Friday morning the first installment of articles is dropped off at the Collegeville Independent, where the Weekly is printed. Then on Sunday these arti-The Feature Editors hold down the easiest editorial positions on the staff, as far as responsibilities are concerned. Sharon Robbins and Carl Peek nod assent. Once the weekly Greek organizations — a Weekly ed. Then on Sunday these articles are returned to the Proof-reading staff, in copy form and ready to be read over. A "proof" is a trial reproduction of a story which has been set in type, more of which later. Judy Arm-

Panicked Over Finals?

Pratty's Prattle

his bulging brief case on a rock.

Plagiarus,

# On How to Study for Final Exams

On January 15 of last year Dean Ruth Rothenberger presented a chapel talk to freshmen and sophomores on how to study for semester examinations. Because it contained many sensible sugestions, we asked Miss Rothenberger if she would submit the same lecture to the WEEKLY. She agreed to do so, pointing out that the information contained would probably be of help not only to freshmen but also to the upper classes. (-ed. note.)

You can face finals with reasonable confidence and without panic if you follow a few simple suggestions. Everything I am going to tell you is practical. You have been told that if you approach college work with the proper attitude, you will do much better. The same thing applies

to mid-year examinations.

You will avoid trouble if your attitude is right. How should you think of exams? Some students think of them as ordeals, Two men met one afternoon in a fourth century Greek olive But remember: there are no ingrove. Plagiarus, after a hard day's work at making the unjust cause appear just, greeted his old friend Diogenes and threw ams are tools to help you learn. his bulging brief case on a rock.
"Hail Diogenes. How's your motrated on parts of your subject: ther? What did you do today, as if I don't already know?" and the whole thing is presented—and it all makes sense.

#### Like the Navy

Diogenes spit on Plagiarus and mumbled "Same thing I did yes-College life is very much like terday and the day before and the day before that. Just sat around in this old Sears and the Navy—full of idle rumors. These rumors are an attempt to be dramatic. I am sure each of Roebuck tub, cultivating rudeness and self sufficiency." He laid there with a smile of conation was terrible. The exam tentment on his unshaven face. cannot be so bad if others got

He hit Plagiarus in the face with a greasy chicken bone, and Another Another complaint I somecontinued, "Whipped a few students, too." He grunted and spit again, hitting Plagiarus on his sandaled feet. "Yours are over ed yourself into that frame of there; I learned them something mind. Even if you panicked over today. remembering that need not continue to do so. Take Diogenes had often said that freedom of speech actually meant the freedom to insult, rethe idea that this time you will work.

"So who are you trying to offend this week?" watchdog Armstrong slyly remarks. Or, (Continued on page 4)

pned, "Doesn't the word 'cultivate' connote a certain amount of refinement? Diogenes, you are afraid you will not know the material. If you study in an organized foeb.

Don't Freeze

Another way to prevent freezing is to keep yourself in good physical condition. It is not nec-essary to stay up all night. This is just a bid for attention. Be sensible. Eat properly and get some exercise.

I often hear students say that they cannot concentrate. What can you do about this? In the first place, consider the physical aspects of your study area. You all know that you should have fresh air in the room. It is not recommended that you have a radio turned on. Even though you say it does not bother you, it does not help you to concentrate. You are either listening to music or you are studying.

Perhaps some of you do not need to study as much as do others. Refrain from interfering with others when they are work-

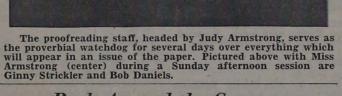

Avoid That Bed

It is not helpful to lounge on your bed while studying. You are licked before you start, for you will go to sleep. Your subcon-scious mind associates that position with sleep.

(Continued on page 4)

Arlene Vogel receives a com-Arlene Vogel receives a com-mission for her work as Circula-tion Manager, a job which in-volves mailing out several hun-dred subscription letters yearly as well as handling off-campus delivery by mail each week.

### Peek Around the Campus

by Carl Peek

Last Tuesday night's program, "Jazz and the White American," was well worth the fifty cents charged for admission. Much to the surprise of all concerned, the attendance was rather large, from the student body, that is; no faculty members attended. Jed Lippy said that the group plans to bring a live jazz combo to campus in the near future. This will be something for the "nothing ever happens around here" group to attend.

