## Sky Top Hosts Annual Students Mount War Protests; Student, Board Talks MarchAgainstCambodia,Kent

of May first through the third saw fort to attain this goal. Once a year, at Skytop in the Poconos, the istration invite a representative selection of students to spend a weekend discussing their views and opinions of the college.

At this series of formal and informal meetings, where personal contact was encouraged, the Board, represented by Mr. Joseph Beard-wood, Mr. Paul Guest, and Mrs. Sieber Pancoast; and the administration, represented by Dr. Donald L. Helfferich and Dean William S. Pettit, made a genuine attempt at communication.

Ten students attended this top level conference and, according to personal interviews, had generally optimistic, though mixed, opinions of the weekend.

Cris Crane-Women's Athletics

Cris, junior class secretary, felt the greatest strength of the meeting was, "the chance for communication and the opportunity to ministration "that we must move and dispersed. break down part of the communica-tion barrier." But, she said, although she now feels more familiar expressing the students' views to a awaited a faculty decision on their with certain officials, many of the same opinions that were spoken have been stated, unchanged, many times before. As a direct result of Skytop she expects, "very little . . . It benefited me, but the same old situation often occurred. Next hardly enough time for the students celled all tests and quizzes for at year a wider representation of the students is needed." "I was very impressed by the way Dean Pettit that it is the Board that makes this college go and that's where the complaints should be directed."

Alan Gold—Editor-in-Chief and

Publisher, The Ursinus Weekly

Alan agreed that, "It is always valuable to allow students and administrators to interact with one another because better understand-ing will always result." He expanded this by asserting that he was impressed by the receptiveness and willingness of the Board members to discuss campus issues, and understood them better now. In the future Alan hoped to see more Board members present. He gained be ironed out in the future. insight into the Board members and found them "not to be tyrants, but men deeply dedicated to Ursinus, its welfare, and its future. They are earnestly trying to make Ursinus what they think it should be." He felt the Bill of Rights now had leave. a much better chance of acceptance. needs to be dropped more often." Janet Floyd-Long Term Planning He said the Board gained respect Committee

and personal understanding as an must realize, "the Board has a Member, U. S. House of Represent-important benefit of Skytop. "We (Continued on Page 4, Col. 2) have a tendency to see others as the role they play; and there we got to know the Board and administration as people instead of stereotypes." Although Janet suggested that more time be allowed for the talks, she thought that having the conference off-campus made it more personal and less pressuring. She felt that the students went to ask "for more student responsibility as a real part of the college community." She said that one problem cers for the academic year 1970-71. was that students and the administration look at the college "from different time schedules." Although there were "no actual solutions arrived at," students must stop grumbling among themselves and express their complaints directly to the administration. She felt that recent faculty decisions and the plans for the college union were a direct result of the communication adelphia, was the guest speaker at

## ALAN C. GOLD FO Editorial Kent State Massacre: An American Tragedy

KENT STATE UNIVERSITY: MAY 4, 1970

In 1770 two regiments of British troops were quartered in Boston to assure enforcement of the laws. A slight brawl between the troops and a street crowd developed into mob action; the British troops unwisely fired at the shouting civilians, killing five and wounding several others. Two hundred years have passed since the Boston Massacre, and last week troops have again fired at point-blank range into a crowd of demonstrators protesting the action of their government. The major difference, however, is that in 1970 the troops were American.

#### Indefensible Over-Reaction

We deeply mourn the death of the four students at Kent State. The responsibility for the deaths of Allison Krause, Jeffrey Miller, Sandy Lee Scheurer, and William Schroeder is shared in part by all the parties involved. Although there may have been great provocation, the opening of fire into a crowd of students was an indefensible over-reaction by the National Guardsmen. Nevertheless, the Guardsmen who panicked were not solely to blame. The authorities in command of the Ohio National Guard committed perhaps the most serious blunder of all in sending the troops onto the Kent State campus apparently without sufficiently explicit orders not to load their rifles and furthermore not to shoot with intent to kill in any case.

