On Monday, March 12 at 12:30 p.m., crowds of ProTheatre memlooked on and/or took part in a gala ribbon-cutting ceremony. Background music was provided by Zeta Chi and Sig Rho pledges as the festivities went underway. An inspiring speech was delivered by ProTheatre's distinguished president Paul Bare. The highlight of the speech was a quote from the play Rosencrantz and Guildenstern Are Dead by Tom Stoppard: ". . . Don't you see ?! We're actors-we're the opposite of people!" Paul announced that the old snack shop will be used for rehearsal. The ladies rest room is to be used as an office, and the men's room will house the honorary drama organization Alpha Psi Omega. # It Depends on Your Point of View

Over one-sixth of Ursinus Weekly readers are not students or professors at the college; instead they are graduates, Board members, or friends of the college. We welcome these readers and hope that their number increases. Our subscriptions and budget-planning departments particularly like the increase. However, we feel that our more remote readers should occasionally be advised how to read a campus newspaper, as this is a skill requiring some cultivation.

### Growl!

First, let us see what happens to an unsuspecting reader who has not yet grasped how to treat a college newspaper. As often as not he (or she) will be lounging in his most comfortable chair while he both reads the Weekly and drifts off to sleep. And soon, when he runs across something unusual, he stops slouching, sits up straight, starts grinding his teeth, switches to mumbling incoherently, grasps the paper more tightly as the hair on the back of his neck rises, breathes in gulps, grows red as the blood shoots to his face, and finally he jumps from the chair, throws down the paper, and bellows to his spouse something to the effect "Look what those student brats are doing (or saying or wanting) now; why when I was in college we would never even have thought of doing (or saying or wanting) such a thing. What is this world coming to?"

The reaction of the unadvised reader can be amusing. In fact, editors have been known to arrange the arrival of some Weeklies to coincide with the coffee drinking after a large meal. In such a situation, the effect is multiplied, for not only does the outraged reader get angry, but he gets indigestion and curdled coffee as well. The reader can rest assured, however, that most such reactions are unplanned and can be avoided.

Our simple, all purpose prescription for the skipping of adverse reaction consists of the realization that what an article communicates to the campus community may not be identical with what gets conveyed to the remote reader. And The Weekly is written for the campus community directly; a senior biology major with, as he definite and perhaps definitive doing as science majors?", he it should be read by the off campus reader with that fact in it should be read by the off-campus reader with that fact in

### Who Ends Up Hotter?

The subscribing reader commonly has a tendency to exaggerate a complaint out of all proportion to what it was in feated in all dual meets. Dave's made up his mind to work hard and factor. The medical schools can the mind of the writer. Suppose that in five years, Ursinus dedicates a new building, but the heating system does not grade and has continued steadily importance of getting off to a good for the top notch student, but the work properly and never allows the temperature in the building to drop below eighty-five degrees. More likely than not, an overheated student will sweat out an article or letter stating that something is wrong with the new building, that the administration does not seem to care, and that something should be done immediately. Upon publication in The Weekly the reaction of our two sets of readers is predictable. The campus reader will sigh and think "I wish they would turn down that heat"; but the older subscriber, who has been reading in the 1978 Alumni Bulletin about the great new building being opened, an edifice which he has chipped-in cash to build, will begin to bellow about ungrateful students-while oblivious to the fact that he would complain even more loudly were he subjected to ninety degree heat. Our alumnus will finish in an even hotter state than the original complainer, needlessly; the student may have been untactful, but not un-

Almost no one in Ursinus memory has been so successful in his college career yet been so quiet and unassuming about it as David Mowere. In an age when those who have achieved half of what Dave has shout at the top of their lungs about the fact, Dave Mowere has quietly worked his way into no less than four medical school acceptances. This must be a record even for Ursinus. Most students, if they know David, know him only as the person whom they pass so often in the library; so the Weekly saw fit to shatter the silence.

We feel the high calorie, starchand are therefore detrimental to the social lives of every female on campus. Our catalogue encourages us to "blend academic and social has prevented us from experiencing a complete and fulfilling social life. As this matter has become most serious, we hope student support will force a change in our meal planning.

Very eagerly yours, J. J., S. S., and B. B.

### BOARD MEETING

(Continued from Page 3, Col. 2) Schaeffer be voted Assistant Dean of Admission, and the Board so voted.

Dr. Millard Gladfelter, Chairman of the Government and Instruction Committee, recommended the approval of Dr. A. C. Allen as Pre-Medical Student Advisor upon the retirement of Dr. E. V. Lewis, and the approval of Dr. A. L. Reiner's proposed group trip to France and Spain this summer. The Board approved both.

fessor of English, reported to the group during lunch that sixteen Japanese students would be studying at Ursinus over the summer.

In more mundane matters, the Board heard that the College had abandoned its sewage disposal plant for the new Collegeville sewer system, a change resulting in an unavoidable budget increase.

When asked for any specific comments on college life in general, Dave praised the small college life," but starchy meal planning where one gets to compete in interscholastic athletics, in contrast to a large multi-versity where one might only be able to compete in intra-mural sport. The only sour note struck during the conversation was when Dave mentioned the latest in a series of tuition increases; although he was aware of continually rising costs, nevertheless he commented that unless something changed "soon, only the rich will be able to go to a private school." Of Ursinus in particular, Dave was happy to see the new buildings, especially the gymnasium-swimming pool and college union, but he wished that he would be around to use them longer. He feels that the new facilities will change the quiet atmosphere around Ursinus on week-ends for the better.