My guess is, however, that the group's members will remain in the dorms, complaining, regard-less of what happens. It is unfor-tunate that such is the case. Perhaps the highlight of the jazz presentation was Manny Abra-hamson playing his own composition "Lullaby."

Not True

It's not true. Perhaps you have heard that 48% of the Freshman class will be ineligible. That's not so. Also 30% of them are not transferring. According to the most accurate reports available, Dean Pettit's lecture to the freshmen was nothing more than a "pep" talk. Mr. H. Lloyd Jones, Assistant Director of Admissions, has declared that the 48-30% ru-

chairs and brood again over the fact that "nothing ever happens around here."

The 724 Mess

The 724 incident I find rather amusing. Such fuss over a bit of plaster and water! Has anyone been in Stine Hall lately? There the plaster is falling off without the help of water. If anyone wants to see the loose Stine plaster, however, he had better beware of the broken glass on the front steps.

That Radio Station

Several people have been vehemently discussing the possibility of an Ursinus radio station. They have suggested that I put forth an argument in sujport of such a thing. If anyone has declared that the 48-30% rumors regarding the Freshmen are definitely not true. He said, "The college is flourishing. These things happen every year. The Freshmen become nervous and rumors get started." Now all those who were beginning to jump for joy over these rumors can sit back down in their put forth an argument in sujport of such a thing. If anyone wants a radio station bad enough, it seems to me that that person could gather his forces and come up with a working plan to be presented to whoever one presents plans for a radio station to. It wouldn't be a bad (Continued on page 6)

Sports Editors Craig Garner and Carol Taney don't really spend their time Indian wrestling—just when the WEEKLY "photog" is on the scene. They keep a watchful eye on sporting events each season, and offer the WEEKLY readers keen observations on the athletic scene via the Pressbox.

### Father's Interest in Politics Led Pancoast to Same Field

by Barbara Gettys

Involvement in political science as a subject of interest, and politics as a field of action, seems to be a tradition of the Pancoast family, a tradition that led the interest of Dr. G. Sieber Pancoast naturally to government. His father was an attorney and counselor-at-law in Audubon, N. J., as well as a member of the state legislature. The family moved from Audubon to Camden in 1929 when the elder Pancoast resigned his position in the legislature to become a municipal court judge.

of becoming a lawyer, Dr. Pan-coast participated in football, basketball, track and baseball, and served as president of the student council. Not having a definite college in mind, he spent a year at the Wenonah Military Academy in New Jersey after which he decided to attend Urripus

College Romance

Although Dr. Pancoast hoped to enter law, he prepared to teach at the same time by ma-joring in History-Social Science groups and minoring in math. Muriel Elra Branda, the girl that he walked home from her first sophomore at Muhlenberg, and Susan, a senior at Collegeville-Trappe High School.

Pancoast was active in football,

Attending high school in Camden with the ultimate goal Camden with the ultimate goal president of the student governmen and business manager of the yearbook.

As a participant in a fellow-ship program after graduation that enabled him to teach while continuing his education in graduate school, Dr. Pancoast began his teaching career at UC and attended Penn where he earned his Masters' in 1940 and Doctorate in 1956. questioned about his unfulfilled hope of entering the law, Dr. Pancoast smiled and replied that he still hopes to become a lawyer one day.

Appointed Dean of Men

freshman reception, was to become his wife in 1940; they now have two daughters, Linda, a maintained until 1959. He was also athletic director and coachusan, a senior at Collegeville-rappe High School. Navy occupied the years from Again, as in high school, Dr. 1944 to 1946 during which time

(Continued on page 6)

Feature Editors Sharon Robbins and Carl Peek (left) get a few laughs out of a feature idea, one of many ideas which they come up with each week about the off-beat, the amusing, and sometimes the frustrating aspects of campus life. Photography Editor Joe Mastro follows up their suggestions for photos.

Weekly Story . . . (Continued from page 3)

"Whoever wrote this article meds another course in fresh-man comp." Or, "So how do you spell Helfferich?" somebody asks. And so on until late in the afternoon.