#### In the Name of Peace

In the opinion of many students across the nation, the responsibility for the Kent State Massacre lies with our national leaders who have plunged the United States ever deeper into the morass of the Southeast Asian War, and who have responded to students gathered in the name of peace with soldiers carrying loaded weapons. In many ways, the Kent State tragedy is a sorrowful consequence of years of frustration in a war that has continued too long. Nevertheless, the students themselves are not without blame either. The student plundering of the business district near Kent State was not expressed as much. It's the 'in' a senseless and immature manner of expressing displeasure with the escalation of our involvement in Cambodia. In addition, the students at Kent State answered the Guardsmen's order to disperse with outright defiance and rock-throwing. The result of this defiance is now history.

### An American Tragedy

The Kent State Massacre is an American tragedy in the truest sense. However, it will be even more tragic for all Americans if the violence of this atrocity is senselessly compounded by additional irrational acts throughout the nation. This is not a time for reckless anger and further violence; comes down to money. Here we the aftermath of the Kent State tragedy must be, rather, a are, kind of a post-graduate high time of deep mourning and rational self-examination. It is for this reason that we commend the entire Ursinus student body for the orderly, meaningful, and sincerely moving manner in which it expressed its collective grief over the unnecessary deaths at Kent State.

The tragedy happened at Kent State University, but it might have happened anywhere in America. Perhaps we have learned, although at enormous expense, that violence snap out anywhere. in America will never bring peace to Southeast Asia. Violence can only serve to perpetuate still greater tragedy.

By MARC HAUSER

2nd, is a sophomore Psychology major from Wynnewood, Pa. Often known as "Wheels," her pert, vivacious figure is a familiar one to the Ursinus student body. She is a warm, sensitive individual as is evidenced in this interview.

On Ursinus

"I really like the people here, but I'm disillusioned at Ursinus because I feel that it's just one big protection-we're so far away from everything. People here don't seem to be really interested in much that's going on. A lot of people

'Kids today have silver spoons from their tongues to their feet and they're miserable. They don't know what they want . . . if people worked more with their 'me' we'd be better off.'

here seem really naive. I like the idea of a small school, because I don't feel 'stamped' as I go out into the world. I can kind of see having housemothers, but when they're 80 years old, what could they possibly do? If an emergency arose they'd have a good chance of having a heart attack.

Academically, the reputation I as told that the college had-well, I'm getting disillusioned in it. I thought there'd be more of an intellectual atmosphere. What I like is that a lot of the professors I have try to get to the kids-to show an interest in them. I always thought of a teacher as someone not human, but here you can really talk to them.

The reason that I came here is that I have a boyfriend at home and this was the 'farthest-closest' place that I could go.

Since I live in Lower Merion and since I've been here, one thing I miss is not being around Jewish people - I haven't been associated with this type of person that goes here, the standard middle-class WASP. I guess it's just because I've been exposed differently. think it's sad that there's not more of a diversity here. It seems to me that the people that graduate from here will go into the same, narrow situation that they have here.

I do not understand why anybody black would go here. There's plen-ty of "hate Nigger" here, but it's thing to be kind and un to black people, and the kids here for the most part act this way, but don't feel it. The kids here might be friendly, but it's only friendly on the surface."

On the Administration

"There doesn't seem to be enough student contact with the administration. They do what they think is right to keep us good children. I imagine that the type of patrons that give money to the school are people that want this type of school. I think the whole thing school and I'm afraid that once we no longer have these restrictions when we get out, we're going to just snap out, like a lot of kids at these liberal schools. I think we should have the freedom that a lot of these schools give to their students, because the kind of kid that

"You have to have people that are made to fit the little gear of society to make it keep going. You

But, now ferent situation I could be a prosyou don't necessarily have to go to bed with someone to rid yourself tion is wrong, sitting up on my own of these frustrations.'

