Vol. 2, No. 1

**SECOND YEAR AT THE MINI-CAMPUS...**To those returning and those now joining the GSU family, a warm welcome to what may possibly be the most exciting enterprise in higher education today. Last year at this time, Governors State's opening was being featured prominently in all Chicago area newspapers, was the subject of film and videotape reports on all the Chicago network television stations, and was covered by numerous radio stations. GSU enters this second year of operation more quietly, but with some important changes. Enrollment for the September-October Session will be approximately 1200 students (compared to about 700 last year) and approximately 300 staff (compared to about 120 a year ago).

This year's staffing is designed both to accommodate the increased enrollment of this Fall as well as to gear up for the move to the \$20 million Phase I building at the permanent campus site. Plans for Phase II will be proceeding shortly while at the same time programs are being developed for an expected 3500 students next Fall. In short, it promises to be another fast-paced year of development. Welcome to exciting GSU!

**THE PERMANENT CAMPUS...**  
Next week's FAZE 1 will feature a work progress report on the Phase I building at the 753 acre permanent campus site. New GSU staff as well as the pioneers of last year may want to visit the construction site. Arrangements to visit should be made with Building and Plant Operations (ext. 84-85). Call during the week for visits both during the week and on weekends. Hard hats are provided for visits occurring while construction is taking place.

Concrete fingers tipped in steel  
Reaching, groping  
Twisting towards a goal that seems impossibly high.

A princely goal  
As different from the starkness of unborn structure  
As were the flattened planes of an architect's lines.

A quieting lake, not yet filled with fountain or light  
Yet another contrast among contrasts of  
Texture and shapes vying with each other for attention.

Sweating men sharing the sun  
With those inanimate fingers  
Shaping from their sweating the place that will be ours.

Unbelievable compilation of man-made products  
Housing the mind-made dream of  
An entity, a reality, a university.

**FAZE I...** is a weekly publication of the Office of Communications designed by and for the faculty and staff. It attempts to relate the major happenings of concern to the staff while being breezy enough to include lesser events, humor, some trivia, and other informalities. Many of you just joining GSU have been receiving the newsletter by mail. FAZE I is designed to be folded into thirds for mailing with the masthead serving as the return address. Contributions for the newsletter are solicited and should be forwarded to the Office of Communications in writing by the end of the workday on Wednesday for the following week's issue. Items not used because of space limitations will be held for following issues. Items of interest may include your research, travels, community service, teachings, special projects, and other loves.

**RECORD TURNOVER...** the GSU bookstore is currently having a record sale of fantastic Classical Music. Why not spin over and do a little culture shopping?

**ALPHABET SOUP...** you may wish to save page 4 of this week's issue of FAZE I after the Events of the Week are no longer current. It's a listing of often used acronyms and a notation of who to call for what. OK?

**OVERHEARD IN THE HALL...** "If you stop listening to him he won't seem so long-winded."

**REMEMBER THE DATE...** September 10, 2-4 pm in the Commons and the LRC area. That's the time and date for reception hosted by Pres. and Mrs. ENGBRETSON for the entire GSU staff, community professors, and their spouses.

**A YEAR AGO IN FAZE I...** GSU's first module was taught by TED ANDREWS who jumped the gun by meeting the Saturday before classes officially began and taking a field trip to the minicampus from the Planning Building for his "Research and Investigations in Natural History" module.

**CULLED FROM THE "NEWS"...**

When in charge, ponder.  
When in trouble, delegate.  
When in doubt, mumble.

Then refer the whole problem to a coordinating committee for review.

from SANDY HECIM, LRC

**THE TRAVELLING BUBBLE...** the yellow and white plastic porta-shell formerly in the CBPS area is now in the LRC. The low cost experimental room within a room will be used for film and other media displays by the ICC.

**A FEW NEW FACES...** ANN TRAVIS (Clerk, A & R), BOBBY E. MILLS (Prof. of Sociology, CCS), THOMAS R. HAUGSBY (Prof. of Coop. Ed., CCS), ROSCOE D. PERRITT (Prof. of Bus. Adm., CBPS), BRUCE MEYERS (Prof., CBPS), ELIZABETH HERLINGER (Prof. of Anthropology, CCS), STEPHEN SCHAIN (Prof. of Human Services, CHLD), MARY P. ENDRES (Vice President, Academic Affairs), ADDISON E. WOODWARD, JR. (Prof., CHLD), JOHN LOWE (Prof., CHLD), JAMES D. TILLS (Prof., CEAS), PATRICIA M. BURKHARDT (Secretary, ICC). Moving recently were VIVIAN MARTIN now reporting to the President's Office instead of CHLD area and CREAMOULIA BROWN who came from the Business Office to the Cashier's cage.