The Production Angle

Once the proofreading staff clears out of the office, the editors begin work on the produc-tion angle of the paper. Head-lines come first. Each story, according to the dictates of good journalism, should attract at-tention through its "head." Be it 24-point Cheltenham, 18-point Cheltenham Italics, or just plain eight-point caps and lower case the head must match the importance of the story. Layout is another awesome problem. Much the same as you fit the pieces of a jigsaw puzzle together, the various stories, boxes, advertisements and headlines must be distributed over and over until everything fits together in an orderly fashion, exactly filling the 432 inches in each four-page

Rules of Layout

Distribution must meet certain requirements, depending upon the rules of the school of layout which the editors have chosen to follow. (The Weekly generally follows the style of the Herald Tribune.) What will be the first and second lead stories? What will be the reaction of the Brownback-Anders Pre - Medical Society if its tidings are transferred to page four, or of the fraternity and sorority-minded people on campus if Greek Gleanings is dropped for

Probably, the editorial remains to be written. According to the requirements for a good editorial, it must be timely, interesting and pertinent to events

faculty members. Long About Midnight

Long about midnight each Sunday night, the editors close shop and put the issue to bed. That is, until the next day.

Monday is "Weekly day at the Independent." A few minutes after 8 a.m. each Monday morning, Editor Piston climbs stairs to the second story of the Independent building on Main Street and faces four blank

lay-out frames.

Typesetters Henry Muche and daughter Kathy Russo operate the Independent's two linotype machines, turning out last min-ute copy piece by piece through the morning. Miss Armstrong arrives later to work the first shift of proofreading.

Heads For Phoenixville

Shortly after nine Bob Gladstone, photography assistant on the staff, heads for Phoenixville with the pictures for the issue. The Phoenixville Republican is the nearest newspaper which has the equipment necessary to make "cuts" from the photos. A "cut" is an engraved block produced from each photograph, necessary for reproduction of a

picture on printing presses.

Layout dummies are spread out in the working area, and the editor and one of the Independent staff members, Paul Knoll, lay out the tentative dummy, according to the master plan made the day before. A number of changes are usually made last minute, depending upon the amount of copy and the length of stories. Major stories are run

umn to column. Shortly After Lunch

Shortly after lunch another proofreading shift begins as the final stages of layout come to a close. Frames are locked in place, and the issue heads for the presses on the first floor about 2 o'clock. Jay Howard Fenstermacher, another Independent regular, is in charge of the printing operation.

Fourteen hundred copies each issue are run off after the preliminary proof has been scanned for glaring mistakes by both editor and proofreaders. Approximately two - thirds of this number are delivered to the campus shortly before dinner on Monday afternoon by Tod Swinton, Distribution Manager. The other third is retained at the Independent and mailed to subscription holders, who have suc-cumbed to the pressure of Circulation Manager Arlene Vogel's letters and forms until they forward the \$2.25 which holds down year's subscription. It is also her weekly job to run off some 300 wrappers on the addressograph machine located in the English office. These wrappers are used in mailing the paper outside the community, and all complaints of non-delivery fall

The WEEKLY Story

Our story is told. This is how ment to an extreme, or run the risk of offending another. Likewise, radical proposals run the those 22 births that we mentionrisk of prompting repercussions ed in the beginning of the ar-

from administration sources or ticle. Each staff member has contributed, in varying degrees, toward filling those 9504 inches of paper which are published each year with some 380,160 words.

Alpha Sigma Nu

The sisters of Sig Nu want to congratulate Linda Adams and wish her success as she enters the career world. To put a finishing touch to the semester, the sisters went to the Collegville Inn last Monday for lunch.

Beta Sigma Lambda

Congratulations to Jack Harrison on his engagement to Beryl Mathews, last year's president of KDK; to Otto Renner on his pinning to Marcia Tetlow, junior at Penn State University; to Ed Beasley, pinned to Peggy Gray, a freshman; and to Sil Piergrossi on his pinning to Peggy Murphy, a student at the Manor Junior College in Phila-WEEKLY for the year. His position nets him a percentage of Otto, the newly-elected president of the Spanish Club.