#### Her Ideal Man

what he wants to do regardless of lot of people value, really isn't so

'I've tried to become as unmaterial istic as possible. What a lot of people value really isn't so important . . . I want to help people as individuals."

what people think. Like I've been talking to someone for two minutes and already I'm having an affair. I want somebody who wants to be himself-to want to go through as many life experiences as he can; just to live basically, and I don't think people are really people until they've done this. That might be my problem-that I've never had a problem. He'll be completely honest and say what he wants to say and if it hurts, it hurts."

#### On People

"Kids today have silver spoons from their tongues to their feet and they're miserable. They don't know what they want. If they knew and accepted the fact that they had to go out and work to get food they wouldn't feel that they had to fight the country-that the problem is not with them. If people worked more with their 'Me' we'd be better off. They are kind of trying, in some way, to conform it to their own idealistic ideas.

"These guys that have real long hair and are skinny just don't look

#### On Herself

have the right to judge anybody, anybody?"

can't have a bunch of people going | because your situation kind of makes you what you are. If I were living in South Philadelphia and I was black, I might be the person are we, after not having been given the opportunity or not having been environment? If I were in a diftitute, so who am I to say prostitulittle pedestal?

I've also tried to become as un-"I respect somebody who does materialistic as possible. What a

"I don't see why the boys' dorms aren't open . . . I don't care what anyone says, but people have to think about sex."

important. I'm really disappointed in myself, for not having done a damn thing-I've just sort of, lived. I'm not sure, yet in what way, but I want to help people as individuals. I'm not anti-materialism because I see how people feel when they don't have anything, but because I see how they feel when they DO have it and it doesn't really do anything for them-it doesn't add anything to them as people.

I think that you have to express affections. Girls shouldn't get all uptight about this. I think that homosexual love can be just as beautiful as normal love, but I don't think there's as much of a fulfillment. If they're happy together, what are we to say? At least they're not making babies."

Closing Remarks

"I'm really pessimistic about the whole human species. It doesn't seem to me to really matter what we do. I don't really think we've done a damn thing with ourselves -that we are just the same people that we were a thousand years ago. People basically have hope-that there is a reason for this madness. The sixty-five or so years that "I'm trying not to judge people we're here is just nothing. It just any more. I feel like I've been doesn't seem to matter that I'm judged and misjudged. I don't here now. What am I? What is

## THE KITCHEN CYNIC:

# "The Strike

By JANE SIEGEL

Now that I've given up my "plushy" editorial position, I can become an ace cub-reporter. pound a beat! The search for a fine feature or a super-scoop takes me to all corners of campus life and into the lives of the college's most intriguing people. I covered the student strike here, but straight news is like a straight jacket. I'm not allowed to express any of my truly objective opinions and I can't reveal the tear jerking or knee slapping incidents behind the scenes. I know them. I was there.

Monday afternoon's marchers should have been charged admission. There was a three-ring circus at Maples. But maybe that's an overstatement. Perhaps it is to be expected that when a peaceful, concerned group of students walk by, a handful of 20 and 21 year old boys are going to throw water balloons. (Best lower the admission.) It won't be as amusing if they get shipped to Indochina and get their throwing arms blown off.

destine, but kinesthetic atmosphere, the moratorium committee met to discuss activities from dandelion picking to effigy burning. Somehow, and I congratulate the group, a rational and coordinated plan evolved. And all the time the majority of the faculty and the Collegeville cops were in there pitching for us.

Thursday night and Friday morning, the students made the mistake of their lives. They tried to make themselves heard. They tried to help each other, educate each other, and gain the unanimous support of the faculty. Strangely enough, they didn't want to burn buildings or uproot gingko trees; they wanted a first-hand bit of education. They wanted to hear Norvel Reece speak. But this unique chance at knowledge was denied for second hand trivia and two tests were given Friday morning. Of course, ignoring mild paranoia (the feeling of being intimidated) and the possibility of spring fever, such great green excuses like, I had it planned and I support Nixon and the army, are to be appreciated. Appreciation; as in cooperation.

