About FIU Digital Commons

The FIU Digital Commons is a digital repository for capturing, archiving and disseminating the research, creative and scholarly output of the Florida International University community. We are working with departments, centers and individual faculty to select, submit, and manage content in the FIU Digital Commons.

If you are interested in learning more about, or contributing to, the FIU Digital Commons, please contact the site administrator at dcc@fiu.edu.

The mission of the Florida Digital Archive is to provide a cost-effective, long-term preservation repository for digital materials in support of teaching and learning, scholarship, and research in the state of Florida.

new: FDA PDF/A validation and conversion

Effective August 1, the Florida Digital Archive has purchased and incorporated pdfaPilot into its preservation software to deliver an IS-compliant PDF/A validation and PDF to PDF/A conversion solution for all PDFs. A document detailing this change has been posted to the FDA documentation page:
https://share.fcla.edu/FDAPublic/Affiliates/FDA_PDF-A_validation_conversion.pdf.
 The document describes changes to DAITSS PDF treatment and implications for Ingest reports and Dissemination Information Packages.

Digital Collections Center at FIU Libraries

Published by Kelley Rowan [?] · April 8 ·

"A History of Bones" is our first offering from our Institutional Repository towards #NationalPoetryMonth. Many thanks to the author, Amanda Hosey, for making her work accessible for the enjoyment of all!

Read it here: <http://digitalcommons.fiu.edu/etd/618/>

A HISTORY OF BONES is a collection of lyrical and narrative poems which examines the interconnectedness of humanity through recurrent physical images—bones, blood, hair, etc. These images reflect the commonalities of the human race at the most basic level by pointing to the unavoidable fate all living things share. The poems build on popular culture, politics, world history, and mythology to show the universality of human "baggage".

"A History of Bones" by Amanda C. Hosey

As we continue to honor Black History Month, we encourage you to take a look at some of the great research our students do on this subject! The following dissertation can be found at:

<http://digitalcommons.fiu.edu/dissertations/AAI3126427/>

"Black churchgoers, environmental activism, and the preservation of nat" by Eileen M Smith

The goal of this project was to explore activism, attitudes, and imagery connecting Black churchgoers in Miami, Florida and the natural environment. The research approach was qualitative, began as exploratory research, and used the techniques of snowball sampling, participant observation, and semi-s...