### Did You Know That . . .

over on the back page, fillers plug up holes on the inside pages, pictures shift from colprofessional heavyweight boxer.

Collegeville Police Chief Richard M. McClure, after being a member of the Notre Dame boxing team, became a successful professional heavyweight boxer. Collegeville Police Chief Richard M. McClure, after being a member of the Notice Bands professional heavyweight boxer.

Vern Morgan, 1961 graduate of Ursinus, still finds time to run while a student in the University of Pennsylvania's Medical School. He set a new mile record for the state of Delaware this summer

Ursinus ranks 16th in the nation in the percentage of its male students who receive a Doctor of Medicine degree.

There is a plaque beside the main door of Bomberger Chapel which recognizes and thanks the College for its educating and housing a Navy unit here during World War II.

Collegeville was known as Perkiomen Bridge when the College was founded here. The town changed its name "due to Ursinus College being located here," as the roadside signs inform passersby.

Over the past ten years more than 50% of Ursinus graduates have become teachers or educators.

The printing press, on the ground floor of the INDEPENDENT building, turns out the 1400 copies of each issue. INDEPENDENT regular Jay Howard Fenstermacher has been working with WEEKLY editors for nigh unto 40 years.

Paul Knoll, one of the INDEPENDENT regulars, handles the technical end of layout for Editor Piston each week. Pictured above is the nearly completed front page of last week's issue.

How to Study . . .

(Continued from page 3)

Have fresh air in your room, sit up straight at a desk or table and save the eating until after- tions and refrain from putting teresting and pertinent to events either on or off campus. Choosand save the eating until afterwards. Make it a treat to be enjoyed when your work is done. If you follow this method of study, you cannot help but concentrate. If you tell yourself you have things on your mind and you cannot study, you will always have things on your mind. Life is like that. Practice some

self-discipline. You can read through something a half a dozen times and still not learn it. Ask yourself, instead, what you have to know. Take a complete survey of the work for which you are responsible. Make an outline. By the time you have finished the survey you will be surprised to find out how much you have learned.

### A Common Complaint

A common complaint is "I learn the material but I can't remember it." If the material makes sense, you will remember it. See if you can explain it to someone else in your own words so that they understand what you are saying. If you can do this, then you obviously understand the material. Understanding is better than memorizing.

ful. In answering questions there is a technique. Read the exam through in the first five minutes of your alloted time.

The father-daughter combination of Henry Muche and Kathy isso serve as linotype-machine operators at the INDEPEND-IT. They set in type each piece of copy which appears in the

In one respect it is, for the Weekly relies on the voluntary contributions of students and thus cannot criticize one element to an extreme, or run the ment to an extreme, or run the into operation 22 times each

### Cagers Edge PMC Cadets 51-50, Then Lose to Swarthmore 70-61

**UC Pulls Upset** 

Suffer 7th Defeat

The Ursinus Bears traveled to

The basketball drought finally ended for the Bears last Wednesday night when they stormed to suffer their seventh defeat, from behind in the second half to gain at 51-50 victory over the Cadets of PMC. The game, which was played on the losers' court, was an aggressive one, and the victory was doubly sweet in that ended a six game UC losing streak. It also marked the first time a Bear quintet has dealt a PMC squad a defeat on their ing on the accurate shooting of own floor. Seesaw Battle

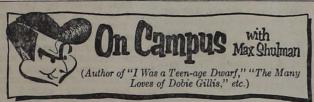

The first half was played on even terms as neither squad could amass a consistent offensive punch. It was a seesaw battle and the big gun for UC was Ron Emmert, who displayed accurate shooting and depend-able rebounding. Walt Dryfoos also chipped in with a fine first half as he dominated the boards, half as he dominated the boards, Parker to give the Bears the both offensively and defensively. lead at the half 33-32.

70-61, at the hands of a fired-up "Little Quaker" quintet. UC led throughout most of the game, utilizing a great all-around effort by their leading scorer Walt Dryfoos, who dumped in 33 points and picked off 17 rebounds altogether, but the home team pulled away at the end depend-

Tom Towle.

