Wednesday: 6:15-7:15 p.m.
Thursday: 6:15-7:15 p.m.
Credit Hours: 3

Catalog Description:

Covers the problems faced by the financial officer in management of funds in the business firm. Emphasizes developing skills and techniques to implement capital expenditure policies, solving short-term and long-term financing problems, and establishing dividend policies.

Prerequisites: FIN 301, MATH 355, STAT 361

Textbook: Weston and Copeland Managerial Finance, 9th Edition, Dreyden Press, 1992

Periodicals: Wall Street Journal:
Investors Daily
Financial Mgt. Journal
Journal of Finance
Financial Analysts Journal

Rationale:

Business administrators have a responsibility to recognize the goals and objectives set forth for their specific industrial institutions.

In order to achieve institutional goals and objectives, the administrator must be able to obtain funds and utilize them appropriately to physical assets and human resources, thereby enabling the individual to utilize his talents and abilities within the economic society in which he lives.

Application of financial and administrative knowledge to specific business situations will stimulate the administrator's ability in his knowledge of the financial decision-making policy formulation process.
