Quaker Journalist To Present Lecture

Thomas E. Colgan, executive director of the William Penn Center, Fallsington, Bucks County, a Quaker who visited Cuba present a slide lecture about his trip to the students of Ursinus College and the public at large Wednesday night, November 6, at 8 p.m. in room S12, the main lecture hall of the Pfahler Hall of Science.

Mr. Colgan's lecture, sponsored by the Public Affairs Commission of the student YM-YWCA, is free of charge. Colgan visited Castro's Cuba with the consent of the U.S. State Deinterview with Mr. Colgan it was learned that his lecture will be pertinent to the present day condition of Cuba, after the recent hurricane, concerning the American government's position about disaster relief; it is expected that his lecture will bring out many controversial view-

Native of Area

Thomas Colgan was born in 1918 in Philadelphia. He attenduate days at the University of Delaware. Presently he makes his home in Arden, Delaware, a suburb of Wilmington, with his wife and five children.

Mr. Colgan is no stranger to travel. In 1950 he went to Chi-Service Committee to further the work of fair employment and chants there to integrate minority groups in sales and clerical positions. Later he was executive director of the Chicago "Peace Pilgrim" Council Against Racial and Rehim this organization urged responsible citizens and commun-Park Homes riots.

Concerning Colgan's trip to Cuba, the Trenton Evening Times of Friday, May 24, 1963, reports Colgan as saying: "Cuba states. has its problems, but the Cubans say they are better off now than they were a year ago. The Amer-(Continued on page 3)

EDITORIAL

We of the WEEKLY staff wish to make a public apology to Usani Hemmaplardh, a native of Thailand and present setup doesn't expose me a student at Ursinus, for the behavior of a number of the students of Ursinus College. The great majority of the but as far as the Institute for students at Ursinus greatly appreciated her initiative and English Speaking Students goes, effort in getting a short film on her native country. It was so that I feel I can evaluate it both informative and interesting according to all reports just a little. The instruction is given to this writer. It is with some gratitude that this writer reports absence from this activity, for the action of I hear about the others, a few some of the students could have been nothing but embar- are not of the high quality one assing to all present.

As it sometimes happens in all groups, there are a few vision that a person can subwho persist in being vulgar, in showing their stupidity or their insensitivity. It is not unusual for students at Ursinus instead of the lecture course. to make jokes and laugh at both the familiar and the un- This is something I think UC familiar. It is not unusual for some to ridicule that which in too much to ask for a prof to reality they do not think ridiculous. This we feel, Usani, approve a reading list of say was the case Friday night. Most students who are familiar with our campus understand that there are those who boo, two hours. Because of its very hiss and laugh at most things presented in films of Friday nature, only the interested stunight. We feel sure that these students were not aware of the manner in which this film was procured, they did not all, what idiot is going to let intend to mock Thailand, that they were not showing disapproval of you or of your country's customs. It was an in front of Dr. Armstrong or unfortunate experience which we cannot erase, cannot Dr. Miller without having read make excuses for; all we can do is apologize and explain that this was no reflection toward you, Usani, or toward your country.

At the same time, we would like to suggest that in the future, when an event of this type takes place, that an an- across without reading the lecnouncement be made concerning the event, how it was initiated and its importance. The absence of any type of should be here for the lit course explanation was, in large part, responsible for Friday night's humiliation.

Usani will be speaking on Friday, November 15, at the someone in the front row, sits Kaffee Klatsch and this film will again be shown. We would like to suggest that those students who so humiliated Usani be present at this meeting and that all other students set aside this time to redeem our small Campus. A private apology by those responsible or a group letter in the WEEKLY would, in our opinion, be most appropriate.

Valerie Moritz

Dear Editor,

as the man might believe in inwhich he presented it.

I cannot object to his approval of interracial marriages, for this is merely his own opinion and belief. The thing I do object to is his extremely poor presentation of the subject, for the following reasons:

1. He presented it using an extremely personal example, that of his daughter. When one presents a controversial topic such as the racial conflict, the use of the impersonal is more effective and tactful than that of the personal.

2. His presentation was emotional. This is highly ineffective Only one of my profs (at and gives way to irrationality while speaking in public.

3. He used what may be called modified sensationalism. For example, his opening statement referring to two men that spoke to Ursinus College students last year that were put in jail this summer, and his statement concerning his daughter's marriage to a Negro.

4. His poor use of words. He said that we are in a revolution.

> lution is a total or radical change. Evolution would have been a much more appropriate word. The same dictionary defines evolution as "an unfolding; a process of opening out what is contained or implied in something; a development, esp., as leading to a definite end." Isn't this much more descriptive of the Negro movement that has lasted and progressed for over one hundred years?

These preceding points lend to haps most of the trouble was that Rev. Schellhase was trying to infer the elements of a very specific situation without referring at all to the situation. I suggest that he either should not have presented the discussion at all, or he should state specifically what he is talking about. The former would be preferred; the latter would be acceptable, although untactful. Neil Snyder

I WAS A TEEN-AGE SLIDE RULE

In a recent learned journal (Playboy) the distinguished board chairman (Ralph "Hot Lips" Sigafoos) of one of our most important American industrial corporations (the Arf Mechanical Dog Co.) wrote a trenchant article in which he pinpointed our single most serious national problem: the lack of culture among science graduates.