Fine Work by Dryfoos

The Bears were able to jump off to many short leads in the first half due to the fine offensive work of Dryfoos in the pivot Walt poured through 28 of his 33 points in the opening half. However, Swarthmore matched every shot UC threw in and it took a last second shot by Jack

#### A GUIDE FOR THE UNMONEYED

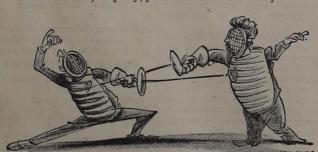

R. L. Sigafoos was a keen, ambitious lad, and when he finished high school he wished mightily to go on with his education. It seemed, however, a forlorn hope. R. L.'s father could not send the boy to college because a series of crop failures had brought him to the brink of disaster. (R. L.'s father raised orchids which, in North Dakota, is a form of agriculture fraught with risk.)
It was, therefore, squarely up to R. L. He could go to college

only if he worked his way through. This was a prospect that dismayed him. He had a deep-seated fear that the task would be too great, that he would never be able to carry on a full, busy college life and still find time to do odd jobs and make money.

Racked with misgivings, R. L. paced the streets, pondering his dilemma. One day, walking and brooding, he came upon a park bench and sat down and lit a Marlboro cigarette. R. L. always lit a Marlboro when he was low in his mind. R. L. also always lit a Marlboro when he was merry. The fact is there is no occasion—happy or sad, pensive or exuberant, cheery or solemn—when Marlboro with its fine filter and fine flavor is not entirely welcome, as you will discover when you go to your favorite tobacconist and buy some, as we-the makers of

Marlboro and I and R. L. Sigafoos—hope you will do real soon.

Sitting and thinking and smoking a Marlboro on the park
bench, R. L. was suddenly interrupted by a small, quavering
voice which said, "My boy, you are troubled. Can I help?"

I have a fencing lesson to the Dean of Women

Seated beside R. L. was a tiny, gnarled man with wispy, snow-white hair. His skin was almost transparent, showing a delicate tracery of fragile bones beneath. His back was bent, and his hands trembled. But his eyes were bright and clear. R. L. looked into those eyes, into the wrinkled face. He saw wisdom there, and experience, and kindness. "Do you think, sir," said R. L., "that a boy can work his way through college and still enjoy a rich, full campus life?"

'Why, bless you, son," replied the stranger with a rheumy chuckle, "of course you can. In fact, I did it myself."
"Was it very hard?" asked R. L.

"Yes, it was hard," the stranger admitted. "But when one is young, all things are possible. I, for example, used to get up at five o'clock every morning to stoke the furnace at the SAE house. At six I had to milk the ewes at the school of animal husbandry. At seven I gave a fencing lesson to the Dean of Women. At eight I had a class in early Runic poets. At nine I gave haircuts at the Gamma Phi Beta house. At ten I had differential calculus. At eleven I posed for a life class. At twelve I watered soup at the Union. At one I had a class in Oriental languages. At two I exercised the mice in psych lab. At three I gave the Dean of Women another fencing lesson. At four I had qualitative analysis. At five I went clamming. At six I cut meat for the football team. At seven I ushed at the movies. At eight I had my ears pierced so that at nine I could tell fortunes in a gypsy tearoom. At ten I had a class in astronomy. At eleven I tucked in the football team. At twelve I studied and at three I went to sleep."

"Sir," cried R. L., "I am moved and inspired by your shin-

"It was nothing," said the stranger modestly, shaking his frail white head. "It was just hard work, and hard work never hurt anybody '

Would you mind telling me, sir," said R. L., "how old you

"Twenty-two," said the stranger.

You don't have to be a rich man's son or daughter to enjoy Marlboro cigarettes, available in soft-pack or flip-top box at your favorite tobacco counter.