But the ridiculous and the petty are not to be overplayed. The fact remains that greenswarded Ursinus did step into the mainstream of national concerns and still retained the reason, dignity, decorum and style for which it is known. There was no violence. And it cannot be Wednesday night, in a duly clan- denied that for the most part the faculty dove in with some pretty fancy rhetoric in support of students who had turned from pledging games to wars that weren't games. Mr. Richter's mindful speech and Dr. Helfferich's purposeful support shall not soon be

War is a terrible thing, but it may have done one possible good. Anyway, Thursday was a fine day Right here on campus, not on some and all sorts of gawkers turned tip top mountain top at Skytop, every student had the opportunity to form a strong and supple communication link with the faculty nore the two weaker links.) Presiever all was not lost. ## 1970 Ursinus Ruby Drowning In Red Ink

By LESA SPACEK

when the birds were busy singing and the flowers were busy blooming, four unknowing people got the book thrown at them. They inherited the 1970 Ruby. From this day man, George Russian, and Jeff Crandall-were in ever constant peril.

The first jobs of these new editors were to find a photographer and a publisher. After they found these essentials, the four signed the contract. They, and only they, were responsible. They were responsible for the expense of the photographer who must be paid for the sittings and for the senior por-traits. They were also responsible for the larger expense of the publisher who must be paid a basic price, plus the price for any color pages. By the end of the year, the total cost had soared to a high of ber their good old days at Ursinus \$10,000.

Ten thousand dollars just doesn't grow on trees, not even on gingko mer, only sixty to seventy were retrees. It's un- Twice as many students and a have you heard that out of someone fair to judge Ursinus by comparing -usually a freshman or a sopho- it to schools such as Haverford and more-during the last few months? Swarthmore because the situations Well, gang, it's time to put things are just not the same. Let's go in perspective. Looking down from back about fifteen years, and what fields where the Men's Dorm, Adthe lofty (?) pinnacle of my eighth do we have? A tiny, church resemester, maybe I can get a few lated college with only four main things straightened out. If any- buildings (two of those dating from

Now what do we have today? physical plant three times as big. To the classes of '72 and '73, an Ursinus with Freeland Hall, the old Power House, and only open ministration Building, and the Biology Building are now might be inconceivable, but that's how it was.

Now let's go back about ten years. Wismer Hall is still a gleam in some Development Committeeman's eye. Students are eating in the basement of Freeland Hall. (Remember, Freeland was built in 1848, so that means your dining facilities were around before the Civil War, before the Missouri Compromise, before the California gold rush . . .) The Snack Shop? What's that? Let's go down to Bomberger Basement after lunch. At least we can sit and read there. All this time, the administration is trying to expand the college's enrollment, and wondering where it's going to put everyone. Attempting to provide a properly "liberal" atmosphere isn't exactly a major concern. Of course, if any students wanted to say anything about it, they could always take their problems to their respective Men's or Women's Student Government Associations.

How about something within recent memory—say 1966 or 1967? The college has close to its present enrollment of 1100 students, but it still has to spend a lot more money on buildings to house them and teach them in. The two student governments have finally been fused into the United Student Government Association. Chapel attendance used to be mandatory twice a week, but now you only have to go once. It's at 9 a.m., and if you don't have any classes that morning, you still have to get up for it, because attendance is taken, and the "cut rule" applies to Chapel as well as to all your classes. The campus is pretty quiet at night, since all the women have to be in by 10:30, except on weekends, when they can stay out till 12. (The guys have to be out of the reception rooms then, too, don't forget.) The juniors and seniors are lucky-they get an allotment of a few 2 a.m. permissions each semester. women aren't allowed in Wilkinson Lounge, and Building One of the New Dorms is being used for classroom space. Howard Morris transferred out in January of 1968, so now all the "boys look like boys and girls look like girls."