Let me hasten to state that Mr. Sigafoos's article was in no sense derogatory. He said emphatically that the science graduate, what with his gruelling curriculum in physics, math, and chemistry, can hardly be expected to find time to study the arts too. What distresses Mr. Sigafoos-and, indeed, all of usis the lopsided result of today's science courses: graduates who can build a skyscraper but can't compose a concerto; who know Newton's Third Law but not Beethoven's Fourth Sym-

phony; who are familiar with Fraunhofer's lines but not with Shelley's.

Mr. Sigafoos can find no solution to this lamentable imbalance. I. however, believe there is one-and a very simple one. It is this: if students of science don't have time to come to the arts, then the arts must come to students of science.

For example, it would be a very easy thing to teach poetry and music right along with physics. Students, instead of being called upon merely to recite, would instead be required to rhyme their answers and set them to familiar tunes-like, for instance, the stirring Colonel Bogey March. Thus recitations would not only be chock-a-block with important facts but would, at the same time, expose the students to the aesthetic delights of great poetry and music. Here, try it yourself. You all know The Colonel Bogey March. Come, sing along with me:

Physics Is what we learn in class. Einstein Said energy is mass. Newton Is high-falutin' And Pascal's a rascal. So's Boyle.

Do you see how much more broadening, how much more uplifting it is to learn physics this way? Of course you do. What? You want another chorus? By all means:

Leyden He made the Leyden jar. Trolley He made the Trolley car.

Rode in a surrey And Diesel's a weasel. So's Boyle. Once the student has mastered The Colonel Bogey March,

he can go on to more complicated melodies like Death and Transfiguration, Sixteen Tons, and Boo-Hoo.

And when the student, loaded not only with science but with culture, leaves his classroom and lights his Marlboro Cigarette, how much more he will enjoy that filter, that flavor, that pack or box! Because there will no longer be a little voice within him repeating that he is culturally a dolt. He will know -know joyously-that he is a complete man, a fulfilled man, and he will bask and revel in the pleasure of his Marlboro as a colt rolls in new grass-exultant and triumphant-a truly educated human person-a credit to his college, to himself, and to his tobacconist!

@ 1953 Max Shulman

We, the makers of Marlboros and sponsors of this column, urge you not to roll colt-wise in the grass if you are carrying a soft pack of Marlboros in your pocket. If, however, you are carrying the crush-proof box and weigh less than 200 pounds, you may safely fling yourself about.

A meeting will be held Tuesday, November 12, for James Harff, a student at Mary Louise Hamm. We hope students who would like an excellent opportunity to gain invaluable experience in teaching and, at the same time, know that they are doing voluntary work which is both

necessary and wanted.

All students who are interested and don't mind devoting two hours one night a week should attend the meeting on the 12th. Enos Russell, a second semester junior, will be more than glad to welcome all to join with him and many other Ursinus students in the newly revised student volunteer program at St. Gabriel's Hall, Valley Forge.

St. Gabriel's is a Catholic, though in truth, interdenominational, protectorate for Delaware Valley boys who have been judged delinquent by the juvenile courts. These are boys from broken homes, boys who have had a destructive education and now are in need of one which is constructive.

Enos stresses the fact that the boys need not only those students who plan to teach or eventually work with juveniles, but also they need and want the help of anyone sincerely interested in helping them. You needn't be versed in remedial reading, or grammar, or mathematics to volunteer; these boys have a very small concept of the social graces - etiquette - and team games. Merely to be there, interested in them, is, in many cases, sufficient motivation for the boy who has learned that nobody is "gonna help me for nothin" to become interested and desirous of learning.

This volunteer work has very little similarity to helping mentally retarded children; these boys are socially retarded. One receives a fast and gratifying response in showing a boy how to read, or lift weights, or even to play checkers.

Professional aid-psychiatrists, teachers, clergy, etc. - will be available to the volunteers upon request. There is no limit to what subjects can be offered, nor is there any field which the volunteer feels will prove beneficial to the boy that is not open The speaker for the evening for exploration. This is the chance for students to utilize talents and abilities to not only their benefit, but also to the benefit of another who is in need of it. This is a guaranteed 90% personal relationship; the boys are in separate age groups (8-

In the past, 15-20 girls have worked with the younger boys; according to the school's psychology reports, there was definitely a positive change in the boys. The girls too were changed; they gained invaluable experience and learned compasphia, Pa. Bears Run Into "Seahawk" Deepfreeze

Ursinus suffered its second shut-out defeat of the year Saturday, at the hands of an aroused Wagner team, which bounced back from two consecutive defeats to smother the Bears 25-0. The temperature was in the upper 30's on the Seahawk's windswept Staten Island field. The Bears' offense emulated the weather by going into a scoring