Cager of the Week . . . Ability and Poise

# Mark Troster

by Bob Livingston

The Ursinus Whistleball faithfull witnessed one of the few bright spots in a thus far dismal season in the Saturday, January 5 game with Haverford in the play of freshman Barry Troster. Not since Walt Dry-foos migrated from the coal dust of Hazelton to the courts of Urrsinus, have we seen a player Ursinus, have we seen a player with as much ability and poise. Does Everything Well

Troster is a man who does everything well. In a losing cause against Haverford, he scored 18

Freshman Barry Troster has been named the Most Valuable Player of the Week in basketball by the WEEKLY sports staff. His ability, poise, and attitude spell good news for the Bears' future.

points, assisted on many others, and more than once sparked the Bears with his passing, de-fense ball-hawking, and all around alertness.

Troster is a Business Administrations student hailing from Lansdale, Pa. Last year he star-red for North Penn High in the Bux-Mont league and scored at a 21 point per game clip. During pre-season practice this year, Troster sustained a knee injury and saw almost no ac-tion before the Christmas holidays. When asked after the Haverford action about his knee, Troster replied that it had held up well during the game, and he expressed confidence in a full recovery.

Deft Touch

Although primarily accustomed to playing under the boards, Troster's deft touch with the long shot makes him a valuable asset oùtside as well. Against Haverford his corner jump shots drew the nation's leading small college rebounder, the Fords' Pete Dorwart, from under Fords' Pete Dorwart, from under the hoop and enabled a smaller Bears team to garner its share

of the rebounds.

In response to a question.

Troster commented: "I like to play anywhere — under the boards, corner, outside, whereever it will help the team." An attitude such as this will surely spell good news for the Bears' B-ball future.

Wrestler of the Week . . .

### Ken Dean Shines in Mat Displays

Ursinus has two wrestlers who have participated in all three of this season's matches and remain undefeated. They are the Dean brothers, Dick (in the 147 pound class) and his younger brother Ken (in the 130 pound class). Kenny, the junior edition of this ferocious tandem, has come through the season thus far unscathed, scoring a pin and two important de-

Has Blossomed

Ken has really blossomed after two less than brilliant scrimmage performances before the Christmas break. In the op-ening match he employed a dazzling duck under take-down against his Haverford oppon-ent; from there he proceeded to score an impressive pin in 2:37 of the opening period. In the second match at Swarthmore he started what appeared to be an easy sweep for the UC grapplers with a hard-fought 6-3 decision.

The husky freshman put his best display of the season Saturday against Albright when he gained a well-earned 5-0 decision. It may have been one of the turning points in the match Ken and his opponent went into the final period locked in a scoreless duel. With Ken on the bottom, he executed a perfect forward roll for a two point re-versal and then scored two more markers with a predicament. If his bout had been held to a draw it may have changed the complexion of the match com-

The former Norristown High wrestling ace has immence po-tential and a bright future ahead of him. He has several moves which are virtually unmoves which are virtually un-stoppable, particularly the for-ward roll. You can bet that his coach and Ursinus wrestling fans in general will be glad to see another Dean around for four more years.

### Soccermen Earn **MAC Honors**

Four Ursinus soccermen have earned All-Southern Division Soccer Squad honor in the Middle Atlantic Conference.

Goalie Cliff Kuhn (a senior) and outside left Pete Dunn (a spohomore) earned positions on the second. George Brackin and Riger Browne have been cited with honorable mention in the

Most Valuable Player in the Conference was Paul Adogli, an African exchange student from Lome, Togo, who is a sophomore at F & M.

## Wrestlers Tie Swarthmore 14-14, Stun Albright in 19-8 Victory

**Swarthmore Comes** From Behind

Swarthmore College came from behind in the last three matches to gain two decisions and a pin in a hotly-contested spread, but Swarthmore's power in the upper divisions proved decisive in the clutch.

Opening Bout

In the opening 123 pound bout
Thomas Riddle gained a tight
decision over Ursinus' Joe Gray
by virtue of a point for riding

Tight Match
During the opening bout it became evident that it was going
to be a tight, savagely fought
match. Ursinus' freshman Joe by virtue of a point for riding time, 2-1. However, the UC grapplers countered with a bevy of decisions and a Dick Dean pin Fred Keller 6-3. George Davis followed this initial Ursinus

At this point Coach McCreary essayed the most important move of the night as he shifted Captain Dick Dean up a class and substituted freshman Harvey Lesher in the 147 pound class. Lesher came through admirably as he scored a 7-4 decision over Bill Andrews capitalizing on a wild first period. Dean, wrestling a class above his weight, extended the UC lead to eleven points as he pinned Bob Nussbaum with his patented cradle in 6:18 of the final per-