Fantasy-sheer fantasy. Oh, this kid's out of his tree. Send for the little men in white coats. . . . Not quite. Ask around, skeptics, and you'll get the same story. Ursinus has changed, and it has changed more than most of the present student body realize. The Ursinus of 1966 and the Ursinus of 1970 are two very different colleges. On a relative basis, the school has made the same break with the past-its own past-that Swarthmore and other schools have made with theirs. A Columbia-sized paroxysm of change for its own sake would destroy those gains that have been made by swamping them in an aim-What is peace? Financially the yearbook is in sad condition. The Senior class needs all its money for the Prom and its other functions; it has its The USGA has own problems. been approached, but as of now it hasn't done anything. Little can be done for this yearbook. It can only be salvaged from financial disaster. Students may contribute by buying a yearbook, for remember this is the centennial year. This includes the one hundred-fifty seniors who didn't order their copy, for remember you won't be here next year. Students may also contribute by paying their balance by May 15. The school may also make contributions to the Ruby. They'll accept money from anyone.

Two major suggestions have been made to improve the condition for future yearbooks. The editors should be picked with the yearbook in mind. Some experience with the Ruby previous to acquiring their office is beneficial. The editor-inchief should be given the opportunity to organize more than six to eight people for his staff. Biology and chemistry majors just aren't cut out to be business managers. On the other hand, economics majors could profit by the experience they would receive while acting as such. The salesmen for the Ruby should be true salesmen at heart, not just anybody. Long ago in our ancient history, the Ruby had a faculty advisor. Apparently he knew when to get out. It has been suggested that the Ruby acquire another advisor whose most outstanding function would be to form the nucleus for a continuous staff. The Ruby could then sign a threeyear contract to avoid inflation. The Ruby could also open a yearround bank account and thus draw happen to receive. The faculty advisor actually would not need concern himself with the layout of the professional advisor to make suggestions.

#### HOUSE-MOTHER

To the Editor:

When a difficulty occurs in our dorm and the presence of a maintenance man is required, our housemother always takes the precaution of informing us of his arrival by calling, "Man on the floor!" It is common courtesy to warn us in this manner as it prevents some embarrassing situations.

Now the question arises: Why does she not extend the same courtesy when she entertains male viswilling to listen." The group was itors in her apartment? Is there something underhanded or shamesupposed to be any less embarsome viewpoints, but encouraged to tionables! or less? It would seem that her selfishness in trying to cern for our modesty.

Furthermore, this is the same woman who, in a recent crisis, ran up and down the halls shouting, "What shall I do?," while two women students got the situation under control. On other occasions, she has been known to use her "discretion", when no "extenuating or unusual circumstances" are known to exist, for the investigation of our personal property (Handbook page 42, rule 5).

The male students on this campus probably are not aware that this problem exists, but it is a very real concern of the female students. Since these women are obviously not here in the best interests of our welfare, we wonder why they are not replaced, or preferably, re-

express their rights and responsibilities as citizens."

In impassioned and angered tones, Terry Cushmore then lashed out against Ursinus' "former apathy" and called for the flag to be re-lowered. He called for an expression of "moral responsibility" and told of the dangers of the silent majority. David Sears picked up Terry's charge and asked the students to support the re-lowering of the flag and to extend the strike to Friday. The response was unanimous and as Mr. Richard Richter stepped to the microphone, the flag was lowered.

Mr. Richter reminded the students that "the campus is where mind and emotion meet" and that creative construction depends on the mind's reason. As students surrounded the petition table and began to drift off, Carol Weiland and company began playing hard

At 7:30 Jim Ohls and Linda Pacaetes of U. of P. spoke in Wismer. Dr. Sieber Pancoast was on hand to oppose them. Jim spoke on the past history of U.S. involvement and distributed fliers comparing some of Nixon's statements with those of Hitler preceding his invasion of Poland. Jim warned, 'This isn't a war we can win. We have waited . . . and watched too long. We must resist." Linda supplied material on the serious economic costs of the war. "Now the war is an albatross about our necks . . . We cannot eat helicopters."