Early in the first period, Jim Drumgoole blocked a Jack Parker punt deep in UC territory. On the first play from scrim-mage Wagner fullback, Ron Bubnowski, swept around his own right end and scored from 16 yards out. The extra point was missed and the Seahawks held a 6-0 edge. Again the Bears could not move the ball and Wagner regained possession on their first of five interceptions in the game. A beautiful pass from quarterback Dan Coughlin to end Dick Cotite put the ball on the Ursinus 1 yard line, and from there Cliff Lish bulled over for the New Yorkers' second

Early in the second period the Bears began a sustained drive, Valley, Staulo. Later in the period UC threatened as they drove to the Wagner 9 yard stripe on a pass from Ron Emmert to Bill Degenhardt. This drive also fizzled. A clipping penalty cost the Bears 15 yards and after this infraction they never recovered. The Seahawks took over on their own 23 and marched 77 yards for another TD. Chuck DiStaulo was Wagner's seige-gun, catching a Coughlin pass and dragging the ball to the 1. He then scored on the next play. A two-point conversion pass was beautifully broken up by Bill Scholl, but the Seahawks took an 18 point lead into the dressing room at half-

Wagner got their final tally early in the third period. After taking a short kickoff, it took the Seahawks only three plays to score. Coughlin hit Cotite standing in the clear for the TD. Jay Abbes kicked his only extra point of the day and the Bears stood on the short end of the score, 25-0. The only sustained drive for Ursinus in the period saw Ron Ritz and Tony Sermarini carrying well, but the Bears seeming unwillingness to throw the ball in key situations cost them possession.

Bears had something going. Joe has not been a game nor will Rhile broke through to block a there be one in which our interball on the Wagner 36. Aided by ed. Bob points out that pre-seaa pass interference call, the son conditioning, no matter how Bears marched as close as the rigorous, cannot begin to comfirst string line back into the ference per man. Interview Bob Mashock

by Jed Tippy

This week's tete-a-tete was with Bob Mashock, a senior member of the UC eleven. The topic of our conversation was, most obviously and appropriately, football. Throwing the usual questions to the four winds, we started in on the Grizzly eleven and analyzed their play and attitudes thus far this sea-

Bob feels that one of the Bears perennial problems results from playing schools that persist in giving Athletic Scholarships, i.e., Wagner, Lebanon but this too was snuffed out on Wilkes. Although these institutions are not to be commended for this, neither are they to be ostracized. However, by the mere fact that such athletic aids exist, the Bears eleven are imdisadvantage as to manpower.

Again in the final period, the Mashock mentions that there that the Hopkins game ended in Ursinus was obviously over- a tie, and that Wilkes and Sus-

the PRESSBOX

by Cheryl Siegal Associate Sports Editor

The Ursinus women are on their way to another winning hockey season. And the Ursinus campus says, "So what? The girls always win." There is a definite feeling of indifference toward the records the women rack up every turned in a great performance ed in the second half, the first season. And I don't have to peer very far into my crsytal ball to predict good records for the winter sports either. My question is why. Why do the women always win?

I asked the question, so now I'll try to answer it. Well, the girls wouldn't always win if Miss Snell didn't have the strong Haverford team. The ties and were called back. material to draw from. This is evident from the existence Fords, who are enjoying a tre- Despite the unfavorable conof three teams, so each girl gets a chance to play. And it's not just the physical education majors who play on the Bears bounced right back. pressive attacks at the Penn teams. All those girls aren't out on the field looking for varsity berths. They play because they enjoy the game. shot on a long 30 yard pass from and goalie Sally Murphy for the They enjoy the competitive spirit and sportsmanship they learn.

Athletics isn't all glory. It's a lot of time-consuming, hard work. The game itself is exciting fun for the team members, but the practice sessions are drudgery. The final stanza for 3 goals and a corner in the first half, left ingirls give up a lot to get out on the field. There's no college 4-1 win. The game was clean ner Carol Guest scored her fifth student who couldn't use two extra hours of study time mediately placed at a certain every day. And the girl who has to do wind-sprints the next produced the best team effort switch goals; the short ten minday won't be so tempted to go out and do the town at night. No, these girls work hard, but their secret of success is Enos Russell played a fine game though there was no score, UC that they want to.

It's this desire to play that leads to the desire to win. Miss Snell's teams are out to win. Their winning streak is right fullback into the ground. will be away against Gettysburg amazing in that they play teams that should be out of their class. East Stroudsburg and West Chester are phys ed schools; Ursinus is not. But everyone likes the taste of vic- reeled off his usual great detory, and the UC women aren't tired of it.

All this brings up another little problem. Why do and right wing, had his glasses the men have student support, while the women don't? I smashed by a Ford kick, but realize that on most coved campuses the men's teams are with tape he was back on the realize that on most co-ed campuses the men's teams are field turning in a fine performsupported. The girls go out to watch their boyfriends or ance. Finally right fullback, heros bang heads with the nasty opponents. How many of us go out to watch the girls put Ursinus in the win column? I suppose, too, it's true that everyone wants to see the under-dog win, but how long do we support a team that always loses? We noticed how the bleachers on Patter- about by making a basketful of son Field are filled for the first home game, but by the last great saves. Tomorrow afternoon home game, those seats aren't even half-filled. Are the stu- and the Explorers of LaSalle in dents tired of seeing their team go down to defeat?