With only three matches to go the Ursinus lead appeared in-surmountable, but Swarthmore's fine upper-weight men proved their medal in the clutch.
At 167 UC's Dale Kratz and
Swarthmore's Torrey Parsons
battled through a scoreless first battled through a scoreless first versal in the final stanza for stanza and then Parsons gained a decisive escape in the middle off when Fred Powers decisionperiod to score a 1-0 victory. For ed a tough John Bortz with the the second straight match Bill use of a take-down, a reversal, (Continued on page 6)

**Bears Defeat** Aggressive Albright

The wrestlers climaxed the week by defeating an aggressive Albright team 19-8 Saturday afternoon in the T-G gym. The match which ended in a 14-14 decisive match was the 177 knot last Tuesday evening. The pound free-for-all in which Bill Bears at one time held a 14-3 Siebenson nailed down the Ur-Siebenson nailed down the Ursinus victory by capturing three points and putting the match

Tight Match

Gray battled Albright's top wrestler and captain, Mike Mar-ino, right to the wire before to open a 14-3 gap with only succumbing by the narrow marthree matches to go. Ken Dean utilized two reversals and an escape to decision Swarthmore's until the final period and then exploded for five points against succumbing by the narrow marexploded for five points against Albright's Jack Snyder. Dean victory with an easy decision over SC's Bill Hoyt 5-0.

Most Important Move

At this minutal Orsinus and a point for markers by executing a beautiful reversal, a predicament, and a point for riding advantage.

However, Albright did not go down without a struggle; John Kutzer picked up a 9-3 decision over the Bears' George Davis. In the 147 pound contest UC's Dick Dean mashed Art Helm by a 12-0 decision, but he could not pin his opponent. Dick breezed by on a twelve point margin which he picked up on two predicaments and a near-pin.

Important Strategy

Coach McCreary pulled off an-other bit of important strategy when he dropped Dale Kratz, UC's regular 167 pounder, to the 157 pound class and pushed Fred Powers up to the 167 pound di-

Kratz and AC's Dick Horst scrapped to a 2-2 deadlock in which Dale executed a quick re-

### Intramural Story

by Denny Wilson

With advent of finals, the Intramural Basketball League schedule has been curtailed until the spring semester. Leber-South leads the league standing (4-0) and Dave Kohr (Sig Rho) holds the individual scoring lead with a 23.8 average.

Paced by Bill Degenhardt,
Leber-South rolled over Curtis
II (1-3) and Zeta Chi (1-4)
while maintaining their unblemished warmed by the control of the cont blemished record. Demas (4-1) remained a half game out of first place by downing the APES and edging the Day Students. Three of their players, Mike Bernstein, Bill Scholl, and Tom Santucci rank two,

### Albright Wrestling . . .

(Continued from page 5) and riding time for a 5-2 vic-

to be in command all the way as he built up a margin of safety to 8-2.

Most Impressive

The most impressive victory of the afternoon was reeled off by UC's Joe Rhile, who banged Dave McNeely to the mat with his amazing strength and then proceeded to pin him in 2:12 of the opening period with a half and crotch. It was a rewarding vic-tory for the Ursinus wrestlers: they lost a heartbreaker at Albright last year.

Jayvee Matches

Albright's undefeated JV's met some rough competition before prevailing Saturday 15-10. The visitors gained three pins while Ursinus scored a pin and a win by default.

Albright's Tony Bellucci pin-ned Roger Dreyling in 5:06 of the final period in the 123 pound scrap. In the 130 pound class Creighton Miller gained a pin against Ursinus' Sam Enion to give Albright a lead of 10-0. Ursinus fought back to tie when Harvey Lesher pinned Paul Jacobs in 5:41 of the final round and Mark Moser gained five points by default when he knocked Steve Vopicelli unconscious in the last period. With the score deadlocked at 10-10 Albright's massive 255 pound heavyweight Bob Goidell pinned UC's Jed Daly in 5:41.