At 9:00, about 175 students gathered with candles and signs in front of Bomberger. Cindy made several announcements, including tests still being given on Friday; there was a moment of silence and the marchers moved off singing, "Give Peace a Chance." The students were escorted on the entire route by the Collegeville police who controlled traffic and irate citizens. The marchers went up to Trappe to make an appeal for a test postponement so students could hear Norvel Reece but were refused so they moved on through Collegeville. They returned to campus and formed a circle in front of the Library. They paused for a prayer before they contemplatively drifted

Friday, May 8

In the morning, students were again frustrated in their efforts to try and postpone a test running simultaneously with Norvel Reece's

He was glib and cool in his protests against both Agnew and Nixon. He stated plainly, "Cambodia is NOT an American problem." He felt public pressure was responsible for Nixon's timetable and was better than violence.

> Reece, along with three bus loads of students left to go to the rally in Philadelphia at 11:00. However, not all the action moved off campus. Twice, Friday afternoon, President Donald L. Helfferich personally came out and re-lowered the flag after a dissident student group and the American Legion raised it. Two days of peaceful moratorium activities were perhaps best summed summed up by a statement President Helfferich made to students following his lowering of the flag the second time. "The only difference between you and me is that I walk on the sidewalk and you walk on the grass."

#### Saturday, May 9

A final protest preceding the Spring Festival Dance activities was organized. About 30 students carrying an American flag and peace signs marched onto Patterson Field and into the stands to watch the rest of the show.

# Trackmen Edged

By RUDI HERMAN

have ended. The four years of predictions are now just fading forecasts of greatness and glory. The story ended on May 9th, 1970. A story which never really began-it only ended. It was an unsolved sports riddle-yearning to be answered only to find, each year, a new and different obstacle to its ever-increasing complexity.

I cheered when the 440 yd. relay team blazed a 42.0 to easily win the M.A.C. gold medals. But, I also wept as Bryant Heisinger, incapable of last leg victory, could only relentingly listen to the faraway sounds of an apparent victorious mile relay team. 1970, although, was a different year than the others previous. It was a paradoxical combination of great performance and ultimate defeat-but a touch of how the "unbegun story" has always ended.

The din of team defeat did not, triumph: Bryant Heisinger winning and defending his 100 yd. crown successfully, Bart Bennett high hurdles, Bruce Albert running (4:15) in the mile run, Tom Mcski (1:56.7) running their greatest times to sweep 2nd and 3rd, Joe Muscara, braving a bruised heel, leaping to a 4th in the high jump. less demolish the Susquehanna point machine. Where they were strong-we were strong, where we strong. It was as simple as that.

The Bears tallied a total of nine-regretfully there will not be a teen medals but nary a champion- "next year."

ship was within their reach that Now, the four years of rhetoric day. Few inches separated us from the needed points for victory, but the inches never seemed to be in our favor: Albert losing the mile by an inch, Brown losing the ¼ mile by an inch, Tom McMorrow losing the 1/2 mile by inches. Twelve points and total victory became a matter of twelve lost inches. The day can only be recorded in the light of those many great personal victories and near misses at total triumph. An undefeated season (10-0) seemed just a mere allusion of complete confidence.

Plagued by the near success of past years, the team seemed, to the last baton pass, to be convinced of proving that 2nd and 3rd place is not a UC providence. Sheer point reality can account us as a 3rd place team, but surely I, as a member of four Ursinus track teams, cannot deny that they, despite the harassment of dreary disappointments and ever-present however, completely overshadow eluding championships, are some, if the salubrious signs of individual not the best, teams that ever gathered in the name of Ursinus.

It was once a team joke that 1970 was the year that nobody, not even running one-half second faster than 'Nova, could touch the very power he ever has (14.3) to take 2nd in the of Ursinus spikemen. Now, as 1970 is over and the remembrance of the best mile of his life to take 2nd lingering defeat rages, it is but my last tribute to, even so, assess this Morrow (1:55.6) and Bob Mosokow- team as the "greatest." The spirit was there, the pride was there, the races to take third and fourth in individual talent was there, the dethe half mile championships, Tom sire to win never waned. But some-Brown (48.9) and Art Elwood how, the points never really came (49.7) running the ¼ mile in record along. It is one thing to watch a team crumble, but it is another to watch a team's destiny go unfulfilled. Though the championship The performances were there-but points did not say it, 1970 was the they were not enough to dent much year of UC track. Left a bit uncertain, we still can assure ourselves that this was the year. Walking away from Dickinson's weren't strong-they still were field and the 1970 M.A.C. championships, I could not help to think that

## Batmen Grab Bearettes Whip Rams Lone Victory In Softball, Lacrosse

By JIM WILLIAMS

Victories have not come easily for Ted Taylor's baseball squad this year. In their past five games the batmen have netted only one victory, a 9-8 win over Wilkes College on May 4. For the most part pitching, rather than hitting, has been the problem. Only hurler Pete Shuman has been able to give UC a good showing.

The victory over Wilkes was another example of Ursinus' hitting prowess. Steve Custer and Steve Long led the attack with two singles each and two singles plus a double, respectively. Pete Koiwai the machine 16-7 with Kim Brown aced the win with a lead-off homerun in the eighth inning. Ursinus' batters scored three runs in the sixth inning, two in the seventh, three in the eighth, and the single winning run in the ninth. Pete Shuman hurled in the victory.

In a less sublime contest UC suffered its worst drubbing of the season in a 15-1 loss to Moravian on May 7. Four Ursinus hurlers tried

Taylor's men lost a close 7-4 match against PMC Colleges on only scoring in the middle frames: Ursinus runs. two runs in the fifth inning on three walks and a single by Buddy Rinck; two more runs in the sixth inning on singles by Harry Pond, Pete Koiwai, and Kevin O'Connor. PMC came on strong early with six runs in the second inning, enough to force Taylor to replace starter Don Larson. PMC's starter J. Van Sciber went all the way, allowing jeopardized windows in the College

an earlier setback against Drexel runs on a homer. Drexel U's pitchon April 29. In this 13-3 loss UC er Mike Kirvoan limited UC to sevwas held scoreless till the ninth, en hits and netted six strikeouts.

By CRIS CRANE

That was the week that was . . when we whipped West Chester in not one but two major sports (!) as Watson's Wonders and the Softball Snell-belles came through with decisive victories.

The Wonders have been indeed living up to their name constantly overpowering every team they have faced this season scoring 85 goals to their opponents measly 12. After drubbing East Stroudsburg twice, Glassboro, and Swarthmore, the mighty purple succumbed to scoring an amazing 9 goals! Goalie Harriet Reynolds and the strong defense kept the Rams under wraps for most of the game.

Meanwhile, the softball team, not to be outdone, with only a victory over Penn to fall back on played flawless defense with Carol Bishop turning in a shoestring catch that turned the tide and capitalizing on every break they had to shut-out a to stem the Moravian onrush, but to highly touted West Chester ten for the first time in 5 years. Robin Cash gave up only 4 hits while Kip Malick contributed 3 RBI's, and May 2. In that contest UC did its Harriet Reynolds scored two of the

#### Penn State Defeated

As if this were not enough, the girls played host to a team from Penn State University and proceeded to beat them in a double header 11-8 and 12-6. Beth Anders went 3 for 3 in the first game with a single and two home-runs which

The fortunes of Beardom suffered when Harvey Pond knocked in two

Arms Apartments. The second game saw Sandy Pope and Carolyn Fagley scoring three runs apiece while Harriet Reynolds came in from her right field post to pitch a

Neither team has finished their season. If the lacrosse express can continue undefeated as it is now, there is no question to their national ranking. While readers may get tired of reading the same old story, once again Ursinus women's athletics has come up with a national champ. At All-College trials held a few weeks ago at West Chester, Robin Cash, Janet Lippencott, Beth Anders, and Kim Brown all garnered first team honors while Jean Stettler, Kip Malick, Trudy Schwenkler, Jane Owens, and Janet Grubbs made second team. Harriet Reynolds also received recognition.

The softball team carries a 4-1 record into their final encounter with Trenton and all indications are that they will come through.

So the spring season has been a tremendous success for the Bearettes as women's athletics at UC maintain their fine tradition.

## Howard's Netmen 7-4-1 Modern

By RICH HARTZ

in many years and the best team record in over twenty years.

The upset took place on Monday, May 4 when Muhlenberg came to visit Ursinus' clay, still soggy and slippery from a Saturday rain. The Bears had not beaten the Mules records seemed to point toward another Muhlenberg triumph. To pull off an upset it appeared that the Bears would have to win to turn in victories. But soon fol- ley. lowing were unexpected bonuses as Mark Trishman (3) played one of his best matches of the year to polish off his opponent in two sets, and Dave Jacob (1), after a three set struggle with Ned Rahn, one of the top MAC singles players, emerged victorious by the odd scores of 6-1, 0-6, 6-3. Thus, although Ed Moore (2) and Bob Gassel (6) lost close three set matches, the Bears needed only one win out of three in the doubles competition to ice the upset. As expected, the strong team of Moore-Zimmerman came through to clinch the biggest upset in Ursinus tennis for many years, by a score of 5-4.

Drexel an Exception

John Emig, 9-0, Moravian was Coach Bob Howard said he ex- felled 6-3 behind clutch wins by pected another winning season from Trishman, Zimmerman, Kensky, his men's tennis team after a su- and Gassel, with Jacob-Kensky and perb effort in the opening match at Moore-Zimmerman taking doubles Swarthmore. But he never expect- victories, and LaSalle was clobed quite what he got: the biggest bered 9-0. The Bears played a upset the Ursinus courts have seen good match at Philadelphia Textile, with Zimmerman and Kensky again winning clutch singles matches. Heartbreaking three set losses by Jacob, Trishman, and the first two doubles teams, however, sealed the Bears' fate, 2-7. When the home match with Drexel, usually a sure in over twelve years, and seasonal pushover, was switched to the Philadelphia courts due to wet conditions, the netmen played their only poor match of the year. The resulting 41/2-41/2 tie (the deciding matches at the fourth, fifth doubles match was called on acand sixth singles positions, and count of darkness) was deeply disthen swipe two out of three doubles appointing. But the Bruins came matches. Marc Zimmerman (5) back to vent their frustrations with and Herman Kensky (4) were quick a 9-0 demolition of Delaware Val-

This year's record, 7-4-1 after an almost certain 9-0 drubbing of Albright tomorrow, will be the best in modern Ursinus tennis history. The last three years have seen a reversal in the previous Ursinus trend of losing. The record has been a winning one each year and has improved each year: 1968, 7-6; 1969, 8-5; 1970, 7-4-1. Prospects for next year are excellent also, with Jacob, Trishman, Kensky, Gassel, and Paul Adams, 1, 3, 4, 6, 7 respectively returning. Graduating seniors Ed Moore and Marc Zimmerman will be missed especially for their great doubles play; they lost only once all season, a three set match at Philadelphia Textile. Earlier matches, with the exception of Drexel, had gone pretty much as hoped. PMC was dropped to think about beating the peren-7-2 at Chester, Delaware clobbered a patched-up Bear lineup, featuring reserves Craig Crandal and Coach Howard happier.
